U.S. Citizenship and Immigration Services

U.S. Citizenship
and Immigration
Services

U.S. Citizenship and Immigration Services

Objective

- To provide a brief overview of the Freedom of Information Act/Privacy Act Information Processing System (FIPS).

U.S. Citizenship and Immigration Services

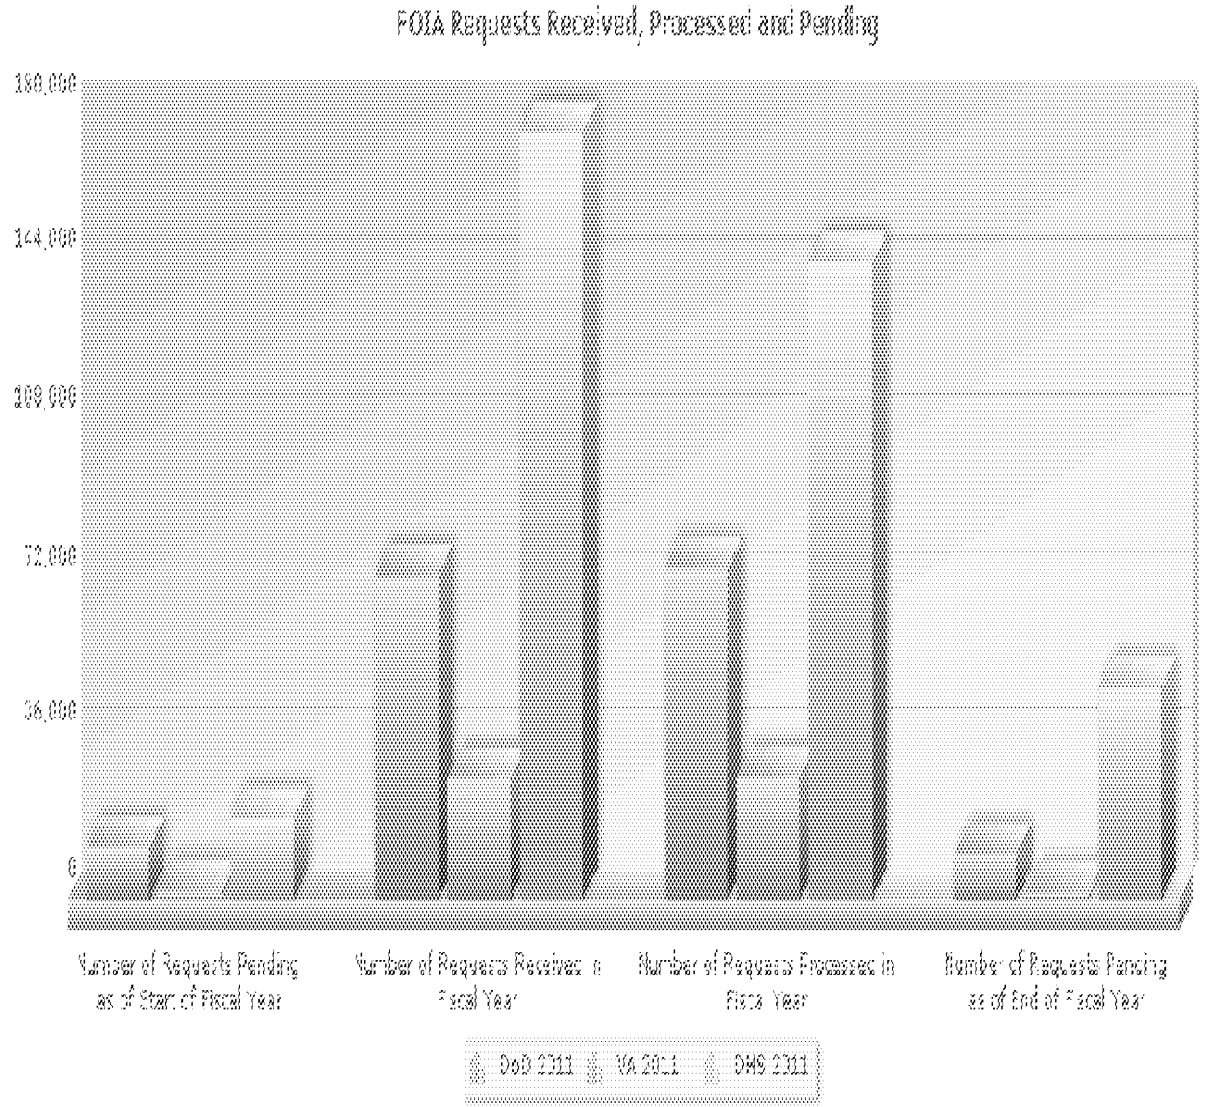
What does FIPS do?

- Provides workflow processing for the life of a case;
  - image capture
  - redaction and printing of responsive records
  - correspondence with the requester
  - management reporting.
- FIPS can support the receipt of more than 10,000 requests to USCIS a month, and supports all subsequent processing required.

U.S. Citizenship and Immigration Services

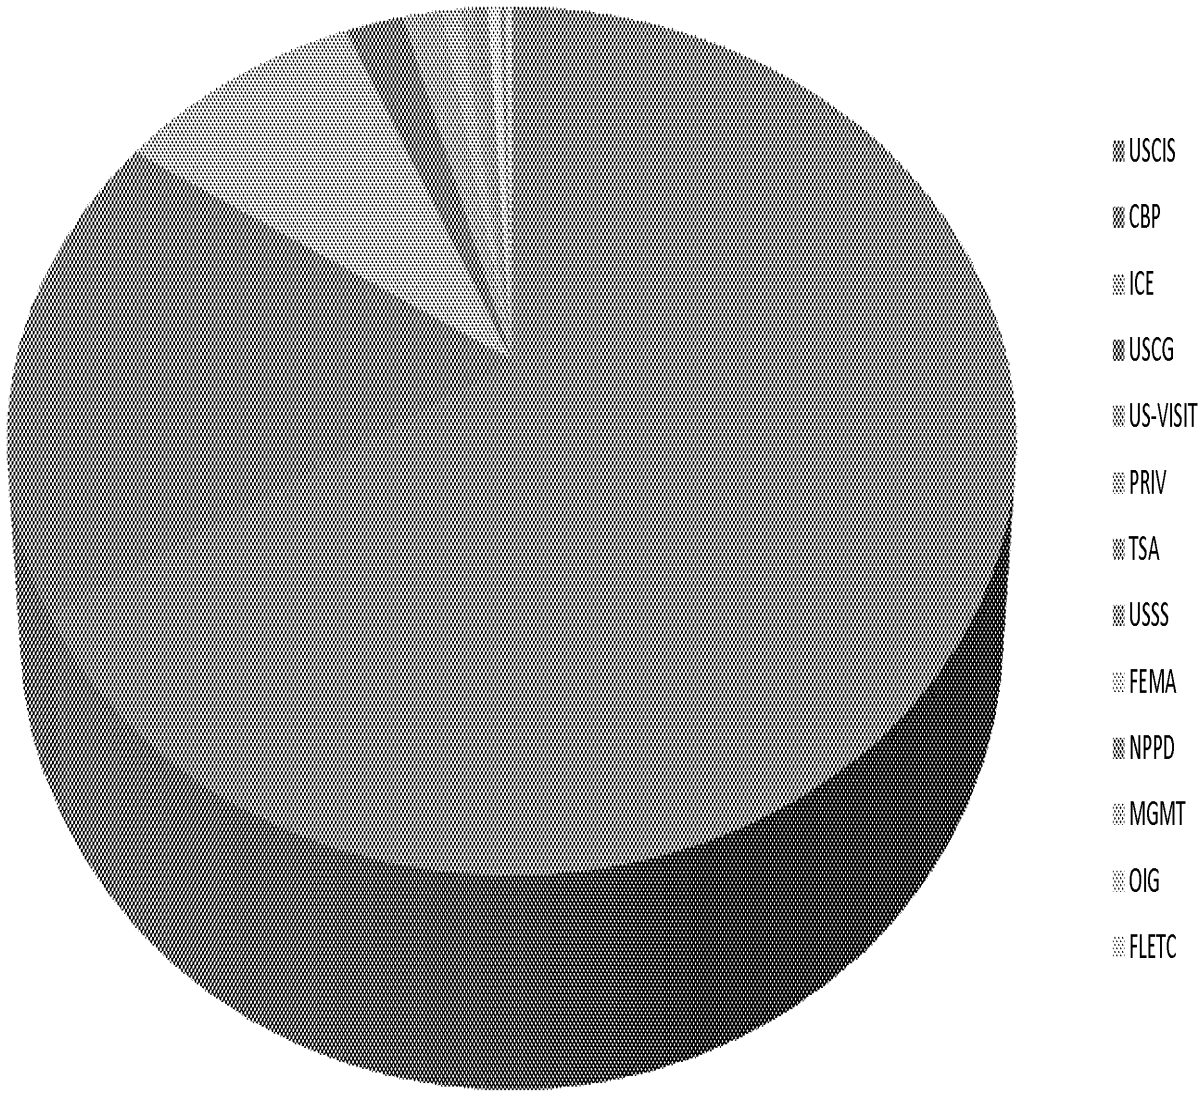
DHS is the busiest FOIA Agency:

The Three Top FOIA Agencies, FY2011



U.S. Citizenship and Immigration Services

Within DHS, USCIS is busiest:



U.S. Citizenship and Immigration Services

People at Work:

- Records Scanners scan all hard copy information including requests, responsive records and other documentation into FIPS
- Case Creators create cases, generate letters, request responsive records, and close cases that do not require local processing
- Processors redact responsive records with exemption codes and determine final actions for cases
- Case Approvers review redactions, approve final actions, determine costs and applicable fees, and close cases
- Print Managers print cases, correspondence and other FIPS documents
- Unit Chiefs provide supervisory and managerial support
- Administrators provide system content support including maintaining look-up table data and user information, and reassigning cases as needed

U.S. Citizenship and Immigration Services

FIPS

- This application is composed of the Image Viewer window and the Worksheet window
- Allows the user to perform case processing tasks like case creation, case approval, case close, case searches, etc.
- Available to the following user roles:
  - Case Creator,
  - Records Locator,
  - Case Processor Track 1/2/3,
  - Case Approver Track 1/2/3,
  - Administrator,
  - Unit Chief,
  - Up-front Approver, and
  - Stand-Alone.

U.S. Citizenship and Immigration Services

Scan

- This application handles conversion of physical documents into digital images.

U.S. Citizenship and Immigration Services

Reports

- Allows managers to create a broad array of reports from the FIPS database.
- When we need a new report, FIPS administrators will design the SQL search strings and the format of the report to our specification.

U.S. Citizenship and Immigration Services

Print Manager

- Once an approver is finished with a document, it goes to the "print queue," a subset of the FIPS database.
- Print Manager allows office automation personnel to schedule printing, stop printing, and restart printing as necessary.

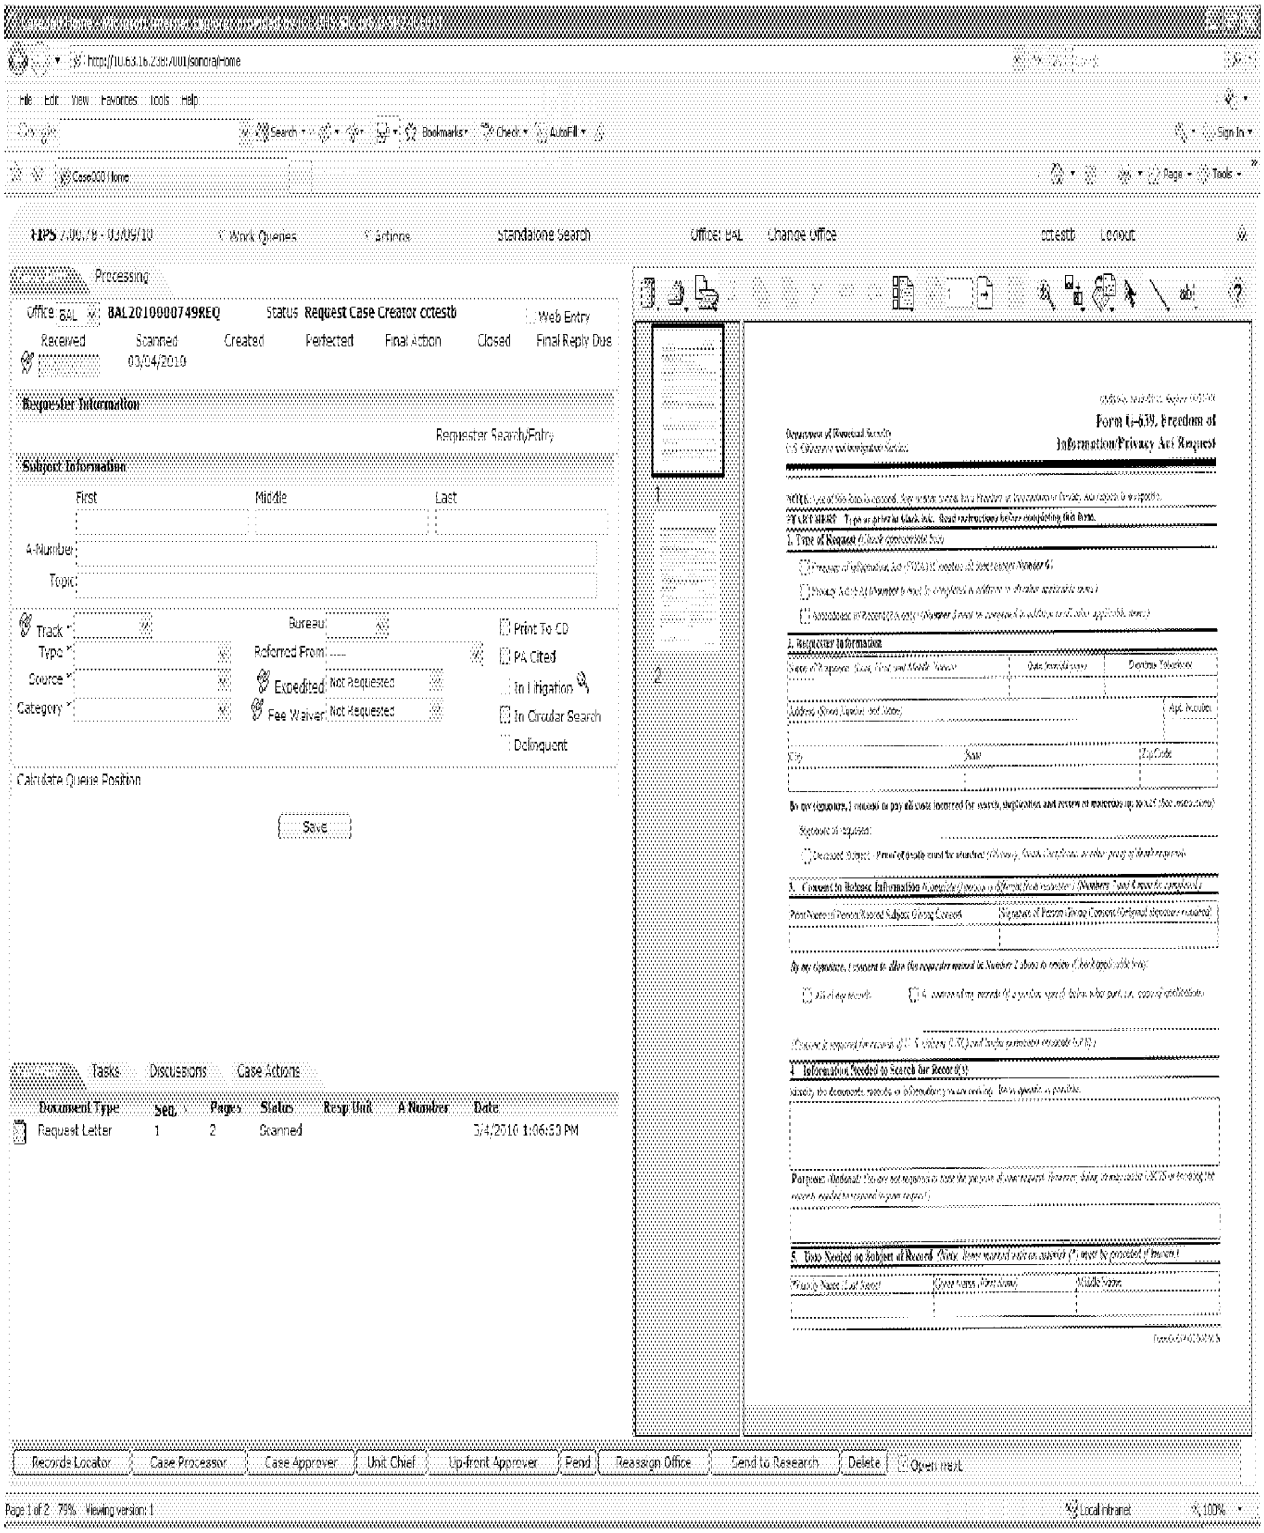
U.S. Citizenship and Immigration Services

STEP 1: Scanning

- FIPS uses imaging technology to capture electronic copies of paper documents associated with FOIA/PA requests initially, when we receive responsive records, and whenever we receive correspondence about a case. The initial control number ends in "REQ." Scanned documents could be:
  - The initial request letter and supporting documents (correspondence, the envelope, etc.)
  - Requester Documentation (if we have asked for additional information or consent)
  - Responsive Records (and Staffing Response)
  - Supporting Documents such as address change, request modification or withdrawal
  - Remand/Non-Compliance Appeal

U.S. Citizenship and Immigration Services

STEP 2: Creating the Case



U.S. Citizenship and Immigration Services

STEP 2: Creating the Case

- As the case creator fills in the worksheet, the information becomes part of the FIPS database.
- After this, the case creator determines type, source, category and track, and will search for similar or duplicate cases and then creates the case to assign an NRC case control number to the case.
- The creator prepares an acknowledgement letter (provided by FIPS in Microsoft Word) and prepares a request for the file.

U.S. Citizenship and Immigration Services

Correspondence

- The request for the file is called the "staffing sheet" and is provided by FIPS in Microsoft Word.
- The Case Creator prepares an acknowledgement letter, and makes changes if the requester specified documents (as opposed to the whole file).

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

MEMORANDUM FOR:
DRO - SEA Seattle
Deportation Asst.
206-835-0061
Bonty Wong

ATTN: Bonty Wong

FROM: NRC FOIA/PA

SUBJECT: Freedom of Information/Privacy Act Request NRC2010000806
Alien # 012345678
Subject Name: Chris P. Bacon

The attached FOIA/PA request is forwarded to your office for action. Due to the subject matter, there is a high probability your office will have records responsive to the request.

- Please conduct a thorough search for all responsive records physically in, and within the functional purview of your office.
- Send a copy of all responsive documents to the FOIA office in their entirety. **DO NOT MAKE REDACTIONS.**
- Bracket any documents or portions thereof that you believe should be withheld. Please include a brief explanation for your action. **The FOIA Staff will not release those items so indicated without further discussion with you.**

Should you need other assistance or believe this request should be staffed to another office, please

U.S. Citizenship and Immigration Services

After Staffing:

- The contractor sends for the file or retrieves the file from the shelf at NRC.
- The contractor scans the entire file into a responsive records image slot.
- The case then goes to the processing queue, which is sorted by the date we received the request, not by the date when the file was scanned.

U.S. Citizenship and Immigration Services

STEP 3: Processing the Case

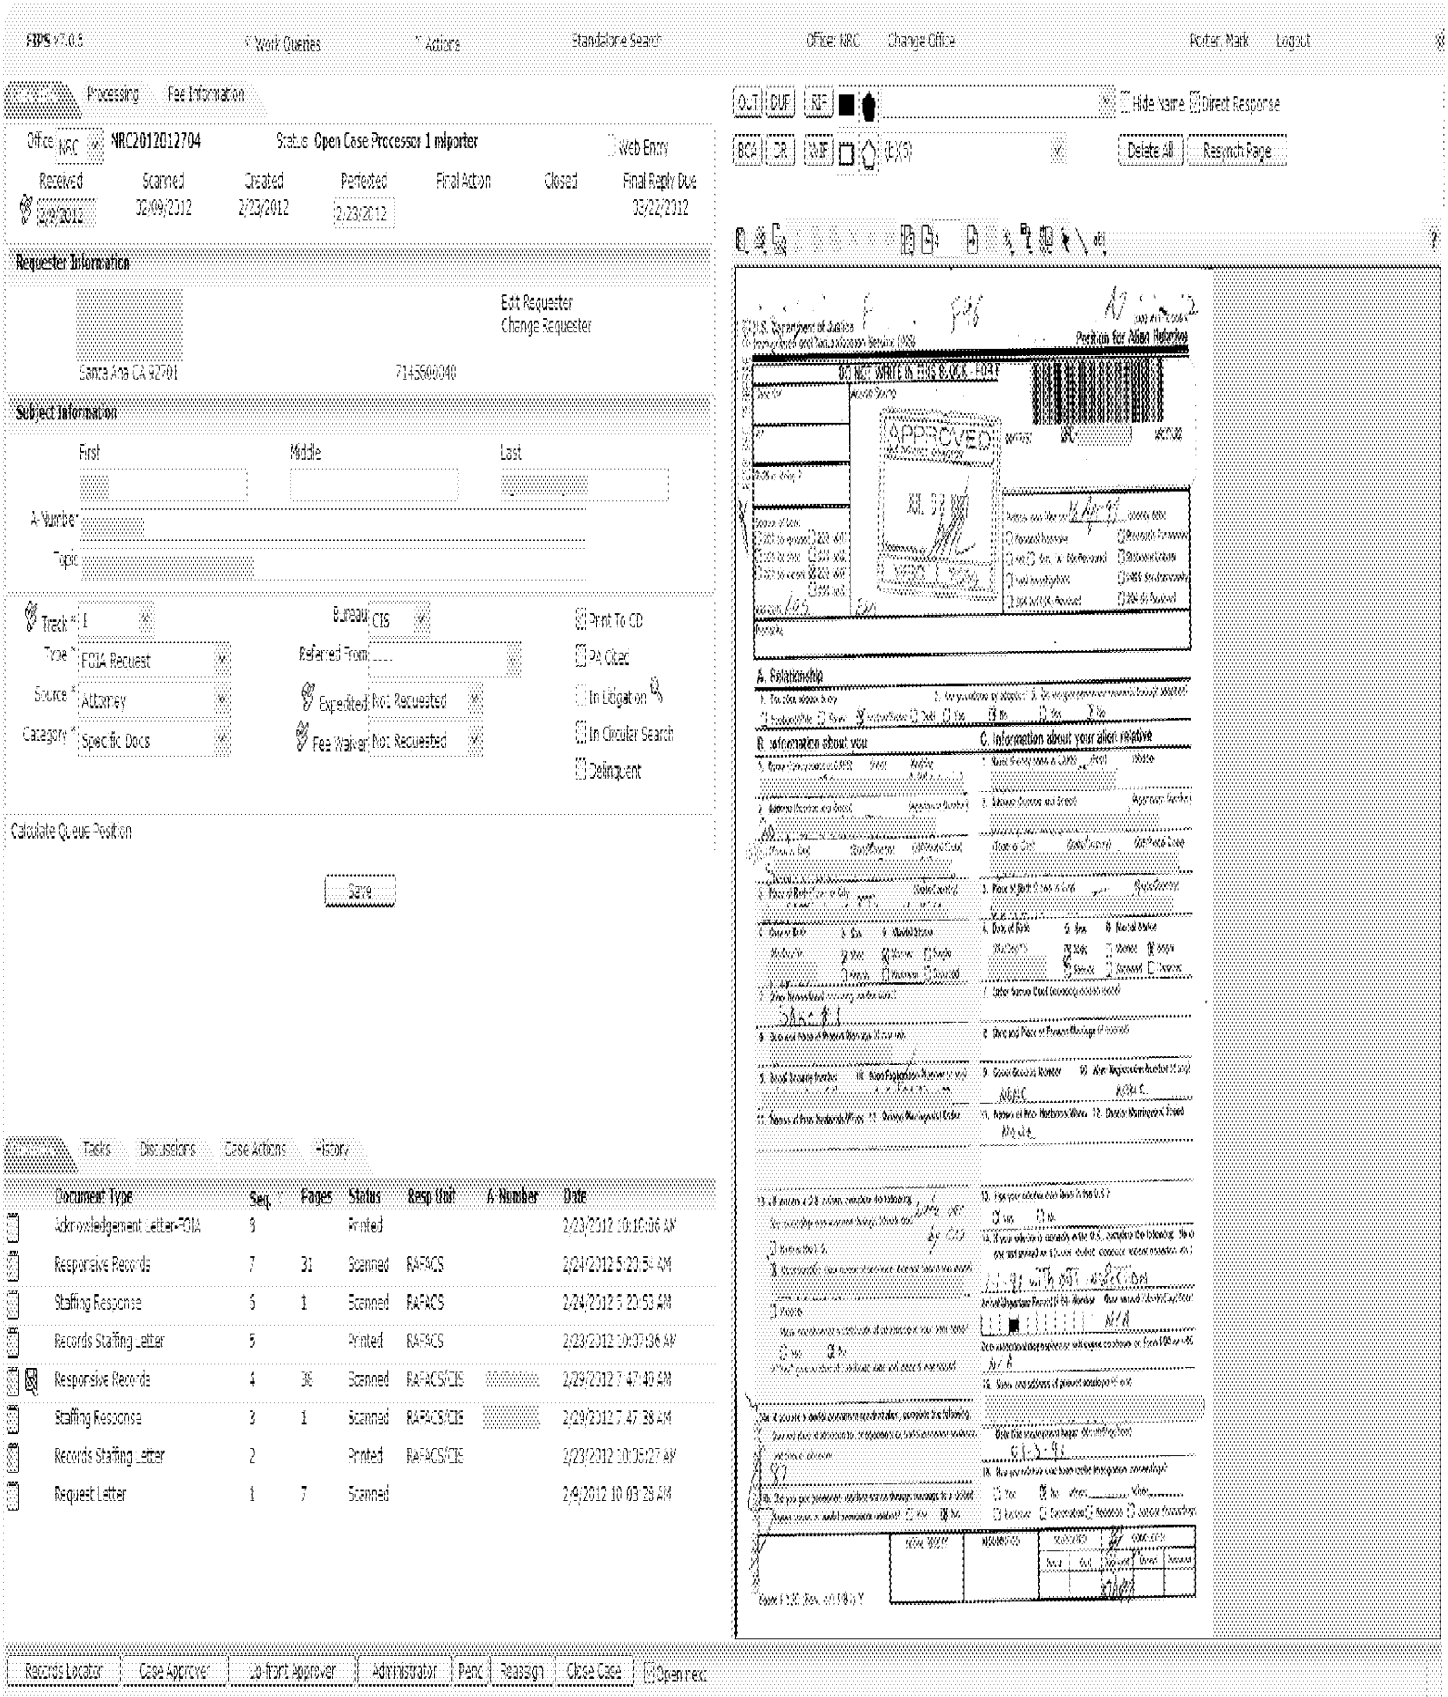
- Case Processors redact Responsive Records.
- A processor sees the combined Worksheet and the Image, with the redaction palette in the FIPS application.
- The processor "checks out" the responsive record, edits it, and then checks it in.
- The processor uses the redaction palette to redact sections of the document, including full pages, and to assign exemption codes to each of the redacted sections.

U.S. Citizenship and Immigration Services

During Redaction:

- Case Processors can perform the following activities in the redaction application:
  - Highlight an area of text to be redacted, including a full page.
  - Assign exemption codes to redacted text.
  - Remove highlighting and redactions.
  - Create Discussions for unusual circumstances that have affected processing decisions.
  - Refer records to other government agencies.
  - Create a Summary Discussion.
  - Create a final action letter to the requester, explaining what FOIA/PA Exemptions were cited, giving a brief explanation of the types of information we withheld under each of those exemptions, and explaining how to appeal our determination.
  - Create referral letters, as needed.

U.S. Citizenship and Immigration Services



U.S. Citizenship and Immigration Services

Grayed-in areas were added after processing for purposes of this presentation.

STEP 4: Reviewing, Approving, and Closing the case

- Approvers open cases in queue in the Case Approver role.
- The standard interface is the combined Worksheet and Image Viewer forms in the FIPS application. The approver also has the redaction palette.
- The Image Viewer window allows the user to review the responsive records and any redactions. The approver is then able to finalize and close the case.

U.S. Citizenship and Immigration Services

Reviewing, Approving, Closing

- Case Approvers can perform the following actions:
  - Process records
  - Review redactions and send the case back to the processor, if necessary
  - If applicable, assess fees for services rendered, pend for payment, and update case when payment is received
  - Change a final action code
  - Modify or create new correspondence
  - Close the case and send it to the printing queue

U.S. Citizenship and Immigration Services

STEP 5: Printing

- Documents in the print queue do not print until the Office Automation user selects them, at which point the Print Manager application will send the selected documents to the Windows print queue for printing to the default printer.
- We print to CD by default. We send paper records only when the requester specifies paper or if the mailing address is to a detention facility or correctional institution.

U.S. Citizenship and Immigration Services

The "OA Room"

- Office Automation Personnel can perform the following activities in the printing application:
  - Choose a printer to which to route the print jobs.
  - Select specific document types to be printed.
  - Select all types of documents to be printed.
  - Select documents to be printed to paper, if paper is required.
  - Request a previously printed document to be printed again.
  - Print acknowledgment letters, transfer letters, referral letters, status letters, staffing letters, responsive records, index worksheets, final action letters, request letters, staffing responses, request statuses, and payment letters.

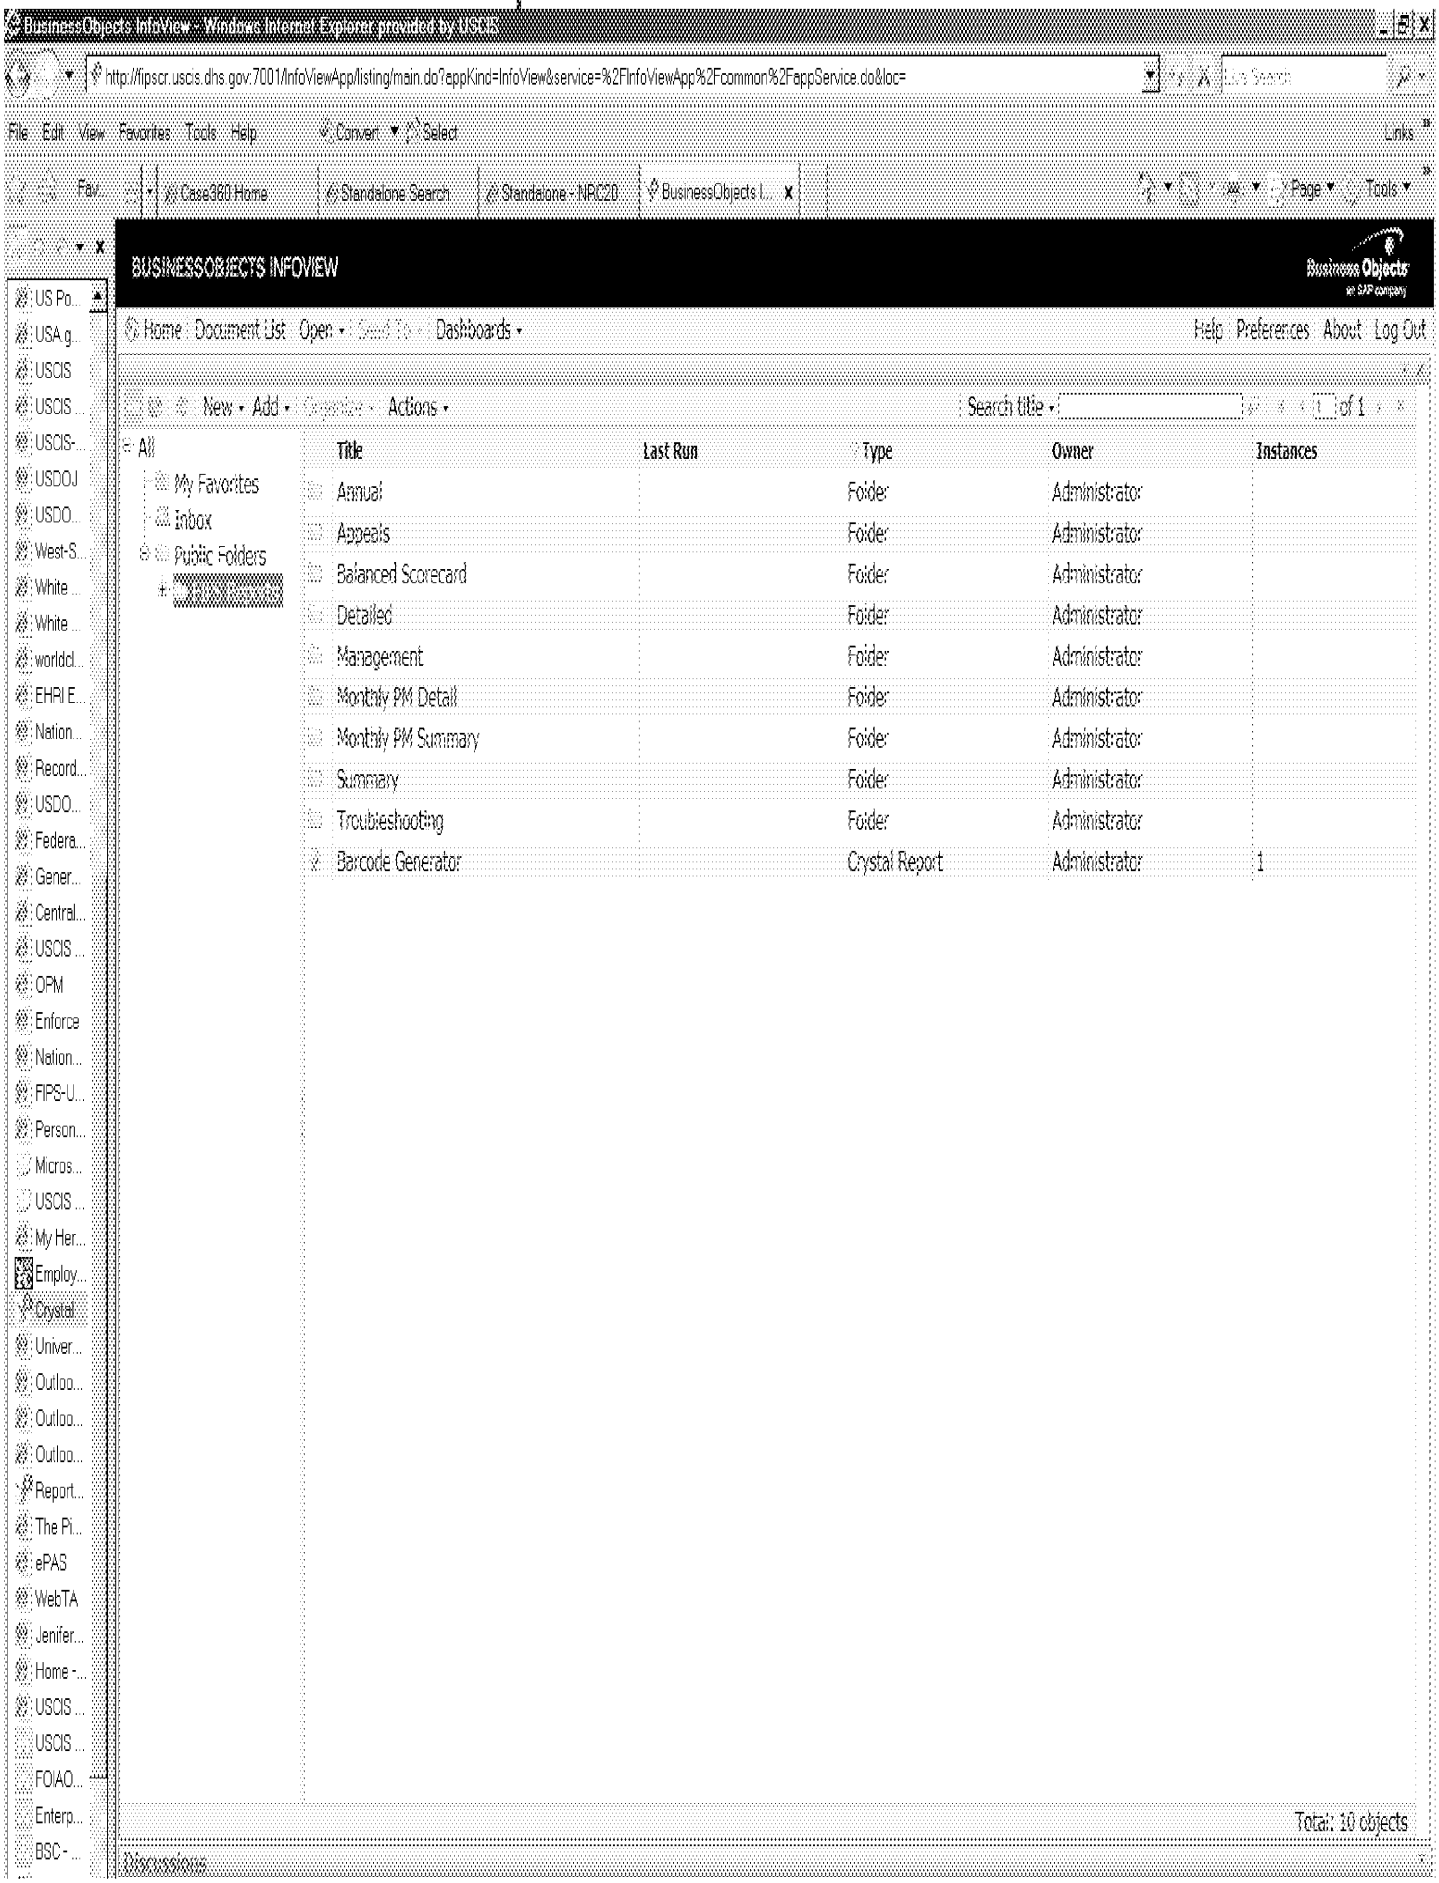
U.S. Citizenship and Immigration Services

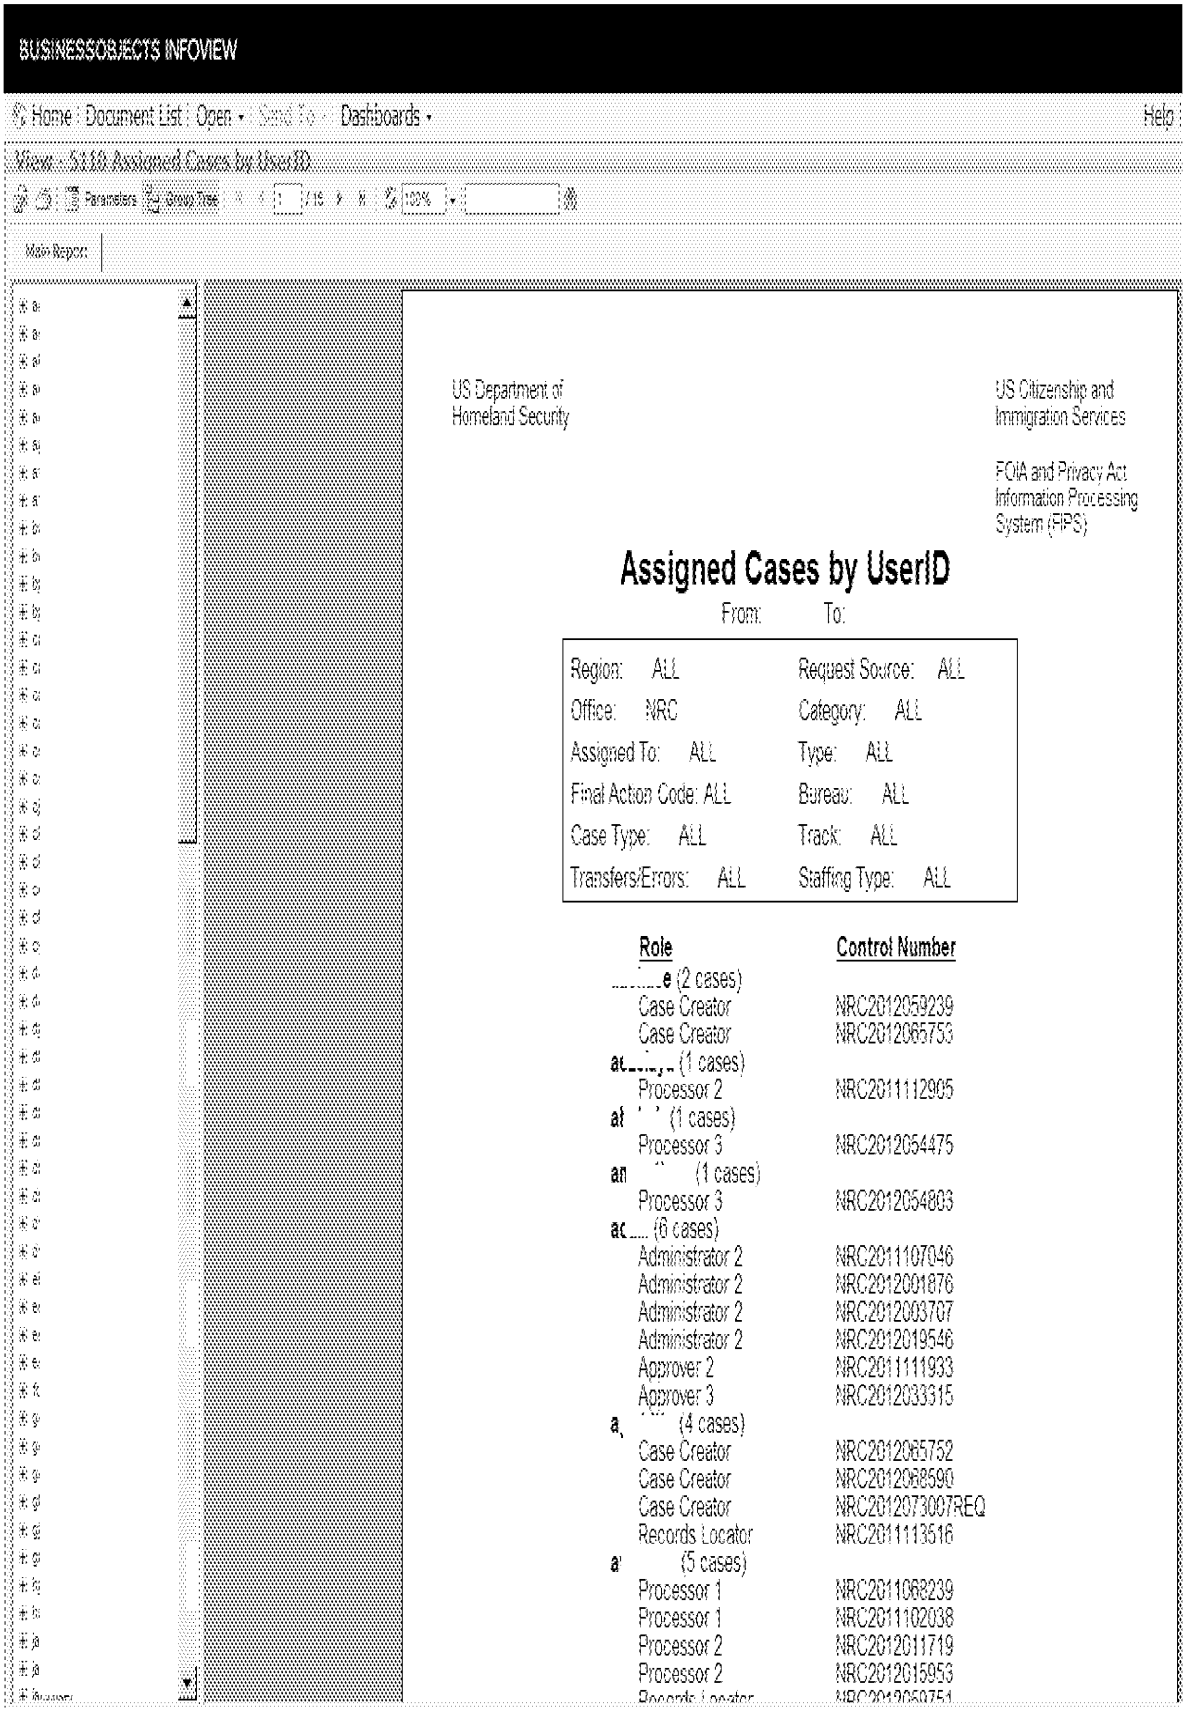
REPORTS

- FIPS generates reports from the FIPS database used by managers at every level of the FOIA/PA process.
- Reports are viewable in a Crystal Reports frame, and exportable to PDF and Excel.
- Managers at various levels are interested in different kinds of reports. Reports categories are:
  - Annual
  - Appeals
  - Balanced Scorecard
  - Detailed
  - Management
  - Monthly Performance Measures Detail
  - Monthly Performance Measures Summary
  - Summary
  - Troubleshooting

U.S. Citizenship and Immigration Services

Different kinds of reports for different functions:





This report quickly shows who has what cases.

Most reports allow specific parameters.

Requested By: Closed Office(s): Page 1 of 4

Here, a first-line supervisor has generated a four page report for one processor.

First line supervisors are interested in production and correcting errors.

U.S. Citizenship and Immigration Services

Excel:

Some reports in Crystal Reports have a column of actions for every FIPS user. Those reports scroll to the right until the last user, and are impractical to print. A supervisor can export reports to Excel and lock the first column with the legends to manage the data more practically.

U.S. Citizenship and Immigration Services

Managers at higher levels are interested in

- statistical analysis,
- bottlenecks
- areas for improvement,
- congressionally required reports.

U.S. Citizenship and Immigration Services

Here, a higher-level manager can quickly see that we are closing more cases per month than we are receiving, which is good news.

	Jun-11	Jul-11	Aug-11	Sep-11	Oct-11	Nov-11	Dec-11	Jan-12	Feb-12	Mar-12	Apr-12	May-12	Jun-12

A person working in the USCIS FOIA Program Office created this chart in Excel from data imported from FIPS.

U.S. Citizenship and Immigration Services

Questions?

U.S. Citizenship
and Immigration
Services

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

Objectives

To define Freedom of Information Act and the Privacy Act.

To understand the concept of creating cases in FIPS by reading and analyzing the information provided on the FOIA/PA request.

Part I – Freedom of Information Act and the Privacy Act

Questions you have to be able to answer:

- What are FOIA and PA?
- What are agency requirements?
- What are requester requirements?

U.S. Citizenship and Immigration Services

Freedom of Information Act

- The Freedom of Information Act gives all people the right to request federal executive branch records. 5 U.S.C. § 552

- Any person can request access to any record maintained by any federal agency (this applies to Executive Branch only). The FOIA has its own definition of "person."

- Requires agencies to release the requested record/s unless one or more of the nine exemptions protects the information.

Agency Requirements

- Agencies must:
  - Conduct a diligent search for records responsive to the request
  - Comply with time limits: respond within 20 working days (unless unusual circumstances exist)
  - Release responsive records unless an exemption applies

Agencies Requirements

- Agencies must:
  - Track and monitor
  - Process on a first-in first-out basis

U.S. Citizenship and Immigration Services

Requester Requirements

- Requester must:
  - Submit the request in writing
  - Provide agreement to release information if the requester is other than the subject of record
  - Provide verification of identity if requesting a record about a living person
  - Reasonably describe the record sought
  - Assume financial responsibility up to $25.00

Who can make a request and what can be requested?

- Anyone can
  - First party requesters -
  - Third party requesters -
  - Special Interest –
  - Bond obligors –

- Anything that is an agency record – but a requester cannot ask a question: "I was detained at Miami Airport – why?" That's not a description of an agency record.

Privacy Act

- The Privacy Act of 1974 was enacted to limit what the government can do with information about you.
- Among other things, it guarantees the public's right to see their records unless the record can be legally withheld under one of the ten exemptions. (5 U.S.C. § 552(a))

Privacy Act

- Privacy Act balances the government's need to maintain information about individuals with the rights of individuals to be protected against unwarranted invasion of privacy.
- The Privacy Act has its own definition of "individual."

Purpose of the Privacy Act

- No secret records
- Records created are limited to only those that are necessary
- You know what records the government keeps about you and you can challenge the accuracy
- The government is restricted to collect information about you for a specific purpose and can not be used for another without your consent
- If the government discloses information about you, it must account for that disclosure.

U.S. Citizenship and Immigration Services

Part II – Case Create

The objective of this class is to be able create a case in FIPS by reading and analyzing the information provided on the FOIA/PA request.

- This includes:

- ensuring that the database is accurately completed,
- researching/locating the file/record,
- staffing for the correct file/record,
- verifying that agreement to release the file/record is present, if necessary,
- determining if additional information is needed to locate the file/record and
- acknowledging receipt of the FOIA/PA request.

Requests

- A request must be made in writing and reasonably describe the records being sought.
  - Form G-639
  - Letter from an attorney or representative
  - Letter from the alien.
- **How do we get them?**
- Mail, fax, hand delivered or via e-mail.

Reasonable Description

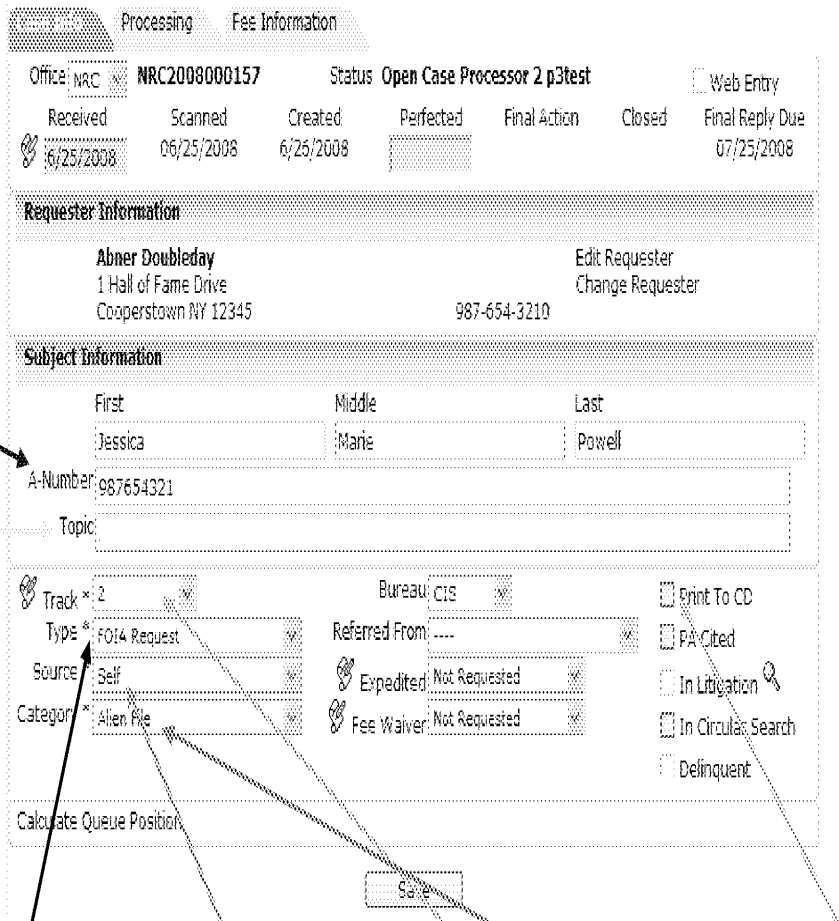
- Requester must provide enough information for us to search for records.

- If a requester with a very common name sends us a request for file, says cannot remember Alien Number, and we find multiple matches, we have to ask for a better description of the records the requester wants.

Read!

Case create requires you to carefully read the request and the supporting documents while searching for specific information.

Case Create



Insert A-Number

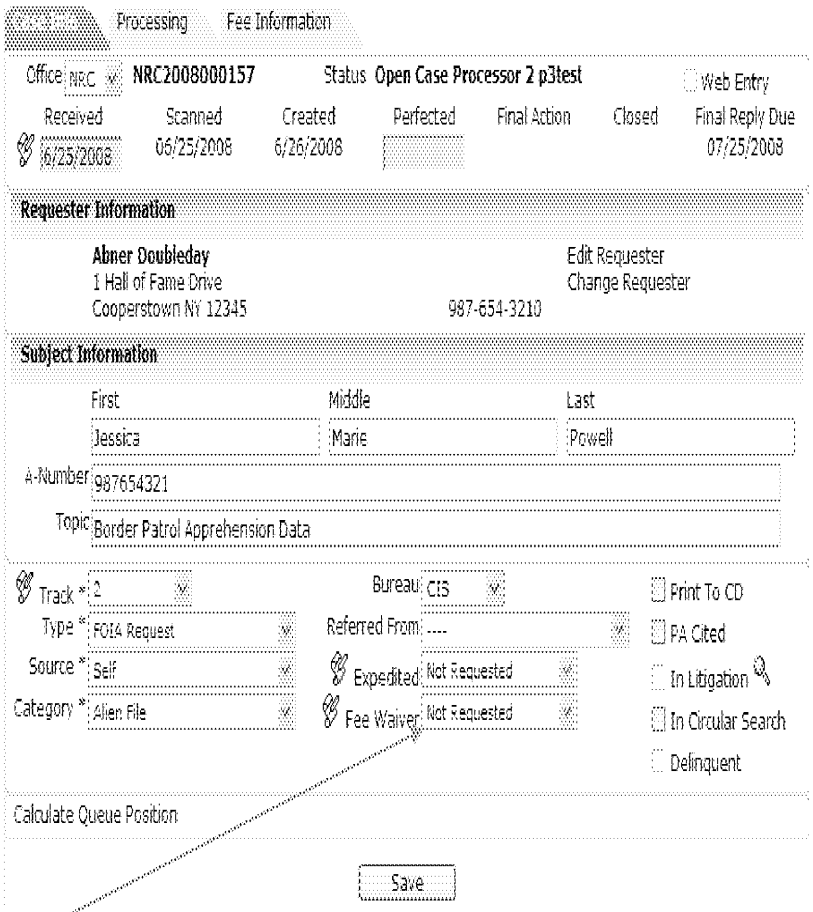
Insert Topic if

-the Topic is not a copy of the A-file

-pertains to a specific document

-you have an ELIS request (IOE number)

Type of request	Source	Track 1-3	Category	CD
• Always FOIA Request	• Attorney		• Alien File	Almost
	• Commercial		• Asylum	Always
	• Education/Scientific		• Specific Documents	
	• Foreign Government		• Non A-File Material	
	• News Media		• Personnel	
	• Others		• Special Interest Group	
	• Representative		• SFR cases at NRC	
	• Self			
	• White House/Congressional			



FEE WAIVER

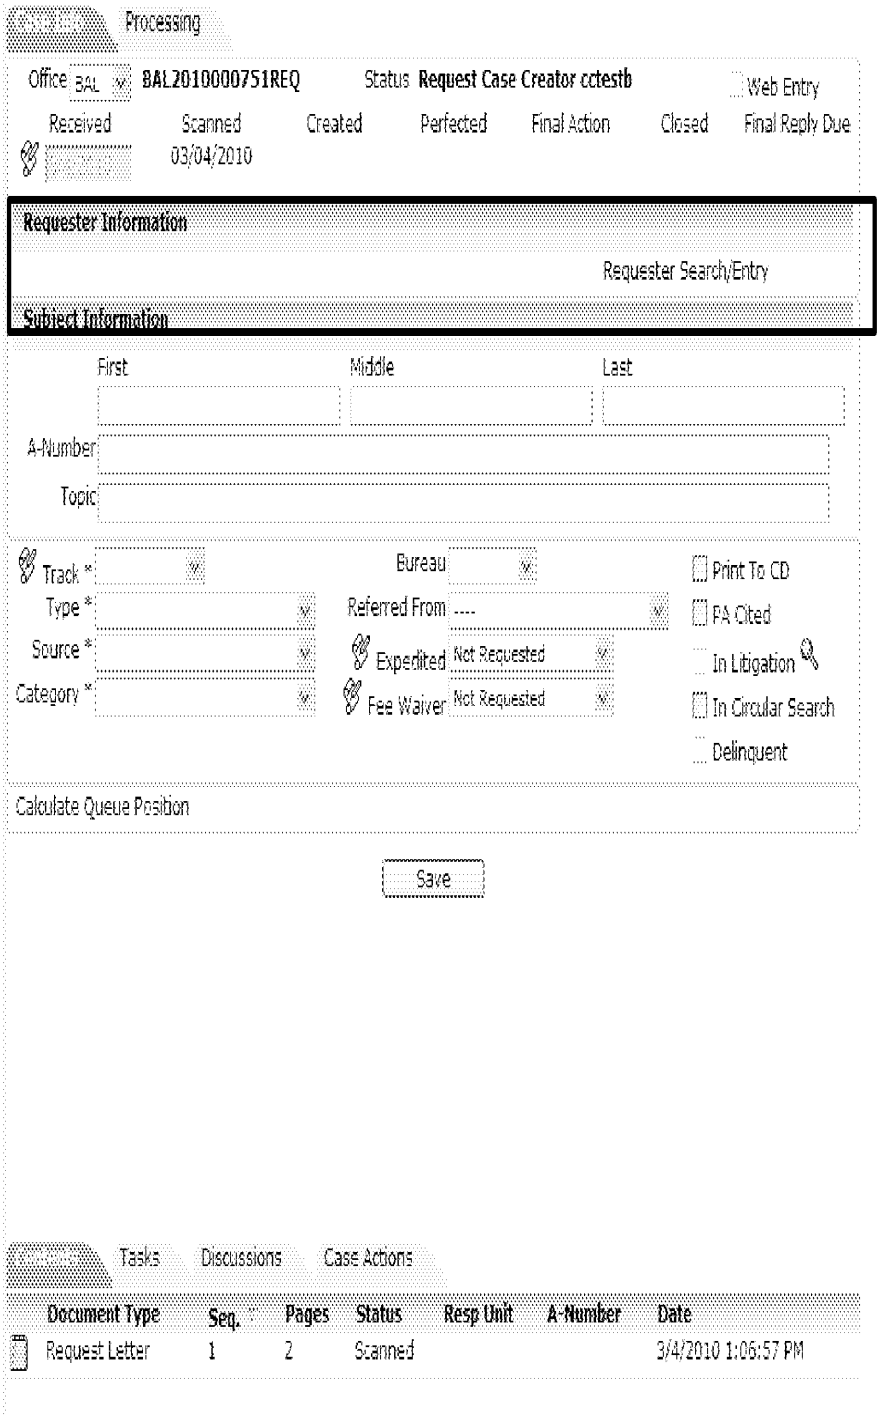
Requesters seeking a waiver of fees must meet two requirements.

1. Disclosure likely to contribute significantly to public understanding of the operation or activities of the government, and

2. Disclosure not primarily in the commercial interest of the requester.

- The person has to ask for a fee waiver specifically. A statement of financial insolvency included in the request is not the same as asking for a fee waiver.

- If the requester has asked for a fee waiver, create a case note saying "Fee Waiver Request" and send the case to Records Locator.



REQUESTER'S BIOGRAPHICAL INFO

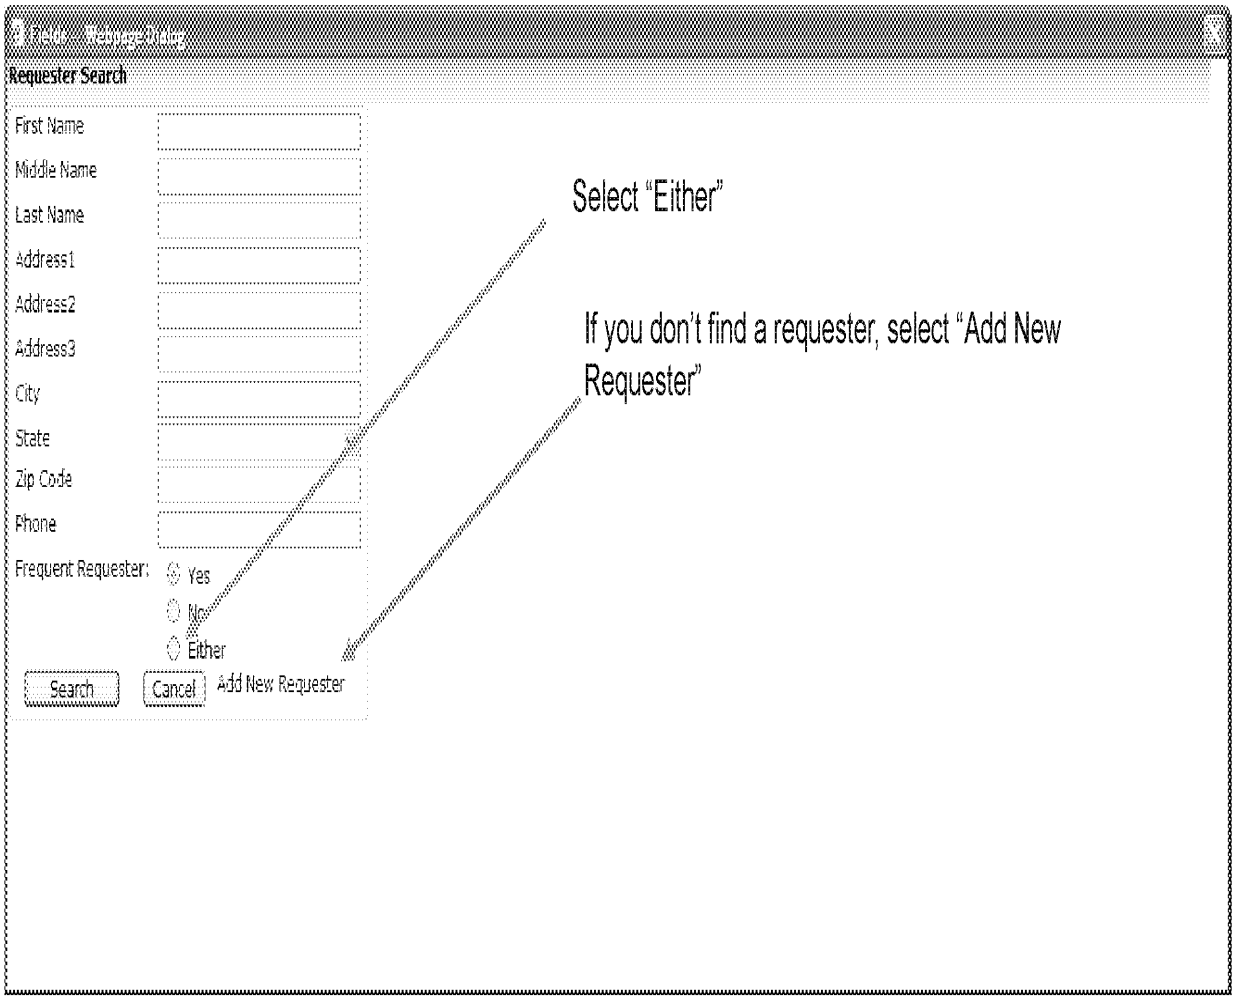
REQUESTER NAME AND ADDRESS

Use the address of the requester on the G-639. The requester may be an individual or an attorney/representative.

Delinquent Requesters

FIPS will automatically conduct a search for delinquent fees owed by the requester, using the last name of the requester.
If a delinquent case is found the box shown below will pop-up.
Because the search criteria used is the last name the results are not always an exact match.

Search for a Requester



Track III

- To have a Track III request, the subject of the file must have been served with a charging document and have a future hearing scheduled before an Immigration Judge.
- The subject must provide us with a copy of that notice to appear or document showing a future scheduled hearing.

U.S. Citizenship and Immigration Services

Cover sheets

- Cover sheets have been created to help you identify cases.
  - Expedited
  - Track III

Track III Cover sheet

- Track III Requested
- APPROVED _____
- _____
- _____
- **********
- DENIED_____
- CC: Please prepare acknowledgment letter and Track III denial letter.
- IJ Decision entered on _____.
- Decision: _____ _____.
- Appeal of IJ decision does not meet track III criteria.
- No supporting documents attached.
- Supporting documents not attached as stated in
- requester letter.
- No hearing date set – cc - check EOIR (on 9101 screen press F11 to see EOIR) for hearing date update.
- _____
- _____
- _____
- Per: _____ Date:_____

Expedited

- To be considered an expedited request one of the following criteria must exist.
  - A circumstance that poses an imminent threat to the life or physical safety of an individual or
  - An urgency to inform the public about a federal government activity, if made by an individual who disseminates information (the media).

Expedited

- Using the word expedited in the request letter does not mean the requester is seeking expedited treatment.
  - It is all in the wording and the placement of the word.

- Please expedite my FOIA/PA request,": This is an expedited request.
- "Thank you for expeditiously handling my case,": This is not an expedited request.
- "Request that you expedite my case because my client has a hearing.": This is not considered an expedited request, and we will treat it as a Track 3 request.

U.S. Citizenship and Immigration Services

- APPROVED_____
- DENIED_____
- CC: Please prepare acknowledgement letter with expedited treatment denial.
- Remarks: _____
  _____
  _____
  _____
  _____
- **Per: _____ Date:_____**

What is Agreement?

- Approval or permission as to some act or purpose, esp. given voluntarily by a competent person. (Black's Law Dictionary)

- 6 CFR § 5.21(f): If you are making a request for records concerning an individual ... You must also provide a statement from the individual certifying the individual's agreement that records concerning the individual may be released to you.

- 5 U.S.C. § 552a(b) No agency shall disclose any record ... except pursuant to a **written** request by, or with the prior **written** consent of, the individual to whom the record pertains.

U.S. Citizenship and Immigration Services

Certification of Agreement

- If the requester is not the same as the subject of record, Block 3 of Form G-639 is Consent to Release Information.

- Do they have to complete Block 3?
  Not necessarily: 6 CFR § 5.3(a) says: If you are making a request for records about another individual, either a written authorization signed by that individual permitting disclosure of those records to you or proof that individual is deceased ... must be submitted.

Form G-28?

- Is Form G-28 certification of agreement? Yes.
- On Form G-28, at the place where the Subject of Record signs, is the following statement:
  - Pursuant to the Privacy Act of 1974 and DHS policy, I hereby consent to the disclosure to the named Attorney or Accredited Representative of any record pertaining to me that appears in any system of records of USCIS, USCBP, or USICE.
- With Form G-28, we have a valid agreement to release information, but we still must have Verification of Identity.

Verification of Identity

- The following is an excerpt from the Instructions for Form G-639:
  - **Verification of Identity by Mail:**
  - Requesters wanting access to their records must identify themselves by name, current address, date and place of birth.
  - A notarized signature of the requester or a sworn declaration under penalty of perjury must also be provided (Form G-639 may also be used).

U.S. Citizenship and Immigration Services

Verification of Identity:

- 6 CFR § 5.21(d) says you must provide us:
  - Full Name
  - Mailing address
  - Date of Birth
  - Place of Birth

- And it also says: You must sign your request and your signature must either be notarized or submitted by you under 28 U.S.C. 1746 *(penalty of perjury in lieu of notarized signature)*.

VOI and Agreement

- We will cover this in detail later.
- Section 7 of the FOIA/PA Assistant's Guide is all about VOI and Agreement.

U.S. Citizenship and Immigration Services

Reasonable Description

- If a requester gave us name, mailing address, date of birth and place of birth, but said alien number unknown, several things could happen:
  - If he or she asked for the alien file and we discover one (only one) exact match, we have a reasonable description of the records being sought.
  - The same is true if he or she asked for a petition.
  - We might find no match. In such a case, the requester did not reasonably describe records being sought and we must request additional information.
  - The same is true if we find several exact matches.

Requesting More Information

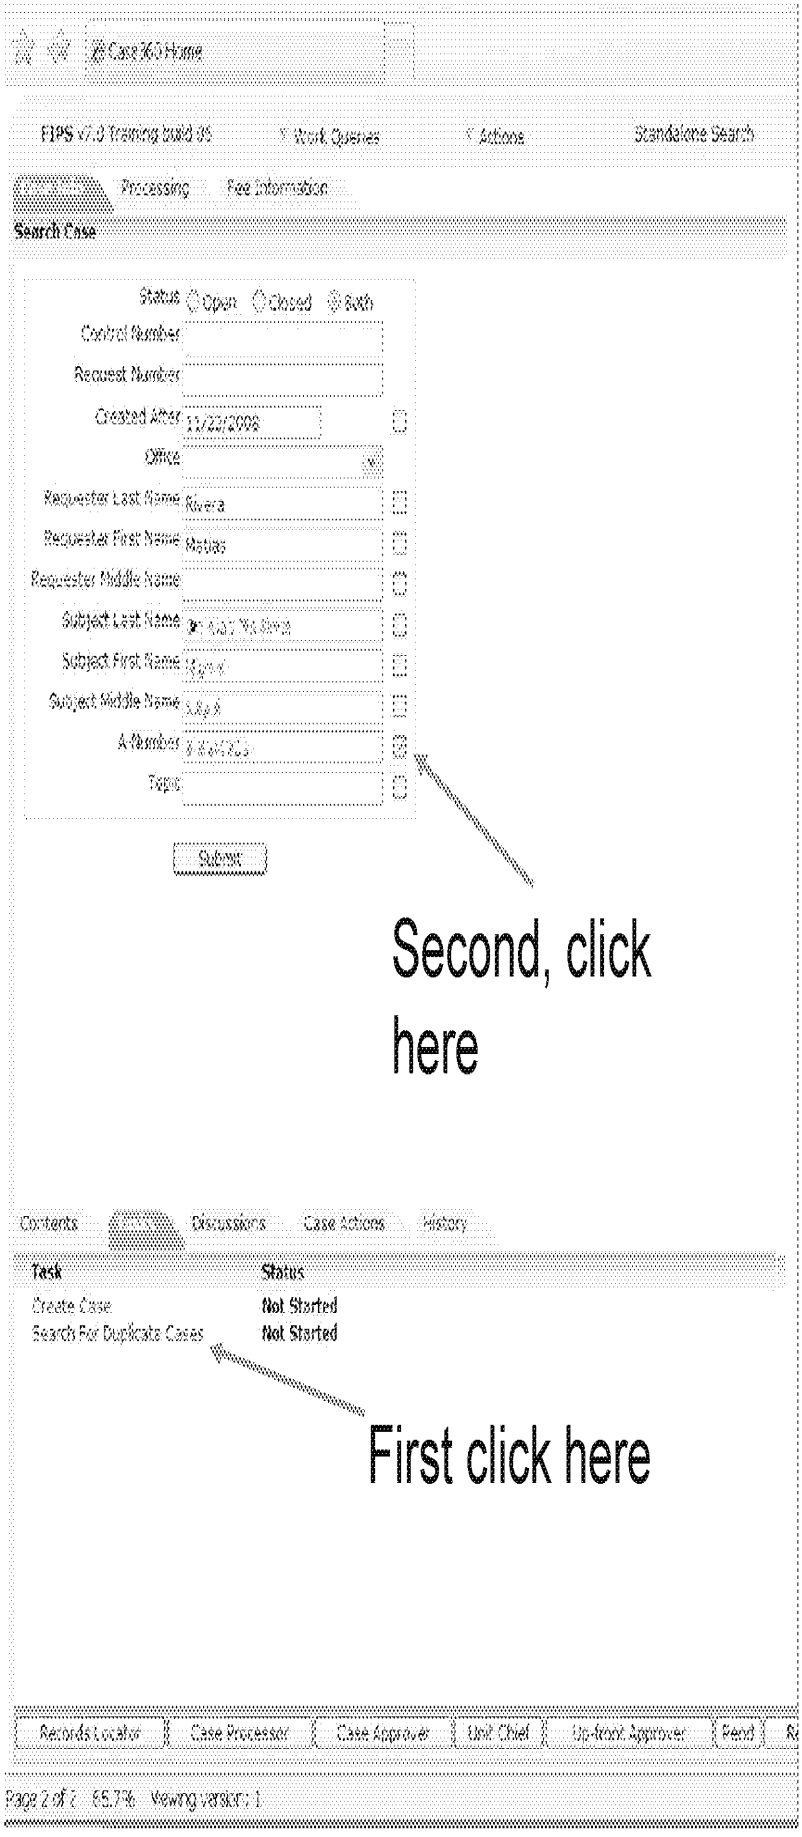
- We will ask for these items of information only if we need them. In the earlier scenario, we said the requester gave us name, address, date of birth, place of birth, but no A-number, and we got multiple matches or no match at all.

- We will request A-number, Application or Petition number, parents' names, other names the subject may have used, and other information that may be in CIS and would help us identify the correct file.

- If you request more information, do not staff for the file. Pend.

Time to Search

- Search for Duplicate or similar cases.
- Usually you search by Alien Number
- It is a good idea to copy the A-number from CIS and paste.
- The A-Number field must be nine digits. Add a leading zero if you have to.



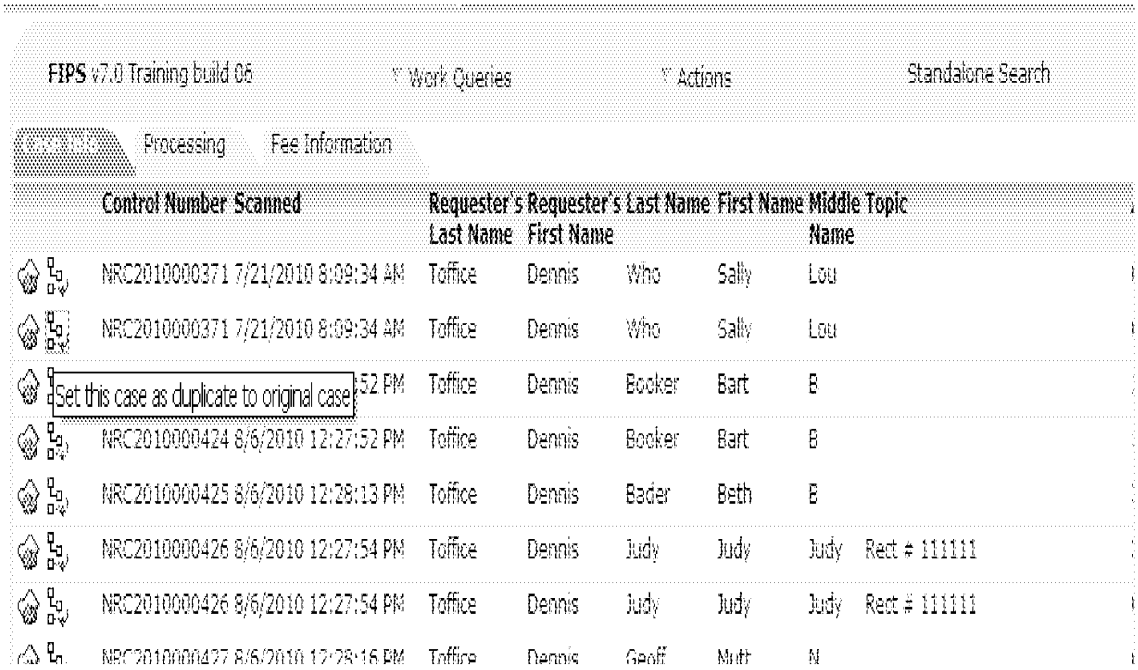
U.S. Citizenship and Immigration Services

Not a duplicate or similar case

- Usually, you get a notification like this:

- In that case, you simply click “Search Complete” and FIPS assigns an NRC control number to your case. You are ready to staff or to send a request for more documentation.
- If this is going to be a multiple case, select “Create Additional Cases.”

What if it is a duplicate?



- First, look at the case by clicking the edit logo (to the left – it looks like a folder with a gear in front of it.)
- Second, if it is a dup, click on the second logo to set the case as a duplicate.

Closing a Duplicate Case

- Next, under tasks, click on Final Action Letter.
- Choose “ER: Created in Error” as the final action code.
- Be sure to create a Discussion explaining what you did and why.
- Send the case to Up-front Approver. You are finished with that case.

Additional Cases?

- If the case you are creating will be a multiple, do the following, in this order:
  1. Create the case (but do not create letters or staffings before you create additional cases).
  2. Create additional cases.
  3. Prepare the acknowledgment letter.
  4. Prepare the staffing (s) (if applicable).

- The additional cases will be waiting for you. You may not be staffing for every file. You should treat each case individually.

U.S. Citizenship and Immigration Services

Requests

- What does the requester want?
- Complete copy of the A-file
- Receipt file
- Application/Petition and supporting documents

Staffing

- Staffing means the same thing as requesting a file.
- The most complex part of creating a case.
- It's why you are in here for two weeks.
- Management Support Branch (MSB) has to get the file after you create the staffing.
- If you have not met the people in MSB yet, take the time to meet them.
- They will always be happy to help you.

Discussions

- Any time you are sending a case to Up-front Approver, you must create a Discussion.
- Any time there is something unusual.
- You will create a Discussion more often than you do not.
- The only time you do not create a Discussion is when you have a standard request with all required VOI & Certification and it is a normal staffing.
- A good Discussion can save you some tears.

FOIA/PA Assistant's Guide

- Section 6 is Creating the Case
- Section 7 is Certification of Agreement, VOI and reasonable description
- Section 8 addresses unusual requests and situations
- Section 9 is Referrals and Redirections
- Section 12 is Staffing

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

Objective

To become familiar with CIS, CLAIMS and PCQS searches.

U.S. Citizenship and Immigration Services

Warning

- This training module uses real data so that you will be able to practice it for yourself.
- You should not discuss any PII in the case studies outside the class.
- If you print these slides, treat them as sensitive FOUO. Keep them locked, and shred all the case studies when you no longer need them.

U.S. Citizenship and Immigration Services

No A-Number?

- Usually we can find a person based on a name and date of birth.
- There could be variations in spellings.
- There could be aliases.
- There could be typographical errors on names and dates of birth.

Case Study # 1

- Last name Dominguez-Bandera
- First name Jose
- Middle name Antonio
- He has written his DOB as [redacted]
- POB [redacted] (b)(6)
- In this case study, you will learn
  - European date notation
  - Garbage In – Garbage Out

U.S. Citizenship and Immigration Services

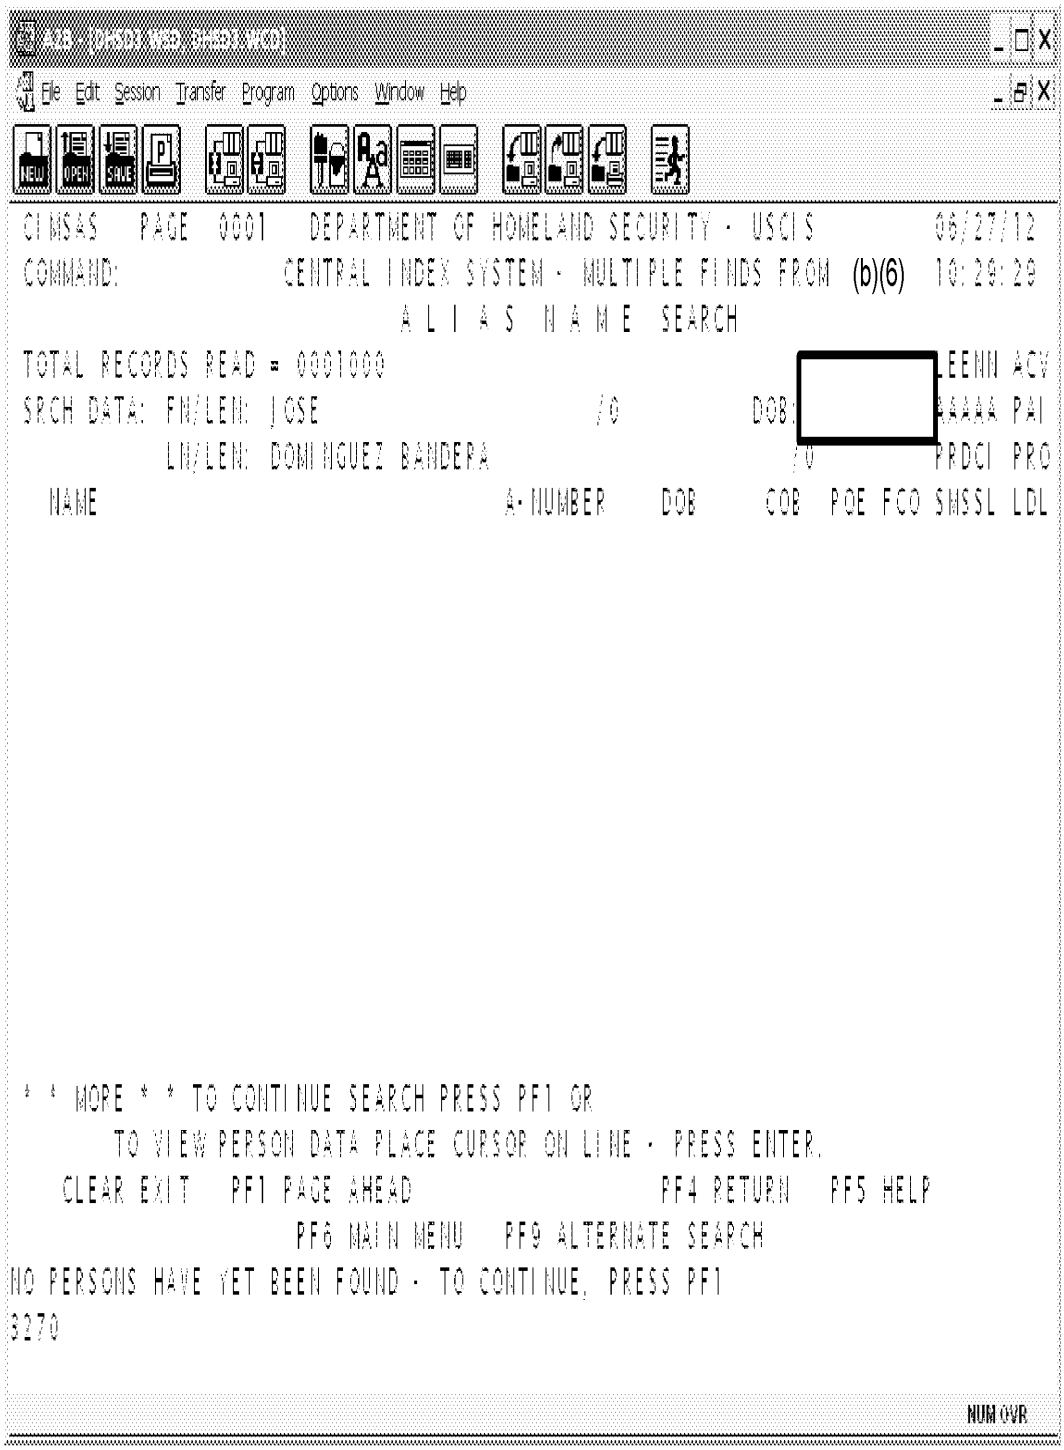
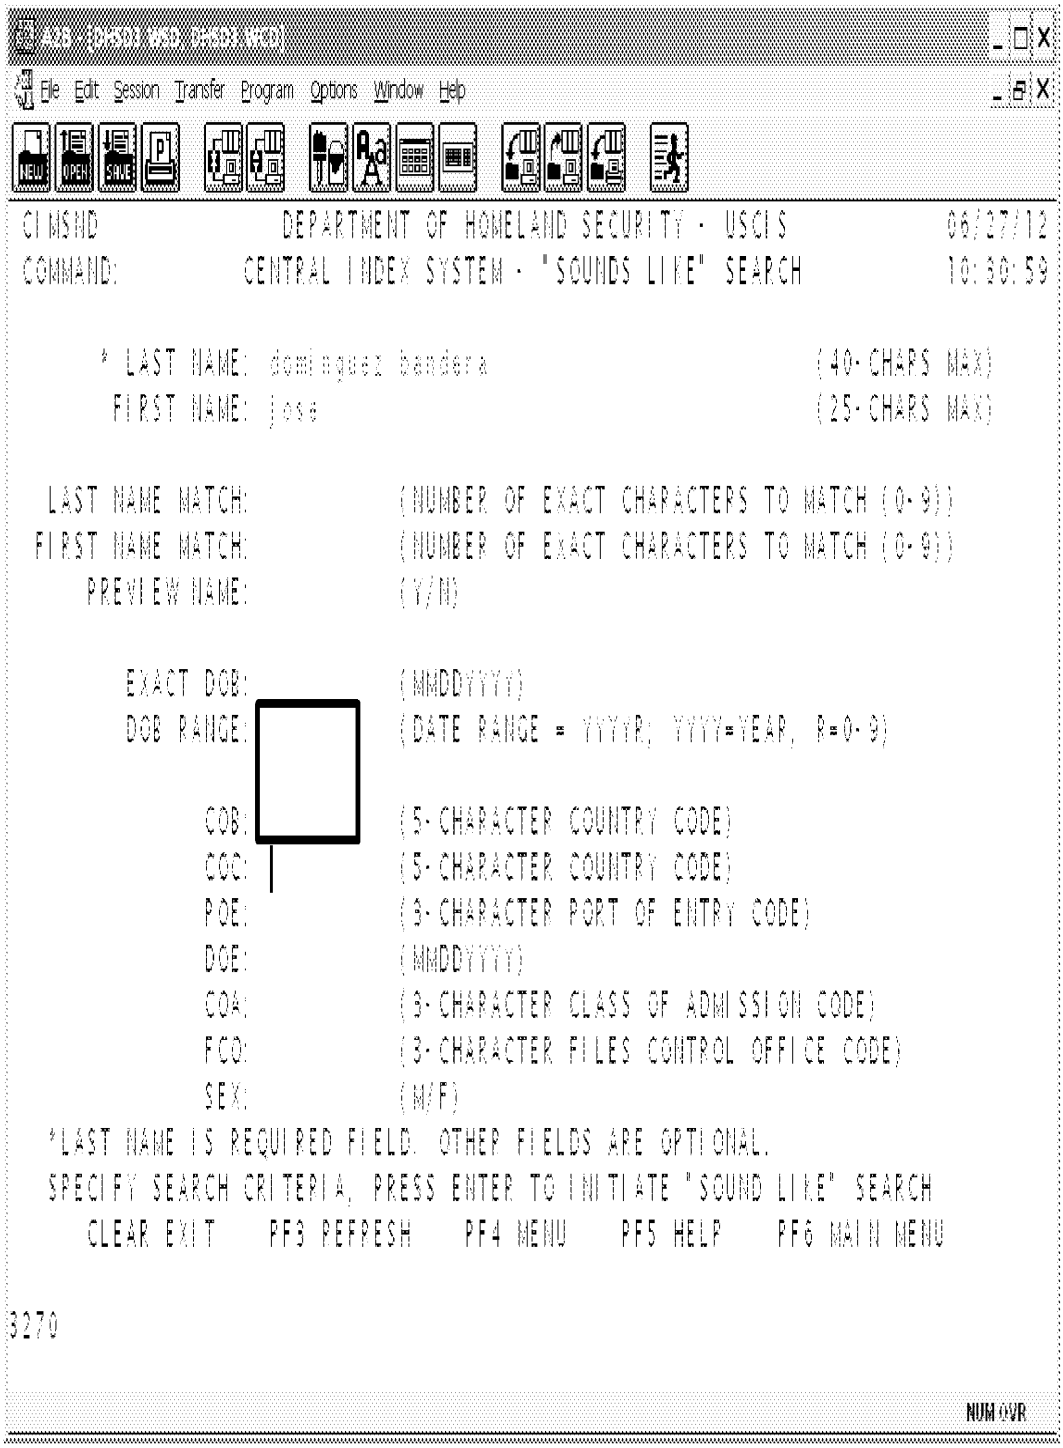
F9 Again for Alias Search

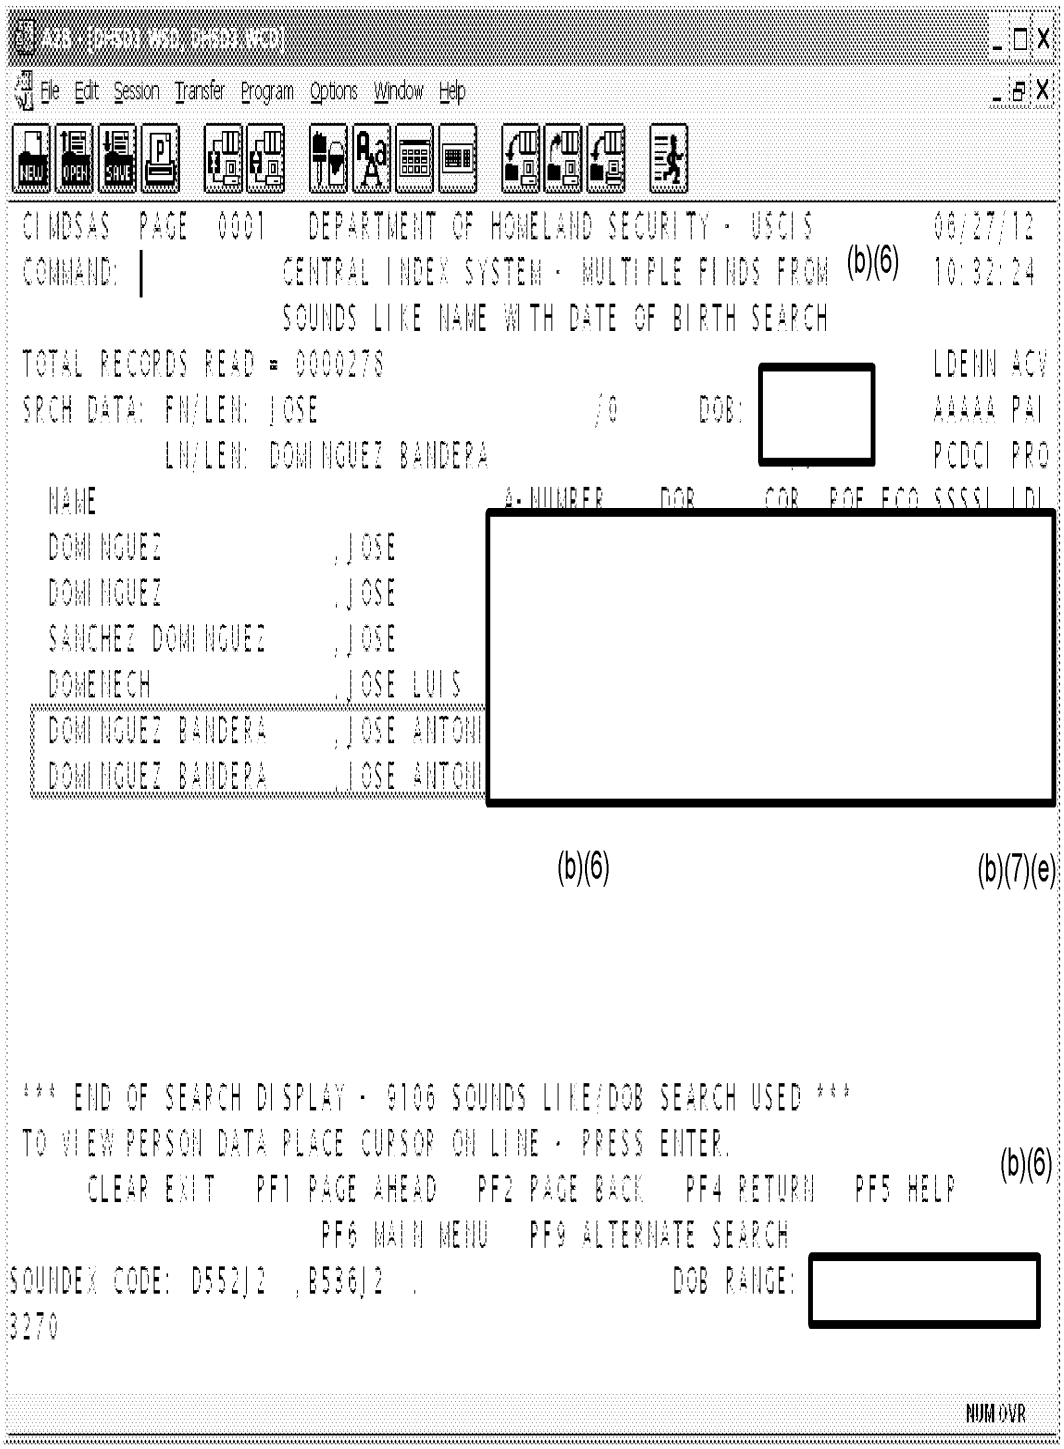


9102 with DOB range and COB

(b)(6)



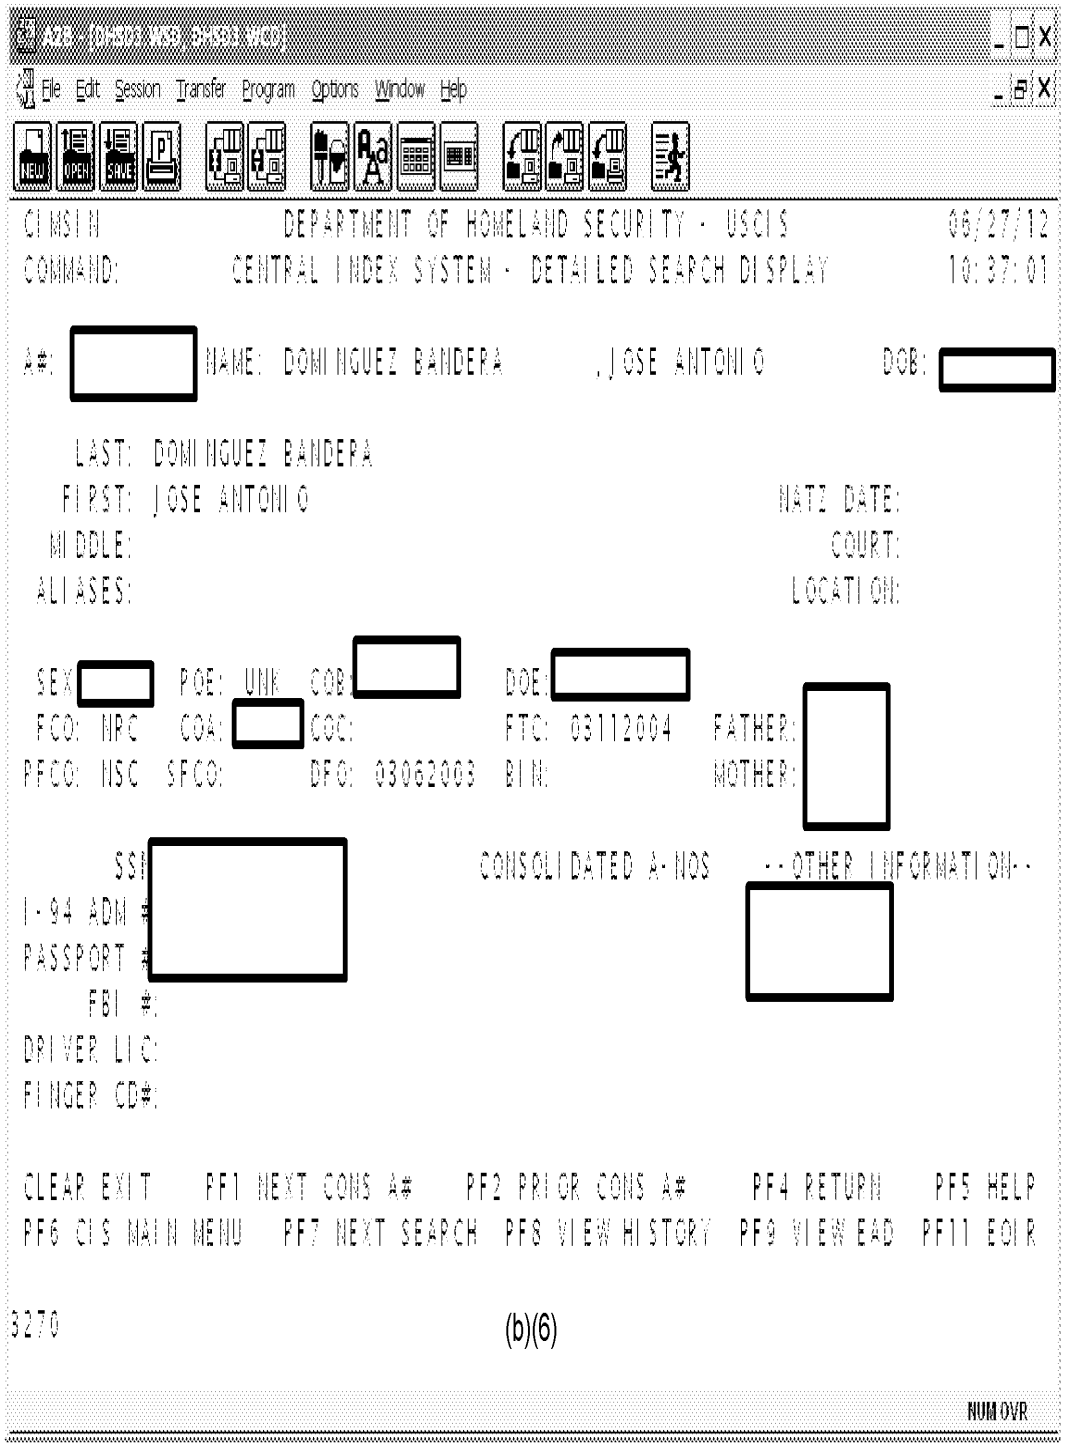
And we find him:



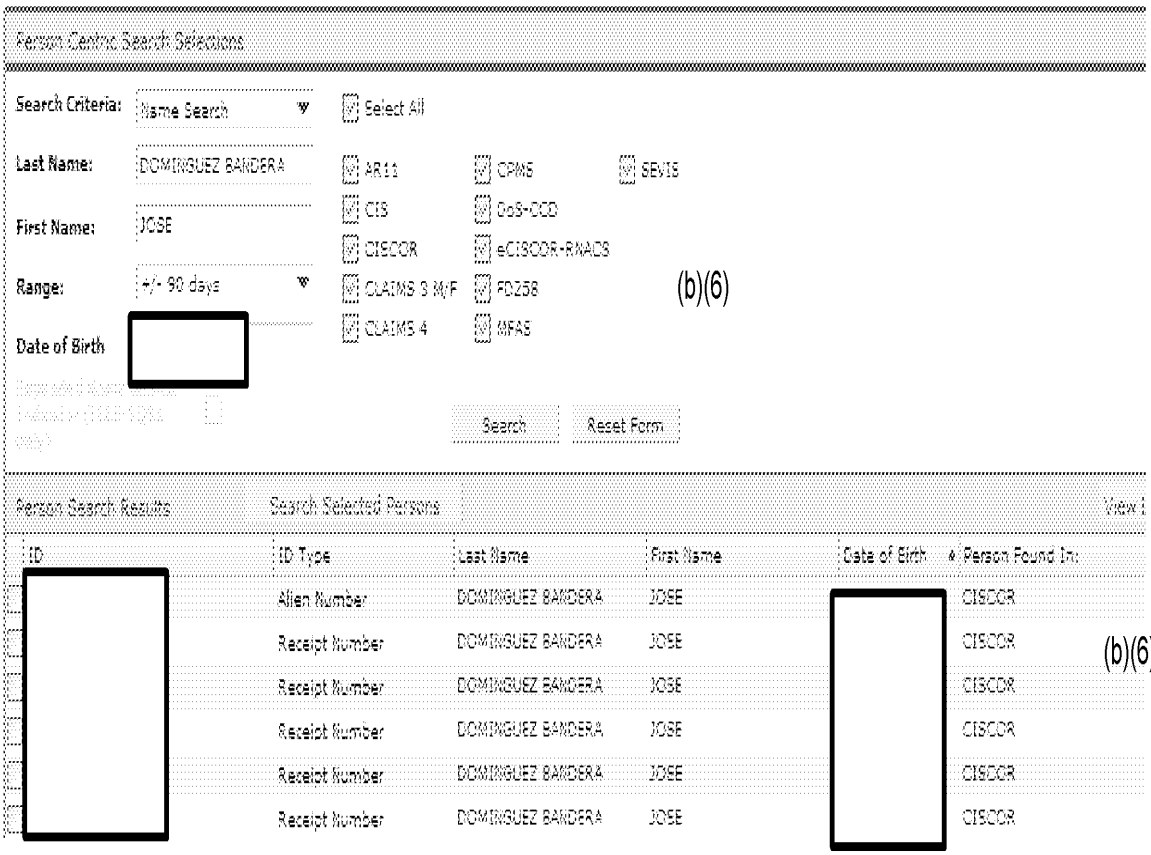
(b)(6)

Why didn't we find him first time?

- GARBAGE IN-GARBAGE OUT: First and middle names are both entered as first name.
- Date notation [redacted] to him means [redacted]



More about date format:



USCIS people have created records listing his date of birth as both [redacted] and [redacted] because of this date-format thing. A search using + / - 90 days found everything.

But what if his DOB was [redacted]? ?

We could try Exact Date and try both [redacted] and [redacted]

(b)(6)

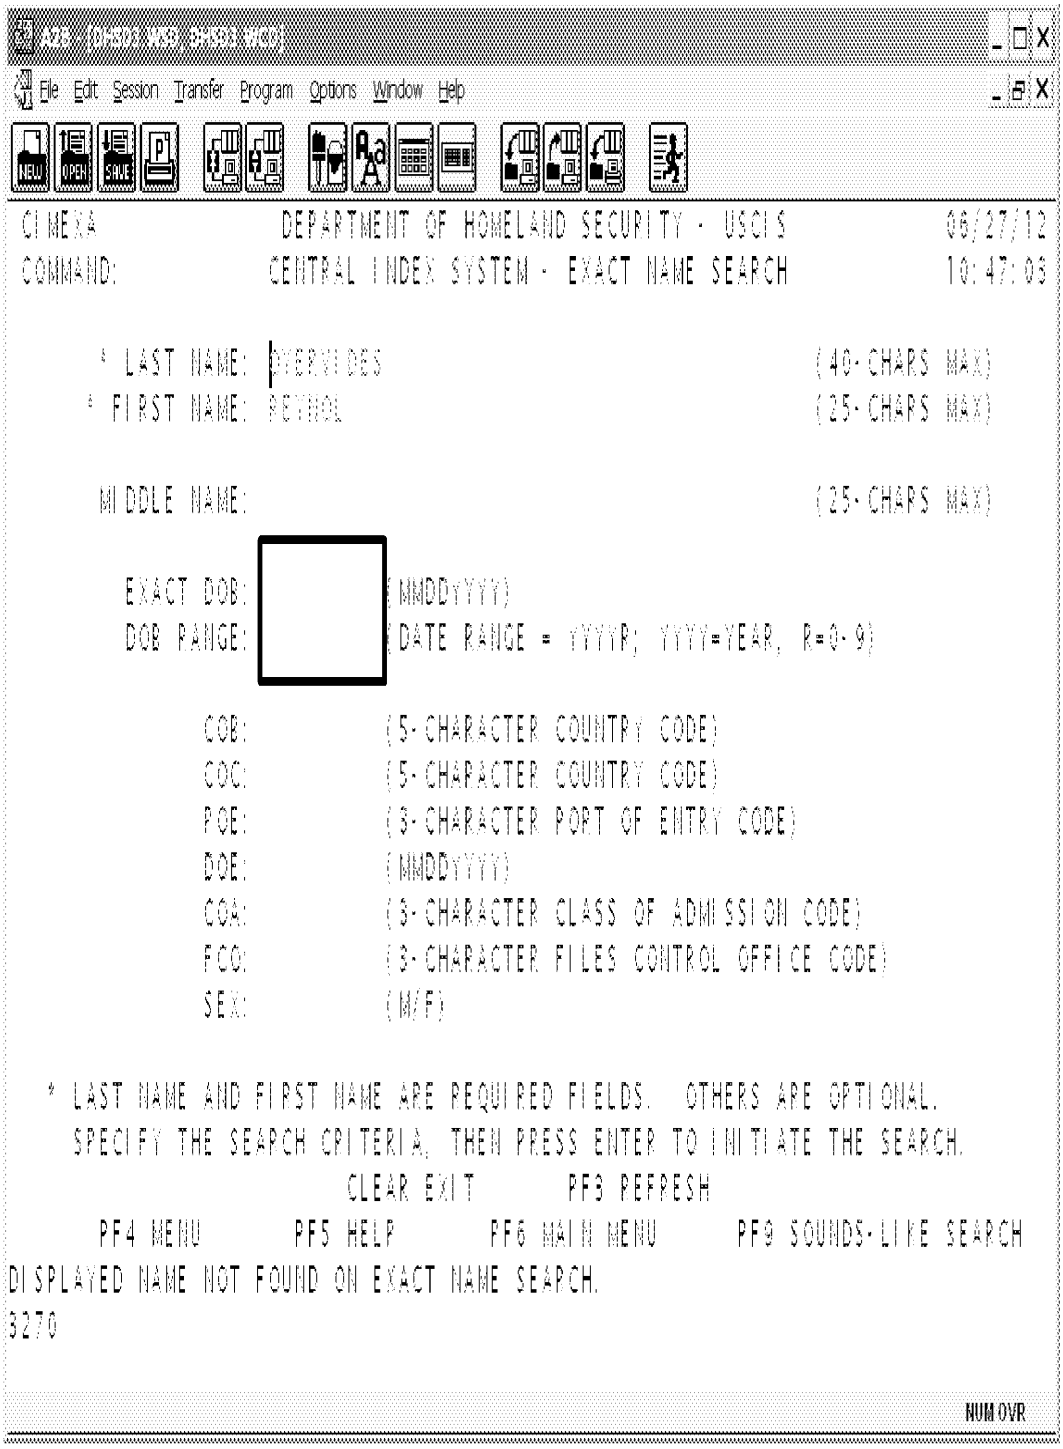
Case Study # 2

- Last name Oyervides
- First name Reynol
- Born [redacted] (b)(6)
- Parents names not provided.
- Did not provide A-Number
- Signs his name “Reynol Oyervides F.”

For Official Use Only - USCIS FOIA Program Office

Exact name search with DOB

(b)(6)



F9 – and:

YESS.

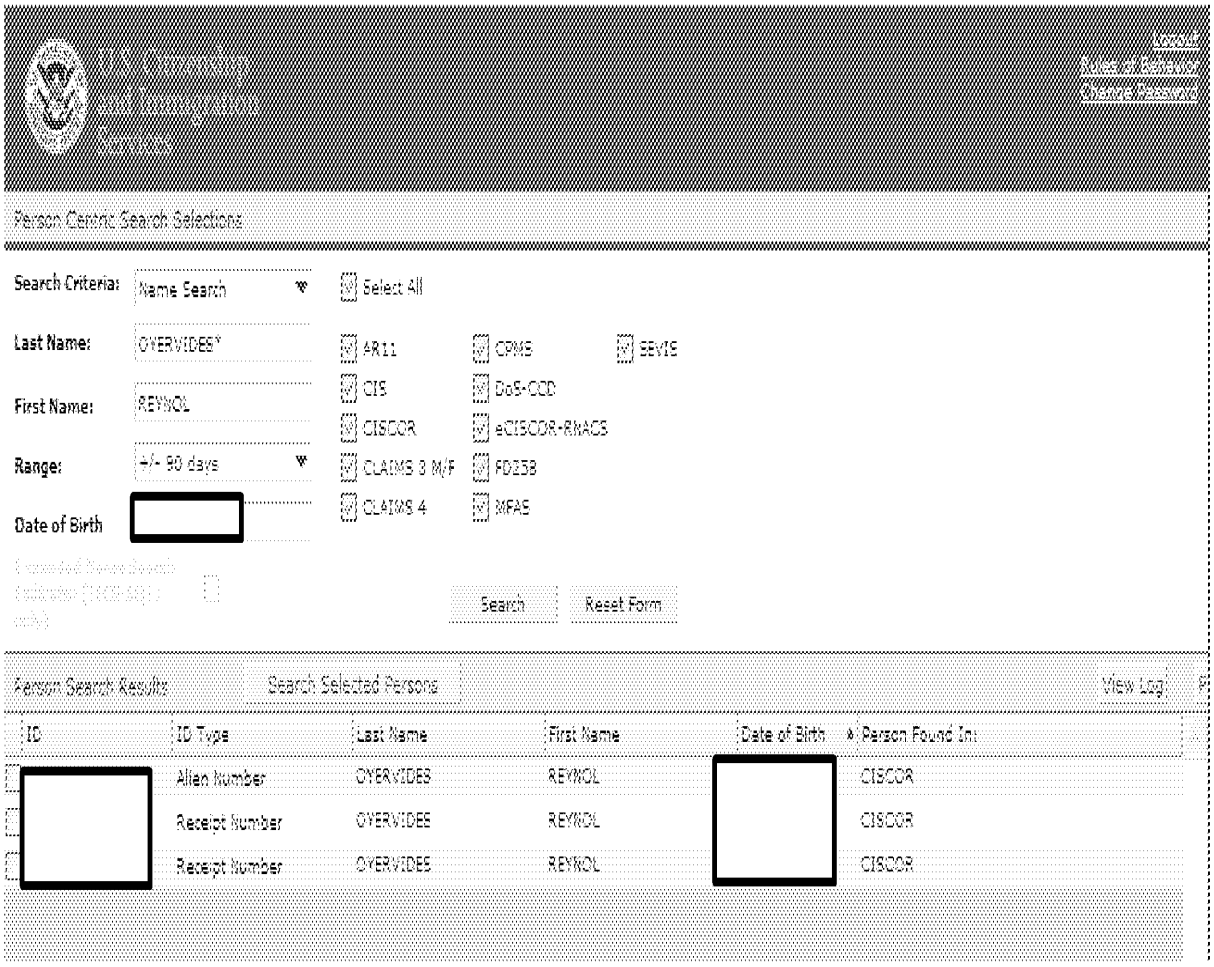
Wildcards

- PCQS found only those instances of "oyervides" in CISCOR because CIS won't support a wildcard search in PCQS.

(b)(6)



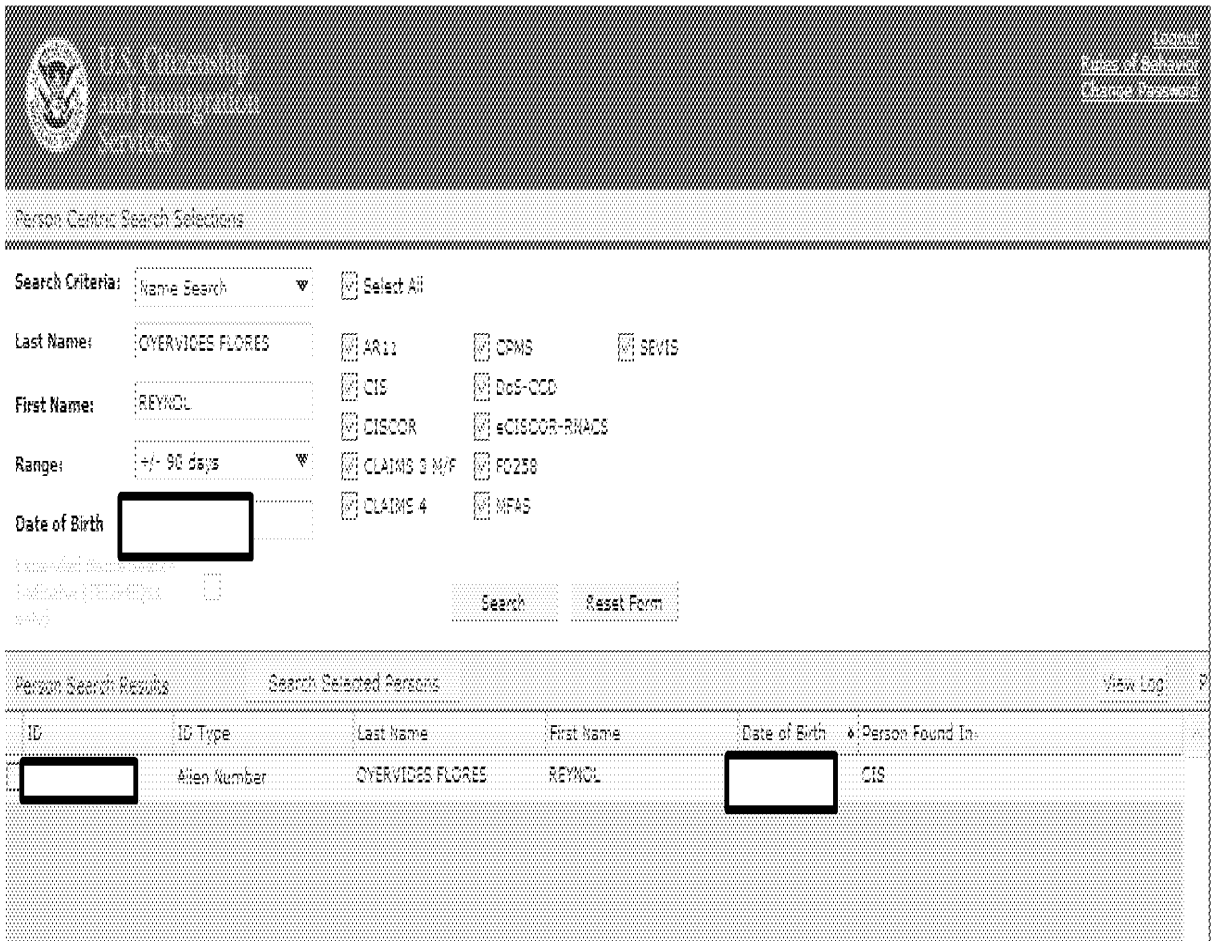
(b)(6)

For Official Use Only - USCIS FOIA Program Office

Exact name

- When I enter the exact name, it finds ONLY the CIS record:

(b)(6)



(b)(6)

Try Both

- In CLAIMS you cannot use a wildcard, but in PCQS, you can find CLAIMS and CISCOR records with a wildcard.

- In CIS, you can find "sounds-like" matches, but in PCQS, you cannot use a wildcard to find CIS records.

Discussion

- Since he did not give us an A-number, we have to create a Discussion to the CP saying we staffed on best available information.

Case Study # 3

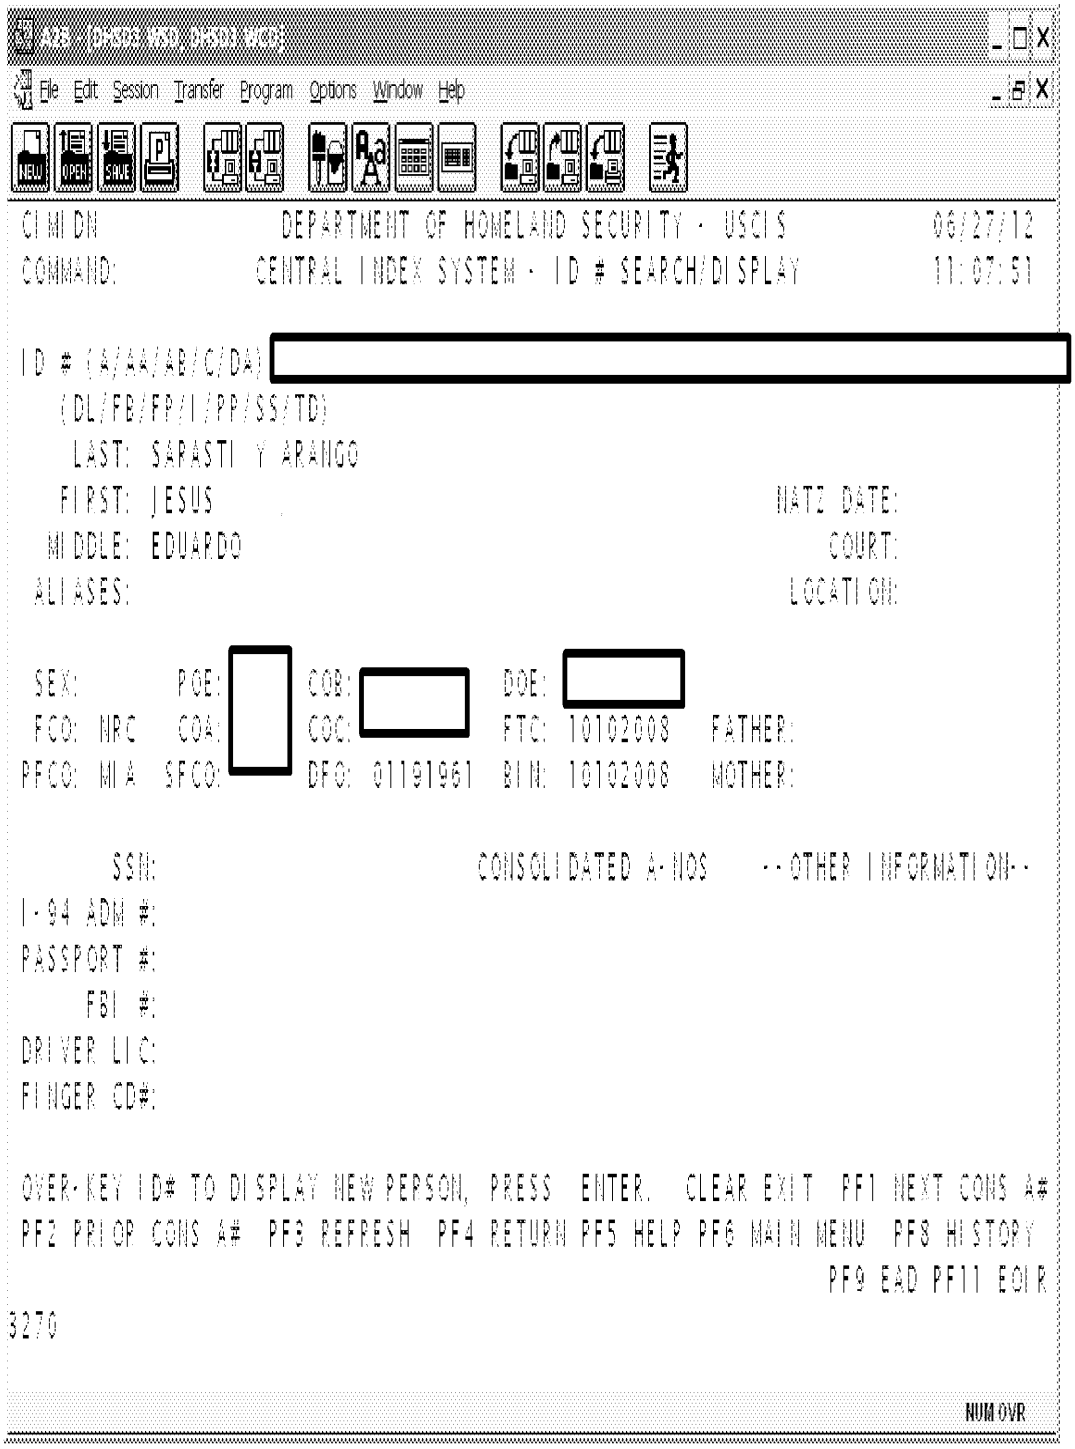
- Last name Ruiz-Lopez
- First name Blanca
- Middle name de Jesus
- (b)(6) Born [redacted]
- Mother's name [redacted], father's name (b)(6) [redacted]
- She gave us two A-Numbers: [redacted] or [redacted] (b)(6)

For Official Use Only - USCIS FOIA Program Office

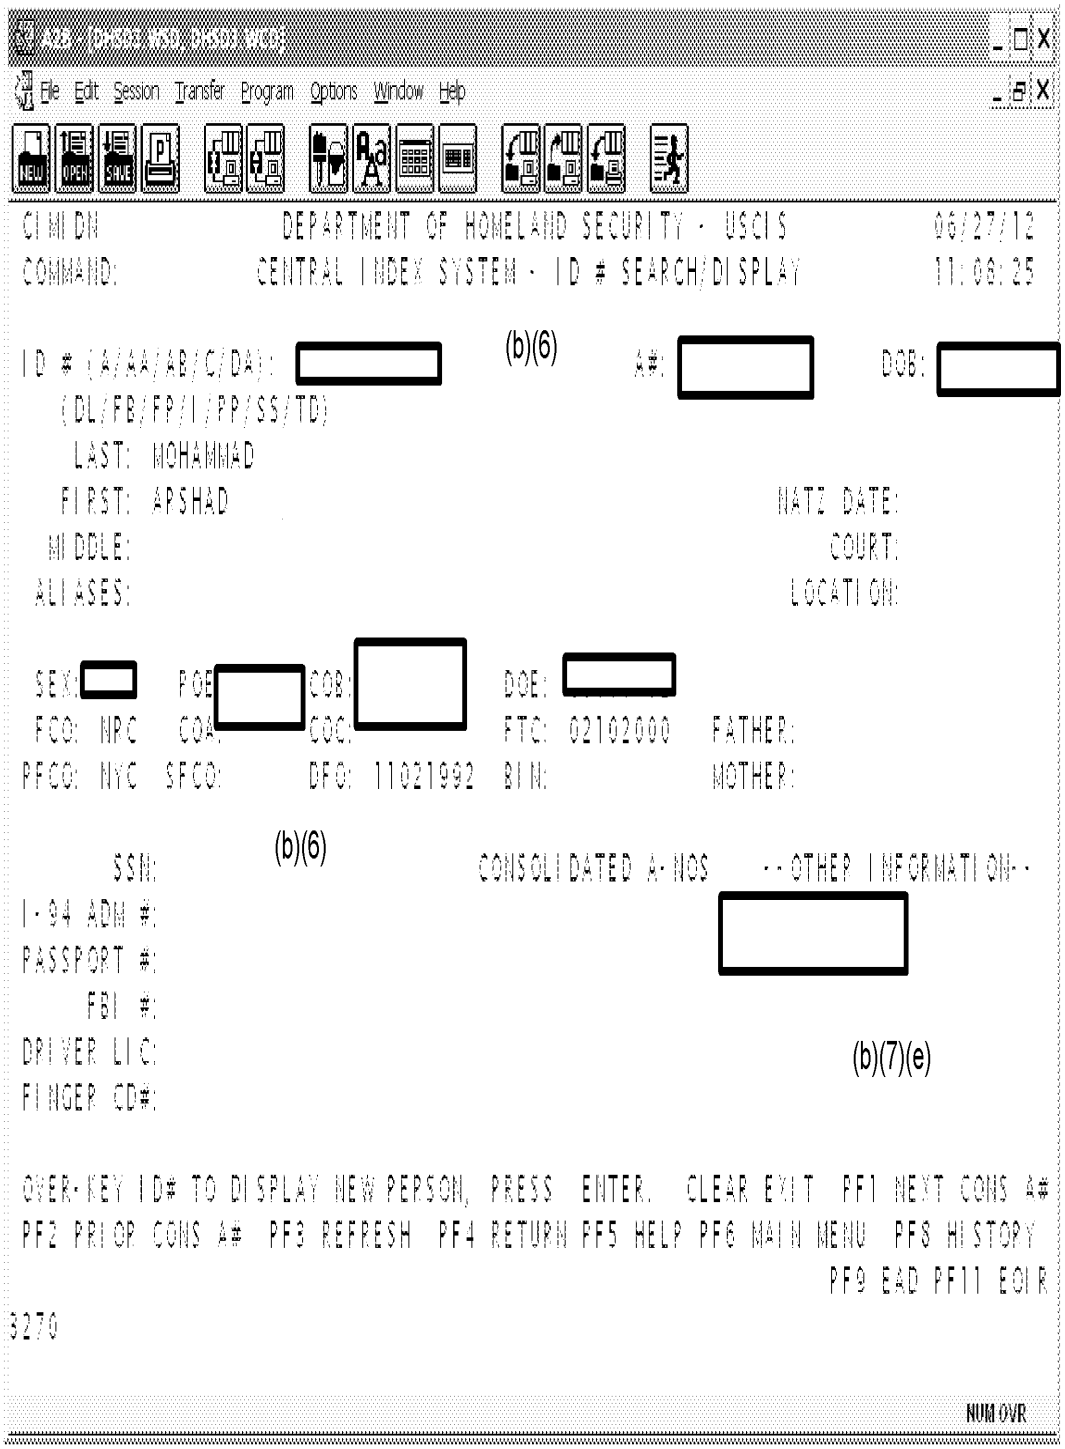
First A-Number: No way

(b)(6)

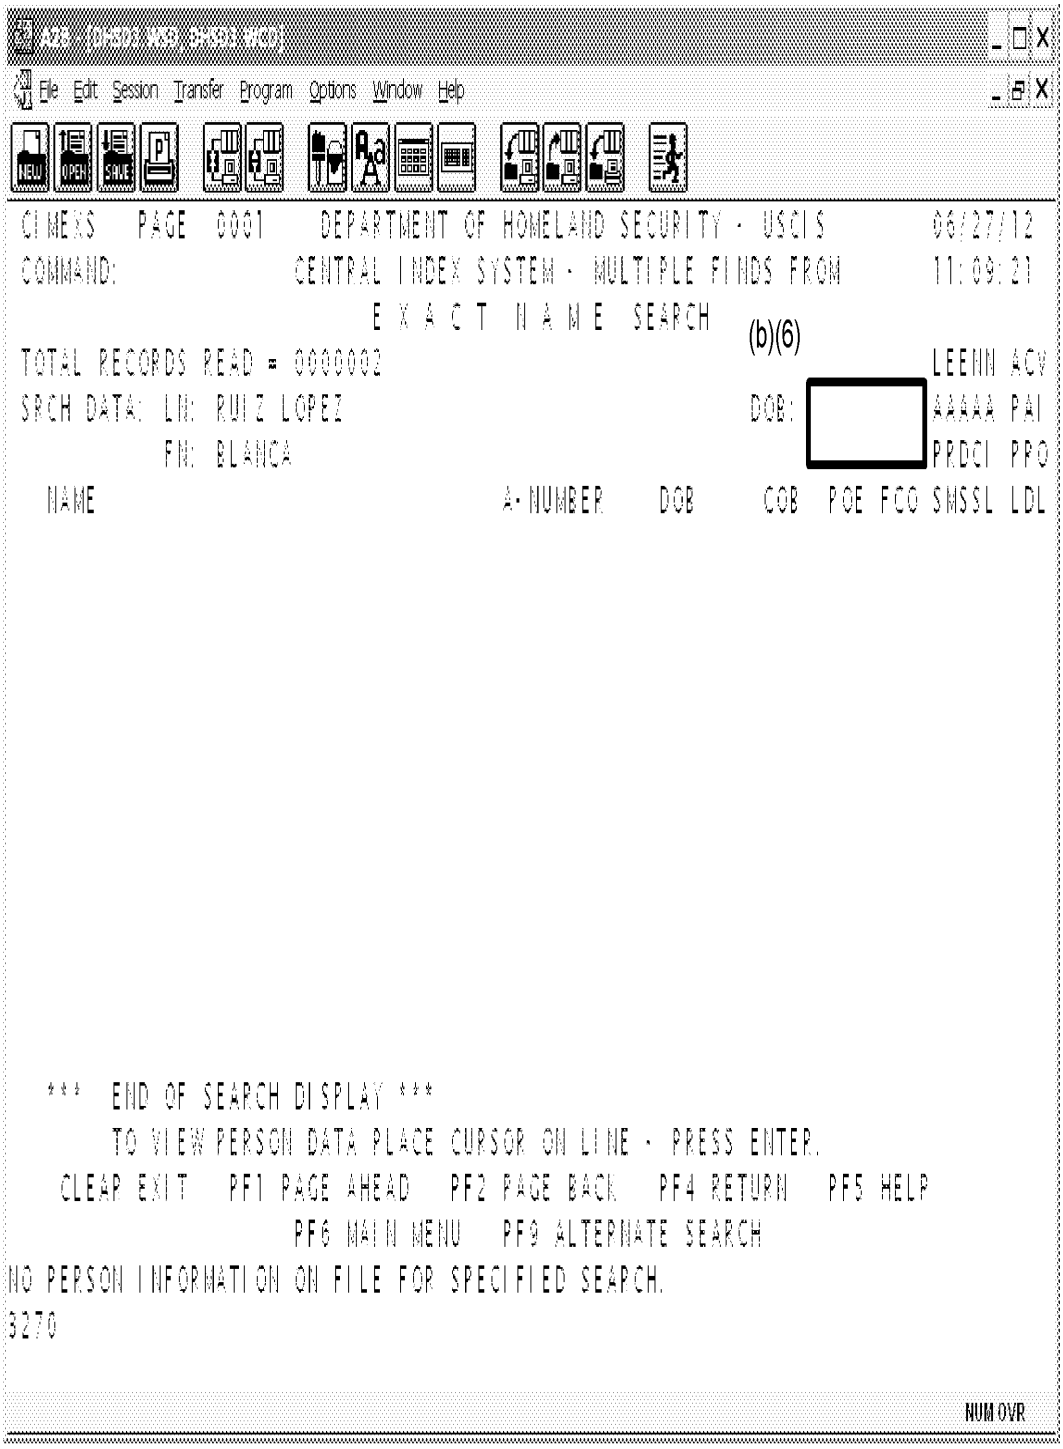
(b)(6)



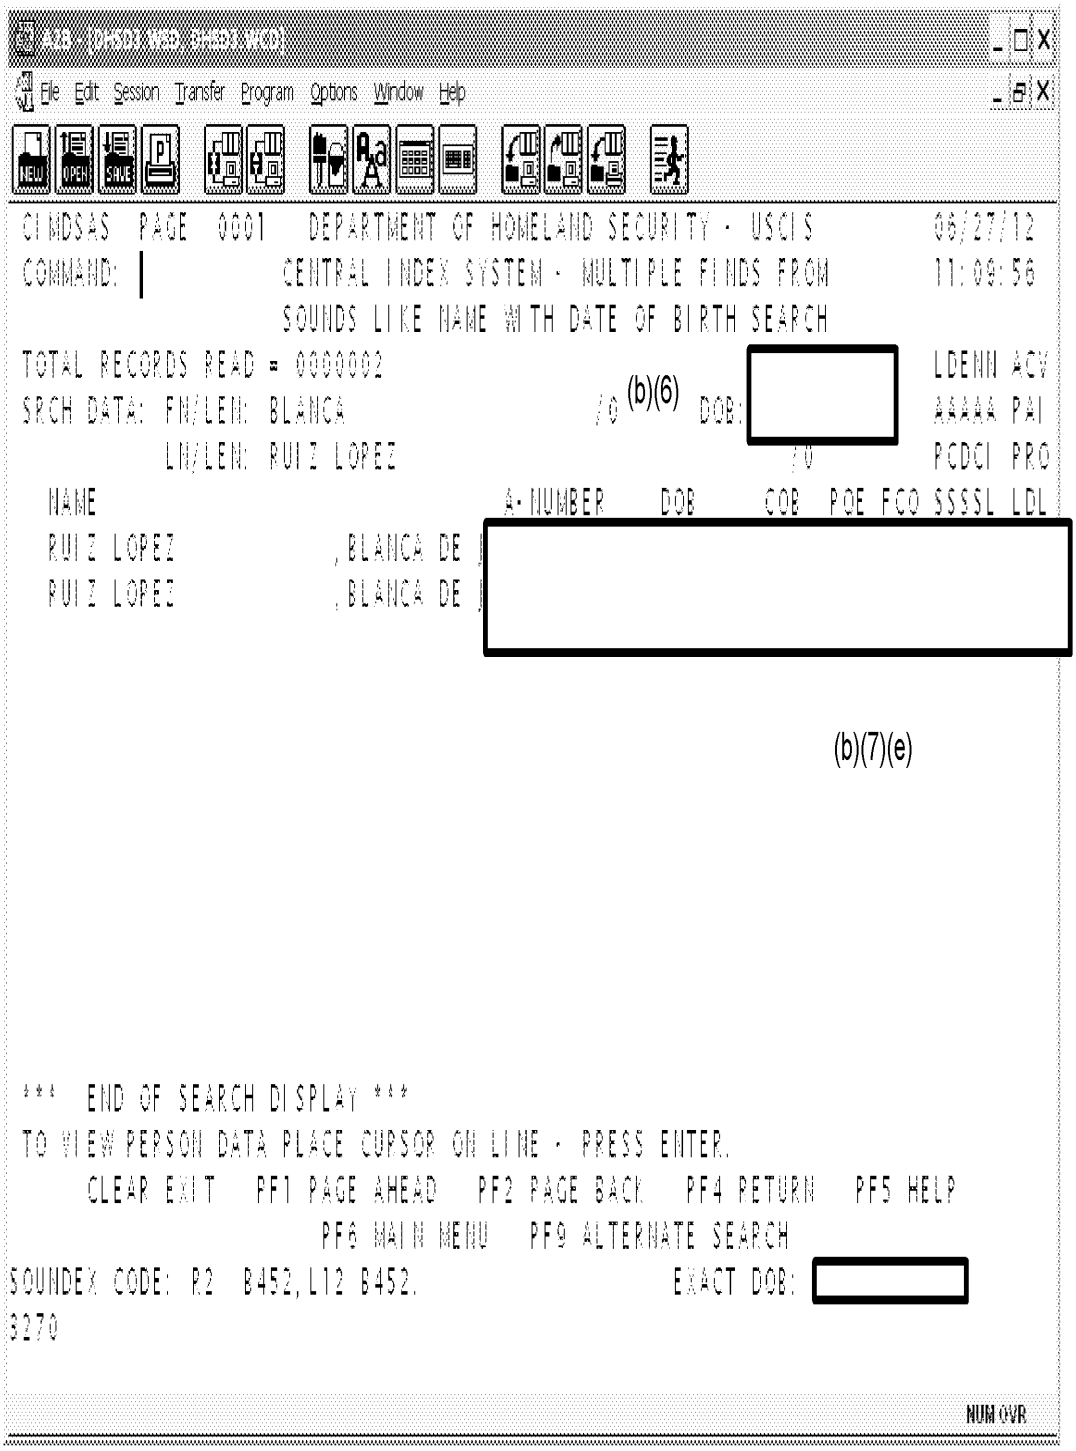
Second A-Number: Forget it



We'll try 9103

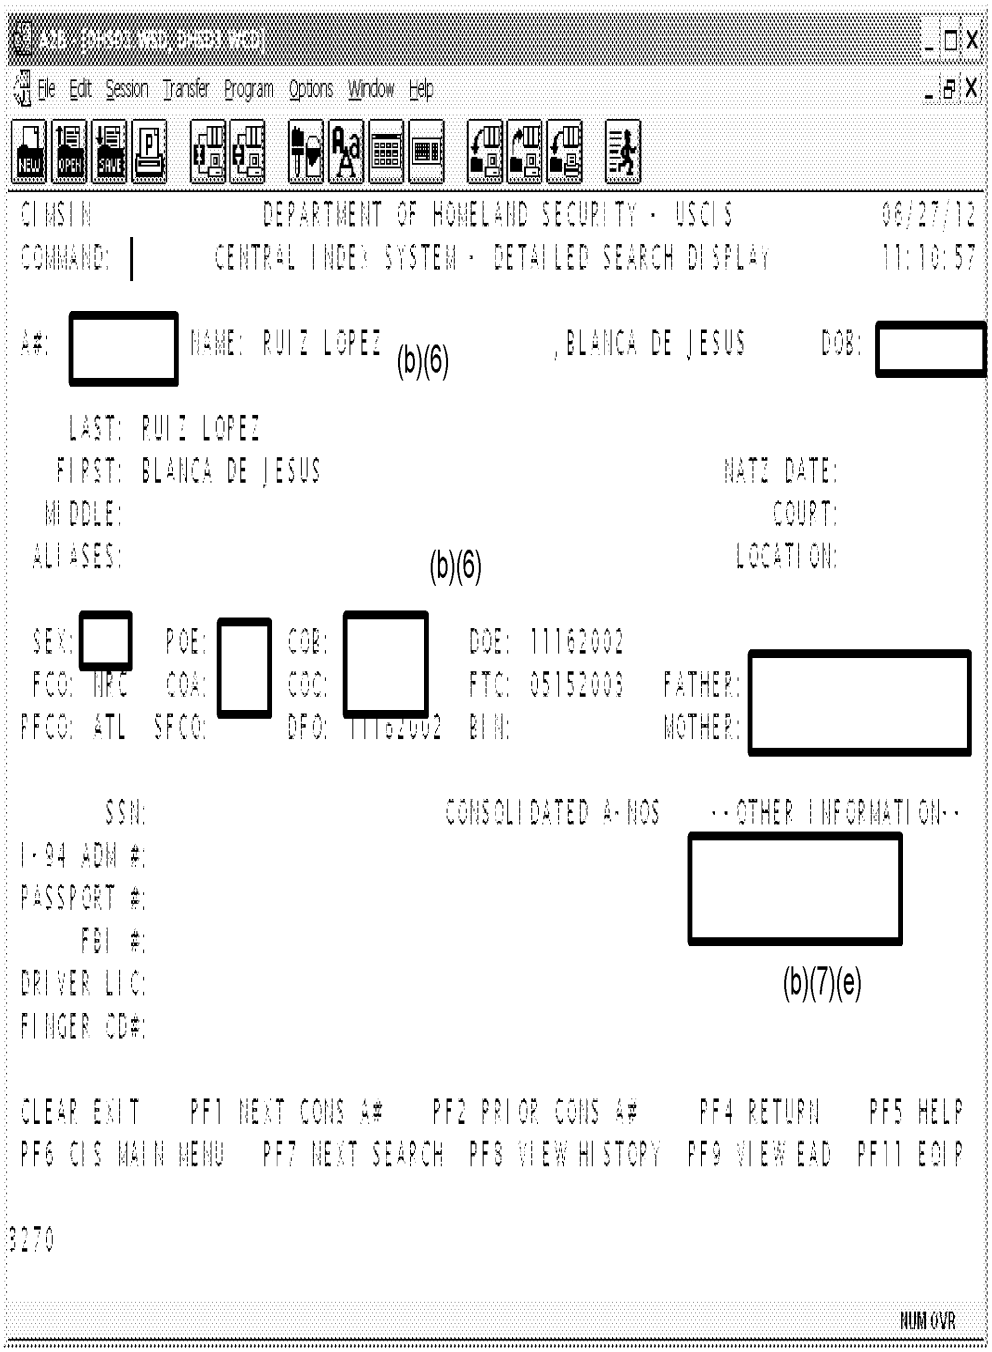


F9 and – wait for it –



Got her –

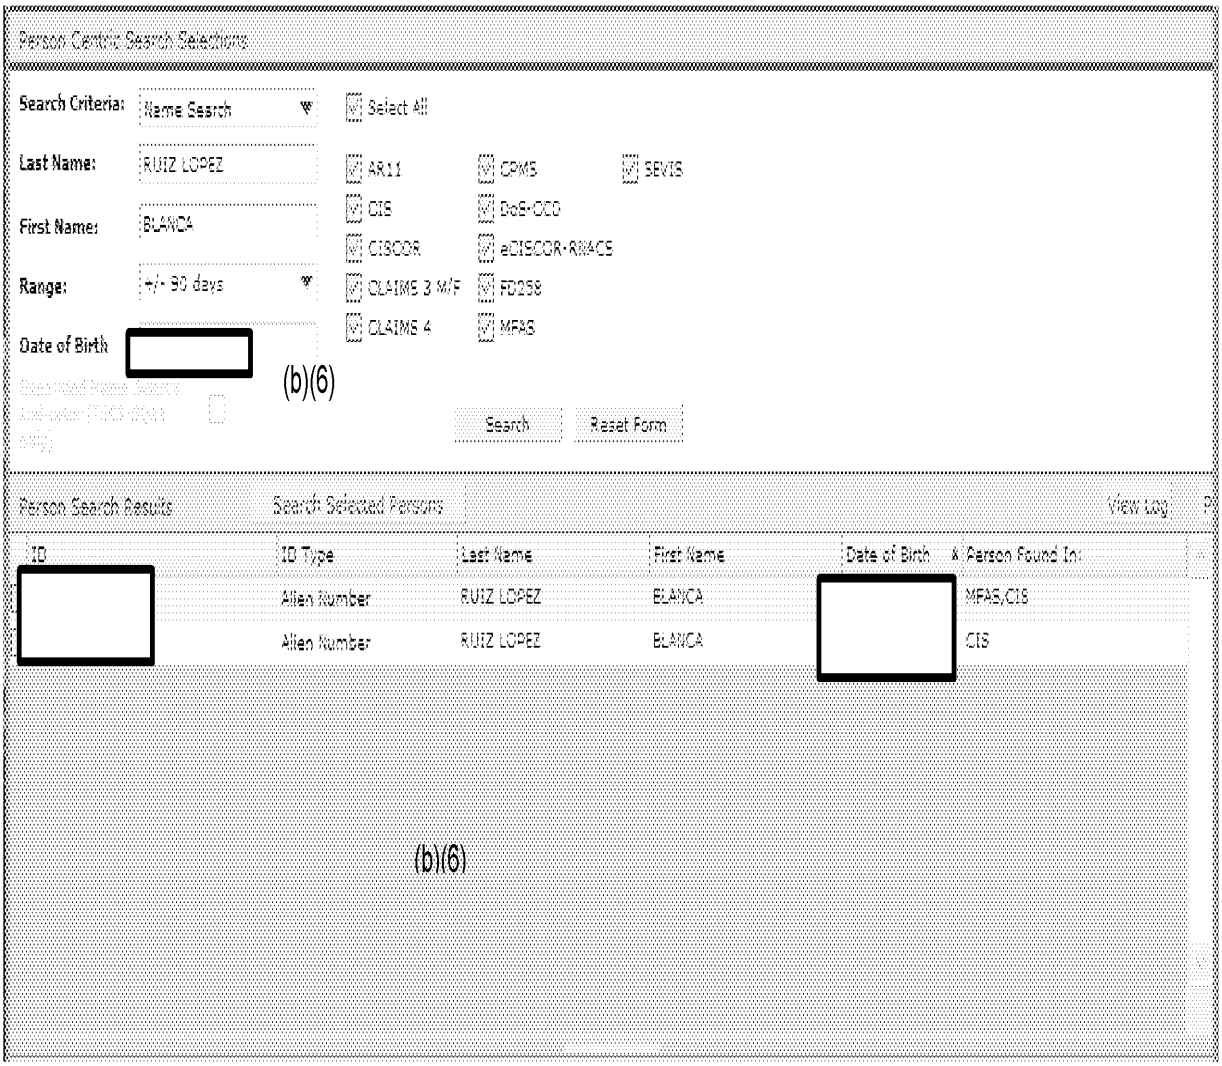
- Garbage In – Garbage Out: Her first and middle names were entered as her first name.
- Mother's name was Blanca and father's name was Marco.
- A quick word about Chinese names – the two given names constitute a first name.



PCQS did NOT find her:

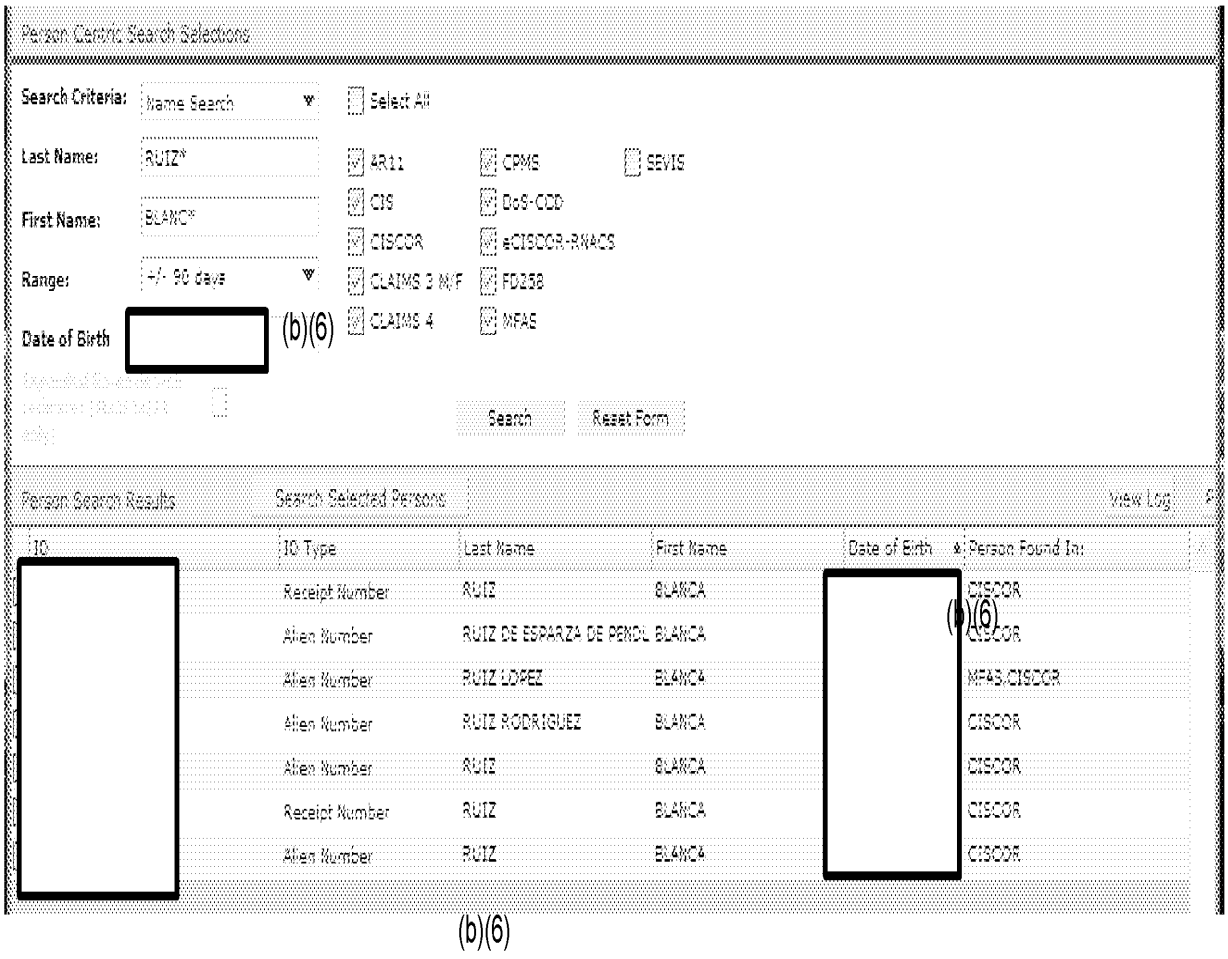
The person PCQS found *does not* have the same DOB, and the mother's and father's names are different.

(b)(6)



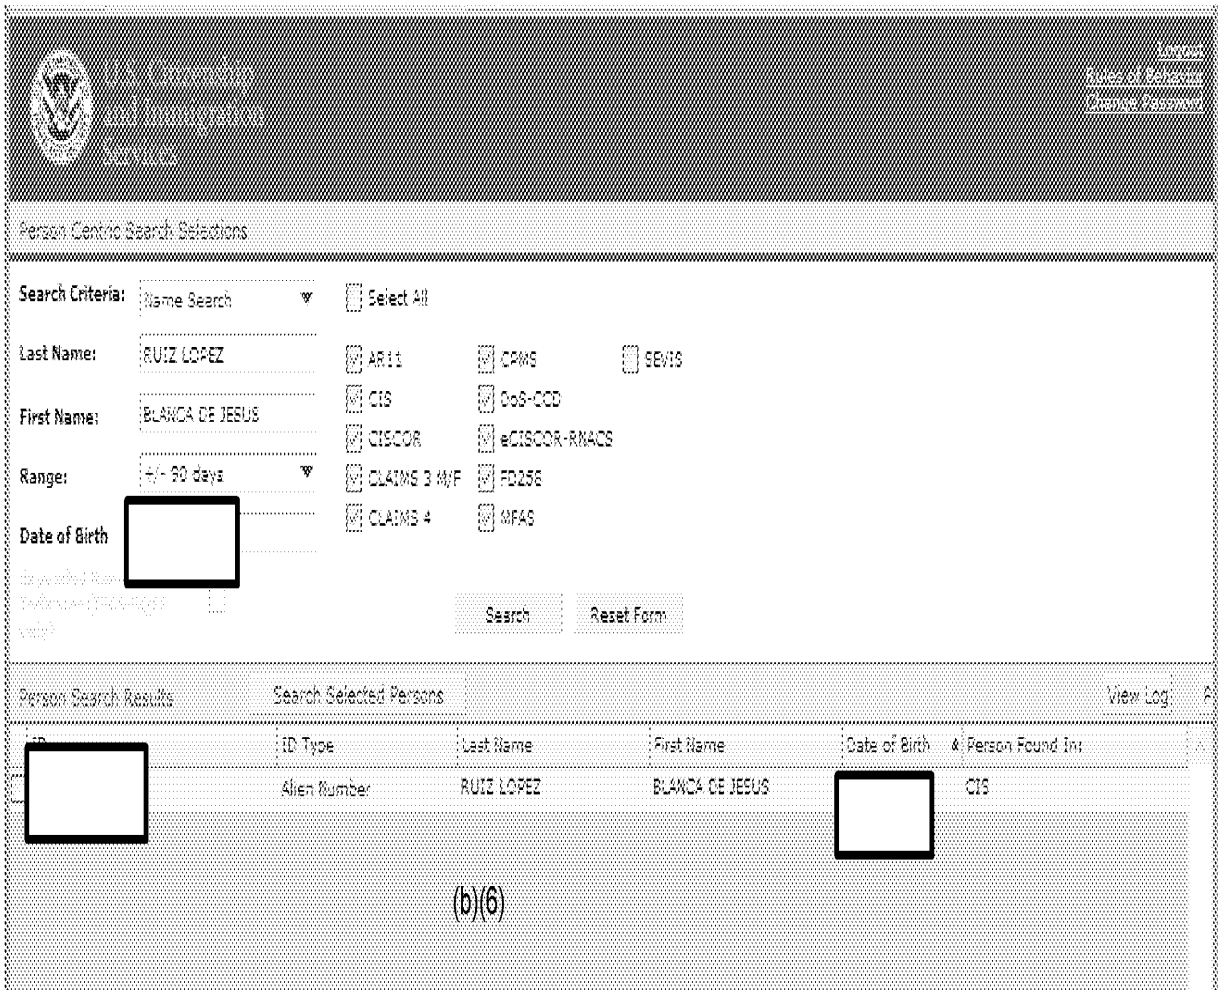
With wildcards, PCQS did not find her:

Again, PCQS found people with names like her, but a check of those records would convince you that it's a different person.



But if I search her exact name:

(b)(6)



Why did CIS find her but PCQS almost didn't? PCQS does a better job of searching for receipts – unless you have the exact name.

Case Study # 4

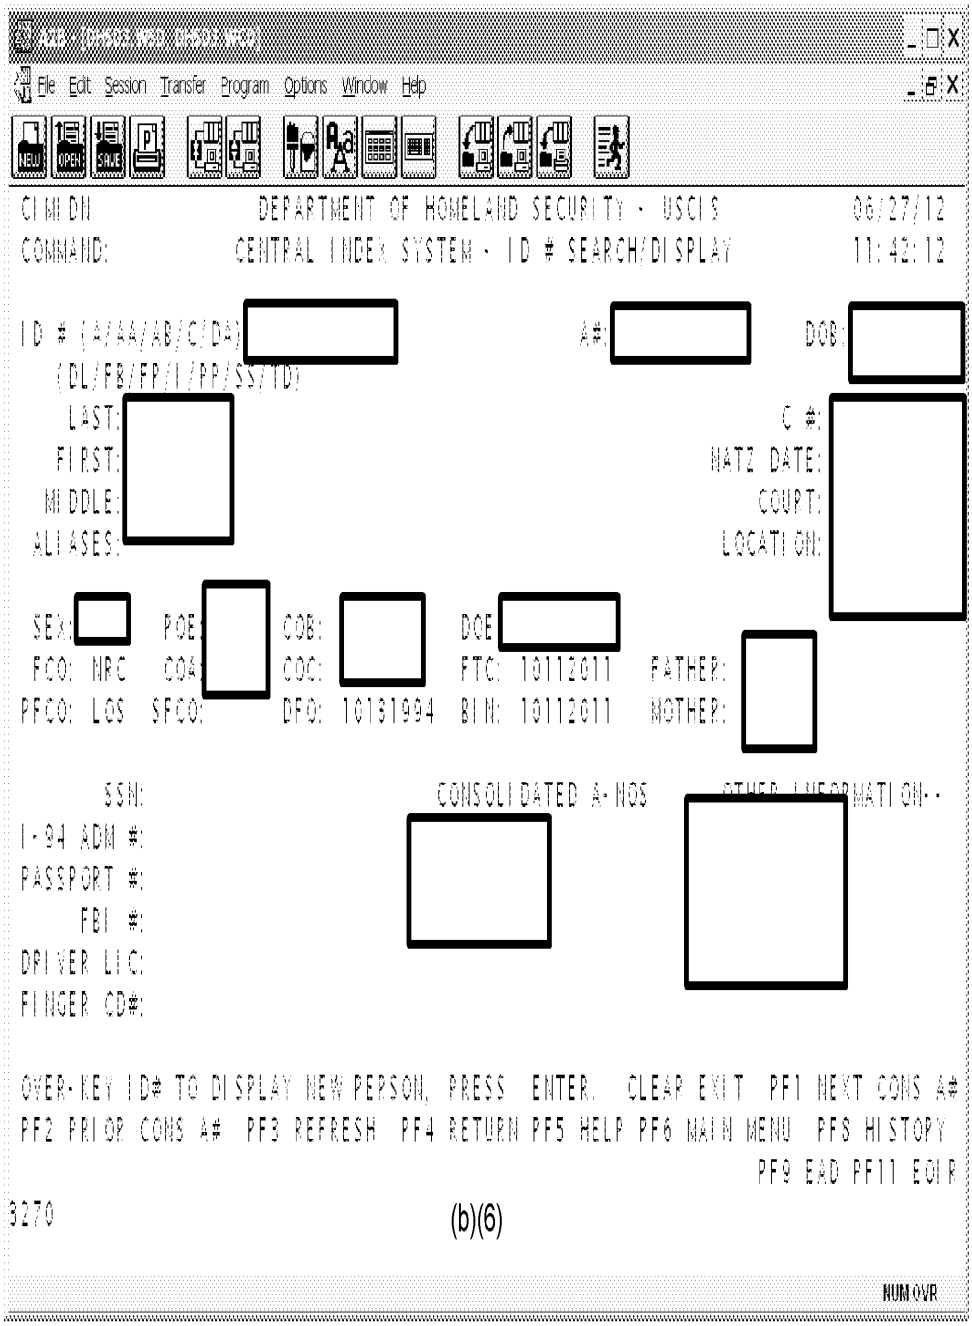
- Last name Dang
- First name Khanh
- Middle name Van
- Born [redacted]
- Gave us [redacted] (b)(6)
- Father's name [redacted]
- Mother's name [redacted]
- In this case study, we will learn 2 up, 2 down and DOB range

For Official Use Only - USCIS FOIA Program Office

First, try the A-Number

(b)(6)

- (b)(6) [redacted] was her mother's name! By comparing the request, we can figure out this is probably her mother's A-Number.
- What should we do next?



(b)(6)

9103

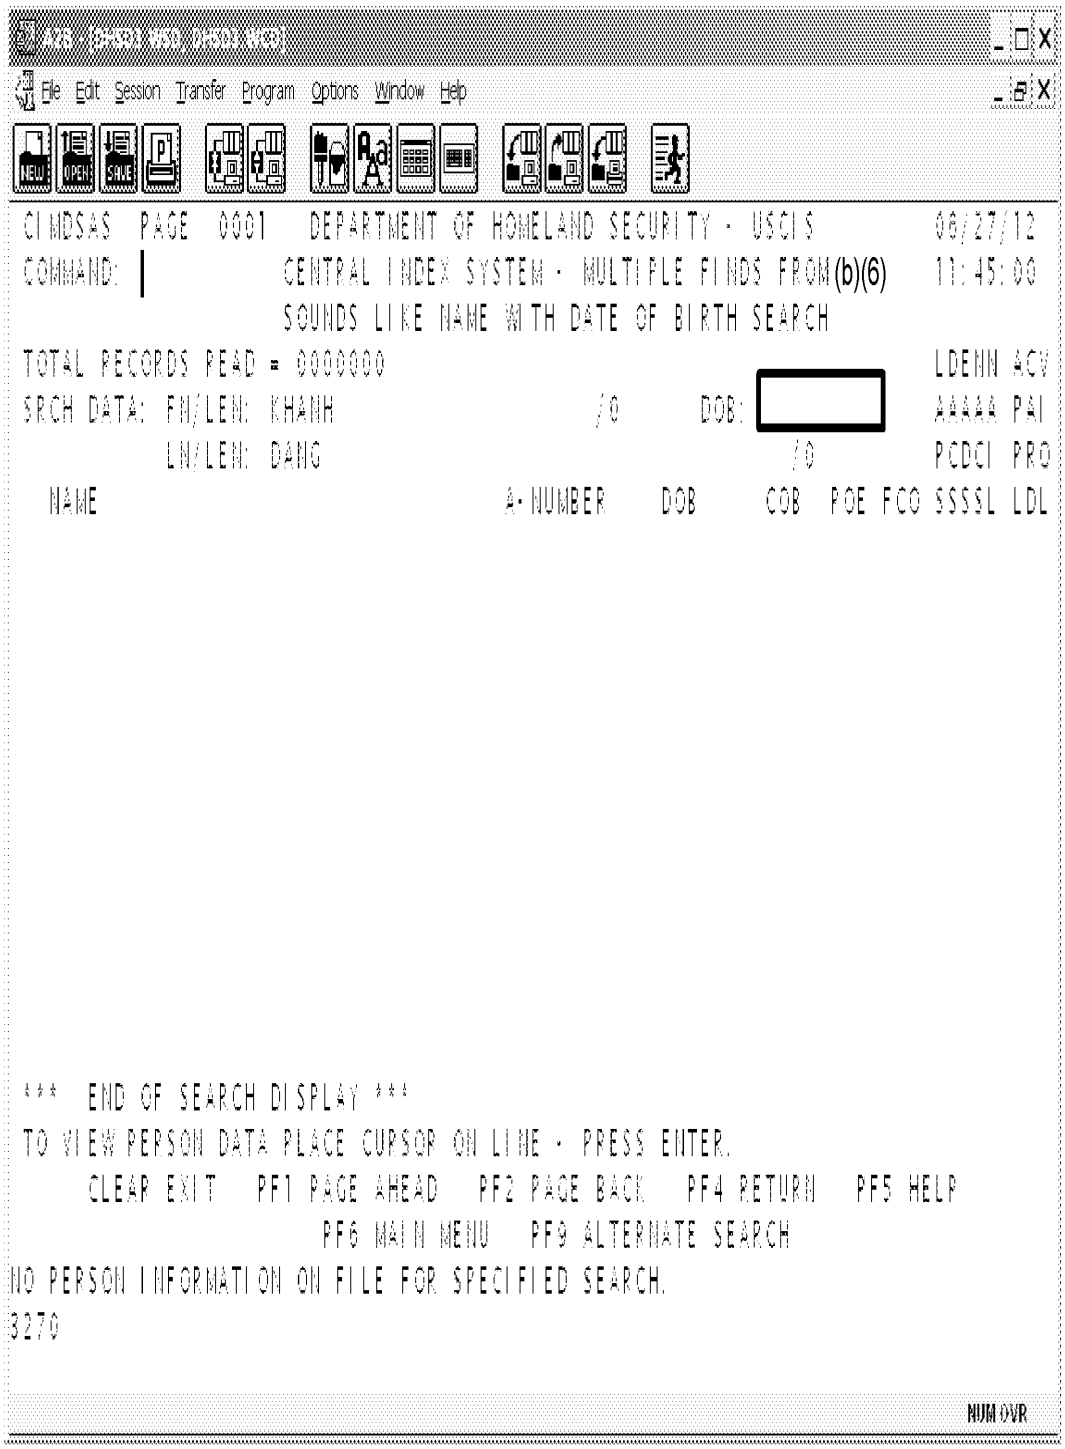
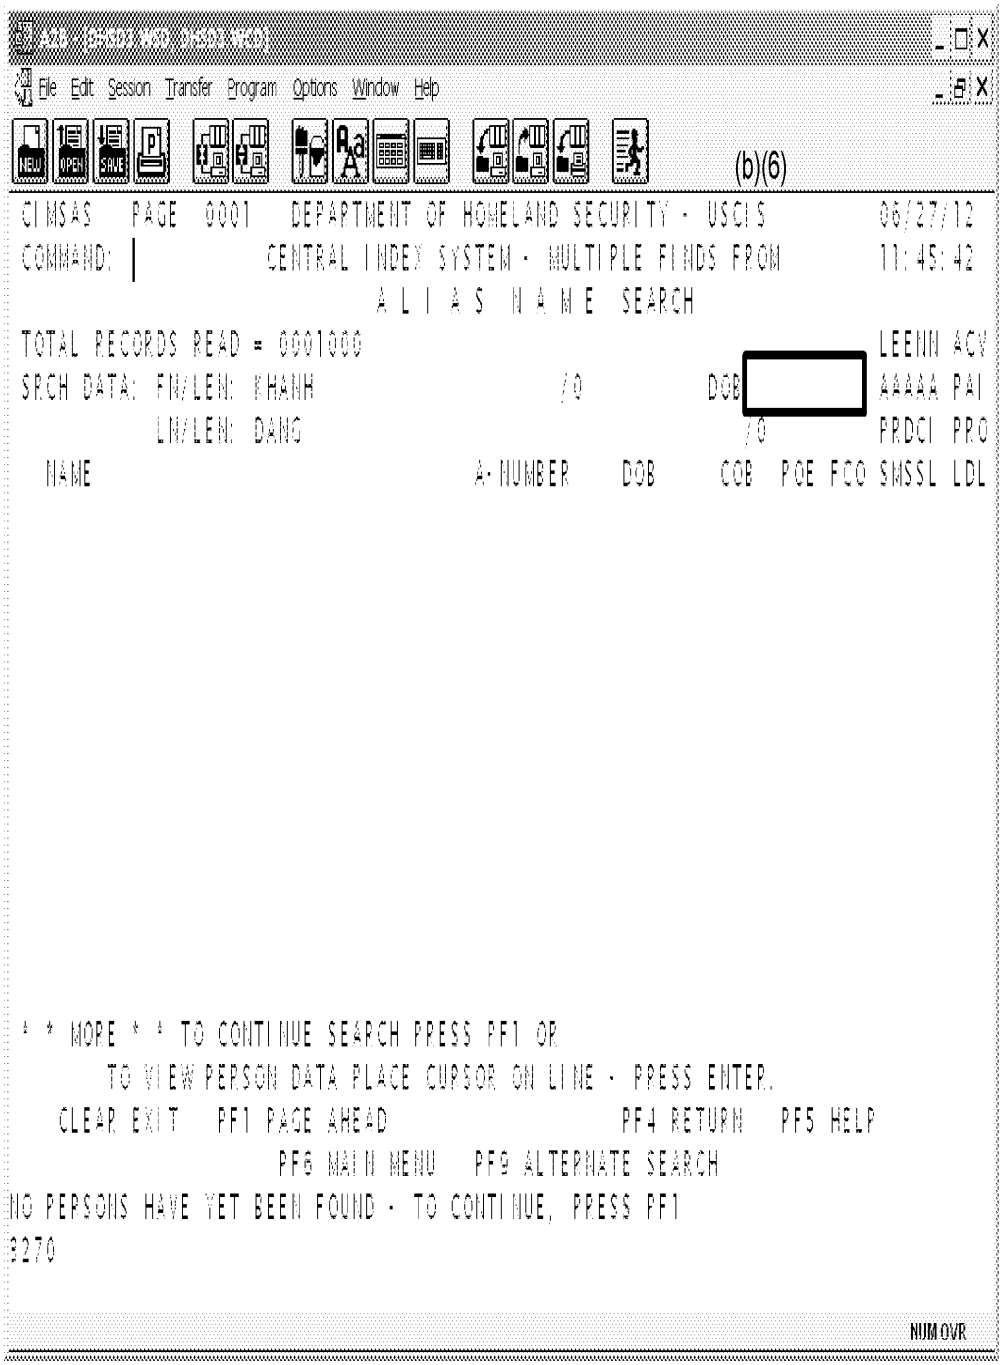
F9 for Sounds Like



F9 again for aliases:

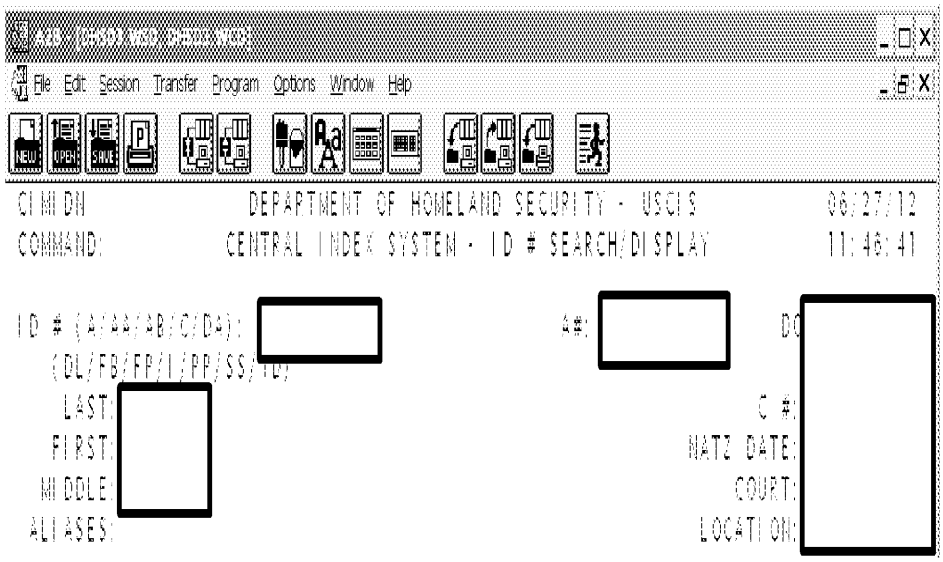
And we did not find her.



2 up

(b)(6)

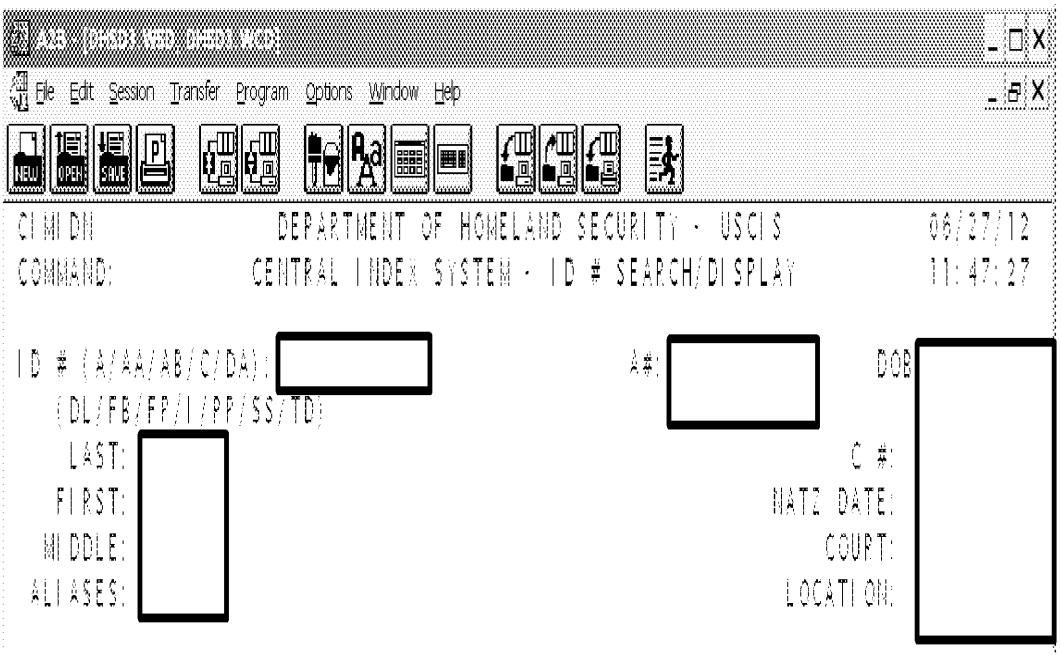
This is nobody related:



(b)(6)

(b)(6)

was her father's name! This looks good. We'll try 2 down now.



For Official Use Only - USCIS FOIA Program Office

(b)(6)

2 down

These two are not the right person, but we found a pattern!!

Dad was [redacted]

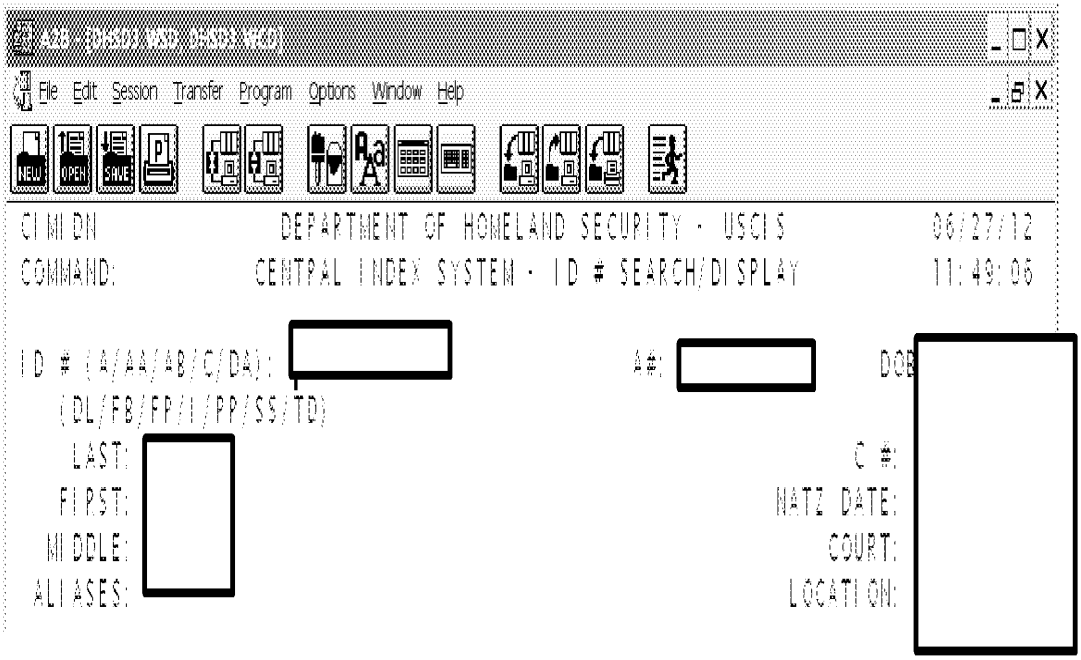
(b)(6)

Mom was [redacted]

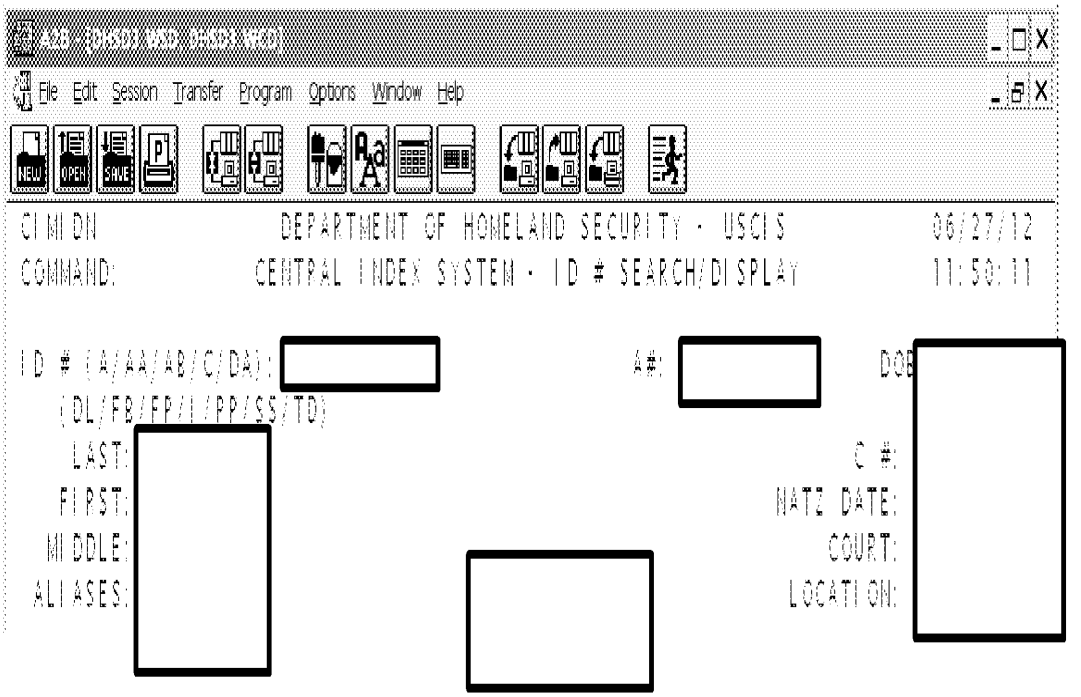
Child born in [redacted] is [redacted]

Child born in [redacted] is [redacted]

Let's try one more!!



(b)(6)



For Official Use Only - USCIS FOIA Program Office

(b)(6)

1 more down and –

She gave us an alias, Khanh Van Dang.

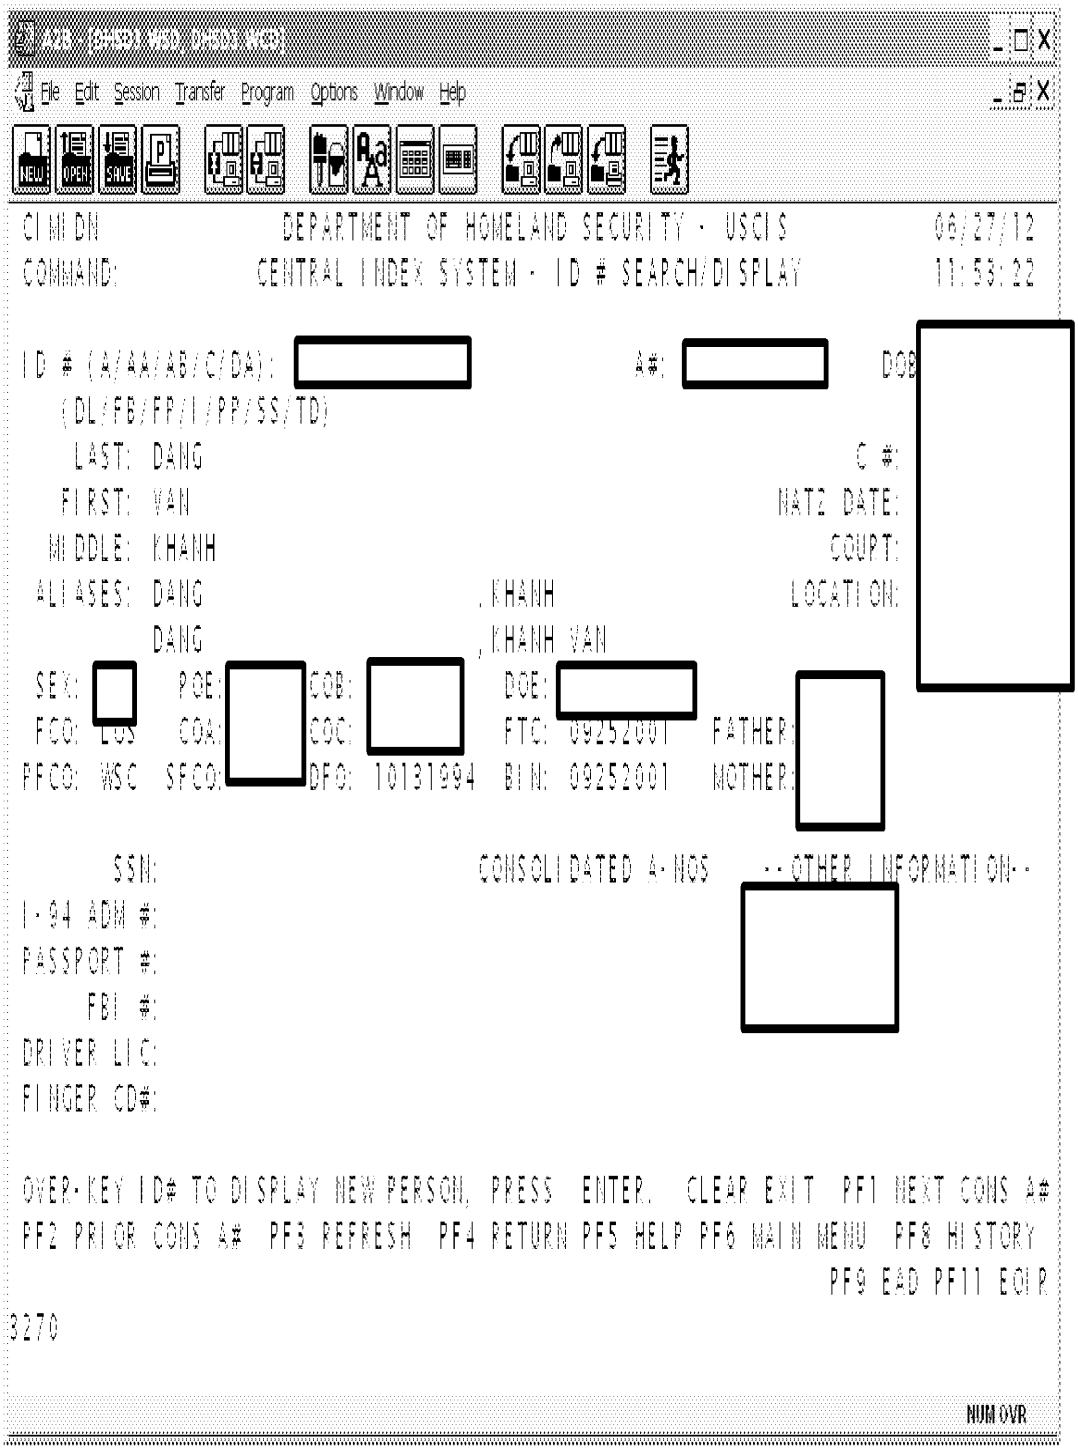
She gave us a DOB of [redacted]

(b)(6)

That's one year different exactly.

It would be hard to find by name search.

She has a fairly common name.



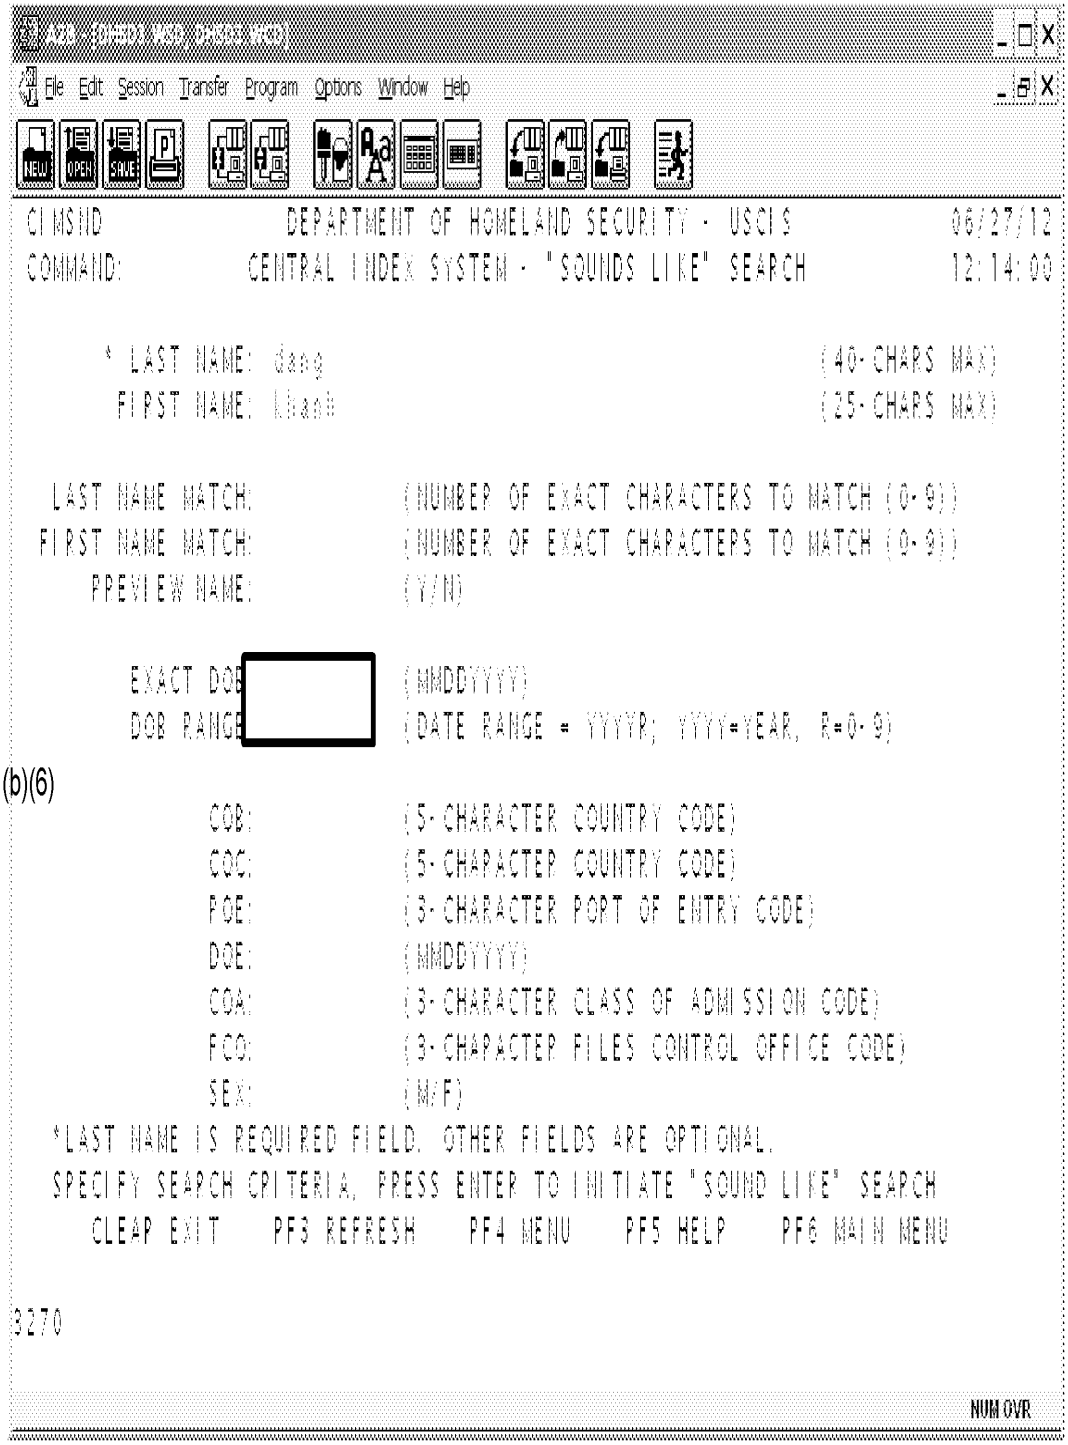
(b)(6)

For Official Use Only - USCIS FOIA Program Office

(b)(6)

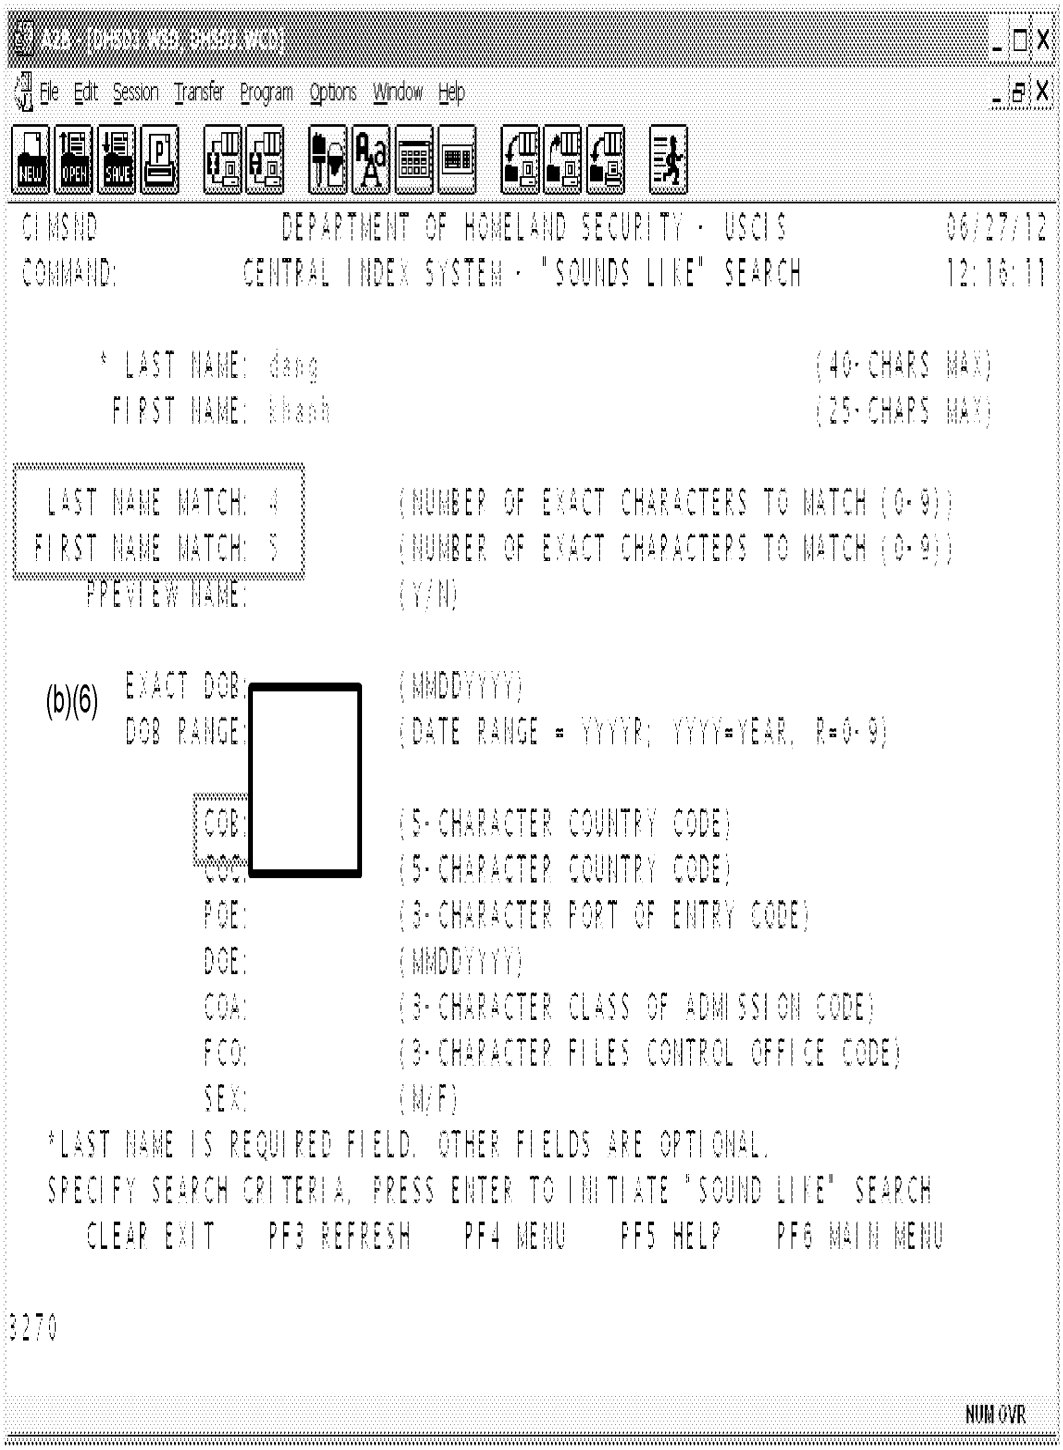
We could have tried 9102

This search has too many wild cards.
We will get hundreds of possible matches.



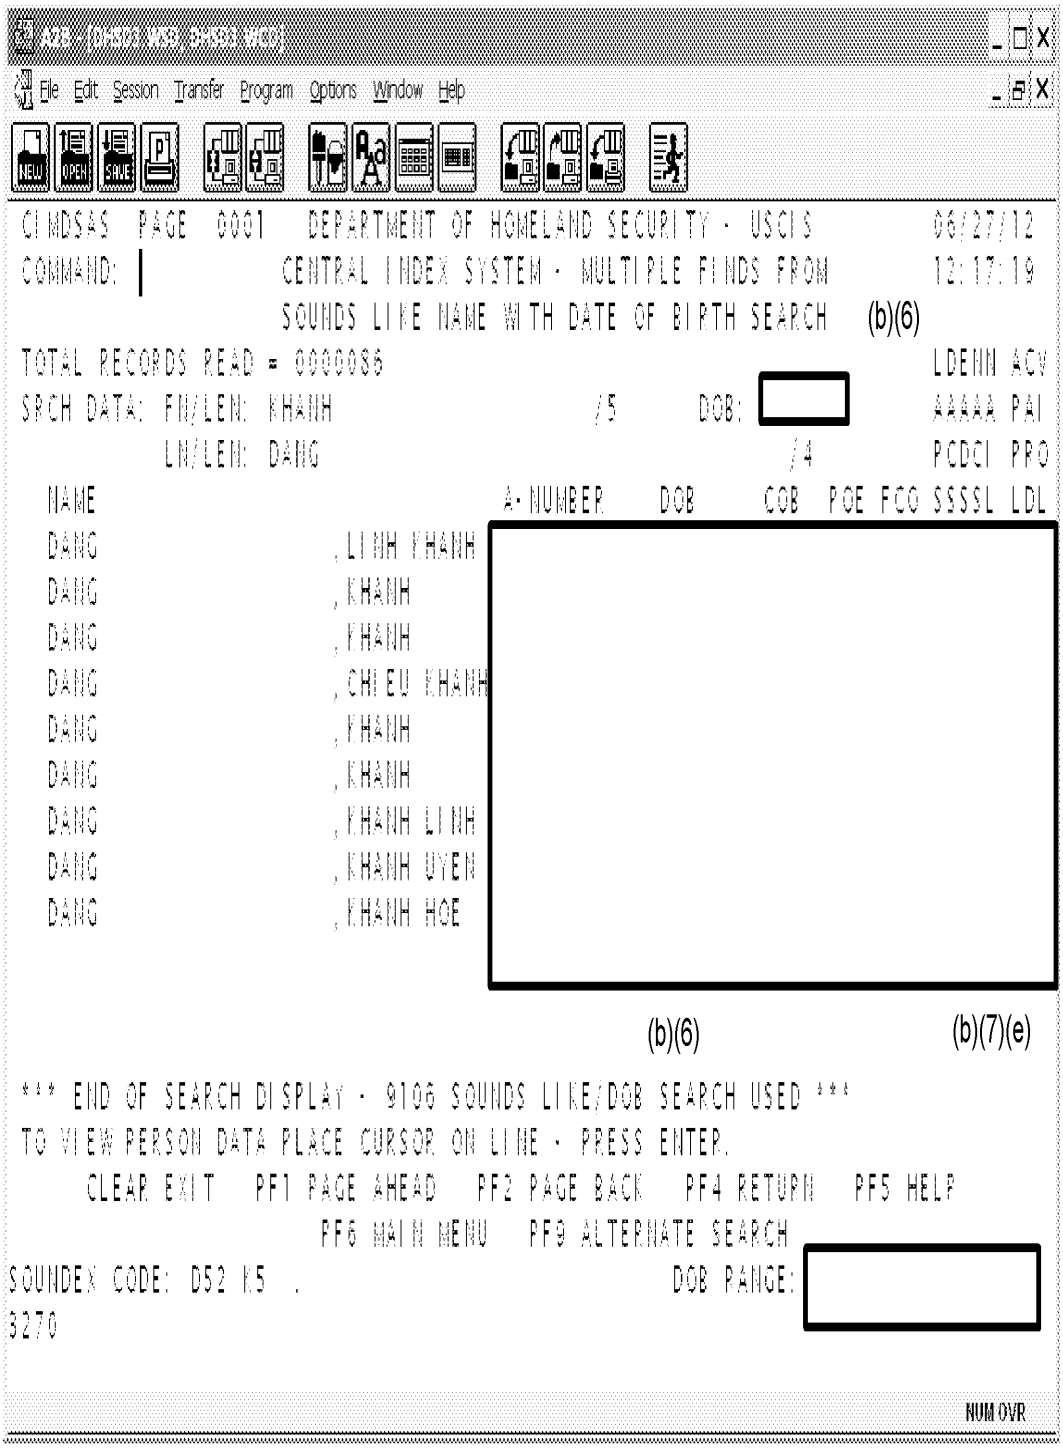
Exact Character Match/COB

Because I know this is a fairly common name, I can specify number of exact characters to match and specify COB.



“Sounds-like” did not find her

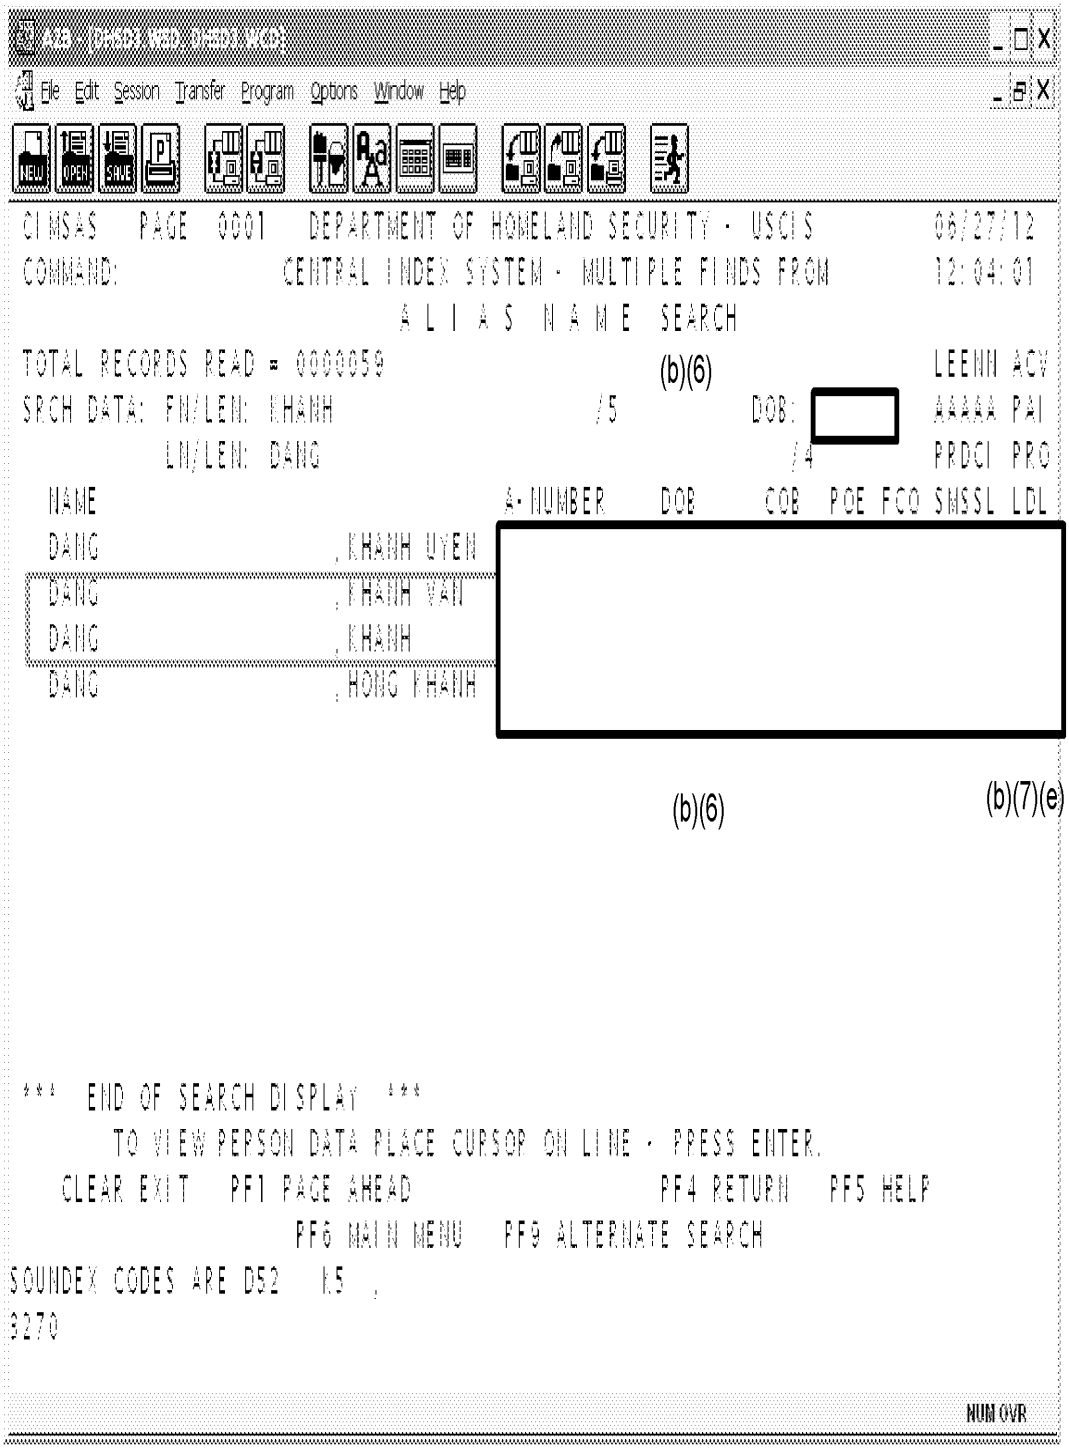
In my experience, if the month, day and year are all off, it’s never the right person. We might come back to this, but ***let’s try aliases*** first, just in case we get something.



For Official Use Only - USCIS FOIA Program Office

And we found her the long way:

CIS lists her possible aliases as Khanh Van and Khanh (by itself). Also, we see the DOB is exactly one year off.
By selecting the second or third line, we can verify that it's her.



Discussion

- In a situation like that, we must add a discussion, something like this:

(b)(6)

CP

Subject provided DOB [redacted] CIS DOB is [redacted] Subject provided [redacted] Subject's record appears to be [redacted] Father's and mother's name match, COB matches, and the A-Number was 3 away from the one he provided. Please verify the file relates to the subject. Thank you.

Lost in the System

- We could have easily gotten lost with our example from [redacted] (b)(6)
- If you have a fairly common name, try to limit your variables and don't look at every possible match.
- If a person lists several aliases and dates of birth, we can do 9102 with F9 for each of them, but we should move on if we do not have a really good match.

For Official Use Only - USCIS FOIA Program Office

Questions?

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

Objective

- To define Verification of Identity by 6 C.F.R. § 5.21(d)
- To define Certification of Agreement to Release Information by 6 C.F.R. § 5.21(d)

U.S. Citizenship and Immigration Services

Verification of Identity

- The following is an excerpt from the Instructions for Form G-639:
  - **Verification of Identity by Mail:**
  - Requesters wanting access to their records must identify themselves by name, current address, date of birth and place of birth.
  - The subject of the record must also provide a notarized signature or an unsworn declaration under penalty of perjury (Form G-639 may also be used).

U.S. Citizenship and Immigration Services

Verification of Identity:

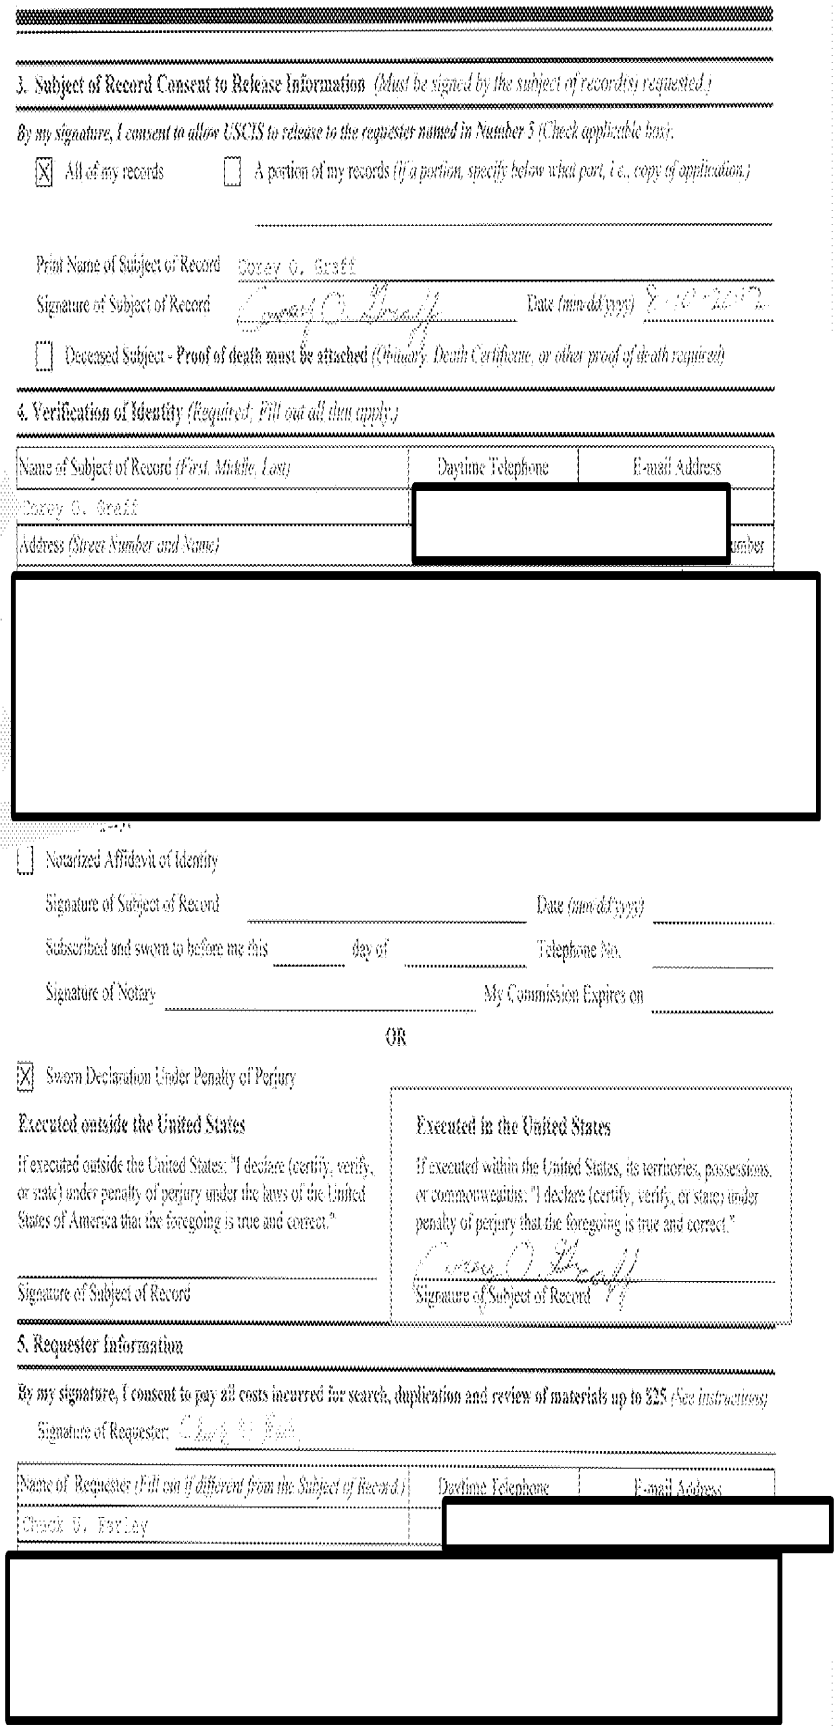
- 6 CFR § 5.21(d) says you must provide us:
  - Full Name
  - Mailing address
  - Date of Birth
  - Place of Birth

- And it also says: You must sign your request and your signature must either be notarized or submitted by you under 28 U.S.C. 1746 *(penalty of perjury in lieu of notarized signature)*.

U.S. Citizenship and Immigration Services

VOI

- Name
- Address
- Date of Birth
- Place of Birth
- Proper signature



3. Subject of Record Consent to Release Information *(Must be signed by the subject of record(s) requested.)*

By my signature, I consent to allow USCIS to release to the requester named in Number 5 (Check applicable box):

☒ All of my records ☐ A portion of my records *(If a portion, specify below what part, i.e., copy of application.)*

Print Name of Subject of Record: Corey C. Graff

Signature of Subject of Record: [signature] Date *(mm-dd-yyyy)*: 8-10-2012

☐ Deceased Subject - **Proof of death must be attached** *(Obituary, Death Certificate, or other proof of death required)*

4. Verification of Identity *(Required. Fill out all that apply.)*

Name of Subject of Record *(First, Middle, Last)*	Daytime Telephone	E-mail Address

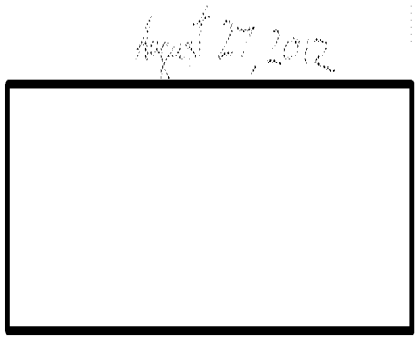
Form G-639 (01/29/12) N Page 2

U.S. Citizenship and Immigration Services

Other documents:

(b)(6)



August 27, 2012

To whom it may concern,

Please send a copy of my file. My name is Corey O. Graff, I was born in [redacted] and my date of birth is [redacted]. I declare under penalty of perjury that the information I provided is true and correct.

Corey O. Graff

(b)(6)

- If the G-639 is not correctly filled out, look for other documents that would fulfill the CFR requirements.
- This letter is good enough.

U.S. Citizenship and Immigration Services

Citing the law is enough

- The law that permits unsworn statements under penalty of perjury is 28 U.S.C. § 1746.
- The person does not have to use the words “I declare under penalty of perjury that the foregoing is true and correct.”
- The person could say “I declare this to be true under the provisions of 28 U.S.C. 1746,” and we will accept it.

U.S. Citizenship and Immigration Services

Privacy Act / FOIA

- 6 CFR § 5.21(d) specifically deals with Privacy Act requests, doesn't it?
- Yes, but the FOIA requester gets referred right back to the PA section -
- 6 CFR § 5.3 (Requirements for making a FOIA request): If you are requesting records about yourself or another individual, you have to meet the requirements of section 5.21(d).

U.S. Citizenship and Immigration Services

Verification of Guardianship

6 CFR § 5.21(e)

1. A parent or guardian must establish the identity of the subject of record with name, address, date of birth and place of birth.
2. The parent or guardian must prove the relationship by providing a birth certificate or a court order that establishes parenthood or guardianship.
3. Finally, the parent or guardian must establish that they are acting on behalf of the individual by making the request.

U.S. Citizenship and Immigration Services

VOI is important

- Plaintiff has the burden of demonstrating that an unauthorized disclosure by the agency has occurred.
- If we have no VOI signature, the plaintiff has a sound legal basis for claiming we made an unauthorized disclosure.

U.S. Citizenship and Immigration Services

Inadequate Verification of Identity?

- You may not have good Verification of Identity when you open a case.
- When you are processing, you should
  - create a Discussion,
  - copy the Discussion to an e-mail to your supervisor, with the subject of the e-mail being the NRC case number, then
  - send the case to Records Locator.
- Don't process unless you have VOI. If the requester does not respond, the case will close as FC, and your supervisor will return the case for you to remove all redactions.

U.S. Citizenship and Immigration Services

What is Certification of Agreement?

- Consent (generally) Agreement, approval or permission as to some act or purpose, esp. given voluntarily by a competent person. (Black's Law Dictionary)

- 6 CFR § 5.21(f): If you are making a request for records concerning an individual ... You must also provide a statement from the individual *certifying the individual's agreement* that records concerning the individual may be released to you.

- 5 U.S.C. § 552a(b) No agency shall disclose any record ... except pursuant to a **written** request by, or with the prior **written** consent of, the individual to whom the record pertains.

U.S. Citizenship and Immigration Services

Certification of Agreement

- If the requester is not the same as the subject of record, Block 3 of Form G-639 is Agreement to Release Information.

- **Does the requester have to agree to release of information?** Maybe.

  If the record is about a person, and if somebody besides that person is the requester, then yes. 6 CFR § 5.21(f) says: If you are making a request for records concerning an individual on behalf of that individual, you must provide a statement from the individual certifying the individual's agreement that records concerning the individual may be released to you. But – a self-requester does not have to sign an agreement with himself or herself to obtain his or her own record.

U.S. Citizenship and Immigration Services

Can that be a handwritten note?

- Yes. The CFR does not require the subject of record to sign consent on the G-639.
- The subject of record could provide a separate statement certifying agreement to release information to the other person.

U.S. Citizenship and Immigration Services

Can Agreement be a Form G-28?

- Yes.
- On Form G-28, at the place where the Subject of Record signs, is the following statement:
  - Pursuant to the Privacy Act of 1974 and DHS policy, I hereby consent to the disclosure to the named Attorney or Accredited Representative of any record pertaining to me that appears in any system of records of USCIS, USCBP, or USICE.
- Certification of Agreement does not have to be on Form G-28. It could be on the G-639 or it could be a separate, signed piece of paper giving us permission to release the file to an attorney (or whatever third party).

U.S. Citizenship and Immigration Services

Must an attorney use Form G-28?

- Not for FOIA. If an attorney is representing a person for an immigration benefit petition or application, the attorney must submit Form G-28 along with it.
- Some attorneys submit a G-28 along with the FOIA request because they treat the FOIA the same as an immigration petition or application.
- It's possible some attorneys do not know USCIS does not require a Form G-28 for a FOIA request.
- But it doesn't hurt. A properly signed G-28 gives us adequate certification of agreement to release records.

U.S. Citizenship and Immigration Services

Agreement and Attorneys of Record

- 3rd, 5th, 8th, 9th, 10th, 11th and DC Circuits, as well as the Supreme Court, have all held that no unauthorized disclosure under the Privacy Act has occurred if the communication is to a person who is already aware of the information.
- On the other hand, the DC Circuit has found that "Implied consent is never enough." (Taylor v. Orr, 1983).

U.S. Citizenship and Immigration Services

G-28 in the File

- We used to say "if it's the same attorney, and if there's a G-28 in the file ..."
- Now we say "you must have agreement to release under FOIA for the file you are processing right now."
  - First: OMB Guidelines caution that "the consent provision was not intended to permit a blanket or open-ended consent clause."
  - Second: Perry v. FBI (1985), disclosure can be upheld if consent is not vague or general, and if [plaintiff] knew what he was authorizing.
- The chances we'd get sued might be small, but if it did happen, we would have no legal defense for releasing

U.S. Citizenship and Immigration Services

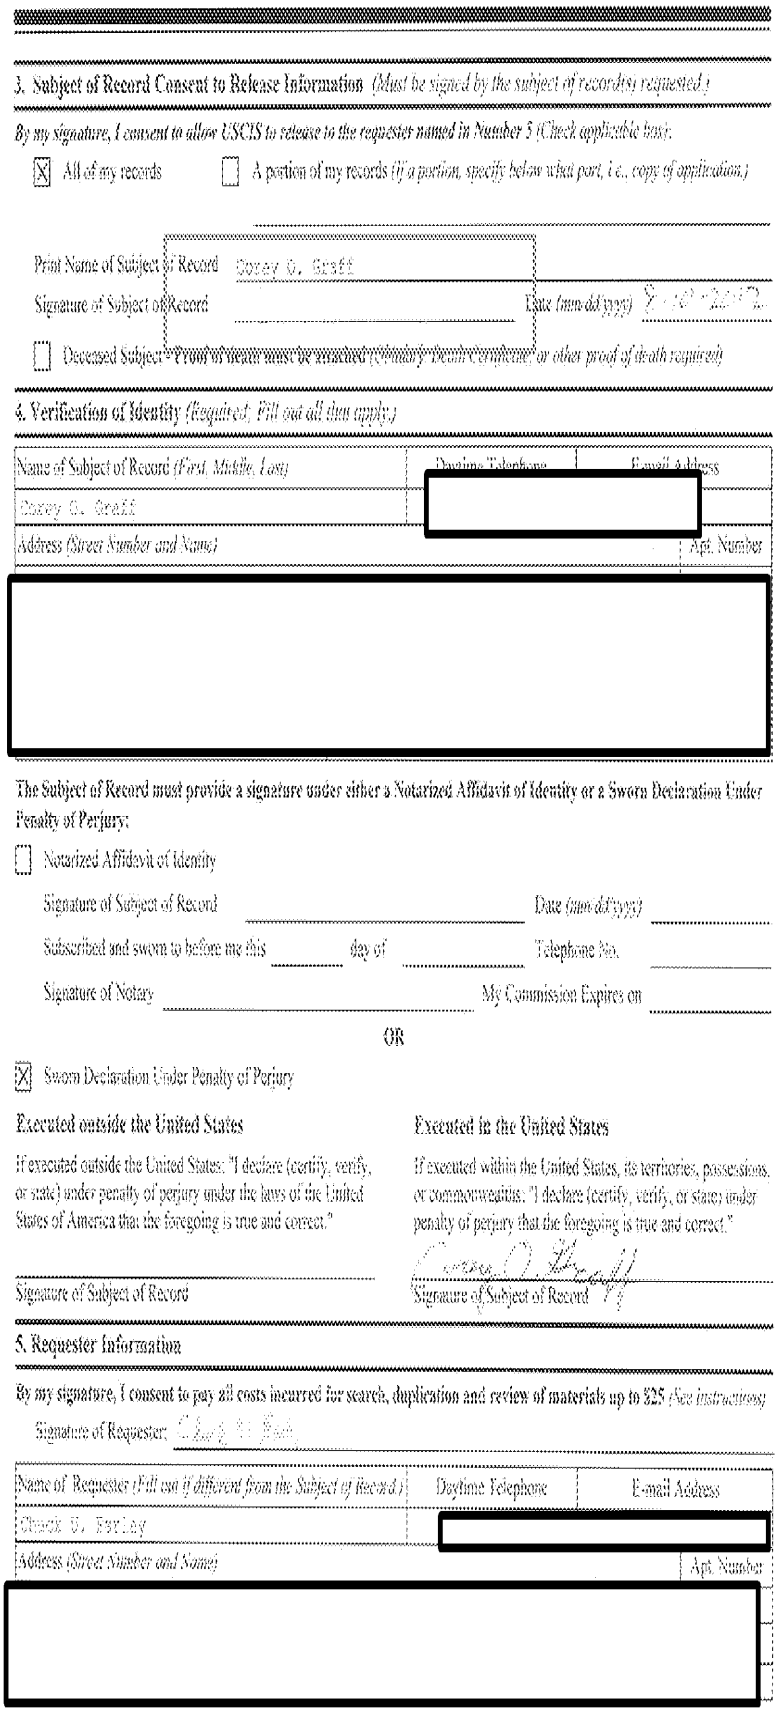
Missing?

- If you do not see a signature permitting us to release information to the requester, always look for a G-28 or something else that permits release.

- If there's nothing else there, you do not have adequate certification of agreement.

(b)(6)

(b)(6)



3. Subject of Record Consent to Release Information *(Must be signed by the subject of record(s) requested.)*

By my signature, I consent to allow USCIS to release to the requester named in Number 5 (Check applicable box):

[X] All of my records [ ] A portion of my records *(If a portion, specify below what part, i.e., copy of application.)*

Print Name of Subject of Record: Corey C. Graff

Signature of Subject of Record: _____ Date *(mm-dd-yyyy)*: 8-10-2012

[ ] Deceased Subject *Proof of death must be attached (e.g., notary record, coroner, or other proof of death required)*

4. Verification of Identity *(Required. Fill out all that apply.)*

Name of Subject of Record *(First, Middle, Last)*	Daytime Telephone	E-mail Address
Corey C. Graff	[redacted]	
Address *(Street Number and Name)*		Apt. Number
[redacted]		

The Subject of Record must provide a signature under either a Notarized Affidavit of Identity or a Sworn Declaration Under Penalty of Perjury:

[ ] Notarized Affidavit of Identity

Signature of Subject of Record _____ Date *(mm-dd-yyyy)* _____

Subscribed and sworn to before me this _____ day of _____ Telephone No. _____

Signature of Notary _____ My Commission Expires on _____

OR

[X] Sworn Declaration Under Penalty of Perjury

Executed outside the United States

If executed outside the United States: "I declare (certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct."

_____

Signature of Subject of Record

Executed in the United States

If executed within the United States, its territories, possessions, or commonwealths: "I declare (certify, verify, or state) under penalty of perjury that the foregoing is true and correct."

Corey C. Graff

Signature of Subject of Record

5. Requester Information

By my signature, I consent to pay all costs incurred for search, duplication and review of materials up to $25 (See instructions)

Signature of Requester: Chuck D. Farley

Name of Requester *(Fill out if different from the Subject of Record.)*	Daytime Telephone	E-mail Address
Chuck D. Farley	[redacted]	
Address *(Street Number and Name)*		Apt. Number
[redacted]		

Form G-639 (01/29/12) N Page 3

U.S. Citizenship and Immigration Services

You need both signatures:

- We used to say "the subject would never have signed VOI if he or she did not want to send the file to the attorney."
- Even though that logic is *probably* good, we would have no legal standing if a person ever claimed he or she did not want us to release the information to the attorney (or whatever third party).
- If this is an attorney request, or any third party request, we must have both a VOI signature and a certification of agreement signature. On a G-639, that's two signatures.
- If they include all VOI information and certification of agreement information in a single letter, and sign under perjury or sign notarized, that will fulfill all the requirements.

U.S. Citizenship and Immigration Services

It could happen

- Owens v. Merit Systems Protection Board – Owens' attorney filed a FOIA. Later, Owens ended his relationship with the attorney. MSPB sent the responsive record to the ex-attorney. Owens noted he had signed verification of identity, but not consent, and filed suit.
- The court eventually found in favor of MSPB: Mailing of the agency decision affirming employee's removal to his former attorney was held not to be a "disclosure" under the Privacy Act, as the "attorney was familiar with the facts of [the employee]'s claim" and "no new information was disclosed to him."
- BUT – that litigation took time, and it was expensive.

U.S. Citizenship and Immigration Services

Two

(b)(6)

3. Subject of Record Consent to Release Information *(Must be signed by the subject of record(s) requested.)*

By my signature, I consent to allow USCIS to release to the requester named in Number 5 (Check applicable box):

☒ All of my records ☐ A portion of my records *(If a portion, specify below what part, i.e., copy of application.)*

Print Name of Subject of Record: Corey C. Graff

Signature of Subject of Record: Corey C. Graff Date *(mm-dd-yyyy)*: 8-10-2012

If Deceased Subject - Proof of death must be attached *(Original Death Certificate, or other proof of death required)*

4. Verification of Identity *(Required. Fill out all that apply.)*

Name of Subject of Record *(First, Middle, Last)*	Daytime Telephone	E-mail Address
Corey C. Graff	[redacted]	
Address *(Street Number and Name)*		Apt. Number
[redacted]		

The Subject of Record must provide a signature under either a Notarized Affidavit of Identity or a Sworn Declaration Under Penalty of Perjury:

☐ Notarized Affidavit of Identity

Signature of Subject of Record _____ Date *(mm-dd-yyyy)* _____

Subscribed and sworn to before me this _____ day of _____ Telephone No. _____

Signature of Notary _____ My Commission Expires on _____

OR

☒ Sworn Declaration Under Penalty of Perjury

Executed outside the United States

If executed outside the United States: "I declare (certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct."

Signature of Subject of Record

Executed in the United States

If executed within the United States, its territories, possessions, or commonwealths: "I declare (certify, verify, or state) under penalty of perjury that the foregoing is true and correct."

Signature of Subject of Record: Corey C. Graff

5. Requester Information

By my signature, I consent to pay all costs incurred for search, duplication and review of materials up to $25 *(See instructions)*

Signature of Requester: Chuck B. Farley

[redacted]		

U.S. Citizenship and Immigration Services

I-129F, I-130, I-140, & affidavits of support:

- If they have not been consolidated into the beneficiary's A-file, the petitioner may have a copy without the beneficiary's certification of agreement.
- If they have been consolidated into the beneficiary's A-file, the petitioner must have the beneficiary's certification of agreement.

U.S. Citizenship and Immigration Services

Inadequate Certification of Agreement?

- You may not have certification of agreement when you open a case.
- When you are processing, you should
  1. Change the case category to "Third Party No Agreement."
  2. Go to Tasks, click Final Action Letter and choose code TD-Total Denial.
  3. Paste in the Total Denial letter language.
  4. Add a discussion, "Third Party, No Agreement."
  5. Send the case to an approver. – Case approver if you are processing, Up-front approver if you are creating.
- Processors - do not make any redactions to the responsive record.

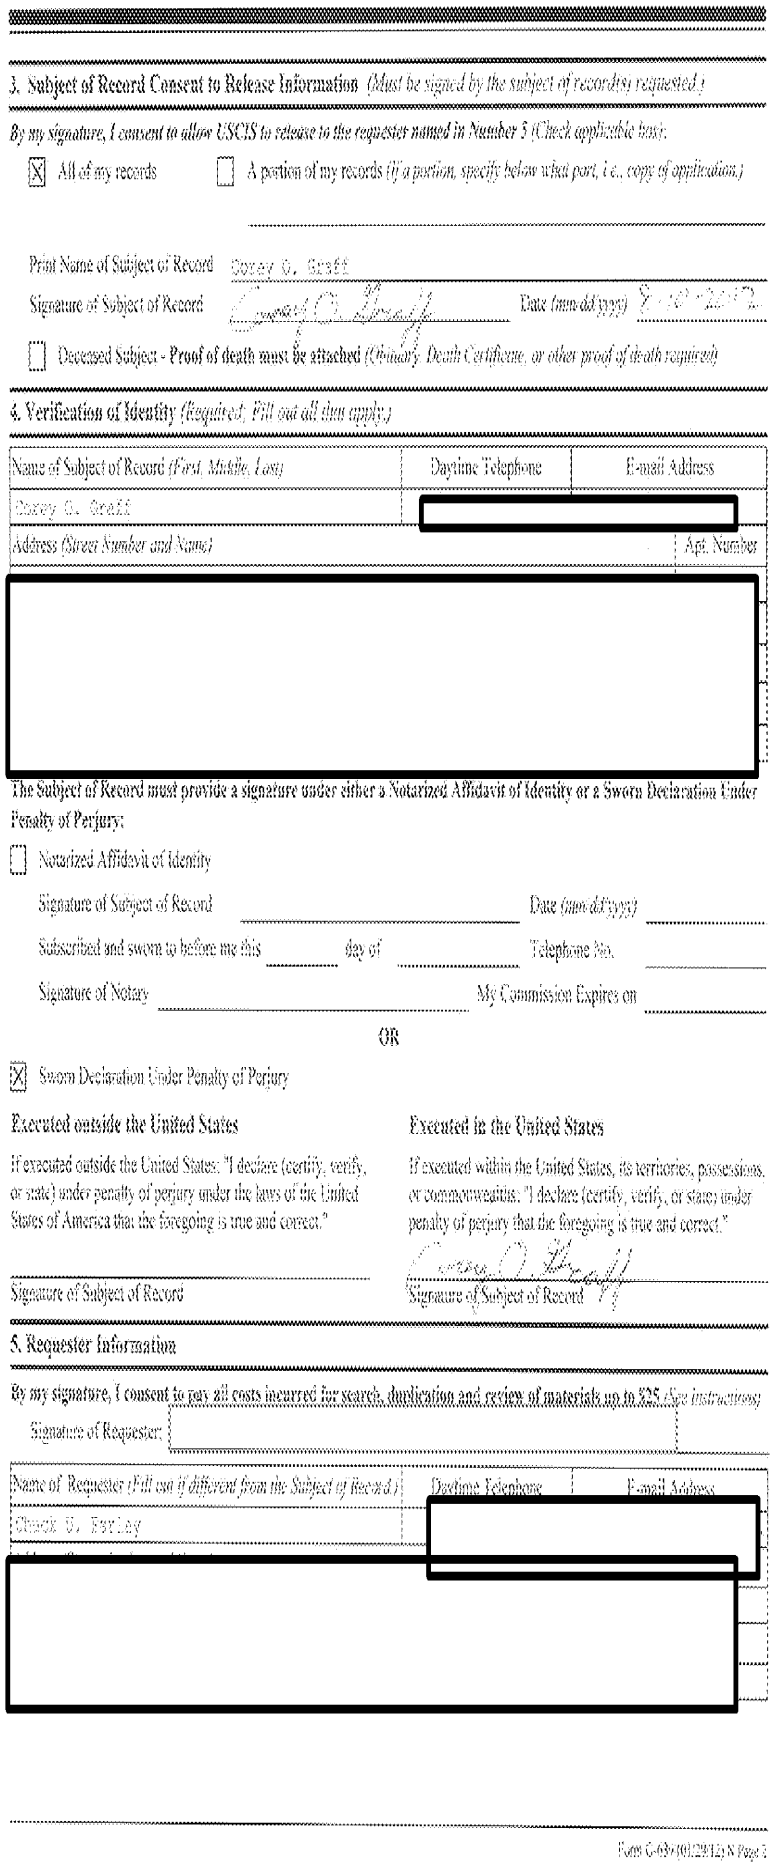
U.S. Citizenship and Immigration Services

Agreement to pay:

- The requester *should* sign agreement to pay.
- But if there's no signature, it will not get us in legal trouble ... why? I'm glad you asked.

(b)(6)

(b)(6)



3. Subject of Record Consent to Release Information *(Must be signed by the subject of record(s) requested.)*

By my signature, I consent to allow USCIS to release to the requester named in Number 5 (Check applicable box):

Form G-639 (01/29/12) N Page 3

U.S. Citizenship and Immigration Services

Agreement to pay:

- First, the acknowledgment letter says “your request constitutes an agreement to pay up to $25.00.”
- The requester has an opportunity to write back and say “No I do not agree to pay!” We close the case FC if the requester specifically states refusal to pay.
- If the requester owes money, we do not send the record until we receive payment.
- Finally, if we’re printing to CD, we don’t charge them anyway.
- Therefore, no signature in agreement to pay does not mean you stop processing the case.

Receipt Files: Researching and Staffing

February 20, 2013

U.S. Citizenship and Immigration Services

Objective

- To better understand:
  - Why people request receipt files
  - How to find them
  - What to do in different circumstances

WARNING: This exercise is FOR OFFICIAL USE ONLY (FOUO). It contains PII that is exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the originator.

U.S. Citizenship and Immigration Services

A little bit of background

Family and Employment based immigrants must have an approved petition before they get permanent residence.

- I-129F Petition for Alien Fiancé(e)
- I-130 Petition for Alien Relative
- I-140 Immigrant Petition for Alien Worker
- I-360 Petition for Amerasian, Widow(er), or Special Immigrant

U.S. Citizenship and Immigration Services

I-130/I-129F and I-485

- The immigrant files Form I-485, Application to Register Permanent Residence or Adjust Status.
- If the immigrant is a spouse or fiancé(e) and if the petitioner is a United States Citizen, then a visa is immediately available. They file the petition and the I-485 at the same time.

U.S. Citizenship and Immigration Services

Family Based Preference

- The petitioner might be a Lawful Permanent Resident petitioning for a family member,
- or a United States Citizen petitioning for somebody other than spouse and minor children,
- In those situations, Congress sets numbers on how many people may immigrate from each country each year. State Department is in charge of allocating the immigrant visa numbers.
- Even though the petition is approved, the immigrant may not file the I-485 until a visa is available.

U.S. Citizenship and Immigration Services

Preference Categories

- F1 – Unmarried Sons and Daughters of United States Citizens
- F2A – Spouses and Children of Permanent Residents
- F2B – Unmarried Sons and Daughters (21 years and older) of LPR's
- F3 – Married Sons and Daughters of United States Citizens
- F4 – Brothers and Sisters of Adult U.S. Citizens

U.S. Citizenship and Immigration Services

Standing in Line

- Because of congressional limits by country, the National Visa Center grants that number by each country each year in order of when USCIS received the petition.
- If there are more people than visas, everybody else stands in line.
- Some countries have very long lines. Some people have been standing in line for years.

U.S. Citizenship and Immigration Services

Visas Available (as of 2/10/2014)

Family-Sponsored	All Charge-ability Areas Except Those Listed	CHINA-mainland born	INDIA	MEXICO	PHILIPPINES
F1	01FEB07	01FEB07	01FEB07	15OCT03	15AUG01
F2A	08SEP13	08SEP13	08SEP13	15APR12	08SEP13
F2B	01SEP06	01SEP06	01SEP06	01MAY93	08JUN03
F3	15JUN03	15JUN03	15JUN03	08JUN93	15FEB93
F4	08NOV01	08NOV01	08NOV01	15NOV96	01SEP90

U.S. Citizenship and Immigration Services

Want to know more?

- If you are ever curious about immigrant visa availability, here is a link you can go to:

http://www.travel.state.gov/visa/bulletin/bulletin_1360.html

- Oh – and in case you didn't know, Congress also sets limits by country by year for employment based immigrant visas. It's all at the link above.

U.S. Citizenship and Immigration Services

For Example

- Juana, an LPR from Mexico filed a petition for her husband, Gustavo, in Mexico, on the 4th of June, 2012.
- On the 12th of June, she got a Form I-797, Notice of Action, from USCIS saying USCIS received the petition on June 8th.
- The receipt date is the date she uses for reference to the State Department website.
- Spouses and children of permanent residents are F2A.

U.S. Citizenship and Immigration Services

F2A, Mexico

Family-Sponsored	All Charge-ability Areas Except Those Listed	CHINA-mainland born	INDIA	MEXICO	PHILIPPINES
F1					
F2A				15APR12	
F2B					
F3					
F4					

U.S. Citizenship and Immigration Services

Keep Checking:

- If USCIS received Juana's petition on or before the 15th of April, 2012, NVC would have an available visa number now.
- If the visa is available, Gustavo may now file Form I-485 with USCIS.
- Since USCIS received her petition on the 8th of June, 2012, she knows his number is coming up soon.
- Gustavo can't file the 485 yet. They keep checking the website.

U.S. Citizenship and Immigration Services

Why would she file a FOIA?

- Maybe she has not heard anything in a long time.
- Maybe she never got an approval notice.
- Maybe she lost her copies.
- Maybe she is changing attorneys and the attorney wants to see everything associated with the petition.

U.S. Citizenship and Immigration Services

Petition at Service Center

- You may see the petition at a service center, with a responsible party like “Adjudication” or “Post-decision Review.”
- Always check to see if it has been consolidated. If it has been consolidated into the beneficiary’s A-file, we have a consent issue.
- If it is unconsolidated, you can staff for it.

U.S. Citizenship and Immigration Services

After Time Passes:

- We may have approved it and sent it to NVC. NFTS may tell you, or you may ask NVC if they have that petition. RD.
- If two years pass after visa becomes available and the husband does not show up at the designated consulate, NVC sends the file back to USCIS, and it goes to Harrisonburg. If it is available in records, you can staff for the receipt from Harrisonburg.
- If the petition is not used, Harrisonburg destroys the petition 3 years after a visa number became available. We can print out the record in PCQS as well as the screen from NFTS that shows the receipt was destroyed. That will be a RAFACS staffing.

U.S. Citizenship and Immigration Services

Want to know more?

- Some records we keep fall under the General Schedule of Records.
- National Archives and Records Administration is responsible for providing General Schedule guidance.
- Agencies have some records that are unique to them.
- They have to file SF 115 with NARA to get approval for disposing of records.
- Some records are permanent. Some are not.

U.S. Citizenship and Immigration Services

Record Disposition

- You can read the disposition authority for I-129F, I-130 and I-140 at:

http://connect.uscis.dhs.gov/org/ESD/RD/Policy/RecordsOfficers/Documents/N1_85_96_01.pdf

- If the petition is not used, it is to be disposed of 3 years after a visa number becomes available.
- If the petition is denied, an A-File is created and the petition becomes a permanent part of the alien's A-File.

U.S. Citizenship and Immigration Services

(b)(6)

FOIA Request #1

- Manuel A. Redondo, born [redacted]
- Father's name [redacted] Mother's name [redacted] We have Manuel's notarized signature for VOI and Manuel lists himself as the requester.
- Address:

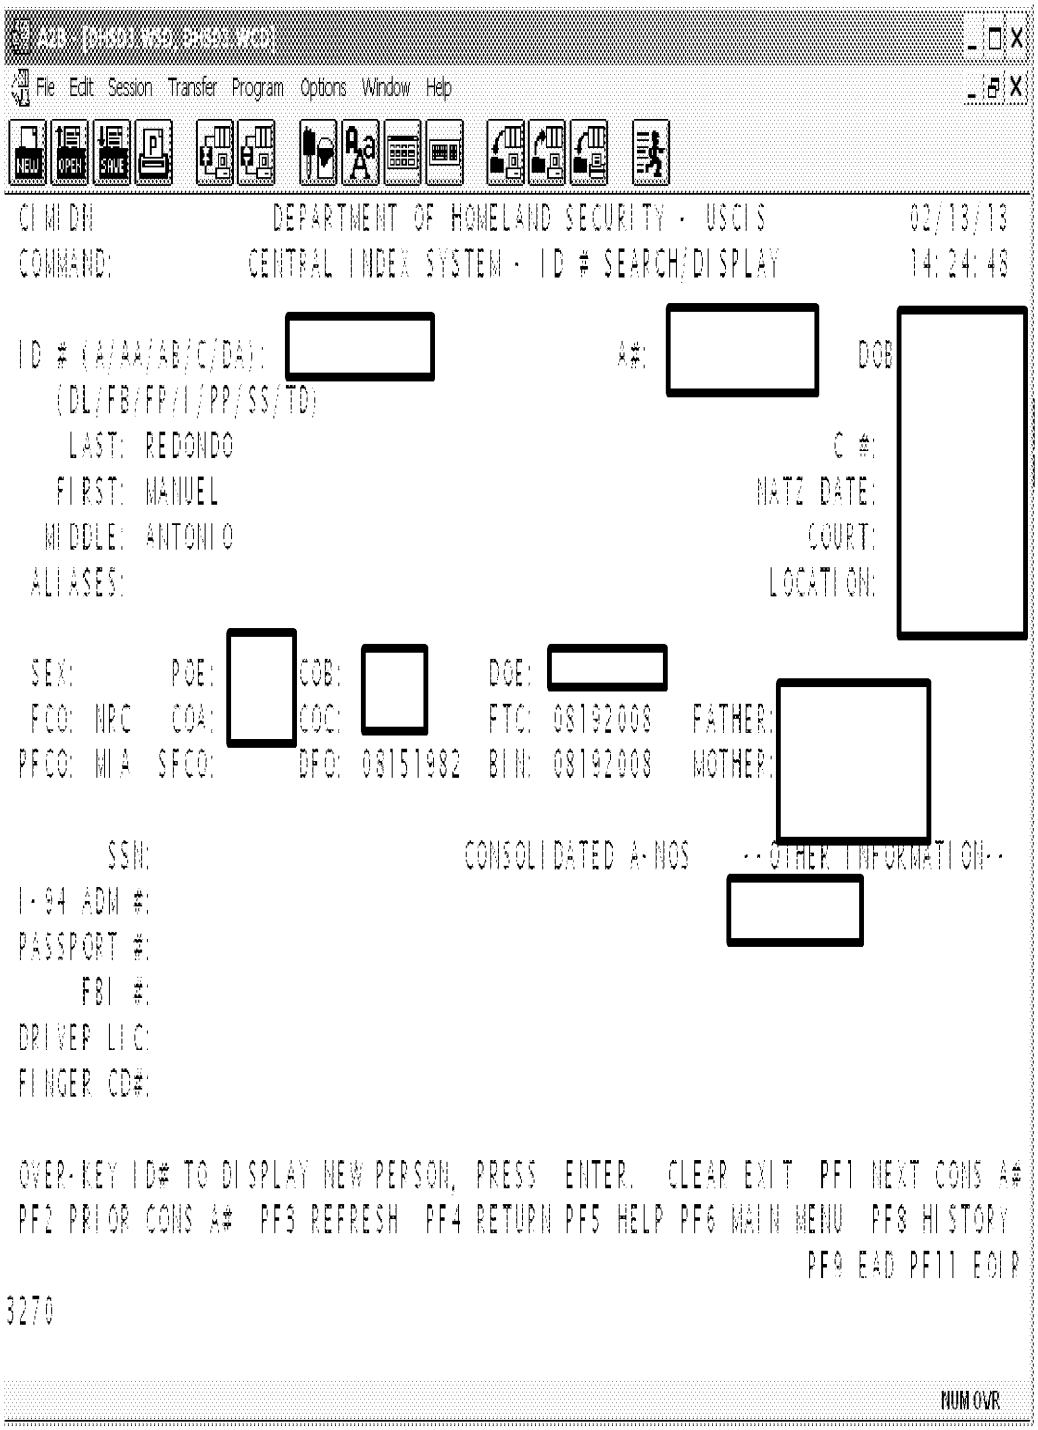
  [redacted] (b)(6)
- "*I need a copy of the petition I filed for my wife, Sandra.*"
- We do not have Sandra's consent.

U.S. Citizenship and Immigration Services

For Official Use Only

(b)(6)

He gave us his A-Number:



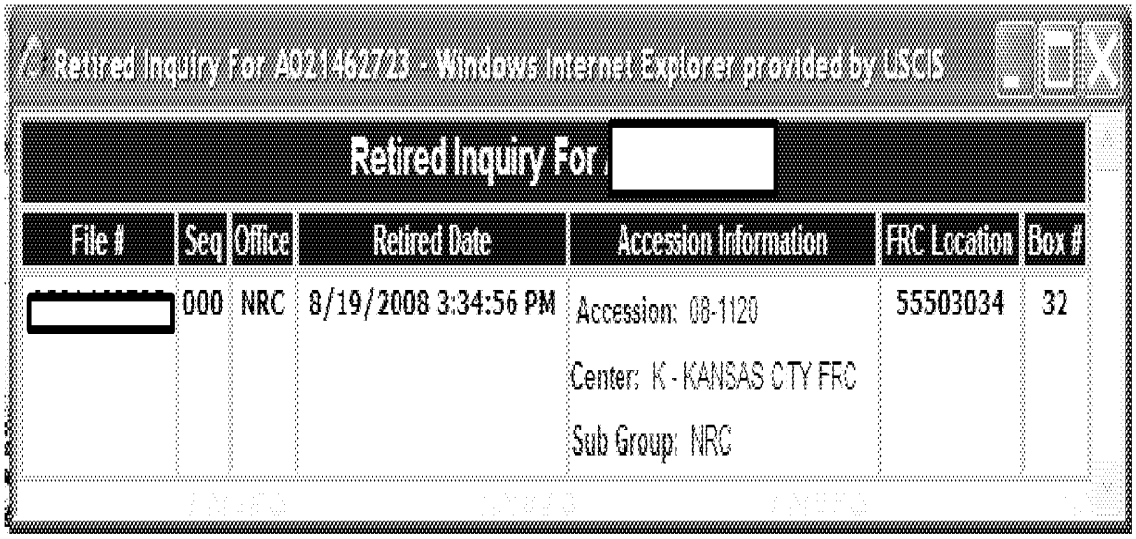
(b)(6)

U.S. Citizenship and Immigration Services

For Official Use Only

It is at the KC FRC

(b)(6)



Should I staff for it?

U.S. Citizenship and Immigration Services

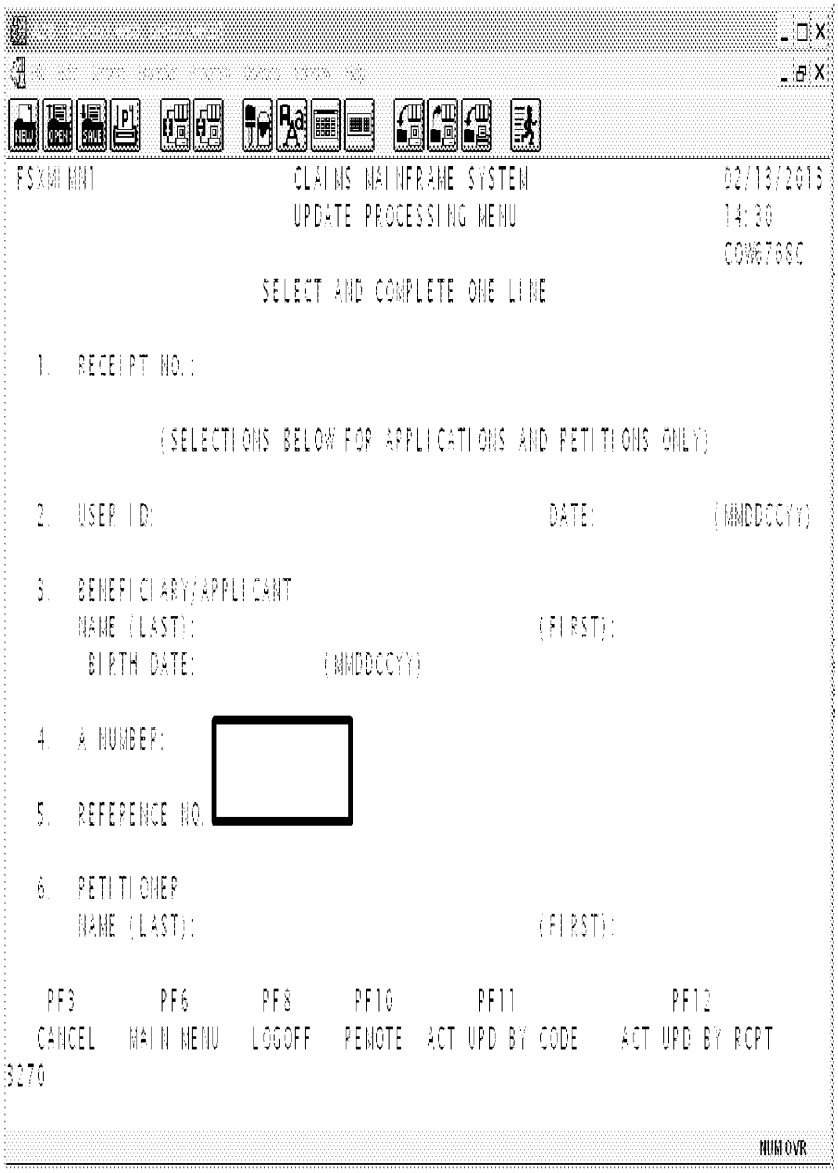
For Official Use Only

One Possibility

- What if he did ask for a copy of his A-file and a copy of the petition he filed for his wife, Sandra?
- I would have to create two cases. I cannot staff for an A-file and a receipt file on the same FOIA request. *Section 6.2.2.4.*
- If he only asked for the petition, then you are almost certainly not going to request his file.

What do we need?

(b)(6)



- One way to search is go to CLAIMS and enter his A-number.

U.S. Citizenship and Immigration Services

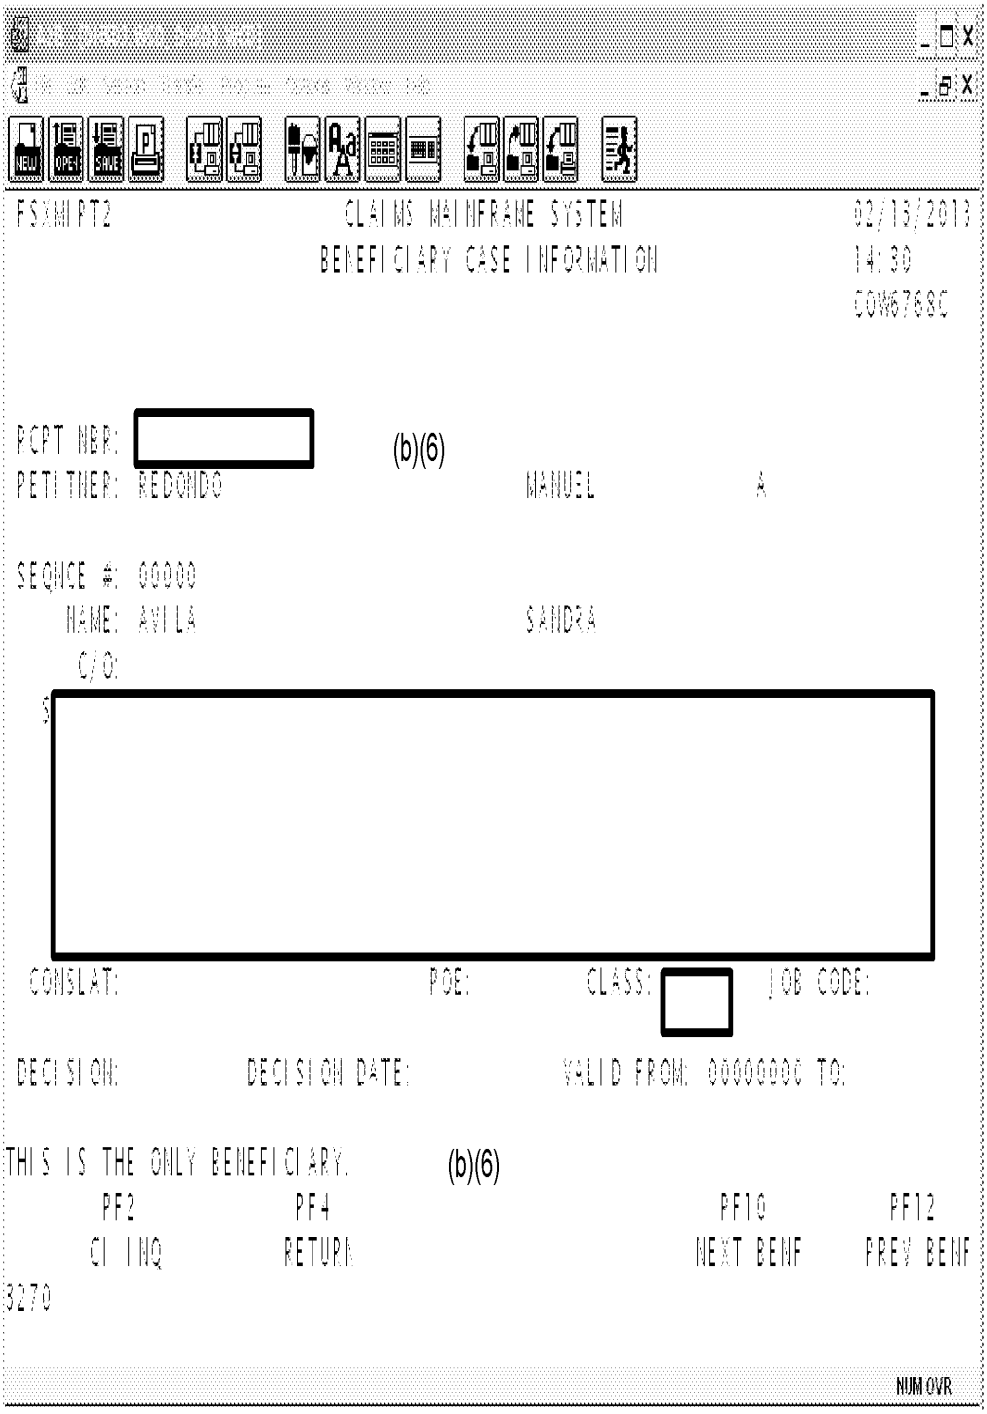
For Official Use Only

Found an I-130 – PF1=BENF

U.S. Citizenship and Immigration Services

For Official Use Only

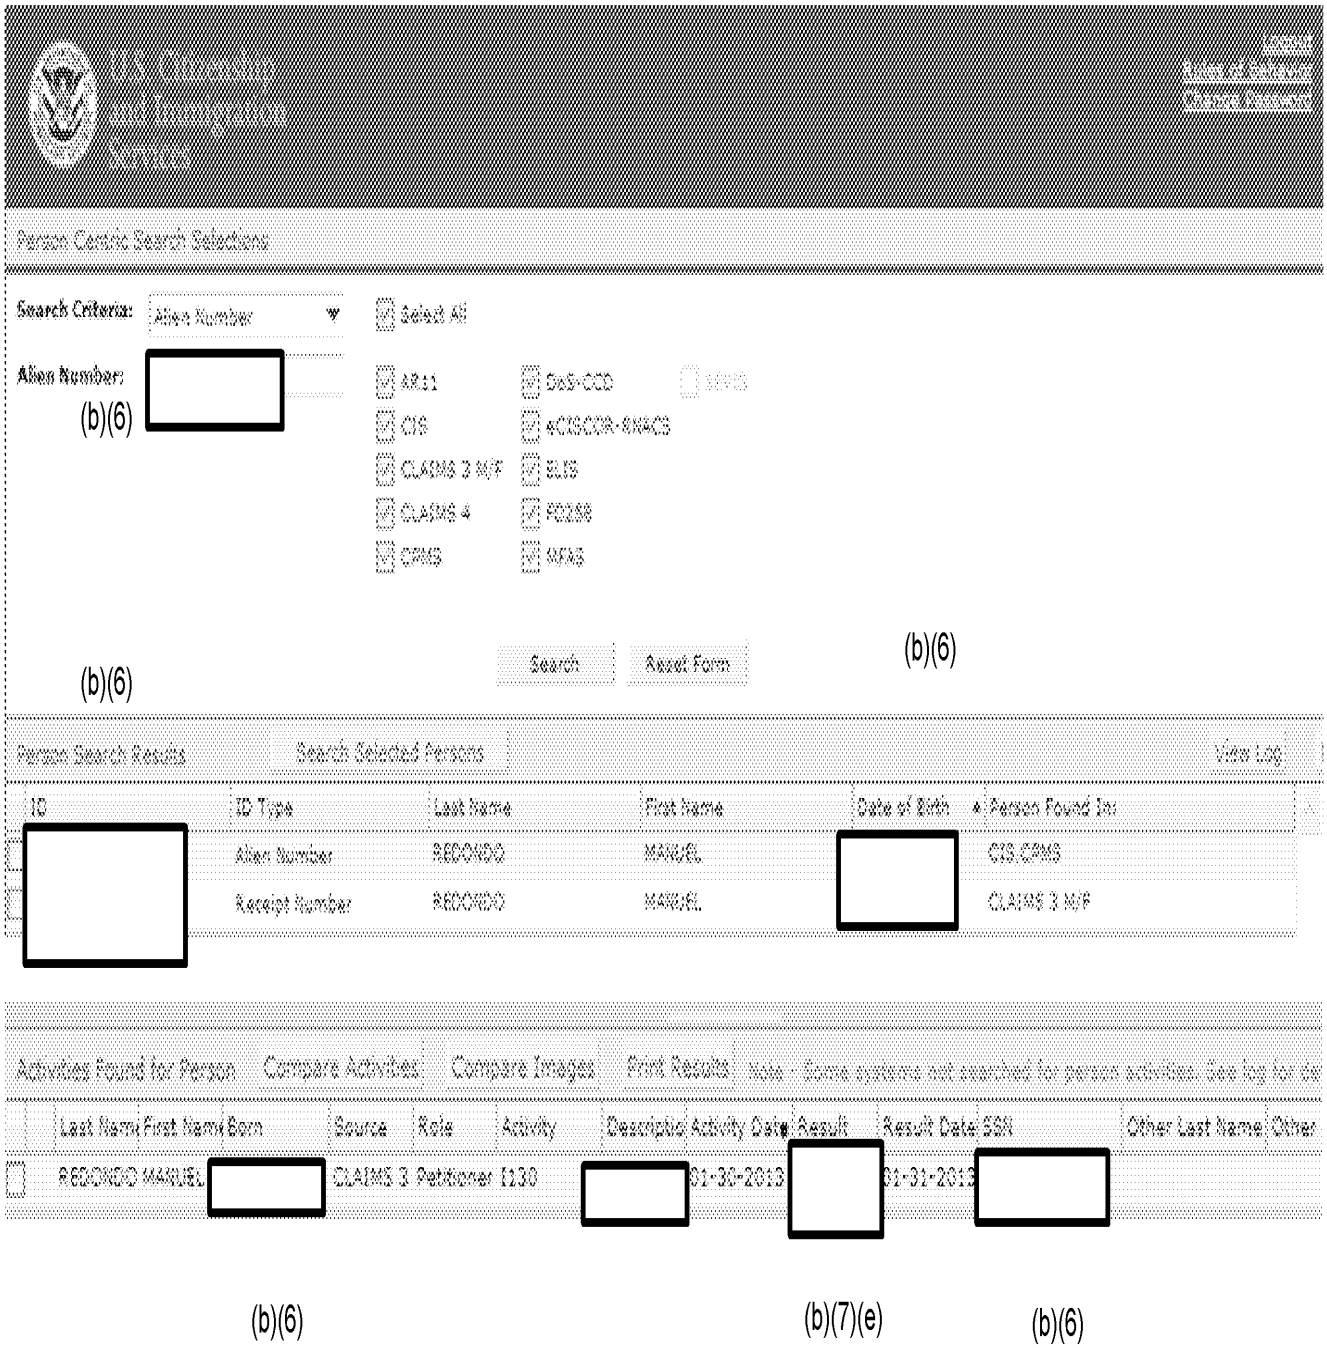
Right I-130?



U.S. Citizenship and Immigration Services

For Official Use Only

Another way to search:



U.S. Citizenship and Immigration Services

For Official Use Only

And check the details:

Details for Person

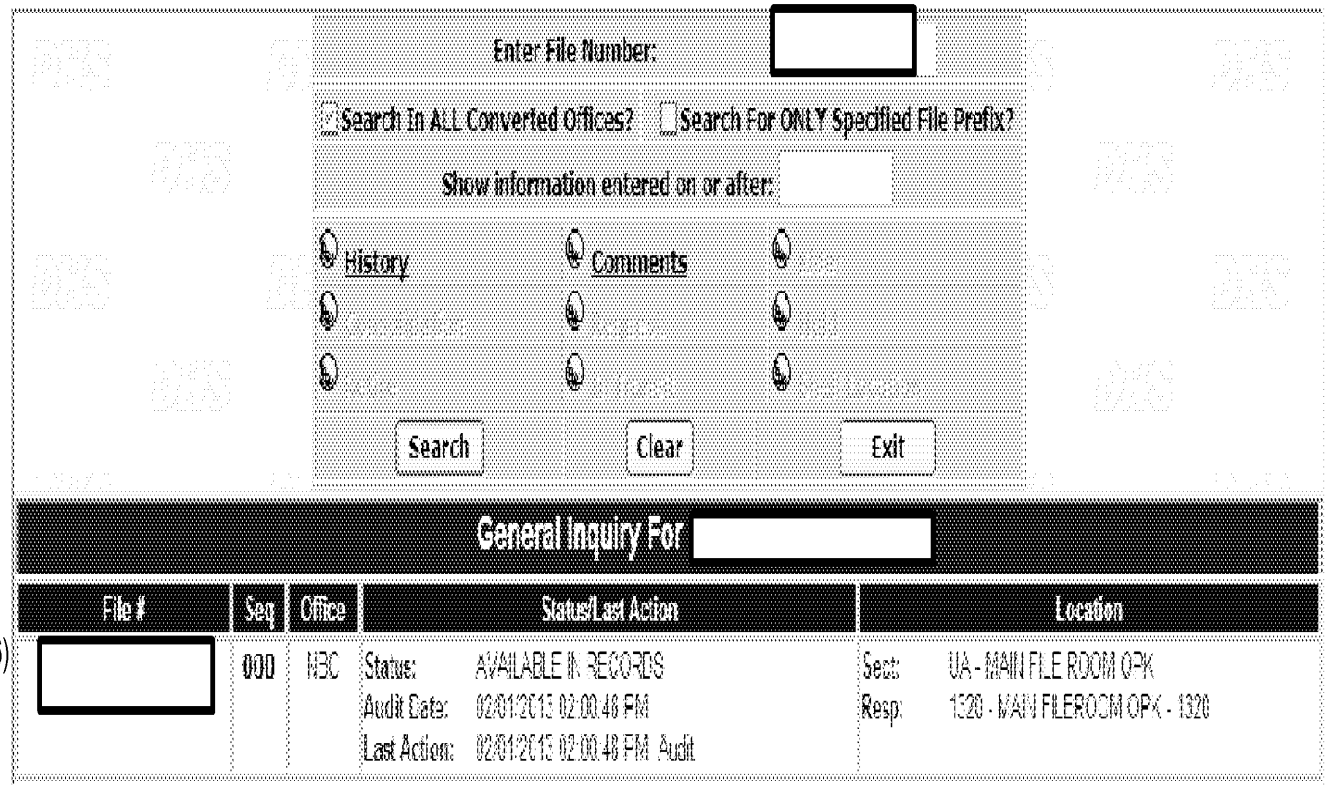
Claims	
Receipt Number	[redacted] (b)(6)
Mail Room Received Date	01-28-2013
Activity Type	I130
Activity Description	Petition for Alien Relative
*** Petitioner Information ***	
Petitioner Last Name	REDONDO
Petitioner First Name	MANUEL
Petitioner Middle Name	A
Petitioner Date of Birth	[redacted] (b)(6)
Petitioner Country of Birth	
Beneficiary	
Beneficiary Last Name	AVILA
Beneficiary First Name	SANDRA
Beneficiary Middle Name	
Beneficiary Date of Birth	[redacted] (b)(6)
Beneficiary Country of Birth	
Beneficiary Alien Number	N/A

U.S. Citizenship and Immigration Services

For Official Use Only

Has it been consolidated into a file?

(b)(6)



(b)(6)

U.S. Citizenship and Immigration Services

For Official Use Only

Other Possibilities

- If it had been consolidated into the beneficiary's A-file, we would need consent from the beneficiary. *Section 6.2.1.*
- *Section 9.2* tells you what to do if the petition has been sent to NVC.

More Tips

- If you find a social security number, you may put that into PCQS and search. Case creators have found petitions that way.
- If NFTS shows "deleted," call NVC and ask if they have it. "Deleted" does not mean "destroyed."
- Put the language of their specific request in a Discussion. It will serve as a memory jog when you change the acknowledgment letter, and you can copy and paste it.
- If you discover the petition has been consolidated into the petitioner's A-File, and you staff for the A-File, make sure your Discussion explains why you did that.

U.S. Citizenship and Immigration Services

Staff and Acknowledge

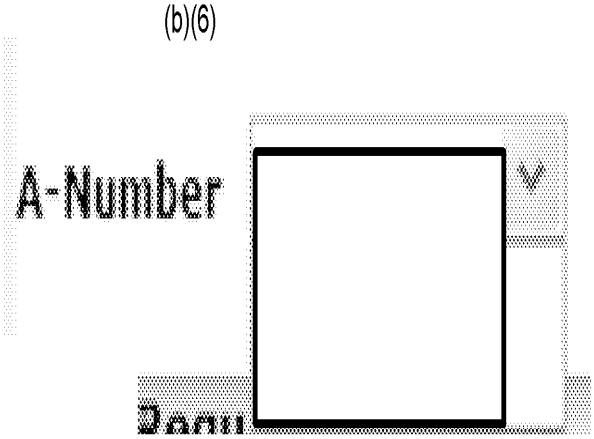
- Before making the staffing, I need to get rid of Manuel's A-number if I already typed it in.
- I need to enter the MSC number in the Topic field. *Section 6.2.2.4.*
- Next, I can staff for it.
- This is going to be Track 1, Specific Documents. *Section 6.3.1.1.*
- In the acknowledgment letter, we change "SPECIFIC DOC INFORMATION" to "a copy of the petition you filed for your wife, Sandra." *Section 6.3.1.1.1*

U.S. Citizenship and Immigration Services

What if I saved the A-number?

- If you already saved, you will not be able to delete the A-number from the A-number field.
- That's not a problem.
- First, enter the receipt number in the Topic field.
- When you do the staffing, you can select the "null field" for the A-Number:

(b)(6)



U.S. Citizenship and Immigration Services

FOIA Request # 2

- Last name Mago
- First name Meseret
- Middle name Waldesenbet
- (b)(6) Born [redacted]
- Did not provide parents' names
- Request is for all records

U.S. Citizenship and Immigration Services

For Official Use Only

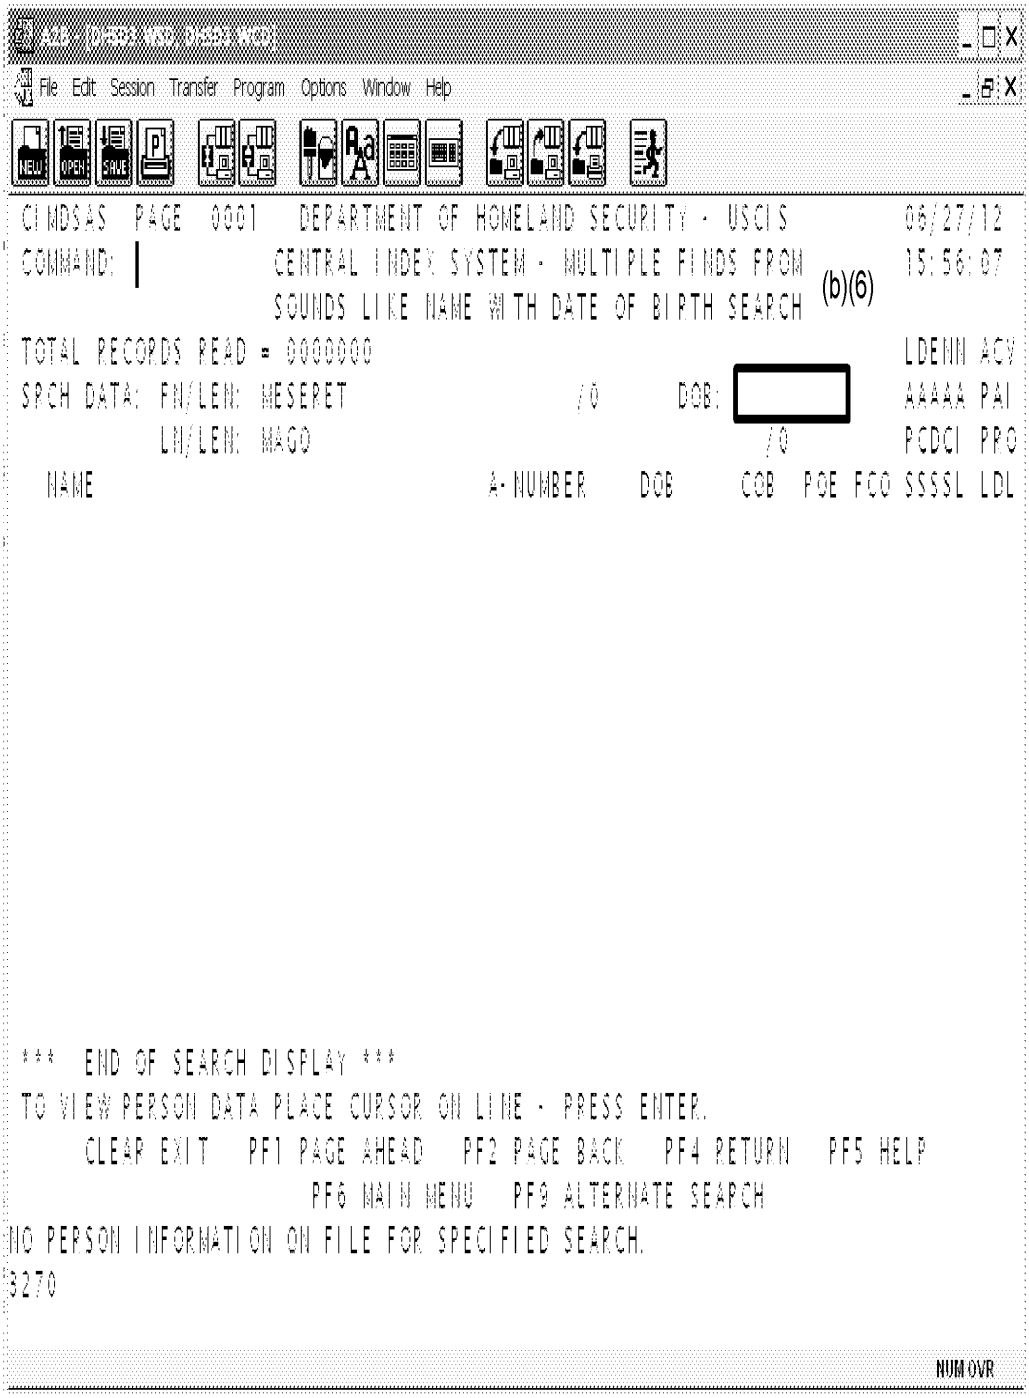
F9 – Sounds Like

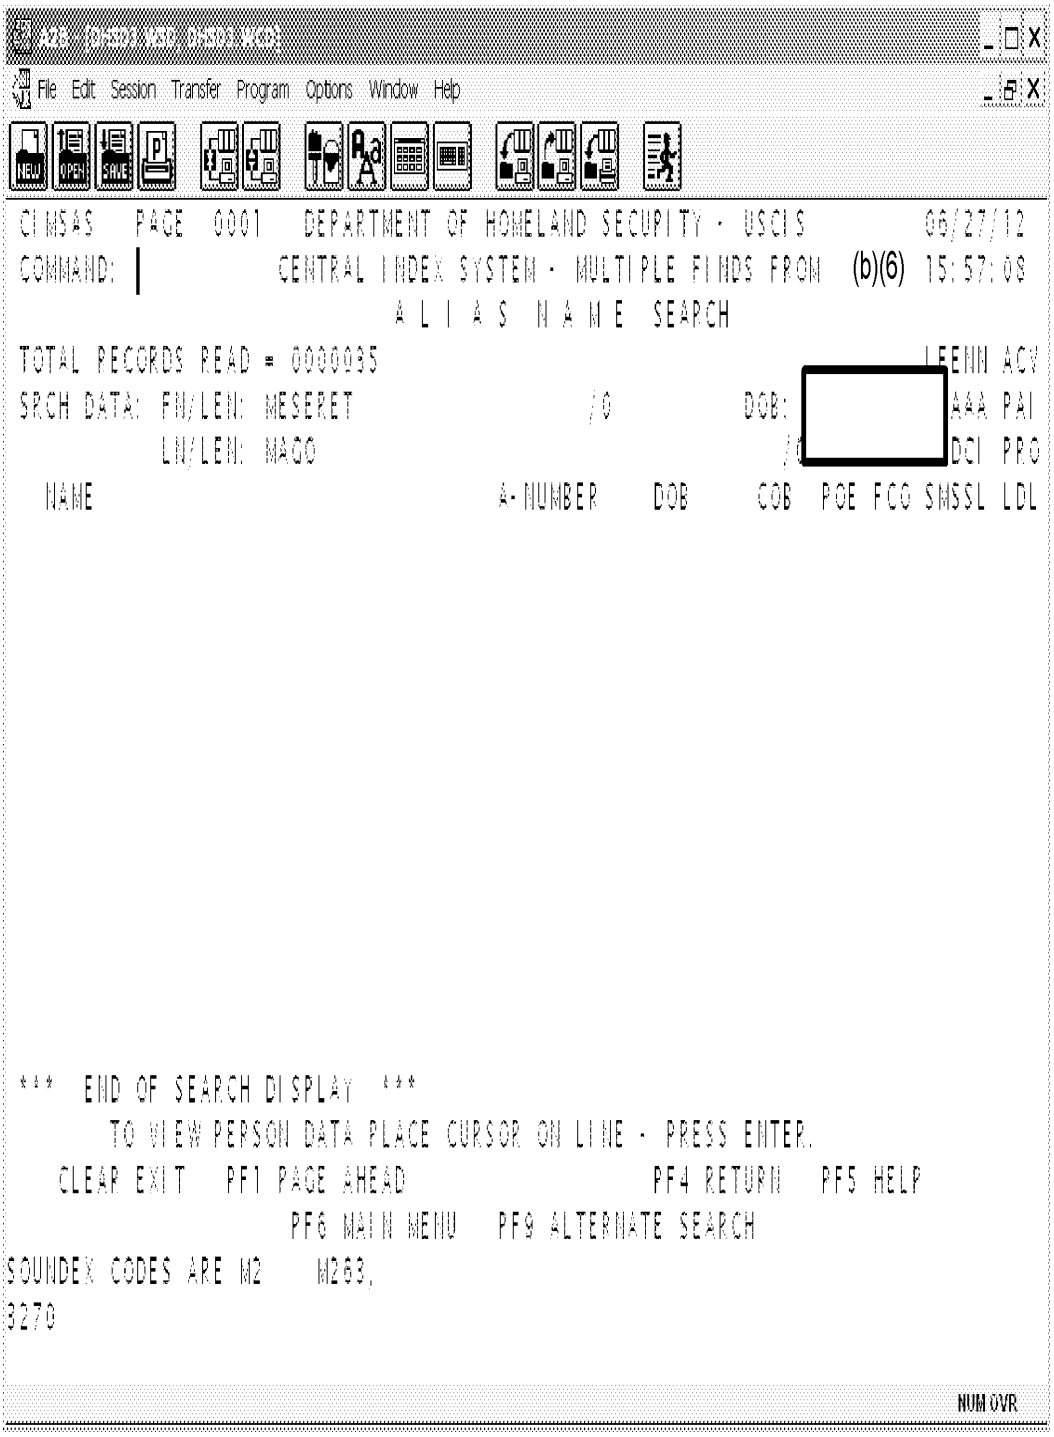


U.S. Citizenship and Immigration Services

For Official Use Only

F9 again - Alias

And she's not there.



U.S. Citizenship and Immigration Services

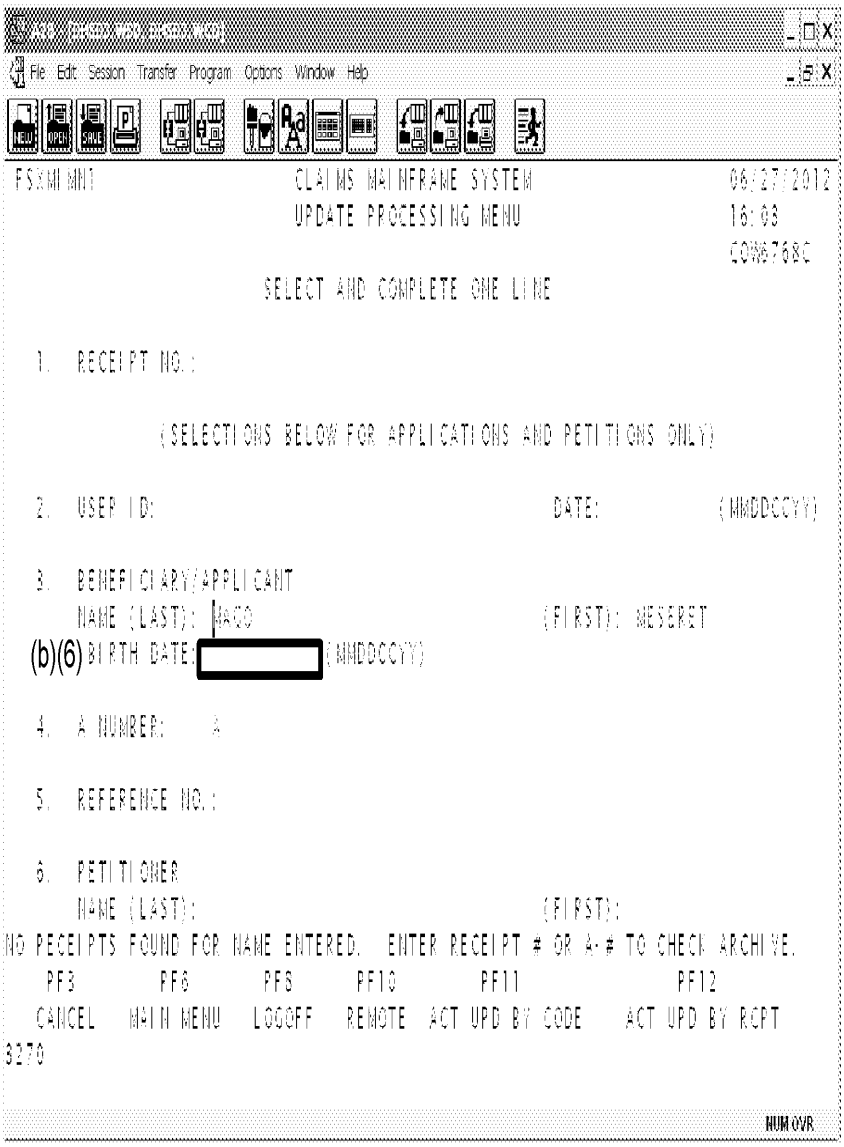
For Official Use Only

Some thoughts

- I could try a date of birth range or variations of the name,
- I could go to CLAIMS immediately,
- Or I could go to PCQS next.
- If I don't find something in the first system, I'll still look in second system – and vice versa.

U.S. Citizenship and Immigration Services

Notice CLAIMS says no receipt:

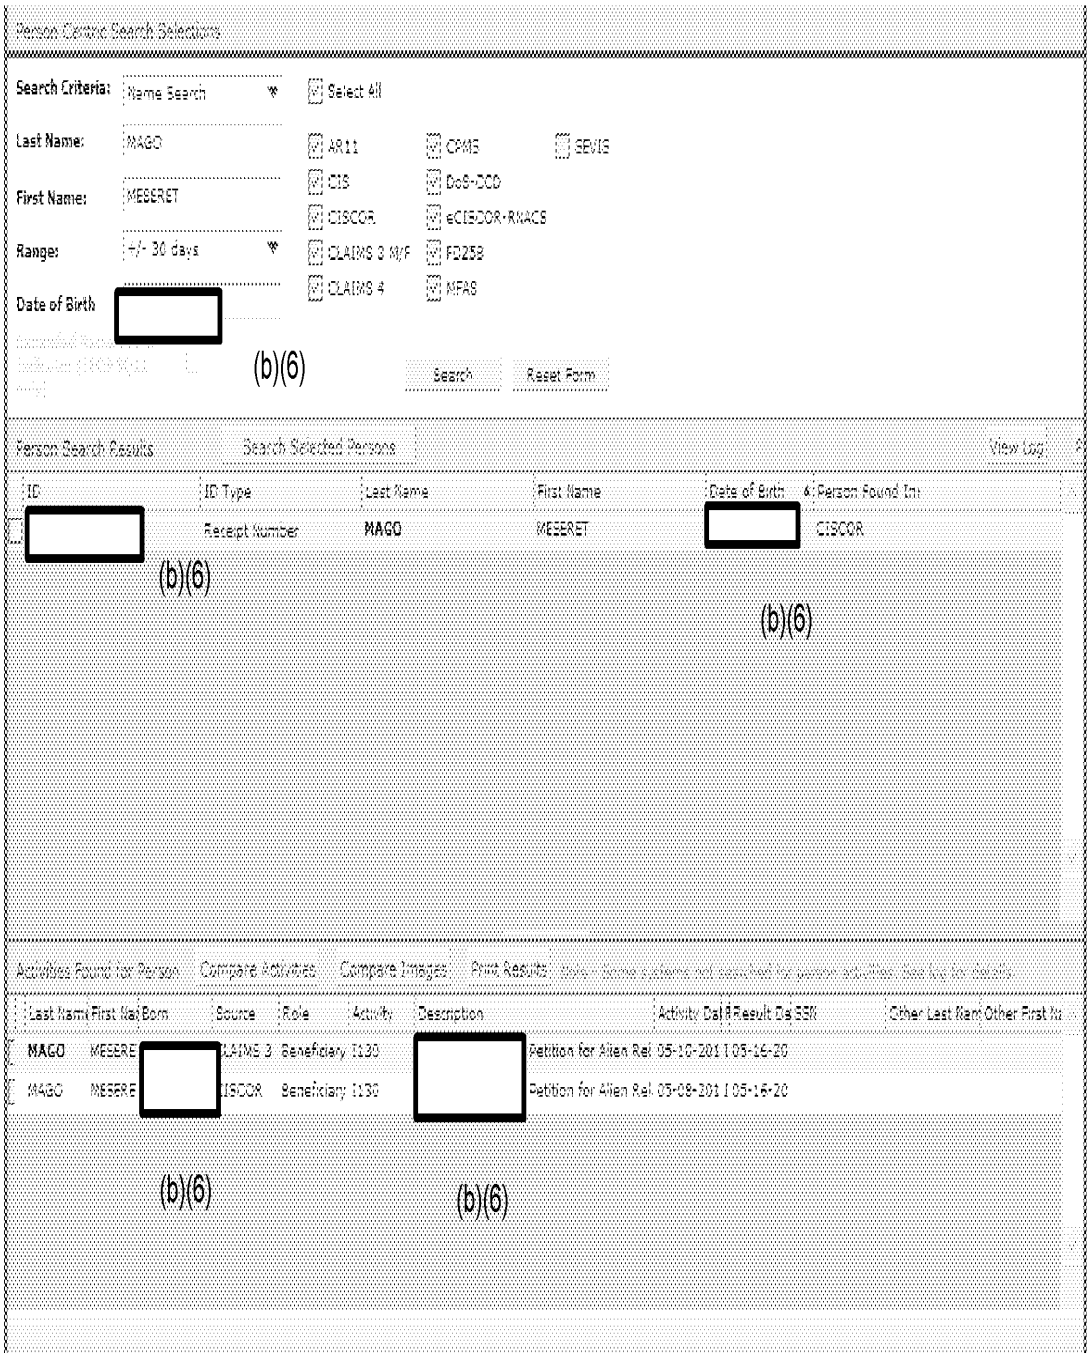


Now I'm going to enter the EXACT SAME info in PCQS and look:

U.S. Citizenship and Immigration Services

For Official Use Only

We found just a petition:



U.S. Citizenship and Immigration Services

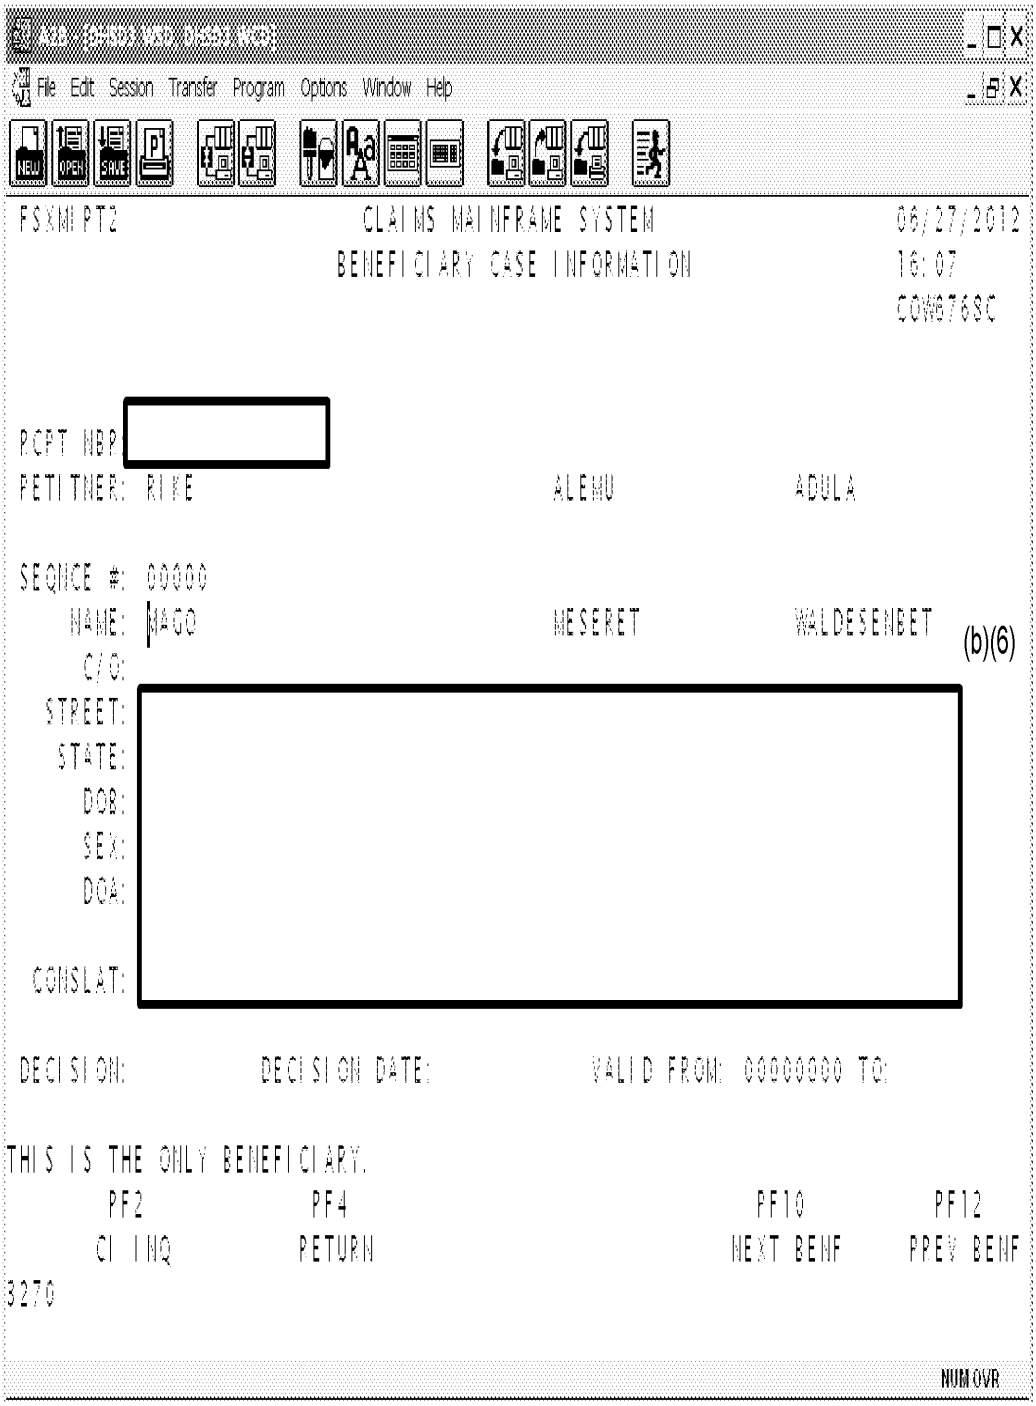
For Official Use Only

I can enter the petition number

That's the correct middle name and the correct date of birth and country of birth.

It's also the only record we found in PCQS.

Why did PCQS find it, but CLAIMS didn't?



U.S. Citizenship and Immigration Services

For Official Use Only

Another tip:

- CLAIMS might not like dates of birth. If I have an unusual name like hers, I can enter the name without any date of birth, and it is much more likely to find it:

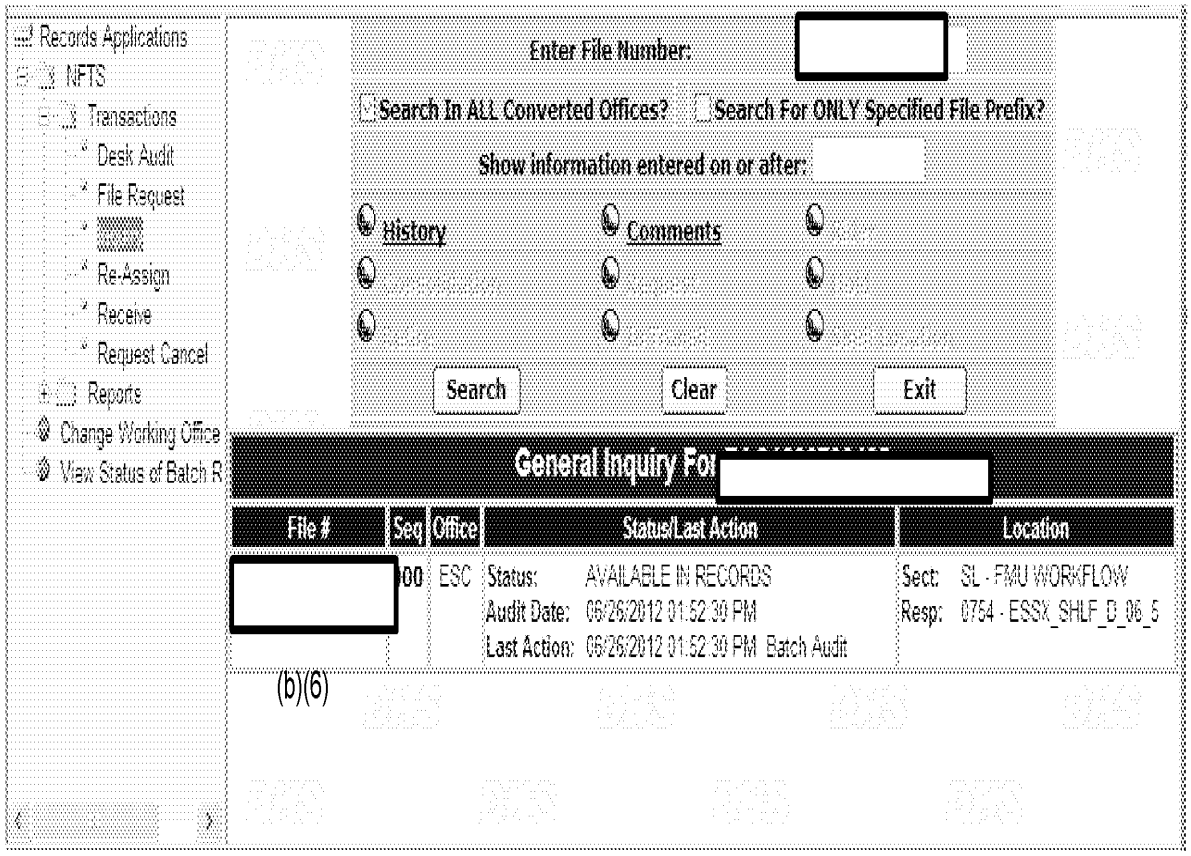
(b)(6)

(b)(6)

U.S. Citizenship and Immigration Services

It's not consolidated

(b)(6)



We'll staff for it and we'll create a Discussion to say we're staffing on best available information.

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

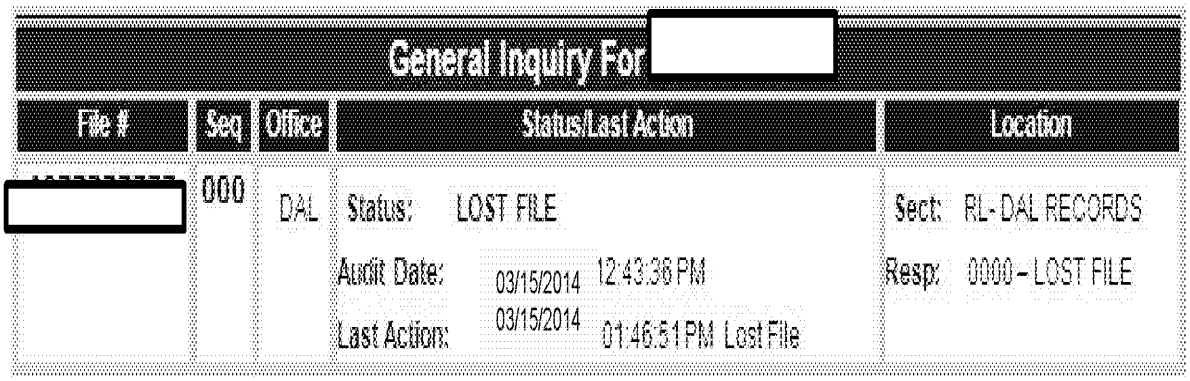
Then "It" Happens

- You look for it in NFTS and … oh no:

(b)(6)

(b)(6)

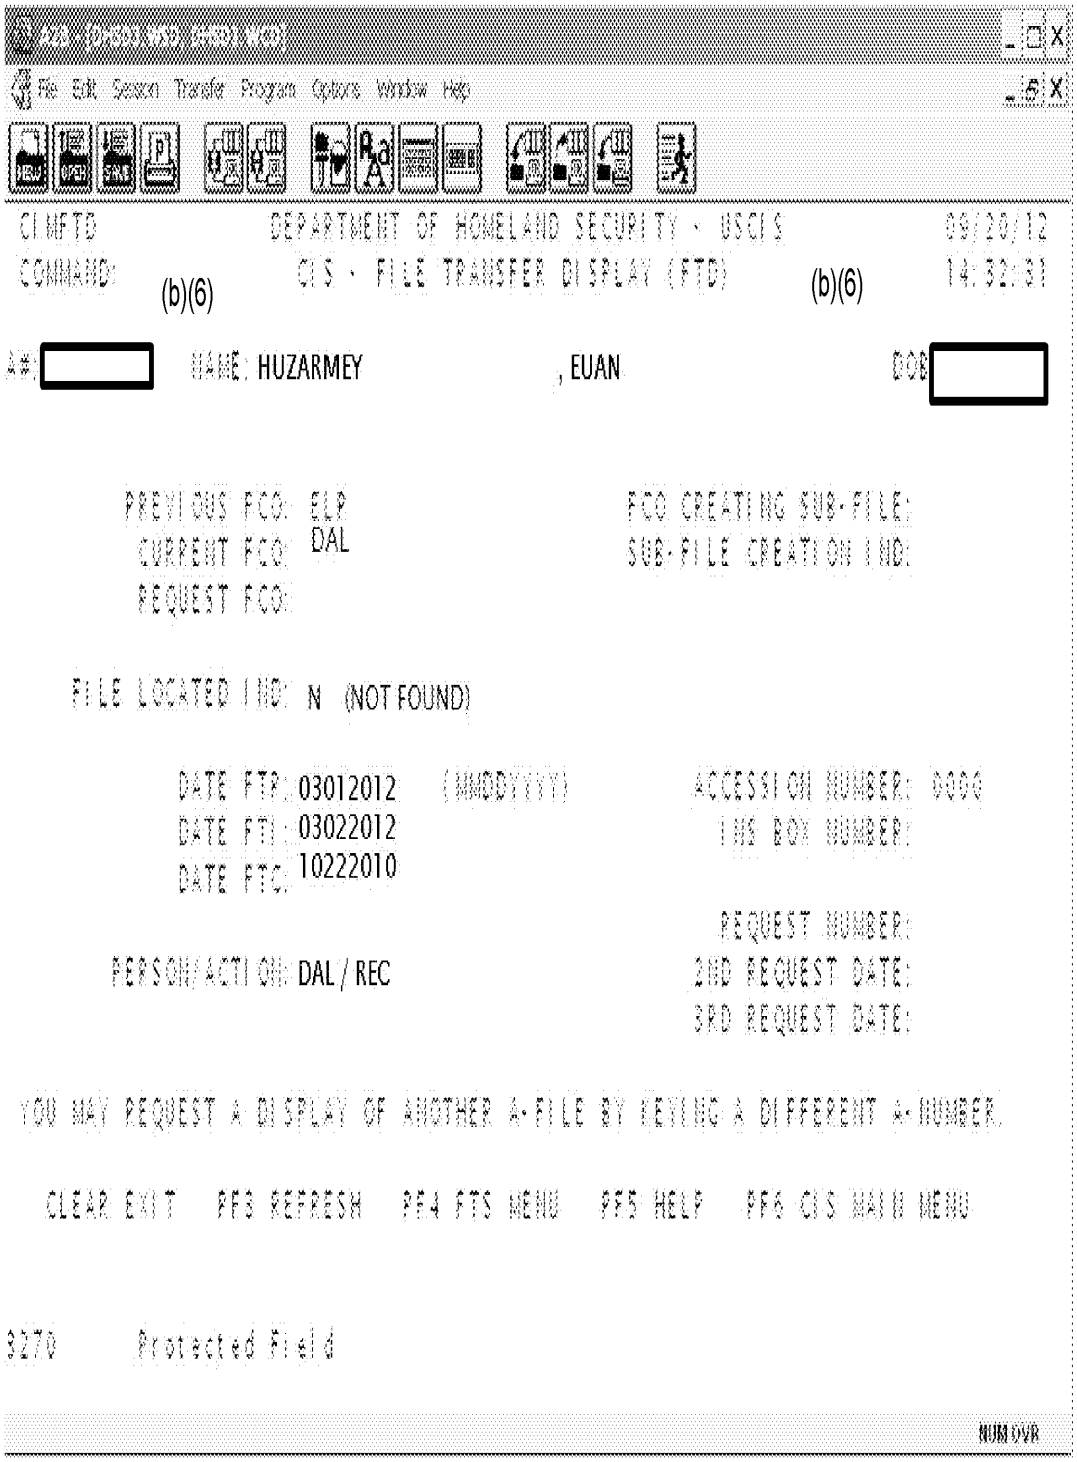


U.S. Citizenship and Immigration Services

Go Back to CIS

Review the 9504 Screen. Both should say the file is lost.

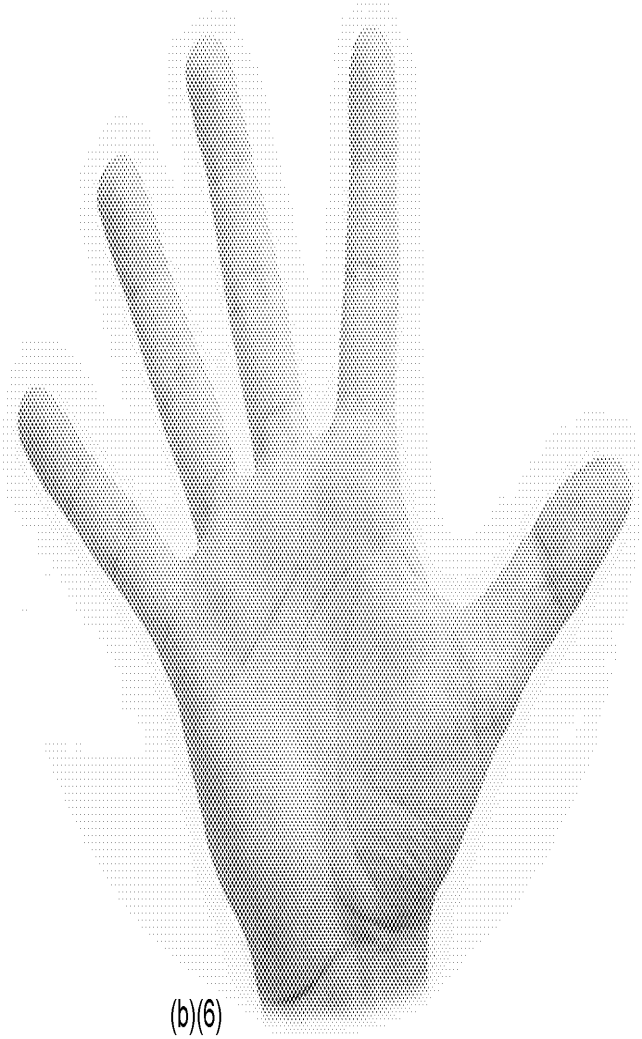
If this screen does not say the file is lost, then staff with this screen.



U.S. Citizenship and Immigration Services

Add 60 days to the date it was lost

- This file was lost in March, so ...



(b)(6)

(b)(6)

General Inquiry For / [redacted]

File #	Seq	Office	Status/Last Action	Location
[redacted]	000	DAL	Status: LOST FILE Audit Date: 03/15/2014 12:43:36 PM Last Action: 03/15/2014 01:46:51 PM Lost File	Sect: RL - DAL RECORDS Resp: 0000 – LOST FILE

U.S. Citizenship and Immigration Services

Pretend Today is April 6th

- March 15 + 60 days = May 14, so on May 14, the file will be lost for two months.

(b)(6)

(b)(6)

General Inquiry For [redacted]

File #	Seq	Office	Status/Last Action	Location
[redacted]	000	DAL	Status: LOST FILE	Sect: RL - DAL RECORDS
			Audit Date: 03/15/2014 12:43:36 PM	Resp: 0000 – LOST FILE
			Last Action: 03/15/2014 01:46:51 PM Lost File	

It has not been lost for more than 60 days, so we go to the < 60 day Flowchart.

Now we just follow Appendix H, FOIA/PA Assistant's Guide

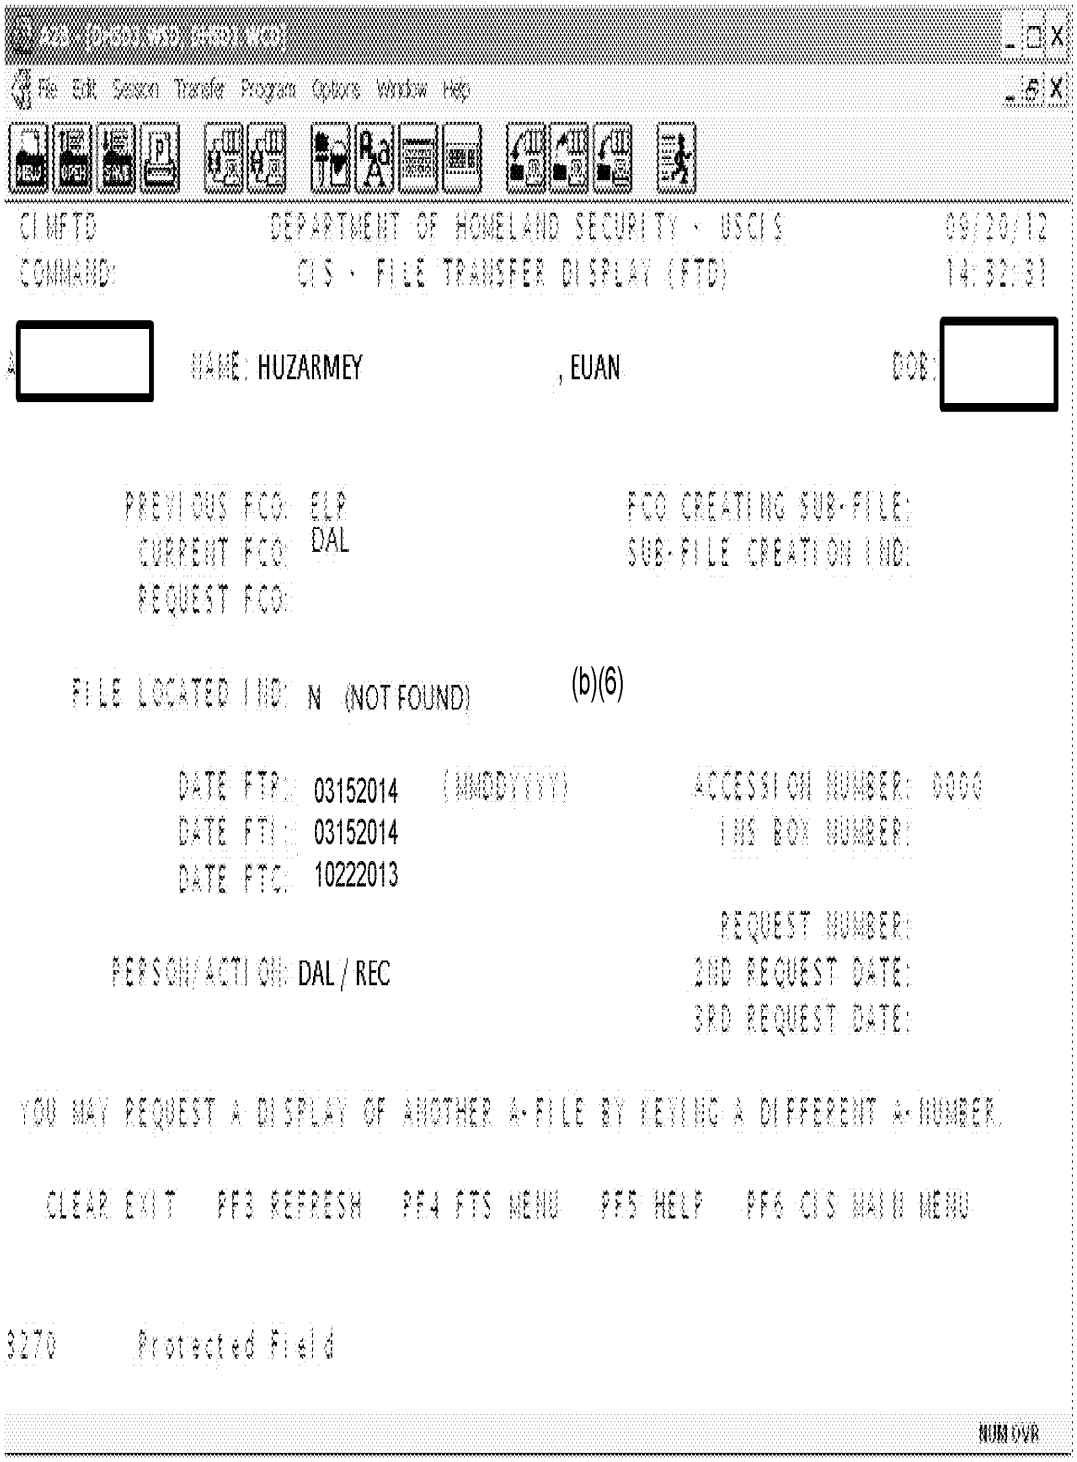
U.S. Citizenship and Immigration Services

If it is not in NFTS:

(b)(6)

Use the 9504 Screen.

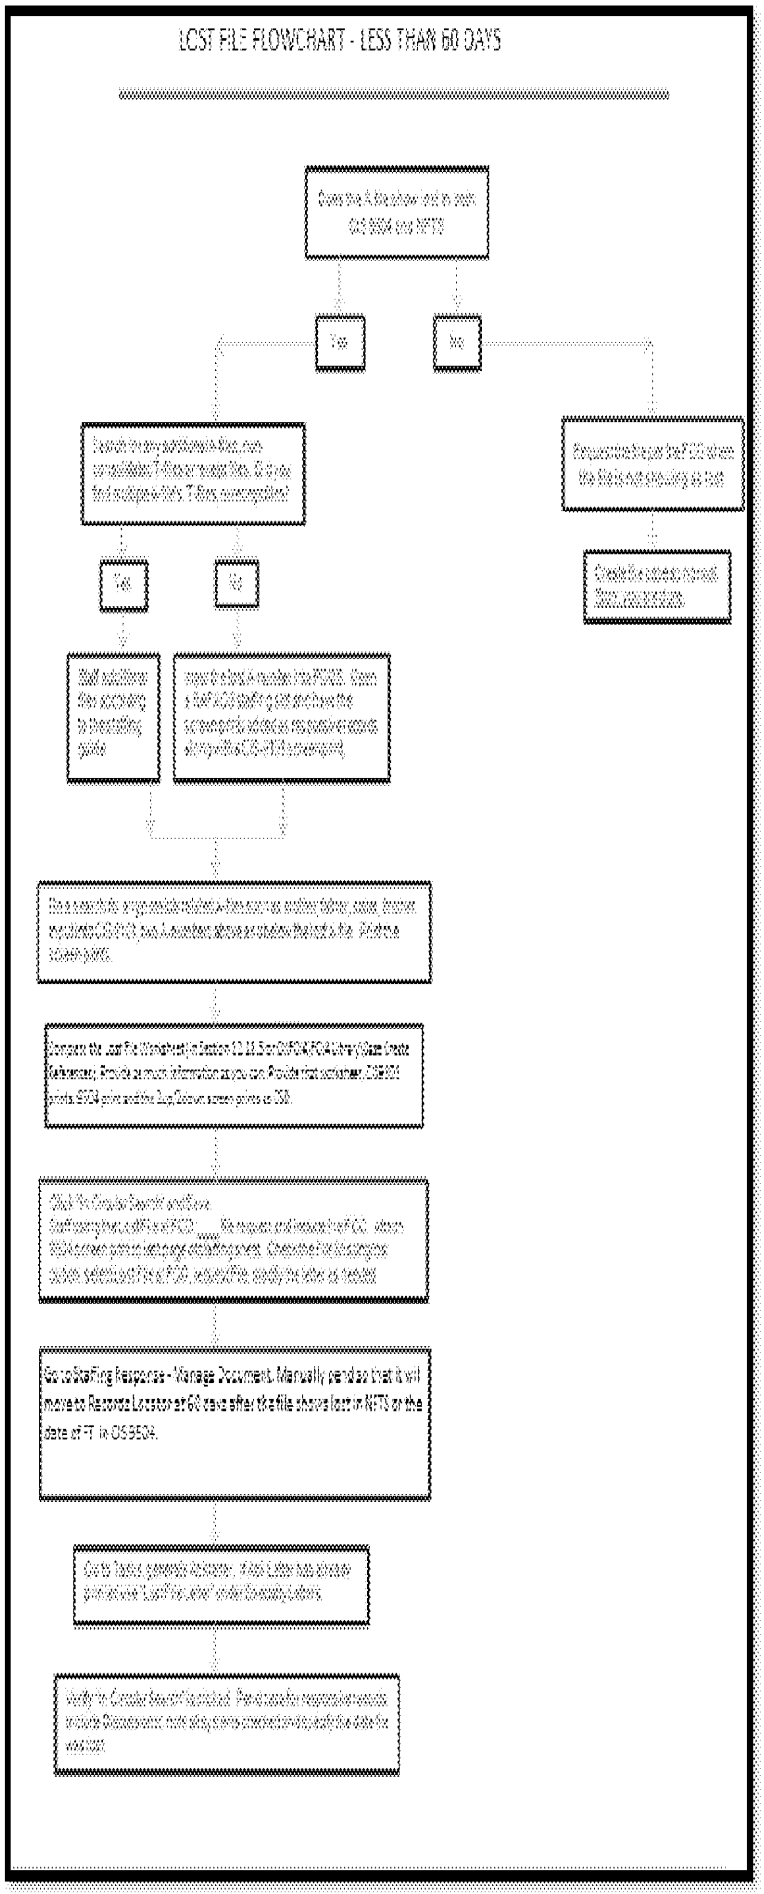
We would use DATE FTI because that's the last time we knew where the file was.



U.S. Citizenship and Immigration Services

Scenario: Less Than 60 Days

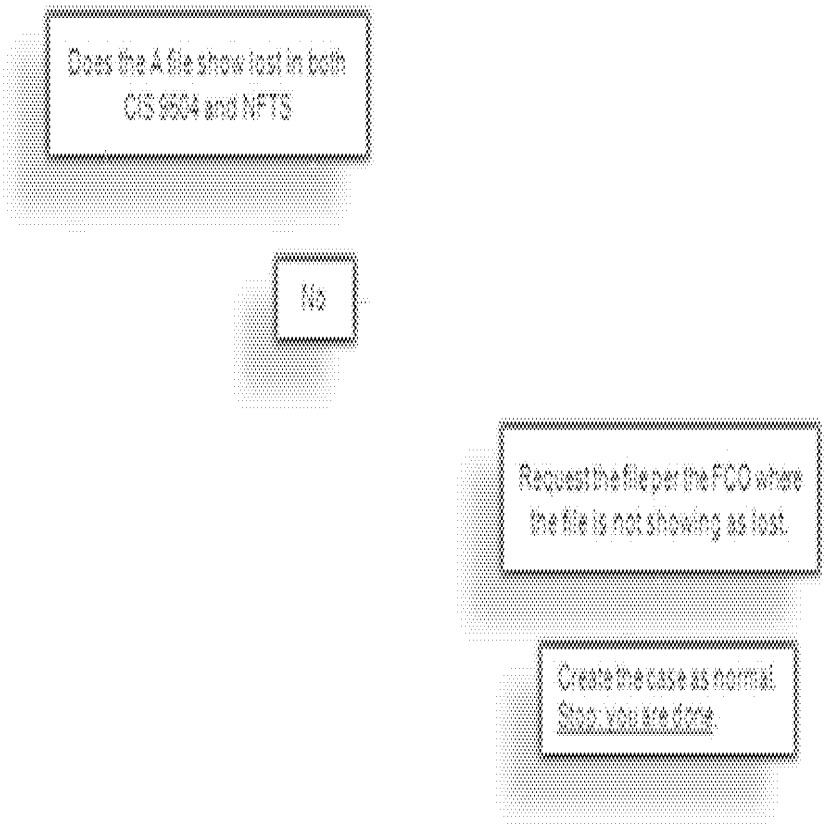
Since the file was lost less than 60 days ago, we will go to Lost File Flowchart < 60 Days in Appendix H.



U.S. Citizenship and Immigration Services

What if ?

Suppose it was lost in NFTS but not in CIS:

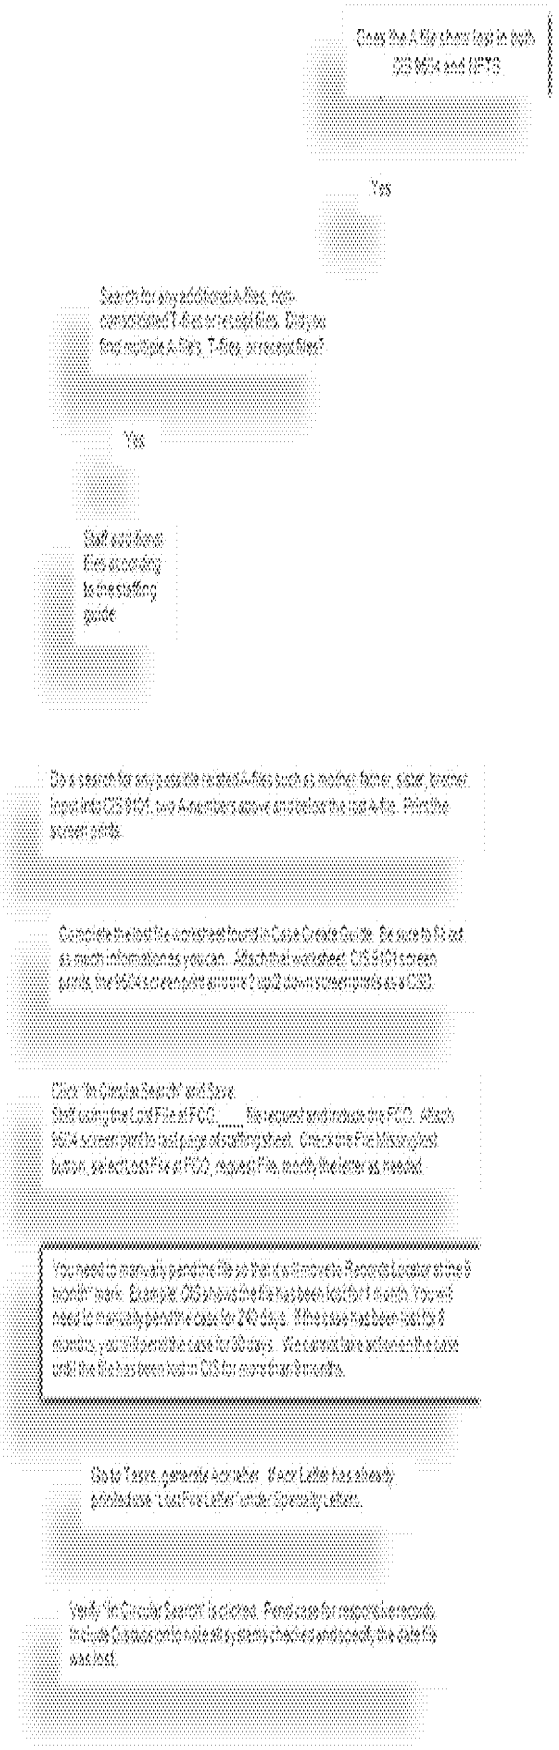


You will staff by doing a screen print of the 9504 screen. The quickest way to do that is Snag-It.

U.S. Citizenship and Immigration Services

Other Files- Yes

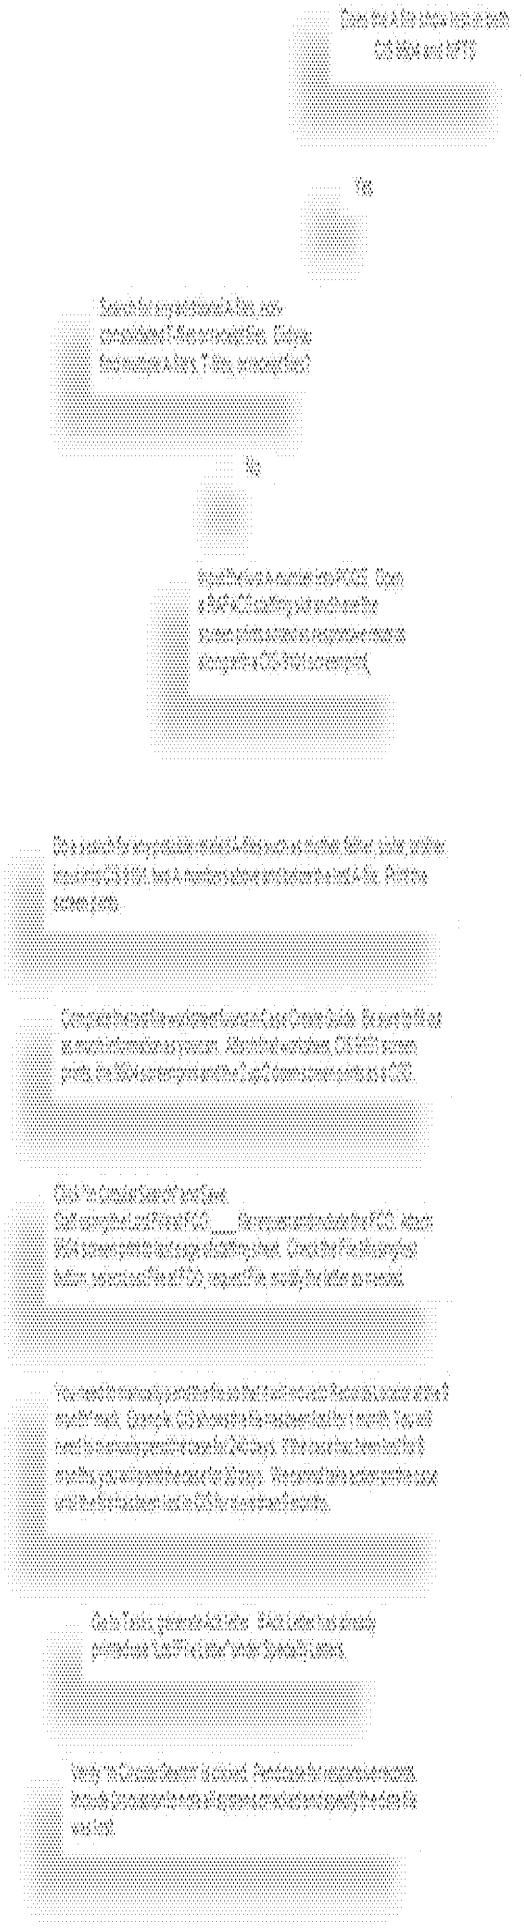
- If we found any T-file, unconsolidated A-file, or any receipt file, we staff for that, do screen prints and then move on down the flow chart.



U.S. Citizenship and Immigration Services

Other Files- No

- If we did not find any other files, we have to do the search screen prints, just like a No Records search then move on down the flow chart.



U.S. Citizenship and Immigration Services

Search Again

- Do a two-number above and below search and print those screen prints.
- See – you need that Scan As sheet no matter what!

U.S. Citizenship and Immigration Services

Lost File Worksheet

- Fill it in as completely as possible.
- The requester may appeal, and if it goes to court, the Lost File Worksheet could become an exhibit.

U.S. Citizenship and Immigration Services

LOST FILE WORKSHEET

A-number _____

Name of Alien _____

Date shown as Not Found in CIS _____

Date shown as lost in NFTS _____

1. Search CIS for potential second a-number and/or consolidation

a. Second a-number? _____

b. Any T-files? Yes ____ No ____

i. If yes, have they been staffed and scanned? If not, please do so now.

c. Consolidated with? _____

d. Does the EOIR screen show an upcoming hearing date?

Yes__ No ___

2. Check CLAIMS for petition/applications

a. Were any found? Yes _____ No _____

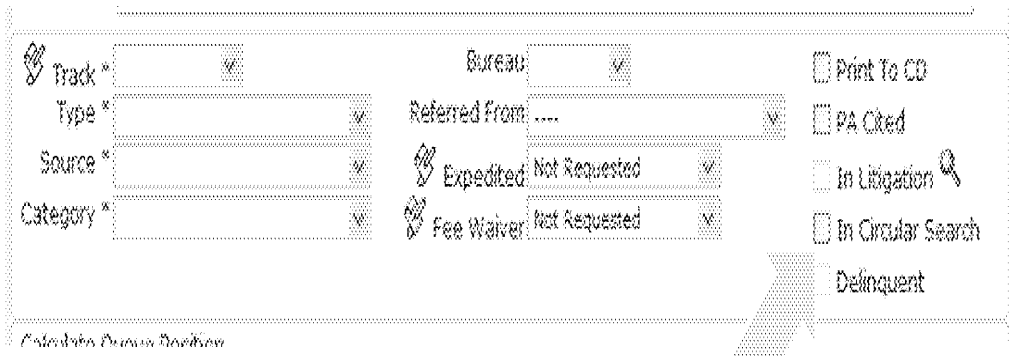
b. If so, either provide screen prints with receipt number or list below

3. Check NFTS. Any current file movement. Yes _____ No _____

4. Check PCQS for any indication that file is with the naturalization unit.

NOTES:

Get Ready to Staff



Check "In Circular Search"

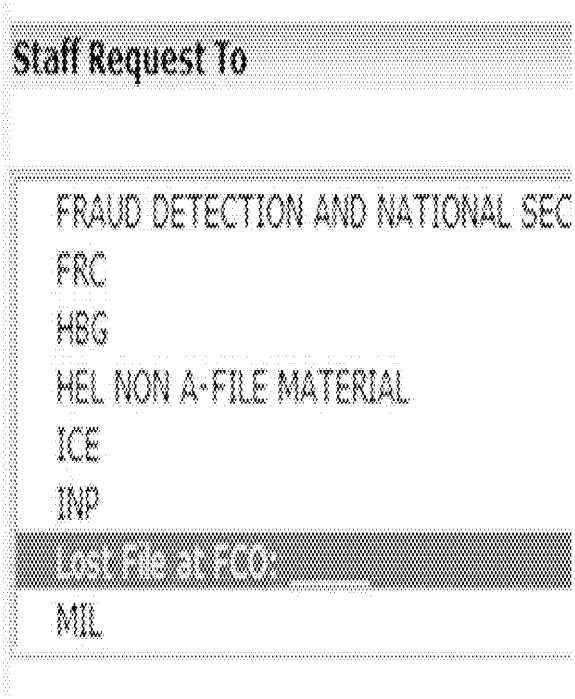
Save

When you staff, "File Missing/Lost" will automatically be checked. If you staff and that box is not automatically checked, then you must go back and check Circular Search.

U.S. Citizenship and Immigration Services

Now Staff

Lost File at FCO:



And fill in the blank on the staffing sheet:

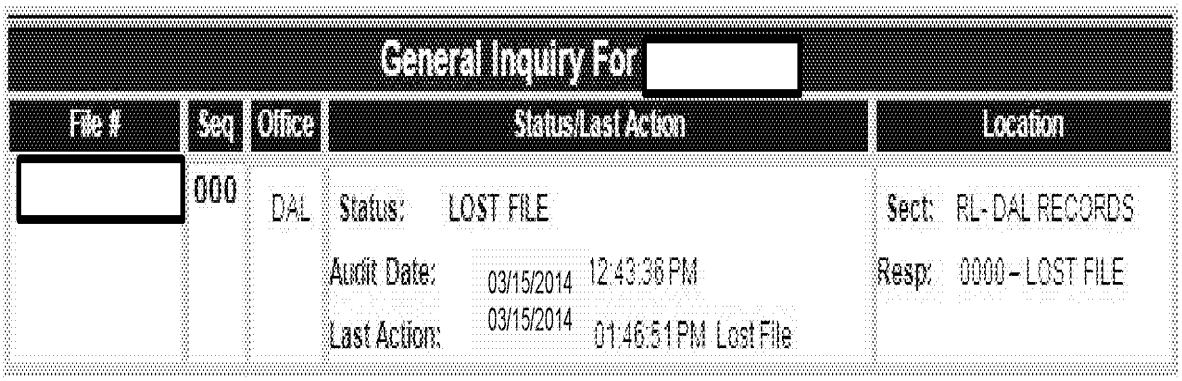
Staffed to: Lost File at FCO: SND
CIRCULAR / SPECIAL / LOST FILE SEARCH REQUEST

U.S. Citizenship and Immigration Services

Manually Pending

- For our example, we are pretending today is April 6,
- The last action on the file was March 15. (b)(6)

(b)(6)



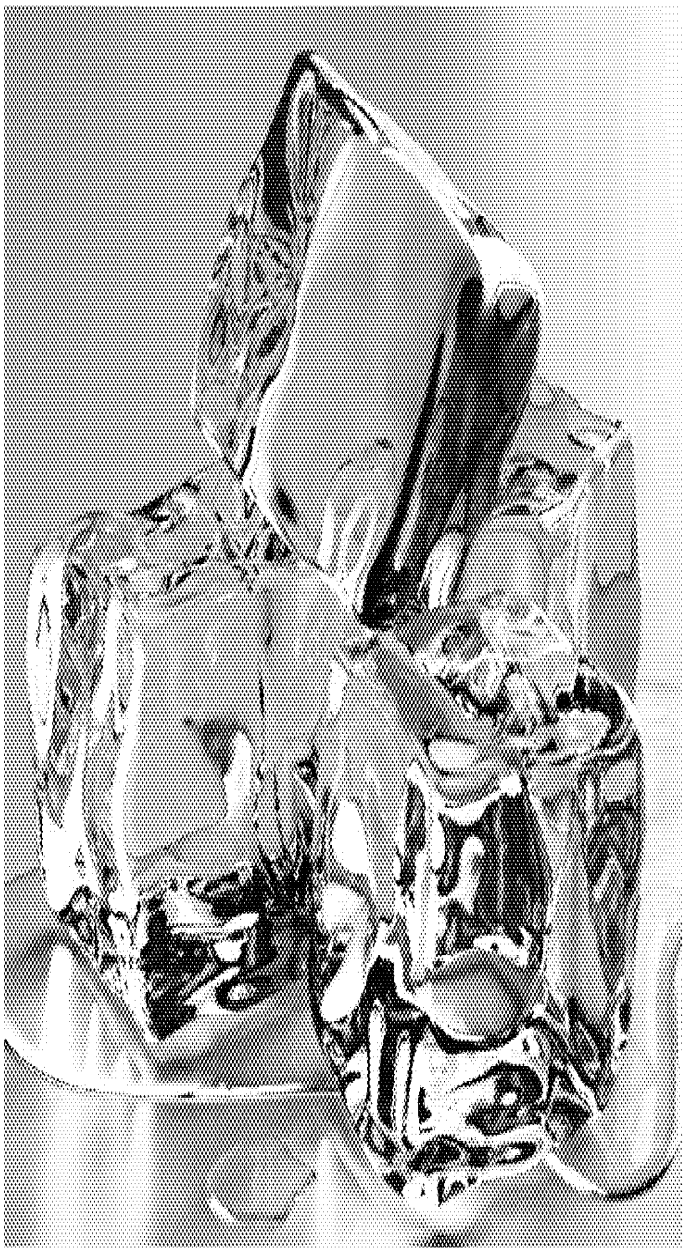
We have to set the suspense so this case goes to Records Locator when the "Lost Time" is more than 60 days.

Why?

U.S. Citizenship and Immigration Services

Why Manually Pend?

- We are waiting to see if we find the file. We do occasionally find the file.



U.S. Citizenship and Immigration Services

Giving It a Chance

- If you staffed for something else such as a receipt file or T-file, We give the A-file 60 days to show up.
- If the lost status goes over 60 days, we want to cancel the slot and send what we have to the case processor.
- If you did not find anything else and the lost status goes over 60 days, we will print what electronic records we have and send the case to the case processor.

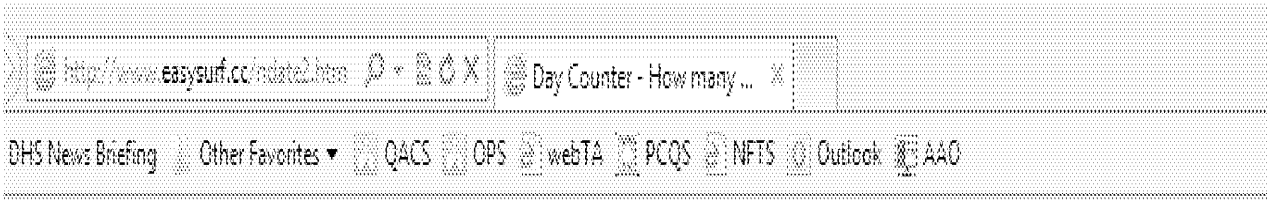
U.S. Citizenship and Immigration Services

How many days?

- Let's say the file was lost March 15th.
- We want the file to hit Records Locator on or about May 14th.
- Today is April 6th.
- How do you figure out the number of days?
- Use http://www.easysurf.cc/ndate2.htm

U.S. Citizenship and Immigration Services

http://www.easysurf.cc/ndate2.htm



Easysurf | Home | Site Map | E-Mail | Help

Day Counter - How many days and/or weeks between two dates

	Month	Day	Year	Era
From:	April	6	2014	A.D.
To:	May	14	2014	A.D.

Click to Calculate — 38 Days -- or -- 5 Weeks and 3 Days

U.S. Citizenship and Immigration Services

The answer is 38 Days.

There are other ways to figure it out

- OK Google “How many days until May 14?”
- If you just like to do math, there is a Julian Date calendar at Appendix H.
- Fingers. Take shoes off for more complicated math.

U.S. Citizenship and Immigration Services

How to Manually Pend

- "Manually Pend" means the same as "Change the Due Date"
- Go back to the "Contents" tab
- Click on "Responsive Records" and wait
- You will get a drop-down box that says "Manage Document"
- Click that and it will send you to another screen

U.S. Citizenship and Immigration Services

Now Change the Due Date

- Enter 38 in "Days to Pend" and then click *Update Due Date*
- That should change the due date to the day we want it to hit RL

U.S. Citizenship and Immigration Services

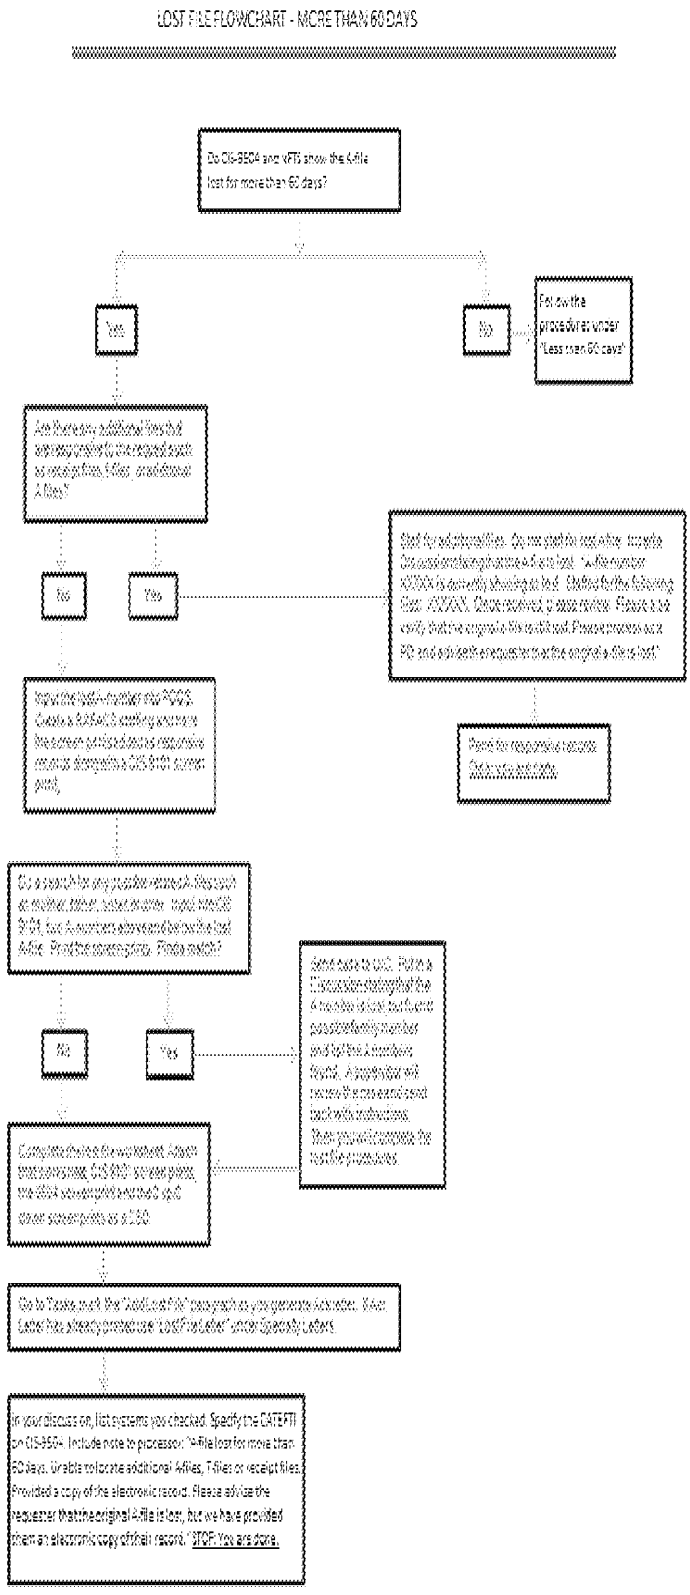
Before We Move On:

- You can experiment –
- When you enter the number in Days to Pend then click Update Due Date – the Due Date changes.
- If you don't like that Due Date, just change the number and update again until you *do* like it.

U.S. Citizenship and Immigration Services

Scenario: More Than 60 Days

If it has been more than 60 days, we go to the Lost File Flowchart > 60 days and follow the instructions.



U.S. Citizenship and Immigration Services

Unit Chief

- If you have a > 60 day scenario
- And you find possible related A-files
- Then you print the screen prints and send the case to Unit Chief
- Why?

U.S. Citizenship and Immigration Services

Unit Chief might search

- Unit Chief may be able to order the file(s) and review them to see if there are misfiled documents belonging to your subject.
- If we cannot find anything else, we will print our what electronic records we have and scan that into a RAFACS slot.
- Finally, you must check “Add Lost File Paragraph” when you create the Acknowledgement Letter.

Staffing Topics

U.S. Citizenship
and Immigration
Services

FOIA Program Office
National Records Center

Objective

- To better understand:
  - Multiple Staffing
  - Staffing for T-files
  - The Scanning Bar Code

WARNING: This exercise is FOR OFFICIAL USE ONLY (FOUO). It contains PII that is exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the originator.

Common Staffing Errors:

- A-file number in FIPS does not match the NFTS screenshot - usually by not using the dropdown box, and occasionally by using a screenshot totally unrelated to the case.
- Cropped NFTS screenshots.
- "Multiple Staffing" when the A & T files are at different FCO's.
- "Multiple Staffing" when there is an A file and a receipt.

Some other Staffing Errors:

- Circular search box not checked and/or not saved prior to staffing for lost files.
- Staffing for an A files or receipt files that NFTS shows in "Consolidation Area." Usually, the Consolidation button is blued-in, and you can see it has already been consolidated.
- Staffing for an A file at an outside FCO and a T file that is at NRC.
- Staffing for FRC files using RAFACS/CIS staffing sheets.

Save a Little Time

- Some case creators have been typing the specific documents on staffing sheets of Track 1 cases. (example: "Requester needs Naturalization Certificate only")
- Save your time. The contractor scans in the whole file.
- Imagine a busy store with long lines. Imagine a customer at the store purchasing a package of multicolored napkins. The customer says to the checker, "My child only wants the purple napkins." What will the checker do?
- Case processors and supervisors need your insight – Discussions are good. Adding comment to a staffing sheet? Not so good.

Records Locator:

- If you see a file request from an outside FCO, and you look in NFTS and see the file at NRC, do not cancel that staffing and re-staff to RAFACS/CIS.
- That means we will most likely have to pay for a second scan and the responsive records are going to show up twice.
- If you see a file request from an outside FCO, and you look in NFTS and see the file is now at ANOTHER outside FCO, then yes, cancel the staffing and re-staff.
- If you are not sure about the situation, talk to MSB. They are very happy to help!

When to type "MULTIPLE STAFFING"

IF

- A person has more than one A-File.

AND

- Those A-Files are not consolidated.

U.S. Citizenship and Immigration Services

FOIA Program Office
National Records Center

Let's Pretend

- Staffing for an A-file in Chicago and a T-file in Milwaukee? That's more than one staffing, but it does not fit our term "Multiple Staffing." Pretend – let's call that "Condition Blue."
- Staffing for an A-file and an unconsolidated application? That is two staffings, but does not fit our term "Multiple Staffing." Pretend – let's call that "Condition Blue."
- Now let's pretend that you have two unconsolidated A-files that you have to staff for. Let's call that "Condition Red."
- The ONLY time you type "Multiple Staffings" is during "Condition Red."

Are these multiple staffings?

- Person has A-File and receipt file, and those files are at two different places. Is it?
- Person has an A-File and a T-File at two different places. Is it?

(b)(6)

Requester gave us two A-numbers

FOUO

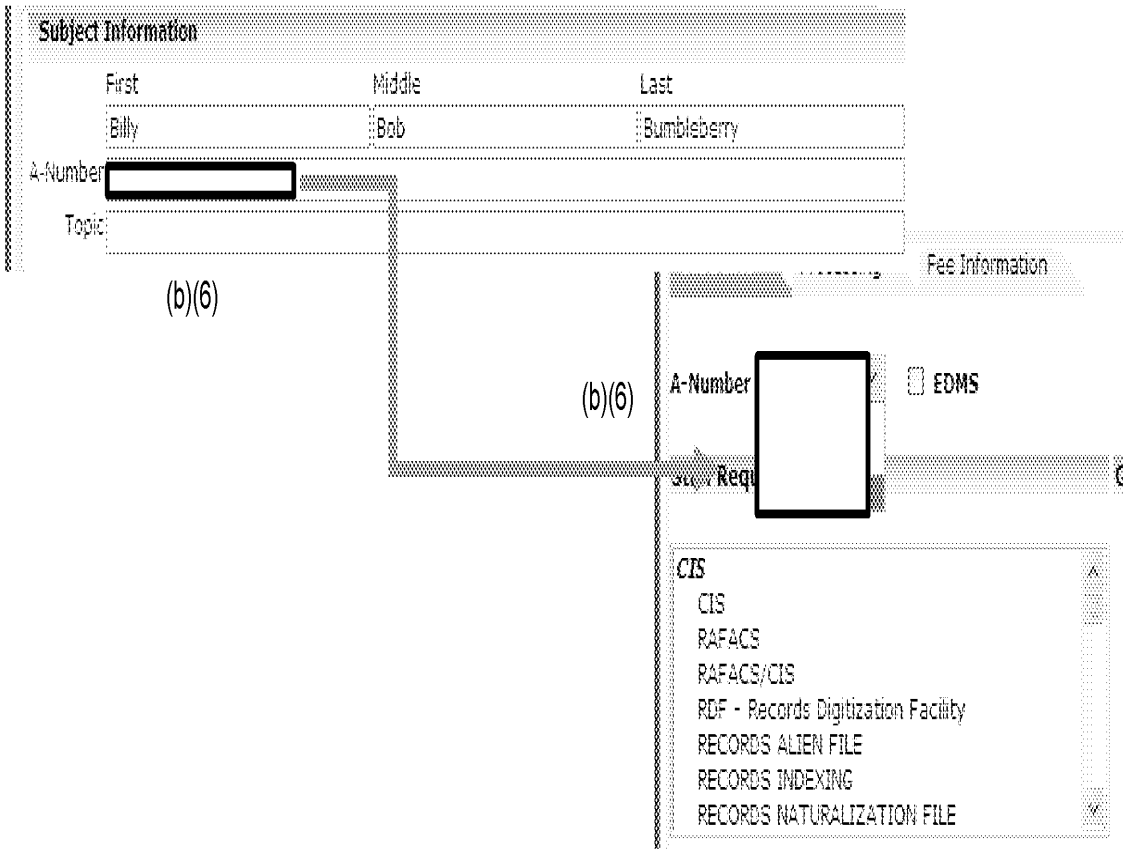
Staffing for more than one A #?

- Use the **Drop-down Box** in FIPS to create the file request.

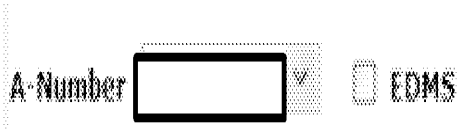


U.S. Citizenship and Immigration Services

FOIA Program Office
National Records Center

(b)(6)

The Drop-down Box



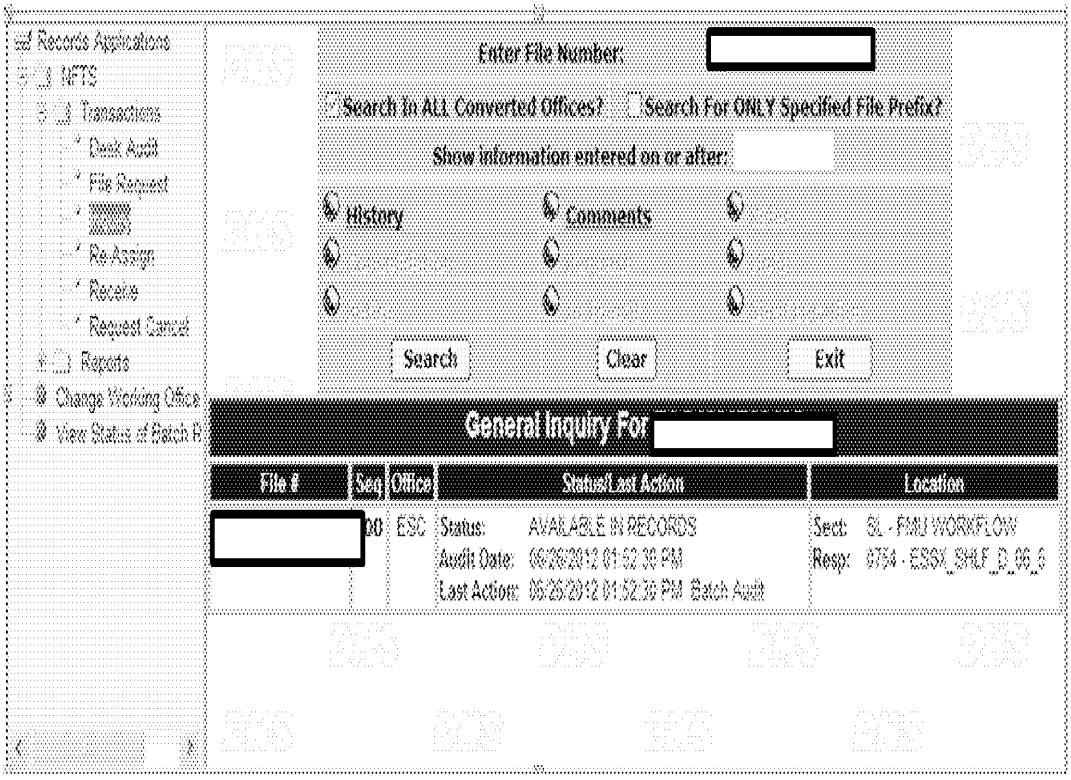
- The subject asked for "all my records" and has two unconsolidated A-Files.
- You must add the second A-number to the A-number field on the FIPS worksheet.
- When you staff for the second file, you must select the second A-number from the drop-down box. If the number on the staffing sheet does not match, you cannot type the correct number onto the staffing sheet. That will not solve the problem.
- (b)(6) If you staff for [redacted] but the A-Number on the FIPS worksheet is [redacted], the contractor will not be able to locate the file, your staffing sheet will come up on the Problem Files report, and ... (b)(6)
- The staffing will get sent back to you for correction.

U.S. Citizenship and Immigration Services

FOIA Program Office
National Records Center

Unconsolidated Receipt?

- This person has an A-number and an unconsolidated receipt.
- Is this a multiple staffing? (b)(6)



It's two staffings, but it is not Condition Red.

Consolidated A-File

DANGER WILL ROBINSON: If he gave us A75812830 AND we find it in NFTS AND it shows it is in "Consolidation Area" – watch out!

U.S. Citizenship and Immigration Services

FOUO

FOIA Program Office
National Records Center

Well now, this is a worthless staffing:

(b)(6)

General Inquiry Fo [redacted]

File #	Seq	Office	Location
[redacted]	000	NBC	Sect: ZY - SYSTEM AREA Resp: 8888 - CONSOLIDATION AREA

CIS told us this file is consolidated into

(b)(6)

[redacted]. The case creator cannot staff for – it doesn't exist.

MSB will send it back to the case creator to fix.

T-files – will a physical A file be here?

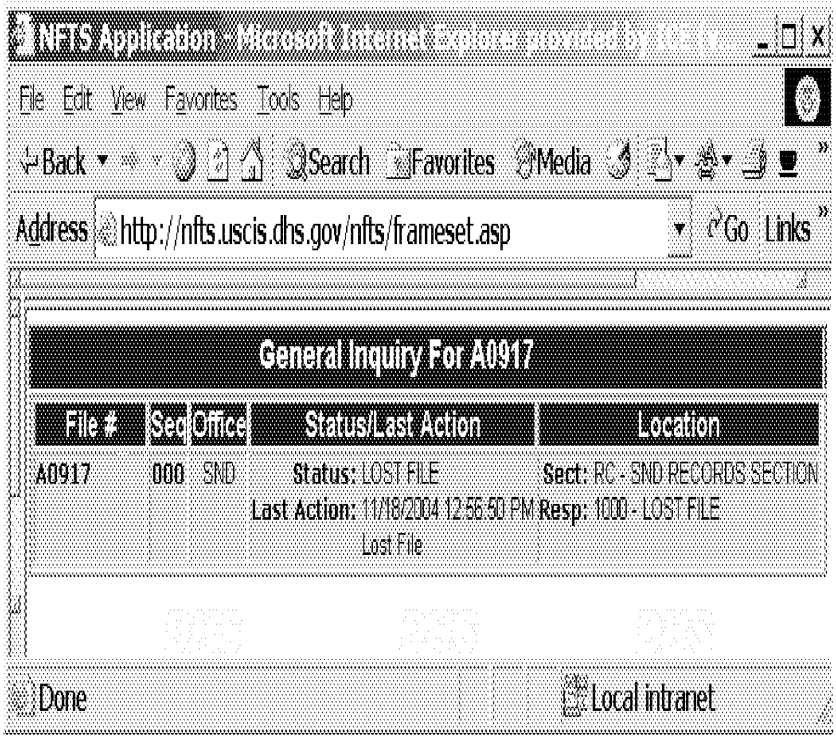
- A-file at RDF and T-file at NRC, yes staff for both.
- A-file at any service center besides NBC (i.e. ESC, NSC, SSC or WSC) and T-file at NRC, yes staff for both.
- A-file at ZMI and T-file at MIA, yes, staff for both.
- A-file at NBC and T-file at NRC, no, do not staff for the T-file, but include the screen shot.
- A-file at FRC and T-file at NRC, no, do not staff for the T-file, but include the screen shot.
- A-file at CHI and T-file at NRC, no, do not staff for the T-file, but include the screen shot.

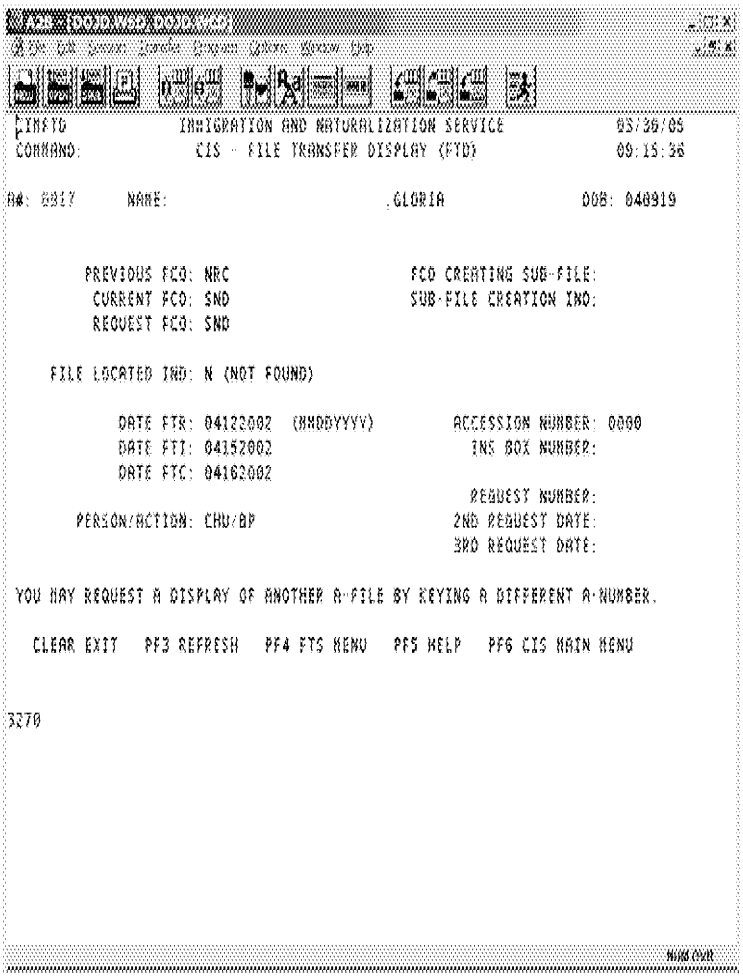
Next Subject:

Lost Files

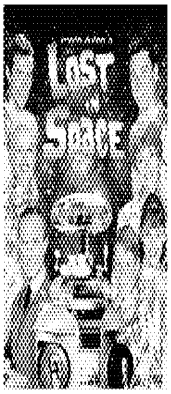
U.S. Citizenship
and Immigration
Services

FOIA Program Office
National Records Center





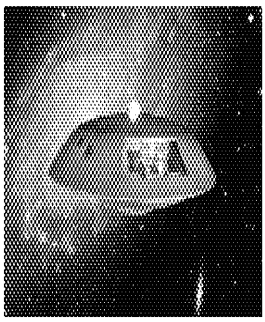
Lost File



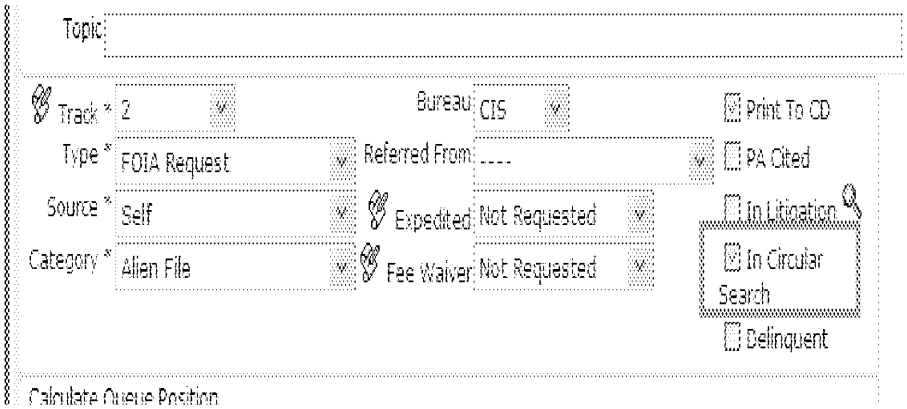
- Check both CIS and NFTS – they both have to say the file is lost.
- Before you create the file request letter
  - Check the "In Circular Search" Box
  - Click "Save"
- And then create the file request letter.

U.S. Citizenship and Immigration Services

Where's the File?
"In Circular Search"



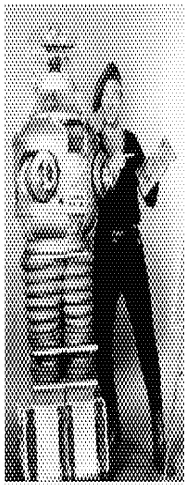
- Before you create the file request letter
  - Check the "In Circular Search" Box
  - Click "Save"



- When you create the file request letter
  - Make sure the "File Missing/Lost" box is checked.
  - Then click on Create File Request.

U.S. Citizenship and Immigration Services

Speaking of Unnecessary Artwork:



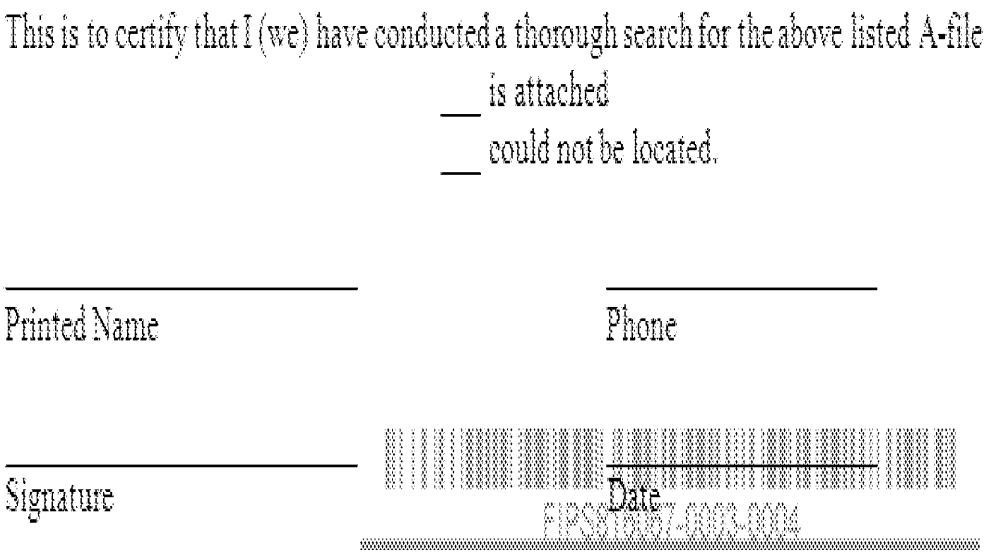
- Please don't crop the top.
- You might think you are helping, but unfortunately, this only causes confusion.
- This staffing will come back to the case creator for correction:

A040000000 000 NRC	Sect:	AN - FILE ROOM NUMBER 1 LL N
	Resp:	4260 - ROW AN SHELF 4260 - AN4260

U.S. Citizenship and Immigration Services

Interference with the bar code

- This will cause a scanning problem. If you notice typing has somehow gotten bumped down into the bar code area, please move it back up.



This is to certify that I (we) have conducted a thorough search for the above listed A-file and this file:

__ is attached
__ could not be located.

Printed Name _____ Phone _____

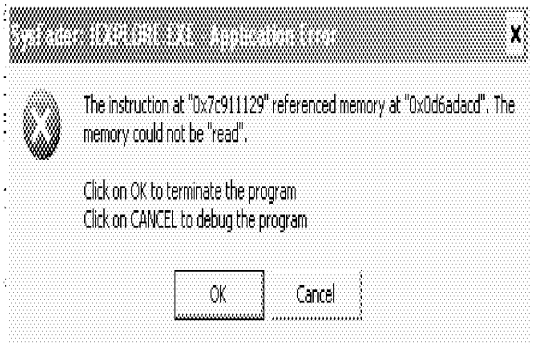
Signature _____ Date _____

FIPS 10-07-0003-0004

U.S. Citizenship and Immigration Services

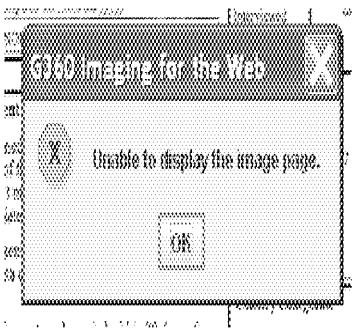
FOIA Program Office
National Records Center

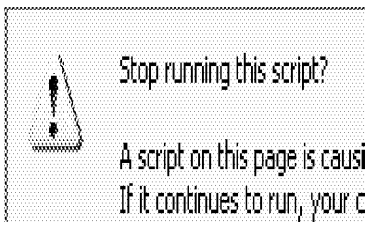
Next subject: FIPS Crash



- They're investigating what causes FIPS Crash.
- If you search and get back 200 or more hits, you could possibly be contributing to a FIPS Crash – so:

  - Always search with a number if you have a number
  - If they gave you a number, and it checks out, conduct your search with that number and you're done.
  - If they didn't give you a number – this could be a way to avoid FIPS Crash – specify "created after" and make it not greater than one year.





U.S. Citizenship and Immigration Services

National Records Center

Questions?

U.S. Citizenship and Immigration Services

FOIA Program Office
National Records Center

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

For Official Use Only - USCIS FOIA Program Office

Objectives

To read instructions scanned in with the request.

To search diligently enough to find a file, if there is one.

To catch the hidden Expedited Treatment and Fee Waiver requests.

To double-check the A-number on the staffing sheet.

U.S. Citizenship and Immigration Services

Warning

- This training module uses real data so that you will be able to practice it for yourself.
- You should not discuss any PII in the case studies outside the class.
- If you print these slides, treat them as sensitive FOUO. Keep them locked, and shred all the case studies when you no longer need them.

U.S. Citizenship and Immigration Services

The problem:

- Not everybody knows his or her Alien Number.
- Not everybody has a good command of English.
- Sometimes their writing is messy.
- Not everybody is easy to find.
- Is it important to find them?

U.S. Citizenship and Immigration Services

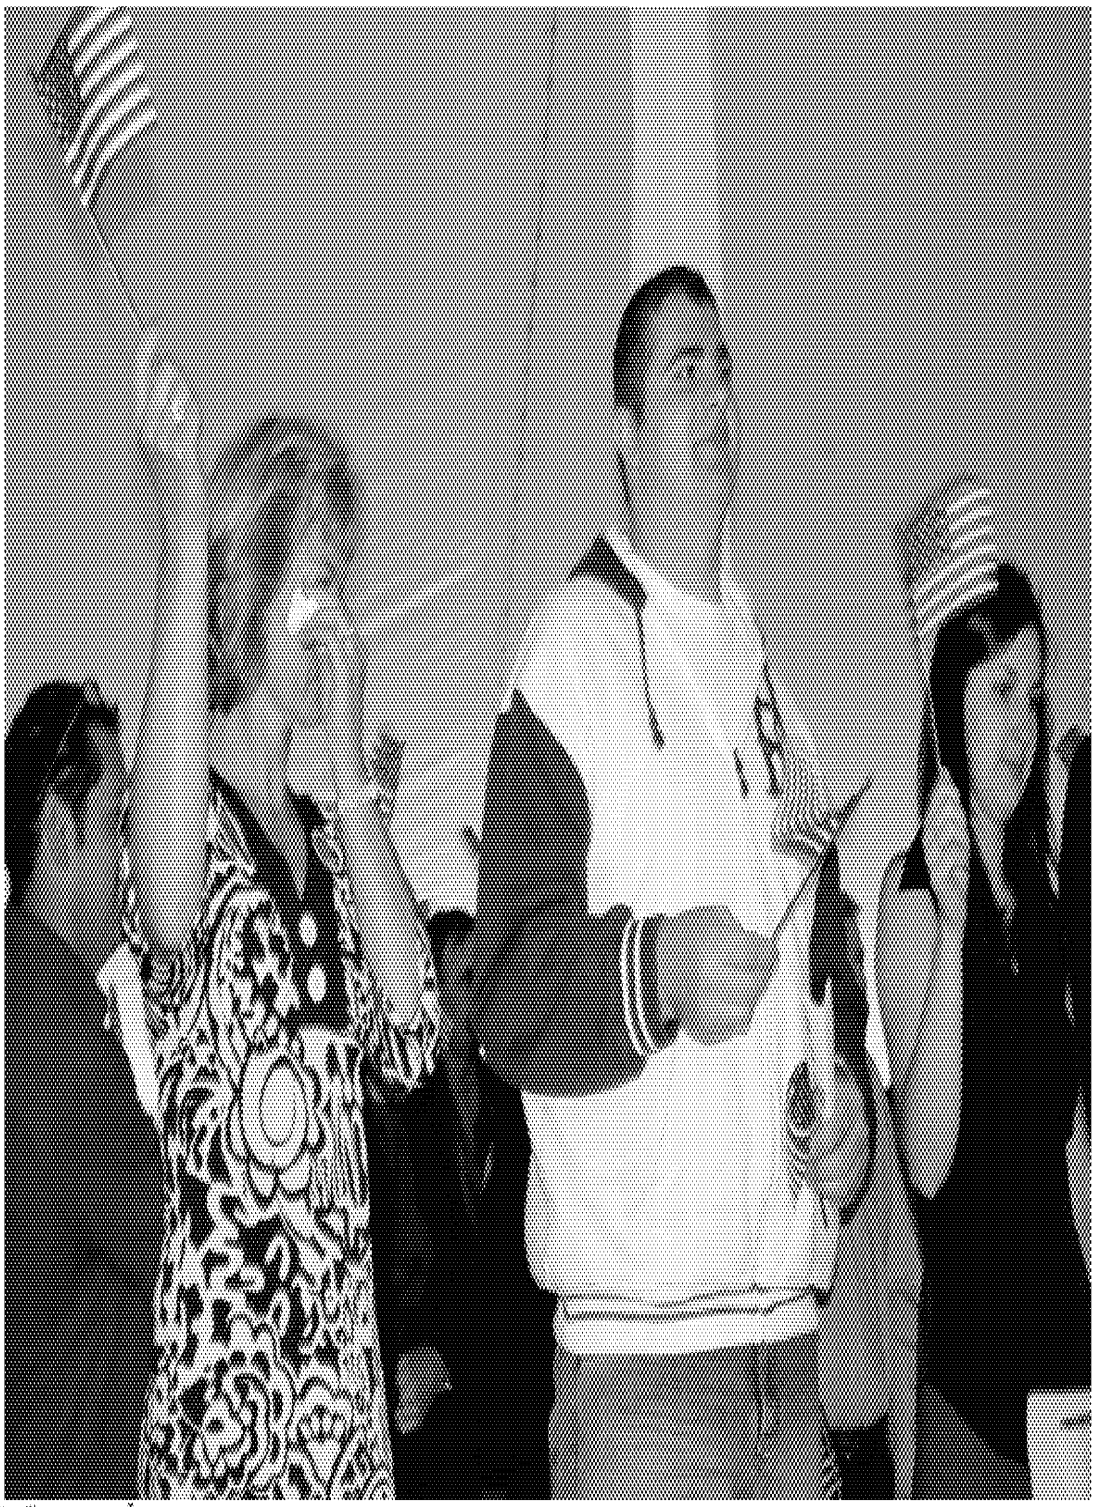
We owe them a diligent search.

U.S. Citizenship and Immigration Services

We owe them a diligent search.

U.S. Citizenship and Immigration Services

Is your job important?



U.S. Citizenship and Immigration Services

No A-Number?

- Usually we can find a person based on a name and date of birth.
- There could be variations in spellings.
- CIS might have entered the date of birth incorrectly.
- There might be aliases.
- There could be typographical errors on names and dates of birth.

U.S. Citizenship and Immigration Services

Case Study

- We will look at a situation involving real PII.
- The pages are marked FOUO.

- The case was difficult. We closed it NR.
- We easily found a record in PCQS, and we got lucky and found her in CIS, but it is too late.

U.S. Citizenship and Immigration Services

The Request

Family Name *(Last Name)*	Given Name *(First Name)*	Middle Name
Nacionales	Marie	Curie

Other Names Used *(if any)*	Name at time of entry into the U.S.	I-94 Ad
Marie Nacionales Mori	Marie Curie Nacionales	

Alien Registration Number *(A#)*	Petition or Claim Receipt #	Country of Birth	Date of Birth *(mm*
		[redacted]	

(b)(6)

This looks straightforward.

She asked for "All my records."

U.S. Citizenship and Immigration Services

...but it's too late.

For Official Use Only - USCIS FOIA Program Office

What Happened?

- It seems ridiculous that somebody entered her first name as her second last name, but ...
- Probably, a long time ago, she filled out some form incorrectly and INS entered it the way she filled it out.
- The processor will see what happened and think "Wow, what a great case creator!"

U.S. Citizenship and Immigration Services

Don’t give up too easily!

- If we have not found the person within 10 minutes, there is a problem.
- Sometimes there is another reason we can’t find them.
- If you are having a problem, contact a neighbor or a supervisor – Sometimes in our lives, we all have pain, we all have sorrow ...

U.S. Citizenship and Immigration Services

Other reasons we can't find her:

- If she said she entered EWI in 2008, and we have no reason to believe she was ever arrested, it is possible she has no file.

- If she said she entered the country in 1960, and we have no reason to believe she had anything to do with INS after 1975, we should prepare a Records Index staffing.

U.S. Citizenship and Immigration Services

READ

- The first requirement of Case Create is READ. For example: "Do not dup to NRC20131XXXXX."

Request was duped to NRC201310 . There is a cover sheet on the request stated to no the case to NRC201310 .

REMARKS- Second print to open a new case. Pending case possible.

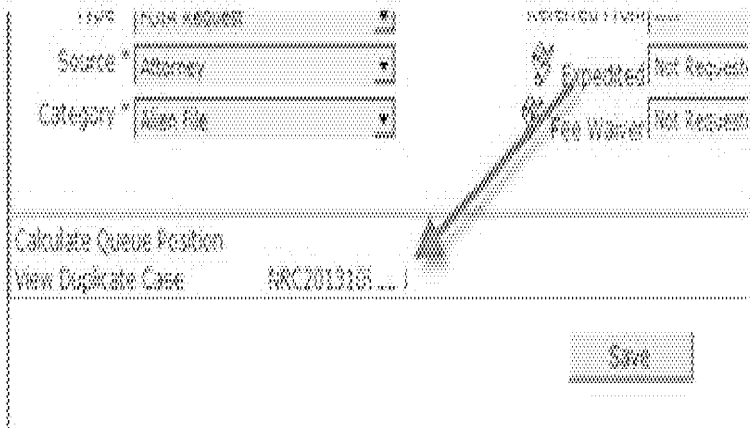
Please first search to see if there's an open pending request, if so send this case to Research to have attached as a CSI, to the open pending case. Thank you.

Please do not DP to NRC201310

DATE: 01/02/13

The cover sheet said:

"Please do not DP to NRC201310XXX"



Case Creator created the case, set NRC201310XXXX as a Duplicate, then closed the case ER and sent it to UFA.

U.S. Citizenship and Immigration Services

READ

- The first requirement of Case Create is READ. For example:

- "Receipt number and the current status of the petition I filed for my son Alberto Reyes."
  - Petition is at NVC. Will screen prints work?
- Petitioner wants: "Copy of petition, supporting documents and Affidavit of Support for [redacted] (b)(6)
  - Petition is consolidated into beneficiary's file. Will screen prints work?

U.S. Citizenship and Immigration Services

For Official Use Only - USCIS FOIA Program Office

Your Discussion

- Say what you mean.
- Mean what you say.
- Use Plain English.
- Don't try to sound fancy or official.
- Paste-in sentences are good.
- If you think you wrote something confusing – you probably did.

U.S. Citizenship and Immigration Services

Plain Language

- The Plain Language Act requires federal employees to use plain language on any document that goes to the public.
- It's a good idea to use plain language all the time.

- Want to read the Federal Plain Language Guidelines? There is a copy at O:\Foia\FOIA LIBRARY

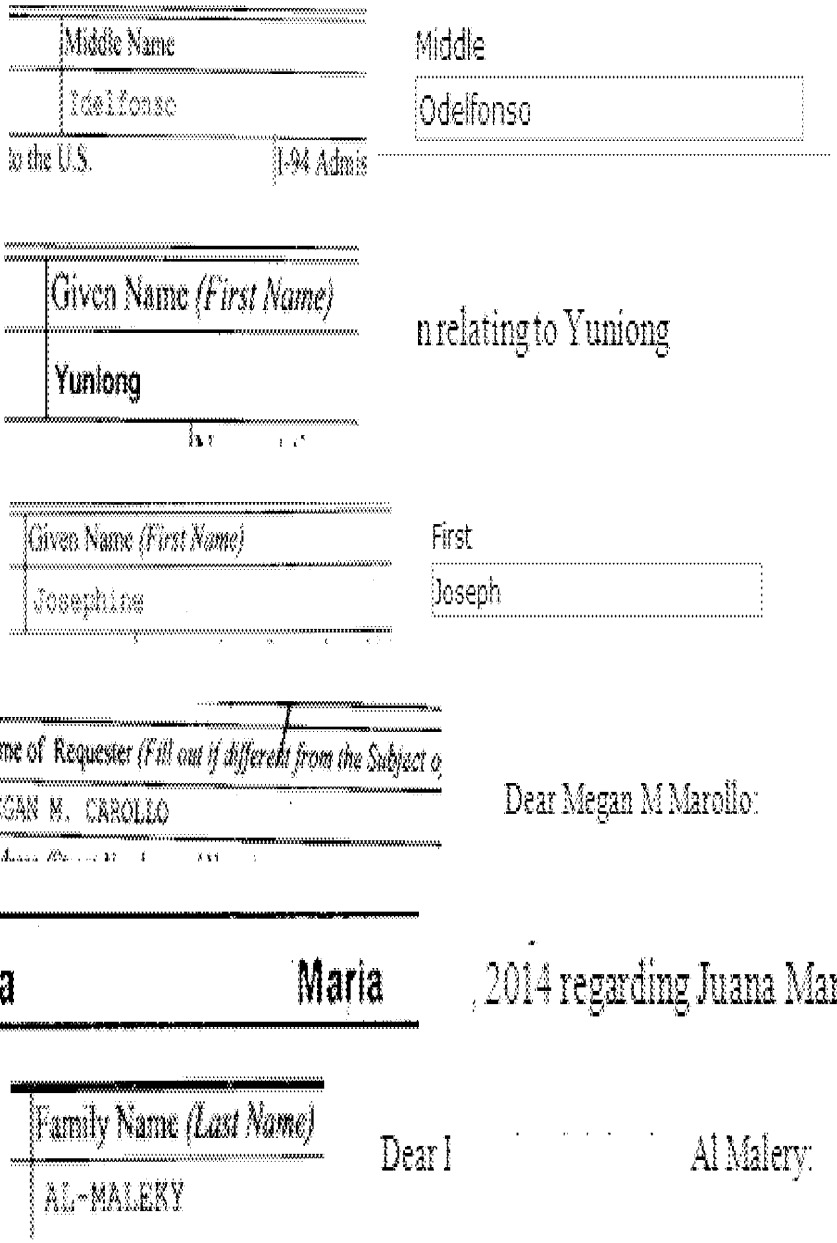
U.S. Citizenship and Immigration Services

Six Real Examples

What if you wrote someplace and they closed your case NR and sent you a letter with your name spelled incorrectly?

How would you feel?

Dear Monk Potter
We have no record of you,
and we looked all over.



U.S. Citizenship and Immigration Services

Attention to Addresses

The case creator clicked on the right attorney's name, but not the correct address, and it went to the wrong address:

Attorney at Law
350 Broadway, Ste. 700
New York, NY 10013

Name of Requester (Fill out if Different from the Subject of Record)	
ATTORNEY AT LAW	
Address (Street Number and Name)	
130 FULTON STREET,	
City	State
NEW YORK	NY

The case creator changed the spelling of the town. If you believe the name of the town is spelled incorrectly, look it up on https://tools.usps.com/go/ZipLookupAction!input.action

Petaluma, CA 94952

City
PETALUMA

PETALUMA CA 94952-

Show Mailing Industry

U.S. Citizenship and Immigration Services

Expedited / Fee Waiver

1. We are missing a few Expedited and Fee Waiver requests.

2. Sometimes we are closing a case FC, TD, RD or RF and leaving the request “Denied” instead of setting it to “Not Requested.”

U.S. Citizenship and Immigration Services

Cover Sheet

- There is supposed to be an Expedited Treatment or Fee Waiver cover sheet.
- That makes it easy. Just read and follow the instructions.

- Problem: Sometimes there is no cover sheet.

- Why? Sometimes the attorney adds "Please expedite" or "Please waive fees" at the very end of the letter, and mentions the request nowhere else.

U.S. Citizenship and Immigration Services

No Cover Sheet

Would like to have this expedited I have an appointment on Friday at my local office and I need this to renew my drivers license which is currently expired.

Thanks

- This counts as an expedite request.
- We did not notice it.

Crouching Lawyer, Hidden Request

- Why would they put a Fee Waiver or Expedited Treatment request in the last sentence of the letter, in small print?

- Why does a boa hold perfectly still on a tree branch over an animal path?

U.S. Citizenship and Immigration Services

Cause for Action

- If we completely ignore a request, the requester has a cause for action. The requester may take us to court and recover "attorney fees."

- Those "fees" come directly out of the USCIS operating budget – NOT out of the US Treasury.

U.S. Citizenship and Immigration Services

READ

- The first requirement of case create is: Read!
- If you catch the hidden request, you potentially save USCIS a lot of money.

- If there is a hidden request, you may
  - Add a discussion and send the case to Unit Chief, or
  - Find a supervisor, get a decision, and take action.

U.S. Citizenship and Immigration Services

Expedited Grant or Denial

- To be considered an expedited request one of the following criteria must exist:
  - A circumstance that poses an imminent threat to the life or physical safety of an individual or
  - An urgency to inform the public about a federal government activity, if made by an individual who disseminates information (the media).

U.S. Citizenship and Immigration Services

Expedited

- Using the word expedited in the request letter does not necessarily mean the requester is requesting expedited treatment.
  - "Thank you for expediting my request" is not a request.
  - "Please expedite this request" is a request.

U.S. Citizenship and Immigration Services

Fee Waiver

- To be considered for Fee Waiver:

  1. The disclosure of the requested information must be in the public interest,
  2. AND the disclosure of the information is not primarily in the commercial interest of the requester.

U.S. Citizenship and Immigration Services

The Fee Waiver Request

- He doesn't have any money – can he get a fee waiver?
  - No.
- What if he writes that he does not intend to pay anything?
  - We have to close it FC. He cannot declare an intention not to pay.
- Even though he probably wouldn't pay anything?
  - Yes, even though.
- What if he includes a financial statement showing that he has no money?
  - That does not count as a request. He has to ask. If there is not a specific request, his financial statement is meaningless.

U.S. Citizenship and Immigration Services

Sending to Unit Chief

- If you send a case to UC for clarification, change the "Expedited" or "Fee Waiver" status to "*Requested*."

- Always send an e-mail to your supervisor saying you did that.

- Why?
- Because "*Requested*" starts a clock.

U.S. Citizenship and Immigration Services

Sending to Up-front Approver

- If you send a case to Up-front Approver, you MUST change "Expedited" or "Fee Waiver" request status to "*Not Requested*."

- Why?
- If we close a case, we are neither approving nor denying a request for Expedited or Fee Waiver.

U.S. Citizenship and Immigration Services

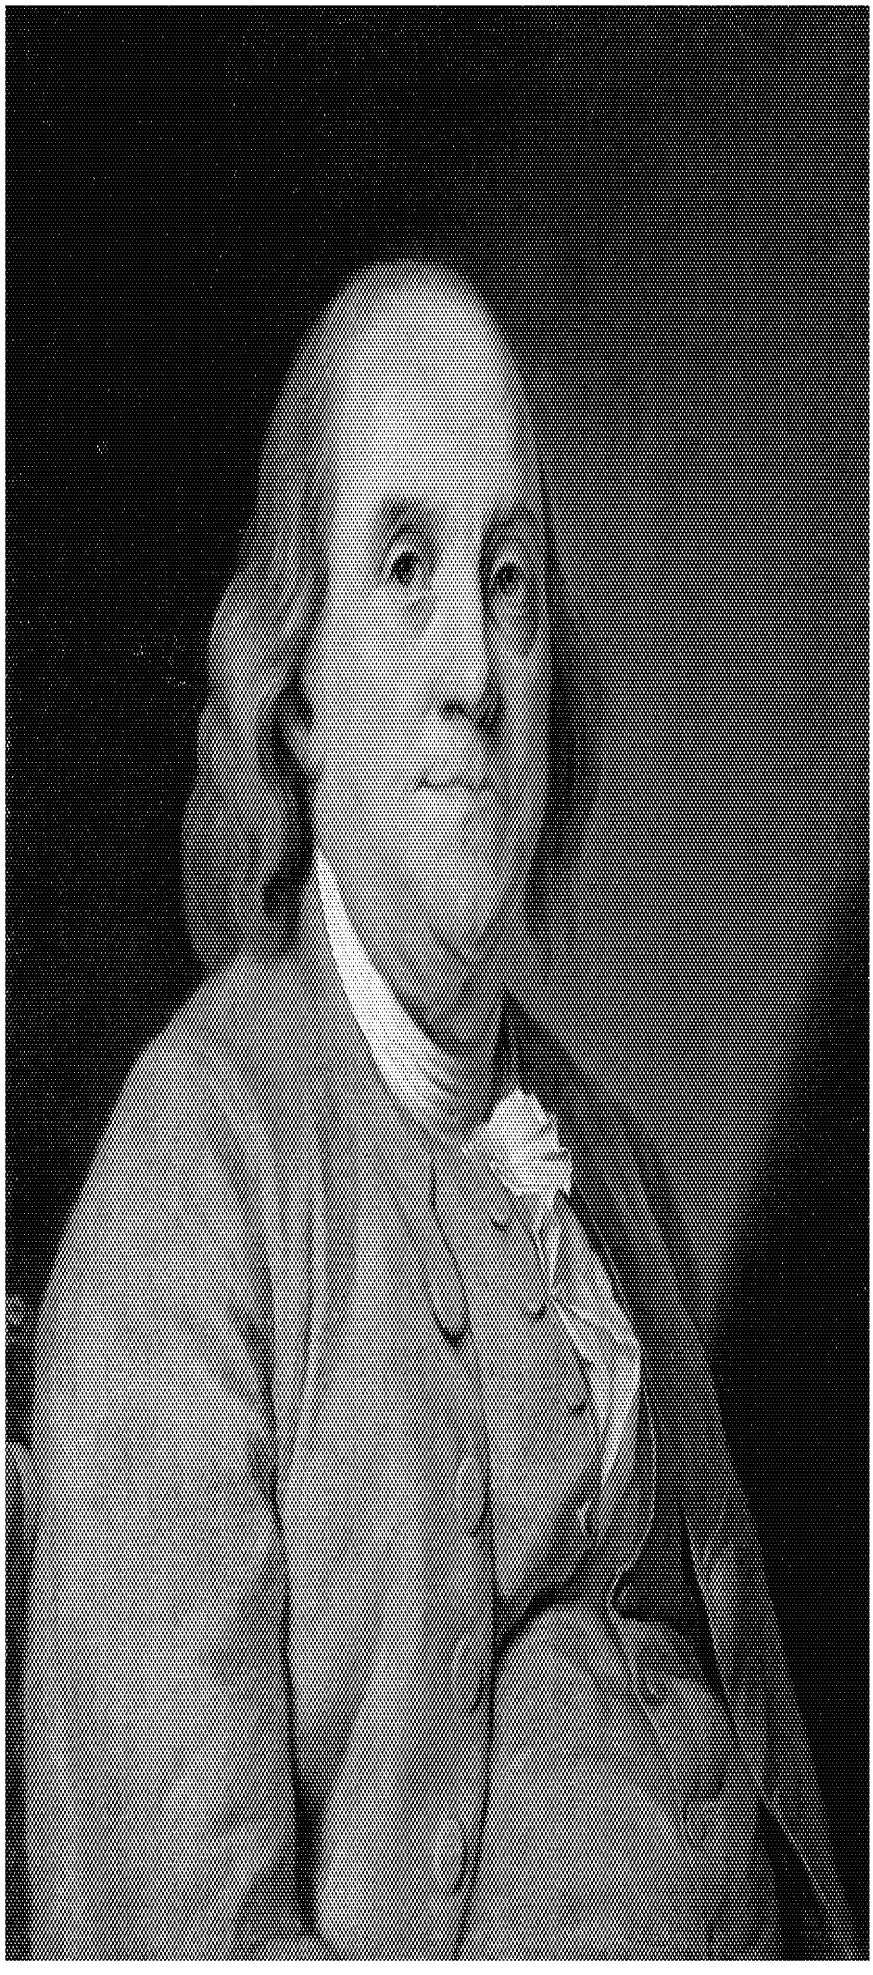
Discussions

- Sometimes, supervisors will give you verbal guidance to deny or approve Fee Waiver or Expedited Treatment requests.
- If that is the situation, we need a discussion saying so.

U.S. Citizenship and Immigration Services

"The noblest question in the world is: *What Good may I do in it?*"

– *Poor Richard's Almanack*, 1737



U.S. Citizenship and Immigration Services

A common staffing error

- The A# on the staffing sheet does not match the A# on the NFTS screen print.
- There are two main reasons
  1. Typing in the A# instead of copying and pasting.
  2. Not using the drop-down box if staffing for more than one file.

U.S. Citizenship and Immigration Services

Copy and Paste

- Verify (or find) the A-number in CIS or PCQS.

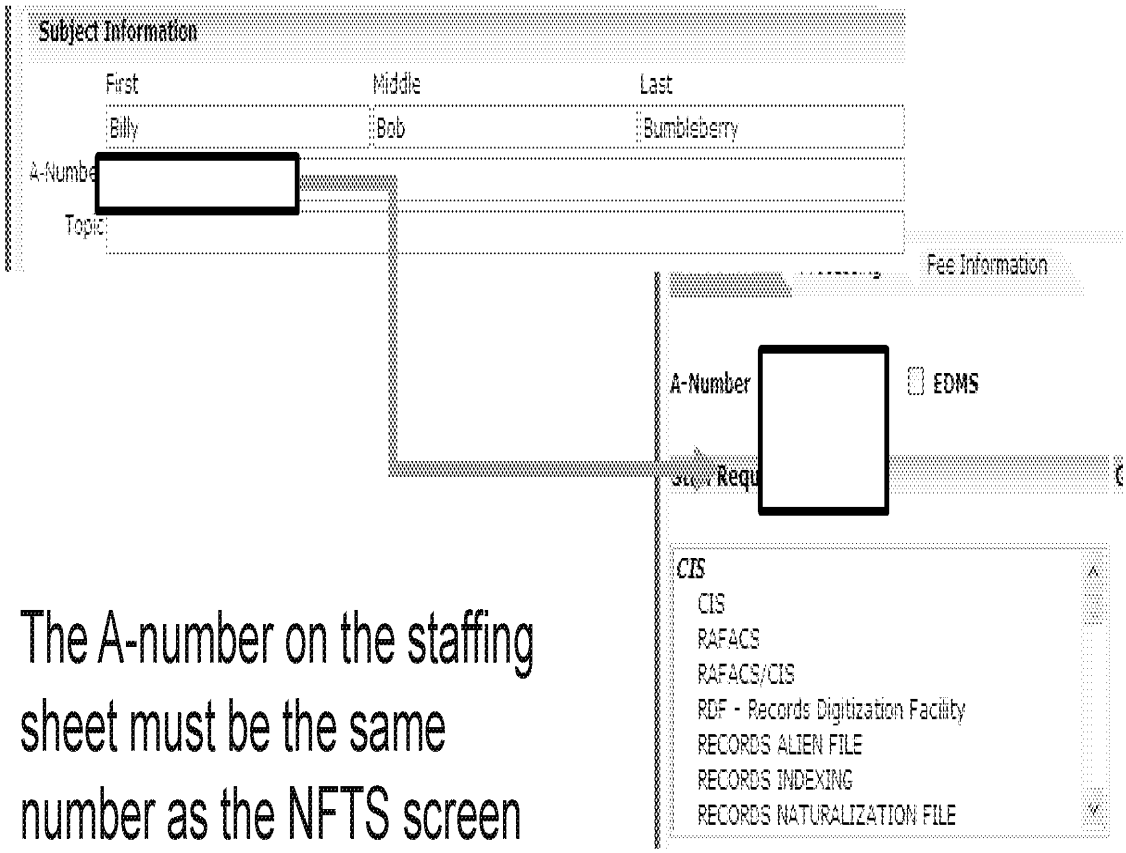
- Once you know the A-number relates to the subject, copy and paste the A-number into FIPS.

U.S. Citizenship and Immigration Services

Staffing for more than one A #?

- Use the **Drop-down Box** in FIPS to create the file request.

(b)(6)

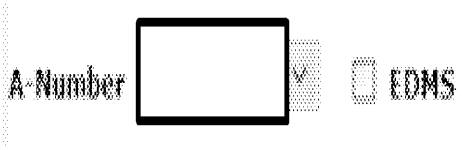


The A-number on the staffing sheet must be the same number as the NFTS screen print.

If the numbers are different, you have to start over.

U.S. Citizenship and Immigration Services

The Drop-down Box

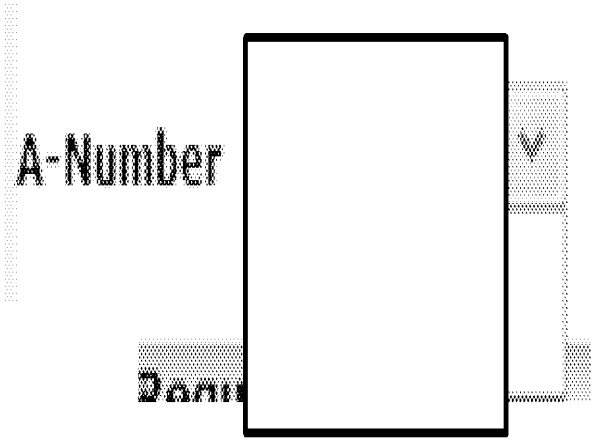


- The subject asked for "all my records" and has two unconsolidated A-Files.
- You must add the second A-number to the A-number field on the FIPS worksheet.
- When you staff for the second file, you must select the other A-number from the drop-down box. If the number on the staffing sheet does not match, you cannot type the correct number onto the staffing sheet. That will not solve the problem.
- If you leave it the way it is, the contractor will not be able to locate the file, your staffing sheet will come up on the Problem Files report, and ...
- ☹ The staffing will get sent back to you for correction.

U.S. Citizenship and Immigration Services

Unconsolidated Receipt

- If you staff for an unconsolidated receipt, you should not have any A-number on the staffing sheet.
- If you already saved, you will not be able to delete the A-number from the A-number field.
- That's not a problem.
- First, enter the receipt number in the Topic field.
- When you do the staffing, you can select the "null field" which is immediately above the A-Number: (b)(6)



U.S. Citizenship and Immigration Services

FOIA Support Team

- Staffing question? Talk to FST.
- They would rather have a good staffing the first time.
- They get no joy from sending a case back to you to fix a staffing.
- They are always happy to discuss the best way to staff for something.

U.S. Citizenship and Immigration Services

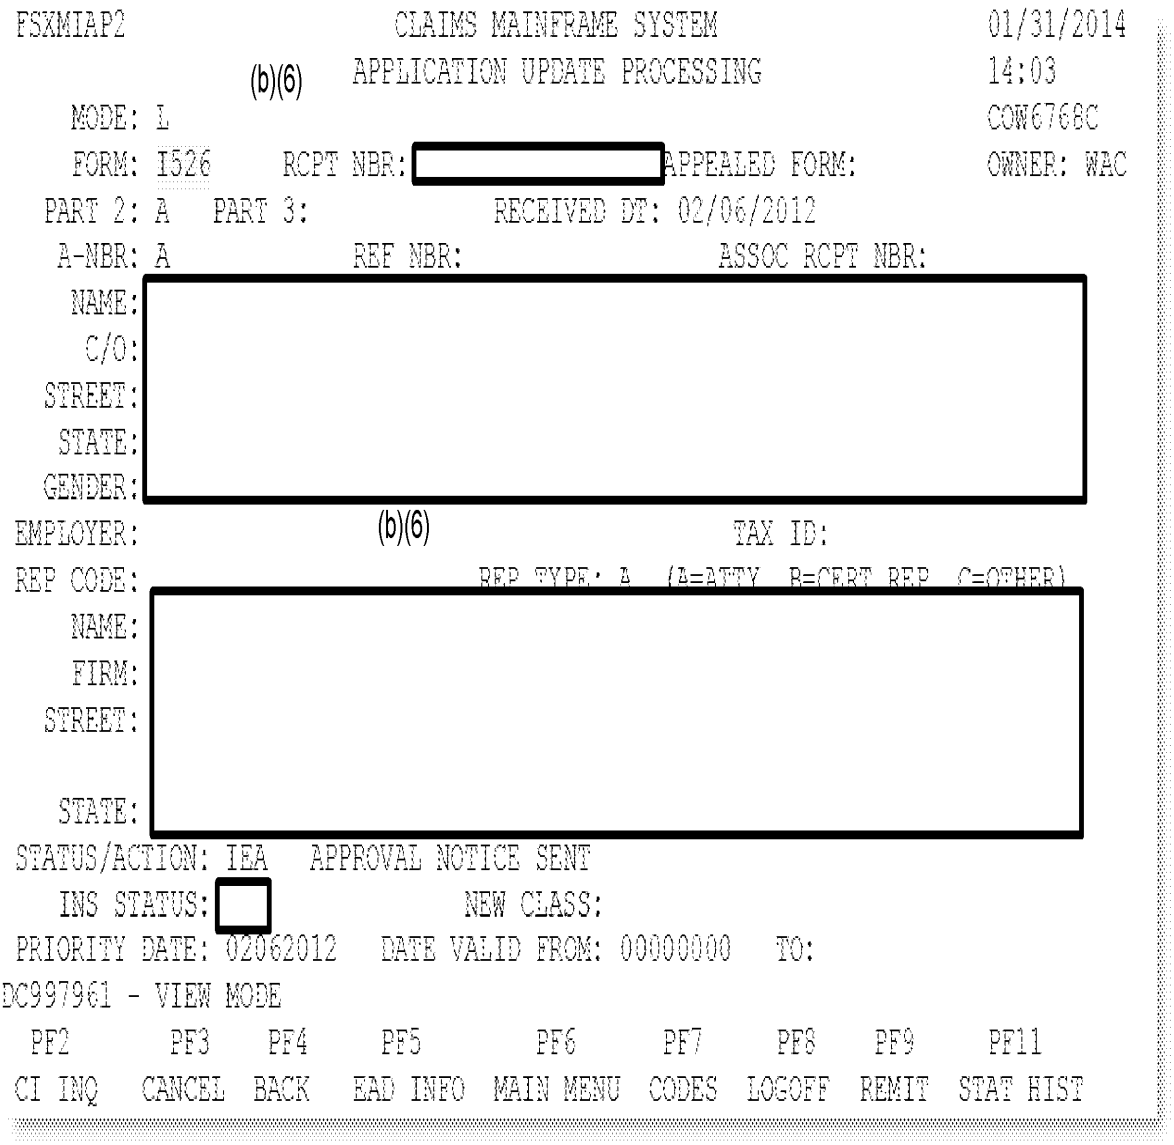
U.S. Citizenship and Immigration Services

Here is one more thing:

- If you discover in CLAIMS or PCQS that a petition is I-526 or I-829, please send the case to SIG. (Section 12.7.12.5)



U.S. Citizenship and Immigration Services

One Last Question:

What is the first requirement of Case Create?

U.S. Citizenship and Immigration Services

Questions?

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

For Official Use Only - USCIS FOIA Program Office

U.S. Citizenship and Immigration Services

Researching, Staffing and Redacting ELIS Information from PCQS, Part 1

May 27, 2014

*All PII has been fabricated or sanitized; no actual data used

USCIS Electronic Immigration System (ELIS)

System allows applicants to:

- Set up and manage their accounts.
- Electronically submit applications and supporting documents
- Receive and respond to notices and decisions electronically
- Make payments online; and
- Access real-time information about the status of their cases.
- http://www.uscis.gov/uscis-elis/requesting-benefits-using-uscis-elis

U.S. Citizenship and Immigration Services

Purpose

- Understand how to create a USCIS ELIS file request
  - Know the search criteria to find the IOE number
  - Understand when to staff for ESC or SSC
  - Determine if the Case State is open or closed
  - Where and when to add the correct information to the Staffing and Acknowledgement letters

Overview

- Creator checks PCQS for ELIS info, gets IOE number
- Copy “IOE” and number to Topic section of FIPS worksheet
- Self-request or Atty-Rep-Others? Case open or closed?
- Staff to ESC or SSC - no NFTS screen print – insert language in Staffing letter (one exception)

U.S. Citizenship and Immigration Services

Overview

- Also staff for NFTS location – NFTS Screen print
- Compose Ack letter – insert language (exception)
- ESC or SSC scans ELIS data into FIPS
- Processor analyzes and redacts

U.S. Citizenship and Immigration Services

U.S. Citizenship and Immigration Services

Acknowledgement Letter: Self-requesters – Open or Closed

U.S. Citizenship and Immigration Services

Ack Letter for Self-requesters: Open or Closed

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2002000000. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

From the USCIS Electronic Immigration System (ELIS) you may download:

(1) the case intake snapshot, documents uploaded in response to a Request for Evidence and correspondences (G-28 Representation or Withdrawal request) from the View My Cases screen; and

(2) notices, if any, from the View Messages screen.

NOTE: Since you can download the USCIS ELIS content above, we will not be providing this material in our response to you. However, if you are unable to access USCIS ELIS, please follow the instruction below to request your USCIS ELIS content.

Please insert (cut and paste) this language below the fees paragraph – tells the requester what he or she can download

U.S. Citizenship and Immigration Services

USCIS no longer collects Social Security Numbers in connection with FOIA or PA requests. When forwarding to us any documents related to your request, please ensure any Social Security Numbers on the documents are blanked out or removed.

The National Records Center (NRC) has the responsibility to ensure that personally identifiable information (PII) pertaining to U.S. Citizenship and Immigration Services (USCIS) clients is protected. In our efforts to safeguard this information, we may request that additional information be provided to facilitate and correctly identify records responsive to your request. Though submission of this information is voluntary, without this information, your request may be delayed while additional steps are taken to ensure the correct responsive records are located and processed. Further, if we are unable to positively identify the subject of the record we may be unable to provide records responsive to your FOIA request.

No change to second page

You may check the status of your FOIA request online, at www.uscis.gov. Click on "FOIA Request Status Check" located on the left side of the web page under "Other Services", and follow the instructions. If you have any questions concerning your pending FOIA/PA request, or to check the status of a pending application or petition, please call The National Customer Service Center at 1-800-375-5283. Please be aware that the National Records Center no longer accepts FOIA/PA related questions directly by phone.

All FOIA/PA related requests, including address changes, must be submitted in writing and be signed by the requester. Please include the control number listed above on all correspondence with this office. Requests may be mailed to the FOIA/PA Officer at the PO Box listed at the top of the letterhead, or sent by fax to (816) 350-5785. You may also submit FOIA/PA related requests to our e-mail address at uscis.foia@uscis.dhs.gov.

Sincerely,

Jill A. Eggleston
Director, FOIA Operations

Change the word "Alien" to "IOE," and replace the A number with the IOE number

To: FOIA/PA Officer

From: ESC

Date: _____

___ No responsive documents were located relevant to this request.

___ Attached are all responsive documents/information located in response to this request.

___ Attached is additional information to be used to reply to the requester.

___ Attached is our justification for withholding any responsive material.

___ Hours of clerical search time expended to search for responsive material.

___ Hours of non-clerical search time were expended to search for responsive material.

U.S. Citizenship and Immigration Services

Ack Letter: Attorney/Representative/Others Requests

Open Case only

U.S. Citizenship and Immigration Services

Ack Letter for Atty-Rep-Others: Open Only

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2002000000. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

From the USCIS Electronic Immigration System (ELIS) you may download:

(1) the case intake snapshot, documents uploaded in response to a Request for Evidence and correspondences (G-28 Representation or Withdrawal request) from the View My Cases screen; and

(2) notices, if any, from the View Messages screen.

NOTE: Since you can download the USCIS ELIS content above, we will not be providing this material in our response to you. However, if you are unable to access USCIS ELIS, please follow the instruction below to request your USCIS ELIS content.

Please insert (cut and paste) this language below the fees paragraph – tells the requester what he or she can download

U.S. Citizenship and Immigration Services

USCIS no longer collects Social Security Numbers in connection with FOIA or PA requests. When forwarding to us any documents related to your request, please ensure any Social Security Numbers on the documents are blanked out or removed.

The National Records Center (NRC) has the responsibility to ensure that personally identifiable information (PII) pertaining to U.S. Citizenship and Immigration Services (USCIS) clients is protected. In our efforts to safeguard this information, we may request that additional information be provided to facilitate and correctly identify records responsive to your request. Though submission of this information is voluntary, without this information, your request may be delayed while additional steps are taken to ensure the correct responsive records are located and processed. Further, if we are unable to positively identify the subject of the record we may be unable to provide records responsive to your FOIA request.

No change to second page

You may check the status of your FOIA request online, at www.uscis.gov. Click on "FOIA Request Status Check" located on the left side of the web page under "Other Services", and follow the instructions. If you have any questions concerning your pending FOIA/PA request, or to check the status of a pending application or petition, please call The National Customer Service Center at 1-800-375-5283. Please be aware that the National Records Center no longer accepts FOIA/PA related questions directly by phone.

All FOIA/PA related requests, including address changes, must be submitted in writing and be signed by the requester. Please include the control number listed above on all correspondence with this office. Requests may be mailed to the FOIA/PA Officer at the PO Box listed at the top of the letterhead, or sent by fax to (816) 350-5785. You may also submit FOIA/PA related requests to our e-mail address at uscis.foia@uscis.dhs.gov.

Sincerely,

Jill A. Eggleston
Director, FOIA Operations

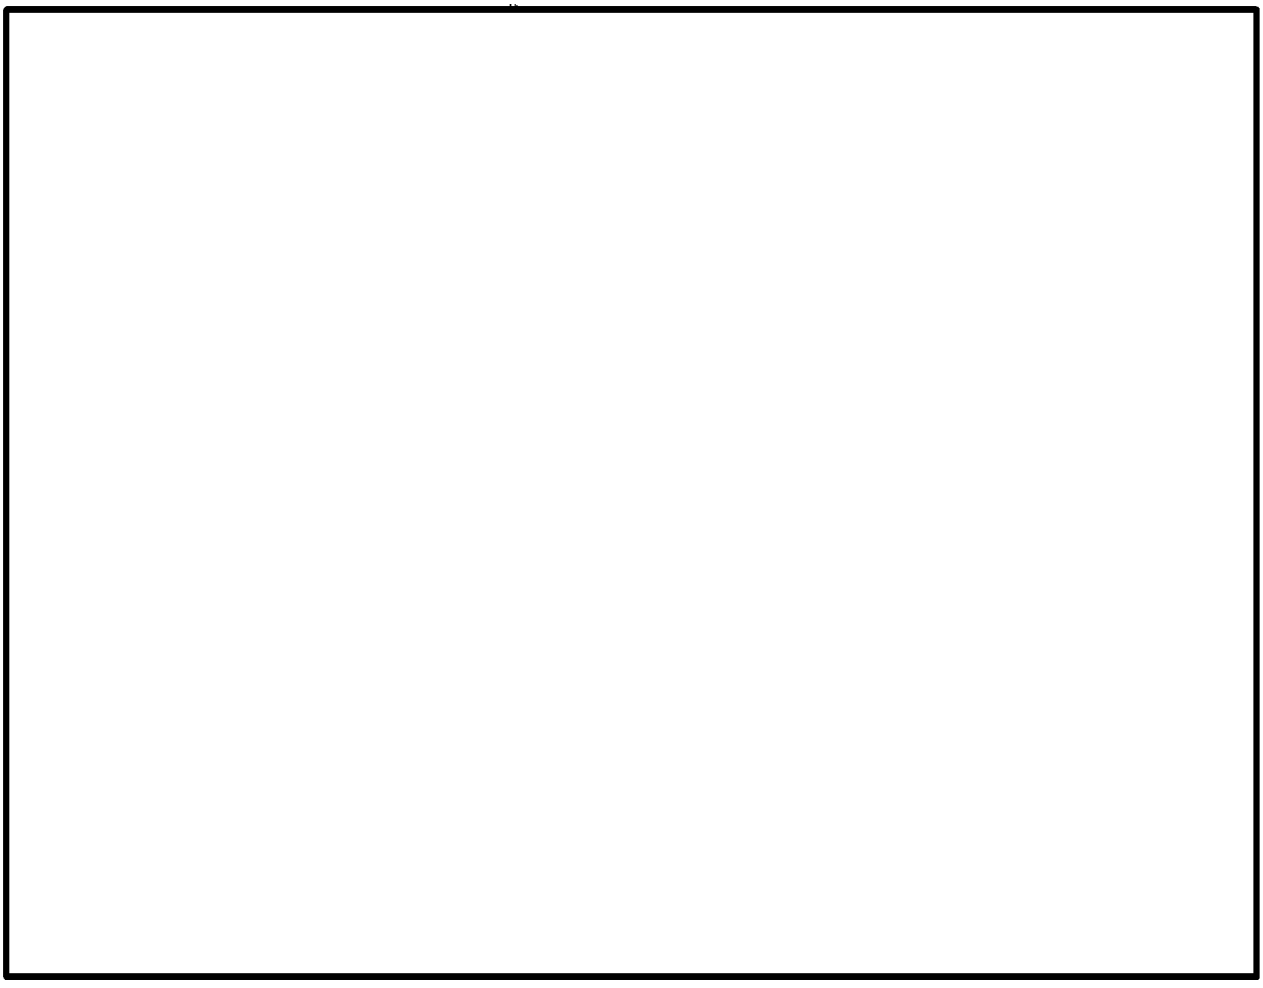
IBIS RESOLUTION MEMORANDUM

(b)(7)(e)



- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

SUBPOENAS/COURT ORDERS

If you pull a new request that is a subpoena or court order, please close it as an ER (see exception below). Send a message to the NRC, FOIA PROGRAM mailbox providing the REQ number and information indicating the request was a subpoena or court order. These requests are currently being addressed by the NRC Program Office. Any subpoena or court order a creator encounters should be given high priority. NRC, FOIA PROGRAM should be advised as soon as possible, or contact your supervisor for guidance on how to proceed.

EXCEPTION! At times USCIS Chief Counsel directs us to process a subpoena or court order as a normal FOIA/PA request. If that happens, we will attach a "Scan as New" sheet and scan the e-mail from counsel into request supporting documents or case supporting documents. Please review all supporting documents before you close as ER.

- The *USCIS FOIA Case Create Guide* will be updated to reflect this change.

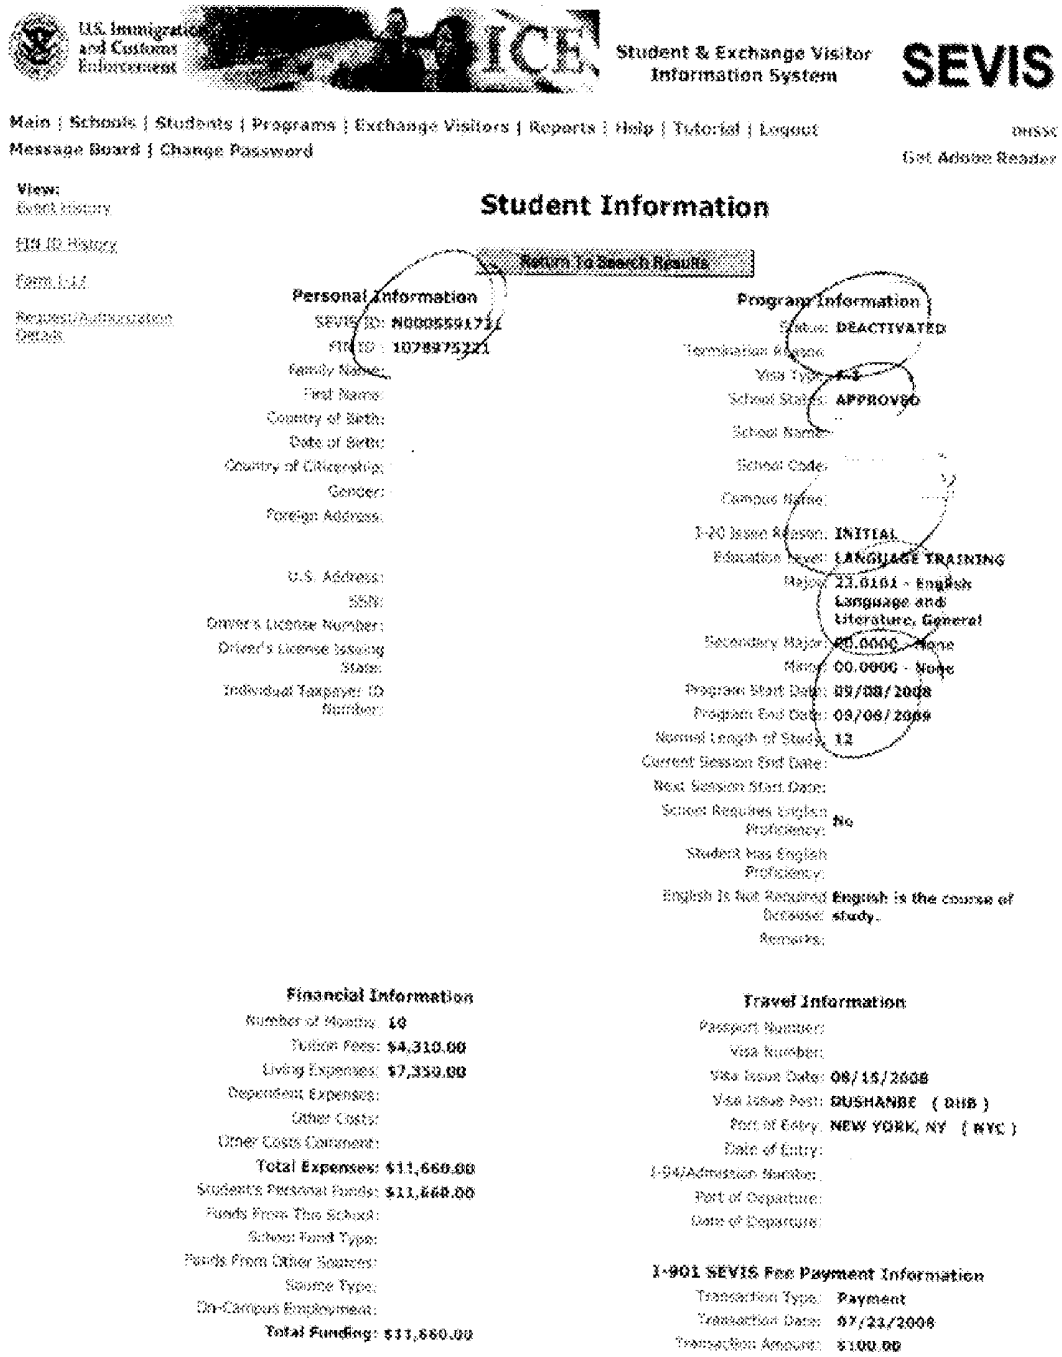
PROCESSING STUDENT AND EXCHANGE VISITOR INFORMATION SYSTEM (SEVIS) DOCUMENTS

Do not refer SEVIS documents (see example below) to ICE. Please process them accordingly.



- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

SUPPORTING DOCUMENTS OR EXHIBITS SUBMITTED WITH I-129F OR I-130

If you are processing an I-129F or I-130 petition (whether it's in an A-file or a receipt file)

- *with* the consent of the beneficiary,
- but *without* the consent of the petitioner,
- then protect the PII of the petitioner in any attached exhibits the same as you would protect the PII of the petitioner in the left-hand column of the I-129F or I-130, (such as withholding in full the petitioner's Resident Alien Card, or partially withholding the petitioner's W-2's),
- *unless* the FOIA requester is the same attorney as the attorney who filed the petition AND there is a G-28 within the file signed by the petitioner showing representation by that attorney. In such a case, release the PII of the petitioner to the attorney.

Note: Documents filed with the court, or that have been served on the subject or their attorney/representative do not fall under this rule.

This will replace the paragraph entitled **EXHIBITS SUBMITTED WITH PETITIONS OR APPLICATIONS CONTAINING PII** in the USCIS FOIA Processing Guide.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

FINGERPRINT CARD REMINDER

Please do not treat the fingerprint card as an ICE document. Evaluate whether or not the individual taking the prints is a member of law enforcement. If the individual is a member of law enforcement, and the case is processed as a FOIA, please redact the name (b)(7)(C), and (k)(2), (b)(7)(C) in a PA case.

TITLE/SUBJECT TYPE	TYPE OF INFORMATION	FOIA EXEMPTION	PA EXEMPTION
Fingerprint Card	Name of individual taking prints (if law enforcement)	(b)(7)(C)	(k)(2) and (b)(7)(C)

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

FEE WAIVER REQUEST CLARIFICATION

Please ensure that the requester specifically asks for a fee waiver request before checking the fee waiver box. Merely having a DOJ fee waiver form included in the package is not sufficient.

- The *USCIS FOIA Case Create Guide* will be updated to reflect this change.

FOIA INFORMATION BULLETIN

O: FOIA/FOIA LIBRARY/FOIA INFORMATION BULLETIN
February 12, 2010

The **FOIA Information Bulletin** is a publication issued weekly by the FOIA Program Office as a communication tool regarding current information of use and interest to USCIS FOIA personnel. The intent of the bulletin is to improve consistency and timeliness of information. **See your supervisor if you have any questions about bulletin topics.**

CHANGE TO EXEMPTION (b)(2)

Since the National Records Center no longer redacts records under the "low" portion of Exemption (b)(2), the exemption has been revised to read:

"Exemption (b)(2) as applied by USCIS protects predominantly internal rules, procedures and guidelines, the disclosure of which would present reasonably foreseeable harm to an interest of the United States, such as a significant risk of circumvention of statutes or agency regulations. The types of documents and/or information we have withheld under this exemption may consist of operating rules, guidelines and techniques for identifying law-violators, internal agency security techniques, law enforcement training procedures, or guidelines and manuals of procedures for examiners and adjudicating officers."

This change is effective immediately. If you use auto text, please replace the (b)(2) exemption to reflect the change.

The new exemption can be found at either O:\Foia\FOIA LIBRARY\Case Processing References\Case Processing References/Exemption Phrases or O:\Foia\FOIA LIBRARY\Case Processing References\Case Processing Template Letters/FOIA Final Action.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

PROCESSING US PASSPORTS

Effective immediately, we no longer refer US passports to the Department of State. Please process US passports accordingly.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

REFERRING DOCUMENTS BELONGING TO NVC

Although the letter head on the document below reads United States Department of State, this document was issued by the National Visa Center, and should be referred to them for processing. The NVC's address appears immediately below the State Department address. All other documents with the NVC's address will continue to be referred to the Department of State.

Please don't forget to change the term "another government agency" to the National Visa Center in the Final Action letter. A sample of a referral letter, the referral list dropdown box, and a paragraph from the Final Action Letter are found below.

Referred to: National Visa Center

United States Department of State
Portsmouth Consular Center

National Visa Center
32 Rochester Avenue
Portsmouth, NH 03801-2909

March 18, 20

TO: United States Citizenship and Immigration Services
Vermont Service Center

FROM: National Visa Center - Fraud Prevention Unit

SUBJECT: Return of Petition for Revocation

The National Visa Center (NVC) received the attached petition for review and possible revocation. It appears that the beneficiary is not eligible for the benefit sought.

The petitioner and the beneficiary are married.

Accordingly, the case is being returned to your office with the recommendation that the petition be revoked.

If you need to return this case to a U.S. Embassy/Consulate, please route the file back to the NVC where the case will be tracked and routed back to post. Please forward the case to the attention of the Fraud Prevention Unit at:

National Visa Center
32 Rochester Ave.
Portsmouth, NH 03801

FROM: T. Diane Cejka
Director

Subject: FOIA/PA Referral/Consultation
FOIA/PA Control #:

X 1. Documents originated by your agency are being referred to you for review and **direct response** to the requester.

X There are 1 UNCLASSIFIED documents consisting of a total of 1 page.

_ 2. Documents originated by Immigration that contain information furnished by your agency are being referred to you **for consultation**. Please review your information that has been outlined.

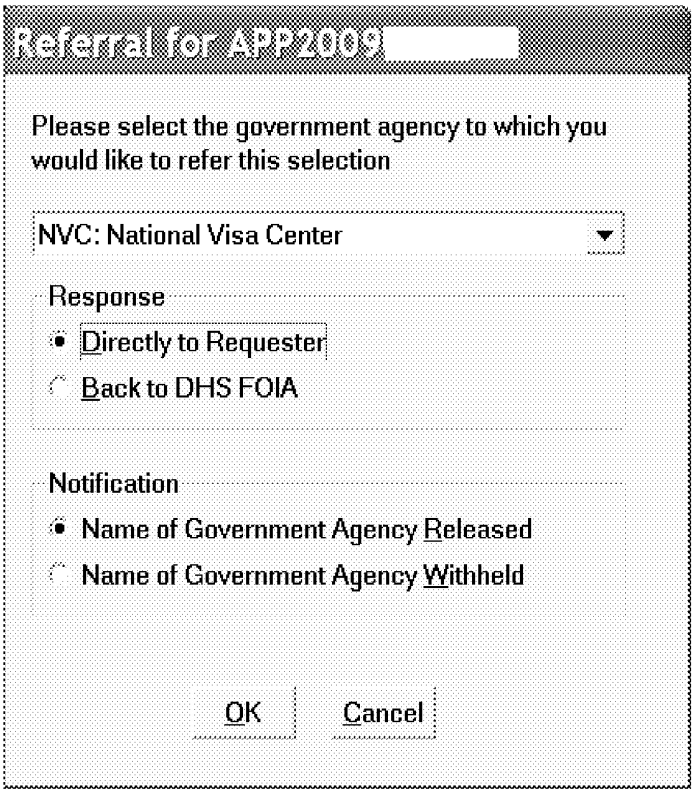
X We have no objection to the release of Immigration information; therefore please respond directly to the requester with your determination and provide us a copy of your response.

X 3. We have advised the requester of this referral to your agency.

_ 4. We have not advised the requester of this referral to your agency.

X 5. A copy of the request is enclosed for your convenience.

_ 6. Please see the attached page(s) for additional information.



We have completed the review of all documents and identified 157 pages which are responsive to your request. Enclosed are 128 pages released in their entirety, and 23 pages released in part. We are withholding 5 pages in full. In our review of these pages we have determined that they contain no reasonable segregable portion(s) of non-exempt information. We have referred 1 page to the National Visa Center for their direct response to you. We have reviewed and determined to release all information except those portions that are exempt pursuant to 5 U.S.C. § 552 (b)(2), (b)(5), (b)(6), (b)(7)(C) and (b)(7)(E) of the FOIA.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

FOIA INFORMATION BULLETIN

O: FOIA/FOIA LIBRARY/FOIA INFORMATION BULLETIN
July 9, 2010

The **FOIA Information Bulletin** is a publication issued weekly by the FOIA Program Office as a communication tool regarding current information of use and interest to USCIS FOIA personnel. The intent of the bulletin is to improve consistency and timeliness of information. **See your supervisor if you have any questions about bulletin topics.**

WHAT IS A NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA) REQUEST?

The National Archives and Records Administration has designated alien files as permanent records for the Federal Government, ensuring their retention indefinitely. As with all permanent records of the Federal Government, ownership and physical custody of the record is transferred to NARA at a designated point and NARA becomes the custodian of the record. Once the record is transferred to NARA, anyone who wants documents out of the file will have to file his or her FOIA request directly with NARA. The "magic date" for alien files to be turned over to NARA is when the subject of the file passes 100 years of age. The NRC has begun the process of transferring the targeted files into the custody of NARA.

As a result, case creators need to pay close attention to those cases in which the subject of the file was born before 1909, particularly if the request does not meet the criteria for a genealogy case. The complete list of criteria can be found in the section entitled ***Genealogy Program*** in the FOIA/PA Assistant's Guide.

For example, the requester writes in and makes the following request:

"I want the records of Joe Crab, date of birth, March 22, 1899. Mr. Crab naturalized in 1957 and died in 1969. Enclosed is proof of his death and alien number."

Mr. Crab meets one prong of the criteria for genealogy because he was born long ago; however, since he was naturalized in 1957, he does not meet the prong of having no documents in his file dated after 1951. If you are creating a case and the subject of the request is 100 years of age or older, **but** the person DOES NOT fully meet the criteria for a genealogy case, please pay special attention to NFTS. If NFTS shows that the a-number has been retired to NARA, it means we have turned the records over to NARA permanently. The requester will have to send a request to NARA. Please select FINAL ACTION OPTIONS when creating the Acknowledgement Letter, select NA and replace the normal Acknowledgement Letter with the NARA Historical Record Letter located at O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters/Historical_Record_Letter.

If NFTS still shows a shelf location within NRC (or any other office), staff for the file accordingly.

- The *USCIS FOIA/PA Processing Guide* will be updated to reflect this change.

PROCESSING THIRD PARTY DOCUMENTS BASED ON G-28 IN THE FILE

A petition submitted for a benefit, if submitted by an attorney, will often be accompanied by a Form G-28 for each party. The G-28 is valid only while the benefit requested is being adjudicated and does not carry over to other actions. As a result, when processing a subsequent FOIA request from the beneficiary, we cannot rely on the previously submitted G-28 in order to release personal information pertaining to the petitioner. Unless the FOIA request contains consent of both parties, the processor must withhold sensitive or personally identifiable third party information.

For example, an attorney files an I-130 with the agency. He represents both the petitioner and the beneficiary in the filing and submits G-28's for both parties with the I-130. He files a FOIA request 12 months later, but includes with his FOIA request consent from the beneficiary only. You cannot release the information of the petitioner to the attorney, even though the petitioner's information was originally submitted by the same attorney.

THIRD PARTY DOCUMENTS BELONGING TO ANOTHER AGENCY

Please out of scope any third party documents that belong to another agency. This policy also applies to other agency's documents that you cannot positively identify as belonging to the subject. For example, if you have a document belonging to Manuel Gonzales (the name matches your subject of record), but the date of birth provided by the requester does not match information in the file, out of scope the document. If USCIS refers documents to an originating agency but the documents do not match the request and consent that are in the request, then the originating agency returns those documents to our office without action. There should be no exception to this rule. If you feel you have a case that would be an exception, please case note it clearly in the file or discuss it with your supervisor.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

WHEN DO WE SEND REQUESTER DOCS OR CSD's WITH REFERRALS?

Case creators review all new requests for legal sufficiency. They ensure that it contains all required documents and information to allow the request to be processed. When a case creator finds missing critical information, the creator will send out for that information. Once we receive that information, OA scans it into the case as either Requester Documentation or a Case Supporting document. These documents are often vital to determining whether consent is present and verifying that the correct records are being processed. However, when a processor refers documents to another agency, only the Request Letter and Request Supporting Documents automatically are printed and sent with the referrals.

If the agency to which we refer the information does not receive the critical information, they will send the entire referral back to us letting us know critical information is missing. Therefore, please do the following when you have a referral that has pertinent information in Requester Documentation or Case Supporting Documents:

1. Place an asterisk in paragraph one (example shown below).

2. Include in your case note that you have alerted the OA room that more documentation is needed with the referrals and indicate which sequence the documents are found.

The intent of the bulletin is to improve consistency and timeliness of information. **See your supervisor if you have any questions about bulletin topics.**

WHAT IS A NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA) REQUEST?

The National Archives and Records Administration has designated alien files as permanent records for the Federal Government, ensuring their retention indefinitely. As with all permanent records of the Federal Government, ownership and physical custody of the record is transferred to NARA at a designated point and NARA becomes the custodian of the record. Once the record is transferred to NARA, anyone who wants documents out of the file will have to file his or her FOIA request directly with NARA. The "magic date" for alien files to be turned over to NARA is when the subject of the file passes 100 years of age. The NRC has begun the process of transferring the targeted files into the custody of NARA.

As a result, case creators need to pay close attention to those cases in which the subject of the file was born before 1909, particularly if the request does not meet the criteria for a genealogy case. The complete list of criteria can be found in the section entitled ***Genealogy Program*** in the FOIA/PA Assistant's Guide.

For example, the requester writes in and makes the following request:

"I want the records of Joe Crab, date of birth, March 22, 1899. Mr. Crab naturalized in 1957 and died in 1969. Enclosed is proof of his death and alien number."

Mr. Crab meets one prong of the criteria for genealogy because he was born long ago; however, since he was naturalized in 1957, he does not meet the prong of having no documents in his file dated after 1951. If you are creating a case and the subject of the request is 100 years of age or older, **but** the person DOES NOT fully meet the criteria for a genealogy case, please pay special attention to NFTS. If NFTS shows that the a-number has been retired to NARA, it means we have turned the records over to NARA permanently. The requester will have to send a request to NARA. Please select FINAL ACTION OPTIONS when creating the Acknowledgement Letter, select NA and replace the normal Acknowledgement Letter with the NARA Historical Record Letter located at O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters/Historical_Record_Letter.

If NFTS still shows a shelf location within NRC (or any other office), staff for the file accordingly.

- The *USCIS FOIA/PA Processing Guide* will be updated to reflect this change.

PROCESSING THIRD PARTY DOCUMENTS BASED ON G-28 IN THE FILE

A petition submitted for a benefit, if submitted by an attorney, will often be accompanied by a Form G-28 for each party. The G-28 is valid only while the benefit requested is being adjudicated and does not carry over to other actions. As a result, when processing a subsequent FOIA request from the beneficiary, we cannot rely on the previously submitted G-28 in order to release personal information pertaining to the petitioner. Unless the FOIA request contains consent of both parties, the processor must withhold sensitive or personally identifiable third party information.

For example, an attorney files an I-130 with the agency. He represents both the petitioner and the beneficiary in the filing and submits G-28's for both parties with the I-130. He files a FOIA request 12 months later, but includes with his FOIA request consent from the beneficiary only. You cannot release the information of the petitioner to the attorney, even though the petitioner's information was originally submitted by the same attorney.

THIRD PARTY DOCUMENTS BELONGING TO ANOTHER AGENCY

Please out of scope any third party documents that belong to another agency. This policy also applies to other agency's documents that you cannot positively identify as belonging to the subject. For example, if you have a document belonging to Manuel Gonzales (the name matches your subject of record), but the date of birth provided by the requester does not match information in the file, out of scope the document. If USCIS refers documents to an originating agency but the documents do not match the request and consent that are in the request, then the originating agency returns those documents to our office without action. There should be no exception to this rule. If you feel you have a case that would be an exception, please case note it clearly in the file or discuss it with your supervisor.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

WHEN DO WE SEND REQUESTER DOCS OR CSD's WITH REFERRALS?

Case creators review all new requests for legal sufficiency. They ensure that it contains all required documents and information to allow the request to be processed. When a case creator finds missing critical information, the creator will send out for that information. Once we receive that information, OA scans it into the case as either Requester Documentation or a Case Supporting document. These documents are often vital to determining whether consent is present and verifying that the correct records are being processed. However, when a processor refers documents to another agency, only the Request Letter and Request Supporting Documents automatically are printed and sent with the referrals.

If the agency to which we refer the information does not receive the critical information, they will send the entire referral back to us letting us know critical information is missing. Therefore, please do the following when you have a referral that has pertinent information in Requester Documentation or Case Supporting Documents:

1. Place an asterisk in paragraph one (example shown below).

2. Include in your case note that you have alerted the OA room that more documentation is needed with the referrals and indicate which sequence the documents are found.

U.S. Department of Homeland Security
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

NRC20100

MEMORANDUM FOR:
State Department

FROM: T. Diane Cejka
Director

Subject: FOIA/PA Referral/Consultation
FOIA/PA Control #: NRC20100

X 1. Documents originated by your agency are being referred to you for review and direct response to the requester.

X There is 1 UNCLASSIFIED document consisting of a total of 1 page. *

_ There are _____ CLASSIFIED documents consisting of a total of _____ pages. Please advise us if the classification of any of the documents has changed.

_ 2. Documents originated by Immigration that contain information furnished by your agency are being referred to you for consultation. Please review your information that has been outlined.

X We have no objection to the release of Immigration information; therefore please respond directly to the requester with your determination and provide us a copy of your response.

_ Please return the documents to us making any deletions you deem appropriate and cite the FOIA/PA exemptions claimed and the procedure for the requester to file an appeal to your agency. The response should be returned to the address shown above.

_ There are _____ UNCLASSIFIED documents consisting of a total of _____ pages.

_ There are _____ CLASSIFIED documents consisting of a total of _____ pages. Please advise us if the classification of any of the documents has changed.

X 3. We have advised the requester of this referral to your agency.

- The *USCIS FOIA Processing Guide* will be updated to reflect this change.

FOIA INFORMATION BULLETIN

O: FOIA/FOIA LIBRARY/FOIA INFORMATION BULLETIN
June 25, 2010

The **FOIA Information Bulletin** is a publication issued weekly by the FOIA Program Office as a communication tool regarding current information of use and interest to USCIS FOIA personnel. The intent of the bulletin is to improve consistency and timeliness of information. **See your supervisor if you have any questions about bulletin topics.**

ENFORCE / EARM SYSTEM PRINT REFERRALS

Effective immediately, we are referring all ENFORCE system prints found in FOIA/PA cases to ICE. This decision came from a case we processed in which we released four ENFORCE system prints. Although some were difficult to read and quite dark, you could identify that they were ENFORCE system prints. The alien subsequently went to ICE, demanded clean copies and threatened a lawsuit. One of the released documents included narrative that could have impeded our removal of this alien.

The only two exceptions to this rule are:

1. If it was filed in a court case as an exhibit, release. You must be able to prove that it was filed. Be sure to notate your proof in your case note.

2. If it is an ENFORCE print for a third party, out of scope the document(s). Be sure to include this in your case note.

Please pay extreme caution as you are processing and strive to make no inadvertent disclosures of these documents. Even if it is illegible/dark/hard to read, review carefully to see if it is an ENFORCE printout. You have been provided examples by your supervisors. If you do not have these copies, please see your supervisor.

- The *USCIS FOIA/PA Processing Guide* will be updated to reflect this change.

HELPFUL HINTS

Completing the tasks of case creating and processing involves analyzing and comprehending a considerable amount of information. Due to the large volume of requests we handle, we sometimes make mistakes. Most of our mistakes; no matter how minor, waste time, money and slow our production. Moreover, any mistake not caught in time has the potential to give our customer a negative impression of our agency.

Therefore, we are adding a new section, entitled Helpful Hints, to the bulletin. These reminders will focus on the "minor" details we sometimes forget, but are needed to ensure both quality and efficiency.

ADMIN QUEUE

Case Processors send cases to the Admin Queue for various reasons. When sending cases to Admin, the processor must always insert a case note explaining why the case is being sent to that queue so that the administrator working the queue knows what needs to be done with the case. Cases that are sent to Admin without explanation will be returned to the processor so that a case note can be added.

CHANGE THE DATE OF THE FINAL ACTION LETTER

If you get a case back from approver for any reason, please change the date on the letter to the current day's date.

This is important because the requester only has 60 days from the date of the letter to appeal our decision.

SUMMARY CASE NOTES

1. When there are documents being referred and there are requester documents that need to go with the referral, include in your summary case note that you have e-mailed OA.

2. If there is media in the file, remember to note in your summary case note that MSB was notified.

3. If you case note anything out of the ordinary that the approver needs to know, you will save everybody's time.

CASE CREATORS

1. Mark "print to CD" on all cases created after March 1, 2010 unless the requester is writing from a correctional facility.

2. Uncheck the expedited treatment and fee waiver block on all requests that are closed due to RF, RD, NR, ER, TD, DP or N/A.

3. Do not go out for additional information if the requester has entered "unknown," "N/A," or "None" in any of the PII sections of the G-639.

4. Do not staff for the petitioner's A-file if they are requesting an I-130 they filed for someone.

5. Write good case notes to help the next person reading the case.

6. Double check your work to see if you have inadvertently checked expedited treatment requested, expedited treatment granted, fee waiver requested, etc. Also double check type, source, category, Track 1, 2 or 3 before you send the case anyplace else.

CD'S

Check the CD button. If you have a request with 15 pages or more of responsive records, the case was created after March 1, 2010, and the requester is not an inmate, please check the box. Even if there are 15 pages and you referred 5 of those pages, you are still going to check the CD button. The final printed product will contain 15 pages, five of which will be marked with the legend "Referred to Another Agency" or similar stamp on the page.

Whether or not a requester is an inmate is determined by the address provided on the request. If the address is a correctional institution, we must send paper. If the address is an attorney's office, we can send a CD.

FOIA INFORMATION BULLETIN

O: FOIA/FOIA LIBRARY/FOIA INFORMATION BULLETIN
May 14, 2010

The **FOIA Information Bulletin** is a publication issued weekly by the FOIA Program Office as a communication tool regarding current information of use and interest to USCIS FOIA personnel. The intent of the bulletin is to improve consistency and timeliness of information. **See your supervisor if you have any questions about bulletin topics.**

CD OR PAPER?

In an effort to save time, money and resources, the FOIA unit will begin sending out final action responses on CD to all requesters. When we send out the acknowledgement letter to the requester, it will advise them that unless they write in and specifically ask for their documents to be produced on paper, they will be receiving them in a CD format. The acknowledgement letter templates have been updated to reflect the change.

A few guidelines to follow:

- Case Creators will mark the "print to CD box" on all new case creates, unless the requester is in prison.

- Prisoners may not receive CDs. All responsive records mailed to prison must be on paper. If the requester is in prison but responsive records are being sent to an attorney's office, it will be sent on a CD.

- This change only affects responsive records of 15 pages or more. Once a case is retrieved in processing, if the responsive records are less than 15 pages or if the requester is only asking for specific documents and they are less than 15 pages, the processor will need to uncheck the print to CD box.

- If a requester writes in and specifically asks for their records to be produced in a paper format, the Mail Team will uncheck the "Print to CD" box and case note the case. The correspondence will be scanned in as a case supporting document (CSD).

- While the creator is primarily responsible for marking the print to CD box, the processor and the approver should ensure that the correct box is marked before finalizing the case.

- If your records are printing to a CD, it is not <u>required</u> that duplicate pages be marked as fees are not assessed on CD's.

- The *USCIS FOIA Case Create and Processing Guides* will be updated to reflect this change.

LARGE FILES AND CAL ERRORS

Files of 2000 pages or more can cause CAL errors, making cases difficult to process. If you pull up a case in FIPS with 2000 pages or more scanned into a single responsive records slot, please follow these steps:

1. Send the case to Admin.
2. Send an e-mail to the NRC, FIPS Problem mailbox asking them to split the records into more than one slot. Clicking on the link automatically prepares your e-mail (including a copy to the Program Office). In your email, please provide the control number, the case's track and your NRC User-id.

FIPS Problem personnel will split the file into two or more responsive records slots to reduce the possibility of CAL errors and return the file to you. We've notified contractors to contact us if they scan any large files to avoid future problems.

The *USCIS FOIA Case Processing Guide* will be updated to reflect this change.

WHEN DO REQUESTER DOCS OR CSDs GET SENT WITH REFERRALS?

When we receive a new request, our creators review the request for legal sufficiency. They ensure that it contains all required documents and information for you, the processor, to be able to process the case. When a case is found to be missing critical information, the creator will send out for that information. Once that information is received, it is scanned into the case either as a Requester Documentation or a Case Supporting document. These documents are often vital to determining whether or not consent is present and verifying that the correct records are being processed. However, when a processor refers documents to another agency, only the Request Letter and Request Supporting Documents automatically get printed and sent with the referrals. Therefore, please do the following when you have a referral that has pertinent information in Requester Documentation or Case Supporting Documents:

1. Send an e-mail to the OA room to print and send the pertinent information and where the documents can be found (NRCXXXX, Sequence 8).

2. Include in your case note that you sent the e-mail to the OA room.

- The *USCIS FOIA Case Processing Guide* will be updated to reflect this change.

MAIL TEAM

(b)(6)

In an effort to streamline the records locator team, we have designated two individuals to process mail which is not readily identifiable to a case. This mail includes faxes, electronic mail and regular mail. The two individuals assigned to this task are [redacted]

FOIA INFORMATION BULLETIN

O: FOIA/FOIA LIBRARY/FOIA INFORMATION BULLETIN
November 12, 2010

The **FOIA Information Bulletin** is a publication issued by the FOIA Program Office as a communication tool regarding current information of use and interest to USCIS FOIA personnel. The intent of the bulletin is to improve consistency and timeliness of information. **See your supervisor if you have any questions about bulletin topics.**

CDs FOR ALL REQUESTERS

In an effort to save time, money and resources, the FOIA unit now sends out final action responses on CD to all requesters, unless the requester is in prison. We have removed the section in the acknowledgement letter to the requester that advises them that they can write in and ask for their documents to be produced on paper.

A few guidelines to follow:

• This change affects all responsive records; the number of pages is no longer a concern.

• Case Creators will mark the "print to CD box" on all new case creates, unless the requester is in prison.

• Prisoners may not receive CDs. All responsive records mailed to prison must be on paper.

• If the subject of record is in prison but the requester is the subject's attorney addressed to the attorney's office, send it on a CD.

• If a requester specifically asks for their records in a paper format, the Mail Team will uncheck the "Print to CD" box and case note the case. The Mail Team will scan the correspondence in as a case supporting document (CSD).

• If we are printing to paper and the case is more than 240 pages, the processor must mark any duplicate pages within the responsive record.

• While the creator is primarily responsible for marking the print to CD box, the processor and the approver should ensure that the correct box is marked before finalizing the case.

• If your records are printing to a CD, you are not required to mark duplicate pages, as fees are not assessed on CD's.

- The *USCIS FOIA Processing Guide and FOIA/PA Assistant's Guide* will be updated to reflect this change.

RECEIPT AND PROCESSING OF PA AMENDMENT

A Privacy Act Amendment Request is a request from a USC or LPR to amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely, or complete.

Requesters must identify themselves as described in the paragraph Consent and Verification of Identity when seeking to amend information in a PA system of records. He or she must identify the particular record involved, the nature of the amendment sought, and the justification for the amendment.

Special Interest Group handles PA Amendment requests. If a creator opens a request that appears to be a true PA Amendment Request, he or she should place the case in Unit Chief without further action and e-mail the detailed information to his or her supervisor. The supervisor should then notify the SIG that the case is in the Unit Chief queue for SIG determination whether it is a true PA Amendment request.

Upon determination, the SIG processor will send an acknowledgment letter to the requester and forward the PA Amendment request to the appropriate adjudications center or district office. An adjudicating officer will make a determination and return the findings and decision to SIG for preparation of a response to the requester. In accordance with 5 U.S.C. § 552a(d)(2), USCIS has ten working days to make a decision.

- The *USCIS FOIA/PA Assistant's Guide* will be updated to reflect this change.

DEPARTMENT OF STATE DOCUMENTS

The DOS will make a direct response to the requester on documents that we refer. "STATE" is the referral choice in FIPS for Department of State. Generally, if a State Department document pertains to an investigation or a non-immigrant visa, we refer the document to State. We release the name of the agency, and Department of State should respond directly to the requester. State Department has given us the following guidance for documents that are not third party:

- Process statements, acknowledgements, visa stamps, passports or visas the person has, or has received, or has signed.
- Process any immigrant visa paperwork except Report 71, investigative, deliberative or law enforcement related documents.
- Process documentation the alien would have filed to support immigrant visas, letters, or documents the alien would possess.
- Process any form that begins with an I (for example, I-130, I-140) even if it was filed overseas.

- Process the Report 24.
- Process the Immigrant Data Summary.
- Refer messages, letters, e-mails, checklists and cables having to do with visa determination or investigations.
- Refer non-immigrant visa (NIV) applications.
- Refer Embassy/Consulate fraud investigations.
- Refer State Department law enforcement related documents.
- Refer Refusal Worksheets
- Refer asylum related documents, such as interagency communications, advisory opinions and deliberative material, including the document entitled "Country Conditions and Comments on Asylum Applications."
- Refer electronic database prints with information owned by State, if it has to do with NIV or law enforcement.
- Refer Report 71 – Case Accountability Report, as it may be investigative or deliberative.
- Refer documents marked Visa Lookout System or Visas Hawk, unless third party.
- Refer TECS II screen prints marked State Department.
- State Department does not wish to review third party documents. If you would ordinarily refer a page to the Department of State, but it pertains to a third party, please place the page out of scope.
- There may be documents similar to Country Conditions and Comments on Asylum Applications we would not refer. For example, Profiles of Asylum Claims and Country Conditions are available on the DOS website and we do not generally refer them.

    - The *USCIS FOIA Processing Guide* will be updated to reflect this change. Note: this will entail deletion of several paragraphs and sentences in the Guide.

REQUESTS FOR COLOR COPIES OF ALIEN REGISTRATION CARDS

If someone requests a color copy, please add the following paragraph to your Acknowledgement letter:

You specifically requested a color copy of your Alien Registration Card (Green Card). The National Records Center can not provide you with a color copy of your Alien Registration Card (Green Card); we will provide a black & white copy. If you desire a replacement Green Card you must complete an I-90, Application to Replace Permanent Resident Card (Green Card). Please refer to our website listed below for filing instructions and to download the application. If you would like a copy of all your records, please send a written request to the address above, otherwise you will only receive the documents specified.

- The *USCIS FOIA/PA Assistant's Guide* will be updated to reflect this change.

CAMEROON AND HONG KONG ZIP CODES

Cameroon and Hong Kong do not use zip codes. However, FIPS requires you to put in a zip code before it allows you to create a case. In cases where the mail is going to either Cameroon or Hong Kong, please put in a single dash in the zip code field. This will overwrite the FIPS requirement.

- The *USCIS FOIA/PA Assistant's Guide* will be updated to reflect this change.

DELINQUENT REQUESTER CLARIFICATION

The cutoff date for delinquent requesters is January 1, 2004. On or after that date, any delinquent requester must either pay the fees, accept the case on CD, or withdraw the case to regain his or her good standing.

However, do not treat any requester you find to be delinquent prior to January 1, 2004 as delinquent. If you encounter a delinquent requester for a case prior to January 1, 2004, please send an e-mail to NRC, FIPSPROBLEM and NRC, FOIAPROGRAM. Include the name of the delinquent requester and the case(s) for which he or she is delinquent.

If you encounter a delinquent requester from a FIPS Lite office, do not treat the requester as delinquent.

- The *USCIS FOIA/PA Assistant's Guide* will be updated to reflect this change.

(b)(6)

SITUATION: Subpoena or court order

If you pull a new request that is a subpoena or court order, please close it as an ER. Send a message to NRC, FOIA PROGRAM [redacted] clicking the link generates the e-mail) providing the REQ number and information indicating the request was a subpoena or court order. The NRC Program Office is currently addressing these requests. Subpoenas or court orders are a high priority. Please notify NRC, FOIA PROGRAM as soon as possible.

- The *USCIS FOIA/PA Assistant's Guide* has been updated to reflect this change.

Use of special characters:

Do not use special characters, such as "&" and "#" in the address field; rather, spell them out or use an abbreviation, such as "and" or "No." Note: you may use spaces, dashes, periods, commas or single quotes (‘). You may not use @, #, $, %, ^, &, *, (,), =, +, [,], {, }, \, <, >, or /.

- We will add this paragraph to the *USCIS FOIA/PA Assistant's Guide* in the section "REQUESTER'S BIOGRAPHICAL INFORMATION," paragraph 3, "Complete requester address."

QUESTIONS FOR THE PROGRAM OFFICE

The Program Office receives comments, questions and suggestions fairly regularly. In order to respond to your questions more efficiently, we have decided to streamline the process with a single point-of-contact. If you have any comments, questions or suggestions, please send an email with the word "Question" in the subject line to NRC, FOIAPROGRAM. The Program Office will get an answer back to you as soon as they can.

HELPFUL HINTS

IF RESPONSIVE RECORDS ARE "NA" AND STAFFING RESPONSE SLOT HAS SCANNED DOCUMENTS…

Normally, when we staff to a service center, the service center scans the file directly into FIPS. However, if the file cannot be scanned, (ex. file is destroyed, lost, sent to NVC) the service center places a note on the staffing sheet and scans their response into a staffing response slot. The responsive records slot will be set to "NA." If you see this while processing a case, please read the staffing response and determine appropriate action.

NEW POLICY FOR NVC LETTER REFERRALS

The policy for referring NVC letters parallels State Department policy. If the subject has received or signed the document, release it. This will include almost all NVC documents contained in our files, as they are normally addressed to the subject.

National Visa Center
32 Rochester Avenue
Portsmouth, NH 03801-2909

DEAR

Your inquiry has been received at the NVC. The immigrant visa petition you mentioned in your letter has already been entered into our computer system and assigned the case number listed below.

A packet of forms and instructions has been sent to the beneficiary and/or attorney of record regarding further processing of the petition. The packet must be completed and returned to the NVC.

The NVC is sending a duplicate packet of forms and instructions. Please allow at least 10 business days for the packet of forms to arrive. These forms must be completed by the beneficiary, petitioner or attorney or record and returned to the NVC.

The Written Correspondence Unit has updated your address. Please notify the NVC of any change of address or change in personal situation which may affect the beneficiary's entitlement to an immigrant visa.

FOIA/PA ASSISTANT'S GUIDE

FOREWORD

The FOIA/PA Assistant's Guide has been prepared as a ready reference to assist with day-to-day tasks, such as creating Freedom of Information Act and Privacy Act requests, handling mail, working records locator, and general troubleshooting.

The September 23, 2010 edition of the Guide supersedes the Case Create Guide and the Call Center Guide. All previous editions of the Case Create Guide and the Call Center Guide are obsolete.

Any previous material distributed in *FOIA Information Bulletins* has been incorporated into this Guide.

For the purposes of this guide, we may refer to a FOIA/PA Assistant as "you," or "Assistant," and in some cases "team member."

The September 23, 2010 edition of the Guide is PDF format. The PDF format makes searching for information in the Guide easier. There are also several hyperlinks within the Guide including in the table of contents to assist in navigating to specific topics or additional information.

Regular updates will be made to this Guide by adding to or revising provisions in the version of the Guide available on the common drive. When additions and revision are made, a cover sheet describing the change and the provision of the Guide affected will be placed on the front of the Guide for quick reference.

Suggestions for improving this Guide are always welcomed. Please direct any comments, questions, or suggestions to the FOIA Program Office staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)

Record of Revision, September 23, 2010
Paragraph: SITUATION: Subpoena or court order changed to add [redacted] as an addressee on the e-mail.

FOIA/PA ASSISTANT'S GUIDE

THE FREEDOM OF INFORMATION ACT

Congress passed the Freedom of Information Act (FOIA) in 1966 to establish the public's right to access records created or maintained by federal executive branch agencies. The statute became effective on July 4, 1967. The statute relating to the Freedom of Information Act is 5 U.S.C. § 552.

THE PRIVACY ACT

The Privacy Act of 1974 regulates the collection, maintenance, use, and dissemination of personal information by the federal government. The statute relating to the Privacy Act is 5 U.S. C. § 552a. The statue became effective September 27, 1975.

WHAT ARE FOIA REQUESTS AND HOW DO WE GET THEM?

A Freedom of Information Act (FOIA) request is a request in writing for a copy of any record maintained by any agency of the executive branch of the government. Persons must reasonably describe the records sought, and those records must already exist. Requests can come in a variety of ways. They can come in on the Form G-639 or as a letter from an attorney or representative. They can come in the form of a letter from the alien himself. The requester may mail, fax, hand deliver, or e-mail a request. No matter how we receive them or what the format is, as long as they are in written form and provide enough information to ascertain that they want documents from us, we treat them as FOIA requests. A Privacy Act (PA) request is a request by a person for a copy of his or her file.

For case creating purposes, the difference between a FOIA and PA request does not matter. You will create all cases as FOIA requests, although some of the requests we receive are PA requests. The case processor determines whether the case falls under the Freedom of Information Act or the Privacy Act.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WHO CAN MAKE A FOIA REQUEST?

Anyone can request any record kept by the executive branch of government. The tricky part is determining if we have enough information and consent to provide the record and who is entitled to what. The most common types of requesters are:

- First party requesters, that is, the alien himself or his designee, attorney or representative, are entitled to a complete copy of the alien file, after any applicable exemptions are applied. However, a parent or guardian may make a request for a minor's record. Please refer to the section titled **"CONSENT RELATING TO RECORDS CONCERNING A MINOR OR PERSON JUDICIALLY DETERMINED TO BE INCOMPETENT"** in this guide.

- Third party requesters, that is, an individual seeking a copy of an alien's file without the subject of record's consent, are entitled only to documents of a public nature or documents they provided in support of an application/petition. Please refer to the section titled **"THIRD PARTY REQUESTS"** in this guide.

- Media requesters are typically accredited members of the media.

- Bond obligors, companies who posted immigration bonds for the aliens, are entitled to a copy of the file under a court case entitled *Amwest v. Reno*. Please refer to the section titled **"IMMIGRATION BOND OBLIGORS"** in this guide.

- Other state and local government agencies are entitled to documents from alien files for law enforcement purposes. Requests for information originating with any other federal agency are operational matters and not FOIA or Privacy Act requests. Please refer to the section titled **"ROUTINE USE"** in this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

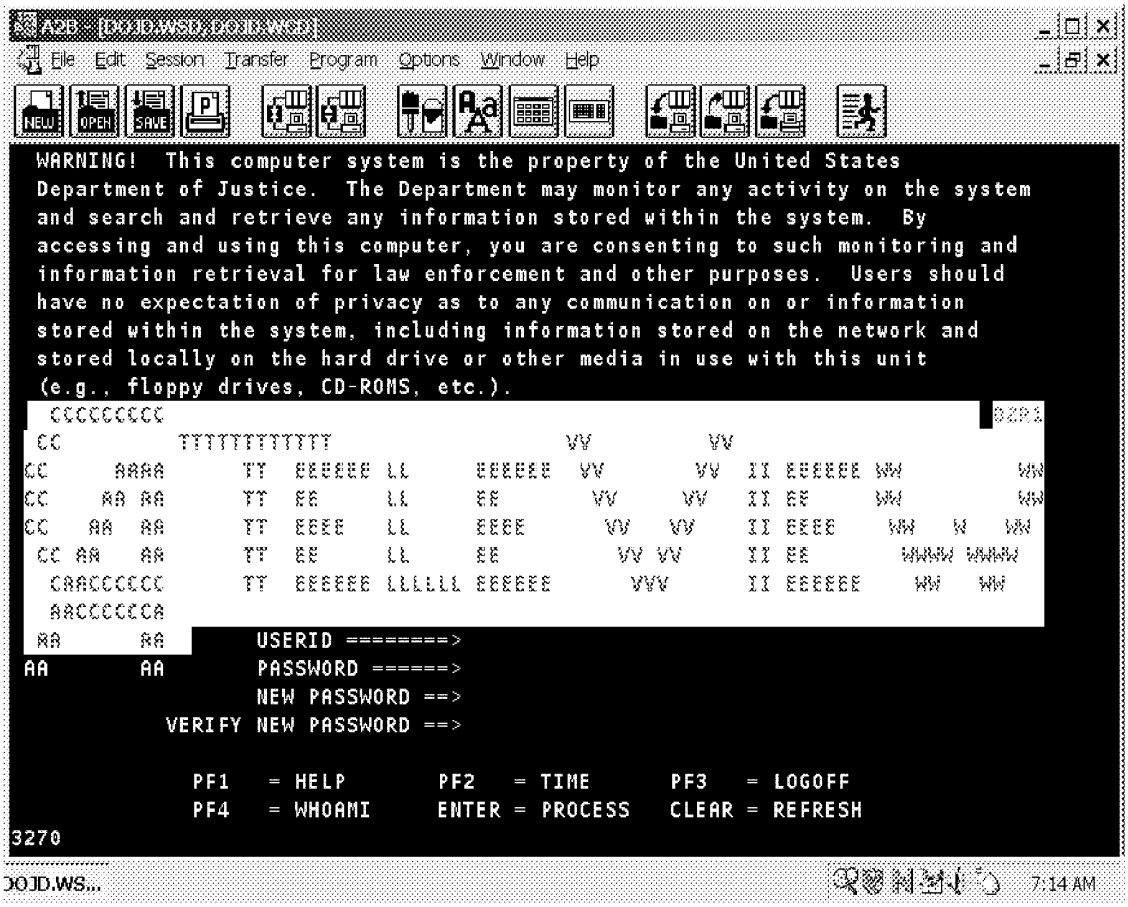
SYSTEMS USED AND DESCRIPTION OF THE SYSTEMS

The paragraphs below provide a description of some of the systems used by USCIS, ICE and CBP. Most A-files contain screen prints from one or more of these systems.

1 Central Index System

(CIS) is a database used to maintain records, search for records, and display data. CIS is a menu driven system as opposed to a point-and-click graphical user interface system. CIS provides information about persons and information about file location and movement. The CIS user navigates among various screens, depending on the type of information he or she needs. A user may search for a person in CIS by using the a-number, social security number, FBI number or a passport number. CIS provides the option of searching for people using "sounds-like" and exact name searches.

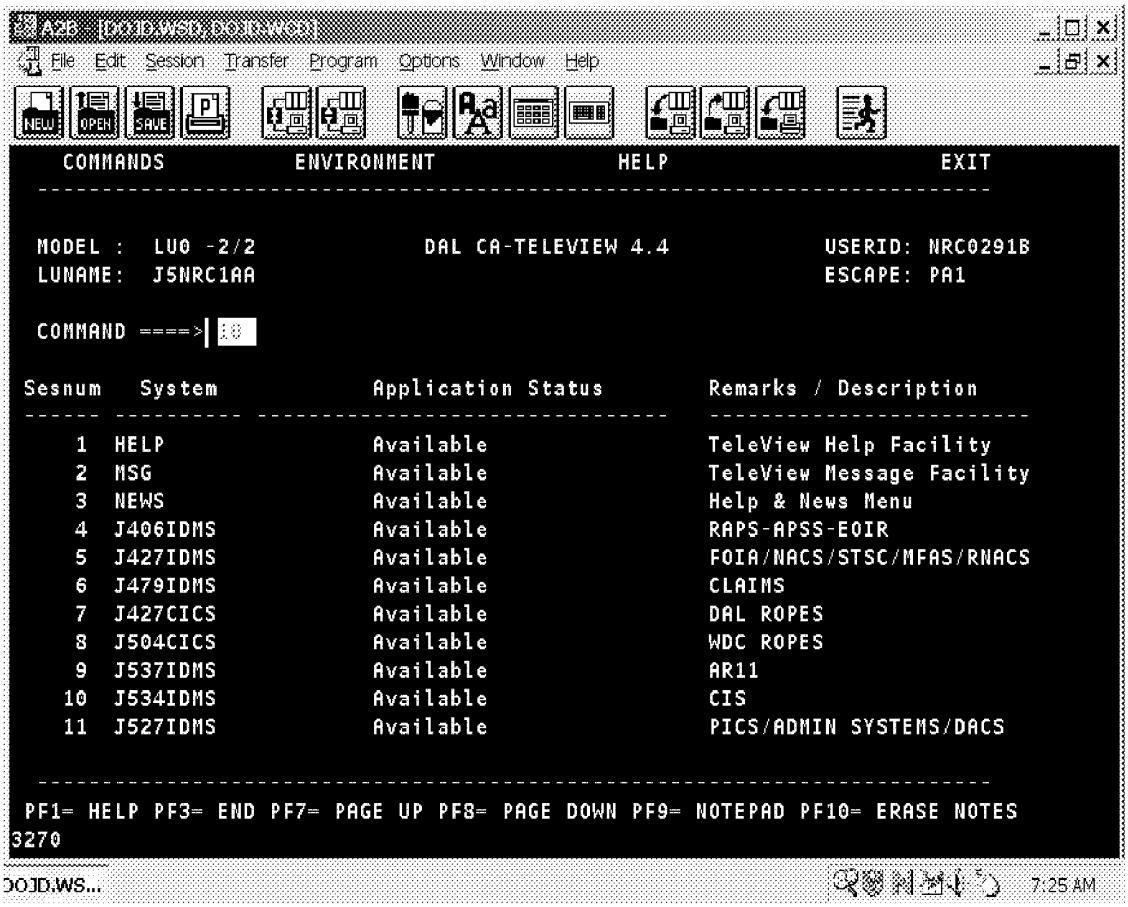
1.1 Introduction Screen



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

This screen is the introduction to TeleView. From this screen use the designated UserID (last 4 digits of Social Security Number plus an alpha) and Password to sign onto the database.

1.2 TeleView Main Menu



The number selected to access CIS will vary for each computer.

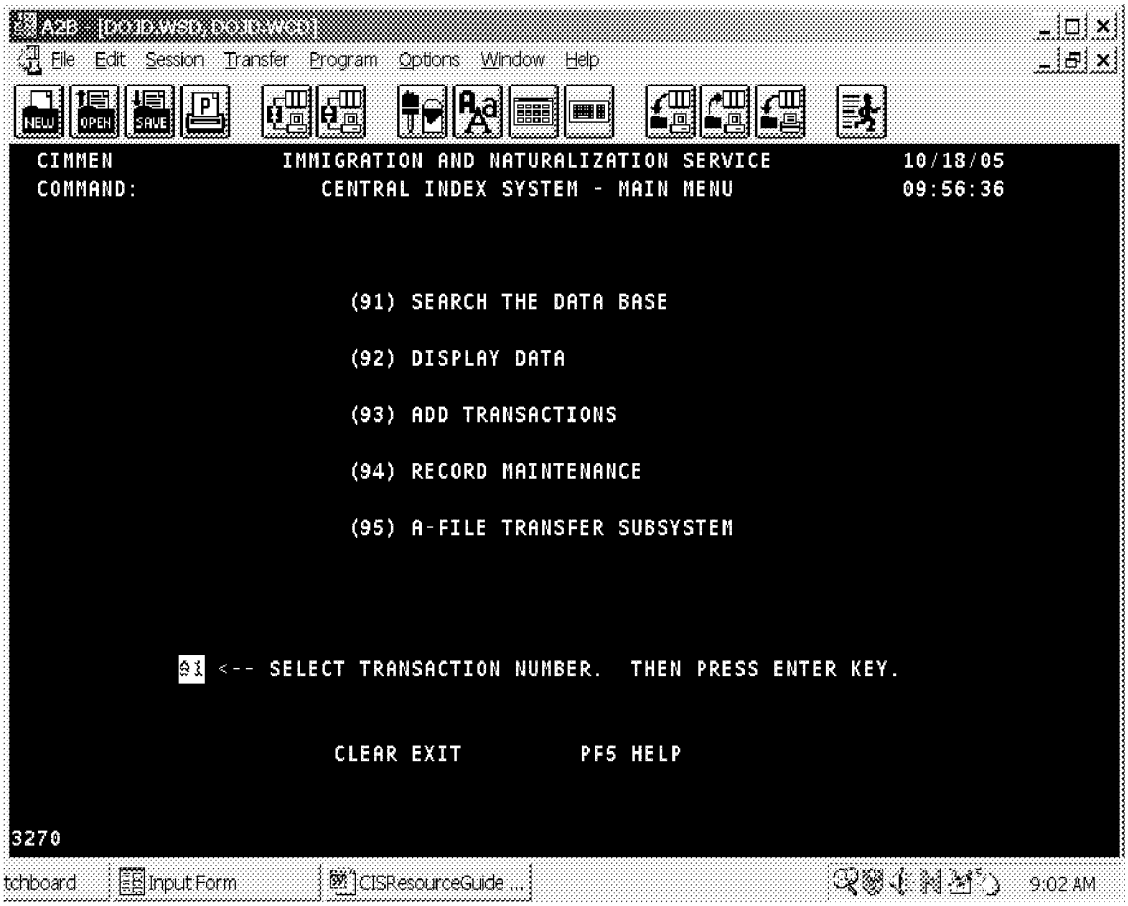
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.3 CIS Login Screen

This is the screen used to navigate through CIS. Pressing enter can access the main menu for CIS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

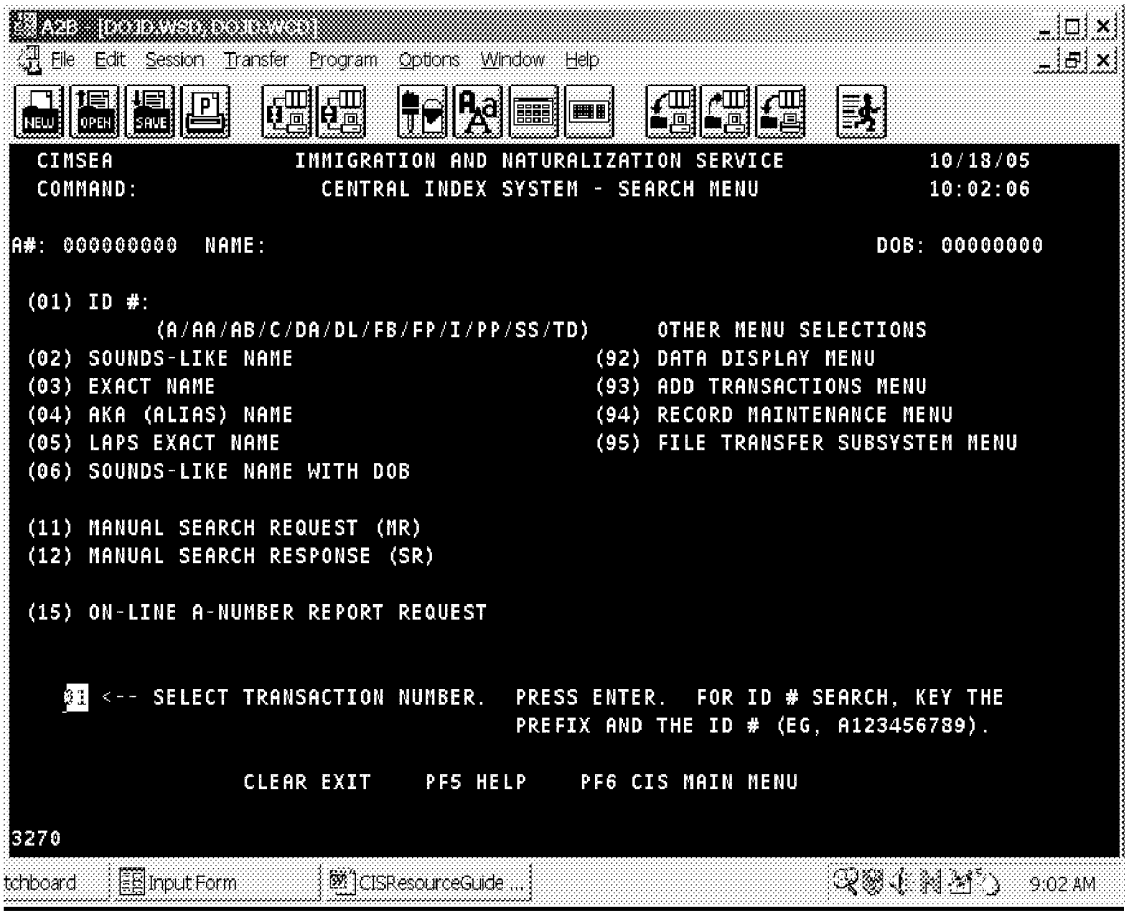
1.4 CIS Main Menu



This screen displays a variety of ways to search for information. The transaction numbers that we use within FOIA are 91, 92, and 95. By typing the number 91 next to select transaction number and pressing enter, another search screen will appear. The main purpose of the "91" transaction number is to search the database for specific information concerning an individual. Transaction number "92" is used to display card information. The transaction number "95" is used mainly to see the location of the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.4.1 Search Menu Screen



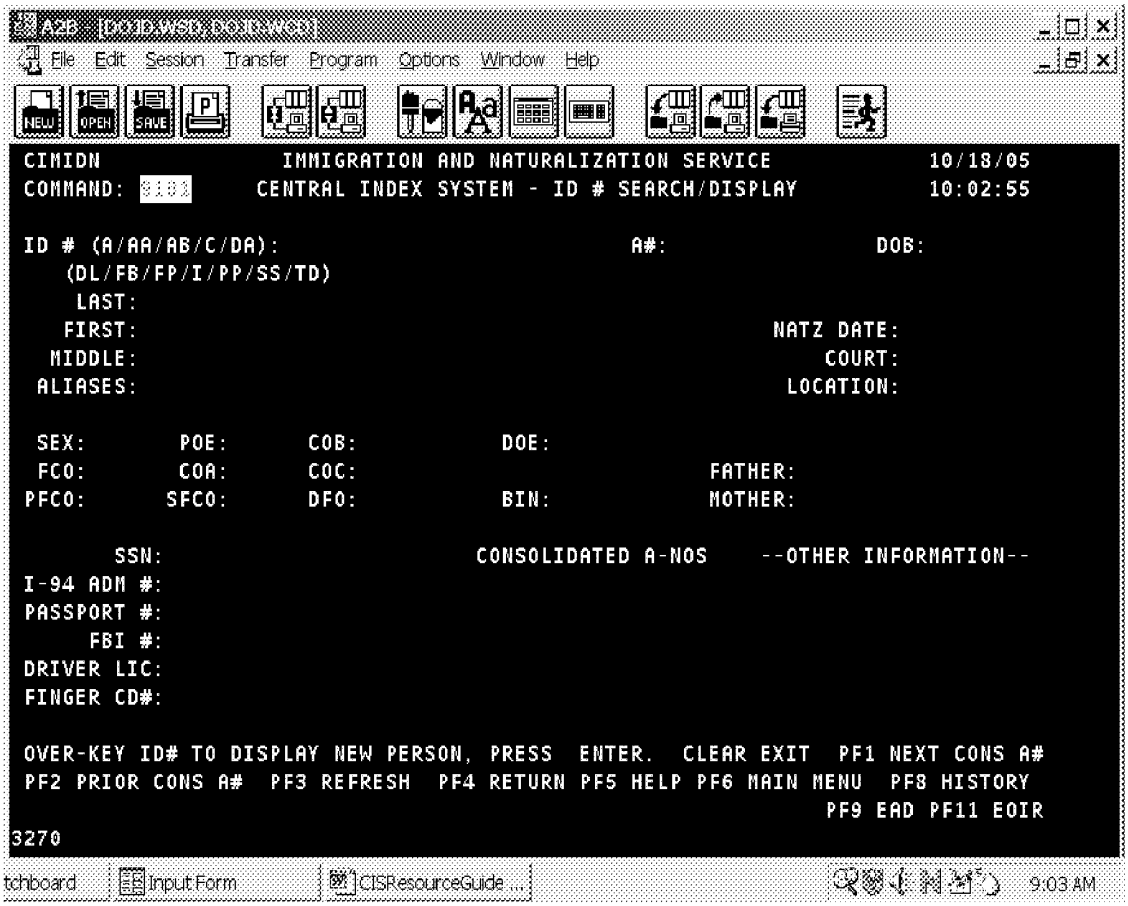
From this search screen a decision is made as to how to begin a search for an individuals records. The most commonly used methods to search for an individuals record are:

Code	Search By Category
01	ID # (A-number, certificate number, social security number, passport number ect.)
02	Sounds-Like Name Search
03	Exact Name Search
04	Alias (AKA) Name Search
06	Sounds-Like Name Search with DOB

Type in the two-digit code (01) and press enter. The screen displayed will be the screen where the search for records begins. ***Note:** Remember to read the screen in its entirety for additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

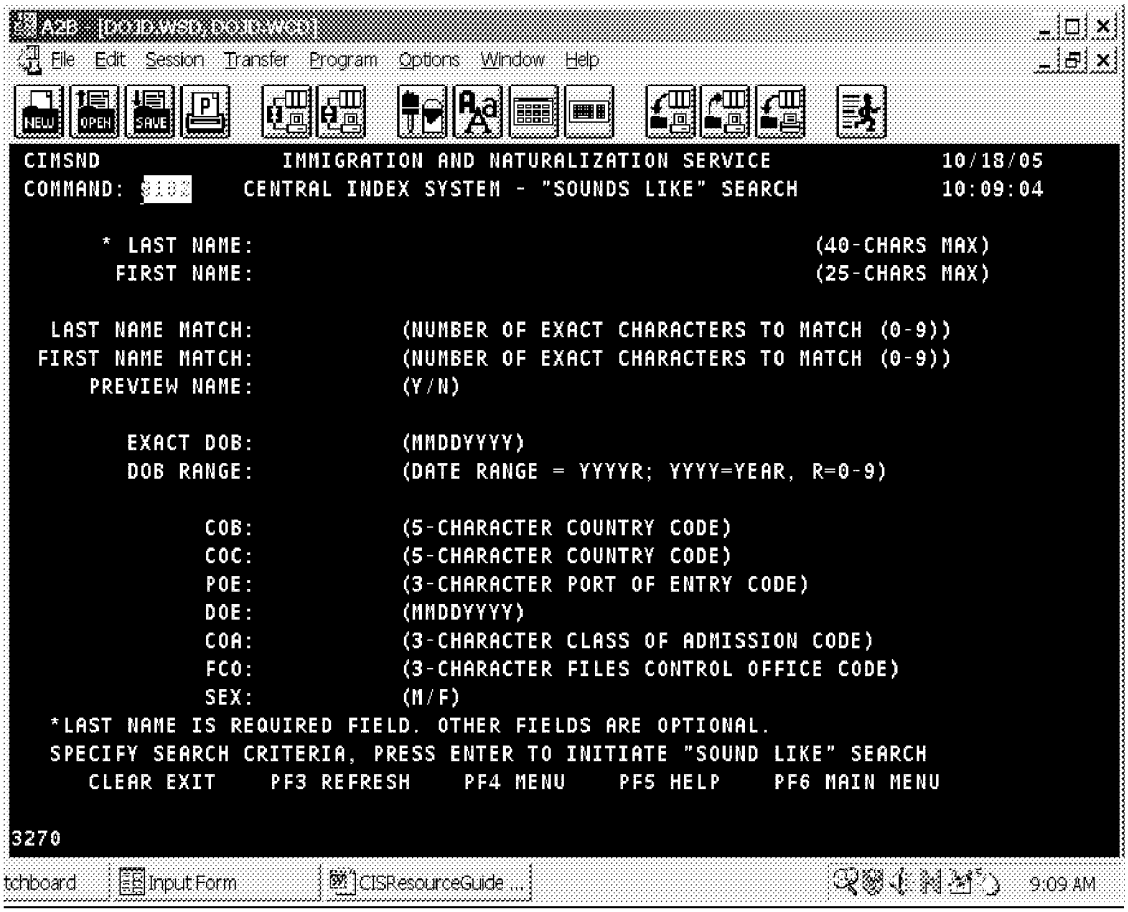
1.4.2 Search by A-number (9101)



In the ID# field enter the appropriate prefix with information (A = a-number, SS = social security number, PP = passport number, C = naturalization certificate number and I = I-94 number). If there is information in the system on the subject it will populate in the fields below the ID#. Pay special attention to the legend at the bottom of the screen specifically PF8, PF11, and any information listed under (other information). By pressing PF8 the history menu is displayed. This screen holds chronological information about actions that have been taken or changes in the subject's immigration status. The PF11 screen shows EOIR (Executive Office of Immigration Review) information. The significance of this screen is it holds information about ongoing or closed deportation proceedings. In the section of the screen listed (other information) different acronyms may appear such as: CARD, EADS, RAPS and DACS. For additional information on DACS please see Chapter 3.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

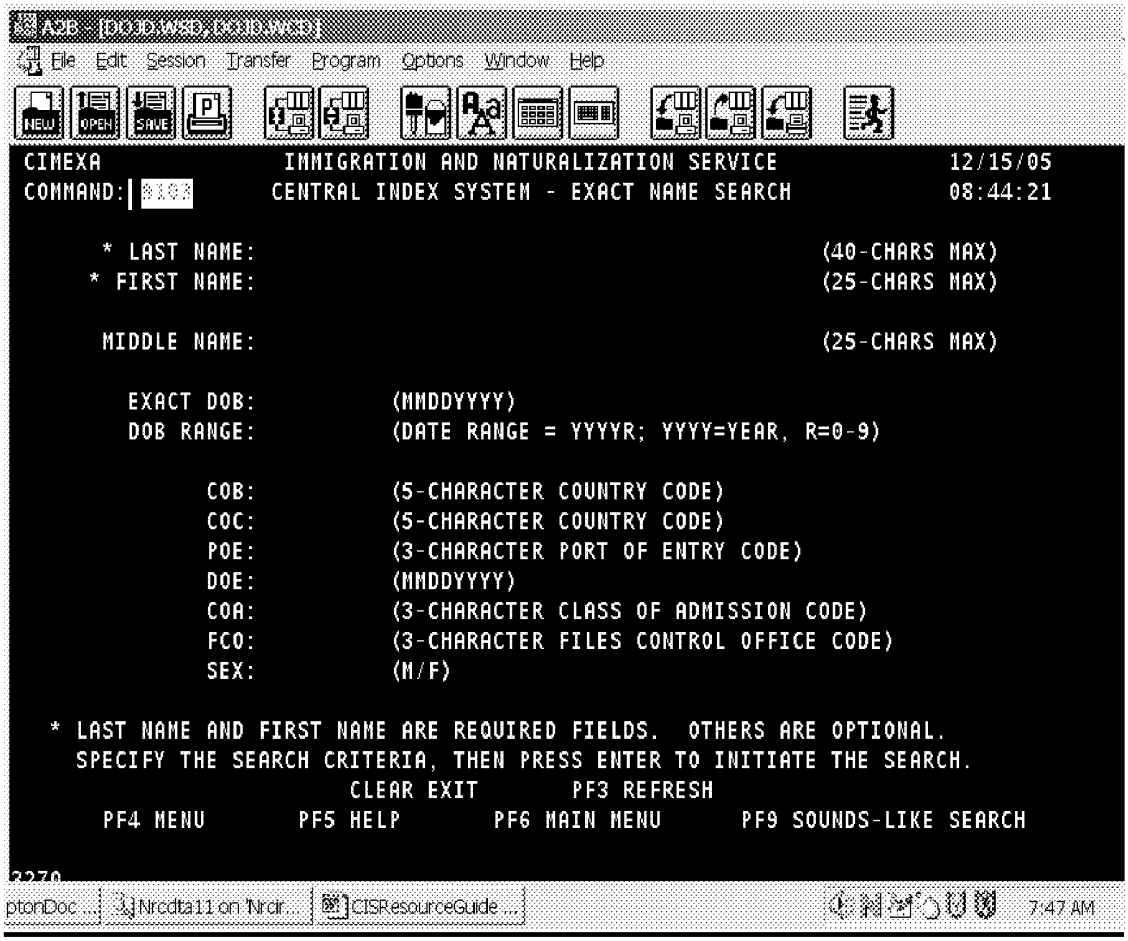
1.5 Sounds-Like Name Search (9102)



Use the 9102 screen when there could be variations in the spelling of a name. There are times when the person who created the record in CIS misspelled the name. There could be many spelling variations in a name transcribed from a non-Roman alphabet. The * indicates the minimum amount of information required to search. The search results may be voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

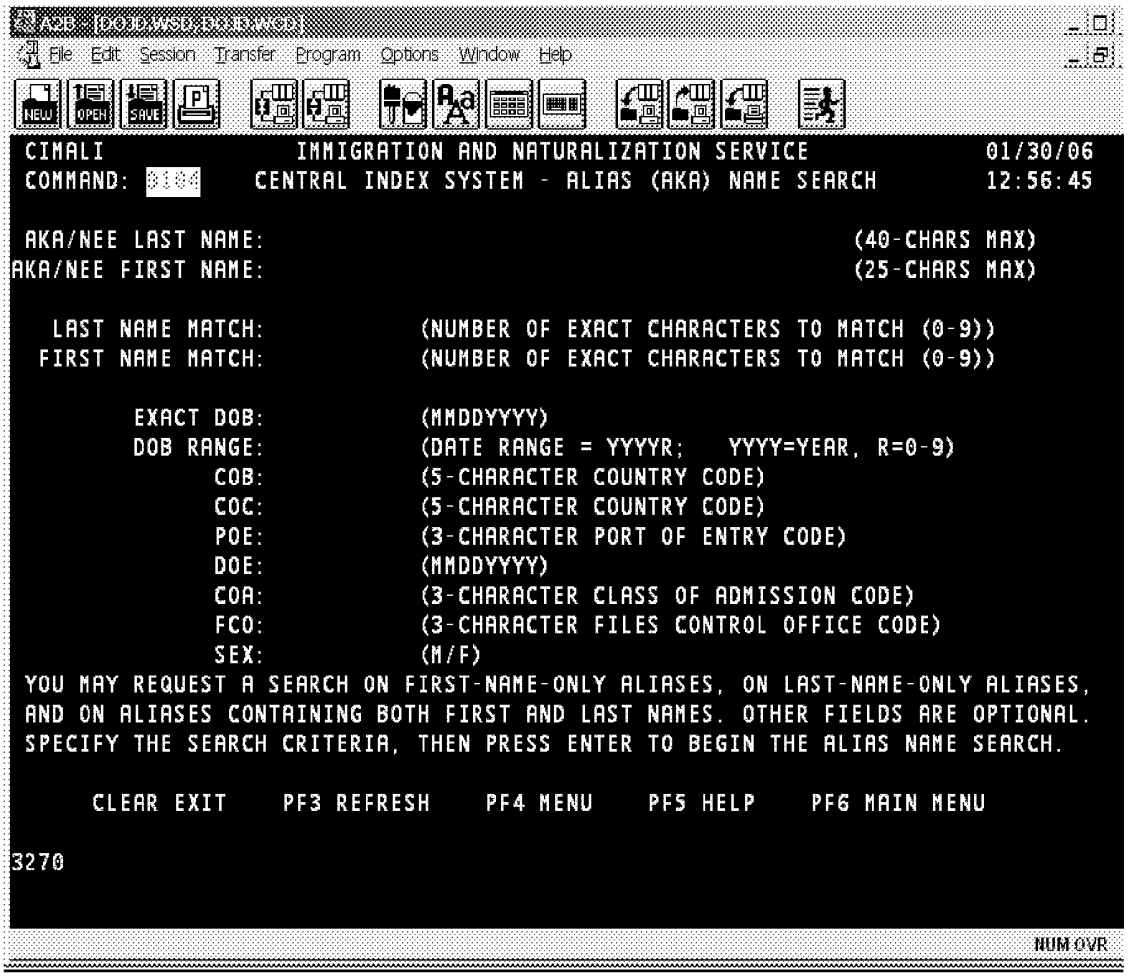
1.6 Exact Name Search (9103)



9103 is the primary screen used when performing a search based on the subject's name only. The information displayed will be an exact name match.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

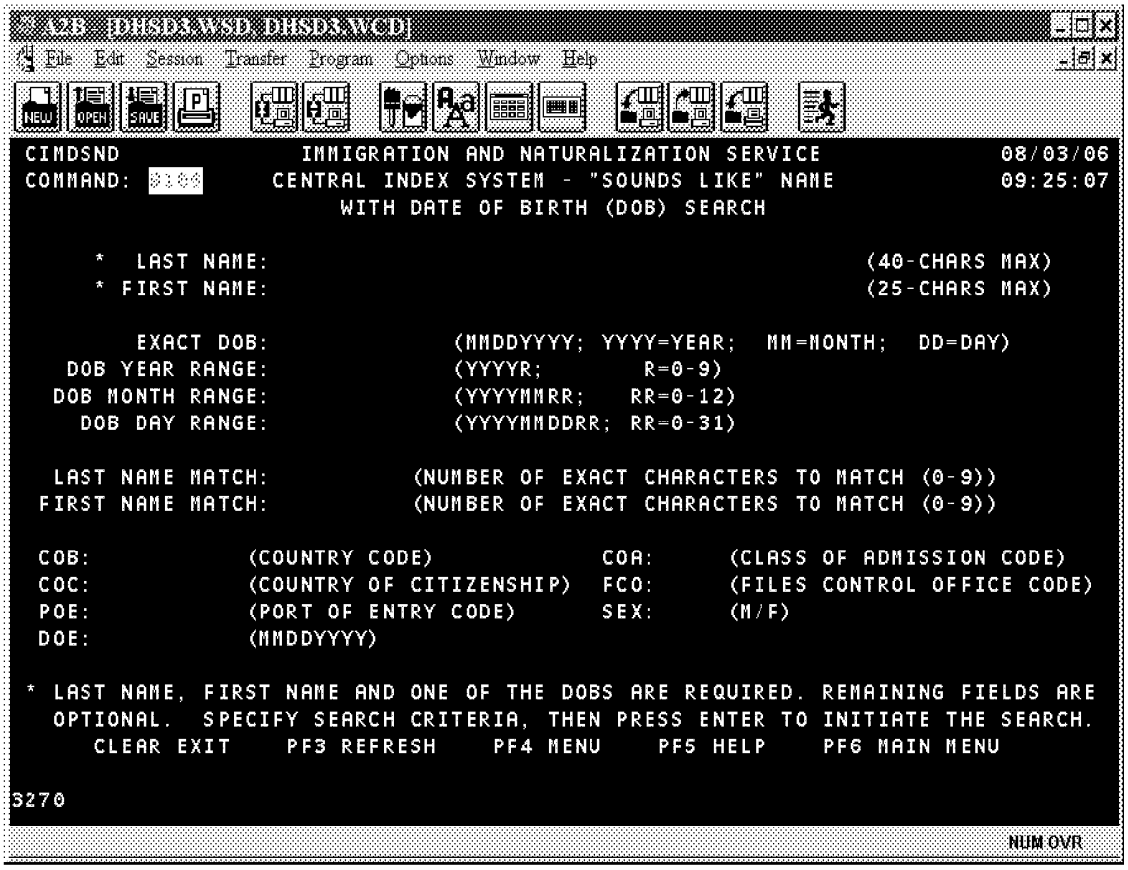
1.7 Alias (AKA) Name Search (9104)



The primary use for the 9104 screen would be to perform a search using any alias information provided in the FOIA request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.8 Sounds Like Name With Date of Birth (DOB) Search (9106)

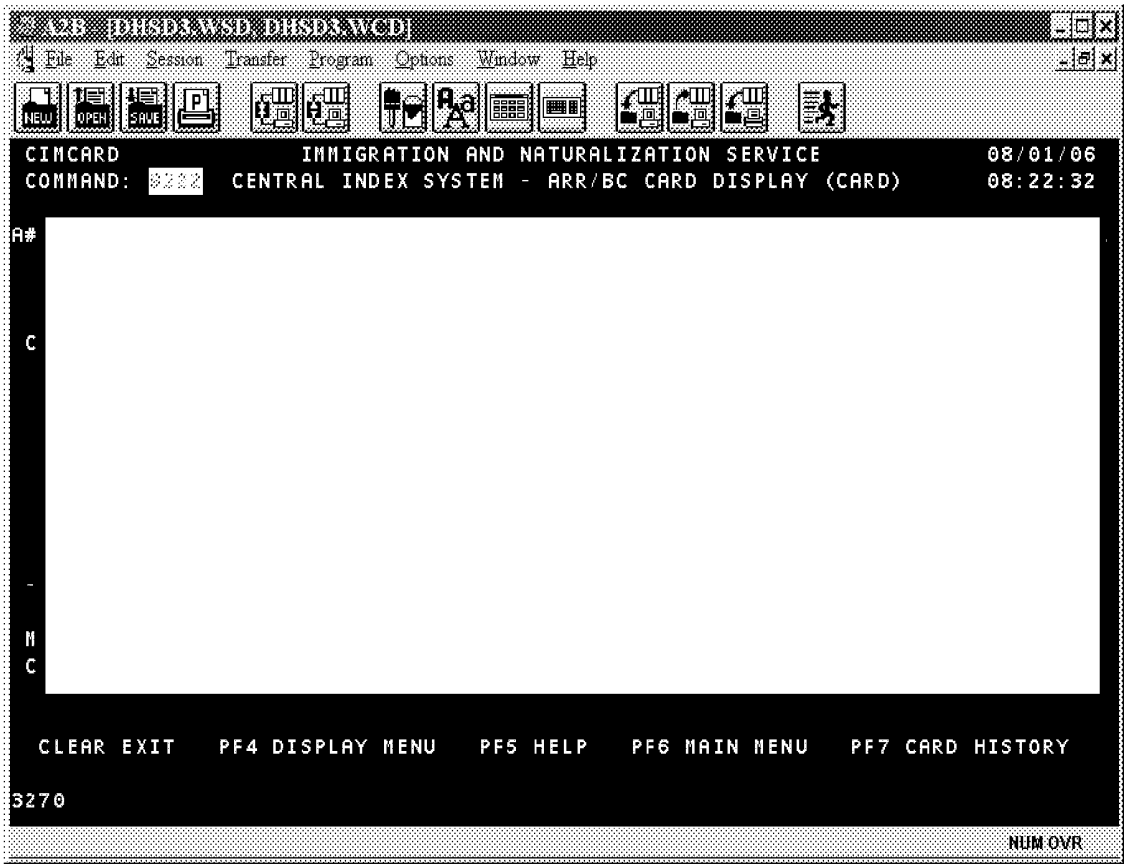


The 9106 screen allows searches for information pertaining to the subject of the request even if the spelling of the name is incorrect. For example, the requestor made a typographical error in the spelling of the name the search results will yield a list of similar names matching the subjects.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.9 Card Search (9222)

(b)(6)



The 9222 screen is a snapshot of an actual Legal Permanent Resident (LPR) Card. In addition, this is the same screen to find Border Crossing Card information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.10 File Transfer Display (9504)

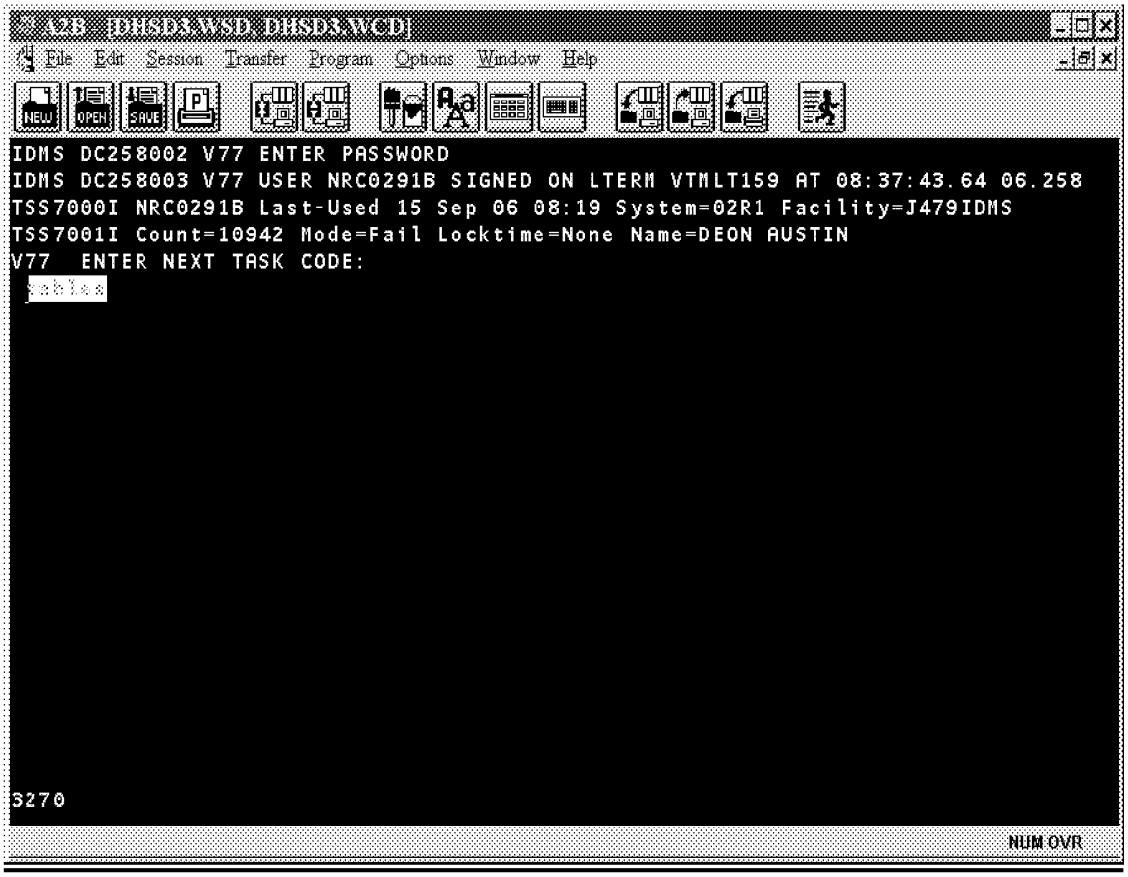
(b)(6)

The main purpose of the 9504 screen is to check the location and movement of files. This screen's primary use as it relates to FOIA is that it will be used in conjunction with NFTS in the case create function. The following is a list of acronyms displayed on this screen.

FTR: File Transfer Request
FTI: File Transfer Initiated
FTC: File Transfer Complete

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

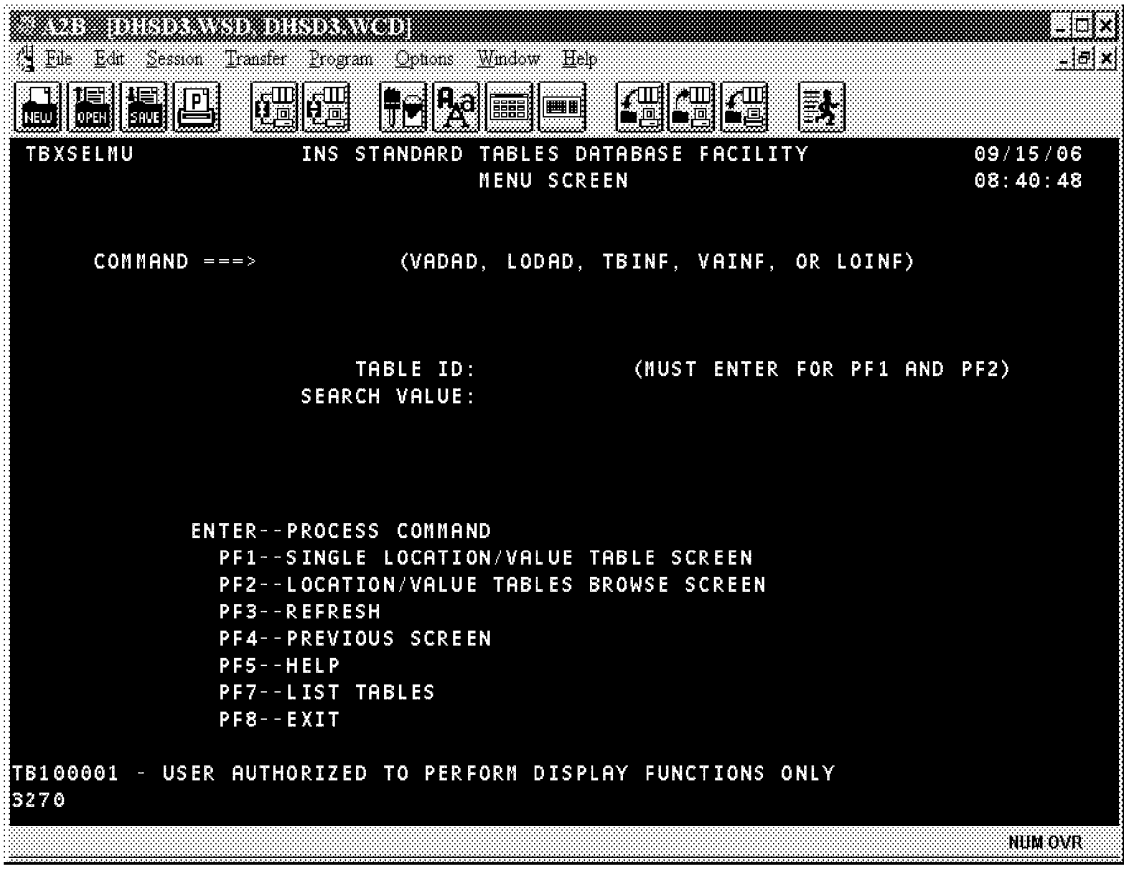
1.11 Tables



The **Tables** section contains a wealth of informational codes that can be of assistance in making a decision about the subject of the request, such as **Class of Admission**. To get to this screen select the "keyboard" from the toolbar at the top of the screen and click the clear button on the keyboard. Once this is done type in the word **tables.** The next screen displayed will be the **Tables Menu Screen**.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

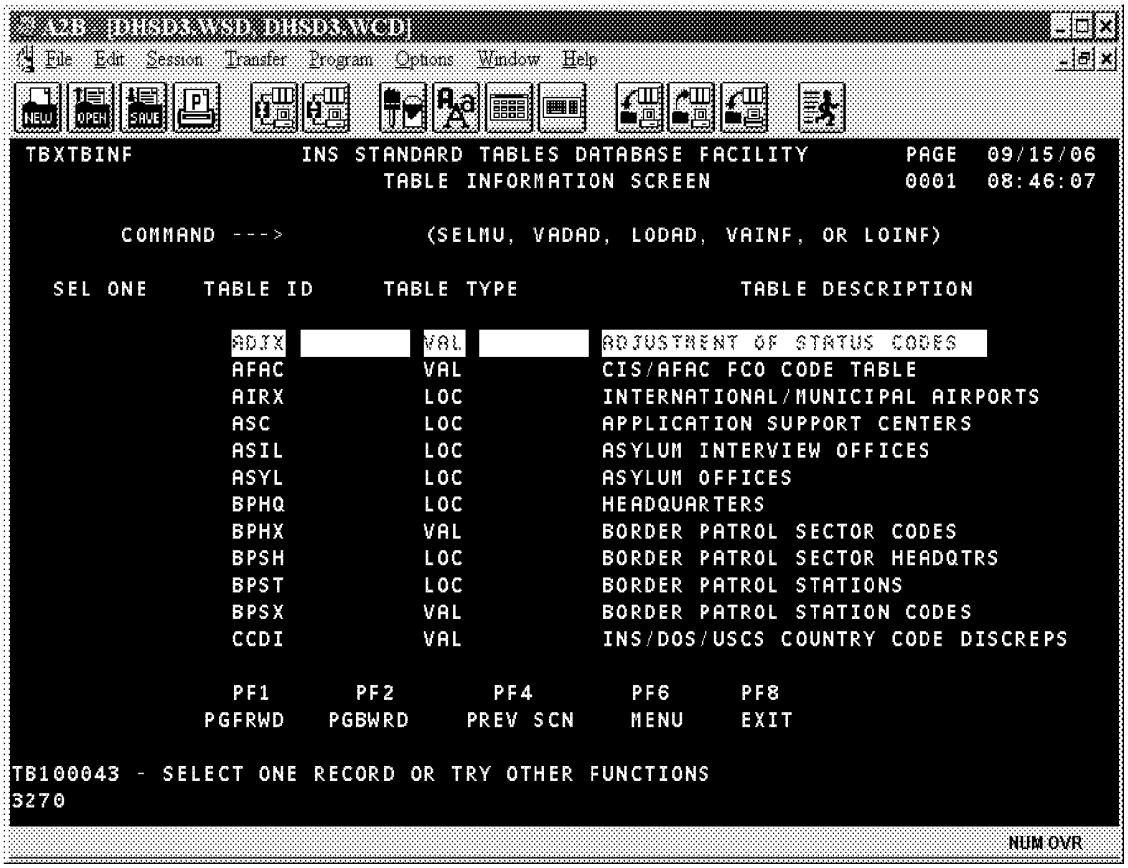
1.12 Tables Menu



Placing the cursor in the **Table ID** field and pressing the function key PF7 a list of tables is displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

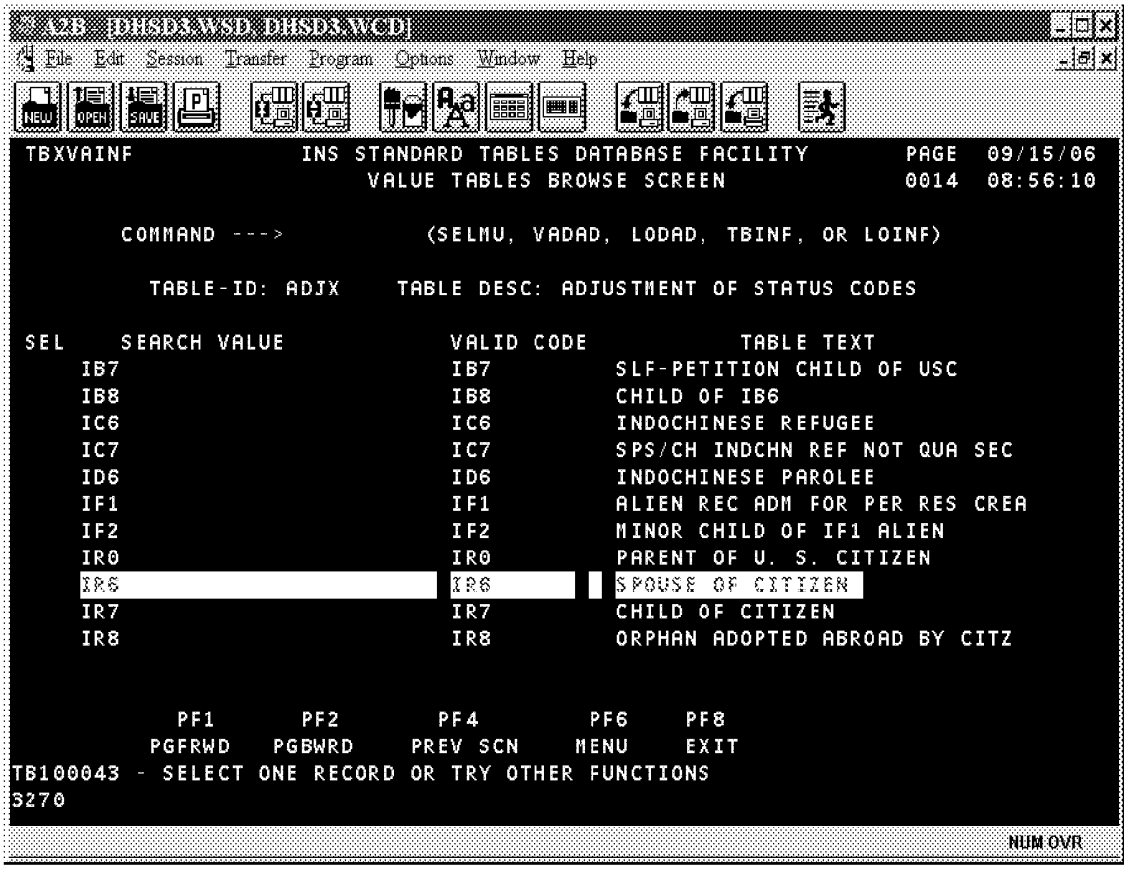
1.13 Tables Information Screen



The tables are in alphabetical order. Place an **X** in the "SEL ONE" column and press enter and this will bring up a list of different codes.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.14 Value Tables Browse Screen



Read the screen in its entirety for navigation instruction and additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). 2. Computer Linked Application Information Management System

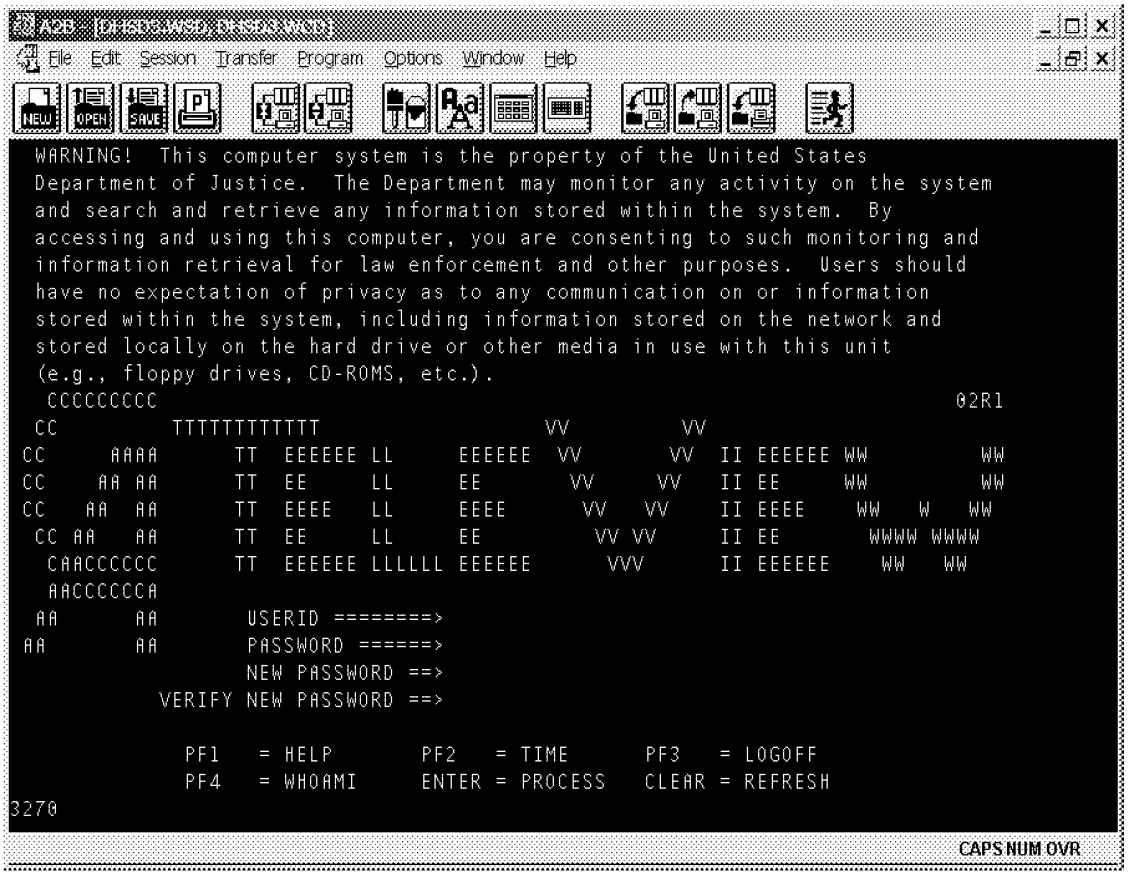
2.1 Introduction

The Computer Linked Application Information Management Systesm (CLAIMS) tracks application and petitions. CLAIMS is a menu driven system. The Inquiry/Update Processing selection on the menu is the only menu NRC FOIA uses because we search for receipts but never modify information in CLAIMS.

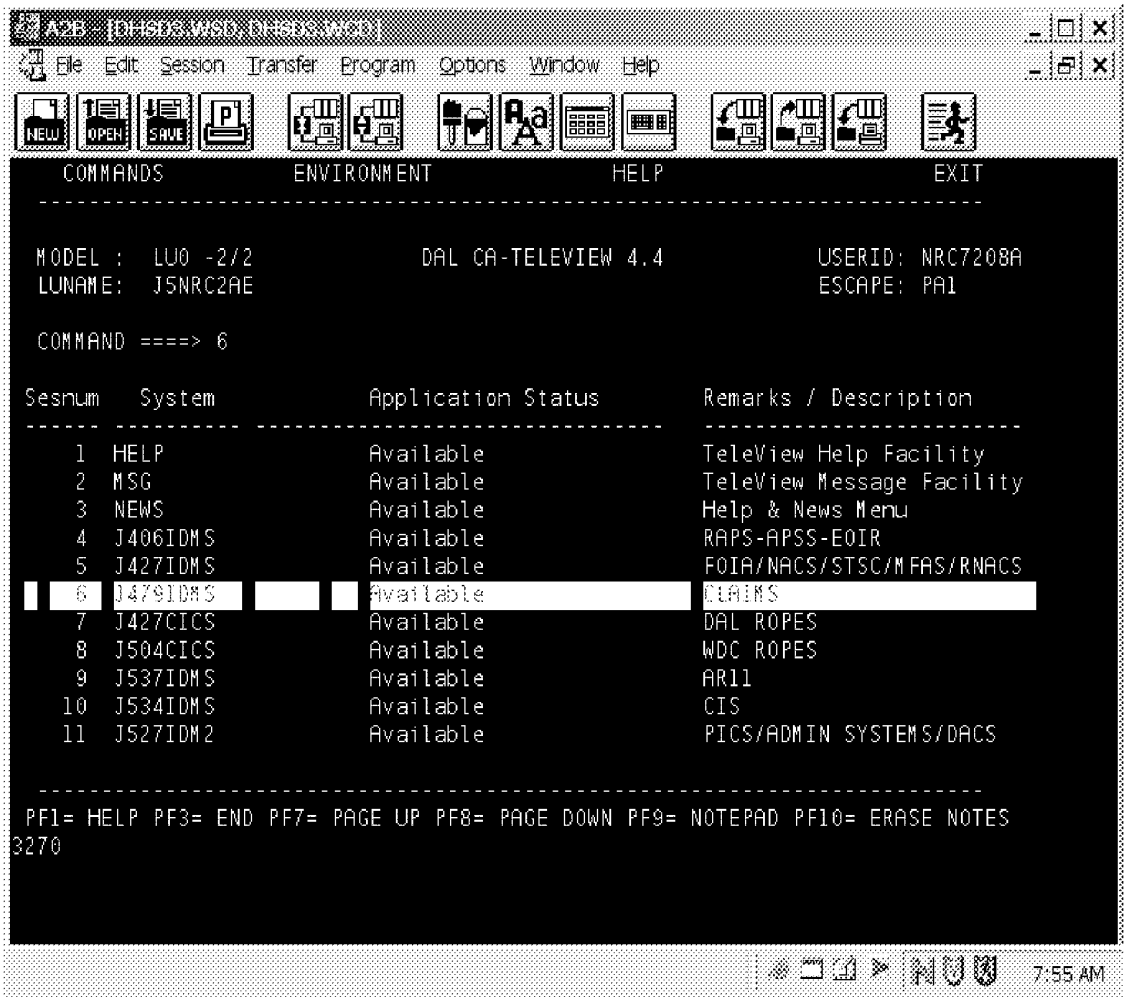
2.2 Teleview Introduction Screen



This screen is the introduction to TeleView. From this screen, use the designated UserID (NRC####A) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

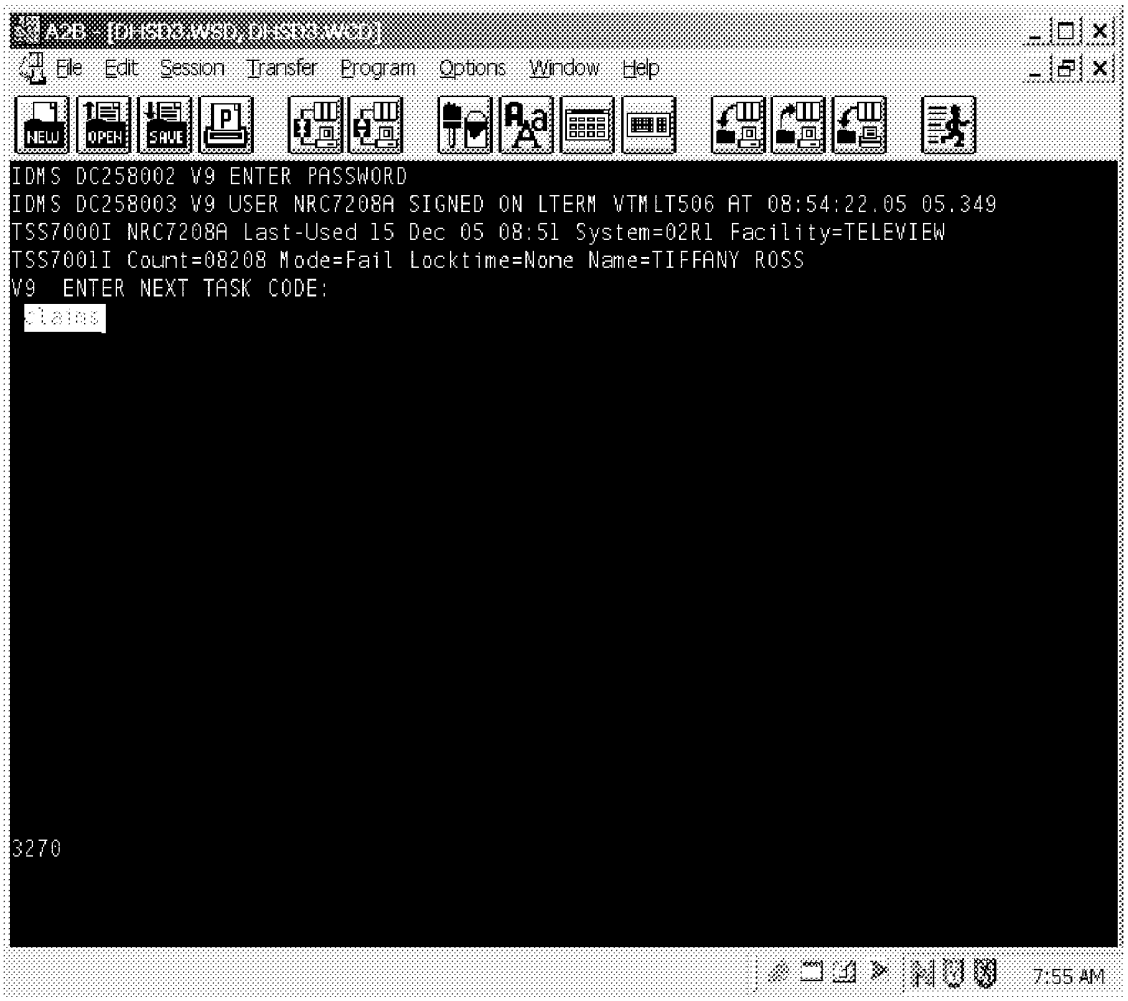
2.3 CLAIMS Selection Screen



The number selected to access CLAIMS can vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

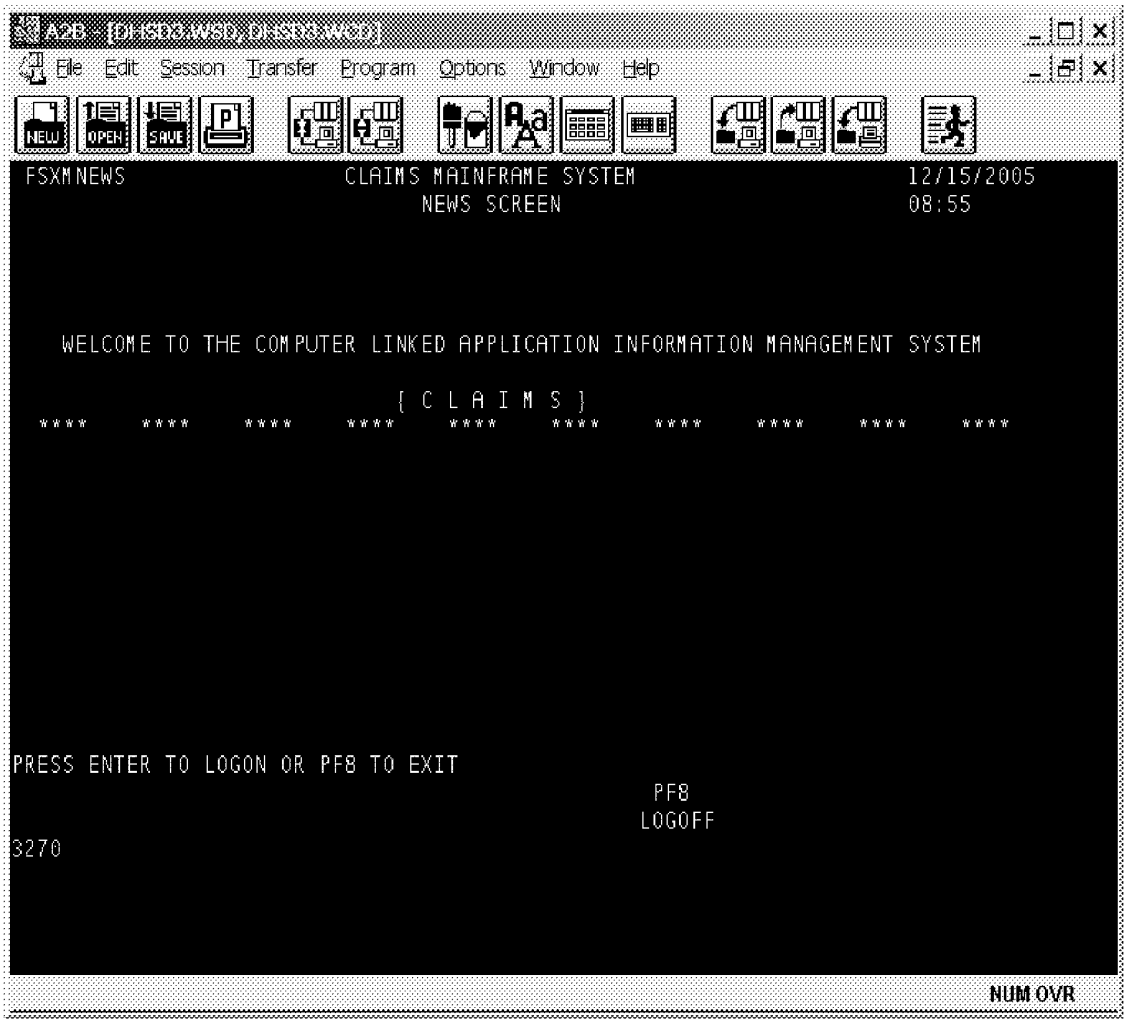
2.4 CLAIMS Function Screen



After selecting CLAIMS from the main menu, you will see the screen print shown above. Type in claims and press enter. This screen is not case sensitive.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.5 CLAIMS Welcome Screen



Press enter from here to get to the logon screen.

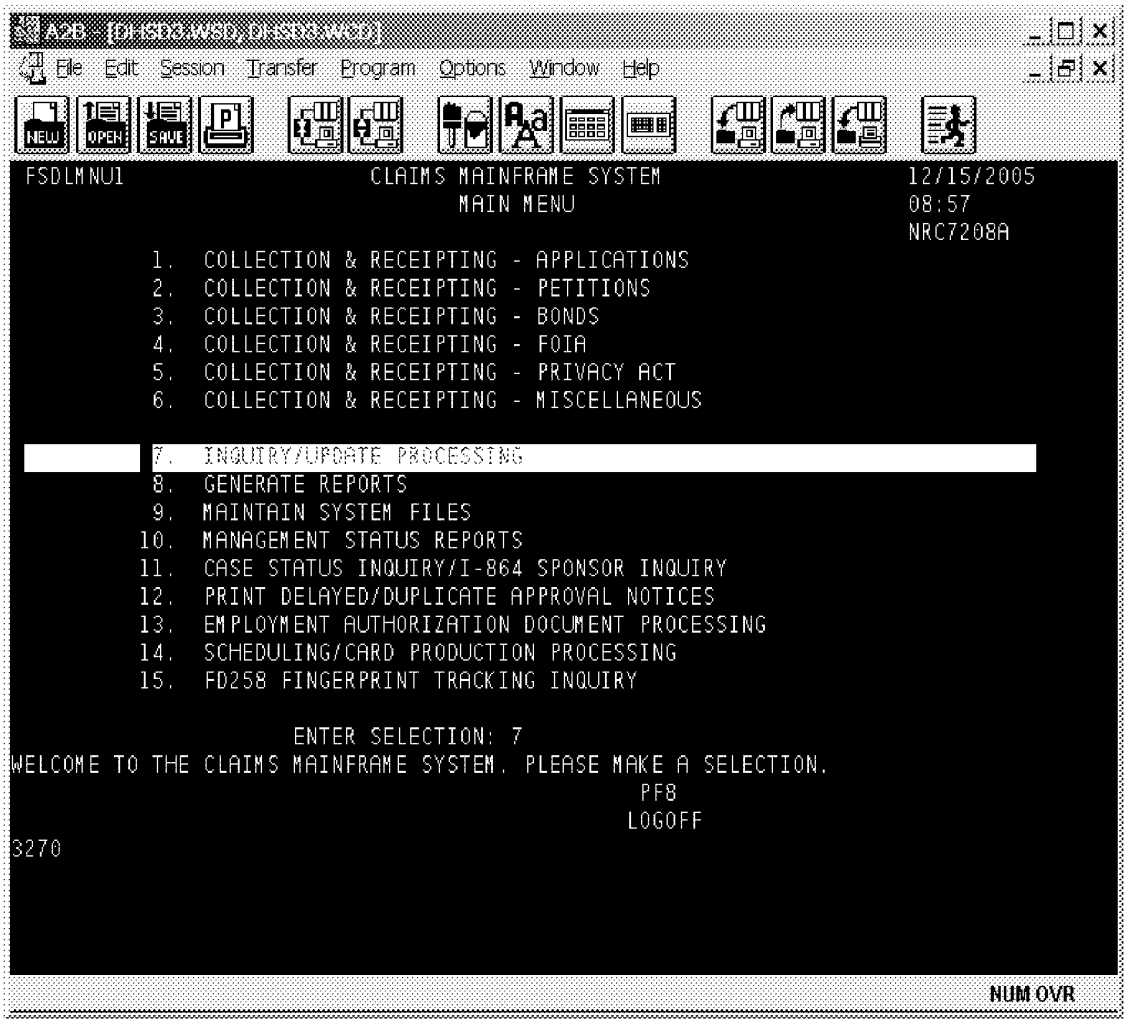
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.6 CLAIMS Logon Screen

To logon, your USER ID will be NRC and the last 4 digits of your social security number followed by a letter (NRC1234A). Check with your supervisor for your password.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.7 CLAIMS Main Menu Screen



From the Main Menu type the number for INQUIRY/UPDATE PROCESSING and press enter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

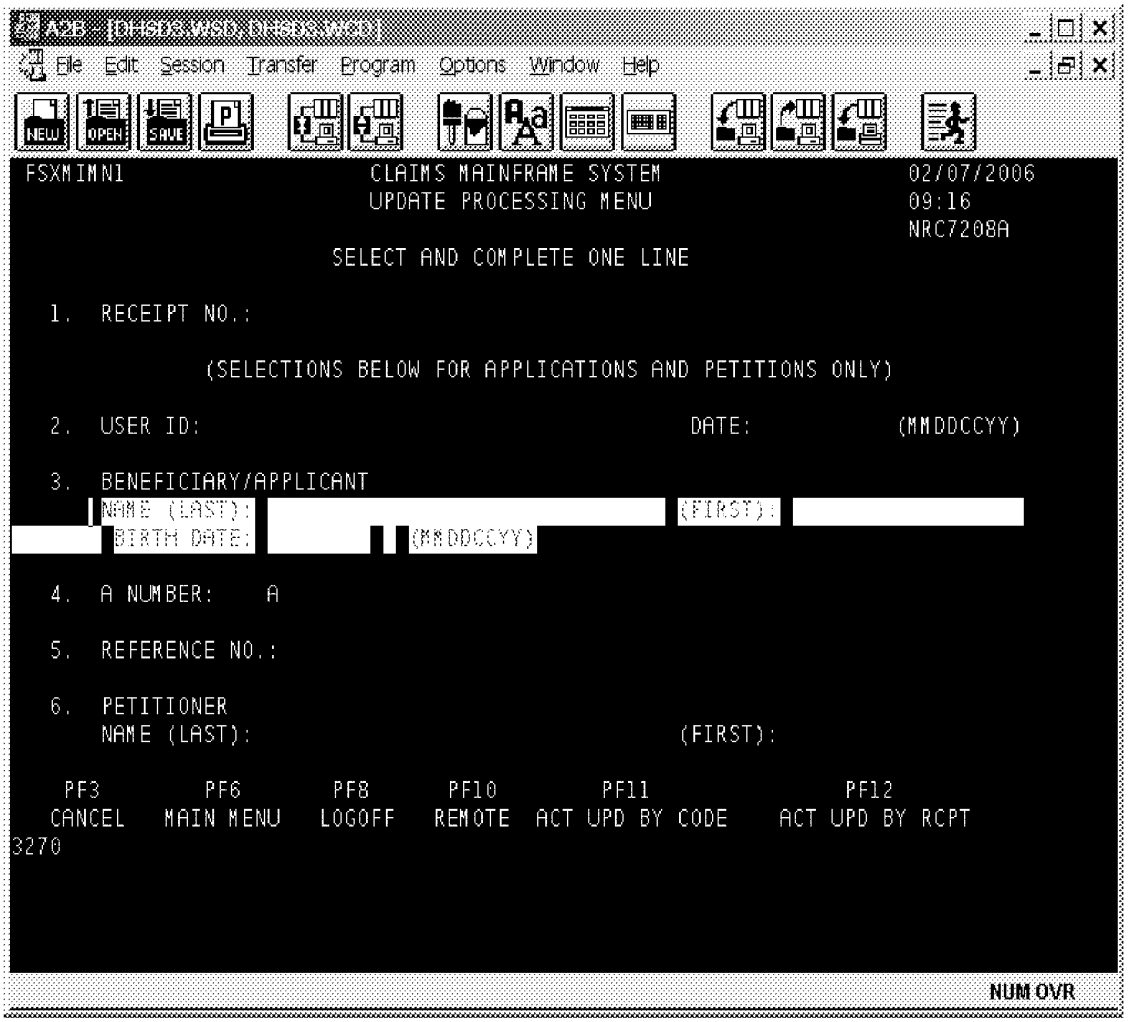
2.8 Inquiry Screen, searching with a Receipt Number

(b)(6)

On the Inquiry screen, there are several ways to search for records. If you know the receipt number, type the number under the first field to pull up the receipt information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

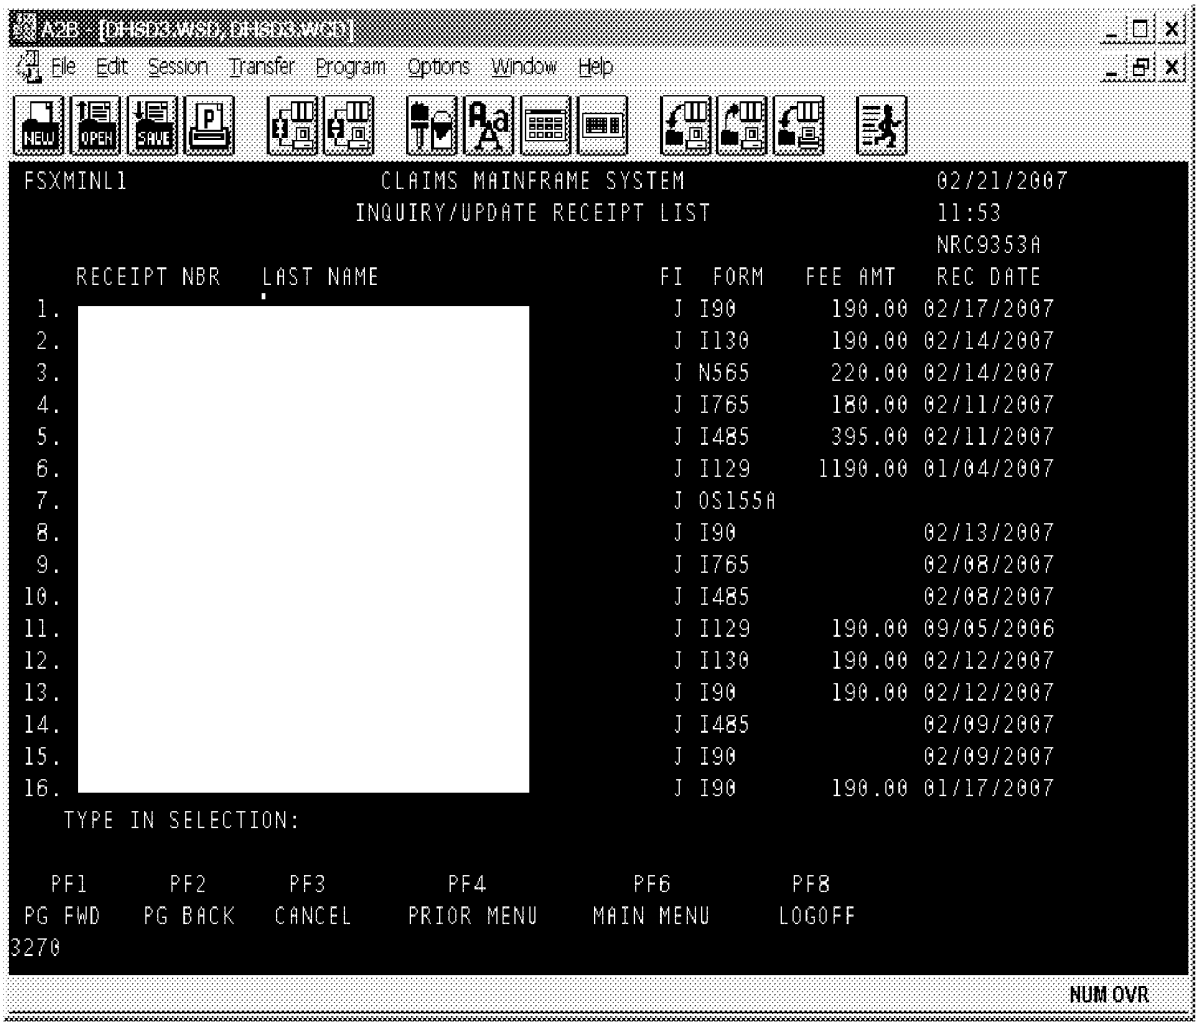
2.9 Searching CLAIMS using a Name and Date of Birth



You may also search name and birth date. CLAIMS does not forgive spelling errors and will not conduct "sounds-like" searches. If you do not immediately find a receipt, you should also search by alias names and variations of the name. You may also search without the birth date. This may have the results you are looking for depending on how common the name of the subject. Searching using the birth date will narrow the findings.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

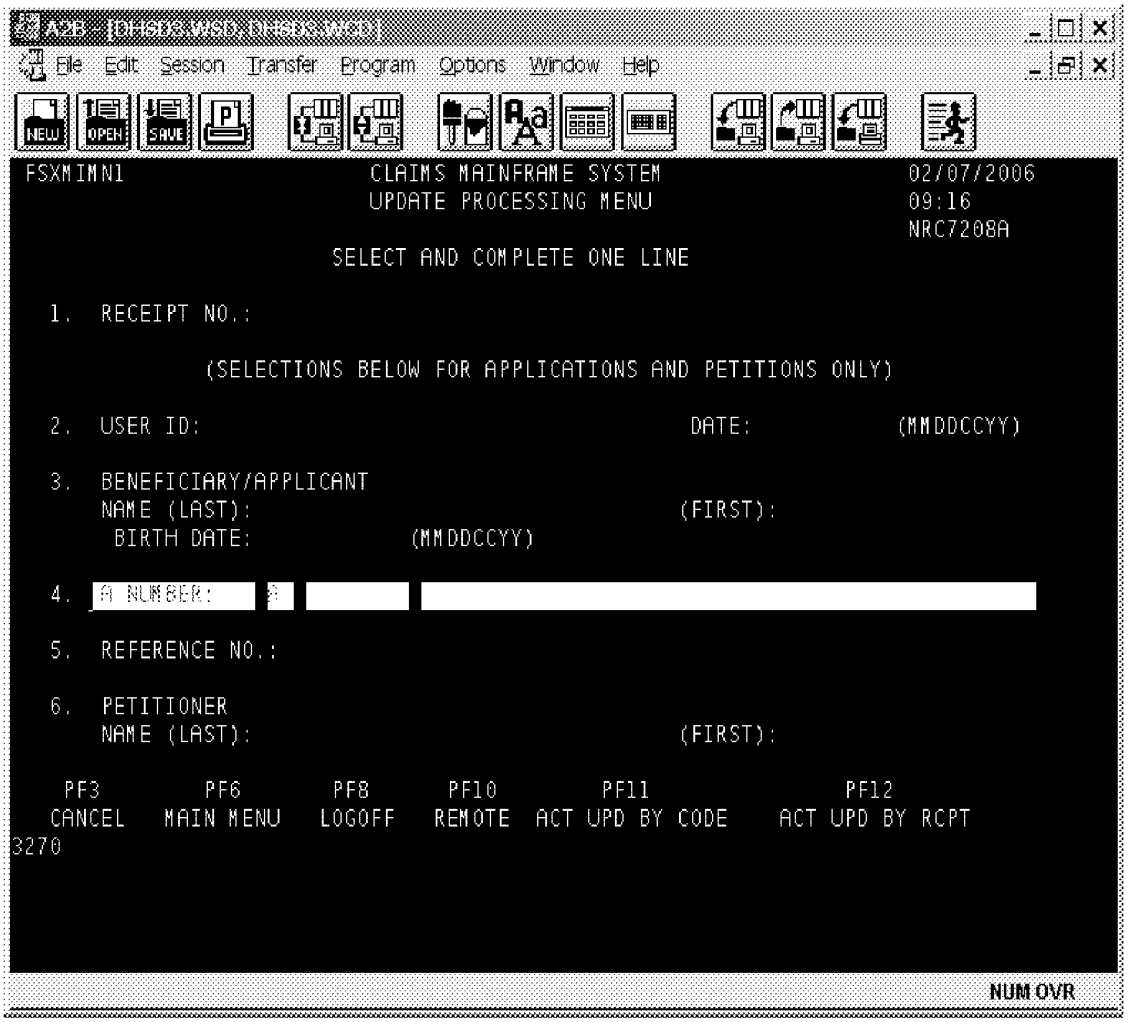
(b)(6)



If your subject has a very common name, the inquiry may result in several pages of matches. View the screen pertaining to the individual receipt number or look for the type of form. It will show detailed information relating to that specific receipt number. To view the detailed information, type the corresponding number at the bottom of the screen labeled "TYPE IN SELECTION." For example, if you type "3", the detailed information relating to receipt number SRC0710351687 will be displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

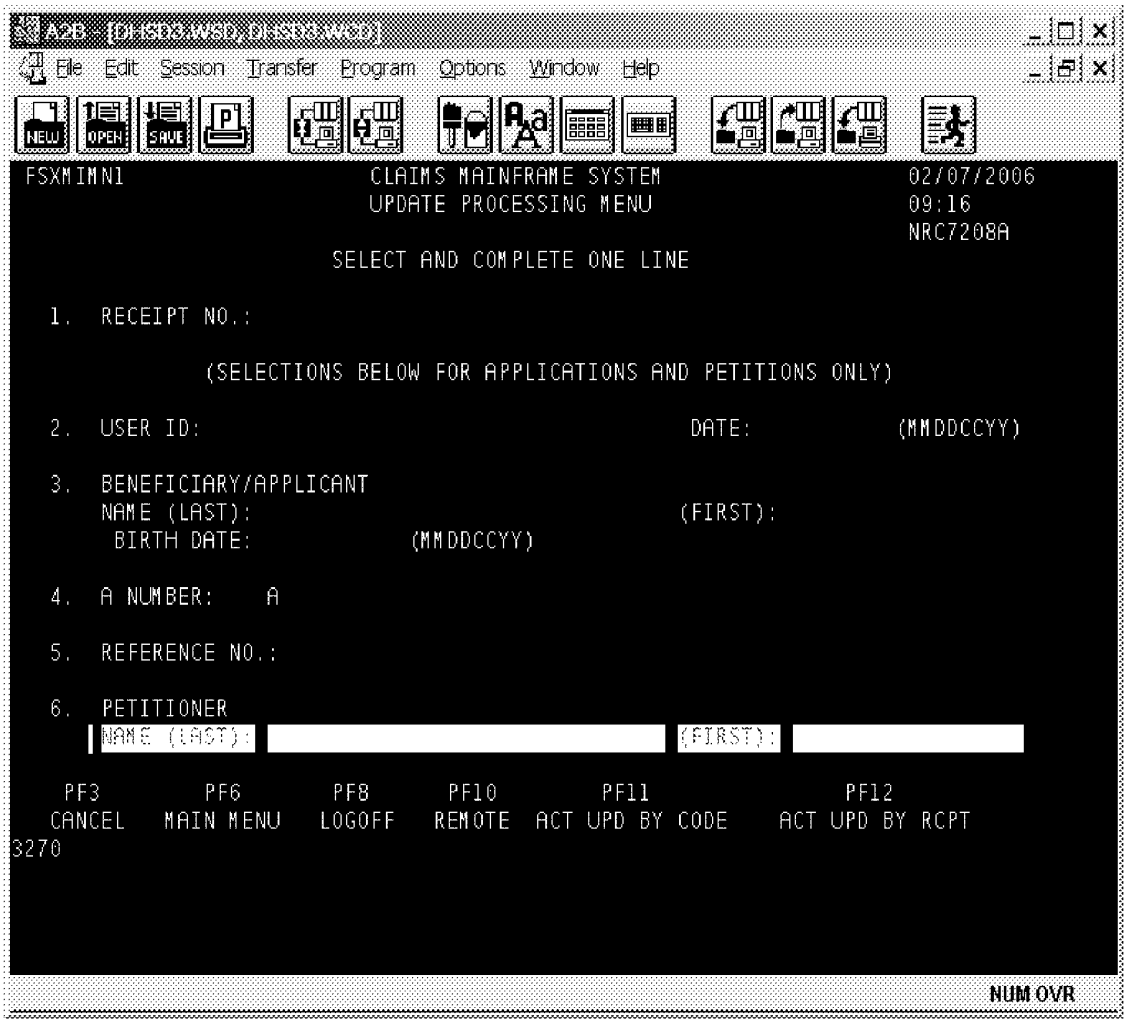
2.10 Searching with the A-Number



You may search by A-number. Navigate through these fields by tabbing, or to go backwards, use Shift-Tab. CLAIMS used to allow adjudicating officers to enter alien numbers as an eight-digit number without a leading zero. Ordinarily you should enter a leading zero immediately following the letter A (in purple on this screen) and then enter the rest of the A-number. If you do not find what you need, try deleting the zero immediately after the "A." If the person has a nine digit A-number, you will not have to worry about it. Note: if you search by A-number, it may not show every receipt belonging to the person, so you may still have to search by name and date of birth or by petitioner's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.11 Searching with the Petitioner's Name



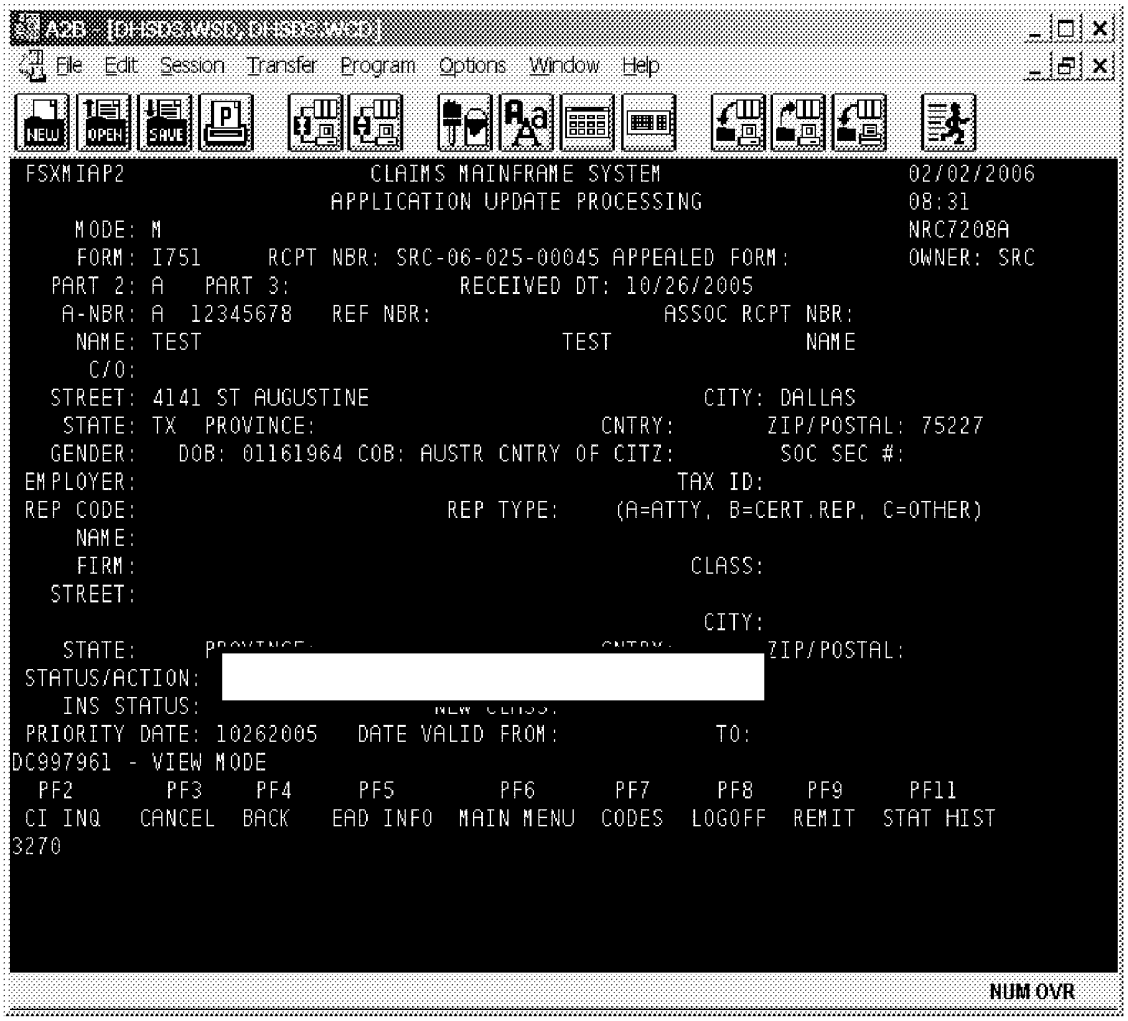
You may search by using the petitioner's name, but be forewarned: if the petitioner has a very common name, the results of this search may be overwhelmingly voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.12 Search Results

The screen print below is the result of a search. The receipt shown is for an I-751, Petition to Remove Conditions on Residence.

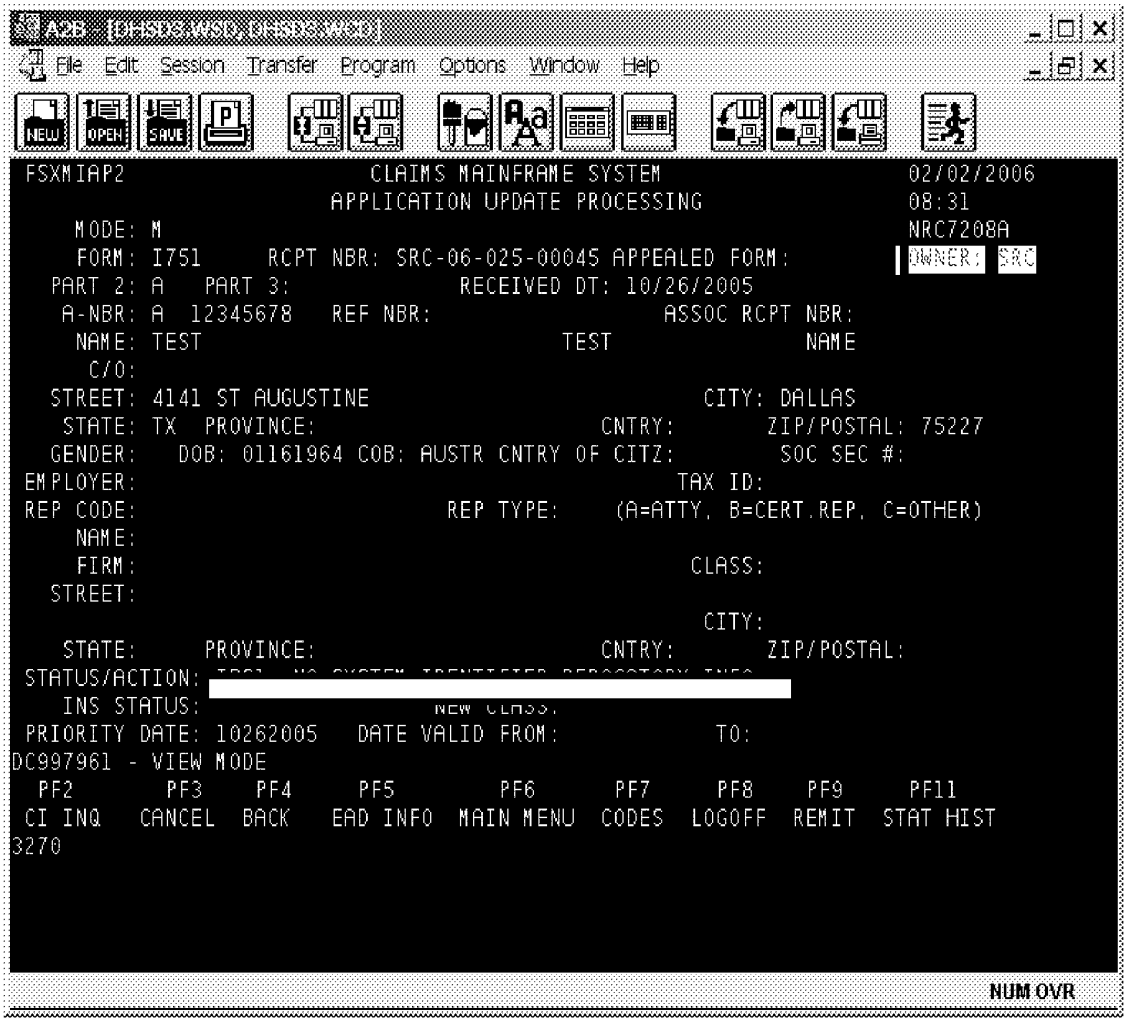
(b)(7)(e)



The receipt information gives the name, date of birth, A-number and address. The status of the receipt file is near the bottom of the screen. (STATUS/ACTION: IBS1)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(7)(e)



The top right corner of the screen shows the owner of the file, this may help in determining where to staff for the receipt file, especially if the receipt information is not in NFTS. This receipt begins with SRC, but that does not matter for staffing – the OWNER would be where you staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

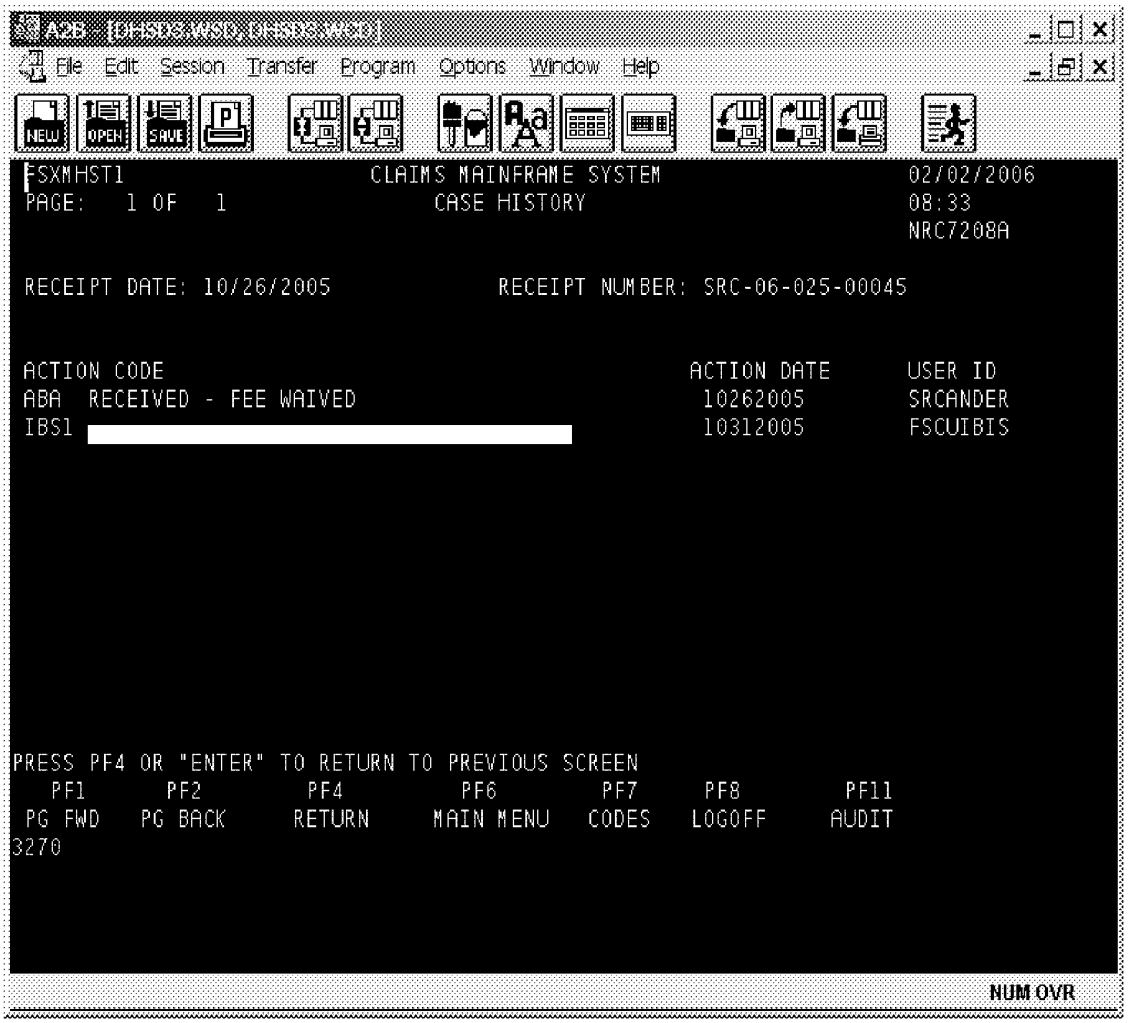
(b)(7)(e)



By pressing F11, you may view the history screen. From this screen, we can see the status of the application/petition. If the petition has been approved, destroyed, or transferred, it may make a difference as to how we staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). 2.13 Beneficiary Petition for Non Immigrant Worker

On an I-129 petition, the petitioner's information is on the first screen you pull up after you enter or select the receipt number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To see the beneficiary information press F1.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To view the history, press the F4 key to return to the previous screen, and enter F11.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

There may be numerous results on a name search. Press F1 to see the results of the next page. To view number 10 on page 2 of the results, enter "10." To go back to the results of the search, press F4. The screen always returns to the first page of the search results. Remember this if you are going through the results page by page.

3. National File Tracking System (NFTS)

NFTS is an automated system that enables USCIS to track and account for nearly 50 million Allen Files (A-Files) and Receipt Files. NFTS allows for local control of all files within a designated USCIS File Control Office (FCO) or Case Control Office (CCO), The system supports the file migration from the USCIS field offices to facilitate a

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

national tracking system that supports the National Records Center (NRC) and a centralization of agency records. You will learn much more about using NFTS in the Staffing section of this guide.

4. Person Centric Query Service (PCQS)

PCQS is an automated system that allows a person to submit a single query for all transactions involving an immigrant across a number of USCIS and Department of State (DoS) systems. PCQS returns a consolidated view of the immigrant's past interactions with USCIS and the Department of State as he or she passed through the U.S. immigration system.

Since PCQS can give us a comprehensive overview of a person's immigration history, it can help us locate certain documents to request, for instance, we may find information about an archived receipt in PCQS that we would not find in CLAIMS. You do not have to log in to PCQS to read the PCQS User Guide. Simply go to https://pcq.esb.uscis.dhs.gov/ and click on the Users Guide link below the Warning.

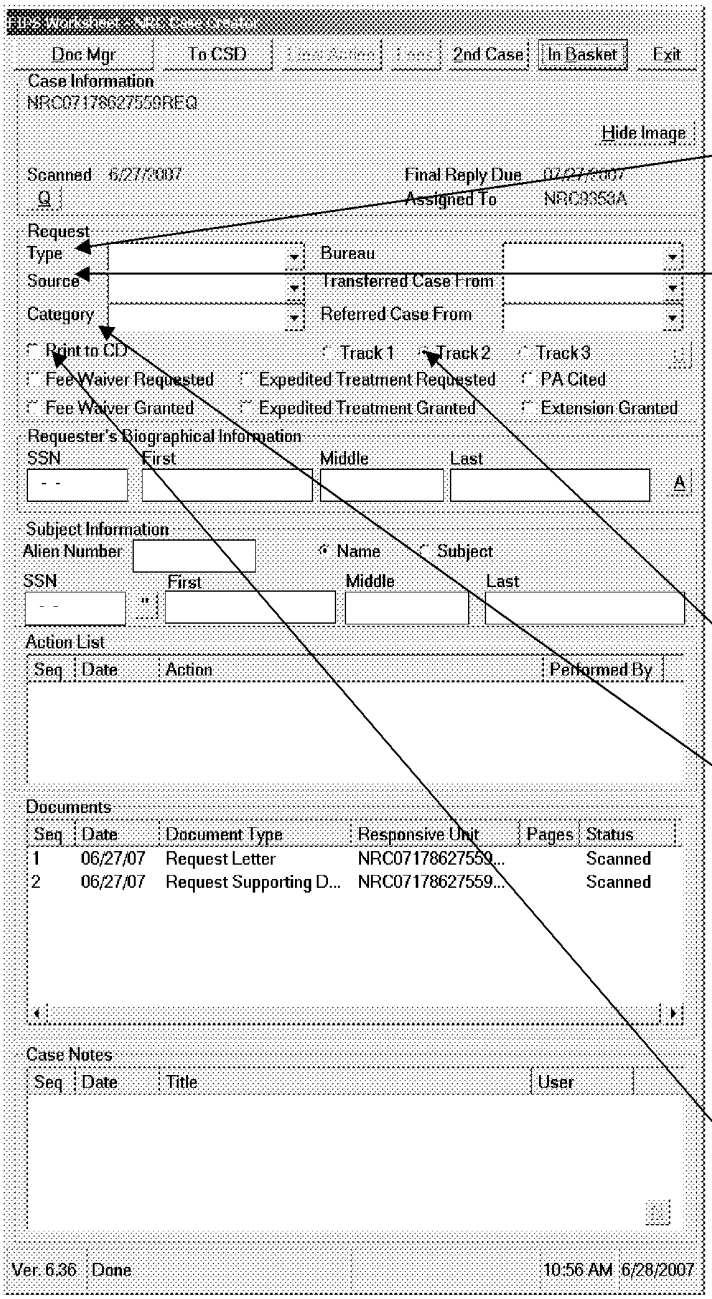
5. FOIA/PA Information Processing System (FIPS)

The Freedom of Information Processing System (FIPS) is an automated system that allows us to process FOIA/PA requests electronically. This automated system enables the scanning of paper files into electronic images. These images are easily stored, retrieved, and processed. FIPS provides workflow processing for the life of a case. Any time you do any transaction concerning a FOIA/PA case, it will be through FIPS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



REQUEST

Type of request

- Always FOIA

Source

- A - Attorney
- C - Commercial
- E - Education/Scientific
- F - Foreign Government
- N - News Media
- O - Other
- R – Representative
- S - Self
- W - White House/Congressional

Track 1, 2 or 3

Category

- ALF – Copy of alien file
- ASY – Asylum
- DOC – Memos, documents
- GEN – Genealogy
- PER – Personnel
- SIG – Special Interest Group
- SFR – SFR cases at NRC

Print to CD

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CREATING THE CASE

On the FIPS worksheet under the header "Documents," you will notice that usually Sequence 1 is the "Request Letter" and Sequence 2 is usually "Request Supporting Documents." There will be a date beside the sequence number. Ordinarily, the date is in the past, but if you should ever open a request and discover the date beside the sequence number is today's date, you should exit from the request (Retain in my In Basket) and send an e-mail to your supervisor explaining what happened. In the current version of FIPS, if we attempt to create a case on the same day the contractor scanned the request, it will cause "FIPS errors" and we will be unable to create the case. Checking the scan date is the very first thing you do when creating a case.

Sometimes the request will be Form G-639 only, sometimes it will be the G-639 and a G-28, Power of Attorney, sometimes it will be a letter from an attorney or representative and a G-28. Sometimes it will be a letter from the subject of record. At times, there will be documents scanned in such as alien registration card, driver's license or other forms of identification. Other documents you may see can include miscellaneous screen prints or memoranda. You should view (almost) all documents scanned in FIPS in the Request Letter and Request Supporting Documents slots before you create the case.

EXCEPT: if there is a slot marked *"Request Responsive Records"*, DO NOT view them before you create the case. These are the responsive records and the case is ready to process after you complete the acknowledgement letter. It will not be necessary to staff for the alien file. As part of staffing procedure, you should check in NFTS anyway to determine if there is a T-file here at NRC. That's another exception to the rule because you do not normally staff for T-files at the NRC, but we cover that in the staffing portion of this guide. The main thing to remember at this point is not to open "Responsive Records" while it is still a request and before you have completed case creation.

You must identify the following critical items and enter them into the FIPS worksheet before creating the case:

REQUEST INFORMATION

1. Type of request (FOIA)

Always select **FOIA**. It will be incumbent upon the processor to verify the status of the alien, and to change the case type if necessary.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. *Source of request*

The source of the request is, quite simply, who is making the request. Is the requester the individual or an attorney or representative speaking on the alien's behalf? Is it a request from the media or a true third party requester? Below is a list of possibilities for requesters:

- A – Attorney - The requester is an attorney representing the alien. The attorney will have checked the box on the G-28 marked "Attorney," or will have sent us a letter on the law firm's letterhead.
- C - Commercial
- E - Education/Scientific
- F - Foreign Government
- N - News Media
- O – Others - The requester of the file is someone other than the alien, an attorney or an accredited representative. They might possibly include a G-28 with something other than "Attorney" or "Accredited Representative" checked.
- R – Representative - The requester is an accredited representative. On a G-28, the requester will have marked the box "Accredited Representative."
- S – Self - This is a request from the alien himself or herself. The request may have the name of an individual followed by "care of" a certain law firm. This is still a self-request.
- W - White House/Congressional

If you feel that you have a case of a different source of request, please contact a supervisor for further guidance.

3. *Category of request*

There are 30 different categories of requests. However, the most commonly used ones are:

ALF – The requester is asking for an entire copy of an alien file. This category includes the following:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

a. Files of living subjects
b. Naturalization records on or after April 1, 1956
c. Visa records on or after May 1, 1951 in A-files
d. A-Files above 8 million (A8000000), and documents therein dated on or after May 1, 1951
e. Registry records on or after May 1, 1951 in A-Files
f. Alien Registration Forms on or after May 1, 1951 in A-Files

DOC – The requester is asking for specific documents, such as a copy of a receipt file, an application or a copy of their naturalization certificate. As a rule, you should create a case as DOC if the requester is asking for up to three documents. If a requester is asking for an asylum application and supporting documents, you should create it as ALF. (Refer to the section *"What track is my case?"* that follows.)

PER – The requester is seeking information relating to USCIS personnel matters.

SIG – Requester(s) are seeking information relating to special interest requests such as news media requests, highly visible or public interest cases. We receive this kind of request from members of the media, activist groups, watchdog organizations or educational institutions. The documents requested are normally associated with a controversial or sensitive subject.

Select "SIG" if any of the following criteria are met:

a. The FOIA request relates to a Presidential or agency priority;
b. The FOIA requester or requested documents will garner media attention or is receiving media attention;
c. The FOIA request is for documents associated with meetings with prominent elected, business, and/or community leaders;
d. The FOIA request is for congressional correspondence;
e. The FOIA request is from a member of Congress;
f. The FOIA request is from a member of the media;
g. The FOIA request is from a member of an activist group, watchdog organization, special interest group, etc.;

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

h. The FOIA request is for documents associated with a controversial or sensitive subject;
i. The FOIA request is for documents associated with a senior official of the component;
j. A FOIA appeal if it meets one of the "a" through "i" criteria;

Items listed above are suggestive and not exclusive – exercise judgment when marking cases with category "SIG."

If you believe a request qualifies as a SIG, choose that case category in FIPS, generate a staffing sheet using "FOIA Special Interest" and create the acknowledgment letter. This enables the Special Interest Group (SIG), responsible for special interest cases, to create a report and determine whether the case is actually a SIG case and report it accordingly. If the case creators do not mark SIG cases properly, we have no way to track and report these high visibility cases. When in doubt, choose the SIG category in FIPS. The Special Interest Group will sort it out later. If you have questions or need to send information regarding SIG cases to the Special Interest Group, their e-mail address is: NRC, FOIASIG.

SFR– NRC uses this category to track all workload staffed to SFR. This includes cases retired by or lost by SFR, but **does not include ZSF.**

GEN – Genealogy cases are requests for searches and/or copies of historical records relating to a deceased person. The lists below represent the records that the public would be able to request from the Genealogy Program:

a. Naturalization Certificate Files (C-Files) from September 27, 1906 to April 1, 1956.
b. Microfilmed Alien Registration Forms (AR-2), from August 1, 1940 to March 31, 1944 and Alien Registration Forms from March 31, 1944 to April 30, 1951 in A-Files.
c. Visa Files from July 1, 1924 to May 1, 1951.
d. Registry files from March 2, 1929 to March 31, 1944 and Registry records from April 1, 1944 to April 30, 1951.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

e. A-Files numbered below 8 million (A8000000), and documents therein dated prior to May 1, 1951.

Do not create the case as GEN unless it meets one of the above criteria. If the case you are creating does meet the criteria for GEN, create it as GEN then do the following:

a. Close the request as an ER
b. Send an e-mail to the OA room and include the following information:
   1) REQ#
   2) NRC#
   3) Scanner's initials
   4) Date scanned

The OA room will pull the original request, include it in the current days count and follow return procedures.

4. Bureau

The three possible selections for Bureau are:

ICE – Used to identify requests wherein the requester is seeking information in connection with deportation hearings and other immigration related litigation (OPLA/DRO/SAC)

CIS – Used for all other categories. This is the default in FIPS.

CBP – Used for requests pertaining to documents relating to the Border Patrol, incident reports relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, checkpoints, entry/exit information, inspection, Port of Entry (POE), legacy customs or legacy inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. **Note: If request is for entry/exit information and the requester/subject provided an alien number, staff for the file.**

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5. What track is my case?

Track 1 – Requests for receipt files and requests for partial records such as a specific document. A specific document request consists of three documents or less (except asylum or refugee requests).

Please select the category DOC: Memos, Documents and make the case a Track 1. The first paragraph of the acknowledgement letter sent to the requester must contain the following paragraph:

We respond to requests on a first-in, first-out basis and on a multi track system. Your request has been placed in the simple track (Track 1). You specifically requested [enter specific document information here]. If you would like a copy of all your records, please send a written request to the address above, otherwise you will receive only the documents you specified.

Continue to create the case in Track 1 as specific documents. The requester may write back later responding that they need the whole file, and Records Locator can change it to Track 2 at that time.

Track 2 – Requests for entire copy of alien file, asylum requests, and requests from news media or special interest groups.

If the request has "all records" checked and lists more than three documents on the G-639, please select the category ALF: Alien File and make the case a Track 2.

Track 3 – Requests for records of individuals scheduled to appear before an immigration judge. Requesters must provide one of the following documents to receive Track 3 processing:

- Form I-862, Notice to Appear, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-122, Order to Show Cause, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-863, Notice of Referral to Immigration Judge

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Written notice of the continuation of a future scheduled hearing before an Immigration Judge.

A supervisor will review all incoming FOIA requests and identify Track 3 requests. The supervisor will verify that necessary documentation is present with the request. There should be an attached cover sheet indicating to the case creator whether the request for Track III is approved or denied.

Requesters will sometimes request both Track III processing and expedited processing. Neither has anything to do with the other. A requester could be granted either Track III processing or expedited processing, but never both at the same time on the same case. For expedited processing guidelines, please refer to **"Expedited Treatment"** in this guide.

Track III processing is not "expedited" processing as that term is used and understood in FOIA. When discussing Track III processing of a FOIA request the word "expedited" should never be used (priority or accelerated processing are more appropriate terms for Track III). Don't confuse the two in discussions or correspondence with requesters.

Refer to the cover sheet the supervisor attached to the request. There should be either an Expedited coversheet or a Track III coversheet, but not both. Follow the instructions on the cover sheet attached to the request. If there is no cover sheet, do not mark either box.

If the requester specified Track III processing but the request does not have a cover sheet, please create the case. Do not staff yet. If you have a request for Track III and you see that we have a future court date provided in the request, prepare your response according to the Track 3 Ack Letter found in O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters

If the requester did not provide any documentation or if the documentation says "a date and time to be determined" prepare your response according to the Track 3 Letter Denial found in O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Send the case to Unit Chief. Send an e-mail to your supervisor and include the control number of the case. When your supervisor makes a decision the case will be returned to you in case create to staff for the file.

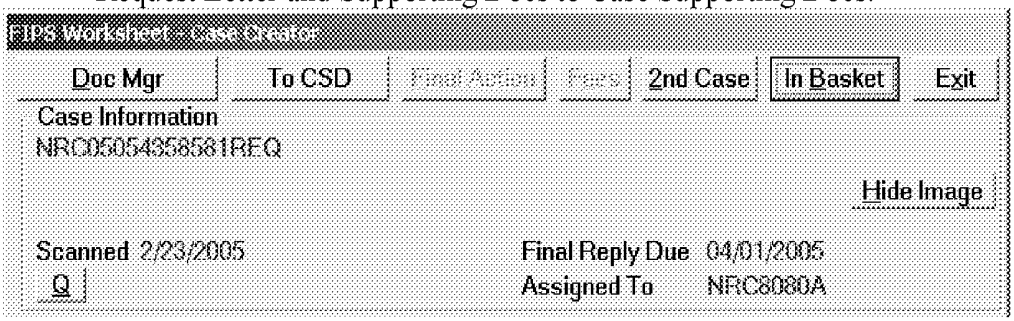
If you assign the case to Track III, ensure you put the words "TRACK III" at the top of the staffing sheet.

If the requested file has already been scanned because of a prior FOIA request that has now been resubmitted for Track III processing, do not create the case as new. You will attach the new request to the existing case as a CSD. If Track III processing has been approved, you have to change the track on the original case to Track III.

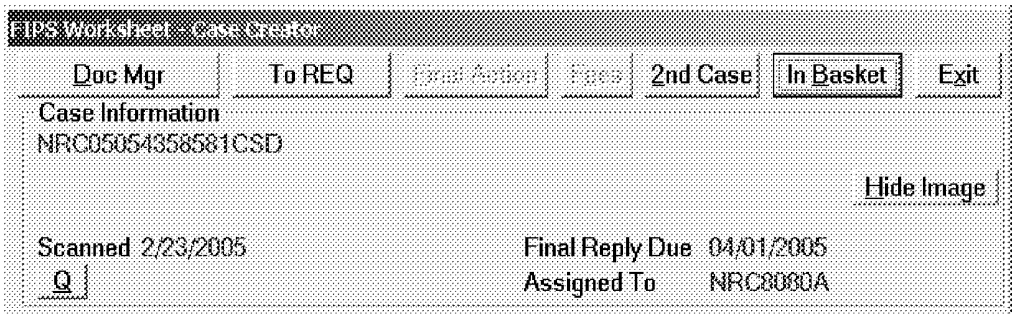
To attach a new request as a CSD, please follow these instructions:

When you pull up your new request and determine that it is a Track III request (there should be a cover sheet attached to the request granting or denying "Track III" and the necessary documentation should be present), if you know the existing case number it is not necessary to fill in the blanks of the FIPS worksheet. If you don't know if there is an existing case, fill in the fields on the worksheet in FIPS. If you click on Doc Manager, and you find a potential duplicate case, please carefully review the existing case. If the requester is the same, note that control number.

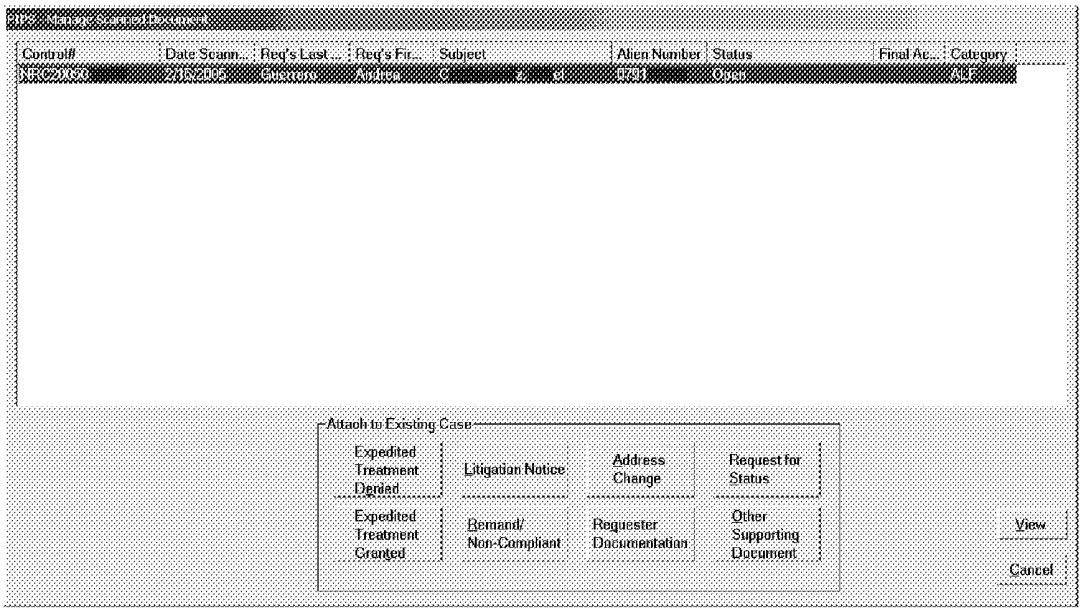
- Cancel back to FIPS without assigning a control number to the new request. In the upper right of the worksheet, click the button "To CSD". This will change the request to a CSD. After it is changed, the button that previously said "To CSD" would now say "To REQ" and the document type in the document portion of the worksheet will have changed from Request Letter and Supporting Docs to Case Supporting Docs.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



- Click Doc Manager again. When the search screen appears, you can search using the alien number or the control number of the existing case and click search. This will pull up the FIPS Manage Scanned Document Screen.



- Highlight the control number of the existing case. This action activates the box on the bottom of the screen. Attach the new request to the existing case as an Other Supporting Document. FIPS will ask you to verify that you are attaching it to the proper case. FIPS will then attach the new request and supporting documents to the existing case.

After FIPS finishes attaching the information, (please be patient; do not click anything else while you are waiting), it will open up the original case, allowing you to update the track selection. Exit back to your in basket and either pend the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

case for responsive records (if the file has not been scanned in) or send it to the processing queue.

Once you have attached the CSD's to the existing case, the existing case is assigned to you in Case Create. Whether Track III processing is approved or denied, please send a status letter. Please click In-Basket and save the case.

Next, click Stand-Alone and call the case up. Click on Status Letter and replace the contents of the letter with the Track III Denial verbiage located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Track_3_Letter_Denial.* Close and save the letter. Click In-Basket to get back to the FIPS – Select Role screen. Click Case Create and click Next Case to recall the case you were working on. Either pend the case for Responsive Records (if the file has not been scanned in) or send the case to the processor if the responsive records have been scanned in.

To send a Track III approval letter, simply click on Status Letter and replace the information detailing where your case is in the queue with the following statement:

Your case has been approved for Track III processing.

6. *Is there a request for fee waiver?*

The requester may ask for a waiver of fees in his or her request or in accompanying documentation submitted with his or her request. USCIS considers all requests for fee waivers on a case-by-case basis.

A requester must meet two requirements in order for USCIS to grant a fee waiver:

1. The disclosure of the requested information must be in the public interest.
2. AND the disclosure of the information is not primarily in the commercial interest of the requester. For a detailed explanation, please refer to the U.S. Department of Justice Guide to the Freedom of Information Act, "Fees and Fee Waivers."

Also note: the requester must ask for a fee waiver. Under current guidance, simply including a DOJ Fee Waiver form does not constitute a request for fee

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

waiver. If the requester has written any statement to the effect of a request for fee waiver on the form, then you treat it as a request for fee waiver.

When a requester has asked for a fee waiver, you must check the box marked "Fee Waiver Requested" on the FIPS worksheet. Regardless of the decision on the fee waiver, you must insert a case note in FIPS indicating that you addressed the fee waiver request. When you are finished creating a case with a fee waiver request, send the request to Unit Chief and e-mail your supervisor. A supervisor will make the decision to approve or deny the fee waiver and send the case back to you in the case create role.

Fee Waiver Denied: When you respond to a request for fee waiver, you must add specific language to the acknowledgement letter. Please see O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Fee_Waiver(denied) for an example of the denial language. Copy and paste this language into the acknowledgement letter. Do not bold, underline, highlight or enlarge the font of the language. If the font changes to bold when you paste it in, highlight that text and remove the bold.

Fee Waiver Granted: If the decision is to grant the fee waiver, then please check the box marked "Fee Waiver Granted." In the acknowledgement letter, please add the following sentence to the end of the first paragraph:

This is to inform you that your request for a fee waiver has been granted.

7. Is there a request for expedited treatment?

A requester may ask for his or her request to be expedited and processed outside the order of receipt. By law, we must respond to a request for expedited treatment within 10 business days.

USCIS will grant expedited processing if the requester establishes **either**:

> (1) circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;
>
> **or**

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(2) an urgency to inform the public about an actual or alleged federal government activity, if the requester is a person primarily engaged in disseminating information.

The requester must send a statement explaining in detail the basis for requesting expedited treatment. If a requester asks for expedited processing and fails to meet the criteria, we process the request in the appropriate track, using the "first in/first out" rule [See 6 C.F.R. § 5.5(a)].

OA personnel normally separate mail and faxes pertaining to expedited treatment prior to scanning. A supervisor then reviews and makes a determination regarding the expedited treatment. The supervisor will attach a cover sheet to the front of the request detailing the determination. Please create the case in accordance with the instructions on the cover sheet.

If the requested file has already been scanned because of a *currently open* prior FOIA request that has now been resubmitted for expedited processing, do not create the case as new. You will attach the new request to the existing case as a CSD.

- If expedited processing has been approved based on new information, you have to check expedited processing approved on the original case and send an expedited treatment approval letter by opening the original case in stand-alone mode, removing the sentence about where the case is in queue, and replacing it with "This letter serves to notify you that your case has been approved for expedited processing."
- If expedited treatment was already denied in the *currently open* prior case, and the supervisor's decision is the same, attach your request to the original case as a CSD and do not send further correspondence.
- If the expedited treatment request refers to a case that *has already been closed*, close it as DP and send a duplicate letter or to create it as a new case, based on the situation. Please refer to the section on DP (duplicate) Cases.

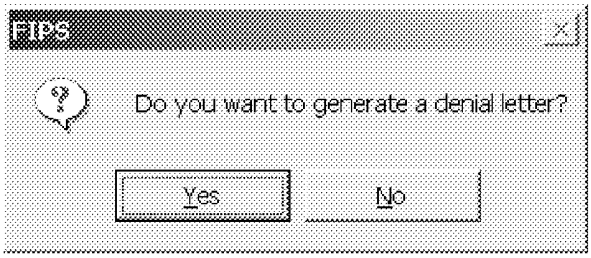
Sometimes the OA room will miss an expedited request. If this happens, check the "Expedited Treatment Requested" box, create the denial letter and then send the case to Unit Chief. Send an e-mail to your supervisor explaining the situation.

EXCEPT: Do not mark both "Expedited Treatment Requested" and "Track III." A request can be either expedited or Track III, but not both. If the requester has asked for Expedited Treatment and Track III, treat it as if it is a Track III request

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

and follow the instructions in TRACK III PROCEDURES. In such a case, you should not mark "Expedited Treatment Requested" before sending it to Unit Chief.

If the supervisor granted expedited processing, check **both** the "Expedited Requested" and "Expedited Treatment Granted" buttons on the FIPS worksheet. When you create the acknowledgement letter, the following box will appear:



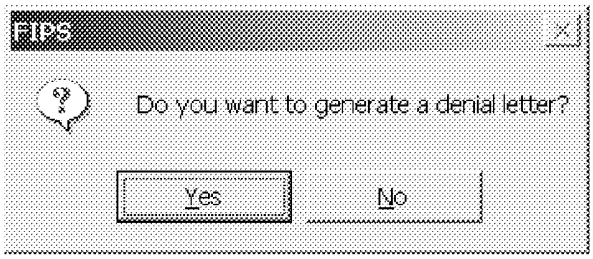
Click "NO" if we granted expedited processing (because we do not want to generate a denial letter) and FIPS will generate the acknowledgement letter. We must advise the requester that his or her request for expedited treatment has been granted. In the acknowledgement letter, please add the following statement to the end of the first paragraph:

This is to inform you that your request for expedited treatment has been granted.

USCIS denies most requests for expedited treatment because the requester failed to establish either of the necessary criteria. If the supervisor denied expedited processing, we must advise the requester of the criteria for expediting a request and offer an opportunity to resubmit additional justification. The requester also has the right to appeal the decision to the USCIS FOIA Appeals Office.

If the requester has asked for expedited treatment and the supervisor has indicated denial, you must check the box marked "Expedited Treatment Requested" on the worksheet. This will generate a pop-up window that asks the question:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



The answer to the question in this circumstance is "Yes". After you have answered this question, FIPS will create both the acknowledgement letter and the letter denying expedited treatment. Please do not click on the documents as they are generating. The system will take a few moments for completion. After creating both letters, FIPS will return to the FIPS worksheet and both documents will appear on the status bar of your computer (the area on the bottom of the screen that shows you what programs/documents you have open). You can then click on them to make any necessary corrections, close and save changes.

If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that this needs to be a multiple case, you must check the Expedited Treatment Requested box (and create the appropriate response letters) for each child case. On the other hand, it might be that we will treat only the parent case as an expedited treatment request. The supervisor will make a statement to that effect on the cover sheet, and of course, in such a situation, you would not mark the child cases as expedited treatment requests.

NOTE: If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then un-check the box before you close the case. Because we are not generating a letter regarding expedited treatment, and because it would cause erroneous reporting of Expedited Treatment Requests, you must un-check the box.

CD OR PAPER?

In an effort to save time, money and resources, the FOIA unit sends out final action responses on CD to all requesters (with two exceptions). When we send out the acknowledgement letter to the requester, it advises them that unless they write in and specifically ask for their documents on paper, they will be receiving them in a CD format. The acknowledgement letter templates reflect the change.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A few guidelines to follow:

- Case Creators will mark the "print to CD box" on all new case creates, unless the mailing address of requester is to a correctional facility or unless the requester specified paper in the initial request letter.

- If the responsive records are already scanned in when you create the case, you will still check print to CD. The processor must uncheck the print to CD box if the responsive records are less than 15 pages.

- All responsive records mailed to a correctional facility must be on paper. In such an instance, you must modify the acknowledgement letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by removing the paragraph that begins with "This office will be providing your records on a Compact Disc (CD)"

- If the requester is in prison but we are sending the responsive records to an attorney's office, we will print to CD.

- If a requester specifically asks for their records on paper, do not check "Print to CD" box and case note the reason. In such an instance, you must modify the acknowledgment letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by removing the paragraph that begins with "This office will be providing your records on a Compact Disc (CD)"

REQUESTER'S BIOGRAPHICAL INFORMATION

1. ***Requester name***

When entering the information on the FIPS worksheet, please observe the following rules

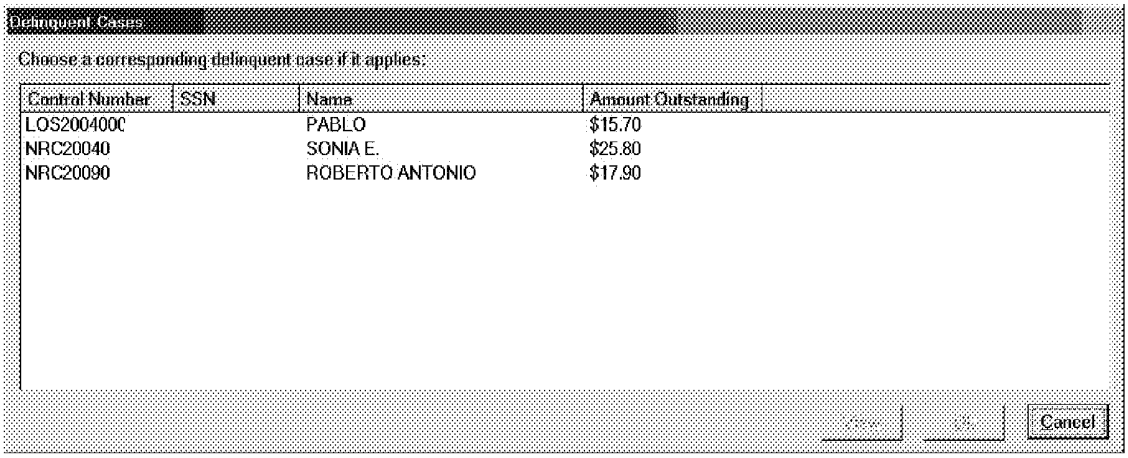
- Do not use all capital letters when entering names.
- Do not use professional titles, such as Doctor or Reverend in the requester information.
- You may use Jr., Sr. or II, III, etc., if the requester or subject uses it on the request.
- Do not open cases in the name of a company only.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Do not hyphenate names.
- Be accurate with the spelling of the requester's name in FIPS. If the name of the requester is not clear on the request letter, check the supporting documents for a Form G-28 for a clear copy.
- Add a period after the middle initial.
- Do not use part of the last name as a middle name, for example Hispanic names.

2. *Is this a delinquent requester?*

After you enter the last name of the requester, FIPS will automatically conduct a search for delinquent fees owed by that requester, using the last name of the requester. If the requester is delinquent on any case in any office nationwide, a box will pop up on the screen (see below).



If a requester/subject previously submitted a request and owed a fee on a case and he or she did not pay the fee within 30 days, his or her case closed as a FP (failure to pay). If the subject/requester submits a new FOIA request, the Delinquent Requester notification is going to pop up. Your requester may possibly not be on the pop-up list. FIPS conducted a search by the last name(s) of delinquent requesters.

Do not treat the case as delinquent if the case was processed on or before December 31, 2003. Send an e-mail to NRC, FIPSPROBLEM (clicking on the link will automatically include a copy to NRC, FOIAPROGRAM). In the body of

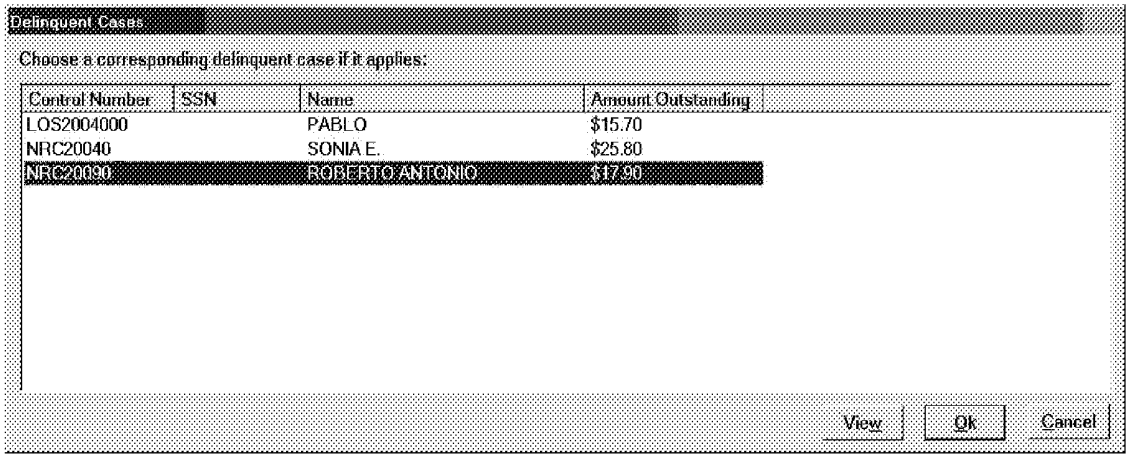
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

the e-mail, include the name of the delinquent requester and the delinquent case number(s).

If the case was processed after December 31, 2003 and your requester's name was on the list:

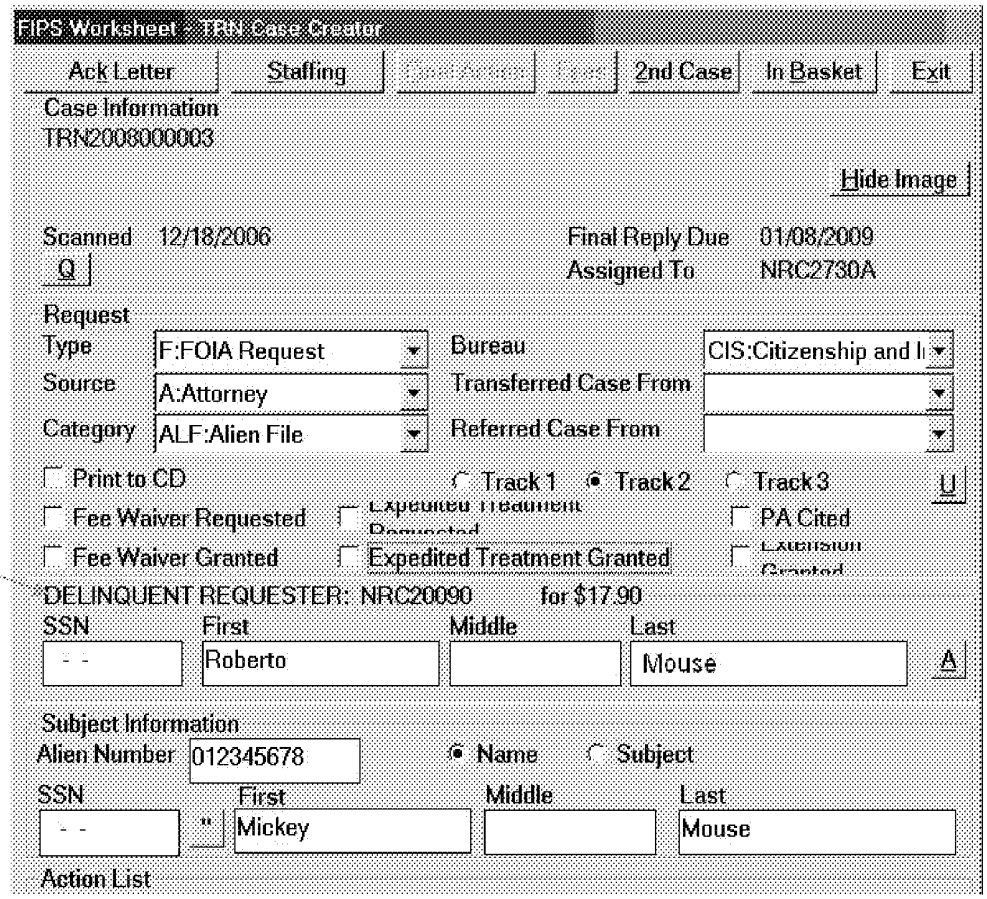
If you encounter a delinquent requester from a FIPS Lite office, do not treat them as delinquent. We have no way of obtaining those records to release to the requester. You will know the request was processed in FIPS Lite when you view the case because you will see the FIPS Lite placeholder.

Make sure the requester of the case you are creating is the same requester that FIPS is showing as delinquent. You must view the delinquent request(s) to make this determination. To view a case, highlight the line and click view. If the delinquent requester matches your requester, treat the new request as delinquent. To get the delinquent case information (case number, dollar amount) in your acknowledgement letter and in the new case, highlight the name in the box that matches your requester and click ok.



When you complete the case create process and the new case has a control number, FIPS will notate the delinquency on the worksheet.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

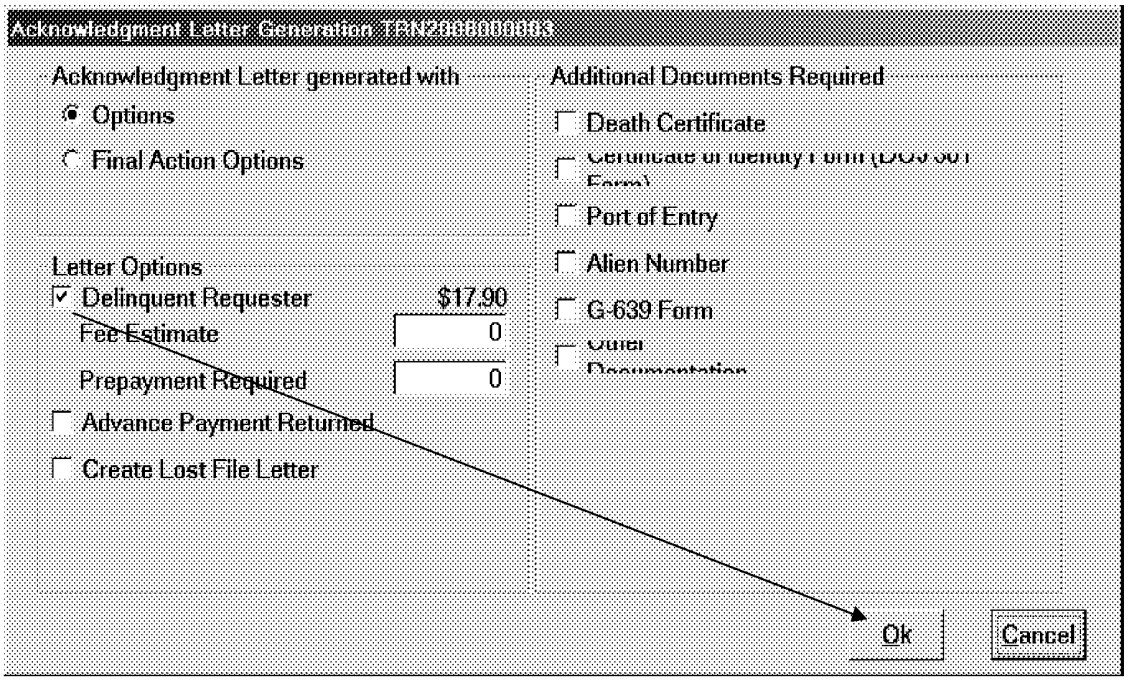


**Do not staff for responsive records until we receive payment.

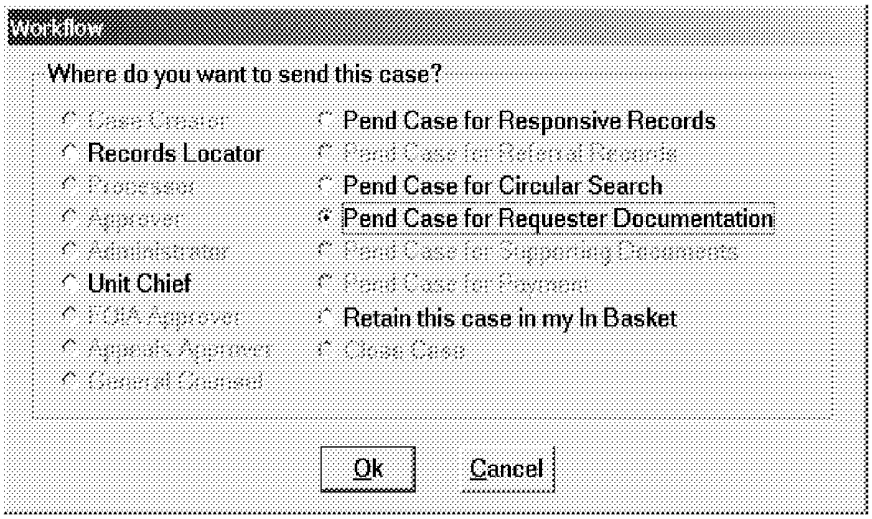
If the requester has more than one delinquent case, you will have to add up the total and modify the delinquent requester letter providing the case number for each delinquent case, the dollar amount owed for each, the total dollar amount owed, and instructions to prepare a check for the total amount made out to "U.S. Treasury."

When you click "ACK Letter" the following screen pops up. Click OK to generate the letter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



There will be no further action until the delinquency is resolved. Please pend for requester documentation.



3. Complete requester address

The requester's name and address are on Form G-639 in Section 2, "*Requester*

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Information." If there is a duly executed Form G-28 in the Request or Request Supporting Documents enter that attorney's address in the FIPS address block.

If the only evidence of an attorney is an envelope or letter, but there is not a duly executed Form G-28, create the case using the name and address of the requester in Section 2, "*Requester Information*." Do not use the address on the envelope or letterhead.

Each line of the address in FIPS can contain no more than 35 characters; this includes spaces and punctuation. When we are printing the responsive records to CD, nothing over 35 characters prints on the CD. This requires the OA clerks to print a label separately for those CD's before mailing.

Please include the suite number or apartment number on the same line as the street address. Currently FIPS will allow you to key in more than 4 lines in the address box. The issue is when the case is processed and the CD is printed, it only prints the first 4 lines. The requester's name is the first line of the address, so you have three lines left.

If the name of the requester on the Form G-639 is a company name, please review the supporting documents to try to locate the name of the attorney/representative of the company.

For example, if your request comes in on a G-639 and the name of the requester is only the name of the law firm representing the alien (for example, Wilens & Baker) you will need to look through your supporting documents to see if you can locate the name of the attorney at Wilens & Baker who is representing the alien. If you cannot locate the name of the attorney who is representing the alien, then open the case in the name of the alien, in care of the law firm. Do not use "Wilens & Baker" as the requester name.

If the requester does not provide a valid address use: 123 Main Street, Washington, DC 12345. Send an e-mail to your supervisor and assign the case to Unit Chief.

When the attorney or subject of the request provides both a physical mailing address and a P.O. Box, use the P.O. Box for the official mailing address. Please do not use both.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The address can only be four lines long, even though FIPS gives you an extra line. The requester's name is always the first line.

Enter any suite numbers or apartment numbers in the address line.

If an attorney represents the subject, the first line of the address should be the name of the law firm the attorney is affiliated with, or, Attorney at Law, or "c/o" and the law firm name or the name of the attorney.

If the address is foreign, you must check the box marked Foreign. This will change the format of the worksheet to include the Province and Country. You must complete these fields to ensure proper delivery. Before pending this case for any further action, please check the "Print to CD" box and case note that you did so.

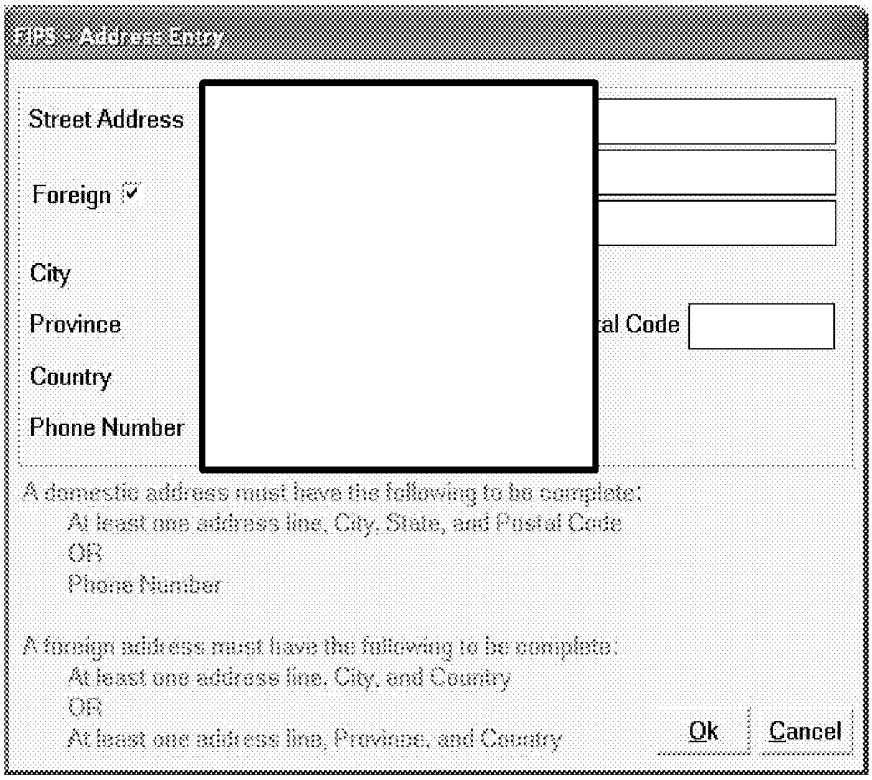
The following places are NOT foreign countries:

American Samoa
Guam
Puerto Rico
Northern Mariana Islands
Baker Island
Howland Island
Jarvis Island
Kingman Reef
Midway Islands
Navassa Island
New Mexico
Palau
Palmyra Atoll
U.S. Virgin Islands
Wake Island
Micronesia

A foreign address may be very long, and you may have to consult a supervisor to complete the address field correctly. With Mexican addresses for example, if you enter Mexico City's postal code in the postal code field, the address will print incorrectly for Mexico's postal system:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



SUBJECT INFORMATION

Under the header: "Subject Information" you will see two radio buttons – "Name" and "Subject." Most requests are for a copy of an A-file, so you will select "Name."

- Alien number, if applicable
- Alien name or
- Subject information, if the requester asks for specific documents that will not be in an A-file (i.e., vacancy announcement, investigative reports, copy of personnel file, or in some cases, a copy of a receipt file that has not been consolidated into an A-file).
- When the requester is seeking information relating to multiple individuals on one FOIA request, you must create a separate case for each individual.

1. Alien Number

In the alien number field, enter your subject's alien number, as provided on the request, as an eight-digit or nine-digit number. You should always check the A-

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

number in CIS to be sure it belongs to the correct subject. If you have a seven-digit A-number, please add a lead zero to make it an eight-digit number. FIPS will automatically enter a lead zero if you have an eight-digit number. If you have created the case and you see less than nine digits in the A-number field, please re-check (by pasting the number into CIS) to make sure you have entered the number correctly.

Please do not enter the A-number if the requester is a petitioner asking for a copy of an unconsolidated petition, as it will result in a bad staffing.

If the requester is a petitioner asking for a copy of a petition that has been consolidated into the A-file of the beneficiary, you should enter the A-number of the beneficiary, since we will staff for the beneficiary's A-file.

2. *Name or Subject?*

This portion automatically defaults to a name format. Enter the subject's name, as it appears in section 5 of Form G-639 (except in the case of a petitioner asking for a petition).

The name portion of the worksheet is the name of the alien whose file we are requesting. This is usually the name in the subject portion of the Form G-639, or in the subject line of the request letter. However, if the requester is asking for a Petition he or she filed on behalf of a beneficiary, then that document will be a separate receipt or it will be in the beneficiary's file, not the requester's file. In situations like this, the subject information would be that of the beneficiary, not the requester.

If the request is for something other than an alien file, for example, a receipt file or a vacancy announcement, then you will select the button marked "Subject" in the subject information area. This will change the format of the screen to one box labeled "Description" instead of three boxes. Delete any alien number in cases such as this. Check to see if there is an A-number when you are creating a case by "Subject" instead of "Name." If there is an A-number, delete it to avoid a bad staffing.

"Subject" is used at different times, such as:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- when there is no alien number for the subject, but there are receipt numbers
- when it is a request for a vacancy announcement
- when it is a request for a personnel file
- when it is a request relating to policies and procedures service-wide

If the alien is requesting a receipt number, enter the information in the following format:

Correct: MSC0412360000 for Juan Cardozo Martinez

Incorrect: MSC-04-123-60000 for Juan Cardozo Martinez

Incorrect: MSC0412660000 for Cardozo Martinez, Juan

Enter the receipt number with no dashes or spaces and enter the first name first and last name last, for example, "for Jane Smith," not "for Smith, Jane." This format assists the Mission Support Assistants in locating the files and in locating the cases in FIPS when the receipt files come into the facility. If you are requesting multiple receipt files from the same facility, use only one staffing sheet. See **Staffing Sheet Guide** for more guidance.

When the request is for vacancy announcements, the vacancy announcement number must be the first part of the description. See **CIS Personnel Information** for more information on handling personnel related requests. In other types of situations, put as much of the pertinent information in the description line as space will allow. You may need to modify the acknowledgement letter.

RUNNING DOC MGR (DOCUMENT MANAGER)

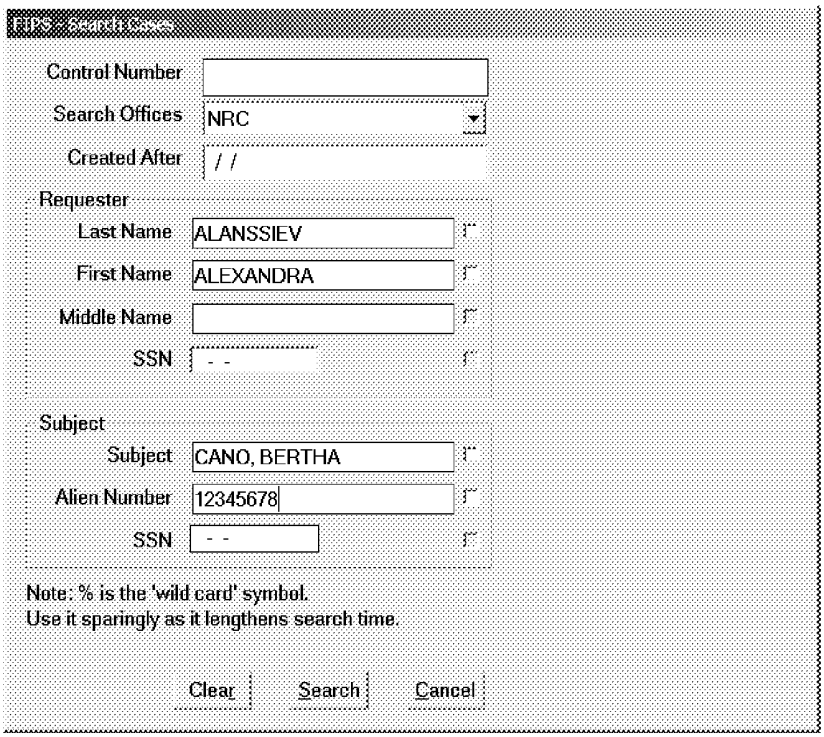
Now that you have filled out and verified the requester's name and address and checked the name and A-number of the subject, the next step is to run the "Doc Mgr." Document Manager, or Doc Mgr, the button is located in the upper left hand corner of the FIPS worksheet. This button enables you to search for cases based on different criteria in FIPS before creating the case at hand. It allows you to do a myriad of functions such as

- Create a new case
- Create a duplicate case

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Create a multiple case
- Attach CSD's to an existing case
- Attach requester documentation to a pending slot
- View an established case that matches the criteria in your current case

If the subject provided an alien number in the case you are creating, search by the alien number. If the subject did not provide an alien number, or if the request is for documents other than an alien file, the best criterion to use is the requester name. Always change "Search Offices" from "NRC" to "ALL Offices." In addition, we can avoid having duplicate cases by searching both the a-number and the subject's name.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Specify the search criterion by checking the box that corresponds with the line of information. This information carries over from what you entered on the FIPS worksheet. To perform a search, simply check the box you want used in the search and click on the "Search" button. The system then tries to match your search criteria selected to any existing cases in FIPS. For example, if you select the Alien Number field as the search criterion; FIPS will retrieve all cases created with that alien number. You could also search by the subject of record's name – and you should do so if you have any doubt, to avoid having active duplicate cases. FIPS will search only on the field or fields you select.

If the requester has provided more than one alien number and through careful research, you determine that they all relate to the subject, you must run Doc Mgr on all of the numbers, not just the one entered on the FIPS worksheet. You can change the Alien Number field on the Doc Mgr pop-up window to reflect the different alien numbers provided and conduct a search on each one.

The majority of the cases you create will be new cases. After you run Doc Mgr and you have found no matching case, the following pop-up will appear:

Select the button "New". FIPS will then generate a control number for the case. This procedure can take a few minutes to complete. Please be patient. Do not click on any other buttons while FIPS is working.

Use the Multiple Cases button when the request is for multiple individuals

FIPS will ask how many cases need to create and will then create them semi-sequentially. FIPS has the ability to create a parent case with up to 25 child cases. FIPS will automatically insert into each case a note remarking on the fact that the current case is a part of a parent/child case.

When the requester is seeking information relating to multiple individuals on one FOIA request, you must create a separate case for each individual.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

After FIPS finishes creating the new case(s), you will need to create an acknowledgement letter, request any additional information (if applicable) and staff for responsive records. Of course, nothing is ever this simple all of the time. Now you are ready to determine consent and PII.

WHAT IS CONSENT?

"Consent" for the purposes of FOIA/PA is written agreement, approval or permission for access to information in the record by the competent individual to whom the record pertains. **The case creator must review the request and supporting documents to determine if proper consent is present.**

Consent can be any of following:

- A Form G-639 bearing a notarized signature or a signature made under penalty of perjury, or
- A notarized signature of the subject, or
- A declaration under penalty of perjury signed by the subject

The notarized signature of the subject or the signature under penalty of perjury does not need to be on the G-639. If a requester has inserted the **penalty of perjury statement on ANY document**, and the subject of the file has signed the document, it is consent.

The notarized signature or signature under penalty of perjury **might** be on a:

- Separate letter, or any piece of paper *including* a G-28, but then only if the penalty of perjury statement is directly above the signature of the subject of record.
- G-639, when the subject has signed the first page and the second page does not contain the signature of the subject but has been notarized.
- DOJ-361, Certificate of Identity: we may not suggest or require that a requester use a DOJ-361, but we can accept one as consent with a signature under penalty of perjury.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A current photo ID or a G-28 signed by the subject of record is for information purposes only and is not accepted as a form of consent for any case created March 5, 2009 or later. However, you may accept a properly executed Form G-28 **without a penalty of perjury statement as consent** for any case created **on or before March 4, 2009.**

"Consent" for purposes of FOIA/PA does not include a Form G-28 with a statement made under penalty of perjury by the requesting attorney or representative "that the information I have provided on this form is true and correct." A statement made under penalty of perjury must conform to the requirements of **28 U.S.C. § 1746: Unsworn declarations under penalty of perjury**, which reads as follows:

> Wherever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath, or affidavit, in writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury, and dated, in substantially the following form:
>
> (1) If executed without the United States: "I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed on (date).
> (SIGNATURE)".
>
> (2) If executed within the United States, its territories, possessions, or commonwealths: "I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date).
> (SIGNATURE)".

If the requester is asking for records concerning an individual, and if there is only one signature and it does not fall under one of the categories above, request consent using the Track 1, Track 2 or Track 3 Ack Letter Requester Docs located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters* or the form "Requester Documentation Attachment" located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters \Requester_Docs_Attachment*. Check the first box on the document.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

After you send an acknowledgment letter requesting consent, do not staff for the file. Click on "In Basket" and Pend for requester documentation. When the requester provides consent, Records Locator will staff for the records.

Consent of parents or guardians

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. The signature of the parent/guardian must be notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors can make a request for their file themselves. They do not have to have the consent of their parent or guardian to make this request. An attorney may also represent a minor.

Third party requests

Sometimes consent is not necessary. For instance, a requester asking for a "*list of all employers in Utah who use E-Verify*" does not have to provide consent. Commercial, contract, and media requests are usually third party requests.

On the other hand, USCIS will not release personally identifying information (PII) or personally sensitive information to a third party without consent. If the requester is asking for records concerning an individual and does not provide consent, nor does it appear likely that the requester is going to get consent, we treat it as a third party request without consent. It may be obvious from the request that the requester will not be able to obtain consent from the subject of record. If you have a doubt, consult your supervisor. The supervisor may have you send for consent, call the requester to see if you can make a determination, or create the case as third party without consent. Third party requesters are entitled to any public documents that may be in the file they are seeking, as well as documents they provided in support of an application/petition. For example, if a wife is looking for a copy of her husband's file so that she may divorce him, and says in her

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

request letter that she does not know where he is or says she cannot get his consent, do not send a request back to her for her husband's consent. In a situation like this, simply staff for the file and put a case note in FIPS that it is a third party request without consent. In the above example, if she did not specifically say she cannot get his consent or that she does not know where he is, do not staff for the file. In a situation like this, send a request for consent and pend the case for requester documentation.

Deceased subjects and the 100-year rule

If the subject of a request is deceased, it is incumbent upon the requester to provide proof of death. Proof of death could be any of the following:

- Death Certificate;
- Obituary;
- Funeral Memorial; or
- Photograph of headstone

If the subject of a request is over 100 years old, it is assumed they are deceased and no proof of death is required.

Routine use, no consent required, not FOIA

The Service may disclose records from the alien files to other Federal, State and local government agencies as a normal course of operation for law enforcement purposes. Consent is not necessary for the processing of these types of requests. Some examples of these types of requests include requests relating to child support enforcement and aliens seeking public assistance.

Requests from government agencies (federal, state or local) for verification of status of aliens are routine use.

These types of requests are not a part of FOIA and should not be in FIPS. For example, you may open a request from a county public assistance agency attempting to locate a child's father who is avoiding financial responsibility. If you open a request from a state

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

or local government agency requesting information about an alien, e-mail your supervisor advising them of the situation, then close the case ER. The only exception to this rule is if there is a cover sheet with instructions to create as FOIA.

Criminal bond obligor, no consent required, not USCIS FOIA

Criminal bonds are bonds posted by individuals or bail bondsmen relating to non-immigration violations of the law. These requests are processed by Immigration and Customs Enforcement. If you open a criminal bond obligor request in case create, use the same guidance as for immigration bond obligors.

Immigration bond obligor, no consent required, not FOIA

We no longer process requests received from bond obligors. Any new requests that are scanned into FIPS as of June 11, 2009, should be closed as an ER. Please send an e-mail to NRC, FOIAOA and provide the REQ number or control number, and also include the requester's name.

OA room will mail the request to the following address.

Immigration and Customs Enforcement
Attention: Catrina Pavlik-Keenan
ICE FOIA/PA Unit
800 North Capitol Street, NW, Room 585
Washington, DC 20536-5009

What is an Immigration Bond Obligor?

Immigration bond obligors are surety companies who have posted an immigration bond (I-352) for an alien who has been taken into custody by the Service. If the alien fails to attend his or her hearing, then he or she forfeits the bond. Under the court case *Amwest v. Reno*, the surety companies, or their attorneys, are entitled to a complete copy of the alien's file to assist them in trying to locate the alien. Consent is not required for the bond obligor; however, they should provide a copy of the bond contract, Form I-352, with their FOIA request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CASE CREATE SITUATIONS/OTHER PROBLEMS

At any time during the case-create process you may encounter a quirky or unusual situation. Some not-so-usual situations follow this paragraph, but as a case creator, you will inevitably see situations you have never seen before. Case creators should seek assistance from their supervisors as a first step. If the problem cannot be resolved, the creator should send the case to the Unit Chief and send an e-mail to the supervisor for clarification. If it is not a situation that needs clarification but some type of FIPS error, send an e-mail to the FIPS Problem mailbox (NRC, FIPSPROBLEM) and CC your supervisor, or in other situations to the MSB mailbox (NRC, NRCFOIAMSB), and CC your supervisor.

Clicking on the FIPSPROBLEM link above will automatically generate an e-mail addressed to both the NRC, FIPSPROBLEM mailbox and the NRC, FOIA PROGRAM mailbox.

REQUESTS: Foreign Consulate

Immediately forward any type of correspondence, FOIA request or inquiry received from the consulate of a foreign nation to the Director's Office for handling. USCIS Headquarters is the only one authorized to correspond with foreign consulates. Please make sure it is a consulate requesting the records and not the subject of the request putting the consulate's address on the G-639 to mail the records to the consulate (for passports). If the request is from a consulate the FOIA request should be closed as an ER and an e-mail should be sent to NRC, FOIAOA mailbox (with a CC to your supervisor) with the case information. Send the case to Unit Chief. The supervisor will review and close the case. If the subject mailed the request and wrote the consulate's address on the G-639, use the subjects address from the envelope and set it up as a self request.

REQUESTS: Non-immigrant visa material

If the requester specifically asks for non-immigrant visa data and there is no record of the person in CIS or CLAIMS; do not close the request as NR. If the requester is asking a question about being a student, au pair, camp counselor, or participating in a summer work/travel program, or if the requester specifically mentions visa type F-1, F-3, J-1, M-1 or M-3, then you should refer the request to ICE, since that record will be tracked in SEVIS (Student and Exchange Visitor Information System.) An example of a "refer to ICE" type request might be: "Type of visa, visa number and legal documents allowing entry into the US. The subject was a student at the University of Nebraska."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Otherwise, redirect the requester to Department of State. An example of a "re-direct to State" type request might be for a B1/B2 visa, such as: "Type of visa, visa number and legal documents allowing entry into the US. The subject visited Disney World and Cape Canaveral and entered at Orlando International Airport."

REQUESTS: A-number only

If a requester/subject is asking for their alien number **only**, follow these steps:

- Search CIS with the information provided on the request to locate an A-number.
- If you locate an A-number, compare the information provided on the request with the information in CIS to make a positive ID.
- You must have proper consent and all of the required PII in order to proceed. If consent or any PII are missing, generate the acknowledgement letter and request the additional information.
- If proper consent is present and all of the required PII is present:
    - Open a RAFACS staffing slot only
    - Print a copy of CIS 9101 screen, attach a "Scan As" cover sheet and mark the box "Responsive Records." Take the screen print to the OA room for scanning.

Make the case a Track 1 case and pend the case for responsive records. When the responsive records are scanned in the case will move to the processing queue.

REQUESTS: Bracero Program

The Bracero Program (1942-1964) began as a temporary World War II program to fill agricultural labor shortages, and continued in one form or another for more than twenty years. Initially the program included workers from Mexico, the Virgin Islands, British West Indies, and elsewhere. After about 1945, the program was limited to agricultural workers from Mexico, and the term "bracero" refers to an imported farm worker from Mexico. "Brazo" means arm, and "bracero" means a person who works with his arms.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Begin with a thorough search of CIS. If no record is located, request a manual search. Create a Records Indexing Staffing and enter all information provided by the requester. If the manual search produces no record, generate a "NR" letter and send the case to Admin. Send an e-mail to your supervisors with the case information. The supervisor will review and close the case.

In these no record cases, the researcher's only recourse may be to search for a record of admission at the National Archives (NARA). Today NARA holds microfilm of arrivals at US-Mexico Border ports of entry from ca. 1905 to 1954 (some to 1957). A Bracero admitted in 1960 will not appear in these records due to the cut-off dates.

The requester can request a search by writing directly to NARA. In their letter, the requester should ask for a search of Mexican border arrival manifests in Record Group 85. The correspondence to NARA should contain the date and port of entry, as well as the name used at the time of entry, age at the time of entry and any other identifying information.

NATIONAL ARCHIVES AND RECORDS
ADMINSTRATION
CIVIL REFERENCE
7th AND PENNSYLVANIA AVENUE NW
WASHINGTON DC 20408

REQUESTS: Referrals and Consultations received from other agencies

As other agencies process FOIA/PA requests, they will sometimes find our agency's documents within their files. These documents will be referred to us for processing. The responsive records could be USCIS documents being referred to us for review or joint documents i.e., co-authored by the referring agency and other agencies. A transmittal memorandum advising us to respond directly to the referring agency is a consultation. A transmittal memorandum advising us to reply directly to the requester is a referral.

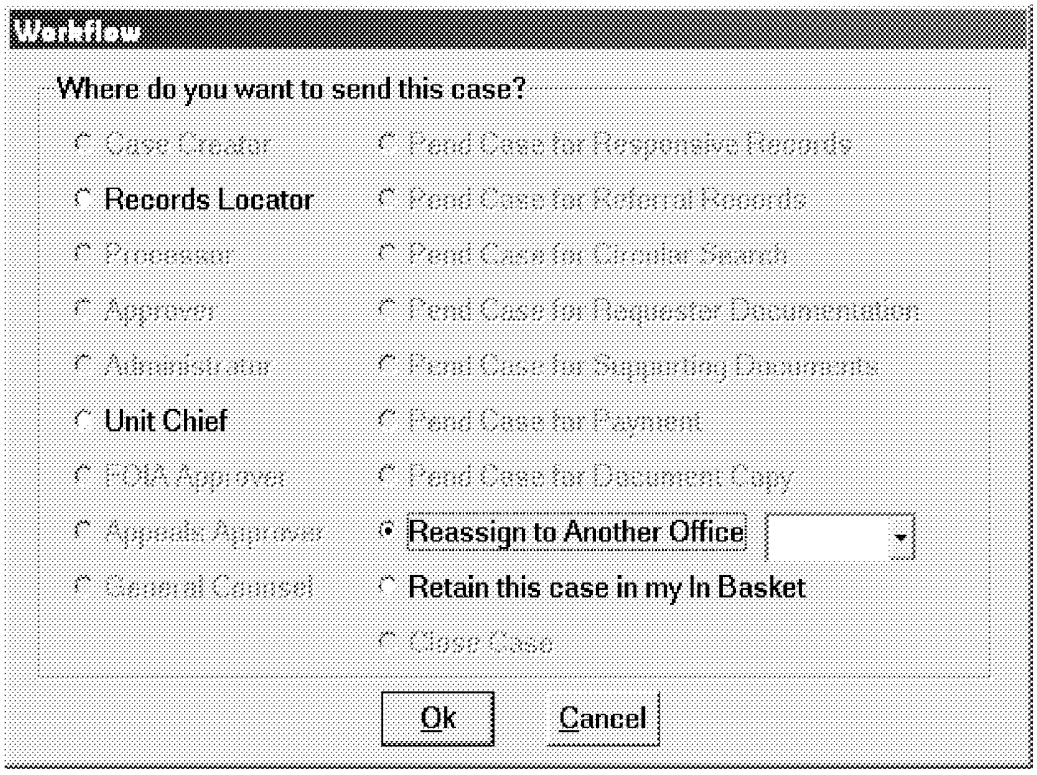
Send the case to processor. Send an e-mail to the MSB mailbox advising them that you have created the case and that it is a referral/consultation from another agency. Include the alien name and the NRC control number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REQUESTS: USCIS personnel information

- Requests that deal specifically with USCIS vacancy announcements, performance ratings and awards are scanned and handled in the HQS queue by the Special Interest Group.

- If a request for CIS Personnel Information mistakenly is scanned in the NRC queue, create the case and reassign the case to **HQS**. Create the case as a Track 2 case. Use **PER** for the category and **CIS** for the bureau, the subject information box should be changed to "subject" and the description should contain the vacancy announcement number.



Click on the "Reassign to Another Office" and use the drop down box to select the HQS office. The case will be staffed when it is re-assigned to the HQS queue. Send an e-mail to NRC, FOIASIG with the case information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REQUESTS: Official Personnel File

Close FOIA requests received from an individual for a copy of his or her Official Personnel File (OPF) as NA (not applicable). Inform the requester in the final action letter that they may access their OPF on-line at:

http://cbpnet.cbp.dhs.gov/xp/cbpnet/hrm/for_employees/info_about_you/eop_folder/eopf_logon.xml

After generating the "NA" letter in FIPS, send the case to Admin and send your supervisors an e-mail with the case details. The supervisor will review and close the case.

REQUESTS: Red Cross / Last known address

Requests from the Red Cross or from some other non-governmental organization (such as Salvation Army, etc.) looking for the last known address of an alien are normal FOIA requests. You should create the case and staff for the file as a specific document request. It is not necessary to create an acknowledgement letter if the request is from the Red Cross.

REQUESTS: Federal, state, local agencies

Governmental agencies, including county public assistance agencies, are seeking the alien to enforce court ordered support or enforcement of some other lawful responsibility. These types of requests fall under the routine use category. You should e-mail your supervisor advising him or her of the situation, then close the case ER. The only exception to this rule is if there is a cover sheet with instructions to create as FOIA.

REQUESTS: Return of original documents

Requesters will sometimes ask for the return of original documents, such as adoption decrees, birth certificates or other documents of a personal nature on a request addressed to FOIA. If the request for the return of original documents is submitted on a G-639, we are required to provide the requester with a copy of the specific documents requested. For return of original documents, the requester must submit a G-884 to the SAVE Unit of their local district office. Insert the following verbiage in the acknowledgement letter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

> In your FOIA request you have specifically asked for the return of original documents. We will provide you with a copy of these documents. In order to obtain the original documents you must submit a G-884, "Request for the Return of Original Documents" to the Save Unit of the nearest district office.

If a Form G-884 has accidentally been scanned into FIPS as a FOIA request, click final action and choose "ER" (created in error). A letter is not created by FIPS; you will need to generate a letter in Stand-Alone explaining the reason we did not accept their request as a FOIA request. Print two copies of the letter. Attach a cover sheet on one copy to be scanned in as a CSD and send the other copy to the OA room for mailing to the requester. Include a detailed case note. Send the case to Admin and send an e-mail to your supervisor with the case information. The supervisor will review and close the case.

If the alien file is located at the NRC, the Case Resolution Team at the NRC handles all G-884's (Request for Return of Original Documents). OA ordinarily forwards any requests for return of original documents to Case Resolution.

SITUATION: Untranslated Foreign Language Documents

If you find an untranslated foreign language document which may contain essential information needed to create a case, and you are unable to determine what that information is, there are individuals at the NRC available to translate. Here is the procedure:

- Insert a case note titled "Untranslated Documents" and the reference page numbers.
- Copy the text of the case note and paste it into an e-mail to NRC, NRCFOIAMSB, with a CC to your supervisor.
- Send the case to Unit Chief.
- After translation, a copy of the translated information will be scanned as CSD or case noted, and returned to you for creation and/or staffing.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

SITUATION: Congressional correspondence

When the unit receives correspondence from a member of Congress, the creator will need to create the case as a track two case, mark the category as Congressional, staff for the requested documents and send an e-mail to the MSB Mailbox advising them of the control number, congressional contact information and name of the subject of the request. Do not use the Congressional office address as the address for the FOIA request. If an address for the subject cannot be found, please contact a member of the MSB for more guidance.

SITUATION: Appeals

If an appeal is encountered in case creating, the request needs to be sent to the Unit Chief box in FIPS and an e-mail sent to the designated appeals POC advising of the appeal.

SITUATION: New requests received on the I-694

If you see a case in the creator role or the processor role that has the I-694, Notice of Appeal of Decision Under Sections 245A or 210 of the Immigration and Nationality Act (INA), scanned as the FOIA request letter, this is considered a legitimate request. The Administrative Appeals Office sends this form along with the A-file to the NRC for processing under FOIA.

Form I-694 is used to notify USCIS that an individual is appealing the denial of their permanent residence, temporary residence, or a waiver of grounds of inadmissibility.

To assist you in identifying this request, the words "NEW REQUEST" should have been written on the top of the form before scanning. Please note the request may not have a current date. The case creator should create the case, and request additional information or consent if needed. If additional information or consent is not necessary, send the case to processor.

SITUATION: Subpoena or court order

If you pull a new request that is a subpoena or court order, please close it as an ER. Send a message to NRC, FOIA PROGRAM; McDaniel, Marcia M (clicking the link generates

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

the e-mail) providing the REQ number and information indicating the request was a subpoena or court order. The NRC Program Office is currently addressing these requests. Subpoenas or court orders are a high priority. Please notify NRC, FOIA PROGRAM as soon as possible. If you aren't sure, please contact your supervisor for guidance on how to proceed.

SITUATION: Certification of record

When creating a new case, insert a case note "requester wants documents certified." The processor or approver will handle the certification process.

Certification of records is done in accordance with 8 C.F.R. § 103.7(d) and the Records Operations Handbook (ROH).

The NRC will certify certain documents from A-files as being true and correct copies. The physical file must be located at either the NRC or the FRC. Genealogy requests that were received, staffed and processed by NRC can also be certified by the NRC. The NRC will not certify copies of documents that belong to other agencies. Information will be provided to the requester on how to obtain certified copies of these documents. The NRC can also provide a certified letter giving information such as the date of entry and the status of the individual.

NRC will not certify naturalization certificates for living persons. If the individual has his or her original naturalization certificate and want or need a certified copy of it, he or she must make an INFOPASS appointment. An individual must submit an N-565, Application for Replacement Naturalization/Citizenship Document if he or she has lost or misplaced the original.

Records Services Branch, USCIS does all certificates of non-existence; these requests must be submitted in writing to the address shown below:

U.S. Citizenship and Immigration Services
ATTN: Records Service Branch
1200 First Street, NE, 2nd Floor
Washington, DC 20529-2204

SITUATION: Certification of record for dual Italian citizenship

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If we receive a request asking for a certified copy of a relative's naturalization certificate for the purpose of applying for dual Italian citizenship:

If the requester's relative is deceased, they must submit their request to the USCIS Genealogy Program. The web address for more information and instructions for submitting their request is **USCIS.gov** or;

If the requester's relative is living, please include the following paragraph in your acknowledgement letter:

This is in response to your request for a certified copy of a relative's naturalization certificate in order to apply for dual Italian citizenship. According to information obtained from the Italian Embassy in Washington, D.C., certified copies of naturalization certificates are not required for the dual citizenship application. The Italian Embassy requires the naturalization certificate copy along with our USCIS cover letter and envelope. The records that we release as part of this FOIA request will serve that purpose.

SITUATION: Record at National Archives and Records Administration (NARA)

The National Archives and Records Administration has designated alien files as permanent records for the Federal Government, ensuring their retention indefinitely. As with all permanent records of the Federal Government, ownership and physical custody of the record is transferred to NARA at a designated point and NARA becomes the custodian of the record. Once the record is transferred to NARA, anyone who wants documents out of the file will have to file his or her FOIA request directly with NARA. The "magic date" for alien files to be turned over to NARA is when the subject of the file passes 100 years of age. The NRC has begun the process of transferring the targeted files into the custody of NARA.

As a result, case creators need to pay close attention to those cases in which the subject of the file was born before 1909, particularly if the request does not meet the criteria for a genealogy case. The complete list of criteria can be found in Section 3, "Category of request" in the sub-paragraph "GEN."

For example, the requester writes in and makes the following request:

"I want the records of Joe Crab, date of birth, March 22, 1899. Mr. Crab naturalized in 1957 and died in 1969. Enclosed is proof of his death and alien number."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Mr. Crab meets one prong of the criteria for genealogy because he was born long ago; however, since he was naturalized in 1957, he does not meet the prong of having no documents in his file dated after 1951. If you are creating a case and the subject of the request is 100 years of age or older, **but** the person DOES NOT fully meet the criteria for a genealogy case, please pay special attention to NFTS. If NFTS shows that the a-number has been retired to NARA, it means we have turned the records over to NARA permanently. The requester will have to send a request to NARA. Please select FINAL ACTION OPTIONS when creating the Acknowledgement Letter, select NA and replace the normal Acknowledgement Letter with the NARA Historical Record Letter located at O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters/Historical_Record_Letter.

It may happen that USCIS has not yet transferred the file to NARA. If NFTS still shows a shelf location within NRC (or any other office), staff for the file.

SITUATION: Old records

Occasionally we will receive a request for records pre-dating our recordkeeping system. The agency maintains immigrant arrival records created since 1892; and naturalization records since 1906.

When a request is for records older than those maintained by the agency, click final action and choose the code "OR." This generates a letter to the requester explaining that the records being requested are older than those maintained by the agency. After generating the final action letter, send the case to Admin and send an e-mail to your supervisor with the case information. The supervisor will review and close the case.

REFERRAL AND REDIRECTION

Referral

The FOIA requires us not to close a case if there is information in another component of our department. For instance, the Drug Enforcement Administration and the Federal Bureau of Investigation are both components of the Department of Justice. If DEA receives a FOIA request and determines the information is with FBI, they may not close

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

the case and tell the requester to write to FBI (that is redirection). They must send the request to the FBI and advise the requester they have done so (that is referring). USCIS occasionally receives FOIA requests for non A-file records totally under the purview of another DHS component. When this occurs, we refer the FOIA request in FIPS to the correct component. The following agencies are DHS components:

Transportation Security Administration (TSA)
U.S. Customs and Border Protection (CBP)
U.S. Immigration and Customs Enforcement (ICE)
U. S. Secret Service (USSS)
Federal Emergency Management Agency (FEMA)
U.S. Coast Guard (USCG)

Select "RF" in the final action drop down menu. FIPS will automatically create two documents: A final action letter to the requester and a referral memorandum to the receiving component. It is important that the requester be told to which DHS component their request has been referred. It is DHS and USCIS policy that under **no** circumstances should a final action letter to a requester state that their FOIA request has been forwarded "to another government agency" or some other vague reference. If the FOIA request in question should have gone to another DHS component initially, then you must identify the component the request is referred to in the final action letter. You may have to edit the letter to add the required information.

Redirection

If we receive a request for records that belong to an agency outside of DHS, we close it and write a "redirect letter."(Final Action Options: RD) An example of a request to close and redirect is a petition that we discover has been forwarded to the National Visa Center for issuance of an immigrant visa. The redirect letter advises the requester to contact the different agency for the information they are seeking. If you open a request and find out the information is outside DHS, go to Acknowledgment Letter, select Final Action Options, select RD-Redirect, and prepare the letter. Send the case to Unit Chief and send an e-mail to your supervisor with the case information. The supervisor will review and close the case.

Entry/Exit Information referral to CBP

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The following applies when referring cases to CBP: CBP handles FOIA requests for entry and exit information dating back to 1982, inspection, Port of Entry (POE), requests for information relating to air and/or marine incidents, or the U.S. Border Patrol Academy, legacy Customs or legacy Inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. A FOIA request for this type of information should be referred to **CBP** at the address shown below.

U.S. Customs and Border Protection
FOIA Division
799 9th Street NW, Mint Annex
Washington, DC 20229-1177

Note: If the request is for entry/exit information and the requester/subject provided an alien number, staff for the file. If the request is for entry/exit information and the requester/subject did not provide an alien number, you must thoroughly search CIS and CLAIMS to be sure the person does not have an alien number or application. CBP has records on entry and exit information dating back to 1982, but no further back. You may modify the referral letter; any information you can provide as to what the requester is asking for will be helpful to CBP.

Border Patrol referral to CBP

If you encounter a Border Patrol Request in Case Create, refer the case to CBP. This includes Border Patrol records relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, or checkpoints.

Exception to this rule; if the requester provides an A-number or you locate an A-number through a search of the systems, please staff for the A-file.

Personnel/hiring practices/vacancy announcements

If you receive a request concerning employee records, vacancy announcements, or any personnel matter generally, please create the case as you normally would by filling in the blanks and controlling the case. After that, change the Category to PER. Do not create a staffing and do not send any correspondence to the requester. Case note that this appears to be a personnel-type FOIA request. Send an e-mail to NRC_FOIASIG and cc your

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

supervisor saying you have sent the case to Unit Chief. After that, send the case to Unit Chief.

US-VT referral to US Visit

Refer requests relating to United States Visit. The United States Visit is a Border Security Program that records biographic, biometric and travel information for all foreign visitors to the United States. The system screens all crewmembers and passengers that travel to the United States by air, sea or land. United States Citizens are not in the system.

If the requester is asking for both a copy of the alien file and for entry and exit information, you will staff for the file. See Entry/Exit CBP information above.

PII REQUIREMENTS TO STAFF FOR AN A FILE

Before creating any letter or staff for an A file, please verify, at a minimum, these four elements of Personally Identifiable Information:

1. A-number or Receipt Number
2. One parent name
3. Date of birth
4. Country of birth

Next, check the CIS 9101 (ID # Search/Display) screen to match the provided information. If all elements match, please staff for the A file. There is no need to request any additional information.

Sending for additional documentation:

If the requester did not provide any of the four elements listed above, request the additional PII with your Acknowledgement Letter. The procedure for creating an acknowledgment letter requesting additional information is in the section of this handbook entitled "ACKNOWLEDGMENT LETTERS." After you create the letter requesting additional documentation, do not staff for a file. Click on In Basket and Pend for Requester Documentation. After we receive a response from the requester, a person

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

working in Records Locator will staff for the file. The processor will use the requested information to verify the release of the correct records.

Note: if the requester marks "unknown," "none" or "N/A" for any element of the above PII, please do not request this information as part of the Acknowledgement Letter.

If the PII given does not match CIS and you have not been able to find a record after researching the CIS 9102 ("Sounds Like") or 9106 ("Sounds Like" Name, with DOB); and 9103 (Exact Name) screens; please scan the screen prints in as CSDs, draft the NR letter and forward to Unit Chief.

Closing a case as No Record:

When closing a case as a NR (No Record), ensure that you have done the required system searches to support your decision. If there is wording on the request that would indicate the subject was detained, stopped, arrested or sent back across the border and a thorough system search yielded no information, you should refer the request to CBP. CBP will possibly have a record responsive to their request. Your search should include CIS and CLAIMS. Consult the sections of this manual entitled "Central Index System" and "Computer Linked Application Information Management System" for more information regarding the systems.
When conducting no record research, check the following screens in CIS (Central Index System):

9103 Exact Name
9104 AKA (Alias) Name
9106 Sounds-Like Name with DOB

Determining to staff based on best information available:

If you determine that the requester has provided all the PII possible after performing the CIS 9102 or 9106 and 9103 screen searches shown above, and there is only one person in the CIS 9101 screen with the same information, please staff for the file. However, prepare a case note explaining why you staffed for the file.

Social Security Number

USCIS does not use Social Security numbers in the Freedom of Information/Privacy Act requests. Even if the alien disclosed his or her SSN in the request, do not enter that

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

number on the FIPS worksheet. We will not request the Social Security number when requesting additional documentation.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

STAFFING FOR THE RESPONSIVE RECORDS

After the acknowledgement letter is created, if all required information is present, the next step is to staff for the records that are responsive to the request.

How do you determine what records are responsive to the request? First, you have to read the request. Typically, the requester will ask for a complete copy of an alien file and they will provide an alien number. If this is the situation, you must verify in CIS that this alien number belongs to the subject and that the File Control Office (FCO) is an office the NRC processes.

There is a staffing guide/RPC reference sheet available on the FOIA Operations intranet page to use for staffing.

If the requester is only seeking specific documents, please make a case note in FIPS detailing what those documents are. You will also be mentioning those specific documents in your acknowledgment letter to the requester.

The Service Centers (except MSC/NBC) scan the responsive records into FIPS when they are the FCO for that file. In these instances, the creator will list on the staffing sheet the exact documents being requested. The Service Center will then locate these documents within the file and scan only the requested documents. Please see the staffing guide for more instructions on staffing for these types of Service Center files.

If the requester did not provide an alien number or receipt number but did provide enough information to conduct a thorough search, you should search CIS and CLAIMS and try to determine the subject's alien number or receipt number. If the requester did not provide enough information to conduct a thorough search, then you will have to ask the requester for more information.

We do not staff for "S" (substitute) or "W" (working) files unless instructed to by a supervisor/lead. After the creator has staffed for the appropriate files, the next and final step to case creation is to pend the case for the responsive records.

Please mark all cases created using the FOIA Special Interest Group staffing sheet with the category "SIG." This will allow a member of Special Interest Group to review and identify cases for their reporting purposes.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the file is located at COW, with the Responsible Party Code (RPC) of RK, please insert a case note after you have created the case. The title of the case note should read "File is at RK." Send the case to Unit Chief. Send your supervisor an e-mail with the control number of the case and that the file is located at COW with an RPC of RK.

If you see an RPC of **"ZW"** in NFTS; that indicates the file is classified. Staff the file to the current FCO. If you see an RPC code ZW0004; that indicates the file is here at the NRC in the safe and you should staff: FOIA Safe.

If you pull a case that has a FOIA Safe staffing you should **NEVER** cancel the staffing sheet. Repend the case for 180 days, go to In Basket and Pend the case for responsive records.

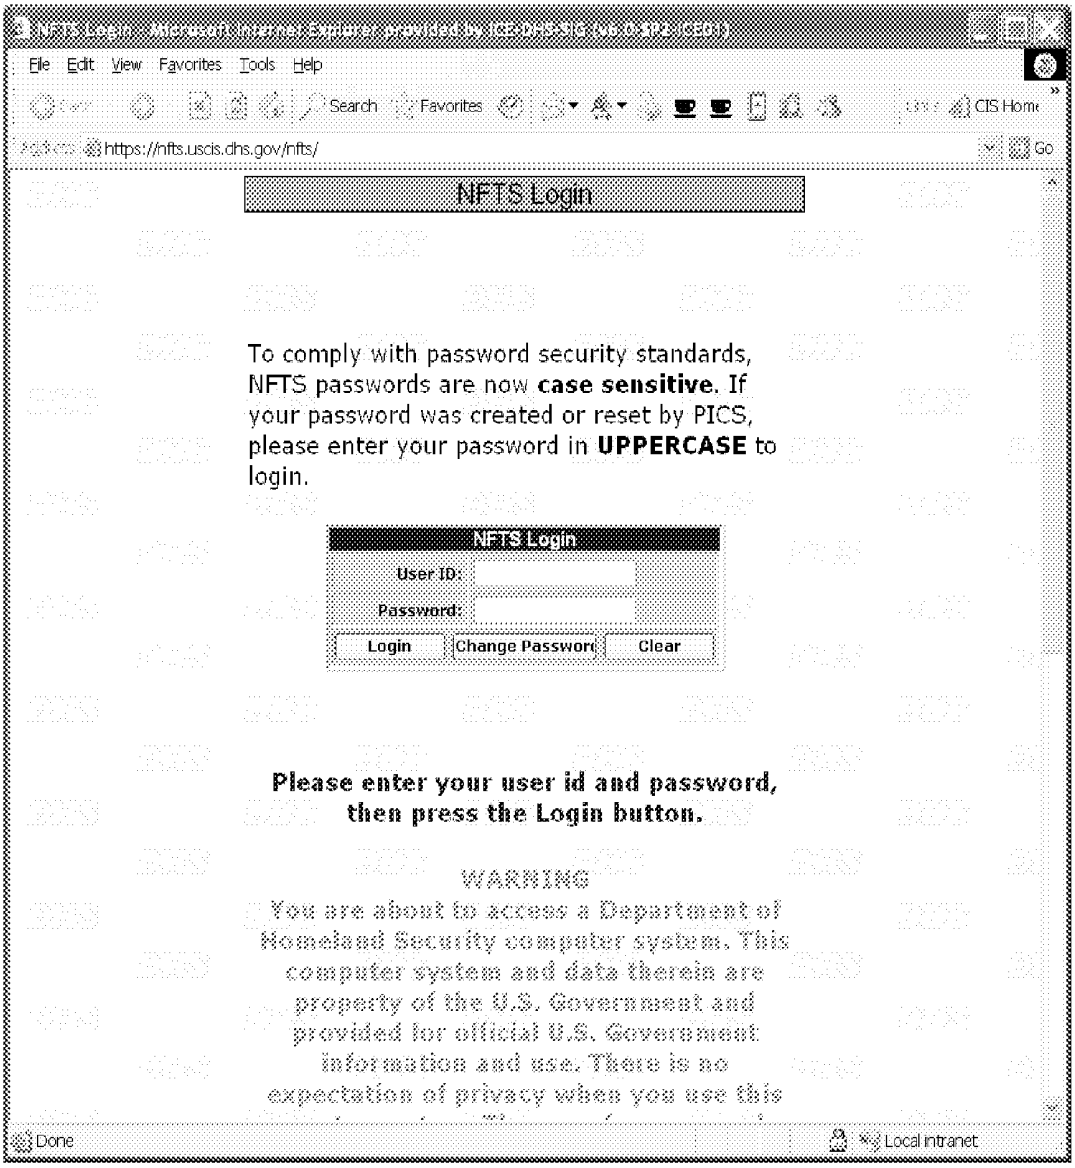
STAFFING BY ALIEN NUMBER

One A-number provided on the request (with example staffing)

If an A-number is provided on the request and CIS confirms that it belongs to the alien, ensure you have all the other required elements (DOB, COB, DOE, POE and parents' names) to complete the case create. If any of the required elements are missing, request the additional information when sending the Acknowledgment Letter. The section that follows is a systematic example of staffing by A-number when the requester has provided one.

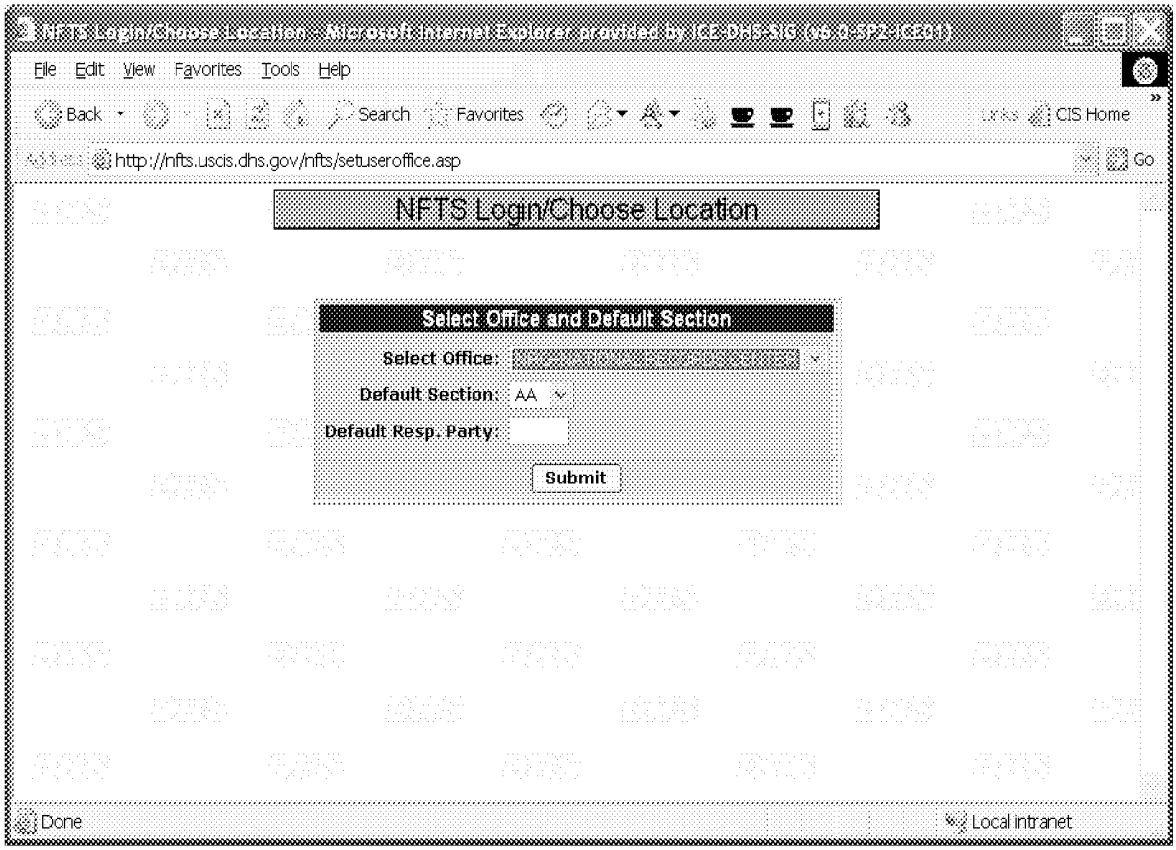
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. Open NFTS



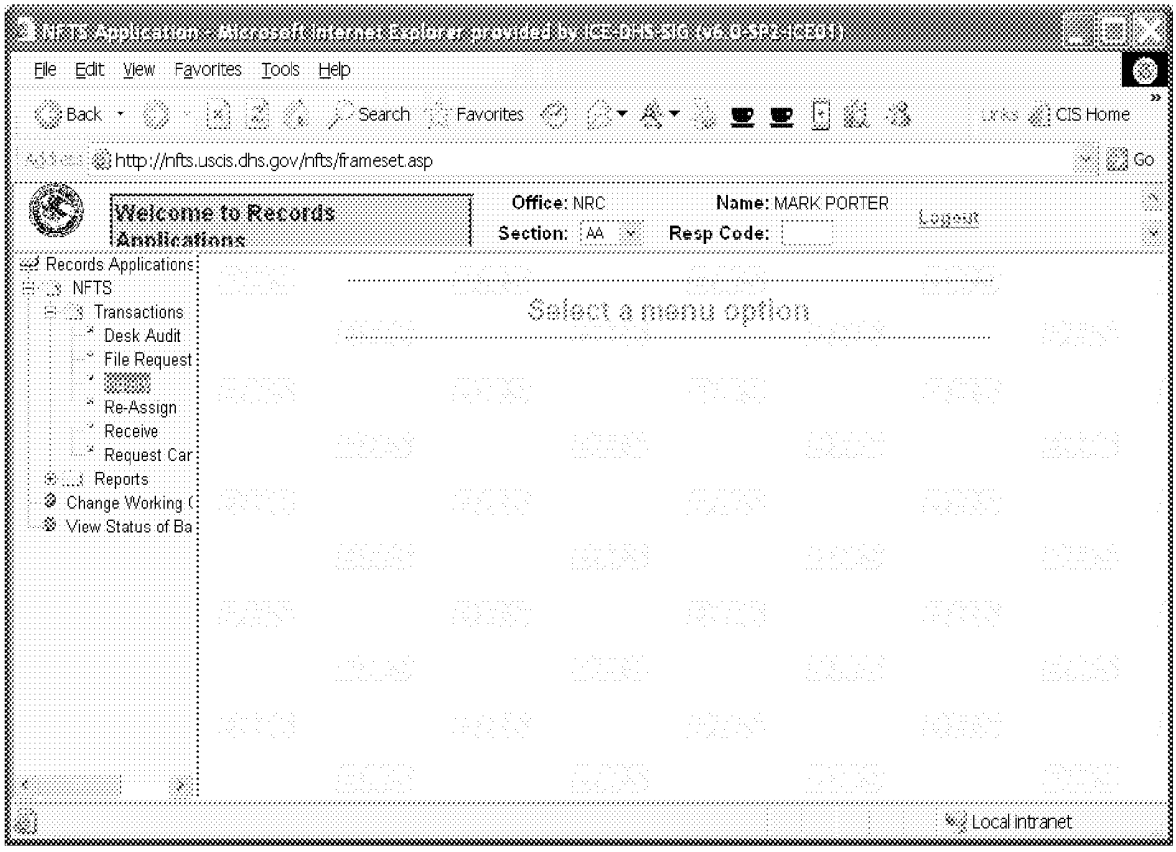
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. Submit your location



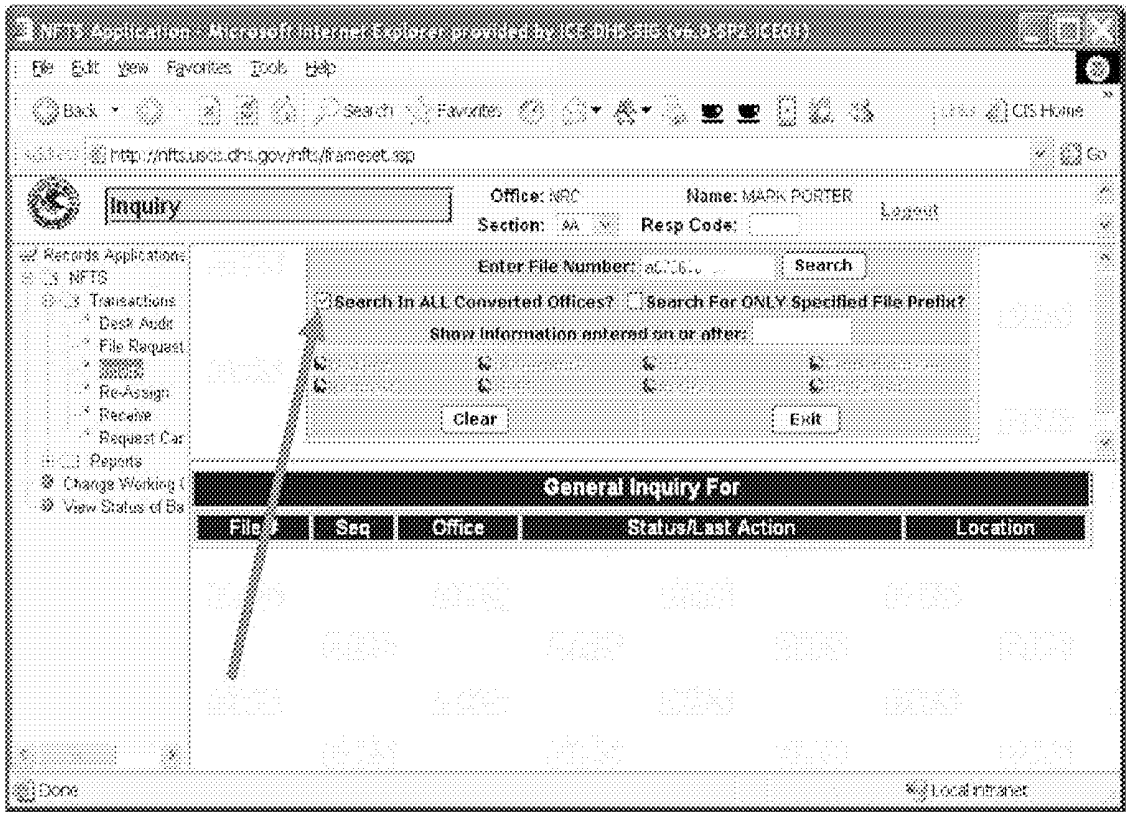
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

3. Select "Inquiry"



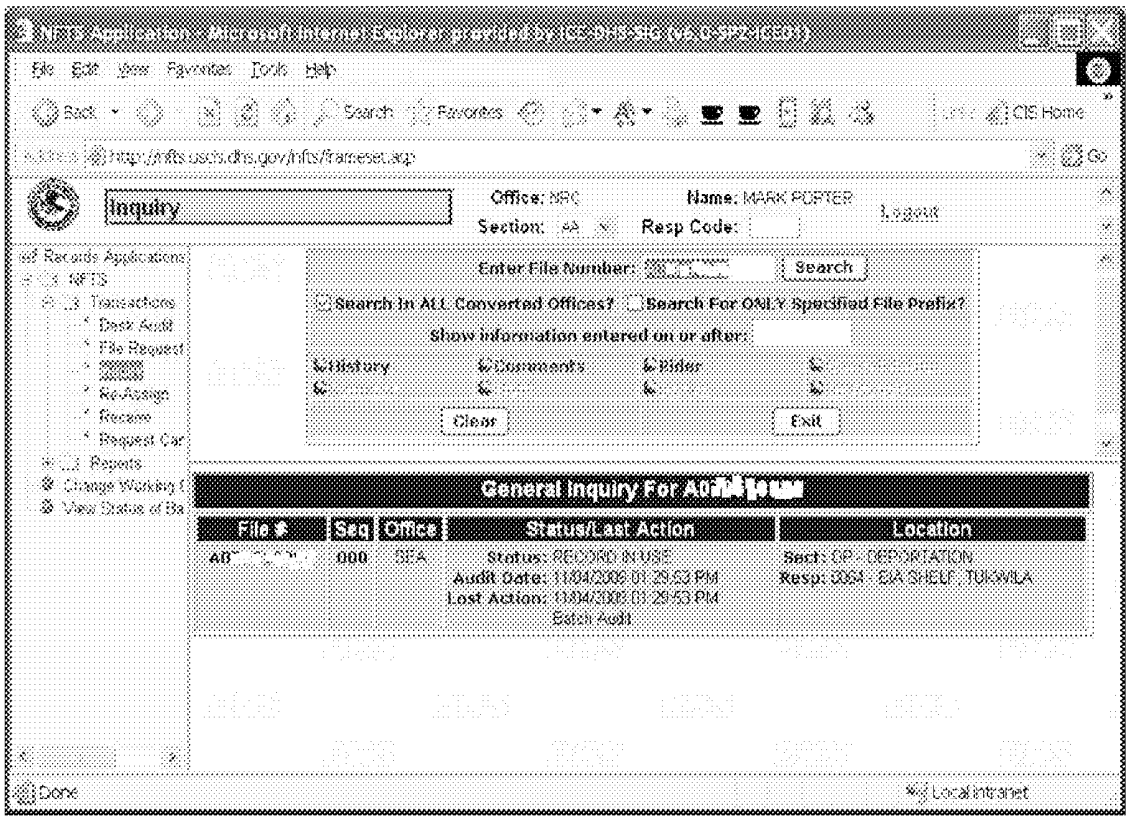
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. Select "ALL Converted Offices" and enter "A" or a "+" then enter the A-number. Preferably, paste the copied number from CIS so you are sure you are asking for the correct file.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5. The search result provides several pieces of information. First, we can verify from CIS that the File Control Office (FCO) is Seattle. The Responsible Party Code (RPC) is DP0064, and it tells us that DP means Deportation. Do you see the four boxes above the "Exit" button? Those are "Rider," "Consolidation," "Retire," and "In Transit." If any one of those is "grayed out," it means there is no information there. If one is "blued in," it means there is information and we should look at it.



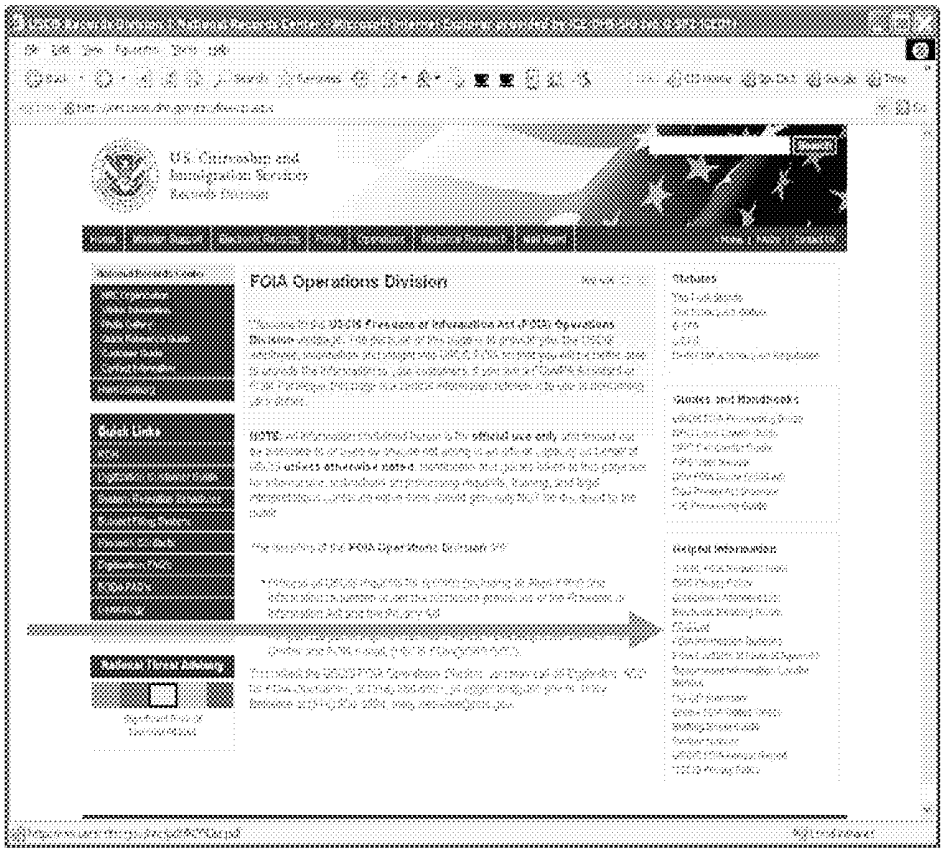
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6. "Blued in" information

- If "Retire" had been blued in, it would have been important. We would have used that inquiry screen to staff from the FRC.
- If "In Transit" had been blued in, it would have been important. We would have staffed to the receiving FCO.
- If "Consolidation" had been blued in, it would have been important. We would have checked to make sure our file is the "survivor" and not the consolidated file.
- "Rider" could be important to the case processor, but it has nothing to do with how we staff for this file.

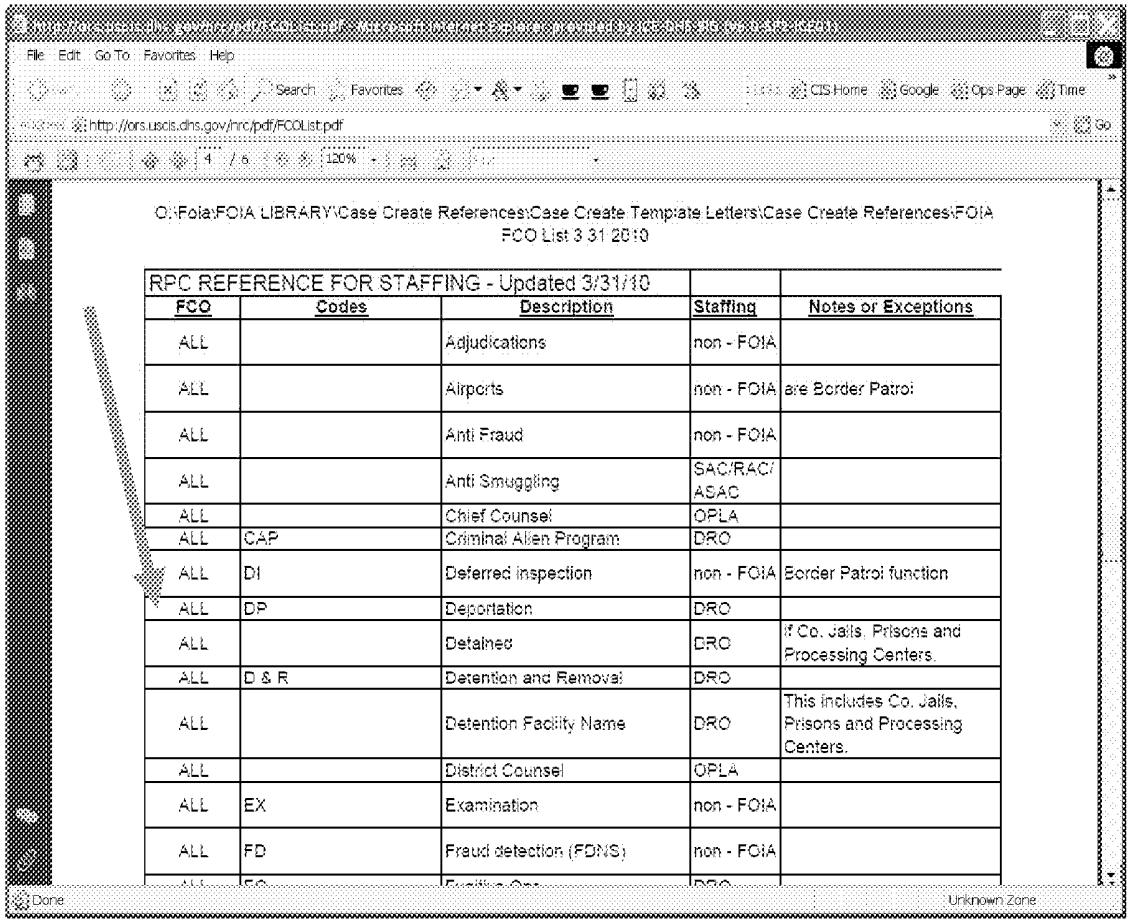
7. The FOIA Operations Division Intranet Page

Now, an RPC beginning with "DP" is easy because NFTS shows right beside it that it means "Deportation." Sometimes an RPC prefix can be important and it's not obvious right away. If that's the situation, we need to look at the FCO List, which also has the RPC Reference Guide.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8. The RPC Reference Guide says that no matter what the FCO is, if the RPC starts with DP, we staff to DRO. If you don't already know this, SAC, RAC, ASAC, DRO and OPLA are all ICE functions. That's important for staffing.



O:\Fola\FOIA LIBRARY\Case Create References\Case Create Template Letters\Case Create References\FOIA FCO List 3 31 2010

RPC REFERENCE FOR STAFFING - Updated 3/31/10				
FCO	Codes	Description	Staffing	Notes or Exceptions

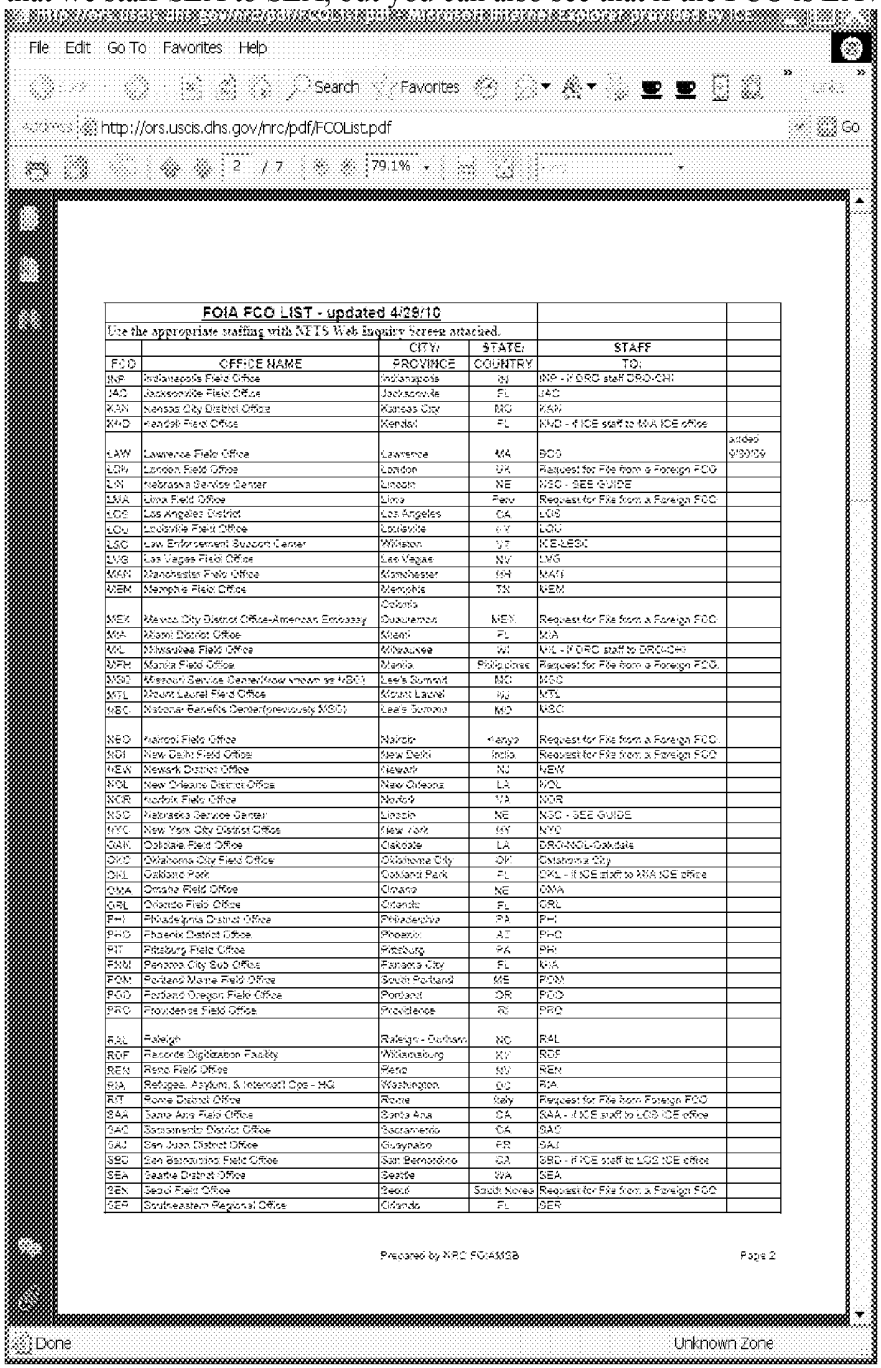
This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

9. The FCO List

From NFTS we know that the FCO is Seattle. We should check to be sure that if the FCO is SEA that we staff to SEA. It's not always intuitive. For example, you can see that we staff SEA to SEA, but you can also see that if the FCO is LAW we staff to BOS.



FOIA FCO LIST - updated 4/28/10

Use the appropriate staffing with NFTS Web Inquiry screen attached.

FCO	OFFICE NAME	CITY: PROVINCE	STATE: COUNTRY	STAFF TO:	
INP	Indianapolis Field Office	Indianapolis	IN	INP - If DRO staff DRO-CHI

Prepared by NRC FOIA/PSB Page 2

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

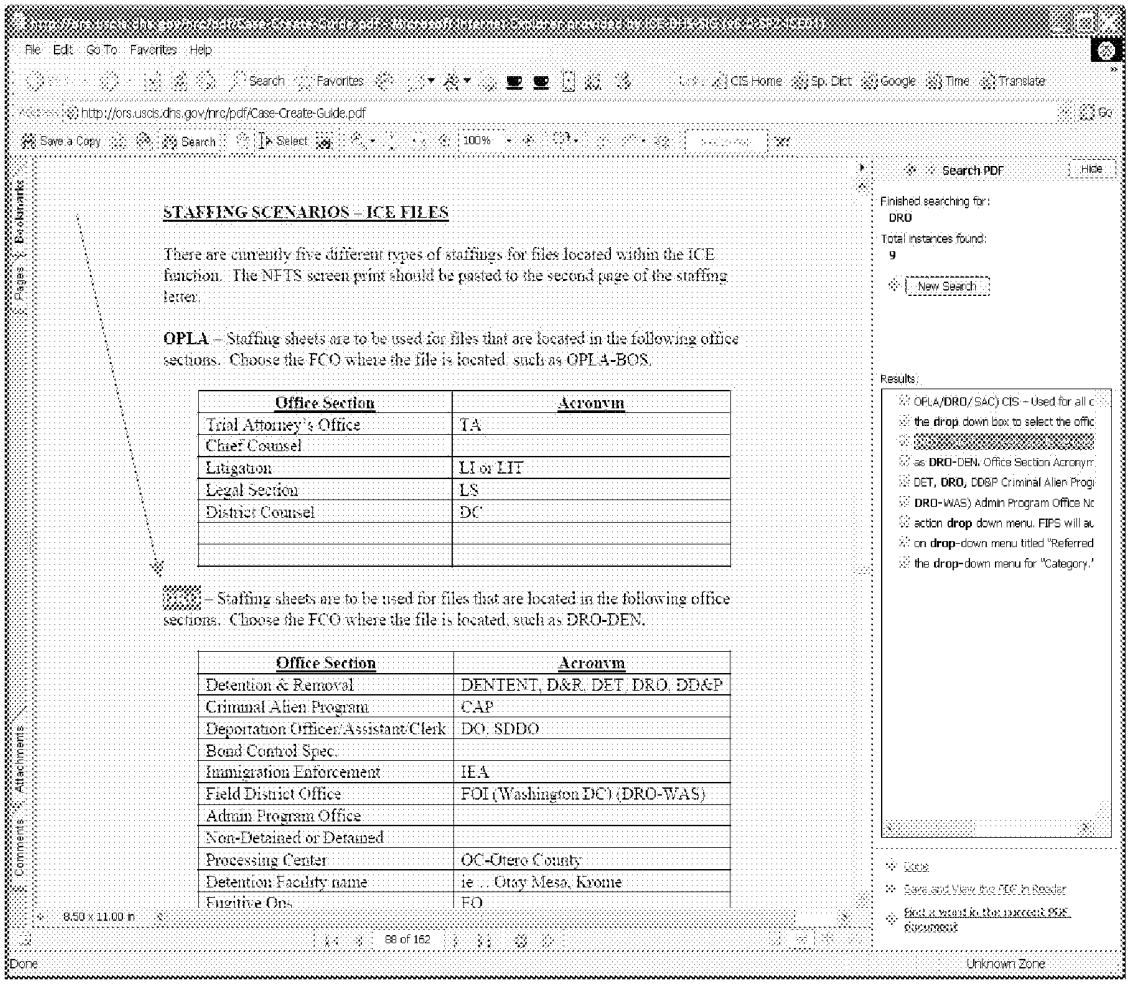
10. The FOIA/PA Assistant's Guide

We should look in the FOIA/PA Assistant's Guide to see if there is more information about staffing to DRO.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

11. Figuring out a Staffing Scenario

The Guide confirms what we thought. If we staff to DRO, then we choose the FCO where the file is located. We're going to look for DRO-SEA. Note that the quickest way for me to find the information is by searching "DRO." I could have also gone to the table of contents and looked under Staffing Scenarios.



STAFFING SCENARIOS – ICE FILES

There are currently five different types of staffings for files located within the ICE function. The NFTS screen print should be pasted to the second page of the staffing letter.

OPLA – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	TA
Chief Counsel	
Litigation	LI or LIT
Legal Section	LS
District Counsel	DC

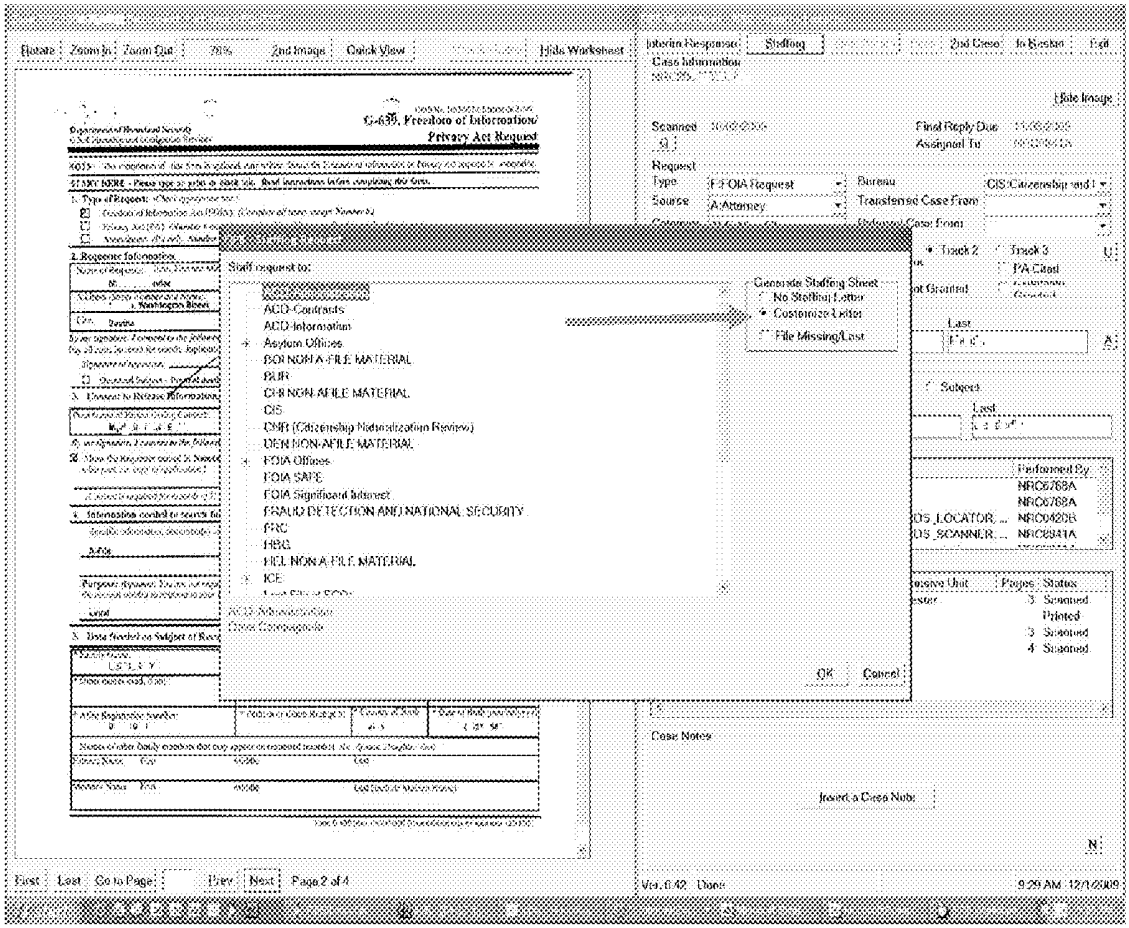
– Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	DENTENT, D&R, DET, DRO, DD&P
Criminal Alien Program	CAP
Deportation Officer/Assistant/Clerk	DO, SDDO
Bond Control Spec.	
Immigration Enforcement	IEA
Field District Office	FOI (Washington DC) (DRO-WAS)
Admin Program Office	
Non-Detained or Detained	
Processing Center	OC-Otero County
Detention Facility name	ie .. Otay Mesa, Krome
Fugitive Ops	FO

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12. Generating the staffing sheet

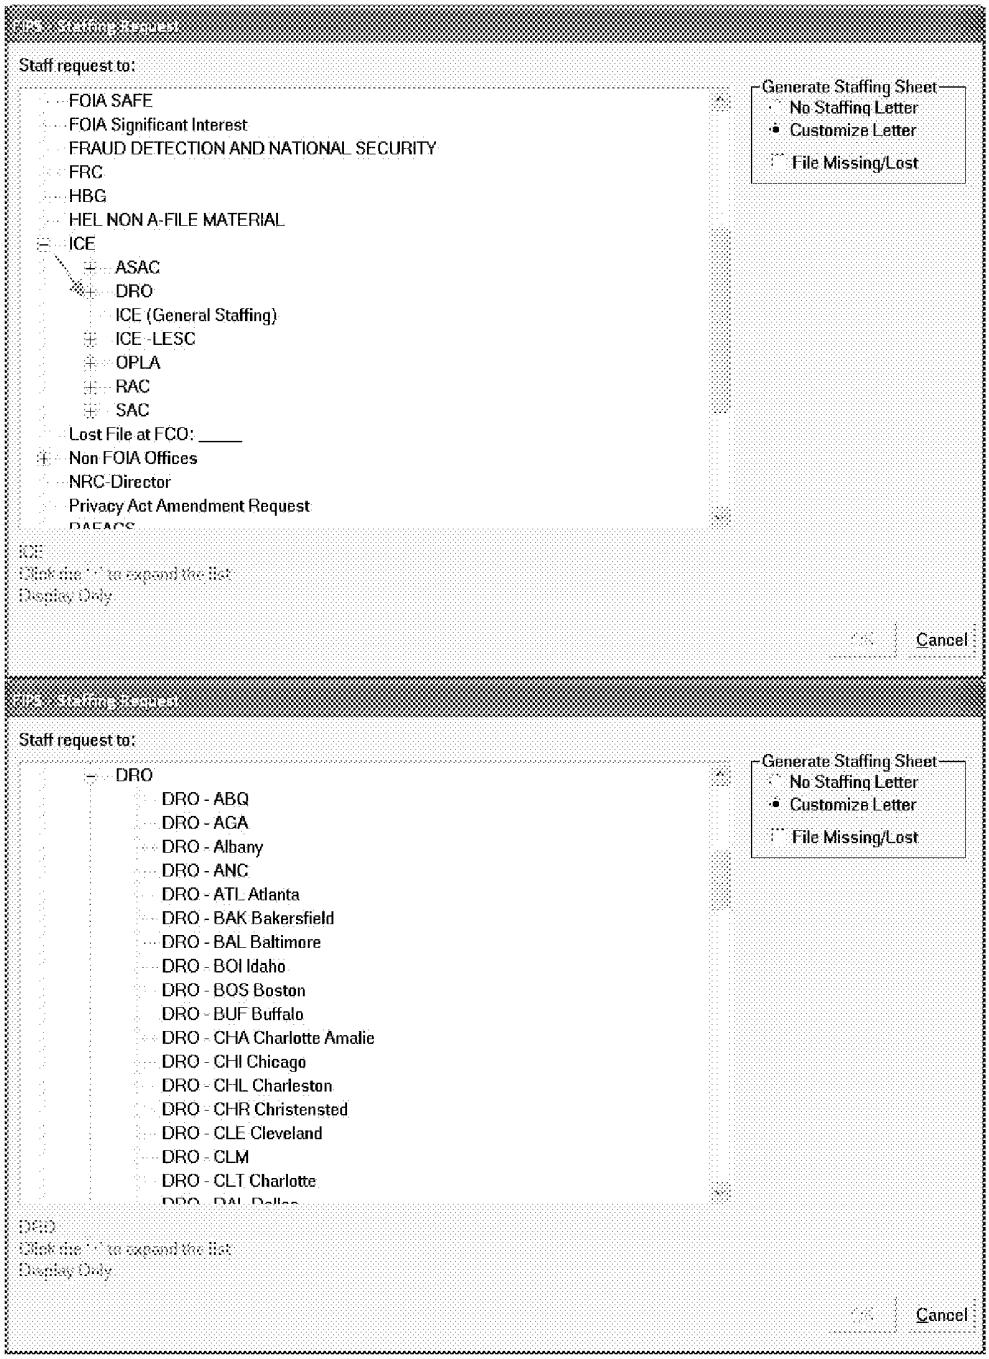
After we click on "Staffing" we get a "FIPS – Staffing Request" dialog box. Make sure the button marked "Customize Letter" is selected. The file is not missing or lost, so we won't check that box. We will scroll down and click the + beside ICE to expand the ICE list.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

13. FIPS – Staffing Request dialog box

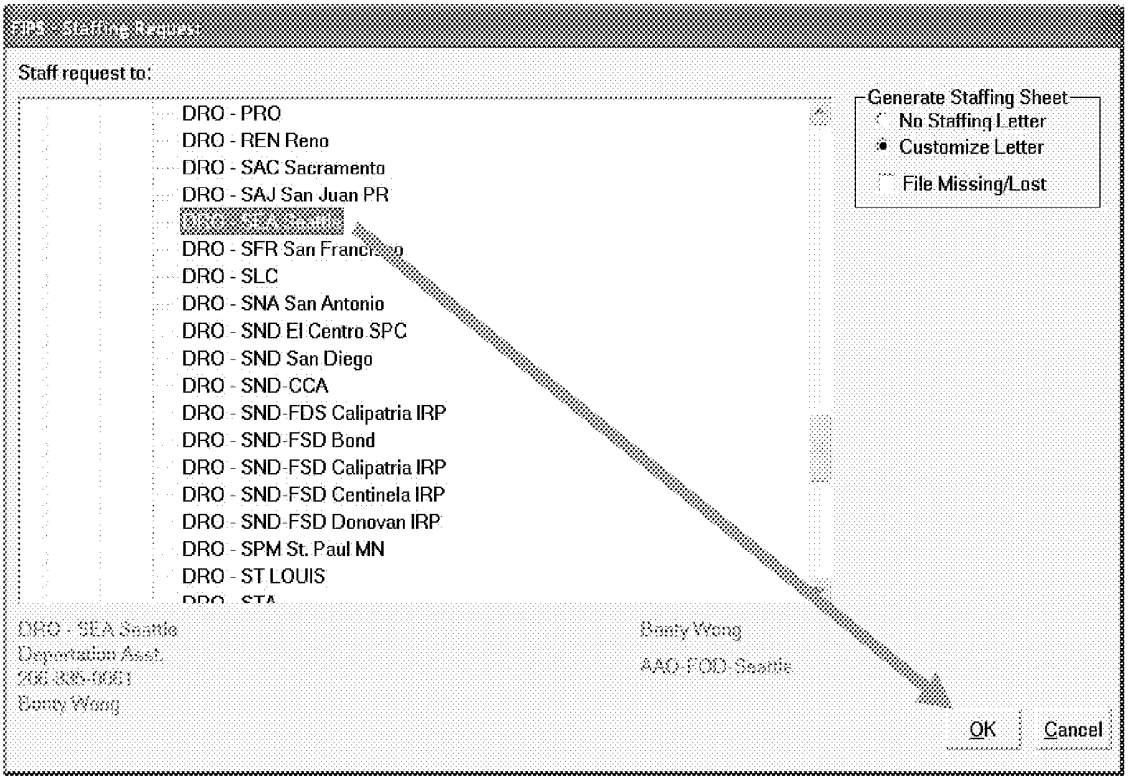
After we expand the ICE list, we have to expand the DRO list:



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

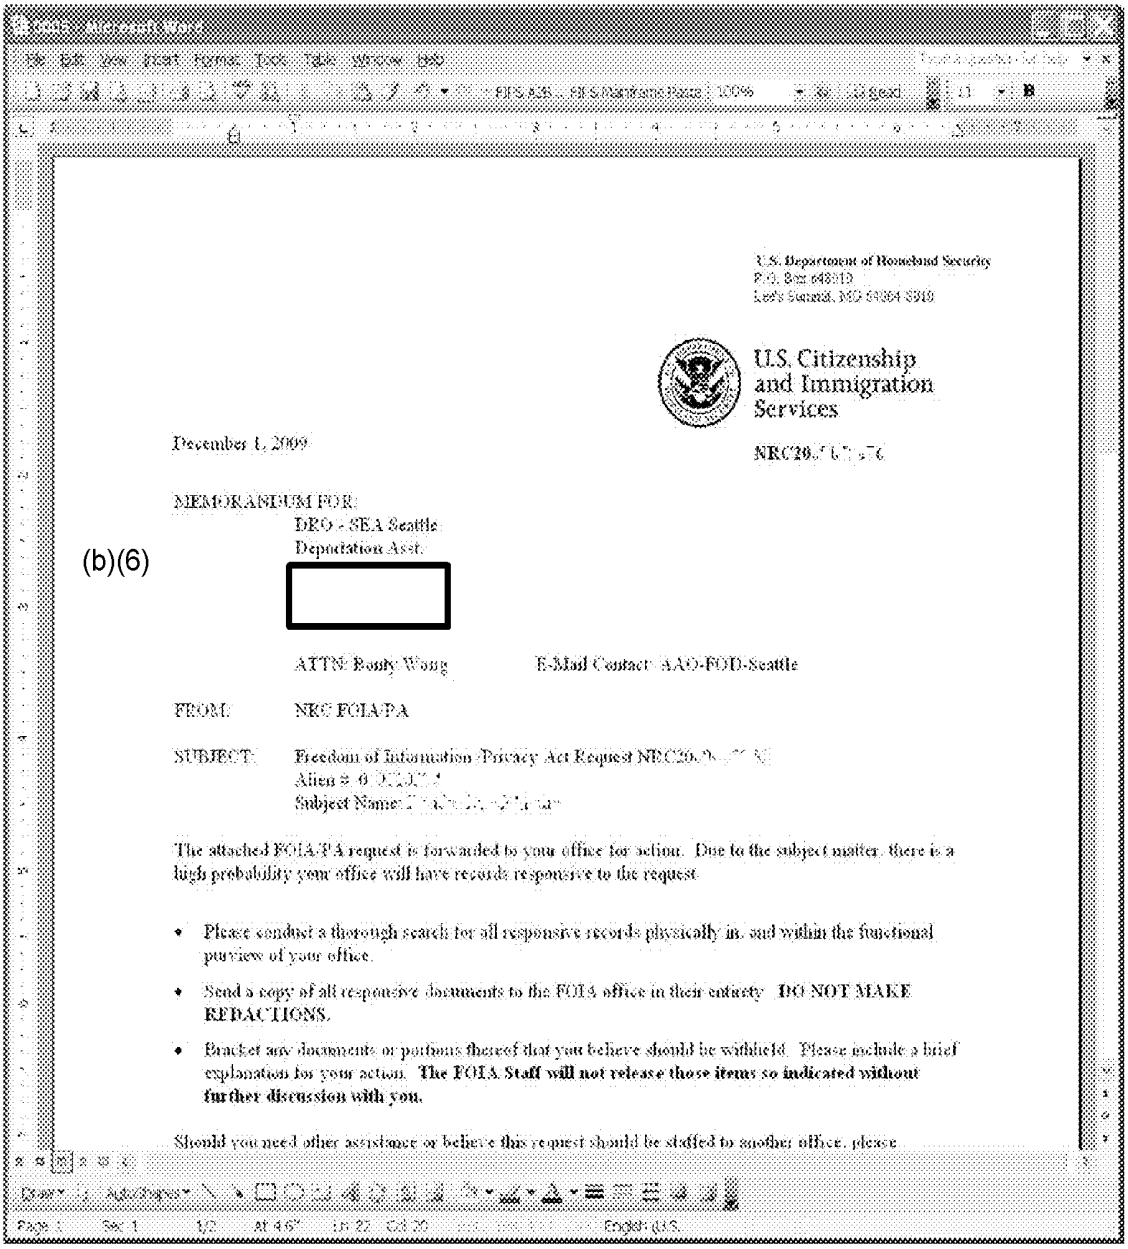
14. Creating the customized staffing letter

Next, we will scroll down the DRO list and look for DRO-SEA. Once we get there, we click on it and it turns blue when it is selected. After that, we click OK.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

As soon as I clicked OK, FIPS generated a staffing letter for me.



U.S. Department of Homeland Security
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 1, 2009

NRC20-[illegible]

MEMORANDUM FOR:
DRO - SEA Seattle
Deportation Asst.

(b)(6) [redacted]

ATTN: Rosely Wong E-Mail Contact: AAO-FOD-Seattle

FROM: NRC FOIA/PA

SUBJECT: Freedom of Information /Privacy Act Request NRC20-[illegible]
Alien #: 0[illegible]
Subject Name: [illegible]

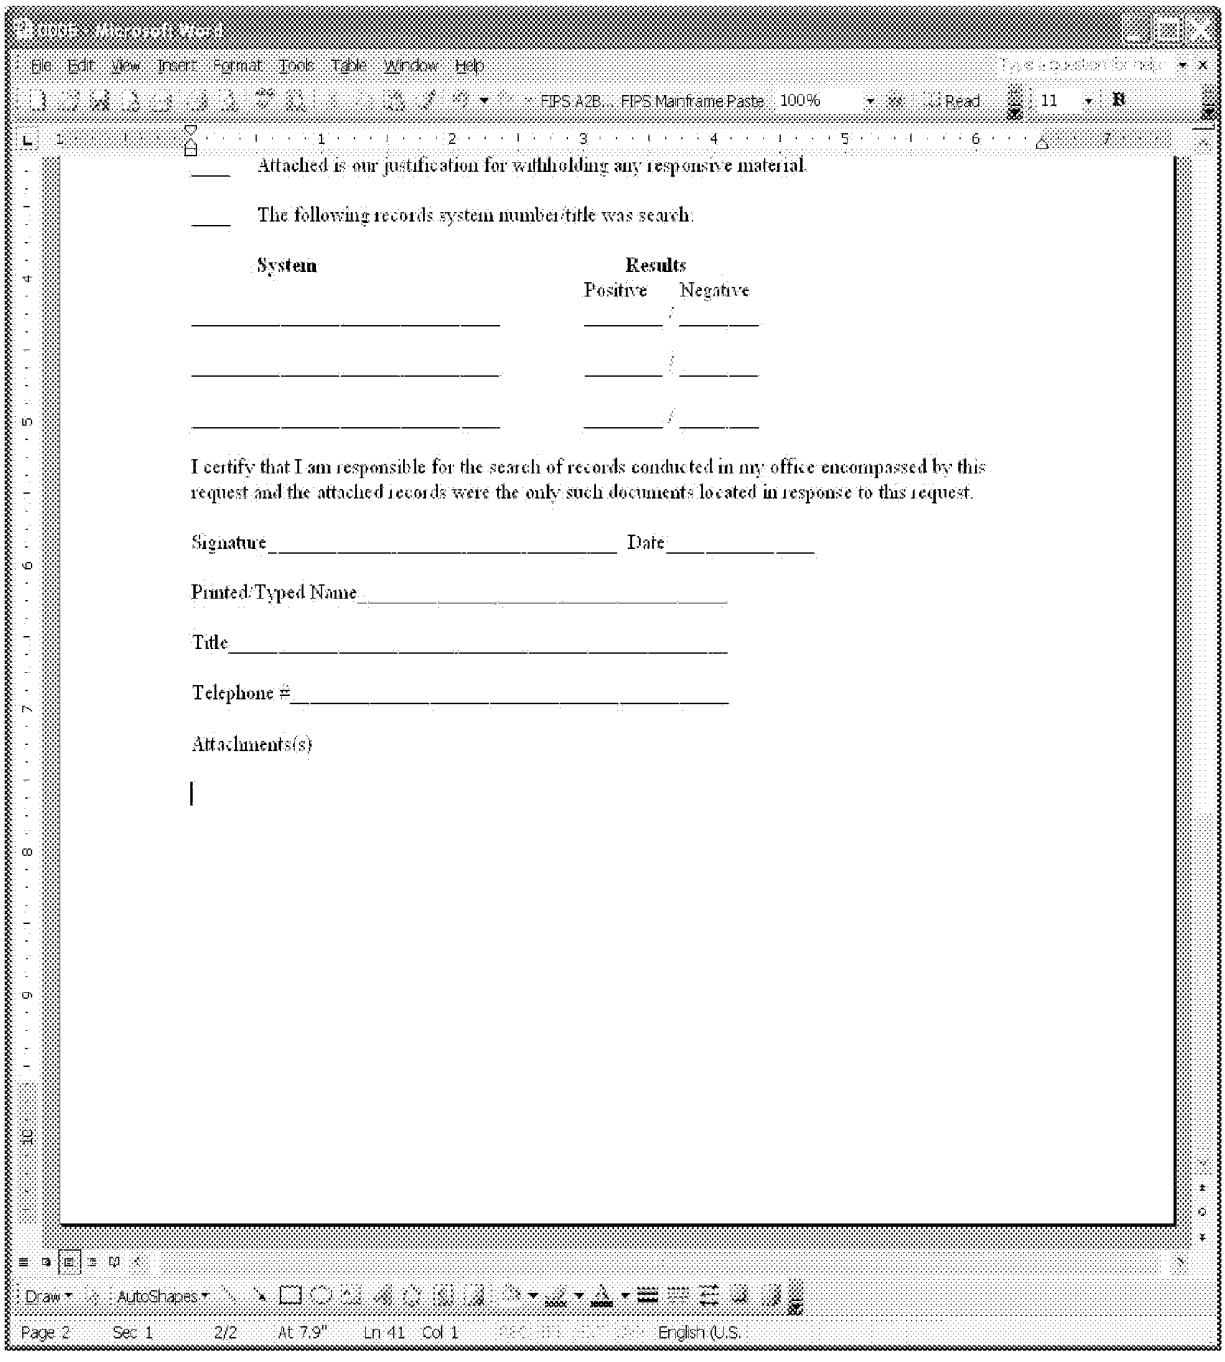
The attached FOIA/PA request is forwarded to your office for action. Due to the subject matter, there is a high probability your office will have records responsive to the request.

- Please conduct a thorough search for all responsive records physically in, and within the functional purview of your office.
- Send a copy of all responsive documents to the FOIA office in their entirety. **DO NOT MAKE REDACTIONS.**
- Bracket any documents or portions thereof that you believe should be withheld. Please include a brief explanation for your action. **The FOIA Staff will not release those items so indicated without further discussion with you.**

Should you need other assistance or believe this request should be staffed to another office, please

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

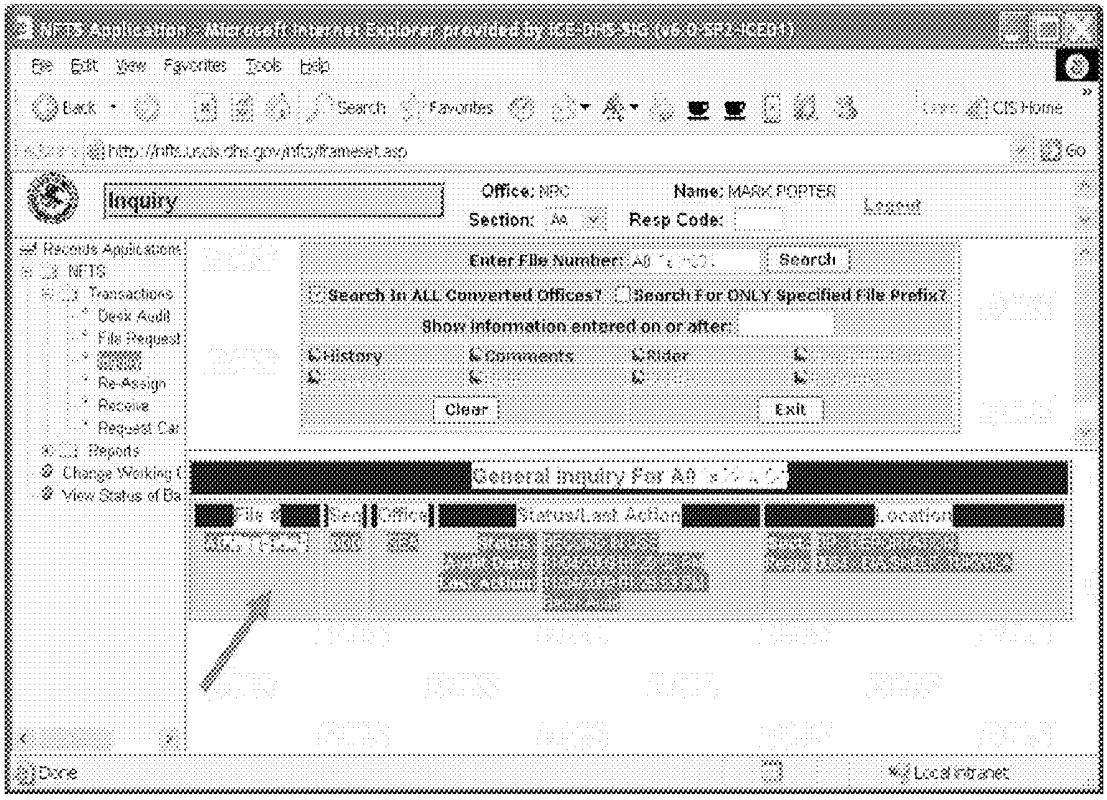
Go to the end of the letter and position your blinking cursor below the word "Attachments." Next, we go back to NFTS and copy the location information.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

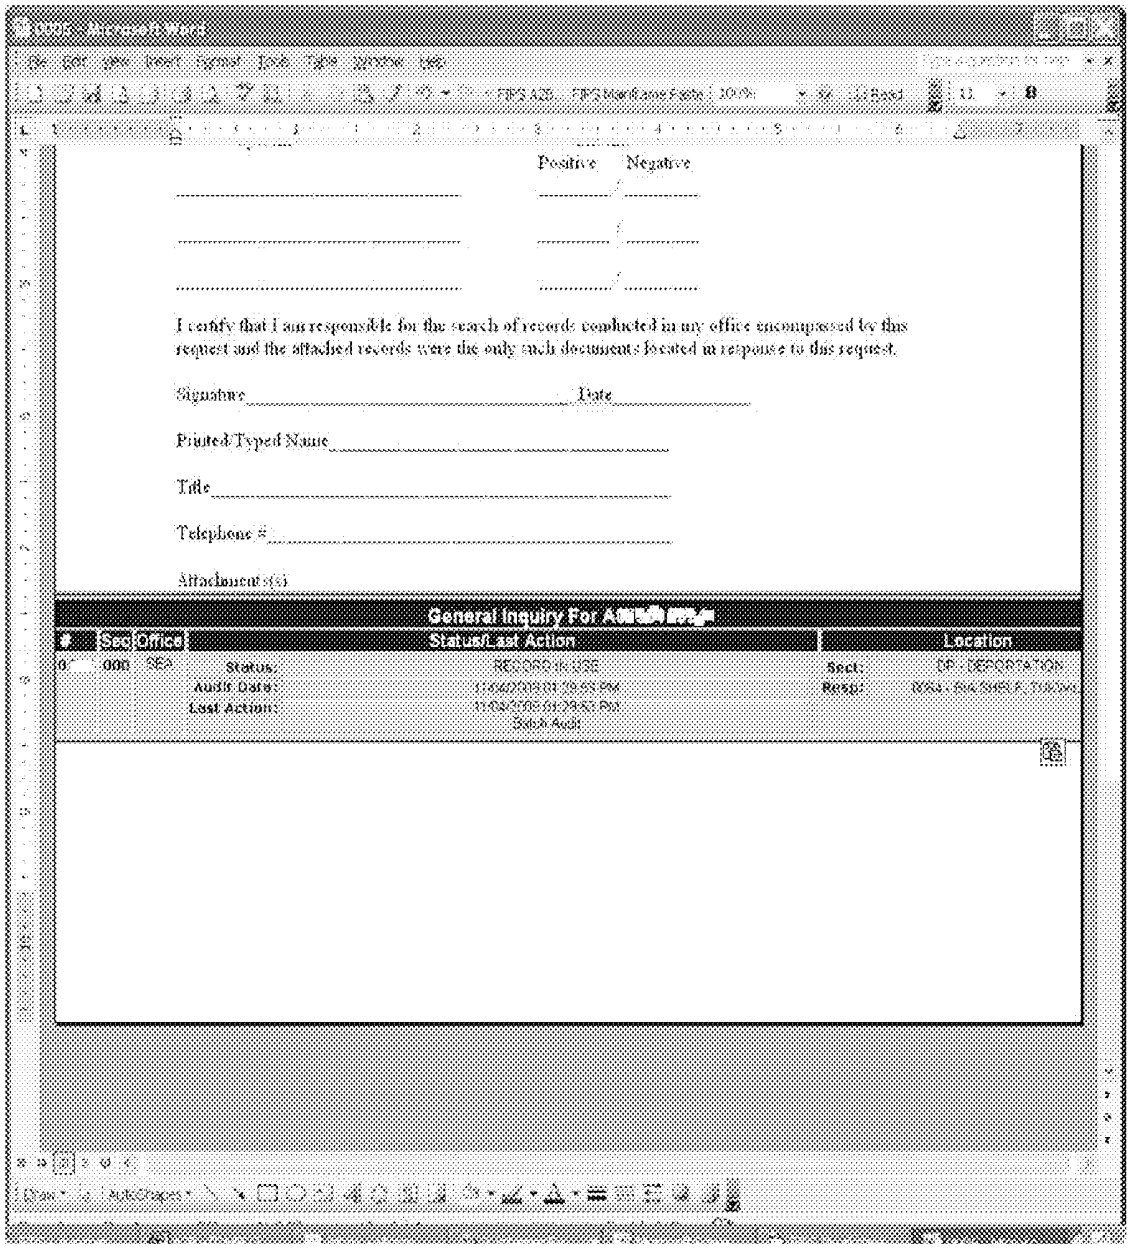
15. Putting the staffing information in the staffing letter

Right-click somewhere in the gray area below "General Inquiry." You will get a drop-down dialog box. Click on "Select All." Right-click again and select "Copy." Now we will paste the information into the staffing letter.



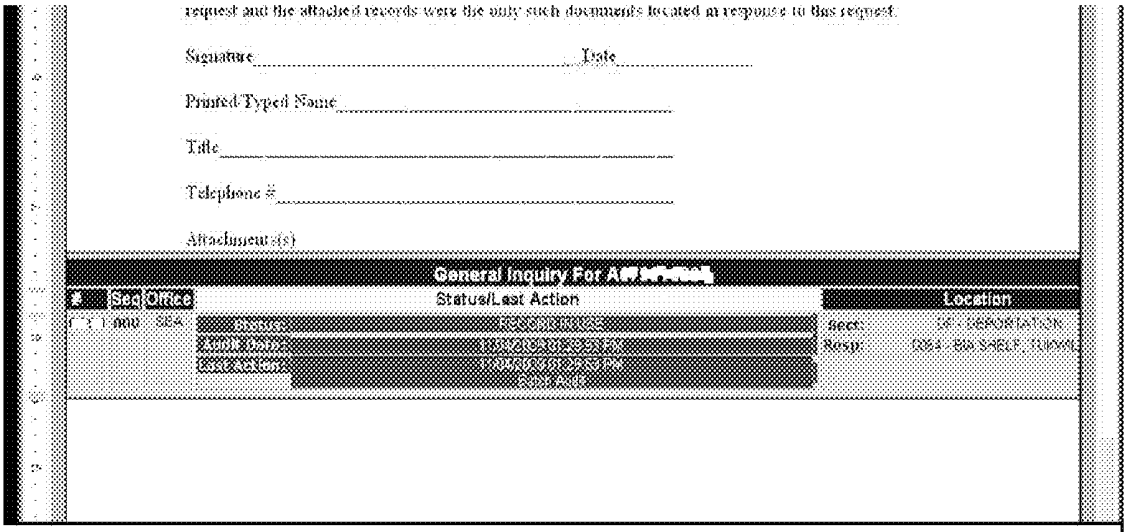
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

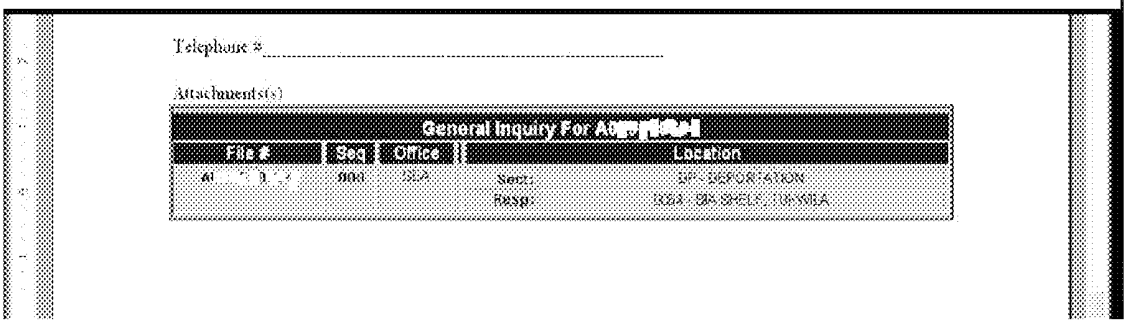
Immediately after pasting, we notice that the result is imperfect and we will have to repair it.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

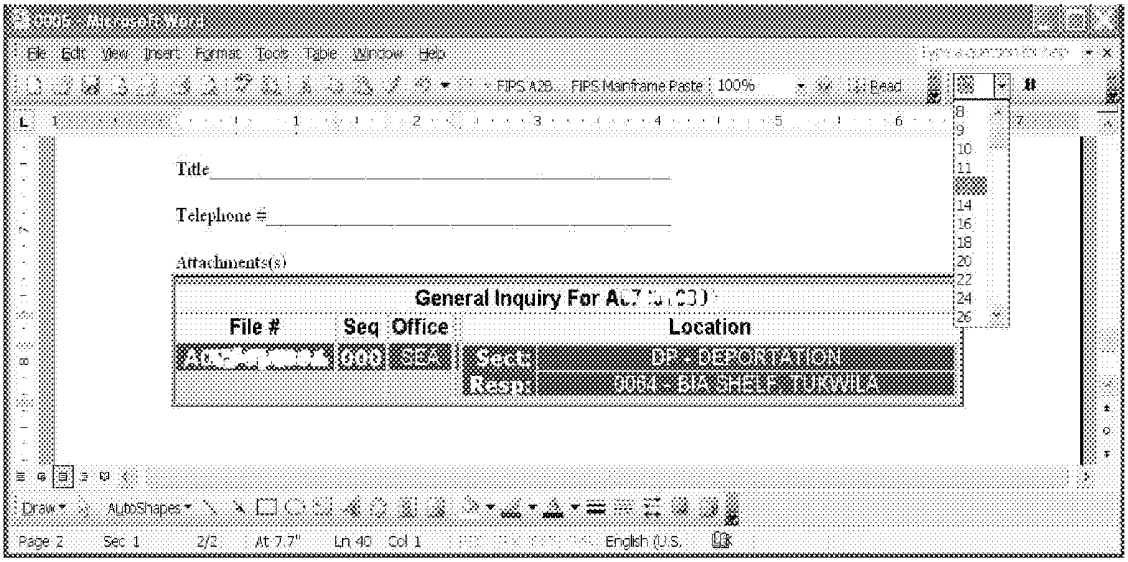
Left-click and highlight everything in the center column, starting at Status/Last Action, then press Delete.





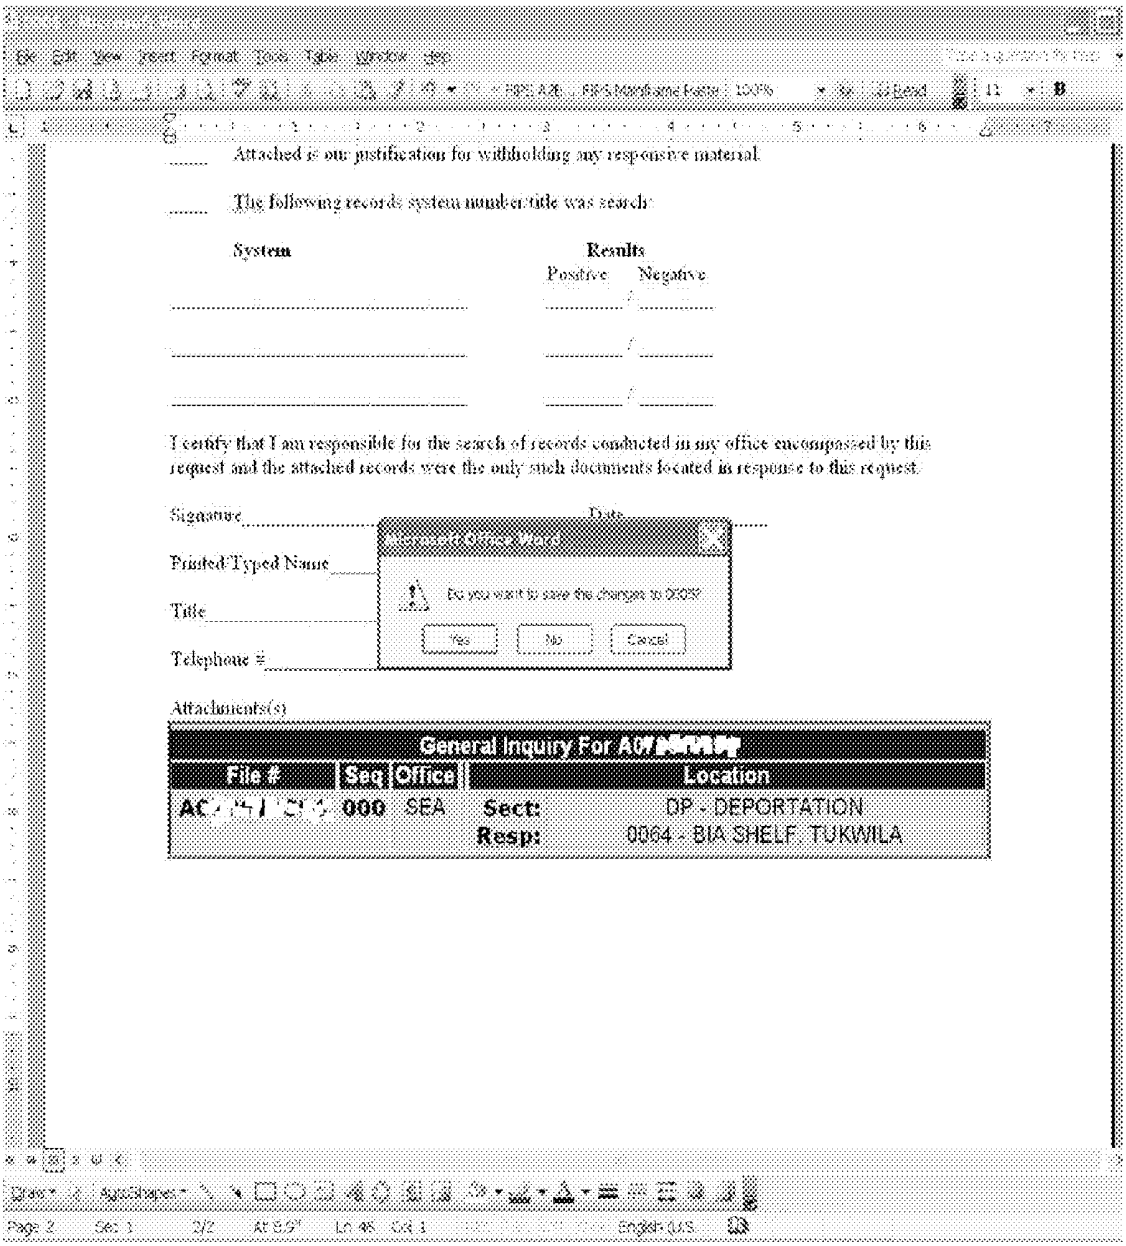
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, highlight the whole area and change the font size to 12.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

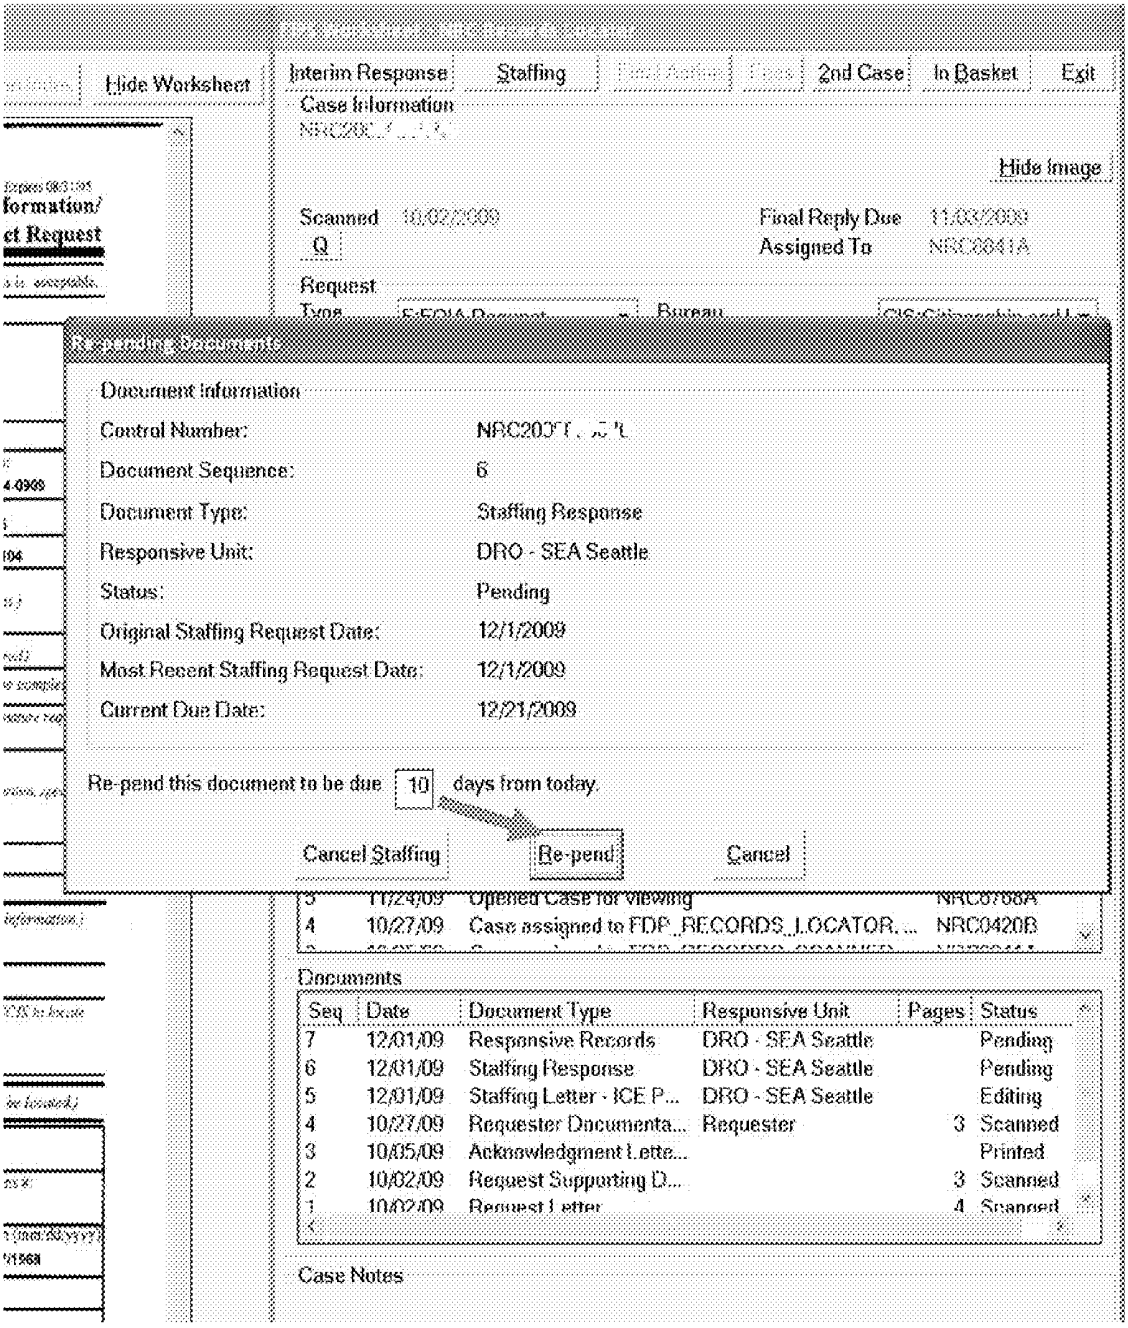
Finally, we exit and save our work. We have successfully staffed for the A-file. The next thing we have to do is repend. Every time you do a staffing, you always have to repend. The Guide tells you the number of days to repend based on the file location or the type of case. FIPS defaults to 10 days. Repending is setting that due date further into the future. We repend staffings from 30 up to 365 days.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

16. Repend

Double-click under "Documents" where it says "Staffing Response." A "Re-pending Documents" dialog box pops up. We know from the Guide that we repend a file with ICE for 180 days. Replace "10" with "180" and click "Re-pend." This concludes the case create staffing example.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. Two or more A-numbers

Multiple unconsolidated A-numbers - If the requester has provided more than one A-number, you must research CIS for each A-number to determine if they relate to the subject. If the subject has multiple A-numbers, you will create one case and do multiple staffings. When you are required to staff for two or more unconsolidated A-files, the individual staffing sheet must include the words **"MULTIPLE STAFFINGS"** at the top of each sheet. Do not confuse this with the subject of the file having an "A" file and a "T" file. The alien numbers must refer to different unconsolidated A-files and relate to the subject of the request if you are to mark it **"MULTIPLE STAFFINGS."**

Important note 1: If one of the files you are staffing for is located at RAFACS/CIS, FRC or one of the Service Centers, staff for those alien numbers first. These locations produce the file faster than other offices. MSB does not pull the staffing letters for follow-up unless "Multiple Staffing" is noted.

Important note 2: If one of the A-numbers you are staffing for is "digitized," do not use that alien number on the FIPS worksheet. Use one of the subject's other alien numbers on the worksheet. To determine if the file has been digitized, look in CIS at screen 9504. The Current FCO will show DIG.

If the alien has multiple A-numbers and the files are both located at the NRC, please add them to the spreadsheet that Records Operations maintains at *S:\Record_Ops\Files_to_Consolidate.xls*. You are responsible for entering the alien numbers of the files that may possibly need consolidation. Records Operations will review the files and consolidate if necessary. If both files are not at NRC, do not add the information to the spreadsheet.

Consolidated A-numbers

If the alien has a consolidated A-number, then please enter only the lead (or surviving) A-number on the worksheet in FIPS and will staff for that file. Consolidated A-numbers are reflected in CIS on the 9101 screen, under the section titled "Consolidated A-Nos". The A-number listed first is the primary A-number; the other A-numbers listed below the primary have been consolidated into the primary number.

Note: please do not add consolidated A-numbers to the "files to consolidate" spreadsheet.

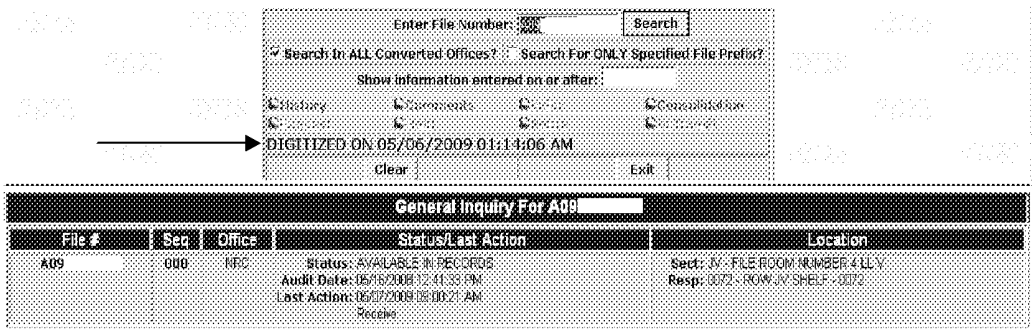
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Digitized files

If you are staffing for an A-file that has been digitized please use the **RDF** staffing sheet. If the file has been digitized, the current FCO does not matter; you would still use the RDF staffing sheet.

How do I tell if it is a digitized file?

NFTS will show the "Location" of the file as either **RDF** or **NRC**. If the file location is NRC, you will see a banner stating "DIGITIZED ON …." The screen print below is a sample of the NFTS screen.



Paste in the "General Inquiry" information on the RDF staffing the same as you would on a RAFACS/CIS or the "Retire" data for an FRC staffing. People in MSB will know the file is digitized because you have staffed using an RDF staffing sheet. The temptation may be to staff RAFACS/CIS because the file shows available in records at NRC. Do not do that. If it shows "DIGITIZED," then staff to RDF.

Border crossing card number

If the alien number provided by the requester is an 80,000,000 through 86,899,999 series number, it is a Border Crossing Card number. Even though you can research this number in CIS, there is no physical A-file associated with these types of numbers. You will need to research CIS and CLAIMS to see if there are any other A-files/receipt files associated with this alien.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Previously during the Case Create process, if a requester/subject provided a Border Crossing Card Number and all of the required PII (except an A-Number), we asked the requester/subject to provide additional information (Alien or receipt number, copies of documents from the service, etc…). We used this information to determine if the subject had an A-File. We would find the A-file only in very rare instances.

We no longer request additional information if the requester/subject provides all of the required PII (except an A-Number). Since Border Crossing Cards are strictly electronic records (no actual file), we will have the Border Crossing Card screen prints scanned into a RAFACS slot.

Use the Border Crossing Card Number provided; search and print CIS screens 9101, 9101-history (F8), 9222 and 9223. Open a RAFACS staffing slot but do not generate a letter. Prepare the screen prints for scanning into this slot as responsive records. Pend the case for responsive records. Please attach a "Scan As" sheet and mark it as "responsive records" with the screen prints to be scanned. The case will be sent to the processor after screen prints are scanned in. Create it as a Track 1 case.

Note: Alien numbers from 86,900,000 through 87,999,999 are not Border Crossing Card Numbers; they are general alien numbers and have corresponding A-files.

EAD numbers (100,000,000 through 149,999,999)

If the alien number provided by the requester is 100,000,000 through 149,999,999, it is an EAD (Employment Authorization Document) card number. There is no physical A-file associated with EAD numbers, even though they can be researched in CIS. You will have to research CLAIMS to locate the receipt number that corresponds with the EAD number, and then staff for that receipt number. Please refer to the section titled ***Staffing Scenarios – Receipt Files*** for additional information.

New alien numbers (300,300,000 through 300,322,501)

As of June 2009, the range of numbers 300,300,000 through 300,322,501 are being used as general A-file numbers.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Receipt numbers

Receipt numbers are comprised of the three-letter office code, followed by a 10-digit number. Receipt numbers are assigned to applications and petitions filed with the Service, such as Form I-765, Employment Authorization applications and Form I-130, Petition for Alien Relative. If the requester provides a receipt number on their request, log into CLAIMS and verify the information.

If the requester provides only a receipt number and it is for a Service Center we work, then we need to staff for the receipt file. Change the subject information on the FIPS worksheet from alien name to subject and description. Make the first part of the description the receipt file number. Use the complete receipt number with no spaces. Do not write the name as "Last Name, First Name."

(Example of the correct way: EAC0812345678 for Juan Cardozo Sanchez.)
(An example of how NOT to do it: EAC-08-123-45678 for Cardozo Sanchez, Juan).

If there is an alien number while you are in the "Name" mode, delete that alien number before you go to "Subject" mode. You will know you failed to delete the alien number if you staff for the receipt file and there is an alien number on the staffing sheet. In such a case, go to the FIPS worksheet, change it back to "Name" mode, delete the alien number, change it back to "Subject" mode, click **U**, then delete the alien number(s) from the staffing sheet and save.

Do not staff for receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA MSC/NBC staffing sheet. **Do not staff for DIG T-files at HBG with RPC codes XX or ZG.** Refer to the Staffing Sheet Guide for the most current information.

Archives and Records Centers Information System (ARCIS)

ARCIS is a new system used by the Federal Records Center (FRC) to track the location of retired files. The accession data is now 27 digits long. NFTS will not accept the accession data because of the length. Instead, you will see the word "ARCIS" in the location field in NFTS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

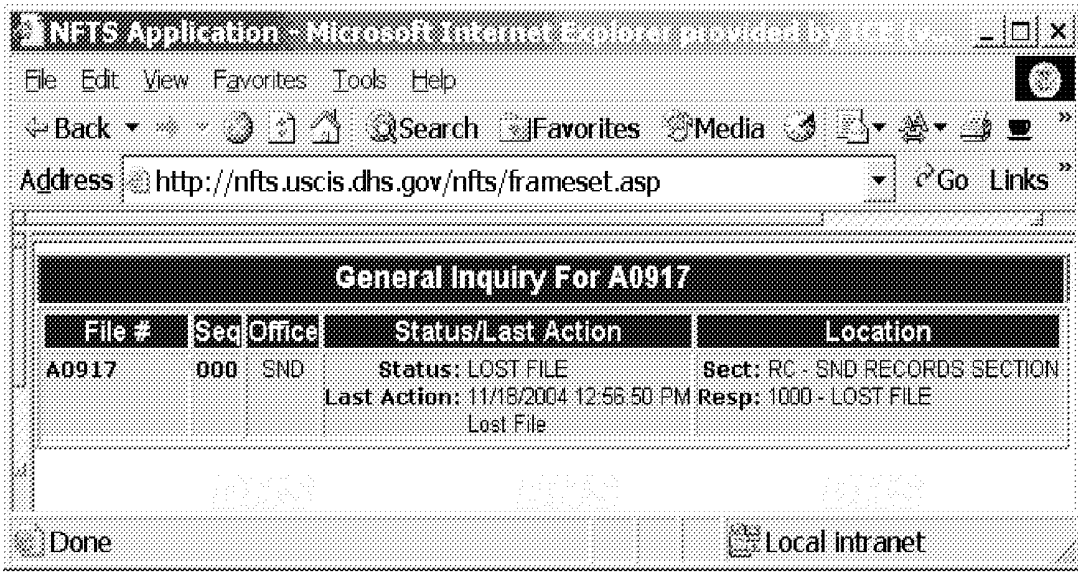
When the case you are creating shows the file is located at FRC and you see the word "ARCIS" in the location field in NFTS, use the FRC staffing sheet and paste the retired screen from NFTS.

Not all files located at the FRC will have "ARCIS" in the location field. For those files, continue to staff using the FRC staffing sheet and paste the retired screen print.

STAFFING SCENARIOS

Files Lost or Not Found LESS THAN NINE MONTHS

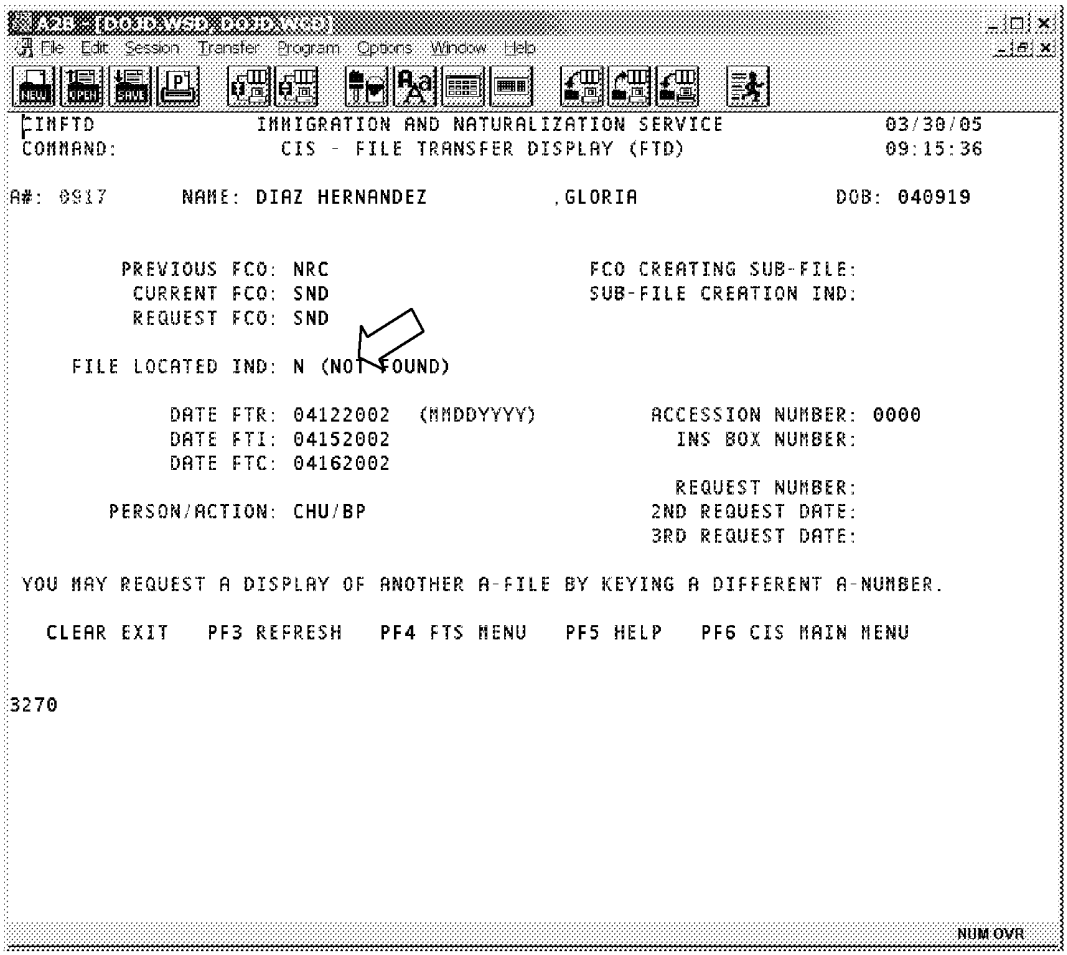
When an A-file is lost, it will appear in NFTS as a "Lost File" in the Status/Last Action section of the General Inquiry screen.



A lost file in CIS will appear in the CIS-9504 screen as "N (Not Found)" in the section titled "FILE LOCATED IND:"

If the "Last Action" is more than nine months ago, move to the next section of this guide, Files lost or not found MORE THAN NINE MONTHS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

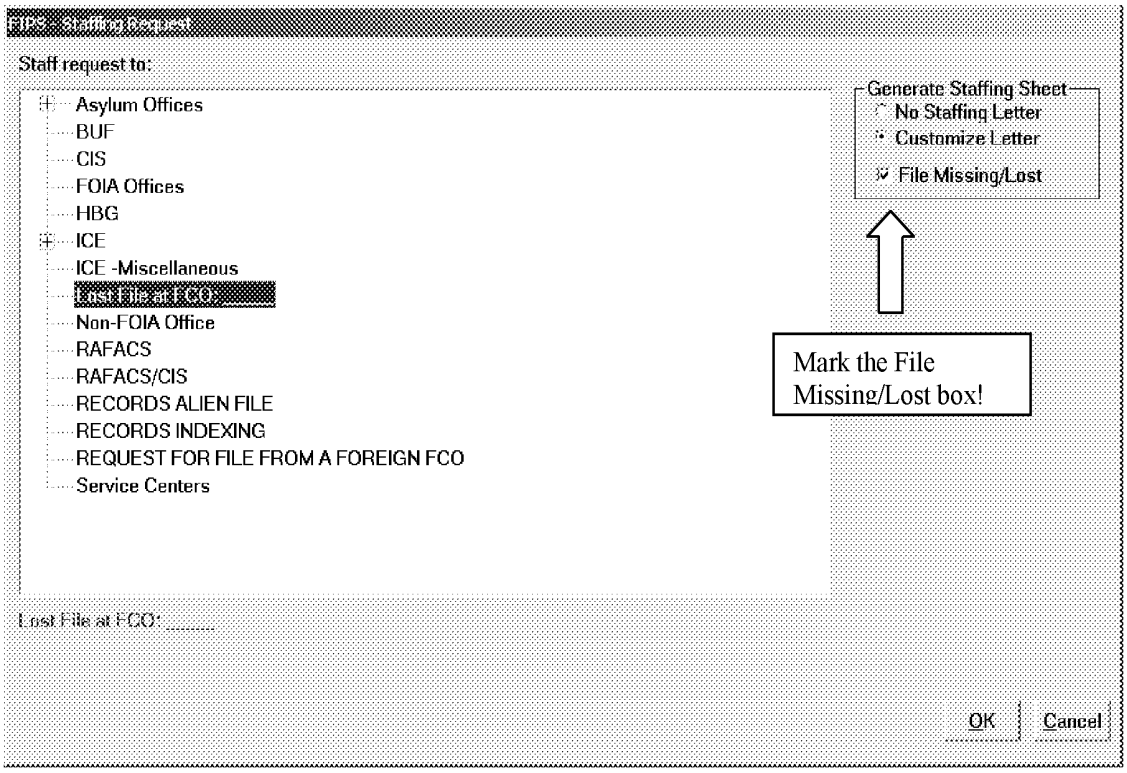


When the file appears lost in CIS 9504 and NFTS, Staff using the Lost File at FCO:_____ staffing sheet (include the FCO that shows the file is lost).

Exception: If the file shows lost in CIS-9504 and NFTS shows the file in use, staff for the file per the FCO in NFTS.

Under "Generate Staffing Sheet" mark the box "File Missing/Lost".

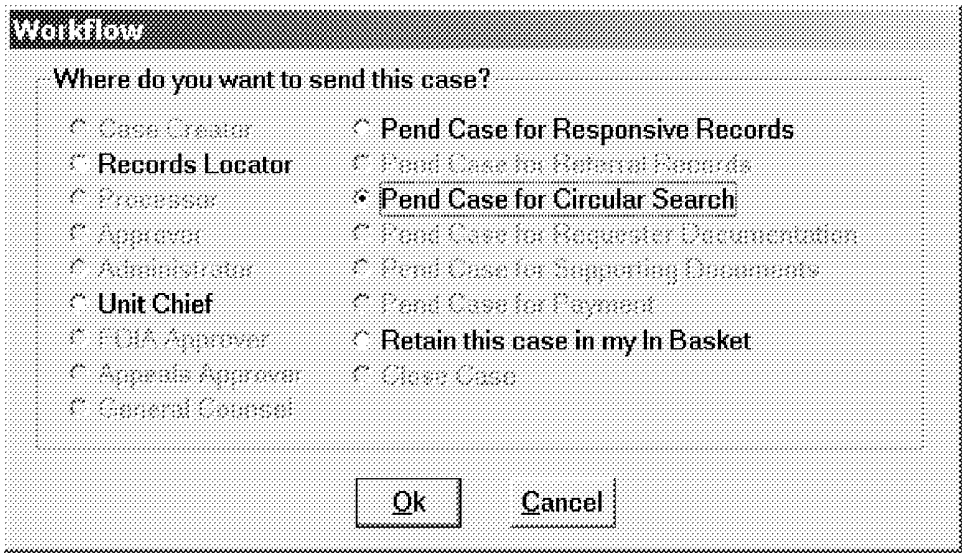
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Generate the acknowledgement letter. Add the paragraph to inform the requester that the file is lost. There is a template for this language on the Common drive under *O:\Foia\FOIA LIBRARY\Case Create References\Case Create Template Letters \Interim Response-Lost Record.*

When the case create process is complete and the creator is ready to exit the case, click the "In Basket" button and then select the option titled "Pend Case for Circular Search".

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Files Lost or Not Found MORE THAN NINE MONTHS

(Please note: this is NOT the procedure for a request for alien number only or for petitions destroyed in accordance with federal paperwork retention guidelines.)

1. If the A-file is lost but other records exist (such as receipt files we would normally staff for or other a-files), please go to step 9 now. *Otherwise*,
    a. **if** the file has been marked as lost for more than nine months
    b. **and** there is no recent activity in CLAIMS (within last 2 years) or RNACS,
    c. **and** there are no additional files, then: records locator should put in the following case note: **A-file has been lost for more than 9 months and no other records exist. Closing as UT.** Detail all systems searched as part of this case note.
2. Complete the attached Lost File Worksheet (and send it for scanning as CSD with any screen prints you do.)
3. If the file was not staffed to OPLA, please move to step four now. *Otherwise*, if the file was staffed to OPLA, look at NFTS history. If the NRC file request was cancelled and the file indicator was subsequently changed to "Lost File," create a case note with the subject "Unit Chief" listing the date the file was

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

staffed, the date the request was cancelled, and the date the file status was changed to lost. Send the case to Unit Chief. You're done.

4. If there is no CIS screen containing "EARM-X" "DACS-X" or "NAIL-X, please move to the next step now. *Otherwise*, if there is any CIS screen containing "EARM-X" "DACS-X" or "NAIL-X," notify your supervisor by e-mail, referencing the case number, but do not make a case note stating that. Go to the next step.
5. Go to Final Action and update the status to UT. In the final action letter, after the sentence "You may, if you wish, resubmit at a later date," please add the following sentence: "As we were unable to locate a physical file, we are including screen prints of the electronic record." Go to the next step.
6. In the UT final action letter, attach the screen prints to the letter electronically (cut and paste). Do not make any redactions to the screen prints. Save and close the letter and send to approver. You're done, *unless* the case is later returned to you for further research.
7. The approver will review the UT letter with the inserted screen prints. If he or she is satisfied that a thorough search was conducted, the approver will forward the case to FOIA Approver. If the approver is not satisfied with the search results, he or she will return it to you for further research.
8. The FOIA Approver will review the research and either close the case or return it for further action. If the case is approved, the FOIA Approver will close the case.
9. **If the A-file is lost but other records exist** (such as receipt files we would normally staff for or other a-files) Staff for the additional records. Put in a case note that reads:

   > A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

10. Cancel the lost file staffing and pend for responsive records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LOST FILE WORKSHEET

A-number _____

Name of Alien _____

Date shown as Not Found in CIS _____

Date shown as lost in NFTS _____

1. Search CIS for potential second a-number and/or consolidation
    a. Second a-number _____
    b. Any T-files? Yes _____ No _____
        i. If yes, have they been staffed and scanned? If not, please do so now.

    c. Consolidated with? _____
    d. Does the the EOIR screen show an upcoming hearing date
        Yes___ No ____

2. Check CLAIMS for petition/applications
    a. Were any found? Yes _____ No _____
    b. If so, either provide screen prints with receipt number or list below

3. Check NFTS. Any current file movement. Yes _____ No _____

4. Check RNACS for any indication that file is with the naturalization unit.

NOTES:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Staffing Scenarios FAQ's

Q: What screen print do I attach?

A: The screen prints attached are typically a NFTS screen. In some situations, there is no screen print attached at all. See the Staffing Sheet Guide for current information.

Q: Which staffing sheet do I use?

A: Each office has its own staffing sheet in FIPS. The Staffing Sheet Guide details which sheet to use in specific circumstances.

Q: What if they have two alien files with two different numbers?

A: In cases like this, we staff for each alien file on a separate staffing sheet and write MULTIPLE STAFFINGS at the top of each sheet.

Records Indexing / Manual Requests

In some instances, the A-number of the subject will not be found in CIS or CLAIMS. This is especially true of individuals who had no business with the Service after the date CIS was put in use. A general rule which applies most of the time is the subject had no business concerning any immigration matter since 1975 or earlier. In these instances, staff the request using a "Records Indexing" staffing so that a manual search can be conducted. It is important that you provide as much information as possible on the Records Indexing staffing sheet. The name of the subject, year of birth and country of birth are required information.

Sometimes the requester/subject will provide an A-number and the file cannot be located in NFTS or CIS. Ensure requesters provide the minimum information to allow a positive identification (i.e., full name, aliases, an alien number, date and country of birth). If the requested records relate to:

- A-Files;
- Dates of birth;
- Dates of entry; or

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Naturalization dates

which are after 1975, do not request a manual search, because records will not be located; check CIS and/or CLAIMS for a record. If you find no record, please refer to the section on NO RECORDS.

TO RECAP: If the subject has had no business with the service since 1975 or earlier, they may or may not have a CIS record. If they do not, then staff to records indexing. If the subject has had business from 1976 forward, do not staff to records indexing.

A-number in CIS but not in NFTS

If there is an A-number in CIS but no information in NFTS, create a staffing sheet according to the Staffing Sheet Guide and FCO List, and paste in the 9504 screen of the CIS record rather than the NFTS information. Otherwise, the procedure is the same.

ICE files

There are currently five different types of staffings for files located within the ICE function. Paste the NFTS screen print to the second page of the staffing letter.

OPLA staffing sheets are for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	**TA**
Chief Counsel	
Litigation	**LI or LIT**
Legal Section	**LS**
District Counsel	**DC**

DRO staffing sheets are for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Office Section	Acronym
Detention & Removal	**DENTENT, D&R, DET, DRO, DD&P**
Criminal Alien Program	**CAP**
Deportation Officer/Assistant/Clerk	**DO, SDDO**
Bond Control Spec.	
Immigration Enforcement	**IEA**
Field District Office	**FOI (Washington DC) (DRO-WAS)**
Admin Program Office	
Non-Detained or Detained	
Processing Center	**OC-Otero County**
Detention Facility name	**ie… Otay Mesa, Krome**
Fugitive Ops	**FO**

SAC staffing sheets are for files that are located in the following office sections. Choose the FCO where the file is located, such as SAC-ATL. Please note the section that follows concerning SAC locations.

Office Section	Acronym
Investigations	**INV, IV**
Special Agent in Charge	**SAC**
Internal Audit	**IA**
Resident Agent in Charge	**RAC**
Assistant Agent in Charge	**ASAC**

SAC locations

Occasionally, you will see a staffing for a SAC (Special Agent in Charge) case, and not be able to find the File Control Office under SAC in your FIPS staffing list (ex. POO/Portland, Oregon). How do you staff correctly for the file? Would you use the "ICE General" staffing?

Yes, you do, but only as a last resort. Before staffing under ICE General, please check under RAC (Resident Alien in Charge) and ASAC, in consecutive order to find the staffing location. Since you cannot find Portland under SAC, you would next check RAC, and then ASAC (Portland is found under ASAC). Finally, if you cannot find the location **after** searching SAC, RAC and ASAC, please staff under ICE General.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LESC (LSC) records

On all of these staffing sheets, you must attach the NFTS screen print to page two.

T-files

Q. What if the subject has an A-file at one office and a T-file at a different office (for example, an A-file in Chicago and a T-file in Milwaukee)?

A: In this case, we will staff for both files, EXCEPT, do not staff for T-files at HBG with RPC codes XX or ZG.

Q: What if they have an A-file at an outside office and a T-file here at the NRC?

A: Staff for the A-file only, but include the T-file portion on the staffing sheet. The T-file will get combined with the A-file when it arrives at the facility for scanning. **NEVER CROP THE T-FILE INFORMATION FROM THE NFTS SCREEN PRINT**.

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, or WSC for scanning. Those offices scan directly into FIPS for us. Therefore if the A-file is at one of the above service centers and there is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

Receipt files

1. Do not staff for receipt files from any offices other than one of the five Service Centers (**ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN**). For example, LOSJ9163201111, DALC922740405 or SPM9606900035, etc., are not receipt files to be requested.

2. If the requester does not specifically ask for a receipt file and provides an alien number, staff for the alien file only.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

3. If the requester does not provide any receipt number or alien number, then you must research CIS and CLAIMS.

Be cautious about staffing for receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will staff for the EAD card.

If they provide a receipt number, you must research CLAIMS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please staff for the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Open a RAFACS staffing slot only (no staffing sheet is necessary). Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to the OA room. The documents will be scanned as responsive records. Pend the case for 30 days.

4. If there is no information about the receipt file in NFTS, regardless of the prefix of the receipt number, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

Archived receipts

If we receive a request for a receipt file and the receipt file has been archived per CLAIMS, create the case as usual. To determine whether we need to staff for the archived receipt file or redirect the request please do one or all of the following as necessary:

1. Enter the receipt number in NFTS, there may be evidence that the receipt file has been consolidated into an A-file or there may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC. Sometimes, you can discover that an archived receipt has been forwarded to NVC through PCQS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. On the USCIS website enter the receipt number in the "Check Case Status." Checking the receipt number on the website may provide evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.
3. Call the NVC help line at 603-334-0700 and enter the receipt number. There may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.

If there is no evidence that the archived receipt file has been forwarded to NVC we will staff for the archived receipt file using RAFACS staffing sheet. Insert a note on the staffing sheet **"Archived Report," "Give to the Supervisor."** The Supervisor will request the archived report. When the screen prints are received they will be scanned in as Responsive Records.

Reading the request is very important; if the requester is seeking information relating to what appears to be a receipt number and it begins with "CDJ" or one of the other prefixes found in the section **National Visa Center Valid Consulate Prefix Codes, c**all the NVC help line at 603-334-0700 and enter the receipt number. If there is evidence that the NVC has the receipt file, redirect the request to NVC.

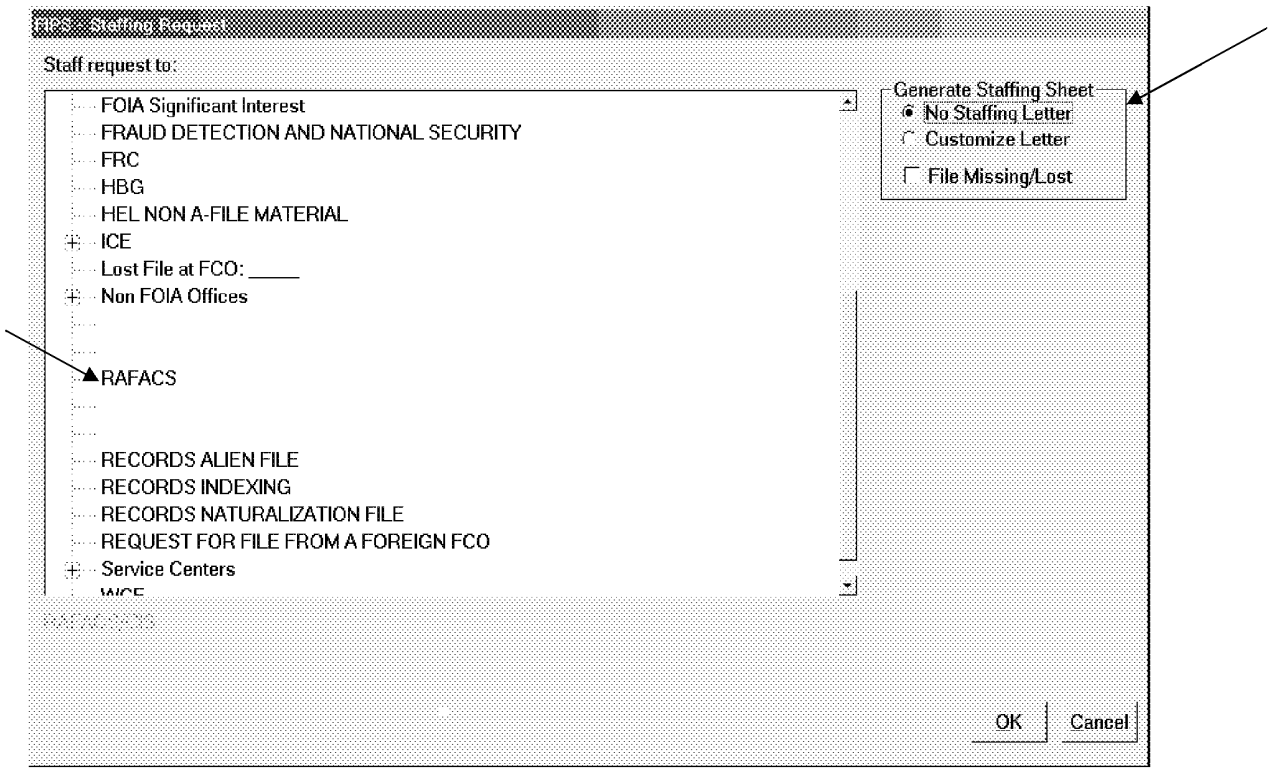
To redirect a request to NVC do the following: Click final action and choose the code "RD" to "other". Replace the content of the letter that appears with the template letter, located on the common drive, *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters \NVC_Letter*. Send the case to Unit Chief and send an e-mail to your supervisors with the case information. The supervisor will review and close the case.

Receipt files; Lost receipt file, File destroyed or File cannot locate

If a staffing response from one of the service centers (ESC, SSC, NSC or WSC) has been scanned and a screen print from CLAIMS is shown on the staffing response with any of the following verbiage; "FILE CANNOT LOCATE", "FILE DESTROYED", or "LOST RECEIPT FILE", the case creator will need to follow the steps outlined below.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Open a RAFACS (*not RAFACS/CIS)* staffing slot only. Click on "No Staffing Letter." Print the appropriate CLAIMS screen prints (should be a minimum of 3 pages if the receipt file is for an I-130). Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to the OA room. The documents will be scanned as responsive records. Pend the case for 30 days. Make a note to change the staffing sheet option back to "Customize Letter" when you do the next staffing.



Important note – if you check the "No Staffing Letter" box you will have to click the "Customize Letter" box on the next case you create.

This is only if there is no A-number and you have checked and the receipt file is not at the NVC. This is what the response will look like:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

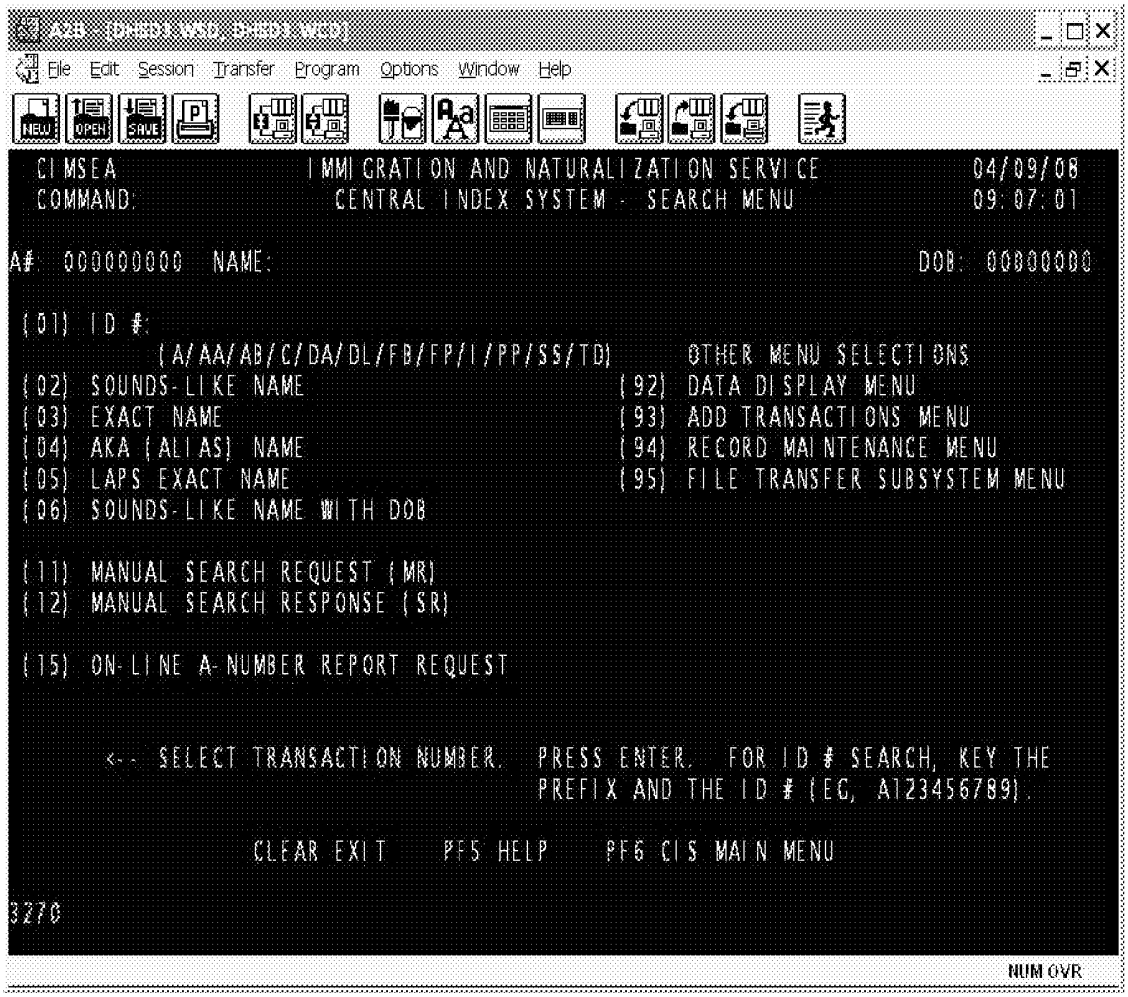
NO RECORDS



When conducting a search in CLAIMS (Computer Linked Application Information Management System) run alien's name as the beneficiary/applicant (3) **AND** as petitioner (6).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

When conducting "no record" research, do the query and provide screen prints of all searches to the Team Supervisor. Attach a "Scan As" cover sheet and include the NRC Control Number. You must create a detailed case note indicating the systems you searched and the results of those searches. Send the case to Unit Chief until the screen prints are reviewed. When your supervisor concurs with the NR search, he or she will close the case and have the screen prints scanned in as CSD's. This should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names.

GENEALOGY IS EXEMPT FROM THIS PROCESS.

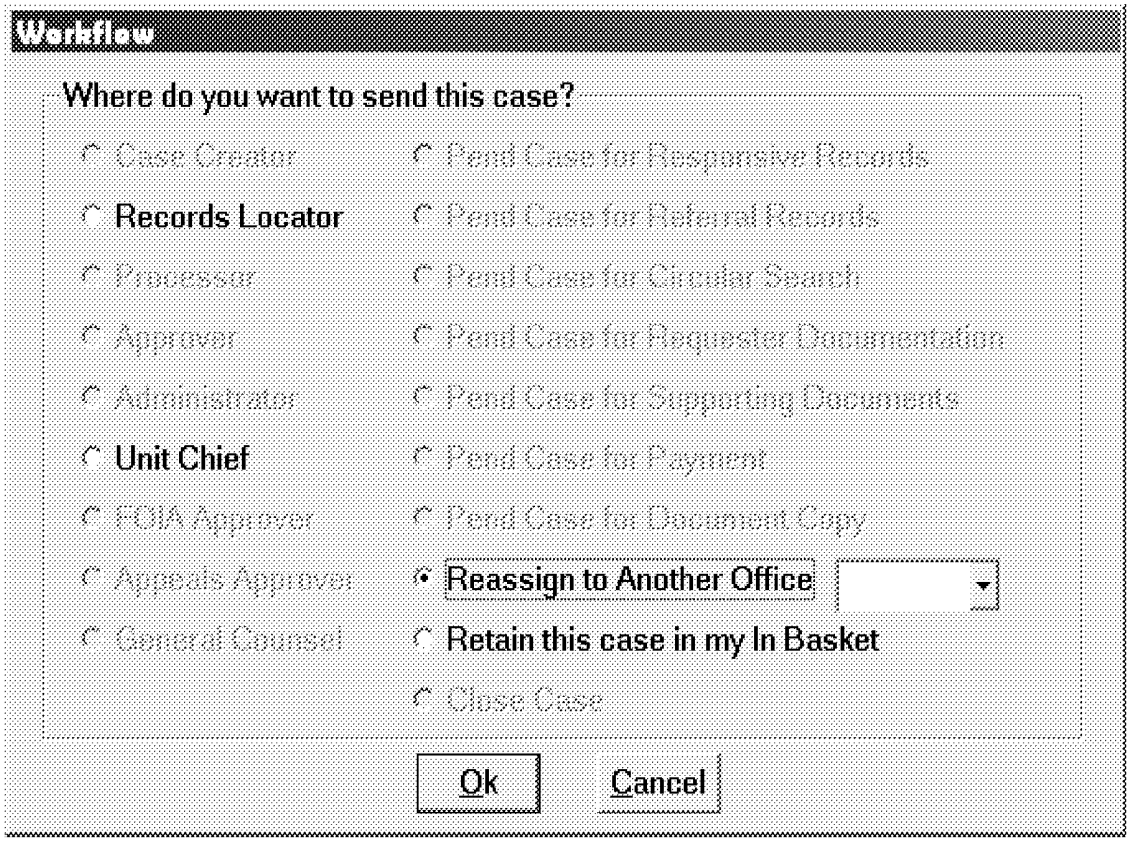
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

RE-ASSIGN

This function is used to move a case that was scanned in the NRC queue to another queue for processing.

Re-assign the case if the request is for a contract (CNT).
Re-assign the case if the request is for CIS Personnel Information (HQS).
Re-assign any SIG case to COW.

Create the case, run Doc Mgr and get the NRC control number. Generate the acknowledgement letter. After the acknowledgement letter is created click on In-Basket, the following screen will pop up:



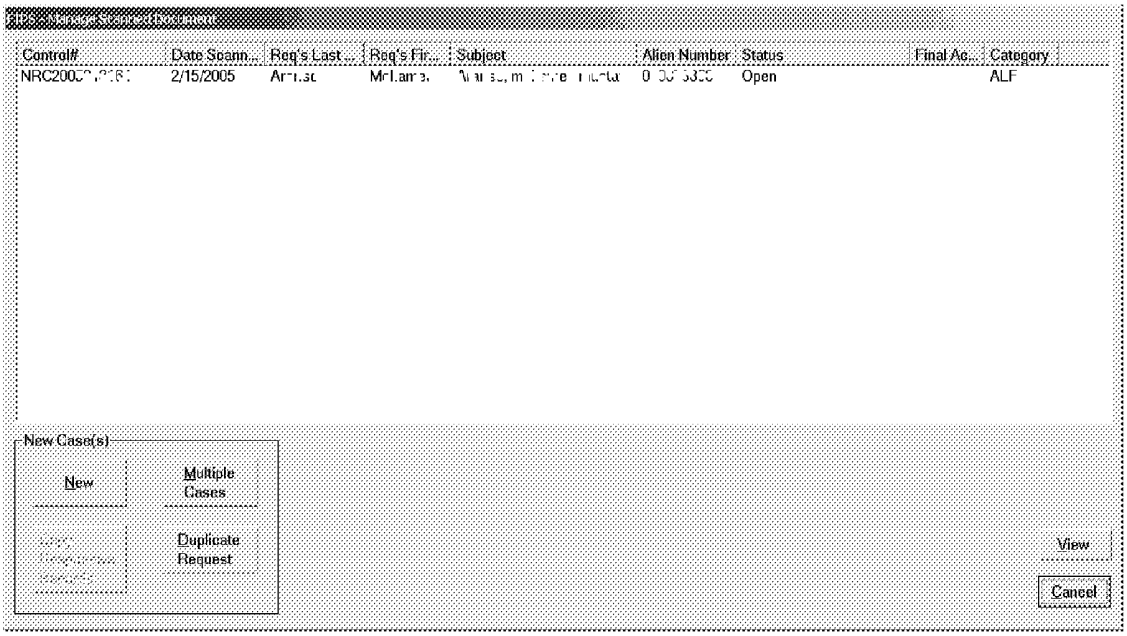
Click on the "Reassign to Another Office" and use the drop down box to select the office where you want the case to go. The office options are CNT, COW, and HQS. The case will be staffed when it is re-assigned to the other queue.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

DP (duplicate) CASES

Duplicate cases, or, as they are coded in FIPS, DP cases, are cases where either the request was submitted multiple times to the Service, was inadvertently scanned into FIPS multiple times or are cases that were previously processed by another office.

Sometimes a requester will take what is known as the "shotgun" approach. They will submit the same FOIA request to multiple offices, hoping to get an answer quicker. The receiving offices will then in turn, transfer these requests to the office that actually has the requested documents. These are duplicate cases when an office has already processed this request with a final action code of either PD or G1, or has it ready to be processed. This can be determined by viewing the completed case using the "View" feature in Doc Mgr.



By highlighting the case you wish to review and then clicking the button titled "View", FIPS will open the case for review. You will need to review the request to ensure that:

- If there has been a case that was closed G1 or PD within six months from same requester – this does not include cases that were closed with any other final action code.
- The date of the request is either the same as your request or within a few days and:
    1. The requester is the same, and

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. The information being requested is the same in both requests.

Once these items have been verified and you determine the case is a duplicate of another case, write down the case number and convert the "REQ" to "CSD" and attach the documents to the original case. See **CHANGING AN REQ TO CSD** for instructions.

If you are not sure your case meets the duplicate requirements, put a case note in the case and send the case to Unit Chief. Send your supervisor an e-mail with the case information for their review.

ER (created in error) CASE CLOSINGS

Use the "ER" option to close cases in FIPS when the following situations arise:

1. When a G-884 Return of Original Documents is scanned in FIPS.
2. When a routine use/child support request has been scanned in FIPS.
3. When subpoenas/court orders have been scanned in FIPS.
4. When a Bond Obligor request has been scanned in FIPS.
5. Requests from Foreign Consulates (no letter required)

Click final action, choose the code "ER" and click okay. FIPS will not create a letter. Prepare a detailed case note. Send the case to Admin and send an e-mail to your supervisor with the case information. The supervisor will review and close the case.

FC (failure to comply) CASE CLOSINGS

If you are closing a case FC because of either consent or PII, please refer to

O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Failure_to_Comply_Letter and select the applicable paragraph for your final action letter. Please enter the date of the last correspondence to the requester/subject.

MARKING A DOCUMENT "DO NOT SEND"

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

From time to time, there will be an instance when we should not mail a system-generated letter. Examples include instances where a status letter is created in error, or a referral memo is erroneously created. To ensure that the letter or memorandum is not inadvertently mailed, please take the following steps:

1. Type "DO NOT SEND" at the top of the page,
2. Delete all the information in the letter/memorandum, and
3. Create a case note which explains why the letter/memo should not be mailed.

Accomplishing the steps above will make it easier for the O/A room to identify letters created in error.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REPEND

Repend cases staffed to the following offices for 30 Days:

- NRC
- FRC
- MSC
- Files that are in-transit to NRC

Repend all SIG cases for 30 Days.

Note: if you are repending a case from Records Locator, also please send an email to the SIG mailbox (NRC, FOIASIG).

Repend cases staffed to the following offices for 45 Days:

- Lost Files - **CHECK THE CIRCULAR SEARCH BUTTON**

Repend cases staffed to the following office for 120 Days:

- ICE Files

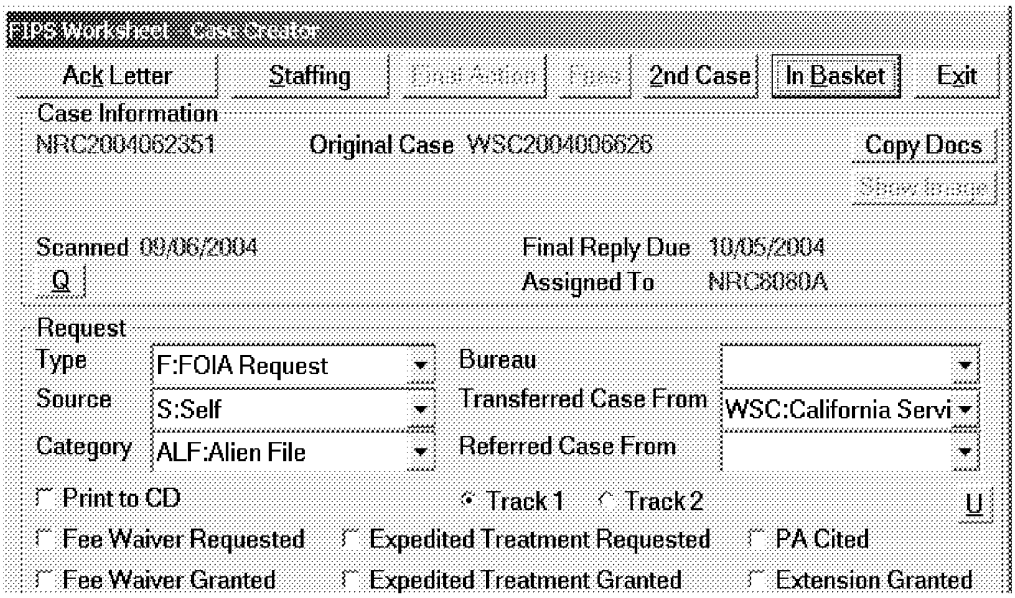
Repend cases staffed to the following office for 365 Days:

- All others

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

ACKNOWLEDGEMENT LETTERS

Acknowledgement letters are prepared in all cases **except** for bond obligors, routine use and Red Cross last known address requests. FIPS will create a standard acknowledgement letter when you select the "Ack Letter" button from the toolbar on the FIPS worksheet.



After selecting the "Ack Letter" button, a second pop-up window will appear that allows you to make even more selections, if necessary. Do not select any option except Other Documentation.

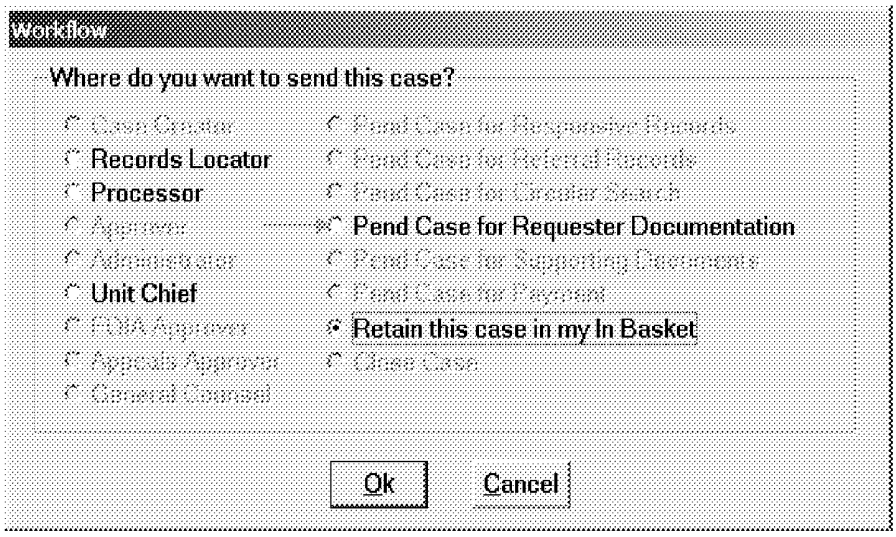
Whether one item is needed or multiple items are needed, (alien number, port of entry, date of birth, date of entry, death certificate, consent etc.) select the "Other Documentation" button on the screen. FIPS will generate the acknowledgement letter and insert a paragraph. Modify the paragraph by deleting "Other Documentation" and replacing it with "See attached sheet." Check all the boxes on the Requester Documentation Attachment that apply but please do not request information that the requester has already provided. DO NOT MODIFY THE ATTACHMENT except to check or un-check boxes or to type information into the "other" box. Add the current date and NRC control number to the attachment.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The template for this attachment is on the common drive under *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Requester_Docs_Attachment* or you can use the acknowledgement letters for Track 1, Track 2 or Track 3 that have the Requester Docs attachment. The template for these letters is on the common drive under *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters*.

If you need no additional information to staff for the file, staff the case for the responsive records and Pend Case for Responsive Records.

If you had to request additional information, exit to the in-basket and pend the case for requester documentation. Do not staff for the responsive records.



Close your acknowledgment letter before you pend your case for responsive records or requester documentation. Completing this step will save you time and trouble.

CASE NOTES

Case notes are crucial to creating and processing a case. When creators are establishing the case in FIPS, they should note any unusual circumstances or details in a case note for later reference. FIPS also automatically generates case notes in various situations, such as duplicate, multiples and when responsive records are copied from one case to another. Because case notes become a permanent part of the case in FIPS, case notes should never

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

be used to record personal feelings or to debate, question, or even to seek clarification. A FOIA/PA Assistant should discuss issues needing clarification via e-mail, a telephone call or a personal visit to his or her supervisor.

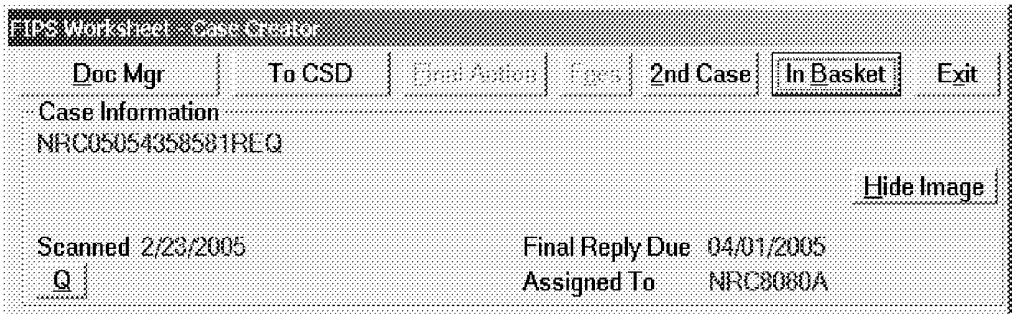
Note: When you generate a case note add your first name initial and last name at the end of the note. (Example: B. Happy).

ADMIN NOTES

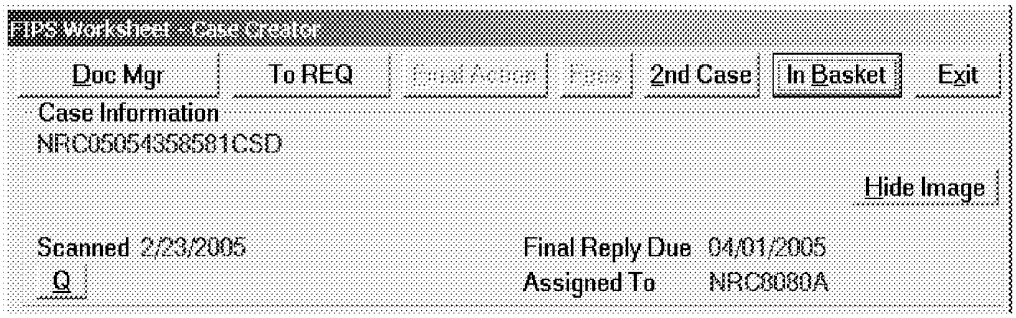
Admin notes are a permanent part of the case in FIPS. They are no longer deleted when the case is closed. Admin notes may be used for dialog among creator, records locator, processor, or approver, but should never be used to record personal feelings or to debate, question, or even to seek clarification. A FOIA/PA Assistant should discuss issues needing clarification via e-mail, a telephone call or a personal visit to his or her supervisor.

CHANGING A REQ TO A CSD

Occasionally requester documents, certificates of identity, status requests and other correspondence will inadvertently get scanned into FIPS as a new request. If you encounter these types of documents in FIPS as REQ's, please attempt to locate the case to which the documents belong. After you locate the case in FIPS, make a note of the control number. Next, go back to the worksheet in FIPS and select the "To CSD" button on the worksheet to change the REQ number to a CSD number.

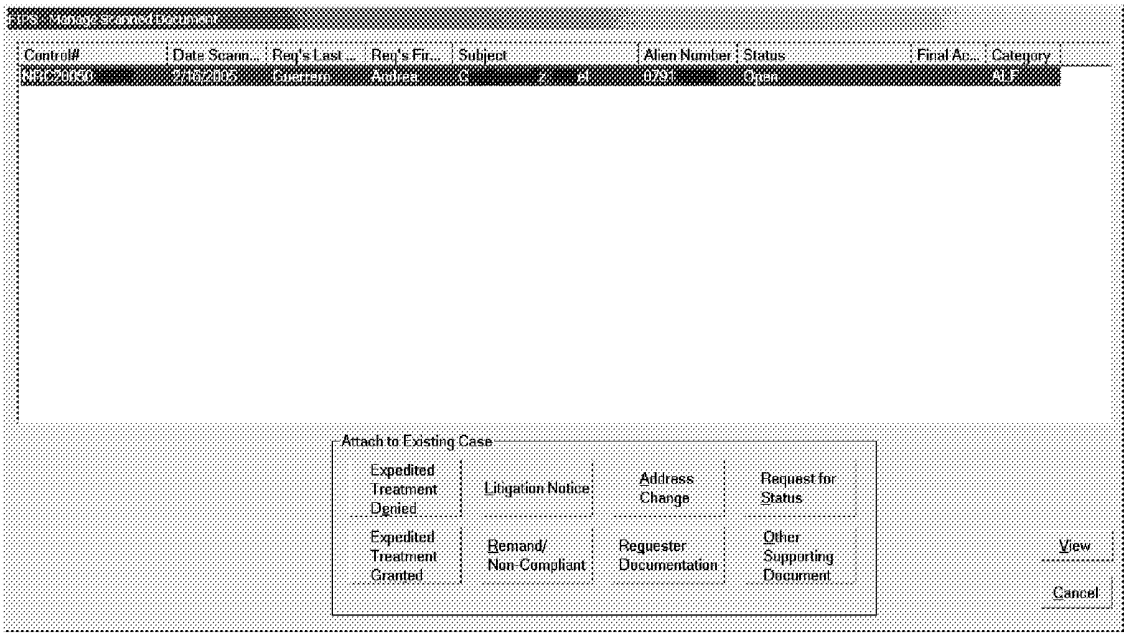


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Once you have changed a REQ number to a CSD number, all the documents scanned in will be attached to the existing request. Exception: If responsive records were scanned in with the REQ number, please do **NOT** convert to a CSD number. The responsive records will be lost forever, unless you change the CSD back to an REQ number.

After you have changed the case to a CSD in FIPS, run Doc Mgr again. It is not necessary to fill in the worksheet to run Doc Mgr on a CSD in FIPS. Run Doc Mgr, using the control number to which the documents belong as the search criteria or search by the alien number. This will trigger the next pop-up window.



At that point, highlight the control number, which will activate the "Attach to Existing Case" buttons on the bottom of the window. Attach the new request to the existing case as an "Other Supporting Document." FIPS will ask you to verify that you are attaching it

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

to the proper case. FIPS will then attach the new request and supporting documents to the existing case. Next, FIPS will send you back to the Case Create role in the surviving case. If anything is needed in the existing case, for example, staffing for responsive records, please complete the necessary actions. If no further action is necessary, click In-Basket and pend the case for responsive records or send it to processor if the records have already been scanned in.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

TROUBLESHOOTING WORK *FROM* THE OA ROOM

The FOIA/PA Assistants assigned to the mail are responsible for picking up faxes and mail (in the black bins marked Troubleshooter) from the OA room and in the basket located next to the copier in shared workroom each day and are responsible for sorting and working the mail. Individual team members expecting a fax should notify his or her supervisor or retrieve the fax. If the case has been created, insert a case note (Scan in fax and notify [me] when the fax has been scanned). If the fax needs to be scanned in before reviewing, the FOIA/PA Assistants can scan it in and notify you. They may also deliver the fax or mail if needed.

TROUBLESHOOTING WORK *TO* THE OA ROOM

When new requests are taken to the OA room, place them in the "New Request" bin on the counter.

When taking requester documentation, CSD's, responsive records or certifications of identity to the OA room, write "Requester Docs" or "CSD" on the first page, along with the date and your initials.

FOIA MAILBOXES:

FOIA has access to various e-mail mailboxes that serve different purposes. The paragraphs below describe these mailboxes and their purposes. E-mails to any of the FOIA mailboxes must contain specific instructions.

THE OA ROOM **(NRC, FOIAOA)**

Send e-mails to the OA Room when:

- The request letter and supporting docs need to be printed and scanned in as a new case. Include instructions to the case creator, if necessary.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- The original Final Action Letter and responsive records were mailed but the requester never received them. The OA room will reprint the records to CD or paper and re-mail per instructions provided in the e-mail. The instructions must include the control number and whether to print CD or paper, as well as how the case was closed "G1 or PD." Include a case note in the original case.

- The responsive records need to be re-printed to CD due to the requester receiving a broken CD.

- The requester has either has a changed or new address; therefore, the records need to be re-printed and re-mailed to the requester. You need to state in your instructions to the OA room that you've made the changes to the address in the final action letter. Correct the address on the final action letter and the FIPS database. State that you've changed the address in a case note.

Don't forget to add a case note to the original case.

MSB **(NRC, NRCFOIAMSB)**

Send e-mails to the MSB mailbox when:

- An appeal is encountered in case create that was not previously addressed.

- An expedited treatment is encountered in case create or records locator that was not previously addressed. Personnel handling the MSB mailbox will forward the e-mail to the supervisor(s) handling the expedited treatment.

All e-mails to the MSB mailbox should contain the control number, the A-number or subject of the case, and specific instructions relating to the case.

FIPS PROBLEM **(NRC, FIPSPROBLEM)**

Send e-mails to the FIPS Problem mailbox:

- If errors are encountered in the case

- If responsive records need to be copied from one case to another

- If records are incorrectly scanned in a case and need to be removed

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

All e-mails to FIPS Problem mailbox must contain specific instructions, including a description of the problem and the role of the case; standalone, create, locator or processing and the control number or REQ number if you were creating the case.

FOIA FILE REQUEST **(NRC, FOIAFILEREQ)**

Send e-mails to FOIA File Request if the following situation occurs:

- A file is found sitting on a shelf and it has not been scanned in to the case. Include the control number and the A-number in these e-mails.

E-MAIL TO CUSTOMERS

If necessary, send a message to the USCIS mailbox outlining what needs to be sent. The MSB supervisor will generate the e-mail to the requester and transmit. Include all information in the e-mail that the MSB supervisor will need in order to be able to send the e-mail. Put a case note in FIPS outlining your request to MSB. If you are asking for more information from the requester, create a slot in the case in FIPS to ensure that the case will close out automatically if no response is received from the requester.

MAIL

The FOIA Division receives two types of mail: Returned Mail and Direct Mail.

RETURNED MAIL:

Interim Interest Letters

Returned Interim Interest Letters are scanned as Requester Docs.

Except for Interim Interest Letters, all returned envelopes and letters are scanned as CSD's.

Do not use forwarding addresses provided by US Postal Service.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

OA's will note each case with action taken for each piece of returned mail. Notes are to be complete and concise. They should include the reason the letter was returned, action taken, and the OA's name.

> **Note:** Not all letters are acknowledgment letters. The returned correspondence could be a status letter or request for additional information. Before letters are updated with the correct address, confirm the correct letter is being updated. The case note should include the type of letter being corrected and resent.

Acknowledgement letters

Compare address on acknowledgement letter to address on the G-639, G-28 and returned address on the original envelope.

A. If there is a transcription error in the address:

1. Correct the address in the address section of the FIPS worksheet and click on the "U" to update FIPS.

2. Correct the acknowledgement letter and resend letter.

3. Write the ID of the case creator on the returned letter and give to OA Supervisor.

4. Note the case. Example of Case Note:

Title of Case Note:	**Returned Mail – no such number**
Body of Case Note:	Address on letter did not match G639. Street address should be 1003 Market Street, not 103 Market Street. Updated FIPS and ack letter and resent letter. Name.

5. Returned acknowledge letters with a requester document needs to be repended for additional time. **Give the letter to the OA supervisor to repend.**

B. If the address on the acknowledge letter matches the address on the G-639, G-28 and/or return address on original envelope:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. Note the case. Example of Case Note:

   Title of Case Note: **Returned Mail – no forwarding address**
   Body of Case Note: Address matches G-639. No other address found. Did not resend ack letter. Name.

2. Give acknowledgement letter to OA Supervisor to Close.

Final Action Letters

Compare address on final action letter to address on the G-639, G-28 and returned address on original envelope. Check all CSDs for a new address.

A. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the letter and responsive records were returned. Case note should include "no other address found; did not resend final action letter" and OA's name. **Scan envelope and front page of letter as CSD.**

   Shred the letter and responsive records.

B. If another address is found in the CSDs:

   1. Update FIPS and final action letter, reprint letter, and label and resend. **Scan original letter and envelope as CSD.**

   2. Write the ID of the **case processor** on the returned letter and give to OA Supervisor.

CDs

A. CDs Returned for postage.

   Make a copy of the CD and re-mail. Attach the copy of the CD to the original CD mailer and give to the OA Supervisor. Note the case with the following case note.

   Title of Case Note: CD Returned for Additional Postage
   Body of Case Note: Re-mailed CD, date and name

B. CDs Returned due to Incorrect Address.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Compare address on final action letter to address on the G-639, G-28 and return address on original envelope. Check all CSD's for a new address.

1. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the CD was returned. Case note should include "no other address found; did not resend CD" and OA's name.

   Shred the CD.

2. If another address is found in the CSD's:

   a. Make a copy of the CD and returned envelope.

   b. Update FIPS and reprint a new label. (Do not update letter in FIPS). Put the new label on the outside of the CD Mailer (not directly on the CD).

   c. Write the ID of the **case processor** on the copy of the returned CD and give to OA Supervisor.

DIRECT MAIL:

This is mail sent directly to NRC from requesters, subjects, attorneys, etc. The content of direct mail is varied and usually requires some type of action. Direct mail could consist of, but not limited to, any of the following:

- Change of Address (see **Request for Change of Address**)
- Status Request (see **Status Letters**)
- Withdrawal of Request (see **Withdrawal of FOIA/PA Request**)
- A request to change the scope of a FOIA request. The action required to change the scope of a request could involve changing the track of the case; depending upon the type of information/documents requested.
- Correspondence about delinquent payments (including checks)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Responses to Track 3 denial or Expedited Treatment denial
- Responses to requests for additional information
- Requester asks for their record on paper: scan in as a case supporting document (CSD)

We may respond to direct mail in writing or by phone, and some mail requires no response.

Please create a case note describing the problem and how it was corrected. FOIA/PA Assistants assigned to handle mail should initial, date, and write what kind of document (such as CSD or REQ DOCS) on the top page and staple the pages together after scanning. Case creators may deliver the fax or mail with CSD's to the OA room for scanning.

Mail or faxes regarding delinquent payments, payments made or checks received is pulled prior to distributing to the Team. If any of these types of documents are inadvertently left in with the mail, please give them to the Team supervisor.

Mail concerning Track 3 or expedited treatment

If we receive additional correspondence via e-mail, mail or fax relating to an existing case, asking for expedited processing or processing as Track 3; forward the correspondence to the MSB supervisor. A supervisor must review the correspondence and make a determination. We must address within 10 days in writing our response to the expedited or Track 3 processing request, whether we grant or deny. FOIA/PA Assistants assigned to mail will place the mail in the Track 3 or Expedited Review bin.

Insert a case note titled "Expedited Treatment Request" or "Track 3 Request." In the text of the case note type whether it was denied or approved and the sequence number of the status letter. Scan the additional correspondence in as a CSD.

If the requester responds to our denial of expedited treatment or Track 3 processing, the procedure is essentially the same: forward it to the MSB supervisor, who will make the determination.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If records locator discovers correspondence relating to expedited processing or Track 3 scanned in but has not been addressed by a supervisor; records locator should insert a case note and send the case to Admin or Unit Chief. Send an e-mail to the supervisor handling the expedited requests and include the control number of the case.

Requester documentation / additional information

This consists of documents or more information that we have asked the requester/subject to provide. When the information is received it is scanned into the requester documentation slot. Use the additional information provided to continue creating the case. If the requester/subject did not provide the alien number, use the information provided to search CIS (9102, 9103 or 9106) and CLAIMS to locate any responsive records, or receipt files. If you cannot locate any records relating to your person, close the case as NR. Copy screen-prints of your searches for scanning in as CSD. (FYI CSD's can be scanned in after a case is closed).

We do not re-open cases that close as FC because the requester failed to reply within the time allotted - unless it is our fault. An example of our fault would be they sent back the requester docs and the envelope was postmarked before the deadline. It doesn't matter if they are one day late returning the requested information. The Team will send the requester a letter advising them that their case has been closed as a FC. If the requester still has an interest in receiving the information, he or she will need to submit a new FOIA request. This includes cases closed within the same month. We are handling these FC requests the same for everyone so nobody is getting unfair treatment. However, if you receive a call asking for more time to return the requester docs, and before the case closes, you may repend the case for an additional 30 days. A template FC letter is located at: O:\Foia\FOIA LIBRARY\Case Create References\Template Letters\FC Letter.

Request for change of address

If you receive a Form AR-11 or other correspondence from an alien wanting to submit a change of address, forward the original letter and enclosures to the following address:

U.S. Department of Homeland Security

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Bureau of Citizenship and Immigration
Change of Address
PO Box 7134
London, KY 40742-7134

For commercial overnight or fast freight services only:

U.S. Department of Homeland Security
Bureau of Citizenship and Immigration
Change of Address
1084-I South Laurel Road
London, KY 40744

Status letters

The public has the ability to check online the status of their FOIA request(s) with NRC at (www.uscis.gov).

From www.uscis.gov, find the link near the bottom of the left column under "Other Services" marked "FOIA Request Status Check." Click there to navigate to the online status check page.

The on line status check will indicate whether the request is still pending, or whether the case has been processed or closed within the last six months.

If the request is still pending, the online status check will indicate the position of the request relative to all pending USCIS requests in the same processing track. It also provides the date the request was received.

If the request was processed or closed within the last six months the requester will be given the date the request was closed. The system does not discern how the request was closed i.e. DP, G1, PD etc., however it does address cases closed for Failure to Comply.

If the control number entered is not recognized, the requester will be advised the number entered is invalid or the case was processed more than six months ago.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The current method of providing a status letter does not give the requester accurate information. In order to better serve our customers the Team should paste in the online FOIA Request Status Check every time a status is requested.

If you need to generate a status letter due to correspondence via mail, e-mail or fax, please run the control number with the online FOIA Request Status Check. You should not provide status to the requester using the "Q" button. Change the information on the letter that shows the status of the case, replacing it with the results from the online status check before you close and save. Use the latest Status Letter from *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters*, since the letter in FIPS may not be the current version. This ensures that the requester will receive accurate information.

Please print the online status check and send it to be scanned in as a CSD to support the status letter.

Withdrawal of a FOIA/PA request

A requester cannot withdraw a pending request without sending us written documentation. Upon receipt of a written request to withdraw a FOIA, please have the request scanned into the case as CSD. Make sure that the WD letter has been scanned in before you close the case. Ask your supervisor to send the case to you in Records Locator. Add a case note indicating that the request was withdrawn per the documents found in CSD.

Mail received in a foreign language

If we receive mail written in a foreign language and you cannot determine whether it is a FOIA request, forward the mail to a supervisor. The supervisor will forward the documentation to MSB, who will then return the translated mail.

BLANK TAPES/CD's

If you receive a blank VHS tape, cassette or CD with a FOIA/PA Request, return it to the requester.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

VIDEO REPRODUCTION

As responsive records are scanned into FIPS; when the scanner encounters any type of media, they forward the alien file to MSB when their scanning is complete. The MSB staff assigned to audio/video reproduction will copy the media and insert a case note that it is complete. Once the case is processed, the processor will send an e-mail to the MSB mailbox with the case number and the page(s) number where the media can be located. MSB will pull the media and process/make any necessary redactions. The media will be mailed to the requester separately.

CONGRESSIONAL REQUESTS AND APPEALS

All Congressional Requests and Appeals are pulled out of the in-coming mail and handled by a supervisor. If you encounter a Congressional Request or an Appeal in records locator that was not previously addressed; send an e-mail to NRC, FOIAMSB mailbox, include the control number and alien number of the case and specific instructions as to what needs to be done. Put the case in Unit Chief. FOIA/PA Assistants assigned to mail will place the mail in the MSB or Appeals bin.

INCORRECT PAGE COUNTS:

The OA room will give final action letters with responsive records to the Team supervisors if the page count in the letter differs from the amount of pages printed. The supervisors will distribute to Team members to correct the page counts.

1. Using FIPS Standalone, go into the case that corresponds to the final action letter (NRC2010_ _ _ _). After the case is opened, determine the corrective action needed by comparing the responsive records in the case to the printed responsive records.

2. Correct the final action letter and reprint the letter.

3. Attach the reprinted final action letter to the responsive records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. Take the reprinted final action letter with the responsive records to the OA room to be mailed out.

5. Write the User ID Number of the person who created the final action letter in the upper right corner of the incorrect letter, and notate on the letter the corrections that you made.

6. Stack the incorrect final action letters in a separate pile. Write "ERRORS" on a post-it note and stick the post-it note to the top page to identify these as the incorrect letters.

7. Give the incorrect letters to the Team supervisors. The supervisors will give the incorrect final action letters to a FOIA supervisor daily for distribution and review.

ALIEN'S STATUS VERIFICATION LETTERS:

The National Records Center no longer issues certified Status Verification Letters to aliens. These letters were usually issued to individuals who had lost their Naturalization Certificates and needed verification of their status to apply for a passport or old age pension benefits in another country. If you get a request for certified Status Verification Letters, refer these individuals to USCIS.GOV to make an INFOPASS appointment.

INQUIRY FOR FILE REVIEW:

If you receive an e-mail regarding an inquiry for a file review, and the request is not in regard to a FOIA request, do not call the person or forward the e-mail to another NRC Division. Forward the e-mail to a Supervisor.

RECORDS LOCATOR

Cases assigned to records locator will require some kind of action. Some of the most common reasons are:

- The staffing has to be re-pended
- Additional PII or consent is needed

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Requester docs have been received
- Requester writes to request the record on paper
- The wrong records were scanned into the case
- We need to send an interim interest letter to an incarcerated individual
- The file is lost
- We got a response of not found or consolidated from a service center.

It is important to read all case notes as well as insert case notes as necessary. Listed below are points/actions that you should consider while working cases assigned to records locator.

- Always check cases in FIPS for duplicates searching all offices using the Alien number and name of the subject of record. If the subject of the request is a petition, it may help to search by the requester to see if that petition has already been addressed.

- Research cases and take needed action(s) on cases.

- Read and follow directions in any case note found in the case regardless of age or who put them in. If there is a question, see your supervisor before proceeding with any action on the case.

- Anytime you create a new staffing, you must cancel the one it replaces.

- Do not cancel staffing sheets and re-staff just because the request is old and has been pending for an extended period. Canceling staffing sheets and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly. Please continue to repend these cases as necessary.

- If the A file has been scanned in and we are waiting on a T-file, review T-file staffings in NFTS History. If the T-file has been deleted or combined with an A-file or is from a RAFACS conversion, then cancel that staffing, because the T-files no longer exist. Send the case to the processor.

- A-file has been scanned in, but there is an open pending slot for a T-file: Review "T" file history in NFTS. If the "T" file has been consolidated /combined with the A-file, check the date it was consolidated. If the "T" file was scanned in with the A-file, cancel the pending "T" file slot and send the case to the processor.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- If you see it has been through image process box and returned to a shelf then further research is required.

  a. Check all offices for duplicate cases in FIPS using the alien number.

  b. Does the subject have more than one alien number per a case note or on their request? If so, search those for potential duplicate cases.

  c. If you find a duplicate case, make a case note and advise NRC, FIPSPROBLEM mailbox with an e-mail and repend for 30 days.

- **Additional PII needed:** Sometimes when a processor retrieves a case, he or she will determine that additional PII or consent is needed from the requester/subject. You will have to create an Interim Response Letter and check the other documentation box. Modify the letter and attach the Requester Documentation Attachment (located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Requester Docs Attachment). Check the boxes required and pend the case for Requester Documentation. If the processor is asking for information that is already present in the scanned documents, put in a case note asking for clarification on what the processor is requesting. You may also have to point them to the slot where the information is currently contained.

- **If you pull a case in Records Locator and the Requester Documentation has been received:** Review the information provided, if the requester/subject has provided the requested PII and/or consent, staff for the file.

- **The requester/subject may respond negatively to the request for PII.** If we receive a negative response, attempt to locate an alien file and staff, matching as much of the PII as possible. Pend the case for responsive records.

- **If the requester/subject does not return the PII we asked for, and if a positive match cannot be identified in CIS or CLAIMS** with the PII provided, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-PII. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

- **If the requester/subject does not return proper consent**, generate a FC letter and replace the contents of the letter with the template letter Failure to comply

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

letter-Consent. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

- **If a request for consent is returned but the requester says he or she is a third party requester** (they have no relationship to the subject of the record and cannot or will not get consent), staff for the file. Create a case note advising the processor to process this case as third party without consent.

Occasionally you will pull a case in Records Locator and there is a case note stating the wrong records have been scanned into the case. This will require some investigative work before a solution can be determined.

- **Did the Case Creator use the wrong alien number when the case was originally created or when the records were staffed?** If so, please staff for the correct file. You must then send an e-mail to FIPS Problem mailbox and ask that the wrong records be removed. Clicking the link above will automatically send a copy to the FOIA Program mailbox. Please also send a CC of this e-mail to your supervisor.

- **Did the requester ask for a copy of a petition they filed on behalf of a beneficiary?** If so, the case was probably set up incorrectly. Check first to see if there are two cases for the requester. If not, you will need to correct the one that exists to become a request for the beneficiary's information. Locate the correct records and re-staff.

- **Did the scanning contractor scan the wrong records into the case?** If you've reviewed the entire file and there was no mistake made by the FOIA unit, it is possible that the scanning contractor has scanned the wrong file into this case. Here are the steps to follow if you believe this may have happened:

  1. Look for a pending case for the records that were scanned into your case.

  2. If you locate a case, check to see if the responsive records have been scanned.

  3. If they have not, you'll need to have the records moved from your case over to the correct case. You will have to have the slots in your case re-set to pending by the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. If the pending case already has records scanned in, review those records.

    i. Are they the correct records for that case? If so, then you will need to verify that they are a duplicate of the ones in your case.

    ii. If they are duplicates, then you do not have to do anything with that case.

    iii. You will need to have the wrong records removed from the staffing response and responsive records slots in your case. Send an e-mail to the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

If you pull a case in Records Locator and there is a **case note instructing you to create an interim response letter because the individual is incarcerated**:

- The request must be over six months old before we send out the interim letter. If your case meets this criterion, create an Interim Interest Letter.
- If the interim interest letter is returned saying the subject is no longer in custody and we do not have another address for the subject, you can close the case FC. **Do not close out the case FC without the returned mail.**
- If the individual is still incarcerated and still interested in receiving the record, send the case to the processing queue.

If you pull a case in Records Locator and there is a document scanned into the Staffing Response and the Responsive Records slot which has been changed to NA, look at the document scanned in to the Staffing Response.

- If the case was staffed for a receipt file that has been sent to NVC (National Visa Center), redirect the request to NVC. Replace the content of the letter that appears with the template letter on the common drive, O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters \NVC letter. Send the case to Admin and send an e-mail to your supervisor with the case information. The supervisor will review and close the case.

- If the receipt file is marked lost, file destroyed, or file cannot locate, go to Receipt files; Lost receipt file, File destroyed or File cannot locate.

- If the receipt file has been rejected by the service, there are no records to retrieve. Close out as No Record, with an explanation of rejected receipt files.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REPENDING IN RECORDS LOCATOR

- Do not create a case note that you repended the case; the system automatically creates a case note.

- If you open a case in Records Locator and the file has not been scanned in nor is there any staffing response, you will probably have to repend the responsive records slot. However, before you repend the responsive records, verify the location of the A-file in NFTS and on the 9504 screen in CIS.
  1. If the file has moved to another FCO, you should cancel the current staffing sheet and create a new one to reflect the new FCO.
  2. If that file has moved from the original staffing location and is now in-transit to the NRC or has been received at the NRC, repend for 30 days. Do NOT cancel the original staffing sheet or re-staff to RAFACS/CIS.
  3. Do not cancel staffing sheets and re-staff just because the request is old and has been pending for an extended period. Canceling staffing sheets and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly.

- If the file has been received by NRC and NFTS shows scanning, image processing, image problem files, streamliners (anything except a shelf location) repend for 30 days.

- If a SIG case comes up for repending in Records Locator, please repend for 30 days and notify NRC, FOIASIG of this. Insert the NRC case number on the subject line.

- If NFTS shows the file is at the NRC and the location is SEIT Admin "FOIA files awaiting partner" do further research. If there is an A-file and a T-file that will be scanned in together when the other arrives, then repend 30 days. If there are two separate staffings for files, then e-mail NRC, FOIAFILEREQ to research and to have the file scanned in if necessary.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CHANGING THE TRACK OF A CASE

Do not change the track of a case except in the following instances:

- The requester is narrowing the scope of their request from a Track 2 case to a Track 1 case. Prepare a status letter and advise the requester that their case is now on the simple track.
- The requester has responded to our acknowledgment letter stating that he or she did not mean specific documents only, and this would cause us to move a case from Track 1 to Track 2. Prepare a status letter and advise the requester that their case is now in the complex track.
- The requester has a Track 2 case and provides the required documentation to change their request to a Track 3. Prepare a status letter and advise the requester that their case is now in Track 3.

When you change the track of a case, ensure you click the "U" button prior to exiting the case.

RESPONSIVE RECORDS SCANNED IN WITH STAFFING RESPONSE

Occasionally the responsive records are scanned in behind the staffing response, instead of into the responsive records slot. These cases then appear in the processing queue, but cannot be processed. The processor will send a message to the NRC, FIPSPROBLEM mailbox for correction and insert a case note explaining the problem.

If the case has not come up for processing and you encounter this situation in Records Locator, put a case note indicating the problem (Responsive Records scanned into Staffing Response slot), and send a message to the NRC, FIPSPROBLEM mailbox with the following information:

- The NRC control number of the case,

- The A number or Receipt Number of the records,

- The staffing sequence they are scanned into, and

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- The number of pages scanned in.

Send the case to Unit Chief/Admin so that the problem can be resolved.

Click here for instructions if you pull a case in Records Locator that has been staffed for a **Lost File**.

CASES NEEDING ACKNOWLEDGEMENT LETTERS

Cases received in Records Locator that need acknowledgement letters must be re-assigned to a Troubleshooter in the Case Create role. Please contact a supervisor with the NRC Control Number and ask that the case be re-assigned to you in the Case Create role.

RE-STAFFING

- If the file has moved to another office, cancel pending slot and staff to the correct FCO. ***Do not confuse this with files that are now in-transit to NRC.**
- If the current staffing is not correct (for example - an Atlanta general staffing instead of an Atlanta ICE staffing): Cancel the pending slot and re-staff properly.

FOIA SAFE

Cases staffed to the FOIA Safe are processed in the NRC queue.

While working Records Locator, if you pull a case that has been staffed to the FOIA Safe, **NEVER** cancel the staffing. Repend the case for 180 days and pend it for responsive records.

The RPC for the FOIA Safe is ZW0004.

If you see an RPC of "**ZW**" anywhere, it is a classified file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

IN TRANSIT FILES

If NFTS shows a file is now in transit to the NRC, repend for 30 days. ***Do not cancel the staffing and re-staff to NRC.**

MODIFICATION OF RECEIPT DATES

Modification of receipt dates is a serious matter. Final approval authority to modify a receipt date is ACD or higher. Any decision to modify a receipt date must take into consideration the negative effect such an action will have on the integrity and accuracy of the data in FIPS, as well as possible legal consequences.

MSB DIRECTED PROJECTS

Occasionally, MSB may have special projects that require your assistance.

MSB paralegals must receive prior approval from a supervisor before approaching any member of the team member for assistance on such projects.

Supervisors will select the person(s) to assist with the projects as needed.

APPENDIX D: CASE CLOSING CODES

PD – The case has been processed, responsive records were released in part.

G1 – The case has been processed, responsive records were released in full.

DP – The case was closed as a duplicate of another case.

ER – Created in error. (see **ER Case Closings**)

WD – Case was closed as a withdrawal.

NA – FOIA/PA not applicable. You are required to select the office the request is being redirected to. Select "ALL", two letters will be generated. On the second letter delete the contents and save to ensure the second letter is not sent.

NR – The case was closed as no record. A search of all databases was conducted for any files relating to the subject. No results were found. All screen prints are scanned in as CSD.

UT – Unable to locate alien file. Cases can be closed if the alien file is marked as lost and it has been more than one year. A thorough search of all systems must be completed.

FC – Cases close failure to comply when requesters fail to supply requested information. (i.e. Interim Interest Project, consent, subject has fugitive status or request for additional information)

FP – Cases close failure to pay when requesters fail to submit payment.

RD – Advise requester to contact another government agency to acquire records. We tell the requester whom they should contact to obtain records responsive to their request.

RF – Cases forwarded to DHS components. We tell the requester the name of the agency we referred their request to.

APPENDIX G: DEFINITIONS

The definitions listed below are words and phrases that frequently appear in FOIA and PA requests. The list is arranged in alphabetical order. Additional definitions can be located at http://www.uscis.gov/portal/site/uscis/menuitem. Select the tab titled "Education and Resource."

Access - Includes any form of disclosure, to include oral, visual, or reproduced copy. A reproduced copy, whether in paper or electronic format, always satisfies FOIA/PA access requirements.

Agency - Any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency. This does not include the legislative (Congress) or judicial (Courts) branches of the Government, nor does it apply to state, local, or foreign government agencies. The Department of Homeland Security (DHS) is an agency as defined above. The following are components or bureaus of the Department of Homeland Security; United States Immigration and Customs Enforcement (ICE), United States Customs and Border Protection (CBP), United States Secret Service (USSS), etc.

Agency Record - Any tangible recording of information and/or any item, collection, or grouping of information, including electronic that is maintained and controlled by an agency.

Notes or documents which are made by an employee, kept purely voluntarily, not circulated to nor used by anyone other than the author, and discarded or retained at the author's sole discretion for his/her own individual purposes are personal records. These are not generally agency records because they are not subject to the rules and controls of the agency for records management and disposition. These may, however, become agency records for purposes of the FOIA or PA if used to carry out an agency function (e.g., as the basis for a performance rating).

Component - Each separate bureau, office, board, division, commission, service, or administration, or agency of a Federal Executive Branch Department. For example: Border and Transportation Security (BTS), Citizenship and Immigration Services (USCIS), Federal Emergency Management Agency (FEMA), Immigration and Customs Enforcement (ICE) are components of the Department of Homeland Security.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Conditions of Disclosure - Specific provisions in the Privacy Act (5 U.S.C. § 552a(b)(1) through (12)) allows the agency to disseminate information from a PA system of records without the prior written consent of the record subject.

Congressional Committee Request - A request from either House of Congress, to the extent of matters within its jurisdiction; a subcommittee thereof; any joint committee of Congress; any subcommittee of any such joint committee. Agencies may not use FOIA or PA exemptions to deny records that are the subject of such a request.

Congressional Request - A request from a Member of Congress on his or her own behalf, or on behalf of a constituent. After acknowledgment under congressional correspondence procedures, congressional requests are to be processed in the same manner as any other FOIA or PA request.

Consolidation – Combination of paperwork into a main file. After the service completes work on a petition or application, we combine it into the person's A-file. If the service discovers two "unconsolidated" A-numbers for a person, we combine the two files. One of the A-numbers becomes the "survivor" and the other becomes the "consolidated A-number."

Consultation - Obtaining the views of another DHS component or Federal agency concerning the release of information that has been incorporated into immigration documents or a reciprocal request. The National Records Center, FOIA/PA Division, makes the final overall determination on release.

Freedom of Information Act Request - A request **in writing** by any person for access to any record maintained by any Federal agency. Federal agencies are not persons for purposes of FOIA.

Included are requests for access to Privacy Act records of another person without the written consent of the record subject, as well as requests from nonimmigrant aliens for access to their own records.

FOIA/PA Information Processing System (FIPS) - Through the use of imaging, workflow, and graphical user interface technologies, FIPS allows USCIS to electronically manage and process FOIA and PA requests.

First Party Requester - A subject or designated representative asking for access to his/her record. A notarized signature or a sworn declaration under penalty of perjury from the record subject is required for access to records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Forms – Various government forms available from www.uscis.gov/portal/site/uscis that are provided for the use of requesters and their representatives when submitting a FOIA or PA request with USCIS. The more common forms include:

- G-28 – Notice of Entry of Appearance as Attorney or Representative - This form is used for information purposes only. It should be signed by the attorney or representative and by the subject of the record. Does not qualify for consent unless the attorney or representative has inserted the penalty of perjury statement and the subject of the file has signed the document.

- G-639 Freedom of Information/Privacy Act Request – This form can be used to make a FOIA/PA request. When completed it provides enough information to complete an extensive search for records.

Individual - The PA describes an individual as follows: a U.S. Citizen (U.S.C.) or alien lawfully admitted for permanent residence (LPR). Conditional residents are considered LPRs. Corporations and organizations are not individuals.

Multi-track System - USCIS utilizes a three-track system to process all FOIA requests.

- Track 1 is used for the less complex cases. These are cases where only one or a few specific documents are being requested from the file.

- Track 2 is used for the more complex cases. A complete copy of a file, requests from the news media or special interest groups are considered Track 2 cases.

- Track 3 is used for cases that specifically involve individuals who have been scheduled to appear before an immigration judge.

Privacy Act Amendment Request - A request from a U.S.C. or LPR to amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete.

Privacy Act Record - Any item, collection, or grouping of information about an individual who is a U.S.C. or LPR; the maintaining agency retrieves by the person's name, identifying number, symbol, or other identifying particular assigned to that individual. This information includes, but is not limited to, a person's education, financial, medical, criminal or employment history.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Privacy Act Request - A request in writing submitted either in person or by mail, for records that are contained in a Privacy Act system of records. The records must be under the control of DHS and be retrieved by the name of the requester or other personal identifier. Requests are received from:

- A USC or LPR for access to or his/her own records, or
- A third-party with a signed privacy waiver from the record subject acting on the subject's behalf, or
- The parent of an LPR or USC minor child or the legal guardian of a person declared incompetent by a court of competent jurisdiction.

Records Custodian - The official responsible for the maintenance, security, control, and final disposition of official records that are required by law, regulation, or other directive to be kept by the Agency.

Referral - Information found in immigration records – the forwarding of a record that originated with another component of DHS or another Federal agency for direct response to the FOIA/PA requester. Also includes transferring responsibility for responding to a request regarding the release of records to the DHS component best able to determine whether to disclose, or to the Federal agency that originated the record.

Retire – The service sends the A-file to the Federal Records Center (FRC) after a number of years have passed with no activity. This is called "retiring" the file. Occasionally, we have to request a retired file from the FRC.

Rider – A person who is also listed on a petition or application that will also benefit if that petition or application is approved. For example, a woman applying for asylum lists her husband and two children on her asylum application. They are riders.

Routine Use - An established use and authority for disclosure of records from a Privacy Act System of Records, other than an intra-agency disclosure. Disclosure or use must be for a purpose that is compatible with the purpose for it was collected, that would be otherwise prohibited by the PA. Such disclosures do not require the written consent of the record subject, but require Federal Register publication prior to such use.

System of Records - A group of any records under the control of an agency from which information is retrieved by the name of the individual or by some other identifying number, symbol, or identifying particular assigned to the individual.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Third Agency - Other administrative agencies of the Executive Branch of the Federal government, including other components of DHS.

Third Party Request - A request from any person for access to another individual's record without that individual's written consent. The identity of a third party requester and his/her relationship to the subject does not increase (or decrease) his/her rights of access to the records.

White House Inquiries - An official request from any member of the White House staff, or letters of the President forwarded to the agency for response.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

FOREWORD

The FOIA/PA Assistant's Guide has been prepared as a ready reference to assist with day-to-day tasks, such as creating Freedom of Information Act and Privacy Act requests, handling mail, working records locator, and general troubleshooting.

Any previous material distributed in *FOIA Information Bulletins* has been incorporated into this Guide.

For the purposes of this Guide, we may refer to a FOIA/PA Assistant as "you," or "Assistant," and in some cases "team member."

The Guide has been saved in PDF format. The PDF format makes searching for information in the Guide easier. **Please view the guide in PDF/A mode while you have FIPS 7 open.** A potential Java scripting conflict exists if you have the document open in PDF mode while running FIPS 7. Viewing the Guide in PDF/A mode disables Java scripting within the Guide – which means hyperlinks within the Guide will not work, but FIPS 7 will not freeze or crash. You may alternate between PDF and PDF/A mode in Acrobat Reader by selecting Edit ⇨ Preferences ⇨ Documents ⇨ PDF/A View Mode. Select "Never" to turn PDF/A mode off, and select "Only for PDF/A documents" to turn PDF/A mode on.

How does the rulemaking process for this Guide work? The Chief of FOIA/PA Operations and your Supervisors direct how Paralegal Specialists, FOIA/PA Assistants and Office Automation personnel accomplish their missions. Through the Chief of Operations, Supervisors submit a new rule or procedure to the Chief FOIA/PA Program Officer. At the direction of the Chief Program Officer, Program Office may immediately amend the guide, or they may seek clarification from Office of Chief Counsel. After consultation, Program Office will either amend the Guide or propose a modified rule to Chief of FOIA/PA Operations. Major re-writes or revisions of the guide are subject to the final approval of the USCIS FOIA Officer.

You, the FOIA/PA Assistant, may notice something in the Guide that is awkwardly worded, or contains a typographical error, or something that simply is not true. You contact your supervisor and then Program Office amends the guide.

Ideally, before we amend the Guide, we first publish a FOIA Information Bulletin (the exception being a misspelled word or a missing punctuation mark). FOIA Information Bulletins and the latest version of this Guide are available on the USCIS FOIA/PA Operations intranet page. When we make additions or revisions, we create a Record of Revision at the front of the Guide for quick reference.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Record of Revision

May 6, 2011

***Paragraph 7.1,* Consent of Parents or Guardians,** *of the **FOIA/PA Assistant's Guide** has been changed (changed portion is underlined):*

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. No consent is necessary from the minor child or the person judicially determined to be incompetent, however the parent/guardian must provide his or her own verification of identity that is notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors may request their own files; they do not have to have the consent of their parents or guardians to do so. Attorneys may represent minors also.

***Paragraph* 12.7.11 T-files** *of the **FOIA/PA Assistant's Guide** has been changed* (changed portion is underlined):

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, WSC or RDF for scanning. Those offices either scan directly into FIPS for us or we export the A-file from EDMS. Therefore, if the A-file is at one of the above service centers and there is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

***Paragraph* 12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS** *of the **FOIA/PA Assistant's Guide** has been changed* (changed portion is underlined):

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.3.9 **If the A-file is lost but other records exist** (such as receipt files we would normally request or other a-files, including T-Files, wherever they may be, including NRC) Request the additional records. Put in a Discussion that reads:

> A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

APPENDIX H: CASE CREATE FLOW CHARTS has been added to the FOIA/PA Assistant's Guide.

APPENDIX I: ALIEN NUMBER ASSIGNMENT has been added to the FOIA/PA Assistant's Guide.

May 13, 2011

Paragraph 12.7.6 of the **FOIA/PA Assistant's Guide** has been changed as follows (added portion underlined ~~deleted portion stricken through~~):

> When conducting "no record" research, do the query and provide screen prints of all searches as directed. ~~Open a RAFACS *(not RAFACS/CIS)* staffing slot only. Click on "Customize Letter."~~ Print the appropriate CLAIMS screen prints (this should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names). Prepare a "Scan As" sheet to be scanned as case supporting documents ~~responsive records~~ for the case number you have just created, attach it to the screen prints and take those to the OA room for scanning as CSD ~~person designated to scan RAFACS only responsive records~~. ~~Pend the case~~ prepare a Final Action Letter with closing code

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

NR. Insert a Discussion outlining the systems you searched and stating that you have sent the documentation to OA for scanning as CSD. Send to Up-front Approver.

Paragraph 12.7.12 of the **FOIA/PA Assistant's Guide** has been changed as follows (added portion underlined ~~deleted portion stricken through~~):

12.7.12 Receipt files

12.7.12.1 Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC**/SRC, WSC/WAC, MSC/NBC or NSC/LIN)**. For example, [redacted] etc., are not receipt files we can request.

(b)(6)

12.7.12.2 If the requester does not specifically ask for a receipt file and provides an alien number, request the alien file only. If the requester specifies a receipt file, search NFTS and staff for that receipt file OR if the receipt has been consolidated into an alien file, staff for that alien file.

12.7.12.3 If the requester does not provide any receipt number or alien number, then you must research CIS, CLAIMS and ~~possibly~~ PCQS.

Be cautious about requesting receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will request the EAD card.

If they provide a receipt number, you must research CLAIMS, PCQS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please request the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

If there is no location information in NFTS, and if NVC does not have the receipt, but there is a record in PCQS, print any PCQS screen(s) concerning the petition. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

~~**12.7.12.4** If there is no information about the receipt file in NFTS, regardless of the prefix of the receipt number, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."~~

New paragraph:

12.7.12.4 As a matter of last resort, if there is neither information about the receipt file in NFTS nor PCQS and you have called National Visa Center and determined NVC does not have the receipt, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

May 27, 2011

Paragraph 6.3.4.6 of the FOIA/PA Assistant's Guide will be changed as follows: (changed portion in red)

As it used to read:

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Close the request as an ER and send to Up Front Approver
b. Send an e-mail to the OA room and include the following information:
   1) REQ#
   2) NRC#
   3) Scanner's initials
   4) Date scanned

The OA room will pull the original request, include it in the current days count and follow return procedures.

Updated Paragraph:

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Create the and control the case.
b. Do not staff for any records and do not prepare an acknowledgment letter.
c. Send the case to Unit Chief with a discussion explaining it is a possible Genealogy

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

d. Send an email to the designated person who handles genealogy cases (currently Donna Brasfield) with the control number.

The designated person will review the request to determine if it is, in fact, a genealogy.

If it does not meet the criteria for genealogy it will be returned to you in Case Create to send an acknowledgment letter and staff for records.

If it does meet the criteria, the designated person will create a letter referring the requester to the Genealogy program and will close the case as ER.

Paragraph 12.5 Receipt Numbers of the FOIA/PA Assistant's Guide has been changed as follows:

As it used to read:
Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA MSC/NBC file request. **Do not request DIG T-files at HBG with RPC codes XX or ZG.** Refer to the Staffing Sheet Guide for the most current information.

Updated Paragraph:

Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA HBG file request. **Do not request DIG T-files at HBG with RPC codes XX, XY, ZG, ZY, or ZZ.** Refer to the Staffing Sheet Guide for the most current information.

June 10, 2011

The wording of paragraph 28 of the **FOIA/PA Assistant's Guide** has been changed as follows:

Current language:

28. CONGRESSIONAL REQUESTS AND APPEALS

All Congressional Requests and Appeals are pulled out of the in-coming mail and handled by a supervisor. If you encounter a Congressional Request or an Appeal in Records Locator queue that was not previously addressed; send an e-mail to NRC, FOIAMSB mailbox, include the control number and alien number of the case and specific instructions as to what needs to be done. Put the case in Unit Chief. FOIA/PA Assistants assigned to mail will place the mail in the MSB or Appeals bin.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Here is the new paragraph:

28. CONGRESSIONAL REQUESTS AND APPEALS

a. Congressional requests. True congressional requests are requests from a congressman or senator for information which usually does not relate to an alien file or receipt file. Most FOIA/PA requests with congressional correspondence should be handled under paragraph b. of this section, however, if you feel that you have a true congressional request or appeal, control the case, put the case in Unit Chief, and e-mail your supervisor the control number. A supervisor will either send the case to SIG or return the case to you for staffing.

b. Congressional requests on behalf of a constituent: These are requests that have some kind of congressional correspondence included with the request from the subject. These cases should be created in the same manner as any other FOIA or PA request. Please use the subject's name as the requestor, mark "self" in the source block, create the acknowledgment letter and go out for verification of identity or consent as needed. Insert a case note, and e-mail Vicki Ohrnell the control number.

July 8, 2011

A new flow chart for Lost File procedure has been added to **APPENDIX H: CASE CREATE FLOW CHARTS** in the FOIA/PA Assistant's Guide.

Additionally, in paragraphs

12.7.2 Files Lost or Not Found LESS THAN NINE MONTHS
and
12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS
the following new sentence has been added:

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

Paragraph 6.1.1.10 of the **FOIA/PA Assistant's Guide** has been changed as follows:

Old version:
6.1.1.10 If the only evidence of an attorney is an envelope or letter, but there is not a duly executed Form G-28, create the case using the name and address of the requester in Section 2,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

"*Requester Information*." Do not use the address on the envelope or letterhead.

New version:
6.1.1.10 If the request came to us on Form G-639, always use the name and address of the requester in Section 2, "*Requester Information*." Do not use the address on the envelope, or Form G-28 or letterhead *unless* the requester did not use Form G-639 *or unless* Section 2 of Form G-639 is illegible. If the address on the G-639 is a foreign consulate office, or is a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you can find no other address, insert a case note and send the case to U/C.

Be careful - it is easy to miss apartment or suite numbers because the space for them is at the right side of Form G-639.

The following has been added to 6.4 SEARCH FOR DUPLICATE CASES of the FOIA/PA Assistant's Guide: (old text lined through, new text in red)

> This does not include instances in which the requester has faxed the request and then mailed it. If you open a case and find that the exact same request has very recently been created, chances are that you have opened the mailed copy which followed a few days after the fax. ~~Close this case as ER (created in error).~~ Do not create such a case. Click "Send to Research." That case will go and you will be ready for your next case.
>
> Ordinarily, you will search by Alien Number, and if you do not find a duplicate or similar case, your search will be complete. If the requester did not provide an alien number, you may search by the subject's last name and first name, or even by the requester's last name and first name. You may use a percent sign (%) as a wild-card for these searches. For example, if the requester's name is Jaime Vazquez, but you see he also has spelled his name Vasquez – you can search by Subject Last Name "Va%" and Subject First Name "Jaime."

Further on within paragraph 6.4, in the examples, there are two more changes:

> ~~Create a Final Action Letter and select final action code ER: Created in Error. After this, send the case to Up-front Approver~~ Do not click "Create Case." Click "Send to Research." You will then be ready for your next case.
>
> If you determine that it is not a true duplicate, please insert a new Discussion entitled "Similar Case" in each of the cases, so that a processor or approver can review both.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the date of the request is either the same as your request or within a very few days and:

1. The requester is the same, and
2. The information being requested is the same in both requests,

Do not close this case as a duplicate. ~~Instead, close this case as ER (created in error)~~ Do not click "Create Case." Click "Send to Research."

August 30, 2011

We have added a new paragraph 8.23 to the FOIA/PA Assistant's Guide, as follows:

8.23 SITUATION: Requests from Prospective Adoptive Parents

In the recent past, Vietnam, Cambodia, Guatemala, Nepal, Ethiopia and other countries have had problems concerning adoptions. Birth Certificates have been forged and babies have been taken without consent of the biological parent. In Vietnam, "baby brokers" scour villages looking for unwed, impoverished mothers. They purchase the babies for about $50 and sell them to commercial adoption services. In Guatemala and elsewhere, people steal babies and sell them to middlemen. Prospective adoptive parents from Spain, Italy and the United States are typically willing to pay as much as $25,000 to adopt a child. (This information comes from kidsofkathmandu.org).

Normally if we cannot verify consent or prove parentage in a case, we send out for more information. Please do not send out for additional information in pending (not finalized) adoption cases for the following reasons:

1. The Prospective Adoptive Parents (PAP) have the right to all information they submitted for the adoption. It is likely that the adoption never happened. If that is the case, they have no proof of parentage or guardianship.
2. The child is usually too young to give consent.
3. Congress has substantial interest in this matter.

If you decide you need proof of parentage after a full search, please send your case to Admin for supervisor review.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. THE FREEDOM OF INFORMATION ACT

Congress passed the Freedom of Information Act (FOIA) in 1966 to establish the public's right to access records created or maintained by federal executive branch agencies. The statute became effective on July 4, 1967. The statute relating to the Freedom of Information Act is 5 U.S.C. § 552.

2. THE PRIVACY ACT

The Privacy Act of 1974 regulates the collection, maintenance, use, and dissemination of personal information by the federal government. The statute relating to the Privacy Act is 5 U.S. C. § 552a. The statue became effective September 27, 1975.

3. WHAT ARE FOIA REQUESTS AND HOW DO WE GET THEM?

A Freedom of Information Act (FOIA) request is a request in writing for a copy of any record maintained by any agency of the executive branch of the government. Persons must reasonably describe the records sought, and those records must already exist. Requests can come in a variety of ways. They can come in on the Form G-639 or as a letter from an attorney or representative. They can come in the form of a letter from the alien himself. The requester may mail, fax, hand deliver, or e-mail a request. No matter how we receive them or what the format is, as long as they are in written form and provide enough information to ascertain that they want documents from us, we treat them as FOIA requests. A Privacy Act (PA) request is a request by a person for a copy of his or her file.

For case creating purposes, the difference between a FOIA and PA request does not matter. You will create all cases as FOIA requests, although some of the requests we receive are PA requests. The case processor determines whether the case falls under the Freedom of Information Act or the Privacy Act.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. WHO CAN MAKE A FOIA REQUEST?

Anyone can request any record kept by the executive branch of government. The tricky part is determining if we have enough information and consent to provide the record and who is entitled to what. The most common types of requesters are:

- First party requesters, that is, the alien himself or his designee, attorney or representative, are entitled to a complete copy of the alien file, after any applicable exemptions are applied. However, a parent or guardian may make a request for a minor's record. Please refer to the section titled **"CONSENT RELATING TO RECORDS CONCERNING A MINOR OR PERSON JUDICIALLY DETERMINED TO BE INCOMPETENT"** in this guide.

- Third party requesters, that is, an individual seeking a copy of an alien's file without the subject of record's consent, are entitled only to documents of a public nature or documents they provided in support of an application/petition. Please refer to the section titled **"THIRD PARTY REQUESTS"** in this guide.

- Media requesters are typically accredited members of the media.

- Bond obligors, companies who posted immigration bonds for the aliens, are entitled to a copy of the file under a court case entitled *Amwest v. Reno*. Please refer to the section titled **"IMMIGRATION BOND OBLIGORS"** in this guide.

- Other state and local government agencies are entitled to documents from alien files for law enforcement purposes. Requests for information originating with any other federal agency are operational matters and not FOIA or Privacy Act requests. Please refer to the section titled **"ROUTINE USE"** in this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

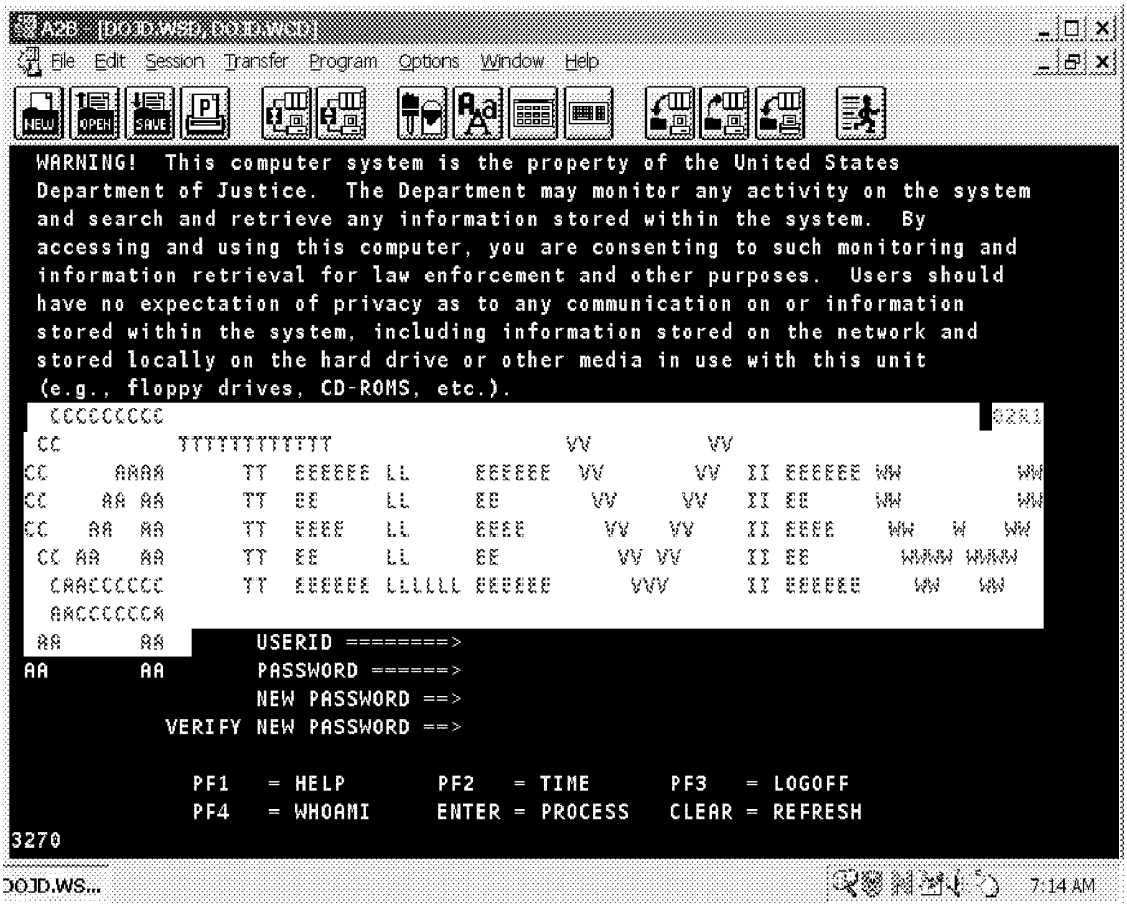
5. SYSTEMS USED AND DESCRIPTION OF THE SYSTEMS

The paragraphs below provide a description of some of the systems used by USCIS, ICE and CBP. Most A-files contain screen prints from one or more of these systems.

5.1 Central Index System

(CIS) is a database used to maintain records, search for records, and display data. CIS is a menu driven system as opposed to a point-and-click graphical user interface system. CIS provides information about persons and information about file location and movement. The CIS user navigates among various screens, depending on the type of information he or she needs. A user may search for a person in CIS by using the a-number, social security number, FBI number or a passport number. CIS provides the option of searching for people using "sounds-like" and exact name searches.

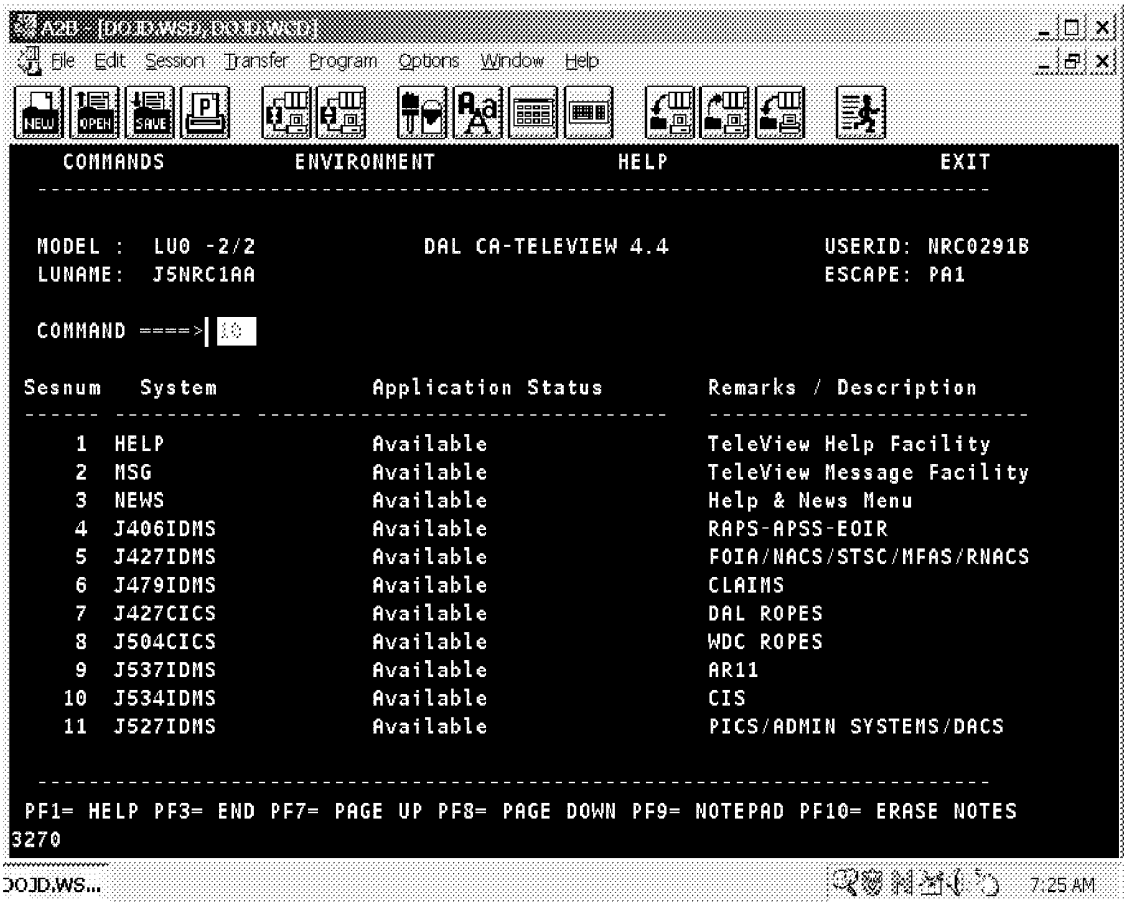
5.1.1 Introduction Screen



This screen is the introduction to TeleView. From this screen use the designated UserID (last 4 digits of Social Security Number plus an alpha) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.2 TeleView Main Menu



The number selected to access CIS will vary for each computer.

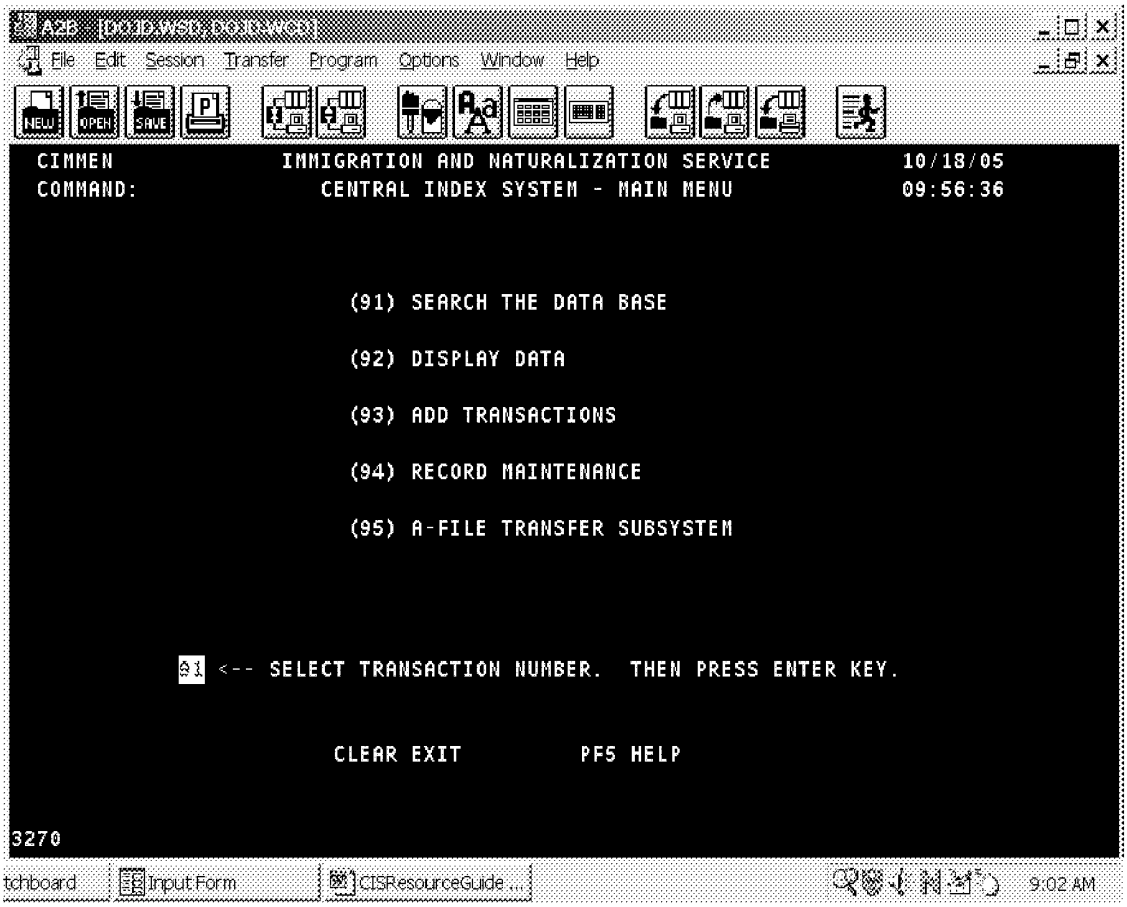
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.3 CIS Login Screen

This is the screen used to navigate through CIS. Pressing enter can access the main menu for CIS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

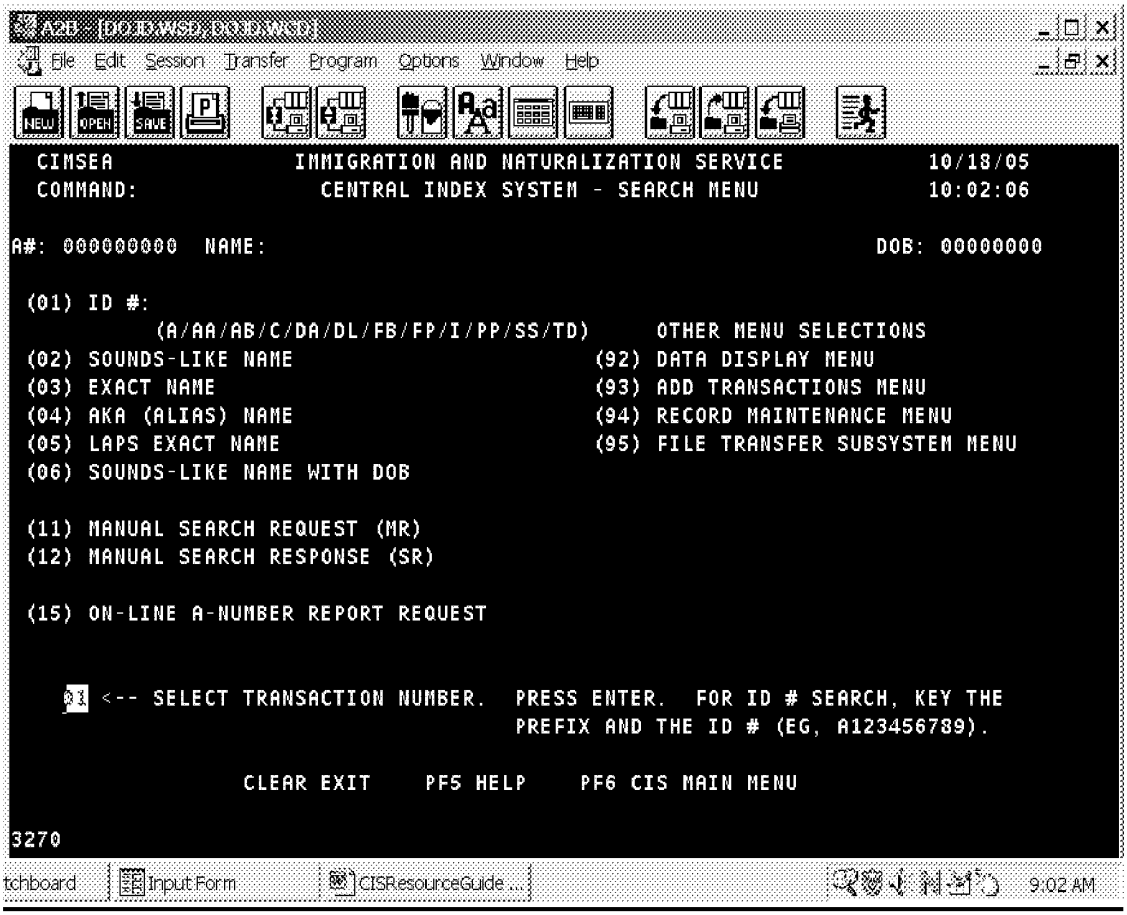
5.1.4 CIS Main Menu



This screen displays a variety of ways to search for information. The transaction numbers that we use within FOIA are 91, 92, and 95. By typing the number 91 next to select transaction number and pressing enter, another search screen will appear. The main purpose of the "91" transaction number is to search the database for specific information concerning an individual. Transaction number "92" is used to display card information. The transaction number "95" is used mainly to see the location of the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.4.1 Search Menu Screen



From this search screen a decision is made as to how to begin a search for an individuals records. The most commonly used methods to search for an individual's record are:

Code	Search By Category
01	ID # (A-number, certificate number, social security number, passport number ect.)
02	Sounds-Like Name Search
03	Exact Name Search
04	Alias (AKA) Name Search
06	Sounds-Like Name Search with DOB

Type in the two-digit code (01) and press enter. The screen displayed will be the screen where the search for records begins. ***Note:** Remember to read the screen in its entirety for additional information.

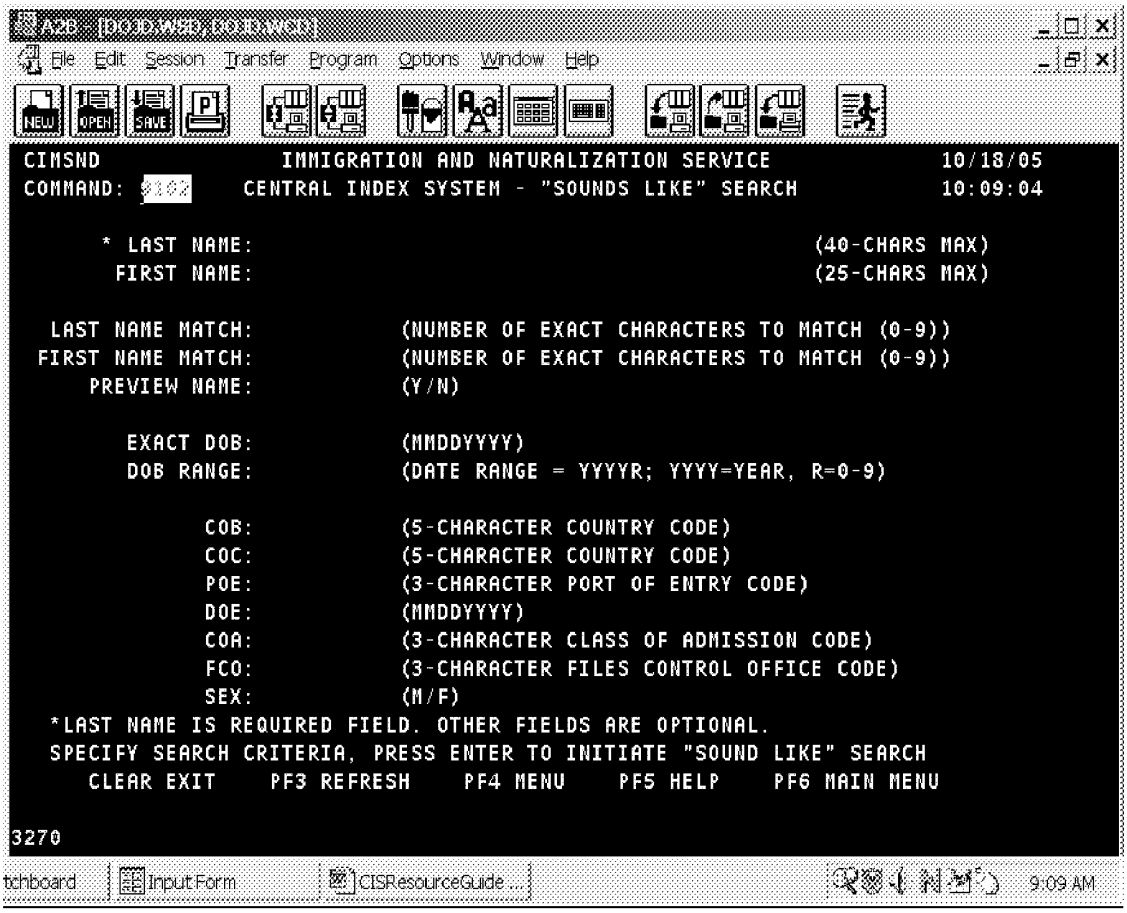
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.4.2 Search by A-number (9101)

In the ID# field enter the appropriate prefix with information (A = a-number, SS = social security number, PP = passport number, C = naturalization certificate number and I = I-94 number). If there is information in the system on the subject it will populate in the fields below the ID#. Pay special attention to the legend at the bottom of the screen specifically PF8, PF11, and any information listed under (other information). By pressing PF8 the history menu is displayed. This screen holds chronological information about actions that have been taken or changes in the subject's immigration status. The PF11 screen shows EOIR (Executive Office of Immigration Review) information. The significance of this screen is it holds information about ongoing or closed deportation proceedings. In the section of the screen listed (other information) different acronyms may appear such as: CARD, EADS, RAPS and DACS. For additional information on DACS please see Chapter 3.

5.1.5 Sounds-Like Name Search (9102)

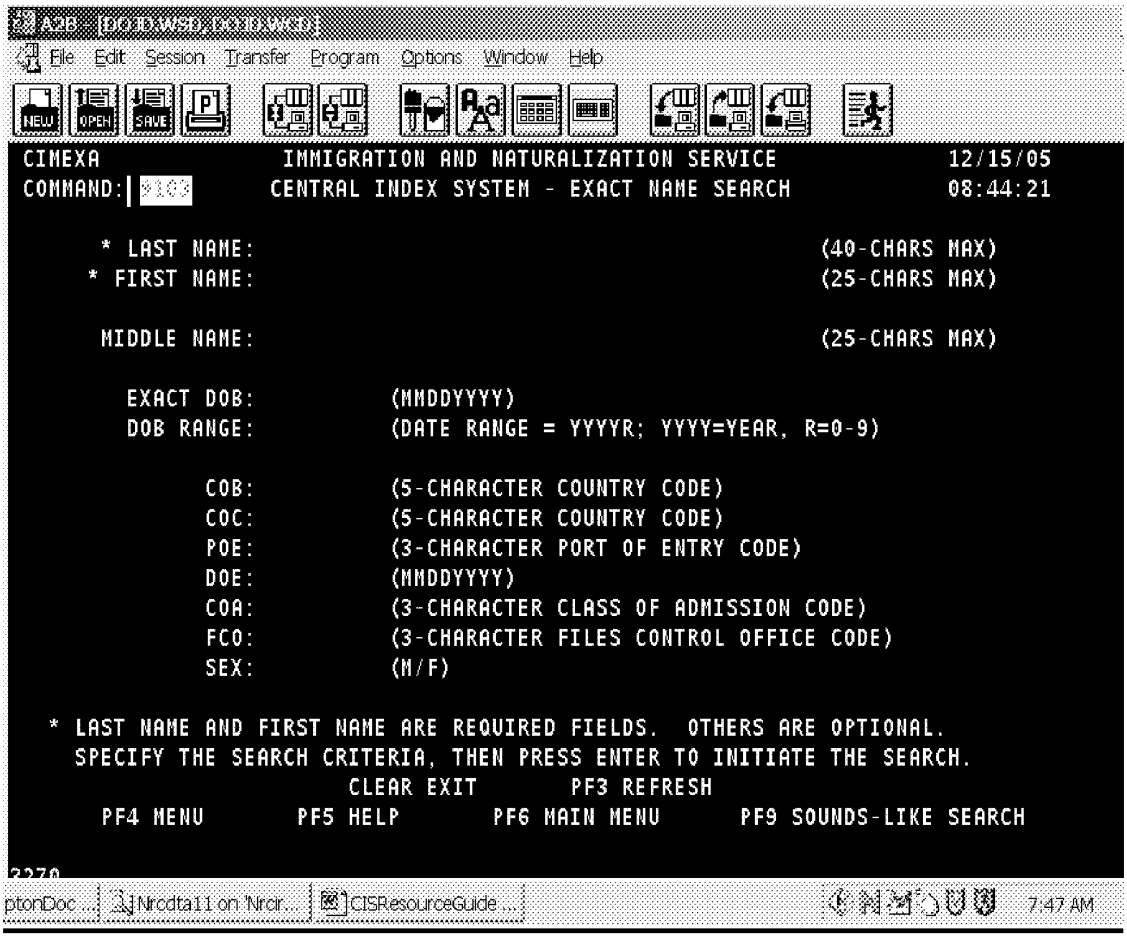
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Use the 9102 screen when there could be variations in the spelling of a name. There are times when the person who created the record in CIS misspelled the name. There could be many spelling variations in a name transcribed from a non-Roman alphabet. The * indicates the minimum amount of information required to search. The search results may be voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

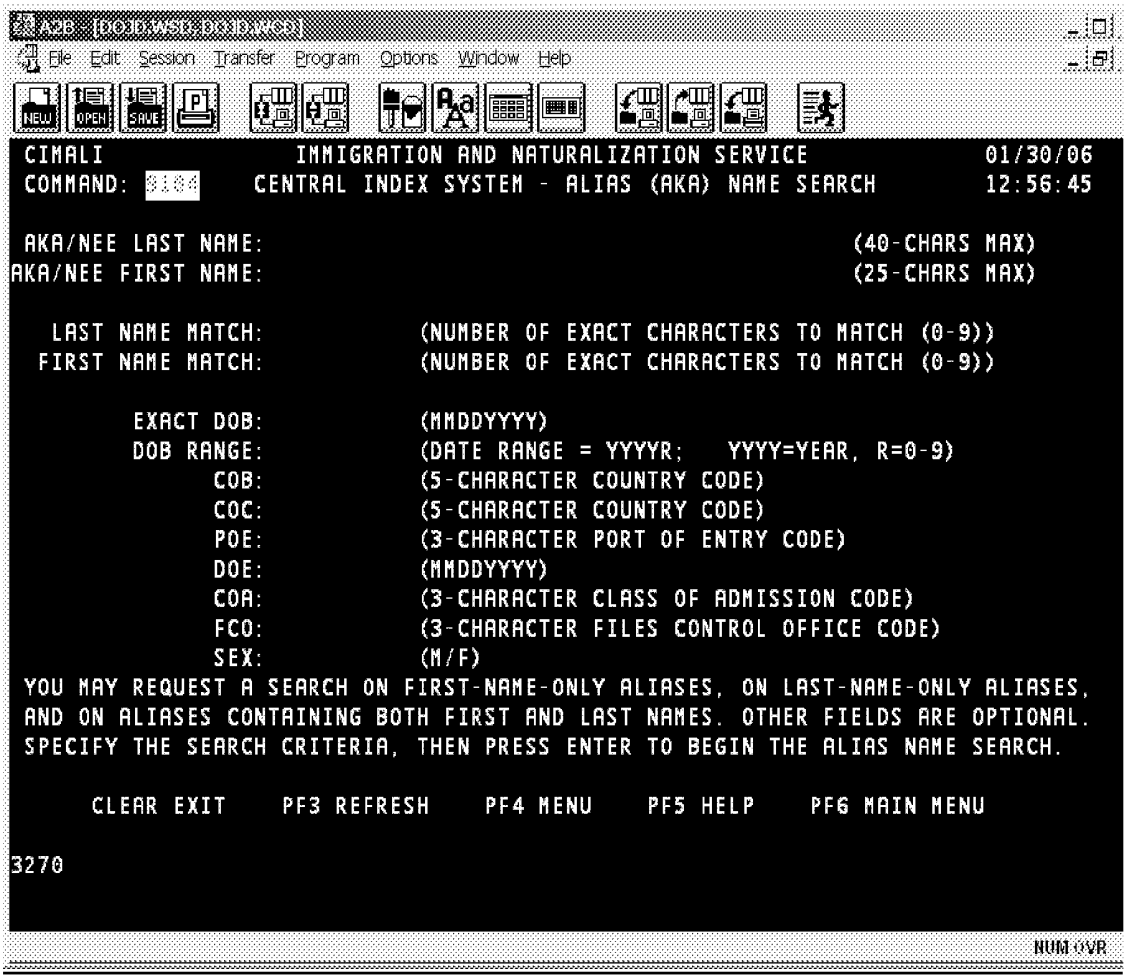
5.1.6 Exact Name Search (9103)



9103 is the primary screen used when performing a search based on the subject's name only. The information displayed will be an exact name match.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

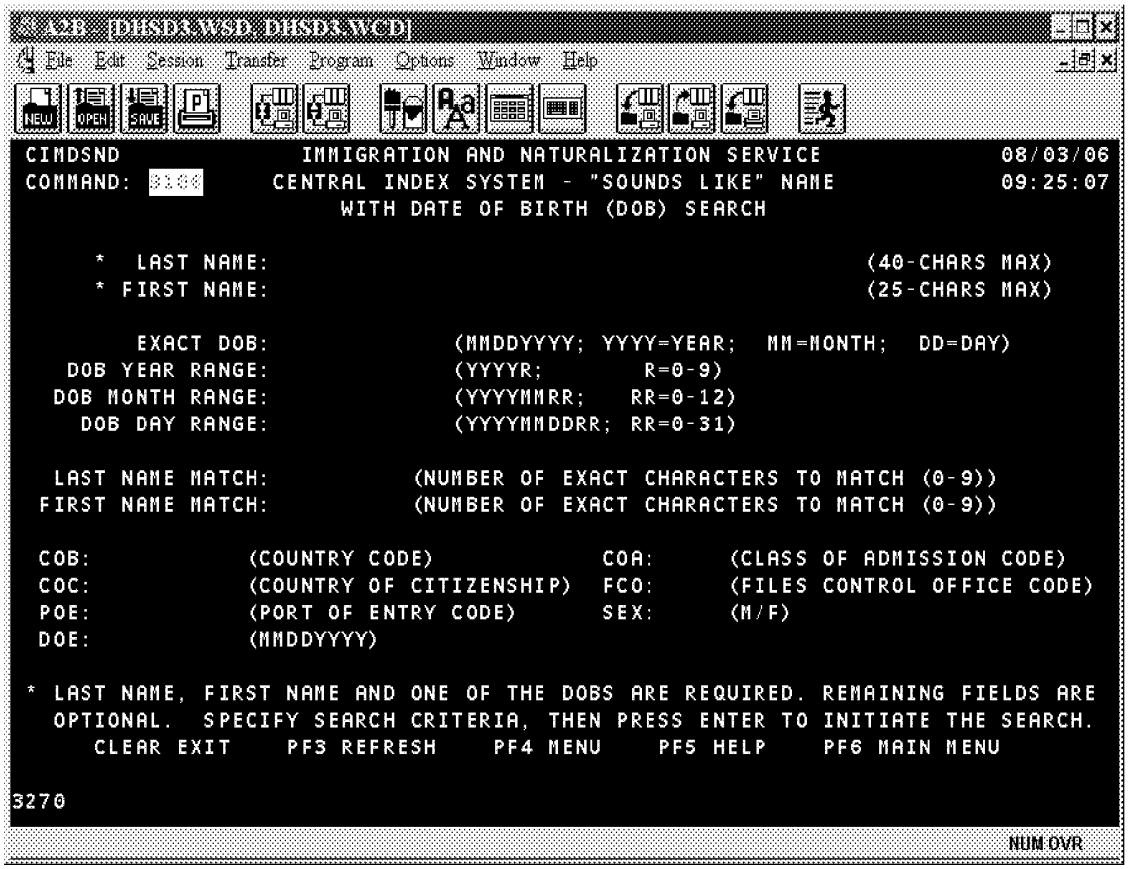
5.1.7 Alias (AKA) Name Search (9104)



The primary use for the 9104 screen would be to perform a search using any alias information provided in the FOIA request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

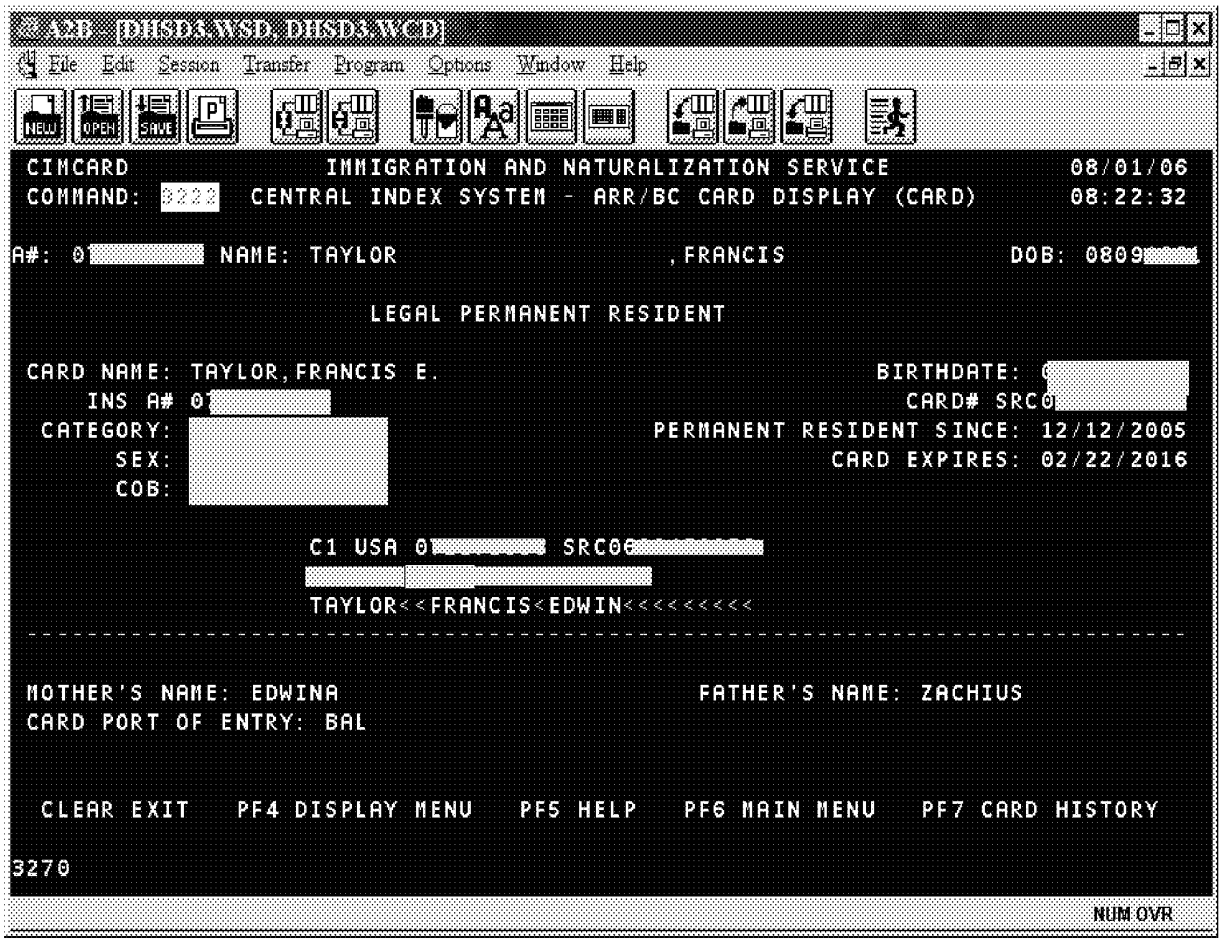
5.1.8 Sounds Like Name With Date of Birth (DOB) Search (9106)



The 9106 screen allows searches for information pertaining to the subject of the request even if the spelling of the name is incorrect. For example, the requestor made a typographical error in the spelling of the name the search results will yield a list of similar names matching the subjects.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.9 Card Search (9222)



The 9222 screen is a snapshot of an actual Legal Permanent Resident (LPR) Card. In addition, this is the same screen to find Border Crossing Card information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

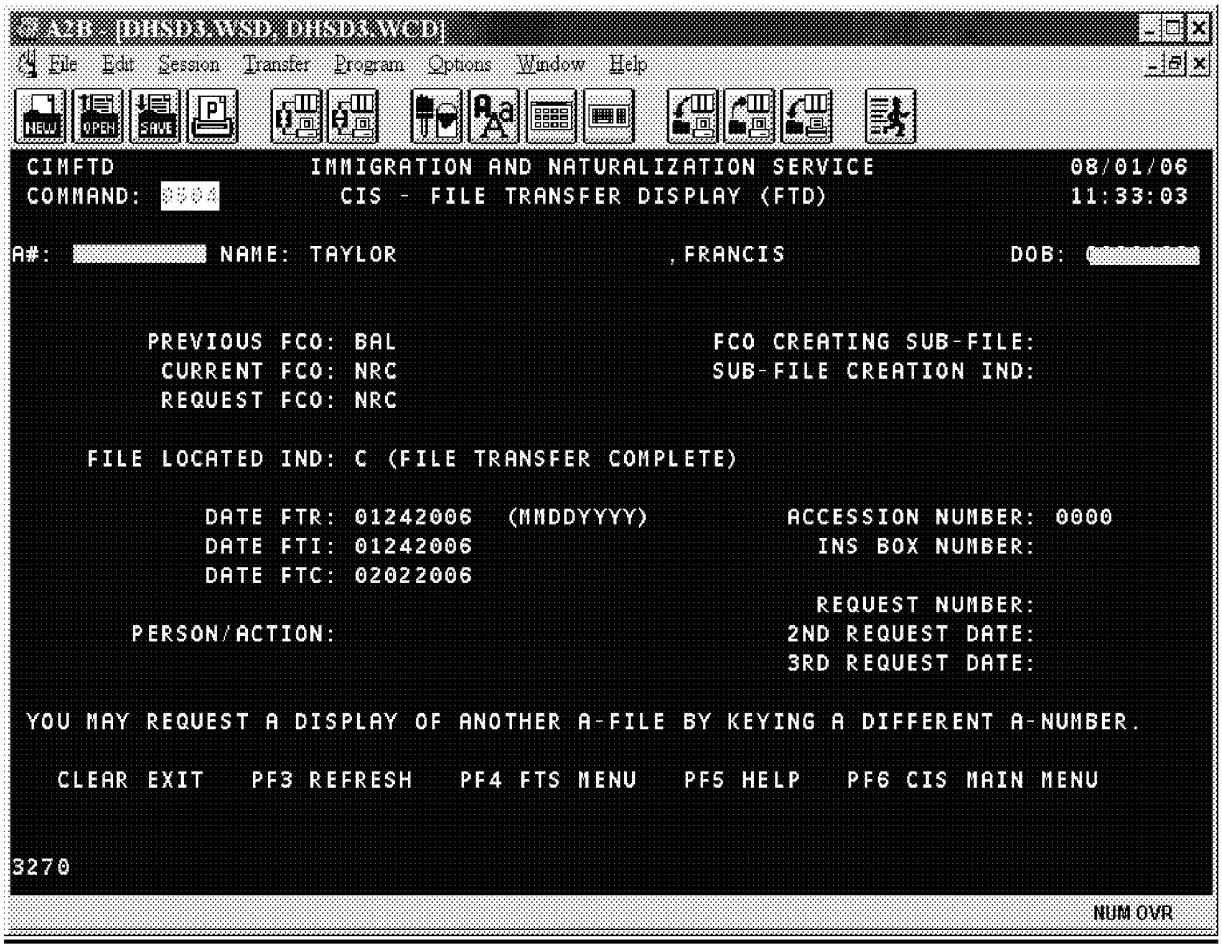
5.1.10 File Transfer Display (9504)



The main purpose of the 9504 screen is to check the location and movement of files. This screen's primary use as it relates to FOIA is that it will be used in conjunction with NFTS in the case create function. The following is a list of acronyms displayed on this screen.

FTR: File Transfer Request
FTI: File Transfer Initiated
FTC: File Transfer Complete

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.11 Tables

The **Tables** section contains a wealth of informational codes that can be of assistance in making a decision about the subject of the request, such as **Class of Admission**. To get to this screen select the "keyboard" from the toolbar at the top of the screen and click the clear button on the keyboard. Once this is done type in the word **tables.** The next screen displayed will be the **Tables Menu Screen**.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.12 Tables Menu

Placing the cursor in the **Table ID** field and pressing the function key PF7 a list of tables is displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

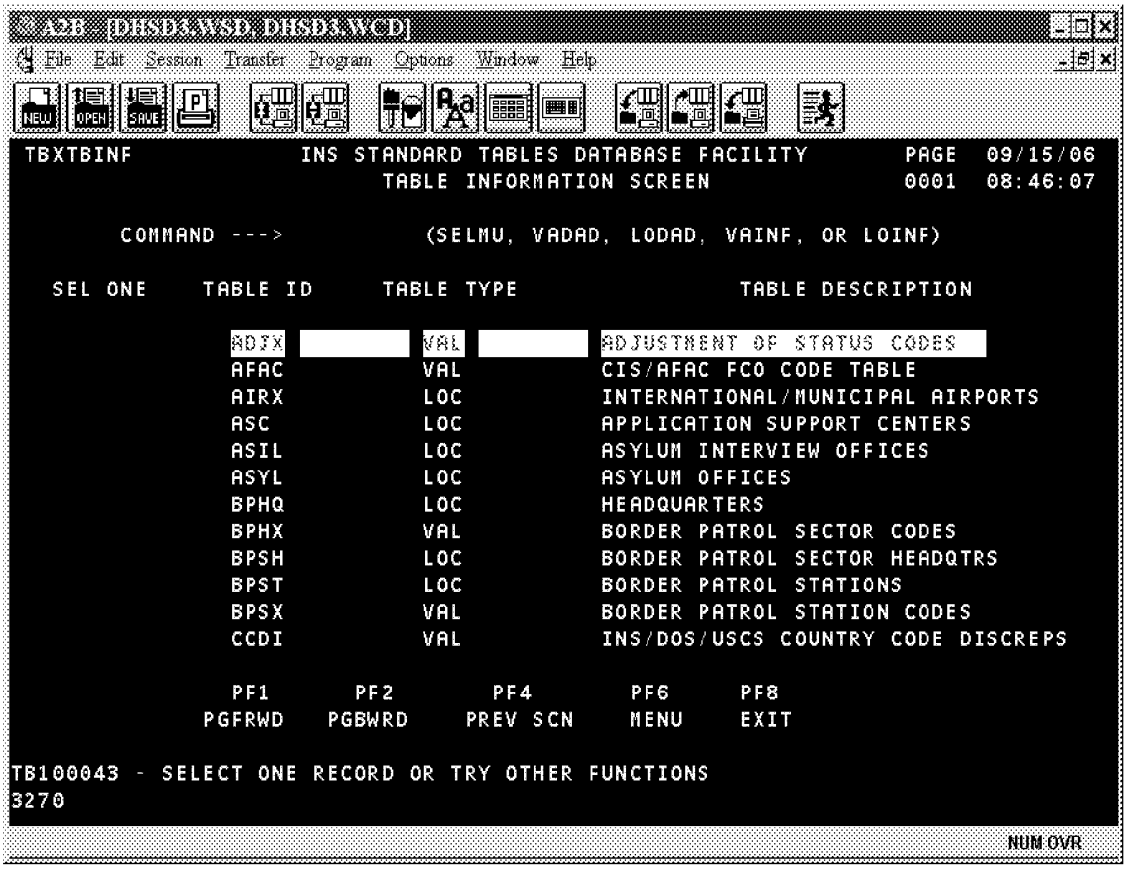
5.1.13 Tables Information Screen



The tables are in alphabetical order. Place an **X** in the "SEL ONE" column and press enter and this will bring up a list of different codes.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

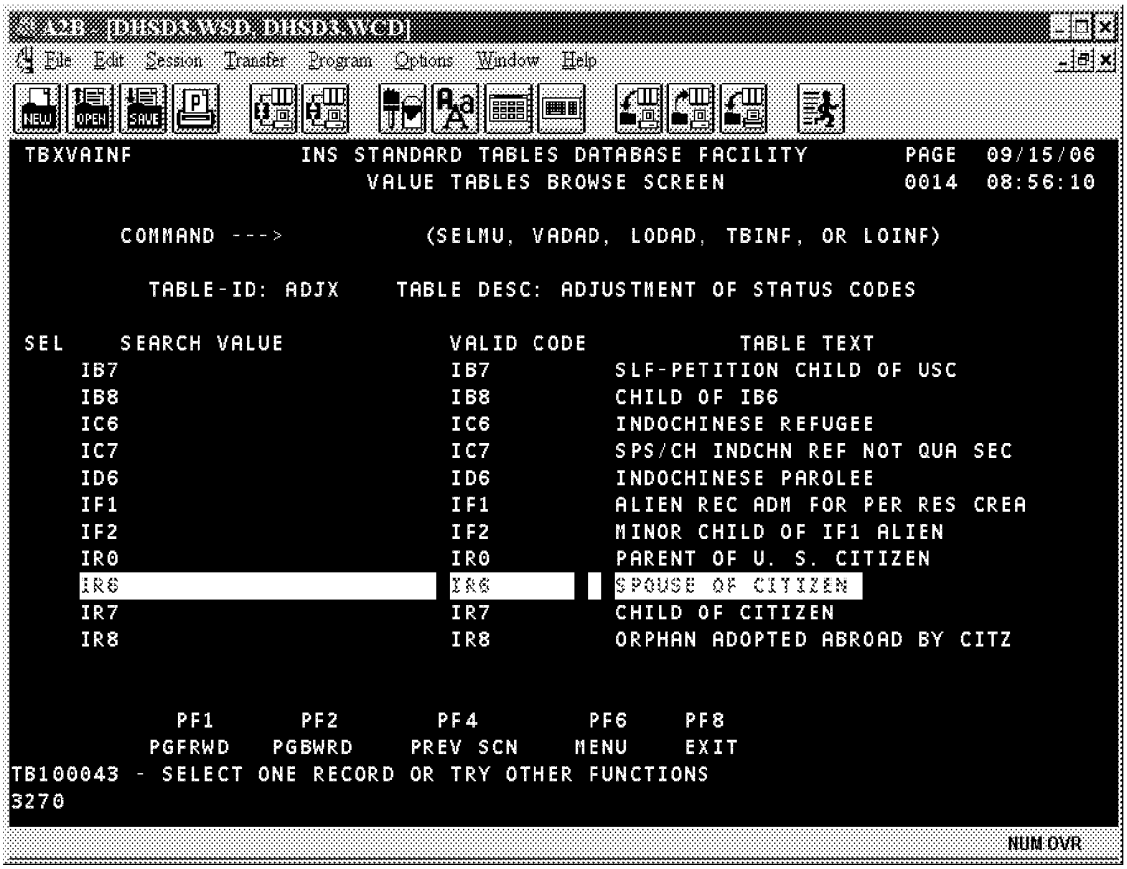
5.1.14 Value Tables Browse Screen



Read the screen in its entirety for navigation instruction and additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

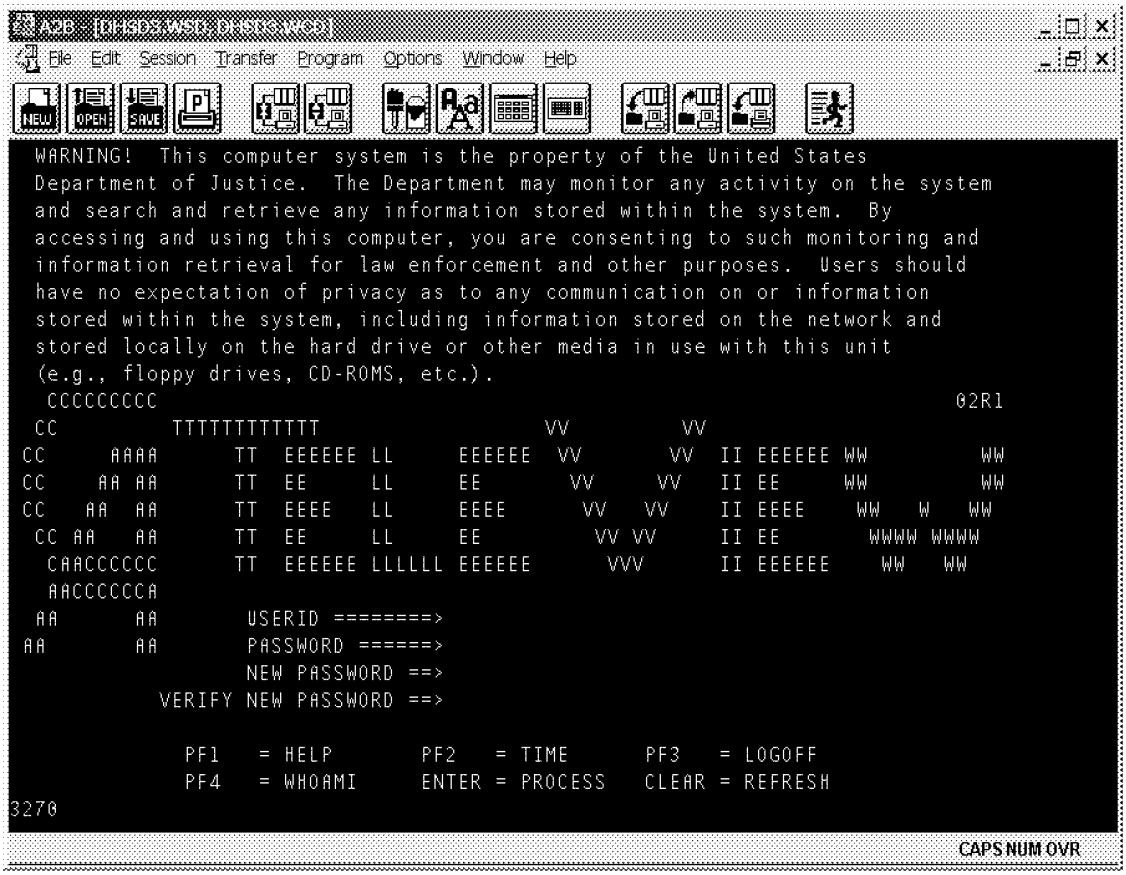
5.2. Computer Linked Application Information Management System

5.2.1 Introduction

The Computer Linked Application Information Management Systesm (CLAIMS) tracks application and petitions. CLAIMS is a menu driven system. The Inquiry/Update Processing selection on the menu is the only menu NRC FOIA uses because we search for receipts but never modify information in CLAIMS.

5.2.2 Teleview Introduction Screen



This screen is the introduction to TeleView. From this screen, use the designated UserID (NRC####A) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

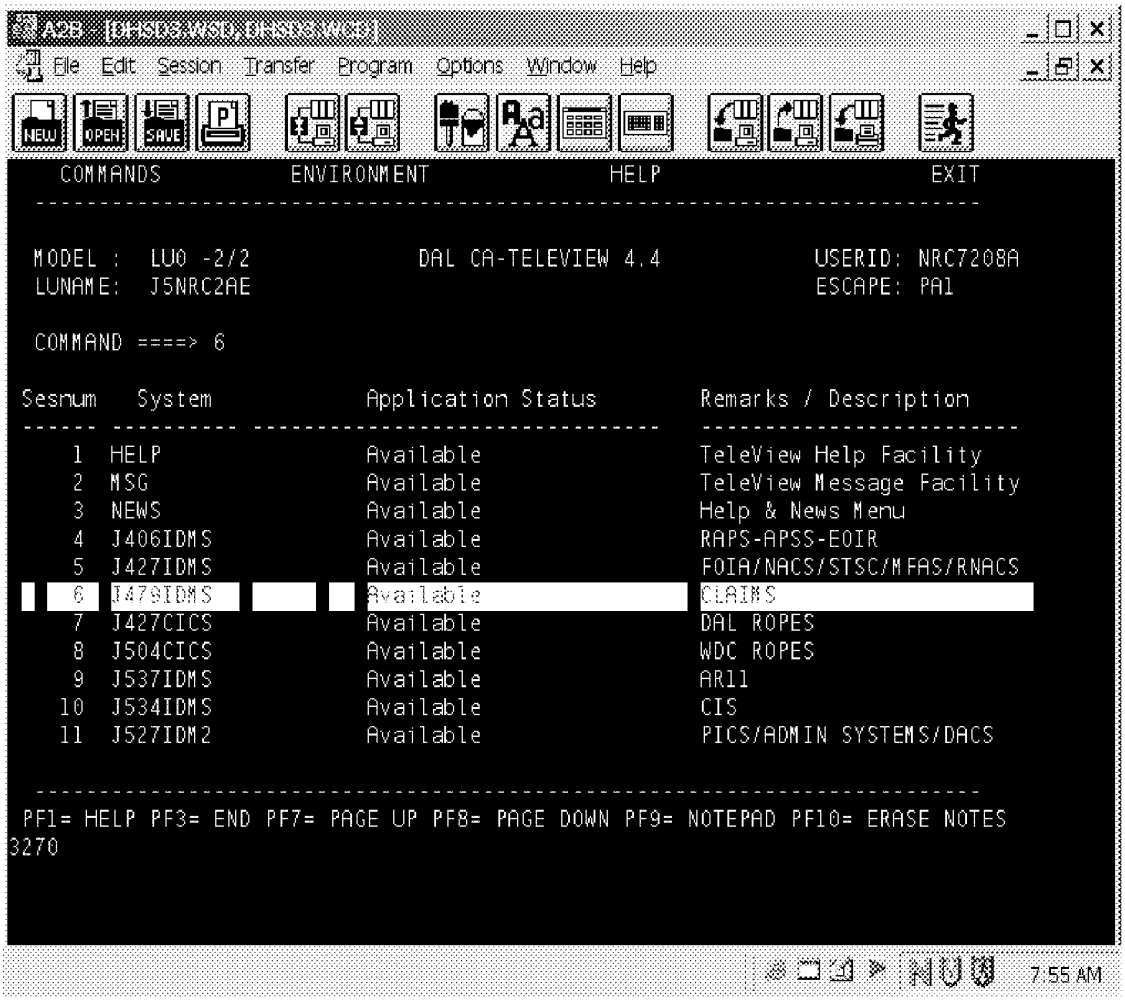
5.2.3 CLAIMS Selection Screen



The number selected to access CLAIMS can vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

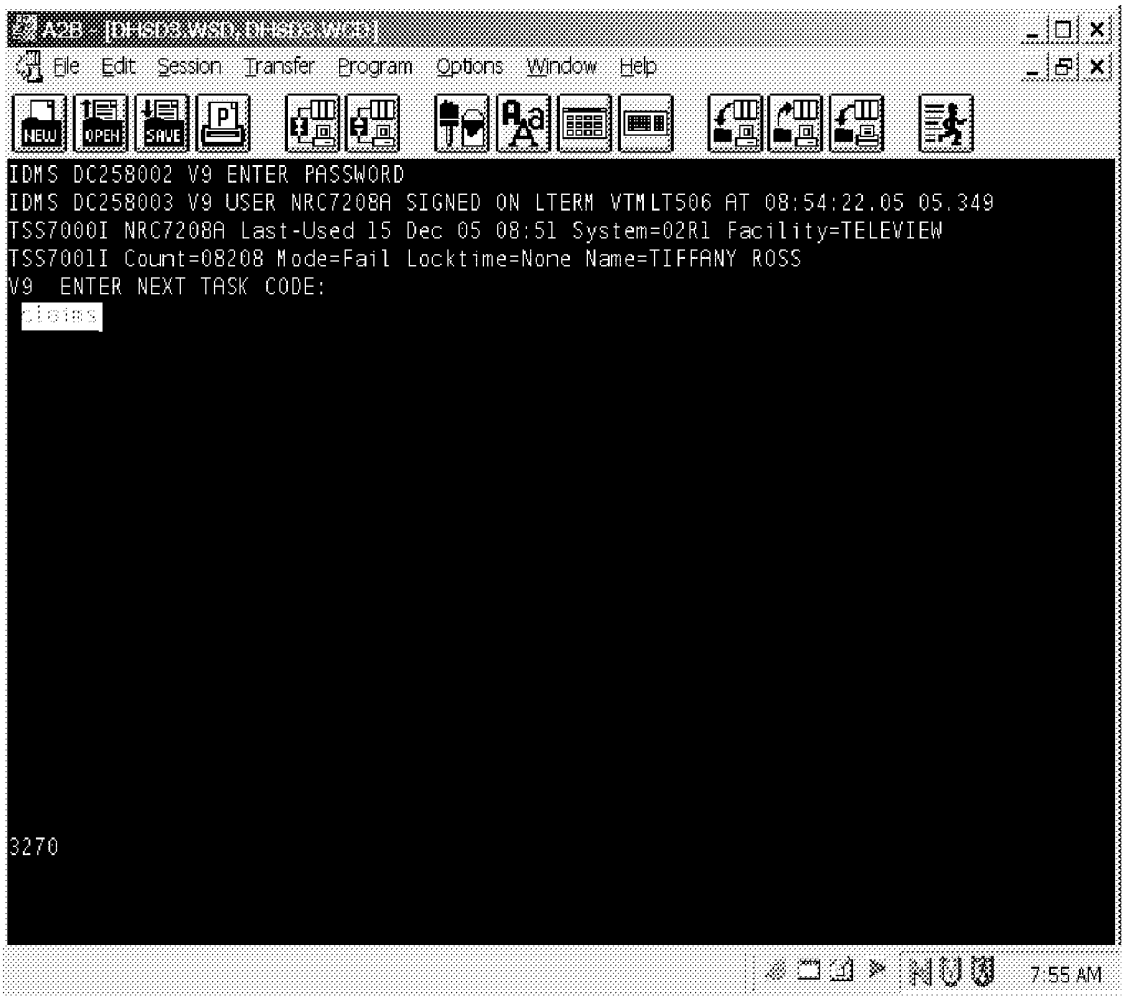
5.2.4 CLAIMS Function Screen



After selecting CLAIMS from the main menu, you will see the screen print shown above. Type in claims and press enter. This screen is not case sensitive.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

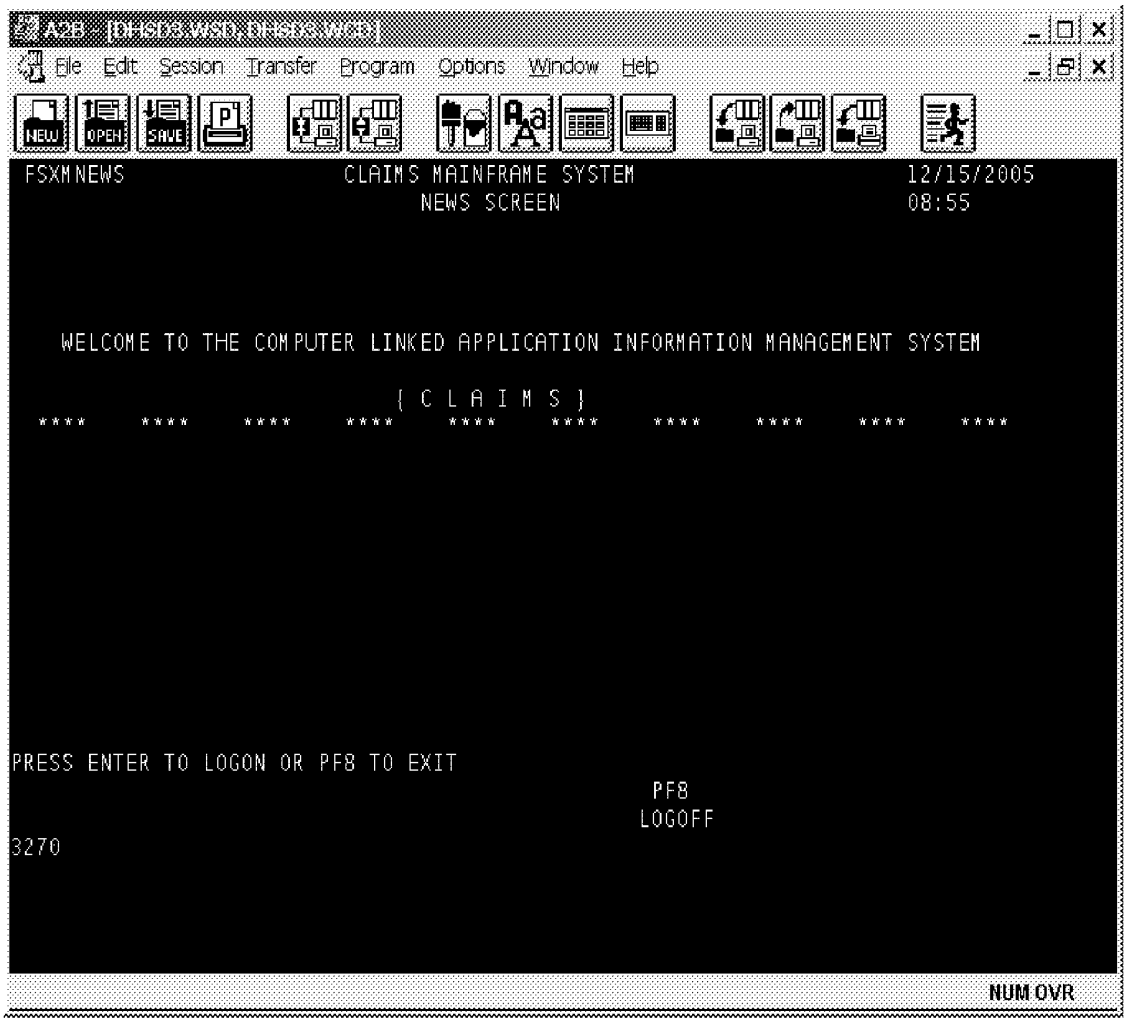
5.2.5 CLAIMS Welcome Screen



Press enter from here to get to the logon screen.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.2.6 CLAIMS Logon Screen

To logon, your USER ID will be NRC and the last 4 digits of your social security number followed by a letter (NRC1234A). Check with your supervisor for your password.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

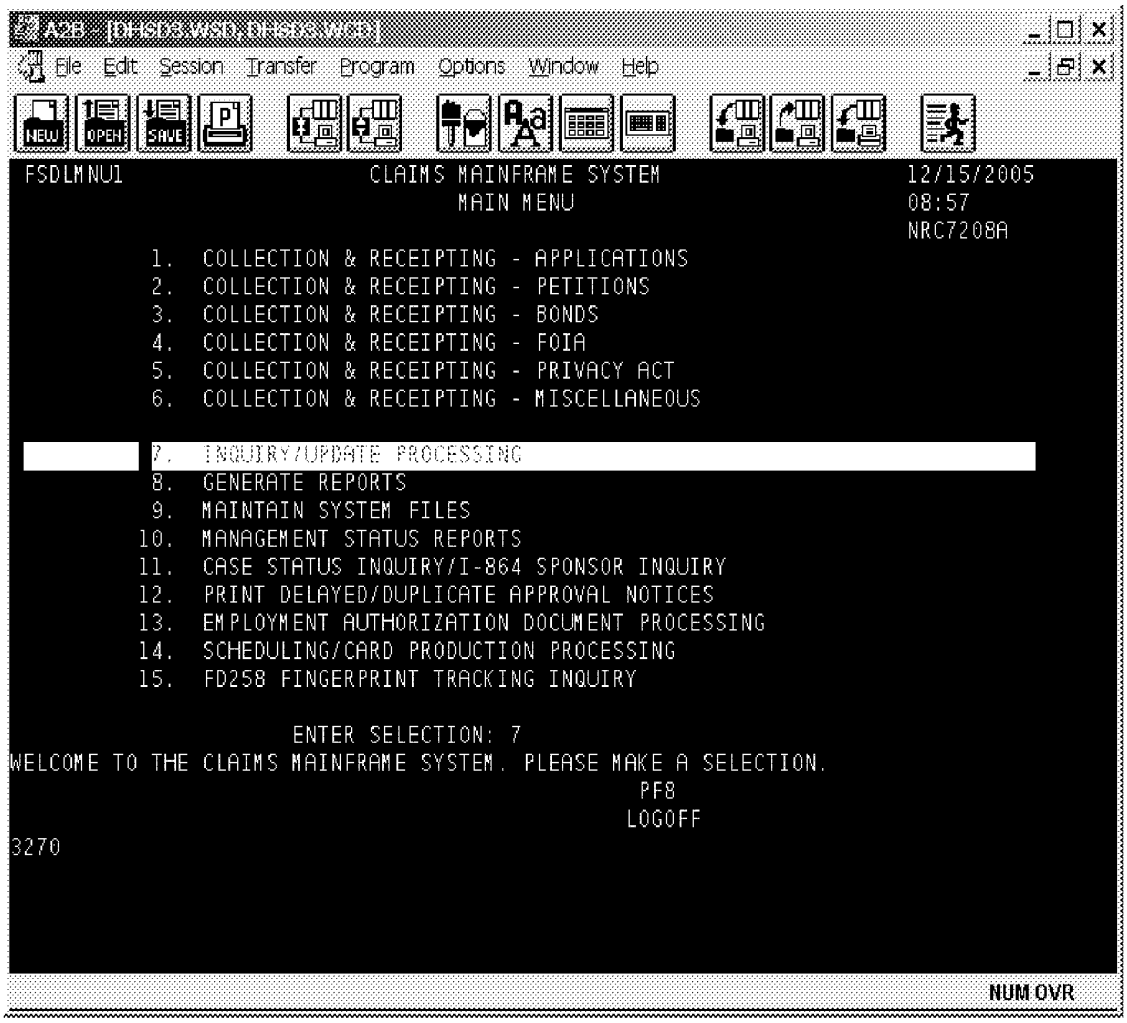
5.2.7 CLAIMS Main Menu Screen



From the Main Menu type the number for INQUIRY/UPDATE PROCESSING and press enter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.2.8 Inquiry Screen, searching with a Receipt Number

On the Inquiry screen, there are several ways to search for records. If you know the receipt number, type the number under the first field to pull up the receipt information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

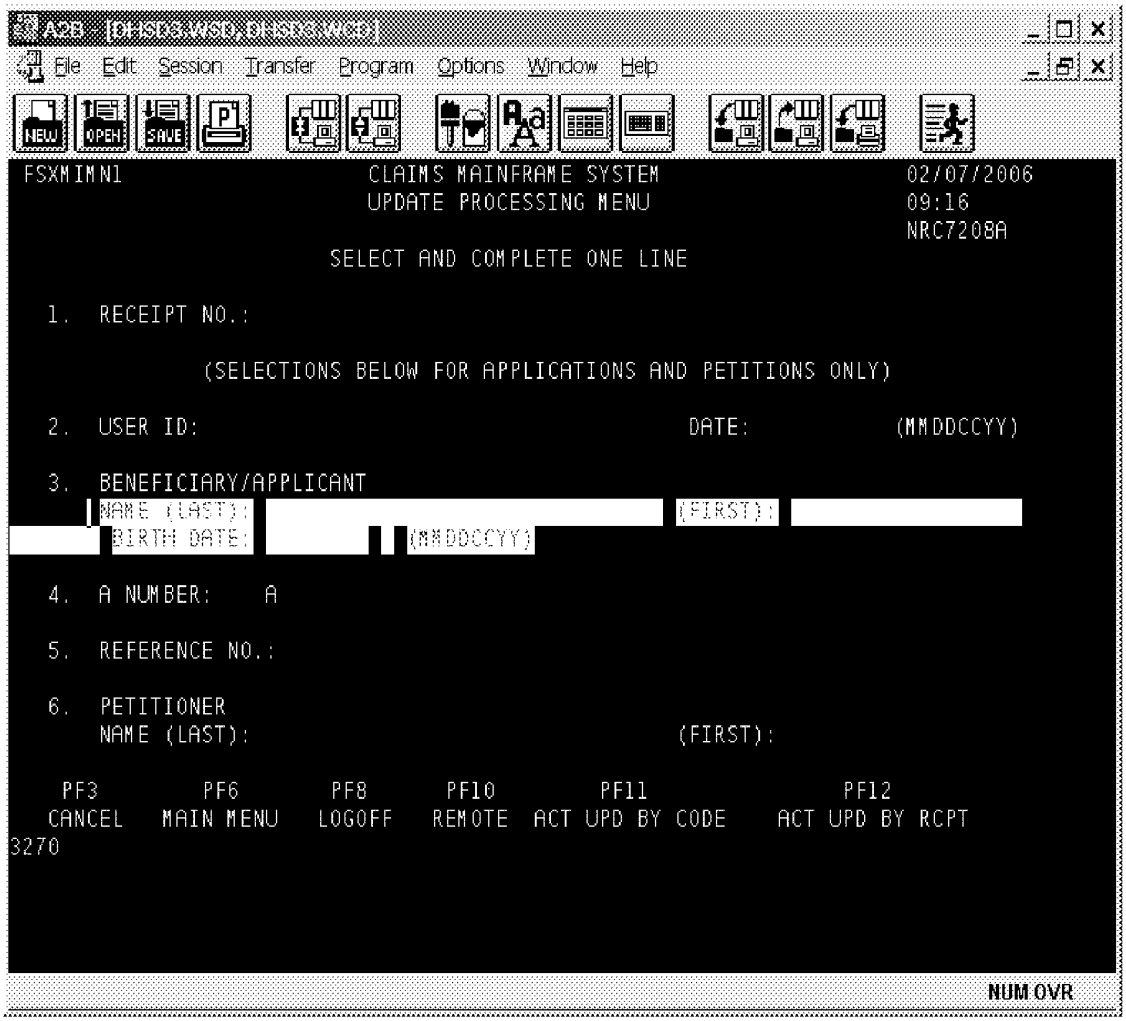
5.2.9 Searching CLAIMS using a Name and Date of Birth



You may also search name and birth date. CLAIMS does not forgive spelling errors and will not conduct "sounds-like" searches. If you do not immediately find a receipt, you should also search by alias names and variations of the name. You may also search without the birth date. This may have the results you are looking for depending on how common the name of the subject. Searching using the birth date will narrow the findings.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

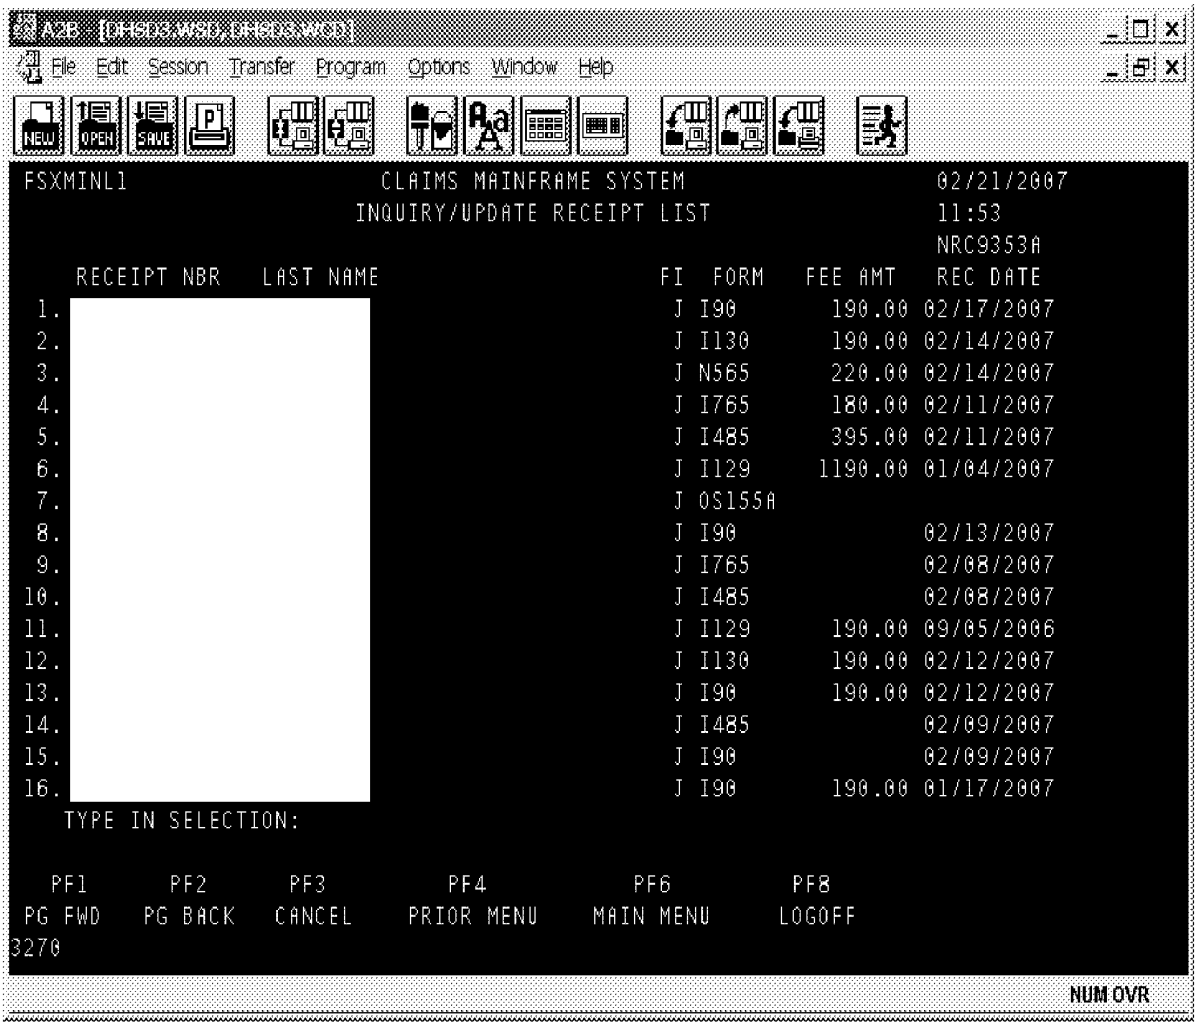
(b)(6)



If your subject has a very common name, the inquiry may result in several pages of matches. View the screen pertaining to the individual receipt number or look for the type of form. It will show detailed information relating to that specific receipt number. To view the detailed information, type the corresponding number at the bottom of the screen labeled "TYPE IN SELECTION." For example, if you type "3", the detailed information relating to receipt number SRC0710351687 will be displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

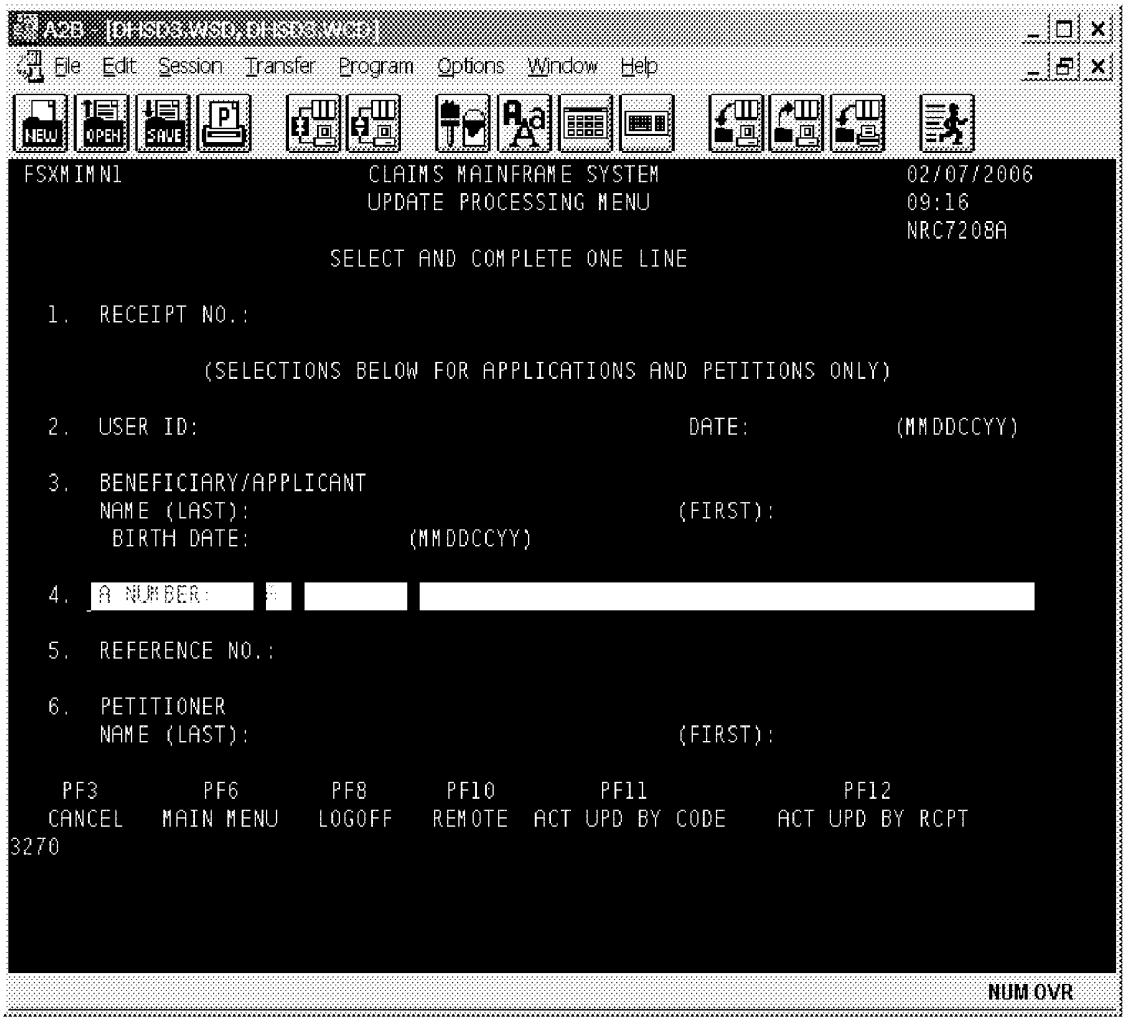
5.2.10 Searching with the A-Number



You may search by A-number. Navigate through these fields by tabbing, or to go backwards, use Shift-Tab. CLAIMS used to allow adjudicating officers to enter alien numbers as an eight-digit number without a leading zero. Ordinarily you should enter a leading zero immediately following the letter A (in purple on this screen) and then enter the rest of the A-number. If you do not find what you need, try deleting the zero immediately after the "A." If the person has a nine digit A-number, you will not have to worry about it. Note: if you search by A-number, it may not show every receipt belonging to the person, so you may still have to search by name and date of birth or by petitioner's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

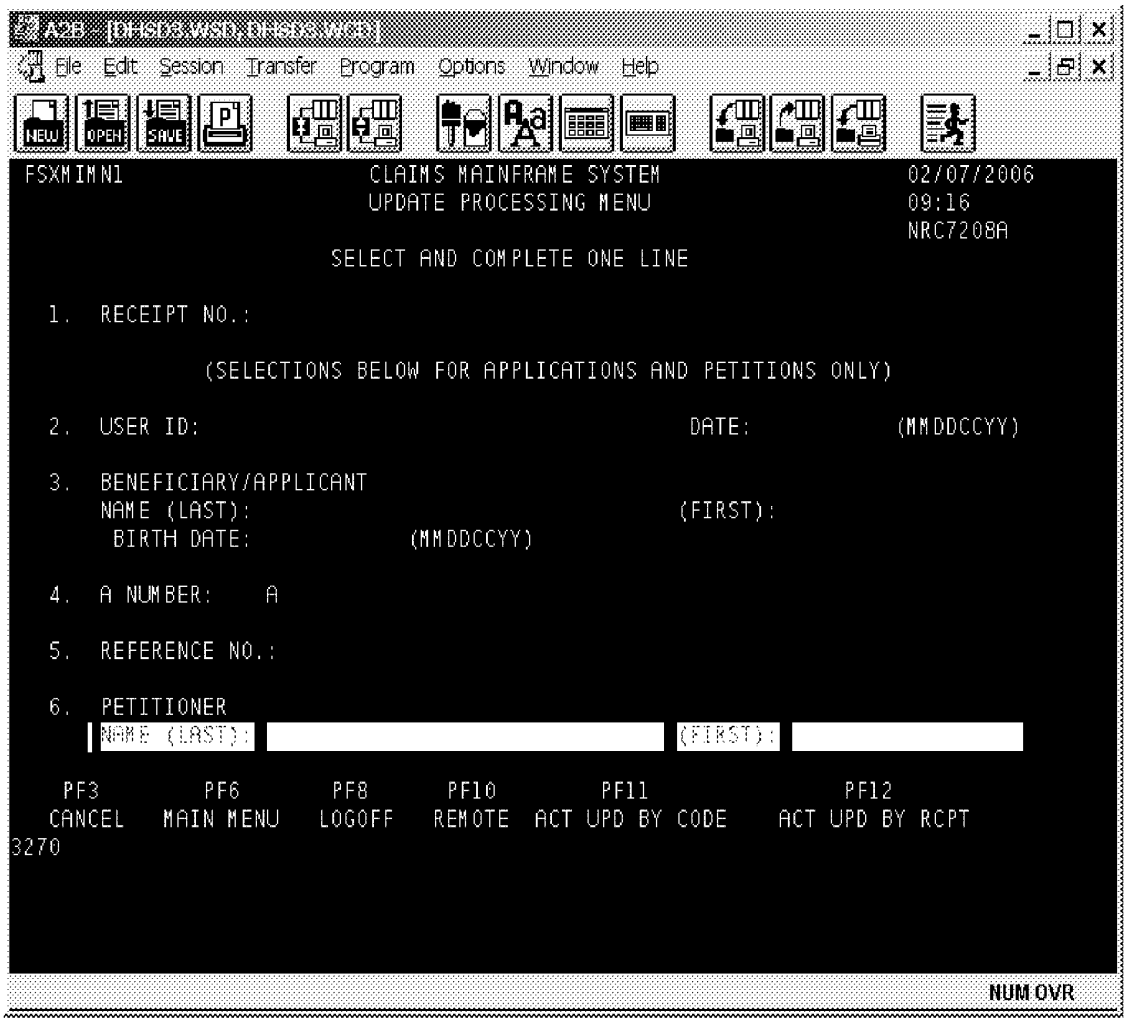
5.2.11 Searching with the Petitioner's Name



You may search by using the petitioner's name, but be forewarned: if the petitioner has a very common name, the results of this search may be overwhelmingly voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

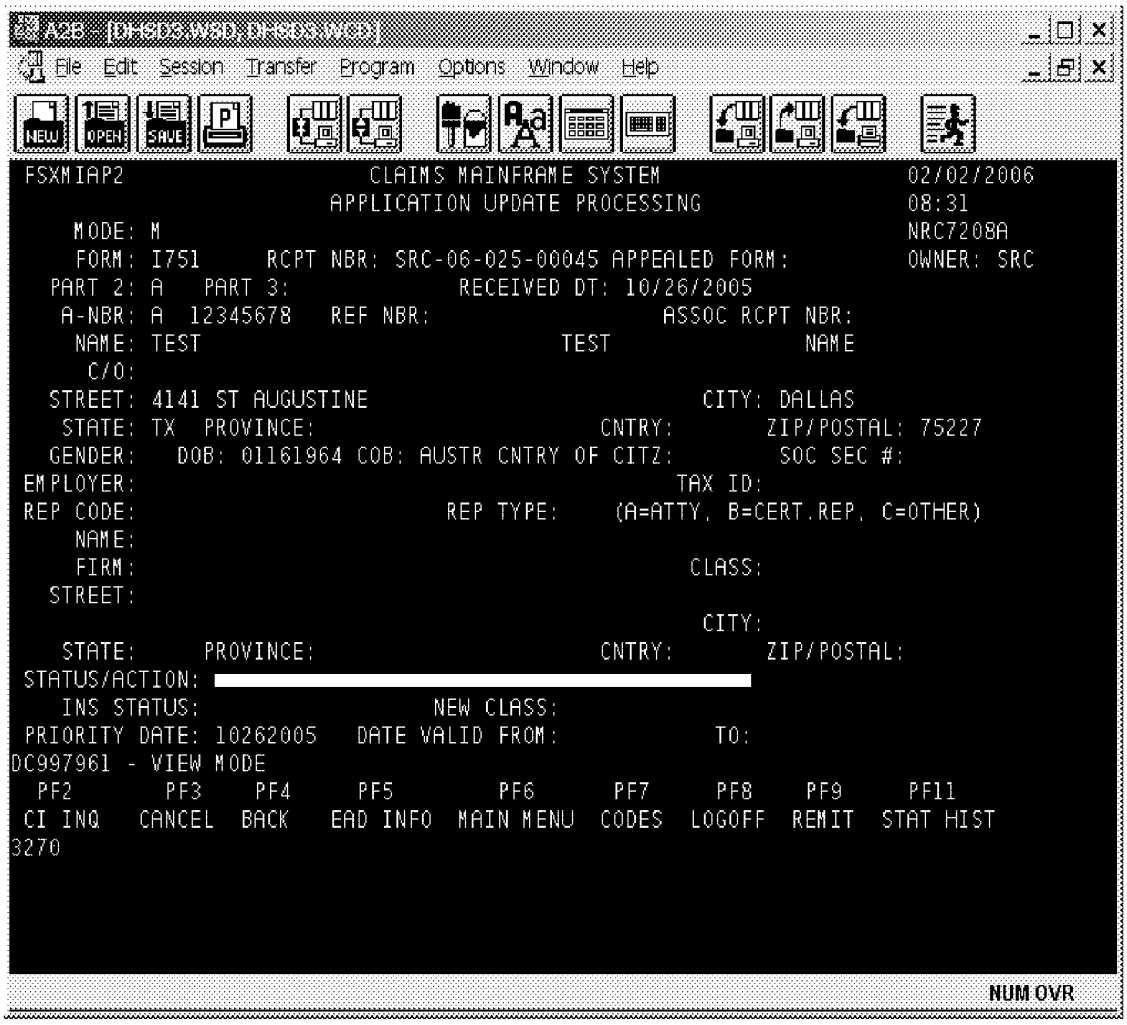
5.2.12 Search Results

The screen print below is the result of a search. The receipt shown is for an I-751, Petition to Remove Conditions on Residence.



(b)(7)(e)

The receipt information gives the name, date of birth, A-number and address. The status of the receipt file is near the bottom of the screen. (STATUS/ACTION: IBS1)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(7)(e)

The top right corner of the screen shows the owner of the file, this may help in determining where to request the receipt file, especially if the receipt information is not in NFTS. This receipt begins with SRC, but that does not matter for staffing – the OWNER would be where you staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

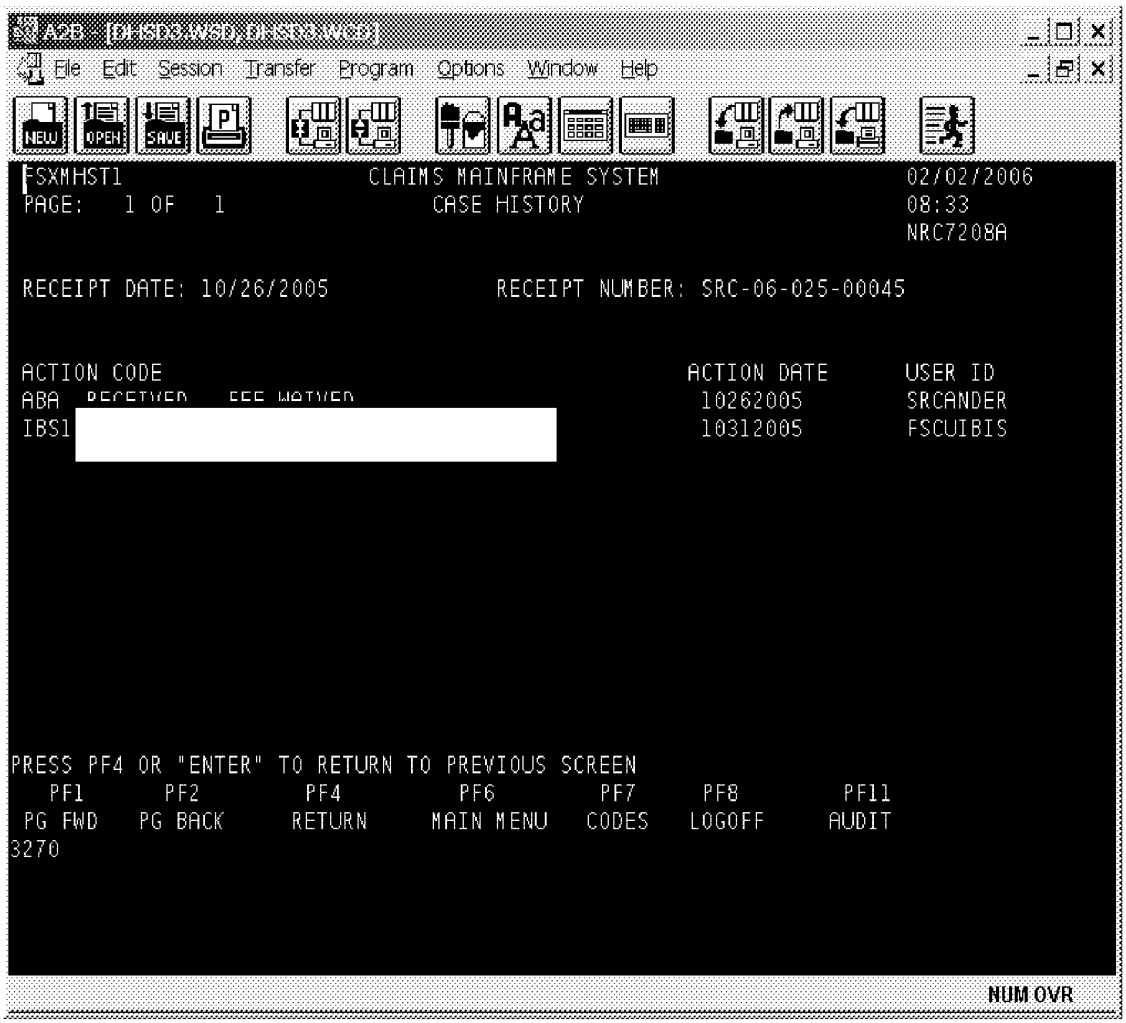
(b)(7)(e)



By pressing F11, you may view the history screen. From this screen, we can see the status of the application/petition. If the petition has been approved, destroyed, or transferred, it may make a difference as to how we staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

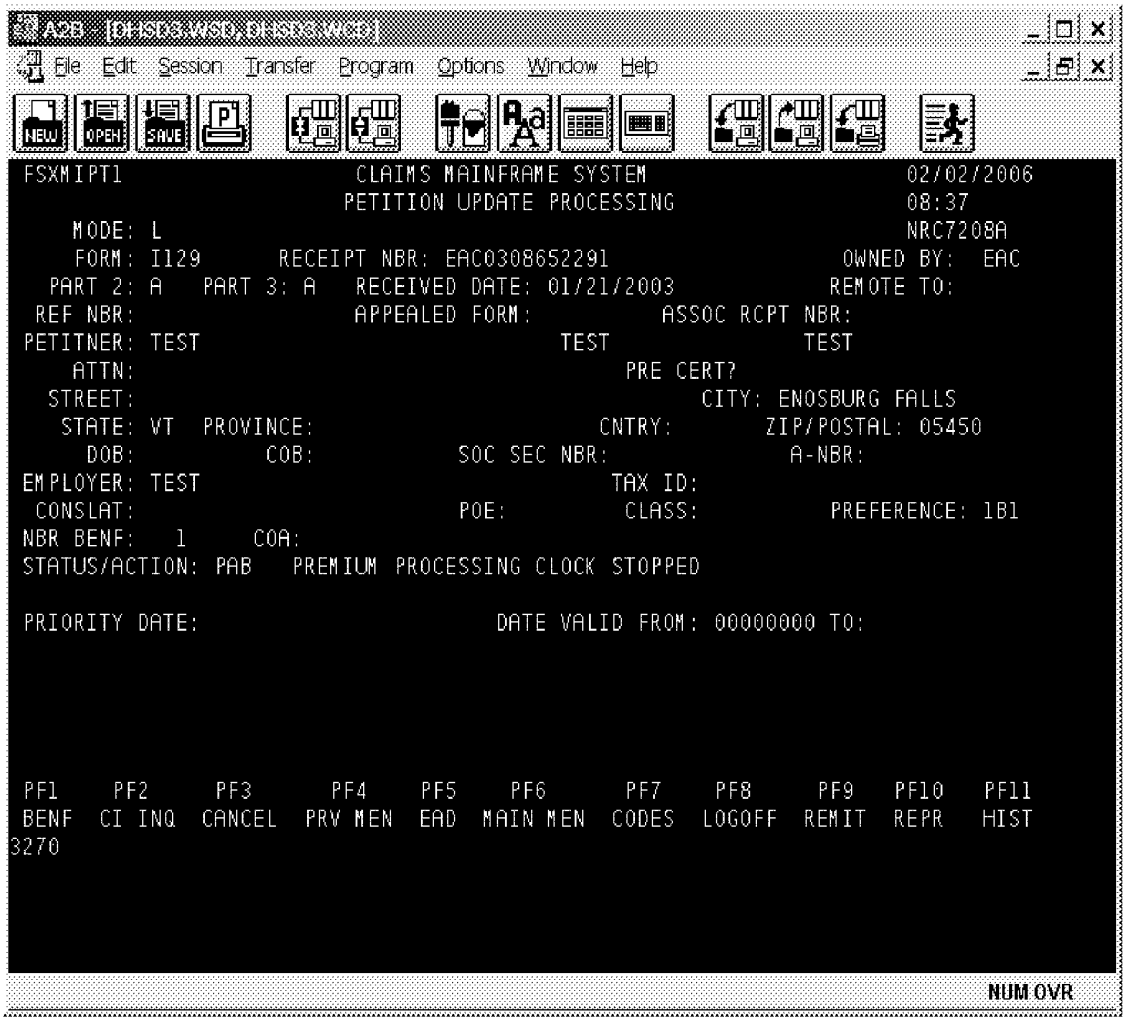
5.2.13 Beneficiary Petition for Non Immigrant Worker



On an I-129 petition, the petitioner's information is on the first screen you pull up after you enter or select the receipt number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To see the beneficiary information press F1.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To view the history, press the F4 key to return to the previous screen, and enter F11.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

There may be numerous results on a name search. Press F1 to see the results of the next page. To view number 10 on page 2 of the results, enter "10." To go back to the results of the search, press F4. The screen always returns to the first page of the search results. Remember this if you are going through the results page by page.

5.3. National File Tracking System (NFTS)

NFTS is an automated system that enables USCIS to track and account for nearly 50 million Alien Files (A-Files) and Receipt Files. NFTS allows for local control of all files within a designated USCIS File Control Office (FCO) or Case Control Office (CCO), The system supports the file migration from the USCIS field offices to facilitate a national tracking system that supports the National Records Center (NRC) and a centralization of agency records. You will learn much more about using NFTS in the Staffing section of this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

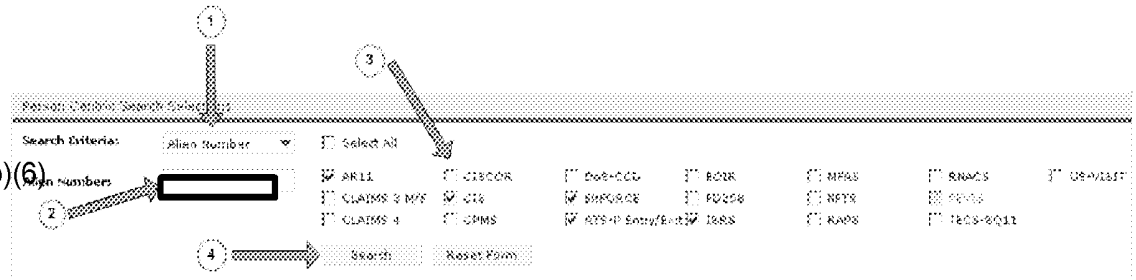
5.4. Person Centric Query Service (PCQS)

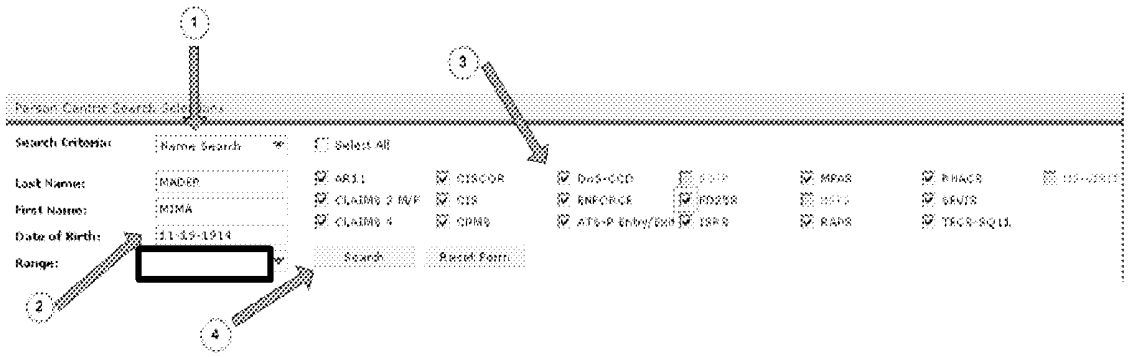
PCQS is an automated system that allows a person to submit a single query for all transactions involving an immigrant across a number of USCIS and Department of State (DoS) systems. PCQS returns a consolidated view of the immigrant's past interactions with USCIS and the Department of State as he or she passed through the U.S. immigration system.

Since PCQS can give us a comprehensive overview of a person's immigration history, it can help us locate certain documents to request, for instance, we may find information about an archived receipt in PCQS that we would not find in CLAIMS. You do not have to log in to PCQS to read the PCQS User Guide. Simply go to https://pcq.esb.uscis.dhs.gov/ and click on the Users Guide link below the Warning.

(b)(6)



(b)(6)



5.5. FOIA/PA Information Processing System (FIPS)

The Freedom of Information Processing System (FIPS) is an automated system that allows us to process FOIA/PA requests electronically. This automated system enables the scanning of paper files into electronic images. These images are easily stored, retrieved, and processed. FIPS provides workflow processing for the life of a case. Any time you do any transaction concerning a FOIA/PA case, it will be through FIPS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

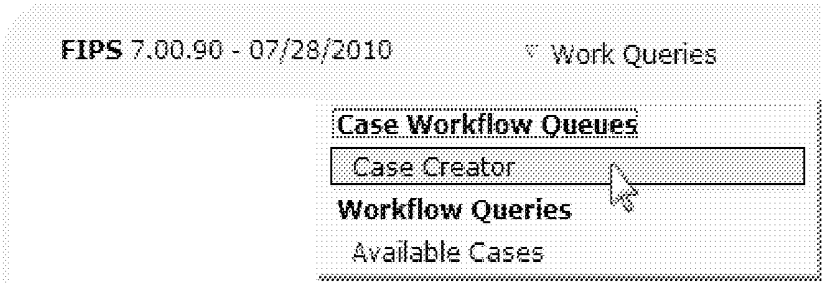
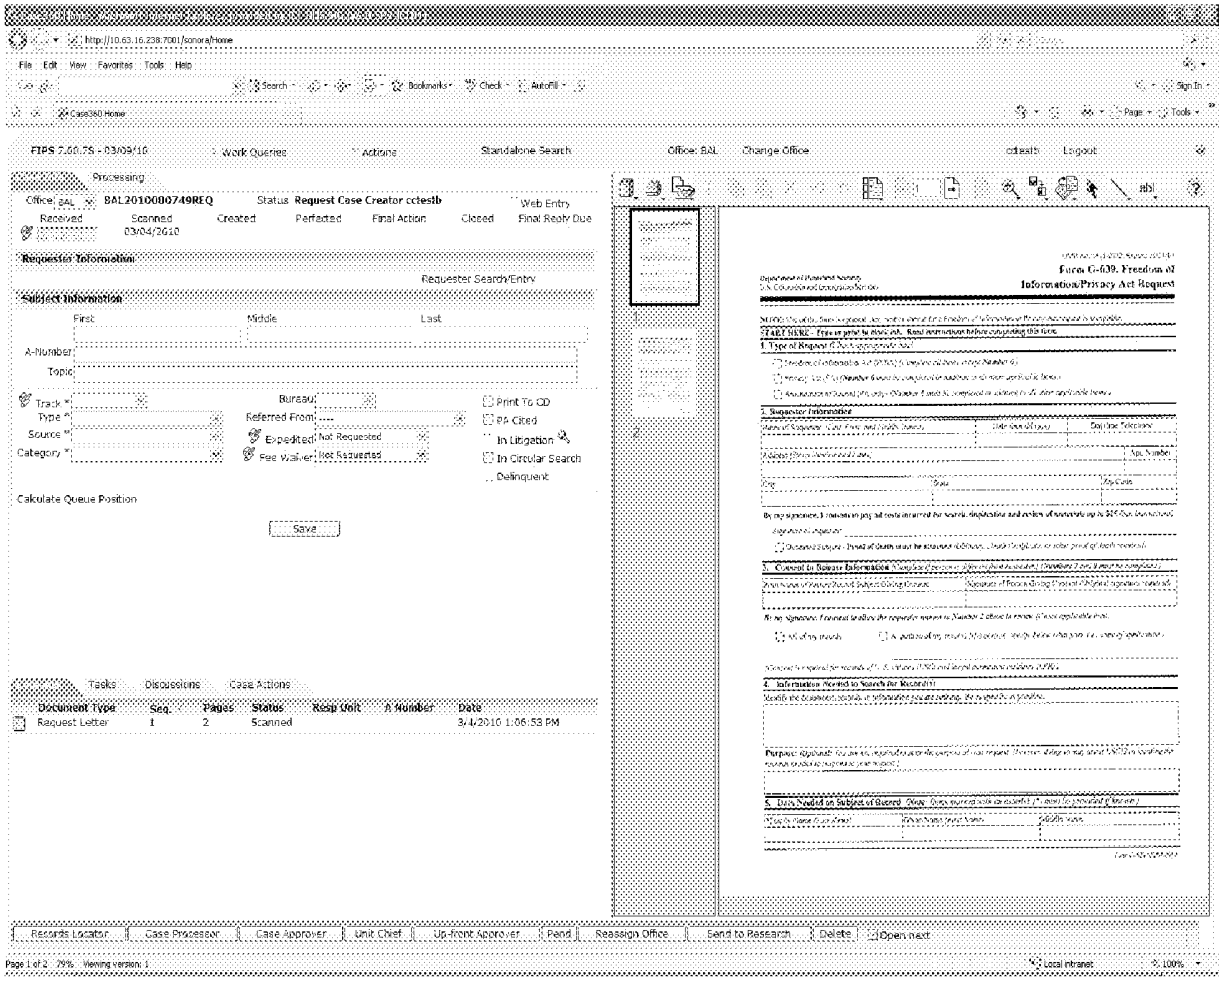
6. CREATING THE CASE





On the FIPS worksheet under the header "Contents," you will notice that usually Sequence 1 is the "Request Letter" and Sequence 2 is usually "Request Supporting Documents." There will be a date and time in the right column.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

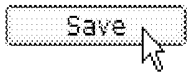
Sometimes the request will be Form G-639 only, sometimes it will be the G-639 and a G-28, Power of Attorney, sometimes it will be a letter from an attorney or representative and a G-28. Sometimes it will be a letter from the subject of record. At times, there will be documents scanned in, such as alien registration card, driver's license or other forms of identification. Other documents you may see can include miscellaneous screen prints or memoranda. You should view (almost) all documents scanned in FIPS in the Request Letter and Request Supporting Documents slots before you create the case.

During the Case Create process, you may need to leave your work station, or you may receive a telephone call, or various things may happen to distract you from creating the case. If anything happens and you need to stop work temporarily, it is ***always*** a good idea to click:



You must identify the following critical items and enter them into the FIPS worksheet before creating the case:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

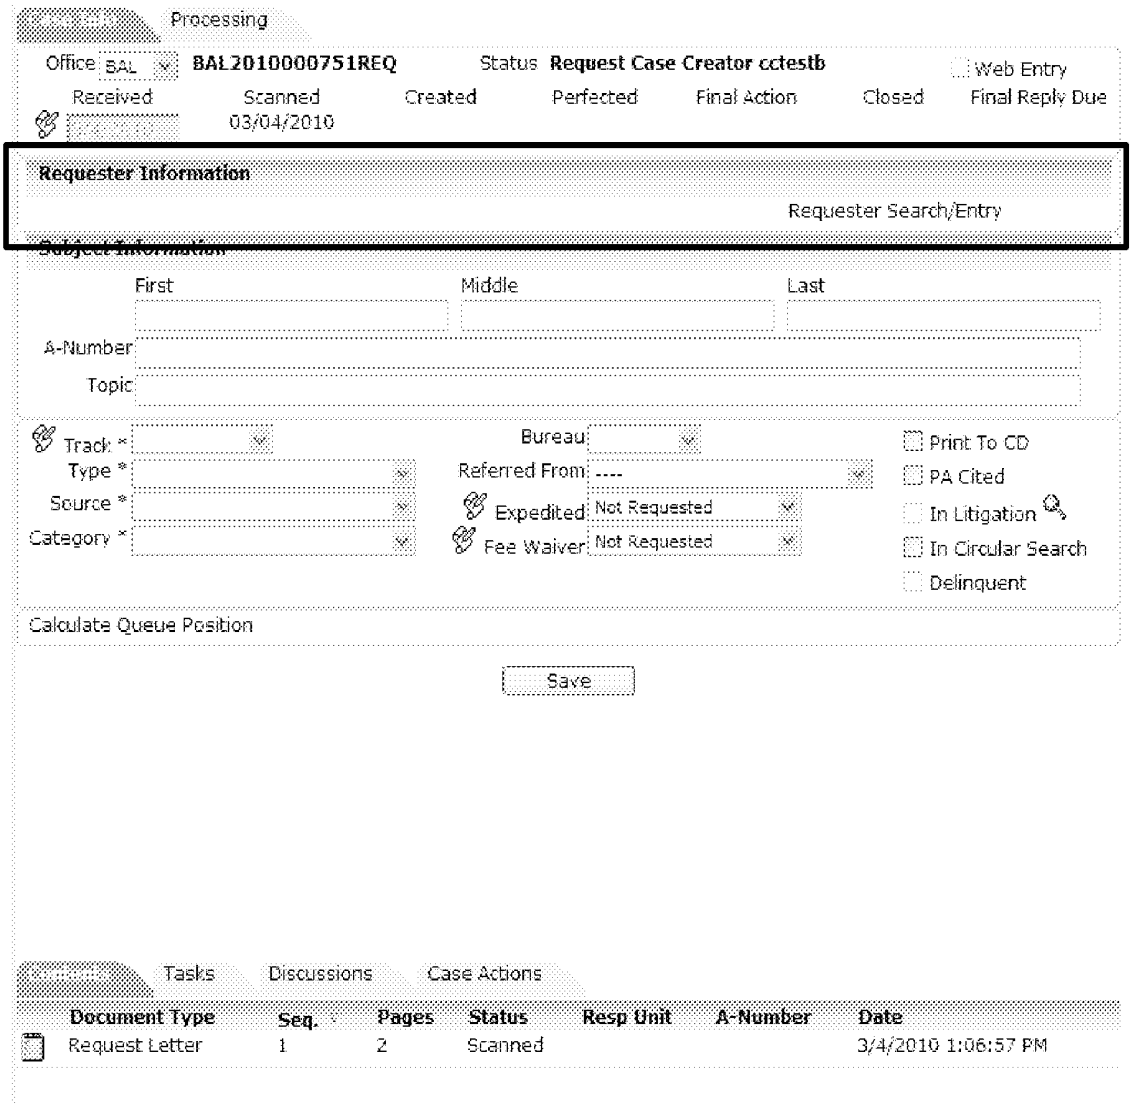
6.1 REQUESTER INFORMATION



6.1.1 RULES FOR ENTERING INFORMATION ON THE FIPS WORKSHEET

6.1.1.1 Do not use all capital letters in names.

6.1.1.2 Do not use professional titles, such as Doctor or Reverend in the requester information.

6.1.1.3 You may use Jr., Sr. or II, III, etc., if the requester or subject uses it on the request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.1.4 Do not open cases in the name of a company or firm only. If the name of the requester on the Form G-639 is a company name, please review the supporting documents to try to locate the name of the attorney/representative of the company.

For example, if your request comes in on a G-639 and the name of the requester is only the name of the law firm representing the alien (for example, Wilens & Baker) you will need to look through your supporting documents to see if you can locate the name of the attorney at Wilens & Baker who is representing the alien. If you cannot locate the name of the attorney who is representing the alien, then open the case in the name of the alien, in care of the law firm. Do not use "Wilens & Baker" as the requester name.

6.1.1.5 Do not hyphenate names.

6.1.1.6 Double-check the spelling of the names. If the name of the requester is not clear on the request letter, check the supporting documents for a Form G-28 for a clear copy.

6.1.1.7 Add a period after the middle initial.

6.1.1.8 Rescinded. ~~If the subject does not provide a middle name or initial, enter "NMN" in the "Middle" field.~~

6.1.1.9 Do not use part of the last name as a middle name, for example Hispanic names. Sometimes it is obviously a middle name, such as Juan Jose Gonzalez. Sometimes it is obviously a first and second last name, such as Juan Gonzalez Becerra. Other times, it is not so clear. You might look at the mother's and father's last names, if provided. If you are unsure, contact a supervisor.

6.1.1.10 If the request came to us on Form G-639, always use the name and address of the requester in Section 2, "*Requester Information.*" Never use the address on the envelope, or Form G-28 or letterhead *unless* the requester did not use Form G-639 *or unless* Section 2 of Form G-639 is illegible. If the address on the G-639 is a foreign consulate office, or is a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you can find no other address, insert a case note and send the case to U/C.

Be careful - it is easy to miss apartment or suite numbers because the space for them is at the right side of Form G-639.

6.1.1.11 Each line of the address in FIPS can contain no more than 35 characters; this includes spaces and punctuation. When we are printing the responsive records to CD, nothing over 35 characters prints on the CD. This requires the OA clerks to print a label separately for those CD's before mailing.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.1.12 Do not use special characters, such as "&" and "#" in the address field; rather, spell them out or use an abbreviation, such as "and" or "No." Note: you ***may*** use spaces, dashes, periods, commas or single quotes ('). You ***may not*** use @, #, $, %, ^, &, *, (,), =, +, [,], {, }, \, <, >, or /.

6.1.1.13 Please include the suite number or apartment number on the same line as the street address. FIPS will allow you to key in more than 4 lines in the address box. The issue is when the case is processed and the CD is printed, it only prints the first 4 lines. The requester's name is the first line of the address, so you have three lines left. Enter any suite numbers or apartment numbers in the address line.

6.1.1.14 If the requester does not provide a valid address use: 123 Main Street, Washington, DC 12345. Send an e-mail to your supervisor and assign the case to Unit Chief.

6.1.1.15 When the attorney or subject of the request provides both a physical mailing address and a P.O. Box, use the P.O. Box for the official mailing address and do not include the physical address. Please do not use both.

6.1.1.16 The address can only be four lines long, even though FIPS gives you an extra line. The requester's name is always the first line.

6.1.1.17 If an attorney represents the subject, the first line of the address should be the name of the law firm the attorney is affiliated with, or, Attorney at Law, or "c-o" and the law firm name or the name of the attorney.

6.1.1.18 If the address is foreign, you must check the box marked Foreign. This will change the format of the worksheet to include the Province and Country. You must complete these fields to ensure proper delivery. Before pending this case for any further action, please check the "Print to CD" box and add a Discussion note that you did so.

The following places are NOT foreign countries:

American Samoa
Guam
Puerto Rico
Northern Mariana Islands
Baker Island
Howland Island
Jarvis Island
Kingman Reef
Midway Islands
Navassa Island
Palau
Palmyra Atoll

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

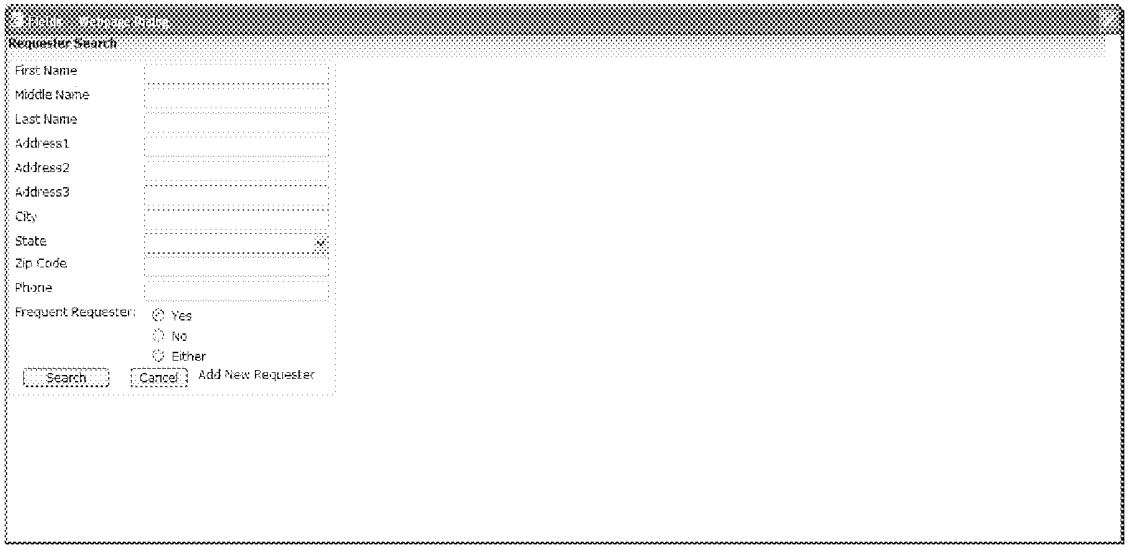
U.S. Virgin Islands
Wake Island
Micronesia

A foreign address may be very long, and you may have to consult a supervisor to complete the address field correctly.

6.1.2 Requester Search/Entry. To locate and select existing requesters or to enter new requesters, click the **Requester Search/Entry** link to open the Requester Search Form. To search for an existing requester, click in one of the available fields in the Requester Search Form and begin entering pertinent information. When searching for a requester whose last name is Smith, for example, click in the Last Name field and enter a portion or the entire last name. After you have entered enough information, click **Search** to locate requesters with matching information.



If you get any matches to your search, you will see a screen that looks like this:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

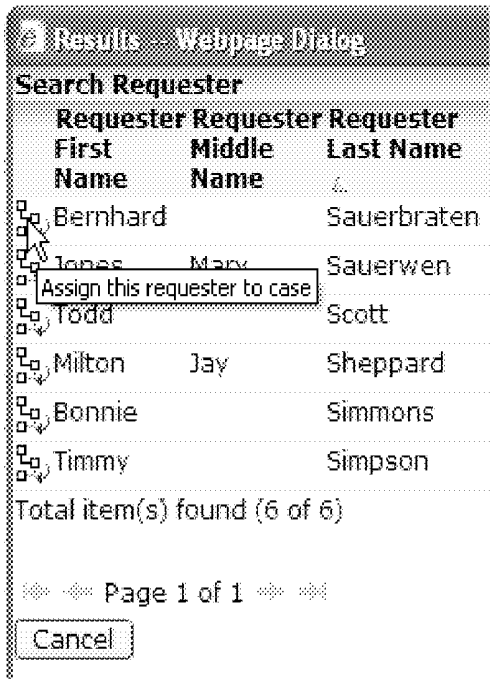
If any of those requesters are a perfect match for your requester, you may "Assign this Requester" by clicking on the icon to the left of the name:



And it will populate the requester information like this:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

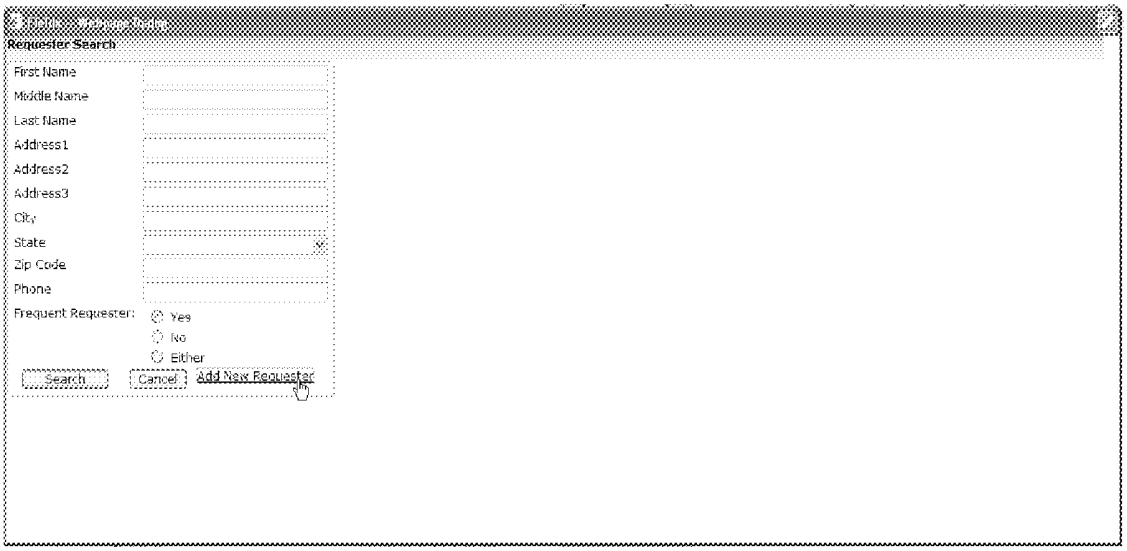
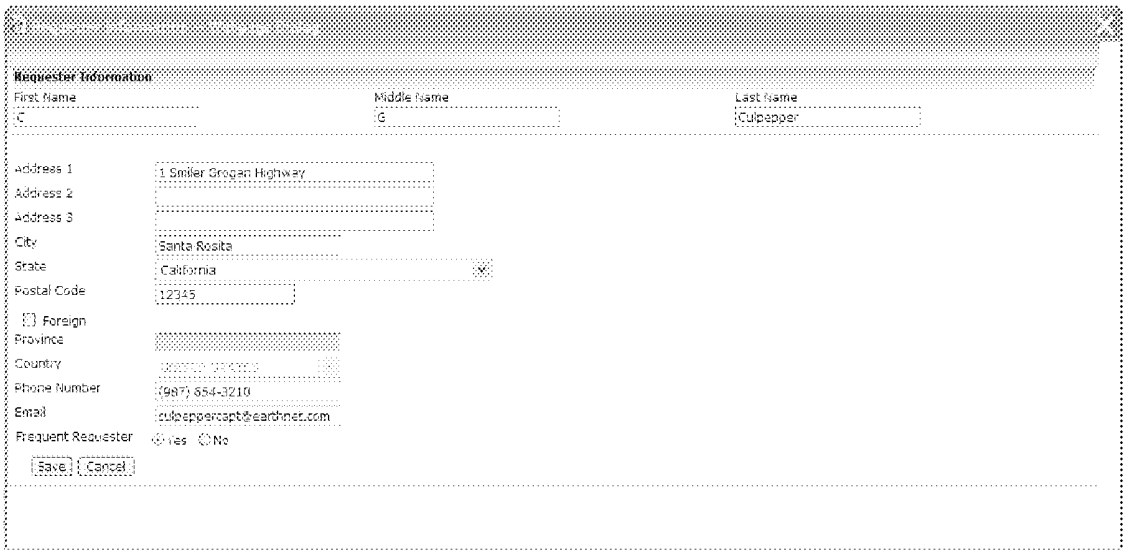
6.1.3 Add New Requester. If you do **not** find a match, you will have to add a new requester by selecting Add New Requester:



When you click Add New Requester, you will get a dialog box that you fill in. You will enter all information, decide if this is a Frequent Requester, and then click Save.



6.2 SUBJECT INFORMATION

After saving, look to see if this is a self-request. If so, you can copy the Requester Information to the Subject:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

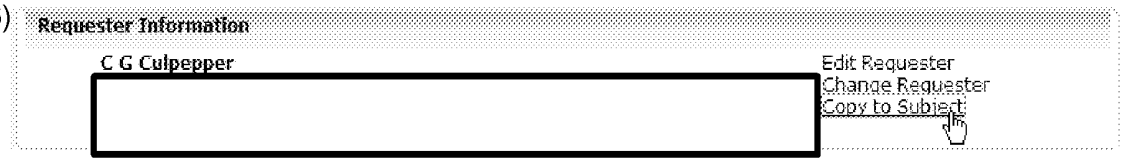
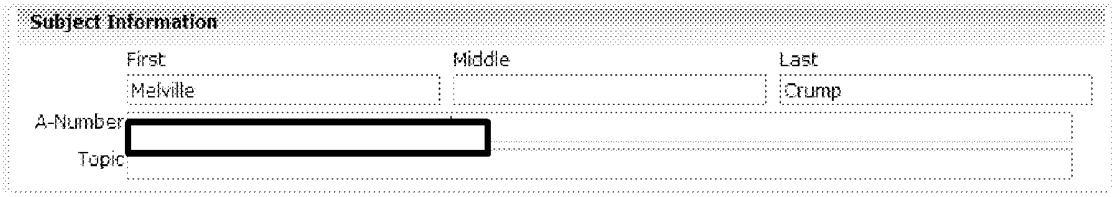
(b)(6)



Otherwise, you will have to enter the subject information in the area. If the person gave more than one A-Number, please separate them with a comma in the A-Number field.

(b)(6)



6.2.1 Name

Enter the subject's name, as it appears in section 5 of Form G-639 (except in the case of a petitioner asking for a petition).

The name portion of the worksheet is the name of the alien whose file we are requesting. This is usually the name in the subject portion of the Form G-639, or in the subject line of the request letter. However, if the requester is asking for a petition he or she filed on behalf of a beneficiary, then that document will be a separate receipt or it will be in the beneficiary's file, not the requester's file. In situations like this, the subject information would be that of the beneficiary, not the requester.

6.2.2 Alien Number

In the alien number field, enter your subject's alien number, as provided on the request, as an eight-digit or nine-digit number.

6.2.2.1 You should always check the A-number in CIS to be sure it belongs to the correct subject. Once you have established that it is the correct A-number, copying and pasting the A-number will save you from making a typographical error and inadvertently staffing for the wrong file.

6.2.2.2 If the alien provided us with more than one A-Number, please separate these numbers with a comma.

6.2.2.3 If you have created the case and you see less than eight digits in the A-number field, please re-check (by pasting the number into CIS) to make sure you have entered the number correctly.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.2.2.4 Please do not enter the A-number if the requester is a petitioner asking for a copy of an unconsolidated petition, as it will result in a bad staffing.

6.2.2.5 If the requester is a petitioner asking for a copy of a petition that has been consolidated into the A-file of the beneficiary, you should enter the A-number of the beneficiary, since we will request the beneficiary's A-file.

6.2.3 Topic

If the request is for something other than an alien file, for example, a receipt file or a vacancy announcement, then you will add this information in the "Topic" field in the Subject Information area.

"Topic" is used at different times, such as:

- when there is an unconsolidated receipt file
- when it is a request for a vacancy announcement
- when it is a request for a personnel file
- when it is a request relating to policies and procedures service-wide

6.2.3.1 If the alien is requesting a receipt number, enter the information in the following format:

Correct: MSC0412360000

Incorrect: MSC-04-123-60000

6.2.3.2 Enter the receipt number with no dashes or spaces. This format assists the Mission Support Assistants in locating the files and in locating the cases in FIPS when the receipt files come into the facility, and it will make it possible for case creators to spot duplicate or similar cases. If you are requesting multiple receipt files from the same facility, use only one file request. See **Staffing Sheet Guide** for more guidance.

6.3.2.3 When the request is for vacancy announcements, the vacancy announcement number must be the first part of the description. See **CIS Personnel Information** for more information on handling personnel related requests. In other types of situations, put as much of the pertinent information in the description line as space will allow. You may need to modify the acknowledgement letter.

6.3 CASE SPECIFICATIONS

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

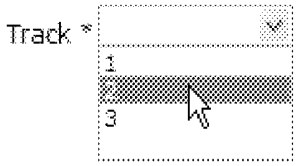
6.3.1 Track



6.3.1.1 Track 1 – Requests for receipt files and requests for partial records such as a specific document. A specific document request consists of three documents or less (except asylum or refugee requests, which you should create under category **Alien File** and assign to Track 2).

6.3.1.1.1 Please select the category **Specific Documents** and make the case a Track 1. The first paragraph of the acknowledgement letter sent to the requester must contain the following paragraph:

We respond to requests on a first-in, first-out basis and on a multi track system. Your request has been placed in the simple track (Track 1). You specifically requested [enter specific document information here]. If you would like a copy of all your records, please send a written request to the address above, otherwise you will receive only the documents you specified.

6.3.1.1.2 Continue to create the case in Track 1 as Specific Documents. The requester may write back later responding that they need the whole file, and a FOIA/PA Assistant working in Records Locator queue can change it to Track 2 at that time.

6.3.1.2 Track 2 – Requests for entire copy of alien file, asylum or refugee requests, and requests from news media or special interest groups.

If the request has "all records" checked and lists more than three documents on the G-639, please select the category **Alien File** and make the case a Track 2.

6.3.1.3 Track 3 – Requests for records of individuals scheduled in the future to appear before an immigration judge. Requesters must provide one of the following documents to receive Track 3 processing:

- Form I-862, Notice to Appear, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-122, Order to Show Cause, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-863, Notice of Referral to Immigration Judge

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Written notice of the continuation of a future scheduled hearing before an Immigration Judge.

6.3.1.3.1 A supervisor will review all incoming FOIA requests and identify Track 3 requests. The supervisor will verify that necessary documentation is present with the request. There should be an attached cover sheet indicating to the case creator whether the request for Track 3 is approved or denied.

6.3.1.3.2 If there is no cover sheet, please evaluate the request and make a determination to approve or deny Track 3. If you are unsure, consult your supervisor.

6.3.1.3.3 Before you create the case, look at the documentation. Sometimes you will find a reference to a current, open case which the requester wishes to upgrade to Track 3. After you verify that the case is open, you may simply click "Send to Research" and you are finished with the case.

6.3.1.3.4 Requesters will sometimes request both Track 3 processing and expedited processing. Do not select both. Neither has to do with the other. A requester could be granted either Track 3 processing or expedited processing, but never both on the same case. For expedited processing guidelines, please refer to **"Expedited Treatment"** in this guide.

6.3.1.3.5 Track 3 processing is not "expedited" processing as that term is used and understood in law. It is not appropriate to use the word "expedited" when discussing Track 3 processing of a FOIA request ("priority" or "accelerated" processing are more appropriate terms for Track 3). Don't confuse the two in correspondence with requesters.

6.3.1.3.6 Refer to the cover sheet the supervisor attached to the request. There should be either an Expedited coversheet or a Track 3 coversheet, but not both. Follow the instructions on the cover sheet attached to the request. If there is no cover sheet, do not mark either box.

6.3.1.3.7 If the requester specified Track 3 processing but the request does not have a cover sheet, please create the case. If you have a request for Track 3 and you see that we have a future court date provided in the request, prepare your response according to the Track 3 Ack Letter found in O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters

6.3.1.3.8 If the requester did not provide any documentation or if the documentation says "a date and time to be determined" prepare an acknowledgment letter and click "Add Track 3 Denial Paragraph." Proceed with creating the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

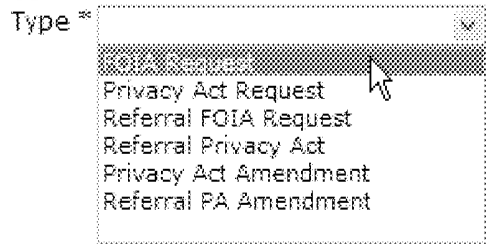
6.3.1.3.9 If you are not sure whether to approve or deny Track 3, please consult your supervisor.

6.3.1.3.10 If you assign the case to Track 3, ensure you put the words "TRACK 3" at the top of the file request.

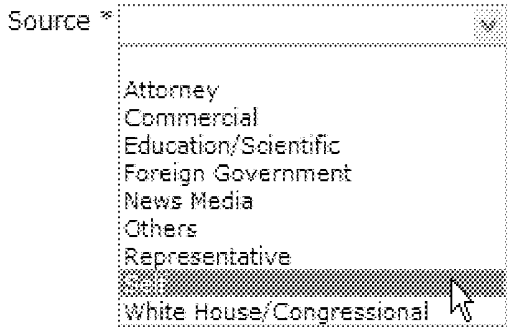
6.3.1.3.11 If the requested file has already been scanned because of a prior FOIA request that has now been resubmitted for Track 3 processing, do not create the case. You should send the case to Research, where they will attach the new request to the existing case as a CSD. If Track 3 processing has been approved, you have to change the track on the original case to Track 3 and add a Discussion to that case explaining why.

6.3.2 Type



Always select **FOIA**. It will be incumbent upon the processor to verify the status of the alien, and to change the case type if necessary.

6.3.3 Source



The source of the request is, quite simply, who is making the request. Is the requester the individual or an attorney or representative speaking on the alien's behalf? Is it a request from the media or a true third party requester? Below is a list of possibilities for requesters:

- Attorney - The requester is an attorney representing the alien. The attorney will have checked the box on the G-28 marked "Attorney," or will have sent us a letter on the law firm's letterhead.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Commercial
- Education/Scientific
- Foreign Government
- News Media
- Others - The requester of the file is someone other than the alien, an attorney or an accredited representative. They might possibly include a G-28 with something other than "Attorney" or "Accredited Representative" checked.
- Representative - The requester is an accredited representative under the provisions of 8 CFR 103.2(a)(3) and 292.1(a)(1) or 292.1(a)(4). On a G-28, the requester will have marked the box "Accredited Representative."
- Self - This is a request from the alien himself or herself. The request may have the name of an individual followed by "care of" a certain law firm. This is still a self-request.
- White House/Congressional

If you feel that you have a case of a different source of request, please contact a supervisor for further guidance.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.4 Category

There are 30 different categories of requests. However, the most commonly used ones are:

6.3.4.1 Alien File – The requester is asking for an entire copy of an alien file. This category includes the following:

a. Files of living subjects
b. Naturalization records on or after April 1, 1956
c. Visa records on or after May 1, 1951 in A-files
d. A-Files above 8 million (A8000000), and documents therein dated on or after May 1, 1951
e. Registry records on or after May 1, 1951 in A-Files
f. Alien Registration Forms on or after May 1, 1951 in A-Files

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.4.2 Specific Documents – The requester is asking for specific documents, such as a copy of a receipt file, an application or a copy of his or her naturalization certificate. A Specific Document case is a Track 1 case, and vice versa. As a rule, you should create a case as Specific Documents if the requester is asking for up to three documents. If a requester is asking for an asylum application and supporting documents, you should create it as Alien File. (Refer to the section *"What track is my case?"* that follows.)

6.3.4.3 Personnel – The requester is seeking information relating to USCIS personnel matters.

6.3.4.4 Special Interest Group – Requester(s) are seeking information relating to special interest requests such as news media requests, highly visible or public interest cases. We receive this kind of request from members of the media, activist groups, watchdog organizations or educational institutions. The documents requested are normally associated with a controversial or sensitive subject.

6.3.4.4.1 Select "Special Interest Group" if any of the following criteria are met:

a. The FOIA request relates to a Presidential or agency priority;
b. The FOIA requester or requested documents will garner media attention or is receiving media attention;
c. The FOIA request is for documents associated with meetings with prominent elected, business, and/or community leaders;
d. The FOIA request is for congressional correspondence;
e. The FOIA request is from a member of Congress;
f. The FOIA request is from a member of the media;
g. The FOIA request is from a member of an activist group, watchdog organization, special interest group, etc.;
h. The FOIA request is for documents associated with a controversial or sensitive subject;
i. The FOIA request is for documents associated with a senior official of the component;
j. A FOIA appeal if it meets one of the "a" through "i" criteria;

Items listed above are suggestive and not exclusive – exercise judgment when marking cases with category "Special Interest Group."

6.3.4.4.2 If you believe a request qualifies as a Special Interest Group, choose that case category in FIPS, change the office from NRC to COW, search for duplicates and then create the case. Do not create a file request or an acknowledgment letter. Prepare an e-mail explaining the situation for NRC, FOIASIG. Click "Reassign Office." Send the case to Unit

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Chief. A Special Interest Group (SIG) processor will create the staffing and acknowledgment letter. This enables the Special Interest Group (SIG), responsible for special interest cases, to create a report and determine whether the case is actually a Special Interest Group case and report it accordingly. If the case creators do not mark Special Interest Group cases properly, we have no way to track and report these high visibility cases. When in doubt, choose the Special Interest Group category in FIPS. The Special Interest Group will sort it out later. If you have questions or need to send information regarding SIG cases to the Special Interest Group, their e-mail address is: NRC_FOIASIG.

6.3.4.5 SFR cases at NRC – NRC uses this category to track all workload staffed to SFR. This includes cases retired by or lost by SFR, but **does not include ZSF.**

6.3.4.6 Genealogy: Genealogy cases are requests for searches and/or copies of historical records relating to a deceased person. The lists below represent the records that the public would be able to request from the Genealogy Program:

a. Naturalization Certificate Files (C-Files) from September 27, 1906 to April 1, 1956.
b. Microfilmed Alien Registration Forms (AR-2), from August 1, 1940 to March 31, 1944 and Alien Registration Forms from March 31, 1944 to April 30, 1951 in A-Files.
c. Visa Files from July 1, 1924 to May 1, 1951.
d. Registry files from March 2, 1929 to March 31, 1944 and Registry records from April 1, 1944 to April 30, 1951.
e. A-Files numbered below 8 million (A8000000), and documents therein dated prior to May 1, 1951.

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Create the and control the case.
b. Do not staff for any records and do not prepare an acknowledgment letter.
c. Send the case to Unit Chief with a discussion explaining it is a possible Genealogy
(b)(6) d. Send an email to the designated person who handles genealogy cases (currently [redacted] with the control number.

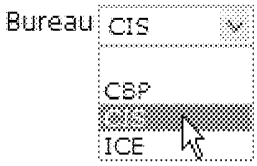
The designated person will review the request to determine if it is, in fact, a genealogy.

If it does not meet the criteria for genealogy it will be returned to you in Case Create to send an acknowledgment letter and staff for records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If it does meet the criteria, the designated person will create a letter referring the requester to the Genealogy program and will close the case as ER.

6.3.5 Bureau



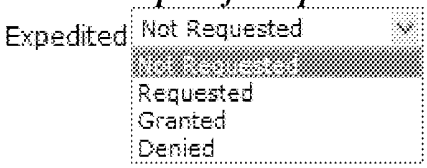
The three possible selections for Bureau are:

ICE – Used to identify requests wherein the requester is seeking information in connection with deportation hearings and other immigration related litigation (OPLA/DRO/SAC)

CIS – Used for all other categories. This is the default in FIPS.

CBP – Used for requests pertaining to documents relating to the Border Patrol, incident reports relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, checkpoints, entry/exit information, inspection, Port of Entry (POE), legacy customs or legacy inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. **Note: If request is for entry/exit information and the requester/subject provided an alien number, request the file.**

6.3.6 Is there a request for expedited treatment?



A requester may ask for his or her request to be expedited and processed outside the order of receipt. By law, we must respond to a request for expedited treatment within 10 business days.

USCIS will grant expedited processing if the requester establishes **either**:

(1) circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

or

(2) an urgency to inform the public about an actual or alleged federal government activity, if the requester is a person primarily engaged in disseminating information.

The requester must send a statement explaining in detail the basis for requesting expedited treatment. If a requester asks for expedited processing and fails to meet the criteria, we process the request in the appropriate track, using the "first in/first out" rule [See 6 C.F.R. § 5.5(a)].

6.3.6.1 OA personnel normally separate mail and faxes pertaining to expedited treatment prior to scanning. A supervisor then reviews and makes a determination regarding the expedited treatment. The supervisor will attach a cover sheet to the front of the request detailing the determination. Please create the case in accordance with the instructions on the cover sheet.

6.3.6.2 If the requested file has already been scanned because of a *currently open* prior FOIA request that has now been resubmitted for expedited processing, do not create the case. You should send the request to Research where they will attach the new request to the existing case as a CSD.

6.3.6.2.1 If expedited processing has been approved based on new information, you have to check expedited processing approved on the original case and send an expedited treatment approval letter by opening the original case in stand-alone mode, creating a Blank Letter, and adding the following: This letter serves to notify you that your case has been approved for expedited processing.

6.3.6.2.2 If expedited treatment was already denied in the *currently open* prior case, and the supervisor's decision is the same, if you have not already created the case, you may Send to Research, where they will attach your request to the original case as a CSD. Go to the original case in Standalone, go to Tasks, and create the Expedited Denial Letter.

6.3.6.2.3 If the expedited treatment request refers to a case that *has already been closed*, either close it as DP and send a duplicate letter or create it as a new case, based on the situation. If in doubt, consult your supervisor. Please refer to the section on DP (duplicate) Cases.

6.3.6.3 Sometimes the OA room will miss an expedited request. If this happens, select "Denied" in the drop-down box, create the Expedited Denial Letter, and then create the case as normal.

6.3.6.4 If you believe the requester meets the requirements for expedited treatment (and there was no cover sheet) then select "Requested" and send the request to Unit Chief. E-mail your supervisor with the details. If the supervisor granted expedited processing, you will not create an Expedited Denial Letter, of course. You must select "Granted" in the

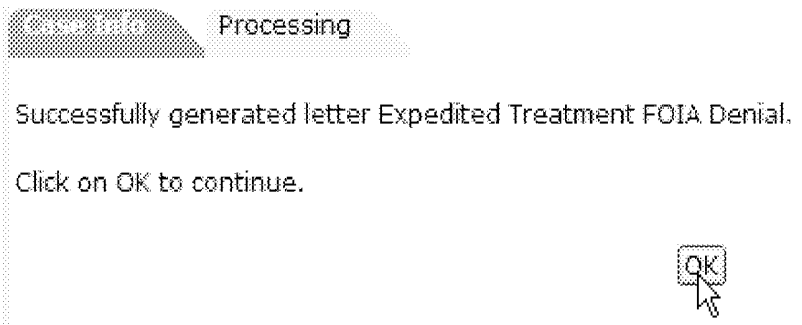
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Expedited drop-down box. When you create the acknowledgement letter, it will address the fact that Expedited Treatment is granted.

USCIS denies most requests for expedited treatment because the requester failed to establish either of the necessary criteria.

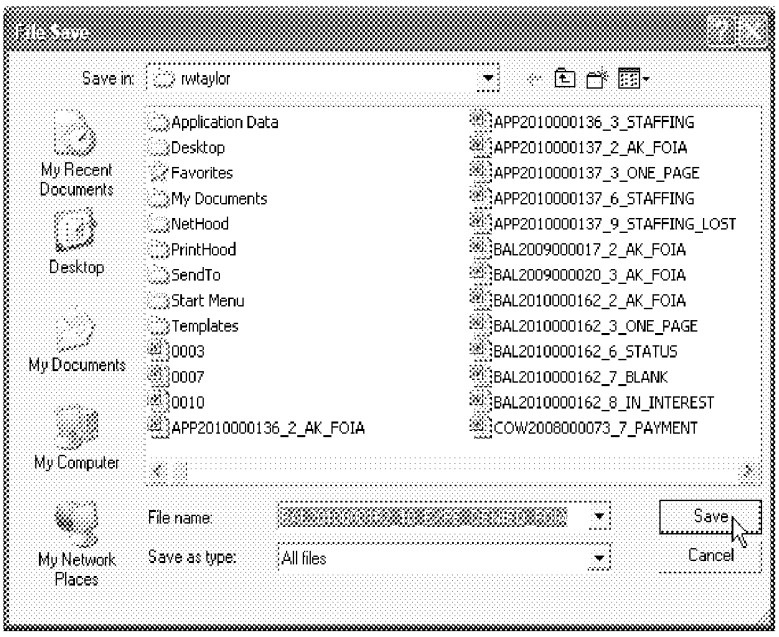
6.3.6.5 If you have made a determination to deny, or if the supervisor has indicated denial, you must select "Denied" in the Expedited drop-box. After this, you should create the Expedited Denial Letter. If you or the supervisor denied expedited processing, we must advise the requester of the criteria for expediting a request and offer an opportunity to resubmit additional justification. The requester also has the right to appeal the decision to the USCIS FOIA Appeals Office.

6.3.6.6 Do not mark both "Expedited Treatment Requested" and "Track 3." A request can be either expedited or Track 3, but not both. If the requester has asked for Expedited Treatment and Track 3, treat it as if it is a Track 3 request and follow the instructions in TRACK 3 PROCEDURES. In such a case, you should not mark "Expedited Treatment Requested" before sending it to Unit Chief.



A dialog box will pop up. Select "Save":

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



A word document explaining the denial and appeal rights will pop up. After you have done any editing necessary, save the document and check it back in.

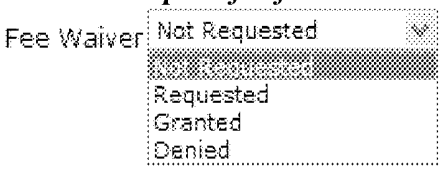
After you have made that selection, your acknowledgement letter will address expedited treatment granted.

6.3.6.7 If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that this needs to be a multiple case, you must check the Expedited Treatment Requested box (and create the appropriate response letters) for each child case. On the other hand, it might be that we will treat only the parent case as an expedited treatment request. You may make the determination or the supervisor will make a statement to that effect on the cover sheet, and of course, in such a situation, you would not mark the child cases as expedited treatment requests.

6.3.6.8 If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then change the Expedited drop-down box to "Not Requested" before you send the case to Up-front Approver. Because we are not generating a letter regarding expedited treatment denial or grant, and because it would cause erroneous reporting of Expedited Treatment Requests, you must change it to "Not Requested."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.7 Is there a request for fee waiver?



The requester may ask for a waiver of fees in his or her request or in accompanying documentation submitted with his or her request. USCIS considers all requests for fee waivers on a case-by-case basis.

A requester must meet two requirements in order for USCIS to grant a fee waiver:

1. The disclosure of the requested information must be in the public interest,
2. AND the disclosure of the information is not primarily in the commercial interest of the requester. For a detailed explanation, please refer to the U.S. Department of Justice Guide to the Freedom of Information Act, "Fees and Fee Waivers."

Also note: the requester must ask for a fee waiver. Simply including a DOJ Fee Waiver form does not constitute a request for fee waiver. If the requester has written any statement to the effect of a request for fee waiver on the form, then you treat it as a request for fee waiver.

6.3.7.1 When a requester has asked for a fee waiver, there should be a cover sheet advising you of approval or denial. You may determine to deny based upon the two criteria listed above. If you do so, you must select "Denied" in the Fee Waiver drop-down box on the FIPS worksheet. Regardless of the decision on the fee waiver, you must insert a Discussion in FIPS indicating that you addressed the fee waiver request.

6.3.7.2 When you are finished creating a case with a fee waiver request, create a Specialty Letter and select Fee Waiver Denied, edit the document if necessary and then create the case as normal. If you are not sure, please consult your supervisor.

6.3.7.3 If you believe the requester meets the requirements for fee waiver (and there was no cover sheet) then select "Requested" and send the request to Unit Chief. E-mail your supervisor with the details. A supervisor will make the decision to approve or deny the fee waiver and send the case back to you in the case create role. At that point, you will select either "Granted" or "Denied."

6.3.7.4 Fee Waiver Denied: When you respond to a request for fee waiver, you must add specific language to the acknowledgement letter. Please see O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Fee_Waiver(denied) for an example of the denial language. Copy and paste this language into the acknowledgement letter. Do not bold, underline, highlight or enlarge the font of the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

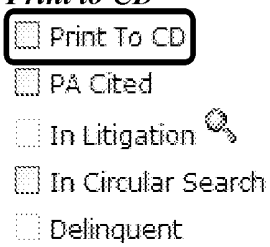
language. If the font changes to bold when you paste it in, highlight that text and remove the bold.

6.3.7.5 Fee Waiver Granted: If the decision is to grant the fee waiver, then please select "Granted" in the Fee Waiver drop-down box. In the acknowledgement letter, please add the following sentence to the end of the first paragraph:

This is to inform you that your request for a fee waiver has been granted.

6.3.7.6 If there is a Fee Waiver Request cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then change the Fee Waiver drop-down box to "Not Requested" before you send the case to Up-front Approver. Because we are not generating a letter regarding Fee Waiver denial or grant, and because it would cause erroneous reporting of Fee Waiver Requests, you must change it to "Not Requested."

6.3.8 Print to CD



In an effort to save time, money and resources, the FOIA unit sends out final action responses on CD to all requesters (with two exceptions). When we send out the acknowledgement letter to the requester, it advises them that unless they write in and specifically ask for their documents on paper, they will be receiving them in a CD format. The acknowledgement letter templates reflect the change.

RULES FOR CHECKING "PRINT TO CD"

6.3.8.1 Check the "Print to CD box" on all new case creates, unless the mailing address of requester is to a correctional facility or unless the requester specified paper in the initial request letter (for requesters who are attorneys, the default is Print to CD).

6.3.8.2 If the responsive records are already scanned in when you create the case, you will still check print to CD.

6.3.8.3 All responsive records mailed to a correctional facility must be on paper. In such an instance, you must modify the acknowledgement letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by deleting the paragraph that begins with "This office will

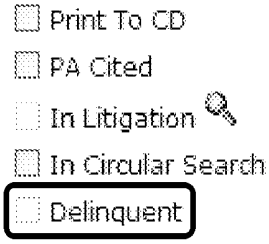
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

be providing your records on a Compact Disc (CD)"

6.3.8.4 If the requester is in prison but we are sending the responsive records to an attorney's office, we will print to CD.

6.3.8.5 If a requester specifically asks for their records on paper, do not check "Print to CD" box create a Discussion note citing the reason. In such an instance, you must modify the acknowledgment letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by removing the paragraph that begins with "This office will be providing your records on a Compact Disc (CD)"

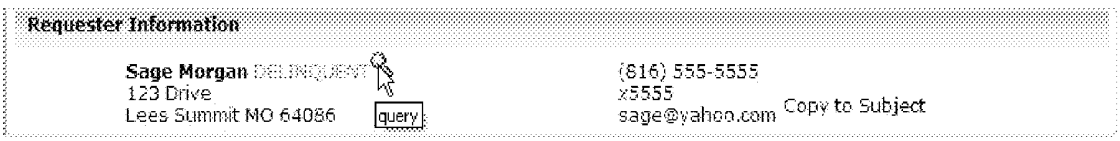
6.3.9 Is this a delinquent requester?



The Delinquent Requester search helps FIPS users identify requesters who have unpaid bills in the system. Requesters are delinquent when case fees remain unpaid for more than 45 days.

After you enter the last name of the requester, FIPS will automatically conduct a search for delinquent fees owed by that requester, using the last name of the requester. If the requester is delinquent on any case in any office nationwide, a box will pop up on the screen (see below).

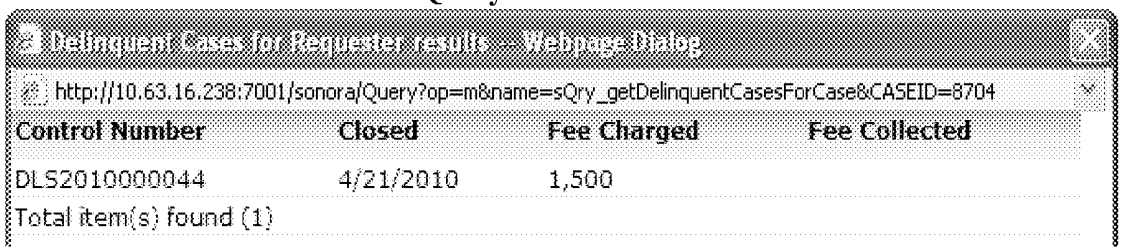
To view other cases for the same requester, click the **Query** icon next to the delinquent notice.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The query results appear in a separate window.

Query Results



If a requester/subject previously submitted a request and owed a fee on a case and he or she did not pay the fee within 30 days, the case closed as FP (failure to pay). If the subject/requester submits a new FOIA request, the Delinquent Requester notification is going to pop up. Your requester may possibly not be on the pop-up list. FIPS conducts a search by the last name(s) of delinquent requesters.

DELINQUENT REQUESTER RULES:

6.3.9.1 Do not treat the case as delinquent if the case was processed on or before January 1, 2004. Send an e-mail to NRC, FIPSPROBLEM (clicking on the link will automatically include a copy to NRC, FOIAPROGRAM). In the body of the e-mail, include the name of the delinquent requester and the delinquent case number(s).

6.3.9.2 If you encounter a delinquent requester from a FIPS Lite office, do not treat them as delinquent. You will know the request was processed in FIPS Lite when you open the case because you will see a "FIPS Lite placeholder."

6.3.9.3 Make sure the requester of the case you are creating is the same requester that FIPS is showing as delinquent. You must view the delinquent request(s) to make this determination. To view a case, highlight the line and click "view." If the delinquent requester matches your requester, treat the new request as delinquent. To get the delinquent case information (case number, dollar amount) in your acknowledgement letter and in the new case, highlight the name in the box that matches your requester and click ok.

Next, to create the case, go to the Tasks tab and click:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

When you complete the case create process and the new case has a control number, FIPS will notate the delinquency on the worksheet.

6.3.9.4 If the requester is delinquent, do not request responsive records until we receive payment.

NOTE: If you are creating multiple cases, you should "Create Additional Cases" before you prepare the Acknowledgment Letter and File Request(s) for the original case.

NOTE: A FOIA/PA Assistant working in Records Locator queue may need to cancel pending requester documentation for cases pending requester documentation due to a prior delinquent status that has been removed, because the system does not.
If the FOIA/PA Assistant working in Records Locator queue does cancel pending requester documentation, he or she should generate a new interim acknowledgement letter and staff the case as usual.

If the requester has more than one delinquent case, you will have to add up the total and modify the delinquent requester letter providing the case number for each delinquent case, the dollar amount owed for each, the total dollar amount owed, and instructions to prepare a check for the total amount made out to "U.S. Treasury."

When you click "ACK Letter" the following screen pops up. Click OK to generate the letter.

We will take no further action until the delinquency is resolved. Please pend.

Before you move to another part of the case create process, click:

6.4 SEARCH FOR DUPLICATE CASES

Just before you create the case, you should look for duplicates. Duplicate cases are cases in which the request was submitted multiple times to the Service, or was inadvertently scanned into FIPS multiple times, or are cases that we previously processed.

Sometimes a requester will take a "shotgun" approach. He or she will submit the same FOIA request multiple times to ICE, CBP and CIS, hoping to get an answer more quickly. The

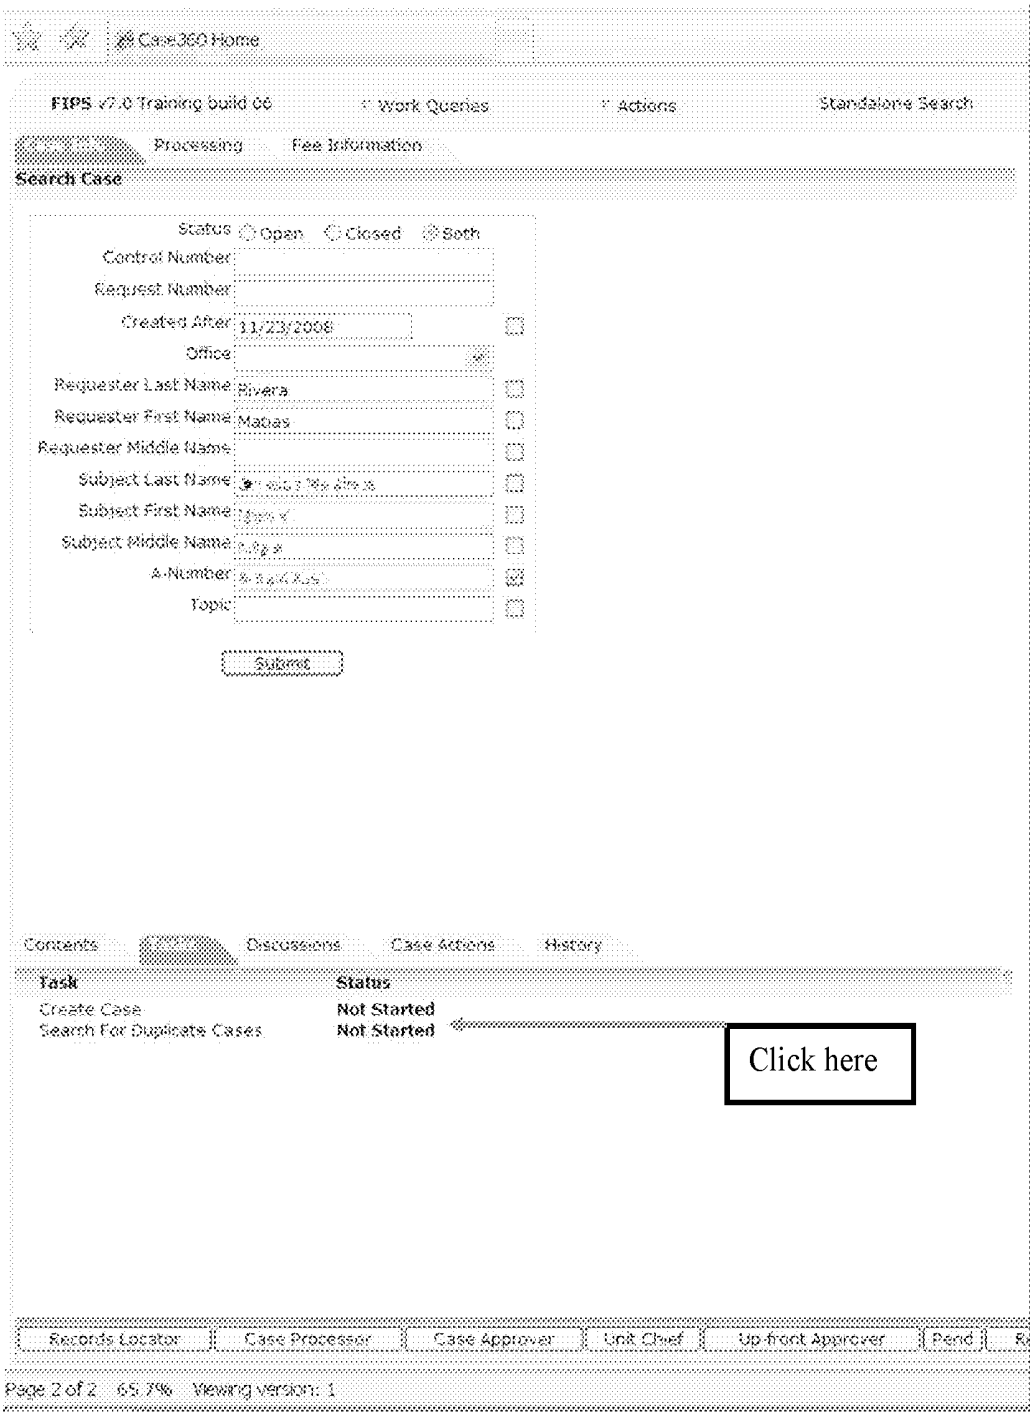
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

receiving offices will then in turn, transfer these requests to NRC. These are duplicate cases when an office has already processed this request with a final action code of either PD or G1, or has it ready to be processed.

This does not include instances in which the requester has faxed the request and then mailed it. If you open a case and find that the exact same request has very recently been created, chances are that you have opened the mailed copy which followed a few days after the fax. ~~Close this case as ER (created in error).~~ Do not create such a case. Click "Send to Research." That case will go to the research queue and you will be ready for your next case.

Ordinarily, you will search by Alien Number, and if you do not find a duplicate or similar case, your search will be complete. If the requester did not provide an alien number, you may search by the subject's last name and first name, or even by the requester's last name and first name. You may use a percent sign (%) as a wild-card for these searches. For example, if the requester's name is Jaime Vazquez, but you see he also has spelled his name Vasquez – you can search by Subject Last Name "Va%" and Subject First Name "Jaime."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



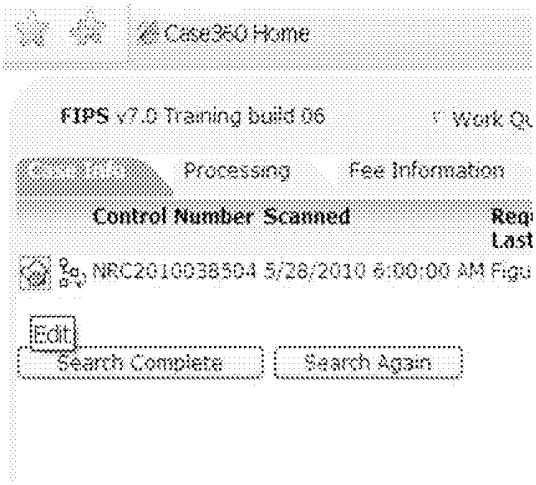
Ordinarily, you will get a blank result.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

You may select "Search Complete" or you may select "Search Again" to try the search by a single criterion or different combinations such as Subject Last Name, Subject First Name, Requester Last Name, and so forth. However, the search may yield an open case:

If you do get a match, you should select "Edit" (the icon is a folder with a gear in front of it) to open the matching case and carefully review it to be sure it is a duplicate:

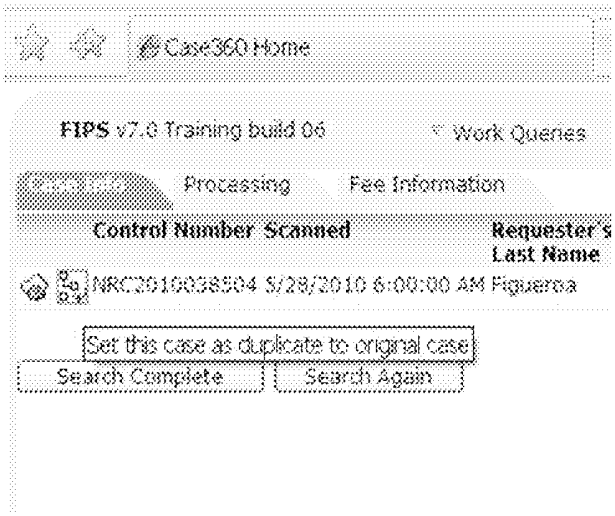
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



By highlighting the case you wish to review and then clicking the "Edit" icon, FIPS will open the case for your review. You then review the request to ensure that:

- If there has been a case that was closed G1 or PD within six months from same requester –
- This does not include cases that were closed with any other final action code.

Once you verify those items and you determine the case is a duplicate of another case, you will select "Set this case as duplicate to original case" as follows:



~~Create a Final Action Letter and select final action code ER: Created in Error. After this, send the case to Up-front Approver~~ Do not click "Create Case." Click "Send to Research." You will then be ready for your next case.

If you determine that it is not a true duplicate, please insert a new Discussion entitled "Similar Case" in each of the cases, so that a processor or approver can review both.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the date of the request is either the same as your request or within a very few days and:

3. The requester is the same, and
4. The information being requested is the same in both requests,

Do not close this case as a duplicate. ~~Instead, close this case as ER (created in error)~~ Do not click "Create Case." Click "Send to Research."

If you are not sure your case meets the duplicate requirements, create a new Discussion in the case and send the case to Unit Chief. Send your supervisor an e-mail with the case information for his or her review.

6.5 COPYING RECORDS FROM A CLOSED CASE

You may be checking for duplicates and discover responsive records of an existing closed case meet the following criteria:

- Regular (not Appeals) case
- Status of the duplicate case is "Closed" and
- The date closed was within six months of the current date

If the duplicate case meets all those criteria, then you may copy from the existing case into the new (active) case. The Request Type that you have selected for the existing case and the new case will determine whether any redactions are copied with the responsive records. If both new and existing cases are FOIA Requests or both cases are Privacy Act requests, then redactions will be copied into the new case with the responsive records. However, if the new case is a FOIA Request and the existing case is a Privacy Act request (or vice versa), then the responsive records will be copied but without any redactions.

To begin the search, select the Tasks tab and click **Search for Duplicate Cases**.

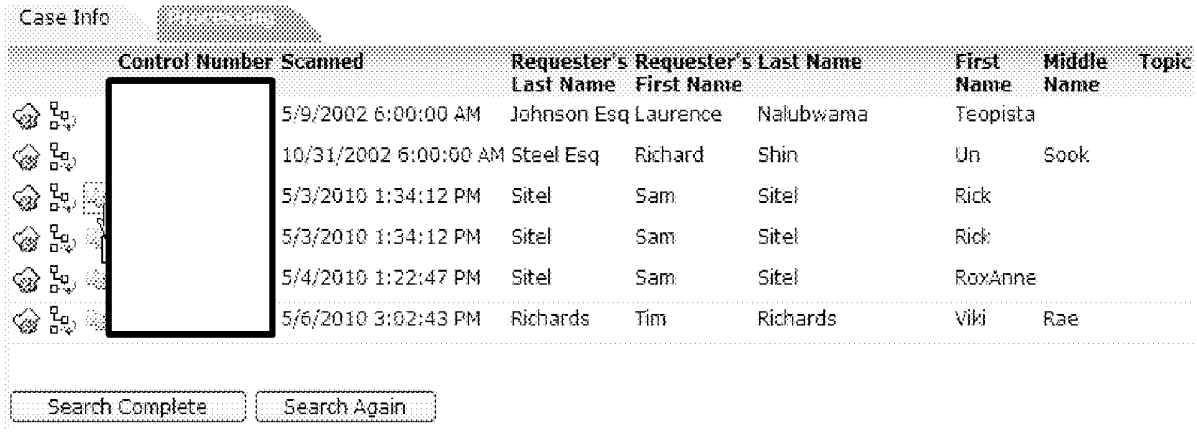
Click the checkboxes next to the populated fields to select which search criteria to use. Case Creators can also type information into other fields to use as search criteria. When have entered all criteria, click **Submit**.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

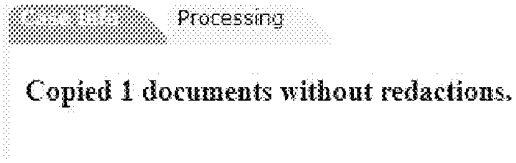
The Search Results screen lists any FIPS cases that match the selected criteria.

To copy the responsive records from the case shown in the search results into the new case, click the **Copy Documents** icon, which looks like two pages:

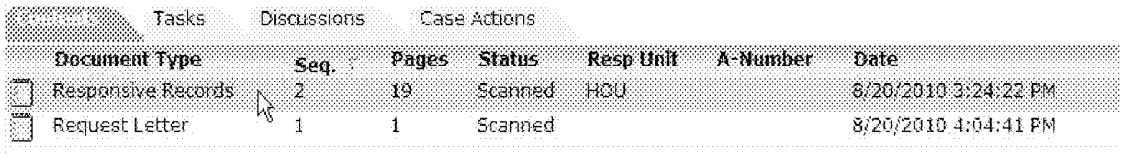
(b)(6)



A message appears in the Case Info tab confirming that you copied the document into the new case:



The responsive records now appear in the Contents List of the new case:



7. CONSENT, VERIFICATION OF IDENTITY, AND DESCRIPTION OF RECORDS

"Consent" for the purposes of FOIA/PA is written agreement, approval or permission for access to information in the record by the competent individual to whom the record pertains. **The case creator must review the request and supporting documents to determine if proper consent is present.**

5 U.S.C. § 552a(b) No agency shall disclose any record … except pursuant to a **written** request by, or with the prior **written** consent of, the individual to whom the record pertains.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6 CFR § 5.21(f): If you are making a request for records concerning *(a living)* individual *(other than yourself)*... You must also provide a statement from the individual certifying the individual's agreement that records concerning the individual may be released to you.

Consent could be:

- Block 3 on Form G-639, or
- A properly executed Form G-28, or
- A separate declaration by the subject, such as:

  Pursuant to the Privacy Act of 1974 and DHS policy, I hereby consent to the disclosure to _____ _____ of any record pertaining to me that appears in any system of records of USCIS, USCBP, or USICE.

7.1 Consent of parents or guardians

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. No consent is necessary from the minor child or the person judicially determined to be incompetent, however the parent/guardian must provide his or her own verification of identity that is notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors may request their own files; they do not have to have the consent of their parents or guardians to do so. Attorneys may represent minors also.

7.2 Verification of Identity

If a requester is asking for a Privacy Act record, he or she must provide verification of identity.

A Privacy Act record, for USCIS purposes, is any item, collection, or grouping of information about a person which we retrieve by the person's name, identifying number, symbol, or other identifying particular assigned to that person. This information includes, but is not limited to, a person's nationality, immigration status, education, financial, medical, criminal, or employment history.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6 CFR § 5.21(d) *Verification of Identity,* says the requester must provide us:

- Full Name
- Current address
- Date of Birth
- Place of Birth

If the requester did not provide all four required pieces of information, you must send for additional requester documentation. A requester who provides full name, current address and alien number only has not provided sufficient verification of identity.

Next, it says the subject of record must sign the request and his or her signature must either be notarized or submitted under 28 U.S.C. 1746 *(penalty of perjury in lieu of notarized signature).*

The notarized signature of the subject or the signature under penalty of perjury does not need to be on the G-639. If a requester has inserted the **penalty of perjury statement on ANY document**, and the subject of the file has signed the document, it fulfills the requirement to verify identity.

The notarized signature or signature under penalty of perjury **might** be on a:

- Separate letter, or any piece of paper *including* a G-28, but then only if the penalty of perjury statement is directly above the signature of the subject of record.

- G-639, when the subject has signed the first page and the second page does not contain the signature of the subject but has been notarized.

- DOJ-361, Certificate of Identity: we may not suggest or require that a requester use a DOJ-361, but we can accept one as certification of identity with a signature under penalty of perjury or a notarized signature.

A current photo ID is for information purposes only and is not verification of identity.

"Verification of Identity" for purposes of FOIA/PA does not include a Form G-28 with a statement made under penalty of perjury by the requesting attorney or representative "that the information I have provided on this form is true and correct." The statement must come from the subject of the record. A statement made under penalty of perjury must conform to the requirements of **28 U.S.C. § 1746: Unsworn declarations under penalty of perjury**, which reads as follows:

> Wherever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath, or affidavit, in

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury, and dated, in substantially the following form:

(1) If executed outside the United States:

> "I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
> Executed on (date).
> (SIGNATURE)".

(2) If executed within the United States, its territories, possessions, or commonwealths:

> "I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date).
> (SIGNATURE)".

If the requester is asking for records concerning *(a living)* individual, and if there is only one signature and it does not fall under one of the categories above, request consent and/or verification of identity using the Track 1, Track 2 or Track 3 Ack Letter Requester Docs located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters* or the form "Requester Documentation Attachment" located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters \Requester_Docs_Attachment (4)*. Check the first box on the document.

7.3 Reasonable Description of Records being Sought:

If the requester provided all elements required by 6 CFR § 5.21(d), but did not provide an alien number or receipt number, you may still request a file if there is only one match and there is no other indicator that it may not be the correct subject of record.

You may possibly find multiple matches, or you may find no matches at all. In a situation like this, we do not have a reasonable description of the records the requester wants. We will have to send for additional requester documentation, specifically:

- Alien Number (if known)
- Application/Petition Receipt Number (if known)

Additionally, we may ask for items of information such as mother's and father's names. The requester is not required by law or regulation to provide that information, but if the requester does not, we may be unable to locate a responsive record.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Please request the additional PII with your Acknowledgement Letter. After you create the acknowledgment letter requesting additional documentation, do not create the file request. In the "Contents" tab, you will see a Pending slot for Requester Documentation. Send the case to Pend. After we receive a response from the requester, a FOIA/PA Assistant working in Records Locator queue will request the file. The processor will use the requested information to verify the release of the correct records.

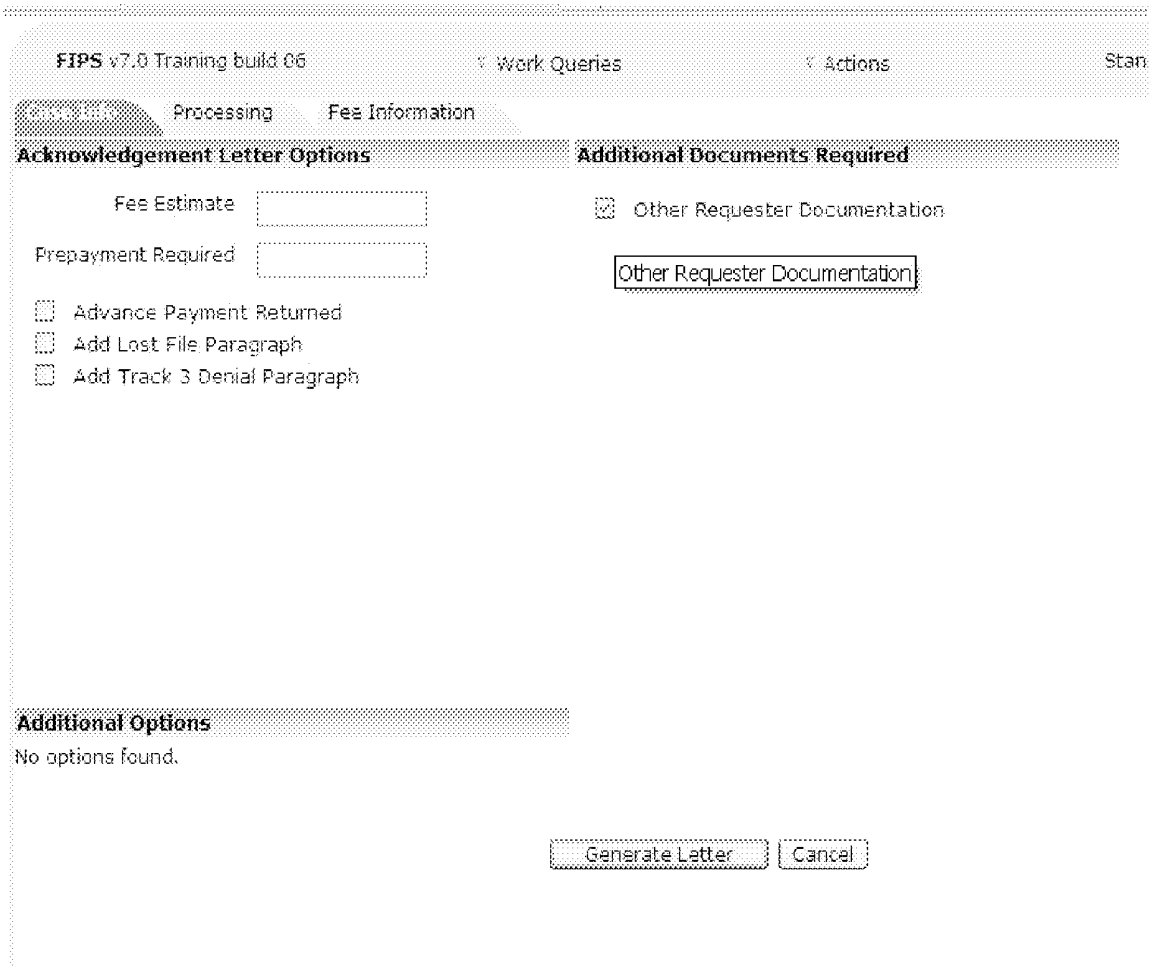
Note: if the requester marks "unknown," "none" or "N/A" for any element of the above PII, please do not request this information as part of the Acknowledgement Letter.

At this point, you will send an acknowledgment letter requesting additional information. You will not request a file.

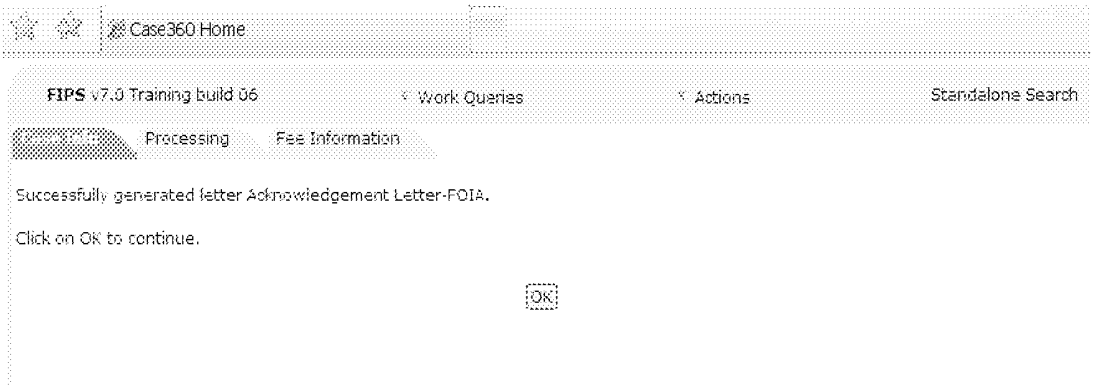
Go to the "Tasks" tab and select "Acknowledgement Letter"

After selecting "Acknowledgement Letter," the Acknowledgment Letter Options screen will open. Options on this screen will allow you to ask for other documentation and will also allow you to add a Track 3 Denial or Lost File paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



We then click on "Generate Letter." Our only option at that point is to click OK:



As soon as you do, a File Save pop-up window will appear. Click "Save."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

U.S. Department of Homeland Security
National Records Center
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

[redacted]
San Francisco, CA [redacted]

Dear [redacted]

We received your request for information relating to Chris P. Bacon on December 02, 2010.

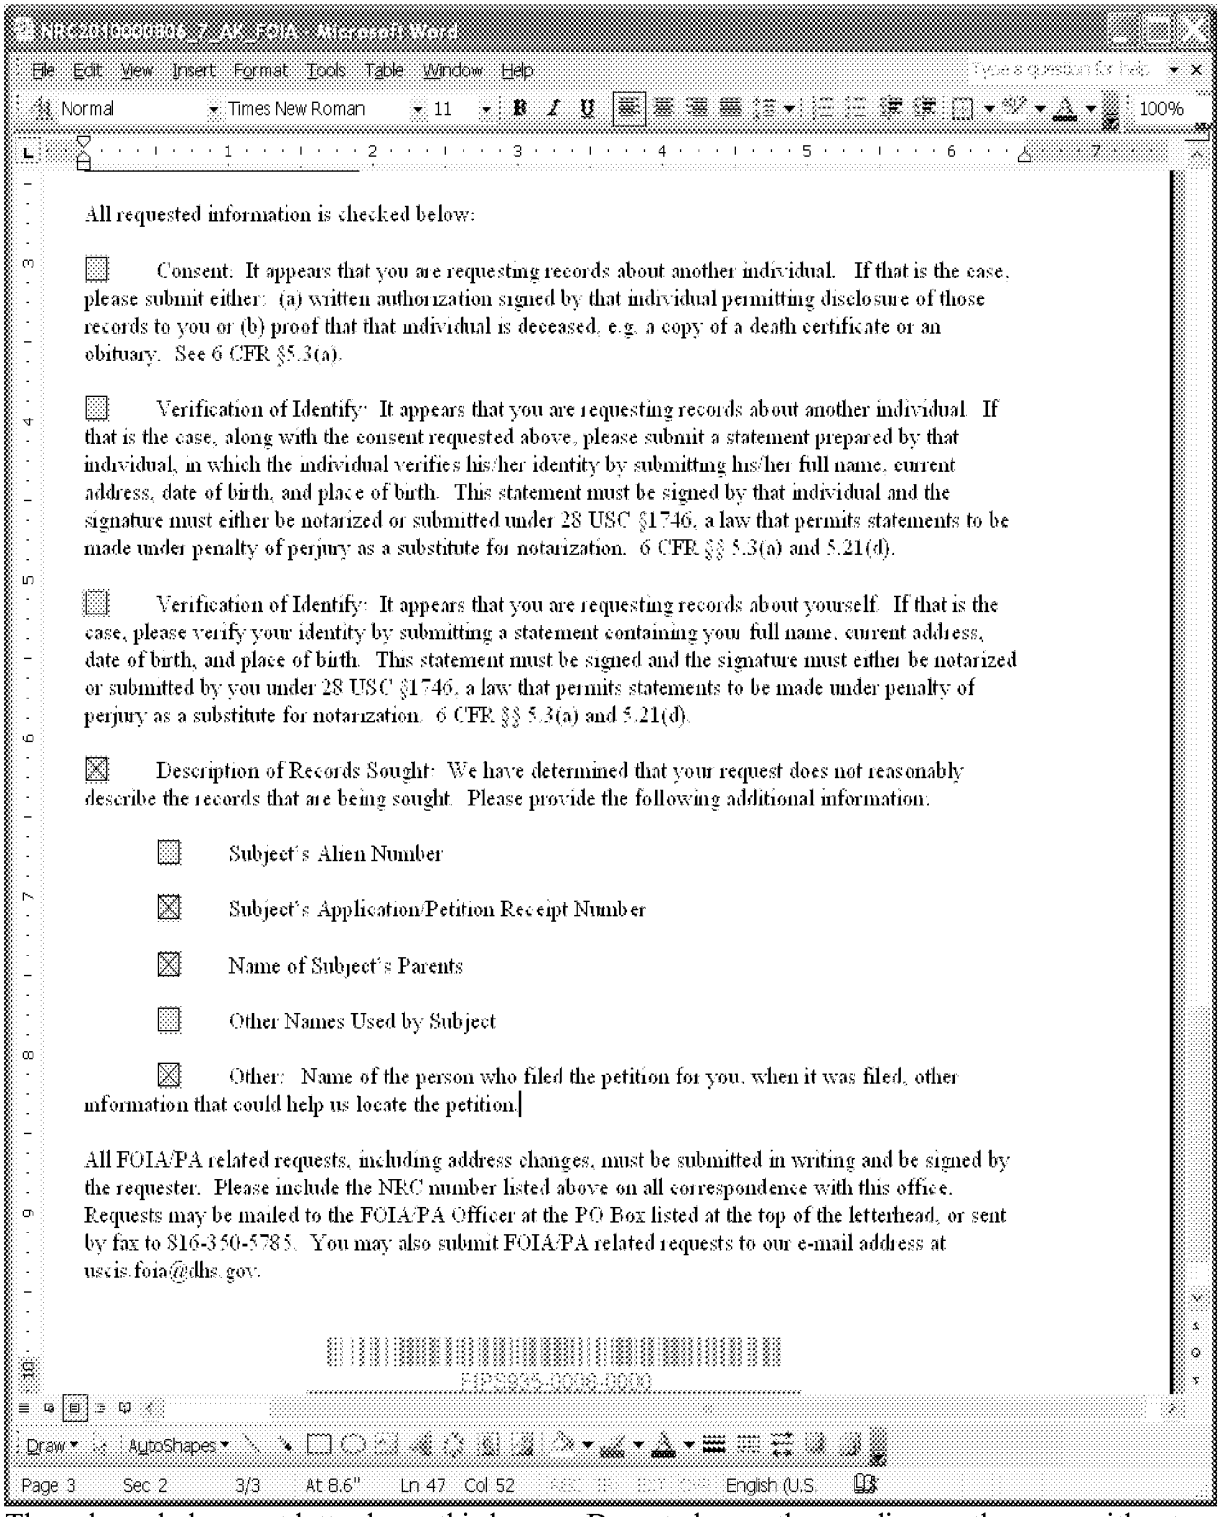
Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000806. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees, however, if fees in excess of $25.00 are required, we will notify you beforehand.

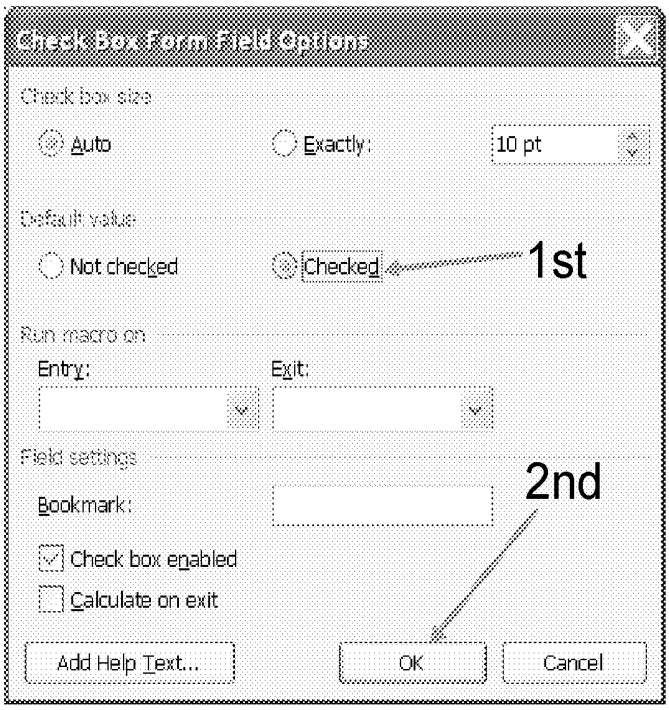
This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



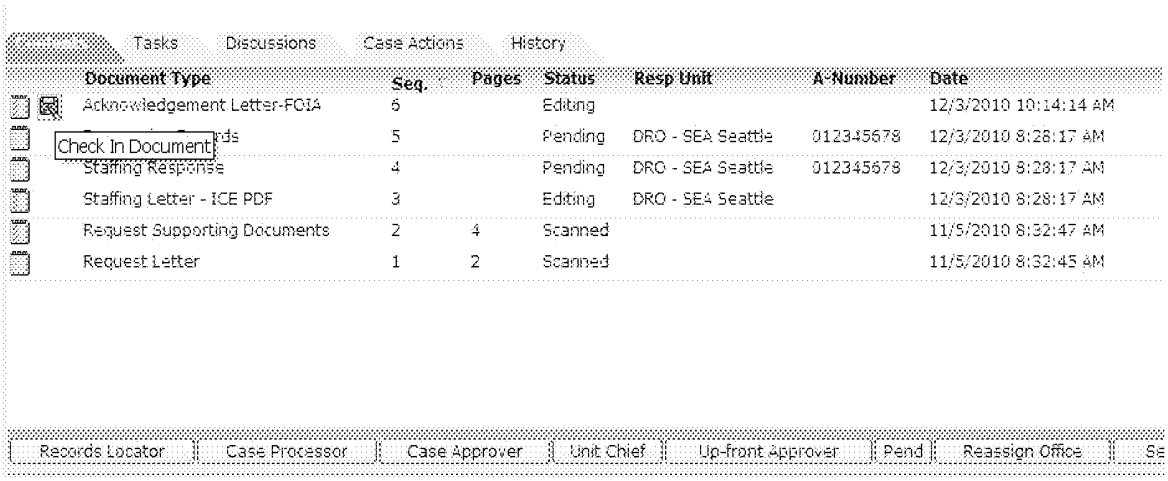
The acknowledgement letter has a third page. Do not change the wording on the page without specific supervisory instruction to do so. You may add information after the "Other" checkbox to clarify what information we need. Double-click in the area you need additional information, select the radio button marked "Checked" and then click OK for each item of information you need:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



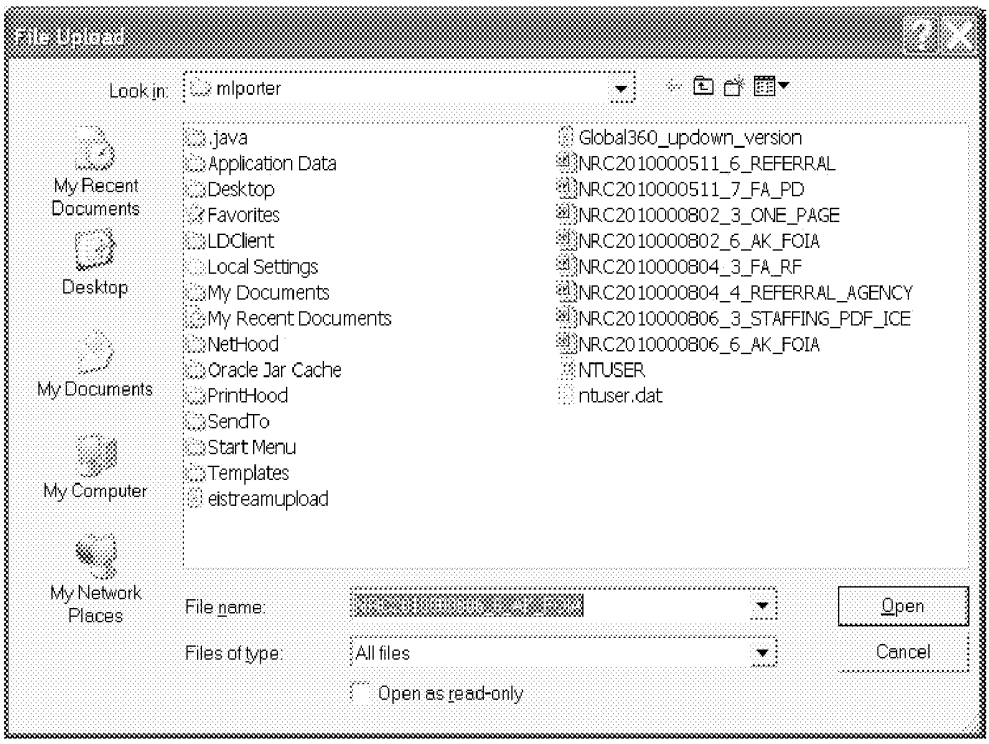
The resulting page will look something like this:

In a situation like this, you would not have created a staffing letter. (Note: If this were a live case, you would not see a pending Responsive Records slot, as in this example.) You save the document, exit Word, and check the document in:

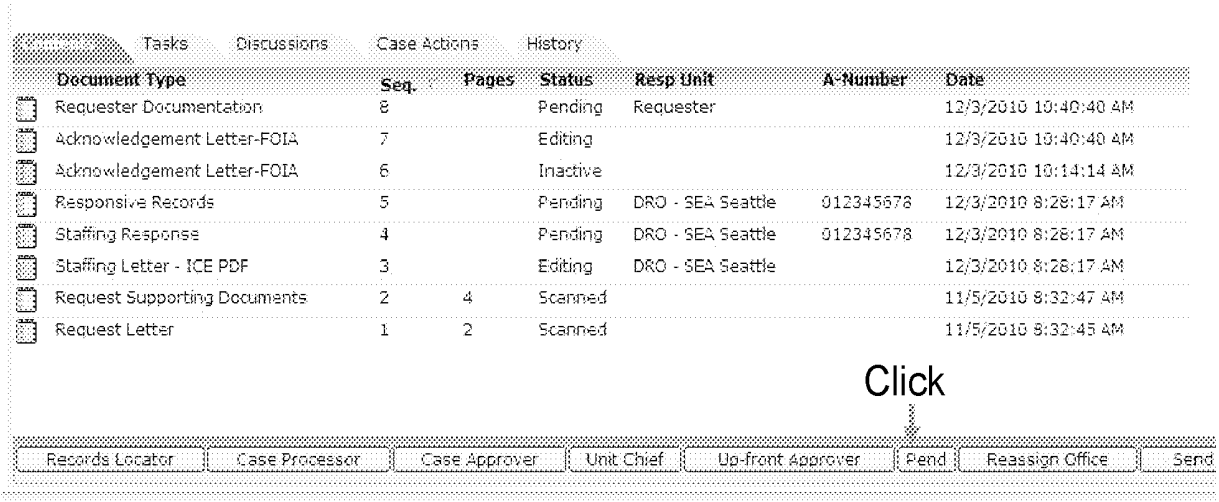


Click "Open":

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



You will notice that there is now a slot for "Requester Documentation" and the Responsive Unit is "Requester." After this, you send the case to "Pend."



When the requester provides the additional information, A FOIA/PA Assistant working in Records Locator queue will request the records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

7.4 Third party requests

Sometimes consent is not necessary. For instance, a requester asking for a "*list of all employers in Utah who use E-Verify*" does not have to provide consent. Commercial, contract, and media requests are usually third party requests.

On the other hand, USCIS will not release personally identifying information (PII) or personally sensitive information to a third party without consent. If the requester is asking for records concerning an individual and does not provide consent, nor does it appear likely that the requester is going to get consent, we treat it as a third party request without consent. It may be obvious from the request that the requester will not be able to obtain consent from the subject of record. If you have a doubt, consult your supervisor. The supervisor may have you send for consent, call the requester to see if you can make a determination, or create the case as third party without consent.

Third party requesters are entitled to any public documents that may be in the file they are seeking, as well as documents they provided in support of an application or petition. For example, if a wife is looking for a copy of her husband's file so that she may divorce him, and says in her request letter that she does not know where he is or says she cannot get his consent, do not send a request back to her for her husband's consent. In a situation like this, simply request the file and put a Discussion in FIPS that it is a third party request without consent. In the above example, if she did not specifically say she cannot get his consent or that she does not know where he is, do not request the file. In a situation like this, send a request for consent and pend the case for requester documentation.

7.5 Deceased subjects and the 100-year rule

If the subject of a request is deceased, it is incumbent upon the requester to provide proof of death. Proof of death could be any of the following:

- Death Certificate;
- Obituary;
- Funeral Memorial; or
- Photograph of headstone

If the subject of a request is over 100 years old, USCIS assumes he or she is deceased and no proof of death is required.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8. CASE CREATE SITUATIONS/OTHER PROBLEMS

At any time during the case-create process you may encounter a quirky or unusual situation. Some not-so-usual situations follow this paragraph, but as a case creator, you will inevitably see situations you have never seen before. Case creators should seek assistance from their supervisors as a first step. If the problem cannot be resolved, the creator should send the case to the Unit Chief and send an e-mail to the supervisor for clarification. If it is not a situation that needs clarification but some type of FIPS error, send an e-mail to the FIPS Problem mailbox (NRC, FIPSPROBLEM), or in other situations to the MSB mailbox (NRC, NRCFOIAMSB).

Clicking on the FIPSPROBLEM link above will automatically generate an e-mail addressed to both the NRC, FIPSPROBLEM mailbox and the NRC, FOIA PROGRAM mailbox.

8.1 REQUESTS: Foreign Consulate

Immediately forward any type of correspondence, FOIA request or inquiry received from the consulate of a foreign nation to the Director's Office for handling. USCIS Headquarters is the only one authorized to correspond with foreign consulates.

Please make sure it is a consulate requesting the records and not the subject of the request putting the consulate's address on the G-639 to mail the records to the consulate (for passports). If the request is from a consulate, please send the FOIA request to Up-front Approver to be closed as an ER and send an e-mail to NRC, FOIAOA mailbox with the case information. The supervisor will review and close the case. If the subject mailed the request and wrote the consulate's address on the G-639, use the subject's address from the envelope and set it up as a self request.

8.2 REQUESTS: Non-immigrant visa material

If the requester specifically asks for non-immigrant visa data and there is no record of the person in CIS or CLAIMS; do not close the request as NR. If the requester is asking a question about being a student, au pair, camp counselor, or participating in a summer work/travel program, or if the requester specifically mentions visa type F-1, F-3, J-1, M-1 or M-3, then you should refer the request to ICE, since that record will be tracked in SEVIS (Student and Exchange Visitor Information System.) An example of a "refer to ICE" type request might be: "Type of visa, visa number and legal documents allowing entry into the US. The subject was a student at the University of Nebraska."

Otherwise, redirect the requester to Department of State. An example of a "re-direct to State" type request might be for a B1/B2 visa, such as: "Type of visa, visa number and legal documents allowing entry into the US. The subject visited Disney World and Cape Canaveral and entered at Orlando International Airport."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8.3 REQUESTS: Routine use, no consent required, not FOIA

USCIS may disclose records to an appropriate Federal, State, tribal, local, international, or foreign agency, including law enforcement, or other appropriate authority charged with investigating or prosecuting a violation or enforcing or implementing a law, rule, regulation, or order, where a record, either on its face or in conjunction with other information, indicates a violation or potential violation of law, which includes criminal, civil, or regulatory violations and such disclosure is proper and consistent with the official duties of the person making the disclosure.

What does that mean? We may disclose records from alien files to other Federal, State and local government agencies as a normal course of operation for law enforcement purposes. Consent is not necessary for the processing of these types of requests. Some examples of these types of requests include requests relating to child support enforcement and aliens seeking public assistance.

Requests from government agencies (federal, state or local) for verification of status of aliens are routine use.

These types of requests are not a part of FOIA and should not be in FIPS. For example, you may open a request from a county public assistance agency attempting to locate a child's father who is avoiding financial responsibility. If you open a request from a state or local government agency requesting information about an alien, send the case to Up-front Approver for closing as ER. The only exception to this rule is if there is a cover sheet with instructions to create as FOIA.

8.4 REQUESTS: Bond obligor, no consent required, not USCIS FOIA

Criminal bonds are bonds posted by individuals or bail bondsmen relating to non-immigration violations of the law. These requests are processed by Immigration and Customs Enforcement.

Immigration bond obligors are surety companies who have posted an immigration bond (I-352) for an alien who has been taken into custody by the Service. If the alien fails to attend his or her hearing, then he or she forfeits the bond. Under the court case *Amwest v. Reno*, the surety companies, or their attorneys, are entitled to a complete copy of the alien's file to assist them in trying to locate the alien. Consent is not required for the bond obligor; however, they should provide a copy of the bond contract, Form I-352, with their FOIA request.

We no longer process requests received from immigration bond obligors or criminal bond obligors. Please send any new requests that are scanned into FIPS to Up-front Approver for closing as ER. Please send an e-mail to NRC, FOIAOA and provide the REQ number or control number, and also include the requester's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

OA room will mail the request to the following address:

Immigration and Customs Enforcement
Attention: Catrina Pavlik-Keenan
ICE FOIA/PA Unit
800 North Capitol Street, NW, Room 585
Washington, DC 20536-5009

8.5 REQUESTS: A-number only

If a requester/subject is asking for his or her alien number **only**, follow these steps:

- Search CIS with the information provided on the request to locate an A-number.
- If you locate an A-number, compare the information provided on the request with the information in CIS to make a positive ID.
- You must have proper consent and all of the required PII in order to proceed. If consent or any PII are missing, generate the acknowledgement letter and request the additional information.
- If proper consent is present and all of the required PII is present:
    - Open a RAFACS staffing slot only
    - Print a copy of CIS 9101 screen, attach a "Scan As" cover sheet and mark the box "Responsive Records." Take the screen print to the designated person (currently John Latimer) for scanning.

Make the case a Track 1 case and pend the case for responsive records. When the responsive records are scanned in, the case will move to the processing queue.

8.6 REQUESTS: Bracero Program

The Bracero Program (1942-1964) began as a temporary World War II program to fill agricultural labor shortages, and continued in one form or another for more than twenty years. Initially the program included workers from Mexico, the Virgin Islands, British West Indies, and elsewhere. After about 1945, the program was limited to agricultural workers from Mexico, and the term "bracero" refers to an imported farm worker from Mexico. "Brazo" means arm, and "bracero" means a person who works with his arms.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Begin with a thorough search of CIS. If no record is located, request a manual search. Create a Records Indexing Staffing and enter all information provided by the requester. If the manual search produces no record, generate a "NR" letter and send the case to Up-front Approver. The supervisor will review and close the case.

In these no record cases, the researcher's only recourse may be to search for a record of admission at the National Archives (NARA). Today NARA holds microfilm of arrivals at US-Mexico Border ports of entry from ca. 1905 to 1954 (some to 1957). A Bracero admitted in 1960 will not appear in these records due to the cut-off dates.

The requester can request a search by writing directly to NARA. In their letter, the requester should ask for a search of Mexican border arrival manifests in Record Group 85. The correspondence to NARA should contain the date and port of entry, as well as the name used at the time of entry, age at the time of entry and any other identifying information.

NATIONAL ARCHIVES AND RECORDS
ADMINSTRATION
CIVIL REFERENCE
7th AND PENNSYLVANIA AVENUE NW
WASHINGTON DC 20408

8.7 REQUESTS: Referrals and Consultations received from other agencies

As other agencies process FOIA/PA requests, they will sometimes find our agency's documents within their files. These documents will be referred to us for processing. The responsive records could be USCIS documents being referred to us for review or joint documents i.e., co-authored by the referring agency and other agencies. A transmittal memorandum advising us to respond directly to the referring agency is a consultation. A transmittal memorandum advising us to reply directly to the requester is a referral.

Send the case to processor. Send an e-mail to the MSB mailbox advising them that you have created the case and that it is a referral/consultation from another agency. Include the alien name and the NRC control number.

8.8 REQUESTS: USCIS personnel information

- Requests that deal specifically with USCIS vacancy announcements, performance ratings and awards are scanned and handled in the HQS queue by the Special Interest Group.

- If a request for CIS Personnel Information mistakenly is scanned in the NRC queue, create the case and reassign the case to **HQS**. Create the case as a Track 2 case. Use

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

PER for the category and **CIS** for the bureau, in the "Topic" field, enter the vacancy announcement number.

Click on the "Reassign Office" and select the HQS office. The case will be staffed when it is re-assigned to the HQS queue. Send an e-mail to NRC, FOIASIG with the case information.

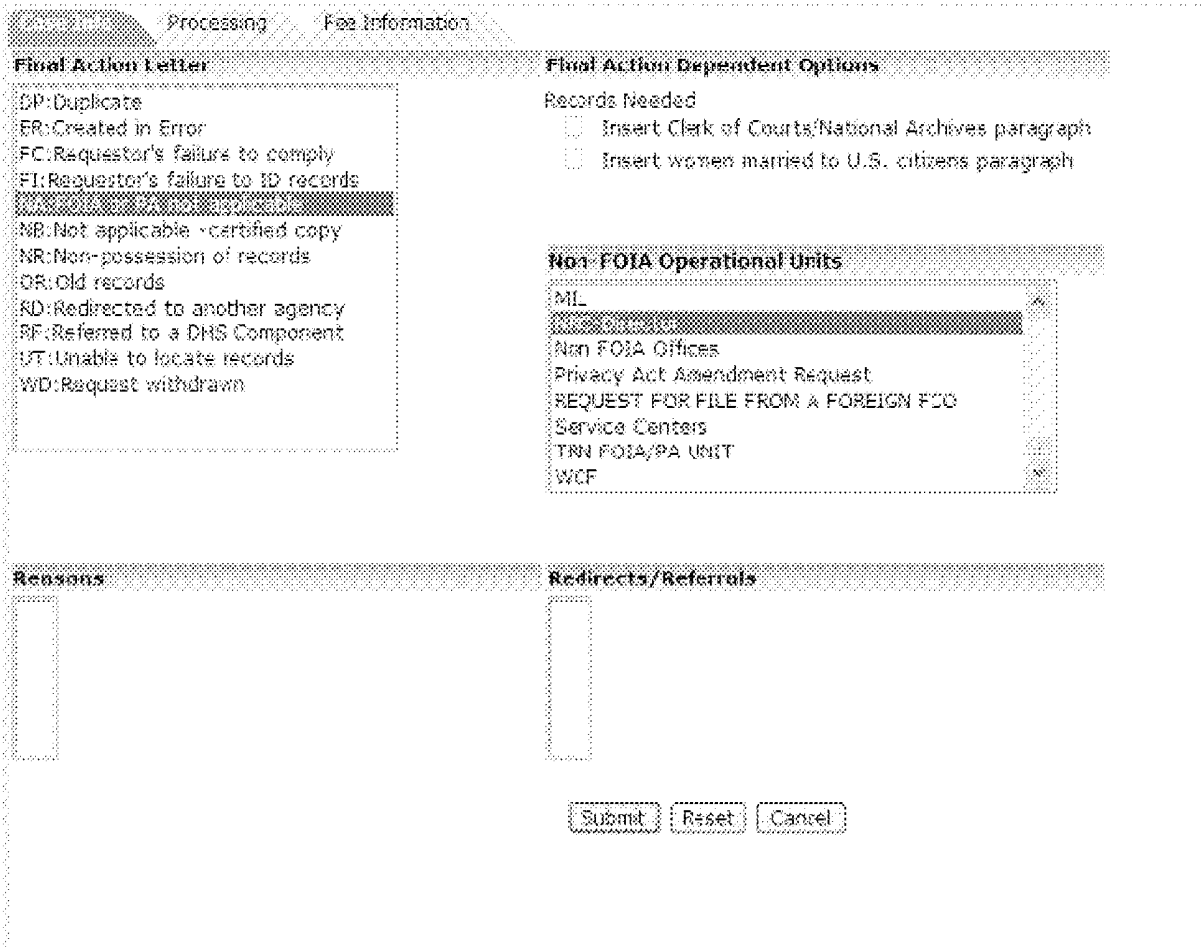
8.9 REQUESTS: Official Personnel File

You may open a FOIA request received from an individual for a copy of his or her Official Personnel File (OPF). Inform such requesters in the final action letter that they may access their OPFs on-line at:

http://cbpnet.cbp.dhs.gov/xp/cbpnet/hrm/for_employees/info_about_you/eop_folder/eopf_logon.xml

You should then create a Final Action Letter and select the closing code "NA: FOIA or PA not applicable." You will have to select a Non-FOIA Operational Unit. Choose "NRC-Director." You do not have to modify the referral letter, but you should make the appropriate edits in the Final Action Letter. Next, send the case to Up-front Approver. The supervisor will review and close the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



8.10 REQUESTS: Red Cross / Last known address

Requests from the Red Cross or from some other non-governmental organization (such as Salvation Army, etc.) looking for the last known address of an alien are normal FOIA requests. You should create the case and request the file as a specific document request. It is not necessary to create an acknowledgement letter if the request is from the Red Cross.

8.11 REQUESTS: Federal, state, local agencies

Governmental agencies, including county public assistance agencies, are seeking the alien to enforce court ordered support or enforcement of some other lawful responsibility. These types of requests fall under the routine use category.

8.12 REQUESTS: Return of original documents

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Requesters will sometimes ask for the return of original documents, such as adoption decrees, birth certificates or other documents of a personal nature on a request addressed to FOIA. If the request for the return of original documents is submitted on a G-639, we are required to provide the requester with a copy of the specific documents requested. For return of original documents, the requester must submit a G-884 to the SAVE Unit of their local district office. Insert the following verbiage in the acknowledgement letter.

> In your FOIA request you have specifically asked for the return of original documents. We will provide you with a copy of these documents. In order to obtain the original documents you must submit a G-884, "Request for the Return of Original Documents" to the Save Unit of the nearest district office.

If a Form G-884 has accidentally been scanned into FIPS as a FOIA request, send the case to Up-front Approver for closure as "ER" (created in error). A letter is not created by FIPS; you will need to create a Blank Letter explaining the reason we did not accept their request as a FOIA request. Print two copies of the letter. Attach a cover sheet on one copy to be scanned in as a CSD and send the other copy to the OA room for mailing to the requester. Include a detailed Discussion note. Send the case to Up-front Approver. The supervisor will review and close the case.

If the alien file is located at the NRC, the Case Resolution Team at the NRC handles all G-884's (Request for Return of Original Documents). OA ordinarily forwards any requests for return of original documents to Case Resolution.

8.13 REQUESTS: Privacy Act Amendment

A person who is a United States Citizen or a Lawful Permanent Resident may request that we amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete. Sometimes a supervisor will place a coversheet on the request stating "Privacy Act Amendment."

If you are creating a Privacy Act Amendment request, please do the following:

1. Begin as usual, filling in requester and subject information and searching for duplicates.
2. Assign it to Track 2. Assign it to Category: Special Interest Group.
3. Create the case.
4. Prepare an email for NRC, FOIASIG and insert the case number in the body of the e-mail.
5. Change the Office to "COW." Click "SAVE." Click "Reassign Office." You are now ready to move on to the next case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8.14 SITUATION: Untranslated Foreign Language Documents

If you find an untranslated foreign language document which may contain essential information needed to create a case, and you are unable to determine what that information is, there are individuals at the NRC available to translate. Here is the procedure:

- Insert a Discussion titled "Untranslated Documents" and the reference page numbers.
- Copy the text of the Discussion and paste it into an e-mail to NRC, NRCFOIAMSB.
- Send the case to Unit Chief.
- After translation, a copy of the translated information may be scanned in, or the translator may add a Discussion response. The translator will then return it to you for creation and/or staffing.

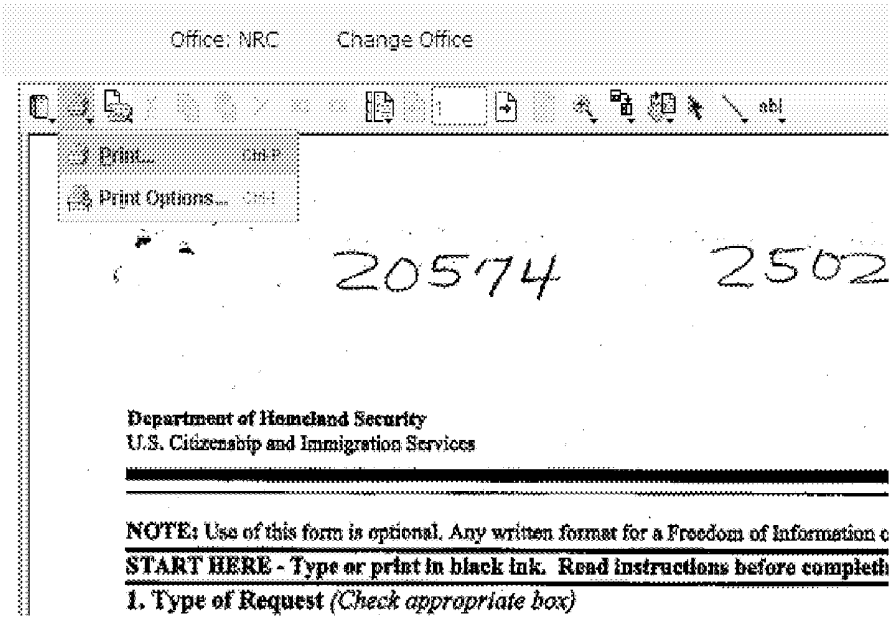
8.15 SITUATION: Congressional correspondence

When the unit receives correspondence from a member of Congress, the creator will need to create the case as a track two case, mark the category as Congressional, request the requested documents and send an e-mail to the MSB Mailbox advising them of the control number, congressional contact information and name of the subject of the request. Do not use the Congressional office address as the address for the FOIA request. If an address for the subject cannot be found, please contact a member of the MSB for more guidance.

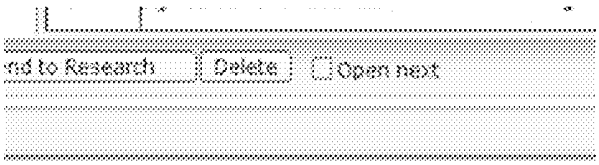
8.16 SITUATION: Appeals

While case creating, you may open a request and see that it is marked "Appeal." The requester will include the case number he or she is appealing. If this happens, you do not create the case. In the upper right hand of the image portion of the FIPS worksheet, there is a printer logo:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Select "Print." FIPS will then print out all the pages of the request. Get those pages and take them to the designated appeals POC (Currently Beth Stokes). After you are sure the pages printed correctly and you have control of those pages, click "Delete." This is possibly the only time you ever click "Delete."



8.17 SITUATION: New requests received on the I-694

If you see a case in the creator role or the processor role that has the I-694, Notice of Appeal of Decision Under Sections 245A or 210 of the Immigration and Nationality Act (INA), scanned as the FOIA request letter, this is considered a legitimate request. The Administrative Appeals Office sends this form along with the A-file to the NRC for processing under FOIA.

Form I-694 is used to notify USCIS that an individual is appealing the denial of their permanent residence, temporary residence, or a waiver of grounds of inadmissibility.

To assist you in identifying this request, the words "NEW REQUEST" should have been written on the top of the form before scanning. Please note the request may not have a current date. The case creator should create the case, and request additional information or consent if needed. If additional information or consent is not necessary, send the case to processor.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8.18 SITUATION: Subpoena or court order

If you pull a new request that is a subpoena or court order, please send it to Up-front Approver for closure as ER. Send a message to NRC, FOIA PROGRAM; McDaniel, Marcia M (clicking the link generates the e-mail) providing the REQ number and information indicating the request was a subpoena or court order. The NRC Program Office is currently addressing these requests. Subpoenas or court orders are a high priority. Please notify NRC, FOIA PROGRAM as soon as possible. If you aren't sure, please contact your supervisor for guidance on how to proceed.

8.19 SITUATION: Certification of record

When creating a new case, insert a Discussion "requester wants documents certified." The processor or approver will handle the certification process.

Certification of records is done in accordance with 8 C.F.R. § 103.7(d) and the Records Operations Handbook (ROH).

The NRC will certify certain documents from A-files as being true and correct copies. The physical file must be located at either the NRC or the FRC. Genealogy requests that were received, staffed and processed by NRC can also be certified by the NRC. The NRC will not certify copies of documents that belong to other agencies. Information will be provided to the requester on how to obtain certified copies of these documents. The NRC can also provide a certified letter giving information such as the date of entry and the status of the individual.

First, evaluate if the request qualifies under the Genealogy Program. Refer to the section entitled Case Specifications, Category 4 (Other).

NRC will not certify naturalization certificates for living persons. If the individual has his or her original naturalization certificate and want or need a certified copy of it, he or she must make an INFOPASS appointment. An individual must submit an N-565, Application for Replacement Naturalization/Citizenship Document if he or she has lost or misplaced the original.

Records Services Branch, USCIS does all certificates of non-existence; these requests must be submitted in writing to the address shown below:

U.S. Citizenship and Immigration Services
ATTN: Records Service Branch
1200 First Street, NE, 2nd Floor
Washington, DC 20529-2204

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8.20 SITUATION: Certification of record for dual Italian citizenship

If we receive a request asking for a certified copy of a relative's naturalization certificate for the purpose of applying for dual Italian citizenship:

Evaluate if the request qualifies under the Genealogy Program. Refer to the section entitled Case Specifications, Category 4 (Other).

If the requester's relative is deceased, he or she must submit the request to the USCIS Genealogy Program. The web address for more information and instructions for submitting their request is **USCIS.gov** or;

If the requester's relative is living, please include the following paragraph in your acknowledgement letter:

This is in response to your request for a certified copy of a relative's naturalization certificate in order to apply for dual Italian citizenship. According to information obtained from the Italian Embassy in Washington, D.C., certified copies of naturalization certificates are not required for the dual citizenship application. The Italian Embassy requires the naturalization certificate copy along with our USCIS cover letter and envelope. The records that we release as part of this FOIA request will serve that purpose.

8.21 SITUATION: Record at National Archives and Records Administration (NARA)

The National Archives and Records Administration has designated alien files as permanent records for the Federal Government, ensuring their retention indefinitely. As with all permanent records of the Federal Government, ownership and physical custody of the record is transferred to NARA at a designated point and NARA becomes the custodian of the record. Once the record is transferred to NARA, anyone who wants documents out of the file will have to file his or her FOIA request directly with NARA. The "magic date" for alien files to be turned over to NARA is when the subject of the file passes 100 years of age. The NRC has begun the process of transferring the targeted files into the custody of NARA.

As a result, case creators need to pay close attention to those cases in which the subject of the file was born more than one hundred years ago, particularly if the request does not meet the criteria for a genealogy case.

For example, the requester writes in and makes the following request:

"I want the records of Joe Crab, date of birth, March 22, 1899. Mr. Crab naturalized in 1957 and died in 1969. Enclosed is proof of his death and alien number."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

NOTE: You may find the complete list of criteria in Section 3, "Category of request" in the sub-paragraph "GEN."

Mr. Crab meets one prong of the criteria for genealogy because he was born long ago; however, since he was naturalized in 1957, he does not meet the prong of having no documents in his file dated after 1951. If you are creating a case and the subject of the request is 100 years of age or older, **but** the person DOES NOT fully meet the criteria for a genealogy case, please pay special attention to NFTS. If NFTS shows that the a-number has been retired to NARA, it means we have turned the records over to NARA permanently. The requester will have to send a request to NARA. Please select FINAL ACTION OPTIONS when creating the Acknowledgement Letter, select NA and replace the normal Acknowledgement Letter with the NARA Historical Record Letter located at O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters/Historical_Record_Letter.

It may happen that USCIS has not yet transferred the file to NARA. If NFTS still shows a shelf location within NRC (or any other office), request the file.

8.22 SITUATION: Old records

Occasionally we will receive a request for records pre-dating our recordkeeping system. The agency maintains immigrant arrival records created since 1892; and naturalization records since 1906.

When a request is for records older than those maintained by the agency, create a Final Action Letter and select "OR." This generates a letter to the requester explaining that the records being requested are older than those maintained by the agency. After generating the final action letter, send the case to Up-front Approver. The supervisor will review and close the case.

8.23 SITUATION: Requests from Prospective Adoptive Parents

In the recent past, Vietnam, Cambodia, Guatemala, Nepal, Ethiopia and other countries have had problems concerning adoptions. Birth Certificates have been forged and babies have been taken without consent of the biological parent. In Vietnam, "baby brokers" scour villages looking for unwed, impoverished mothers. They purchase the babies for about $50 and sell them to commercial adoption services. In Guatemala and elsewhere, people steal babies and sell them to middlemen. Prospective adoptive parents from Spain, Italy and the United States are typically willing to pay as much as $25,000 to adopt a child. (This information comes from kidsofkathmandu.org).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Normally if we cannot verify consent or prove parentage in a case, we send out for more information. Please do not send out for additional information in pending (not finalized) adoption cases for the following reasons:

1. The Prospective Adoptive Parents (PAP) have the right to all information they submitted for the adoption. In cases like this, it is likely that the adoption never happened. If that is the case, they have no proof of parentage or guardianship.
2. The child is usually too young to give consent.
3. Congress has substantial interest in this matter.

If you decide you need proof of parentage after a full search, please send your case to Admin for supervisor review.

9. REFERRAL AND REDIRECTION

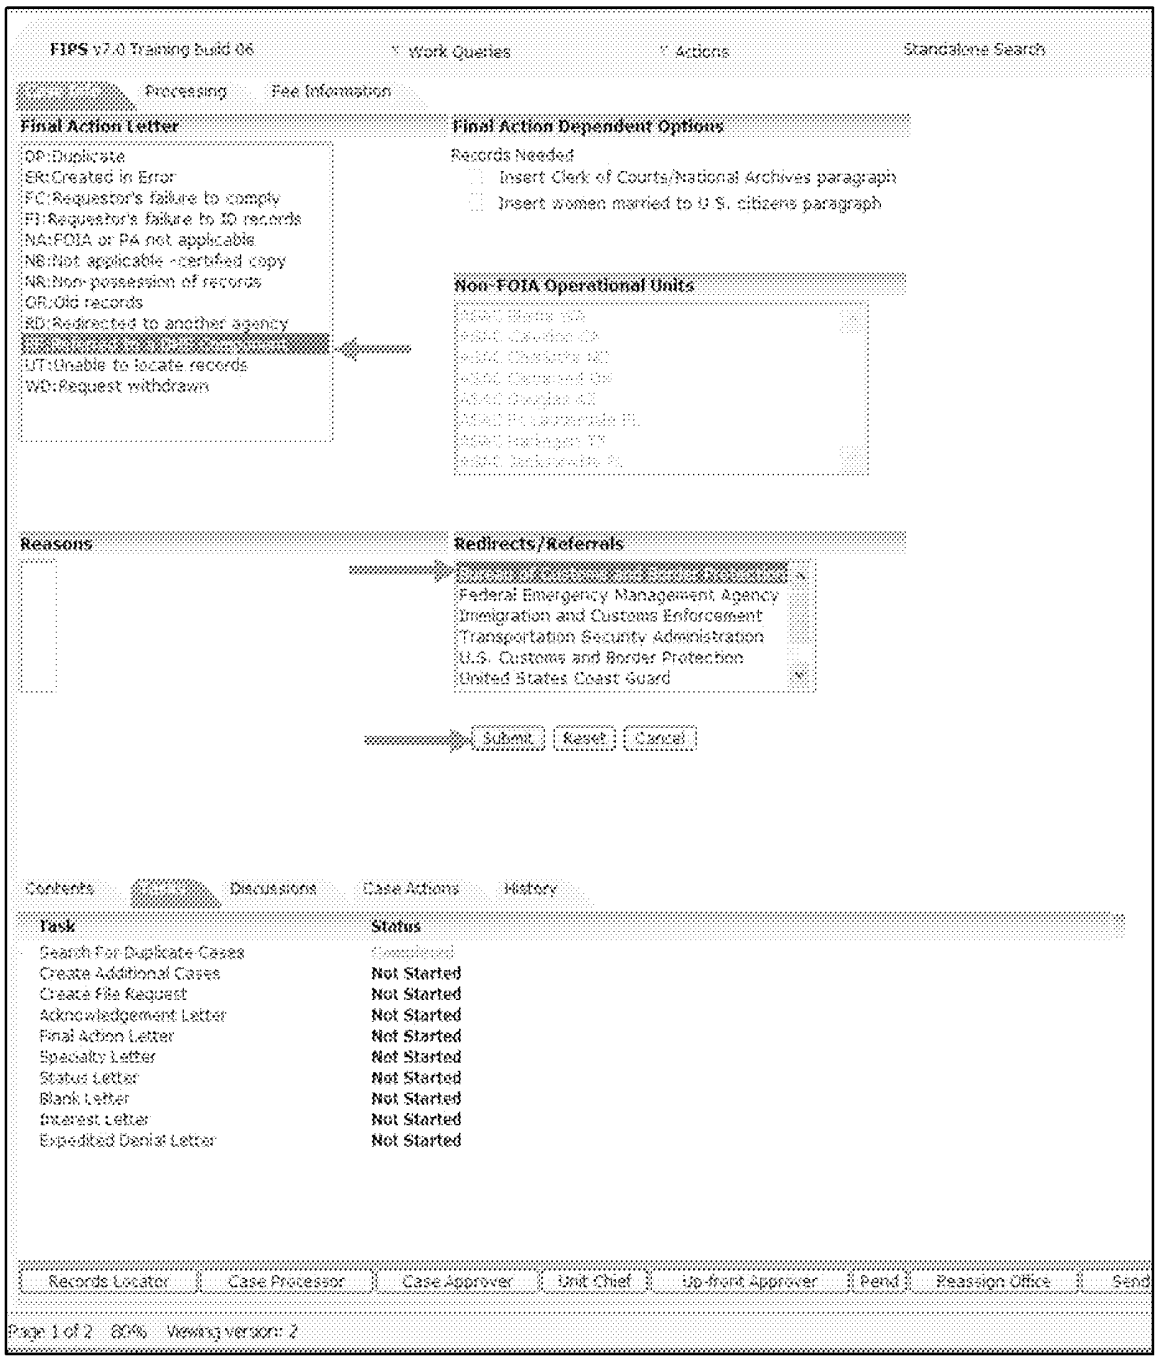
9.1 Referral

The FOIA requires us not to close a case if there is information in another component of our department. For instance, the Drug Enforcement Administration and the Federal Bureau of Investigation are both components of the Department of Justice. If DEA receives a FOIA request and determines the information is with FBI, they may not close the case and tell the requester to write to FBI (that is redirection). They must send the request to the FBI and advise the requester they have done so (that is referring).
USCIS occasionally receives FOIA requests for non A-file records totally under the purview of another DHS component. When this occurs, we refer the FOIA request in FIPS to the correct component. The following agencies are DHS components:

Transportation Security Administration (TSA)
U.S. Customs and Border Protection (CBP)
U.S. Immigration and Customs Enforcement (ICE)
U. S. Secret Service (USSS)
Federal Emergency Management Agency (FEMA)
U.S. Coast Guard (USCG)

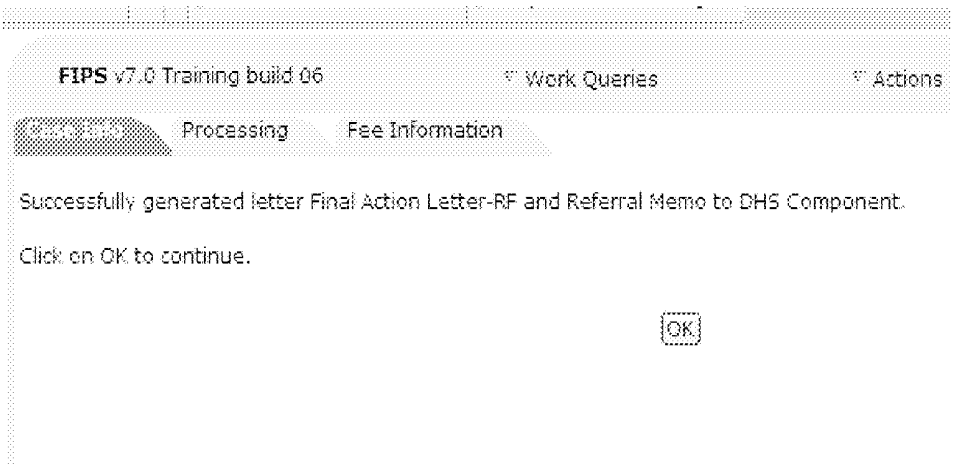
Under the "Tasks" tab, select Final Action Letter. Select "RF: Referred to a DHS Component" as the final action code. Under "Redirects/Referrals" select the component to which we are referring the request and click "Submit.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

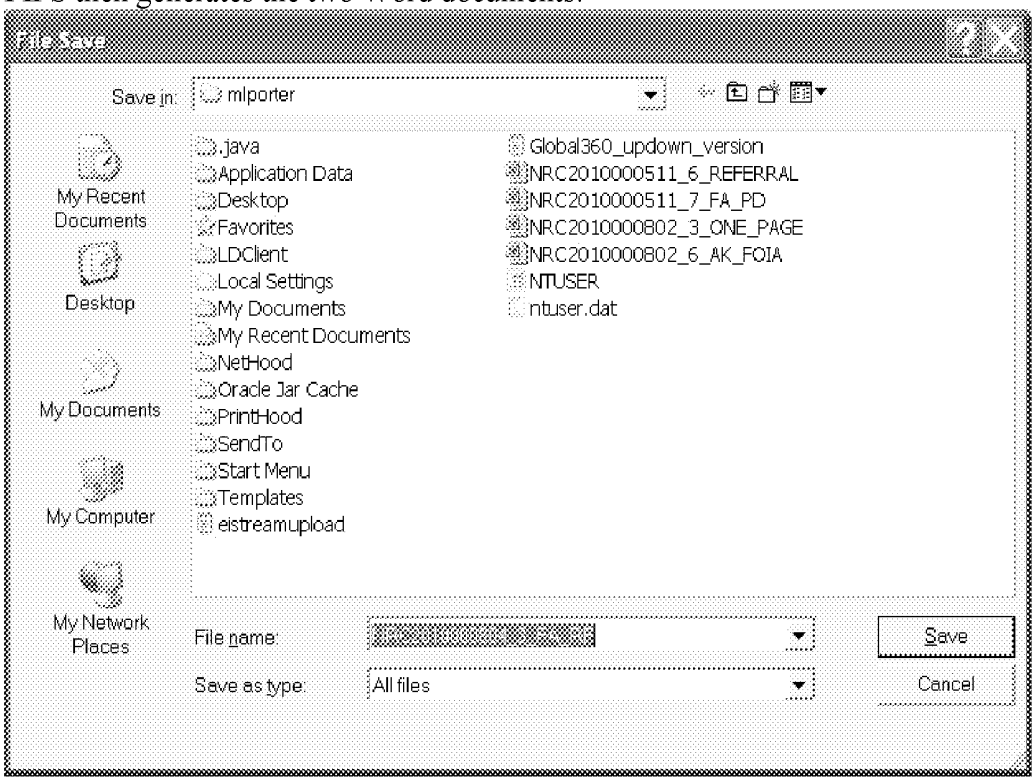


FIPS will automatically create two documents: A final action letter to the requester and a referral memorandum to the DHS component.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

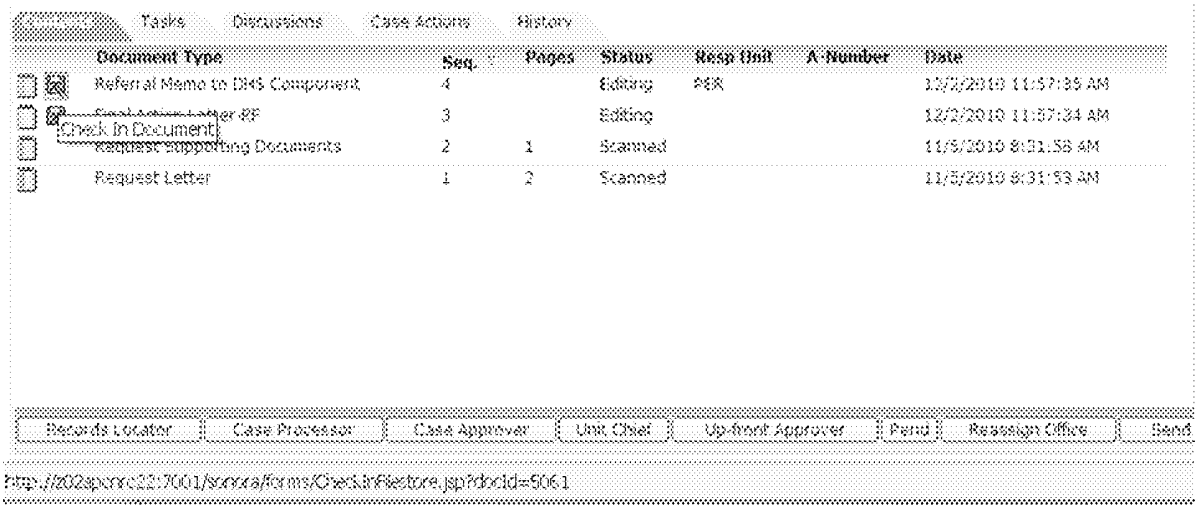


FIPS then generates the two Word documents:

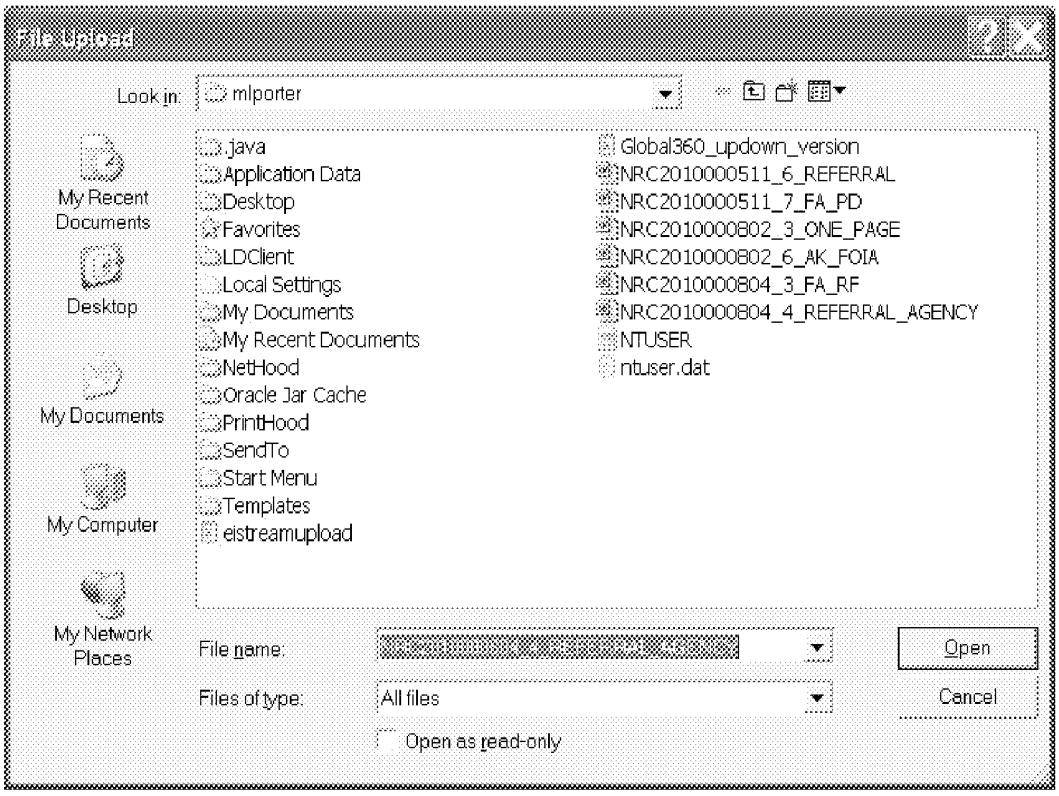


You may have to edit the letter to add needed information. After you exit from the Word documents, they will appear under the "Contents" tab:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Click on the "Check in Document" icon and you will get a "Save" dialog box. Click "Open."



After you have done this for both documents, send the case to Up-front Approver.

9.2 Redirection

If we receive a request for records that belong to an agency outside of DHS, we close it and write a "redirect letter." Under the "Tasks" tab, select Final Action Letter. Select "RD: Redirected to

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

another agency" as the final action code. Under "Redirects/Referrals" select the agency to which we are referring the request and click "Submit."

An example of a request we close and redirect is a petition that we discover has been forwarded to the National Visa Center for issuance of an immigrant visa. The redirect letter advises the requester to contact the different agency for the information they are seeking. The procedure for the documents is the same as for referrals. You may have to edit the letters to add needed information. After you exit from the Word documents, they will appear under the "Contents" tab. Click on the "Check in Document" icon and you will get a "Save" dialog box. Click "Open." After you have done this for both documents, send the case to Up-front Approver.

9.3 Entry/Exit Information referral to CBP

CBP handles FOIA requests for entry and exit information dating back to 1982, inspection, Port of Entry (POE), requests for information relating to air and/or marine incidents, or the U.S. Border Patrol Academy, legacy Customs or legacy Inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. A FOIA request for this type of information should be referred to **CBP** at the address shown below.

U.S. Customs and Border Protection
FOIA Division
799 9th Street NW, Mint Annex
Washington, DC 20229-1177

Note: If the request is for entry/exit information and the requester/subject provided an alien number, request the file. If the request is for entry/exit information and the requester/subject did not provide an alien number, you must thoroughly search CIS and CLAIMS to be sure the person does not have an alien number or application. CBP has records on entry and exit information dating back to 1982, but no further back. You may modify the referral letter; any information you can provide as to what the requester is asking for will be helpful to CBP.

9.4 Border Patrol referral to CBP

If you encounter a Border Patrol Request in Case Create, refer the case to CBP. This includes Border Patrol records relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, or checkpoints.

Exception to this rule; if the requester provides an A-number or you locate an A-number through a search of the systems, please request the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

9.5 Personnel/hiring practices/vacancy announcements

If you receive a request concerning employee records, vacancy announcements, or any personnel matter generally, please create the case as you normally would by filling in the blanks and controlling the case. After that, change the Category to PER. Do not create a staffing and do not send any correspondence to the requester. Add a Discussion note that this appears to be a personnel-type FOIA request. Send an e-mail to NRC, FOIASIG. After that, send the case to Unit Chief.

9.6 US-VT referral to US Visit

Refer requests relating to United States Visit. The United States Visit is a Border Security Program that records biographic, biometric and travel information for all foreign visitors to the United States. The system screens all crewmembers and passengers that travel to the United States by air, sea or land. United States Citizens are not in the system.

If the requester is asking for both a copy of the alien file and for entry and exit information, you should request the file. See Entry/Exit CBP information above.

10. DETERMINING TO STAFF BASED ON BEST INFORMATION AVAILABLE:

If you determine that the requester has provided all the PII possible after performing the CIS 9102 or 9106 and 9103 screen searches shown above, and there is only one person in the CIS 9101 screen with the same information, please request the file. However, prepare a Discussion explaining why you staffed for the file.

11. SOCIAL SECURITY NUMBER

USCIS does not use Social Security numbers in the Freedom of Information/Privacy Act requests. Even if the alien disclosed his or her SSN in the request, do not enter that number on the FIPS worksheet. We will not request the Social Security number when requesting additional documentation.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12. REQUESTING THE RESPONSIVE RECORDS

After the acknowledgement letter is created, if all required information is present, the next step is to request the records that are responsive to the request.

How do you determine what records are responsive to the request? First, you have to read the request. Typically, the requester will ask for a complete copy of an alien file and they will provide an alien number. If this is the situation, you must verify in CIS that this alien number belongs to the subject.

There is a staffing guide/RPC reference sheet available on the FOIA Operations intranet page to use for requesting the file.

If the requester is only seeking specific documents, please make a Discussion in FIPS detailing what those documents are. You will also be mentioning those specific documents in your acknowledgment letter to the requester.

The Service Centers (except MSC/NBC) scan the responsive records into FIPS when they are the FCO for that file. Please see the staffing guide for more instructions on requesting these types of Service Center files.

If the requester did not provide an alien number or receipt number but did provide enough information to conduct a thorough search, you should search CIS, CLAIMS and possibly PCQS to determine the subject's alien number or receipt number. If the requester did not provide enough information to conduct a thorough search, then you will have to ask the requester for more information.

We do not request "S" (substitute) or "W" (working) files unless instructed to by a supervisor/lead. After the creator has staffed for the appropriate files, the next and final step to case creation is to pend the case for the responsive records.

If the file is located at COW, with the Responsible Party Code (RPC) of RK, please insert a Discussion after you have created the case. The title of the Discussion should read "File is at RK." Send the case to Unit Chief. Send your supervisor an e-mail with the control number of the case and that the file is located at COW with an RPC of RK.

If you see an RPC of **"ZW"** in NFTS; that indicates the file is classified. Staff the file to the current FCO. If you see an RPC code ZW0004; that indicates the file is here at the NRC in the safe and you should staff: FOIA Safe.

If you pull a case that has a FOIA Safe staffing you should **NEVER** cancel the file request. Send the case to Pend.

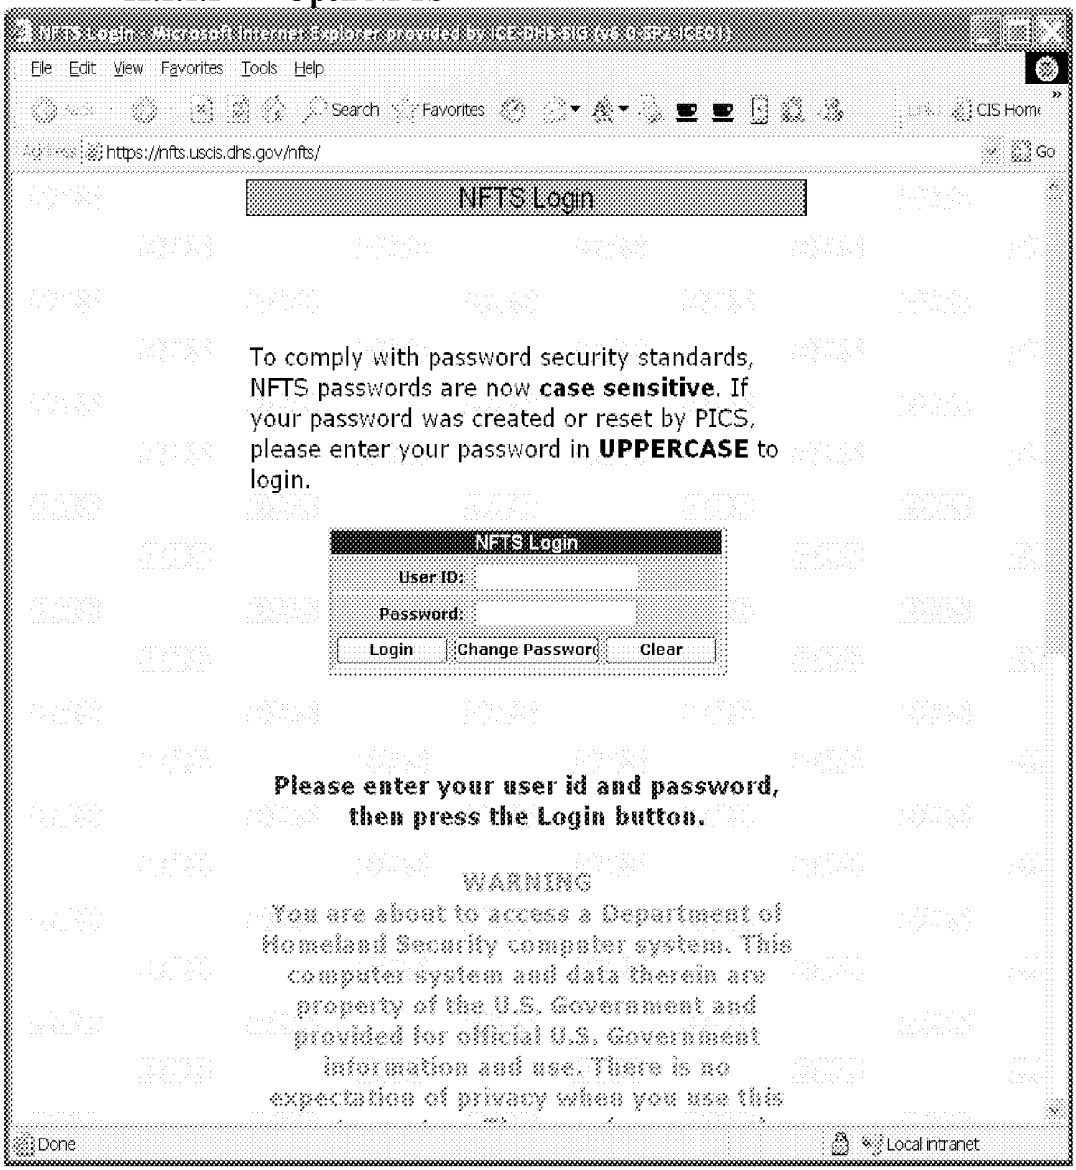
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1 Staffing by Alien Number

12.1.1 One A-number provided on the request (with example staffing)

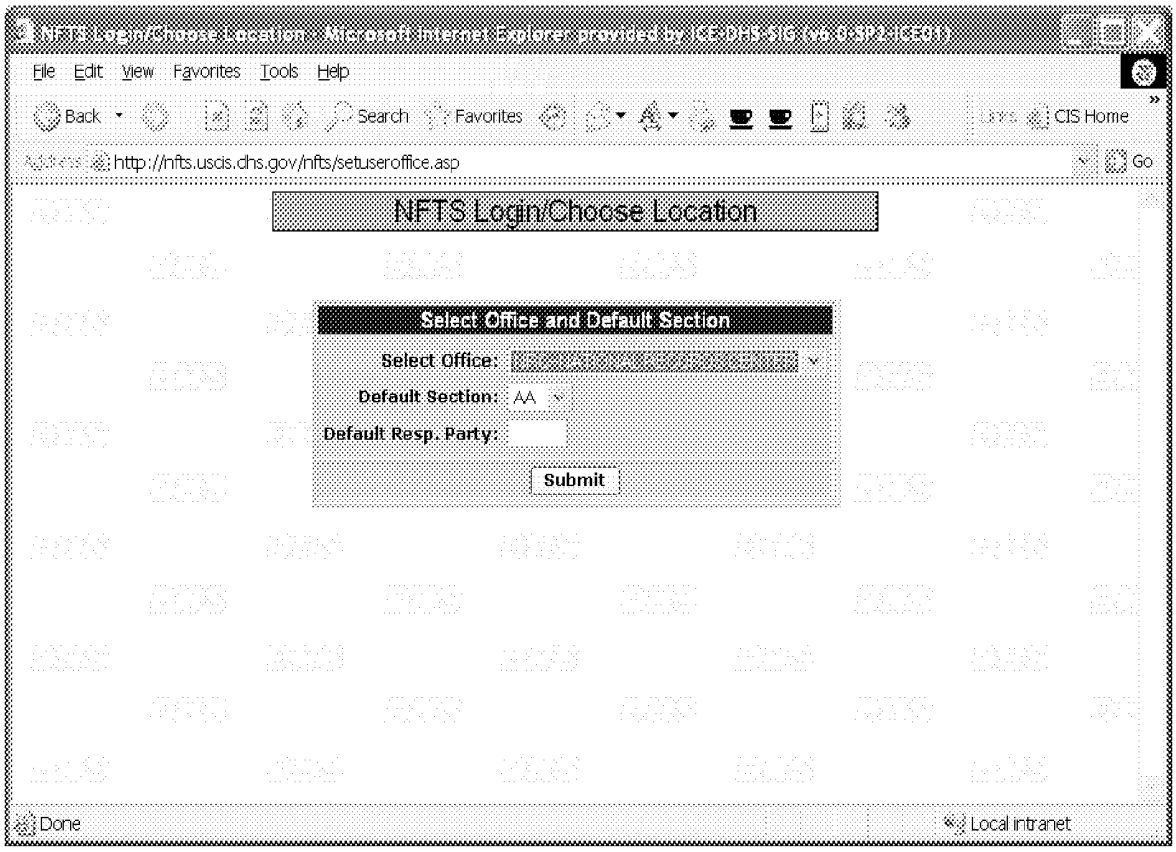
If an A-number is provided on the request and CIS confirms that it belongs to the alien, ensure you have all the other required elements (DOB, COB, DOE, POE and parents' names) to complete the case create. If any of the required elements are missing, request the additional information when sending the Acknowledgment Letter. The section that follows is a systematic example of staffing by A-number when the requester has provided one.

12.1.1.1 Open NFTS



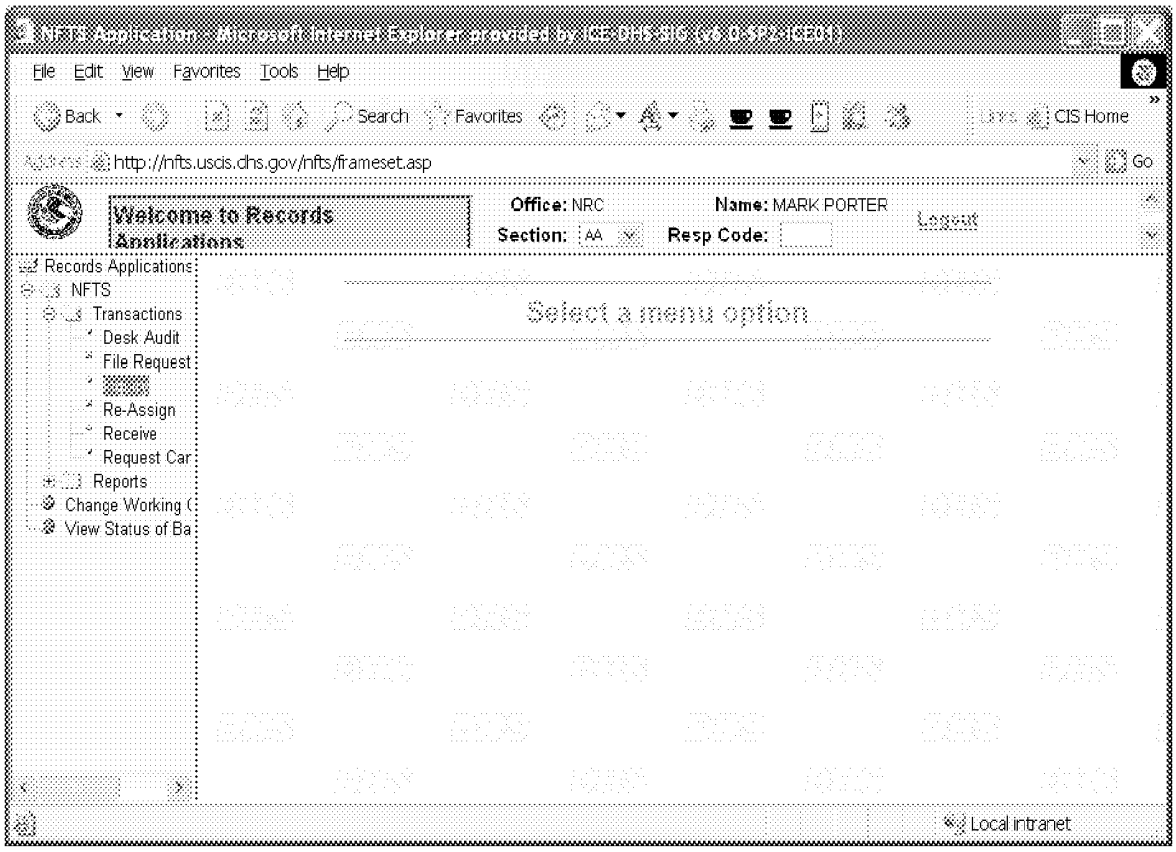
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.2 Submit your location



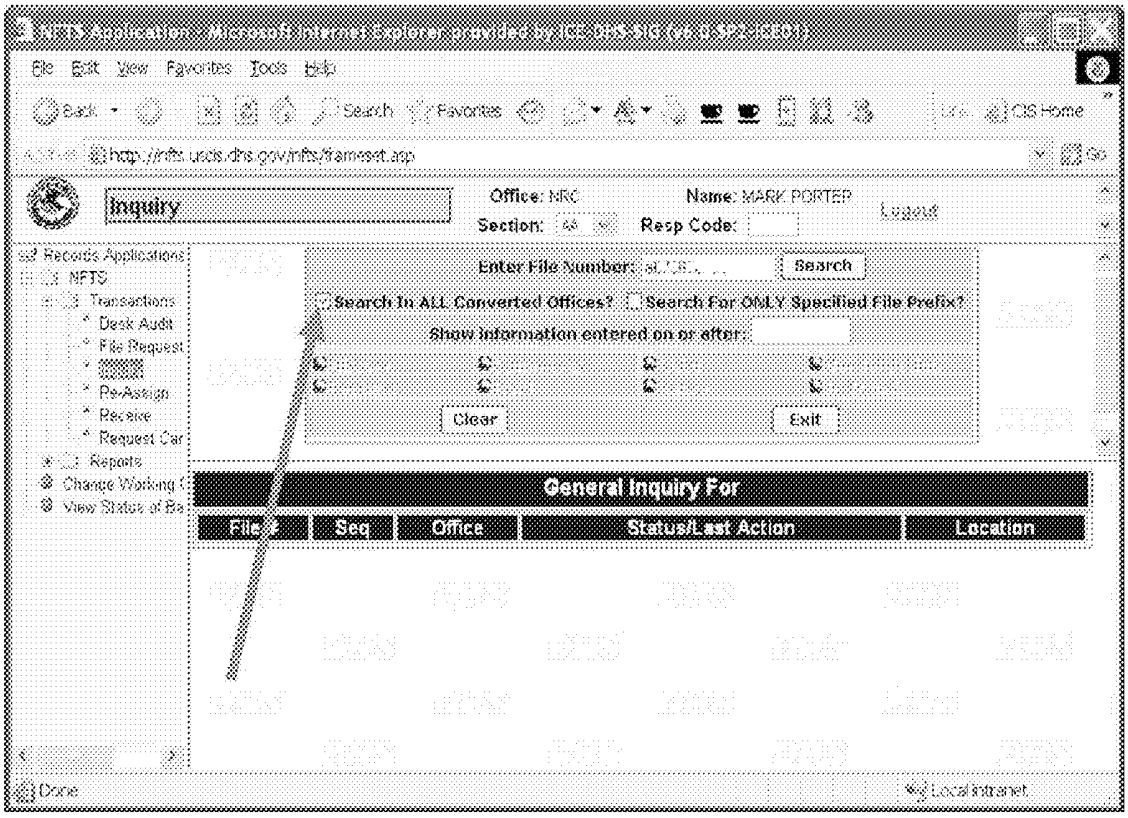
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.3 Select "Inquiry"



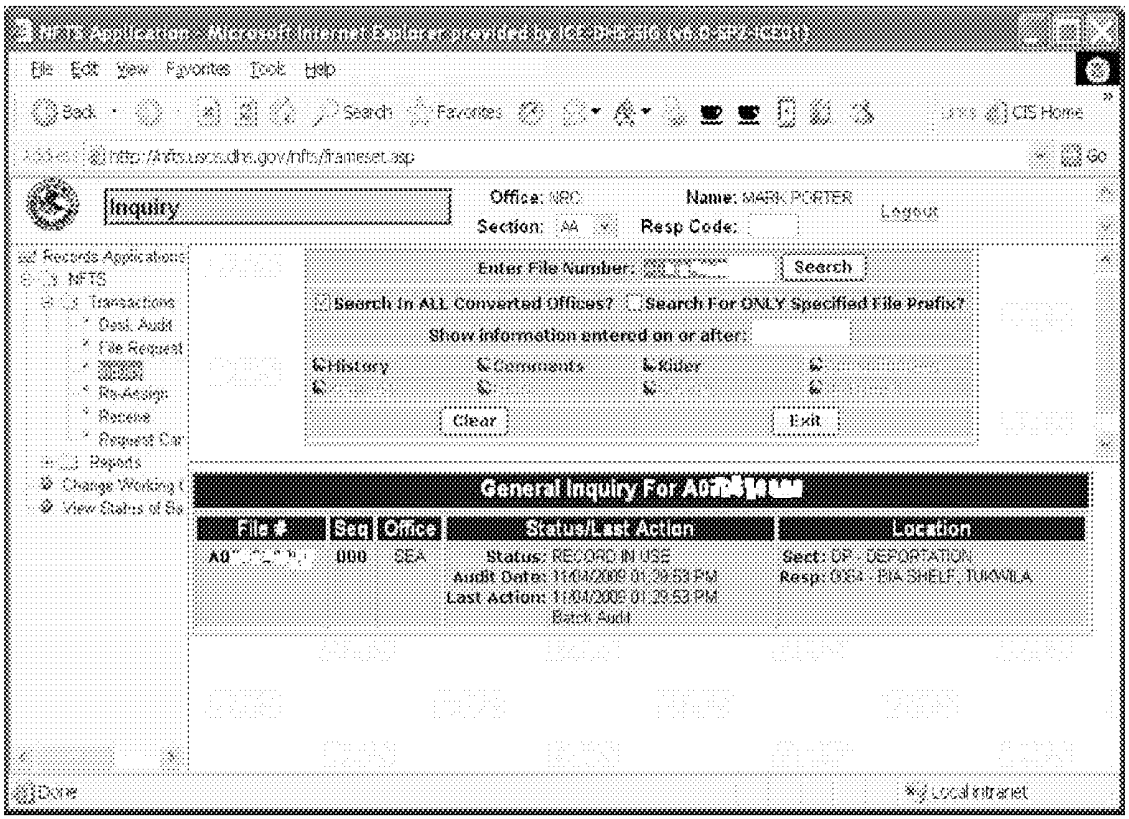
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.4 Select "ALL Converted Offices" and enter "A" or a "+" then enter the A-number. Preferably, paste the copied number from CIS so you are sure you are asking for the correct file.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.5 The search result provides several pieces of information. First, we can verify from CIS that the File Control Office (FCO) is Seattle. The Responsible Party Code (RPC) is DP0064, and it tells us that DP means Deportation. Do you see the four boxes above the "Exit" button? Those are "Rider," "Consolidation," "Retire," and "In Transit." If any one of those is "grayed out," it means there is no information there. If one is "blued in," it means there is information and we should look at it.



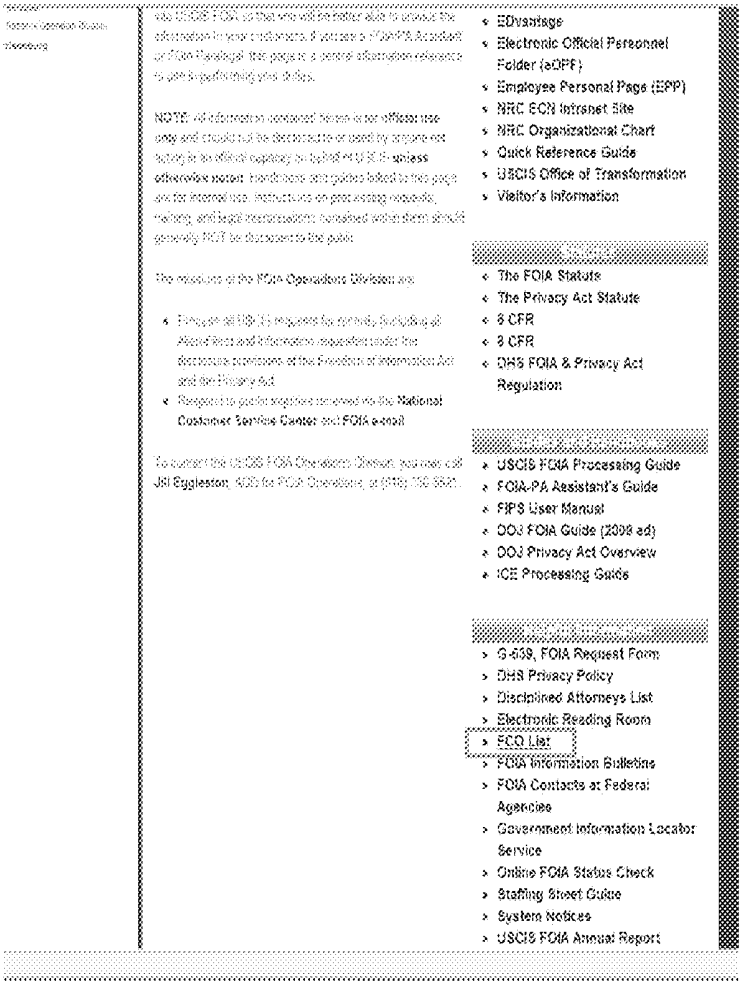
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.6 "Blued in" information

- If "Retire" had been blued in, it would have been important. We would have used that inquiry screen to staff from the FRC.
- If "In Transit" had been blued in, it would have been important. We would have staffed to the receiving FCO.
- If "Consolidation" had been blued in, it would have been important. We would have checked to make sure our file is the "survivor" and not the consolidated file.
- "Rider" could be important to the case processor, but it has nothing to do with how we request this file.

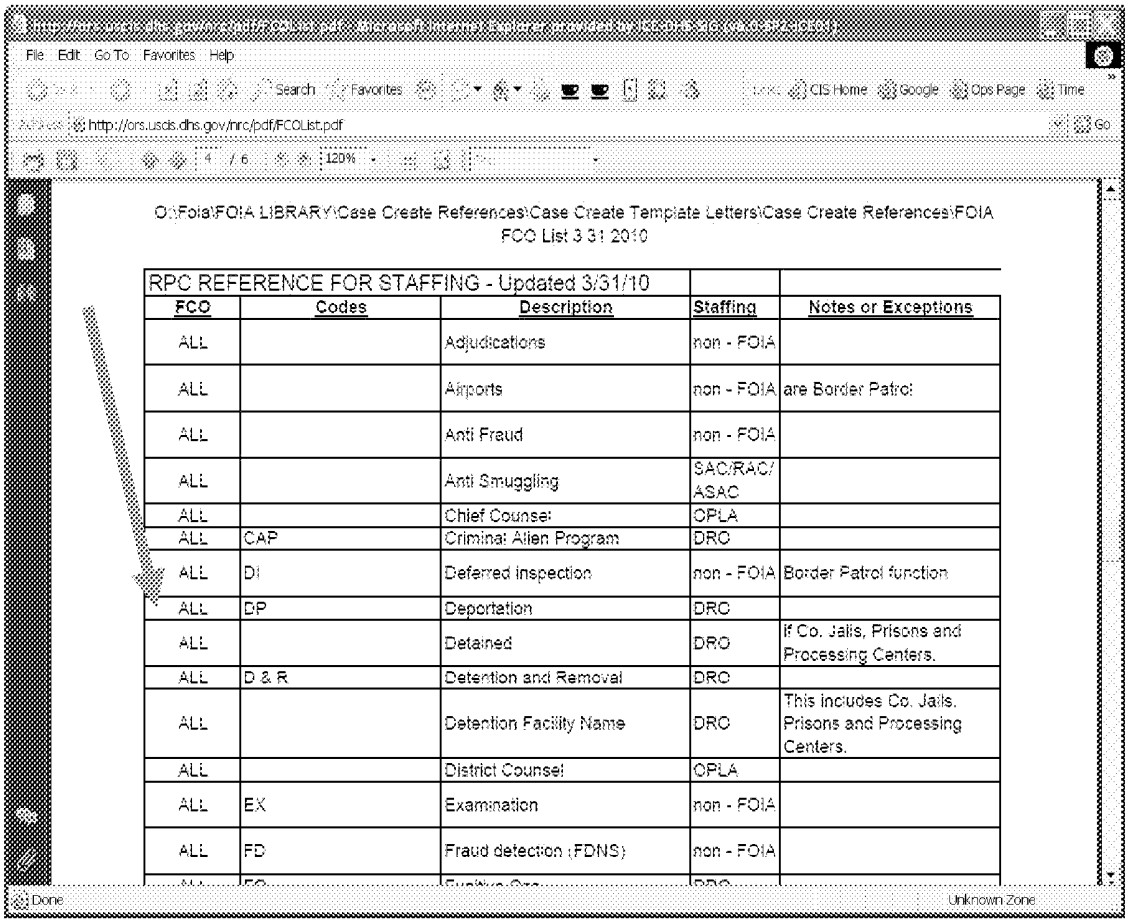
12.1.1.7 The FOIA Operations Division Intranet Page

Now, an RPC beginning with "DP" is easy because NFTS shows right beside it that it means "Deportation." Sometimes an RPC prefix can be important and it's not obvious right away. If that's the situation, we need to look at the FCO List, which also has the RPC Reference Guide.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.8 The RPC Reference Guide says that no matter what the FCO is, if the RPC starts with DP, we staff to DRO. If you don't already know this, SAC, RAC, ASAC, DRO and OPLA are all ICE functions. That's important for staffing.



O:\Foia\FOIA LIBRARY\Case Create References\Case Create Template Letters\Case Create References\FOIA FCO List 3 31 2010

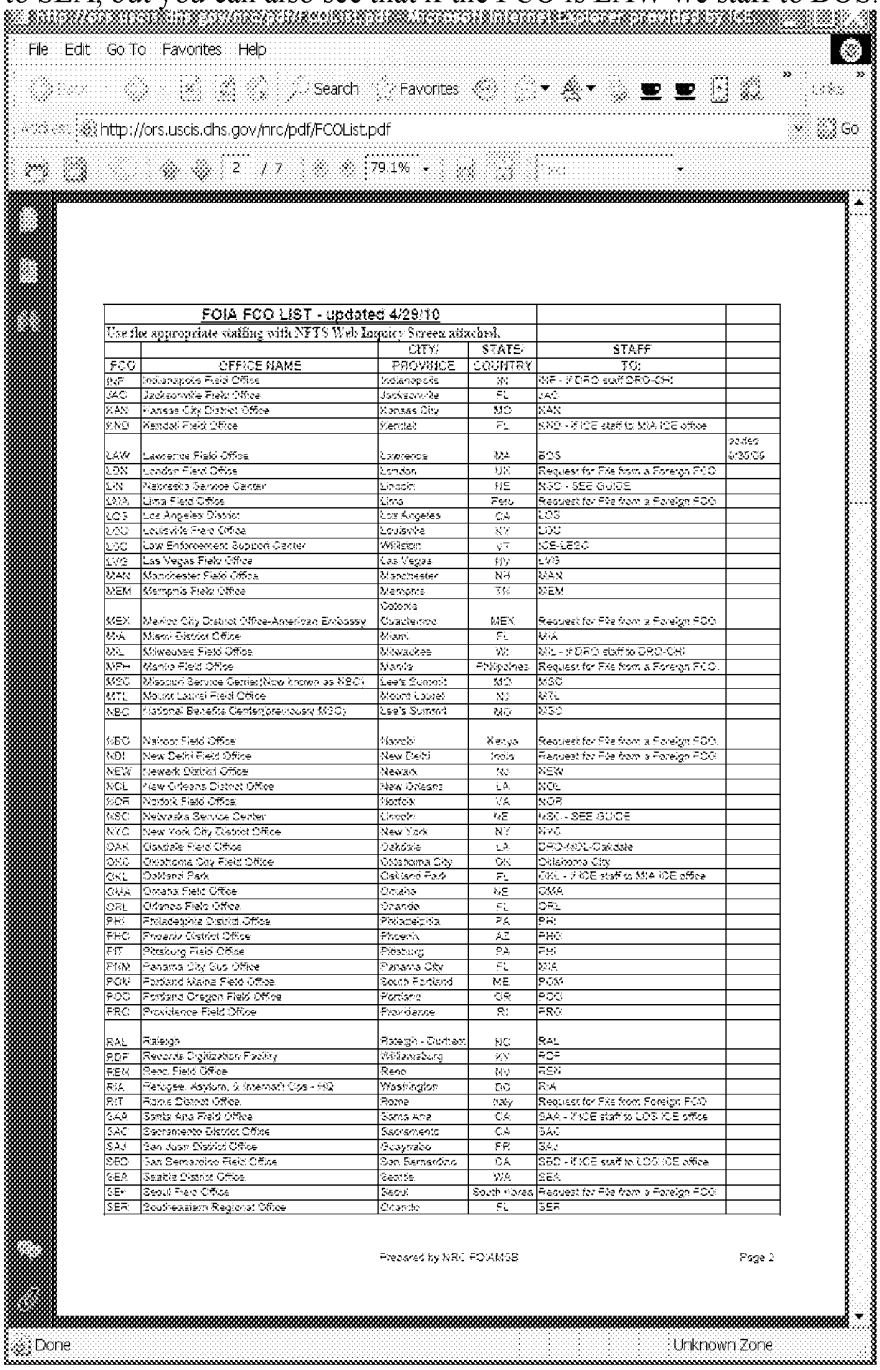
12.1.1.9 The FCO List

From NFTS we know that the FCO is Seattle. We should check to be sure that if the FCO is SEA that we staff to SEA. It's not always intuitive. For example, you can see that we staff SEA to SEA, but you can also see that if the FCO is LAW we staff to BOS.



FOIA FCO LIST - updated 4/29/10

Use the appropriate staffing with NFTS Web Inquiry Screen attached.

FCO	OFFICE NAME	CITY/ PROVINCE	STATE/ COUNTRY	STAFF TO:	
INF	Indianapolis Field Office	Indianapolis	IN	INF - If DRO staff DRO-CHI

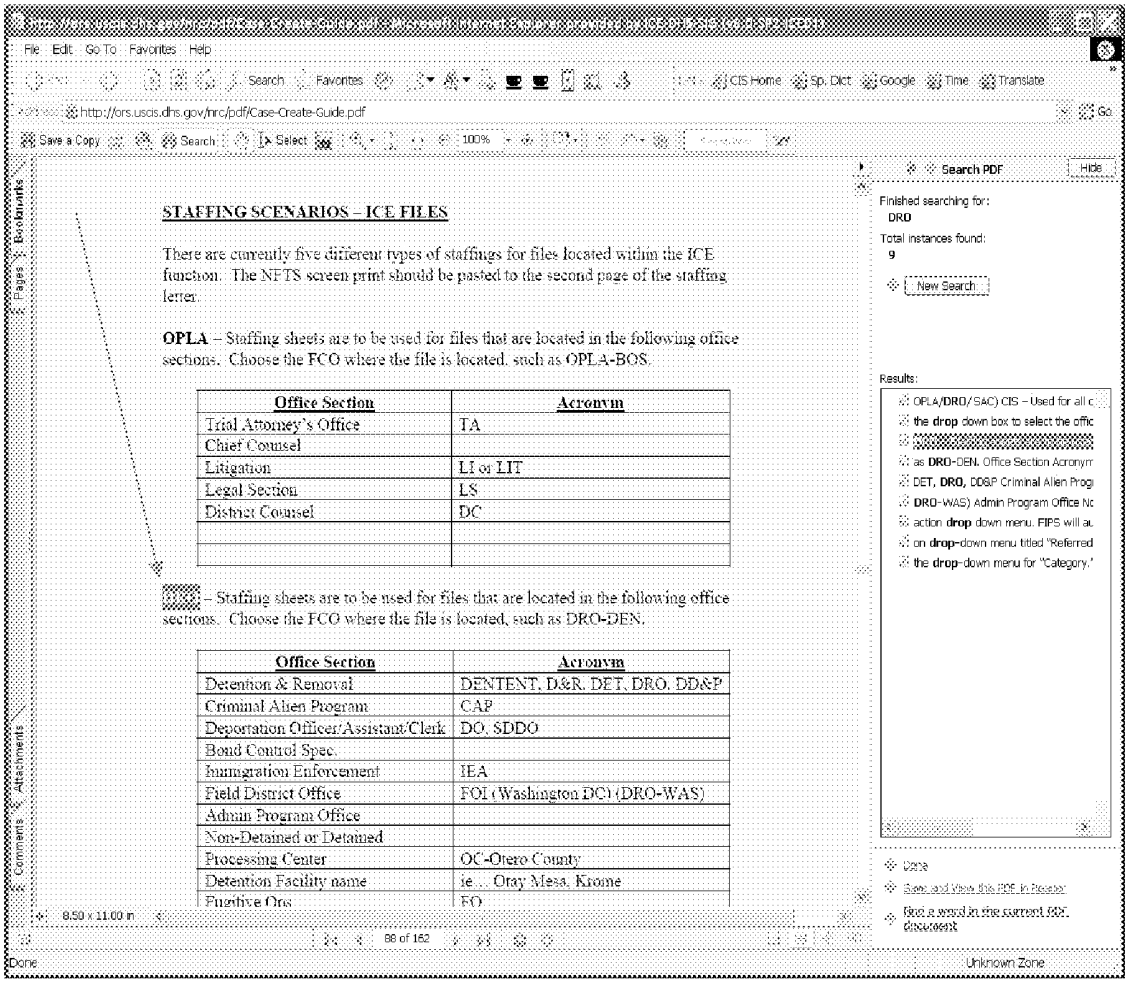
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.10 Figuring out a Staffing Scenario

The Guide confirms what we thought. If we staff to DRO, then we choose the FCO where the file is located. We're going to look for DRO-SEA. Note that the quickest way for me to find the information is by searching "DRO." I could have also gone to the table of contents and looked under Staffing Scenarios.



STAFFING SCENARIOS – ICE FILES

There are currently five different types of staffings for files located within the ICE function. The NFTS screen print should be pasted to the second page of the staffing letter.

OPLA – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	TA
Chief Counsel	
Litigation	LI or LIT
Legal Section	LS
District Counsel	DC

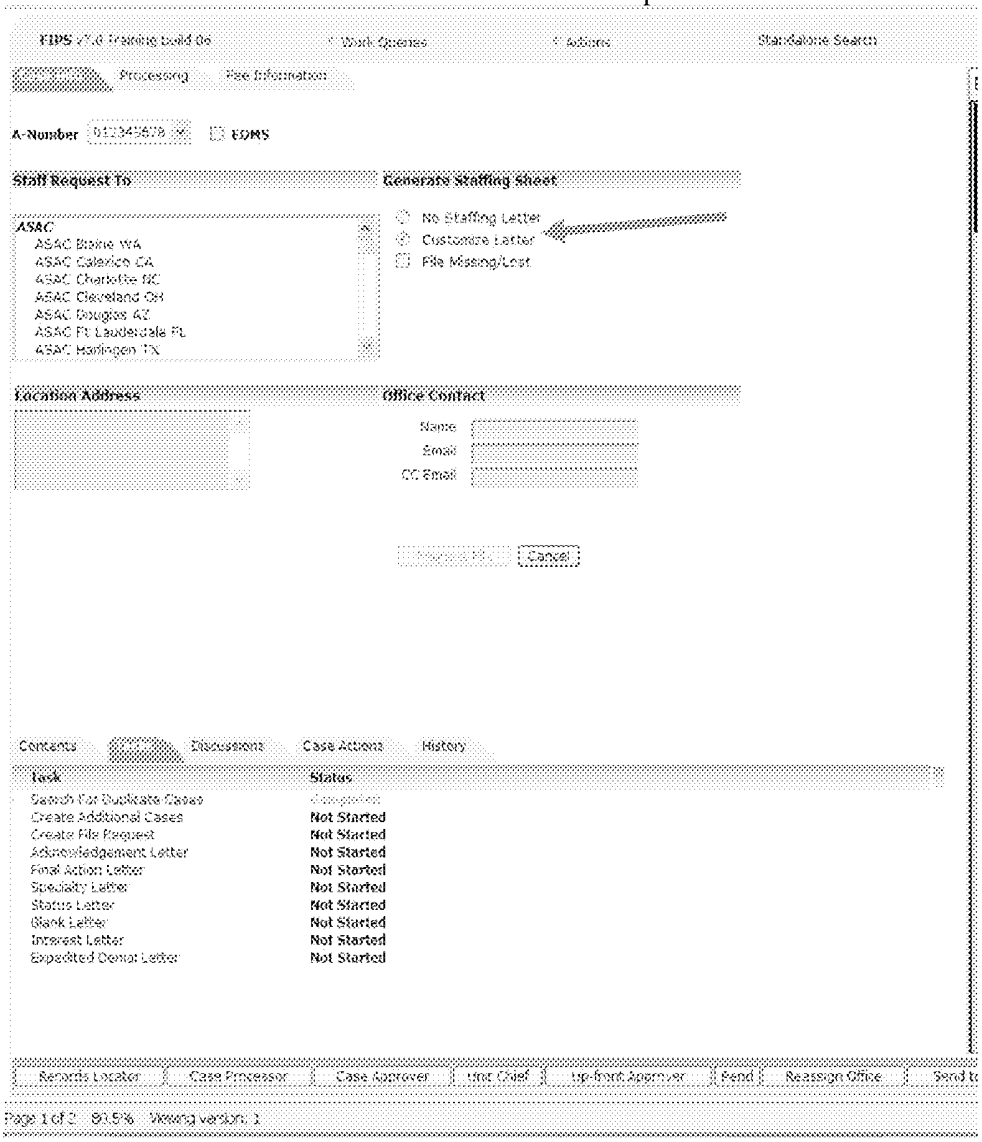
[redacted] – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	DENTENT, D&R, DET, DRO, DD&P
Criminal Alien Program	CAP
Deportation Officer/Assistant/Clerk	DO, SDDO
Bond Control Spec.	
Immigration Enforcement	IEA
Field District Office	FOI (Washington DC) (DRO-WAS)
Admin Program Office	
Non-Detained or Detained	
Processing Center	OC-Otero County
Detention Facility name	ie… Otay Mesa, Krome
Fugitive Ops	FO

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.11 Generate the file request

Go to the "Tasks" tab and click on "Create File Request."

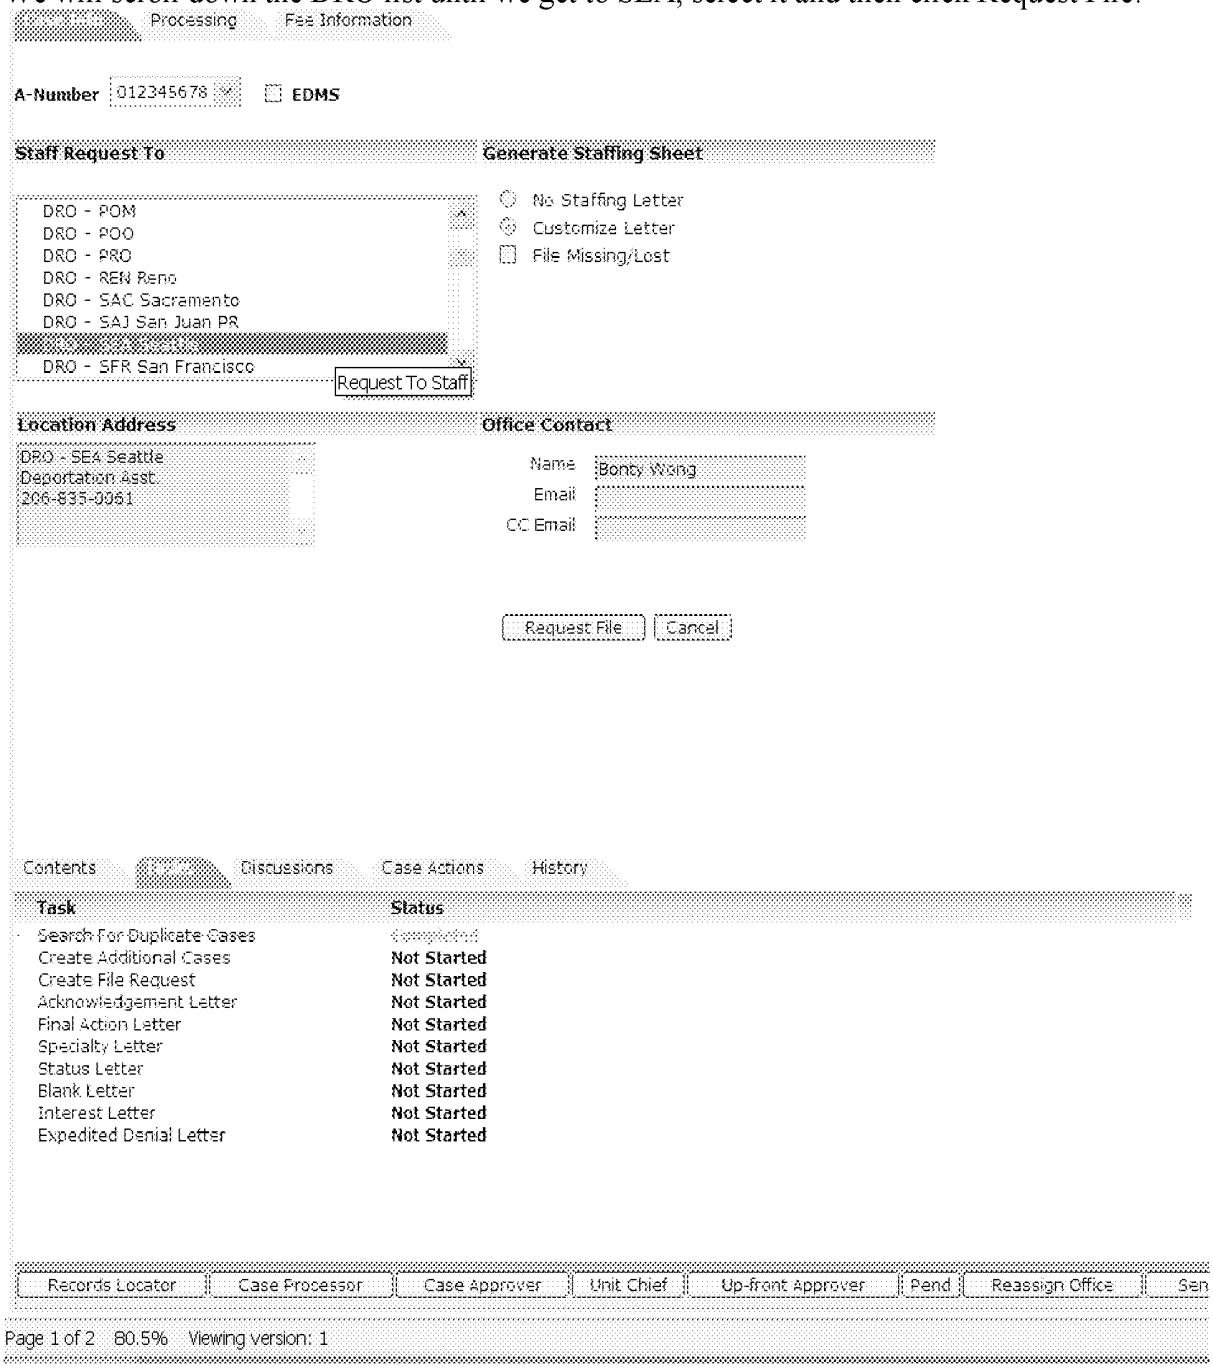


Make sure the button marked "Customize Letter" is selected. The file is not missing or lost, so we won't check that box. We know the file is at DRO Seattle, so we will scroll down "Staff Request To" until we find it.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.12 FIPS – Staffing Request dialog box

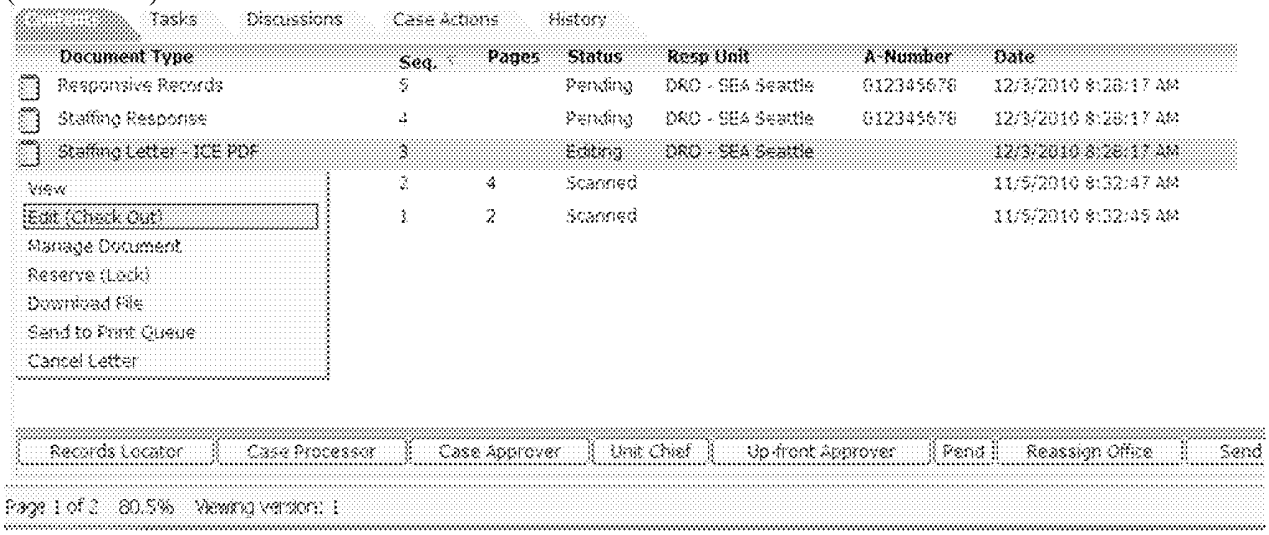
We will scroll down the DRO list until we get to SEA, select it and then click Request File:

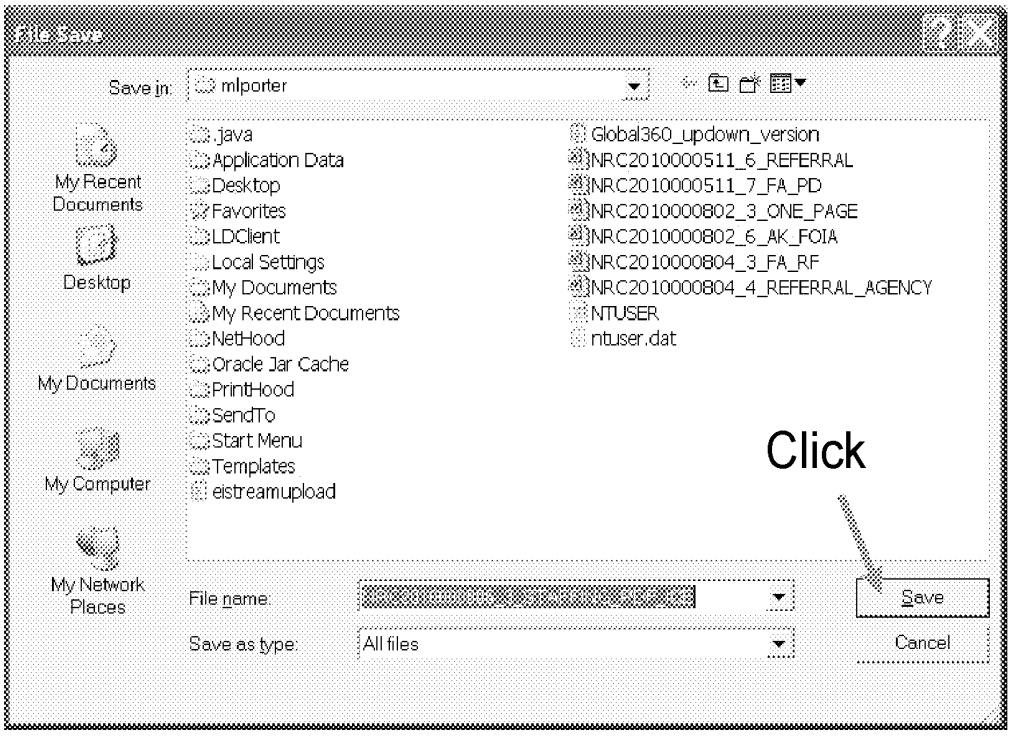


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.13 Create the customized staffing letter

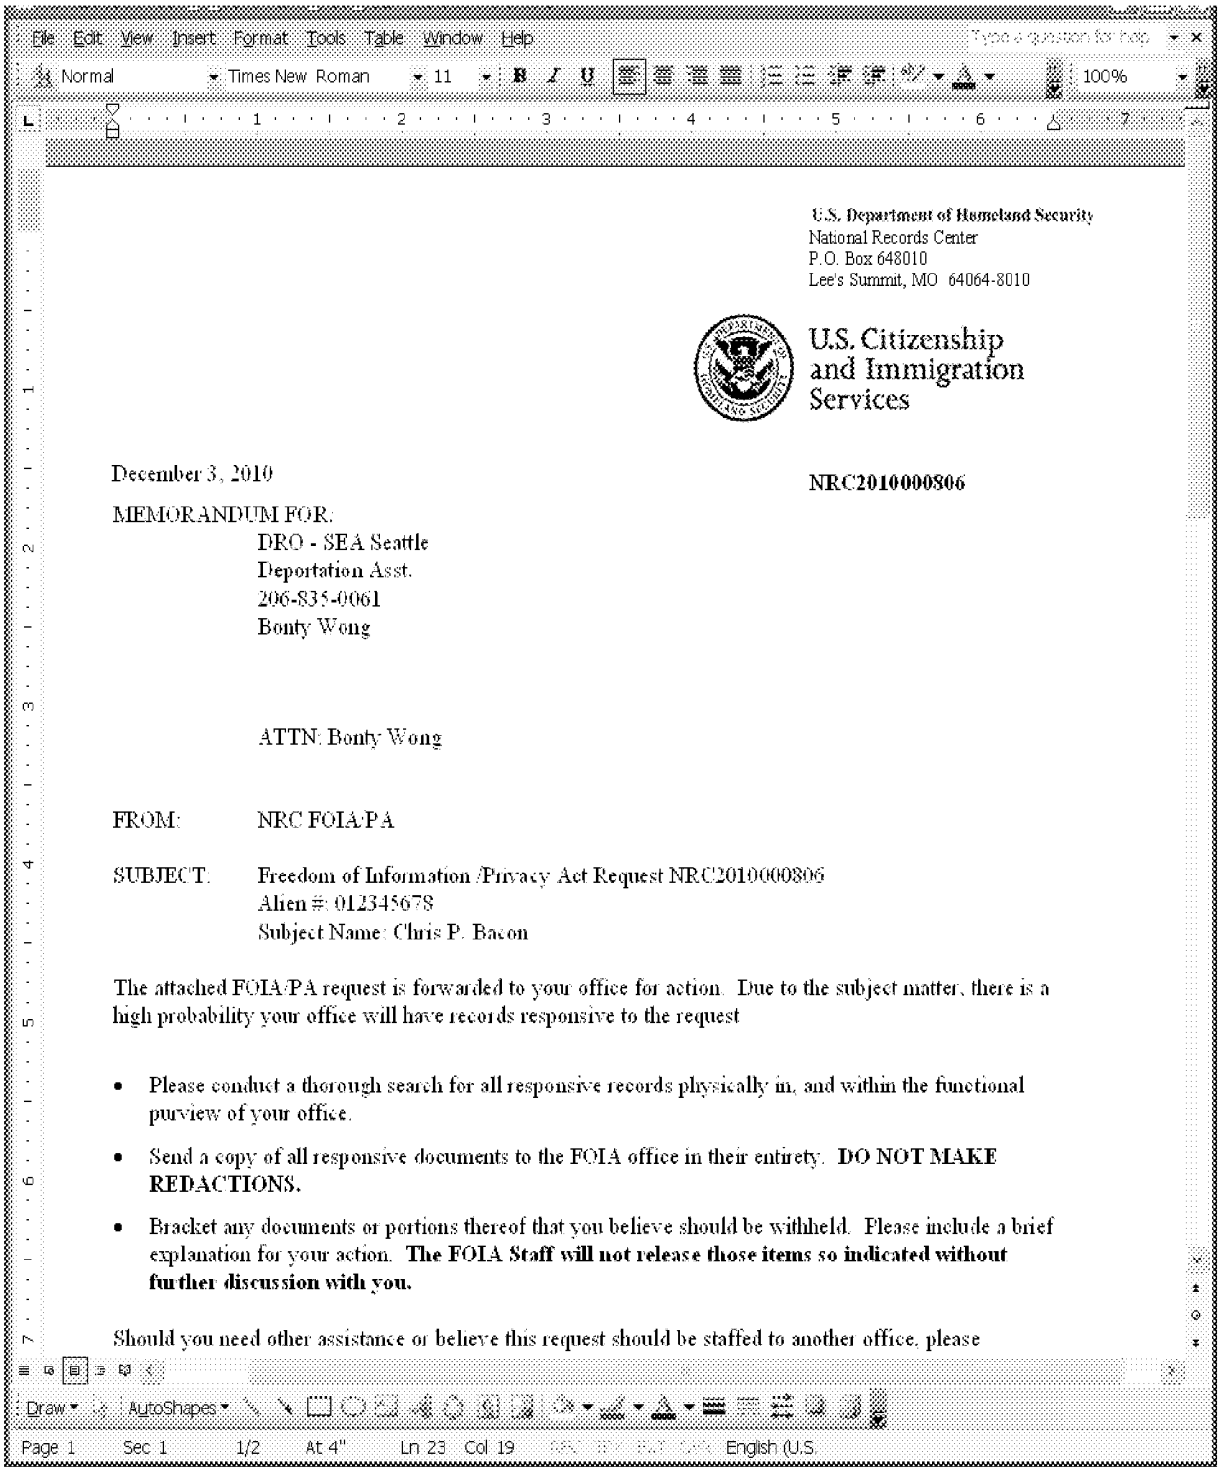
After that, we get a message that says "Successfully generated letter Staffing Letter – ICE PDF." Click OK and then move to the "Contents" tab. Click on the Staffing Letter and select "Edit (Check Out)."





WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

As soon as I clicked "SAVE," FIPS opened the staffing letter for me in Word.



U.S. Department of Homeland Security
National Records Center
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

MEMORANDUM FOR:
DRO - SEA Seattle
Deportation Asst.
206-835-0061
Bonty Wong

ATTN: Bonty Wong

FROM: NRC FOIA/PA

SUBJECT: Freedom of Information /Privacy Act Request NRC2010000806
Alien #: 012345678
Subject Name: Chris P. Bacon

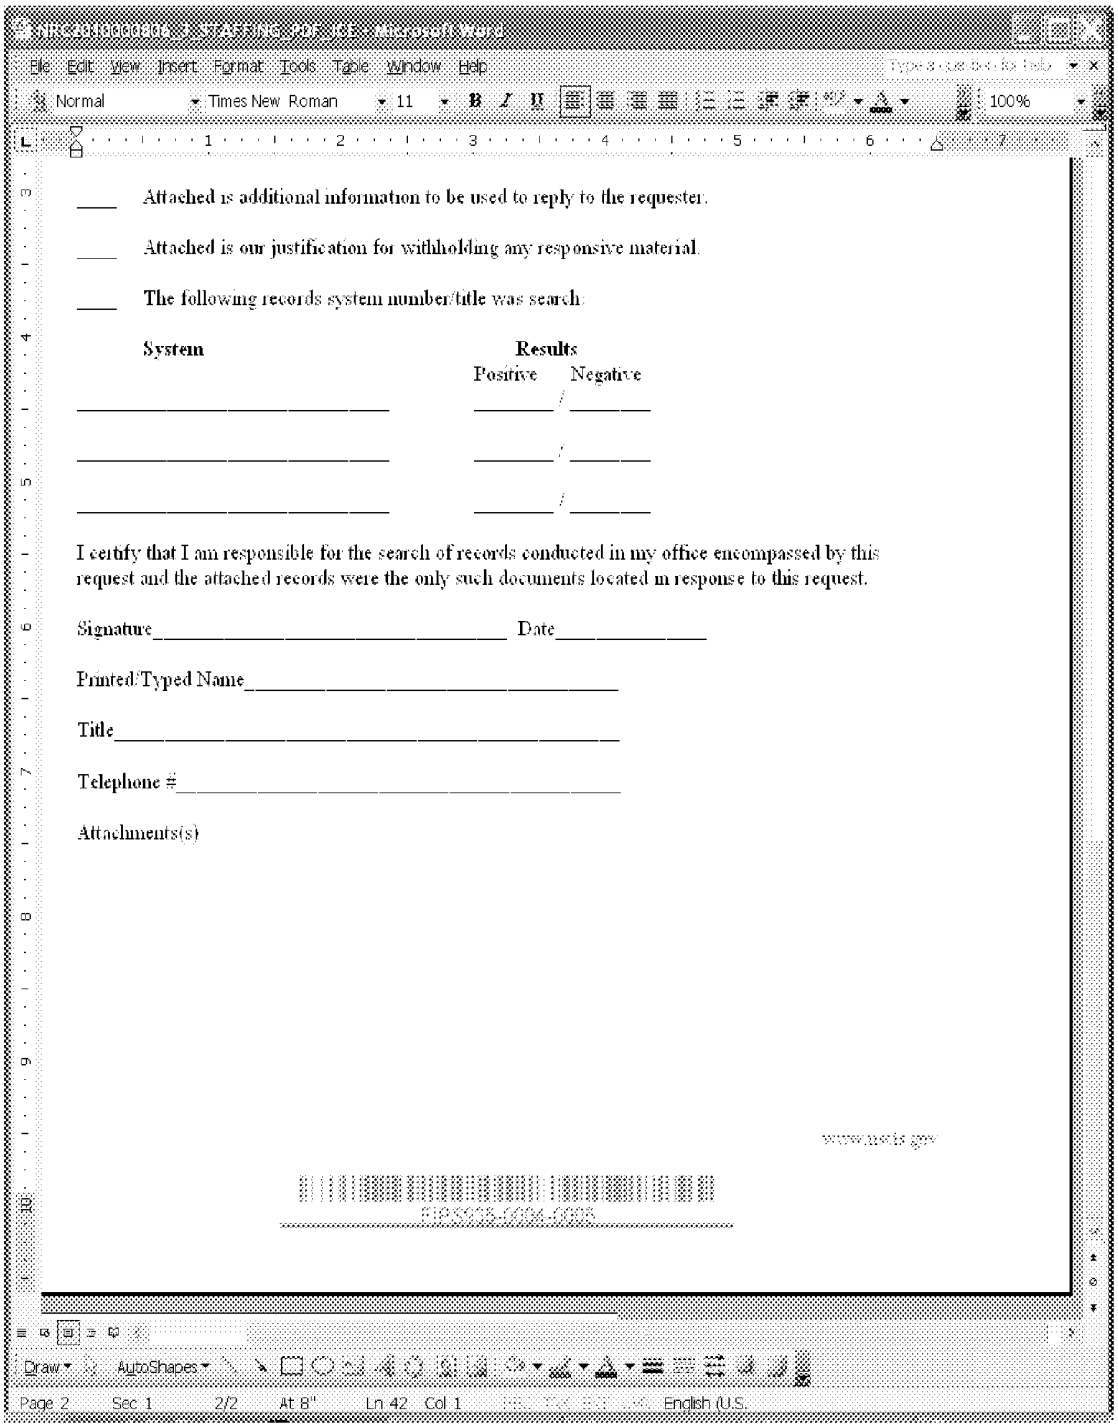
The attached FOIA/PA request is forwarded to you office for action. Due to the subject matter, there is a high probability your office will have records responsive to the request

- Please conduct a thorough search for all responsive records physically in, and within the functional purview of your office.
- Send a copy of all responsive documents to the FOIA office in their entirety. **DO NOT MAKE REDACTIONS.**
- Bracket any documents or portions thereof that you believe should be withheld. Please include a brief explanation for your action. **The FOIA Staff will not release those items so indicated without further discussion with you.**

Should you need other assistance or believe this request should be staffed to another office, please

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

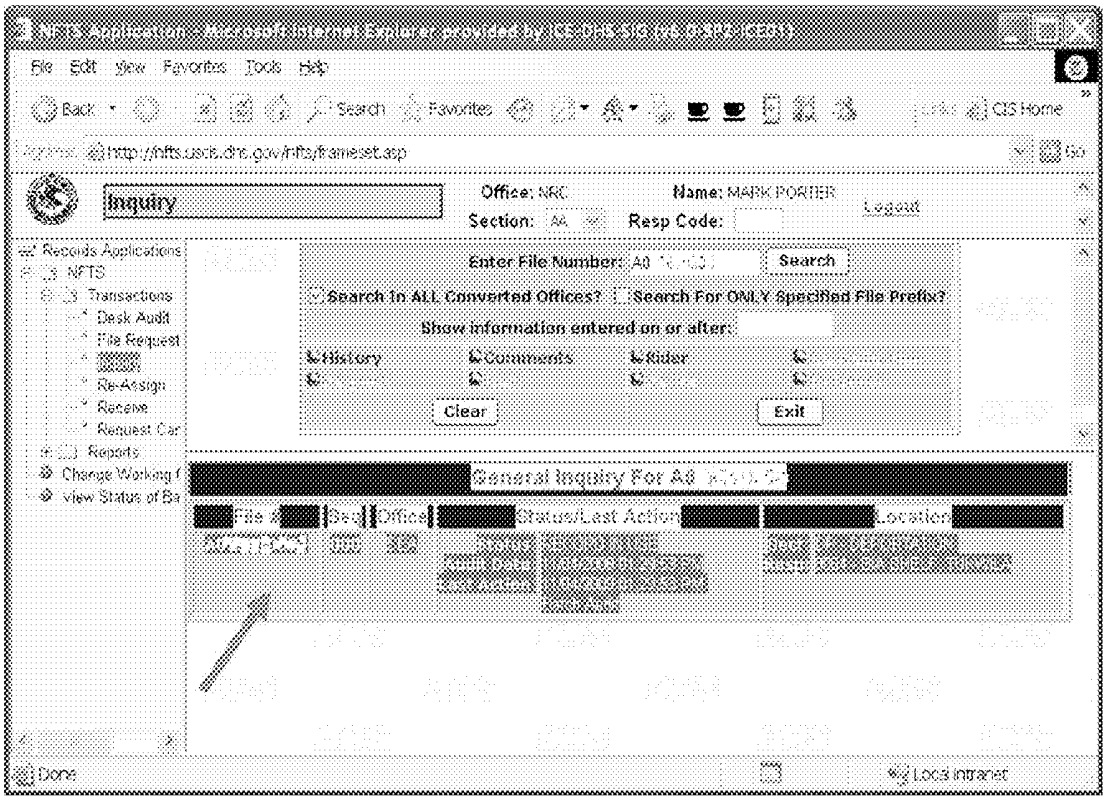
Go to the end of the letter and position your blinking cursor below the word "Attachments." Next, we go back to NFTS and copy the location information.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

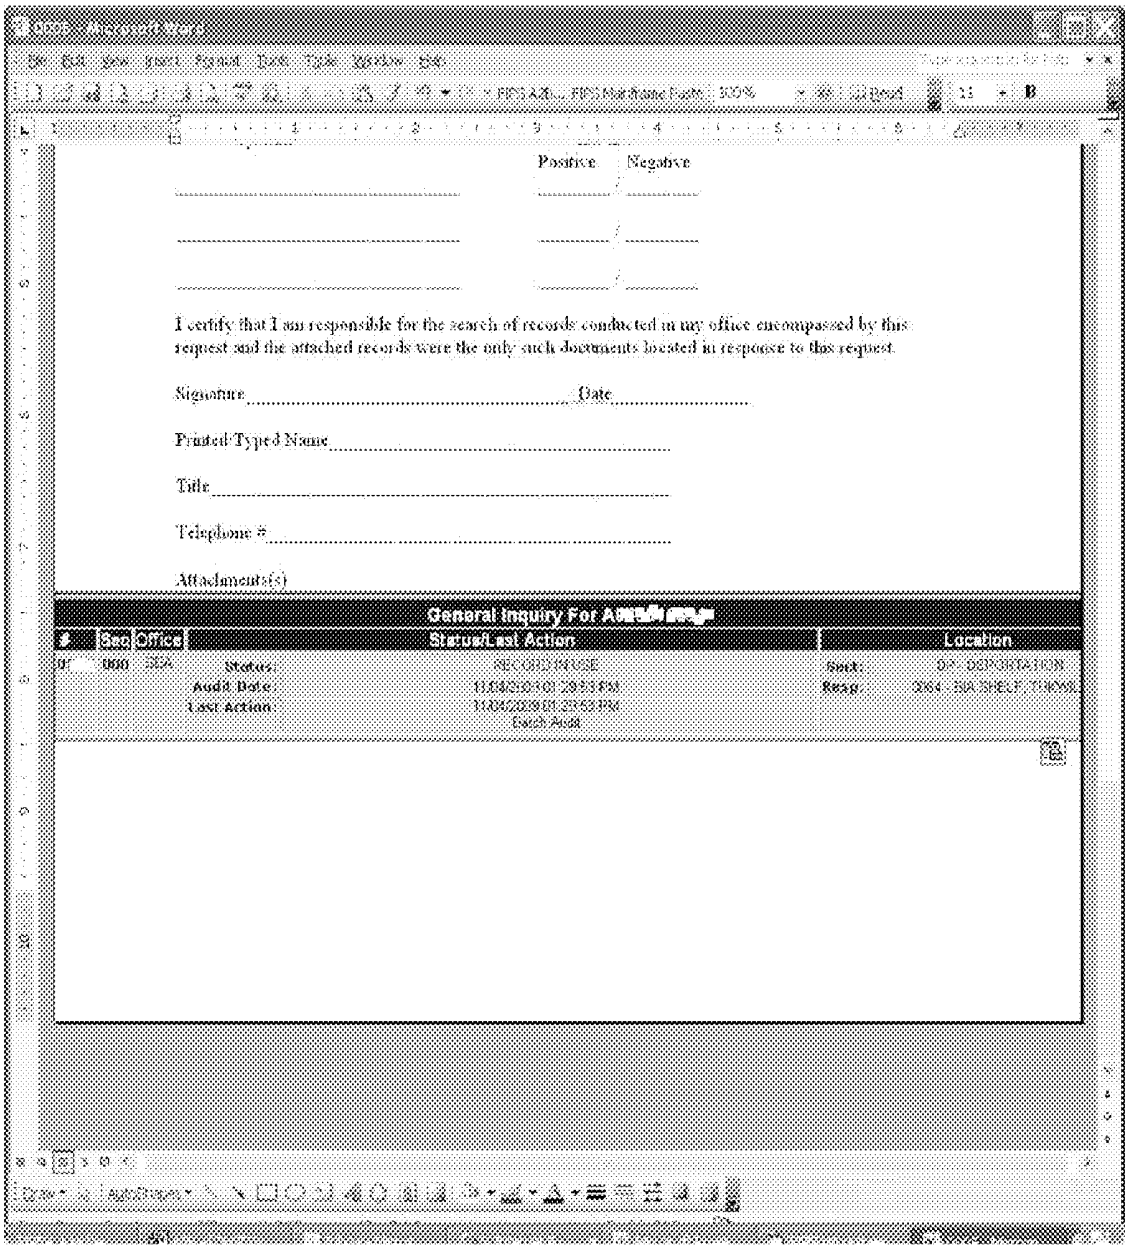
12.1.1.14 Put the staffing information in the staffing letter

Right-click somewhere in the gray area below "General Inquiry." You will get a drop-down dialog box. Click on "Select All." Right-click again and select "Copy." Now we will paste the information into the staffing letter.



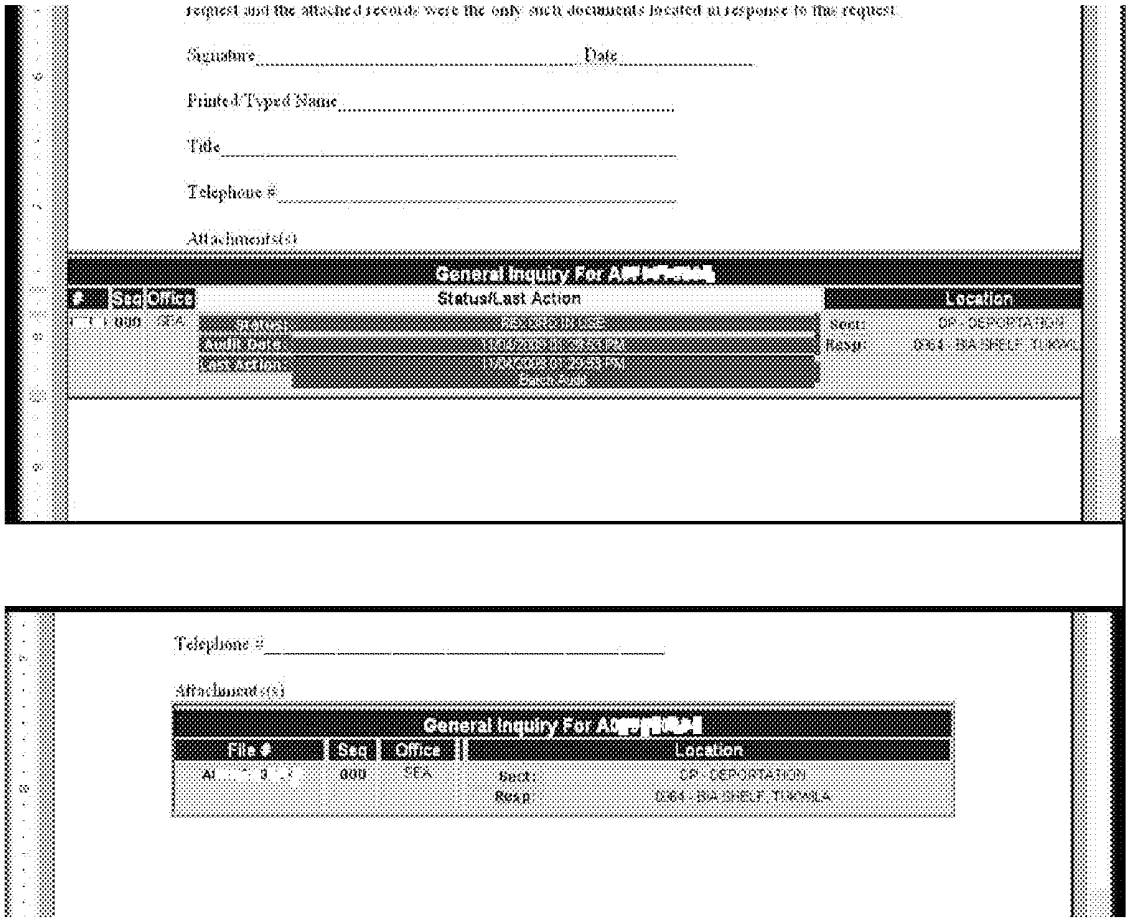
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Immediately after pasting, we notice that the result is imperfect and we will have to repair it.



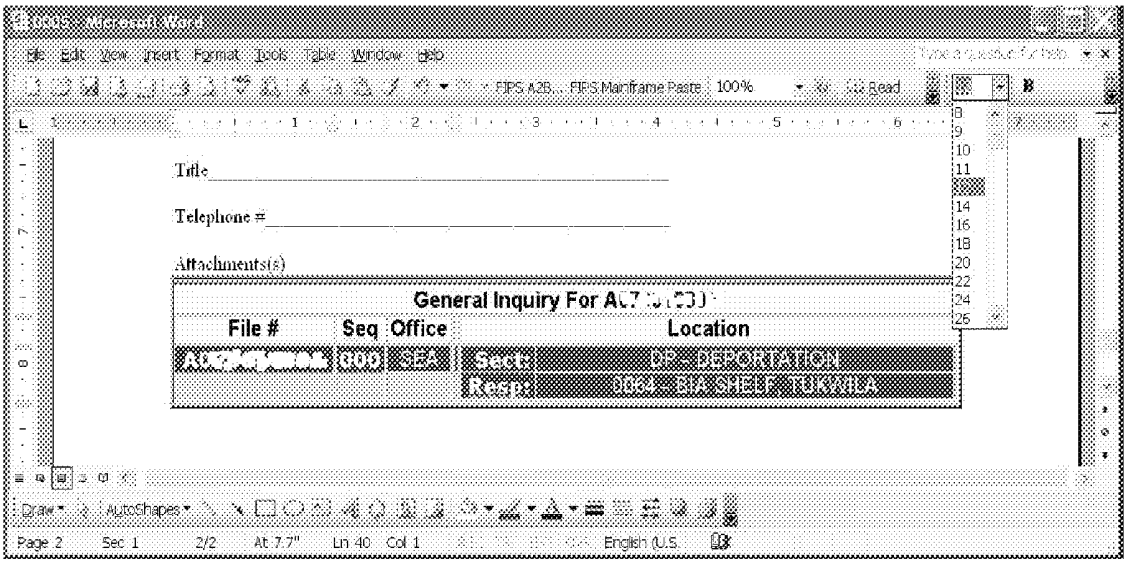
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Left-click and highlight everything in the center column, starting at Status/Last Action, then press Delete.



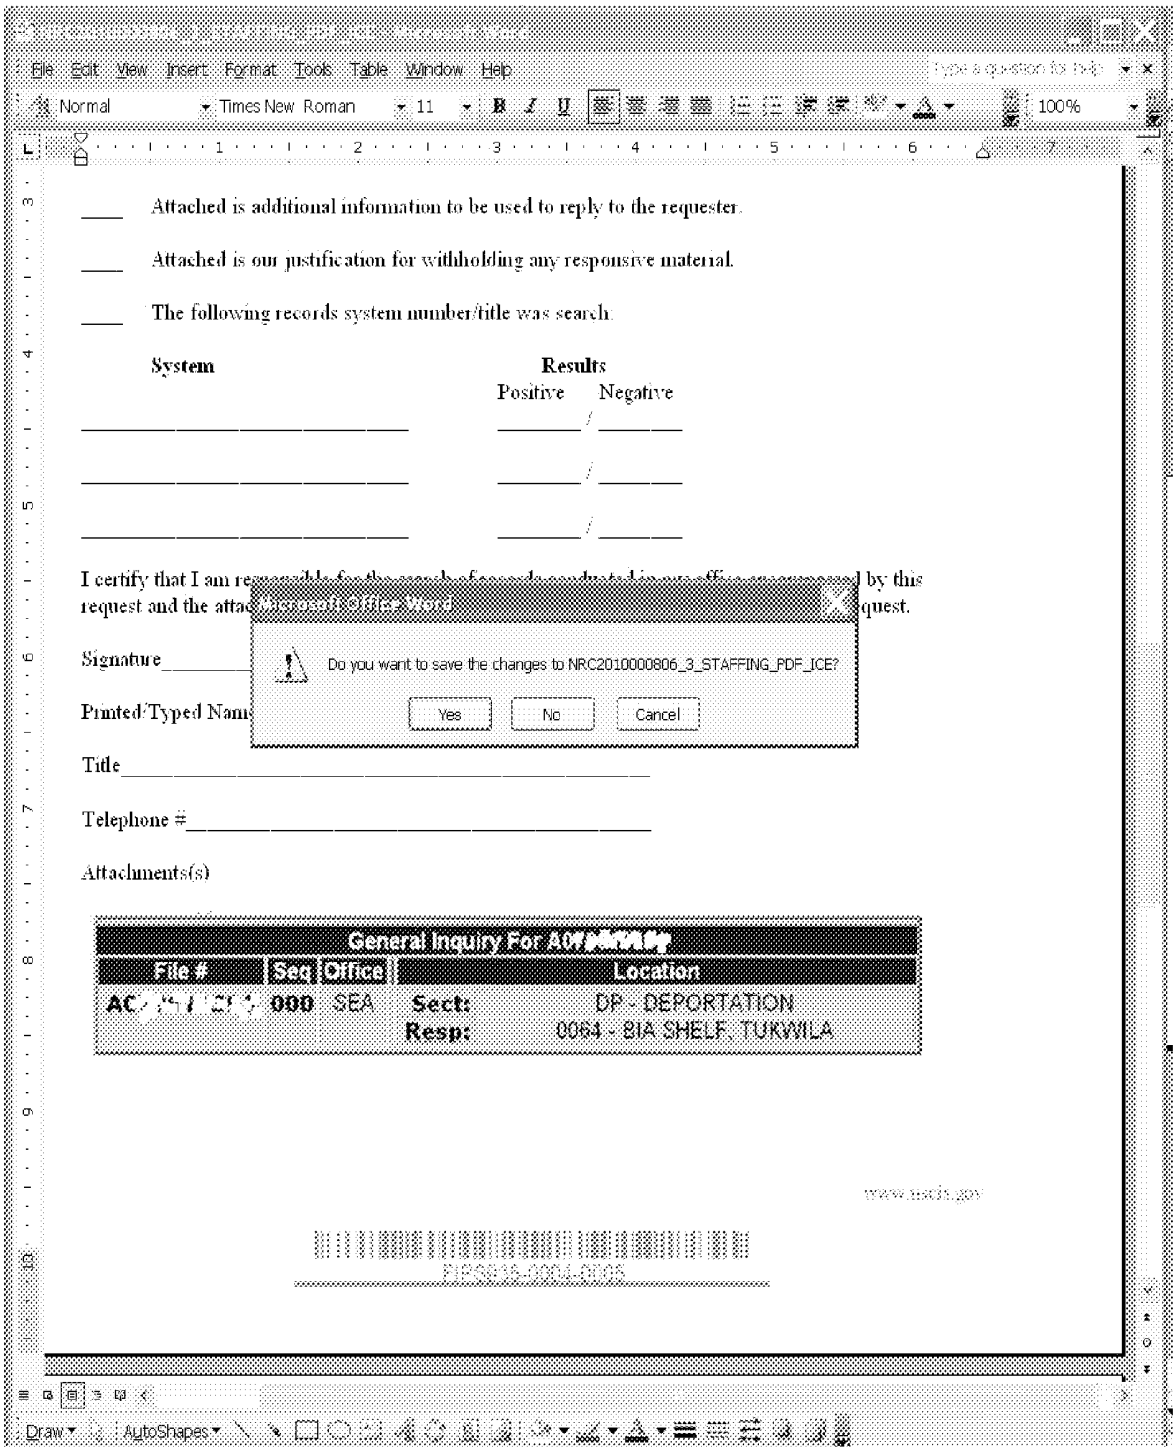
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, highlight the whole area and change the font size to 12.



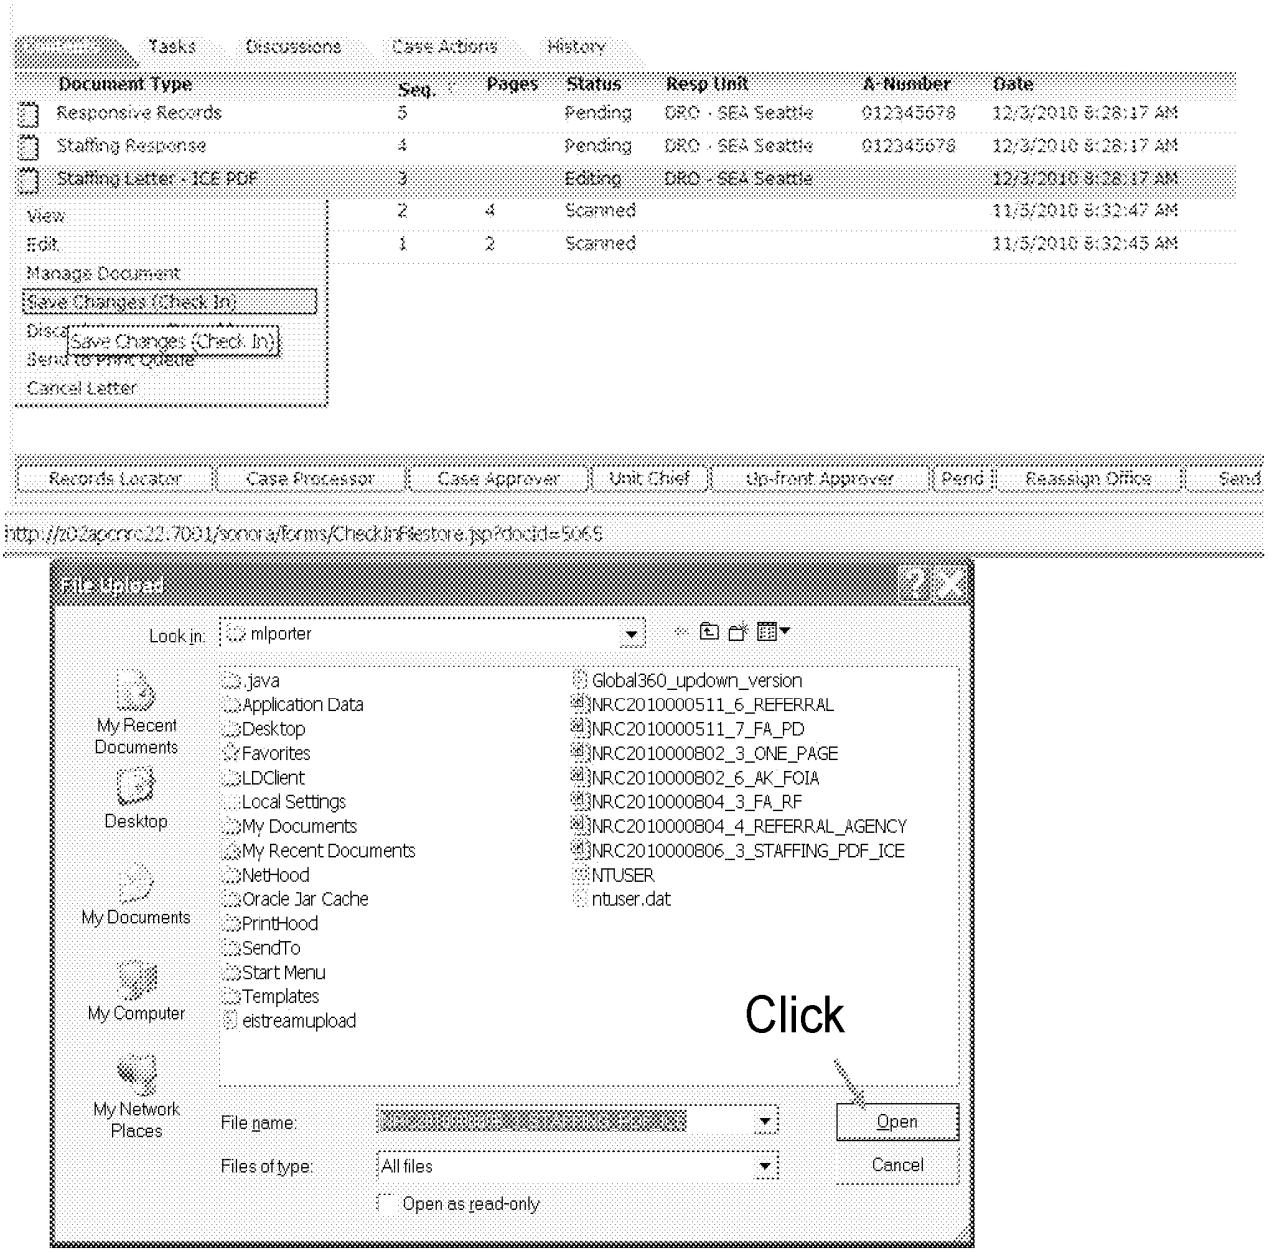
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Finally, we exit and save our work. We have successfully staffed for the A-file. The next thing we have to do is check the staffing letter back in.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.15 Save changes and check it back in



After this, send the case to "Pend."

12.1.2 Two or more A-numbers

Multiple unconsolidated A-numbers - If the requester has provided more than one A-number, you must research CIS for each A-number to determine if they relate to the subject. If the subject has multiple A-numbers, you will create one case and do multiple staffings. When you are required to request two or more unconsolidated A-files, the individual file request must

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

include the words **"MULTIPLE STAFFINGS"** at the top of each sheet. Do not confuse this with the subject of the file having an "A" file and a "T" file. The alien numbers must refer to different unconsolidated A-files and relate to the subject of the request if you are to mark it **"MULTIPLE STAFFINGS."**

Important note: If one of the files you are requesting is located at RAFACS/CIS, FRC or one of the Service Centers, request those alien numbers first. These locations produce the file faster than other offices. MSB will not know to pull the staffing letters for follow-up unless you noted "Multiple Staffing" on the sheet.

If the alien has multiple unconsolidated A-numbers and the files are both located at the NRC, please add them to the spreadsheet that Records Operations maintains at *S:\Record Ops\Files to Consolidate.xls*. You are responsible for entering the alien numbers of the files that may possibly need consolidation. Records Operations will review the files and consolidate if necessary. If both files are not at NRC, do not add the information to the spreadsheet.

12.1.3 Consolidated A-numbers

If the alien has a consolidated A-number, then please enter only the lead (or surviving) A-number on the worksheet in FIPS and request that file. Consolidated A-numbers are reflected in CIS on the 9101 screen, under the section titled "Consolidated A-Nos". The A-number listed first is the primary A-number; the other A-numbers listed below the primary have been consolidated into the primary number.

Note: please do not add consolidated A-numbers to the "files to consolidate" spreadsheet.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.2 Border crossing card number

If the alien number provided by the requester is an 80,000,000 through 86,899,999 series number, it is a Border Crossing Card number. Even though you can research this number in CIS, there is no physical A-file associated with these types of numbers. You will need to research CIS and CLAIMS to see if there are any other A-files/receipt files associated with this alien.

Previously during the Case Create process, if a requester/subject provided a Border Crossing Card Number and all of the required PII (except an A-Number), we asked the requester/subject to provide additional information (Alien or receipt number, copies of documents from the service, etc…). We used this information to determine if the subject had an A-File. We would find the A-file only in very rare instances.

We no longer request additional information if the requester/subject provides all of the required PII (except an A-Number). Since Border Crossing Cards are strictly electronic records (no actual file), we will have the Border Crossing Card screen prints scanned into a RAFACS slot.

Use the Border Crossing Card Number provided; search and print CIS screens 9101, 9101-history (F8), 9222 and 9223. Open a RAFACS staffing slot. Make sure "Customize Letter" is selected. Prepare the screen prints for scanning into this slot as responsive records. Pend the case for responsive records. Please attach a "Scan As" sheet and mark it as "responsive records" with the screen prints to be scanned. The case will be sent to the processor after screen prints are scanned in. Create it as a Track 1 case.

Note: Alien numbers from 86,900,000 through 87,999,999 are not Border Crossing Card Numbers; they are general alien numbers and have corresponding A-files.

12.3 EAD numbers (100,000,000 through 149,999,999)

If the alien number provided by the requester is 100,000,000 through 149,999,999, it is an EAD (Employment Authorization Document) card number. There is no physical A-file associated with EAD numbers, even though they can be researched in CIS. You will have to research CLAIMS to locate the receipt number that corresponds with the EAD number, and then request that receipt number. Please refer to the section titled ***Staffing Scenarios – Receipt Files*** for additional information.

12.4 New alien numbers (300,300,000 through 300,322,501)

As of June 2009, the range of numbers 300,300,000 through 300,322,501 are being used as general A-file numbers.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.5 Receipt numbers

Receipt numbers are comprised of the three-letter office code, followed by a 10-digit number. Receipt numbers are assigned to applications and petitions filed with the Service, such as Form I-765, Employment Authorization applications and Form I-130, Petition for Alien Relative. If the requester provides a receipt number on their request, log into CLAIMS and verify the information.

If the requester provides only a receipt number and it is for a Service Center we work, then we need to request the receipt file. Enter the receipt information into the Topic field. Make the first part of the description the receipt file number. Use the complete receipt number with no spaces or dashes.

Example of the correct way: EAC0812345678
An example of how **NOT** to do it: EAC-08-123-45678

If every case creator enters receipt information the same way, it is easier for the next case creator to identify duplicate or similar cases. The next case creator may base the search on "EAC081234567%," and if the previous case creator entered dashes, the search will not identify the duplicate.

Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA HBG file request. **Do not request DIG T-files at HBG with RPC codes XX, XY, ZG, ZY, or ZZ.** Refer to the Staffing Sheet Guide for the most current information.

12.6 Archives and Records Centers Information System (ARCIS)

ARCIS is a new system used by the Federal Records Center (FRC) to track the location of retired files. The accession data is now 27 digits long. NFTS will not accept the accession data because of the length. Instead, you will see the word "ARCIS" in the location field in NFTS.

When the case you are creating shows the file is located at FRC and you see the word "ARCIS" in the location field in NFTS, use the FRC file request and paste the retired screen from NFTS.

Not all files located at the FRC will have "ARCIS" in the location field. For those files, continue to staff using the FRC file request and paste the retired screen print.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7 Staffing Scenarios

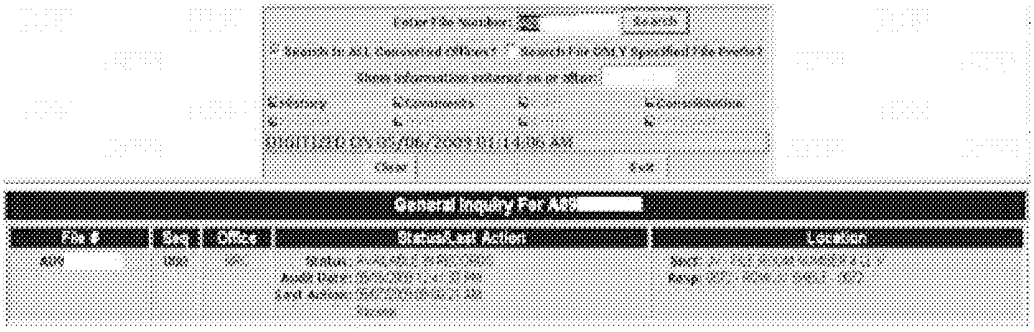
12.7.1 Digitized files

If you are requesting an A-file that has been digitized please use the **RDF** file request. If the file has been digitized, the current FCO does not matter; you would still use the RDF file request.

How do I tell if it is a digitized file?

NFTS will show the "Location" of the file as either **RDF** or **NRC**. If the file location is NRC, you will see a banner stating "DIGITIZED ON ...." The screen print below is a sample of the NFTS screen.

The temptation may be to staff RAFACS/CIS because the file shows available in records at NRC. Do not do that. If it shows "DIGITIZED," then staff to RDF. Also include any T files you find in the General Inquiry screen.



Paste in the "General Inquiry" information on the RDF staffing the same as you would on a RAFACS/CIS staffing. Delete the status/action item column, but DO NOT delete any T-files. MSB will know the file is digitized because you have staffed using an RDF file request. This also applies to Retired files that have been digitized. Do not use the retired screen on Retired digitized files. An example has been provided below.

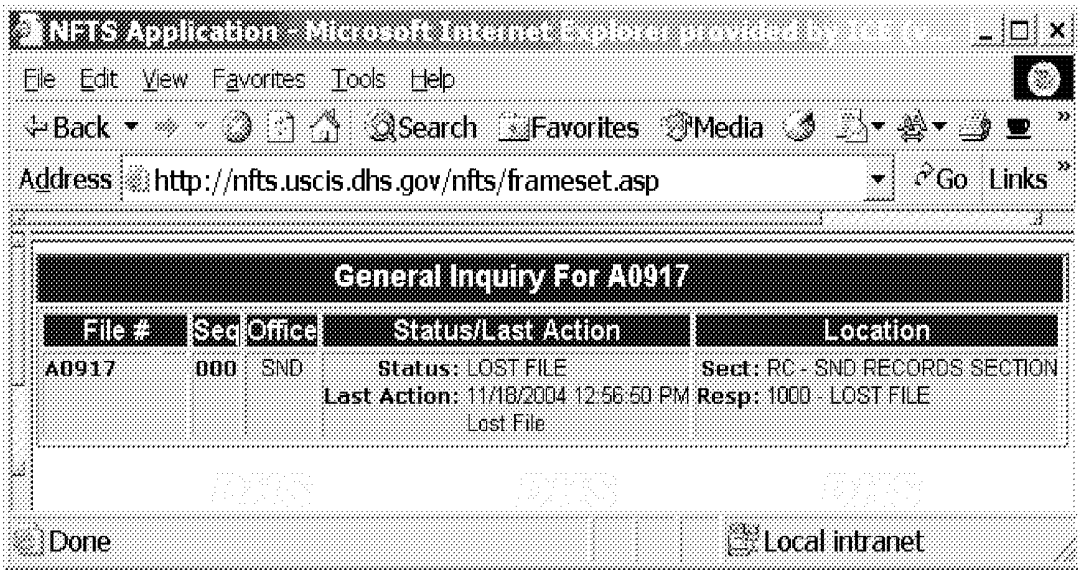
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

In the example above, you will have to make two staffings. Notice there is a T-file currently in use at OPLA San Francisco? That also changes the Category of the case to "SFR Cases at NRC."

12.7.2 Files Lost or Not Found LESS THAN NINE MONTHS

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

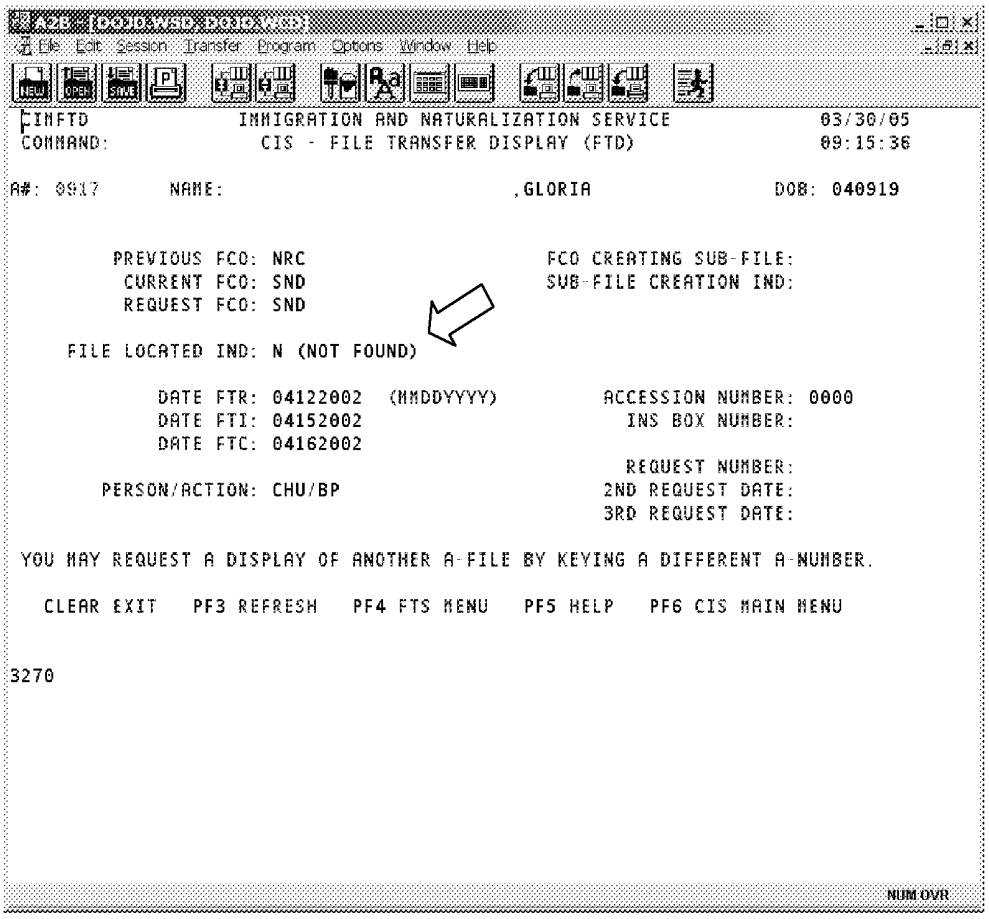
When an A-file is lost, it will appear in NFTS as a "Lost File" in the Status/Last Action section of the General Inquiry screen.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A lost file in CIS will appear in the CIS-9504 screen as "N (Not Found)" in the section titled "FILE LOCATED IND:"

If the "Last Action" is more than nine months ago, move to the next section of this guide, Files lost or not found MORE THAN NINE MONTHS.

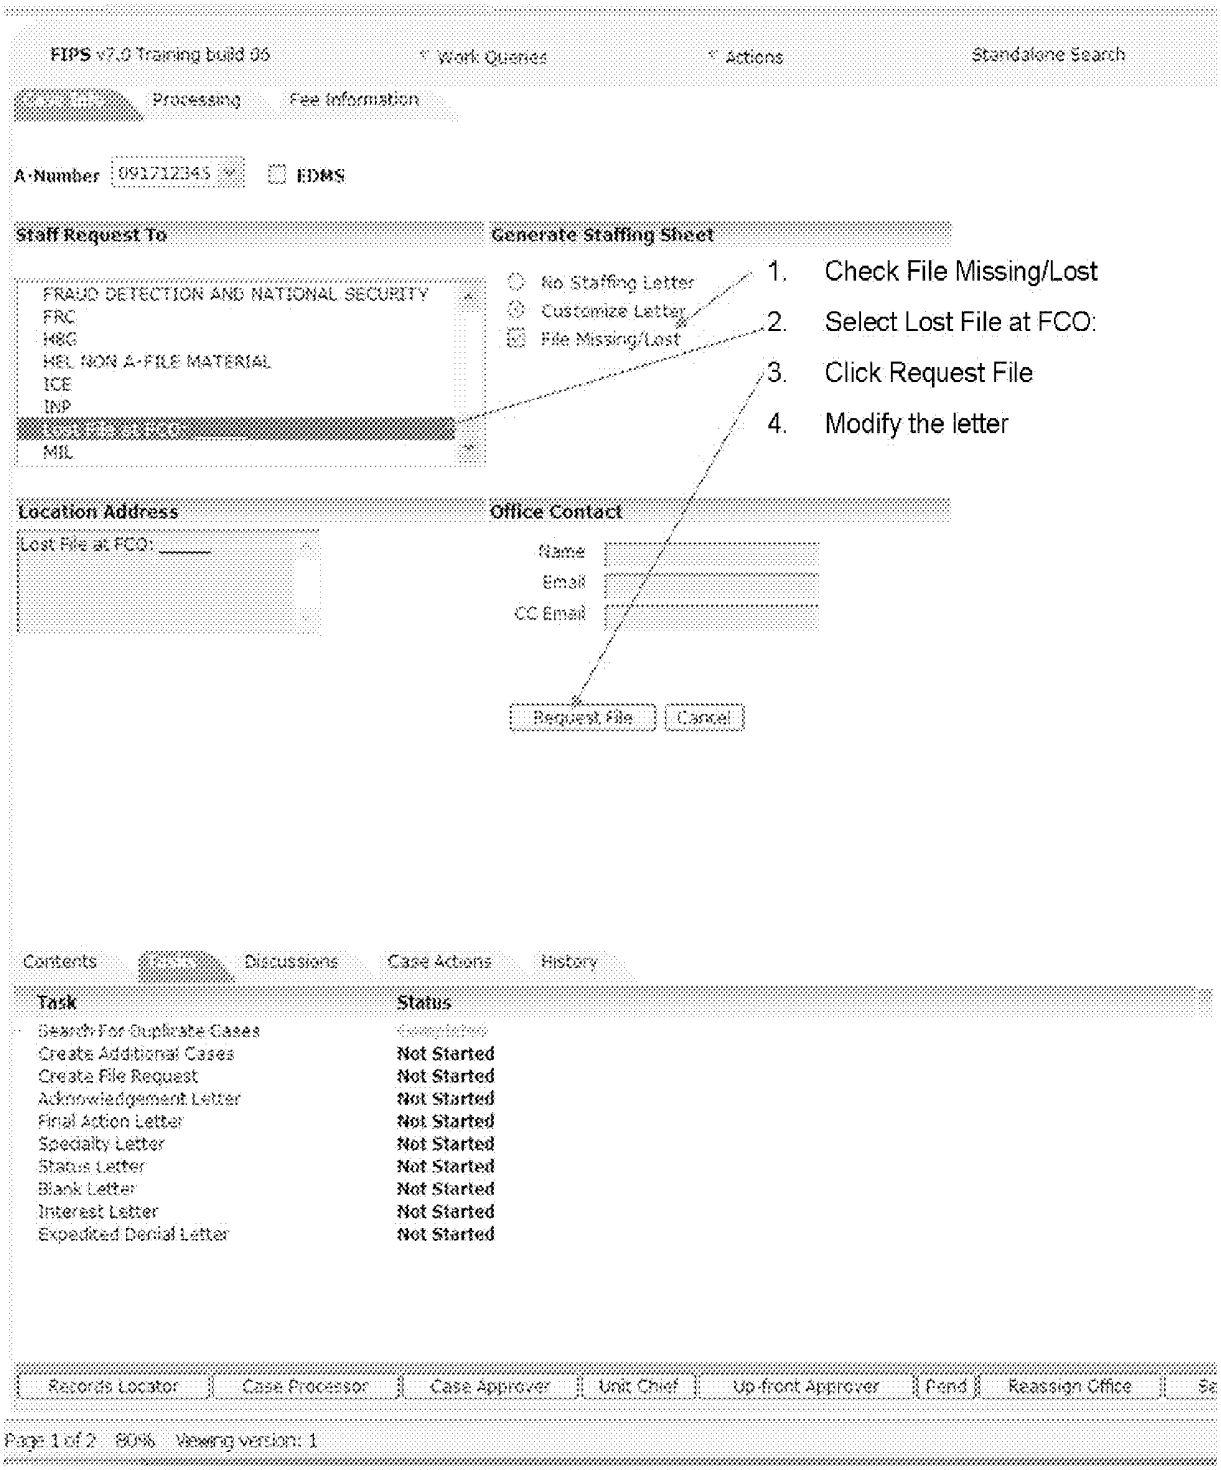


When the file appears lost in CIS 9504 and NFTS, Staff using the Lost File at FCO:_____ file request (include the FCO that shows the file is lost).

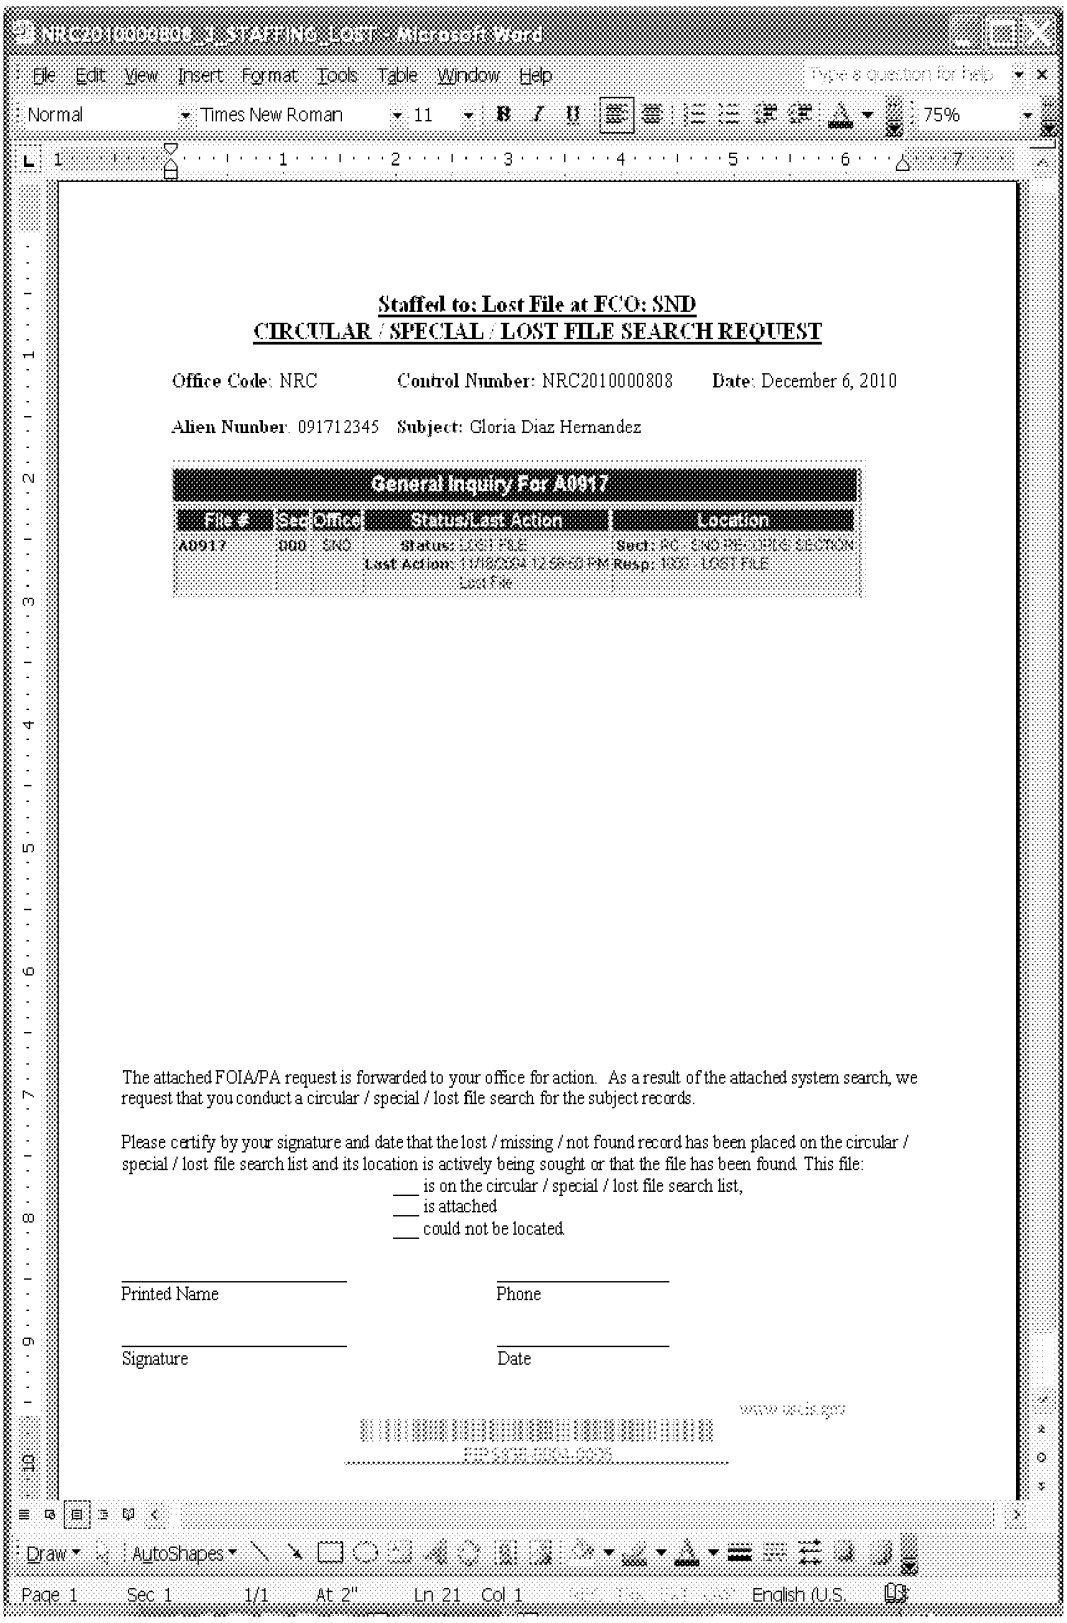
Exception: If the file shows lost in CIS-9504 and NFTS shows the file in use, request the file per the FCO in NFTS.

Under "Create File Request" mark the box "File Missing/Lost".

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Staffed to: Lost File at FCO: SND
CIRCULAR / SPECIAL / LOST FILE SEARCH REQUEST

Office Code: NRC **Control Number**: NRC2010000808 **Date**: December 6, 2010

Alien Number: 091712345 **Subject**: Gloria Diaz Hernandez

General Inquiry For A0917

File #	Sec	Office	Status/Last Action	Location
A0917	000	SND	Status: LOST FILE Lost Action: 11/18/2004 12:58:58 PM Lost File	Sect: RC - SND RECORDS SECTION Resp: RSC - LOST FILE

The attached FOIA/PA request is forwarded to your office for action. As a result of the attached system search, we request that you conduct a circular / special / lost file search for the subject records.

Please certify by your signature and date that the lost / missing / not found record has been placed on the circular / special / lost file search list and its location is actively being sought or that the file has been found. This file:

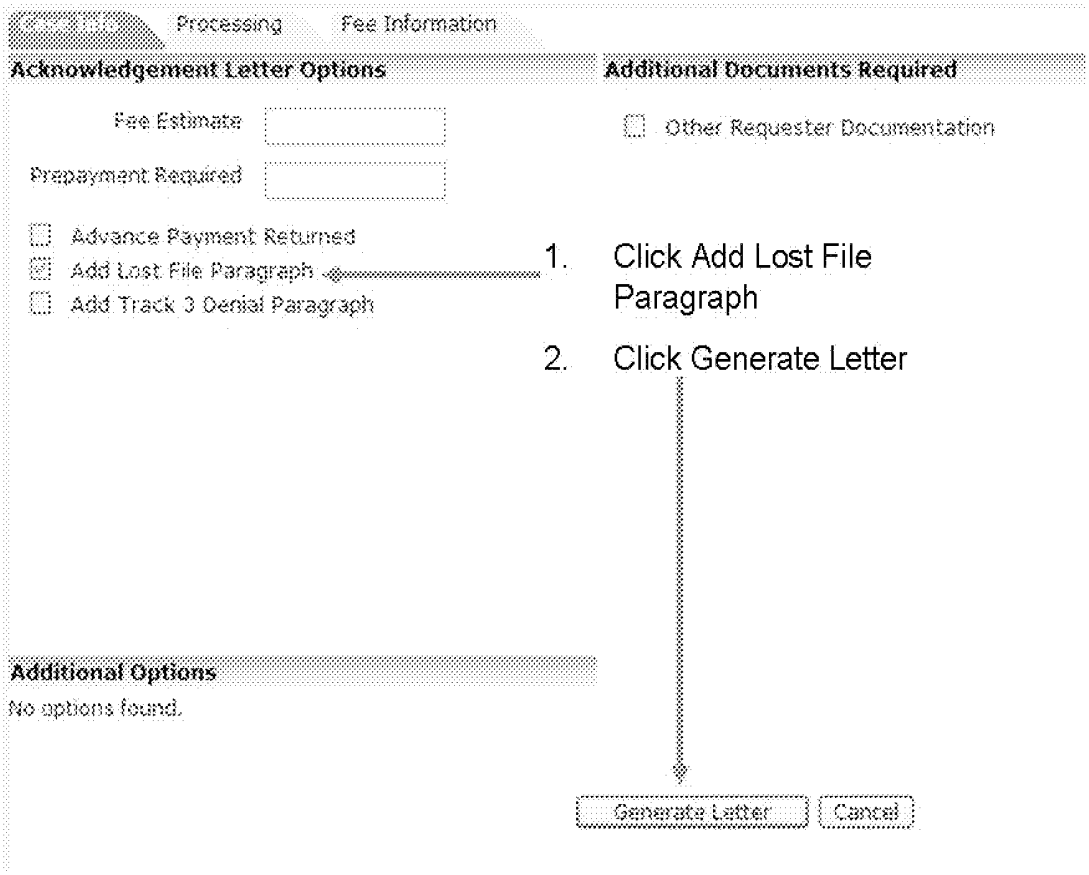
___ is on the circular / special / lost file search list,
___ is attached
___ could not be located.

Printed Name _____ Phone _____

Signature _____ Date _____

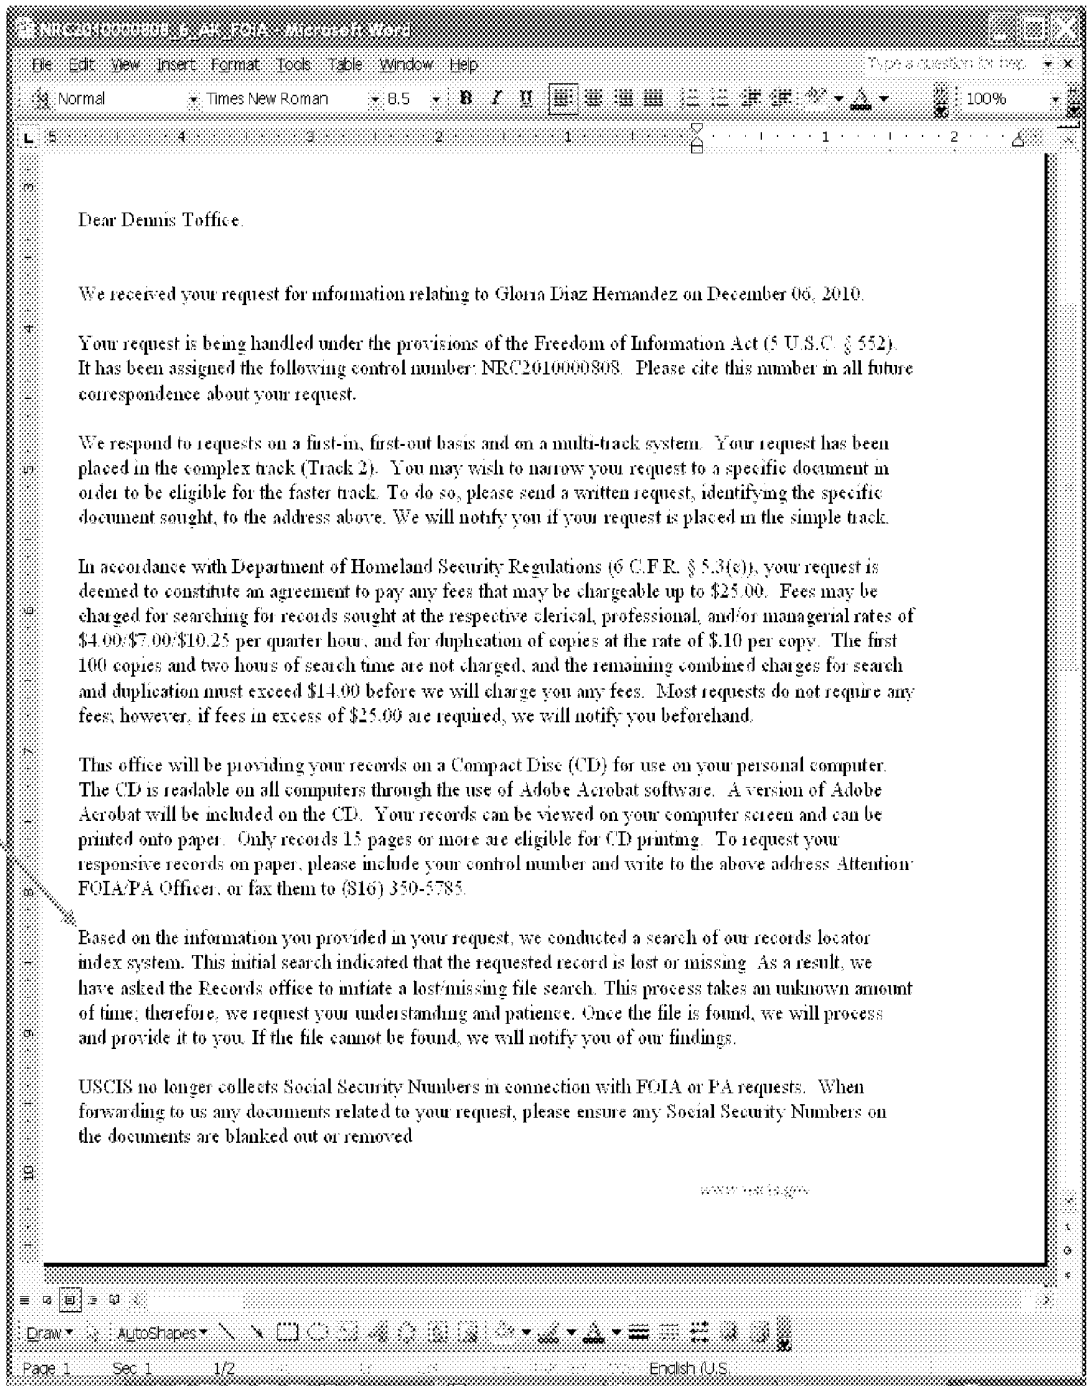
Generate the acknowledgement letter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



FIPS inserts the Lost File Paragraph right after the CD Paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Dear Dennis Toffice.

We received your request for information relating to Gloria Diaz Hernandez on December 06, 2010.

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000808. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be printed onto paper. Only records 15 pages or more are eligible for CD printing. To request your responsive records on paper, please include your control number and write to the above address Attention: FOIA/PA Officer, or fax them to (816) 350-5785.

Based on the information you provided in your request, we conducted a search of our records locator index system. This initial search indicated that the requested record is lost or missing. As a result, we have asked the Records office to initiate a lost/missing file search. This process takes an unknown amount of time; therefore, we request your understanding and patience. Once the file is found, we will process and provide it to you. If the file cannot be found, we will notify you of our findings.

USCIS no longer collects Social Security Numbers in connection with FOIA or PA requests. When forwarding to us any documents related to your request, please ensure any Social Security Numbers on the documents are blanked out or removed

When the case create process is complete and the creator is ready to exit the case, click the "Pend."

12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS

(Please note: this is NOT the procedure for a request for alien number only or for petitions destroyed in accordance with federal paperwork retention guidelines.)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

12.7.3.1 If the A-file is lost but other records exist (such as receipt files we would normally request or other a-files), please go to paragraph 12.7.3.9 now. *Otherwise*,

a. **if** the file has been marked as lost for more than nine months

b. **and** there is no recent activity in CLAIMS (within last 2 years) or PCQS,

c. **and** there are no additional files, then: a FOIA/PA Assistant working in Records Locator queue should put in the following Discussion: **A-file has been lost for more than 9 months and no other records exist. Closing as UT.** Detail all systems searched as part of this Discussion.

12.7.3.2 Complete the attached Lost File Worksheet (and send it for scanning as CSD with any screen prints you do.)

12.7.3.3 If the file was not staffed to OPLA, please move to step four now. *Otherwise*, if the file was staffed to OPLA, look at NFTS history. If the NRC file request was cancelled and the file indicator was subsequently changed to "Lost File," create a Discussion with the subject "Unit Chief" listing the date the file was staffed, the date the request was cancelled, and the date the file status was changed to lost. Send the case to Unit Chief. You're done.

12.7.3.4 If there is no CIS screen referencing "EARM" "DACS" or "NAILS," please move to the next step now. *Otherwise*, if there is a 9101 screen containing "EARM-X" "DACS-X" or "NAIL-X," or if there are CLAIMS screens showing "NAIL: Y" or "NAIL: N," go to the next step.

12.7.3.5 Create a Final Action Letter and select the status UT. In the final action letter, after the sentence "You may, if you wish, resubmit at a later date," please add the following sentence: "As we were unable to locate a physical file, we are including screen prints of the electronic record." Go to the next step.

12.7.3.6 In the UT final action letter, attach the screen prints to the letter electronically (cut and paste). Do not make any redactions to the screen prints. Save and close the letter and send to Up-front Approver. You're done, *unless* the case is later returned to you for further research.

12.7.3.7 The Up-front Approver will review the UT letter with the inserted screen prints. If he or she is satisfied that a thorough search was conducted, the approver will forward the case to FOIA Approver. If the approver is not satisfied with the search results, he or she will return it to you for further research.

12.7.3.8 The FOIA Approver will review the research and either close the case or return it for further action. If the case is approved, the FOIA Approver will close the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.3.9 **If the A-file is lost but other records exist** (such as receipt files we would normally request or other a-files, including T-Files, wherever they may be, including NRC) Request the additional records. Put in a Discussion that reads:

> A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

12.7.3.10 Cancel the lost file staffing and pend for responsive records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LOST FILE WORKSHEET

A-number _____

Name of Alien _____

Date shown as Not Found in CIS _____

Date shown as lost in NFTS _____

1. Search CIS for potential second a-number and/or consolidation
    a. Second a-number? _____
    b. Any T-files? Yes _____ No _____
        i. If yes, have they been staffed and scanned? If not, please do so now.

    c. Consolidated with? _____
    d. Does the EOIR screen show an upcoming hearing date?

        Yes___ No ____

2. Check CLAIMS for petition/applications
    a. Were any found? Yes _____ No _____
    b. If so, either provide screen prints with receipt number or list below

3. Check NFTS. Any current file movement. Yes _____ No _____

4. Check PCQS for any indication that file is with the naturalization unit.

NOTES:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.4 Staffing FAQ's

Q: What screen print do I attach?

A: The screen prints attached are typically a NFTS screen. In some situations, there is no screen print attached at all. See the Staffing Sheet Guide for current information.

Q: Which file request do I use?

A: Each office has its own file request in FIPS. The Staffing Sheet Guide details which sheet to use in specific circumstances.

Q: What if they have two alien files with two different numbers?

A: In cases like this, we request each alien file on a separate file request and write MULTIPLE STAFFINGS at the top of each sheet.

12.7.5 Records Indexing / Manual Requests

If you do not find a person in CIS, CLAIMS or PCQS, do not automatically print the screens and close the case NR. In some instances, the A-number exists but it will not be found in any systems search. This is especially true of individuals who had no business with the Service after the date CIS was put in use. A general rule which applies most of the time is the subject had no business concerning any immigration matter since 1975 or earlier. Look at the information in the request. For instance, if an individual claims to have arrived in the United States in 1960 and naturalized in 1971, it is important not to close the case NR. In these instances, staff the request using a "Records Indexing" staffing so that a manual search can be conducted. It is important that you provide as much information as possible on the Records Indexing file request. The name of the subject, year of birth and country of birth are required information.

Sometimes the requester/subject will provide an A-number and the file cannot be located in NFTS or CIS, but they claim to have done business with the service after 1975. Ensure requesters provide the minimum information to allow a positive identification (i.e., full name, aliases, an alien number, date and country of birth). If the requested records relate to:

- A-Files;
- Dates of birth;
- Dates of entry; or

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Naturalization dates

which are after 1975, do not create a Records Indexing file request, because no records will exist; check CIS and/or CLAIMS for a record. If you find no record, please refer to the section on NO_RECORDS.

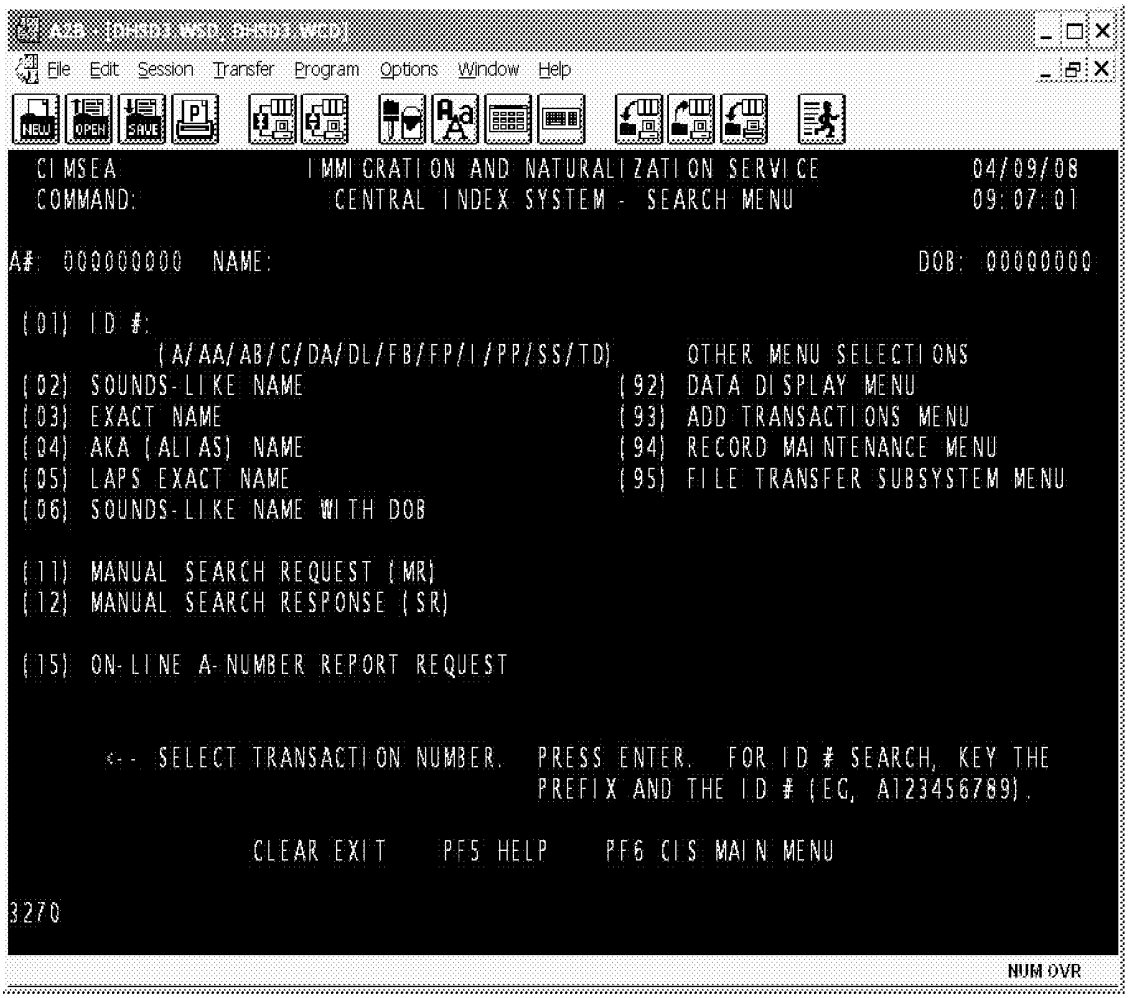
TO RECAP: If the subject has had no business with the service since 1975 or earlier, they may or may not have a CIS record. If they do not, then staff to records indexing. If the subject has had business from 1976 forward, do not staff to records indexing.

12.7.6 No Record:

When closing a case as a NR (No Record), ensure that you have done the required system searches to support your decision. If there is wording on the request that would indicate the subject was detained, stopped, arrested or sent back across the border and a thorough system search yielded no information, you should refer the request to CBP. CBP will possibly have a record responsive to their request. Your search should include CIS, CLAIMS and PCQS. Consult the sections of this manual entitled "Central Index System" and "Computer Linked Application Information Management System" for more information regarding the systems.
When conducting no record research, check the following screens in CIS (Central Index System):

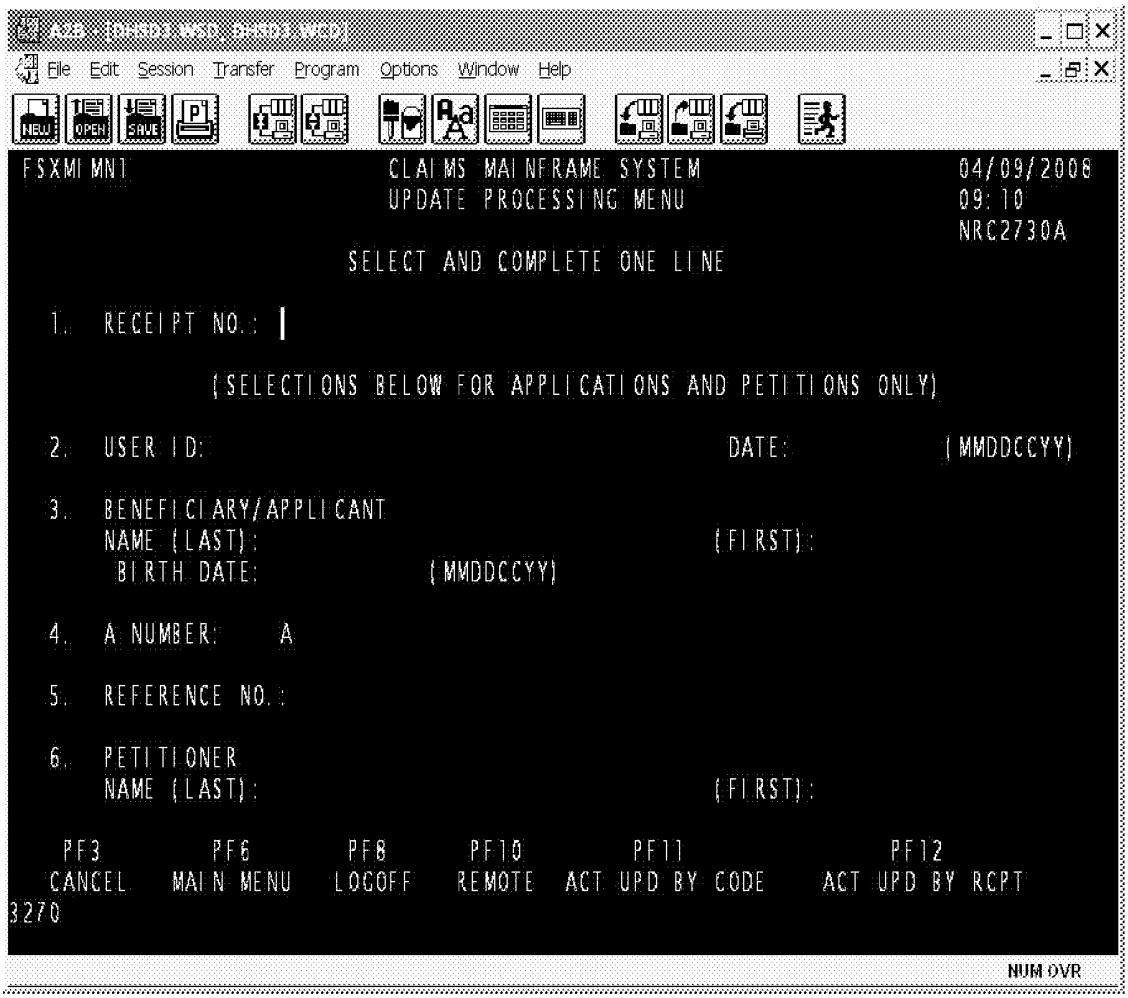
9103 Exact Name
9104 AKA (Alias) Name
9102 Sounds-Like Name

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When conducting a search in CLAIMS (Computer Linked Application Information Management System) run alien's name as the beneficiary/applicant (3) **AND** as petitioner (6).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When conducting "no record" research, do the query and provide screen prints of all searches as directed. Print the appropriate CLAIMS screen prints (this should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names). Prepare a "Scan As" sheet to be scanned as case supporting documents for the case number you have just created, attach it to the screen prints and take those to the OA room for scanning as CSD and prepare a Final Action Letter with closing code NR. Insert a Discussion outlining the systems you searched and stating that you have sent the documentation to OA for scanning as CSD. Send to Up-front Approver.

Genealogy is exempt from this process.

12.7.7 A-number in CIS but not in NFTS

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If there is an A-number in CIS but no information in NFTS, create a file request according to the Staffing Sheet Guide and FCO List, and paste in the 9504 screen of the CIS record rather than the NFTS information. Otherwise, the procedure is the same.

12.7.8 ICE files

There are currently five different types of staffings for files located within the ICE function. Paste the NFTS screen print to the second page of the staffing letter.

OPLA **file request**s are for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	**TA**
Chief Counsel	
Litigation	**LI or LIT**
Legal Section	**LS**
District Counsel	**DC**

DRO **file request**s are for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	**DENTENT, D&R, DET, DRO, DD&P**
Criminal Alien Program	**CAP**
Deportation Officer/Assistant/Clerk	**DO, SDDO**
Bond Control Spec.	
Immigration Enforcement	**IEA**
Field District Office	**FOI (Washington DC) (DRO-WAS)**
Admin Program Office	
Non-Detained or Detained	
Processing Center	**OC-Otero County**
Detention Facility name	**ie… Otay Mesa, Krome**
Fugitive Ops	**FO**

SAC **file request**s are for files that are located in the following office sections. Choose the FCO where the file is located, such as SAC-ATL. Please note the section that follows concerning SAC locations.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Office Section	Acronym
Investigations	**INV, IV**
Special Agent in Charge	**SAC**
Internal Audit	**IA**
Resident Agent in Charge	**RAC**
Assistant Special Agent in Charge	**ASAC**

12.7.9 SAC locations

Occasionally, you will see a requesting a SAC (Special Agent in Charge) case, and not be able to find the File Control Office under SAC in your FIPS staffing list (ex. POO/Portland, Oregon). How do you staff correctly for the file? Would you use the "ICE General" staffing?

Yes, you do, but only as a last resort. Before staffing under ICE General, please check under RAC (Resident Alien in Charge) and ASAC, in consecutive order to find the staffing location. Since you cannot find Portland under SAC, you would next check RAC, and then ASAC (Portland is found under ASAC). Finally, if you cannot find the location **after** searching SAC, RAC and ASAC, please staff under ICE General.

12.7.10 LESC (LSC) records

On all of these file requests, you must attach the NFTS screen print to page two.

12.7.11 T-files

Q. What if the subject has an A-file at one office other than NRC and a T-file at a different office other than NRC (for example, an A-file in Chicago and a T-file in Milwaukee)?

A: In this case, we will request both files, EXCEPT, do not request T-files at HBG with RPC codes XX or ZG.

Q: What if they have an A-file at an outside office and a T-file here at the NRC?

A: Request the A-file only, but include the T-file portion on the file request. The T-file will get combined with the A-file when it arrives at the facility for scanning. **NEVER CROP THE T-FILE INFORMATION FROM THE NFTS SCREEN PRINT**.

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, WSC or RDF for scanning. Those offices either scan directly into FIPS for us or we export the A-file from EDMS. Therefore, if the A-file is at one of the above service centers and there

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

12.7.12 Receipt files

12.7.12.1 Do not request receipt files from any offices other than one of the five Service Centers (**ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN**). For example, (b)(6) [redacted] etc., are not receipt files we can request.

12.7.12.2 If the requester does not specifically ask for a receipt file and provides an alien number, request the alien file only.

12.7.12.3 If the requester does not provide any receipt number or alien number, then you must research CIS, CLAIMS and ~~possibly~~ PCQS.

Be cautious about requesting receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will request the EAD card.

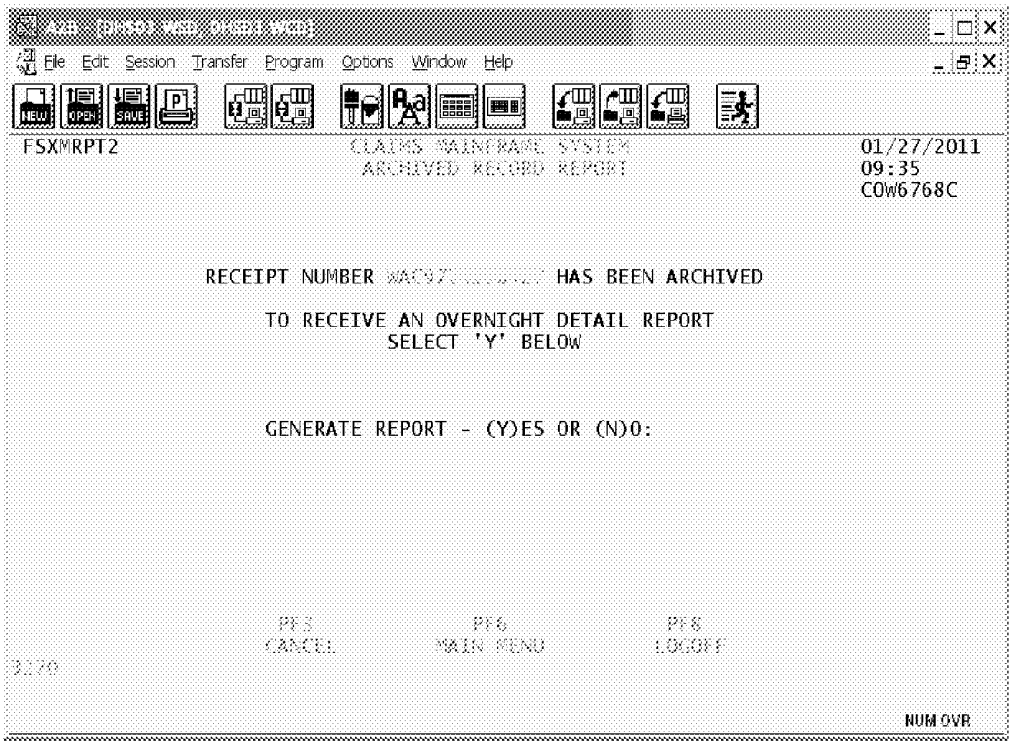
If they provide a receipt number, you must research CLAIMS, PCQS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please request the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

If there is no location information in NFTS, and if NVC does not have the receipt, but there is a record in PCQS, print any PCQS screen(s) concerning the petition. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.12.4 As a matter of last resort, if there is neither information about the receipt file in NFTS nor PCQS and you have called National Visa Center and determined NVC does not have the receipt, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

12.7.13 Archived receipts



This screenshot shows a receipt that has been archived.

If we receive a request for a receipt file and the receipt file has been archived per CLAIMS, create the case as usual. To determine whether we need to request the archived receipt file or redirect the request please do one or all of the following as necessary:

1. Enter the receipt number in NFTS. There may be evidence that the receipt file has been consolidated into an A-file or there may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC. Sometimes, you can discover that an archived receipt has been forwarded to NVC through PCQS.
2. On the USCIS website enter the receipt number in the "Check Case Status." Checking the receipt number on the website may provide

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.

3. You may call the NVC automated help line at **603-334-0700** and enter the receipt number. There may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.
4. If there is no evidence that the archived receipt file has been forwarded to NVC we will create a file request using RAFACS (not RAFACS/CIS). Find the information from the archived receipt in PCQS and print that information. Prepare a "Scan As" sheet to be scanned as responsive records for the case number you have just created, attach it to the screen prints and take those to the person designated to scan RAFACS-only responsive records. Pend the case.
5. If there is no evidence in PCQS, follow the instructions for *Receipt files; Lost receipt file, File destroyed or File cannot locate.*.

Reading the request is very important; if the requester is seeking information relating to what appears to be a receipt number and it begins with "CDJ" or one of the other prefixes found in the section **National Visa Center Valid Consulate Prefix Codes, c**all the NVC help line at **603-334-0700** and enter the receipt number. If there is evidence that the NVC has the receipt file, redirect the request to NVC.

To redirect a request to NVC do the following: Click Final Action Letter and choose the code "RD" and select "NVC". Send the case to Up-front Approver.

12.7.14 Receipt files; Lost receipt file, File destroyed or File cannot locate

If a staffing response from one of the service centers (ESC, SSC, NSC or WSC) has been scanned and a screen print from CLAIMS is shown on the staffing response with any of the following verbiage; "FILE CANNOT LOCATE", "FILE DESTROYED", or "LOST RECEIPT FILE", the case creator will need to follow the steps outlined below.

Open a RAFACS (*not RAFACS/CIS)* staffing slot only. The default selection for the letter is "Customize Letter." Be sure that option is selected. Print the appropriate CLAIMS screen prints (should be a minimum of 3 pages if the receipt file is for an I-130). Print the staffing letter, attach it to the screen prints and take to person designated to scan RAFACS-only responsive records. Pend the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

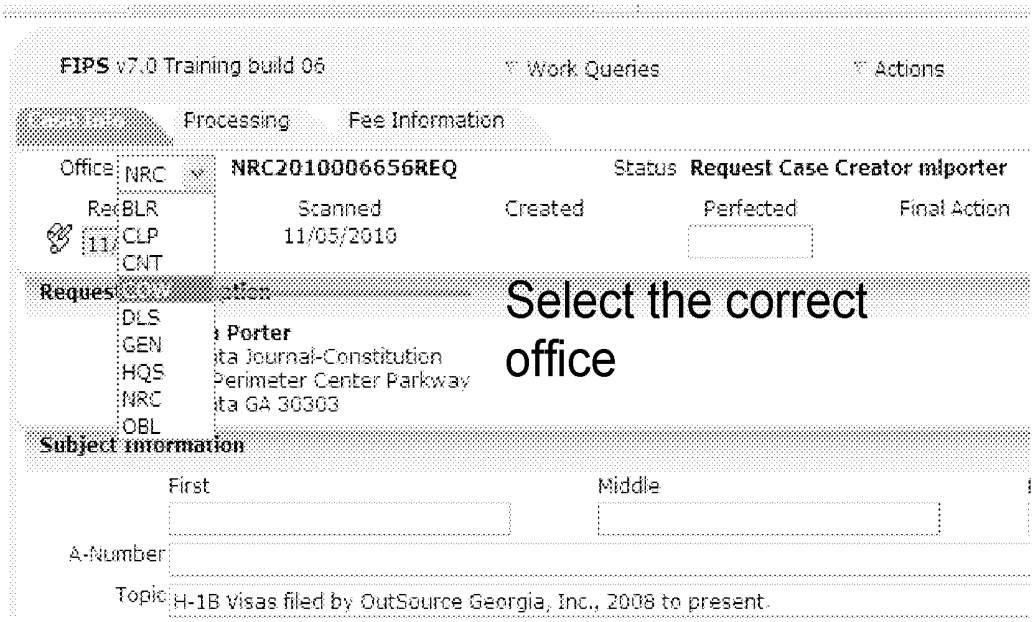
13. REASSIGN OFFICE

This function is used to move a case that was scanned in the NRC queue to another queue for processing.
Re-assign the case if the request is for a contract (CNT).
Re-assign the case if the request is for CIS Personnel Information (HQS).
Re-assign any SIG case to COW.

First you must select the correct office. Use the drop-down box to select the office where you want the case to go, search for duplicate cases, and then create the case:

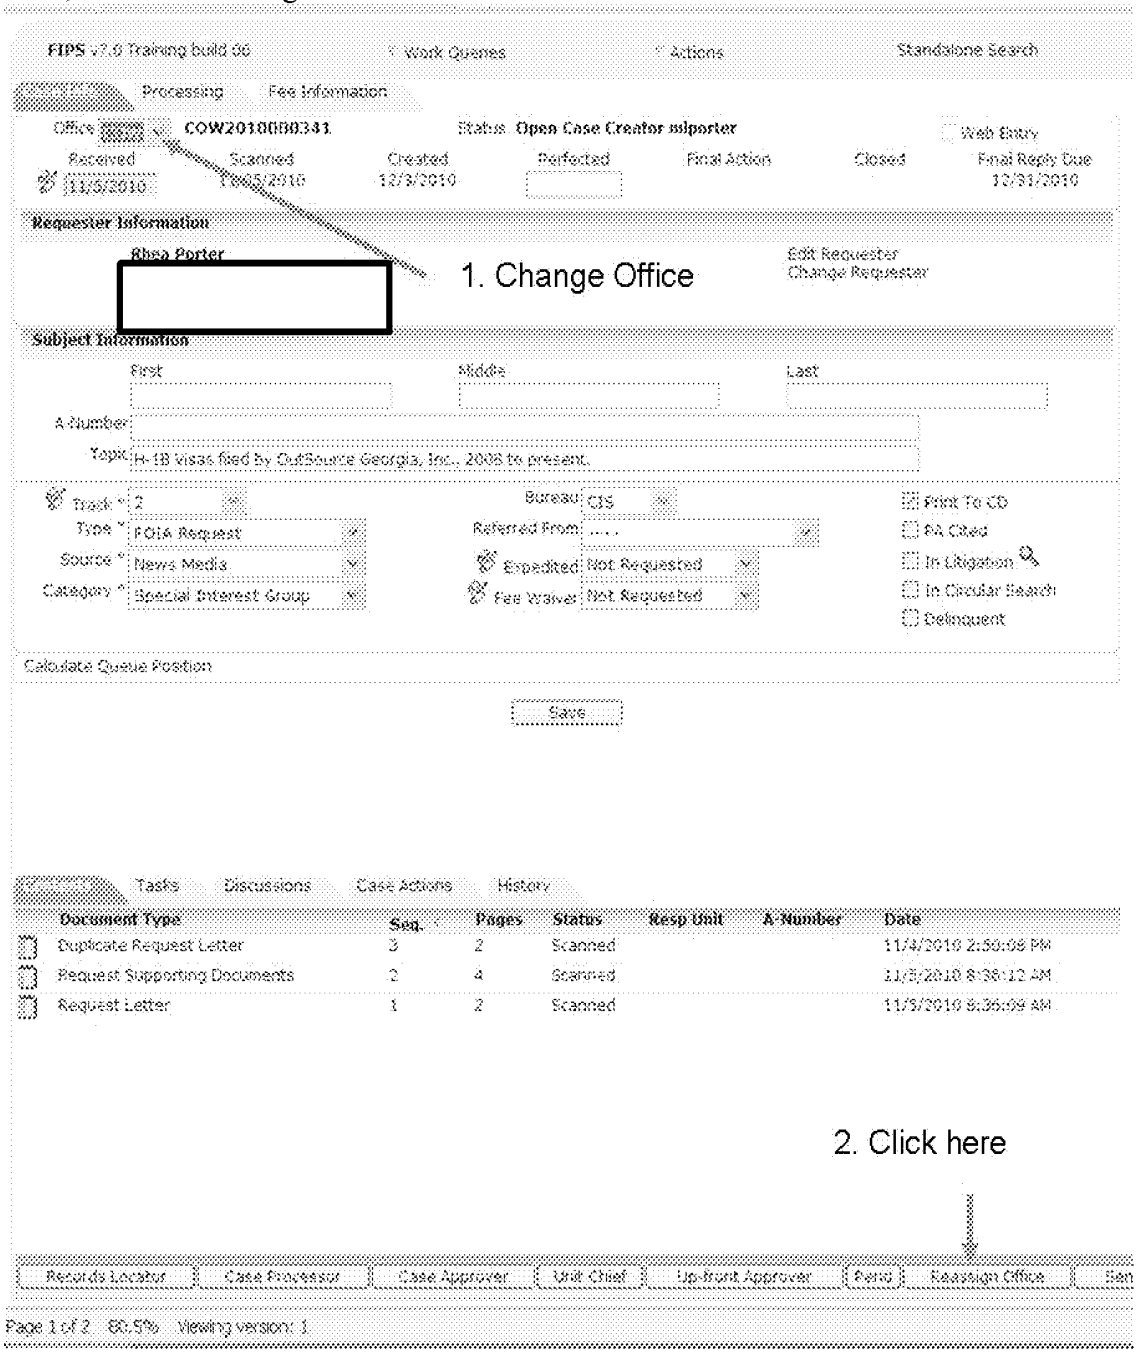


After you change the office to COW, create the case. The case will have a COW number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, click on "Reassign Office"

(b)(6)

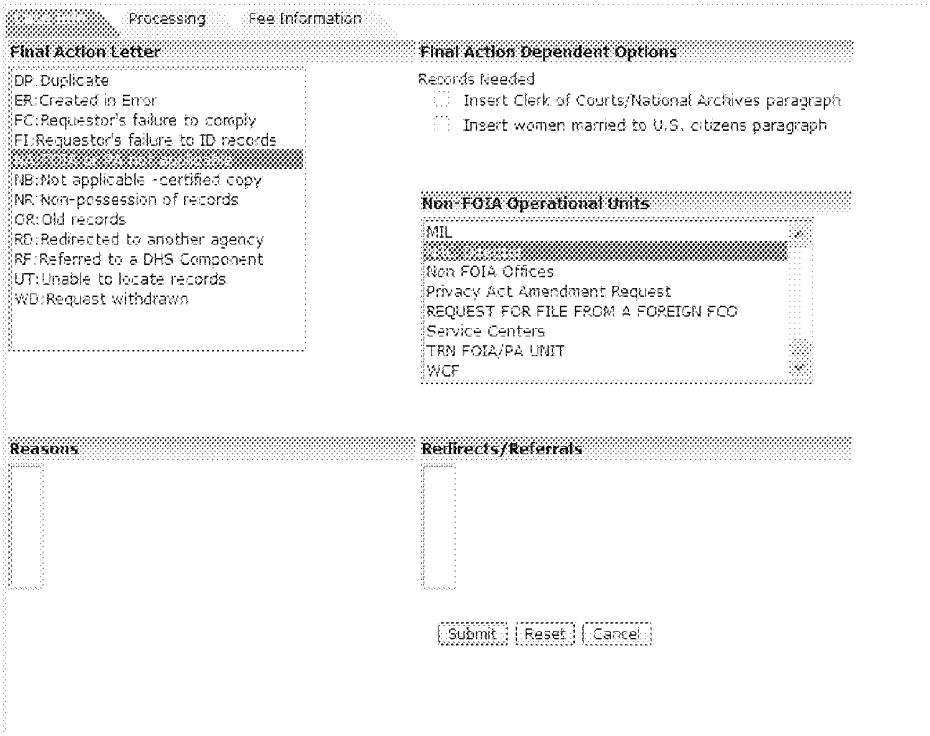


You will not be creating an acknowledgement letter or staffing. Before you click on "Reassign Office," prepare an e-mail addressed to NRC, FOIASIG with the case number and brief description of the topic, requester or reason you assigned the case to SIG.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

14. CLOSING A CASE AS "NA:FOIA or PA not applicable:"

Sometimes a requester will file a FOIA request asking for the return of original documents, the status of a petition, or a question, not asking for records. If FOIA/PA does not apply to the request, you would create a Final Action Letter and select the closing code "NA: FOIA or PA not applicable." You will have to select a Non-FOIA Operational Unit. Choose "NRC-Director." Note: if the request for return of original documents is on Form G-884 which was inadvertently scanned in as a request, you will be closing the case "ER." Please refer to REQUESTS: Return of original documents.



You do not have to modify the referral letter. You will have to select the applicable box in the Final Action Letter and possibly add other instruction, if necessary. Send the case to Up-front Approver.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

15. ER (created in error) CASE CLOSINGS

Prepare a Final Action Letter using the "ER" option for cases when the following situations arise:

1. When a G-884 Return of Original Documents is scanned in FIPS.
2. When a routine use/child support request has been scanned in FIPS.
3. When subpoenas/court orders have been scanned in FIPS.
4. When a Bond Obligor request has been scanned in FIPS.
5. Requests from Foreign Consulates (no letter required)

FIPS will not create a letter. Prepare a detailed Discussion. Send the case to Up-front Approver. The supervisor will review and close the case.

16. FC (failure to comply) CASE CLOSINGS

If you are closing a case FC because of consent, verification of identity or failure to reasonably describe the record they are seeking, please refer to

O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Failure_to_Comply_Letter and select the applicable paragraph for your final action letter. Please enter the date of the last correspondence to the requester/subject.

17. MARKING A DOCUMENT "DO NOT SEND"

From time to time, there will be an instance when we should not mail a system-generated letter. Examples include instances where a status letter is created in error, or a referral memo is erroneously created. To ensure that the letter or memorandum is not inadvertently mailed, please take the following steps:

1. Type "DO NOT SEND" at the top of the page,
2. Delete all the information in the letter/memorandum, and
3. Create a Discussion which explains why the letter/memo should not be mailed.

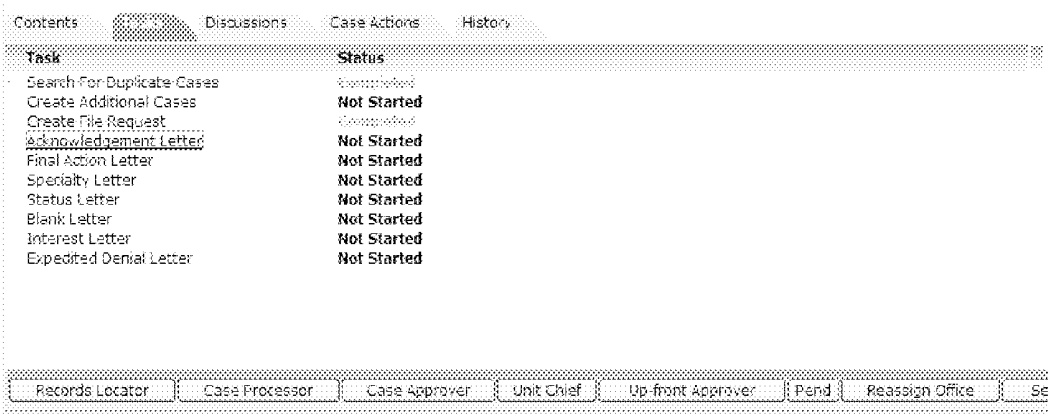
Accomplishing the steps above will make it easier for the O/A room to identify letters created in error.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

18. ACKNOWLEDGEMENT LETTERS

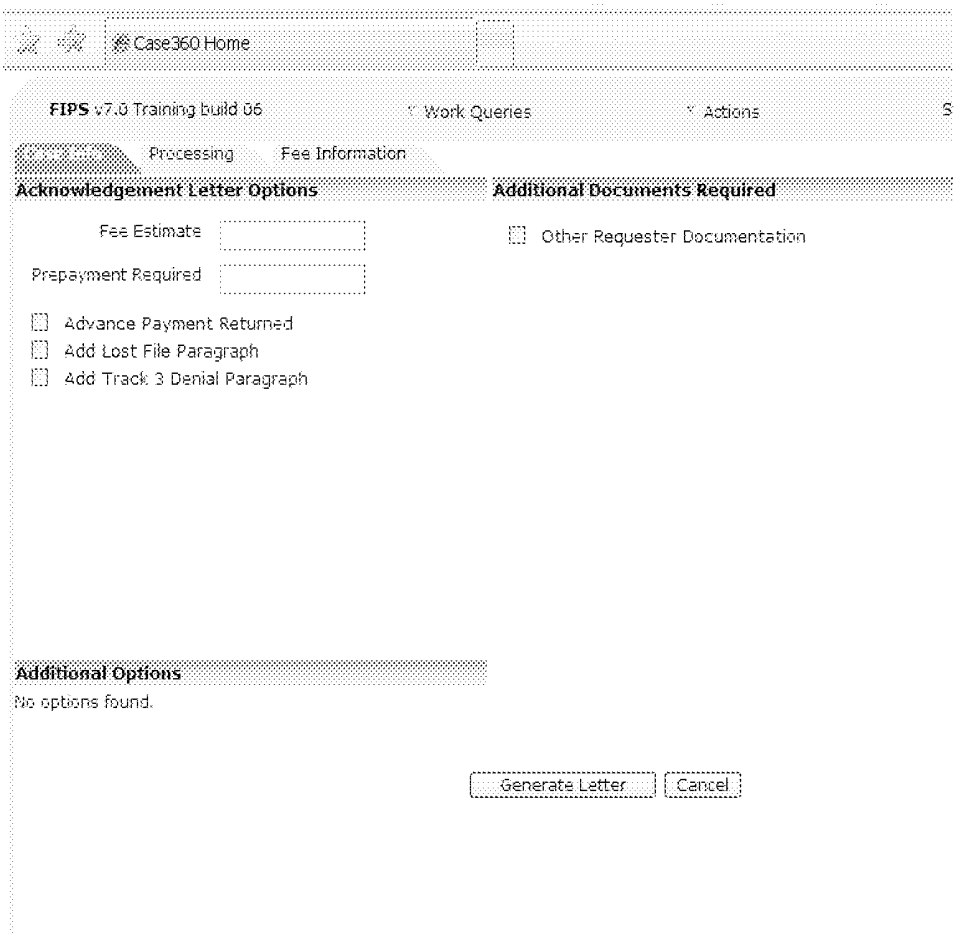
We prepare acknowledgement letters in all cases **except** for routine use and Red Cross last known address requests. The example in this guide shows how to do a standard acknowledgment letter if we have verified consent and identity, the requester has not asked for expedited treatment or a fee waiver, and we have found a responsive record. As you go through this example, please keep in mind that there are many factors which would require you to prepare the acknowledgment letter differently.

Go to the "Tasks" tab and select "Acknowledgement Letter"

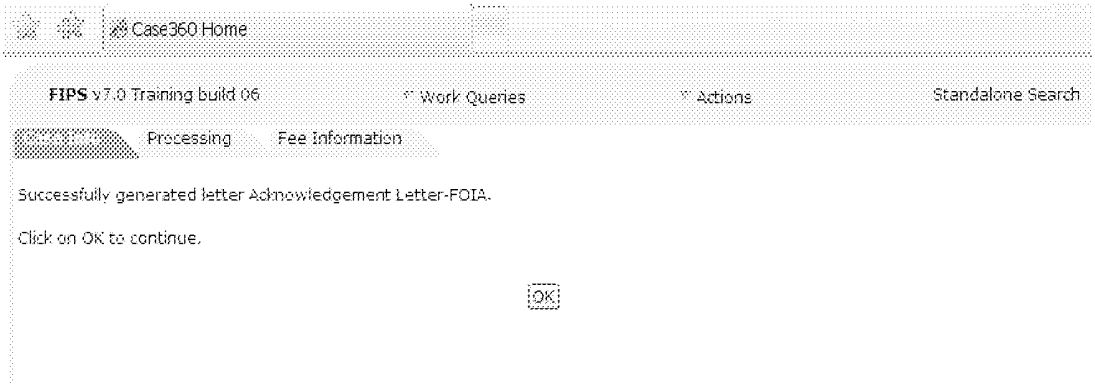


After selecting "Acknowledgement Letter," the Acknowledgment Letter Options screen will open. Options on this screen will allow you to ask for other documentation and will also allow you to add a Track 3 Denial or Lost File paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Since our example case does not require us to select any options, we will click on "Generate Letter." Our only option at that point is to click OK:



As soon as you do, a File Save pop-up window will appear. Click "Save."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). December 3, 2010

NRC2010000806

San Francisco, CA 9[illegible]

Dear [illegible]

We received your request for information relating to Chris P. Bacon on December 02, 2010.

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000806. Please cite this number in all future correspondence about your request.

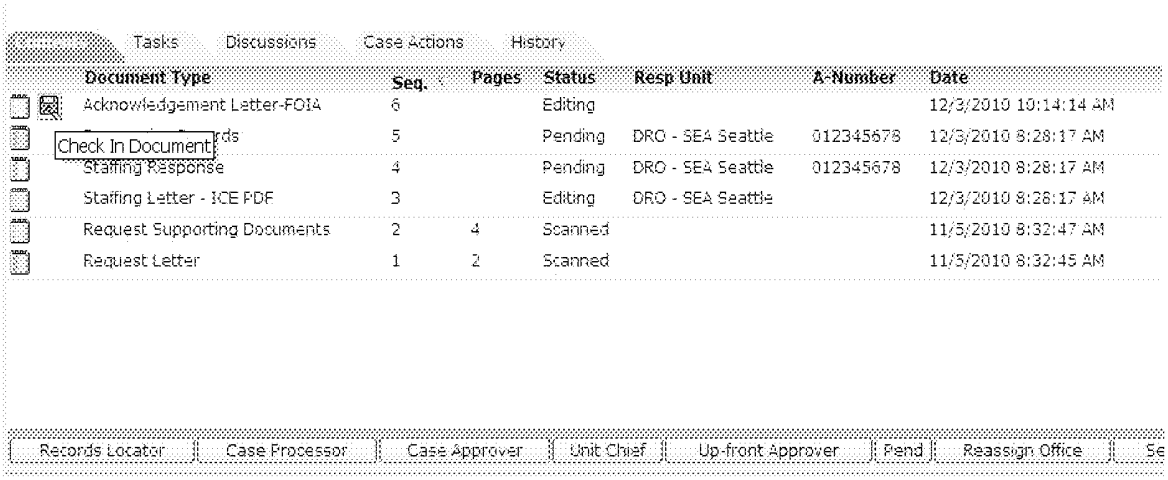
We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

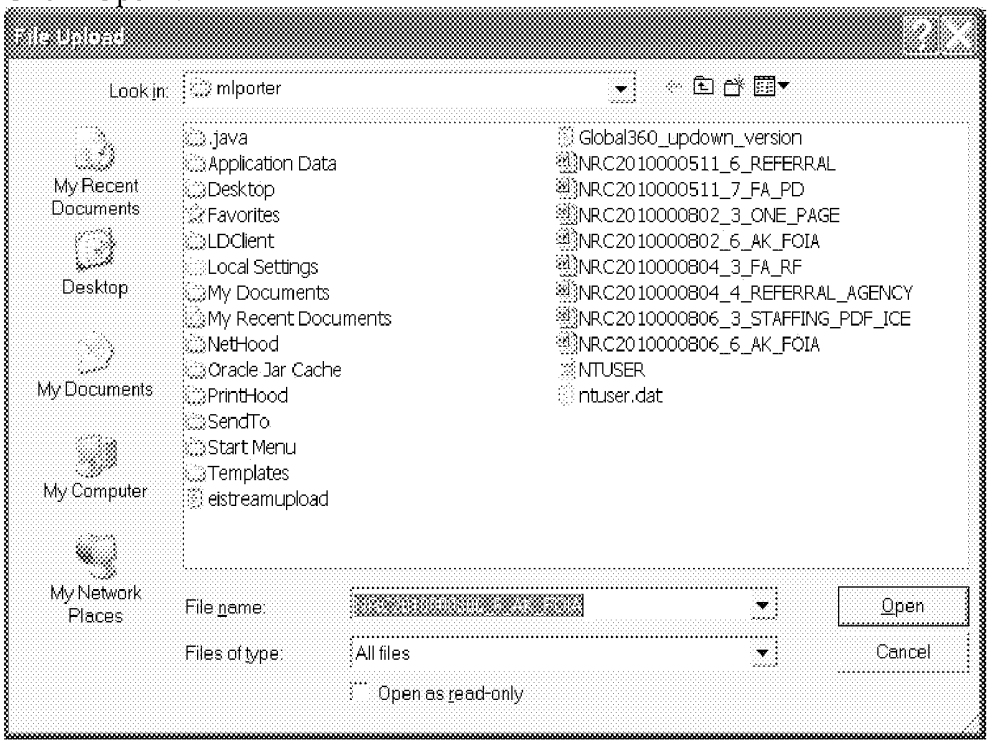
This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be

You may have some modifications to make to the letter. After you finish, save the Word document and exit Word. Next, go to the "Contents" tab and click on the "Check in Document" icon.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Click "Open":



In this example, we are now ready to send this document to "Pend."

19. DISCUSSIONS

Discussion notes are crucial to creating and processing a case. When creators are establishing the case in FIPS, they should note any unusual circumstances or details in a Discussion for later reference. FIPS also automatically generates Discussions in various situations, such as duplicate,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

multiples and when responsive records are copied from one case to another. Because Discussions become a permanent part of the case in FIPS, you should not used Discussions to record personal feelings or to debate, question, or even to seek clarification. A FOIA/PA Assistant should discuss issues needing clarification via e-mail, a telephone call or a personal visit to his or her supervisor.

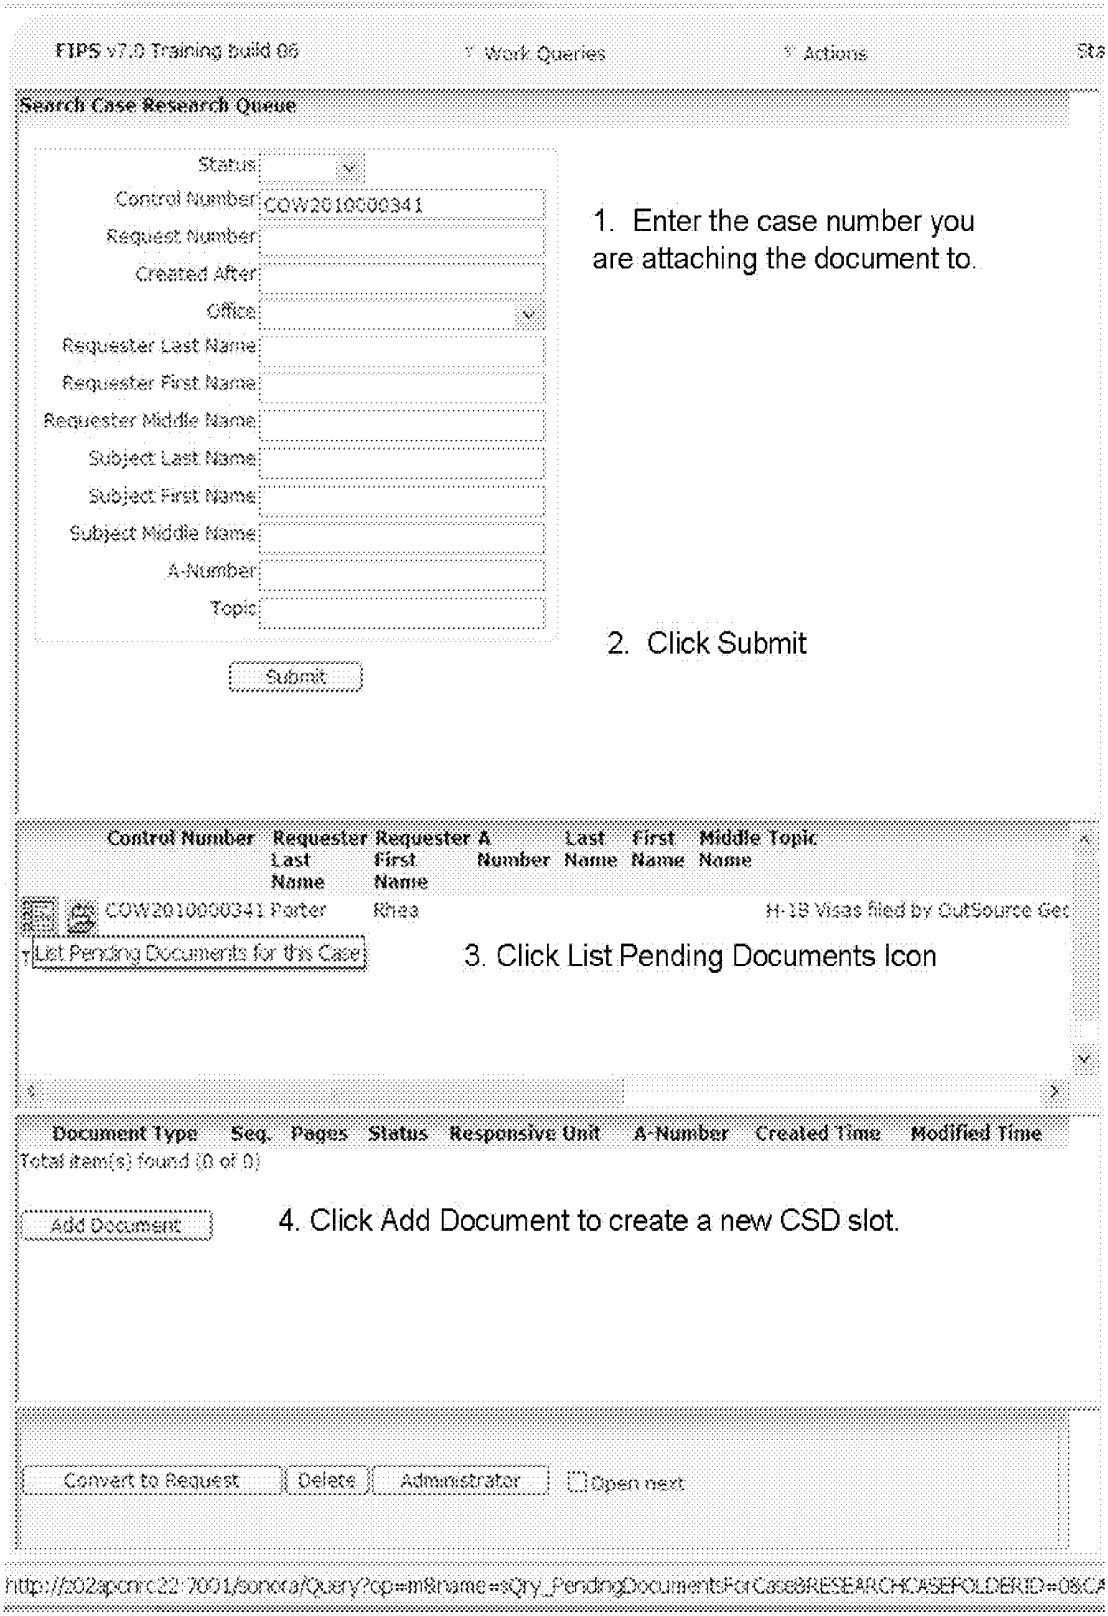
20. CHANGING A REQ TO A CSD

(Note: this article pertains to people who work in the Research Queue)

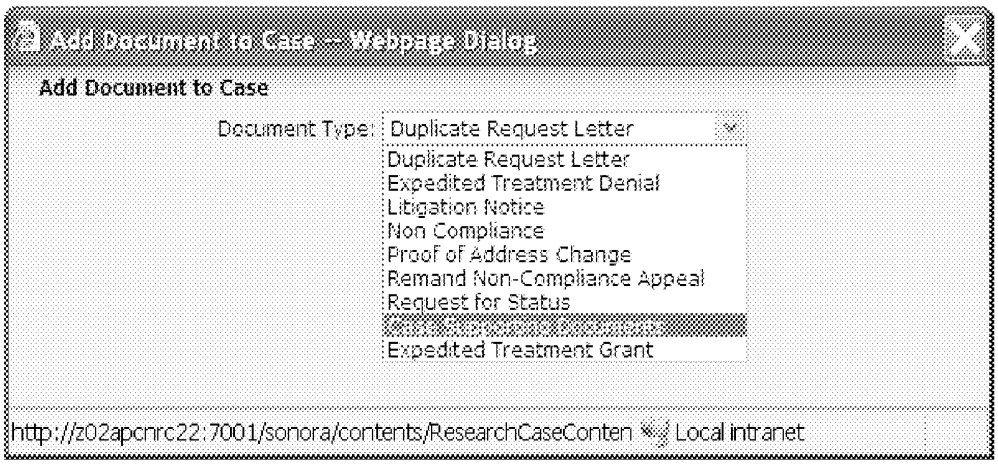
Occasionally requester documents, certificates of identity, status requests and other correspondence will inadvertently get scanned into FIPS as a new request. If you encounter these types of documents in FIPS as REQ's, please attempt to locate the case to which the documents belong. After you locate the case in FIPS, make a note of the control number. Create a Discussion asking Research to add the request as CSD to the appropriate case. Next, go back to the worksheet in FIPS and Send to Research.

A person working the Research queue will assign the request to CSD as follows:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



21. TROUBLESHOOTING WORK *FROM* THE OA ROOM

The FOIA/PA Assistants assigned to the mail are responsible for picking up faxes and mail (in the black bins marked Troubleshooter) from the OA room and in the basket located next to the copier in shared workroom each day and are responsible for sorting and working the mail. Individual team members expecting a fax should notify his or her supervisor or retrieve the fax. If the case has been created, insert a Discussion (Scan in fax and notify [me] when the fax has been scanned). If the fax needs to be scanned in before reviewing, the FOIA/PA Assistants can scan it in and notify you. They may also deliver the fax or mail if needed.

22. TROUBLESHOOTING WORK *TO* THE OA ROOM

When new requests are taken to the OA room, place them in the "New Request" bin on the counter.

When taking requester documentation, CSD's, responsive records or certifications of identity to the OA room, write "Requester Docs" or "CSD" on the first page, along with the date and your initials.

23. FOIA MAILBOXES:

FOIA has access to various e-mail mailboxes that serve different purposes. The paragraphs below describe these mailboxes and their purposes. E-mails to any of the FOIA mailboxes must contain specific instructions.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

23.1 THE OA ROOM (NRC, FOIAOA)

Send e-mails to the OA Room when:

- The request letter and supporting docs need to be printed and scanned in as a new case. Include instructions to the case creator, if necessary.

- The original Final Action Letter and responsive records were mailed but the requester never received them. The OA room will reprint the records to CD or paper and re-mail per instructions provided in the e-mail. The instructions must include the control number and whether to print CD or paper, as well as how the case was closed "G1 or PD." Include a Discussion in the original case.

- The responsive records need to be re-printed to CD due to the requester receiving a broken CD.

- The requester has either has a changed or new address; therefore, the records need to be re-printed and re-mailed to the requester. You need to state in your instructions to the OA room that you've made the changes to the address in the final action letter. Correct the address on the final action letter and the FIPS database. State that you've changed the address in a Discussion.

Don't forget to add a Discussion to the original case.

23.2 MSB (NRC, NRCFOIAMSB)

Send e-mails to the MSB mailbox when:

- An appeal is encountered in case create that was not previously addressed.

- An expedited treatment is encountered in case create or Records Locator queue that was not previously addressed. Personnel handling the MSB mailbox will forward the e-mail to the supervisor(s) handling the expedited treatment.

All e-mails to the MSB mailbox should contain the control number, the A-number or subject of the case, and specific instructions relating to the case.

23.3 FIPS PROBLEM (NRC, FIPSPROBLEM)

Send e-mails to the FIPS Problem mailbox:

- If errors are encountered in the case

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- If responsive records need to be copied from one case to another
- If records are incorrectly scanned in a case and need to be removed

All e-mails to FIPS Problem mailbox must contain specific instructions, including a description of the problem and the role of the case; standalone, create, locator or processing and the control number or REQ number if you were creating the case.

23.4 FOIA FILE REQUEST **(NRC, FOIAFILEREQ)**

Send e-mails to FOIA File Request if you discover A file sitting on a shelf and it has not been scanned in to the case. Include the control number and the A-number in these e-mails.

24. E-MAIL TO CUSTOMERS

If necessary, send a message to the USCIS mailbox outlining what needs to be sent. The MSB supervisor will generate the e-mail to the requester and transmit. Include all information in the e-mail that the MSB supervisor will need in order to be able to send the e-mail. Put a Discussion in FIPS outlining your request to MSB. If you are asking for more information from the requester, create a slot in the case in FIPS to ensure that the case will close out automatically if no response is received from the requester.

25. MAIL

The FOIA Division receives two types of mail: Returned Mail and Direct Mail.

25.1 RETURNED MAIL:

25.1.1 Interim Interest Letters

Returned Interim Interest Letters are scanned as Requester Docs.

Except for Interim Interest Letters, all returned envelopes and letters are scanned as CSD's.

Do not use forwarding addresses provided by US Postal Service.

OA's will note each case with action taken for each piece of returned mail. Notes are to be complete and concise. They should include the reason the letter was returned, action taken, and the OA's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Note: Not all letters are acknowledgment letters. The returned correspondence could be a status letter or request for additional information. Before letters are updated with the correct address, confirm the correct letter is being updated. The Discussion should include the type of letter being corrected and resent.

25.1.2 Acknowledgement letters

Compare address on acknowledgement letter to address on the G-639, G-28 and returned address on the original envelope.

A. If there is a transcription error in the address:

1. Correct the address in the address section of the FIPS worksheet and click on the "U" to update FIPS.

2. Correct the acknowledgement letter and resend letter.

3. Write the ID of the case creator on the returned letter and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

4. Note the case. Example of the Discussion:

   Title of Discussion: **Returned Mail – no such number**
   Body of Discussion: Address on letter did not match G639. Street address should be 1003 Market Street, not 103 Market Street. Updated FIPS and ack letter and resent letter. Name.

5. Returned acknowledgement letters with a requester document need to be repended for additional time. **Give the letter to the OA supervisor to repend.**

B. If the address on the acknowledgement letter matches the address on the G-639, G-28 and/or return address on original envelope:

1. Note the case. Example of the Discussion:

   Title of Discussion: **Returned Mail – no forwarding address**
   Body of Discussion: Address matches G-639. No other address found. Did not resend ack letter.

2. Give acknowledgement letter to OA Supervisor to Close.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

25.1.3 Final Action Letters

Compare address on final action letter to address on the G-639, G-28 and returned address on original envelope. Check all CSDs for a new address.

A. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the letter and responsive records were returned. Discussion should include "no other address found; did not resend final action letter" and OA's name. **Scan envelope and front page of letter as CSD.**

   Shred the letter and responsive records.

B. If another address is found in the CSDs:

   1. Update FIPS and final action letter, reprint letter, and label and resend. **Scan original letter and envelope as CSD.**
   2. Write the ID of the **case processor** on the returned letter and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

25.1.4 CDs

A. CDs Returned for postage.

   Make a copy of the CD and re-mail. Attach the copy of the CD to the original CD mailer and give to the OA Supervisor. Note the case with the following Discussion.

   Title of Discussion: CD Returned for Additional Postage
   Body of Discussion: Re-mailed CD, date and name

B. CDs Returned due to Incorrect Address.

   Compare address on final action letter to address on the G-639, G-28 and return address on original envelope. Check all CSD's for a new address.

   1. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the CD was returned. Discussion should include "no other address found; did not resend CD" and OA's name.

      Shred the CD.

   2. If another address is found in the CSD's:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

a. Make a copy of the CD and returned envelope.

b. Update FIPS and reprint a new label. (Do not update letter in FIPS). Put the new label on the outside of the CD Mailer (not directly on the CD).

c. Write the ID of the **case processor** on the copy of the returned CD and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

25.2 DIRECT MAIL:

This is mail sent directly to NRC from requesters, subjects, attorneys, etc. The content of direct mail is varied and usually requires some type of action. Direct mail could consist of, but not limited to, any of the following:

- Change of Address (see **Request for Change of Address**)
- Status Request (see **Status Letters**)
- Withdrawal of Request (see **Withdrawal of FOIA/PA Request**)
- A request to change the scope of a FOIA request. The action required to change the scope of a request could involve changing the track of the case; depending upon the type of information/documents requested.
- Correspondence about delinquent payments (including checks)
- Responses to Track 3 denial or Expedited Treatment denial
- Responses to requests for additional information
- Requester asks for their record on paper: scan in as a case supporting document (CSD)

We may respond to direct mail in writing or by phone, and some mail requires no response.

Please create a Discussion describing the problem and how it was corrected. FOIA/PA Assistants assigned to handle mail should initial, date, and write what kind of document (such as CSD or REQ DOCS) on the top page and staple the pages together after scanning. Case creators may deliver the fax or mail with CSD's to the OA room for scanning.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Mail or faxes regarding delinquent payments, payments made or checks received is pulled prior to distributing to the Team. If any of these types of documents are inadvertently left in with the mail, please give them to the Team supervisor.

25.2.1 Mail concerning Track 3 or expedited treatment

If we receive additional correspondence via e-mail, mail or fax relating to an existing case, asking for expedited processing or processing as Track 3; forward the correspondence to the MSB supervisor. A supervisor must review the correspondence and make a determination. We must address within 10 days in writing our response to the expedited or Track 3 processing request, whether we grant or deny. FOIA/PA Assistants assigned to mail will place the mail in the Track 3 or Expedited Review bin.

Insert a Discussion titled "Expedited Treatment Request" or "Track 3 Request." In the text of the Discussion type whether it was denied or approved and the sequence number of the status letter. Scan the additional correspondence in as a CSD.

If the requester responds to our denial of expedited treatment or Track 3 processing, the procedure is essentially the same: forward it to the MSB supervisor, who will make the determination.

If a FOIA/PA Assistant working in Records Locator queue discovers correspondence relating to expedited processing or Track 3 scanned in but has not been addressed by a supervisor; the Assistant should insert a Discussion and send the case to Admin or Unit Chief. Send an e-mail to the supervisor handling the expedited requests and include the control number of the case.

25.2.2 Requester documentation / additional information

This consists of documents or more information that we have asked the requester/subject to provide. When the information is received it is scanned into the requester documentation slot. Use the additional information provided to continue creating the case. If the requester/subject did not provide the alien number, use the information provided to search CIS (9102, 9103 or 9106) and CLAIMS to locate any responsive records, or receipt files. If you cannot locate any records relating to your person, close the case as NR. Copy screen-prints of your searches for scanning in as CSD. (FYI CSD's can be scanned in after a case is closed).

We do not re-open cases that close as FC because the requester failed to reply within the time allotted - unless it is our fault. An example of our fault would be they sent back the requester docs and the envelope was postmarked before the deadline. It doesn't matter if they are one day late returning the requested information. The Team will send the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

requester a letter advising them that their case has been closed as a FC. If the requester still has an interest in receiving the information, he or she will need to submit a new FOIA request. This includes cases closed within the same month. We are handling these FC requests the same for everyone so nobody is getting unfair treatment. However, if you receive a call asking for more time to return the requester docs, and before the case closes, you may repend. A template FC letter is located at: O:\Foia\FOIA LIBRARY\Case Create References\Template Letters\FC Letter.

25.2.3 Request for change of address

If you receive a Form AR-11 or other correspondence from an alien wanting to submit a change of address, forward the original letter and enclosures to the following address:

U.S. Department of Homeland Security
Bureau of Citizenship and Immigration
Change of Address
PO Box 7134
London, KY 40742-7134

For commercial overnight or fast freight services only:

U.S. Department of Homeland Security
Bureau of Citizenship and Immigration
Change of Address
1084-I South Laurel Road
London, KY 40744

25.2.4 Status letters

The public has the ability to check online the status of their FOIA request(s) with NRC at (www.uscis.gov).

From www.uscis.gov, find the link near the bottom of the left column under "Other Services" marked "FOIA Request Status Check." Click there to navigate to the online status check page.

The on line status check will indicate whether the request is still pending, or whether the case has been processed or closed within the last six months.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the request is still pending, the online status check will indicate the position of the request relative to all pending USCIS requests in the same processing track. It also provides the date the request was received.

If the request was processed or closed within the last six months the requester will be given the date the request was closed. The system does not discern how the request was closed i.e. DP, G1, PD etc., however it does address cases closed for Failure to Comply.

If the control number entered is not recognized, the requester will be advised the number entered is invalid or the case was processed more than six months ago.

The previous method of providing a status letter did not give the requester accurate information. In order to better serve our customers Teams should paste in the online FOIA Request Status Check every time a status is requested.

If you need to generate a status letter due to correspondence via mail, e-mail or fax, please run the control number with the online FOIA Request Status Check. You should not provide status to the requester using the "Q" button. Change the information on the letter that shows the status of the case, replacing it with the results from the online status check before you close and save. Use the latest Status Letter from *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters*, since the letter in FIPS may not be the current version. This ensures that the requester will receive accurate information.

Please print the online status check and send it to be scanned in as a CSD to support the status letter.

25.2.5 Withdrawal of a FOIA/PA request

A requester must send us a document to withdraw a pending request. Upon receipt of a written request to withdraw a FOIA, please have the request scanned into the case as CSD. Make sure that the WD letter has been scanned in before you close the case. Ask your supervisor to send the case to you in Records Locator queue. Add a Discussion indicating that the request was withdrawn per the documents found in CSD.

25.2.6 Mail received in a foreign language

If we receive mail written in a foreign language and you cannot determine whether it is a FOIA request, forward the mail to a supervisor. The supervisor will forward the documentation to MSB, who will then return the translated mail.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

26. BLANK TAPES/CD's

If you receive a blank VHS tape, cassette or CD with a FOIA/PA Request, return it to the requester.

27. VIDEO REPRODUCTION

As responsive records are scanned into FIPS; when the scanner encounters any type of media, they forward the alien file to MSB when their scanning is complete. The MSB staff assigned to audio/video reproduction will copy the media and insert a Discussion that it is complete. Once the case is processed, the processor will send an e-mail to the MSB mailbox with the case number and the page(s) number where the media can be located. MSB will pull the media and process/make any necessary redactions. The media will be mailed to the requester separately.

28. CONGRESSIONAL REQUESTS AND APPEALS

a. Congressional requests. True congressional requests are requests from a congressman or senator for information which usually does not relate to an alien file or receipt file. Most FOIA/PA requests with congressional correspondence should be handled under paragraph b. below. If you feel that you have a true congressional request or appeal, control the case, put the case in Unit Chief and e-mail your supervisor the control number. A supervisor will either send the case to SIG or return the case to you for staffing.

b. Congressional requests on behalf of a constituent: These are requests that have some kind of congressional correspondence included with the request from the subject. These cases should be created in the same manner as any other FOIA or PA request. Please use the subject's name as the requestor, mark "self" in the source block, create the acknowledgment letter and go out for verification of identity or consent as needed. Insert a case note, and e-mail Vicki Ohrnell the control number.

29. INCORRECT PAGE COUNTS:

The OA room will give final action letters with responsive records to the Team supervisors if the page count in the letter differs from the amount of pages printed. The supervisors will distribute to Team members to correct the page counts.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. Using FIPS Standalone, go into the case that corresponds to the final action letter (NRC2010_ _ _ _). After the case is opened, determine the corrective action needed by comparing the responsive records in the case to the printed responsive records.

2. Correct the final action letter and reprint the letter.

3. Attach the reprinted final action letter to the responsive records.

4. Take the reprinted final action letter with the responsive records to the OA room to be mailed out.

5. Write the User ID Number of the person who created the final action letter in the upper right corner of the incorrect letter, and notate on the letter the corrections that you made. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

6. Stack the incorrect final action letters in a separate pile. Write "ERRORS" on a post-it note and stick the post-it note to the top page to identify these as the incorrect letters.

7. Give the incorrect letters to the Team supervisors. The supervisors will give the incorrect final action letters to a FOIA supervisor daily for distribution and review.

30. ALIEN'S STATUS VERIFICATION LETTERS:

The National Records Center no longer issues certified Status Verification Letters to aliens. These letters were usually issued to individuals who had lost their Naturalization Certificates and needed verification of their status to apply for a passport or old age pension benefits in another country. If you get a request for certified Status Verification Letters, refer these individuals to USCIS.GOV to make an INFOPASS appointment.

31. INQUIRY FOR FILE REVIEW:

If you receive an e-mail regarding an inquiry for a file review, and the request is not in regard to a FOIA request, do not call the person or forward the e-mail to another NRC Division. Forward the e-mail to a Supervisor.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

32. RECORDS LOCATOR QUEUE

Cases assigned to Records Locator queue will require some kind of action. Some of the most common reasons are:

- The staffing has to be re-pended
- Additional PII or consent is needed
- Requester docs have been received
- Requester writes to request the record on paper
- The wrong records were scanned into the case
- We need to send an interim interest letter to an incarcerated individual
- The file is lost
- We got a response of not found or consolidated from a service center.

It is important to read all Discussions as well as insert Discussions as necessary. Listed below are points/actions that you should consider while working cases assigned to Records Locator queue.

32.1 Always check cases in FIPS for duplicates searching all offices using the Alien number and name of the subject of record. If the subject of the request is a petition, it may help to search by the requester to see if that petition has already been addressed.

32.2 Read and follow directions in any Discussion found in the case regardless of age or who put them in. If there is a question, see your supervisor before proceeding with any action on the case.

32.3 Anytime you create a new staffing for the same A-file or receipt, you must cancel the one it replaces.

32.4 Do not cancel file requests and re-staff just because the request is old and has been pending for an extended period. Canceling file requests and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly. Please continue to repend these cases as necessary.

32.5 If the A file has been scanned in and we are waiting on a T-file, review T-file staffings in NFTS History. If the T-file has been deleted or combined with an A-file or is from a RAFACS conversion, then cancel that staffing, because the T-files no longer exist. Send the case to the processor.

32.6 If the A-file has been scanned in, but there is an open pending slot for a T-file: Review "T" file history in NFTS. If the "T" file has been consolidated /combined with the A-file, check the date it was consolidated. If the "T" file was scanned in with the A-file, cancel the pending "T" file slot and send the case to the processor.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

32.7 If you see it has been through image process box and returned to a shelf then further research is required.

32.7.1 Check all offices for duplicate cases in FIPS using the alien number.

32.7.2 Does the subject have more than one alien number per a Discussion or on their request? If so, search those for potential duplicate cases.

32.7.3 If you find a duplicate case, make a Discussion and advise NRC, FIPSPROBLEM mailbox with an e-mail and repend.

32.8 Additional PII needed: Sometimes when a processor retrieves a case, he or she will determine that additional PII or verification of identity is needed from the requester/subject. You will have to create an Interim Response Letter and check the other documentation box. Modify the letter and attach the Requester Documentation Attachment (located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Requester Docs Attachment). Check the boxes required and pend the case for Requester Documentation. If the processor is asking for information that is already present in the scanned documents, put in a Discussion asking for clarification on what the processor is requesting. You may also have to point them to the slot where the information is currently contained.

32.9 If you pull a case in Records Locator queue and the Requester Documentation has been received: Review the information provided, if the requester/subject has provided the requested PII and/or consent, request the file.

32.10 The requester/subject may respond negatively to the request for PII. If we receive a negative response, attempt to locate an alien file and staff, matching as much of the PII as possible. Pend the case for responsive records.

32.11 If the requester/subject does not return the PII we asked for, and if a positive match cannot be identified in CIS or CLAIMS with the PII provided, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-PII. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

32.12 If the requester/subject does not return proper verification of identity, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-Consent. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

32.13 If a request for consent is returned but the requester says he or she is a third party requester (they have no relationship to the subject of the record and cannot or will not get

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

consent), request the file. Create a Discussion advising the processor to process this case as third party without consent.

32.14 Occasionally you will pull a case in Records Locator queue and there is a Discussion stating the wrong records have been scanned into the case. This will require some investigative work before a solution can be determined.

32.14.1 Did the Case Creator use the wrong alien number when the case was originally created or when the records were staffed? If so, please request the correct file. You must then send an e-mail to FIPS Problem mailbox and ask that the wrong records be removed. Clicking the link above will automatically send a copy to the FOIA Program mailbox.

32.14.2 Did the requester ask for a copy of a petition they filed on behalf of a beneficiary? If so, the case was probably set up incorrectly. Check first to see if there are two cases for the requester. If not, you will need to correct the one that exists to become a request for the beneficiary's information. Locate the correct records and re-staff.

32.14.3 Did the scanning contractor scan the wrong records into the case? If you've reviewed the entire file and there was no mistake made by the FOIA unit, it is possible that the scanning contractor has scanned the wrong file into this case. Here are the steps to follow if you believe this may have happened:

32.14.3.1 Look for a pending case for the records that were scanned into your case.

32.14.3.2 If you locate a case, check to see if the responsive records have been scanned.

32.14.3.3 If they have not, you'll need to have the records moved from your case over to the correct case. You will have to have the slots in your case re-set to pending by the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

32.14.3.4 If the pending case already has records scanned in, review those records.

32.14.3.4.1 Are they the correct records for that case? If so, then you will need to verify that they are a duplicate of the ones in your case.

32.14.3.4.2 If they are duplicates, then you do not have to do anything with that case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

32.14.3.4.3 You will need to have the wrong records removed from the staffing response and responsive records slots in your case. Send an e-mail to the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

32.14.3.5 If you pull a case in Records Locator queue and there is a **Discussion instructing you to create an interim response letter because the individual is incarcerated**:

32.14.3.5.1 The request must be over six months old before we send out the interim letter. If your case meets this criterion, create an Interim Interest Letter.

32.14.3.5.2 If the interim interest letter is returned saying the subject is no longer in custody and we do not have another address for the subject, you can close the case FC. **Do not close out the case FC without the returned mail.**

32.14.3.5.3 If the individual is still incarcerated and still interested in receiving the record, send the case to the processing queue.

32.14.3.6 **If you pull a case in Records Locator queue and there is a document scanned into the Staffing Response and the Responsive Records slot which has been changed to Inactive**, look at the document scanned in to the Staffing Response.

32.14.3.6.1 If the case was staffed for a receipt file that has been sent to NVC (National Visa Center), redirect the request to NVC. Create the Final Action Letter, choose "RD" and select "NVC" from the drop-down box. Save the document and check it in. Send the case to Up-front Approver.

32.14.3.6.2 If the receipt file is marked lost, file destroyed, or file cannot locate, go to Receipt files; Lost receipt file, File destroyed or File cannot locate.

32.14.3.6.3 If the receipt file has been rejected by the service, there are no records to retrieve. Close out as No Record, with an explanation of rejected receipt files.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

33. REPENDING IN RECORDS LOCATOR QUEUE

33.1 Do not create a Discussion that you repended the case; the system automatically creates a record of case action.

33.2 If you open a case in Records Locator queue and the file has not been scanned in nor is there any staffing response, you will probably have to repend the responsive records slot. However, before you repend the responsive records, verify the location of the A-file in NFTS and on the 9504 screen in CIS.

33.2.1 If the file has moved to another FCO, you should cancel the current file request and create a new one to reflect the new FCO.

33.2.2 If that file has moved from the original staffing location and is now in-transit to the NRC or has been received at the NRC, repend. Do NOT cancel the original file request or re-staff to RAFACS/CIS.

33.2.3 Do not cancel file requests and re-staff just because the request is old and has been pending for an extended period. Canceling file requests and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly.

33.3 If the file has been received by NRC and NFTS shows scanning, image processing, image problem files, streamliners (anything except a shelf location) repend.

33.4 If a SIG case comes up for repending in Records Locator queue, please repend and notify NRC, FOIASIG of this. Insert the NRC case number on the subject line.

33.5 If NFTS shows the file is at the NRC and the location is SEIT Admin "FOIA files awaiting partner" do further research. If there is an A-file and a T-file that will be scanned in together when the other arrives, then repend. If there are two separate staffings for files, then e-mail NRC, FOIAFILEREQ to research and to have the file scanned in if necessary.

34. CHANGING THE TRACK OF A CASE

Do not change the track of a case except in the following instances:

34.1 The requester is narrowing the scope of their request from a Track 2 case to a Track 1 case. Prepare a status letter and advise the requester that their case is now on the simple track.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

34.2 The requester has responded to our acknowledgment letter stating that he or she did not mean specific documents only, and this would cause us to move a case from Track 1 to Track 2. Prepare a status letter and advise the requester that their case is now in the complex track.

34.3 The requester has a Track 2 case and provides the required documentation to change their request to a Track 3. Prepare a status letter and advise the requester that their case is now in Track 3.

When you change the track of a case, ensure you click the "SAVE" button prior to exiting the case.

35. RESPONSIVE RECORDS SCANNED IN WITH STAFFING RESPONSE

Occasionally the responsive records are scanned in behind the staffing response, instead of into the responsive records slot. These cases then appear in the processing queue, but cannot be processed. The processor will send a message to the NRC, FIPSPROBLEM mailbox for correction and insert a Discussion explaining the problem.

If the case has not come up for processing and you encounter this situation in Records Locator queue, put a Discussion indicating the problem (Responsive Records scanned into Staffing Response slot), and send a message to the NRC, FIPSPROBLEM mailbox with the following information:

- The NRC control number of the case,
- The A number or Receipt Number of the records,
- The staffing sequence they are scanned into, and
- The number of pages scanned in.

Send the case to Unit Chief/Admin so that the problem can be resolved.

Click here for instructions if you pull a case in Records Locator queue that has been staffed for a **Lost File**.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

36. CASES NEEDING ACKNOWLEDGEMENT LETTERS

Cases received in Records Locator queue that need acknowledgement letters must be re-assigned to a Troubleshooter in the Case Create role. Please contact a supervisor with the NRC Control Number and ask that the case be re-assigned to you in the Case Create role.

37. RE-STAFFING

- If the file has moved to another office, cancel pending slot and staff to the correct FCO. ***Do not confuse this with files that are now in-transit to NRC.**

- If the current staffing is not correct (for example - an Atlanta general staffing instead of an Atlanta ICE staffing): Cancel the pending slot and re-staff properly.

38. FOIA SAFE

Cases staffed to the FOIA Safe are processed in the NRC queue.

While working Records Locator queue, if you pull a case that has been staffed to the FOIA Safe, **NEVER** cancel the staffing. Pend it for responsive records.

The RPC for the FOIA Safe is ZW0004.

If you see an RPC of "**ZW**" anywhere, it is a classified file.

39. IN TRANSIT FILES

If NFTS shows a file is now in transit to the NRC, repend. ***Do not cancel the staffing and re-staff to NRC.**

40. MODIFICATION OF RECEIPT DATES

Modification of receipt dates is a serious matter. Final approval authority to modify a receipt date is ACD or higher. Any decision to modify a receipt date must take into consideration the negative effect such an action will have on the integrity and accuracy of the data in FIPS, as well as possible legal consequences.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). APPENDIX D: CASE CLOSING CODES

PD – The case has been processed, responsive records were released in part.

G1 – The case has been processed, responsive records were released in full.

DP – The case was closed as a duplicate of another case.

ER – Created in error. (see **ER Case Closings**)

WD – Case was closed as a withdrawal.

NA – FOIA/PA not applicable. You are required to select the office the request is being redirected to. Select "ALL", two letters will be generated.

NR – The case was closed as no record. A search of all databases was conducted for any files relating to the subject. No results were found. All (non-responsive) screen prints are scanned in as CSD.

UT – Unable to locate alien file. Cases can be closed if the alien file is marked as lost and it has been more than one year. A thorough search of all systems must be completed.

FC – Cases close failure to comply when requesters fail to supply requested information. (i.e. Interim Interest Project, consent, subject has fugitive status or request for additional information)

FP – Cases close failure to pay when requesters fail to submit payment.

RD – Advise requester to contact another government agency to acquire records. We tell the requester whom they should contact to obtain records responsive to their request.

RF – Cases forwarded to DHS components. We tell the requester the name of the agency we referred their request to.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

APPENDIX G: DEFINITIONS

The definitions listed below are words and phrases that frequently appear in FOIA and PA requests. The list is arranged in alphabetical order. Additional definitions can be located at http://www.uscis.gov/portal/site/uscis/menuitem. Select the tab titled "Education and Resource."

Access - Includes any form of disclosure, to include oral, visual, or reproduced copy. A reproduced copy, whether in paper or electronic format, always satisfies FOIA/PA access requirements.

Agency - Any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency. This does not include the legislative (Congress) or judicial (Courts) branches of the Government, nor does it apply to state, local, or foreign government agencies. The Department of Homeland Security (DHS) is an agency as defined above. The following are components or bureaus of the Department of Homeland Security; United States Immigration and Customs Enforcement (ICE), United States Customs and Border Protection (CBP), United States Secret Service (USSS), etc.

Agency Record - Any tangible recording of information and/or any item, collection, or grouping of information, including electronic that is maintained and controlled by an agency.

Notes or documents which are made by an employee, kept purely voluntarily, not circulated to nor used by anyone other than the author, and discarded or retained at the author's sole discretion for his/her own individual purposes are personal records. These are not generally agency records because they are not subject to the rules and controls of the agency for records management and disposition. These may, however, become agency records for purposes of the FOIA or PA if used to carry out an agency function (e.g., as the basis for a performance rating).

Component - Each separate bureau, office, board, division, commission, service, or administration, or agency of a Federal Executive Branch Department. For example: Border and Transportation Security (BTS), Citizenship and Immigration Services (USCIS), Federal Emergency Management Agency (FEMA), Immigration and Customs Enforcement (ICE) are components of the Department of Homeland Security.

Conditions of Disclosure - Specific provisions in the Privacy Act (5 U.S.C. § 552a(b)(1) through (12)) allows the agency to disseminate information from a PA system of records without the prior written consent of the record subject.

Congressional Committee Request - A request from either House of Congress, to the extent of matters within its jurisdiction; a subcommittee thereof; any joint committee of Congress; any subcommittee of any such joint committee. Agencies may not use FOIA or PA exemptions to deny records that are the subject of such a request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Congressional Request - A request from a Member of Congress on his or her own behalf, or on behalf of a constituent. After acknowledgment under congressional correspondence procedures, congressional requests are to be processed in the same manner as any other FOIA or PA request.

Consolidation – Combination of paperwork into a main file. After the service completes work on a petition or application, we combine it into the person's A-file. If the service discovers two "unconsolidated" A-numbers for a person, we combine the two files. One of the A-numbers becomes the "survivor" and the other becomes the "consolidated A-number."

Consultation - Obtaining the views of another DHS component or Federal agency concerning the release of information that has been incorporated into immigration documents or a reciprocal request. The National Records Center, FOIA/PA Division, makes the final overall determination on release.

Freedom of Information Act Request - A request **in writing** by any person for access to any record maintained by any Federal agency. Federal agencies are not persons for purposes of FOIA.

Included are requests for access to Privacy Act records of another person without the written consent of the record subject, as well as requests from nonimmigrant aliens for access to their own records.

FOIA/PA Information Processing System (FIPS) - Through the use of imaging, workflow, and graphical user interface technologies, FIPS allows USCIS to electronically manage and process FOIA and PA requests.

First Party Requester - A subject or designated representative asking for access to his/her record. A notarized signature or a sworn declaration under penalty of perjury from the record subject is required for access to records.

Forms – Various government forms available from www.uscis.gov/portal/site/uscis that are provided for the use of requesters and their representatives when submitting a FOIA or PA request with USCIS. The more common forms include:

- G-28 – Notice of Entry of Appearance as Attorney or Representative - This form is used for information purposes only. It should be signed by the attorney or representative and by the subject of the record. Does not qualify for consent unless the attorney or representative has inserted the penalty of perjury statement and the subject of the file has signed the document.

- G-639 Freedom of Information/Privacy Act Request – This form can be used to make a FOIA/PA request. When completed it provides enough information to complete an extensive search for records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

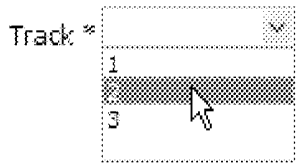
Individual - The PA describes an individual as follows: a U.S. Citizen (U.S.C.) or alien lawfully admitted for permanent residence (LPR). Conditional residents are considered LPRs. Corporations and organizations are not individuals.

Multi-track System - USCIS utilizes a three-track system to process all FOIA requests.

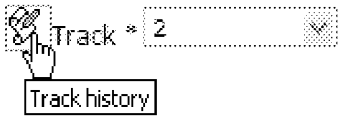
Track Drop-Down List



- Track 1 is used for the less complex cases. These are cases where only one or a few specific documents are being requested from the file.
- Track 2 is used for the more complex cases. A complete copy of a file, requests from the news media or special interest groups are considered Track 2 cases.
- Track 3 is used for cases that specifically involve individuals who have been scheduled to appear before an immigration judge.

To view the track history of the active case, click the **Track history** icon next to the Track drop-down list.

Track History Icon



The track history appears in a separate pop-up window.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. Privacy Act Amendment Request - A request from a U.S.C. or LPR to amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete.

Privacy Act Record - Any item, collection, or grouping of information about an individual which the maintaining agency retrieves by the person's name, identifying number, symbol, or other identifying particular assigned to that individual. This information includes, but is not limited to, a person's education, financial, medical, criminal or employment history.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Privacy Act Request - A request in writing submitted either in person or by mail, for records that are contained in a Privacy Act system of records. The records must be under the control of DHS and be retrieved by the name of the requester or other personal identifier. Requests are received from:

- A USC or LPR for access to or his/her own records, or
- A third-party with a signed privacy waiver from the record subject acting on the subject's behalf, or
- The parent of an LPR or USC minor child or the legal guardian of a person declared incompetent by a court of competent jurisdiction.

Records Custodian - The official responsible for the maintenance, security, control, and final disposition of official records that are required by law, regulation, or other directive to be kept by the Agency.

Referral - Information found in immigration records – the forwarding of a record that originated with another component of DHS or another Federal agency for direct response to the FOIA/PA requester. Also includes transferring responsibility for responding to a request regarding the release of records to the DHS component best able to determine whether to disclose, or to the Federal agency that originated the record.

Retire – The service sends the A-file to the Federal Records Center (FRC) after a number of years have passed with no activity. This is called "retiring" the file. Occasionally, we have to request a retired file from the FRC.

Rider – A person who is also listed on a petition or application that will also benefit if that petition or application is approved. For example, a woman applying for asylum lists her husband and two children on her asylum application. They are riders.

Routine Use - An established use and authority for disclosure of records from a Privacy Act System of Records, other than an intra-agency disclosure. Disclosure or use must be for a purpose that is compatible with the purpose for it was collected, that would be otherwise prohibited by the PA. Such disclosures do not require the written consent of the record subject, but require Federal Register publication prior to such use.

System of Records - A group of any records under the control of an agency from which information is retrieved by the name of the individual or by some other identifying number, symbol, or identifying particular assigned to the individual.

Third Agency - Other administrative agencies of the Executive Branch of the Federal government, including other components of DHS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Third Party Request - A request from any person for access to another individual's record without that individual's written consent. The identity of a third party requester and his/her relationship to the subject does not increase (or decrease) his/her rights of access to the records.

White House Inquiries - An official request from any member of the White House staff, or letters of the President forwarded to the agency for response.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LEDGER:

CREWMAN: Fifteen and sixteen million series have been issued to Alien Crewman Landing Permit and Identification Cards groups. The blocks of numbers are assigned to offices issuing such cards.

ELECTRONIC ONLY: No physical jackets are created.

PHYCIAL FILES: A-Number with A-File Jackets

NOT ISSUED: The numbers are not by used any Office or Program.

VISA (STATE DEPT): DoS is electronically assigned blocks of A-Numbers that they assign to Visa packets.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

FOREWORD

The FOIA/PA Assistant's Guide has been prepared as a ready reference to assist with day-to-day tasks, such as creating Freedom of Information Act and Privacy Act requests, handling mail, working records locator, and general troubleshooting.

Any previous material distributed in *FOIA Information Bulletins* has been incorporated into this Guide.

For the purposes of this Guide, we may refer to a FOIA/PA Assistant as "you," or "Assistant," and in some cases "team member."

The Guide has been saved in PDF format. The PDF format makes searching for information in the Guide easier. **Please view the guide in PDF/A mode while you have FIPS 7 open.** A potential Java scripting conflict exists if you have the document open in PDF mode while running FIPS 7. Viewing the Guide in PDF/A mode disables Java scripting within the Guide – which means hyperlinks within the Guide will not work, but FIPS 7 will not freeze or crash. You may alternate between PDF and PDF/A mode in Acrobat Reader by selecting Edit ⇨ Preferences ⇨ Documents ⇨ PDF/A View Mode. Select "Never" to turn PDF/A mode off, and select "Only for PDF/A documents" to turn PDF/A mode on.

How does the rulemaking process for this Guide work? The Chief of FOIA/PA Operations and your Supervisors direct how Paralegal Specialists, FOIA/PA Assistants and Office Automation personnel accomplish their missions. Through the Chief of Operations, Supervisors submit a new rule or procedure to the Chief FOIA/PA Program Officer. At the direction of the Chief Program Officer, Program Office may immediately amend the guide, or they may seek clarification from Office of Chief Counsel. After consultation, Program Office will either amend the Guide or propose a modified rule to Chief of FOIA/PA Operations. Major re-writes or revisions of the guide are subject to the final approval of the USCIS FOIA Officer.

You, the FOIA/PA Assistant, may notice something in the Guide that is awkwardly worded, or contains a typographical error, or something that simply is not true. You contact your supervisor and then Program Office amends the guide.

Ideally, before we amend the Guide, we first publish a FOIA Information Bulletin (the exception being a misspelled word or a missing punctuation mark). FOIA Information Bulletins and the latest version of this Guide are available on the USCIS FOIA/PA Operations intranet page. When we make additions or revisions, we create a Record of Revision at the front of the Guide for quick reference.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Record of Revision

May 6, 2011

***Paragraph 7.1,* Consent of Parents or Guardians,** *of the **FOIA/PA Assistant's Guide** has been changed (changed portion is underlined):*

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. No consent is necessary from the minor child or the person judicially determined to be incompetent, however the parent/guardian must provide his or her own verification of identity that is notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors may request their own files; they do not have to have the consent of their parents or guardians to do so. Attorneys may represent minors also.

Paragraph 12.7.11 T-files *of the **FOIA/PA Assistant's Guide** has been changed* (changed portion is underlined):

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, WSC or RDF for scanning. Those offices either scan directly into FIPS for us or we export the A-file from EDMS. Therefore, if the A-file is at one of the above service centers and there is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

Paragraph 12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS *of the **FOIA/PA Assistant's Guide** has been changed* (changed portion is underlined):

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.3.9 **If the A-file is lost but other records exist** (such as receipt files we would normally request or other a-files, including T-Files, wherever they may be, including NRC) Request the additional records. Put in a Discussion that reads:

> A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

APPENDIX H: CASE CREATE FLOW CHARTS has been added to the FOIA/PA Assistant's Guide.

APPENDIX I: ALIEN NUMBER ASSIGNMENT has been added to the FOIA/PA Assistant's Guide.

May 13, 2011

Paragraph 12.7.6 of the **FOIA/PA Assistant's Guide** has been changed as follows (added portion underlined ~~deleted portion stricken through~~):

> When conducting "no record" research, do the query and provide screen prints of all searches as directed. ~~Open a RAFACS (not RAFACS CIS) staffing slot only. Click on "Customize Letter."~~ Print the appropriate CLAIMS screen prints (this should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names). Prepare a "Scan As" sheet to be scanned as case supporting documents ~~responsive records~~ for the case number you have just created, attach it to the screen prints and take those to the OA room for scanning as CSD ~~person designated to scan RAFACS only responsive records~~. ~~Pend the case~~ prepare a Final Action Letter with closing code

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

NR. Insert a Discussion outlining the systems you searched and stating that you have sent the documentation to OA for scanning as CSD. Send to Up-front Approver.

Paragraph 12.7.12 of the **FOIA/PA Assistant's Guide** has been changed as follows (added portion underlined ~~deleted portion stricken through~~):

12.7.12 Receipt files

(b)(6)

12.7.12.1 Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SS**C/SRC, WSC/WAC, MSC/NBC or NSC/LIN)**. For example, [redacted] etc., are not receipt files we can request.

12.7.12.2 If the requester does not specifically ask for a receipt file and provides an alien number, request the alien file only. If the requester specifies a receipt file, search NFTS and staff for that receipt file OR if the receipt has been consolidated into an alien file, staff for that alien file.

12.7.12.3 If the requester does not provide any receipt number or alien number, then you must research CIS, CLAIMS and ~~possibly~~ PCQS.

Be cautious about requesting receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will request the EAD card.

If they provide a receipt number, you must research CLAIMS, PCQS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please request the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

If there is no location information in NFTS, and if NVC does not have the receipt, but there is a record in PCQS, print any PCQS screen(s) concerning the petition. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

~~12.7.12.4 If there is no information about the receipt file in NFTS, regardless of the prefix of the receipt number, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."~~

New paragraph:

12.7.12.4 As a matter of last resort, if there is neither information about the receipt file in NFTS nor PCQS and you have called National Visa Center and determined NVC does not have the receipt, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

May 27, 2011

Paragraph 6.3.4.6 of the FOIA/PA Assistant's Guide will be changed as follows: (changed portion in red)

As it used to read:

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Close the request as an ER and send to Up Front Approver
b. Send an e-mail to the OA room and include the following information:
   1) REQ#
   2) NRC#
   3) Scanner's initials
   4) Date scanned

The OA room will pull the original request, include it in the current days count and follow return procedures.

Updated Paragraph:

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Create the and control the case.
b. Do not staff for any records and do not prepare an acknowledgment letter.
c. Send the case to Unit Chief with a discussion explaining it is a possible Genealogy

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

d. Send an email to the designated person who handles genealogy cases (currently Donna Brasfield) with the control number.

The designated person will review the request to determine if it is, in fact, a genealogy.

If it does not meet the criteria for genealogy it will be returned to you in Case Create to send an acknowledgment letter and staff for records.

If it does meet the criteria, the designated person will create a letter referring the requester to the Genealogy program and will close the case as ER.

Paragraph 12.5 Receipt Numbers of the FOIA/PA Assistant's Guide has been changed as follows:

As it used to read:
Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA MSC/NBC file request. **Do not request DIG T-files at HBG with RPC codes XX or ZG.** Refer to the Staffing Sheet Guide for the most current information.

Updated Paragraph:

Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA HBG file request. **Do not request DIG T-files at HBG with RPC codes XX, XY, ZG, ZY, or ZZ.** Refer to the Staffing Sheet Guide for the most current information.

June 10, 2011

The wording of paragraph 28 of the **FOIA/PA Assistant's Guide** has been changed as follows:

Current language:

28. CONGRESSIONAL REQUESTS AND APPEALS

All Congressional Requests and Appeals are pulled out of the in-coming mail and handled by a supervisor. If you encounter a Congressional Request or an Appeal in Records Locator queue that was not previously addressed; send an e-mail to NRC, FOIAMSB mailbox, include the control number and alien number of the case and specific instructions as to what needs to be done. Put the case in Unit Chief. FOIA/PA Assistants assigned to mail will place the mail in the MSB or Appeals bin.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Here is the new paragraph:

28. CONGRESSIONAL REQUESTS AND APPEALS

a. Congressional requests. True congressional requests are requests from a congressman or senator for information which usually does not relate to an alien file or receipt file. Most FOIA/PA requests with congressional correspondence should be handled under paragraph b. of this section, however, if you feel that you have a true congressional request or appeal, control the case, put the case in Unit Chief, and e-mail your supervisor the control number. A supervisor will either send the case to SIG or return the case to you for staffing.

b. Congressional requests on behalf of a constituent: These are requests that have some kind of congressional correspondence included with the request from the subject. These cases should be created in the same manner as any other FOIA or PA request. Please use the subject's name as the requestor, mark "self" in the source block, create the acknowledgment letter and go out for verification of identity or consent as needed. Insert a case note, and e-mail Vicki Ohrnell the control number.

July 8, 2011

A new flow chart for Lost File procedure has been added to **APPENDIX H: CASE CREATE FLOW CHARTS** in the FOIA/PA Assistant's Guide.

Additionally, in paragraphs

12.7.2 Files Lost or Not Found LESS THAN NINE MONTHS
and
12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS
the following new sentence has been added:

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

Paragraph 6.1.1.10 of the **FOIA/PA Assistant's Guide** has been changed as follows:

Old version:
6.1.1.10 If the only evidence of an attorney is an envelope or letter, but there is not a duly executed Form G-28, create the case using the name and address of the requester in Section 2,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

"*Requester Information*." Do not use the address on the envelope or letterhead.

New version:
6.1.1.10 If the request came to us on Form G-639, always use the name and address of the requester in Section 2, "*Requester Information*." Do not use the address on the envelope, or Form G-28 or letterhead *unless* the requester did not use Form G-639 *or unless* Section 2 of Form G-639 is illegible. If the address on the G-639 is a foreign consulate office, or is a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you can find no other address, insert a case note and send the case to U/C.

Be careful - it is easy to miss apartment or suite numbers because the space for them is at the right side of Form G-639.

The following has been added to 6.4 SEARCH FOR DUPLICATE CASES of the FOIA/PA Assistant's Guide: (old text lined through, new text in red)

> This does not include instances in which the requester has faxed the request and then mailed it. If you open a case and find that the exact same request has very recently been created, chances are that you have opened the mailed copy which followed a few days after the fax. ~~Close this case as ER (created in error).~~ Do not create such a case. Click "Send to Research." That case will go and you will be ready for your next case.
>
> Ordinarily, you will search by Alien Number, and if you do not find a duplicate or similar case, your search will be complete. If the requester did not provide an alien number, you may search by the subject's last name and first name, or even by the requester's last name and first name. You may use a percent sign (%) as a wild-card for these searches. For example, if the requester's name is Jaime Vazquez, but you see he also has spelled his name Vasquez – you can search by Subject Last Name "Va%" and Subject First Name "Jaime."

Further on within paragraph 6.4, in the examples, there are two more changes:

> ~~Create a Final Action Letter and select final action code ER: Created in Error. After this, send the case to Up-front Approver~~ Do not click "Create Case." Click "Send to Research." You will then be ready for your next case.
>
> If you determine that it is not a true duplicate, please insert a new Discussion entitled "Similar Case" in each of the cases, so that a processor or approver can review both.
>
> ---

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the date of the request is either the same as your request or within a very few days and:

1. The requester is the same, and
2. The information being requested is the same in both requests,

Do not close this case as a duplicate. ~~Instead, close this case as ER (created in error)~~ Do not click "Create Case." Click "Send to Research."

August 30, 2011

We have added a new paragraph 8.23 to the FOIA/PA Assistant's Guide, as follows:

8.23 SITUATION: Requests from Prospective Adoptive Parents

In the recent past, Vietnam, Cambodia, Guatemala, Nepal, Ethiopia and other countries have had problems concerning adoptions. Birth Certificates have been forged and babies have been taken without consent of the biological parent. In Vietnam, "baby brokers" scour villages looking for unwed, impoverished mothers. They purchase the babies for about $50 and sell them to commercial adoption services. In Guatemala and elsewhere, people steal babies and sell them to middlemen. Prospective adoptive parents from Spain, Italy and the United States are typically willing to pay as much as $25,000 to adopt a child. (This information comes from kidsofkathmandu.org).

Normally if we cannot verify consent or prove parentage in a case, we send out for more information. Please do not send out for additional information in pending (not finalized) adoption cases for the following reasons:

1. The Prospective Adoptive Parents (PAP) have the right to all information they submitted for the adoption. It is likely that the adoption never happened. If that is the case, they have no proof of parentage or guardianship.
2. The child is usually too young to give consent.
3. Congress has substantial interest in this matter.

If you decide you need proof of parentage after a full search, please send your case to Admin for supervisor review.

September 16, 2011

The following new bullet has been added to sub-paragraph 12.1.1.6, "Blued-in information":

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Comments may be important because a File Control Office may not be able to change a file location to "LOST" in NFTS. When that happens, the records person at the FCO will notate in Comments that the file is lost. If that is the situation, please refer to the Lost File Flowchart in Appendix H of this guide.

October 24, 2011

We have added a sentence to **Paragraph 8.21**, as follows, (added material in red):

NFTS may show that the file has been retired and is at a Federal Records Center. If that is the case, request the file.

Paragraph 32.12 is no longer valid because creators now Up-Front close requests without good VOI. The following has been deleted:

> **32.12 If the requester/subject does not return proper verification of identity**, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-Consent. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

We have added a sentence to **Paragraph 34**, as follows, (added material in red):

After you have changed the track, send an e-mail to NRC, FIPSPROBLEM and copy NRC, FOIA PROGRAM and your supervisor. The e-mail should include the case number and the action you took.

Paragraph 36 is no longer valid because a person working Records Locator role may now create an acknowledgment letter. The following has been deleted:

36. CASES NEEDING ACKNOWLEDGEMENT LETTERS

[The following paragraph has been deleted in its entirety] Cases received in Records Locator queue that need acknowledgement letters must be re-assigned to a Troubleshooter in the Case Create role. Please contact a supervisor with the NRC Control Number and ask that the case be re-assigned to you in the Case Create role.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Paragraph 6.4, **SEARCH FOR DUPLICATE CASES** has been changed as follows (~~old version in strikethrough~~) (new version in red):

~~Just before you create the case,~~ Before you begin filling in the worksheet, you should look for duplicates.

A new **Appendix J: 16 RULES OF CASE CREATE** has been added to the *FOIA/PA Assistant's Guide*

December 14, 2011

Paragraph 7.4, **Third Party Requests** has been changed as follows (new information in red, deleted information in strikethrough)

Third party requesters are not entitled to any public documents that may be in the file they are seeking, as well as nor documents they provided in support of an application or petition. For example, if a wife is looking for a copy of her husband's file so that she may divorce him, and says in her request letter that she does not know where he is or says she cannot get his consent, do not send a request back to her for her husband's consent. In a situation like this, close the case as a Failure to Comply. simply request the file and put a Discussion in FIPS that it is a third party request without consent. In the above example, if she did not specifically say she cannot get his consent or that she does not know where he is, do not request the file. In a situation like this, send a request for consent and pend the case for requester documentation.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. THE FREEDOM OF INFORMATION ACT

Congress passed the Freedom of Information Act (FOIA) in 1966 to establish the public's right to access records created or maintained by federal executive branch agencies. The statute became effective on July 4, 1967. The statute relating to the Freedom of Information Act is 5 U.S.C. § 552.

2. THE PRIVACY ACT

The Privacy Act of 1974 regulates the collection, maintenance, use, and dissemination of personal information by the federal government. The statute relating to the Privacy Act is 5 U.S. C. § 552a. The statue became effective September 27, 1975.

3. WHAT ARE FOIA REQUESTS AND HOW DO WE GET THEM?

A Freedom of Information Act (FOIA) request is a request in writing for a copy of any record maintained by any agency of the executive branch of the government. Persons must reasonably describe the records sought, and those records must already exist. Requests can come in a variety of ways. They can come in on the Form G-639 or as a letter from an attorney or representative. They can come in the form of a letter from the alien himself. The requester may mail, fax, hand deliver, or e-mail a request. No matter how we receive them or what the format is, as long as they are in written form and provide enough information to ascertain that they want documents from us, we treat them as FOIA requests. A Privacy Act (PA) request is a request by a person for a copy of his or her file.

For case creating purposes, the difference between a FOIA and PA request does not matter. You will create all cases as FOIA requests, although some of the requests we receive are PA requests. The case processor determines whether the case falls under the Freedom of Information Act or the Privacy Act.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. WHO CAN MAKE A FOIA REQUEST?

Anyone can request any record kept by the executive branch of government. The tricky part is determining if we have enough information and consent to provide the record and who is entitled to what. The most common types of requesters are:

- First party requesters, that is, the alien himself or his designee, attorney or representative, are entitled to a complete copy of the alien file, after any applicable exemptions are applied. However, a parent or guardian may make a request for a minor's record. Please refer to the section titled **"CONSENT RELATING TO RECORDS CONCERNING A MINOR OR PERSON JUDICIALLY DETERMINED TO BE INCOMPETENT"** in this guide.

- Third party requesters, that is, an individual seeking a copy of an alien's file without the subject of record's consent, are entitled only to documents of a public nature or documents they provided in support of an application/petition. Please refer to the section titled **"THIRD PARTY REQUESTS"** in this guide.

- Media requesters are typically accredited members of the media.

- Bond obligors, companies who posted immigration bonds for the aliens, are entitled to a copy of the file under a court case entitled *Amwest v. Reno*. Please refer to the section titled **"IMMIGRATION BOND OBLIGORS"** in this guide.

- Other state and local government agencies are entitled to documents from alien files for law enforcement purposes. Requests for information originating with any other federal agency are operational matters and not FOIA or Privacy Act requests. Please refer to the section titled **"ROUTINE USE"** in this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

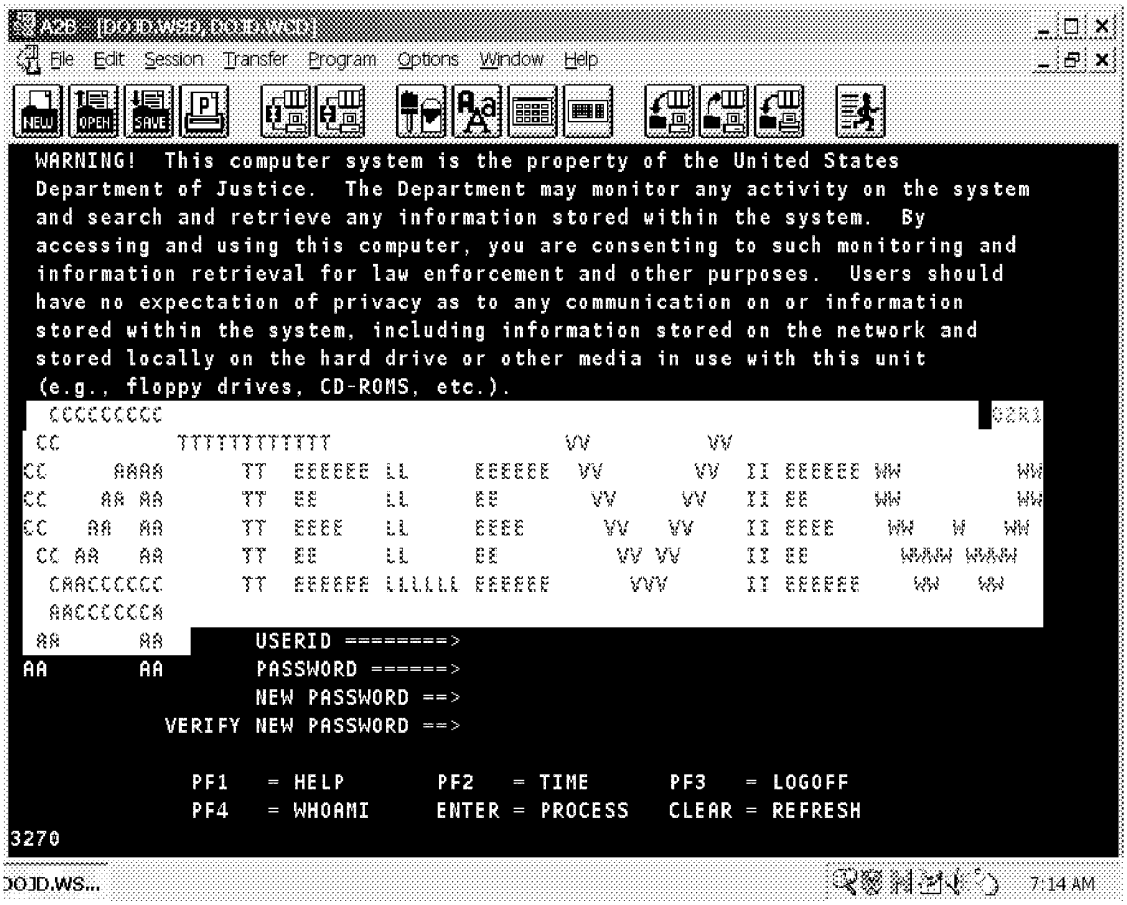
5. SYSTEMS USED AND DESCRIPTION OF THE SYSTEMS

The paragraphs below provide a description of some of the systems used by USCIS, ICE and CBP. Most A-files contain screen prints from one or more of these systems.

5.1 Central Index System

(CIS) is a database used to maintain records, search for records, and display data. CIS is a menu driven system as opposed to a point-and-click graphical user interface system. CIS provides information about persons and information about file location and movement. The CIS user navigates among various screens, depending on the type of information he or she needs. A user may search for a person in CIS by using the a-number, social security number, FBI number or a passport number. CIS provides the option of searching for people using "sounds-like" and exact name searches.

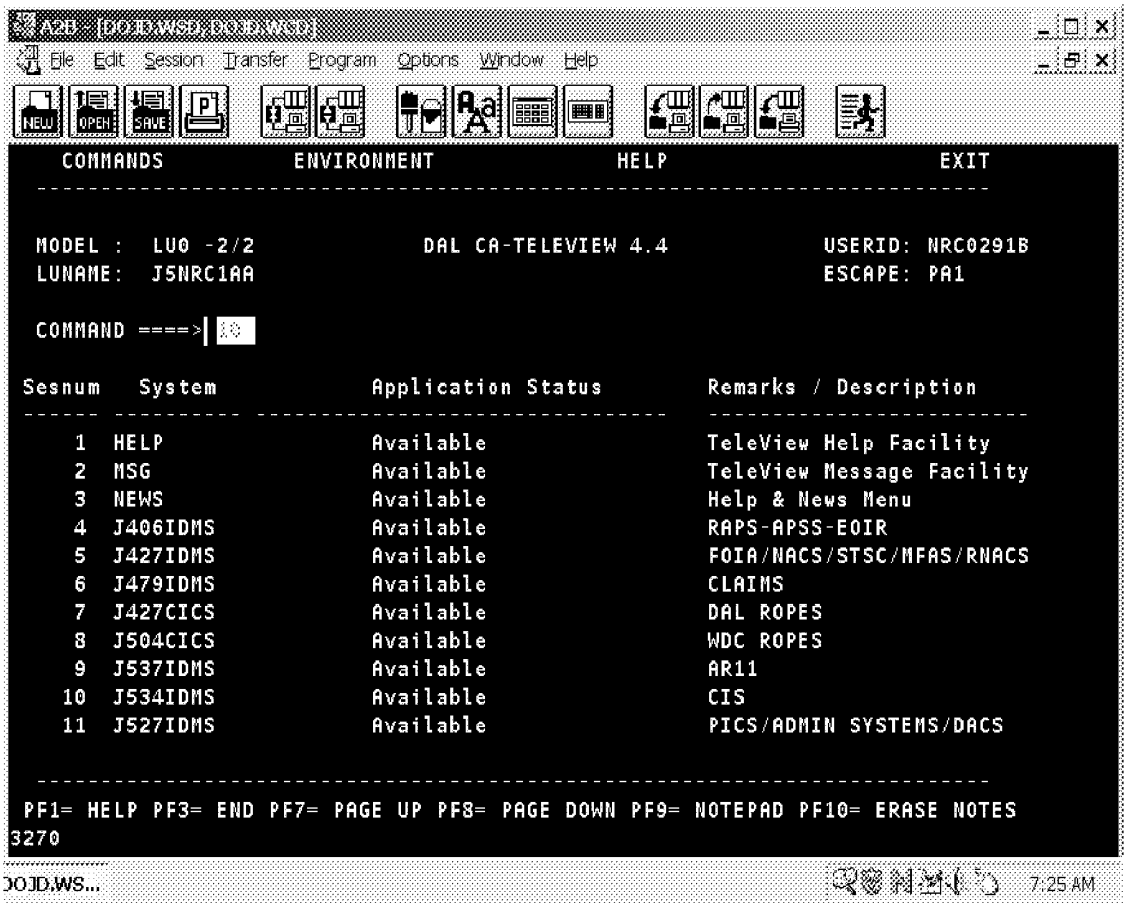
5.1.1 Introduction Screen



This screen is the introduction to TeleView. From this screen use the designated UserID (last 4 digits of Social Security Number plus an alpha) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.2 TeleView Main Menu



The number selected to access CIS will vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.3 CIS Login Screen

This is the screen used to navigate through CIS. Pressing enter can access the main menu for CIS.

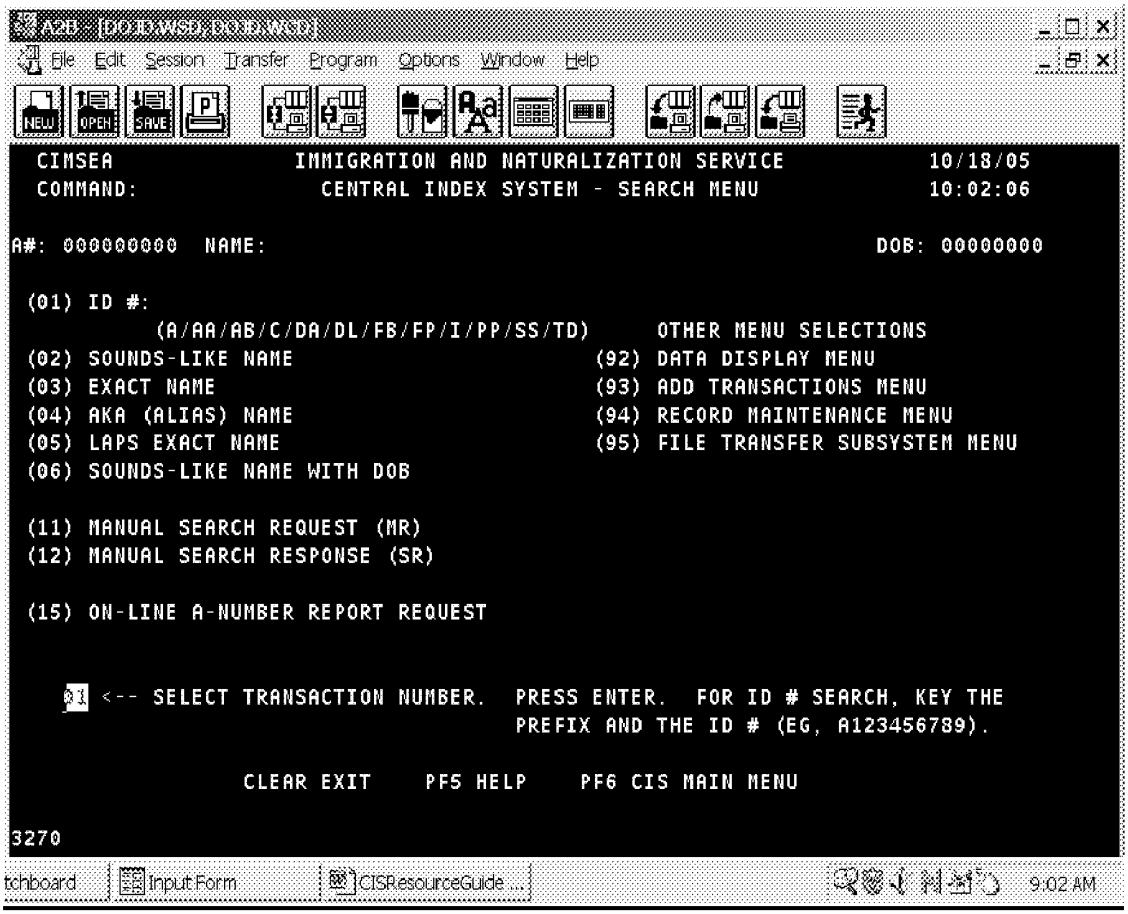
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.4 CIS Main Menu

This screen displays a variety of ways to search for information. The transaction numbers that we use within FOIA are 91, 92, and 95. By typing the number 91 next to select transaction number and pressing enter, another search screen will appear. The main purpose of the "91" transaction number is to search the database for specific information concerning an individual. Transaction number "92" is used to display card information. The transaction number "95" is used mainly to see the location of the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.4.1 Search Menu Screen



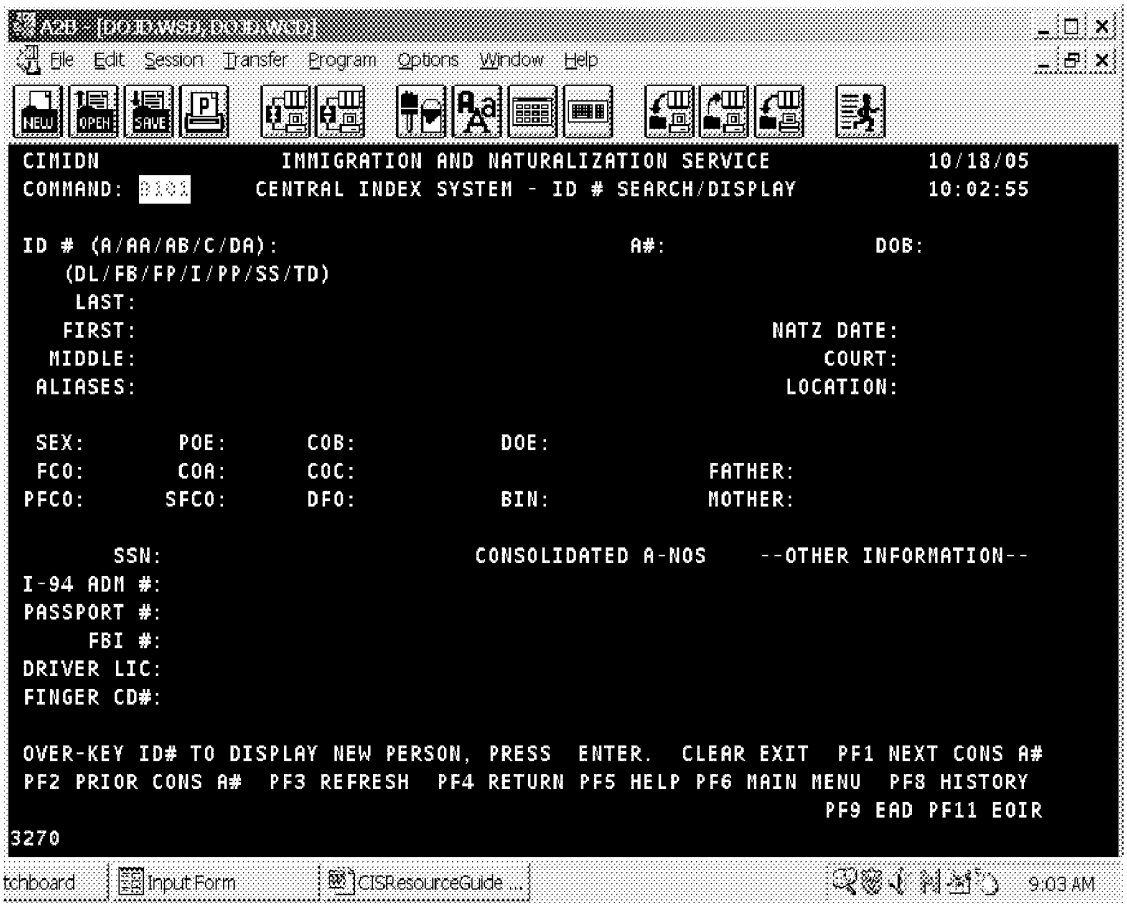
From this search screen a decision is made as to how to begin a search for an individuals records. The most commonly used methods to search for an individual's record are:

Code	Search By Category
01	ID # (A-number, certificate number, social security number, passport number ect.)
02	Sounds-Like Name Search
03	Exact Name Search
04	Alias (AKA) Name Search
06	Sounds-Like Name Search with DOB

Type in the two-digit code (01) and press enter. The screen displayed will be the screen where the search for records begins. ***Note:** Remember to read the screen in its entirety for additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

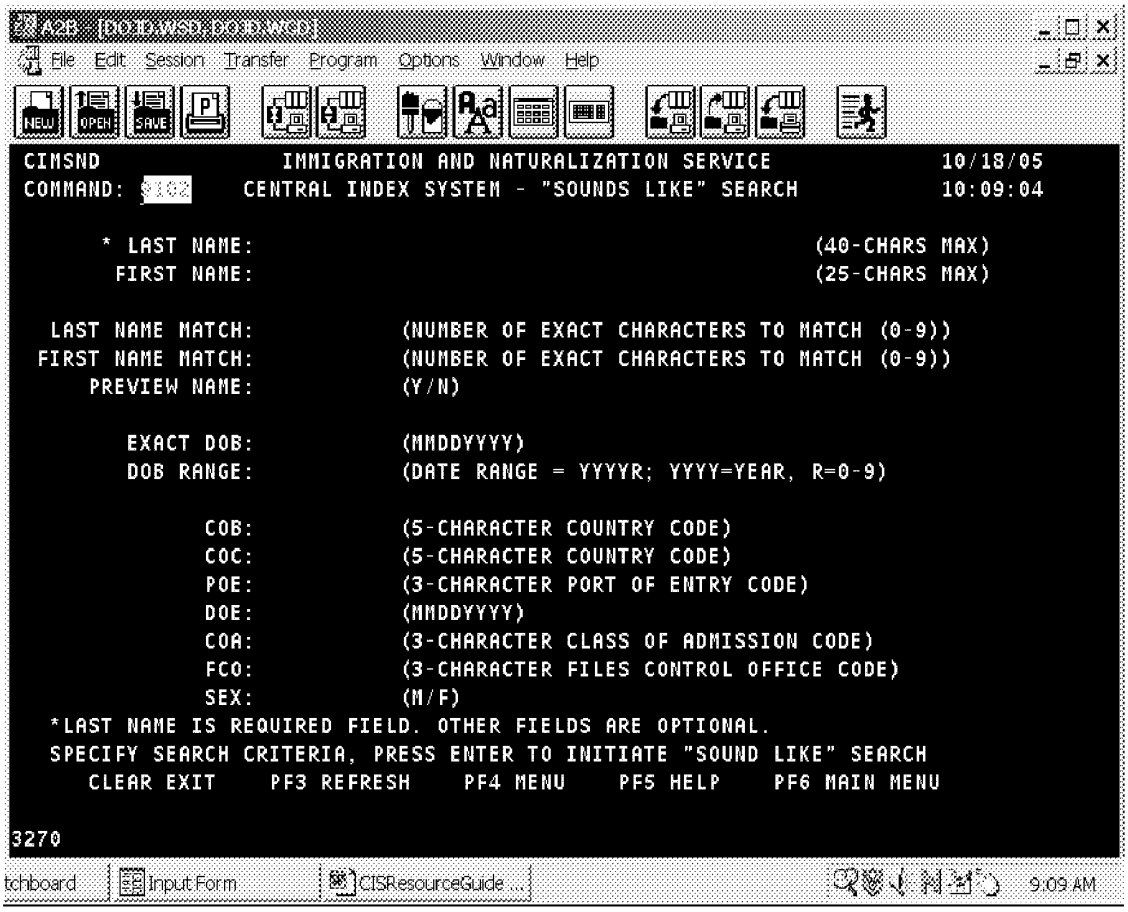
5.1.4.2 Search by A-number (9101)



In the ID# field enter the appropriate prefix with information (A = a-number, SS = social security number, PP = passport number, C = naturalization certificate number and I = I-94 number). If there is information in the system on the subject it will populate in the fields below the ID#. Pay special attention to the legend at the bottom of the screen specifically PF8, PF11, and any information listed under (other information). By pressing PF8 the history menu is displayed. This screen holds chronological information about actions that have been taken or changes in the subject's immigration status. The PF11 screen shows EOIR (Executive Office of Immigration Review) information. The significance of this screen is it holds information about ongoing or closed deportation proceedings. In the section of the screen listed (other information) different acronyms may appear such as: CARD, EADS, RAPS and DACS. For additional information on DACS please see Chapter 3.

5.1.5 Sounds-Like Name Search (9102)

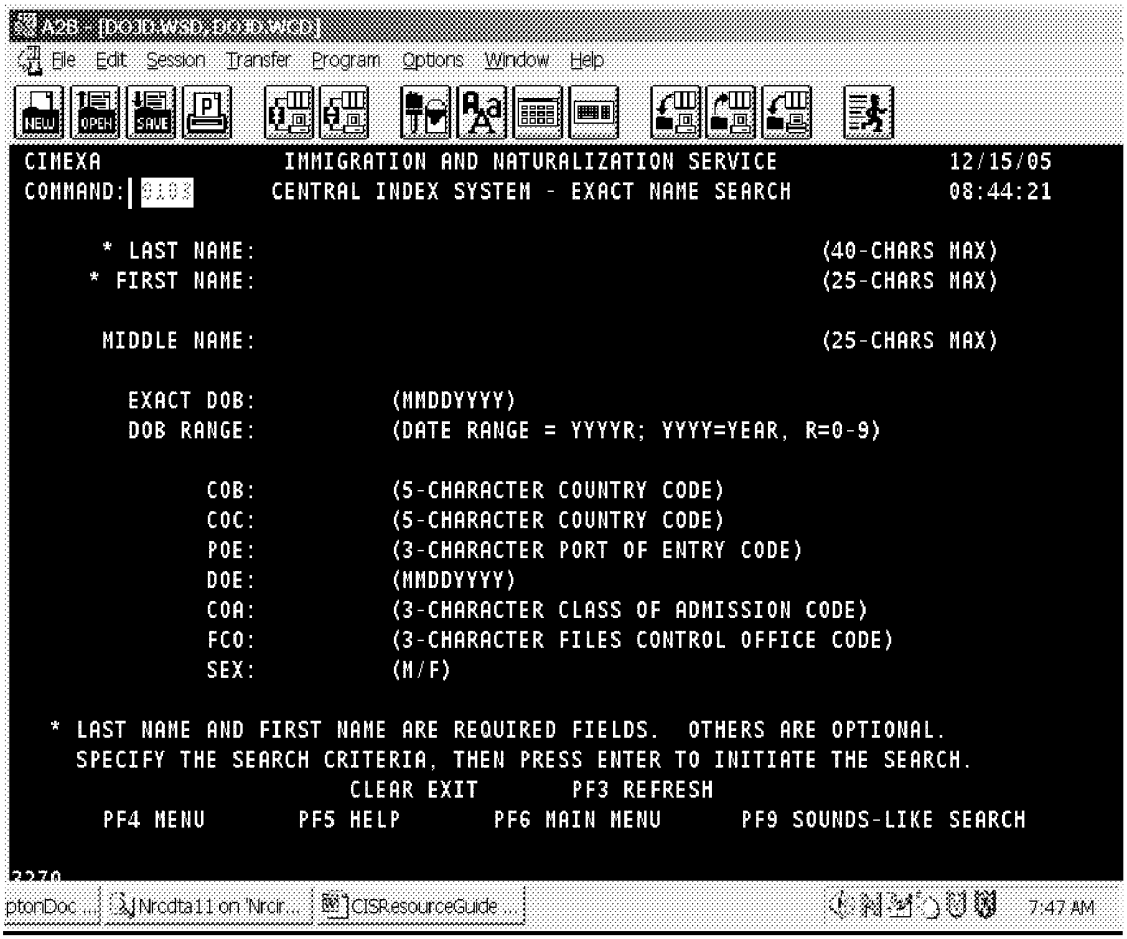
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Use the 9102 screen when there could be variations in the spelling of a name. There are times when the person who created the record in CIS misspelled the name. There could be many spelling variations in a name transcribed from a non-Roman alphabet. The * indicates the minimum amount of information required to search. The search results may be voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

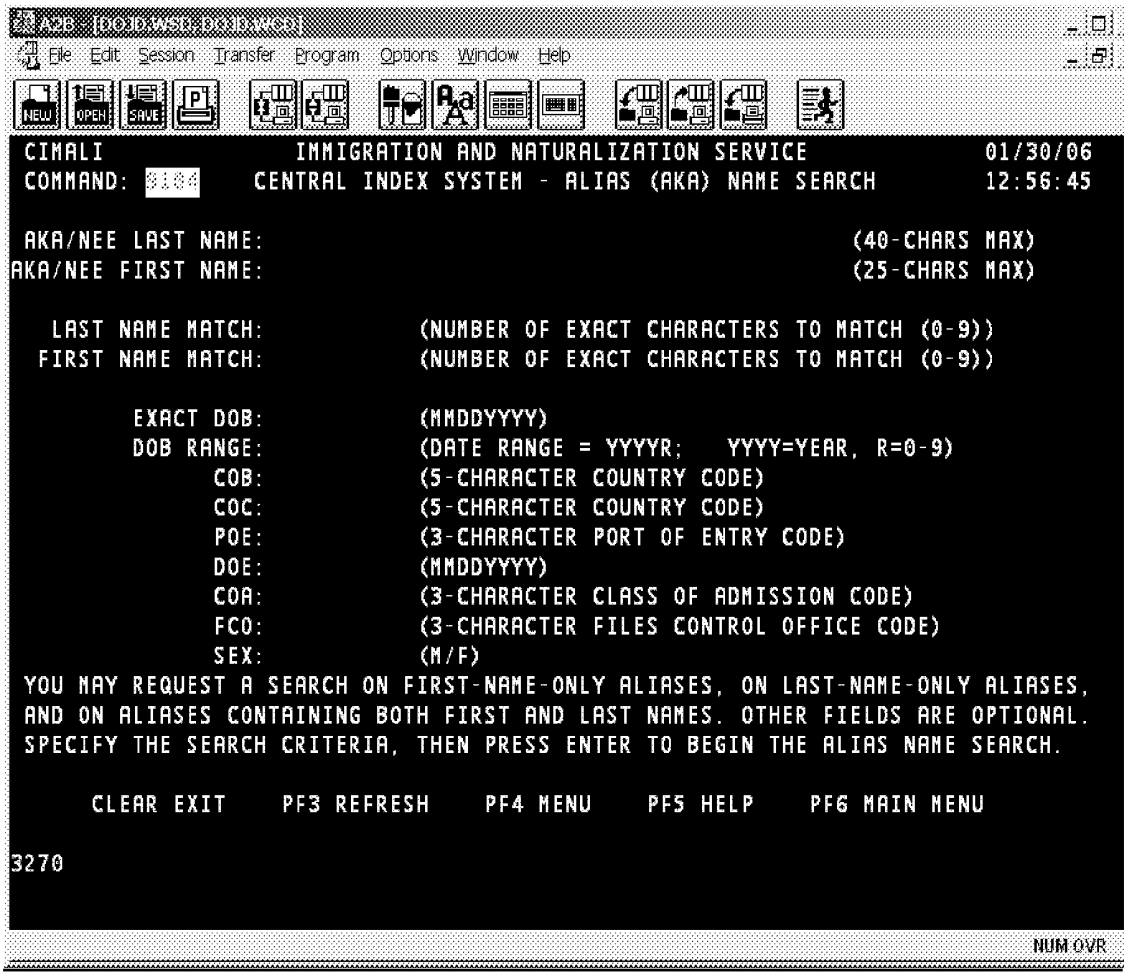
5.1.6 Exact Name Search (9103)



9103 is the primary screen used when performing a search based on the subject's name only. The information displayed will be an exact name match.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

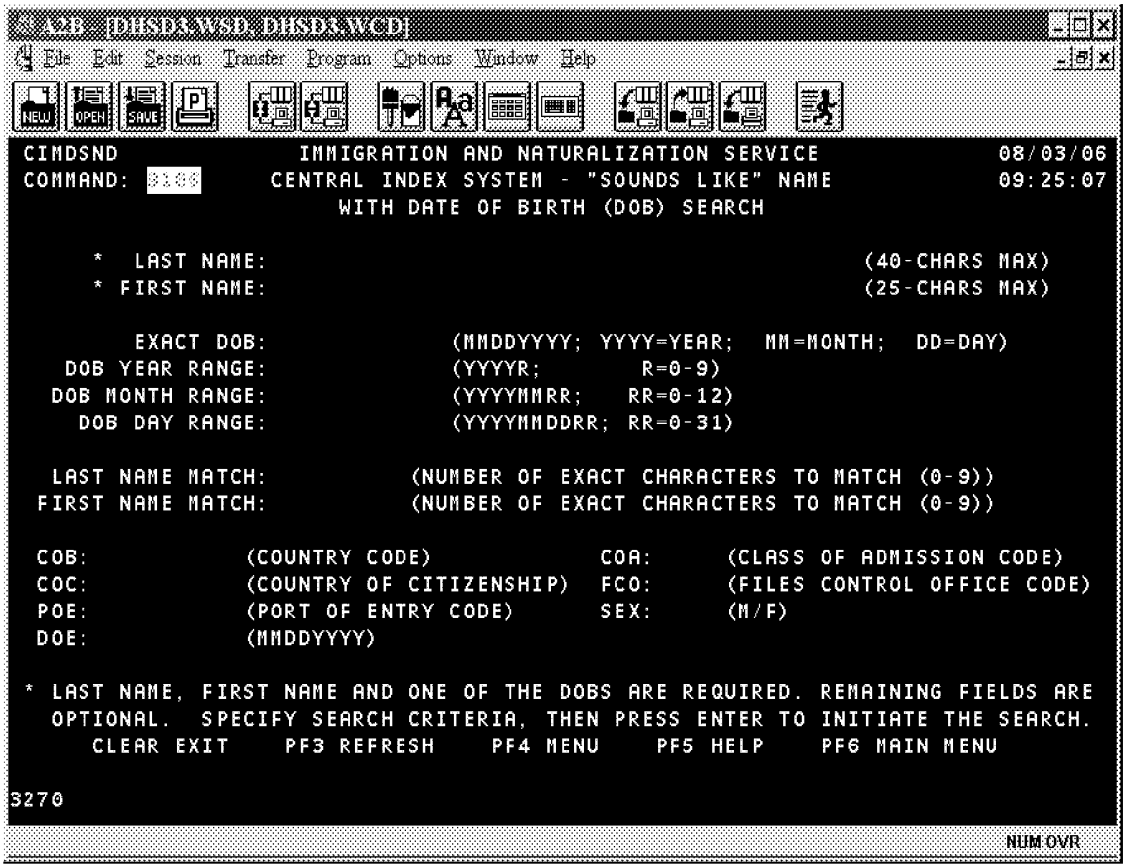
5.1.7 Alias (AKA) Name Search (9104)



The primary use for the 9104 screen would be to perform a search using any alias information provided in the FOIA request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

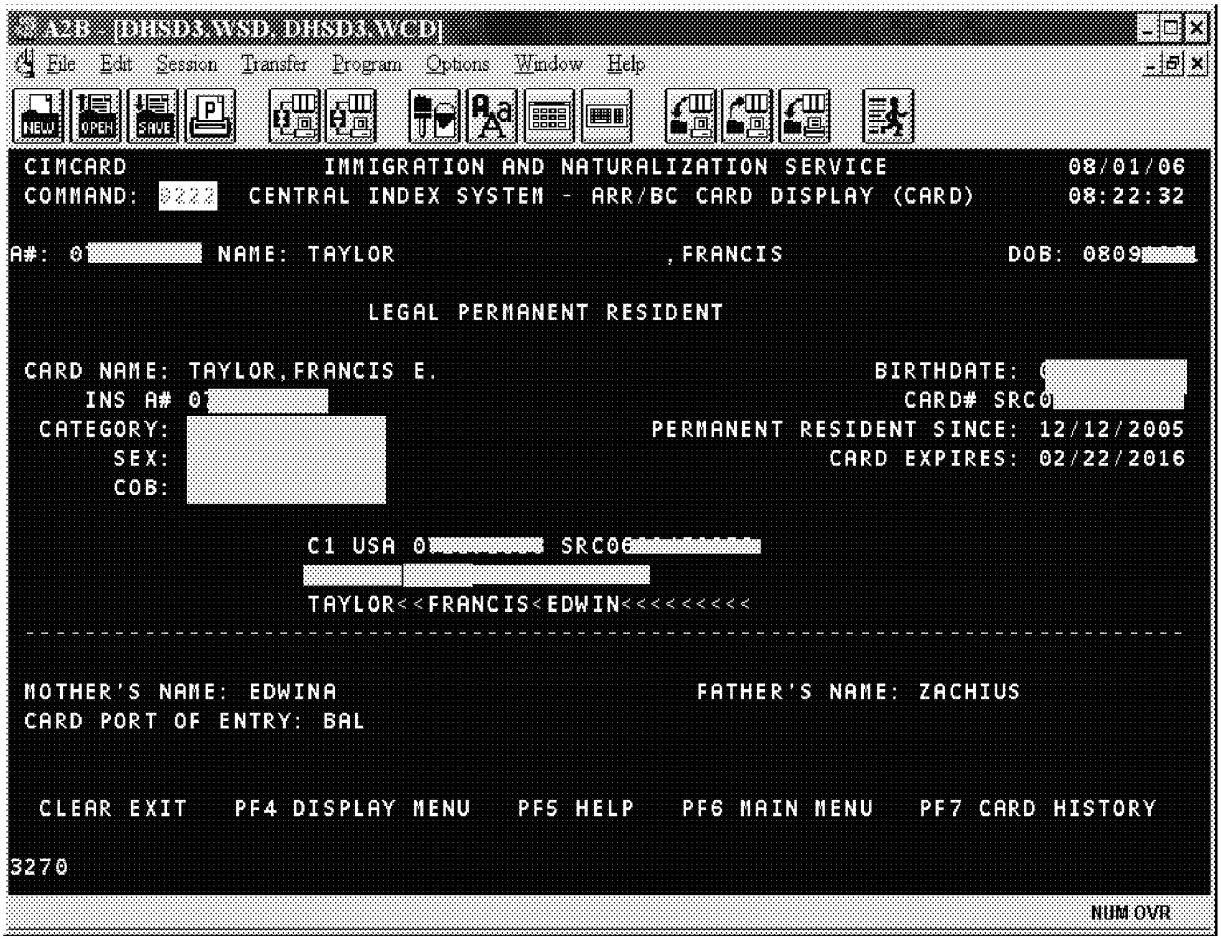
5.1.8 Sounds Like Name With Date of Birth (DOB) Search (9106)



The 9106 screen allows searches for information pertaining to the subject of the request even if the spelling of the name is incorrect. For example, the requestor made a typographical error in the spelling of the name the search results will yield a list of similar names matching the subjects.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.9 Card Search (9222)



The 9222 screen is a snapshot of an actual Legal Permanent Resident (LPR) Card. In addition, this is the same screen to find Border Crossing Card information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.10 File Transfer Display (9504)

The main purpose of the 9504 screen is to check the location and movement of files. This screen's primary use as it relates to FOIA is that it will be used in conjunction with NFTS in the case create function. The following is a list of acronyms displayed on this screen.

FTR: File Transfer Request
FTI: File Transfer Initiated
FTC: File Transfer Complete

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.11 Tables

The **Tables** section contains a wealth of informational codes that can be of assistance in making a decision about the subject of the request, such as **Class of Admission**. To get to this screen select the "keyboard" from the toolbar at the top of the screen and click the clear button on the keyboard. Once this is done type in the word **tables.** The next screen displayed will be the **Tables Menu Screen**.

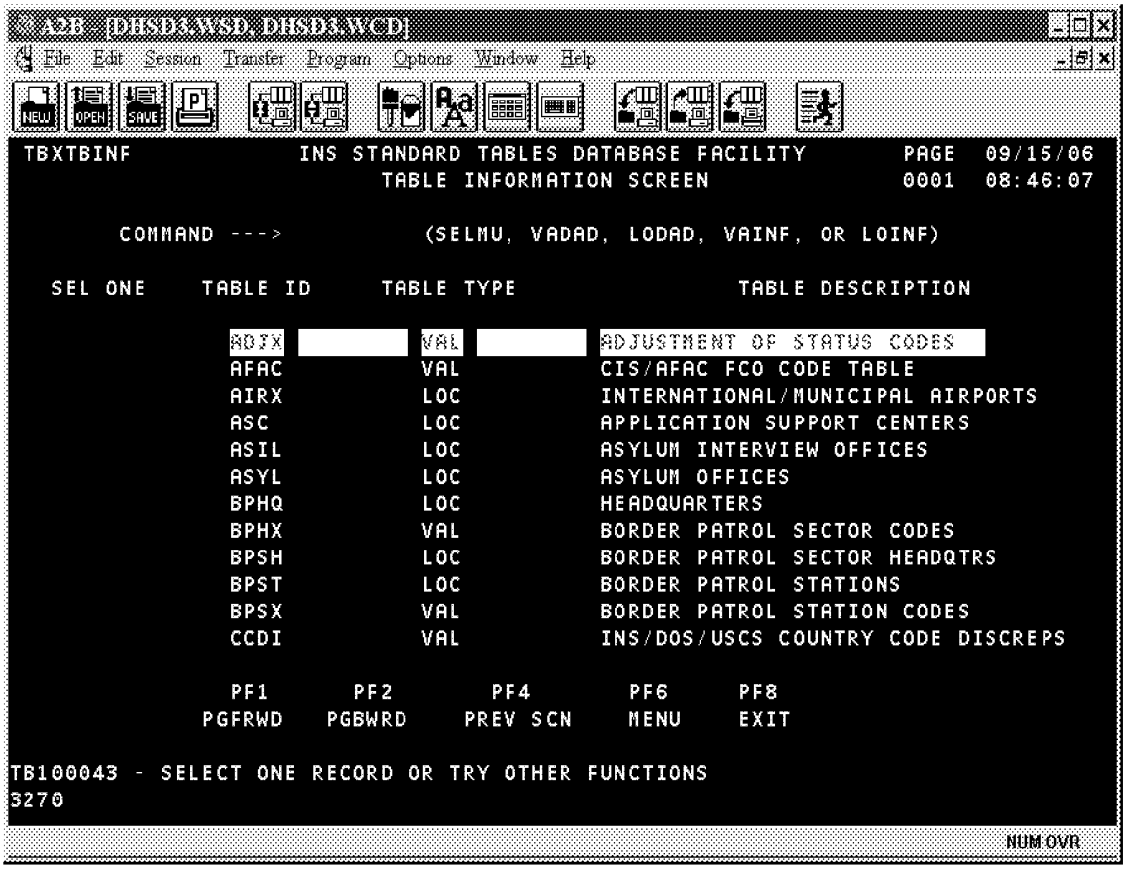
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.12 Tables Menu

Placing the cursor in the **Table ID** field and pressing the function key PF7 a list of tables is displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

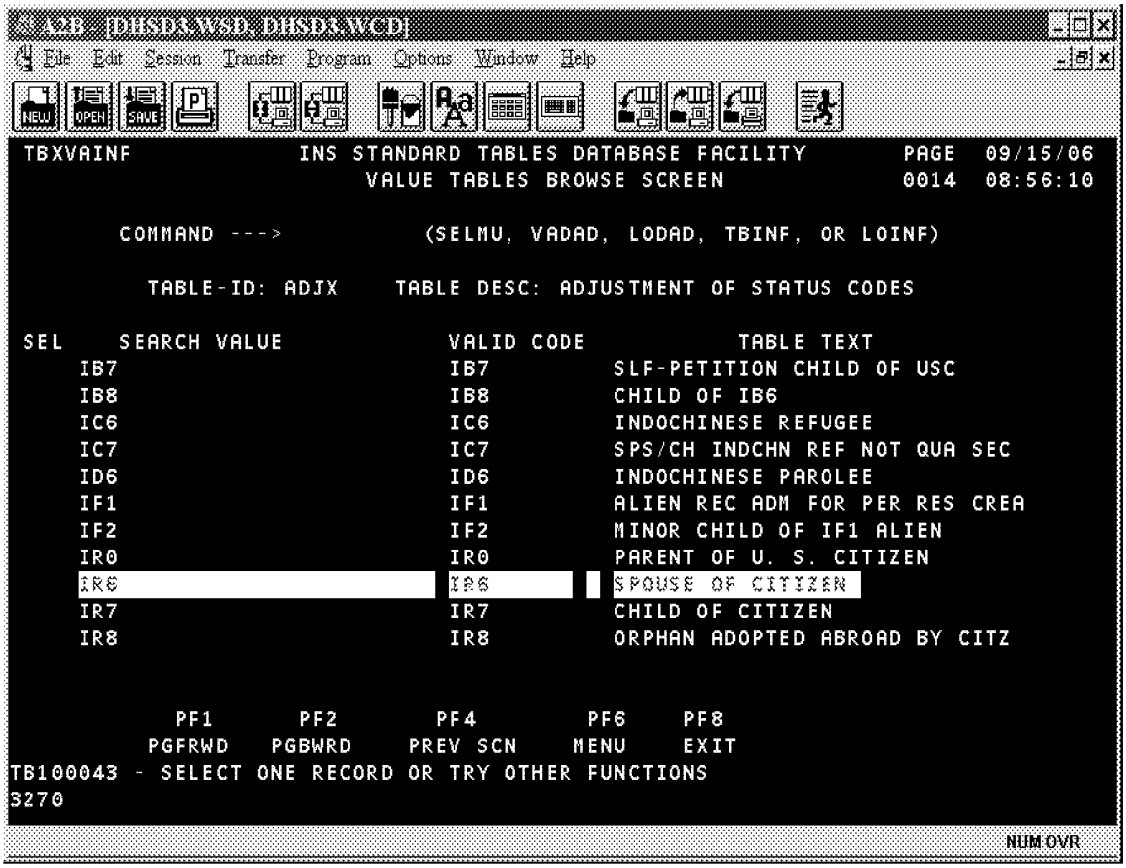
5.1.13 Tables Information Screen



The tables are in alphabetical order. Place an **X** in the "SEL ONE" column and press enter and this will bring up a list of different codes.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.14 Value Tables Browse Screen



Read the screen in its entirety for navigation instruction and additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

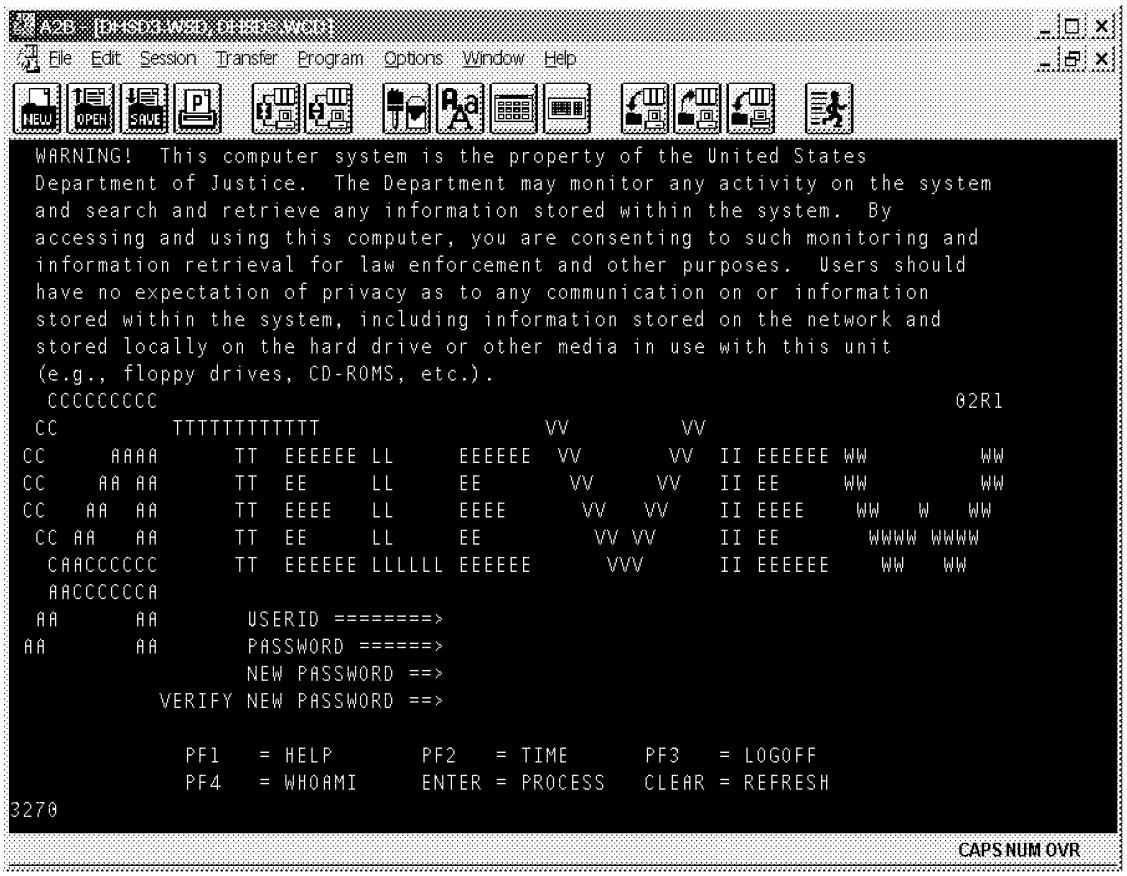
5.2. Computer Linked Application Information Management System

5.2.1 Introduction

The Computer Linked Application Information Management Systesm (CLAIMS) tracks application and petitions. CLAIMS is a menu driven system. The Inquiry/Update Processing selection on the menu is the only menu NRC FOIA uses because we search for receipts but never modify information in CLAIMS.

5.2.2 Teleview Introduction Screen



This screen is the introduction to TeleView. From this screen, use the designated UserID (NRC####A) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

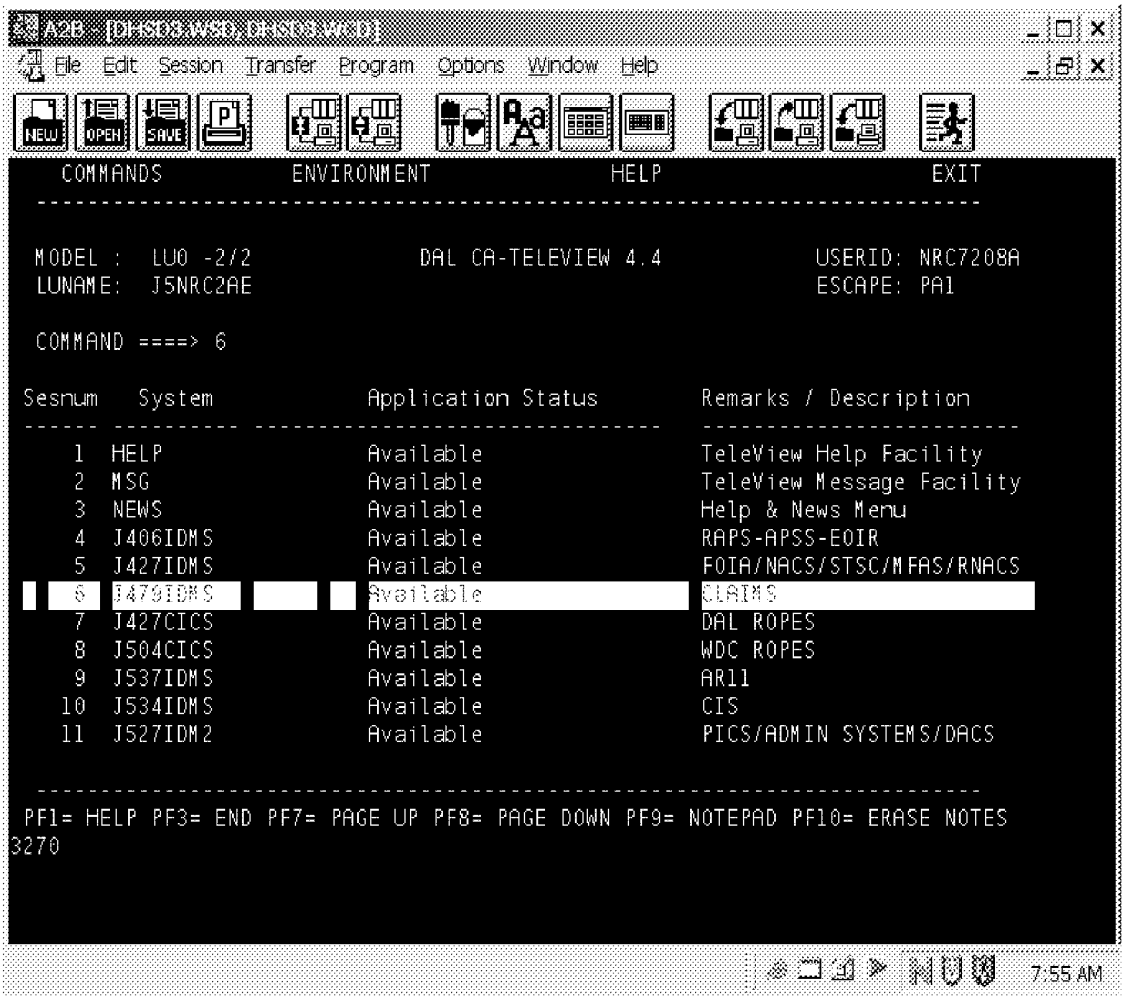
5.2.3 CLAIMS Selection Screen



The number selected to access CLAIMS can vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

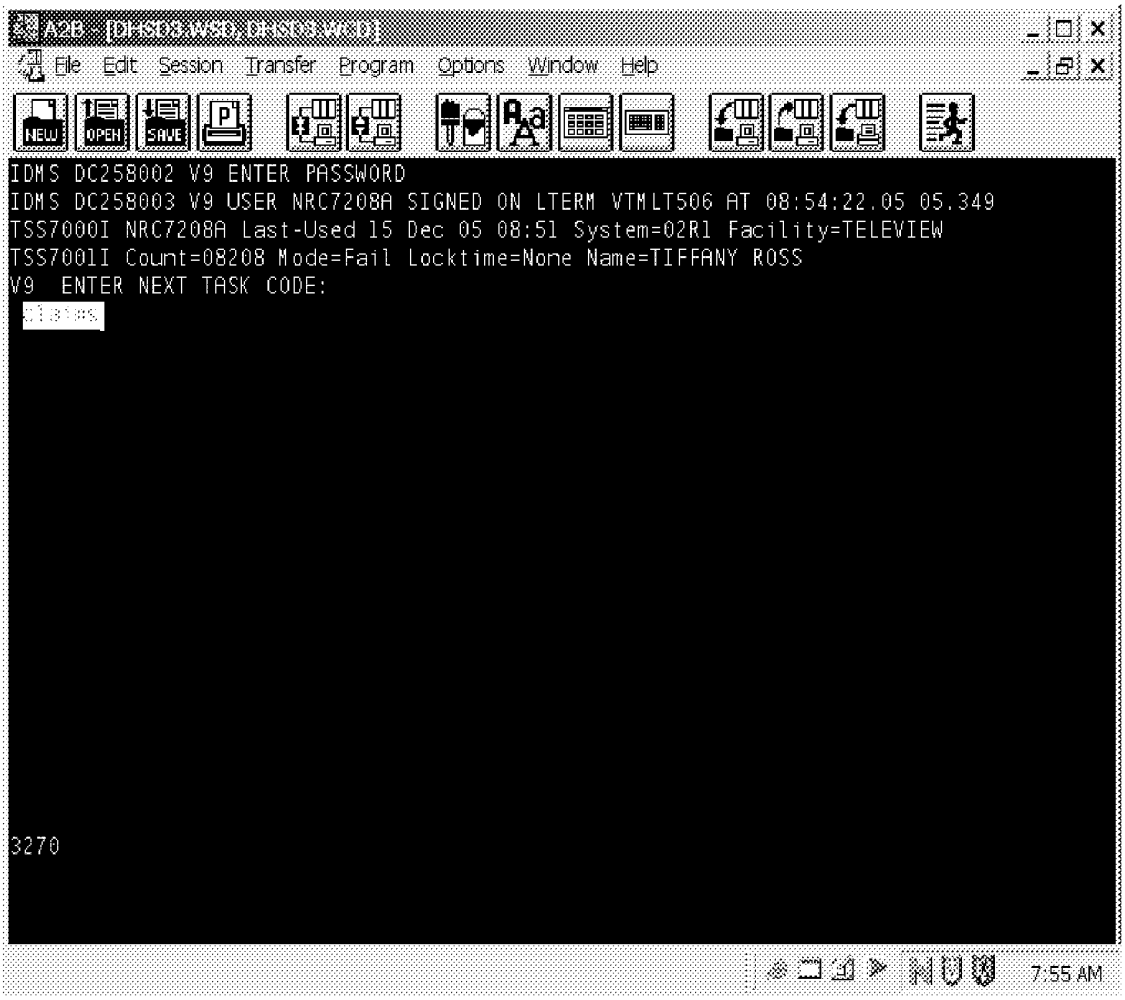
5.2.4 CLAIMS Function Screen



After selecting CLAIMS from the main menu, you will see the screen print shown above. Type in claims and press enter. This screen is not case sensitive.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

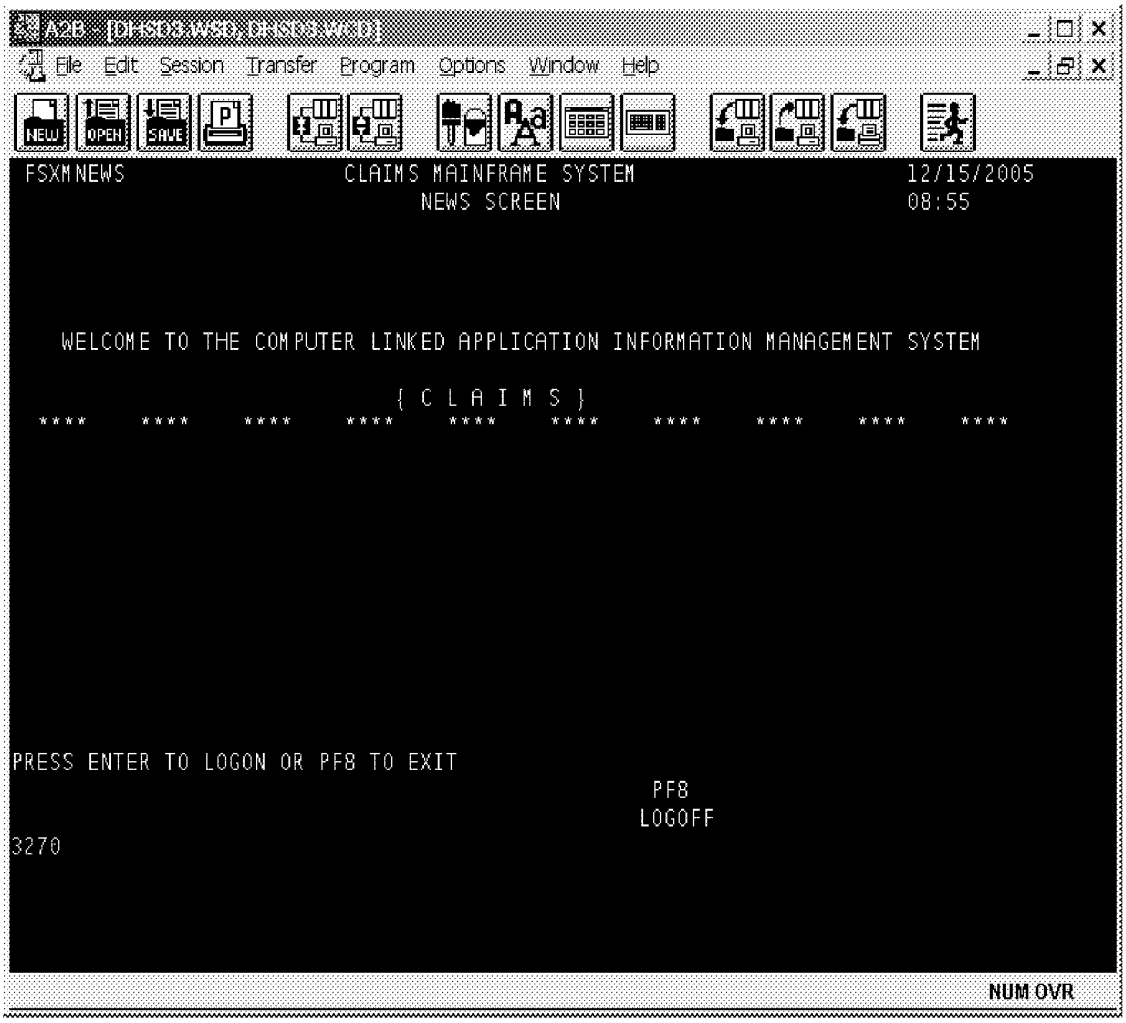
5.2.5 CLAIMS Welcome Screen



Press enter from here to get to the logon screen.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.2.6 CLAIMS Logon Screen

To logon, your USER ID will be NRC and the last 4 digits of your social security number followed by a letter (NRC1234A). Check with your supervisor for your password.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

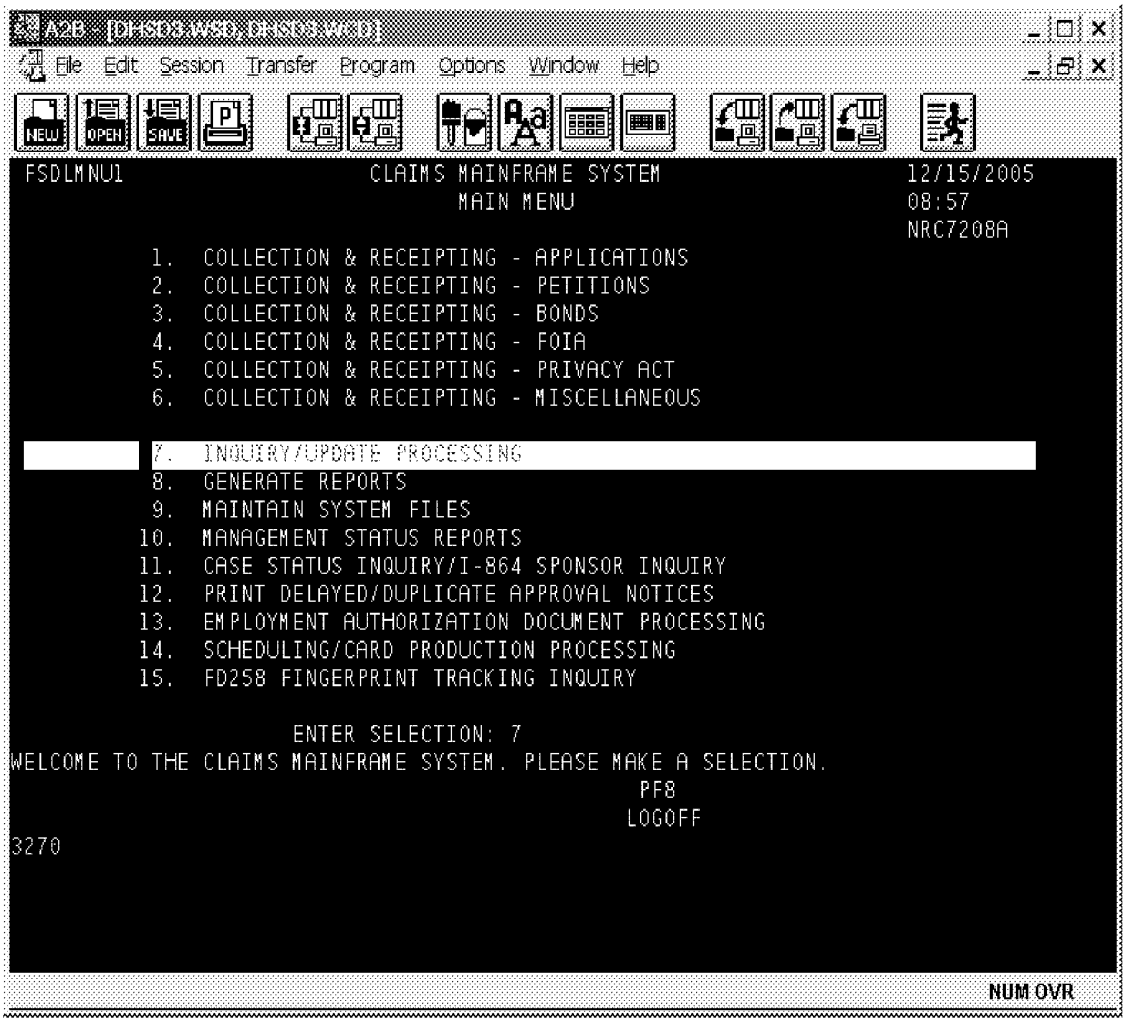
5.2.7 CLAIMS Main Menu Screen



From the Main Menu type the number for INQUIRY/UPDATE PROCESSING and press enter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

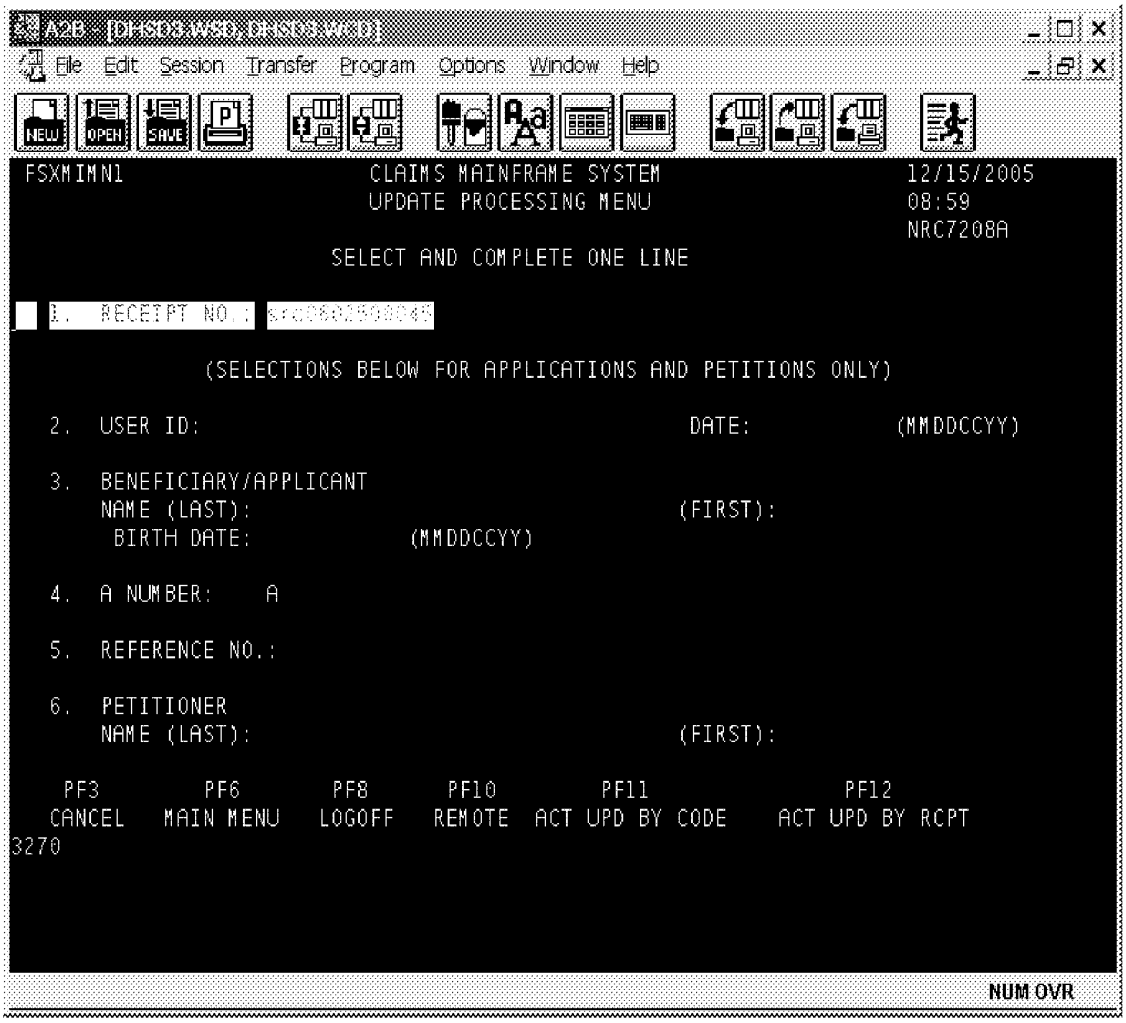
5.2.8 Inquiry Screen, searching with a Receipt Number



On the Inquiry screen, there are several ways to search for records. If you know the receipt number, type the number under the first field to pull up the receipt information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

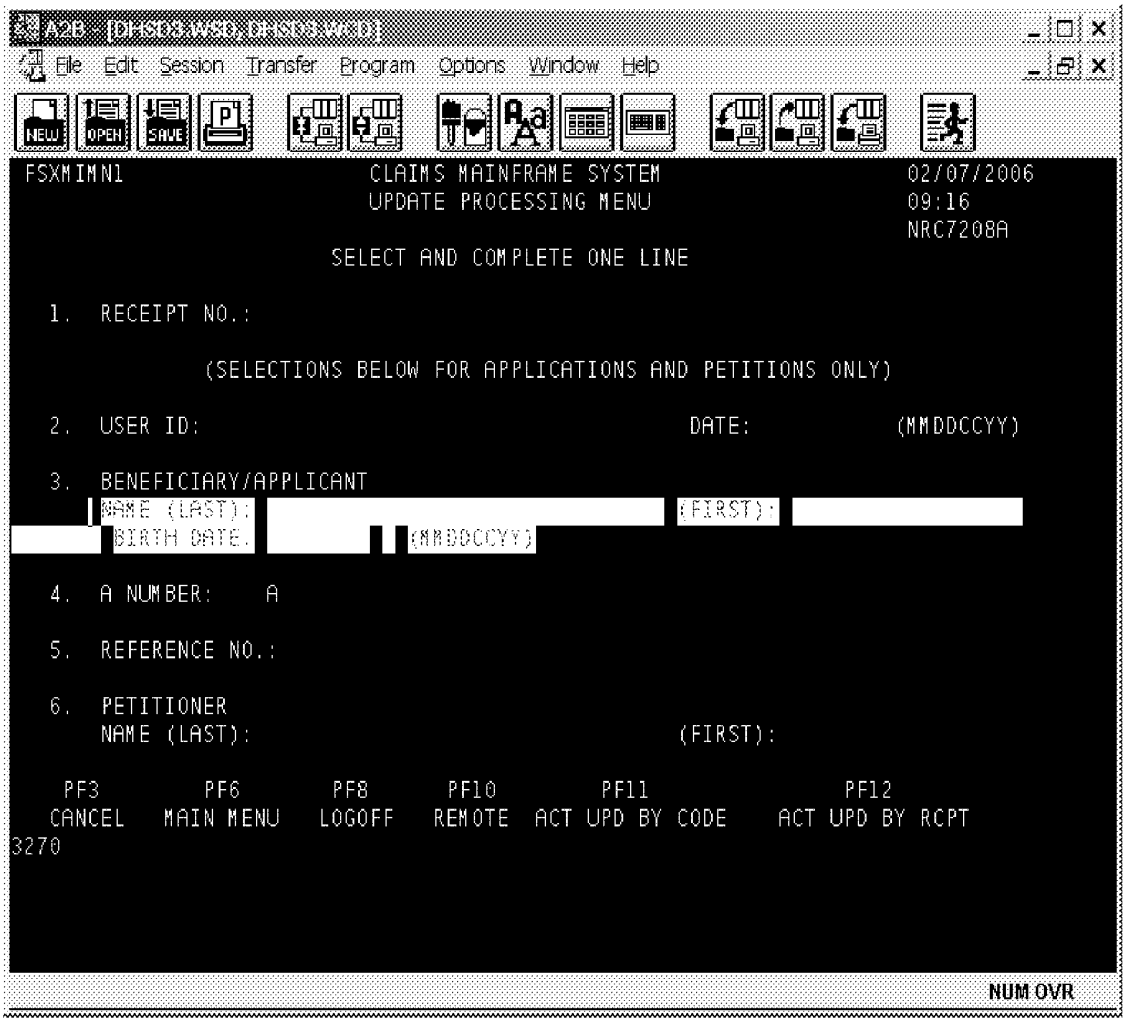
5.2.9 Searching CLAIMS using a Name and Date of Birth



You may also search name and birth date. CLAIMS does not forgive spelling errors and will not conduct "sounds-like" searches. If you do not immediately find a receipt, you should also search by alias names and variations of the name. You may also search without the birth date. This may have the results you are looking for depending on how common the name of the subject. Searching using the birth date will narrow the findings.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

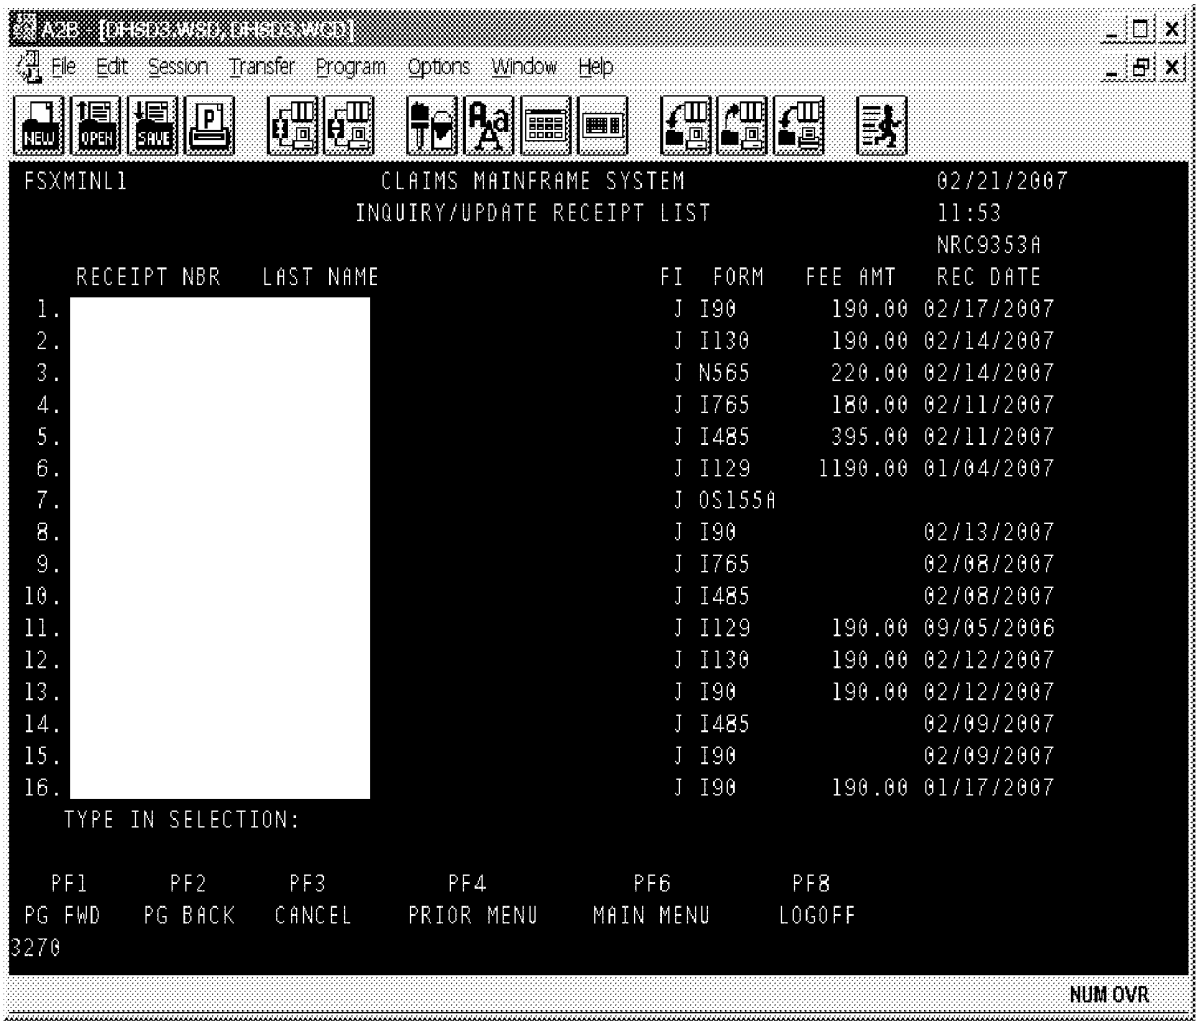
(b)(6)



If your subject has a very common name, the inquiry may result in several pages of matches. View the screen pertaining to the individual receipt number or look for the type of form. It will show detailed information relating to that specific receipt number. To view the detailed information, type the corresponding number at the bottom of the screen labeled "TYPE IN SELECTION." For example, if you type "3", the detailed information relating to receipt number SRC0710351687 will be displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

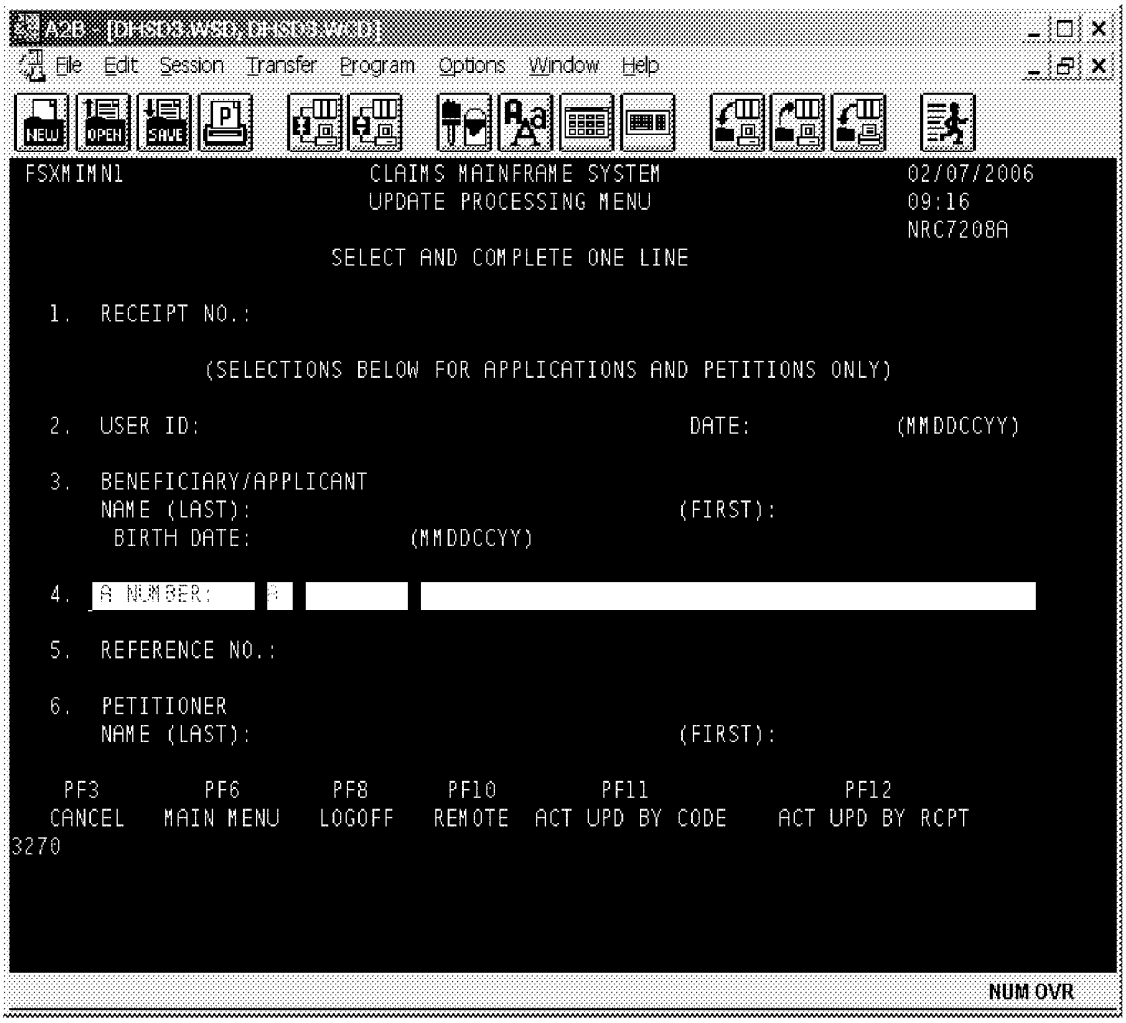
5.2.10 Searching with the A-Number



You may search by A-number. Navigate through these fields by tabbing, or to go backwards, use Shift-Tab. CLAIMS used to allow adjudicating officers to enter alien numbers as an eight-digit number without a leading zero. Ordinarily you should enter a leading zero immediately following the letter A (in purple on this screen) and then enter the rest of the A-number. If you do not find what you need, try deleting the zero immediately after the "A." If the person has a nine digit A-number, you will not have to worry about it. Note: if you search by A-number, it may not show every receipt belonging to the person, so you may still have to search by name and date of birth or by petitioner's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

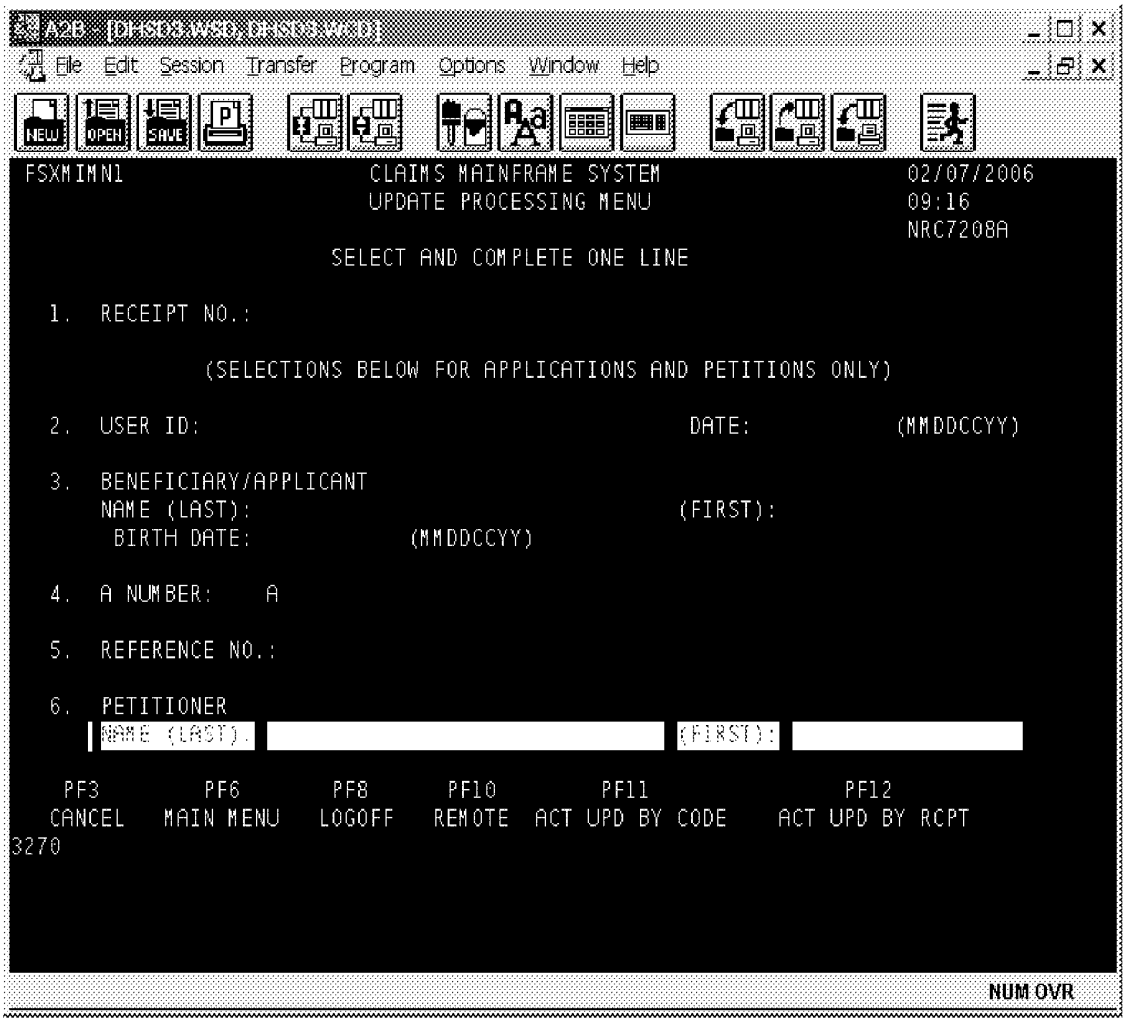
5.2.11 Searching with the Petitioner's Name



You may search by using the petitioner's name, but be forewarned: if the petitioner has a very common name, the results of this search may be overwhelmingly voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

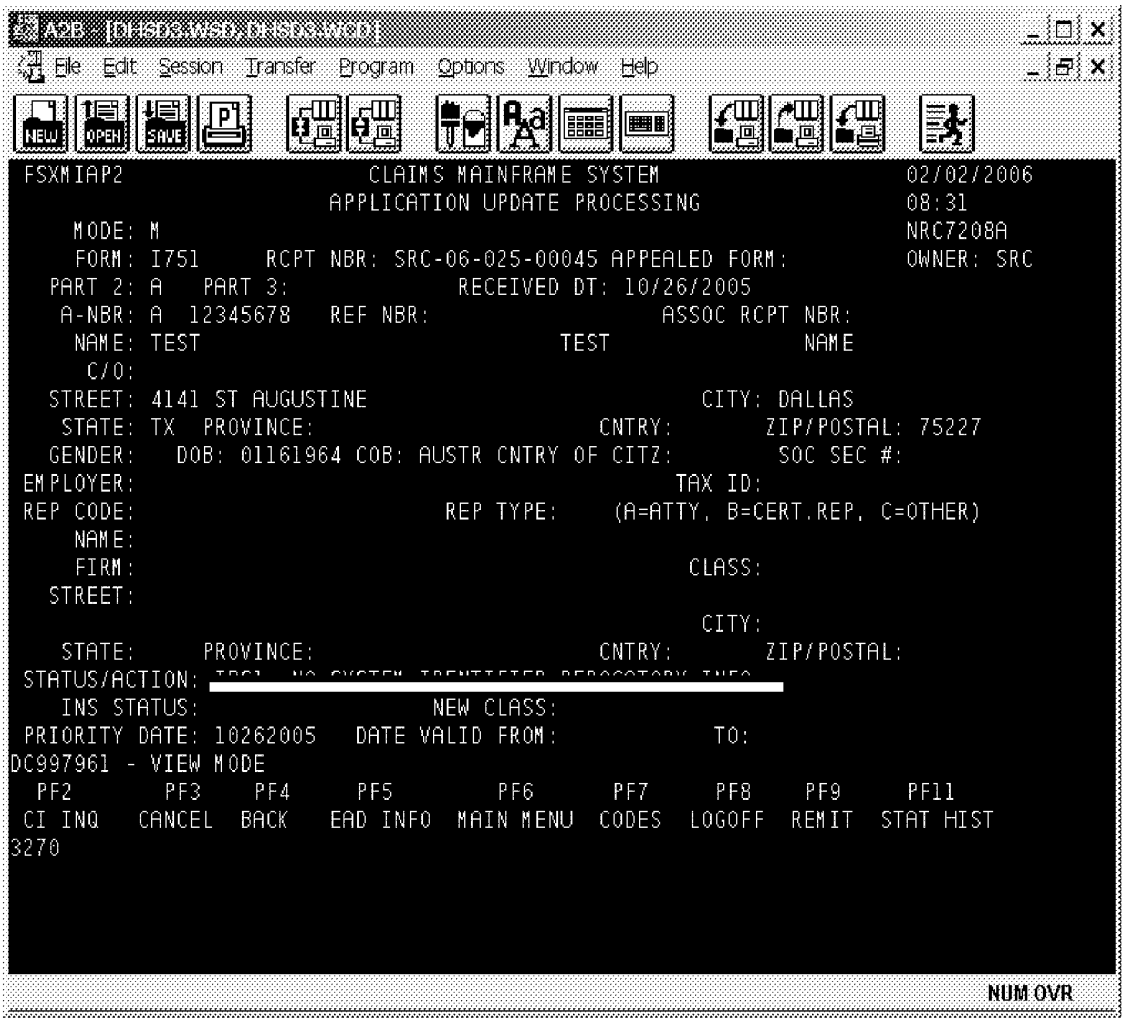
5.2.12 Search Results

The screen print below is the result of a search. The receipt shown is for an I-751, Petition to Remove Conditions on Residence.



(b)(7)(e)

The receipt information gives the name, date of birth, A-number and address. The status of the receipt file is near the bottom of the screen. (STATUS/ACTION: IBS1)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The top right corner of the screen shows the owner of the file, this may help in determining where to request the receipt file, especially if the receipt information is not in NFTS. This receipt begins with SRC, but that does not matter for staffing – the OWNER would be where you staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

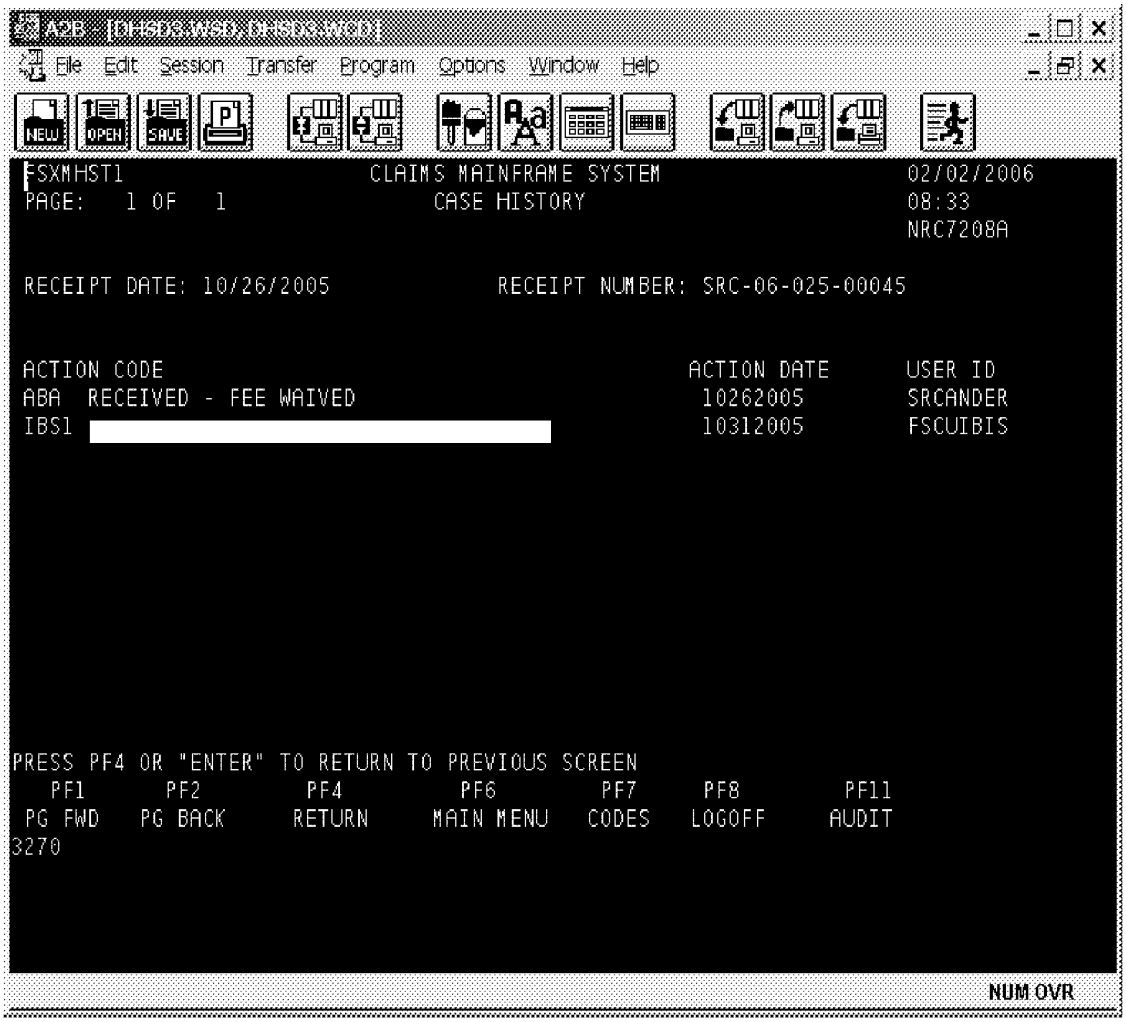
(b)(7)(e)



By pressing F11, you may view the history screen. From this screen, we can see the status of the application/petition. If the petition has been approved, destroyed, or transferred, it may make a difference as to how we staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

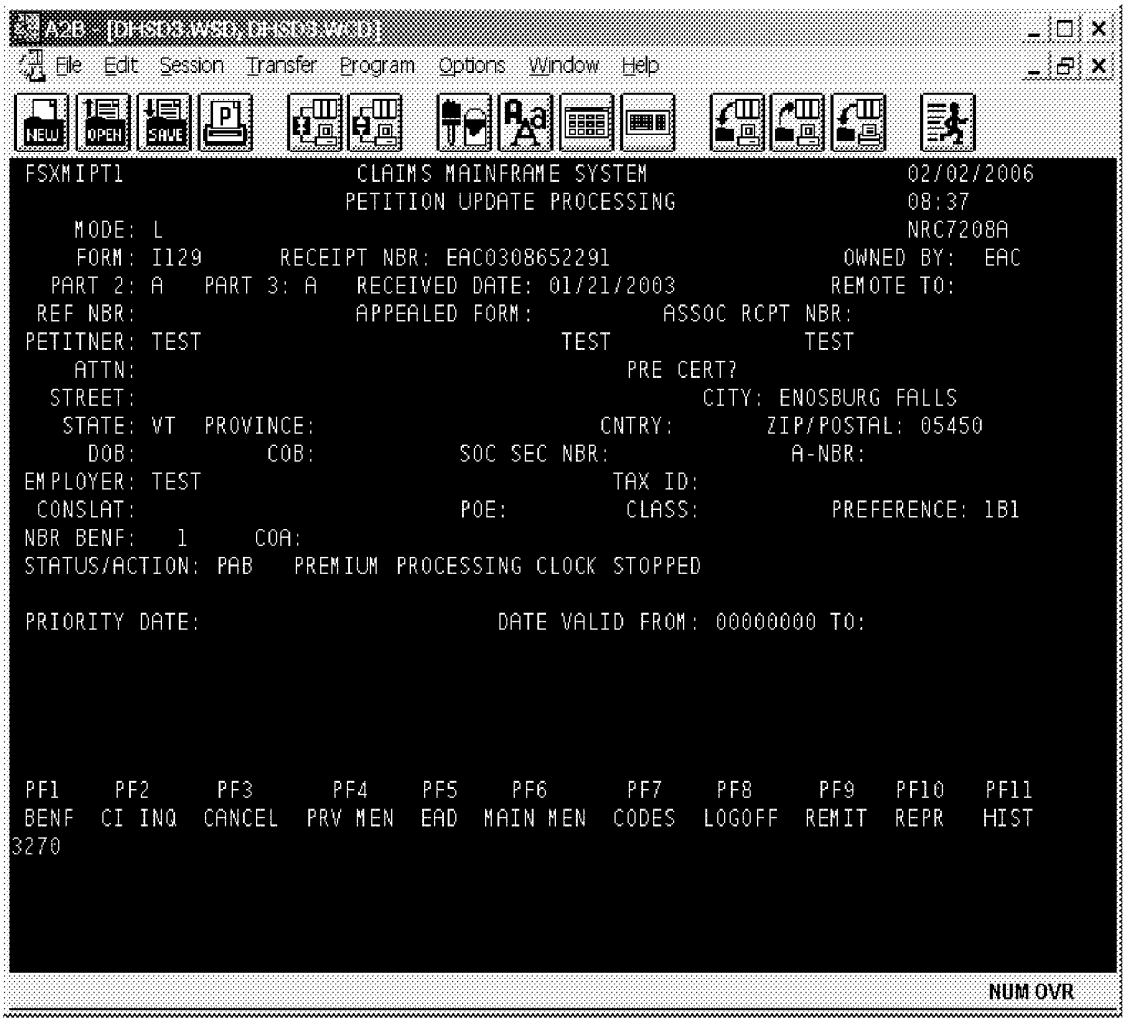
5.2.13 Beneficiary Petition for Non Immigrant Worker



On an I-129 petition, the petitioner's information is on the first screen you pull up after you enter or select the receipt number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To see the beneficiary information press F1.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To view the history, press the F4 key to return to the previous screen, and enter F11.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

There may be numerous results on a name search. Press F1 to see the results of the next page. To view number 10 on page 2 of the results, enter "10." To go back to the results of the search, press F4. The screen always returns to the first page of the search results. Remember this if you are going through the results page by page.

5.3. National File Tracking System (NFTS)

NFTS is an automated system that enables USCIS to track and account for nearly 50 million Alien Files (A-Files) and Receipt Files. NFTS allows for local control of all files within a designated USCIS File Control Office (FCO) or Case Control Office (CCO), The system supports the file migration from the USCIS field offices to facilitate a national tracking system that supports the National Records Center (NRC) and a centralization of agency records. You will learn much more about using NFTS in the Staffing section of this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

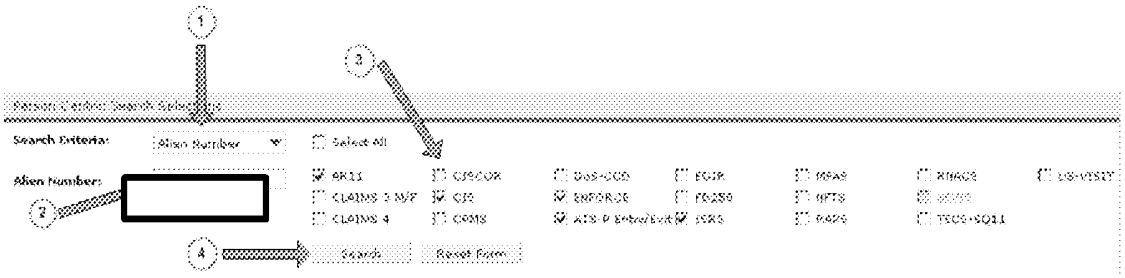
5.4. Person Centric Query Service (PCQS)

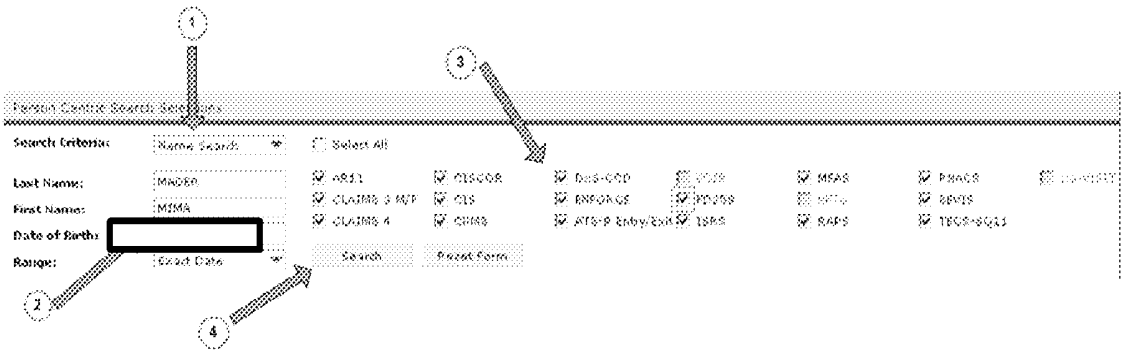
PCQS is an automated system that allows a person to submit a single query for all transactions involving an immigrant across a number of USCIS and Department of State (DoS) systems. PCQS returns a consolidated view of the immigrant's past interactions with USCIS and the Department of State as he or she passed through the U.S. immigration system.

Since PCQS can give us a comprehensive overview of a person's immigration history, it can help us locate certain documents to request, for instance, we may find information about an archived receipt in PCQS that we would not find in CLAIMS. You do not have to log in to PCQS to read the PCQS User Guide. Simply go to https://pcq.esb.uscis.dhs.gov/ and click on the Users Guide link below the Warning.

(b)(6)



(b)(6)



5.5. FOIA/PA Information Processing System (FIPS)

The Freedom of Information Processing System (FIPS) is an automated system that allows us to process FOIA/PA requests electronically. This automated system enables the scanning of paper files into electronic images. These images are easily stored, retrieved, and processed. FIPS provides workflow processing for the life of a case. Any time you do any transaction concerning a FOIA/PA case, it will be through FIPS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

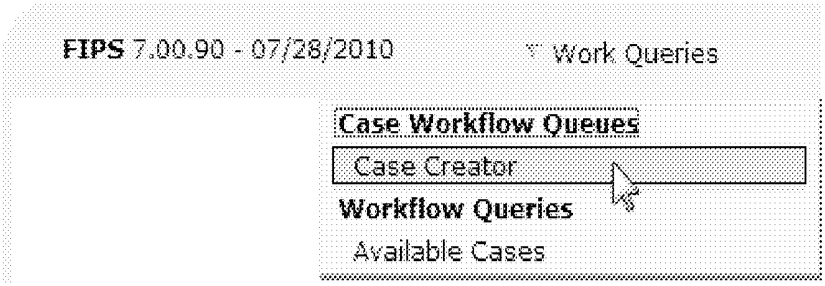
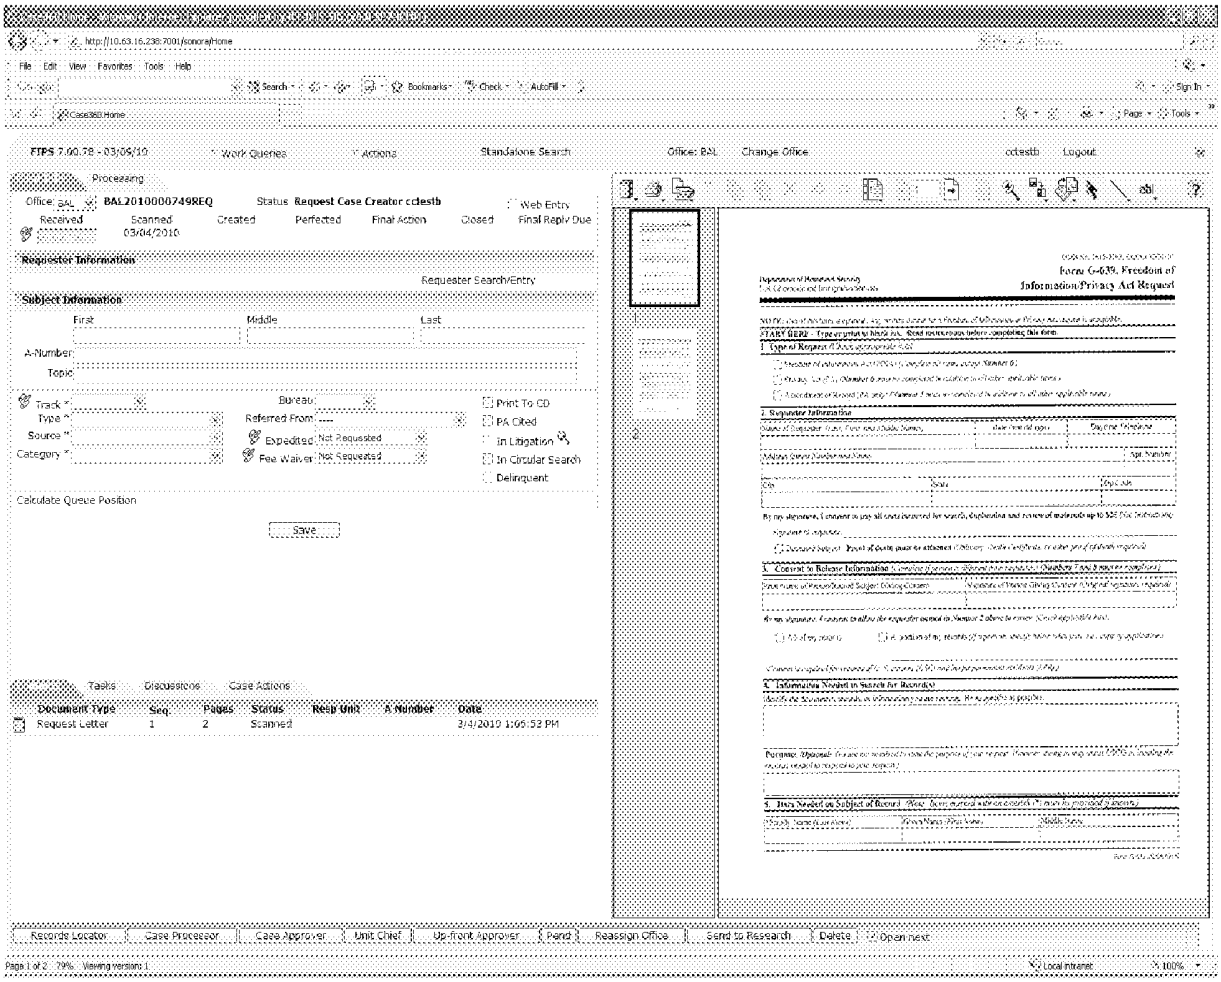
Type of request	Source	Track 1, 2 or 3	Category	Print to CD
• Always FOIA	• Attorney • Commercial • Education/Scientific • Foreign Government • News Media • Others • Representative • Self • White House/Congressional		• Alien File • Asylum • Specific Documents • Non A-File Material • Personnel • Special Interest Group • SFR cases at NRC	

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6. CREATING THE CASE





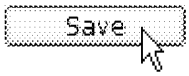
On the FIPS worksheet under the header "Contents," you will notice that usually Sequence 1 is the "Request Letter" and Sequence 2 is usually "Request Supporting Documents." There will be a date and time in the right column.

Sometimes the request will be Form G-639 only, sometimes it will be the G-639 and a G-28, Power of Attorney, sometimes it will be a letter from an attorney or representative and a G-28.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Sometimes it will be a letter from the subject of record. At times, there will be documents scanned in, such as alien registration card, driver's license or other forms of identification. Other documents you may see can include miscellaneous screen prints or memoranda. You should view (almost) all documents scanned in FIPS in the Request Letter and Request Supporting Documents slots before you create the case.

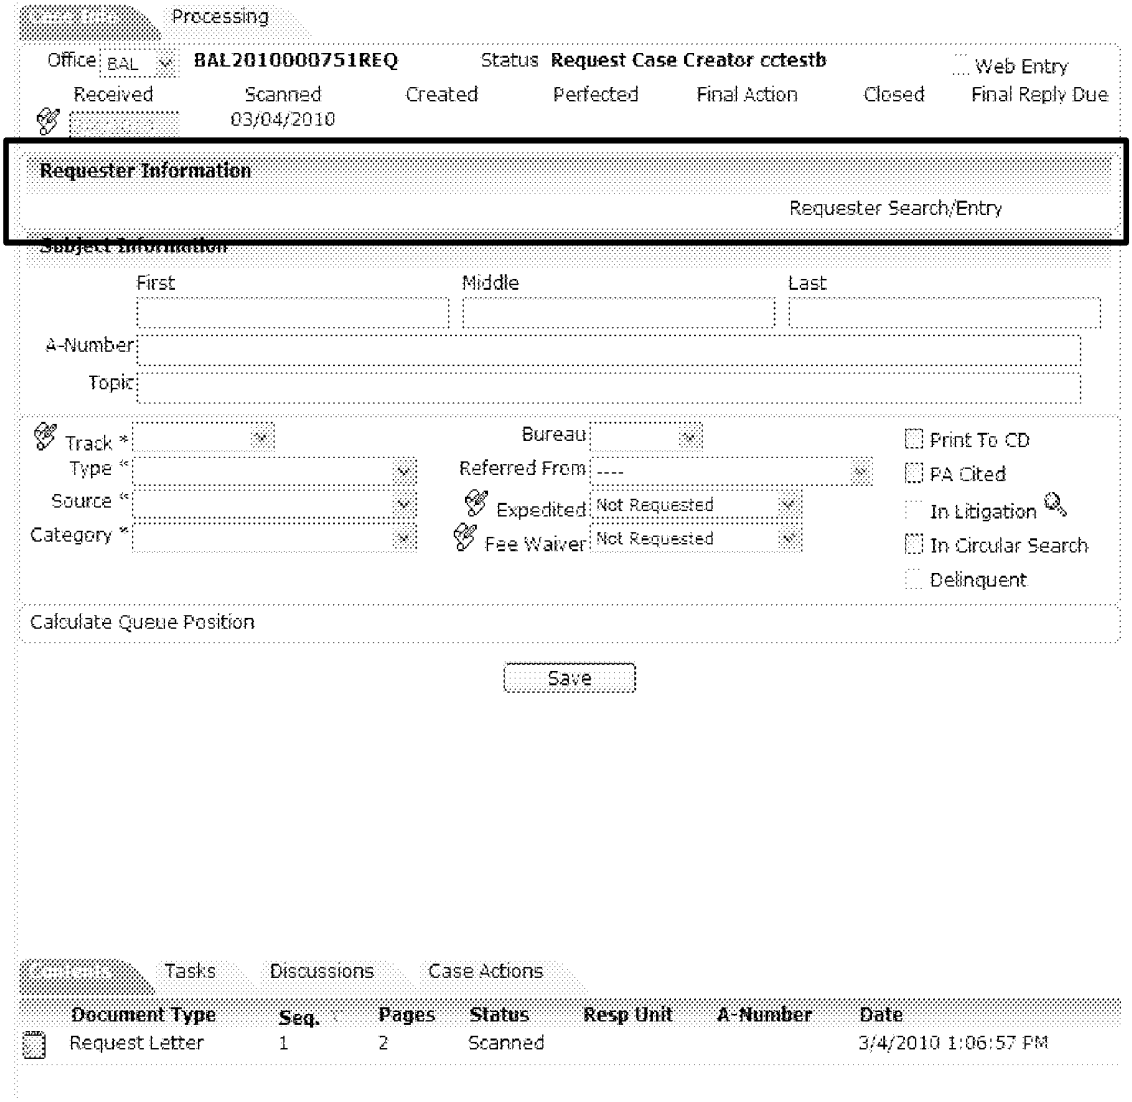
During the Case Create process, you may need to leave your work station, or you may receive a telephone call, or various things may happen to distract you from creating the case. If anything happens and you need to stop work temporarily, it is ***always*** a good idea to click:



You must identify the following critical items and enter them into the FIPS worksheet before creating the case:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1 REQUESTER INFORMATION



6.1.1 RULES FOR ENTERING INFORMATION ON THE FIPS WORKSHEET

6.1.1.1 Do not use all capital letters in names.

6.1.1.2 Do not use professional titles, such as Doctor or Reverend in the requester information.

6.1.1.3 You may use Jr., Sr. or II, III, etc., if the requester or subject uses it on the request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.1.4 Do not open cases in the name of a company or firm only. If the name of the requester on the Form G-639 is a company name, please review the supporting documents to try to locate the name of the attorney/representative of the company.

For example, if your request comes in on a G-639 and the name of the requester is only the name of the law firm representing the alien (for example, Wilens & Baker) you will need to look through your supporting documents to see if you can locate the name of the attorney at Wilens & Baker who is representing the alien. If you cannot locate the name of the attorney who is representing the alien, then open the case in the name of the alien, in care of the law firm. Do not use "Wilens & Baker" as the requester name.

6.1.1.5 Do not hyphenate names.

6.1.1.6 Double-check the spelling of the names. If the name of the requester is not clear on the request letter, check the supporting documents for a Form G-28 for a clear copy.

6.1.1.7 Add a period after the middle initial.

6.1.1.8 Rescinded. ~~If the subject does not provide a middle name or initial, enter "NMN" in the "Middle" field.~~

6.1.1.9 Do not use part of the last name as a middle name, for example Hispanic names. Sometimes it is obviously a middle name, such as Juan Jose Gonzalez. Sometimes it is obviously a first and second last name, such as Juan Gonzalez Becerra. Other times, it is not so clear. You might look at the mother's and father's last names, if provided. If you are unsure, contact a supervisor.

6.1.1.10 If the request came to us on Form G-639, always use the name and address of the requester in Section 2, "*Requester Information*." Never use the address on the envelope, or Form G-28 or letterhead *unless* the requester did not use Form G-639 *or unless* Section 2 of Form G-639 is illegible. If the address on the G-639 is a foreign consulate office, or is a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you can find no other address, insert a case note and send the case to U/C.

Be careful - it is easy to miss apartment or suite numbers because the space for them is at the right side of Form G-639.

6.1.1.11 Each line of the address in FIPS can contain no more than 35 characters; this includes spaces and punctuation. When we are printing the responsive records to CD, nothing over 35 characters prints on the CD. This requires the OA clerks to print a label separately for those CD's before mailing.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.1.12 Do not use special characters, such as "&" and "#" in the address field; rather, spell them out or use an abbreviation, such as "and" or "No." Note: you ***may*** use spaces, dashes, periods, commas or single quotes ('). You ***may not*** use @, #, $, %, ^, &, *, (,), =, +, [,], {, }, \, <, >, or /.

6.1.1.13 Please include the suite number or apartment number on the same line as the street address. FIPS will allow you to key in more than 4 lines in the address box. The issue is when the case is processed and the CD is printed, it only prints the first 4 lines. The requester's name is the first line of the address, so you have three lines left. Enter any suite numbers or apartment numbers in the address line.

6.1.1.14 If the requester does not provide a valid address use: 123 Main Street, Washington, DC 12345. Send an e-mail to your supervisor and assign the case to Unit Chief.

6.1.1.15 When the attorney or subject of the request provides both a physical mailing address and a P.O. Box, use the P.O. Box for the official mailing address and do not include the physical address. Please do not use both.

6.1.1.16 The address can only be four lines long, even though FIPS gives you an extra line. The requester's name is always the first line.

6.1.1.17 If an attorney represents the subject, the first line of the address should be the name of the law firm the attorney is affiliated with, or, Attorney at Law, or "c-o" and the law firm name or the name of the attorney.

6.1.1.18 If the address is foreign, you must check the box marked Foreign. This will change the format of the worksheet to include the Province and Country. You must complete these fields to ensure proper delivery. Before pending this case for any further action, please check the "Print to CD" box and add a Discussion note that you did so.

The following places are NOT foreign countries:

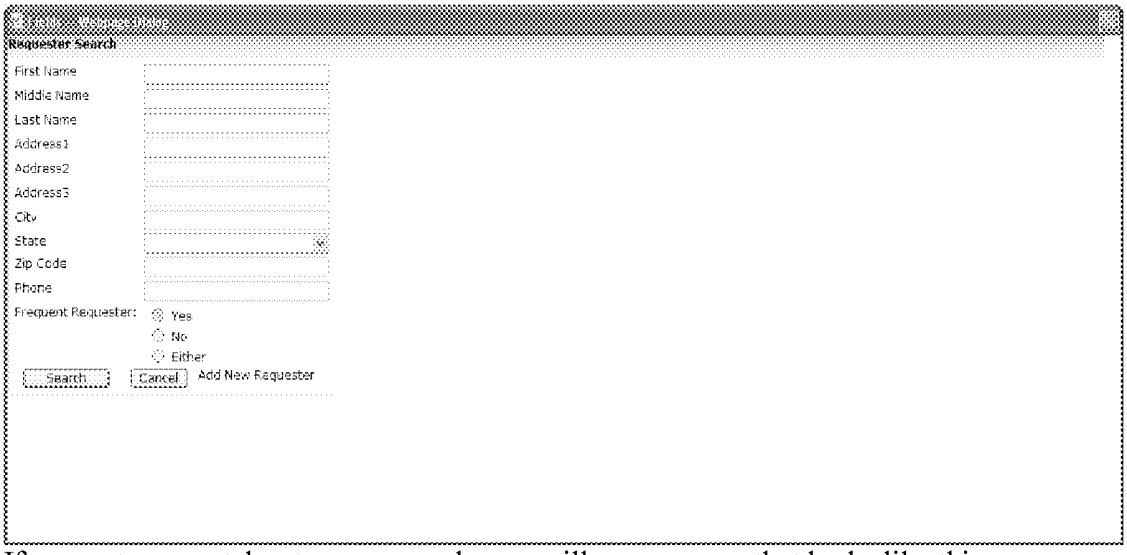
American Samoa
Guam
Puerto Rico
Northern Mariana Islands
Baker Island
Howland Island
Jarvis Island
Kingman Reef
Midway Islands
Navassa Island
Palau
Palmyra Atoll

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

U.S. Virgin Islands
Wake Island
Micronesia

A foreign address may be very long, and you may have to consult a supervisor to complete the address field correctly.

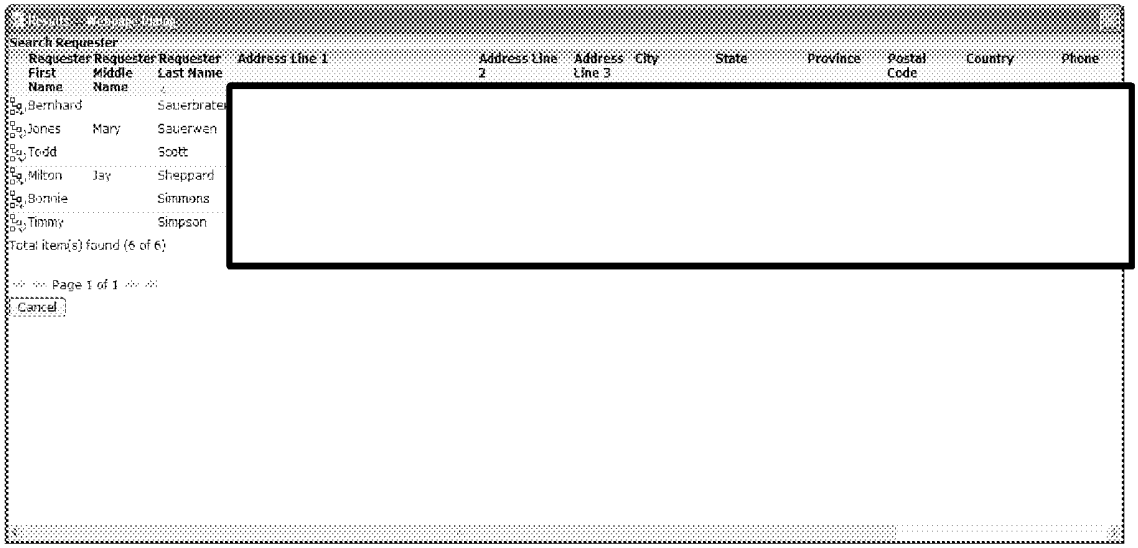
6.1.2 Requester Search/Entry. To locate and select existing requesters or to enter new requesters, click the **Requester Search/Entry** link to open the Requester Search Form. To search for an existing requester, click in one of the available fields in the Requester Search Form and begin entering pertinent information. When searching for a requester whose last name is Smith, for example, click in the Last Name field and enter a portion or the entire last name. After you have entered enough information, click **Search** to locate requesters with matching information.



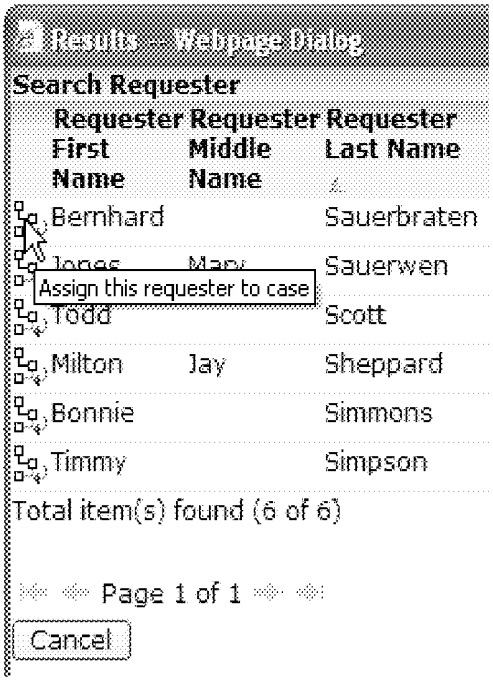
If you get any matches to your search, you will see a screen that looks like this:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



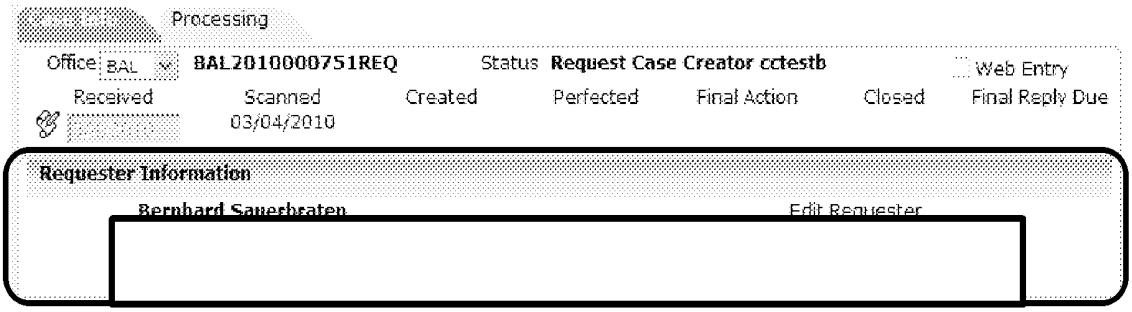
If any of those requesters are a perfect match for your requester, you may "Assign this Requester" by clicking on the icon to the left of the name:



And it will populate the requester information like this:

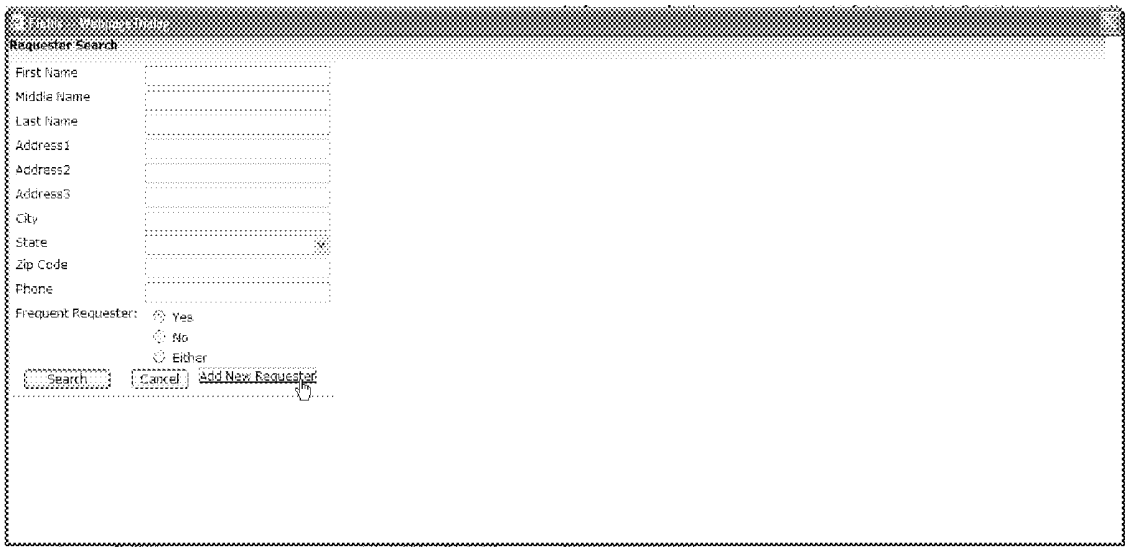
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)

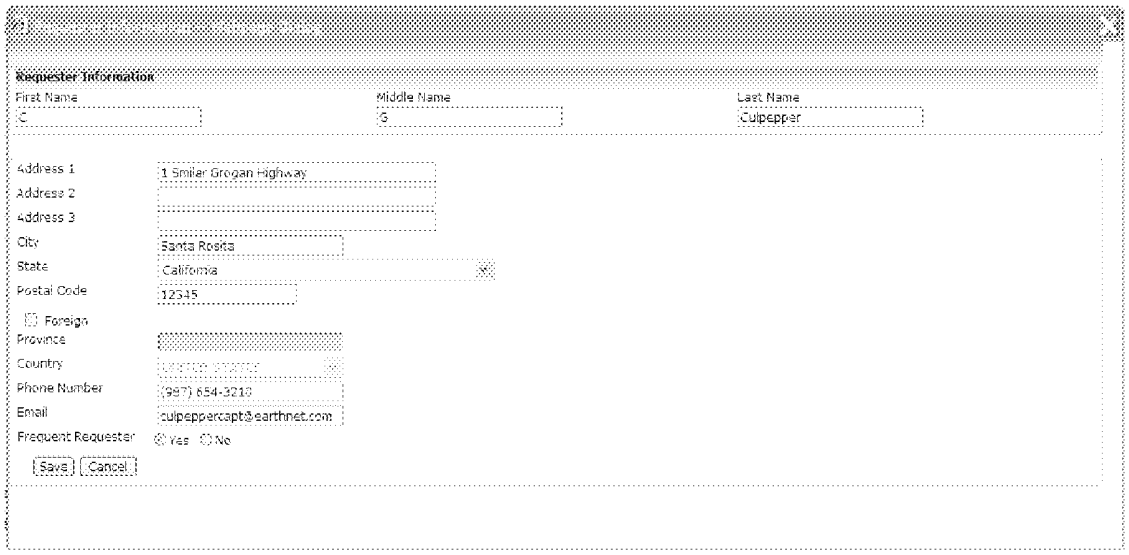


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.3 Add New Requester. If you do **not** find a match, you will have to add a new requester by selecting Add New Requester:



When you click Add New Requester, you will get a dialog box that you fill in. You will enter all information, decide if this is a Frequent Requester, and then click Save.

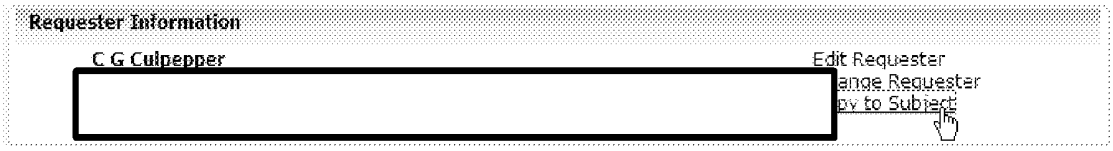


6.2 SUBJECT INFORMATION

After saving, look to see if this is a self-request. If so, you can copy the Requester Information to the Subject:

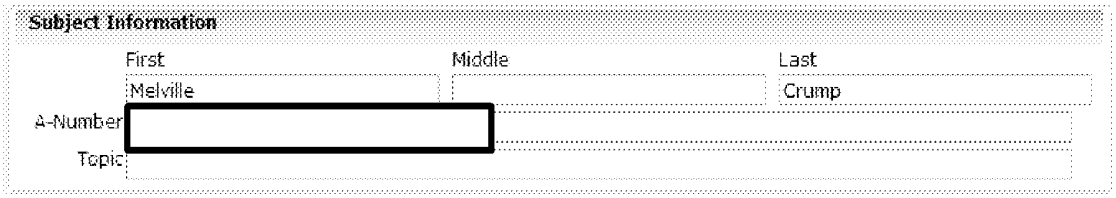
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



Otherwise, you will have to enter the subject information in the area. If the person gave more than one A-Number, please separate them with a comma in the A-Number field.

(b)(6)



6.2.1 Name

Enter the subject's name, as it appears in section 5 of Form G-639 (except in the case of a petitioner asking for a petition).

The name portion of the worksheet is the name of the alien whose file we are requesting. This is usually the name in the subject portion of the Form G-639, or in the subject line of the request letter. However, if the requester is asking for a petition he or she filed on behalf of a beneficiary, then that document will be a separate receipt or it will be in the beneficiary's file, not the requester's file. In situations like this, the subject information would be that of the beneficiary, not the requester.

6.2.2 Alien Number

In the alien number field, enter your subject's alien number, as provided on the request, as an eight-digit or nine-digit number.

6.2.2.1 You should always check the A-number in CIS to be sure it belongs to the correct subject. Once you have established that it is the correct A-number, copying and pasting the A-number will save you from making a typographical error and inadvertently staffing for the wrong file.

6.2.2.2 If the alien provided us with more than one A-Number, please separate these numbers with a comma.

6.2.2.3 If you have created the case and you see less than eight digits in the A-number field, please re-check (by pasting the number into CIS) to make sure you have entered the number correctly.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.2.2.4 Please do not enter the A-number if the requester is a petitioner asking for a copy of an unconsolidated petition, as it will result in a bad staffing.

6.2.2.5 If the requester is a petitioner asking for a copy of a petition that has been consolidated into the A-file of the beneficiary, you should enter the A-number of the beneficiary, since we will request the beneficiary's A-file.

6.2.3 Topic

If the request is for something other than an alien file, for example, a receipt file or a vacancy announcement, then you will add this information in the "Topic" field in the Subject Information area.

"Topic" is used at different times, such as:

- when there is an unconsolidated receipt file
- when it is a request for a vacancy announcement
- when it is a request for a personnel file
- when it is a request relating to policies and procedures service-wide

6.2.3.1 If the alien is requesting a receipt number, enter the information in the following format:

Correct: MSC0412360000

Incorrect: MSC-04-123-60000

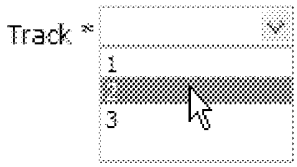
6.2.3.2 Enter the receipt number with no dashes or spaces. This format assists the Mission Support Assistants in locating the files and in locating the cases in FIPS when the receipt files come into the facility, and it will make it possible for case creators to spot duplicate or similar cases. If you are requesting multiple receipt files from the same facility, use only one file request. See **Staffing Sheet Guide** for more guidance.

6.3.2.3 When the request is for vacancy announcements, the vacancy announcement number must be the first part of the description. See **CIS Personnel Information** for more information on handling personnel related requests. In other types of situations, put as much of the pertinent information in the description line as space will allow. You may need to modify the acknowledgement letter.

6.3 CASE SPECIFICATIONS

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.1 Track



6.3.1.1 Track 1 – Requests for receipt files and requests for partial records such as a specific document. A specific document request consists of three documents or less (except asylum or refugee requests, which you should create under category **Alien File** and assign to Track 2).

6.3.1.1.1 Please select the category **Specific Documents** and make the case a Track 1. The first paragraph of the acknowledgement letter sent to the requester must contain the following paragraph:

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the simple track (Track 1). You specifically requested [enter specific document information here]. If you would like a copy of all your records, please send a written request to the address above, otherwise you will receive only the documents you specified.

6.3.1.1.2 Continue to create the case in Track 1 as Specific Documents. The requester may write back later responding that they need the whole file, and a FOIA/PA Assistant working in Records Locator queue can change it to Track 2 at that time.

6.3.1.2 Track 2 – Requests for entire copy of alien file, asylum or refugee requests, and requests from news media or special interest groups.

If the request has "all records" checked and lists more than three documents on the G-639, please select the category **Alien File** and make the case a Track 2.

6.3.1.3 Track 3 – Requests for records of individuals scheduled in the future to appear before an immigration judge. Requesters must provide one of the following documents to receive Track 3 processing:

- Form I-862, Notice to Appear, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-122, Order to Show Cause, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-863, Notice of Referral to Immigration Judge

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Written notice of the continuation of a future scheduled hearing before an Immigration Judge.

6.3.1.3.1 A supervisor will review all incoming FOIA requests and identify Track 3 requests. The supervisor will verify that necessary documentation is present with the request. There should be an attached cover sheet indicating to the case creator whether the request for Track 3 is approved or denied.

6.3.1.3.2 If there is no cover sheet, please evaluate the request and make a determination to approve or deny Track 3. If you are unsure, consult your supervisor.

6.3.1.3.3 Before you create the case, look at the documentation. Sometimes you will find a reference to a current, open case which the requester wishes to upgrade to Track 3. After you verify that the case is open, you may simply click "Send to Research" and you are finished with the case.

6.3.1.3.4 Requesters will sometimes request both Track 3 processing and expedited processing. Do not select both. Neither has to do with the other. A requester could be granted either Track 3 processing or expedited processing, but never both on the same case. For expedited processing guidelines, please refer to **"Expedited Treatment"** in this guide.

6.3.1.3.5 Track 3 processing is not "expedited" processing as that term is used and understood in law. It is not appropriate to use the word "expedited" when discussing Track 3 processing of a FOIA request ("priority" or "accelerated" processing are more appropriate terms for Track 3). Don't confuse the two in correspondence with requesters.

6.3.1.3.6 Refer to the cover sheet the supervisor attached to the request. There should be either an Expedited coversheet or a Track 3 coversheet, but not both. Follow the instructions on the cover sheet attached to the request. If there is no cover sheet, do not mark either box.

6.3.1.3.7 If the requester specified Track 3 processing but the request does not have a cover sheet, please create the case. If you have a request for Track 3 and you see that we have a future court date provided in the request, prepare your response according to the Track 3 Ack Letter found in O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters

6.3.1.3.8 If the requester did not provide any documentation or if the documentation says "a date and time to be determined" prepare an acknowledgment letter and click "Add Track 3 Denial Paragraph." Proceed with creating the case.

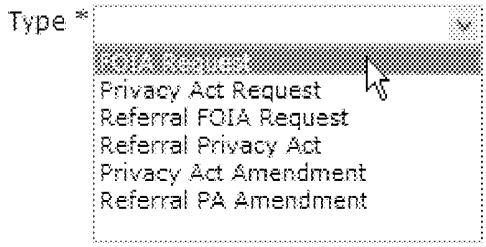
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.1.3.9 If you are not sure whether to approve or deny Track 3, please consult your supervisor.

6.3.1.3.10 If you assign the case to Track 3, ensure you put the words "TRACK 3" at the top of the file request.

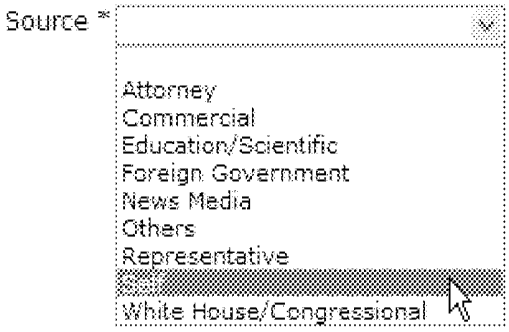
6.3.1.3.11 If the requested file has already been scanned because of a prior FOIA request that has now been resubmitted for Track 3 processing, do not create the case. You should send the case to Research, where they will attach the new request to the existing case as a CSD. If Track 3 processing has been approved, you have to change the track on the original case to Track 3 and add a Discussion to that case explaining why.

6.3.2 Type



Always select **FOIA**. It will be incumbent upon the processor to verify the status of the alien, and to change the case type if necessary.

6.3.3 Source



The source of the request is, quite simply, who is making the request. Is the requester the individual or an attorney or representative speaking on the alien's behalf? Is it a request from the media or a true third party requester? Below is a list of possibilities for requesters:

- Attorney - The requester is an attorney representing the alien. The attorney will have checked the box on the G-28 marked "Attorney," or will have sent us a letter on the law firm's letterhead.
- Commercial

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Education/Scientific
- Foreign Government
- News Media
- Others - The requester of the file is someone other than the alien, an attorney or an accredited representative. They might possibly include a G-28 with something other than "Attorney" or "Accredited Representative" checked.
- Representative - The requester is an accredited representative under the provisions of 8 CFR 103.2(a)(3) and 292.1(a)(1) or 292.1(a)(4). On a G-28, the requester will have marked the box "Accredited Representative."
- Self - This is a request from the alien himself or herself. The request may have the name of an individual followed by "care of" a certain law firm. This is still a self-request.
- White House/Congressional

If you feel that you have a case of a different source of request, please contact a supervisor for further guidance.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.4 Category

There are 30 different categories of requests. However, the most commonly used ones are:

6.3.4.1 Alien File – The requester is asking for an entire copy of an alien file. This category includes the following:

a. Files of living subjects
b. Naturalization records on or after April 1, 1956
c. Visa records on or after May 1, 1951 in A-files
d. A-Files above 8 million (A8000000), and documents therein dated on or after May 1, 1951
e. Registry records on or after May 1, 1951 in A-Files
f. Alien Registration Forms on or after May 1, 1951 in A-Files

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.4.2 Specific Documents – The requester is asking for specific documents, such as a copy of a receipt file, an application or a copy of his or her naturalization certificate. A Specific Document case is a Track 1 case, and vice versa. As a rule, you should create a case as Specific Documents if the requester is asking for up to three documents. If a requester is asking for an asylum application and supporting documents, you should create it as Alien File. (Refer to the section *"What track is my case?"* that follows.)

6.3.4.3 Personnel – The requester is seeking information relating to USCIS personnel matters.

6.3.4.4 Special Interest Group – Requester(s) are seeking information relating to special interest requests such as news media requests, highly visible or public interest cases. We receive this kind of request from members of the media, activist groups, watchdog organizations or educational institutions. The documents requested are normally associated with a controversial or sensitive subject.

6.3.4.4.1 Select "Special Interest Group" if any of the following criteria are met:

a. The FOIA request relates to a Presidential or agency priority;
b. The FOIA requester or requested documents will garner media attention or is receiving media attention;
c. The FOIA request is for documents associated with meetings with prominent elected, business, and/or community leaders;
d. The FOIA request is for congressional correspondence;
e. The FOIA request is from a member of Congress;
f. The FOIA request is from a member of the media;
g. The FOIA request is from a member of an activist group, watchdog organization, special interest group, etc.;
h. The FOIA request is for documents associated with a controversial or sensitive subject;
i. The FOIA request is for documents associated with a senior official of the component;
j. A FOIA appeal if it meets one of the "a" through "i" criteria;

Items listed above are suggestive and not exclusive – exercise judgment when marking cases with category "Special Interest Group."

6.3.4.4.2 If you believe a request qualifies as a Special Interest Group, choose that case category in FIPS, change the office from NRC to COW, search for duplicates and then create the case. Do not create a file request or an acknowledgment letter. Prepare an e-mail explaining the situation for NRC, FOIASIG. Click "Reassign Office." Send the case to Unit

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Chief. A Special Interest Group (SIG) processor will create the staffing and acknowledgment letter. This enables the Special Interest Group (SIG), responsible for special interest cases, to create a report and determine whether the case is actually a Special Interest Group case and report it accordingly. If the case creators do not mark Special Interest Group cases properly, we have no way to track and report these high visibility cases. When in doubt, choose the Special Interest Group category in FIPS. The Special Interest Group will sort it out later. If you have questions or need to send information regarding SIG cases to the Special Interest Group, their e-mail address is: NRC, FOIASIG.

6.3.4.5 SFR cases at NRC – NRC uses this category to track all workload staffed to SFR. This includes cases retired by or lost by SFR, but **does not include ZSF.**

6.3.4.6 Genealogy: Genealogy cases are requests for searches and/or copies of historical records relating to a deceased person. The lists below represent the records that the public would be able to request from the Genealogy Program:

a. Naturalization Certificate Files (C-Files) from September 27, 1906 to April 1, 1956.
b. Microfilmed Alien Registration Forms (AR-2), from August 1, 1940 to March 31, 1944 and Alien Registration Forms from March 31, 1944 to April 30, 1951 in A-Files.
c. Visa Files from July 1, 1924 to May 1, 1951.
d. Registry files from March 2, 1929 to March 31, 1944 and Registry records from April 1, 1944 to April 30, 1951.
e. A-Files numbered below 8 million (A8000000), and documents therein dated prior to May 1, 1951.

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Create the case.
b. Do not staff for any records and do not prepare an acknowledgment letter.
c. Send the case to Unit Chief with a discussion explaining it is a possible Genealogy
d. Send an email to the designated person who handles genealogy cases (currently [redacted] with the control number.

(b)(6)

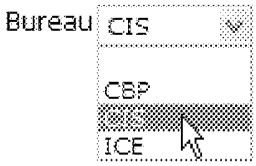
The designated person will review the request to determine if it is, in fact, a genealogy.

If it does not meet the criteria for genealogy it will be returned to you in Case Create to send an acknowledgment letter and staff for records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If it does meet the criteria, the designated person will create a letter referring the requester to the Genealogy program and will close the case as ER.

6.3.5 Bureau



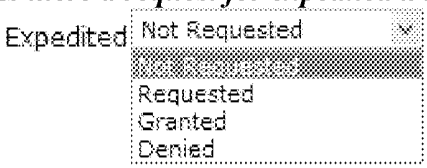
The three possible selections for Bureau are:

ICE – Used to identify requests wherein the requester is seeking information in connection with deportation hearings and other immigration related litigation (OPLA/DRO/SAC)

CIS – Used for all other categories. This is the default in FIPS.

CBP – Used for requests pertaining to documents relating to the Border Patrol, incident reports relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, checkpoints, entry/exit information, inspection, Port of Entry (POE), legacy customs or legacy inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. **Note: If request is for entry/exit information and the requester/subject provided an alien number, request the file.**

6.3.6 Is there a request for expedited treatment?



A requester may ask for his or her request to be expedited and processed outside the order of receipt. By law, we must respond to a request for expedited treatment within 10 business days.

USCIS will grant expedited processing if the requester establishes **either**:

(1) circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

or

(2) an urgency to inform the public about an actual or alleged federal government activity, if the requester is a person primarily engaged in disseminating information.

The requester must send a statement explaining in detail the basis for requesting expedited treatment. If a requester asks for expedited processing and fails to meet the criteria, we process the request in the appropriate track, using the "first in/first out" rule [See 6 C.F.R. § 5.5(a)].

6.3.6.1 OA personnel normally separate mail and faxes pertaining to expedited treatment prior to scanning. A supervisor then reviews and makes a determination regarding the expedited treatment. The supervisor will attach a cover sheet to the front of the request detailing the determination. Please create the case in accordance with the instructions on the cover sheet.

6.3.6.2 If the requested file has already been scanned because of a *currently open* prior FOIA request that has now been resubmitted for expedited processing, do not create the case. You should send the request to Research where they will attach the new request to the existing case as a CSD.

6.3.6.2.1 If expedited processing has been approved based on new information, you have to check expedited processing approved on the original case and send an expedited treatment approval letter by opening the original case in stand-alone mode, creating a Blank Letter, and adding the following: This letter serves to notify you that your case has been approved for expedited processing.

6.3.6.2.2 If expedited treatment was already denied in the *currently open* prior case, and the supervisor's decision is the same, if you have not already created the case, you may Send to Research, where they will attach your request to the original case as a CSD. Go to the original case in Standalone, go to Tasks, and create the Expedited Denial Letter.

6.3.6.2.3 If the expedited treatment request refers to a case that *has already been closed*, either close it as DP and send a duplicate letter or create it as a new case, based on the situation. If in doubt, consult your supervisor. Please refer to the section on DP (duplicate) Cases.

6.3.6.3 Sometimes the OA room will miss an expedited request. If this happens, select "Denied" in the drop-down box, create the Expedited Denial Letter, and then create the case as normal.

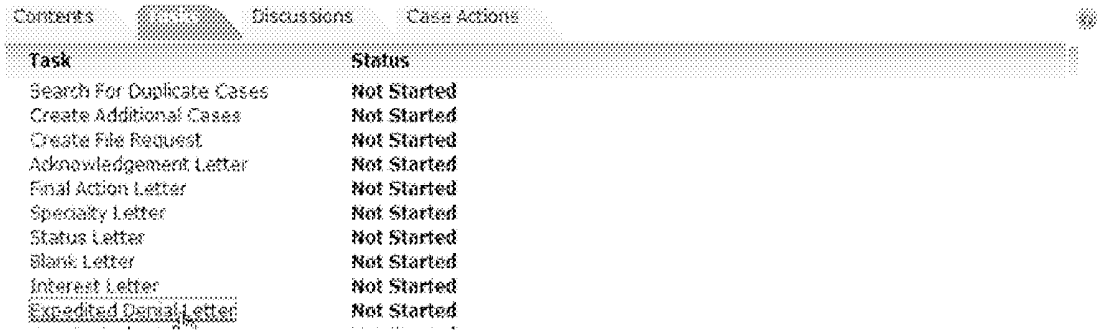
6.3.6.4 If you believe the requester meets the requirements for expedited treatment (and there was no cover sheet) then select "Requested" and send the request to Unit Chief. E-mail your supervisor with the details. If the supervisor granted expedited processing, you will not create an Expedited Denial Letter, of course. You must select "Granted" in the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

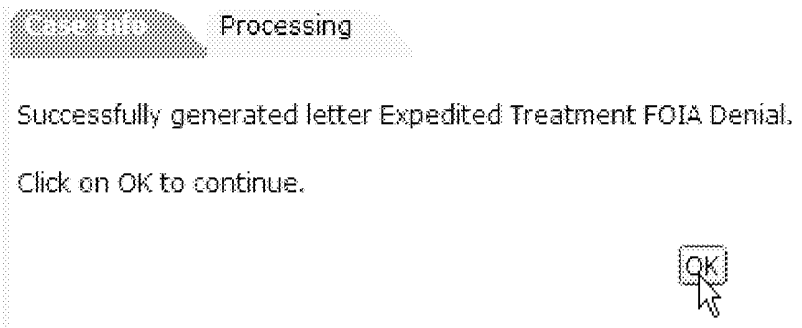
Expedited drop-down box. When you create the acknowledgement letter, it will address the fact that Expedited Treatment is granted.

USCIS denies most requests for expedited treatment because the requester failed to establish either of the necessary criteria.

6.3.6.5 If you have made a determination to deny, or if the supervisor has indicated denial, you must select "Denied" in the Expedited drop-box. After this, you should create the Expedited Denial Letter. If you or the supervisor denied expedited processing, we must advise the requester of the criteria for expediting a request and offer an opportunity to resubmit additional justification. The requester also has the right to appeal the decision to the USCIS FOIA Appeals Office.

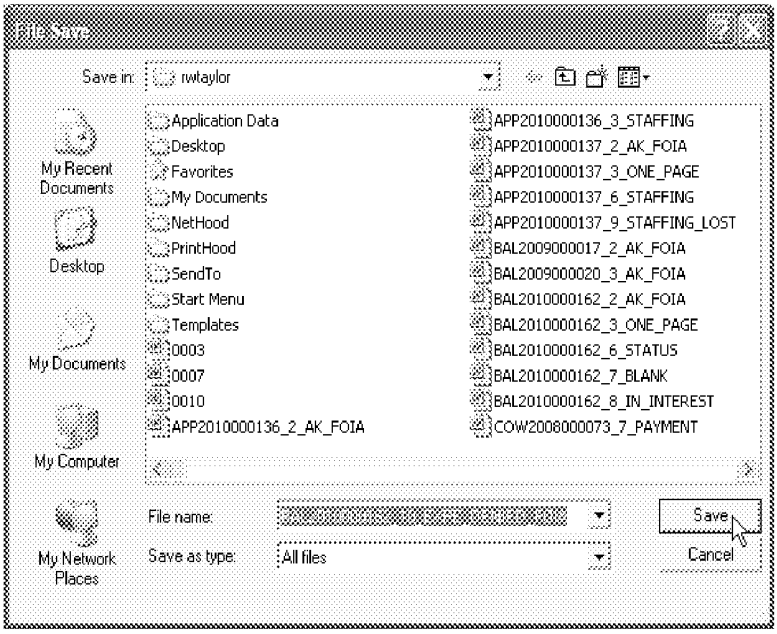


6.3.6.6 Do not mark both "Expedited Treatment Requested" and "Track 3." A request can be either expedited or Track 3, but not both. If the requester has asked for Expedited Treatment and Track 3, treat it as if it is a Track 3 request and follow the instructions in TRACK 3 PROCEDURES. In such a case, you should not mark "Expedited Treatment Requested" before sending it to Unit Chief.



A dialog box will pop up. Select "Save":

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



A word document explaining the denial and appeal rights will pop up. After you have done any editing necessary, save the document and check it back in.

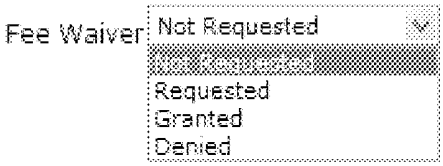
After you have made that selection, your acknowledgement letter will address expedited treatment granted.

6.3.6.7 If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that this needs to be a multiple case, you must check the Expedited Treatment Requested box (and create the appropriate response letters) for each child case. On the other hand, it might be that we will treat only the parent case as an expedited treatment request. You may make the determination or the supervisor will make a statement to that effect on the cover sheet, and of course, in such a situation, you would not mark the child cases as expedited treatment requests.

6.3.6.8 If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then change the Expedited drop-down box to "Not Requested" before you send the case to Up-front Approver. Because we are not generating a letter regarding expedited treatment denial or grant, and because it would cause erroneous reporting of Expedited Treatment Requests, you must change it to "Not Requested."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.7 Is there a request for fee waiver?



The requester may ask for a waiver of fees in his or her request or in accompanying documentation submitted with his or her request. USCIS considers all requests for fee waivers on a case-by-case basis.

A requester must meet two requirements in order for USCIS to grant a fee waiver:

1. The disclosure of the requested information must be in the public interest,
2. AND the disclosure of the information is not primarily in the commercial interest of the requester. For a detailed explanation, please refer to the U.S. Department of Justice Guide to the Freedom of Information Act, "Fees and Fee Waivers."

Also note: the requester must ask for a fee waiver. Simply including a DOJ Fee Waiver form does not constitute a request for fee waiver. If the requester has written any statement to the effect of a request for fee waiver on the form, then you treat it as a request for fee waiver.

6.3.7.1 When a requester has asked for a fee waiver, there should be a cover sheet advising you of approval or denial. You may determine to deny based upon the two criteria listed above. If you do so, you must select "Denied" in the Fee Waiver drop-down box on the FIPS worksheet. Regardless of the decision on the fee waiver, you must insert a Discussion in FIPS indicating that you addressed the fee waiver request.

6.3.7.2 When you are finished creating a case with a fee waiver request, create a Specialty Letter and select Fee Waiver Denied, edit the document if necessary and then create the case as normal. If you are not sure, please consult your supervisor.

6.3.7.3 If you believe the requester meets the requirements for fee waiver (and there was no cover sheet) then select "Requested" and send the request to Unit Chief. E-mail your supervisor with the details. A supervisor will make the decision to approve or deny the fee waiver and send the case back to you in the case create role. At that point, you will select either "Granted" or "Denied."

6.3.7.4 Fee Waiver Denied: When you respond to a request for fee waiver, you must add specific language to the acknowledgement letter. Please see O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Fee_Waiver(denied) for an example of the denial language. Copy and paste this language into the acknowledgement letter. Do not bold, underline, highlight or enlarge the font of the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

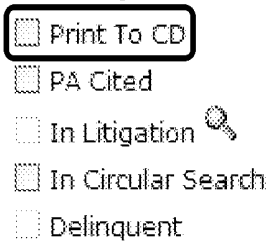
language. If the font changes to bold when you paste it in, highlight that text and remove the bold.

6.3.7.5 Fee Waiver Granted: If the decision is to grant the fee waiver, then please select "Granted" in the Fee Waiver drop-down box. In the acknowledgement letter, please add the following sentence to the end of the first paragraph:

This is to inform you that your request for a fee waiver has been granted.

6.3.7.6 If there is a Fee Waiver Request cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then change the Fee Waiver drop-down box to "Not Requested" before you send the case to Up-front Approver. Because we are not generating a letter regarding Fee Waiver denial or grant, and because it would cause erroneous reporting of Fee Waiver Requests, you must change it to "Not Requested."

6.3.8 Print to CD



In an effort to save time, money and resources, the FOIA unit sends out final action responses on CD to all requesters (with two exceptions). When we send out the acknowledgement letter to the requester, it advises them that unless they write in and specifically ask for their documents on paper, they will be receiving them in a CD format. The acknowledgement letter templates reflect the change.

RULES FOR CHECKING "PRINT TO CD"

6.3.8.1 Check the "Print to CD box" on all new case creates, unless the mailing address of requester is to a correctional facility or unless the requester specified paper in the initial request letter (for requesters who are attorneys, the default is Print to CD).

6.3.8.2 If the responsive records are already scanned in when you create the case, you will still check print to CD.

6.3.8.3 All responsive records mailed to a correctional facility must be on paper. In such an instance, you must modify the acknowledgement letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by deleting the paragraph that begins with "This office will

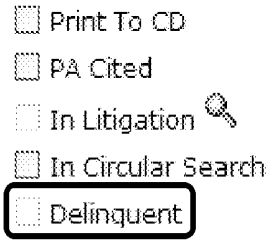
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

be providing your records on a Compact Disc (CD)"

6.3.8.4 If the requester is in prison but we are sending the responsive records to an attorney's office, we will print to CD.

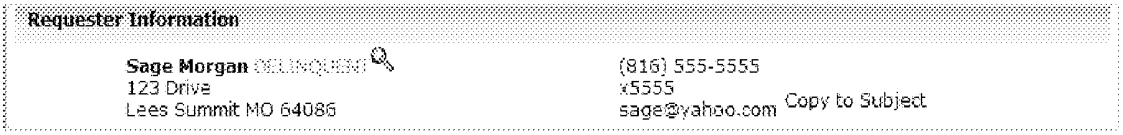
6.3.8.5 If a requester specifically asks for their records on paper, do not check "Print to CD" box create a Discussion note citing the reason. In such an instance, you must modify the acknowledgment letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by removing the paragraph that begins with "This office will be providing your records on a Compact Disc (CD)"

6.3.9 Is this a delinquent requester?

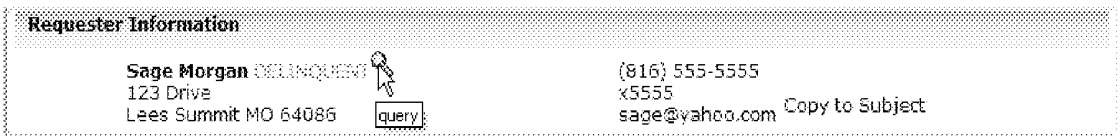


The Delinquent Requester search helps FIPS users identify requesters who have unpaid bills in the system. Requesters are delinquent when case fees remain unpaid for more than 45 days.

After you enter the last name of the requester, FIPS will automatically conduct a search for delinquent fees owed by that requester, using the last name of the requester. If the requester is delinquent on any case in any office nationwide, a box will pop up on the screen (see below).



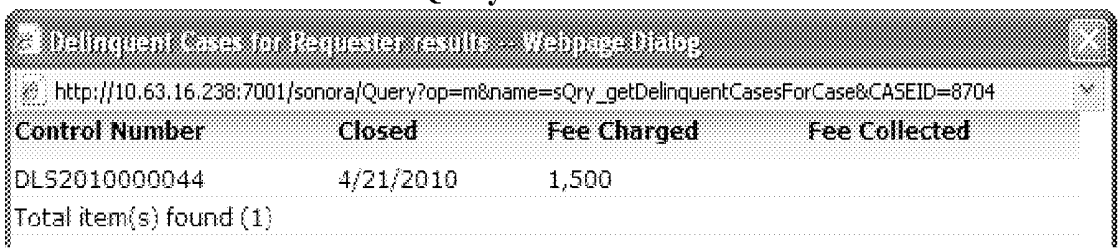
To view other cases for the same requester, click the **Query** icon next to the delinquent notice.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The query results appear in a separate window.

Query Results



If a requester/subject previously submitted a request and owed a fee on a case and he or she did not pay the fee within 30 days, the case closed as FP (failure to pay). If the subject/requester submits a new FOIA request, the Delinquent Requester notification is going to pop up. Your requester may possibly not be on the pop-up list. FIPS conducts a search by the last name(s) of delinquent requesters.

DELINQUENT REQUESTER RULES:

6.3.9.1 Do not treat the case as delinquent if the case was processed on or before January 1, 2004. Send an e-mail to NRC, FIPSPROBLEM (clicking on the link will automatically include a copy to NRC, FOIAPROGRAM). In the body of the e-mail, include the name of the delinquent requester and the delinquent case number(s).

6.3.9.2 If you encounter a delinquent requester from a FIPS Lite office, do not treat them as delinquent. You will know the request was processed in FIPS Lite when you open the case because you will see a "FIPS Lite placeholder."

6.3.9.3 Make sure the requester of the case you are creating is the same requester that FIPS is showing as delinquent. You must view the delinquent request(s) to make this determination. To view a case, highlight the line and click "view." If the delinquent requester matches your requester, treat the new request as delinquent. To get the delinquent case information (case number, dollar amount) in your acknowledgement letter and in the new case, highlight the name in the box that matches your requester and click ok.

Next, to create the case, go to the Tasks tab and click:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

When you complete the case create process and the new case has a control number, FIPS will notate the delinquency on the worksheet.

6.3.9.4 If the requester is delinquent, do not request responsive records until we receive payment.

NOTE: If you are creating multiple cases, you should "Create Additional Cases" before you prepare the Acknowledgment Letter and File Request(s) for the original case.

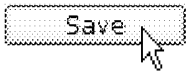
NOTE: A FOIA/PA Assistant working in Records Locator queue may need to cancel pending requester documentation for cases pending requester documentation due to a prior delinquent status that has been removed, because the system does not.
If the FOIA/PA Assistant working in Records Locator queue does cancel pending requester documentation, he or she should generate a new interim acknowledgement letter and staff the case as usual.

If the requester has more than one delinquent case, you will have to add up the total and modify the delinquent requester letter providing the case number for each delinquent case, the dollar amount owed for each, the total dollar amount owed, and instructions to prepare a check for the total amount made out to "U.S. Treasury."

When you click "ACK Letter" the following screen pops up. Click OK to generate the letter.

We will take no further action until the delinquency is resolved. Please pend.

Before you move to another part of the case create process, click:



6.4 SEARCH FOR DUPLICATE CASES

Before you begin filling in the worksheet, you should look for duplicates. Duplicate cases are cases in which the request was submitted multiple times to the Service, or was inadvertently scanned into FIPS multiple times, or are cases that we previously processed.

Sometimes a requester will take a "shotgun" approach. He or she will submit the same FOIA request multiple times to ICE, CBP and CIS, hoping to get an answer more quickly. The

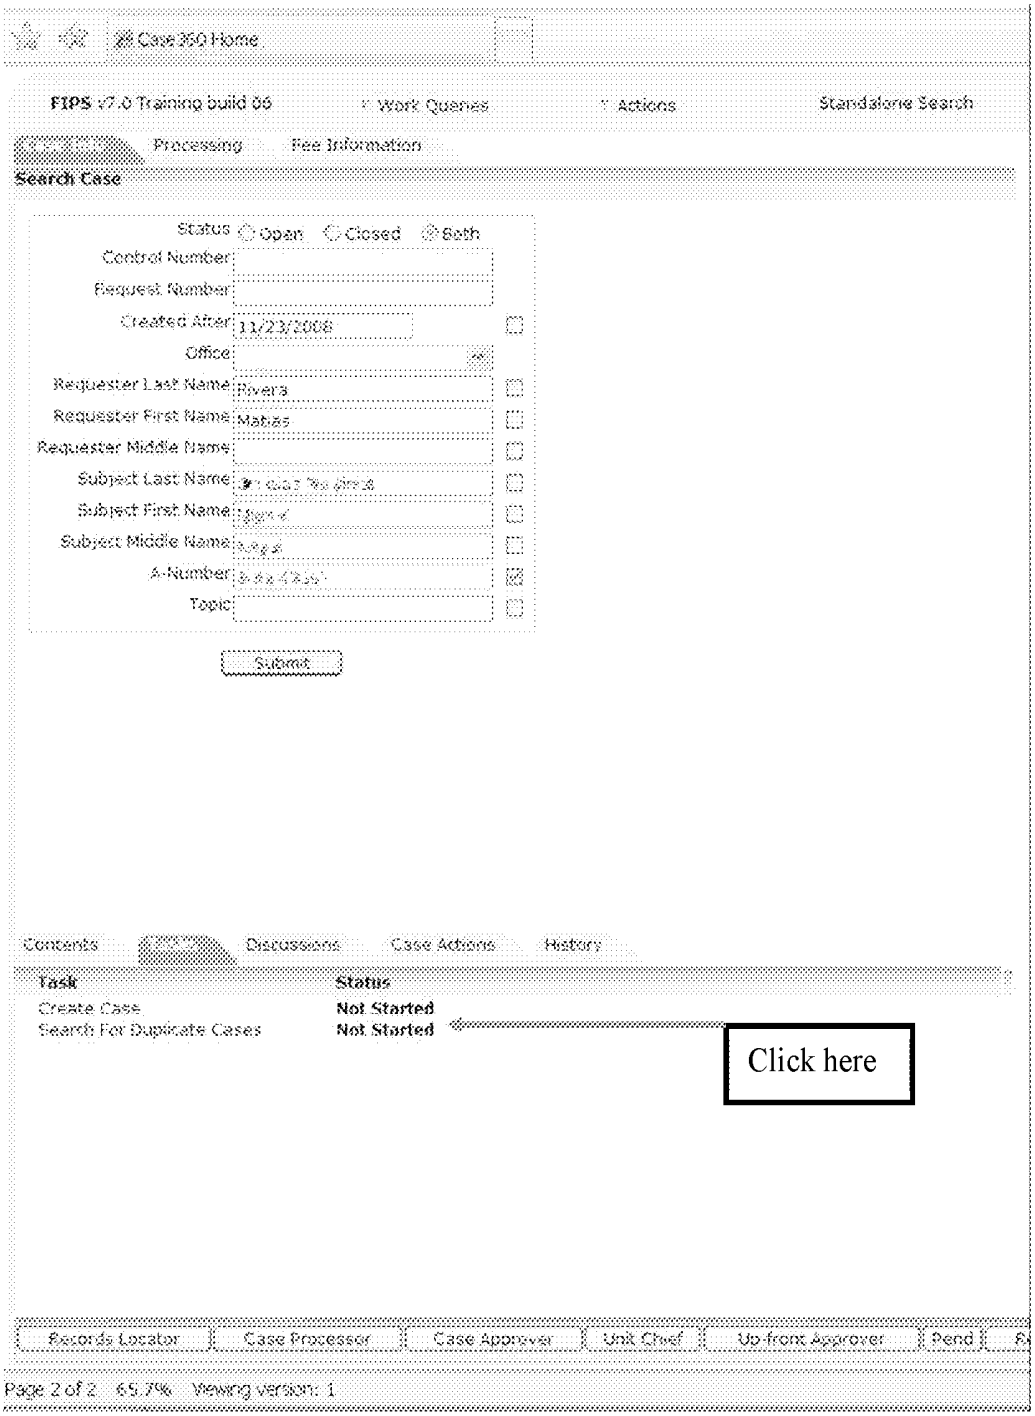
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

receiving offices will then in turn, transfer these requests to NRC. These are duplicate cases when an office has already processed this request with a final action code of either PD or G1, or has it ready to be processed.

This does not include instances in which the requester has faxed the request and then mailed it. If you open a case and find that the exact same request has very recently been created, chances are that you have opened the mailed copy which followed a few days after the fax. Do not create such a case. Click "Send to Research." That case will go to the research queue and you will be ready for your next case.

Ordinarily, you will search by Alien Number, and if you do not find a duplicate or similar case, your search will be complete. If the requester did not provide an alien number, you may search by the subject's last name and first name, or even by the requester's last name and first name. You may use a percent sign (%) as a wild-card for these searches. For example, if the requester's name is Jaime Vazquez, but you see he also has spelled his name Vasquez – you can search by Subject Last Name "Va%" and Subject First Name "Jaime."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



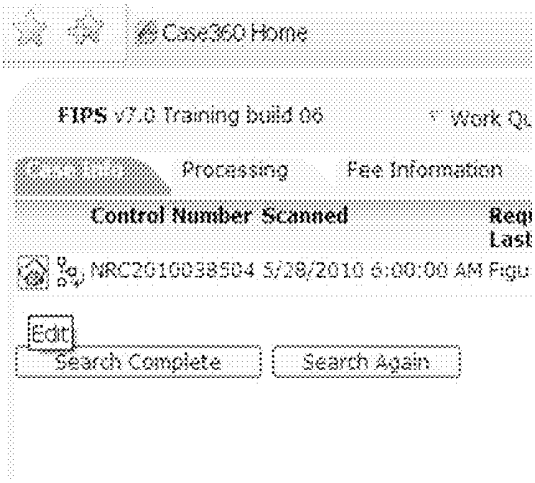
Ordinarily, you will get a blank result.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

You may select "Search Complete" or you may select "Search Again" to try the search by a single criterion or different combinations such as Subject Last Name, Subject First Name, Requester Last Name, and so forth. However, the search may yield an open case:

If you do get a match, you should select "Edit" (the icon is a folder with a gear in front of it) to open the matching case and carefully review it to be sure it is a duplicate:

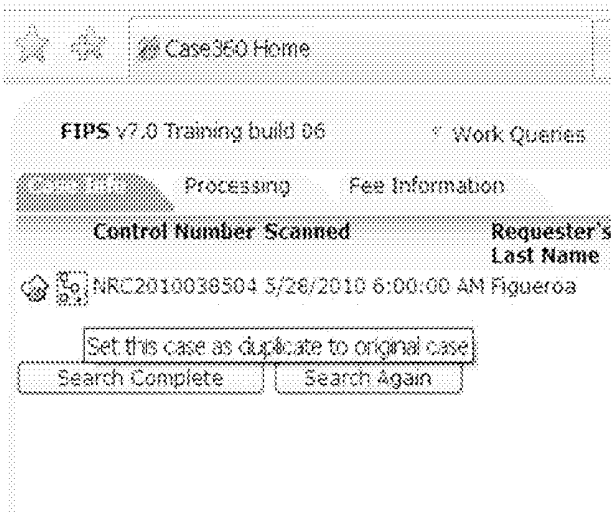
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



By highlighting the case you wish to review and then clicking the "Edit" icon, FIPS will open the case for your review. You then review the request to ensure that:

- If there has been a case that was closed G1 or PD within six months from same requester –
- This does not include cases that were closed with any other final action code.

Once you verify those items and you determine the case is a duplicate of another case, you will select "Set this case as duplicate to original case" as follows:



Do not click "Create Case." Click "Send to Research." You will then be ready for your next case.

If you determine that it is not a true duplicate, please insert a new Discussion entitled "Similar Case" in each of the cases, so that a processor or approver can review both.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the date of the request is either the same as your request or within a very few days and:

3. The requester is the same, and
4. The information being requested is the same in both requests,

Do not close this case as a duplicate. Do not click "Create Case." Click "Send to Research."

If you are not sure your case meets the duplicate requirements, create a new Discussion in the case and send the case to Unit Chief. Send your supervisor an e-mail with the case information for his or her review.

6.5 COPYING RECORDS FROM A CLOSED CASE

You may be checking for duplicates and discover responsive records of an existing closed case meet the following criteria:

- Regular (not Appeals) case
- Status of the duplicate case is "Closed" and
- The date closed was within six months of the current date

If the duplicate case meets all those criteria, then you may copy from the existing case into the new (active) case. The Request Type that you have selected for the existing case and the new case will determine whether any redactions are copied with the responsive records. If both new and existing cases are FOIA Requests or both cases are Privacy Act requests, then redactions will be copied into the new case with the responsive records. However, if the new case is a FOIA Request and the existing case is a Privacy Act request (or vice versa), then the responsive records will be copied but without any redactions.

To begin the search, select the Tasks tab and click **Search for Duplicate Cases**.

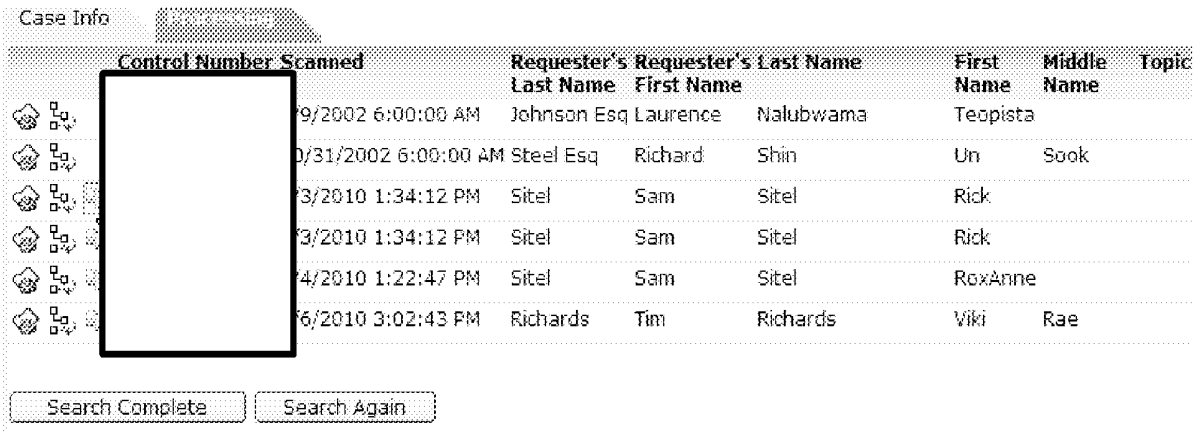
Click the checkboxes next to the populated fields to select which search criteria to use. Case Creators can also type information into other fields to use as search criteria. When have entered all criteria, click **Submit**.

The Search Results screen lists any FIPS cases that match the selected criteria.

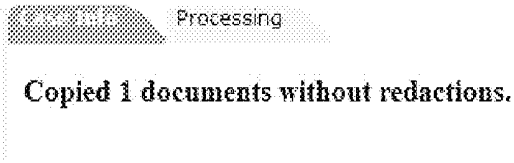
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To copy the responsive records from the case shown in the search results into the new case, click the **Copy Documents** icon, which looks like two pages:

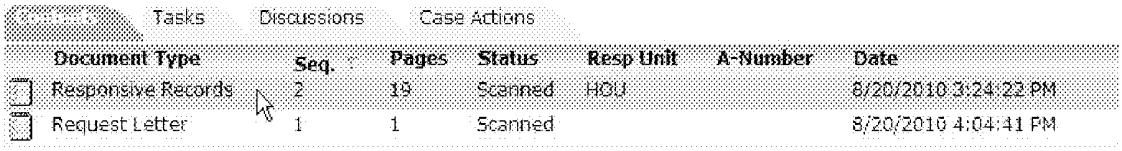
(b)(6)



A message appears in the Case Info tab confirming that you copied the document into the new case:



The responsive records now appear in the Contents List of the new case:



7. CONSENT, VERIFICATION OF IDENTITY, AND DESCRIPTION OF RECORDS

"Consent" for the purposes of FOIA/PA is written agreement, approval or permission for access to information in the record by the competent individual to whom the record pertains. **The case creator must review the request and supporting documents to determine if proper consent is present.**

5 U.S.C. § 552a(b) No agency shall disclose any record … except pursuant to a **written** request by, or with the prior **written** consent of, the individual to whom the record pertains.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6 CFR § 5.21(f): If you are making a request for records concerning *(a living)* individual *(other than yourself)*... You must also provide a statement from the individual certifying the individual's agreement that records concerning the individual may be released to you.

Consent could be:

- Block 3 on Form G-639, or
- A properly executed Form G-28, or
- A separate declaration by the subject, such as:

  Pursuant to the Privacy Act of 1974 and DHS policy, I hereby consent to the disclosure to _____ _____ of any record pertaining to me that appears in any system of records of USCIS, USCBP, or USICE.

7.1 Consent of parents or guardians

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. No consent is necessary from the minor child or the person judicially determined to be incompetent, however the parent/guardian must provide his or her own verification of identity that is notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors may request their own files; they do not have to have the consent of their parents or guardians to do so. Attorneys may represent minors also.

7.2 Verification of Identity

If a requester is asking for a Privacy Act record, he or she must provide verification of identity.

A Privacy Act record, for USCIS purposes, is any item, collection, or grouping of information about a person which we retrieve by the person's name, identifying number, symbol, or other identifying particular assigned to that person. This information includes, but is not limited to, a person's nationality, immigration status, education, financial, medical, criminal, or employment history.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6 CFR § 5.21(d) *Verification of Identity,* says the requester must provide us:

- Full Name
- Current address
- Date of Birth
- Place of Birth

If the requester did not provide all four required pieces of information, please select "Final Action Letter" from the Tasks tab, select "FC" from the final action codes list, and paste in the body of the "Unperfected Request Letter" which you may find in the Case Create Template Letters folder of the FOIA Library.
A requester who provides full name, current address and alien number only has not provided sufficient verification of identity.

Next, it says the subject of record must sign the request and his or her signature must either be notarized or submitted under 28 U.S.C. 1746 *(penalty of perjury in lieu of notarized signature).*

The notarized signature of the subject or the signature under penalty of perjury does not need to be on the G-639. If a requester has inserted the **penalty of perjury statement on ANY document**, and the subject of the file has signed the document, it fulfills the requirement to verify identity.

The notarized signature or signature under penalty of perjury **might** be on a:

- Separate letter, or any piece of paper *including* a G-28, but then only if the penalty of perjury statement is directly above the signature of the subject of record.

- G-639, when the subject has signed the first page and the second page does not contain the signature of the subject but has been notarized.

- DOJ-361, Certificate of Identity: we may not suggest or require that a requester use a DOJ-361, but we can accept one as certification of identity with a signature under penalty of perjury or a notarized signature.

A current photo ID is for information purposes only and is not verification of identity.

"Verification of Identity" for purposes of FOIA/PA does not include a Form G-28 with a statement made under penalty of perjury by the requesting attorney or representative "that the information I have provided on this form is true and correct." The statement must come from the subject of the record. A statement made under penalty of perjury must conform to the requirements of **28 U.S.C. § 1746: Unsworn declarations under penalty of perjury**, which reads as follows:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Wherever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath, or affidavit, in writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury, and dated, in substantially the following form:

(1) If executed outside the United States:

"I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
Executed on (date).
(SIGNATURE)".

(2) If executed within the United States, its territories, possessions, or commonwealths:

"I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date).
(SIGNATURE)".

If the requester is asking for records concerning *(a living)* individual, and if there is only one signature and it does not fall under one of the categories above, please select "Final Action Letter" from the Tasks tab, select "FC" from the final action codes list, and paste in the body of the "Unperfected Request Letter" which you may find in the Case Create Template Letters folder of the FOIA Library. The exception to this rule is a Third-Party Request (see paragraph 7.4).

7.3 Reasonable Description of Records being Sought:

If the requester provided all elements required by 6 CFR § 5.21(d), but did not provide an alien number or receipt number, you may still request a file if there is only one match and there is no other indicator that it may not be the correct subject of record.

You may possibly find multiple matches, or you may find no matches at all. In a situation like this, we do not have a reasonable description of the records the requester wants. We will have to send for additional requester documentation, specifically:

- Alien Number (if known)
- Application/Petition Receipt Number (if known)

Additionally, we may ask for items of information such as mother's and father's names. The requester is not required by law or regulation to provide that information, but if the requester does not, we may be unable to locate a responsive record.

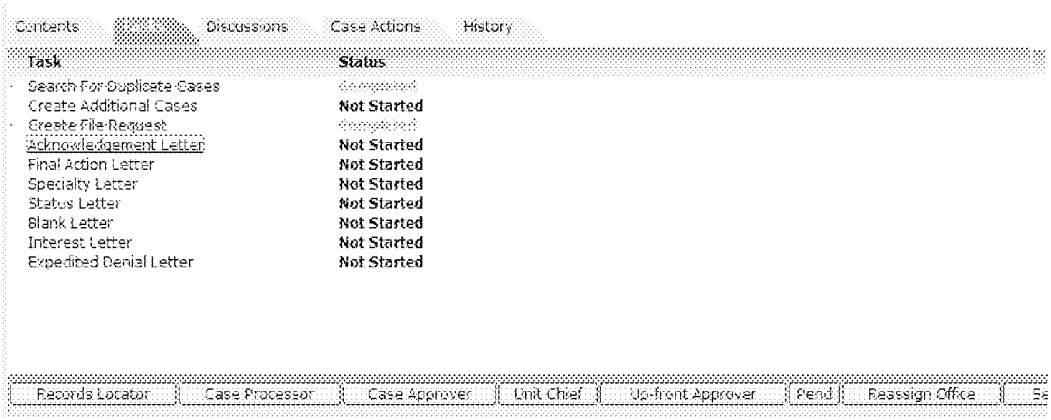
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Please request the additional PII with your Acknowledgement Letter. After you create the acknowledgment letter requesting additional documentation, do not create the file request. In the "Contents" tab, you will see a Pending slot for Requester Documentation. Send the case to Pend. After we receive a response from the requester, a FOIA/PA Assistant working in Records Locator queue will request the file. The processor will use the requested information to verify the release of the correct records.

Note: if the requester marks "unknown," "none" or "N/A" for any element of the above PII, please do not request this information as part of the Acknowledgement Letter.

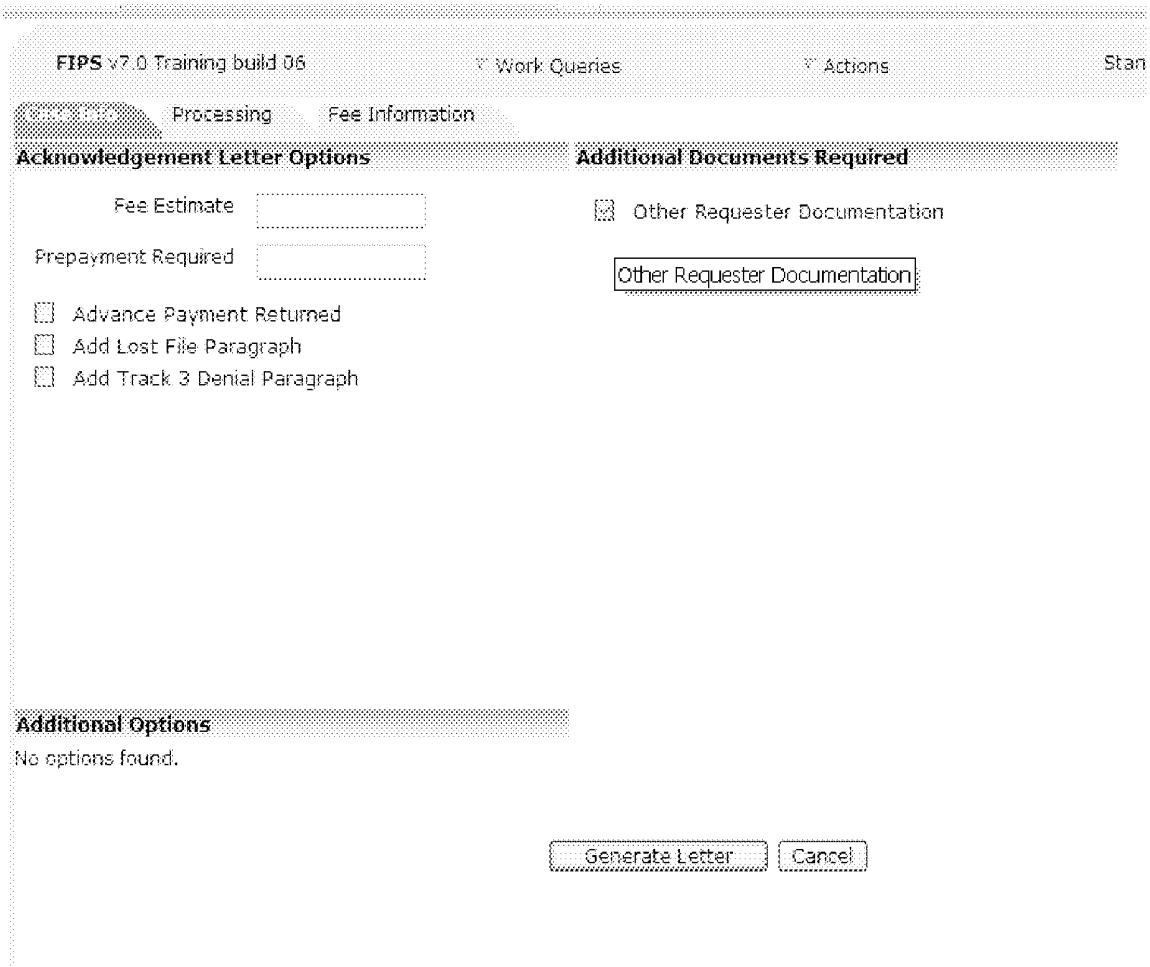
At this point, you will send an acknowledgment letter requesting additional information. You will not request a file.

Go to the "Tasks" tab and select "Acknowledgement Letter"

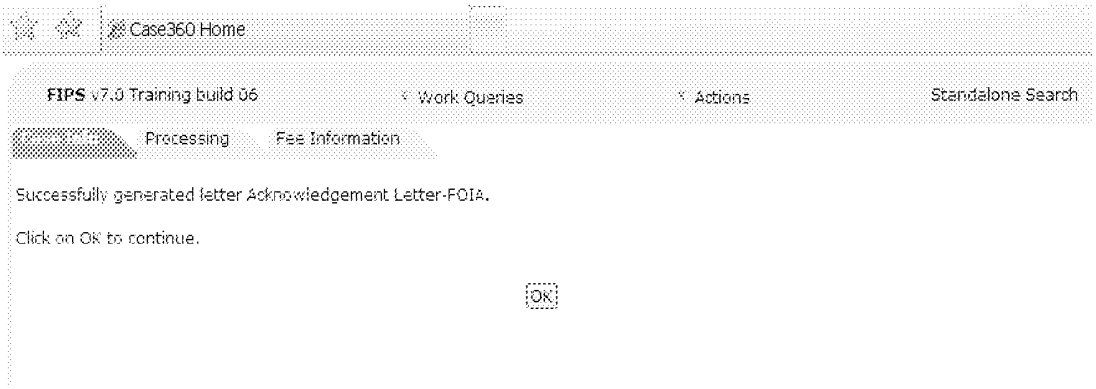


After selecting "Acknowledgement Letter," the Acknowledgment Letter Options screen will open. Options on this screen will allow you to ask for other documentation and will also allow you to add a Track 3 Denial or Lost File paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



We then click on "Generate Letter." Our only option at that point is to click OK:



As soon as you do, a File Save pop-up window will appear. Click "Save."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. U.S. Department of Homeland Security
National Records Center
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

[redacted]
San Francisco, CA [redacted]

Dear [redacted]:

We received your request for information relating to Chris P. Bacon on December 02, 2010.

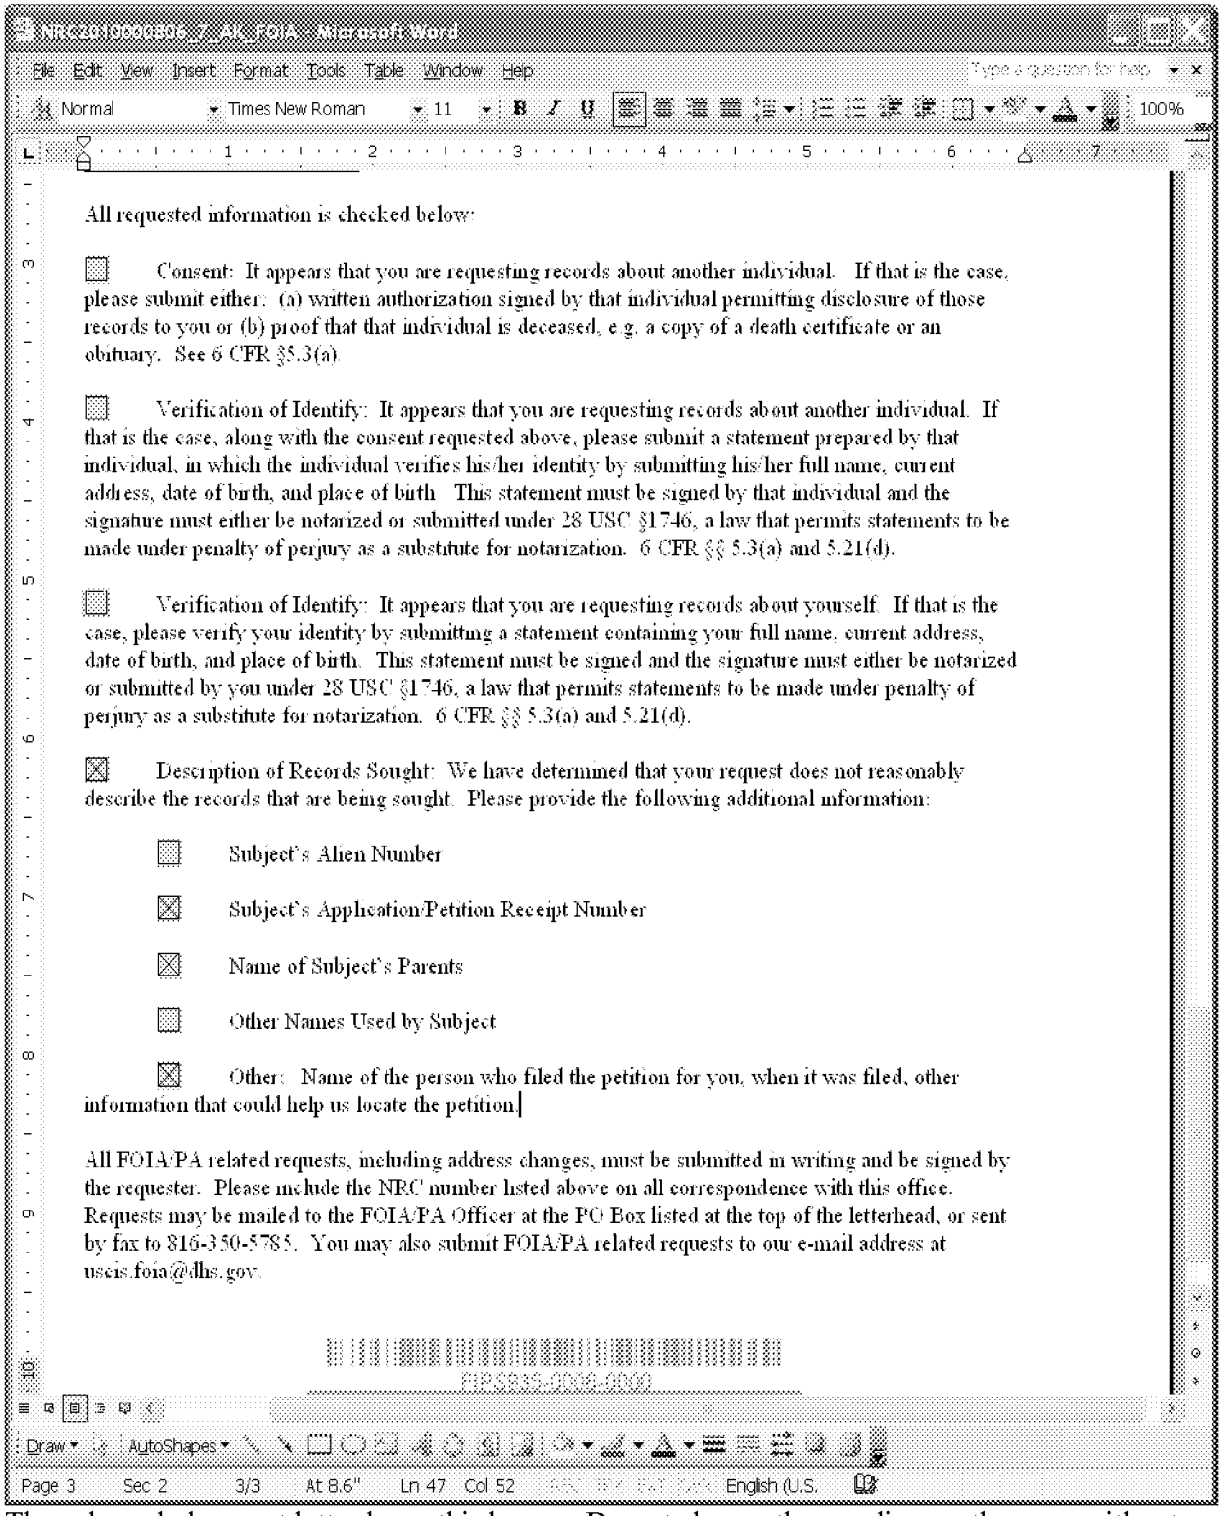
Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000806. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



All requested information is checked below:

☐ Consent: It appears that you are requesting records about another individual. If that is the case, please submit either: (a) written authorization signed by that individual permitting disclosure of those records to you or (b) proof that that individual is deceased, e.g. a copy of a death certificate or an obituary. See 6 CFR §5.3(a).

☐ Verification of Identity: It appears that you are requesting records about another individual. If that is the case, along with the consent requested above, please submit a statement prepared by that individual, in which the individual verifies his/her identity by submitting his/her full name, current address, date of birth, and place of birth. This statement must be signed by that individual and the signature must either be notarized or submitted under 28 USC §1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. 6 CFR §§ 5.3(a) and 5.21(d).

☐ Verification of Identity: It appears that you are requesting records about yourself. If that is the case, please verify your identity by submitting a statement containing your full name, current address, date of birth, and place of birth. This statement must be signed and the signature must either be notarized or submitted by you under 28 USC §1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. 6 CFR §§ 5.3(a) and 5.21(d).

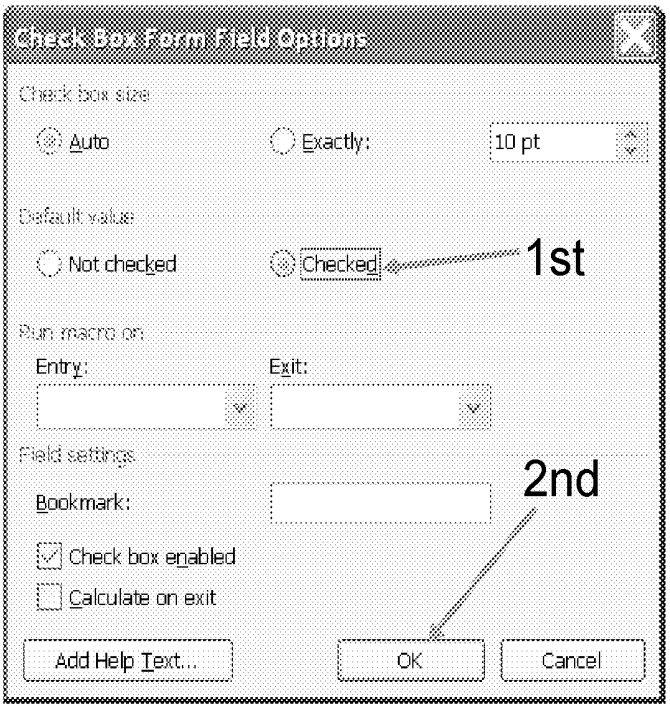
☒ Description of Records Sought: We have determined that your request does not reasonably describe the records that are being sought. Please provide the following additional information:

- ☐ Subject's Alien Number
- ☒ Subject's Application/Petition Receipt Number
- ☒ Name of Subject's Parents
- ☐ Other Names Used by Subject
- ☒ Other: Name of the person who filed the petition for you, when it was filed, other information that could help us locate the petition.

All FOIA/PA related requests, including address changes, must be submitted in writing and be signed by the requester. Please include the NRC number listed above on all correspondence with this office. Requests may be mailed to the FOIA/PA Officer at the PO Box listed at the top of the letterhead, or sent by fax to 816-350-5785. You may also submit FOIA/PA related requests to our e-mail address at uscis.foia@dhs.gov.

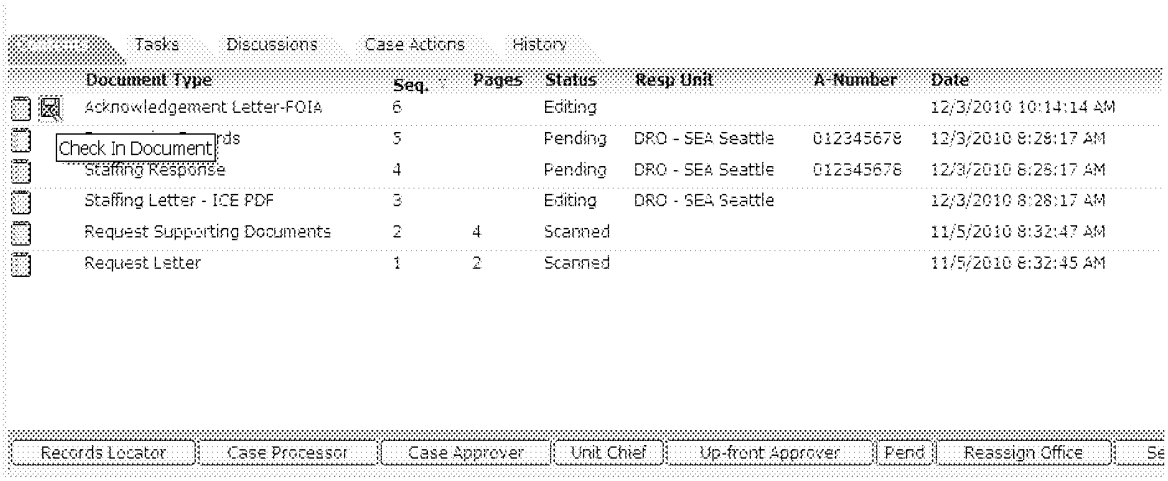
The acknowledgement letter has a third page. Do not change the wording on the page without specific supervisory instruction to do so. You may add information after the "Other" checkbox to clarify what information we need. Double-click in the area you need additional information, select the radio button marked "Checked" and then click OK for each item of information you need:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



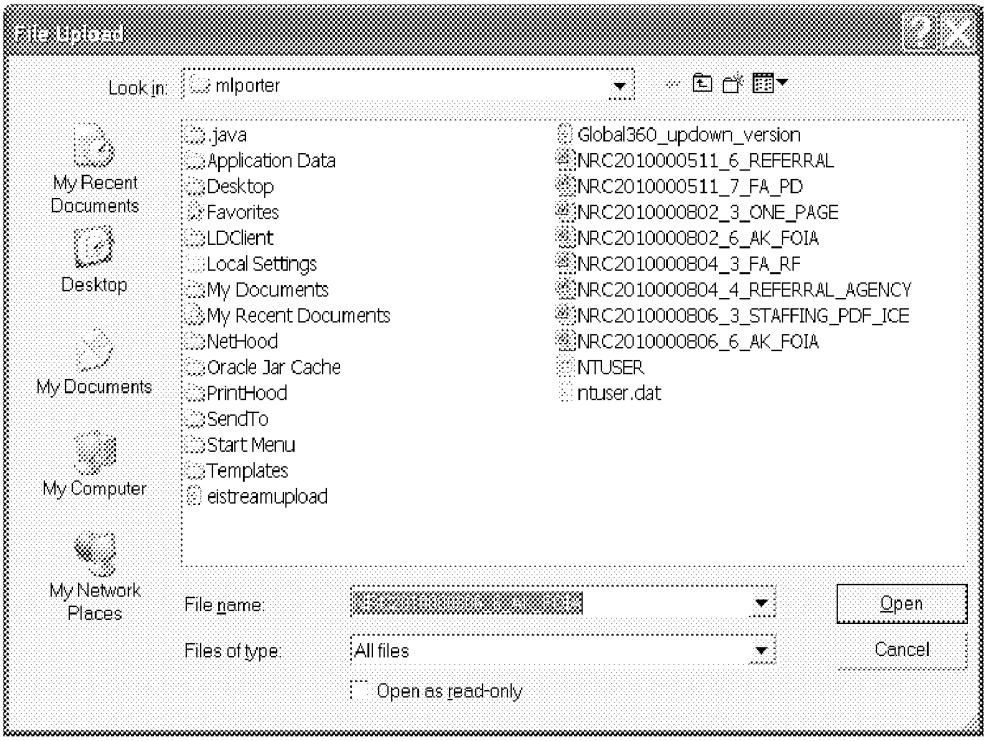
The resulting page will look something like this:

In a situation like this, you would not have created a staffing letter. (Note: If this were a live case, you would not see a pending Responsive Records slot, as in this example.) You save the document, exit Word, and check the document in:

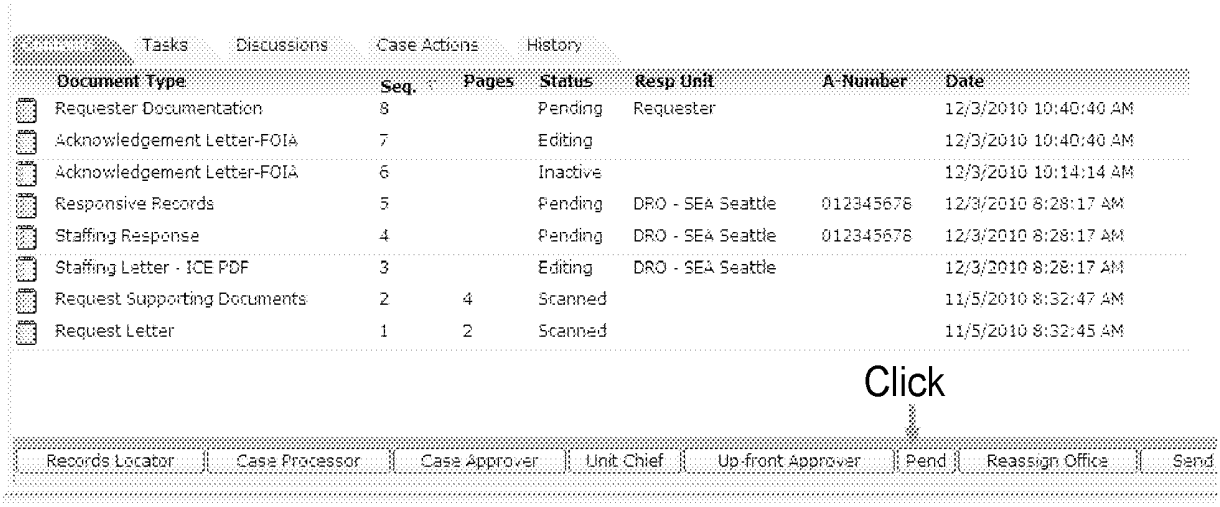


Click "Open":

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



You will notice that there is now a slot for "Requester Documentation" and the Responsive Unit is "Requester." After this, you send the case to "Pend."



When the requester provides the additional information, A FOIA/PA Assistant working in Records Locator queue will request the records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

7.4 Third party requests

Sometimes consent is not necessary. For instance, a requester asking for a "*list of all employers in Utah who use E-Verify*" does not have to provide consent. Commercial, contract, and media requests are usually third party requests.

On the other hand, USCIS will not release personally identifying information (PII) or personally sensitive information to a third party without consent. If the requester is asking for records concerning an individual and does not provide consent, nor does it appear likely that the requester is going to get consent, we treat it as a third party request without consent. It may be obvious from the request that the requester will not be able to obtain consent from the subject of record. If you have a doubt, consult your supervisor. The supervisor may have you send for consent, call the requester to see if you can make a determination, or create the case as third party without consent.

Third party requesters are not entitled to any public documents that may be in the file they are seeking, nor documents they provided in support of an application or petition. For example, if a wife is looking for a copy of her husband's file so that she may divorce him, and says in her request letter that she does not know where he is or says she cannot get his consent, do not send a request back to her for her husband's consent. In a situation like this, close the case as a Failure to Comply.

7.5 Deceased subjects and the 100-year rule

If the subject of a request is deceased, it is incumbent upon the requester to provide proof of death. Proof of death could be any of the following:

- Death Certificate;
- Obituary;
- Funeral Memorial; or
- Photograph of headstone

If the subject of a request is over 100 years old, USCIS assumes he or she is deceased and no proof of death is required.

8. CASE CREATE SITUATIONS/OTHER PROBLEMS

At any time during the case-create process you may encounter a quirky or unusual situation. Some not-so-usual situations follow this paragraph, but as a case creator, you will inevitably see situations you have never seen before. Case creators should seek assistance from their

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

supervisors as a first step. If the problem cannot be resolved, the creator should send the case to the Unit Chief and send an e-mail to the supervisor for clarification. If it is not a situation that needs clarification but some type of FIPS error, send an e-mail to the FIPS Problem mailbox (NRC, FIPSPROBLEM), or in other situations to the MSB mailbox (NRC, NRCFOIAMSB).

Clicking on the FIPSPROBLEM link above will automatically generate an e-mail addressed to both the NRC, FIPSPROBLEM mailbox and the NRC, FOIA PROGRAM mailbox.

8.1 REQUESTS: Foreign Consulate

Immediately forward any type of correspondence, FOIA request or inquiry received from the consulate of a foreign nation to the Director's Office for handling. USCIS Headquarters is the only one authorized to correspond with foreign consulates.

Please make sure it is a consulate requesting the records and not the subject of the request putting the consulate's address on the G-639 to mail the records to the consulate (for passports). If the request is from a consulate, please send the FOIA request to Up-front Approver to be closed as an ER and send an e-mail to NRC, FOIAOA mailbox with the case information. The supervisor will review and close the case. If the subject mailed the request and wrote the consulate's address on the G-639, use the subject's address from the envelope and set it up as a self request.

8.2 REQUESTS: Non-immigrant visa material

If the requester specifically asks for non-immigrant visa data and there is no record of the person in CIS or CLAIMS; do not close the request as NR. If the requester is asking a question about being a student, au pair, camp counselor, or participating in a summer work/travel program, or if the requester specifically mentions visa type F-1, F-3, J-1, M-1 or M-3, then you should refer the request to ICE, since that record will be tracked in SEVIS (Student and Exchange Visitor Information System.) An example of a "refer to ICE" type request might be: "Type of visa, visa number and legal documents allowing entry into the US. The subject was a student at the University of Nebraska."

Otherwise, redirect the requester to Department of State. An example of a "re-direct to State" type request might be for a B1/B2 visa, such as: "Type of visa, visa number and legal documents allowing entry into the US. The subject visited Disney World and Cape Canaveral and entered at Orlando International Airport."

8.3 REQUESTS: Routine use, no consent required, not FOIA

USCIS may disclose records to an appropriate Federal, State, tribal, local, international, or foreign agency, including law enforcement, or other appropriate authority charged with investigating or prosecuting a violation or enforcing or implementing a law, rule, regulation, or

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

order, where a record, either on its face or in conjunction with other information, indicates a violation or potential violation of law, which includes criminal, civil, or regulatory violations and such disclosure is proper and consistent with the official duties of the person making the disclosure.

What does that mean? We may disclose records from alien files to other Federal, State and local government agencies as a normal course of operation for law enforcement purposes. Consent is not necessary for the processing of these types of requests. Some examples of these types of requests include requests relating to child support enforcement and aliens seeking public assistance.

Requests from government agencies (federal, state or local) for verification of status of aliens are routine use.

These types of requests are not a part of FOIA and should not be in FIPS. For example, you may open a request from a county public assistance agency attempting to locate a child's father who is avoiding financial responsibility. If you open a request from a state or local government agency requesting information about an alien, send the case to Up-front Approver for closing as ER. The only exception to this rule is if there is a cover sheet with instructions to create as FOIA.

8.4 REQUESTS: Bond obligor, no consent required, not USCIS FOIA

Criminal bonds are bonds posted by individuals or bail bondsmen relating to non-immigration violations of the law. These requests are processed by Immigration and Customs Enforcement.

Immigration bond obligors are surety companies who have posted an immigration bond (I-352) for an alien who has been taken into custody by the Service. If the alien fails to attend his or her hearing, then he or she forfeits the bond. Under the court case *Amwest v. Reno*, the surety companies, or their attorneys, are entitled to a complete copy of the alien's file to assist them in trying to locate the alien. Consent is not required for the bond obligor; however, they should provide a copy of the bond contract, Form I-352, with their FOIA request.

We no longer process requests received from immigration bond obligors or criminal bond obligors. Please send any new requests that are scanned into FIPS to Up-front Approver for closing as ER. Please send an e-mail to NRC, FOIAOA and provide the REQ number or control number, and also include the requester's name.

OA room will mail the request to the following address:

Immigration and Customs Enforcement
Attention: Catrina Pavlik-Keenan
ICE FOIA/PA Unit

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

800 North Capitol Street, NW, Room 585
Washington, DC 20536-5009

8.5 REQUESTS: A-number only

If a requester/subject is asking for his or her alien number **only**, follow these steps:

- Search CIS with the information provided on the request to locate an A-number.
- If you locate an A-number, compare the information provided on the request with the information in CIS to make a positive ID.
- You must have proper consent and all of the required PII in order to proceed. If consent or any PII are missing, generate the acknowledgement letter and request the additional information.
- If proper consent is present and all of the required PII is present:
    - Open a RAFACS staffing slot only
    - Print a copy of CIS 9101 screen, attach a "Scan As" cover sheet and mark the box "Responsive Records." Take the screen print to the designated person (currently John Latimer) for scanning.

Make the case a Track 1 case and pend the case for responsive records. When the responsive records are scanned in, the case will move to the processing queue.

8.6 REQUESTS: Bracero Program

The Bracero Program (1942-1964) began as a temporary World War II program to fill agricultural labor shortages, and continued in one form or another for more than twenty years. Initially the program included workers from Mexico, the Virgin Islands, British West Indies, and elsewhere. After about 1945, the program was limited to agricultural workers from Mexico, and the term "bracero" refers to an imported farm worker from Mexico. "Brazo" means arm, and "bracero" means a person who works with his arms.

Begin with a thorough search of CIS. If no record is located, request a manual search. Create a Records Indexing Staffing and enter all information provided by the requester. If the manual search produces no record, generate a "NR" letter and send the case to Up-front Approver. The supervisor will review and close the case.

In these no record cases, the researcher's only recourse may be to search for a record of admission at the National Archives (NARA). Today NARA holds microfilm of arrivals at US-

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Mexico Border ports of entry from ca. 1905 to 1954 (some to 1957). A Bracero admitted in 1960 will not appear in these records due to the cut-off dates.

The requester can request a search by writing directly to NARA. In their letter, the requester should ask for a search of Mexican border arrival manifests in Record Group 85. The correspondence to NARA should contain the date and port of entry, as well as the name used at the time of entry, age at the time of entry and any other identifying information.

NATIONAL ARCHIVES AND RECORDS
ADMINSTRATION
CIVIL REFERENCE
7th AND PENNSYLVANIA AVENUE NW
WASHINGTON DC 20408

8.7 REQUESTS: Referrals and Consultations received from other agencies

As other agencies process FOIA/PA requests, they will sometimes find our agency's documents within their files. These documents will be referred to us for processing. The responsive records could be USCIS documents being referred to us for review or joint documents i.e., co-authored by the referring agency and other agencies. A transmittal memorandum advising us to respond directly to the referring agency is a consultation. A transmittal memorandum advising us to reply directly to the requester is a referral.

Send the case to processor. Send an e-mail to the MSB mailbox advising them that you have created the case and that it is a referral/consultation from another agency. Include the alien name and the NRC control number.

8.8 REQUESTS: USCIS personnel information

- Requests that deal specifically with USCIS vacancy announcements, performance ratings and awards are scanned and handled in the HQS queue by the Special Interest Group.

- If a request for CIS Personnel Information mistakenly is scanned in the NRC queue, create the case and reassign the case to **HQS**. Create the case as a Track 2 case. Use **PER** for the category and **CIS** for the bureau, in the "Topic" field, enter the vacancy announcement number.

Click on the "Reassign Office" and select the HQS office. The case will be staffed when it is re-assigned to the HQS queue. Send an e-mail to NRC, FOIASIG with the case information.

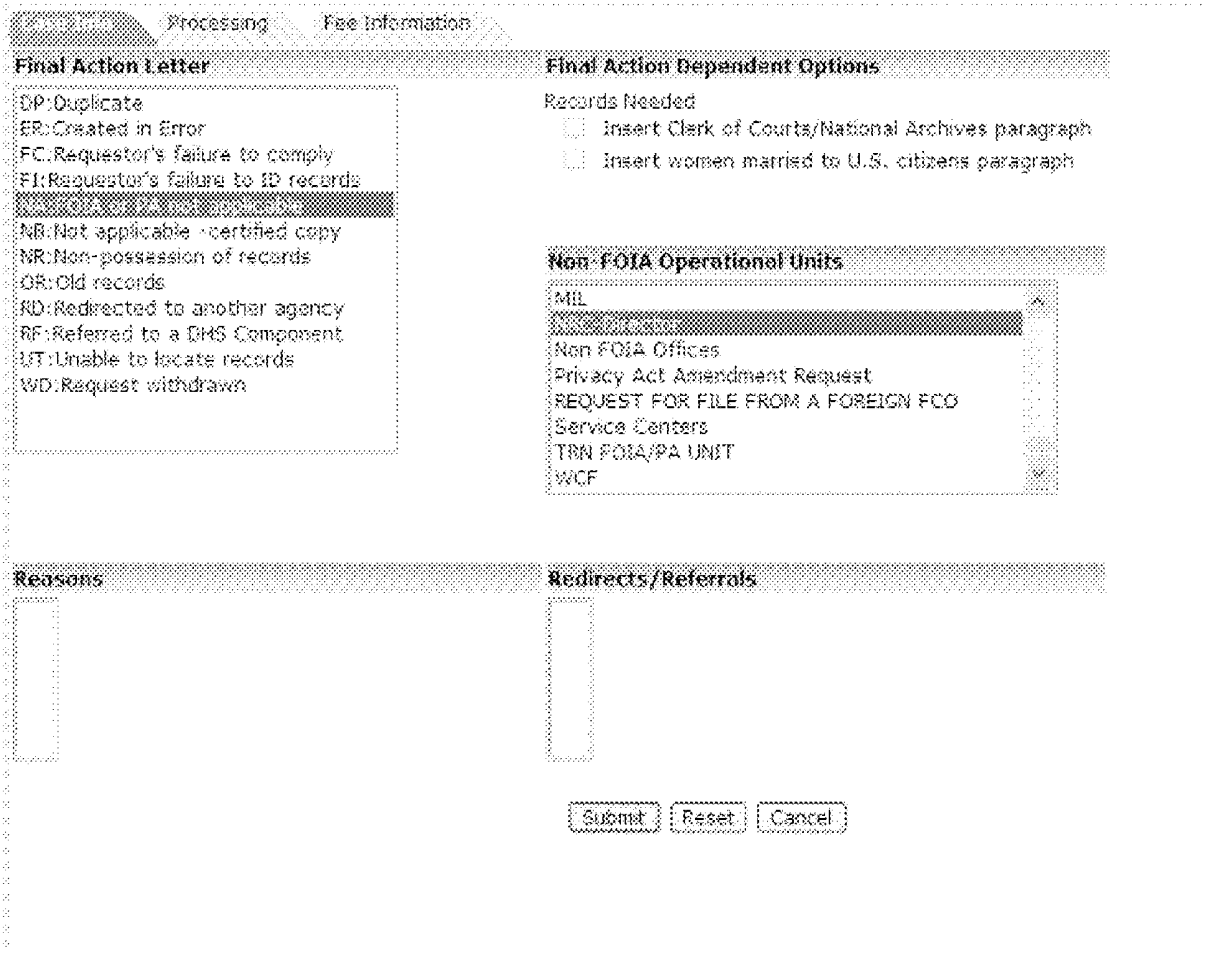
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8.9 REQUESTS: Official Personnel File

You may open a FOIA request received from an individual for a copy of his or her Official Personnel File (OPF). Inform such requesters in the final action letter that they may access their OPFs on-line at:

http://cbpnet.cbp.dhs.gov/xp/cbpnet/hrm/for_employees/info_about_you/eop_folder/eopf_logon.xml

You should then create a Final Action Letter and select the closing code "NA: FOIA or PA not applicable." You will have to select a Non-FOIA Operational Unit. Choose "NRC-Director." You do not have to modify the referral letter, but you should make the appropriate edits in the Final Action Letter. Next, send the case to Up-front Approver. The supervisor will review and close the case.



8.10 REQUESTS: Red Cross / Last known address

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Requests from the Red Cross or from some other non-governmental organization (such as Salvation Army, etc.) looking for the last known address of an alien are normal FOIA requests. You should create the case and request the file as a specific document request. It is not necessary to create an acknowledgement letter if the request is from the Red Cross.

8.11 REQUESTS: Federal, state, local agencies

Governmental agencies, including county public assistance agencies, are seeking the alien to enforce court ordered support or enforcement of some other lawful responsibility. These types of requests fall under the routine use category.

8.12 REQUESTS: Return of original documents

Requesters will sometimes ask for the return of original documents, such as adoption decrees, birth certificates or other documents of a personal nature on a request addressed to FOIA. If the request for the return of original documents is submitted on a G-639, we are required to provide the requester with a copy of the specific documents requested. For return of original documents, the requester must submit a G-884 to the SAVE Unit of their local district office. Insert the following verbiage in the acknowledgement letter.

> In your FOIA request you have specifically asked for the return of original documents. We will provide you with a copy of these documents. In order to obtain the original documents you must submit a G-884, "Request for the Return of Original Documents" to the Save Unit of the nearest district office.

If a Form G-884 has accidentally been scanned into FIPS as a FOIA request, send the case to Up-front Approver for closure as "ER" (created in error). A letter is not created by FIPS; you will need to create a Blank Letter explaining the reason we did not accept their request as a FOIA request. Print two copies of the letter. Attach a cover sheet on one copy to be scanned in as a CSD and send the other copy to the OA room for mailing to the requester. Include a detailed Discussion note. Send the case to Up-front Approver. The supervisor will review and close the case.

If the alien file is located at the NRC, the Case Resolution Team at the NRC handles all G-884's (Request for Return of Original Documents). OA ordinarily forwards any requests for return of original documents to Case Resolution.

8.13 REQUESTS: Privacy Act Amendment

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A person who is a United States Citizen or a Lawful Permanent Resident may request that we amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete. Sometimes a supervisor will place a coversheet on the request stating "Privacy Act Amendment."

If you are creating a Privacy Act Amendment request, please do the following:

1. Begin as usual, filling in requester and subject information and searching for duplicates.
2. Assign it to Track 2. Assign it to Category: Special Interest Group.
3. Create the case.
4. Prepare an email for NRC, FOIASIG and insert the case number in the body of the e-mail.
5. Change the Office to "COW." Click "SAVE." Click "Reassign Office." You are now ready to move on to the next case.

8.14 SITUATION: Untranslated Foreign Language Documents

If you find an untranslated foreign language document which may contain essential information needed to create a case, and you are unable to determine what that information is, there are individuals at the NRC available to translate. Here is the procedure:

- Insert a Discussion titled "Untranslated Documents" and the reference page numbers.
- Copy the text of the Discussion and paste it into an e-mail to NRC, NRCFOIAMSB.
- Send the case to Unit Chief.
- After translation, a copy of the translated information may be scanned in, or the translator may add a Discussion response. The translator will then return it to you for creation and/or staffing.

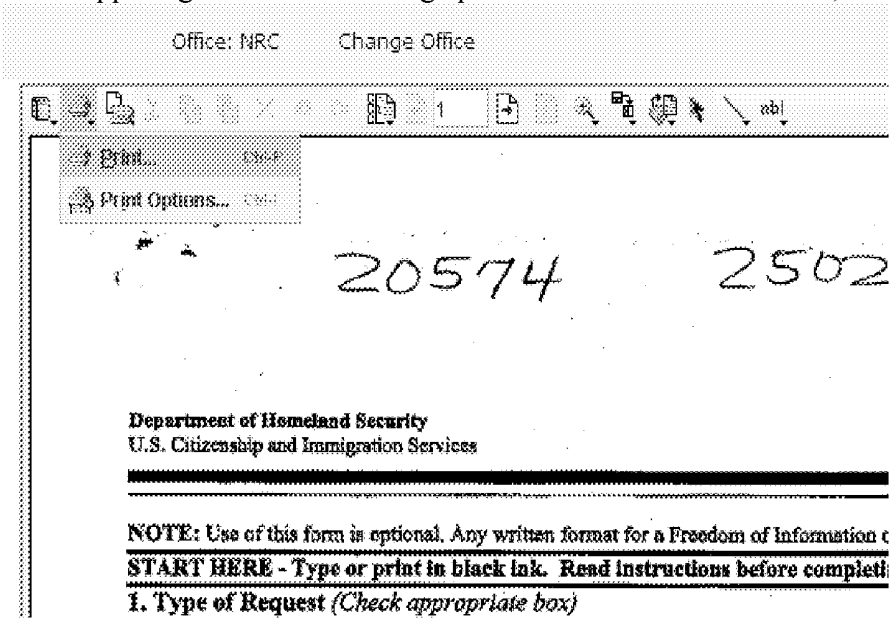
8.15 SITUATION: Congressional correspondence

When the unit receives correspondence from a member of Congress, the creator will need to create the case as a track two case, mark the category as Congressional, request the requested documents and send an e-mail to the MSB Mailbox advising them of the control number, congressional contact information and name of the subject of the request. Do not use the Congressional office address as the address for the FOIA request. If an address for the subject cannot be found, please contact a member of the MSB for more guidance.

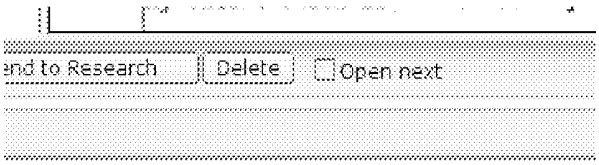
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8.16 SITUATION: Appeals

While case creating, you may open a request and see that it is marked "Appeal." The requester will include the case number he or she is appealing. If this happens, you do not create the case. In the upper right hand of the image portion of the FIPS worksheet, there is a printer logo:



Select "Print." FIPS will then print out all the pages of the request. Get those pages and take them to the designated appeals POC (Currently Claire Gage). After you are sure the pages printed correctly and you have control of those pages, click "Delete." This is possibly the only time you ever click "Delete."



8.17 SITUATION: New requests received on the I-694

If you see a case in the creator role or the processor role that has the I-694, Notice of Appeal of Decision Under Sections 245A or 210 of the Immigration and Nationality Act (INA), scanned as the FOIA request letter, this is considered a legitimate request. The Administrative Appeals Office sends this form along with the A-file to the NRC for processing under FOIA.

Form I-694 is used to notify USCIS that an individual is appealing the denial of their permanent residence, temporary residence, or a waiver of grounds of inadmissibility.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To assist you in identifying this request, the words "NEW REQUEST" should have been written on the top of the form before scanning. Please note the request may not have a current date. The case creator should create the case, and request additional information or consent if needed. If additional information or consent is not necessary, send the case to processor.

8.18 SITUATION: Subpoena or court order

If you pull a new request that is a subpoena or court order, please send it to Up-front Approver for closure as ER. Send a message to NRC, FOIA PROGRAM; McDaniel, Marcia M (clicking the link generates the e-mail) providing the REQ number and information indicating the request was a subpoena or court order. The NRC Program Office is currently addressing these requests. Subpoenas or court orders are a high priority. Please notify NRC, FOIA PROGRAM as soon as possible. If you aren't sure, please contact your supervisor for guidance on how to proceed.

8.19 SITUATION: Certification of record

When creating a new case, insert a Discussion "requester wants documents certified." The processor or approver will handle the certification process.

Certification of records is done in accordance with 8 C.F.R. § 103.7(d) and the Records Operations Handbook (ROH).

The NRC will certify certain documents from A-files as being true and correct copies. The physical file must be located at either the NRC or the FRC. Genealogy requests that were received, staffed and processed by NRC can also be certified by the NRC. The NRC will not certify copies of documents that belong to other agencies. Information will be provided to the requester on how to obtain certified copies of these documents. The NRC can also provide a certified letter giving information such as the date of entry and the status of the individual.

First, evaluate if the request qualifies under the Genealogy Program. Refer to the section entitled Case Specifications, Category 4 (Other).

NRC will not certify naturalization certificates for living persons. If the individual has his or her original naturalization certificate and want or need a certified copy of it, he or she must make an INFOPASS appointment. An individual must submit an N-565, Application for Replacement Naturalization/Citizenship Document if he or she has lost or misplaced the original.

Records Services Branch, USCIS does all certificates of non-existence; these requests must be submitted in writing to the address shown below:

U.S. Citizenship and Immigration Services

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

ATTN: Records Service Branch
1200 First Street, NE, 2nd Floor
Washington, DC 20529-2204

8.20 SITUATION: Certification of record for dual Italian citizenship

If we receive a request asking for a certified copy of a relative's naturalization certificate for the purpose of applying for dual Italian citizenship:

Evaluate if the request qualifies under the Genealogy Program. Refer to the section entitled Case Specifications, Category 4 (Other).

If the requester's relative is deceased, he or she must submit the request to the USCIS Genealogy Program. The web address for more information and instructions for submitting their request is **USCIS.gov** or;

If the requester's relative is living, please include the following paragraph in your acknowledgement letter:

This is in response to your request for a certified copy of a relative's naturalization certificate in order to apply for dual Italian citizenship. According to information obtained from the Italian Embassy in Washington, D.C., certified copies of naturalization certificates are not required for the dual citizenship application. The Italian Embassy requires the naturalization certificate copy along with our USCIS cover letter and envelope. The records that we release as part of this FOIA request will serve that purpose.

8.21 SITUATION: Record at National Archives and Records Administration (NARA)

The National Archives and Records Administration has designated alien files as permanent records for the Federal Government, ensuring their retention indefinitely. As with all permanent records of the Federal Government, ownership and physical custody of the record is transferred to NARA at a designated point and NARA becomes the custodian of the record. Once the record is transferred to NARA, anyone who wants documents out of the file will have to file his or her FOIA request directly with NARA. The "magic date" for alien files to be turned over to NARA is when the subject of the file passes 100 years of age. The NRC has begun the process of transferring the targeted files into the custody of NARA.

As a result, case creators need to pay close attention to those cases in which the subject of the file was born more than one hundred years ago, particularly if the request does not meet the criteria for a genealogy case.

For example, the requester writes in and makes the following request:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

"I want the records of Joe Crab, date of birth, March 22, 1899. Mr. Crab naturalized in 1957 and died in 1969. Enclosed is proof of his death and alien number."

NOTE: You may find the complete list of criteria in Section 3, "Category of request" in the sub-paragraph "GEN."

Mr. Crab meets one prong of the criteria for genealogy because he was born long ago; however, since he was naturalized in 1957, he does not meet the prong of having no documents in his file dated after 1951. If you are creating a case and the subject of the request is 100 years of age or older, **but** the person DOES NOT fully meet the criteria for a genealogy case, please pay special attention to NFTS. NFTS may show that the file has been retired and is at a Federal Records Center. If that is the case, request the file. If NFTS shows that the a-number has been retired to NARA, it means we have turned the records over to NARA permanently. The requester will have to send a request to NARA. Please select FINAL ACTION OPTIONS when creating the Acknowledgement Letter, select NA and replace the normal Acknowledgement Letter with the NARA Historical Record Letter located at O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters/Historical_Record_Letter.

It may happen that USCIS has not yet transferred the file to NARA. If NFTS still shows a shelf location within NRC (or any other office), request the file.

8.22 SITUATION: Old records

Occasionally we will receive a request for records pre-dating our recordkeeping system. The agency maintains immigrant arrival records created since 1892; and naturalization records since 1906.

When a request is for records older than those maintained by the agency, create a Final Action Letter and select "OR." This generates a letter to the requester explaining that the records being requested are older than those maintained by the agency. After generating the final action letter, send the case to Up-front Approver. The supervisor will review and close the case.

8.23 SITUATION: Requests from Prospective Adoptive Parents

In the recent past, Vietnam, Cambodia, Guatemala, Nepal, Ethiopia and other countries have had problems concerning adoptions. Birth Certificates have been forged and babies have been taken without consent of the biological parent. In Vietnam, "baby brokers" scour villages looking for unwed, impoverished mothers. They purchase the babies for about $50 and sell them to commercial adoption services. In Guatemala and elsewhere, people steal babies and sell them to

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

middlemen. Prospective adoptive parents from Spain, Italy and the United States are typically willing to pay as much as $25,000 to adopt a child. (This information comes from kidsofkathmandu.org).

Normally if we cannot verify consent or prove parentage in a case, we send out for more information. Please do not send out for additional information in pending (not finalized) adoption cases for the following reasons:

1. The Prospective Adoptive Parents (PAP) have the right to all information they submitted for the adoption. In cases like this, it is likely that the adoption never happened. If that is the case, they have no proof of parentage or guardianship.
2. The child is usually too young to give consent.
3. Congress has substantial interest in this matter.

If you decide you need proof of parentage after a full search, please send your case to Admin for supervisor review.

9. REFERRAL AND REDIRECTION

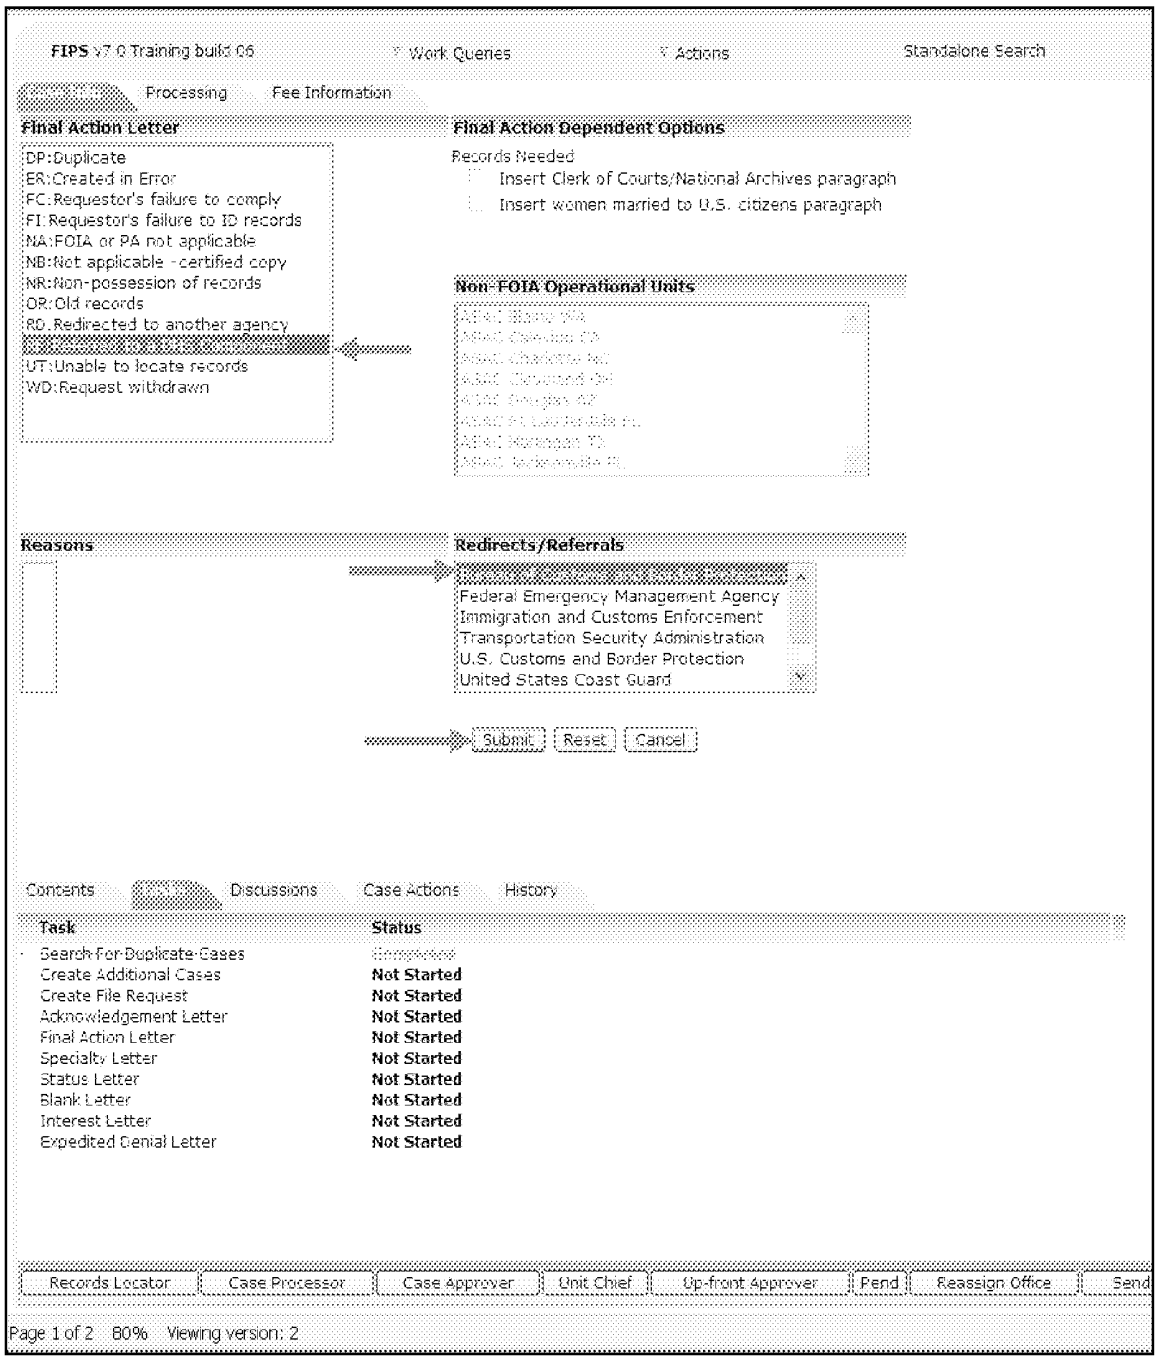
9.1 Referral

The FOIA requires us not to close a case if there is information in another component of our department. For instance, the Drug Enforcement Administration and the Federal Bureau of Investigation are both components of the Department of Justice. If DEA receives a FOIA request and determines the information is with FBI, they may not close the case and tell the requester to write to FBI (that is redirection). They must send the request to the FBI and advise the requester they have done so (that is referring).
USCIS occasionally receives FOIA requests for non A-file records totally under the purview of another DHS component. When this occurs, we refer the FOIA request in FIPS to the correct component. The following agencies are DHS components:

Transportation Security Administration (TSA)
U.S. Customs and Border Protection (CBP)
U.S. Immigration and Customs Enforcement (ICE)
U. S. Secret Service (USSS)
Federal Emergency Management Agency (FEMA)
U.S. Coast Guard (USCG)

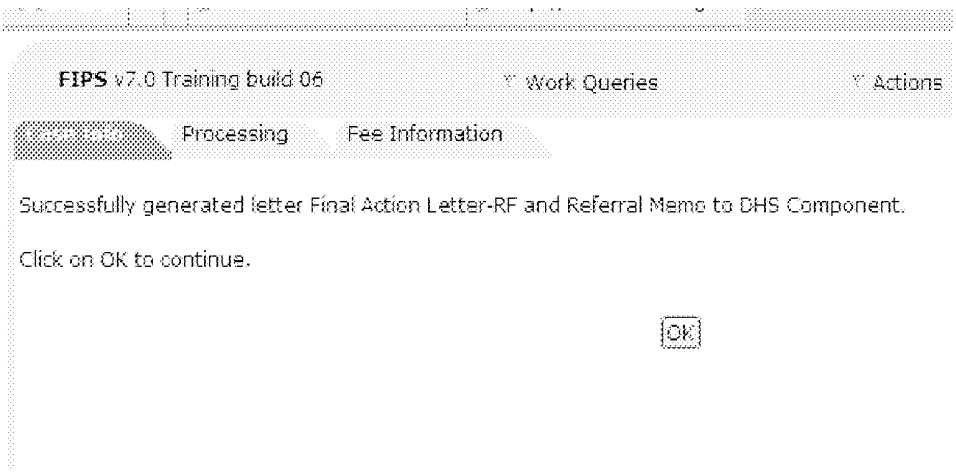
Under the "Tasks" tab, select Final Action Letter. Select "RF: Referred to a DHS Component" as the final action code. Under "Redirects/Referrals" select the component to which we are referring the request and click "Submit.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

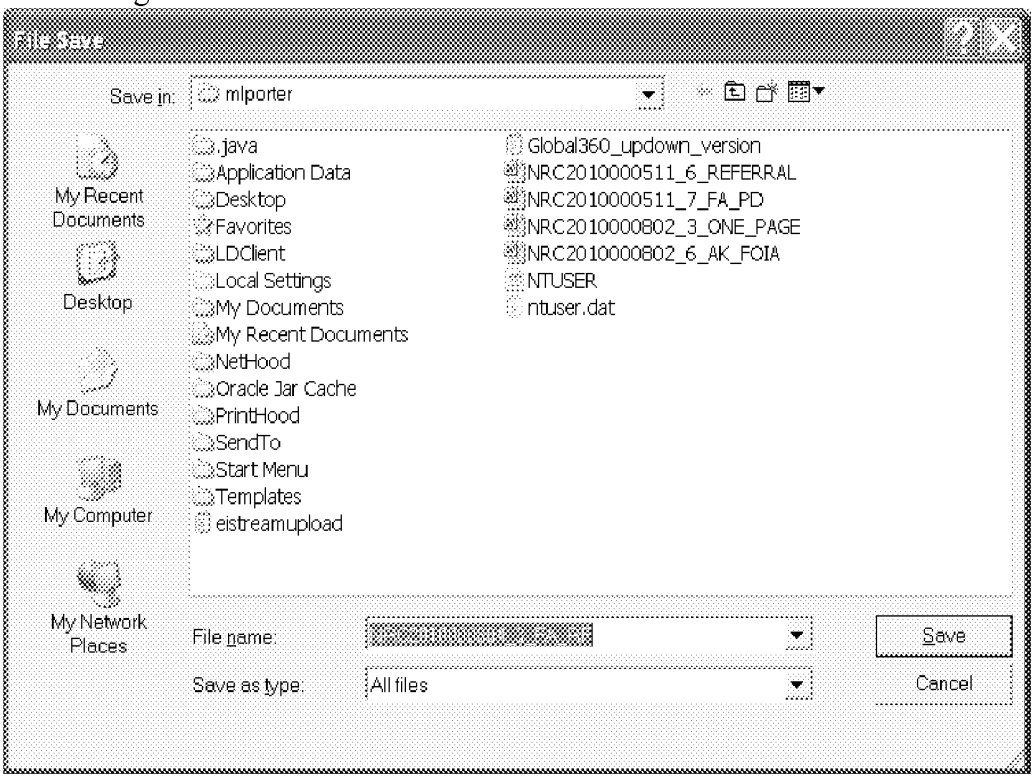


FIPS will automatically create two documents: A final action letter to the requester and a referral memorandum to the DHS component.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

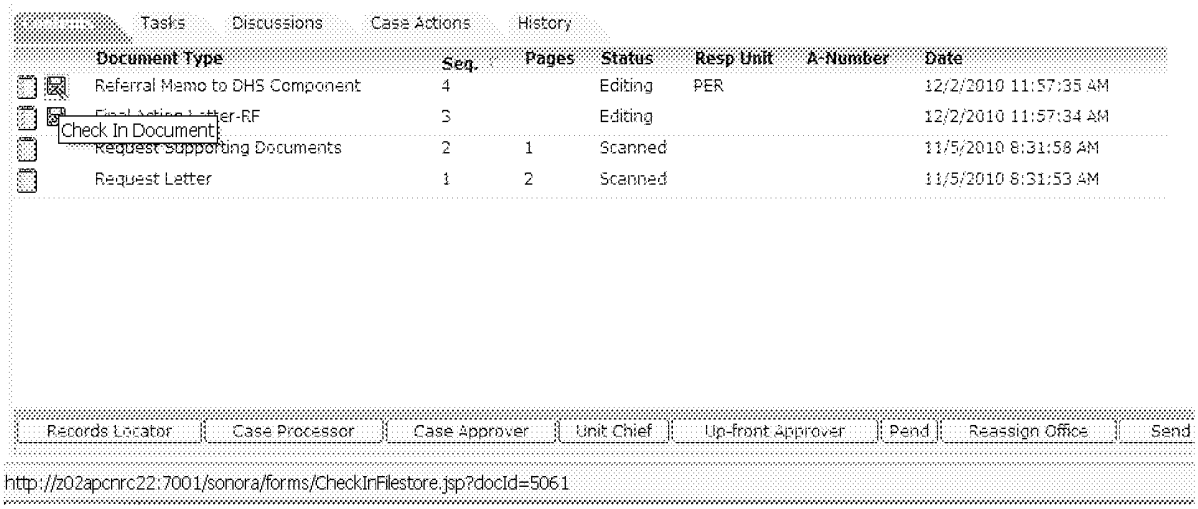


FIPS then generates the two Word documents:

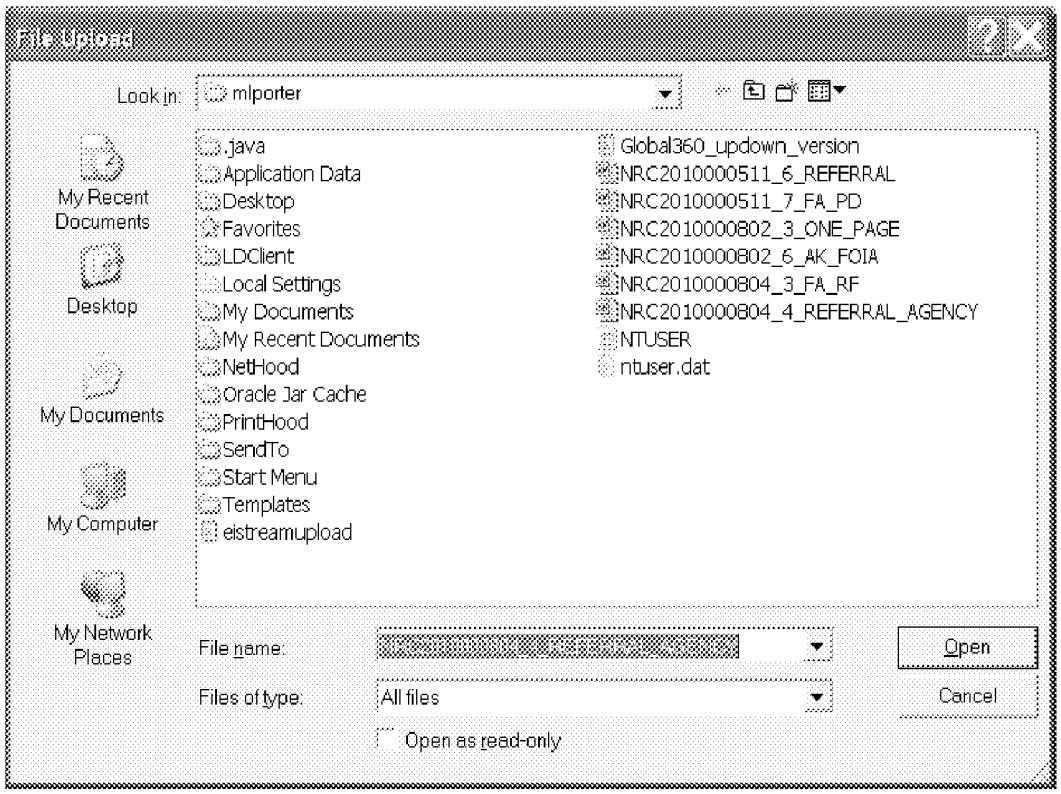


You may have to edit the letter to add needed information. After you exit from the Word documents, they will appear under the "Contents" tab:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Click on the "Check in Document" icon and you will get a "Save" dialog box. Click "Open."



After you have done this for both documents, send the case to Up-front Approver.

9.2 Redirection

If we receive a request for records that belong to an agency outside of DHS, we close it and write a "redirect letter." Under the "Tasks" tab, select Final Action Letter. Select "RD: Redirected to

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

another agency" as the final action code. Under "Redirects/Referrals" select the agency to which we are referring the request and click "Submit."

An example of a request we close and redirect is a petition that we discover has been forwarded to the National Visa Center for issuance of an immigrant visa. The redirect letter advises the requester to contact the different agency for the information they are seeking. The procedure for the documents is the same as for referrals. You may have to edit the letters to add needed information. After you exit from the Word documents, they will appear under the "Contents" tab. Click on the "Check in Document" icon and you will get a "Save" dialog box. Click "Open." After you have done this for both documents, send the case to Up-front Approver.

9.3 Entry/Exit Information referral to CBP

CBP handles FOIA requests for entry and exit information dating back to 1982, inspection, Port of Entry (POE), requests for information relating to air and/or marine incidents, or the U.S. Border Patrol Academy, legacy Customs or legacy Inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. A FOIA request for this type of information should be referred to **CBP** at the address shown below.

U.S. Customs and Border Protection
FOIA Division
799 9th Street NW, Mint Annex
Washington, DC 20229-1177

Note: If the request is for entry/exit information and the requester/subject provided an alien number, request the file. If the request is for entry/exit information and the requester/subject did not provide an alien number, you must thoroughly search CIS and CLAIMS to be sure the person does not have an alien number or application. CBP has records on entry and exit information dating back to 1982, but no further back. You may modify the referral letter; any information you can provide as to what the requester is asking for will be helpful to CBP.

9.4 Border Patrol referral to CBP

If you encounter a Border Patrol Request in Case Create, refer the case to CBP. This includes Border Patrol records relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, or checkpoints.

Exception to this rule; if the requester provides an A-number or you locate an A-number through a search of the systems, please request the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

9.5 Personnel/hiring practices/vacancy announcements

If you receive a request concerning employee records, vacancy announcements, or any personnel matter generally, please create the case as you normally would by filling in the blanks and controlling the case. After that, change the Category to PER. Do not create a staffing and do not send any correspondence to the requester. Add a Discussion note that this appears to be a personnel-type FOIA request. Send an e-mail to NRC, FOIASIG. After that, send the case to Unit Chief.

9.6 US-VT referral to US Visit

Refer requests relating to United States Visit. The United States Visit is a Border Security Program that records biographic, biometric and travel information for all foreign visitors to the United States. The system screens all crewmembers and passengers that travel to the United States by air, sea or land. United States Citizens are not in the system.

If the requester is asking for both a copy of the alien file and for entry and exit information, you should request the file. See Entry/Exit CBP information above.

10. DETERMINING TO STAFF BASED ON BEST INFORMATION AVAILABLE:

If you determine that the requester has provided all the PII possible after performing the CIS 9102 or 9106 and 9103 screen searches shown above, and there is only one person in the CIS 9101 screen with the same information, please request the file. However, prepare a Discussion explaining why you staffed for the file.

11. SOCIAL SECURITY NUMBER

USCIS does not use Social Security numbers in the Freedom of Information/Privacy Act requests. Even if the alien disclosed his or her SSN in the request, do not enter that number on the FIPS worksheet. We will not request the Social Security number when requesting additional documentation.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12. REQUESTING THE RESPONSIVE RECORDS

After the acknowledgement letter is created, if all required information is present, the next step is to request the records that are responsive to the request.

How do you determine what records are responsive to the request? First, you have to read the request. Typically, the requester will ask for a complete copy of an alien file and they will provide an alien number. If this is the situation, you must verify in CIS that this alien number belongs to the subject.

There is a staffing guide/RPC reference sheet available on the FOIA Operations intranet page to use for requesting the file.

If the requester is only seeking specific documents, please make a Discussion in FIPS detailing what those documents are. You will also be mentioning those specific documents in your acknowledgment letter to the requester.

The Service Centers (except MSC/NBC) scan the responsive records into FIPS when they are the FCO for that file. Please see the staffing guide for more instructions on requesting these types of Service Center files.

If the requester did not provide an alien number or receipt number but did provide enough information to conduct a thorough search, you should search CIS, CLAIMS and possibly PCQS to determine the subject's alien number or receipt number. If the requester did not provide enough information to conduct a thorough search, then you will have to ask the requester for more information.

We do not request "S" (substitute) or "W" (working) files unless instructed to by a supervisor/lead. After the creator has staffed for the appropriate files, the next and final step to case creation is to pend the case for the responsive records.

If the file is located at COW, with the Responsible Party Code (RPC) of RK, please insert a Discussion after you have created the case. The title of the Discussion should read "File is at RK." Send the case to Unit Chief. Send your supervisor an e-mail with the control number of the case and that the file is located at COW with an RPC of RK.

If you see an RPC of **"ZW"** in NFTS; that indicates the file is classified. Staff the file to the current FCO. If you see an RPC code ZW0004; that indicates the file is here at the NRC in the safe and you should staff: FOIA Safe.

If you pull a case that has a FOIA Safe staffing you should **NEVER** cancel the file request. Send the case to Pend.

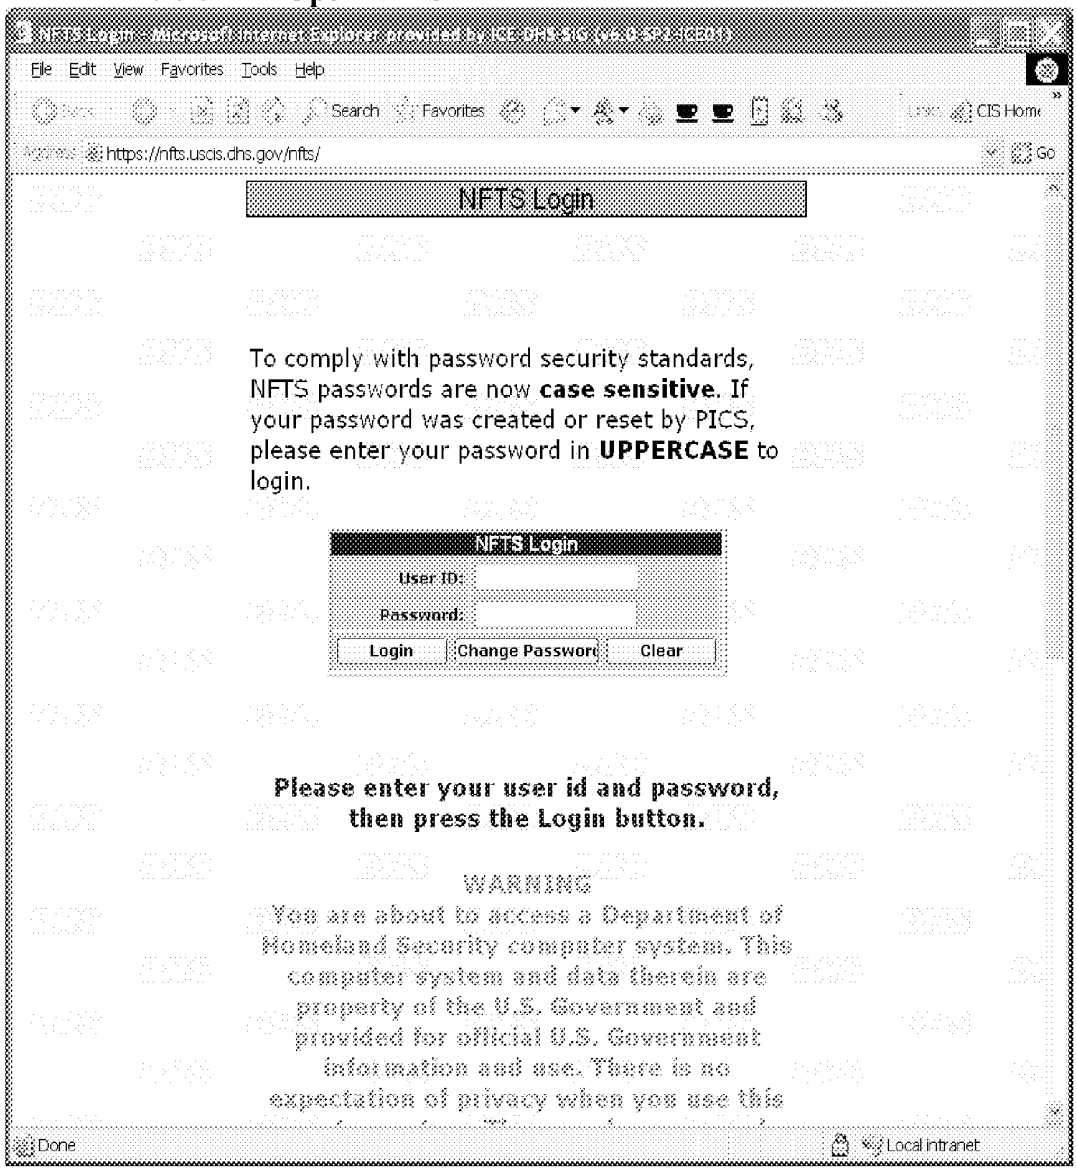
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1 Staffing by Alien Number

12.1.1 One A-number provided on the request (with example staffing)

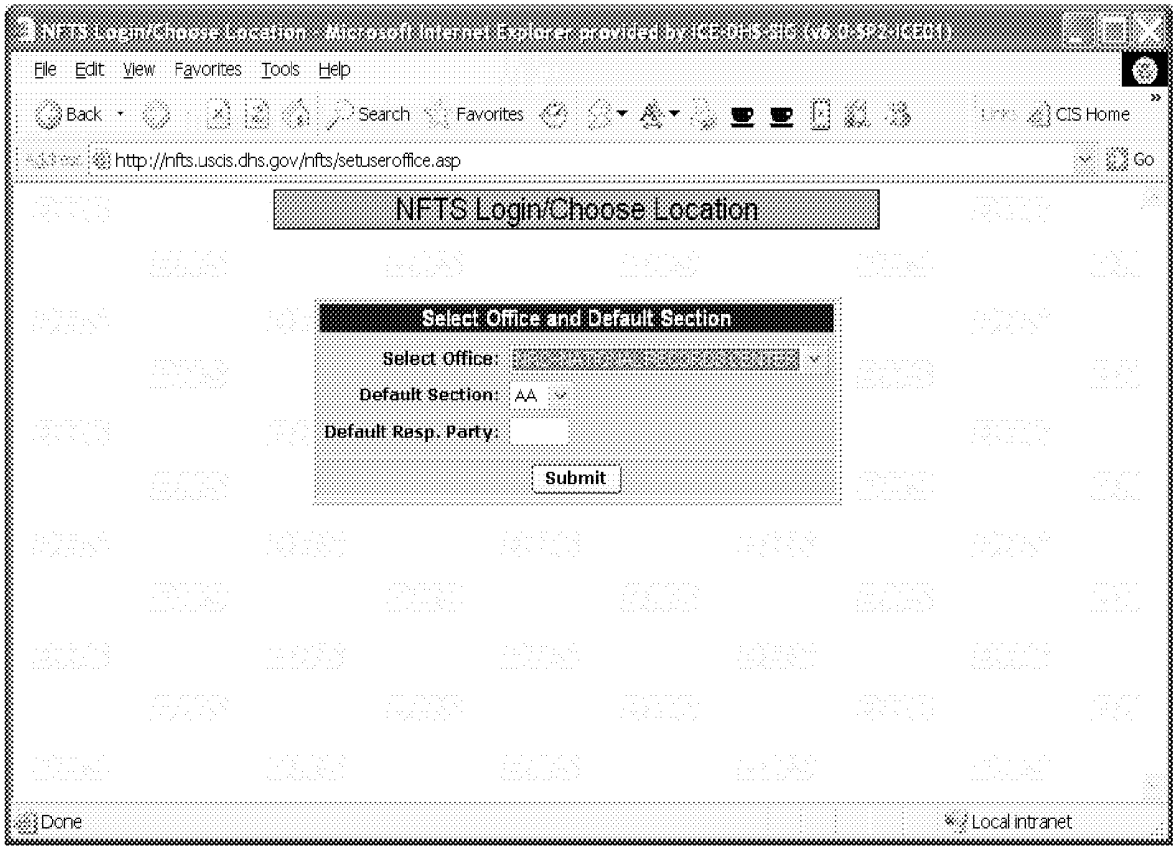
If an A-number is provided on the request and CIS confirms that it belongs to the alien, ensure you have all the other required elements (DOB, COB, DOE, POE and parents' names) to complete the case create. If any of the required elements are missing, request the additional information when sending the Acknowledgment Letter. The section that follows is a systematic example of staffing by A-number when the requester has provided one.

12.1.1.1 Open NFTS



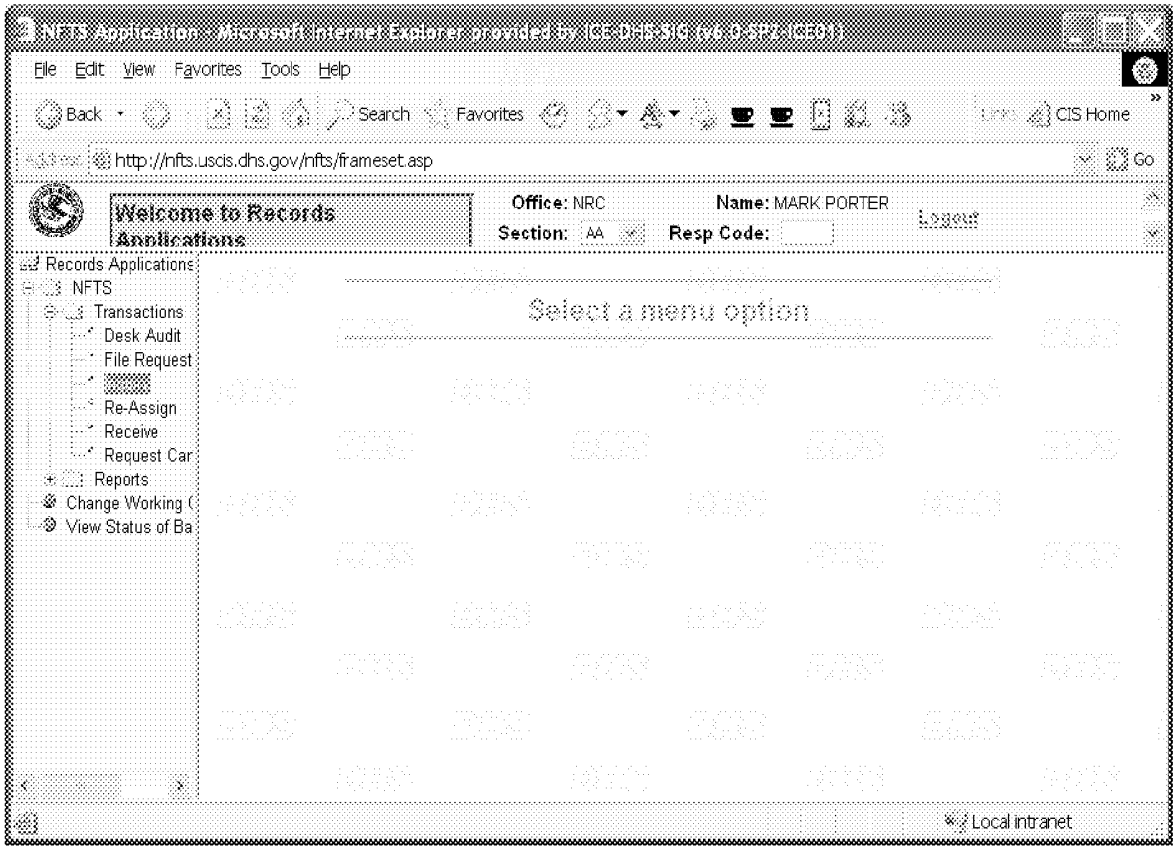
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.2 Submit your location



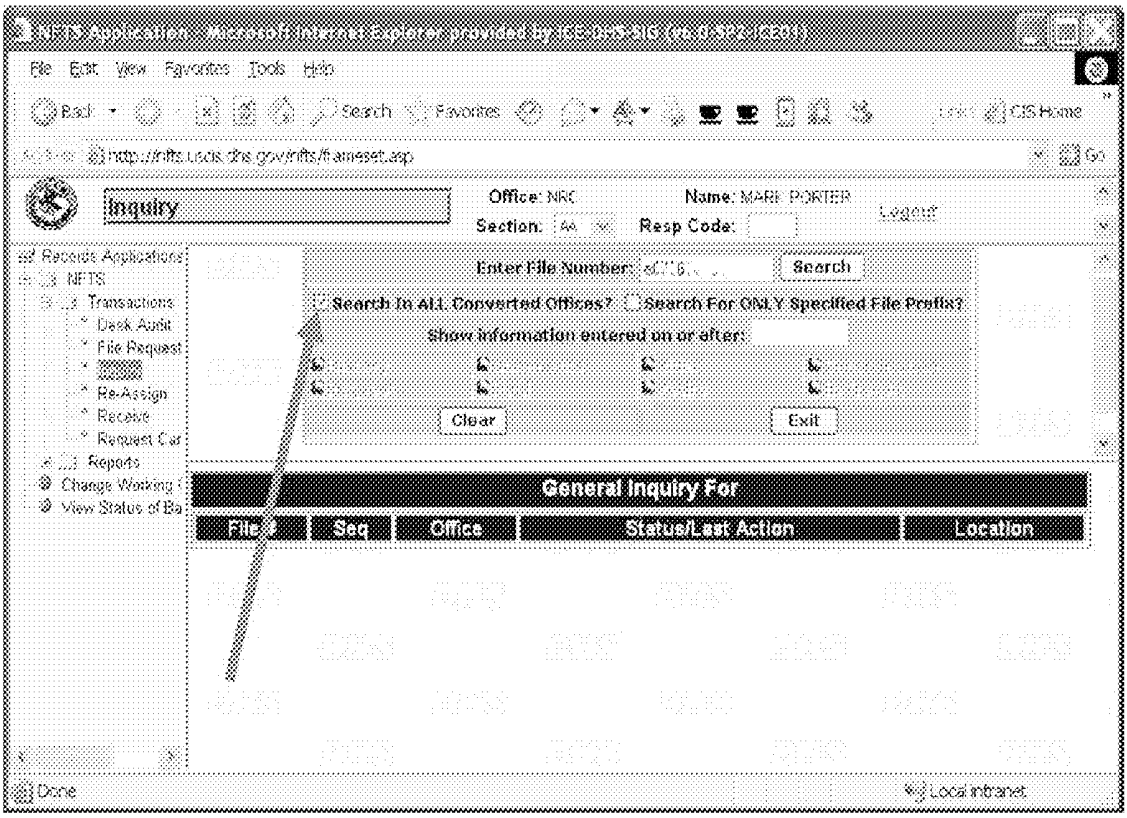
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.3 Select "Inquiry"



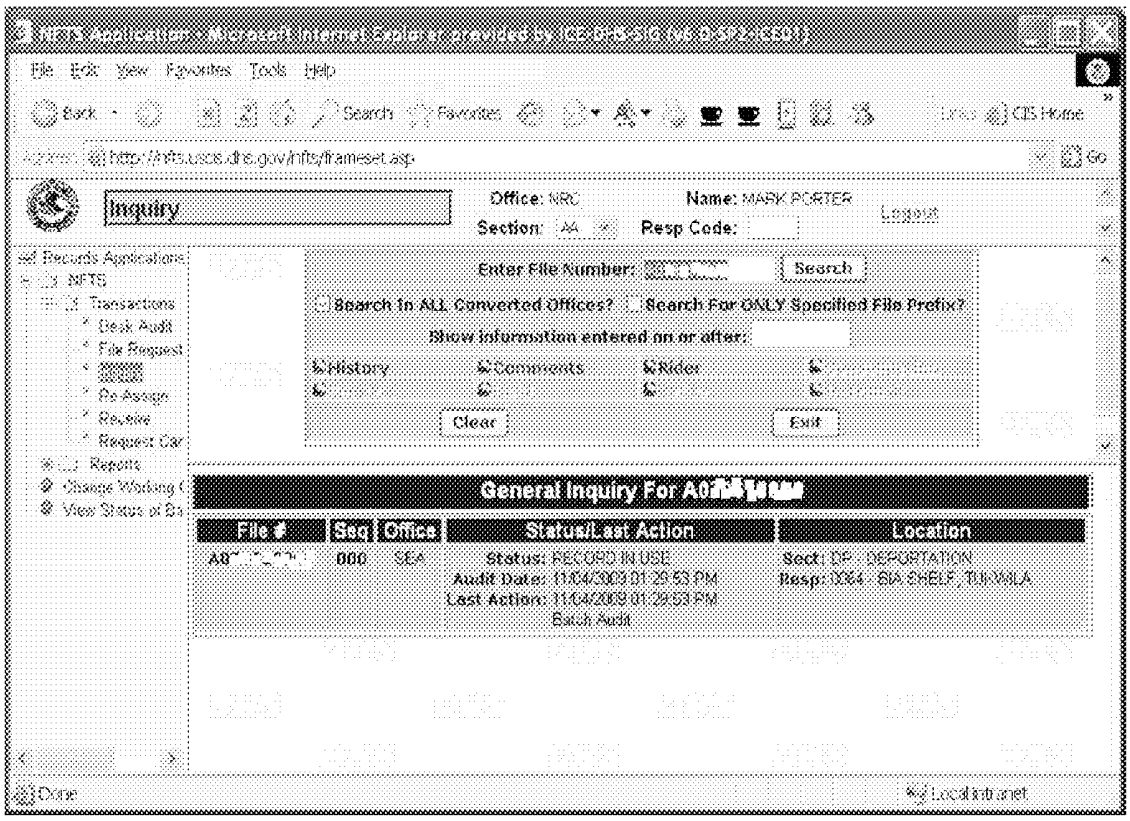
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.4 Select "ALL Converted Offices" and enter "A" or a "+" then enter the A-number. Preferably, paste the copied number from CIS so you are sure you are asking for the correct file.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.5 The search result provides several pieces of information. First, we can verify from CIS that the File Control Office (FCO) is Seattle. The Responsible Party Code (RPC) is DP0064, and it tells us that DP means Deportation. Do you see the four boxes above the "Exit" button? Those are "Rider," "Consolidation," "Retire," and "In Transit." If any one of those is "grayed out," it means there is no information there. If one is "blued in," it means there is information and we should look at it.



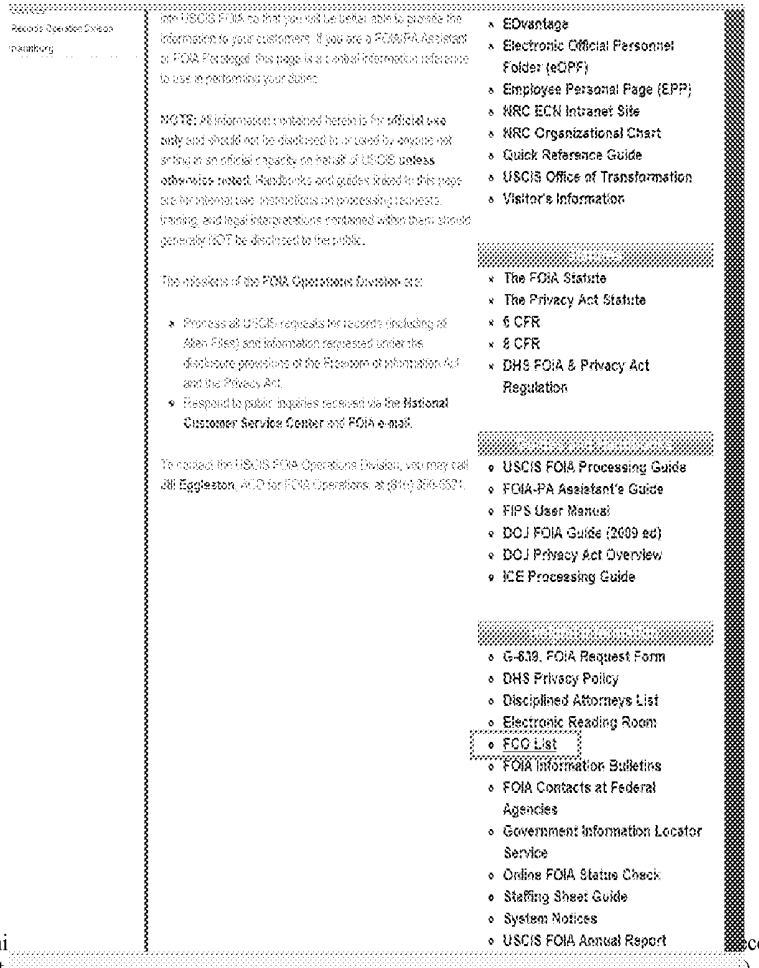
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.6 "Blued in" information

- If "Retire" had been blued in, it would have been important. We would have used that inquiry screen to staff from the FRC.
- If "In Transit" had been blued in, it would have been important. We would have staffed to the receiving FCO.
- If "Consolidation" had been blued in, it would have been important. We would have checked to make sure our file is the "survivor" and not the consolidated file.
- "Rider" could be important to the case processor, but it has nothing to do with how we request this file.
- Comments may be important because a File Control Office may not be able to change a file location to "LOST" in NFTS. When that happens, the records person at the FCO will notate in Comments that the file is lost. If that is the situation, please refer to the Lost File Flowchart in Appendix H of this guide.

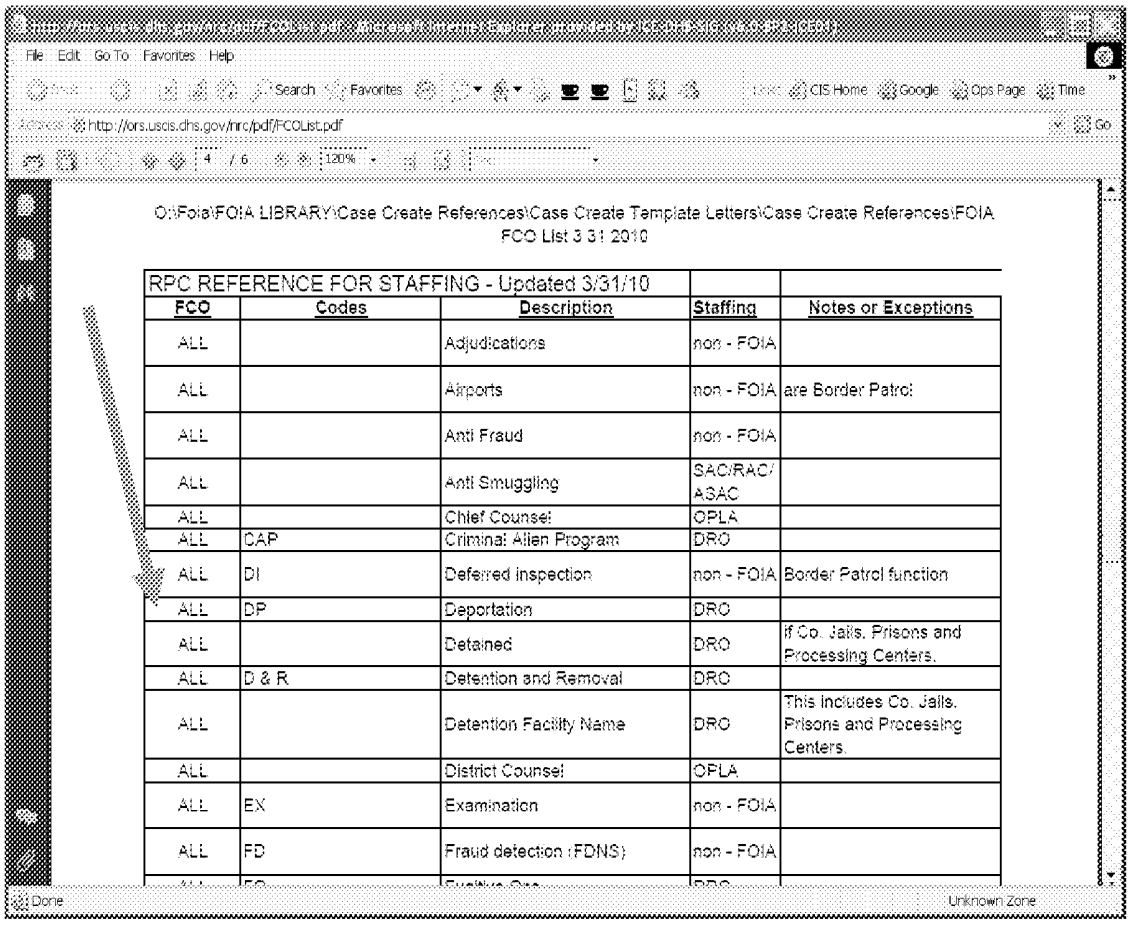
12.1.1.7 The FOIA Operations Division Intranet Page

Now, an RPC beginning with "DP" is easy because NFTS shows right beside it that it means "Deportation." Sometimes an RPC prefix can be important and it's not obvious right away. If that's the situation, we need to look at the FCO List, which also has the RPC Reference Guide.



WARNING: This document is for Records Center use only. It contains information that). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.8 The RPC Reference Guide says that no matter what the FCO is, if the RPC starts with DP, we staff to DRO. If you don't already know this, SAC, RAC, ASAC, DRO and OPLA are all ICE functions. That's important for staffing.



O:\Foia\FOIA LIBRARY\Case Create References\Case Create Template Letters\Case Create References\FOIA FCO List 3 31 2010

RPC REFERENCE FOR STAFFING - Updated 3/31/10

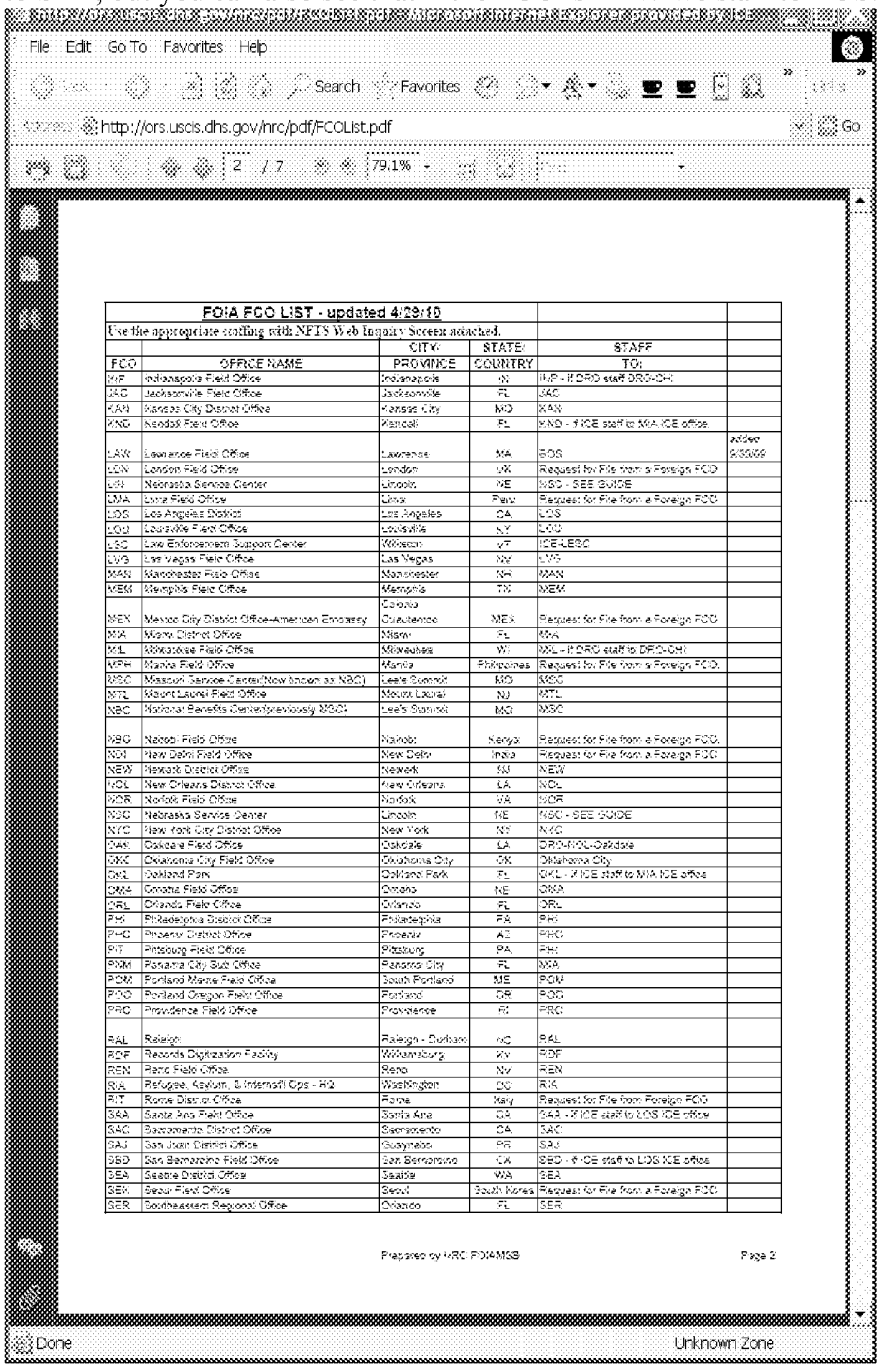
This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.9 The FCO List

From NFTS we know that the FCO is Seattle. We should check to be sure that if the FCO is SEA that we staff to SEA. It's not always intuitive. For example, you can see that we staff SEA to SEA, but you can also see that if the FCO is LAW we staff to BOS.



FOIA FCO LIST - updated 4/29/10

Use the appropriate coding with NFTS Web Inquiry Screens attached.

FCO	OFFICE NAME	CITY/ PROVINCE	STATE/ COUNTRY	STAFF TO:	
IMF	Indianapolis Field Office	Indianapolis	IN	IMP - If DRO staff DRO-CHI

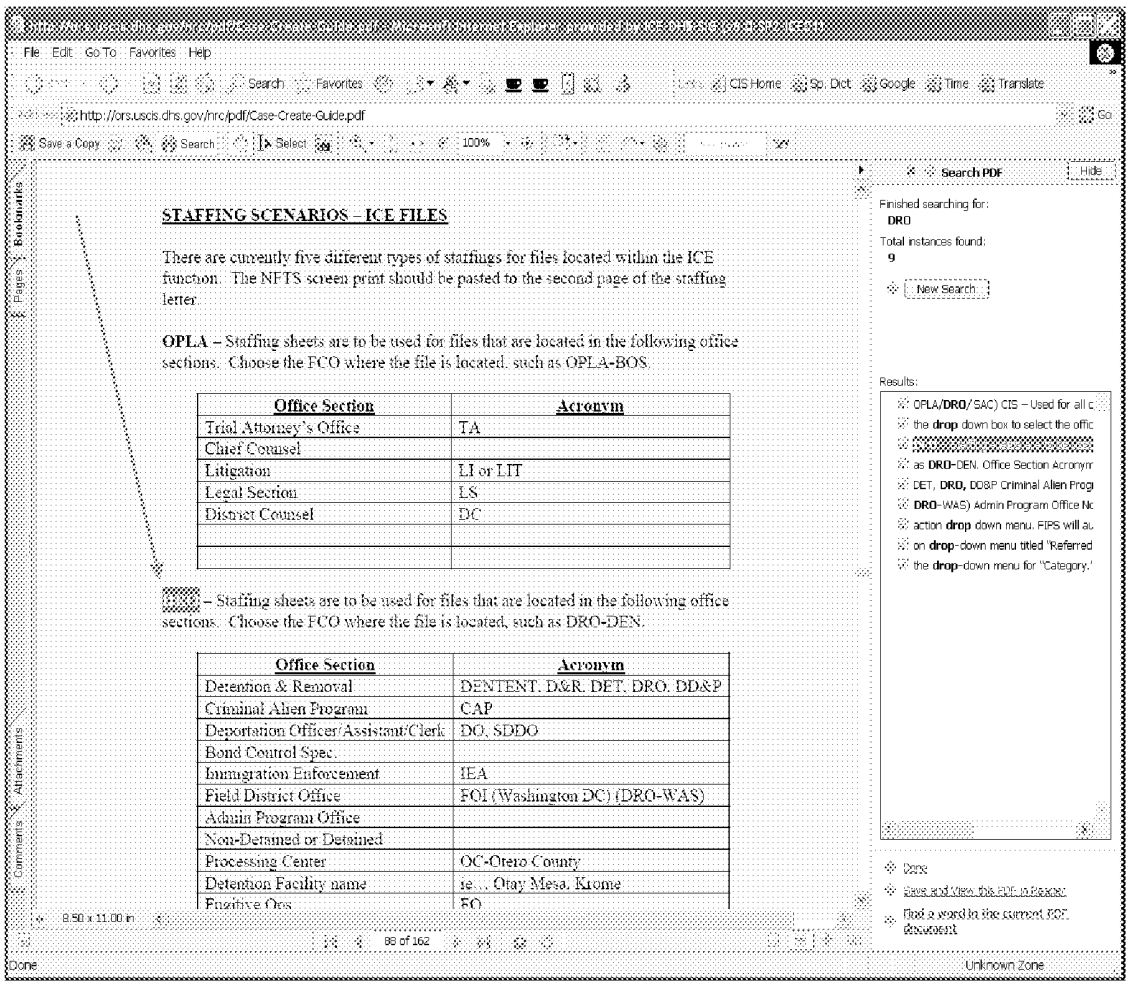
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.10 Figuring out a Staffing Scenario

The Guide confirms what we thought. If we staff to DRO, then we choose the FCO where the file is located. We're going to look for DRO-SEA. Note that the quickest way for me to find the information is by searching "DRO." I could have also gone to the table of contents and looked under Staffing Scenarios.



STAFFING SCENARIOS – ICE FILES

There are currently five different types of staffings for files located within the ICE function. The NFTS screen print should be pasted to the second page of the staffing letter.

OPLA – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	TA
Chief Counsel	
Litigation	LI or LIT
Legal Section	LS
District Counsel	DC

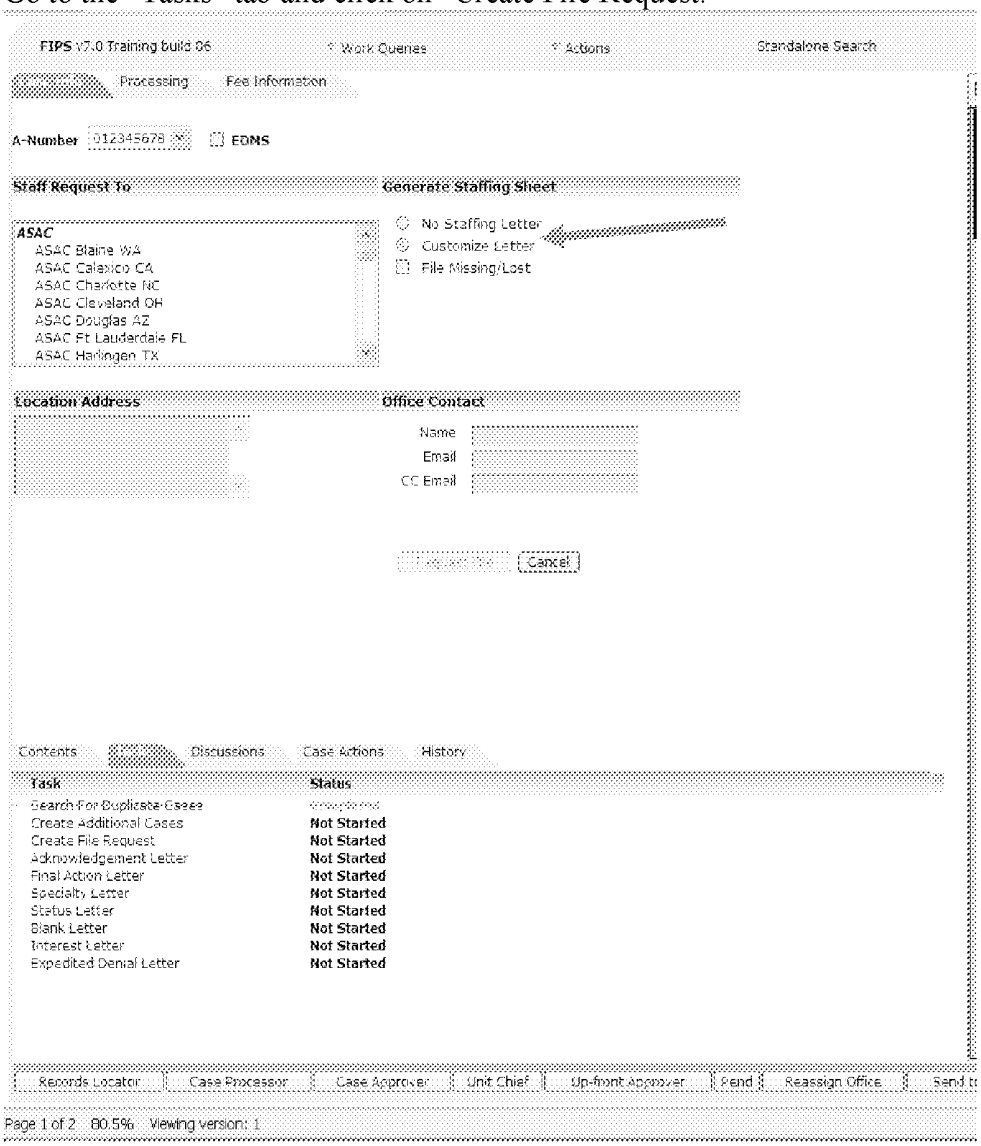
[redacted] – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	DENTENT, D&R, DET, DRO, DD&P
Criminal Alien Program	CAP
Deportation Officer/Assistant/Clerk	DO, SDDO
Bond Control Spec.	
Immigration Enforcement	IEA
Field District Office	FOI (Washington DC) (DRO-WAS)
Admin Program Office	
Non-Detained or Detained	
Processing Center	OC-Otero County
Detention Facility name	ie… Otay Mesa, Krome
Fugitive Ops	FO

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.11 Generate the file request

Go to the "Tasks" tab and click on "Create File Request."

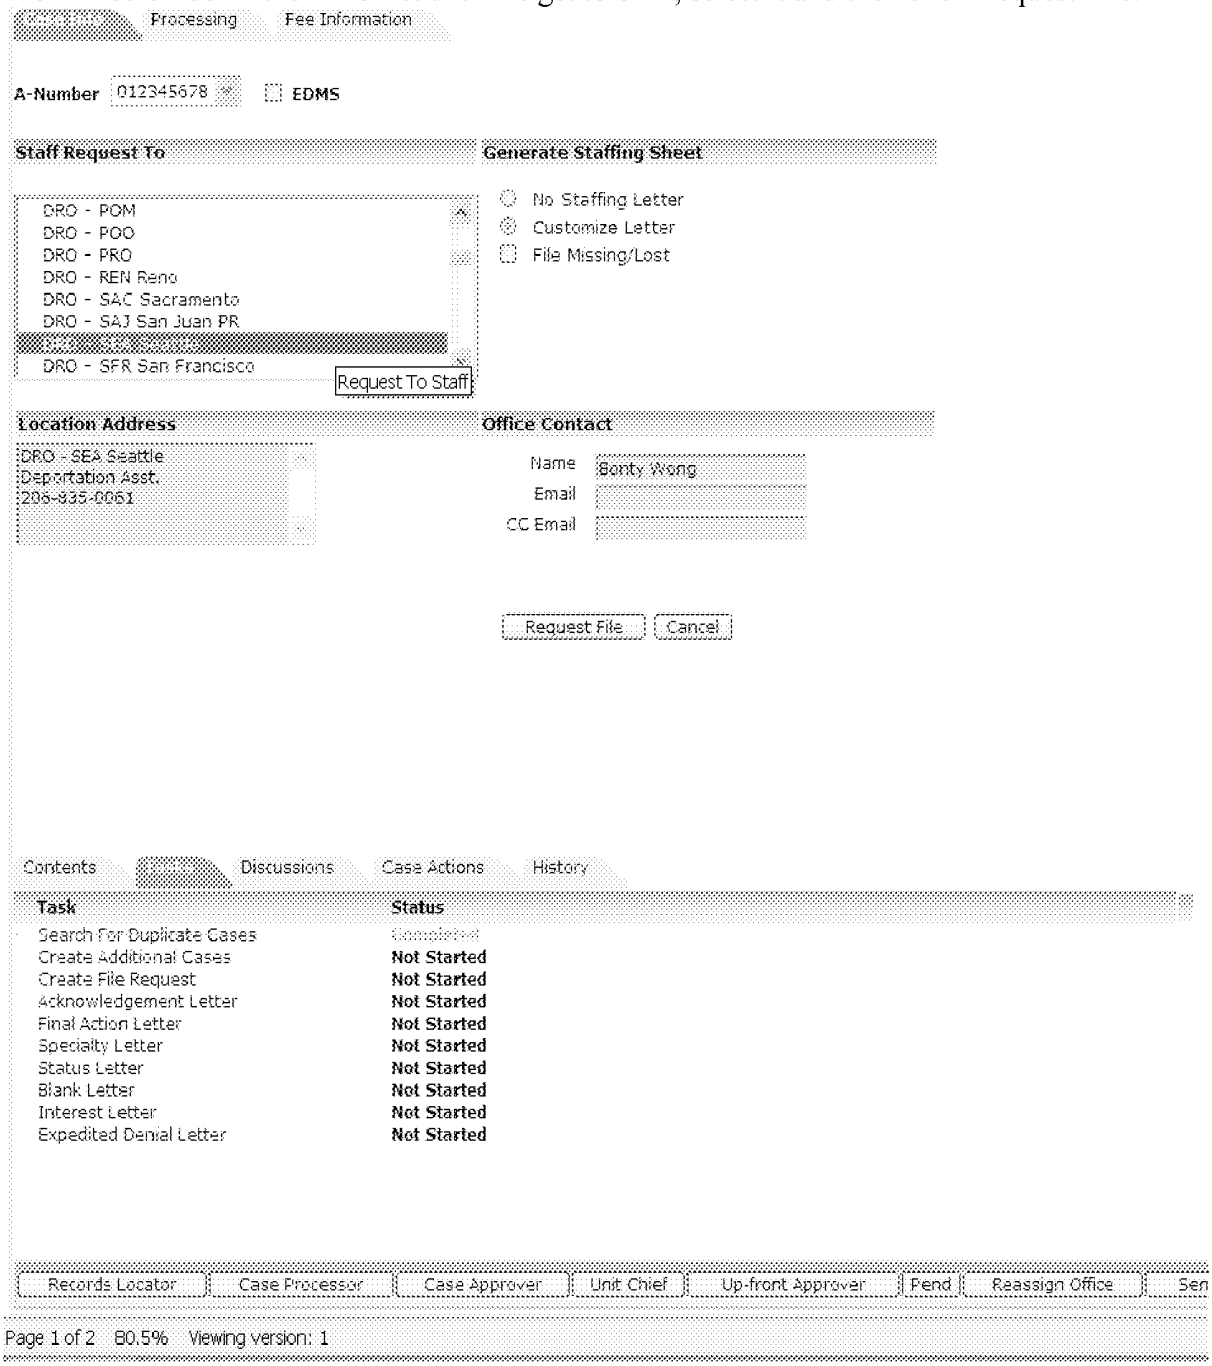


Make sure the button marked "Customize Letter" is selected. The file is not missing or lost, so we won't check that box. We know the file is at DRO Seattle, so we will scroll down "Staff Request To" until we find it.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.12 FIPS – Staffing Request dialog box

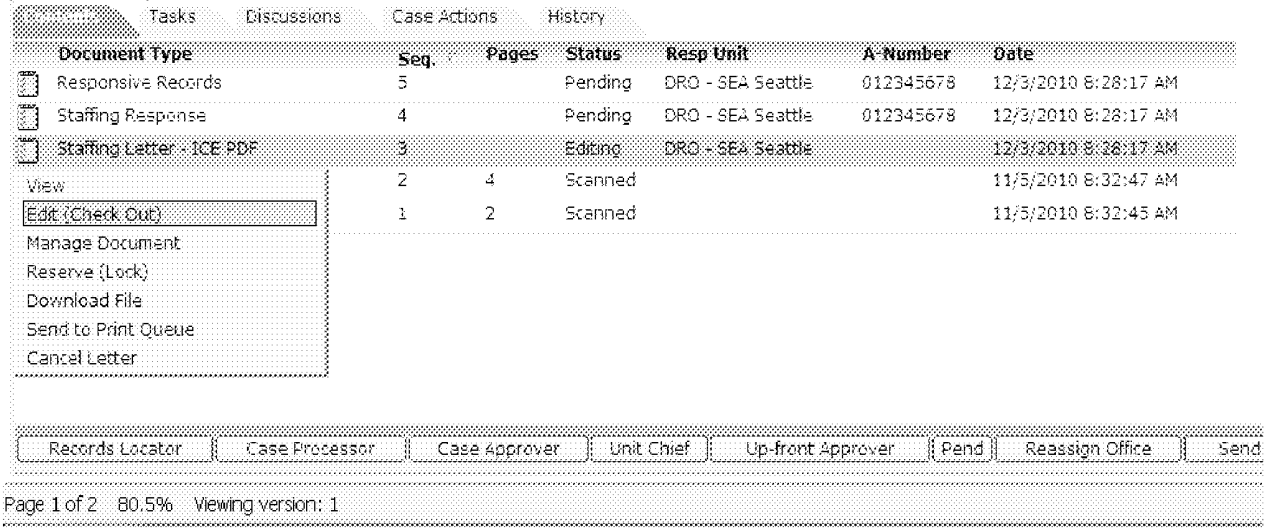
We will scroll down the DRO list until we get to SEA, select it and then click Request File:

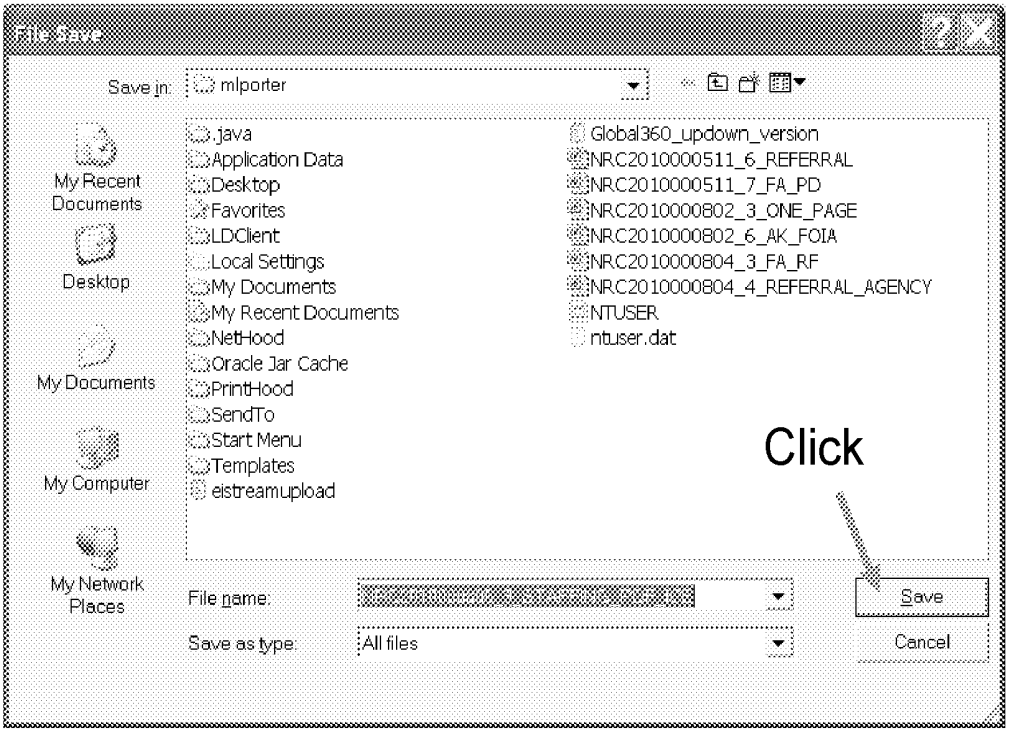


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.13 Create the customized staffing letter

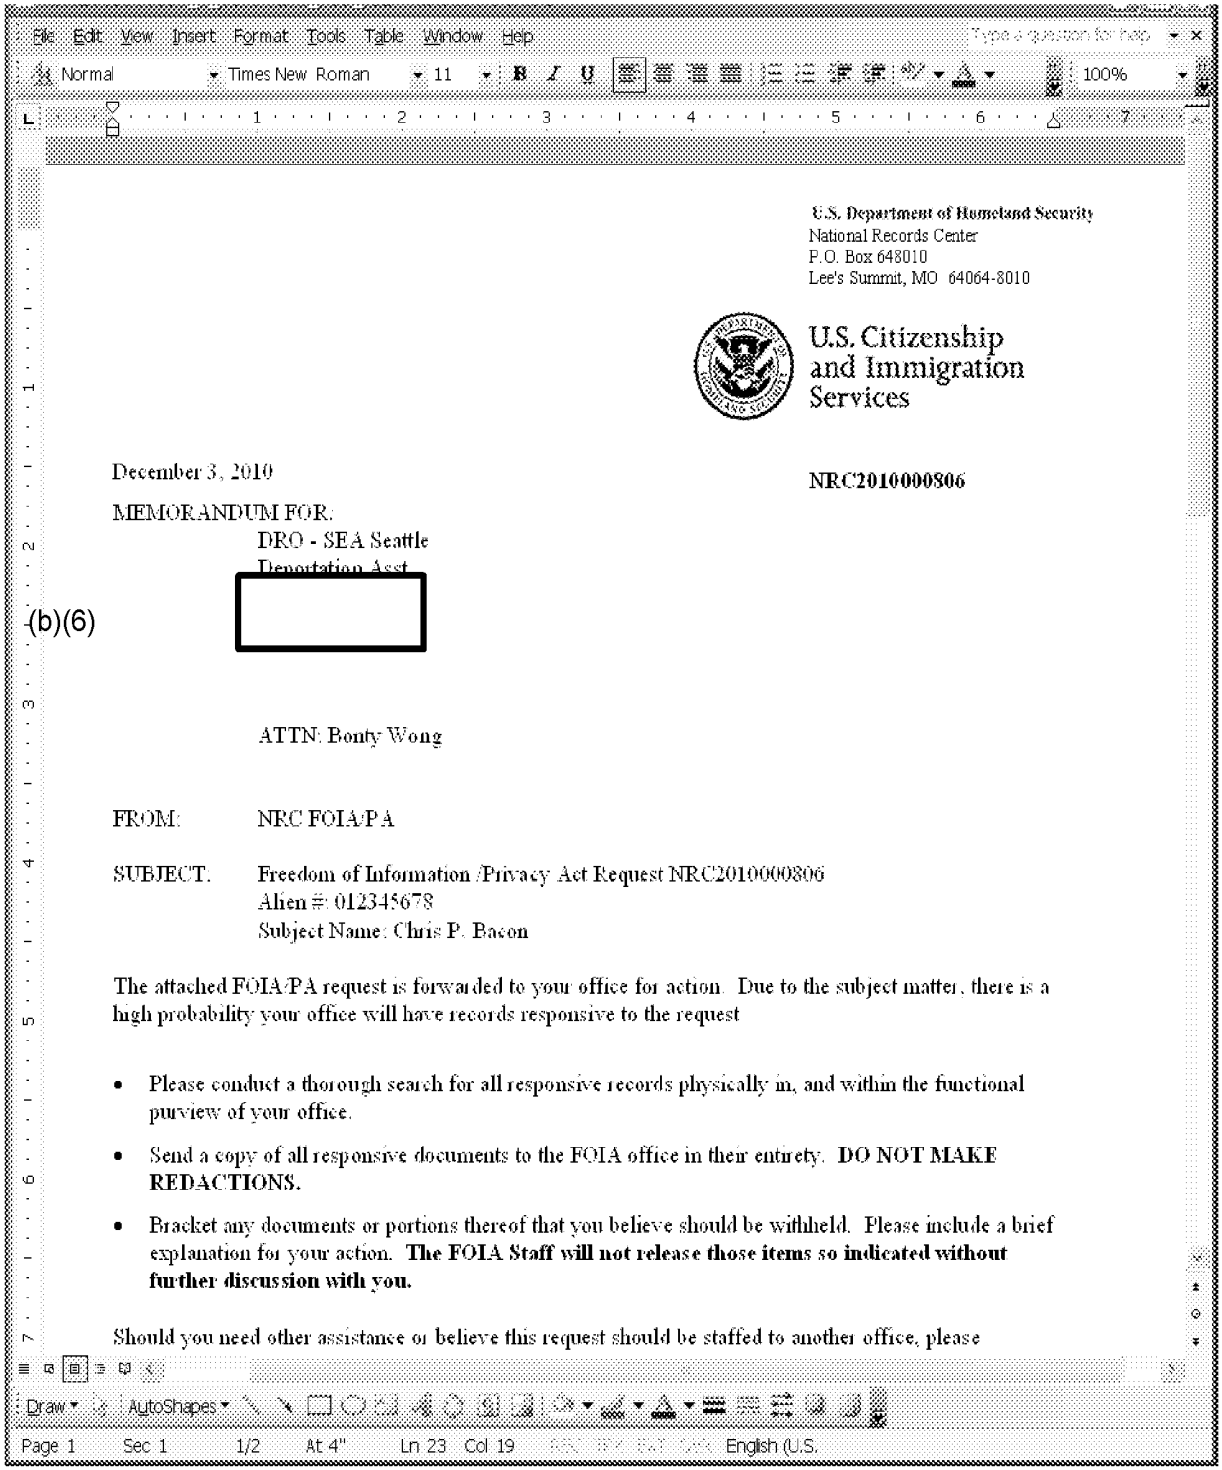
After that, we get a message that says "Successfully generated letter Staffing Letter – ICE PDF." Click OK and then move to the "Contents" tab. Click on the Staffing Letter and select "Edit (Check Out)."





WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

As soon as I clicked "SAVE," FIPS opened the staffing letter for me in Word.



U.S. Department of Homeland Security
National Records Center
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

MEMORANDUM FOR:
DRO - SEA Seattle
Deportation Asst

(b)(6)

ATTN: Bonty Wong

FROM: NRC FOIA/PA

SUBJECT: Freedom of Information /Privacy Act Request NRC2010000806
Alien #: 012345678
Subject Name: Chris P. Bacon

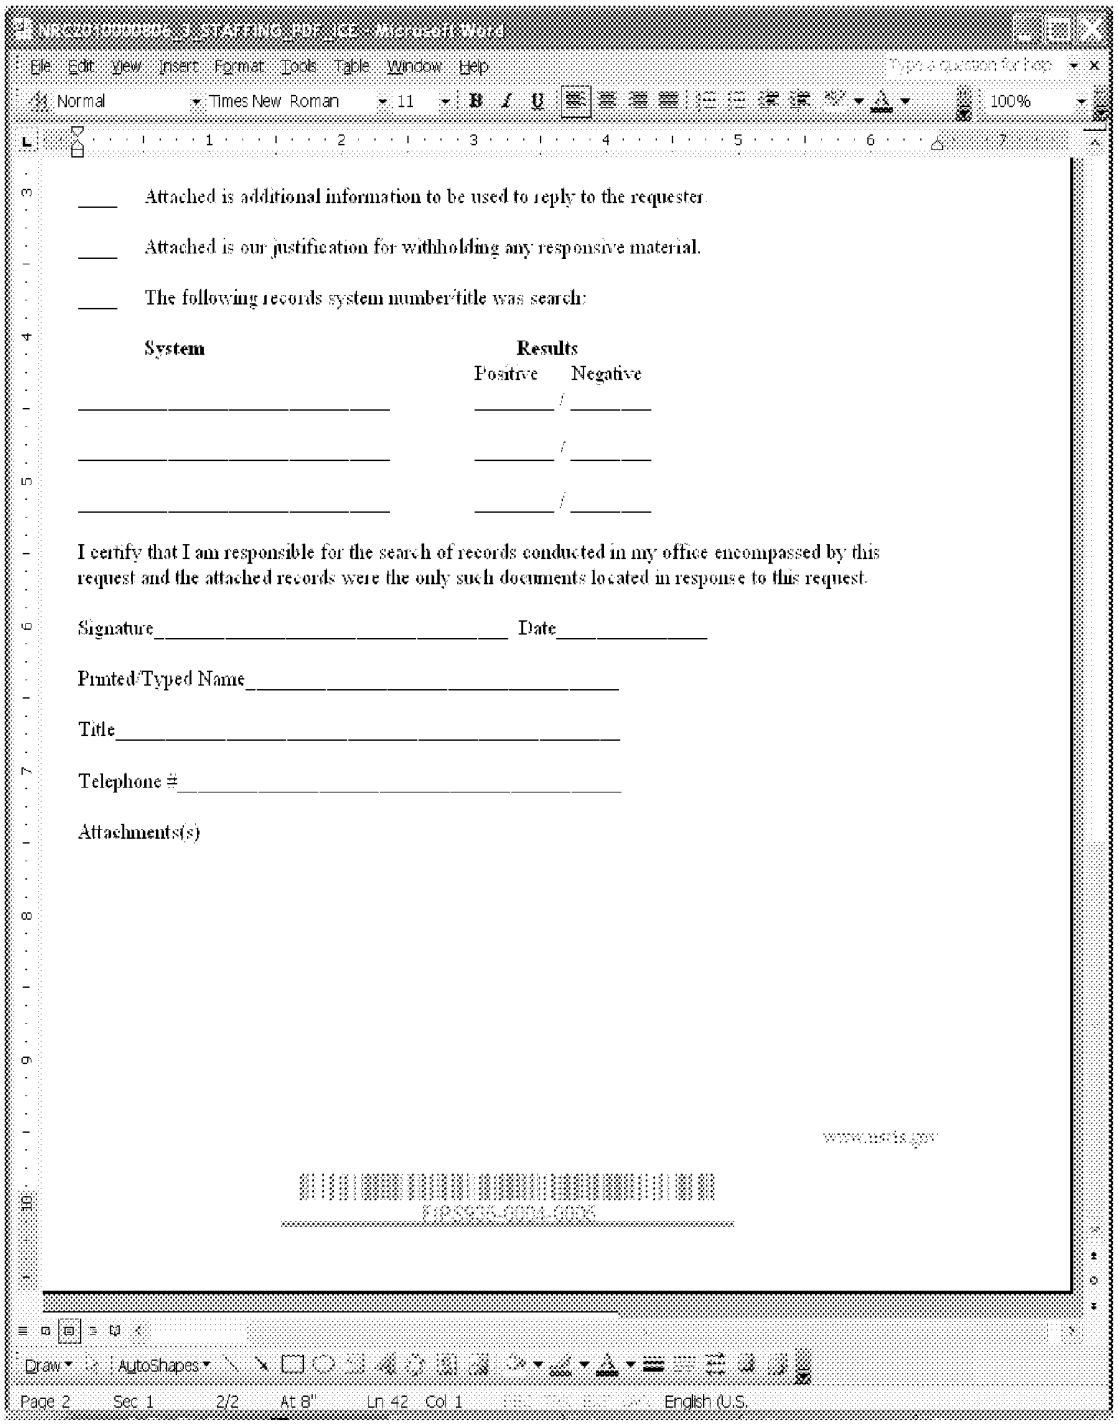
The attached FOIA/PA request is forwarded to you office for action. Due to the subject matter, there is a high probability your office will have records responsive to the request

- Please conduct a thorough search for all responsive records physically in, and within the functional purview of your office.
- Send a copy of all responsive documents to the FOIA office in their entirety. **DO NOT MAKE REDACTIONS.**
- Bracket any documents or portions thereof that you believe should be withheld. Please include a brief explanation for your action. **The FOIA Staff will not release those items so indicated without further discussion with you.**

Should you need other assistance or believe this request should be staffed to another office, please

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Go to the end of the letter and position your blinking cursor below the word "Attachments." Next, we go back to NFTS and copy the location information.



____ Attached is additional information to be used to reply to the requester.

____ Attached is our justification for withholding any responsive material.

____ The following records system number/title was search:

System	Results Positive	Negative
_____	_____	_____
_____	_____	_____
_____	_____	_____

I certify that I am responsible for the search of records conducted in my office encompassed by this request and the attached records were the only such documents located in response to this request.

Signature_____ Date_____

Printed/Typed Name_____

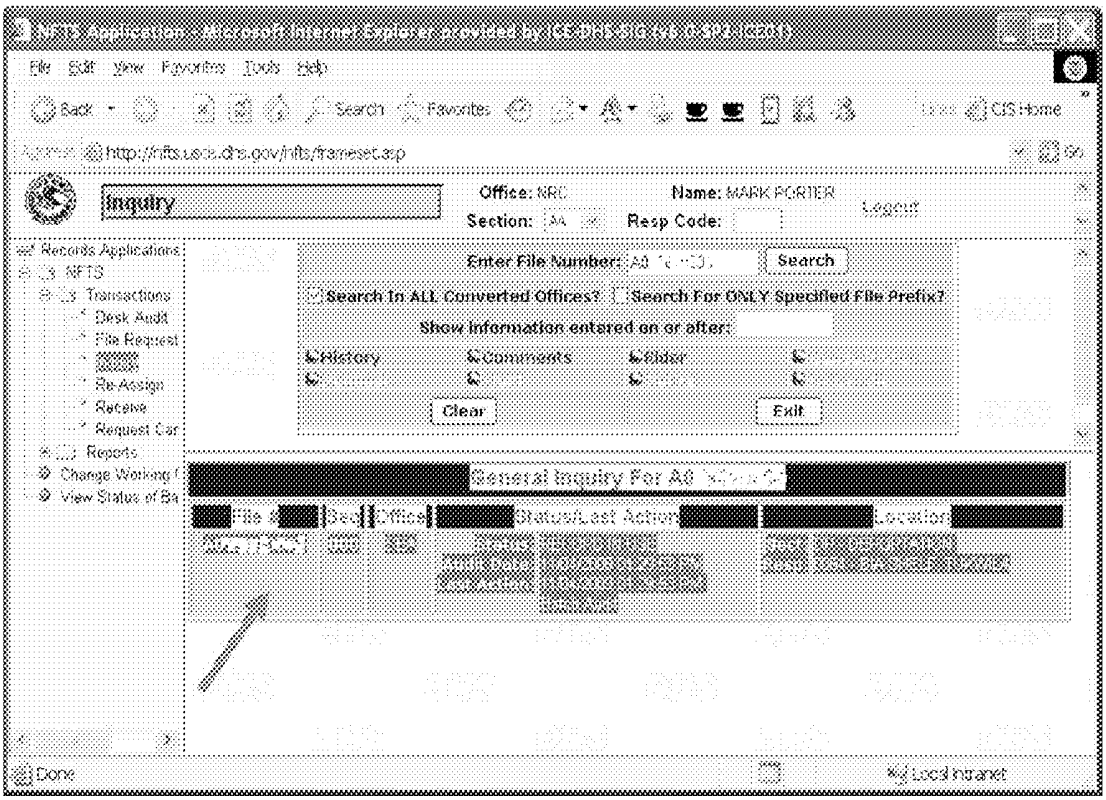
Telephone #_____

Attachments(s)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

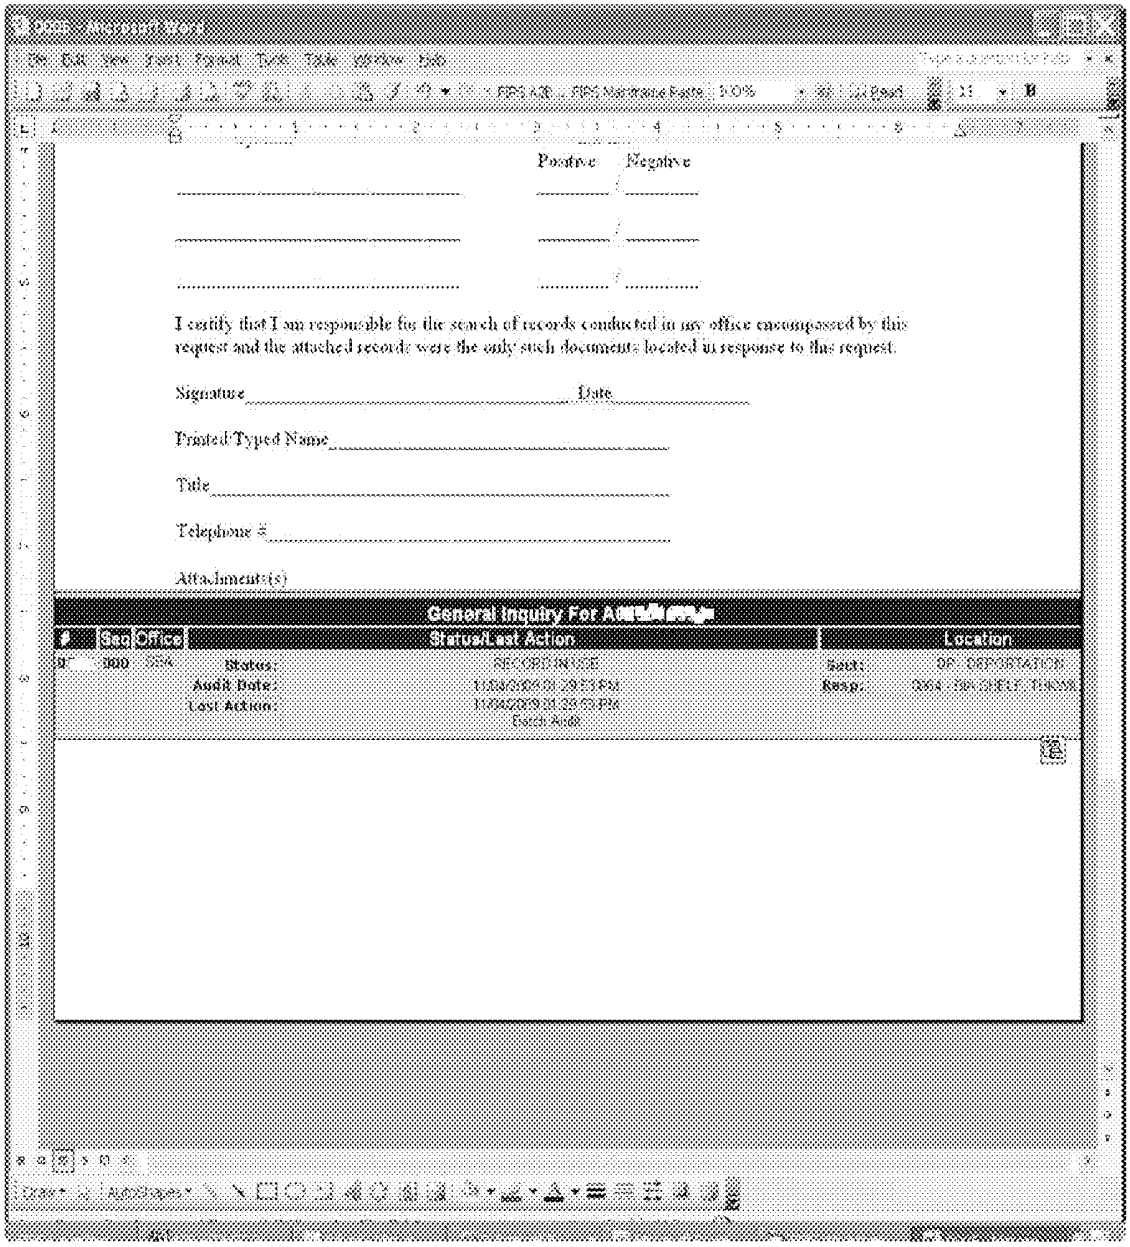
12.1.1.14 Put the staffing information in the staffing letter

Right-click somewhere in the gray area below "General Inquiry." You will get a drop-down dialog box. Click on "Select All." Right-click again and select "Copy." Now we will paste the information into the staffing letter.



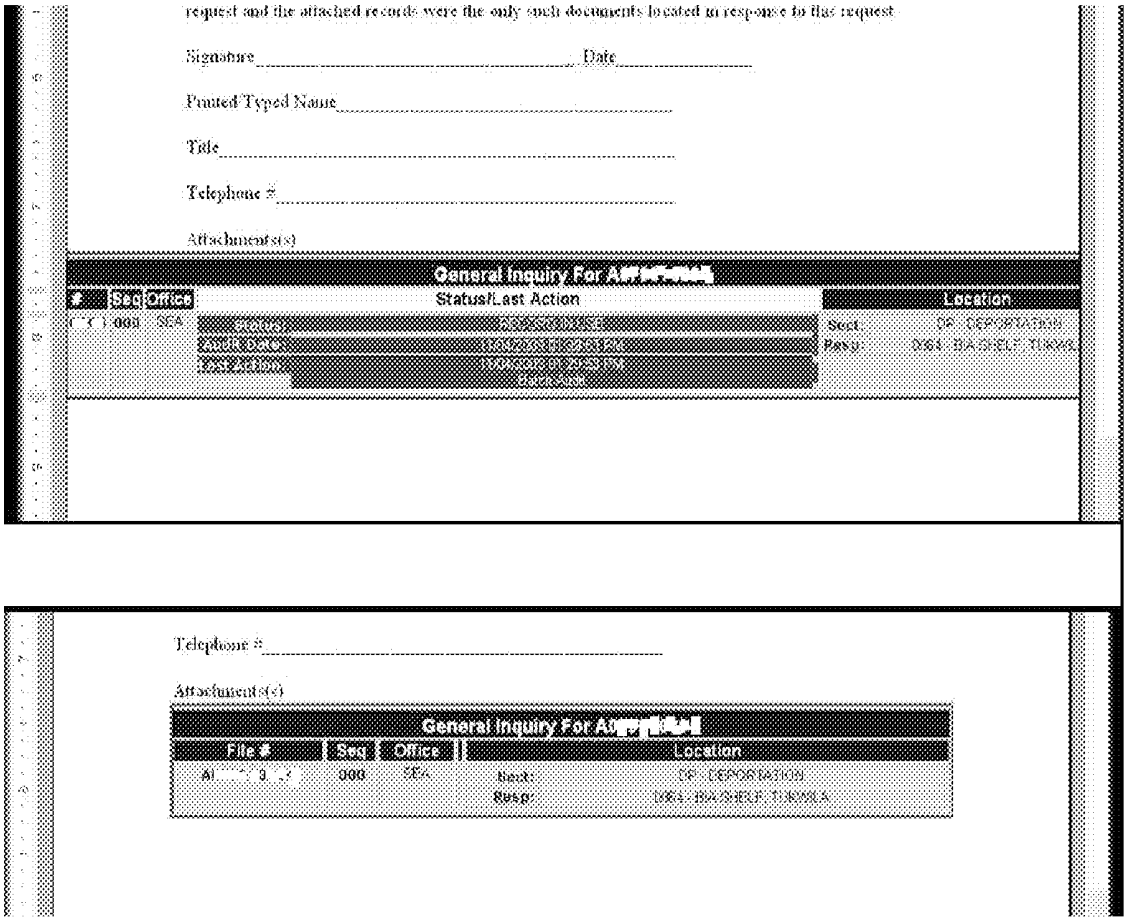
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Immediately after pasting, we notice that the result is imperfect and we will have to repair it.



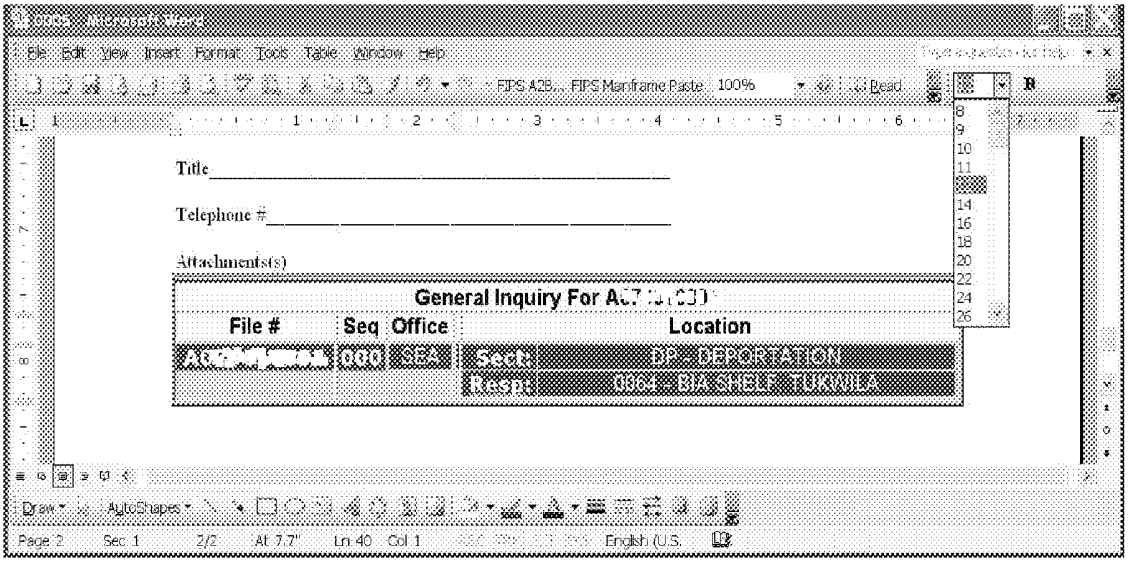
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Left-click and highlight everything in the center column, starting at Status/Last Action, then press Delete.



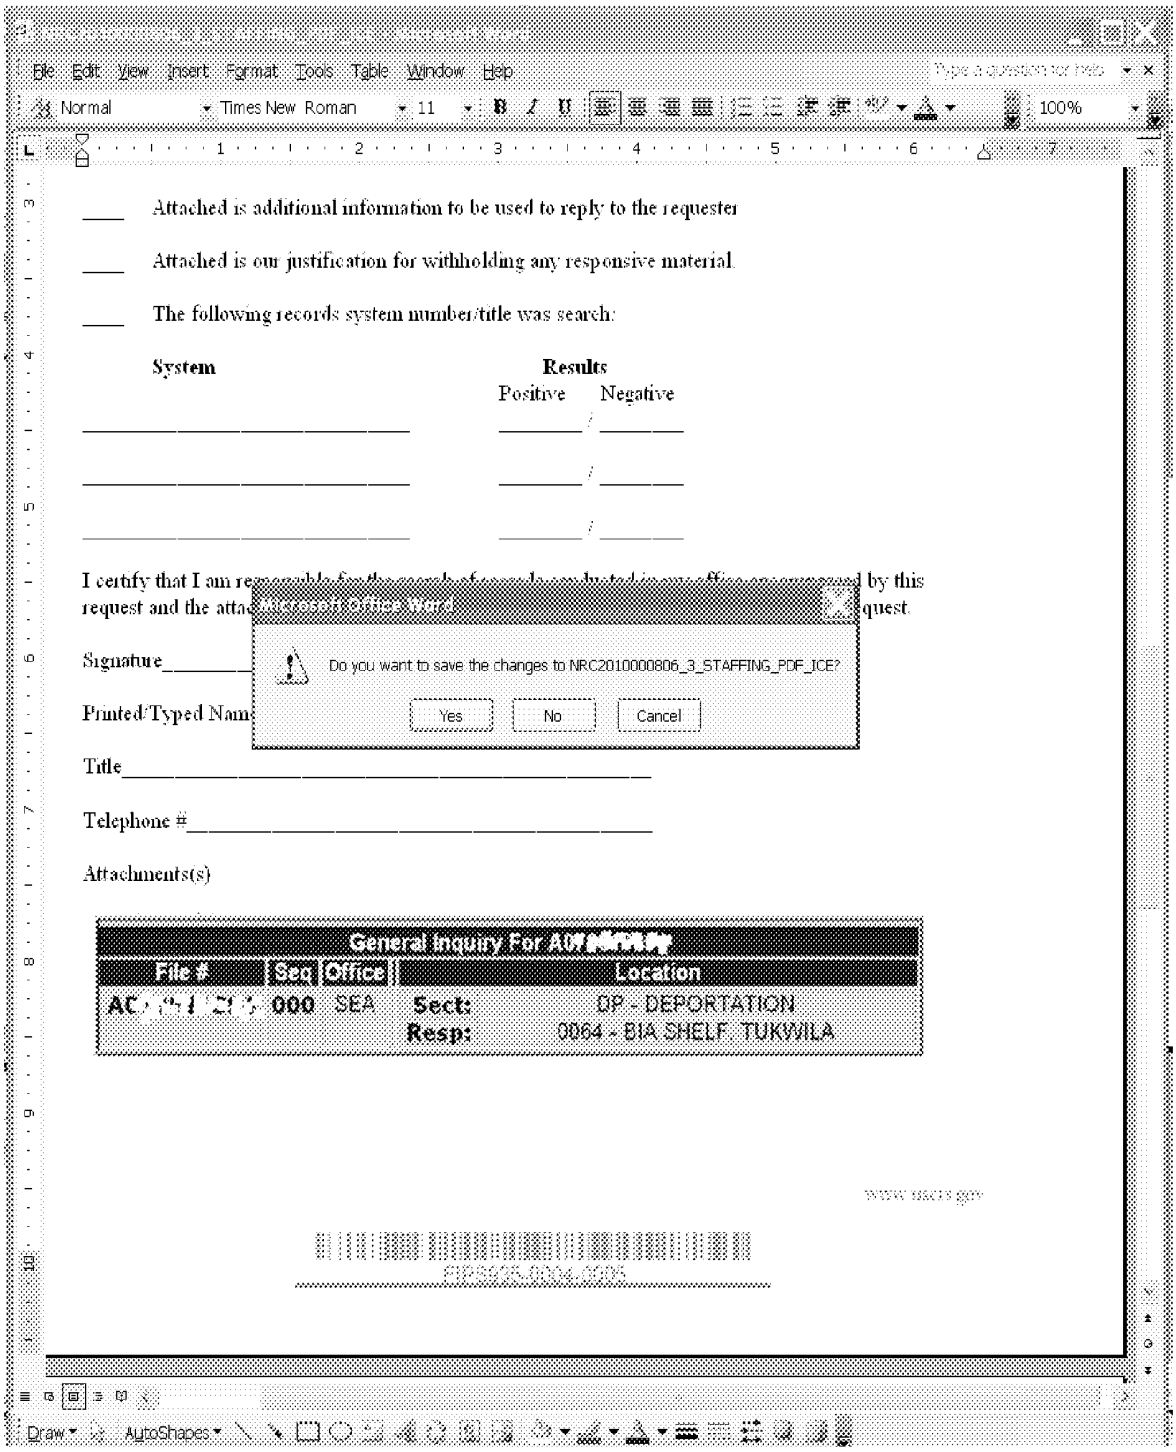
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, highlight the whole area and change the font size to 12.



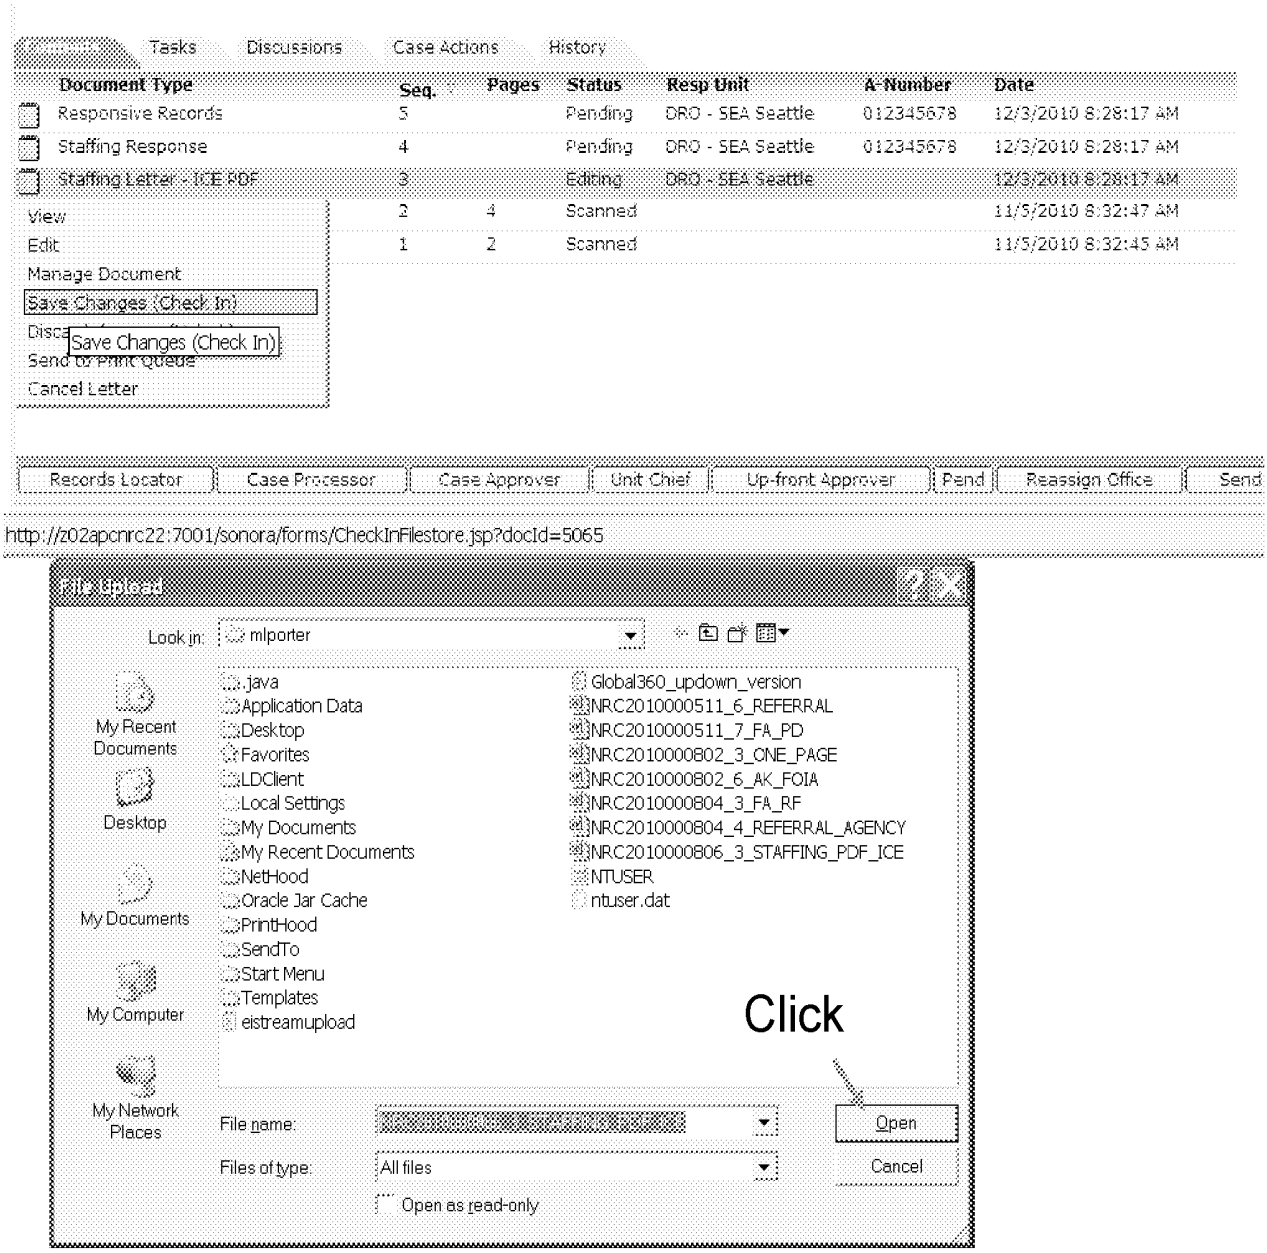
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Finally, we exit and save our work. We have successfully staffed for the A-file. The next thing we have to do is check the staffing letter back in.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.1.1.15 Save changes and check it back in



After this, send the case to "Pend."

12.1.2 Two or more A-numbers

Multiple unconsolidated A-numbers - If the requester has provided more than one A-number, you must research CIS for each A-number to determine if they relate to the subject. If the subject has multiple A-numbers, you will create one case and do multiple staffings. When you are required to request two or more unconsolidated A-files, the individual file request must

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

include the words **"MULTIPLE STAFFINGS"** at the top of each sheet. Do not confuse this with the subject of the file having an "A" file and a "T" file. The alien numbers must refer to different unconsolidated A-files and relate to the subject of the request if you are to mark it **"MULTIPLE STAFFINGS."**

Important note: If one of the files you are requesting is located at RAFACS/CIS, FRC or one of the Service Centers, request those alien numbers first. These locations produce the file faster than other offices. MSB will not know to pull the staffing letters for follow-up unless you noted "Multiple Staffing" on the sheet.

If the alien has multiple unconsolidated A-numbers and the files are both located at the NRC, please add them to the spreadsheet that Records Operations maintains at *S:\Record Ops\Files to Consolidate.xls*. You are responsible for entering the alien numbers of the files that may possibly need consolidation. Records Operations will review the files and consolidate if necessary. If both files are not at NRC, do not add the information to the spreadsheet.

12.1.3 Consolidated A-numbers

If the alien has a consolidated A-number, then please enter only the lead (or surviving) A-number on the worksheet in FIPS and request that file. Consolidated A-numbers are reflected in CIS on the 9101 screen, under the section titled "Consolidated A-Nos". The A-number listed first is the primary A-number; the other A-numbers listed below the primary have been consolidated into the primary number.

Note: please do not add consolidated A-numbers to the "files to consolidate" spreadsheet.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.2 Border crossing card number

If the alien number provided by the requester is an 80,000,000 through 86,899,999 series number, it is a Border Crossing Card number. Even though you can research this number in CIS, there is no physical A-file associated with these types of numbers. You will need to research CIS and CLAIMS to see if there are any other A-files/receipt files associated with this alien.

Previously during the Case Create process, if a requester/subject provided a Border Crossing Card Number and all of the required PII (except an A-Number), we asked the requester/subject to provide additional information (Alien or receipt number, copies of documents from the service, etc…). We used this information to determine if the subject had an A-File. We would find the A-file only in very rare instances.

We no longer request additional information if the requester/subject provides all of the required PII (except an A-Number). Since Border Crossing Cards are strictly electronic records (no actual file), we will have the Border Crossing Card screen prints scanned into a RAFACS slot.

Use the Border Crossing Card Number provided; search and print CIS screens 9101, 9101-history (F8), 9222 and 9223. Open a RAFACS staffing slot. Make sure "Customize Letter" is selected. Prepare the screen prints for scanning into this slot as responsive records. Pend the case for responsive records. Please attach a "Scan As" sheet and mark it as "responsive records" with the screen prints to be scanned. The case will be sent to the processor after screen prints are scanned in. Create it as a Track 1 case.

Note: Alien numbers from 86,900,000 through 87,999,999 are not Border Crossing Card Numbers; they are general alien numbers and have corresponding A-files.

12.3 EAD numbers (100,000,000 through 149,999,999)

If the alien number provided by the requester is 100,000,000 through 149,999,999, it is an EAD (Employment Authorization Document) card number. There is no physical A-file associated with EAD numbers, even though they can be researched in CIS. You will have to research CLAIMS to locate the receipt number that corresponds with the EAD number, and then request that receipt number. Please refer to the section titled ***Staffing Scenarios – Receipt Files*** for additional information.

12.4 New alien numbers (300,300,000 through 300,322,501)

As of June 2009, the range of numbers 300,300,000 through 300,322,501 are being used as general A-file numbers.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.5 Receipt numbers

Receipt numbers are comprised of the three-letter office code, followed by a 10-digit number. Receipt numbers are assigned to applications and petitions filed with the Service, such as Form I-765, Employment Authorization applications and Form I-130, Petition for Alien Relative. If the requester provides a receipt number on their request, log into CLAIMS and verify the information.

If the requester provides only a receipt number and it is for a Service Center we work, then we need to request the receipt file. Enter the receipt information into the Topic field. Make the first part of the description the receipt file number. Use the complete receipt number with no spaces or dashes.

Example of the correct way: EAC0812345678
An example of how **NOT** to do it: EAC-08-123-45678

If every case creator enters receipt information the same way, it is easier for the next case creator to identify duplicate or similar cases. The next case creator may base the search on "EAC081234567%," and if the previous case creator entered dashes, the search will not identify the duplicate.

Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA HBG file request. **Do not request DIG T-files at HBG with RPC codes XX, XY, ZG, ZY, or ZZ.** Refer to the Staffing Sheet Guide for the most current information.

12.6 Archives and Records Centers Information System (ARCIS)

ARCIS is a new system used by the Federal Records Center (FRC) to track the location of retired files. The accession data is now 27 digits long. NFTS will not accept the accession data because of the length. Instead, you will see the word "ARCIS" in the location field in NFTS.

When the case you are creating shows the file is located at FRC and you see the word "ARCIS" in the location field in NFTS, use the FRC file request and paste the retired screen from NFTS.

Not all files located at the FRC will have "ARCIS" in the location field. For those files, continue to staff using the FRC file request and paste the retired screen print.

12.7 Staffing Scenarios

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

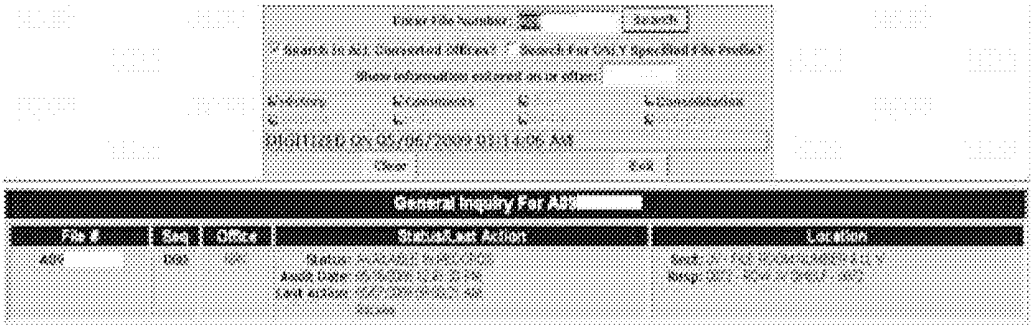
12.7.1 Digitized files

If you are requesting an A-file that has been digitized please use the **RDF** file request. If the file has been digitized, the current FCO does not matter; you would still use the RDF file request.

How do I tell if it is a digitized file?

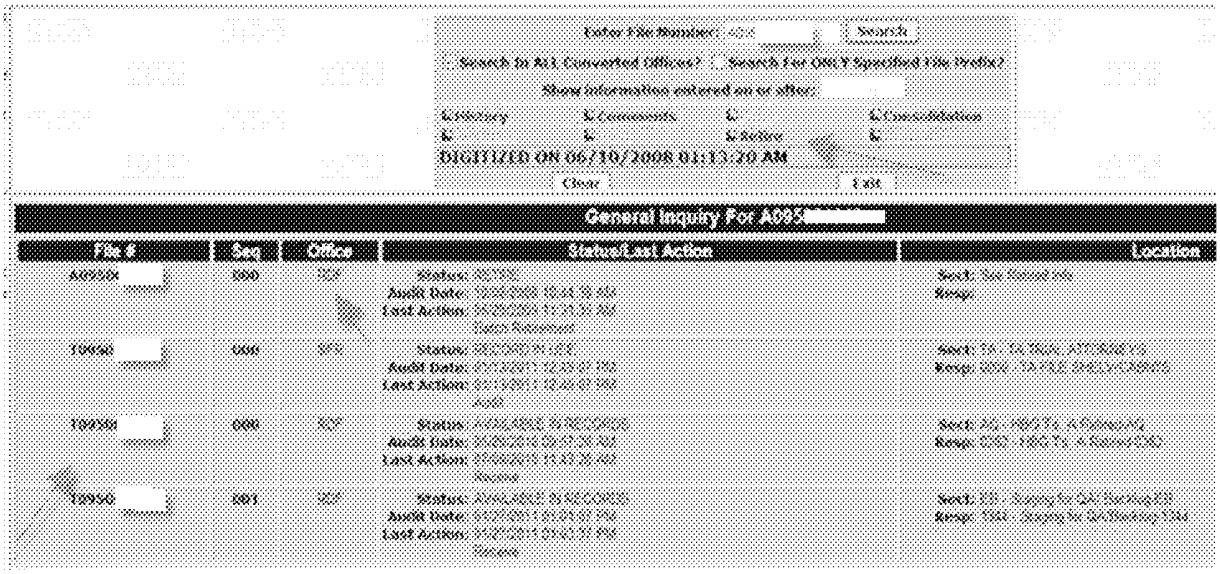
NFTS will show the "Location" of the file as either **RDF** or **NRC**. If the file location is NRC, you will see a banner stating "DIGITIZED ON ...." The screen print below is a sample of the NFTS screen.

The temptation may be to staff RAFACS/CIS because the file shows available in records at NRC. Do not do that. If it shows "DIGITIZED," then staff to RDF. Also include any T files you find in the General Inquiry screen.



Paste in the "General Inquiry" information on the RDF staffing the same as you would on a RAFACS/CIS staffing. Delete the status/action item column, but DO NOT delete any T-files. MSB will know the file is digitized because you have staffed using an RDF file request. This also applies to Retired files that have been digitized. Do not use the retired screen on Retired digitized files. An example has been provided below.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

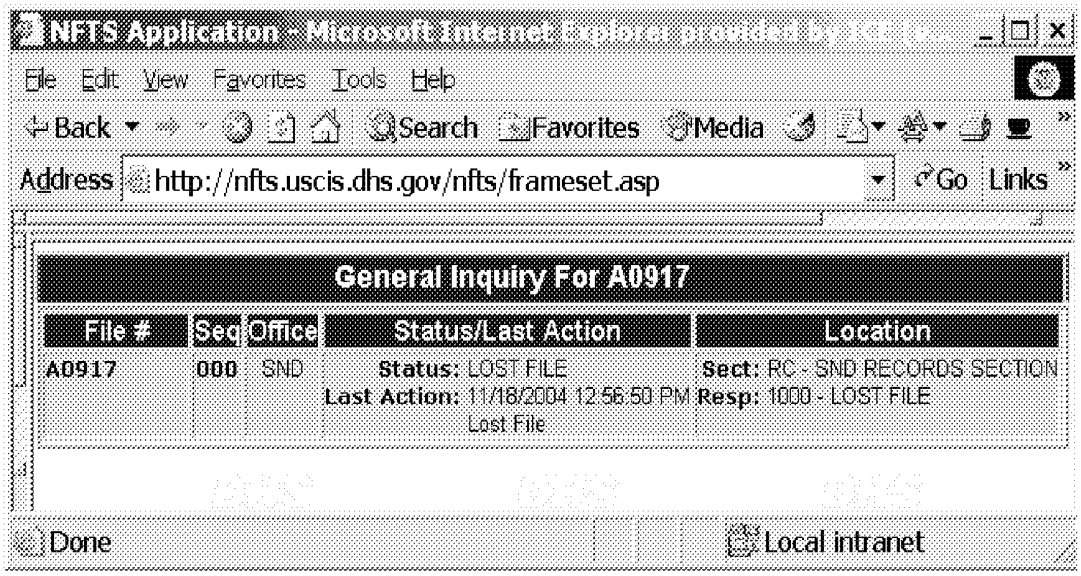


In the example above, you will have to make two staffings. Notice there is a T-file currently in use at OPLA San Francisco? That also changes the Category of the case to "SFR Cases at NRC."

12.7.2 Files Lost or Not Found LESS THAN NINE MONTHS

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

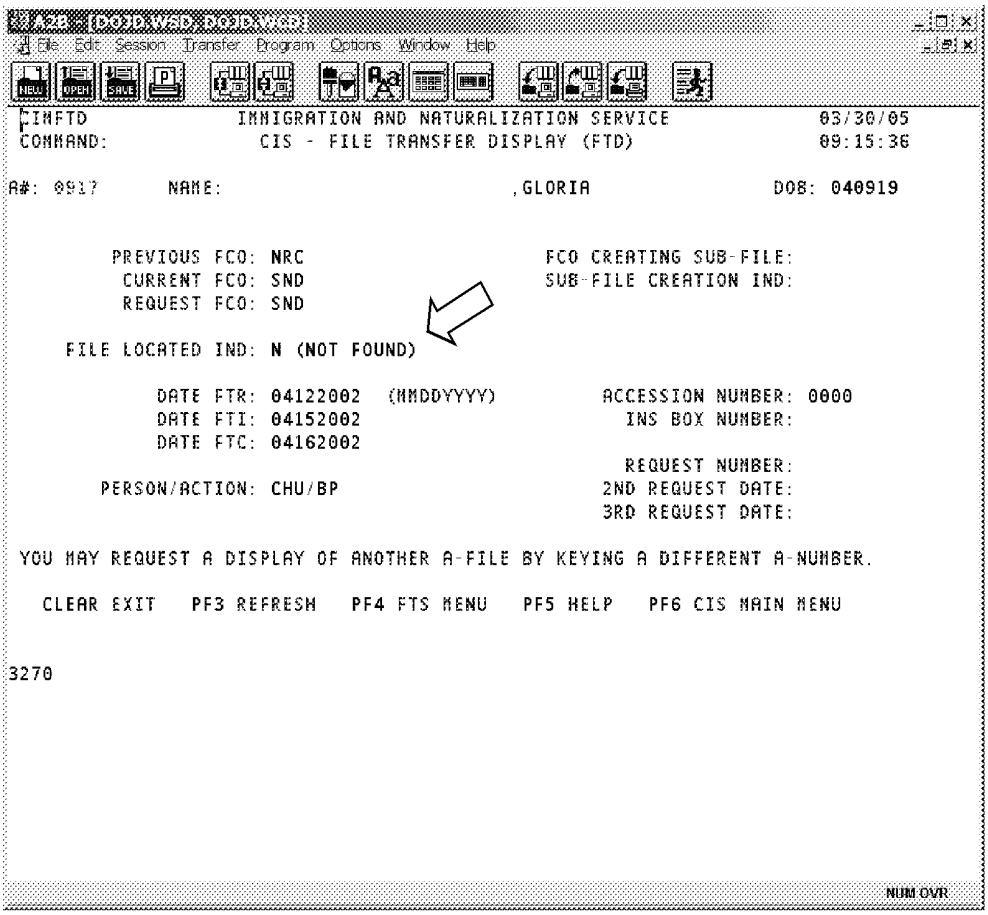
When an A-file is lost, it will appear in NFTS as a "Lost File" in the Status/Last Action section of the General Inquiry screen.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A lost file in CIS will appear in the CIS-9504 screen as "N (Not Found)" in the section titled "FILE LOCATED IND:"

If the "Last Action" is more than nine months ago, move to the next section of this guide, Files lost or not found MORE THAN NINE MONTHS.

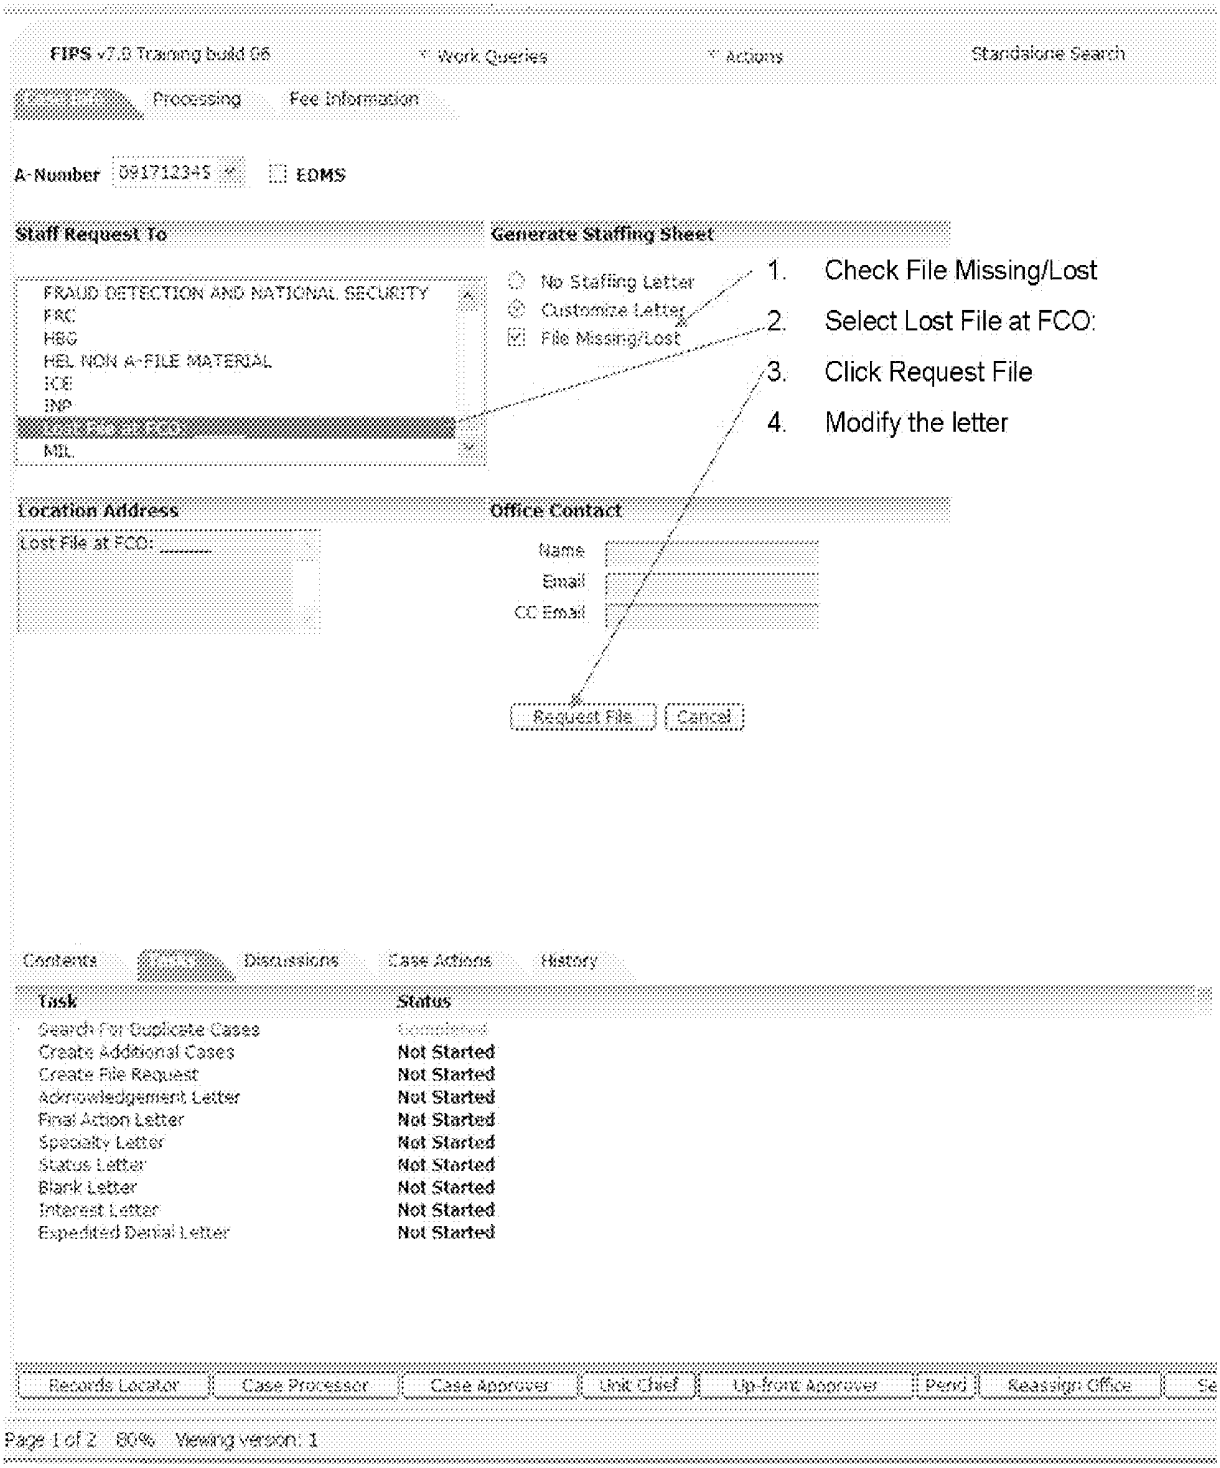


When the file appears lost in CIS 9504 and NFTS, Staff using the Lost File at FCO:_____ file request (include the FCO that shows the file is lost).

Exception: If the file shows lost in CIS-9504 and NFTS shows the file in use, request the file per the FCO in NFTS.

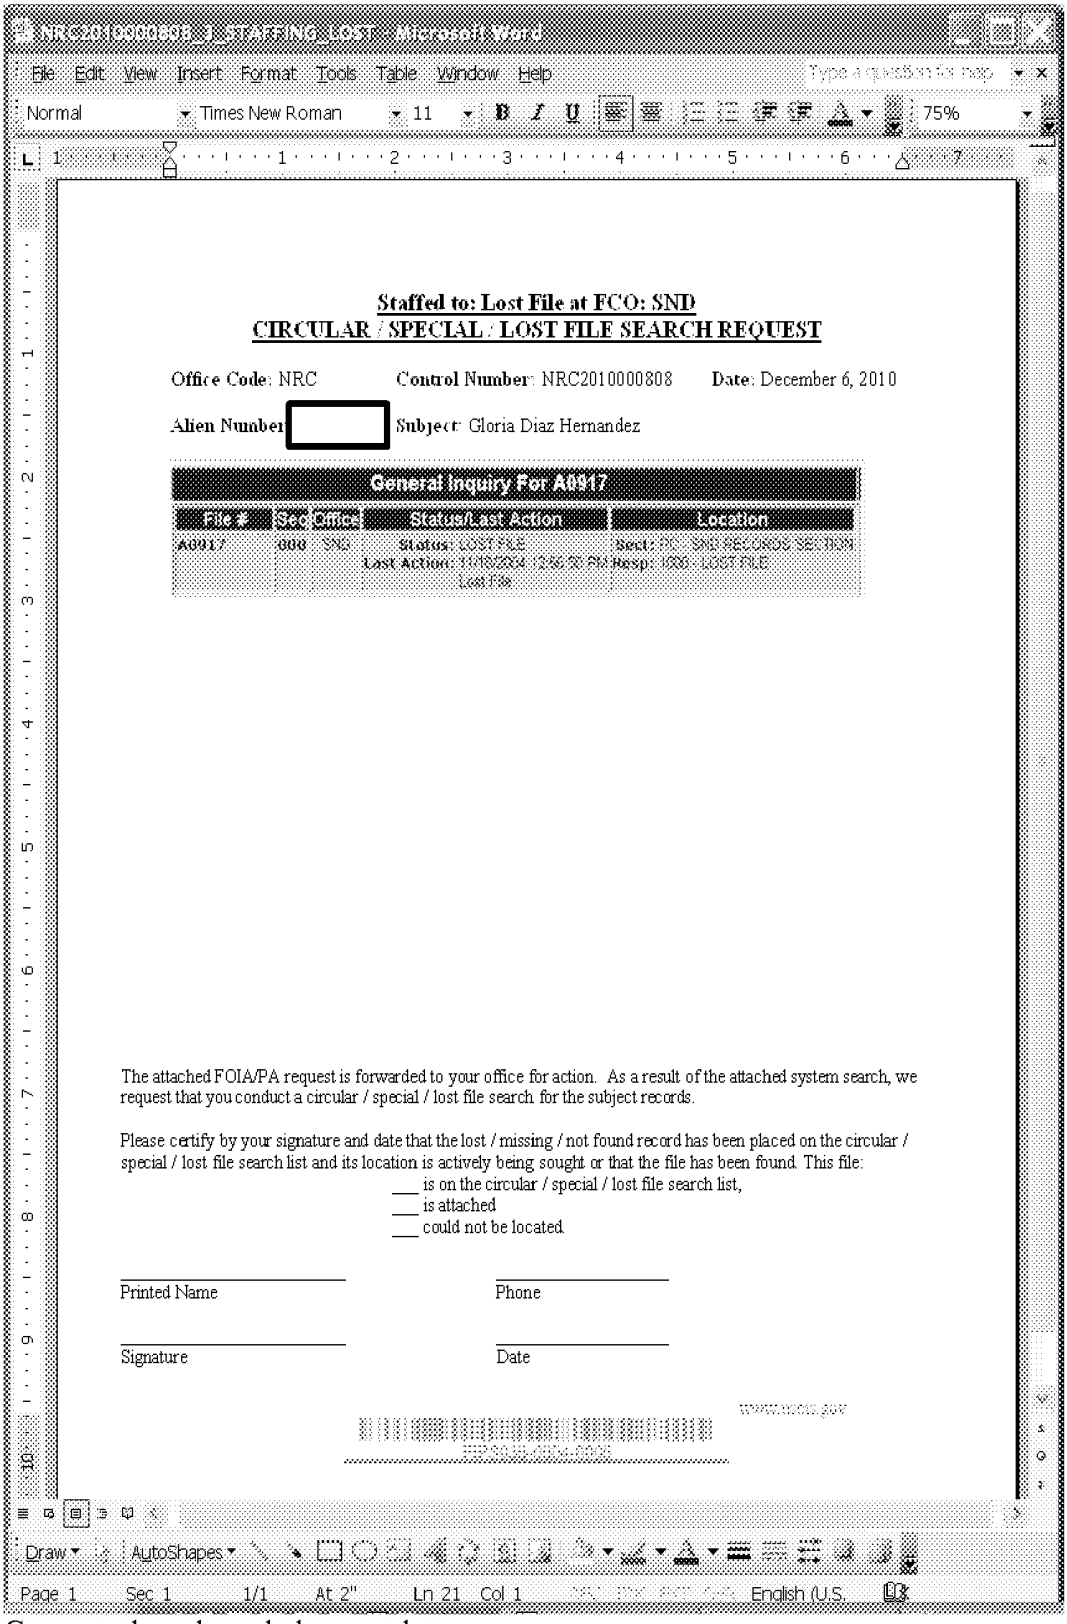
Under "Create File Request" mark the box "File Missing/Lost".

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



Staffed to: Lost File at FCO: SND
CIRCULAR / SPECIAL / LOST FILE SEARCH REQUEST

Office Code: NRC **Control Number**: NRC2010000808 **Date**: December 6, 2010

Alien Number [redacted] **Subject**: Gloria Diaz Hernandez

General Inquiry For A0917

File #	Sec	Office	Status/Last Action	Location
A0917	000	SND	Status: LOST FILE Last Action: 11/18/2004 12:56:30 PM Lost File	Sect: SND RECORDS SECTION Resp: 000 - LOST FILE

The attached FOIA/PA request is forwarded to your office for action. As a result of the attached system search, we request that you conduct a circular / special / lost file search for the subject records.

Please certify by your signature and date that the lost / missing / not found record has been placed on the circular / special / lost file search list and its location is actively being sought or that the file has been found. This file:

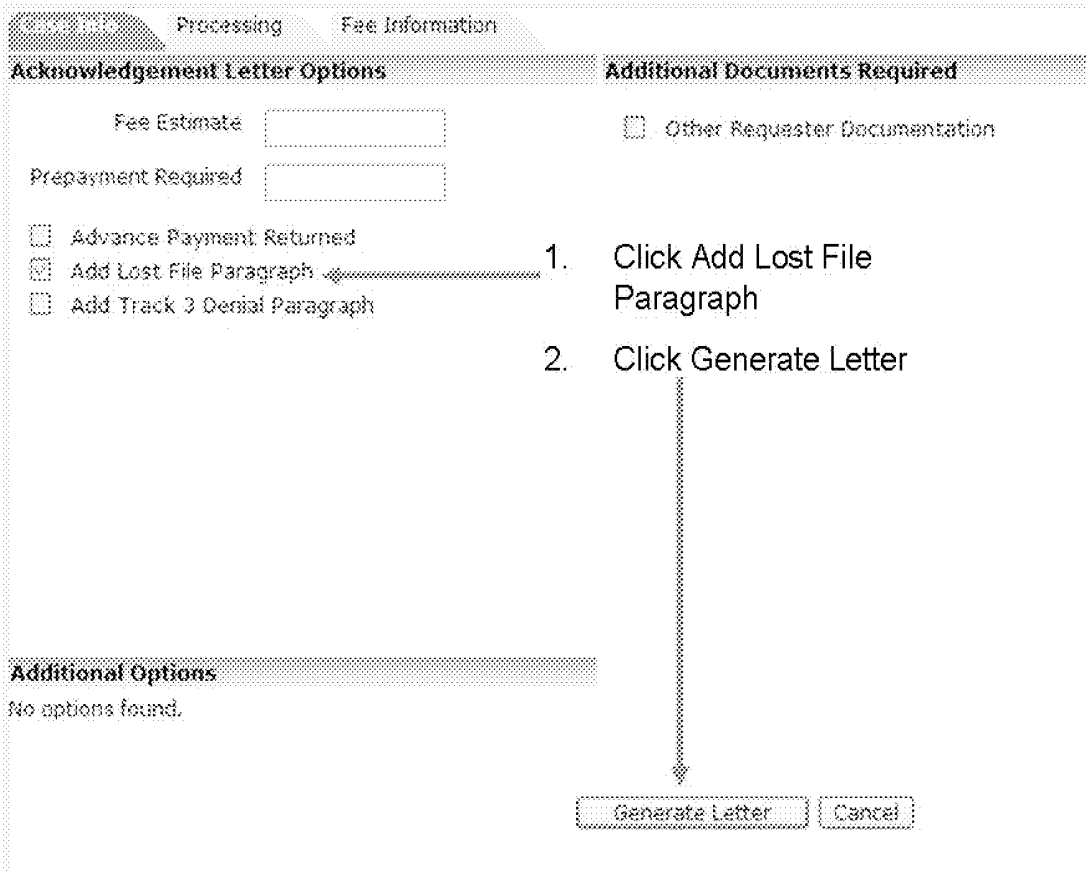
___ is on the circular / special / lost file search list,
___ is attached
___ could not be located.

Printed Name _____ Phone _____

Signature _____ Date _____

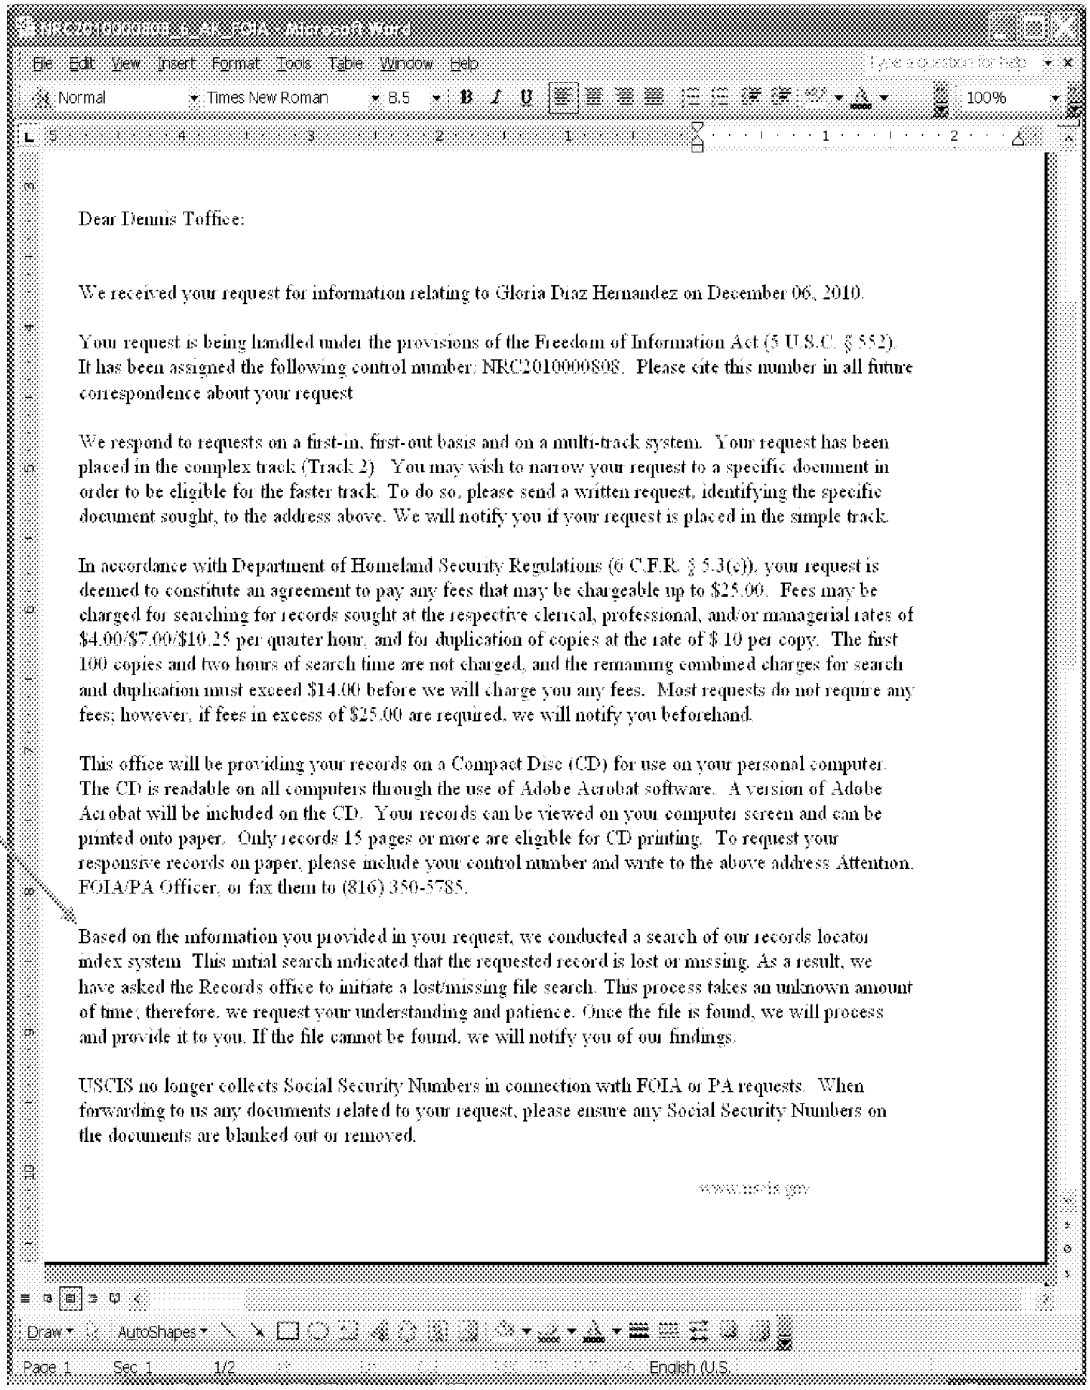
Generate the acknowledgement letter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



FIPS inserts the Lost File Paragraph right after the CD Paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Dear Dennis Toffice:

We received your request for information relating to Gloria Diaz Hernandez on December 06, 2010.

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000808. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $ 10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be printed onto paper. Only records 15 pages or more are eligible for CD printing. To request your responsive records on paper, please include your control number and write to the above address Attention: FOIA/PA Officer, or fax them to (816) 350-5785.

Based on the information you provided in your request, we conducted a search of our records locator index system. This initial search indicated that the requested record is lost or missing. As a result, we have asked the Records office to initiate a lost/missing file search. This process takes an unknown amount of time; therefore, we request your understanding and patience. Once the file is found, we will process and provide it to you. If the file cannot be found, we will notify you of our findings.

USCIS no longer collects Social Security Numbers in connection with FOIA or PA requests. When forwarding to us any documents related to your request, please ensure any Social Security Numbers on the documents are blanked out or removed.

When the case create process is complete and the creator is ready to exit the case, click the "Pend."

12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS

(Please note: this is NOT the procedure for a request for alien number only or for petitions destroyed in accordance with federal paperwork retention guidelines.)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

12.7.3.1 If the A-file is lost but other records exist (such as receipt files we would normally request or other a-files), please go to paragraph 12.7.3.9 now. *Otherwise*,

a. **if** the file has been marked as lost for more than nine months

b. **and** there is no recent activity in CLAIMS (within last 2 years) or PCQS,

c. **and** there are no additional files, then: a FOIA/PA Assistant working in Records Locator queue should put in the following Discussion: **A-file has been lost for more than 9 months and no other records exist. Closing as UT.** Detail all systems searched as part of this Discussion.

12.7.3.2 Complete the attached Lost File Worksheet (and send it for scanning as CSD with any screen prints you do.)

12.7.3.3 If the file was not staffed to OPLA, please move to step four now. *Otherwise*, if the file was staffed to OPLA, look at NFTS history. If the NRC file request was cancelled and the file indicator was subsequently changed to "Lost File," create a Discussion with the subject "Unit Chief" listing the date the file was staffed, the date the request was cancelled, and the date the file status was changed to lost. Send the case to Unit Chief. You're done.

12.7.3.4 If there is no CIS screen referencing "EARM" "DACS" or "NAILS," please move to the next step now. *Otherwise*, if there is a 9101 screen containing "EARM-X" "DACS-X" or "NAIL-X," or if there are CLAIMS screens showing "NAIL: Y" or "NAIL: N," go to the next step.

12.7.3.5 Create a Final Action Letter and select the status UT. In the final action letter, after the sentence "You may, if you wish, resubmit at a later date," please add the following sentence: "As we were unable to locate a physical file, we are including screen prints of the electronic record." Go to the next step.

12.7.3.6 In the UT final action letter, attach the screen prints to the letter electronically (cut and paste). Do not make any redactions to the screen prints. Save and close the letter and send to Up-front Approver. You're done, *unless* the case is later returned to you for further research.

12.7.3.7 The Up-front Approver will review the UT letter with the inserted screen prints. If he or she is satisfied that a thorough search was conducted, the approver will forward the case to FOIA Approver. If the approver is not satisfied with the search results, he or she will return it to you for further research.

12.7.3.8 The FOIA Approver will review the research and either close the case or return it for further action. If the case is approved, the FOIA Approver will close the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.3.9 **If the A-file is lost but other records exist** (such as receipt files we would normally request or other a-files, including T-Files, wherever they may be, including NRC) Request the additional records. Put in a Discussion that reads:

> A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

12.7.3.10 Cancel the lost file staffing and pend for responsive records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LOST FILE WORKSHEET

A-number _____

Name of Alien _____

Date shown as Not Found in CIS _____

Date shown as lost in NFTS _____

1. Search CIS for potential second a-number and/or consolidation
    a. Second a-number? _____
    b. Any T-files? Yes _____ No _____
        i. If yes, have they been staffed and scanned? If not, please do so now.

    c. Consolidated with? _____
    d. Does the EOIR screen show an upcoming hearing date?

        Yes___ No ____

2. Check CLAIMS for petition/applications
    a. Were any found? Yes _____ No _____
    b. If so, either provide screen prints with receipt number or list below

3. Check NFTS. Any current file movement. Yes _____ No _____

4. Check PCQS for any indication that file is with the naturalization unit.

NOTES:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.4 Staffing FAQ's

Q: What screen print do I attach?

A: The screen prints attached are typically a NFTS screen. In some situations, there is no screen print attached at all. See the Staffing Sheet Guide for current information.

Q: Which file request do I use?

A: Each office has its own file request in FIPS. The Staffing Sheet Guide details which sheet to use in specific circumstances.

Q: What if they have two alien files with two different numbers?

A: In cases like this, we request each alien file on a separate file request and write MULTIPLE STAFFINGS at the top of each sheet.

12.7.5 Records Indexing / Manual Requests

If you do not find a person in CIS, CLAIMS or PCQS, do not automatically print the screens and close the case NR. In some instances, the A-number exists but it will not be found in any systems search. This is especially true of individuals who had no business with the Service after the date CIS was put in use. A general rule which applies most of the time is the subject had no business concerning any immigration matter since 1975 or earlier. Look at the information in the request. For instance, if an individual claims to have arrived in the United States in 1960 and naturalized in 1971, it is important not to close the case NR. In these instances, staff the request using a "Records Indexing" staffing so that a manual search can be conducted.

Sometimes the requester/subject will provide an A-number and the file cannot be located in NFTS or CIS, but they claim to have done business with the service after 1975. Ensure requesters provide the minimum information to allow a positive identification (i.e., full name, aliases, an alien number, date and country of birth). If the requested records relate to:

- A-Files;
- Dates of birth;
- Dates of entry; or
- Naturalization dates

which are after 1975, do not create a Records Indexing file request, because no records will exist; check CIS and/or CLAIMS for a record. If you find no record, please refer to the section on NO RECORDS. It is important that you provide as much information as

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

possible on the Records Indexing file request. The name of the subject, year of birth and country of birth are required information. You should use the latest version of records_indexer.doc, which you may find in O:\Foia\FOIA LIBRARY\Case Create References\Case Create Template Letters. A sample records_indexer.doc follows:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

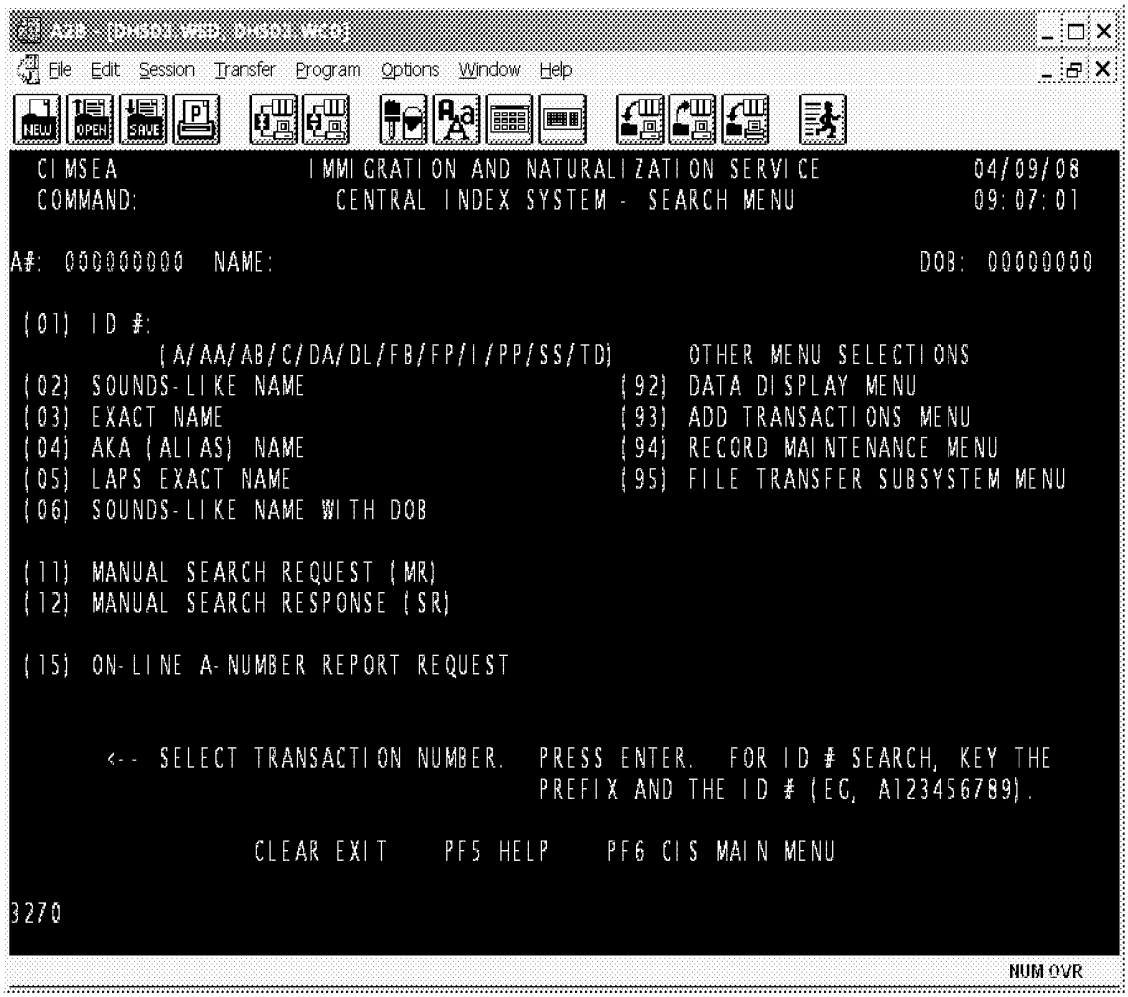
TO RECAP RECORDS INDEXING: If the subject has had no business with the service since 1975 or earlier, they may or may not have a CIS record. If they do not, then staff to records indexing. If the subject has had business from 1976 forward, do not staff to records indexing.

12.7.6 No Record:

When closing a case as a NR (No Record), ensure that you have done the required system searches to support your decision. If there is wording on the request that would indicate the subject was detained, stopped, arrested or sent back across the border and a thorough system search yielded no information, you should refer the request to CBP. CBP will possibly have a record responsive to their request. Your search should include CIS, CLAIMS and PCQS. Consult the sections of this manual entitled "Central Index System" and "Computer Linked Application Information Management System" for more information regarding the systems.
When conducting no record research, check the following screens in CIS (Central Index System):

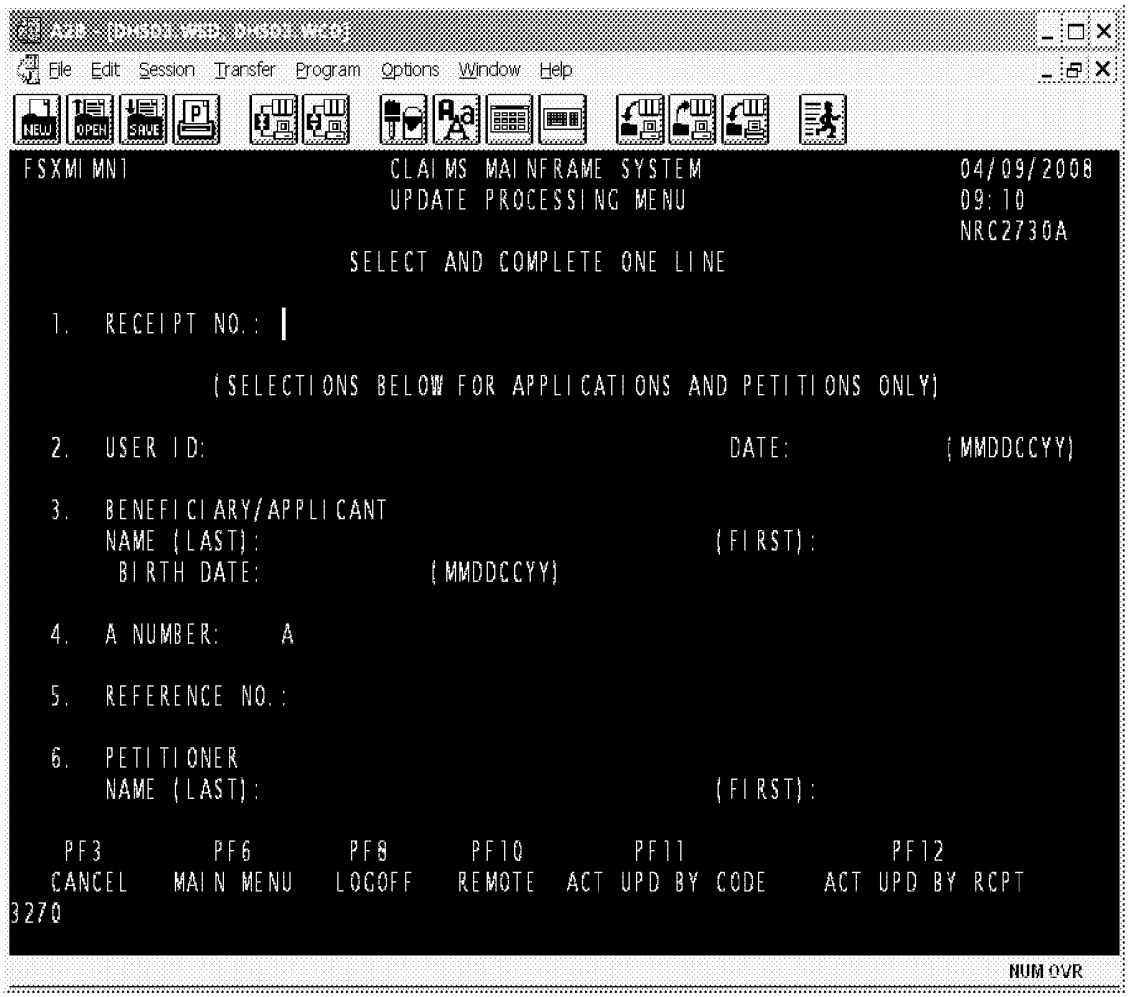
9103 Exact Name
9104 AKA (Alias) Name
9102 Sounds-Like Name

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When conducting a search in CLAIMS (Computer Linked Application Information Management System) run alien's name as the beneficiary/applicant (3) **AND** as petitioner (6).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When conducting "no record" research, do the query and provide screen prints of all searches as directed. Print the appropriate CLAIMS screen prints (this should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names). Prepare a "Scan As" sheet to be scanned as case supporting documents for the case number you have just created, attach it to the screen prints and take those to the OA room for scanning as CSD and prepare a Final Action Letter with closing code NR. Insert a Discussion outlining the systems you searched and stating that you have sent the documentation to OA for scanning as CSD. Send to Up-front Approver.

Genealogy is exempt from this process.

12.7.7 A-number in CIS but not in NFTS

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If there is an A-number in CIS but no information in NFTS, create a file request according to the Staffing Sheet Guide and FCO List, and paste in the 9504 screen of the CIS record rather than the NFTS information. Otherwise, the procedure is the same.

12.7.8 ICE files

There are currently five different types of staffings for files located within the ICE function. Paste the NFTS screen print to the second page of the staffing letter. OPLA **file request**s are for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	**TA**
Chief Counsel	
Litigation	**LI or LIT**
Legal Section	**LS**
District Counsel	**DC**

DRO **file request**s are for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	**DENTENT, D&R, DET, DRO, DD&P**
Criminal Alien Program	**CAP**
Deportation Officer/Assistant/Clerk	**DO, SDDO**
Bond Control Spec.	
Immigration Enforcement	**IEA**
Field District Office	**FOI (Washington DC) (DRO-WAS)**
Admin Program Office	
Non-Detained or Detained	
Processing Center	**OC-Otero County**
Detention Facility name	**ie… Otay Mesa, Krome**
Fugitive Ops	**FO**

SAC **file request**s are for files that are located in the following office sections. Choose the FCO where the file is located, such as SAC-ATL. Please note the section that follows concerning SAC locations.

Office Section	Acronym
Investigations	**INV, IV**

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Special Agent in Charge	**SAC**
Internal Audit	**IA**
Resident Agent in Charge	**RAC**
Assistant Special Agent in Charge	**ASAC**

12.7.9 SAC locations

Occasionally, you will see a requesting a SAC (Special Agent in Charge) case, and not be able to find the File Control Office under SAC in your FIPS staffing list (ex. POO/Portland, Oregon). How do you staff correctly for the file? Would you use the "ICE General" staffing?

Yes, you do, but only as a last resort. Before staffing under ICE General, please check under RAC (Resident Alien in Charge) and ASAC, in consecutive order to find the staffing location. Since you cannot find Portland under SAC, you would next check RAC, and then ASAC (Portland is found under ASAC). Finally, if you cannot find the location **after** searching SAC, RAC and ASAC, please staff under ICE General.

12.7.10 LESC (LSC) records

On all of these file requests, you must attach the NFTS screen print to page two.

12.7.11 T-files

Q. What if the subject has an A-file at one office other than NRC and a T-file at a different office other than NRC (for example, an A-file in Chicago and a T-file in Milwaukee)?

A: In this case, we will request both files, EXCEPT, do not request T-files at HBG with RPC codes XX or ZG.

Q: What if they have an A-file at an outside office and a T-file here at the NRC?

A: Request the A-file only, but include the T-file portion on the file request. The T-file will get combined with the A-file when it arrives at the facility for scanning. **NEVER CROP THE T-FILE INFORMATION FROM THE NFTS SCREEN PRINT**.

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, WSC or RDF for scanning. Those offices either scan directly into FIPS for us or we export the A-file from EDMS. Therefore, if the A-file is at one of the above service centers and there is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

12.7.12 Receipt files

12.7.12.1 Do not request receipt files from any offices other than one of the five Service Centers (**ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN)**. For example, LOSJ9163201111, DALC922740405 or SPM9606900035, etc., are not receipt files we can request.

12.7.12.2 If the requester does not specifically ask for a receipt file and provides an alien number, request the alien file only.

12.7.12.3 If the requester does not provide any receipt number or alien number, then you must research CIS, CLAIMS and PCQS.

Be cautious about requesting receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will request the EAD card.

If they provide a receipt number, you must research CLAIMS, PCQS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please request the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

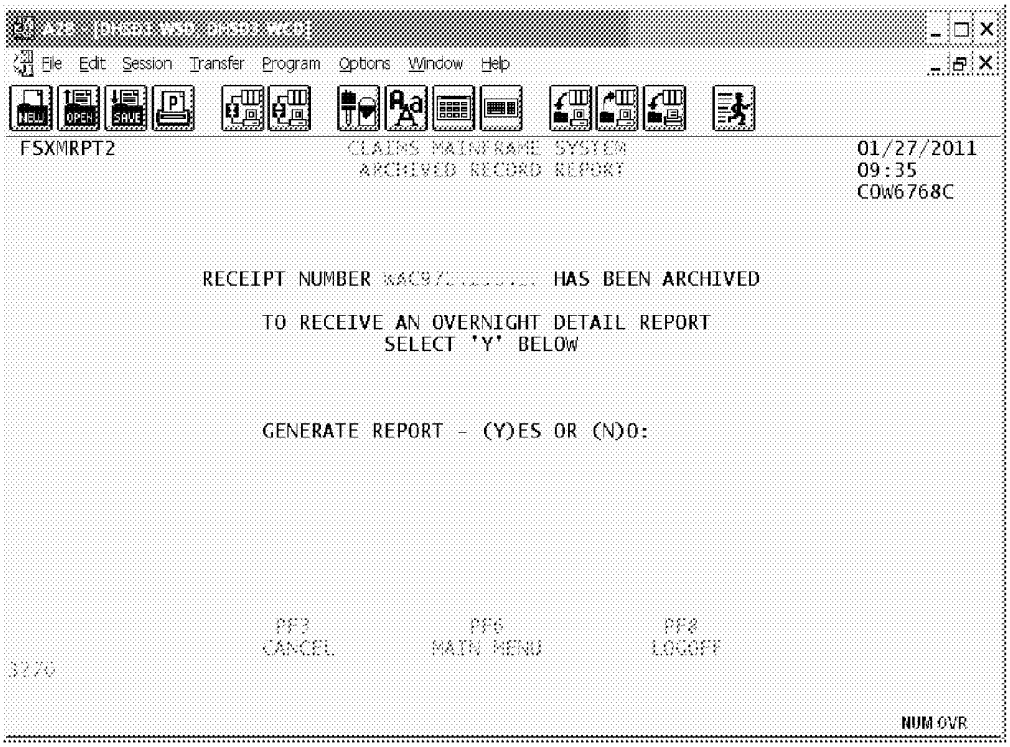
If there is no location information in NFTS, and if NVC does not have the receipt, but there is a record in PCQS, print any PCQS screen(s) concerning the petition. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

12.7.12.4 As a matter of last resort, if there is neither information about the receipt file in NFTS nor PCQS and you have called National Visa Center and determined NVC does not have the receipt, you should staff to the owner of the receipt file and paste in the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

12.7.13 Archived receipts



This screenshot shows a receipt that has been archived.

If we receive a request for a receipt file and the receipt file has been archived per CLAIMS, create the case as usual. To determine whether we need to request the archived receipt file or redirect the request please do one or all of the following as necessary:

1. Enter the receipt number in NFTS. There may be evidence that the receipt file has been consolidated into an A-file or there may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC. Sometimes, you can discover that an archived receipt has been forwarded to NVC through PCQS.
2. On the USCIS website enter the receipt number in the "Check Case Status." Checking the receipt number on the website may provide evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

3. You may call the NVC automated help line at **603-334-0700** and enter the receipt number. There may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.
4. If there is no evidence that the archived receipt file has been forwarded to NVC we will create a file request using RAFACS (not RAFACS/CIS). Find the information from the archived receipt in PCQS and print that information. Prepare a "Scan As" sheet to be scanned as responsive records for the case number you have just created, attach it to the screen prints and take those to the person designated to scan RAFACS-only responsive records. Pend the case.
5. If there is no evidence in PCQS, follow the instructions in Paragraph 12.7.14, *Receipt files; Lost receipt file, File destroyed or File cannot locate*.

Reading the request is very important; if the requester is seeking information relating to what appears to be a receipt number and it begins with "CDJ" or one of the other prefixes found in the section **National Visa Center Valid Consulate Prefix Codes, c**all the NVC help line at **603-334-0700** and enter the receipt number. If there is evidence that the NVC has the receipt file, redirect the request to NVC.

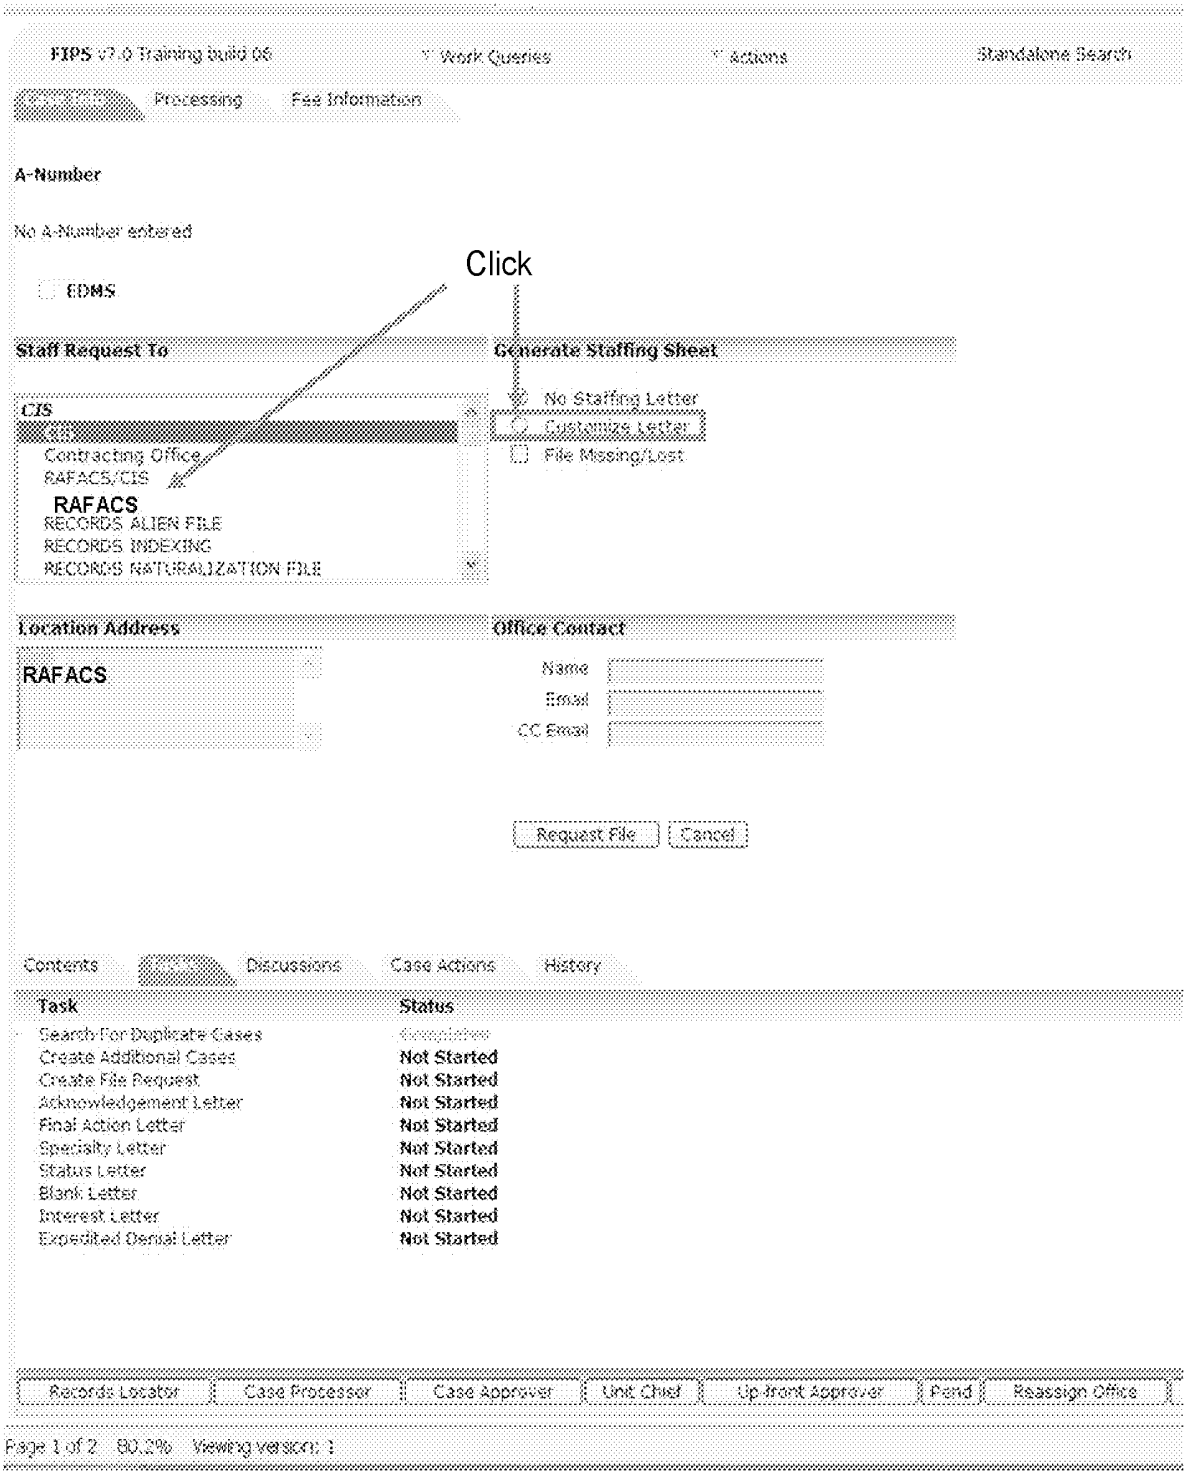
To redirect a request to NVC do the following: Click Final Action Letter and choose the code "RD" and select "NVC". Send the case to Up-front Approver.

12.7.14 Receipt files; Lost receipt file, File destroyed or File cannot locate

If a staffing response from one of the service centers (ESC, SSC, NSC or WSC) has been scanned and a screen print from CLAIMS is shown on the staffing response with any of the following verbiage; "FILE CANNOT LOCATE", "FILE DESTROYED", or "LOST RECEIPT FILE", the case creator will need to follow the steps outlined below.

Open a RAFACS (*not RAFACS/CIS)* staffing slot only. The default selection for the letter is "Customize Letter." Be sure that option is selected. Print the appropriate CLAIMS screen prints (should be a minimum of 3 pages if the receipt file is for an I-130). Print the staffing letter, attach it to the screen prints and take to person designated to scan RAFACS-only responsive records. Pend the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



This is only if there is no A-number and you have checked and the receipt file is not at the NVC. This is what the response will look like:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

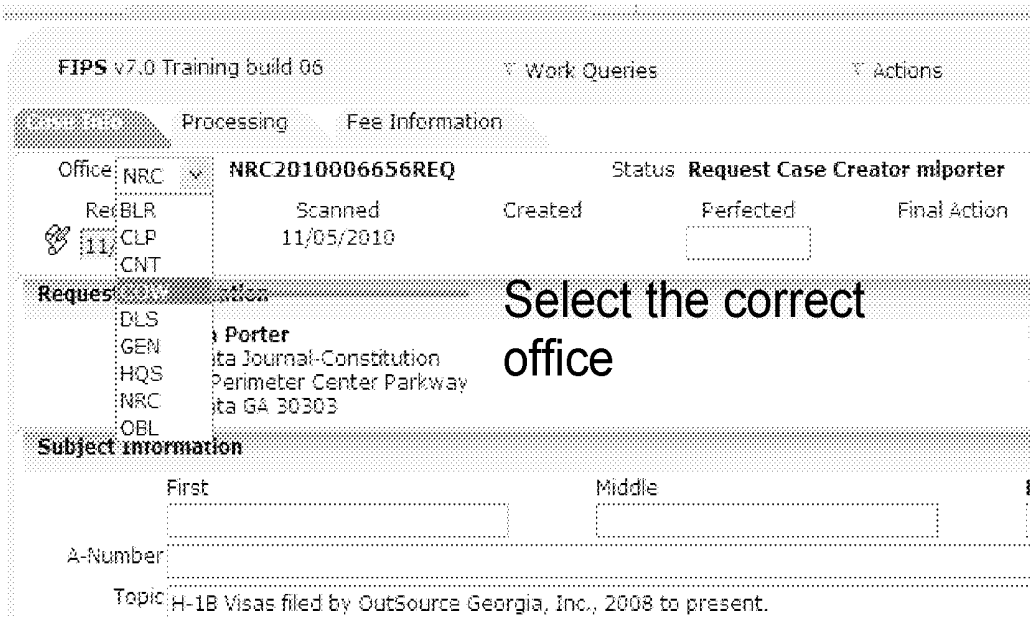
13. REASSIGN OFFICE

This function is used to move a case that was scanned in the NRC queue to another queue for processing.
Re-assign the case if the request is for a contract (CNT).
Re-assign the case if the request is for CIS Personnel Information (HQS).
Re-assign any SIG case to COW.

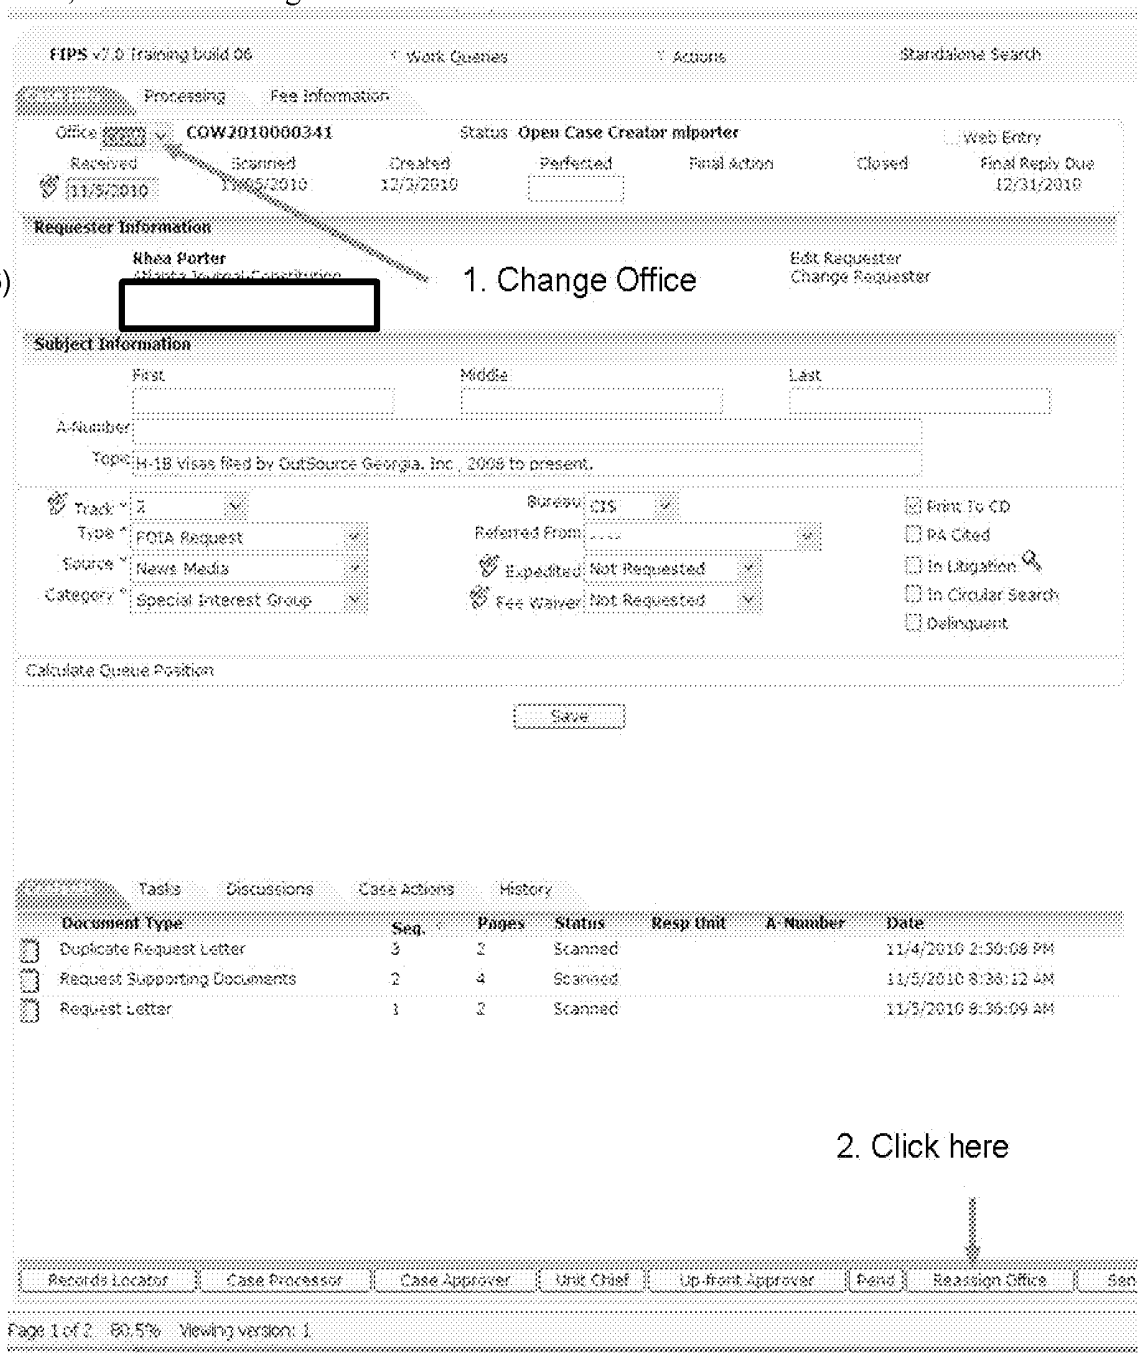
First you must select the correct office. Use the drop-down box to select the office where you want the case to go, search for duplicate cases, and then create the case:



After you change the office to COW, create the case. The case will have a COW number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, click on "Reassign Office"

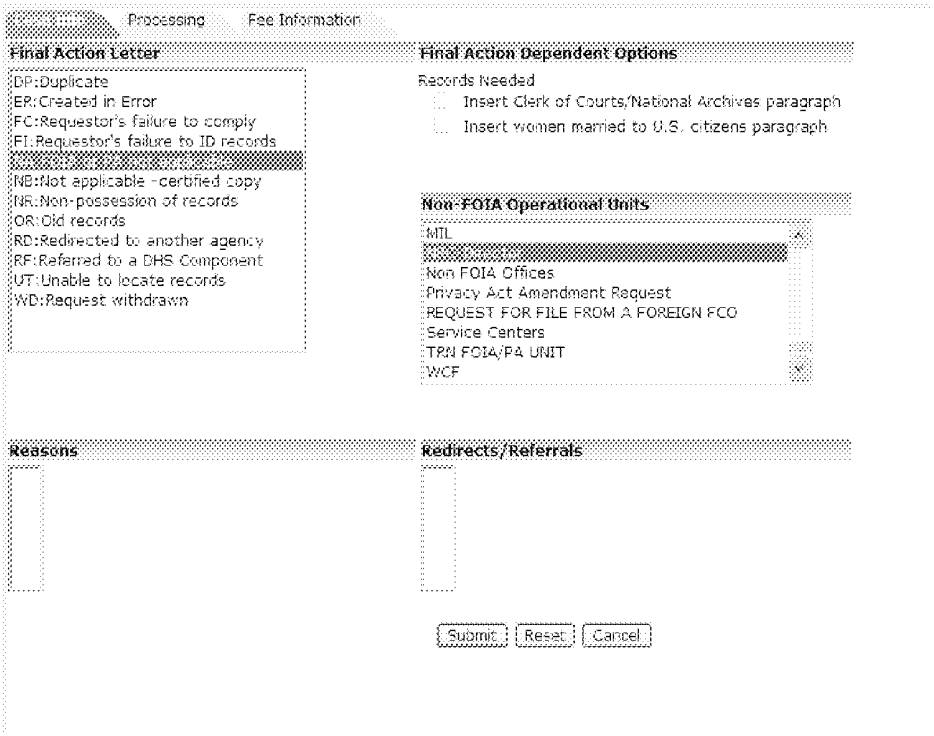


You will not be creating an acknowledgement letter or staffing. Before you click on "Reassign Office," prepare an e-mail addressed to NRC, FOIASIG with the case number and brief description of the topic, requester or reason you assigned the case to SIG.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

14. CLOSING A CASE AS "NA:FOIA or PA not applicable:"

Sometimes a requester will file a FOIA request asking for the return of original documents, the status of a petition, or a question, not asking for records. If FOIA/PA does not apply to the request, you would create a Final Action Letter and select the closing code "NA: FOIA or PA not applicable." You will have to select a Non-FOIA Operational Unit. Choose "NRC-Director." Note: if the request for return of original documents is on Form G-884 which was inadvertently scanned in as a request, you will be closing the case "ER." Please refer to REQUESTS: Return of original documents.



You do not have to modify the referral letter. You will have to select the applicable box in the Final Action Letter and possibly add other instruction, if necessary. Send the case to Up-front Approver.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

15. ER (created in error) CASE CLOSINGS

Prepare a Final Action Letter using the "ER" option for cases when the following situations arise:

1. When a G-884 Return of Original Documents is scanned in FIPS.
2. When a routine use/child support request has been scanned in FIPS.
3. When subpoenas/court orders have been scanned in FIPS.
4. When a Bond Obligor request has been scanned in FIPS.
5. Requests from Foreign Consulates (no letter required)

FIPS will not create a letter. Prepare a detailed Discussion. Send the case to Up-front Approver. The supervisor will review and close the case.

16. FC (failure to comply) CASE CLOSINGS

If you are closing a case FC because of consent, verification of identity or failure to reasonably describe the record they are seeking, please refer to

O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Failure_to_Comply_Letter and select the applicable paragraph for your final action letter. Please enter the date of the last correspondence to the requester/subject.

17. MARKING A DOCUMENT "DO NOT SEND"

From time to time, there will be an instance when we should not mail a system-generated letter. Examples include instances where a status letter is created in error, or a referral memo is erroneously created. To ensure that the letter or memorandum is not inadvertently mailed, please take the following steps:

1. Type "DO NOT SEND" at the top of the page,
2. Delete all the information in the letter/memorandum, and
3. Create a Discussion which explains why the letter/memo should not be mailed.

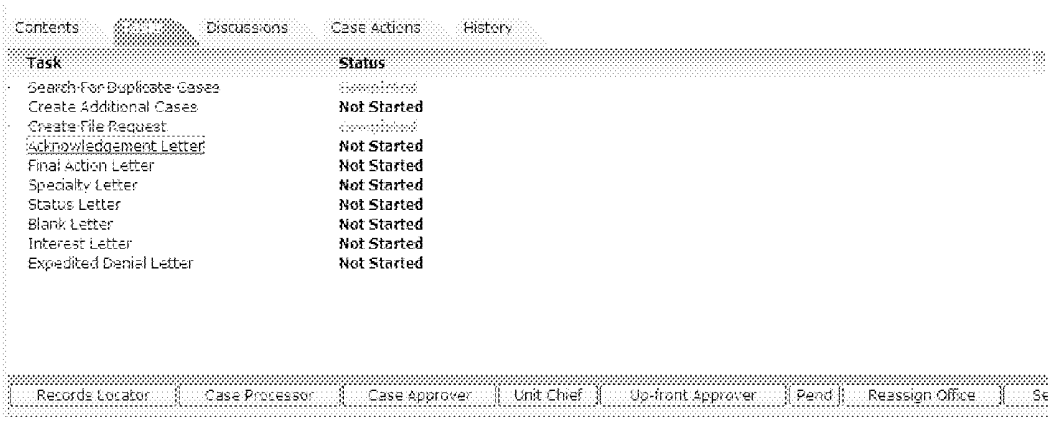
Accomplishing the steps above will make it easier for the O/A room to identify letters created in error.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

18. ACKNOWLEDGEMENT LETTERS

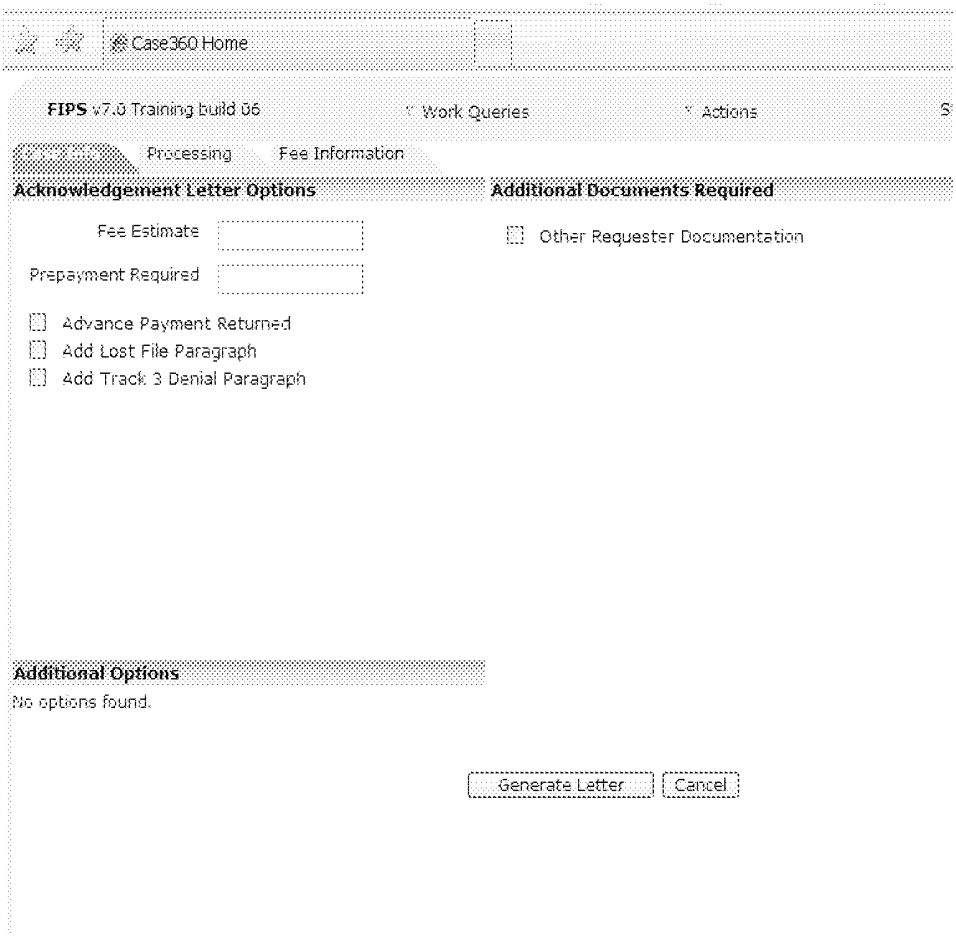
We prepare acknowledgement letters in all cases **except** for routine use and Red Cross last known address requests. The example in this guide shows how to do a standard acknowledgment letter if we have verified consent and identity, the requester has not asked for expedited treatment or a fee waiver, and we have found a responsive record. As you go through this example, please keep in mind that there are many factors which would require you to prepare the acknowledgment letter differently.

Go to the "Tasks" tab and select "Acknowledgement Letter"

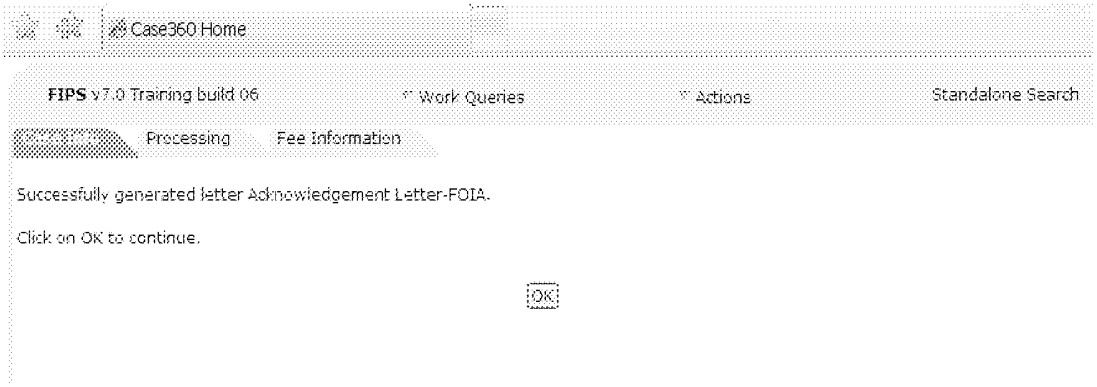


After selecting "Acknowledgement Letter," the Acknowledgment Letter Options screen will open. Options on this screen will allow you to ask for other documentation and will also allow you to add a Track 3 Denial or Lost File paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Since our example case does not require us to select any options, we will click on "Generate Letter." Our only option at that point is to click OK:



As soon as you do, a File Save pop-up window will appear. Click "Save."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

San Francisco, CA 94112-2020

We received your request for information relating to Chris P. Bacon on December 02, 2010.

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000806. Please cite this number in all future correspondence about your request.

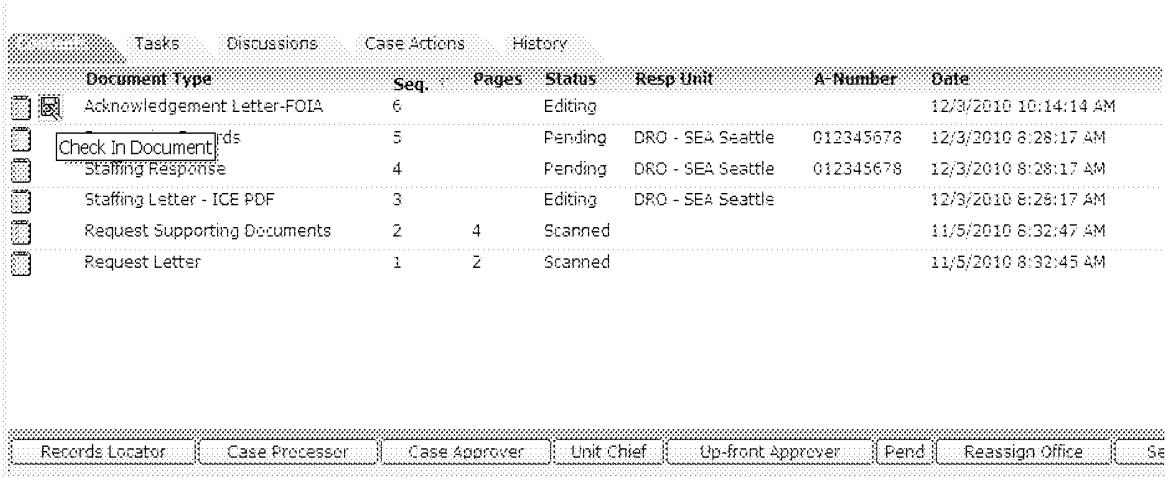
We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

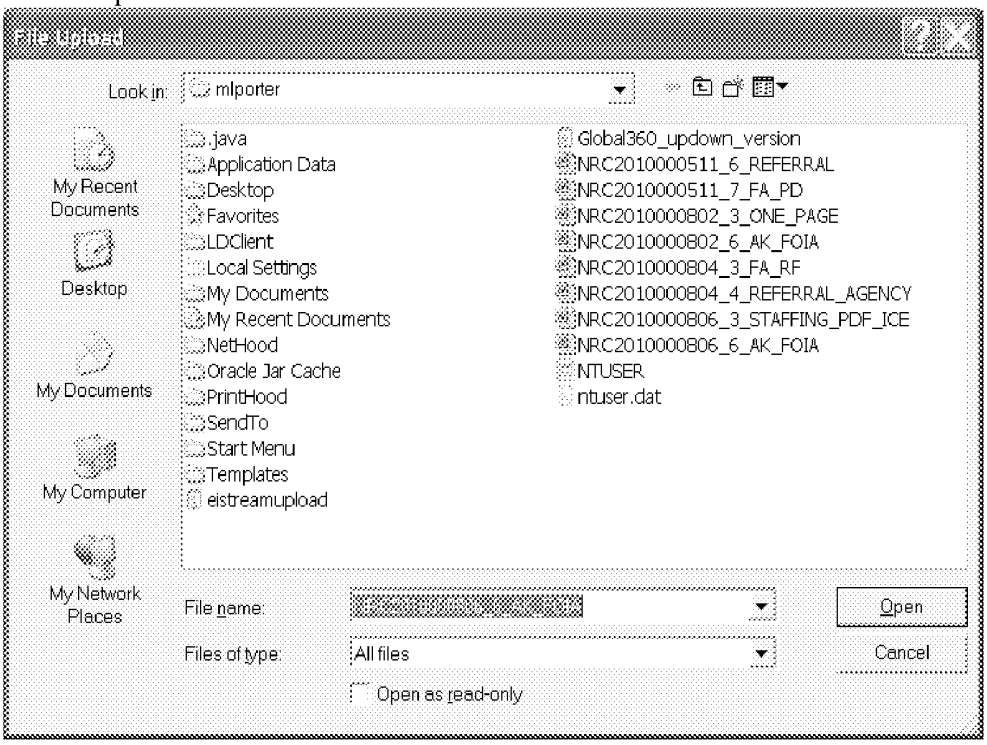
This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be

You may have some modifications to make to the letter. After you finish, save the Word document and exit Word. Next, go to the "Contents" tab and click on the "Check in Document" icon.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Click "Open":



In this example, we are now ready to send this document to "Pend."

19. DISCUSSIONS

Discussion notes are crucial to creating and processing a case. When creators are establishing the case in FIPS, they should note any unusual circumstances or details in a Discussion for later reference. FIPS also automatically generates Discussions in various situations, such as duplicate,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

multiples and when responsive records are copied from one case to another. Because Discussions become a permanent part of the case in FIPS, you should not used Discussions to record personal feelings or to debate, question, or even to seek clarification. A FOIA/PA Assistant should discuss issues needing clarification via e-mail, a telephone call or a personal visit to his or her supervisor.

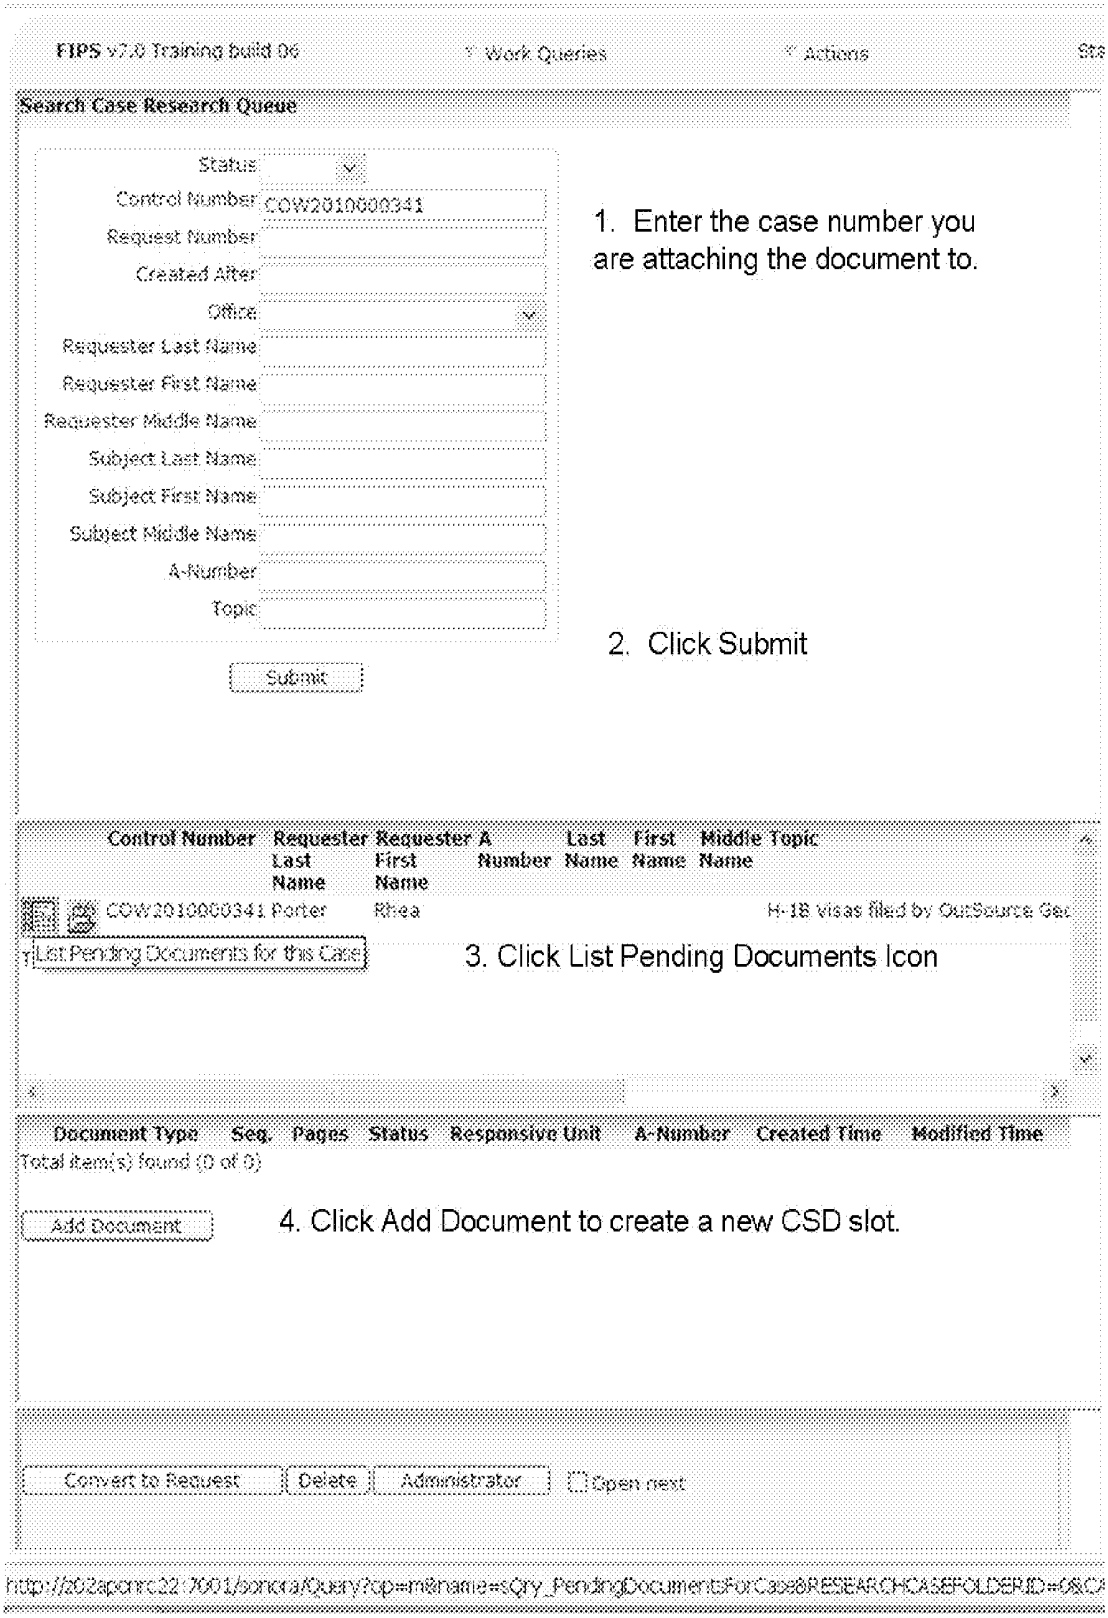
20. CHANGING A REQ TO A CSD

(Note: this article pertains to people who work in the Research Queue)

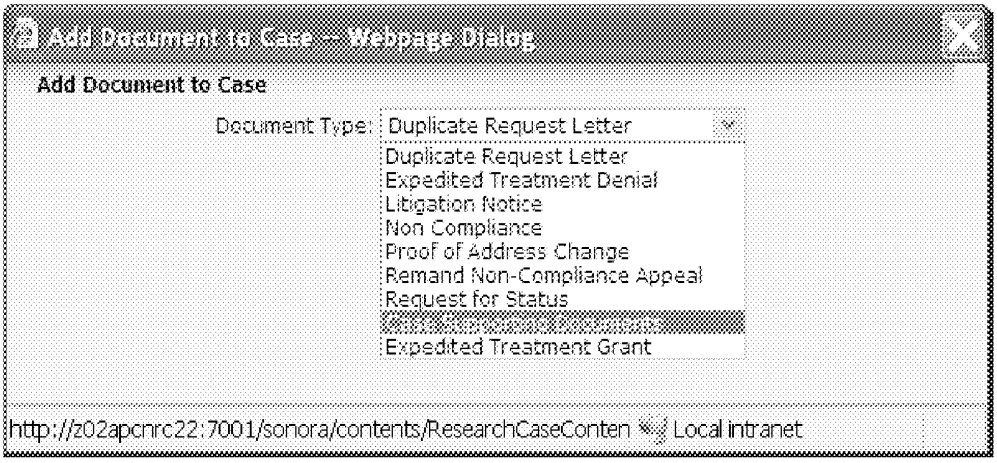
Occasionally requester documents, certificates of identity, status requests and other correspondence will inadvertently get scanned into FIPS as a new request. If you encounter these types of documents in FIPS as REQ's, please attempt to locate the case to which the documents belong. After you locate the case in FIPS, make a note of the control number. Create a Discussion asking Research to add the request as CSD to the appropriate case. Next, go back to the worksheet in FIPS and Send to Research.

A person working the Research queue will assign the request to CSD as follows:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



21. TROUBLESHOOTING WORK *FROM* THE OA ROOM

The FOIA/PA Assistants assigned to the mail are responsible for picking up faxes and mail (in the black bins marked Troubleshooter) from the OA room and in the basket located next to the copier in shared workroom each day and are responsible for sorting and working the mail. Individual team members expecting a fax should notify his or her supervisor or retrieve the fax. If the case has been created, insert a Discussion (Scan in fax and notify [me] when the fax has been scanned). If the fax needs to be scanned in before reviewing, the FOIA/PA Assistants can scan it in and notify you. They may also deliver the fax or mail if needed.

22. TROUBLESHOOTING WORK *TO* THE OA ROOM

When new requests are taken to the OA room, place them in the "New Request" bin on the counter.

When taking requester documentation, CSD's, responsive records or certifications of identity to the OA room, write "Requester Docs" or "CSD" on the first page, along with the date and your initials.

23. FOIA MAILBOXES:

FOIA has access to various e-mail mailboxes that serve different purposes. The paragraphs below describe these mailboxes and their purposes. E-mails to any of the FOIA mailboxes must contain specific instructions.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

23.1 THE OA ROOM **(NRC, FOIAOA)**

Send e-mails to the OA Room when:

- The request letter and supporting docs need to be printed and scanned in as a new case. Include instructions to the case creator, if necessary.

- The original Final Action Letter and responsive records were mailed but the requester never received them. The OA room will reprint the records to CD or paper and re-mail per instructions provided in the e-mail. The instructions must include the control number and whether to print CD or paper, as well as how the case was closed "G1 or PD." Include a Discussion in the original case.

- The responsive records need to be re-printed to CD due to the requester receiving a broken CD.

- The requester has either has a changed or new address; therefore, the records need to be re-printed and re-mailed to the requester. You need to state in your instructions to the OA room that you've made the changes to the address in the final action letter. Correct the address on the final action letter and the FIPS database. State that you've changed the address in a Discussion.

Don't forget to add a Discussion to the original case.

23.2 MSB **(NRC, NRCFOIAMSB)**

Send e-mails to the MSB mailbox when:

- An appeal is encountered in case create that was not previously addressed.

- An expedited treatment is encountered in case create or Records Locator queue that was not previously addressed. Personnel handling the MSB mailbox will forward the e-mail to the supervisor(s) handling the expedited treatment.

All e-mails to the MSB mailbox should contain the control number, the A-number or subject of the case, and specific instructions relating to the case.

23.3 FIPS PROBLEM **(NRC, FIPSPROBLEM)**

Send e-mails to the FIPS Problem mailbox:

- If errors are encountered in the case

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- If responsive records need to be copied from one case to another
- If records are incorrectly scanned in a case and need to be removed

All e-mails to FIPS Problem mailbox must contain specific instructions, including a description of the problem and the role of the case; standalone, create, locator or processing and the control number or REQ number if you were creating the case.

23.4 FOIA FILE REQUEST **(NRC, FOIAFILEREQ)**

Send e-mails to FOIA File Request if you discover A file sitting on a shelf and it has not been scanned in to the case. Include the control number and the A-number in these e-mails.

24. E-MAIL TO CUSTOMERS

If necessary, send a message to the USCIS mailbox outlining what needs to be sent. The MSB supervisor will generate the e-mail to the requester and transmit. Include all information in the e-mail that the MSB supervisor will need in order to be able to send the e-mail. Put a Discussion in FIPS outlining your request to MSB. If you are asking for more information from the requester, create a slot in the case in FIPS to ensure that the case will close out automatically if no response is received from the requester.

25. MAIL

The FOIA Division receives two types of mail: Returned Mail and Direct Mail.

25.1 RETURNED MAIL:

25.1.1 Interim Interest Letters

Returned Interim Interest Letters are scanned as Requester Docs.

Except for Interim Interest Letters, all returned envelopes and letters are scanned as CSD's.

Do not use forwarding addresses provided by US Postal Service.

OA's will note each case with action taken for each piece of returned mail. Notes are to be complete and concise. They should include the reason the letter was returned, action taken, and the OA's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Note: Not all letters are acknowledgment letters. The returned correspondence could be a status letter or request for additional information. Before letters are updated with the correct address, confirm the correct letter is being updated. The Discussion should include the type of letter being corrected and resent.

25.1.2 Acknowledgement letters

Compare address on acknowledgement letter to address on the G-639, G-28 and returned address on the original envelope.

A. If there is a transcription error in the address:

1. Correct the address in the address section of the FIPS worksheet and click on the "U" to update FIPS.

2. Correct the acknowledgement letter and resend letter.

3. Write the ID of the case creator on the returned letter and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

4. Note the case. Example of the Discussion:

   Title of Discussion: **Returned Mail – no such number**
   Body of Discussion: Address on letter did not match G639. Street address should be 1003 Market Street, not 103 Market Street. Updated FIPS and ack letter and resent letter. Name.

5. Returned acknowledgement letters with a requester document need to be repended for additional time. **Give the letter to the OA supervisor to repend.**

B. If the address on the acknowledgement letter matches the address on the G-639, G-28 and/or return address on original envelope:

1. Note the case. Example of the Discussion:

   Title of Discussion: **Returned Mail – no forwarding address**
   Body of Discussion: Address matches G-639. No other address found. Did not resend ack letter.

2. Give acknowledgement letter to OA Supervisor to Close.

25.1.3 Final Action Letters

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Compare address on final action letter to address on the G-639, G-28 and returned address on original envelope. Check all CSDs for a new address.

A. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the letter and responsive records were returned. Discussion should include "no other address found; did not resend final action letter" and OA's name. **Scan envelope and front page of letter as CSD.**

   Shred the letter and responsive records.

B. If another address is found in the CSDs:

   1. Update FIPS and final action letter, reprint letter, and label and resend. **Scan original letter and envelope as CSD.**
   2. Write the ID of the **case processor** on the returned letter and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

25.1.4 CDs

A. CDs Returned for postage.

   Make a copy of the CD and re-mail. Attach the copy of the CD to the original CD mailer and give to the OA Supervisor. Note the case with the following Discussion.

   Title of Discussion: CD Returned for Additional Postage
   Body of Discussion: Re-mailed CD, date and name

B. CDs Returned due to Incorrect Address.

   Compare address on final action letter to address on the G-639, G-28 and return address on original envelope. Check all CSD's for a new address.

   1. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the CD was returned. Discussion should include "no other address found; did not resend CD" and OA's name.

      Shred the CD.

   2. If another address is found in the CSD's:

      a. Make a copy of the CD and returned envelope.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

b. Update FIPS and reprint a new label. (Do not update letter in FIPS). Put the new label on the outside of the CD Mailer (not directly on the CD).

c. Write the ID of the **case processor** on the copy of the returned CD and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

25.2 DIRECT MAIL:

This is mail sent directly to NRC from requesters, subjects, attorneys, etc. The content of direct mail is varied and usually requires some type of action. Direct mail could consist of, but not limited to, any of the following:

- Change of Address (see **Request for Change of Address**)
- Status Request (see **Status Letters**)
- Withdrawal of Request (see **Withdrawal of FOIA/PA Request**)
- A request to change the scope of a FOIA request. The action required to change the scope of a request could involve changing the track of the case; depending upon the type of information/documents requested.
- Correspondence about delinquent payments (including checks)
- Responses to Track 3 denial or Expedited Treatment denial
- Responses to requests for additional information
- Requester asks for their record on paper: scan in as a case supporting document (CSD)

We may respond to direct mail in writing or by phone, and some mail requires no response.

Please create a Discussion describing the problem and how it was corrected. FOIA/PA Assistants assigned to handle mail should initial, date, and write what kind of document (such as CSD or REQ DOCS) on the top page and staple the pages together after scanning. Case creators may deliver the fax or mail with CSD's to the OA room for scanning.

Mail or faxes regarding delinquent payments, payments made or checks received is pulled prior to distributing to the Team. If any of these types of documents are inadvertently left in with the mail, please give them to the Team supervisor.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

25.2.1 Mail concerning Track 3 or expedited treatment

If we receive additional correspondence via e-mail, mail or fax relating to an existing case, asking for expedited processing or processing as Track 3; forward the correspondence to the MSB supervisor. A supervisor must review the correspondence and make a determination. We must address within 10 days in writing our response to the expedited or Track 3 processing request, whether we grant or deny. FOIA/PA Assistants assigned to mail will place the mail in the Track 3 or Expedited Review bin.

Insert a Discussion titled "Expedited Treatment Request" or "Track 3 Request." In the text of the Discussion type whether it was denied or approved and the sequence number of the status letter. Scan the additional correspondence in as a CSD.

If the requester responds to our denial of expedited treatment or Track 3 processing, the procedure is essentially the same: forward it to the MSB supervisor, who will make the determination.

If a FOIA/PA Assistant working in Records Locator queue discovers correspondence relating to expedited processing or Track 3 scanned in but has not been addressed by a supervisor; the Assistant should insert a Discussion and send the case to Admin or Unit Chief. Send an e-mail to the supervisor handling the expedited requests and include the control number of the case.

25.2.2 Requester documentation / additional information

This consists of documents or more information that we have asked the requester/subject to provide. When the information is received it is scanned into the requester documentation slot. Use the additional information provided to continue creating the case. If the requester/subject did not provide the alien number, use the information provided to search CIS (9102, 9103 or 9106) and CLAIMS to locate any responsive records, or receipt files. If you cannot locate any records relating to your person, close the case as NR. Copy screen-prints of your searches for scanning in as CSD. (FYI CSD's can be scanned in after a case is closed).

We do not re-open cases that close as FC because the requester failed to reply within the time allotted - unless it is our fault. An example of our fault would be they sent back the requester docs and the envelope was postmarked before the deadline. It doesn't matter if they are one day late returning the requested information. The Team will send the requester a letter advising them that their case has been closed as a FC. If the requester still has an interest in receiving the information, he or she will need to submit a new FOIA request. This includes cases closed within the same month. We are handling these

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

FC requests the same for everyone so nobody is getting unfair treatment. However, if you receive a call asking for more time to return the requester docs, and before the case closes, you may repend. A template FC letter is located at: O:\Foia\FOIA LIBRARY\Case Create References\Template Letters\FC Letter.

25.2.3 Request for change of address

If you receive a Form AR-11 or other correspondence from an alien wanting to submit a change of address, forward the original letter and enclosures to the following address:

U.S. Department of Homeland Security
Bureau of Citizenship and Immigration
Change of Address
PO Box 7134
London, KY 40742-7134

For commercial overnight or fast freight services only:

U.S. Department of Homeland Security
Bureau of Citizenship and Immigration
Change of Address
1084-I South Laurel Road
London, KY 40744

25.2.4 Status letters

The public has the ability to check online the status of their FOIA request(s) with NRC at (www.uscis.gov).

From www.uscis.gov, find the link near the bottom of the left column under "Other Services" marked "FOIA Request Status Check." Click there to navigate to the online status check page.

The on line status check will indicate whether the request is still pending, or whether the case has been processed or closed within the last six months.

If the request is still pending, the online status check will indicate the position of the request relative to all pending USCIS requests in the same processing track. It also provides the date the request was received.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the request was processed or closed within the last six months the requester will be given the date the request was closed. The system does not discern how the request was closed i.e. DP, G1, PD etc., however it does address cases closed for Failure to Comply.

If the control number entered is not recognized, the requester will be advised the number entered is invalid or the case was processed more than six months ago.

The previous method of providing a status letter did not give the requester accurate information. In order to better serve our customers Teams should paste in the online FOIA Request Status Check every time a status is requested.

If you need to generate a status letter due to correspondence via mail, e-mail or fax, please run the control number with the online FOIA Request Status Check. You should not provide status to the requester using the "Q" button. Change the information on the letter that shows the status of the case, replacing it with the results from the online status check before you close and save. Use the latest Status Letter from *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters*, since the letter in FIPS may not be the current version. This ensures that the requester will receive accurate information.

Please print the online status check and send it to be scanned in as a CSD to support the status letter.

25.2.5 Withdrawal of a FOIA/PA request

A requester must send us a document to withdraw a pending request. Upon receipt of a written request to withdraw a FOIA, please have the request scanned into the case as CSD. Make sure that the WD letter has been scanned in before you close the case. Ask your supervisor to send the case to you in Records Locator queue. Add a Discussion indicating that the request was withdrawn per the documents found in CSD.

25.2.6 Mail received in a foreign language

If we receive mail written in a foreign language and you cannot determine whether it is a FOIA request, forward the mail to a supervisor. The supervisor will forward the documentation to MSB, who will then return the translated mail.

26. BLANK TAPES/CD's

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If you receive a blank VHS tape, cassette or CD with a FOIA/PA Request, return it to the requester.

27. VIDEO REPRODUCTION

As responsive records are scanned into FIPS; when the scanner encounters any type of media, they forward the alien file to MSB when their scanning is complete. The MSB staff assigned to audio/video reproduction will copy the media and insert a Discussion that it is complete. Once the case is processed, the processor will send an e-mail to the MSB mailbox with the case number and the page(s) number where the media can be located. MSB will pull the media and process/make any necessary redactions. The media will be mailed to the requester separately.

28. CONGRESSIONAL REQUESTS AND APPEALS

a. Congressional requests. True congressional requests are requests from a congressman or senator for information which usually does not relate to an alien file or receipt file. Most FOIA/PA requests with congressional correspondence should be handled under paragraph b. below. If you feel that you have a true congressional request or appeal, control the case, put the case in Unit Chief and e-mail your supervisor the control number. A supervisor will either send the case to SIG or return the case to you for staffing.

b. Congressional requests on behalf of a constituent: These are requests that have some kind of congressional correspondence included with the request from the subject. These cases should be created in the same manner as any other FOIA or PA request. Please use the subject's name as the requestor, mark "self" in the source block, create the acknowledgment letter and go out for verification of identity or consent as needed. Insert a case note, and e-mail Vicki Ohrnell the control number.

29. INCORRECT PAGE COUNTS:

The OA room will give final action letters with responsive records to the Team supervisors if the page count in the letter differs from the amount of pages printed. The supervisors will distribute to Team members to correct the page counts.

1. Using FIPS Standalone, go into the case that corresponds to the final action letter (NRC2010_ _ _ _). After the case is opened, determine the corrective action needed by comparing the responsive records in the case to the printed responsive records.

2. Correct the final action letter and reprint the letter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

3. Attach the reprinted final action letter to the responsive records.

4. Take the reprinted final action letter with the responsive records to the OA room to be mailed out.

5. Write the User ID Number of the person who created the final action letter in the upper right corner of the incorrect letter, and notate on the letter the corrections that you made. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

6. Stack the incorrect final action letters in a separate pile. Write "ERRORS" on a post-it note and stick the post-it note to the top page to identify these as the incorrect letters.

7. Give the incorrect letters to the Team supervisors. The supervisors will give the incorrect final action letters to a FOIA supervisor daily for distribution and review.

30. ALIEN'S STATUS VERIFICATION LETTERS:

The National Records Center no longer issues certified Status Verification Letters to aliens. These letters were usually issued to individuals who had lost their Naturalization Certificates and needed verification of their status to apply for a passport or old age pension benefits in another country. If you get a request for certified Status Verification Letters, refer these individuals to USCIS.GOV to make an INFOPASS appointment.

31. INQUIRY FOR FILE REVIEW:

If you receive an e-mail regarding an inquiry for a file review, and the request is not in regard to a FOIA request, do not call the person or forward the e-mail to another NRC Division. Forward the e-mail to a Supervisor.

32. RECORDS LOCATOR QUEUE

Cases assigned to Records Locator queue will require some kind of action. Some of the most common reasons are:

- The staffing has to be re-pended
- Additional PII or consent is needed

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Requester docs have been received
- Requester writes to request the record on paper
- The wrong records were scanned into the case
- We need to send an interim interest letter to an incarcerated individual
- The file is lost
- We got a response of not found or consolidated from a service center.

It is important to read all Discussions as well as insert Discussions as necessary. Listed below are points/actions that you should consider while working cases assigned to Records Locator queue.

32.1 Always check cases in FIPS for duplicates searching all offices using the Alien number and name of the subject of record. If the subject of the request is a petition, it may help to search by the requester to see if that petition has already been addressed.

32.2 Read and follow directions in any Discussion found in the case regardless of age or who put them in. If there is a question, see your supervisor before proceeding with any action on the case.

32.3 Anytime you create a new staffing for the same A-file or receipt, you must cancel the one it replaces.

32.4 Do not cancel file requests and re-staff just because the request is old and has been pending for an extended period. Canceling file requests and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly. Please continue to repend these cases as necessary.

32.5 If the A file has been scanned in and we are waiting on a T-file, review T-file staffings in NFTS History. If the T-file has been deleted or combined with an A-file or is from a RAFACS conversion, then cancel that staffing, because the T-files no longer exist. Send the case to the processor.

32.6 If the A-file has been scanned in, but there is an open pending slot for a T-file: Review "T" file history in NFTS. If the "T" file has been consolidated /combined with the A-file, check the date it was consolidated. If the "T" file was scanned in with the A-file, cancel the pending "T" file slot and send the case to the processor.

32.7 If you see it has been through image process box and returned to a shelf then further research is required.

32.7.1 Check all offices for duplicate cases in FIPS using the alien number.

32.7.2 Does the subject have more than one alien number per a Discussion or on their request? If so, search those for potential duplicate cases.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

32.7.3 If you find a duplicate case, make a Discussion and advise NRC, FIPSPROBLEM mailbox with an e-mail and repend.

32.8 Additional PII needed: Sometimes when a processor retrieves a case, he or she will determine that additional PII or verification of identity is needed from the requester/subject. You will have to create an Interim Response Letter and check the other documentation box. Modify the letter and attach the Requester Documentation Attachment (located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Requester Docs Attachment). Check the boxes required and pend the case for Requester Documentation. If the processor is asking for information that is already present in the scanned documents, put in a Discussion asking for clarification on what the processor is requesting. You may also have to point them to the slot where the information is currently contained.

32.9 If you pull a case in Records Locator queue and the Requester Documentation has been received: Review the information provided, if the requester/subject has provided the requested PII and/or consent, request the file.

32.10 The requester/subject may respond negatively to the request for PII. If we receive a negative response, attempt to locate an alien file and staff, matching as much of the PII as possible. Pend the case for responsive records.

32.11 If the requester/subject does not return the PII we asked for, and if a positive match cannot be identified in CIS or CLAIMS with the PII provided, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-PII. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

32.12 Deleted.

32.13 If a request for consent is returned but the requester says he or she is a third party requester (they have no relationship to the subject of the record and cannot or will not get consent), request the file. Create a Discussion advising the processor to process this case as third party without consent.

32.14 Occasionally you will pull a case in Records Locator queue and there is a Discussion stating the wrong records have been scanned into the case. This will require some investigative work before a solution can be determined.

32.14.1 Did the Case Creator use the wrong alien number when the case was originally created or when the records were staffed? If so, please request the correct file. You must then send an e-mail to FIPS Problem mailbox and ask that the wrong records be removed. Clicking the link above will automatically send a copy to the FOIA Program mailbox.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

32.14.2 Did the requester ask for a copy of a petition they filed on behalf of a beneficiary? If so, the case was probably set up incorrectly. Check first to see if there are two cases for the requester. If not, you will need to correct the one that exists to become a request for the beneficiary's information. Locate the correct records and re-staff.

32.14.3 Did the scanning contractor scan the wrong records into the case? If you've reviewed the entire file and there was no mistake made by the FOIA unit, it is possible that the scanning contractor has scanned the wrong file into this case. Here are the steps to follow if you believe this may have happened:

32.14.3.1 Look for a pending case for the records that were scanned into your case.

32.14.3.2 If you locate a case, check to see if the responsive records have been scanned.

32.14.3.3 If they have not, you'll need to have the records moved from your case over to the correct case. You will have to have the slots in your case re-set to pending by the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

32.14.3.4 If the pending case already has records scanned in, review those records.

32.14.3.4.1 Are they the correct records for that case? If so, then you will need to verify that they are a duplicate of the ones in your case.

32.14.3.4.2 If they are duplicates, then you do not have to do anything with that case.

32.14.3.4.3 You will need to have the wrong records removed from the staffing response and responsive records slots in your case. Send an e-mail to the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

32.14.3.5 If you pull a case in Records Locator queue and there is a **Discussion instructing you to create an interim response letter because the individual is incarcerated**:

32.14.3.5.1 The request must be over six months old before we

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

send out the interim letter. If your case meets this criterion, create an Interim Interest Letter.

32.14.3.5.2 If the interim interest letter is returned saying the subject is no longer in custody and we do not have another address for the subject, you can close the case FC. **Do not close out the case FC without the returned mail.**

32.14.3.5.3 If the individual is still incarcerated and still interested in receiving the record, send the case to the processing queue.

32.14.3.6 **If you pull a case in Records Locator queue and there is a document scanned into the Staffing Response and the Responsive Records slot which has been changed to Inactive**, look at the document scanned in to the Staffing Response.

32.14.3.6.1 If the case was staffed for a receipt file that has been sent to NVC (National Visa Center), redirect the request to NVC. Create the Final Action Letter, choose "RD" and select "NVC" from the drop-down box. Save the document and check it in. Send the case to Up-front Approver.

32.14.3.6.2 If the receipt file is marked lost, file destroyed, or file cannot locate, go to Receipt files; Lost receipt file, File destroyed or File cannot locate.

32.14.3.6.3 If the receipt file has been rejected by the service, there are no records to retrieve. Close out as No Record, with an explanation of rejected receipt files.

33. REPENDING IN RECORDS LOCATOR QUEUE

33.1 Do not create a Discussion that you repended the case; the system automatically creates a record of case action.

33.2 If you open a case in Records Locator queue and the file has not been scanned in nor is there any staffing response, you will probably have to repend the responsive records slot. However, before you repend the responsive records, verify the location of the A-file in NFTS and on the 9504 screen in CIS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

33.2.1 If the file has moved to another FCO, you should cancel the current file request and create a new one to reflect the new FCO.

33.2.2 If that file has moved from the original staffing location and is now in-transit to the NRC or has been received at the NRC, repend. Do NOT cancel the original file request or re-staff to RAFACS/CIS.

33.2.3 Do not cancel file requests and re-staff just because the request is old and has been pending for an extended period. Canceling file requests and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly.

33.3 If the file has been received by NRC and NFTS shows scanning, image processing, image problem files, streamliners (anything except a shelf location) repend.

33.4 If a SIG case comes up for repending in Records Locator queue, please repend and notify NRC, FOIASIG of this. Insert the NRC case number on the subject line.

33.5 If NFTS shows the file is at the NRC and the location is SEIT Admin "FOIA files awaiting partner" do further research. If there is an A-file and a T-file that will be scanned in together when the other arrives, then repend. If there are two separate staffings for files, then e-mail NRC, FOIAFILEREQ to research and to have the file scanned in if necessary.

34. CHANGING THE TRACK OF A CASE

Do not change the track of a case except in the following instances:

34.1 The requester is narrowing the scope of their request from a Track 2 case to a Track 1 case. Prepare a status letter and advise the requester that their case is now on the simple track.

34.2 The requester has responded to our acknowledgment letter stating that he or she did not mean specific documents only, and this would cause us to move a case from Track 1 to Track 2. Prepare a status letter and advise the requester that their case is now in the complex track.

34.3 The requester has a Track 2 case and provides the required documentation to change their request to a Track 3. Prepare a status letter and advise the requester that their case is now in Track 3.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

When you change the track of a case, ensure you click the "SAVE" button prior to exiting the case. After you have changed the track, send an e-mail to NRC, FIPSPROBLEM and copy NRC, FOIA PROGRAM and your supervisor. The e-mail should include the case number and the action you took.

35. RESPONSIVE RECORDS SCANNED IN WITH STAFFING RESPONSE

Occasionally the responsive records are scanned in behind the staffing response, instead of into the responsive records slot. These cases then appear in the processing queue, but cannot be processed. The processor will send a message to the NRC, FIPSPROBLEM mailbox for correction and insert a Discussion explaining the problem.

If the case has not come up for processing and you encounter this situation in Records Locator queue, put a Discussion indicating the problem (Responsive Records scanned into Staffing Response slot), and send a message to the NRC, FIPSPROBLEM mailbox with the following information:

- The NRC control number of the case,
- The A number or Receipt Number of the records,
- The staffing sequence they are scanned into, and
- The number of pages scanned in.

Send the case to Unit Chief/Admin so that the problem can be resolved.

Click here for instructions if you pull a case in Records Locator queue that has been staffed for a **Lost File**.

36. Deleted

~~Cases received in Records Locator queue that need acknowledgement letters must be re-assigned to a Troubleshooter in the Case Create role. Please contact a supervisor with the NRC Control Number and ask that the case be re-assigned to you in the Case Create role.~~

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

37. RE-STAFFING

- If the file has moved to another office, cancel pending slot and staff to the correct FCO. ***Do not confuse this with files that are now in-transit to NRC.**

- If the current staffing is not correct (for example - an Atlanta general staffing instead of an Atlanta ICE staffing): Cancel the pending slot and re-staff properly.

38. FOIA SAFE

Cases staffed to the FOIA Safe are processed in the NRC queue.

While working Records Locator queue, if you pull a case that has been staffed to the FOIA Safe, **NEVER** cancel the staffing. Pend it for responsive records.

The RPC for the FOIA Safe is ZW0004.

If you see an RPC of "**ZW**" anywhere, it is a classified file.

39. IN TRANSIT FILES

If NFTS shows a file is now in transit to the NRC, repend. ***Do not cancel the staffing and re-staff to NRC.**

40. MODIFICATION OF RECEIPT DATES

Modification of receipt dates is a serious matter. Final approval authority to modify a receipt date is ACD or higher. Any decision to modify a receipt date must take into consideration the negative effect such an action will have on the integrity and accuracy of the data in FIPS, as well as possible legal consequences.

41. MSB DIRECTED PROJECTS

Occasionally, MSB may have special projects that require your assistance.

MSB paralegals must receive prior approval from a supervisor before approaching any member of the team member for assistance on such projects.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). APPENDIX D: CASE CLOSING CODES

PD – The case has been processed, responsive records were released in part.

G1 – The case has been processed, responsive records were released in full.

DP – The case was closed as a duplicate of another case.

ER – Created in error. (see **ER Case Closings**)

WD – Case was closed as a withdrawal.

NA – FOIA/PA not applicable. You are required to select the office the request is being redirected to. Select "ALL", two letters will be generated.

NR – The case was closed as no record. A search of all databases was conducted for any files relating to the subject. No results were found. All (non-responsive) screen prints are scanned in as CSD.

UT – Unable to locate alien file. Cases can be closed if the alien file is marked as lost and it has been more than one year. A thorough search of all systems must be completed.

FC – Cases close failure to comply when requesters fail to supply requested information. (i.e. Interim Interest Project, consent, subject has fugitive status or request for additional information)

FP – Cases close failure to pay when requesters fail to submit payment.

RD – Advise requester to contact another government agency to acquire records. We tell the requester whom they should contact to obtain records responsive to their request.

RF – Cases forwarded to DHS components. We tell the requester the name of the agency we referred their request to.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

APPENDIX G: DEFINITIONS

The definitions listed below are words and phrases that frequently appear in FOIA and PA requests. The list is arranged in alphabetical order. Additional definitions can be located at http://www.uscis.gov/portal/site/uscis/menuitem. Select the tab titled "Education and Resource."

Access - Includes any form of disclosure, to include oral, visual, or reproduced copy. A reproduced copy, whether in paper or electronic format, always satisfies FOIA/PA access requirements.

Agency - Any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency. This does not include the legislative (Congress) or judicial (Courts) branches of the Government, nor does it apply to state, local, or foreign government agencies. The Department of Homeland Security (DHS) is an agency as defined above. The following are components or bureaus of the Department of Homeland Security; United States Immigration and Customs Enforcement (ICE), United States Customs and Border Protection (CBP), United States Secret Service (USSS), etc.

Agency Record - Any tangible recording of information and/or any item, collection, or grouping of information, including electronic that is maintained and controlled by an agency.

Notes or documents which are made by an employee, kept purely voluntarily, not circulated to nor used by anyone other than the author, and discarded or retained at the author's sole discretion for his/her own individual purposes are personal records. These are not generally agency records because they are not subject to the rules and controls of the agency for records management and disposition. These may, however, become agency records for purposes of the FOIA or PA if used to carry out an agency function (e.g., as the basis for a performance rating).

Component - Each separate bureau, office, board, division, commission, service, or administration, or agency of a Federal Executive Branch Department. For example: Border and Transportation Security (BTS), Citizenship and Immigration Services (USCIS), Federal Emergency Management Agency (FEMA), Immigration and Customs Enforcement (ICE) are components of the Department of Homeland Security.

Conditions of Disclosure - Specific provisions in the Privacy Act (5 U.S.C. § 552a(b)(1) through (12)) allows the agency to disseminate information from a PA system of records without the prior written consent of the record subject.

Congressional Committee Request - A request from either House of Congress, to the extent of matters within its jurisdiction; a subcommittee thereof; any joint committee of Congress; any subcommittee of any such joint committee. Agencies may not use FOIA or PA exemptions to deny records that are the subject of such a request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Congressional Request - A request from a Member of Congress on his or her own behalf, or on behalf of a constituent. After acknowledgment under congressional correspondence procedures, congressional requests are to be processed in the same manner as any other FOIA or PA request.

Consolidation – Combination of paperwork into a main file. After the service completes work on a petition or application, we combine it into the person's A-file. If the service discovers two "unconsolidated" A-numbers for a person, we combine the two files. One of the A-numbers becomes the "survivor" and the other becomes the "consolidated A-number."

Consultation - Obtaining the views of another DHS component or Federal agency concerning the release of information that has been incorporated into immigration documents or a reciprocal request. The National Records Center, FOIA/PA Division, makes the final overall determination on release.

Freedom of Information Act Request - A request **in writing** by any person for access to any record maintained by any Federal agency. Federal agencies are not persons for purposes of FOIA.

Included are requests for access to Privacy Act records of another person without the written consent of the record subject, as well as requests from nonimmigrant aliens for access to their own records.

FOIA/PA Information Processing System (FIPS) - Through the use of imaging, workflow, and graphical user interface technologies, FIPS allows USCIS to electronically manage and process FOIA and PA requests.

First Party Requester - A subject or designated representative asking for access to his/her record. A notarized signature or a sworn declaration under penalty of perjury from the record subject is required for access to records.

Forms – Various government forms available from www.uscis.gov/portal/site/uscis that are provided for the use of requesters and their representatives when submitting a FOIA or PA request with USCIS. The more common forms include:

- G-28 – Notice of Entry of Appearance as Attorney or Representative - This form is used for information purposes only. It should be signed by the attorney or representative and by the subject of the record. Does not qualify for consent unless the attorney or representative has inserted the penalty of perjury statement and the subject of the file has signed the document.

- G-639 Freedom of Information/Privacy Act Request – This form can be used to make a FOIA/PA request. When completed it provides enough information to complete an extensive search for records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

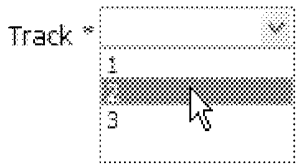
Individual - The PA describes an individual as follows: a U.S. Citizen (U.S.C.) or alien lawfully admitted for permanent residence (LPR). Conditional residents are considered LPRs. Corporations and organizations are not individuals.

Multi-track System - USCIS utilizes a three-track system to process all FOIA requests.

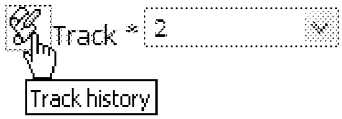
Track Drop-Down List



- Track 1 is used for the less complex cases. These are cases where only one or a few specific documents are being requested from the file.
- Track 2 is used for the more complex cases. A complete copy of a file, requests from the news media or special interest groups are considered Track 2 cases.
- Track 3 is used for cases that specifically involve individuals who have been scheduled to appear before an immigration judge.

To view the track history of the active case, click the **Track history** icon next to the Track drop-down list.

Track History Icon



The track history appears in a separate pop-up window.

Privacy Act Amendment Request - A request from a U.S.C. or LPR to amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete.

Privacy Act Record - Any item, collection, or grouping of information about an individual which the maintaining agency retrieves by the person's name, identifying number, symbol, or other identifying particular assigned to that individual. This information includes, but is not limited to, a person's education, financial, medical, criminal or employment history.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Privacy Act Request - A request in writing submitted either in person or by mail, for records that are contained in a Privacy Act system of records. The records must be under the control of DHS and be retrieved by the name of the requester or other personal identifier. Requests are received from:

- A USC or LPR for access to or his/her own records, or
- A third-party with a signed privacy waiver from the record subject acting on the subject's behalf, or
- The parent of an LPR or USC minor child or the legal guardian of a person declared incompetent by a court of competent jurisdiction.

Records Custodian - The official responsible for the maintenance, security, control, and final disposition of official records that are required by law, regulation, or other directive to be kept by the Agency.

Referral - Information found in immigration records – the forwarding of a record that originated with another component of DHS or another Federal agency for direct response to the FOIA/PA requester. Also includes transferring responsibility for responding to a request regarding the release of records to the DHS component best able to determine whether to disclose, or to the Federal agency that originated the record.

Retire – The service sends the A-file to the Federal Records Center (FRC) after a number of years have passed with no activity. This is called "retiring" the file. Occasionally, we have to request a retired file from the FRC.

Rider – A person who is also listed on a petition or application that will also benefit if that petition or application is approved. For example, a woman applying for asylum lists her husband and two children on her asylum application. They are riders.

Routine Use - An established use and authority for disclosure of records from a Privacy Act System of Records, other than an intra-agency disclosure. Disclosure or use must be for a purpose that is compatible with the purpose for it was collected, that would be otherwise prohibited by the PA. Such disclosures do not require the written consent of the record subject, but require Federal Register publication prior to such use.

System of Records - A group of any records under the control of an agency from which information is retrieved by the name of the individual or by some other identifying number, symbol, or identifying particular assigned to the individual.

Third Agency - Other administrative agencies of the Executive Branch of the Federal government, including other components of DHS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Third Party Request - A request from any person for access to another individual's record without that individual's written consent. The identity of a third party requester and his/her relationship to the subject does not increase (or decrease) his/her rights of access to the records.

White House Inquiries - An official request from any member of the White House staff, or letters of the President forwarded to the agency for response.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LEDGER:

CREWMAN: Fifteen and sixteen million series have been issued to Alien Crewman Landing Permit and Identification Cards groups. The blocks of numbers are assigned to offices issuing such cards.

ELECTRONIC ONLY: No physical jackets are created.

PHYCIAL FILES: A-Number with A-File Jackets

NOT ISSUED: The numbers are not by used any Office or Program

VISA (STATE DEPT): DoS is electronically assigned blocks of A-Numbers that they assign to Visa packets.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

APPENDIX J: 16 RULES OF CASE CREATE

1. Read the entire request, including all requester documents and case supporting documents. Look for specific language on the bottom of the G-639. What are they requesting? This will give you direction before you start filling in the worksheet.

2. Search for duplicate cases before you fill out the worksheet. Search by A number, if provided, and the subject's first and last name. Send any duplicate cases and/or documents that belong to a previous case (such as CSD's, requester documents, or track changes) to the Research queue.

3. Make sure we have valid consent, and VOI (DOB and COB). If not, close as FC, including a Discussion of your reason for closing it. If you have a question, consult a supervisor.

4. Do not send out for requester docs if we have everything in rule 3. If you feel there are extenuating circumstances that require you to go out for additional information, you must get supervisor approval and case note the reason.

5. Search PCQS every time. Use the "*" symbol to search for double last names. Example, Juan Rodriguez Martinez would be searched under last name as "rodriguez*" This will catch every last name that ends with Rodriguez plus all other last names, including names that are hyphenated. Also set the parameters in PCQS so that it searches at least +/- 3 months on both sides of the birthday.

6. Cross-reference everything you find in PCQS with CIS. If there is a discrepancy between PCQS and CIS, seek out a supervisor for advice.

7. Always check the date of entry on the request. Always do a Records Indexing staffing on subjects who entered prior to 1975.

8. Always Staff, Redirect, or Refer cases based on what is responsive to the request, meaning what they ask for, and not necessarily what they provide. For example, if they ask for voluntary departure information in 1999, don't staff for a receipt file just because they listed it on the back of the G-639. It is not responsive to the request. Always refer to the track 1 and 2 flow charts if you are unsure how to proceed. Make sure you are addressing all of the request. If they ask for a copy of their I-94 and deportation records, you will need to RF them to CBP and include ICE information or vice versa.

9. Always use the address listed on the G-639. If you cannot read the address listed on the G-639, or the address is from a consular office, or a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you find no other

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

address, insert a Discussion and send the case to Unit Chief. Don't forget to look for apartment or suite numbers, which are to the far right of Form G-639, and always double check the address.

10. Make sure you are marking the correct track and it matches the category. Specific requests for 3 documents or less are track 1 cases. You must add the specific language on the request (or as close as possible to their language) to the track 1 acknowledgment letter.

11. Make sure you address any Track 3, expedited or fee waiver requests. FOIA/PA assistants may approve or deny Track 3 requests. You must send expedited and fee waiver requests to Unit Chief for approval, or denial, and a supervisor will return it to you to create the letter. If the case is being closed as a NR, RD, RF, DP, or NA, you do not mark it as a track 3, expedited, or fee waiver request.

12. Do not staff for A files that have been lost for more than 9 months. Follow the instructions on the lost file flow chart. A files lost for less than 9 months should be staffed and pended per the instructions on the lost file flow chart, along with any other responsive files such as t-files and unconsolidated receipt files. Always remember to unmark the circular search field when you cancel a lost file staffing. Also, when you staff for additional files such as a receipt file or lost file, you must first uncheck circular search and hit save, then staff for the additional files, and then recheck the circular search field and hit save again. If you do not do this, the additional staffings will be marked as a lost file and the staffings will not get processed.

13. You must e-mail a supervisor when you change tracks on a case. Just changing the track and hitting save will not move the case to the appropriate queue.

14. Proofread your final action letters. Make sure what you are telling them makes sense. There are some final action letters such as FC letters and NA letters that you must change. Specifically, you will need to change the dates or you may need to remove certain paragraphs. You should not bold, highlight, or underline anything on any of the letters generated by FIPS.

15. Every time you move a case from one place to the next, you should create a Discussion. The Discussion should describe what actions you took. The Discussion should be short and to the point, but adequately describe any important facts or issues such as "closing as NR, searched CLAIMS, CIS, PCQS, sending screen prints to be scanned as CSD", or "Sending case to Unit Chief, NFTS is currently down", or "Switched tracks from track 1 to track 2, e-mailed supervisor to move to proper queue". Discussions are the first thing a supervisor reads and they should immediately be able to tell what actions have been taken in the case and what issue needs to be addressed.

16. Unit Chief is not an outlet for questions and should primarily be used after hours when no supervisor is available, or when there are system problems such as NFTS or PCQS outages. If you are stuck on a case, please leave your cube and seek out a supervisor. Please call by phone only as a last resort, because it is harder to give the correct advice without being able to see all the facts. You must include a Discussion in any case you send to Unit Chief. The Discussion

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

must adequately describe the nature of the problem, or the supervisor will send the case back to you for clarification.

I have read these rules and understand them. I agree to seek clarification with my supervisor if it becomes necessary to deviate from these rules:

Signature: _____ Date: _____

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. FOIA/PA ASSISTANT'S GUIDE

FOREWORD

The FOIA/PA Assistant's Guide has been prepared as a ready reference to assist with day-to-day tasks, such as creating Freedom of Information Act and Privacy Act requests, handling mail, working records locator, and general troubleshooting.

Any previous material distributed in *FOIA Information Bulletins* has been incorporated into this Guide.

For the purposes of this Guide, we may refer to a FOIA/PA Assistant as "you," or "Assistant," and in some cases "team member."

The Guide has been saved in PDF format. The PDF format makes searching for information in the Guide easier. **Please view the guide in PDF/A mode while you have FIPS 7 open.** A potential Java scripting conflict exists if you have the document open in PDF mode while running FIPS 7. Viewing the Guide in PDF/A mode disables Java scripting within the Guide – which means hyperlinks within the Guide will not work, but FIPS 7 will not freeze or crash. You may alternate between PDF and PDF/A mode in Acrobat Reader by selecting Edit ⇨ Preferences ⇨ Documents ⇨ PDF/A View Mode. Select "Never" to turn PDF/A mode off, and select "Only for PDF/A documents" to turn PDF/A mode on.

How does the rulemaking process for this Guide work? ACD FOIA/PA Operations and your Supervisors direct how Paralegal Specialists, FOIA/PA Assistants and Office Automation personnel accomplish their missions. Through ACD Operations, Supervisors submit a new rule or procedure to ACD FOIA Program. At the direction of the ACD, Program Office may immediately amend the guide, or they may seek clarification from Office of Chief Counsel. After consultation, Program Office will either amend the Guide or propose a modified rule to ACD Operations.

You, the FOIA/PA Assistant, may notice something in the Guide that is awkwardly worded, or contains a typographical error, or something that simply is not true. You contact your supervisor and then Program Office amends the guide.

Ideally, before we amend the Guide, we first publish a FOIA Information Bulletin (the exception being a misspelled word or a missing punctuation mark). FOIA Information Bulletins and the latest version of this Guide are available on the USCIS FOIA/PA Operations intranet page. When we make additions or revisions, we create a Record of Revision at the front of the Guide for quick reference.

FOIA/PA ASSISTANT'S GUIDE

THE FREEDOM OF INFORMATION ACT

Congress passed the Freedom of Information Act (FOIA) in 1966 to establish the public's right to access records created or maintained by federal executive branch agencies. The statute became effective on July 4, 1967. The statute relating to the Freedom of Information Act is 5 U.S.C. § 552.

THE PRIVACY ACT

The Privacy Act of 1974 regulates the collection, maintenance, use, and dissemination of personal information by the federal government. The statute relating to the Privacy Act is 5 U.S. C. § 552a. The statue became effective September 27, 1975.

WHAT ARE FOIA REQUESTS AND HOW DO WE GET THEM?

A Freedom of Information Act (FOIA) request is a request in writing for a copy of any record maintained by any agency of the executive branch of the government. Persons must reasonably describe the records sought, and those records must already exist. Requests can come in a variety of ways. They can come in on the Form G-639 or as a letter from an attorney or representative. They can come in the form of a letter from the alien himself. The requester may mail, fax, hand deliver, or e-mail a request. No matter how we receive them or what the format is, as long as they are in written form and provide enough information to ascertain that they want documents from us, we treat them as FOIA requests. A Privacy Act (PA) request is a request by a person for a copy of his or her file.

For case creating purposes, the difference between a FOIA and PA request does not matter. You will create all cases as FOIA requests, although some of the requests we receive are PA requests. The case processor determines whether the case falls under the Freedom of Information Act or the Privacy Act.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

WHO CAN MAKE A FOIA REQUEST?

Anyone can request any record kept by the executive branch of government. The tricky part is determining if we have enough information and consent to provide the record and who is entitled to what. The most common types of requesters are:

- First party requesters, that is, the alien himself or his designee, attorney or representative, are entitled to a complete copy of the alien file, after any applicable exemptions are applied. However, a parent or guardian may make a request for a minor's record. Please refer to the section titled **"CONSENT RELATING TO RECORDS CONCERNING A MINOR OR PERSON JUDICIALLY DETERMINED TO BE INCOMPETENT"** in this guide.

- Third party requesters, that is, an individual seeking a copy of an alien's file without the subject of record's consent, are entitled only to documents of a public nature or documents they provided in support of an application/petition. Please refer to the section titled **"THIRD PARTY REQUESTS"** in this guide.

- Media requesters are typically accredited members of the media.

- Bond obligors, companies who posted immigration bonds for the aliens, are entitled to a copy of the file under a court case entitled *Amwest v. Reno*. Please refer to the section titled **"IMMIGRATION BOND OBLIGORS"** in this guide.

- Other state and local government agencies are entitled to documents from alien files for law enforcement purposes. Requests for information originating with any other federal agency are operational matters and not FOIA or Privacy Act requests. Please refer to the section titled **"ROUTINE USE"** in this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

SYSTEMS USED AND DESCRIPTION OF THE SYSTEMS

The paragraphs below provide a description of some of the systems used by USCIS, ICE and CBP. Most A-files contain screen prints from one or more of these systems.

1 Central Index System

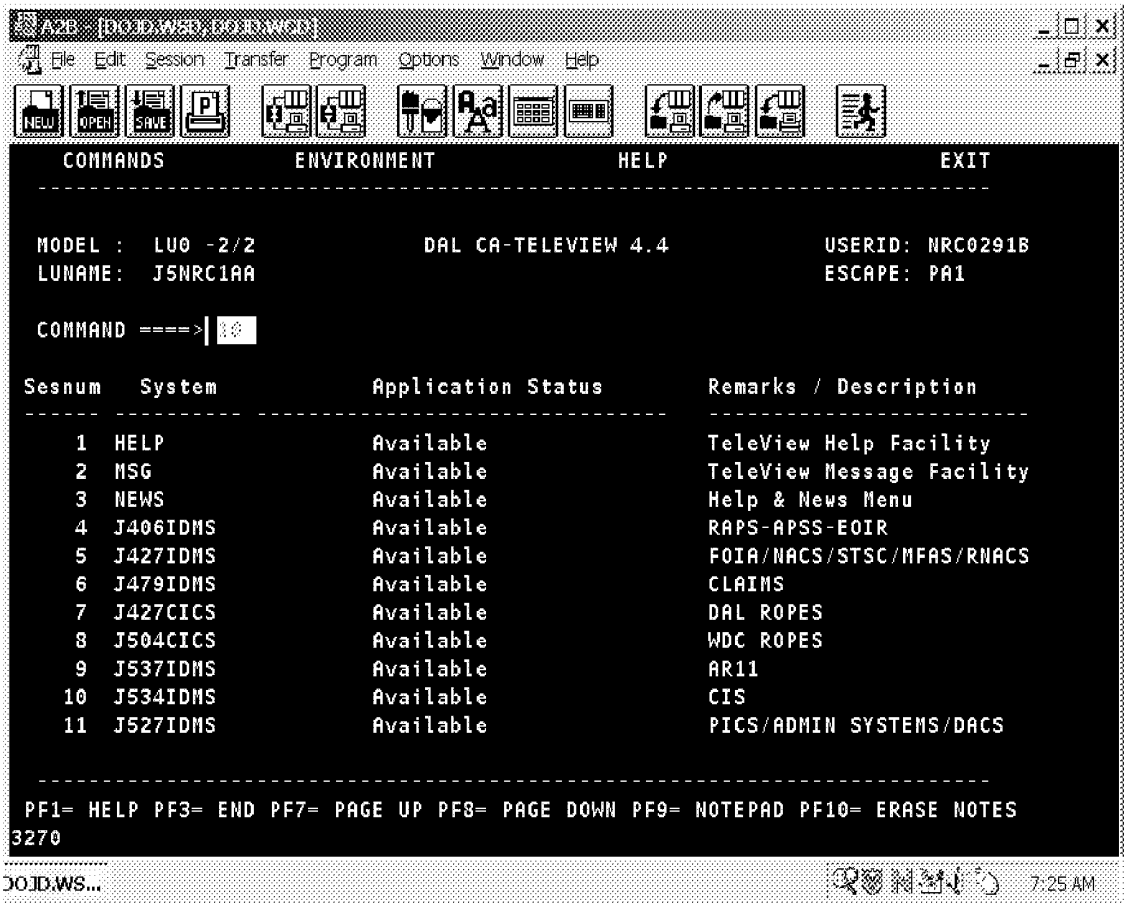
(CIS) is a database used to maintain records, search for records, and display data. CIS is a menu driven system as opposed to a point-and-click graphical user interface system. CIS provides information about persons and information about file location and movement. The CIS user navigates among various screens, depending on the type of information he or she needs. A user may search for a person in CIS by using the a-number, social security number, FBI number or a passport number. CIS provides the option of searching for people using "sounds-like" and exact name searches.

1.1 Introduction Screen

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

This screen is the introduction to TeleView. From this screen use the designated UserID (last 4 digits of Social Security Number plus an alpha) and Password to sign onto the database.

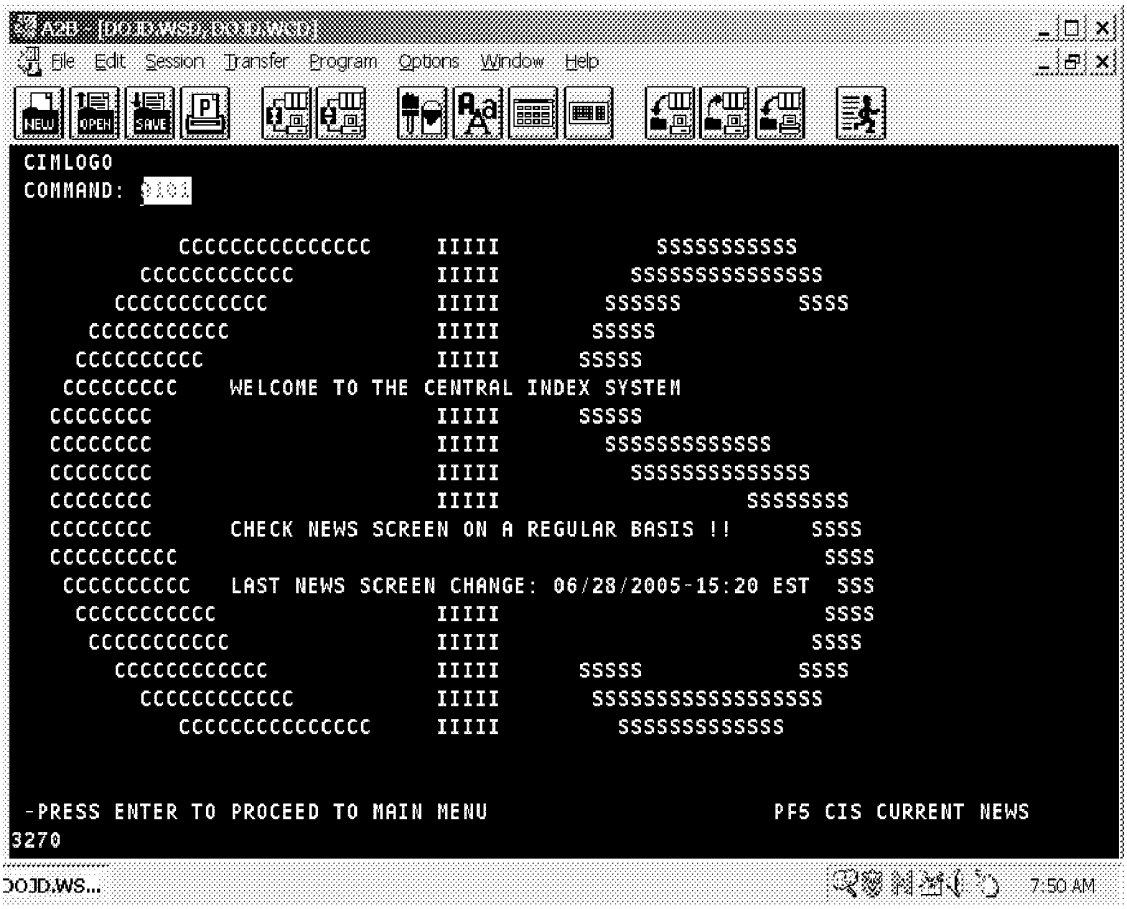
1.2 TeleView Main Menu



The number selected to access CIS will vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

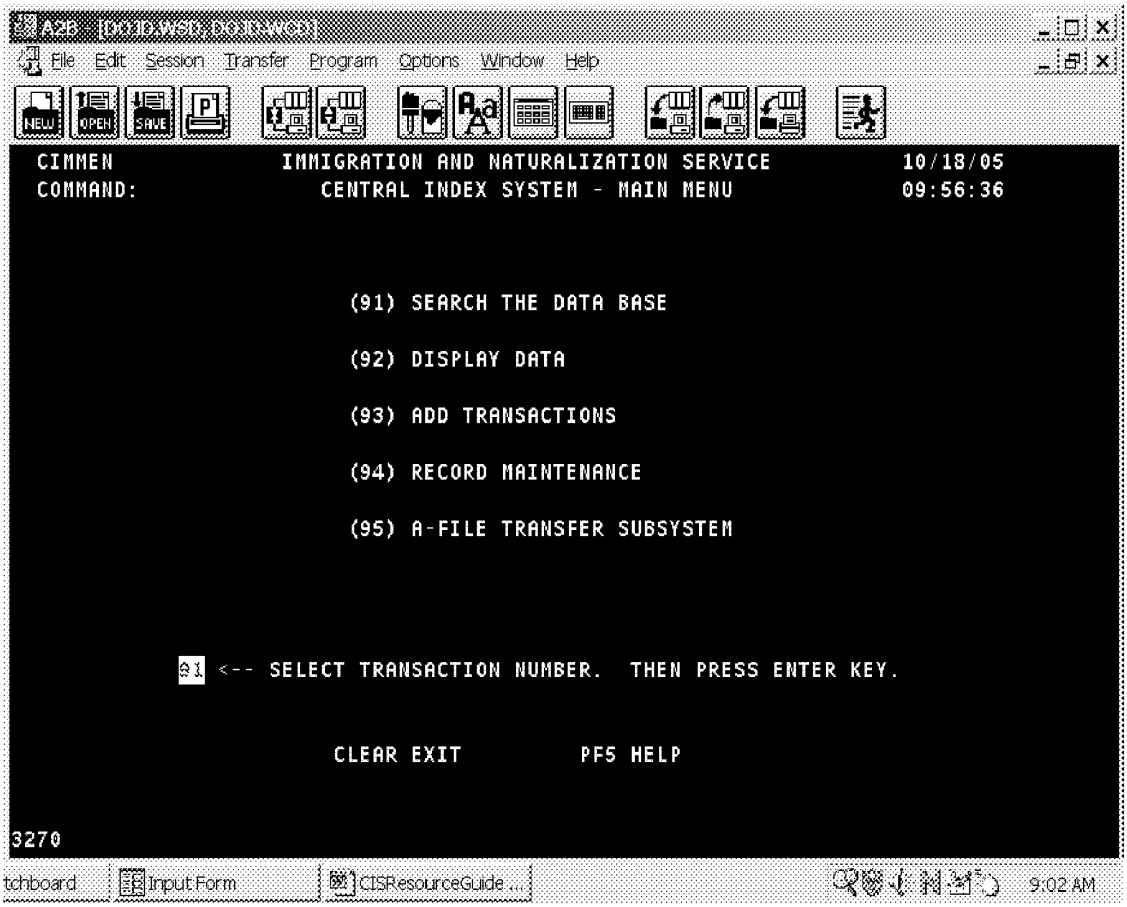
1.3 CIS Login Screen



This is the screen used to navigate through CIS. Pressing enter can access the main menu for CIS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

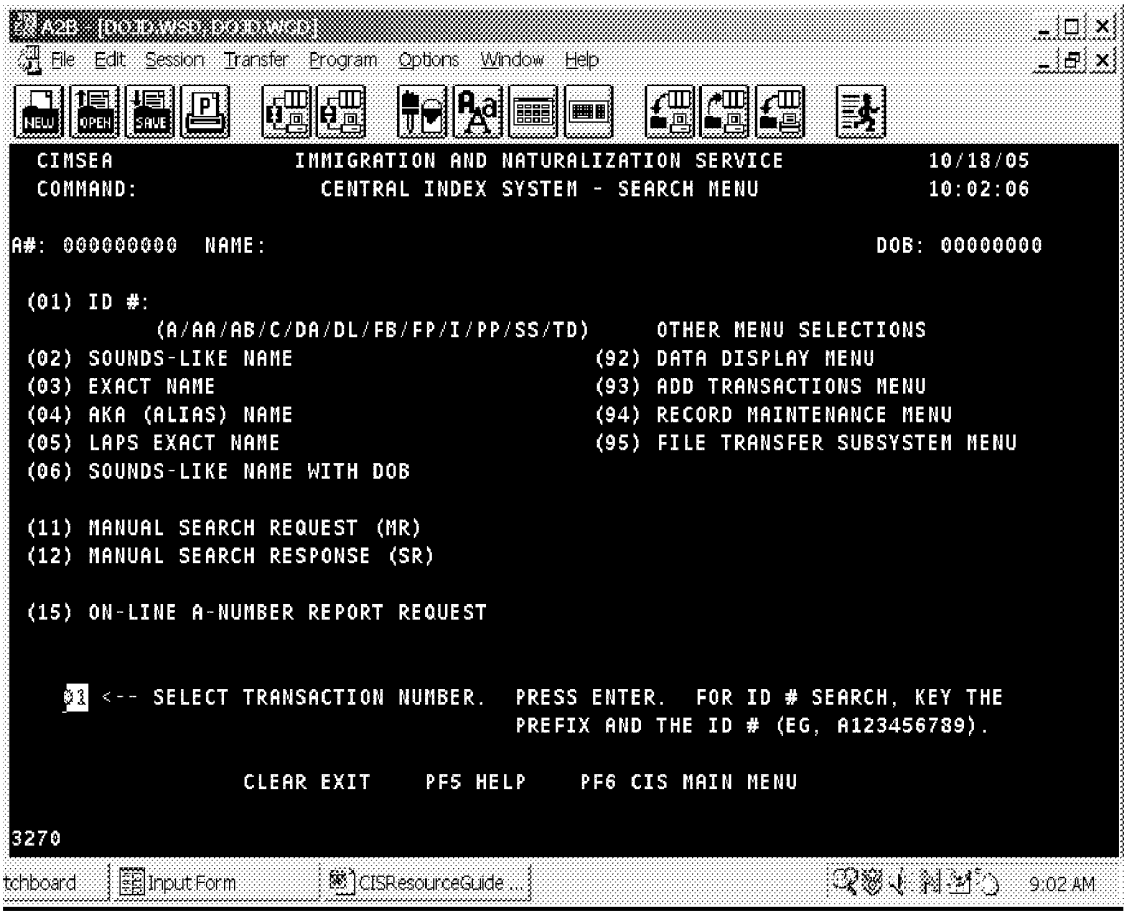
1.4 CIS Main Menu



This screen displays a variety of ways to search for information. The transaction numbers that we use within FOIA are 91, 92, and 95. By typing the number 91 next to select transaction number and pressing enter, another search screen will appear. The main purpose of the "91" transaction number is to search the database for specific information concerning an individual. Transaction number "92" is used to display card information. The transaction number "95" is used mainly to see the location of the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.4.1 Search Menu Screen



From this search screen a decision is made as to how to begin a search for an individuals records. The most commonly used methods to search for an individual's record are:

Code	Search By Category
01	ID # (A-number, certificate number, social security number, passport number ect.)
02	Sounds-Like Name Search
03	Exact Name Search
04	Alias (AKA) Name Search
06	Sounds-Like Name Search with DOB

Type in the two-digit code (01) and press enter. The screen displayed will be the screen where the search for records begins. ***Note:** Remember to read the screen in its entirety for additional information.

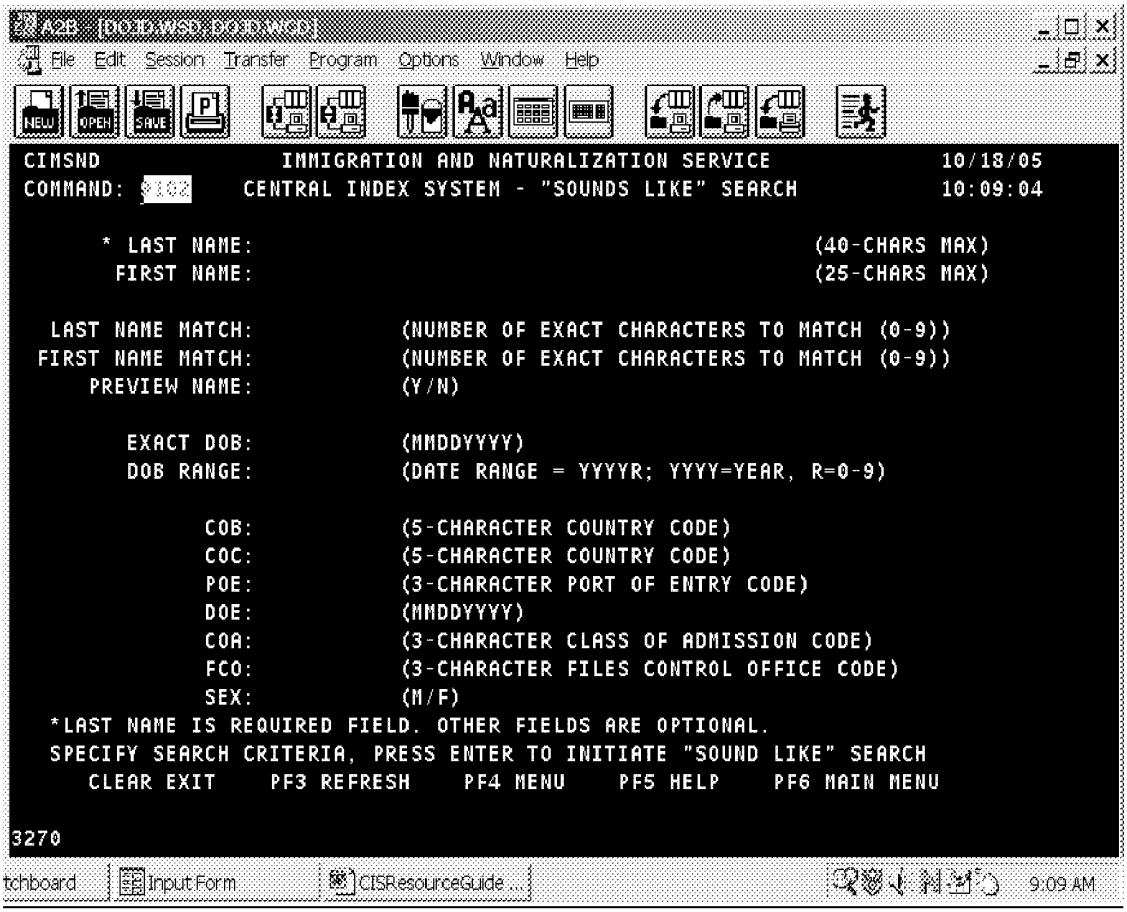
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.4.2 Search by A-number (9101)

In the ID# field enter the appropriate prefix with information (A = a-number, SS = social security number, PP = passport number, C = naturalization certificate number and I = I-94 number). If there is information in the system on the subject it will populate in the fields below the ID#. Pay special attention to the legend at the bottom of the screen specifically PF8, PF11, and any information listed under (other information). By pressing PF8 the history menu is displayed. This screen holds chronological information about actions that have been taken or changes in the subject's immigration status. The PF11 screen shows EOIR (Executive Office of Immigration Review) information. The significance of this screen is it holds information about ongoing or closed deportation proceedings. In the section of the screen listed (other information) different acronyms may appear such as: CARD, EADS, RAPS and DACS. For additional information on DACS please see Chapter 3.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

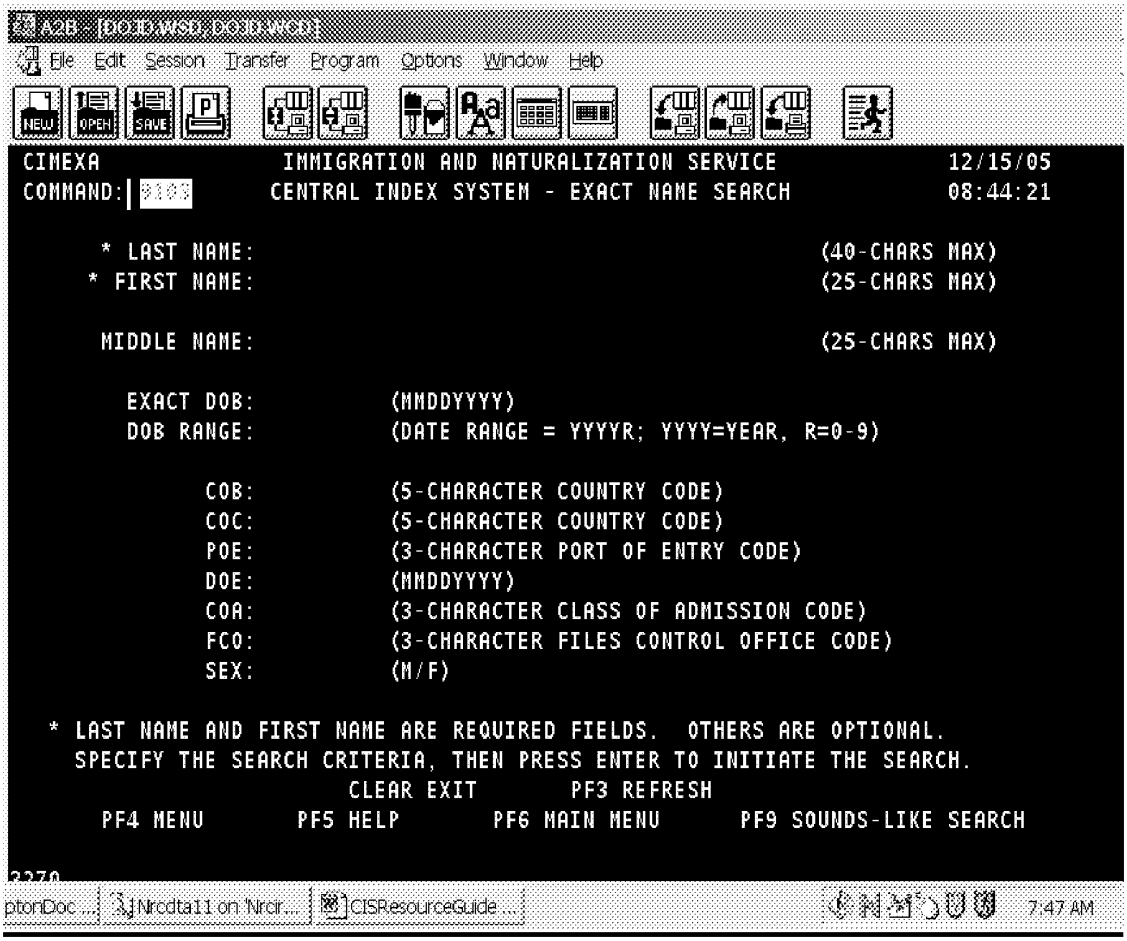
1.5 Sounds-Like Name Search (9102)



Use the 9102 screen when there could be variations in the spelling of a name. There are times when the person who created the record in CIS misspelled the name. There could be many spelling variations in a name transcribed from a non-Roman alphabet. The * indicates the minimum amount of information required to search. The search results may be voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

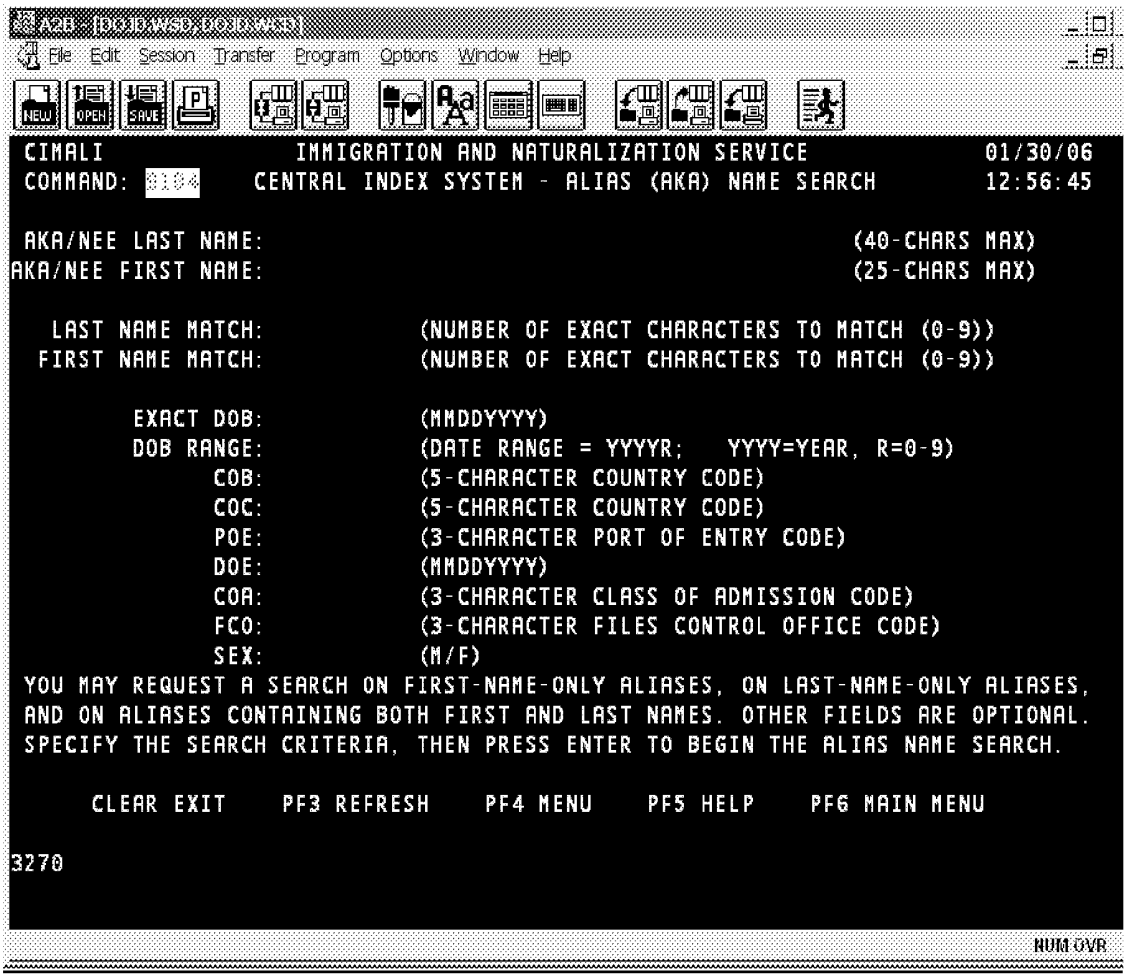
1.6 Exact Name Search (9103)



9103 is the primary screen used when performing a search based on the subject's name only. The information displayed will be an exact name match.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

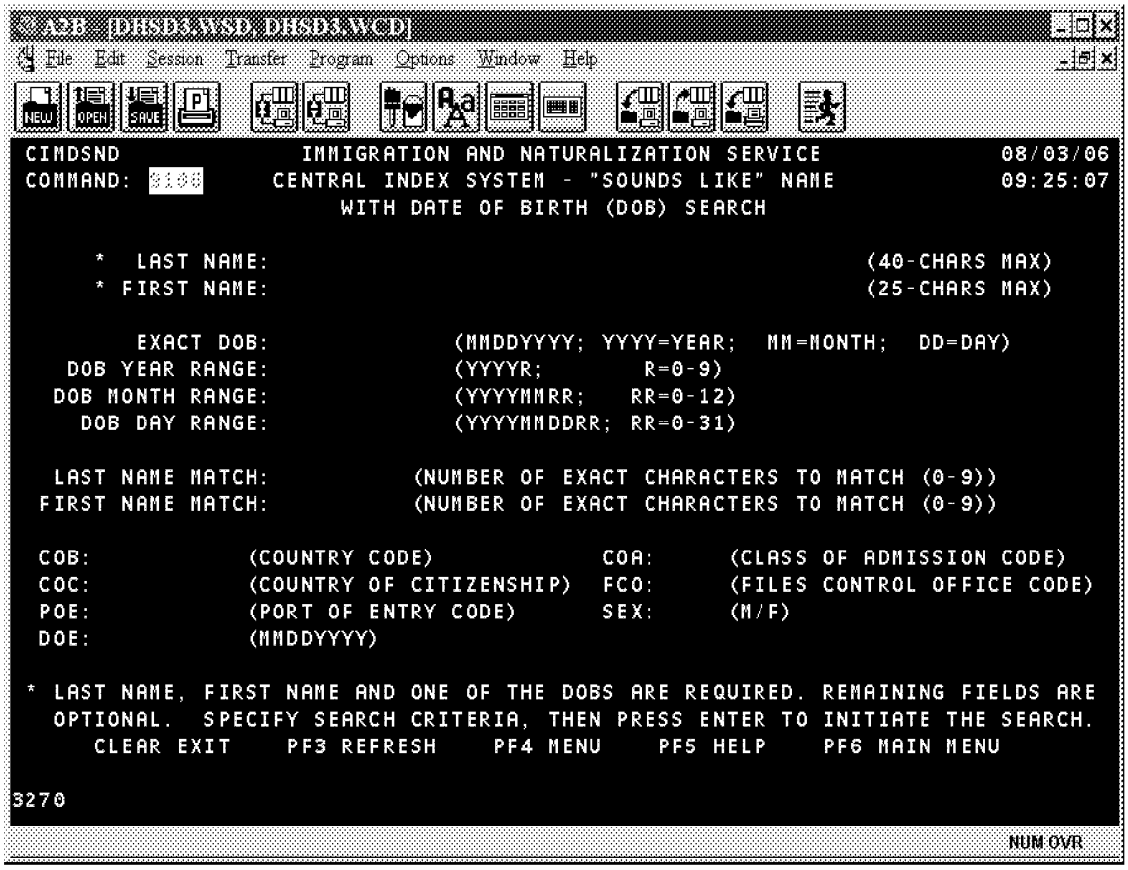
1.7 Alias (AKA) Name Search (9104)



The primary use for the 9104 screen would be to perform a search using any alias information provided in the FOIA request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

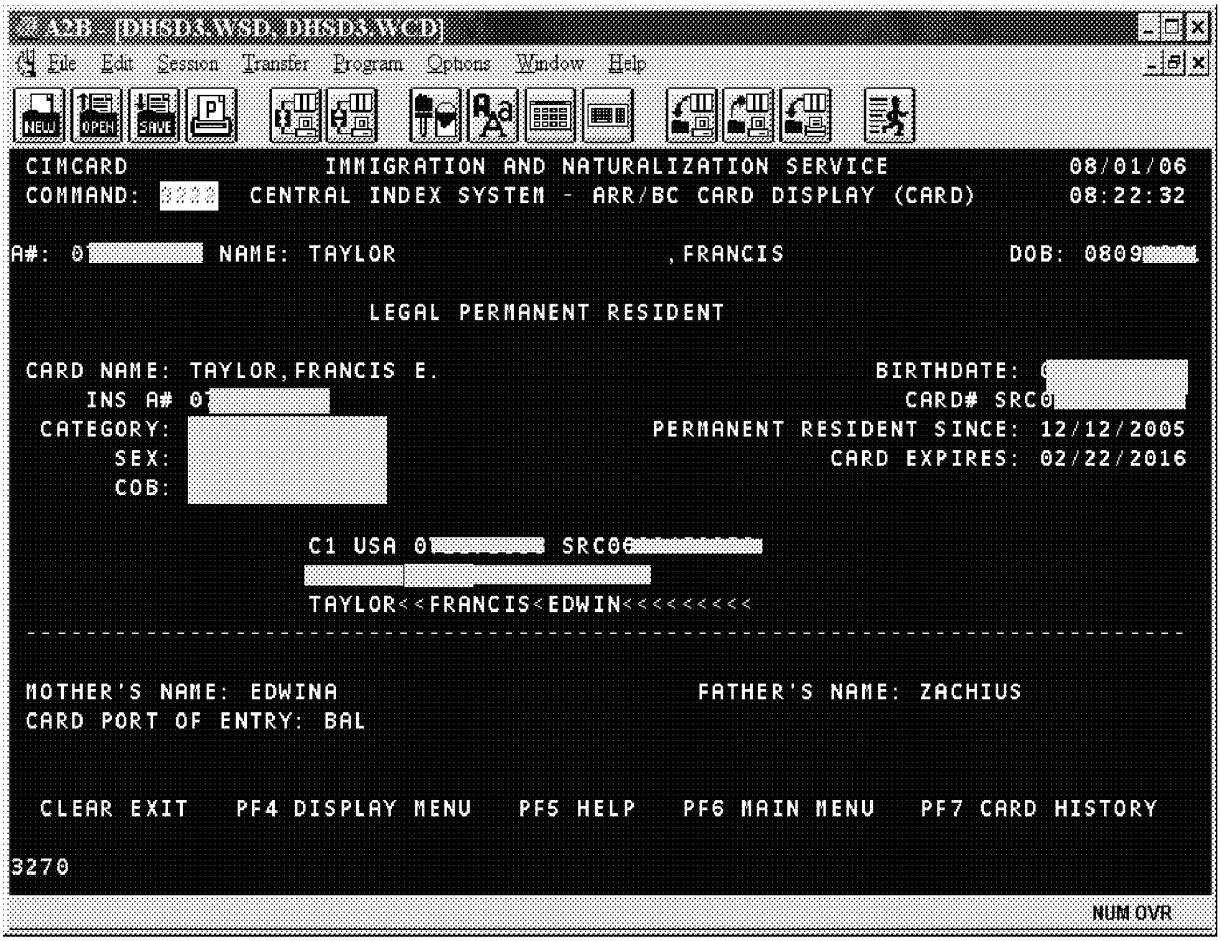
1.8 Sounds Like Name With Date of Birth (DOB) Search (9106)



The 9106 screen allows searches for information pertaining to the subject of the request even if the spelling of the name is incorrect. For example, the requestor made a typographical error in the spelling of the name the search results will yield a list of similar names matching the subjects.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.9 Card Search (9222)



The 9222 screen is a snapshot of an actual Legal Permanent Resident (LPR) Card. In addition, this is the same screen to find Border Crossing Card information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

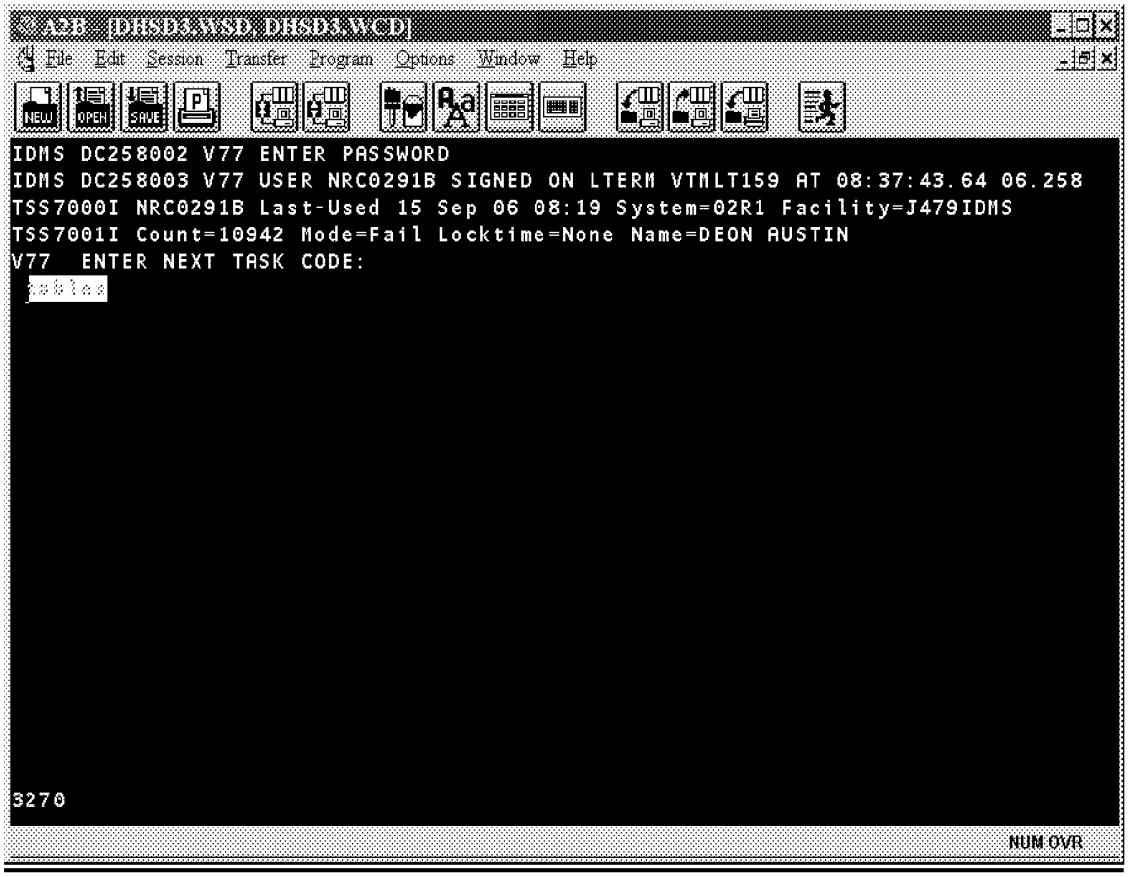
1.10 File Transfer Display (9504)

The main purpose of the 9504 screen is to check the location and movement of files. This screen's primary use as it relates to FOIA is that it will be used in conjunction with NFTS in the case create function. The following is a list of acronyms displayed on this screen.

FTR: File Transfer Request
FTI: File Transfer Initiated
FTC: File Transfer Complete

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.11 Tables



The **Tables** section contains a wealth of informational codes that can be of assistance in making a decision about the subject of the request, such as **Class of Admission**. To get to this screen select the "keyboard" from the toolbar at the top of the screen and click the clear button on the keyboard. Once this is done type in the word **tables.** The next screen displayed will be the **Tables Menu Screen**.

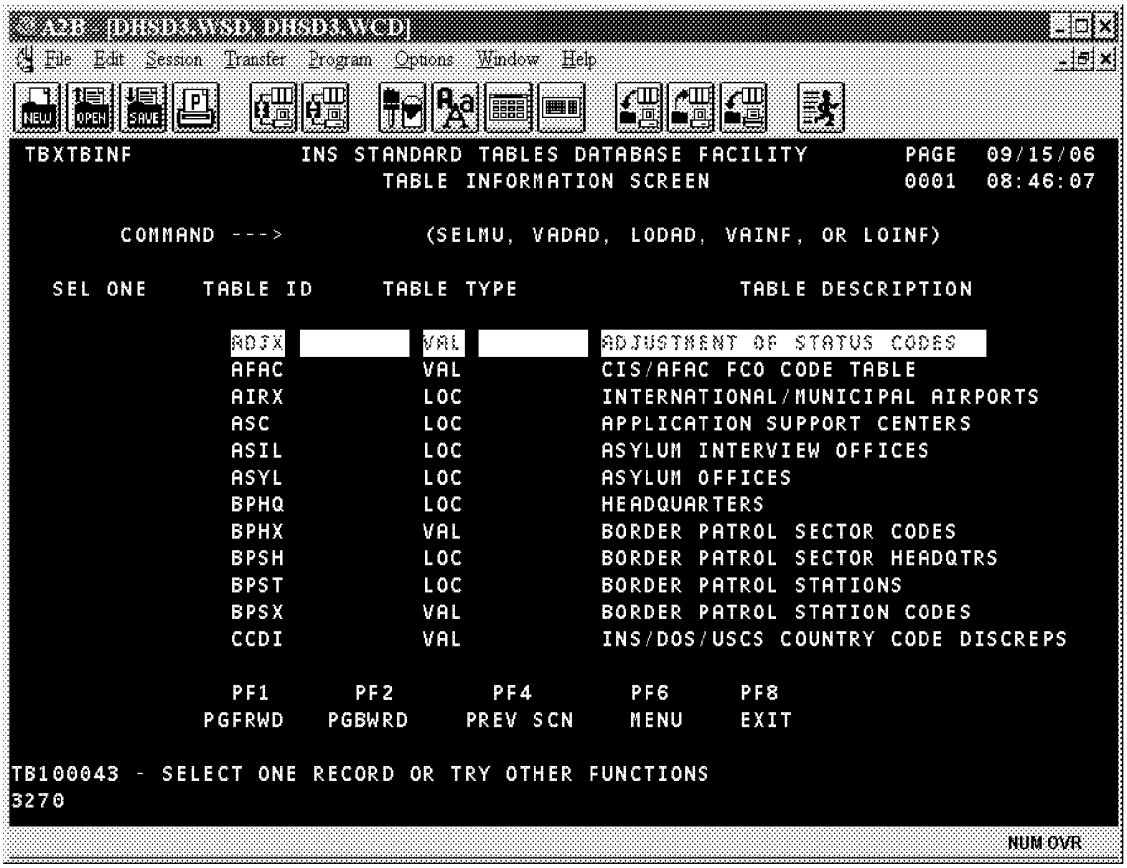
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.12 Tables Menu

Placing the cursor in the **Table ID** field and pressing the function key PF7 a list of tables is displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

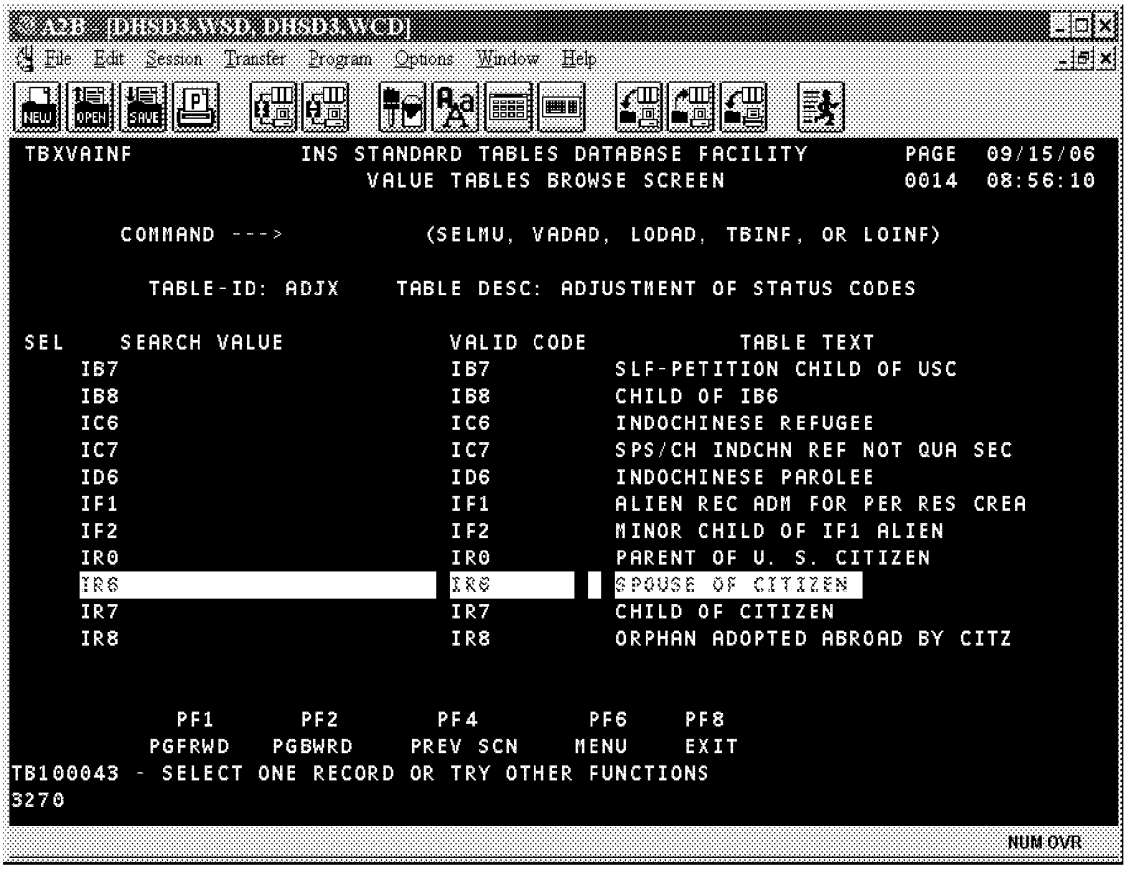
1.13 Tables Information Screen



The tables are in alphabetical order. Place an **X** in the "SEL ONE" column and press enter and this will bring up a list of different codes.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1.14 Value Tables Browse Screen



Read the screen in its entirety for navigation instruction and additional information.

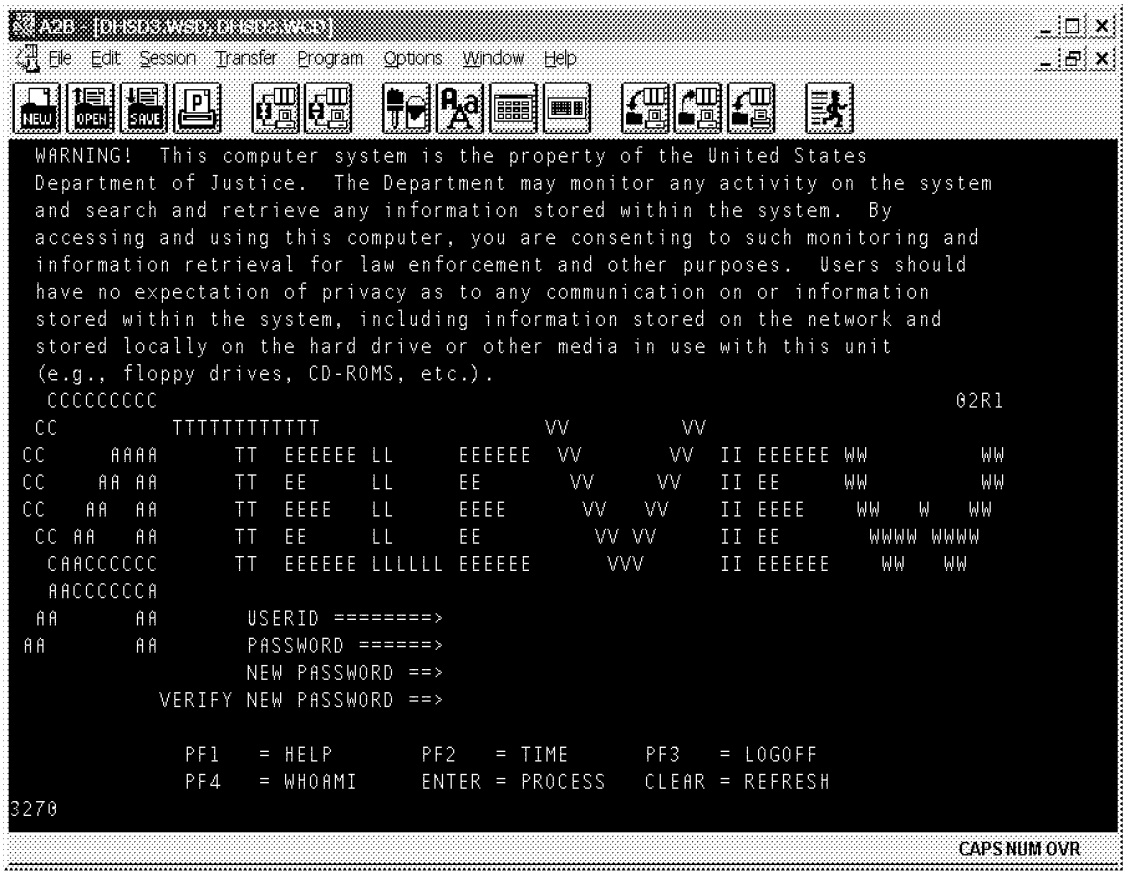
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. Computer Linked Application Information Management System

2.1 Introduction

The Computer Linked Application Information Management Systesm (CLAIMS) tracks application and petitions. CLAIMS is a menu driven system. The Inquiry/Update Processing selection on the menu is the only menu NRC FOIA uses because we search for receipts but never modify information in CLAIMS.

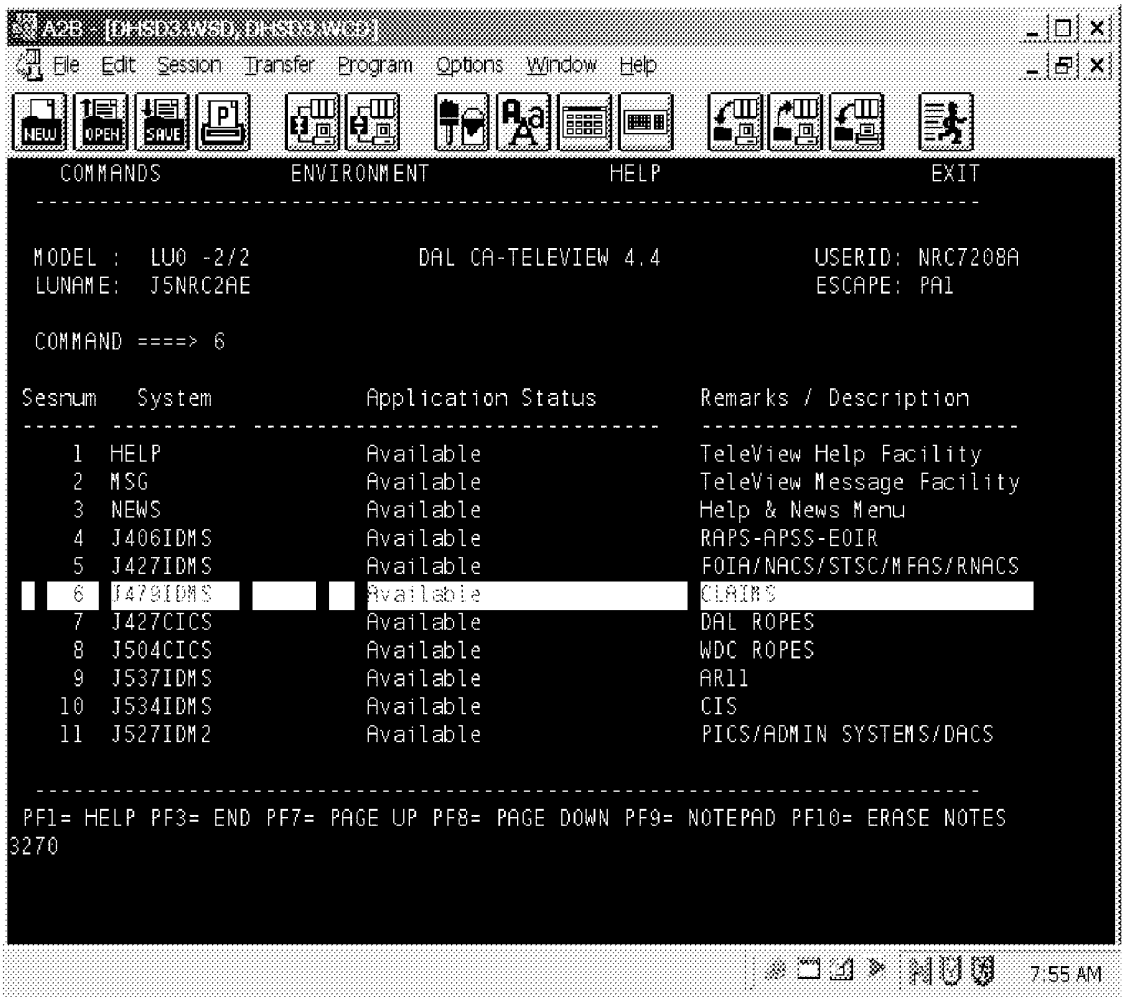
2.2 Teleview Introduction Screen



This screen is the introduction to TeleView. From this screen, use the designated UserID (NRC####A) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

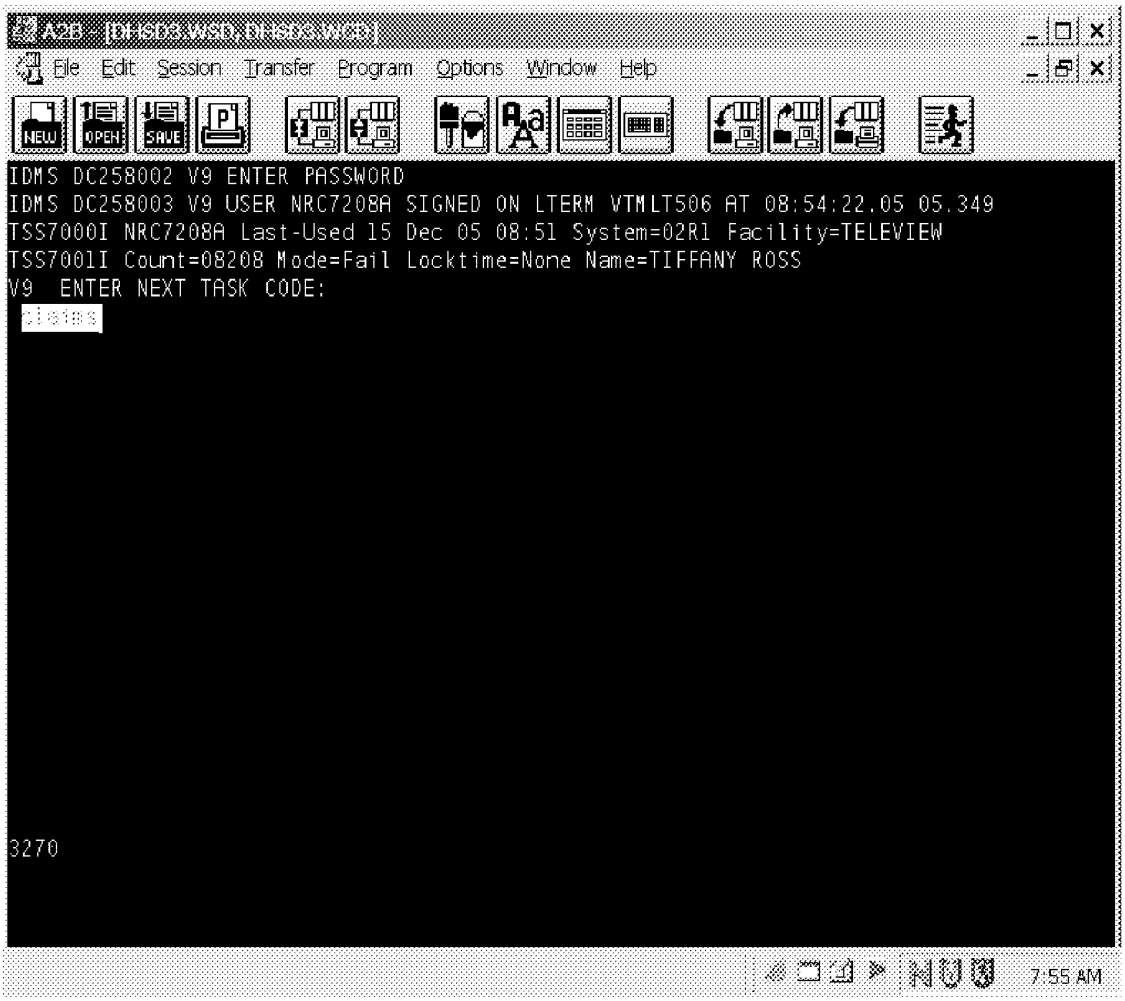
2.3 CLAIMS Selection Screen



The number selected to access CLAIMS can vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

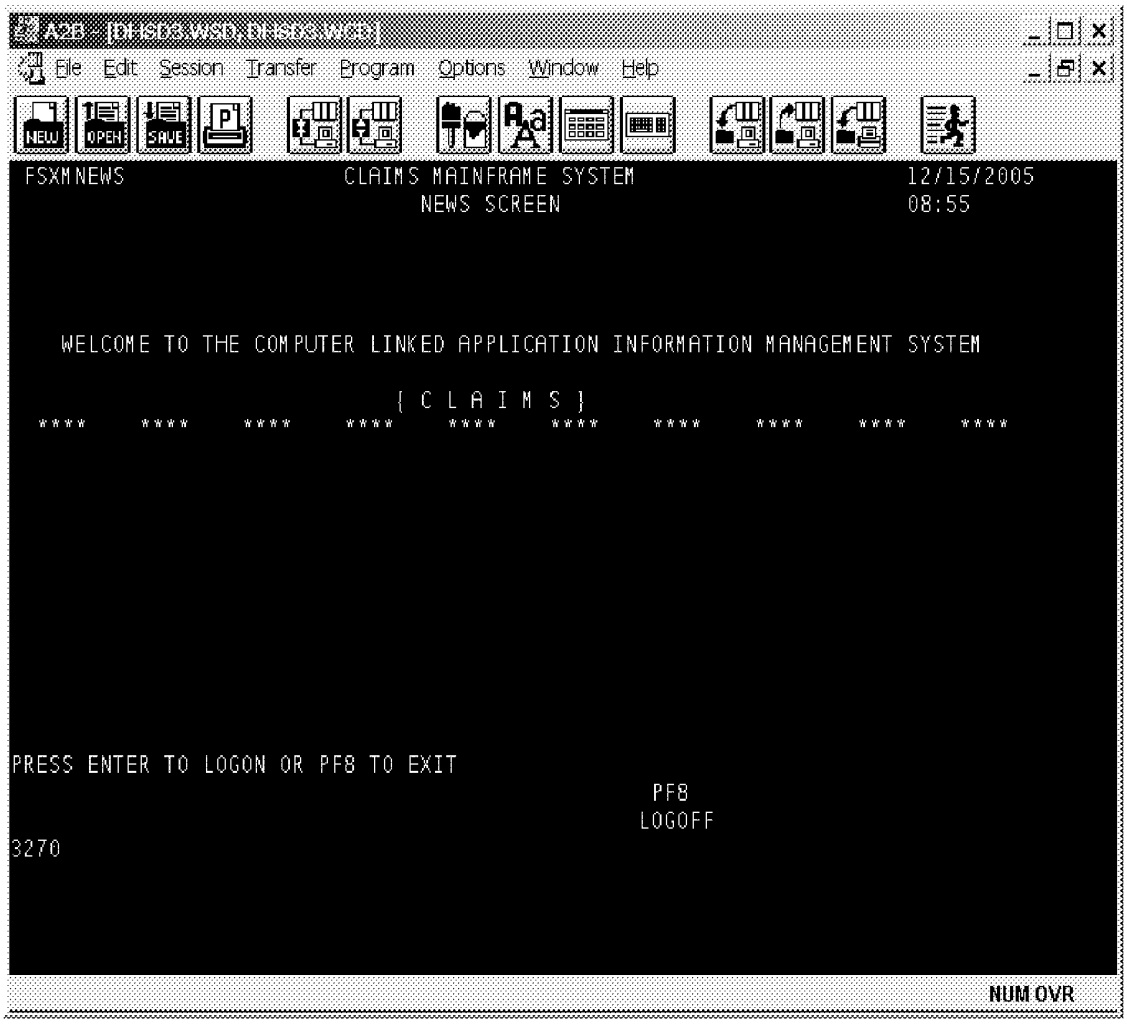
2.4 CLAIMS Function Screen



After selecting CLAIMS from the main menu, you will see the screen print shown above. Type in claims and press enter. This screen is not case sensitive.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.5 CLAIMS Welcome Screen



Press enter from here to get to the logon screen.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2.6 CLAIMS Logon Screen

To logon, your USER ID will be NRC and the last 4 digits of your social security number followed by a letter (NRC1234A). Check with your supervisor for your password.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

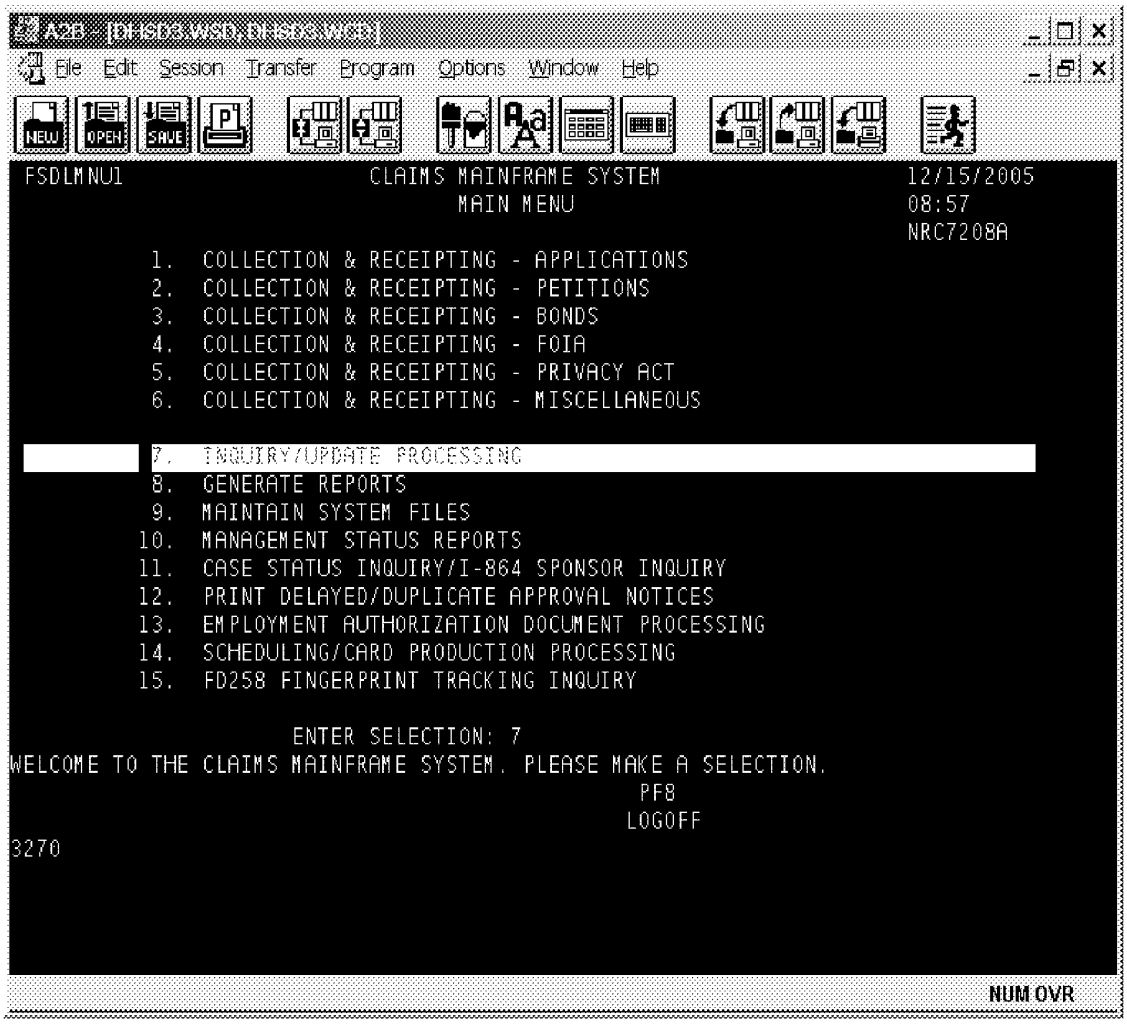
2.7 CLAIMS Main Menu Screen



From the Main Menu type the number for INQUIRY/UPDATE PROCESSING and press enter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

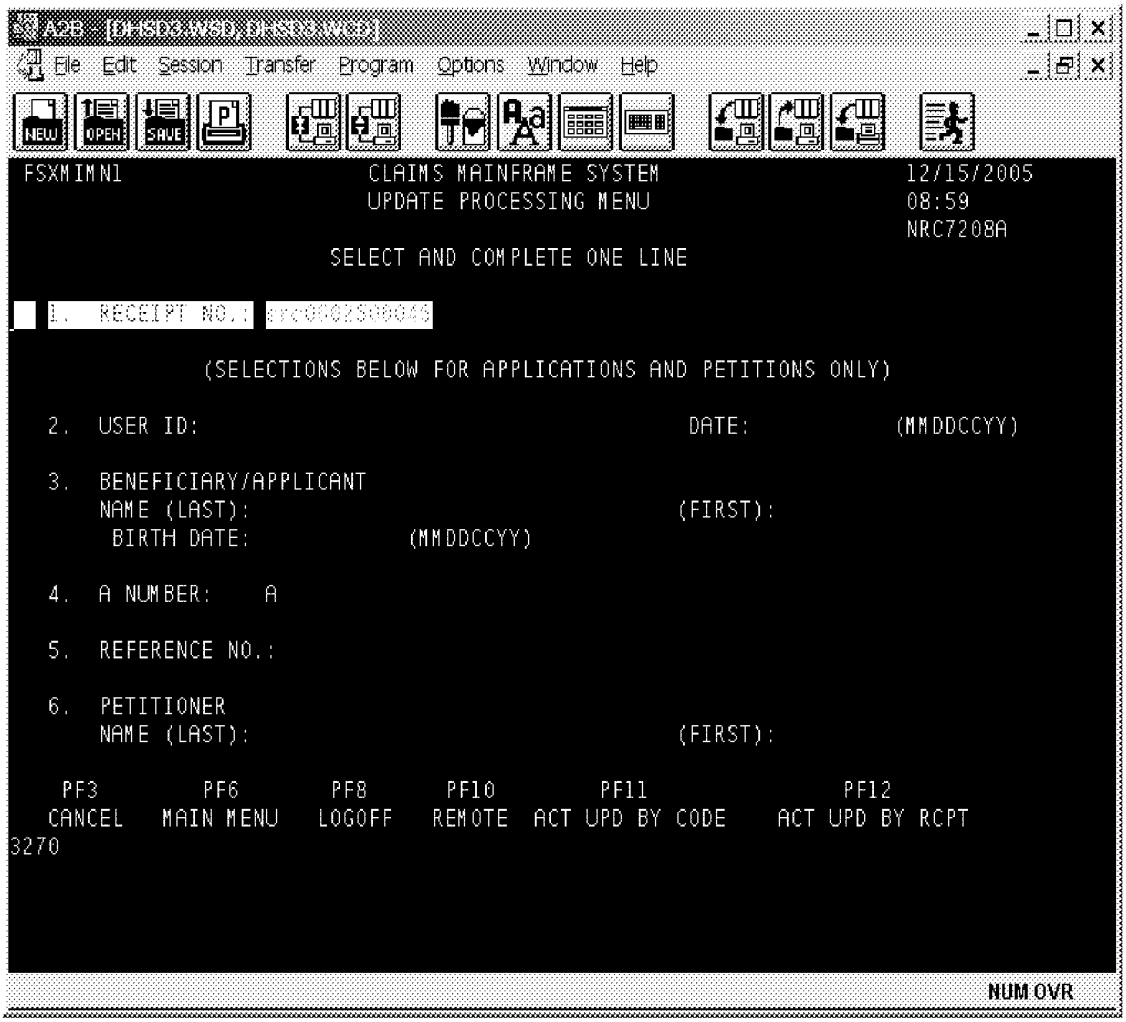
2.8 Inquiry Screen, searching with a Receipt Number



On the Inquiry screen, there are several ways to search for records. If you know the receipt number, type the number under the first field to pull up the receipt information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

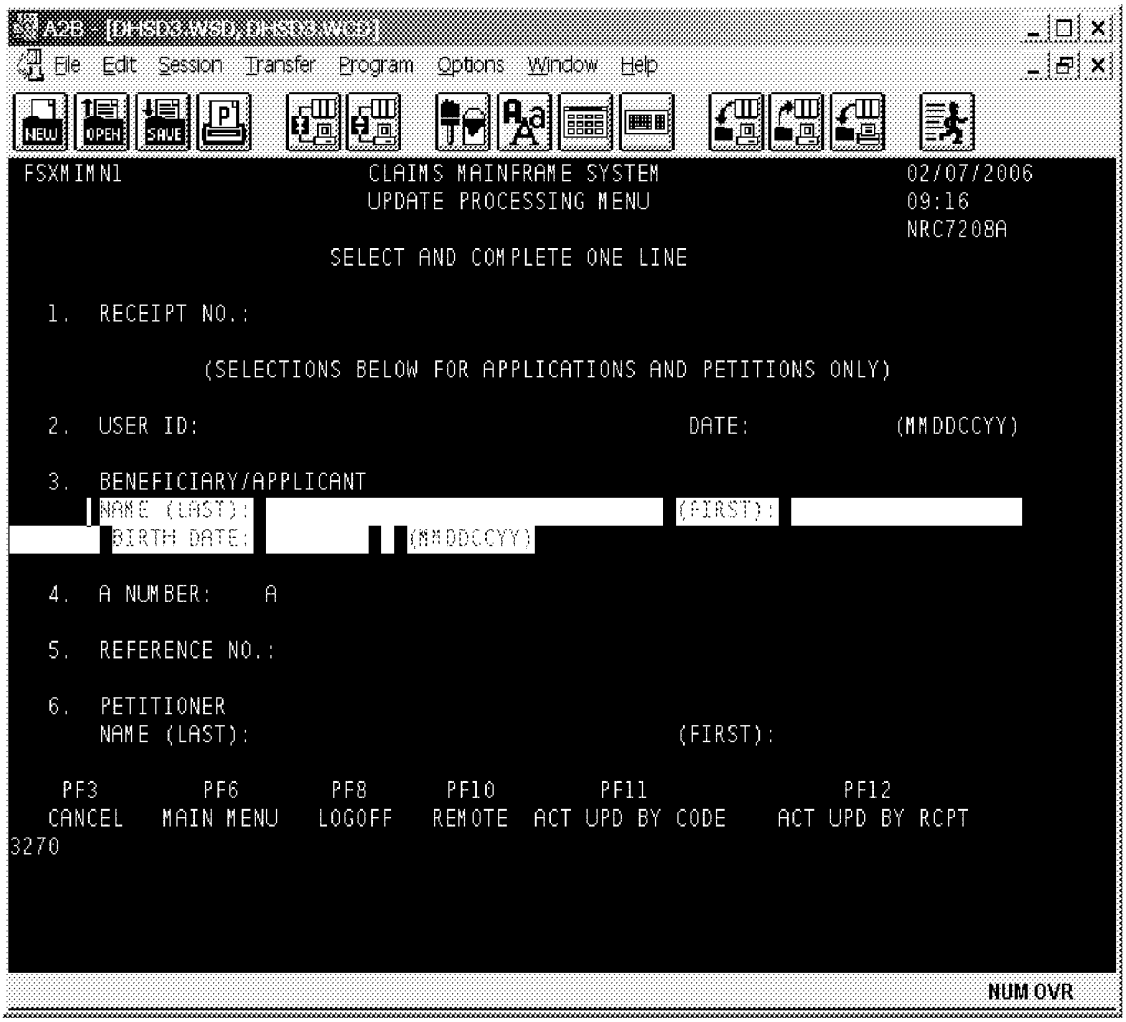
2.9 Searching CLAIMS using a Name and Date of Birth



You may also search name and birth date. CLAIMS does not forgive spelling errors and will not conduct "sounds-like" searches. If you do not immediately find a receipt, you should also search by alias names and variations of the name. You may also search without the birth date. This may have the results you are looking for depending on how common the name of the subject. Searching using the birth date will narrow the findings.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

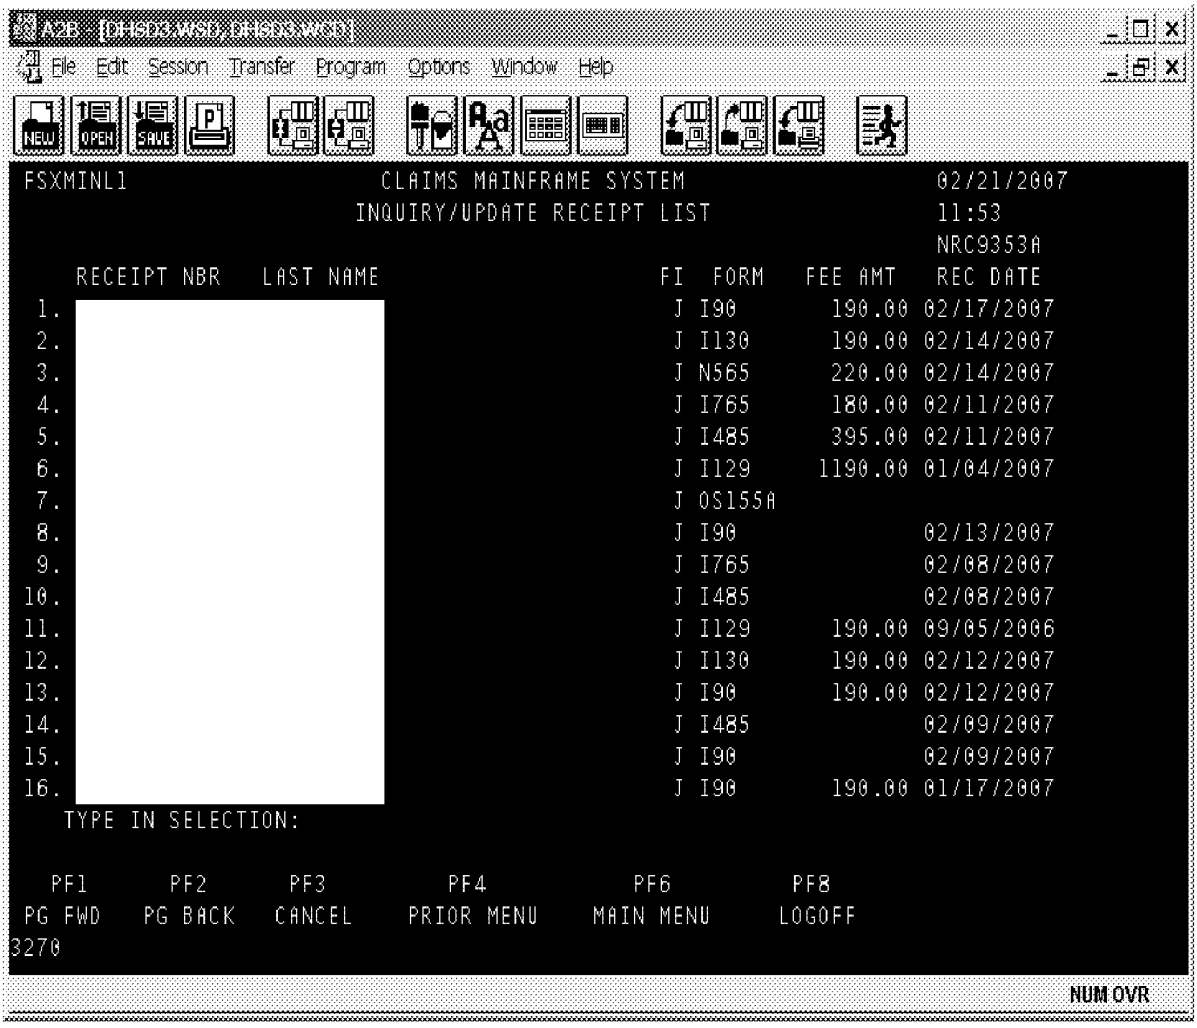
(b)(6)



If your subject has a very common name, the inquiry may result in several pages of matches. View the screen pertaining to the individual receipt number or look for the type of form. It will show detailed information relating to that specific receipt number. To view the detailed information, type the corresponding number at the bottom of the screen labeled "TYPE IN SELECTION." For example, if you type "3", the detailed information relating to receipt number SRC0710351687 will be displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

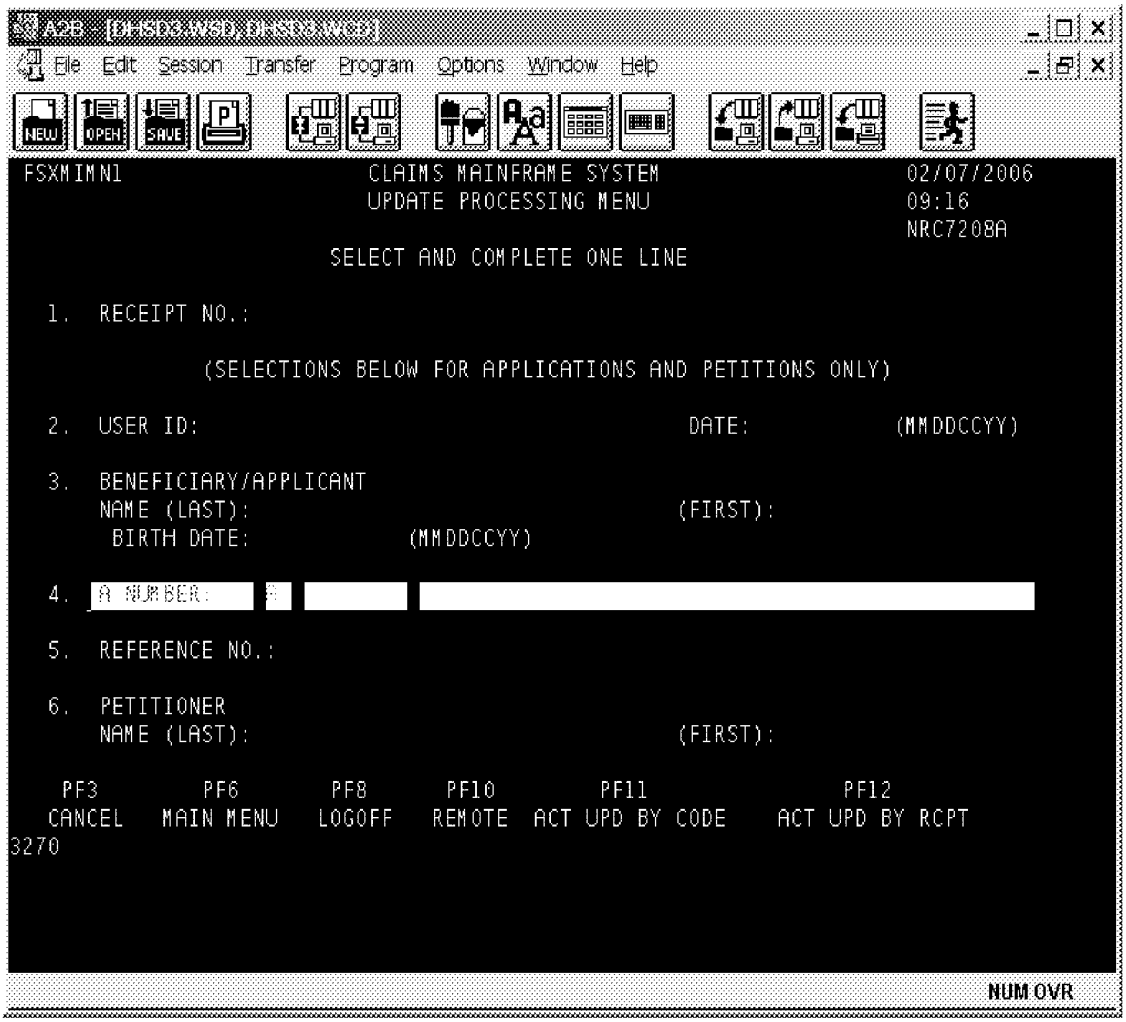
2.10 Searching with the A-Number



You may search by A-number. Navigate through these fields by tabbing, or to go backwards, use Shift-Tab. CLAIMS used to allow adjudicating officers to enter alien numbers as an eight-digit number without a leading zero. Ordinarily you should enter a leading zero immediately following the letter A (in purple on this screen) and then enter the rest of the A-number. If you do not find what you need, try deleting the zero immediately after the "A." If the person has a nine digit A-number, you will not have to worry about it. Note: if you search by A-number, it may not show every receipt belonging to the person, so you may still have to search by name and date of birth or by petitioner's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

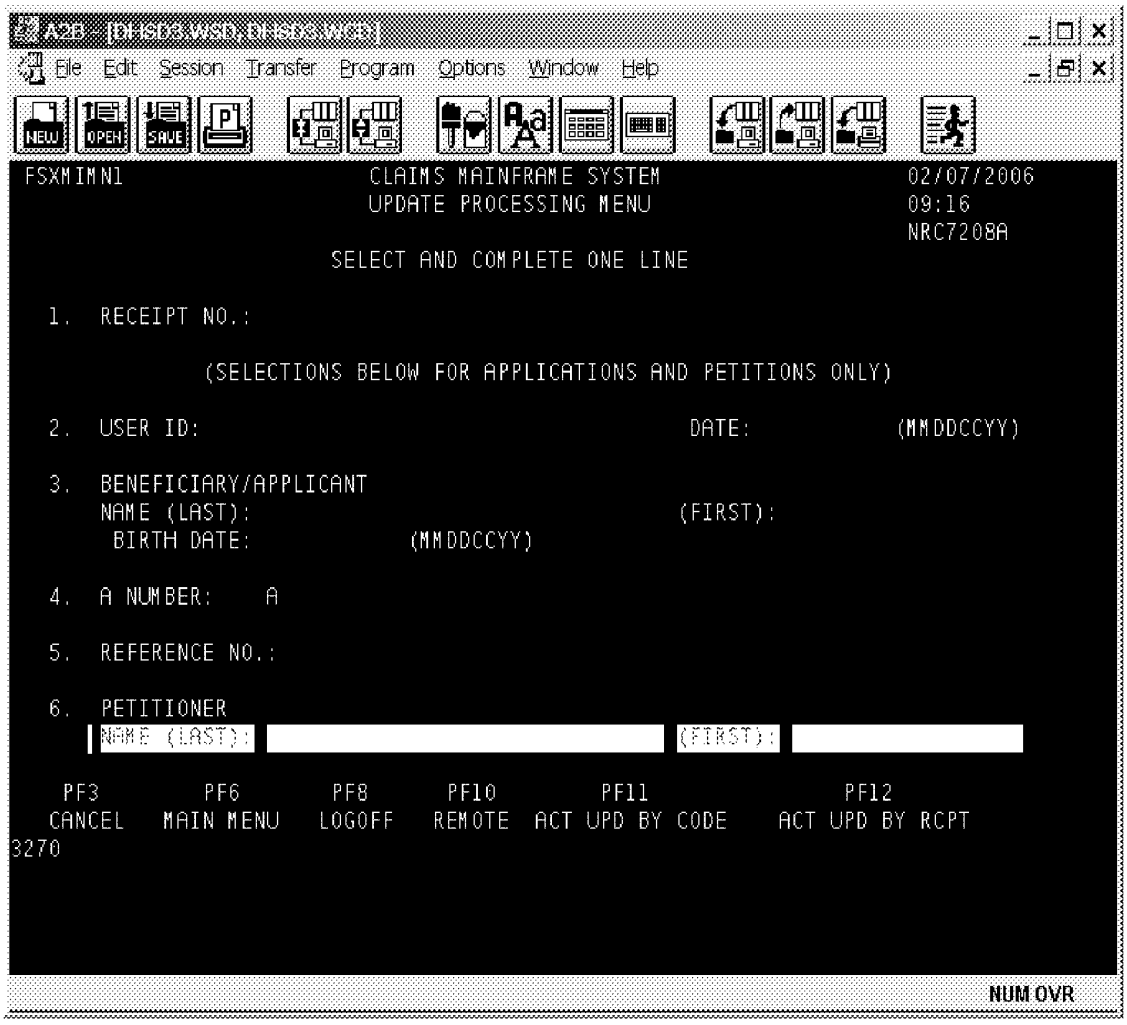
2.11 Searching with the Petitioner's Name



You may search by using the petitioner's name, but be forewarned: if the petitioner has a very common name, the results of this search may be overwhelmingly voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

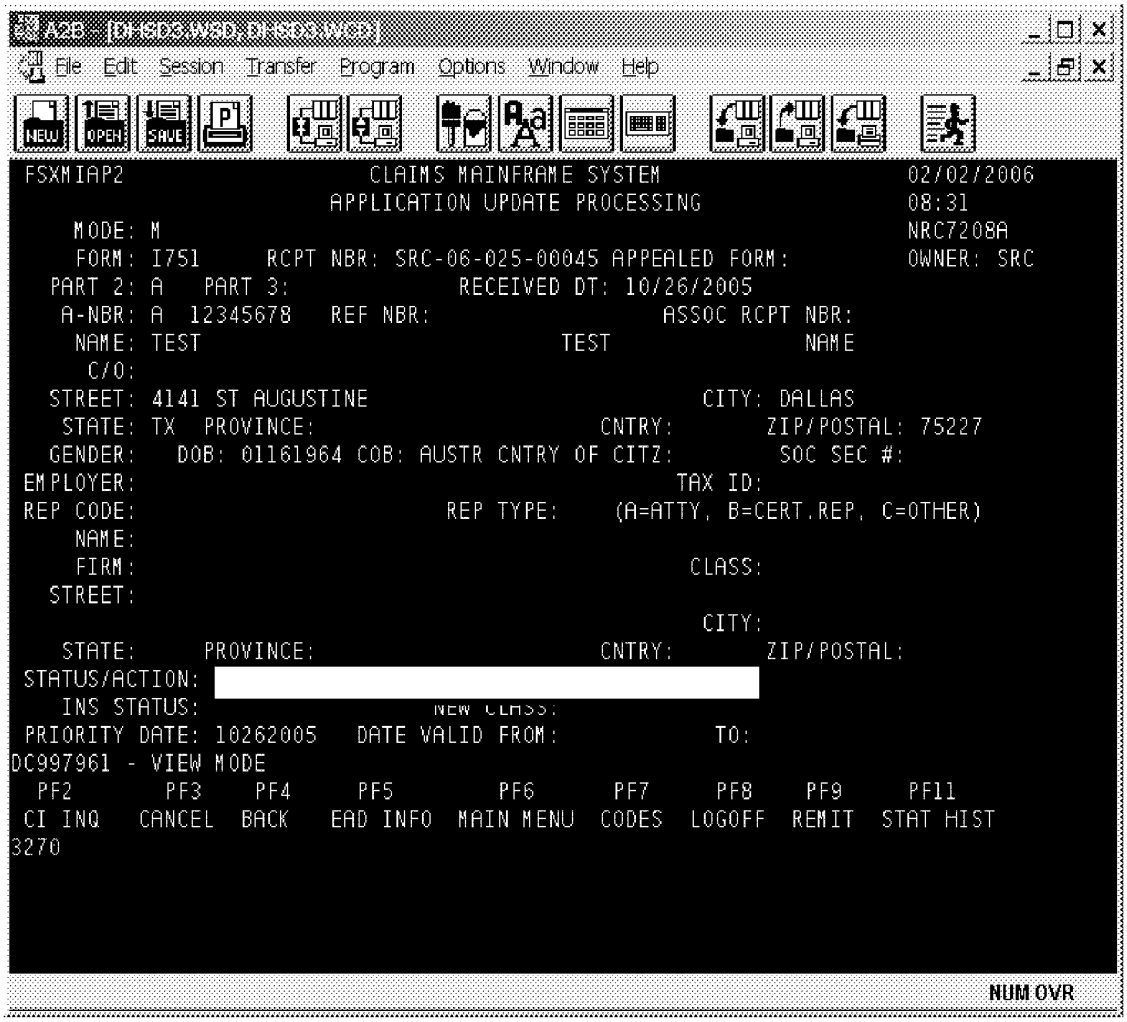
2.12 Search Results

The screen print below is the result of a search. The receipt shown is for an I-751, Petition to Remove Conditions on Residence.



(b)(7)(e)

The receipt information gives the name, date of birth, A-number and address. The status of the receipt file is near the bottom of the screen. (STATUS/ACTION: IBS1)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

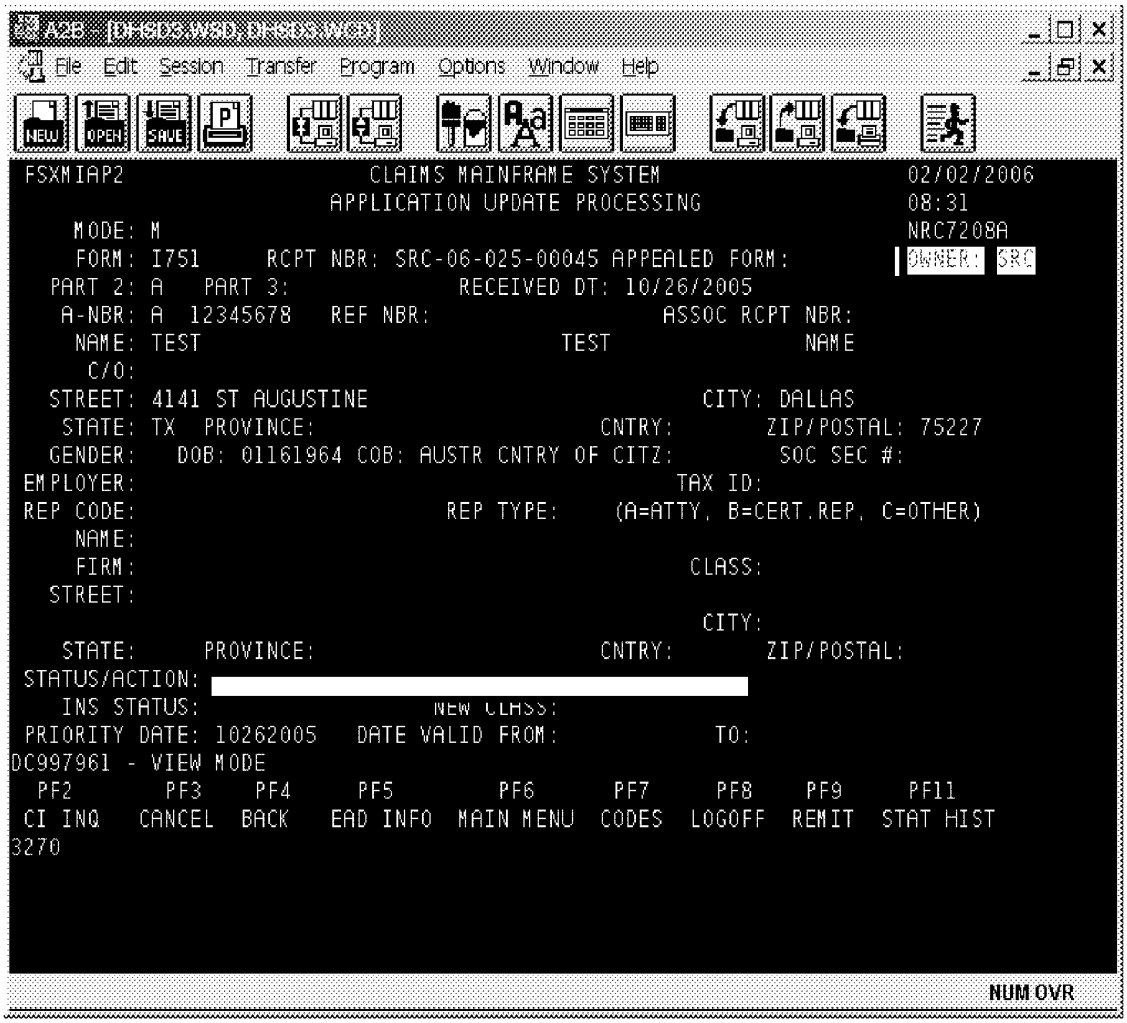
(b)(7)(e)



The top right corner of the screen shows the owner of the file, this may help in determining where to staff for the receipt file, especially if the receipt information is not in NFTS. This receipt begins with SRC, but that does not matter for staffing – the OWNER would be where you staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

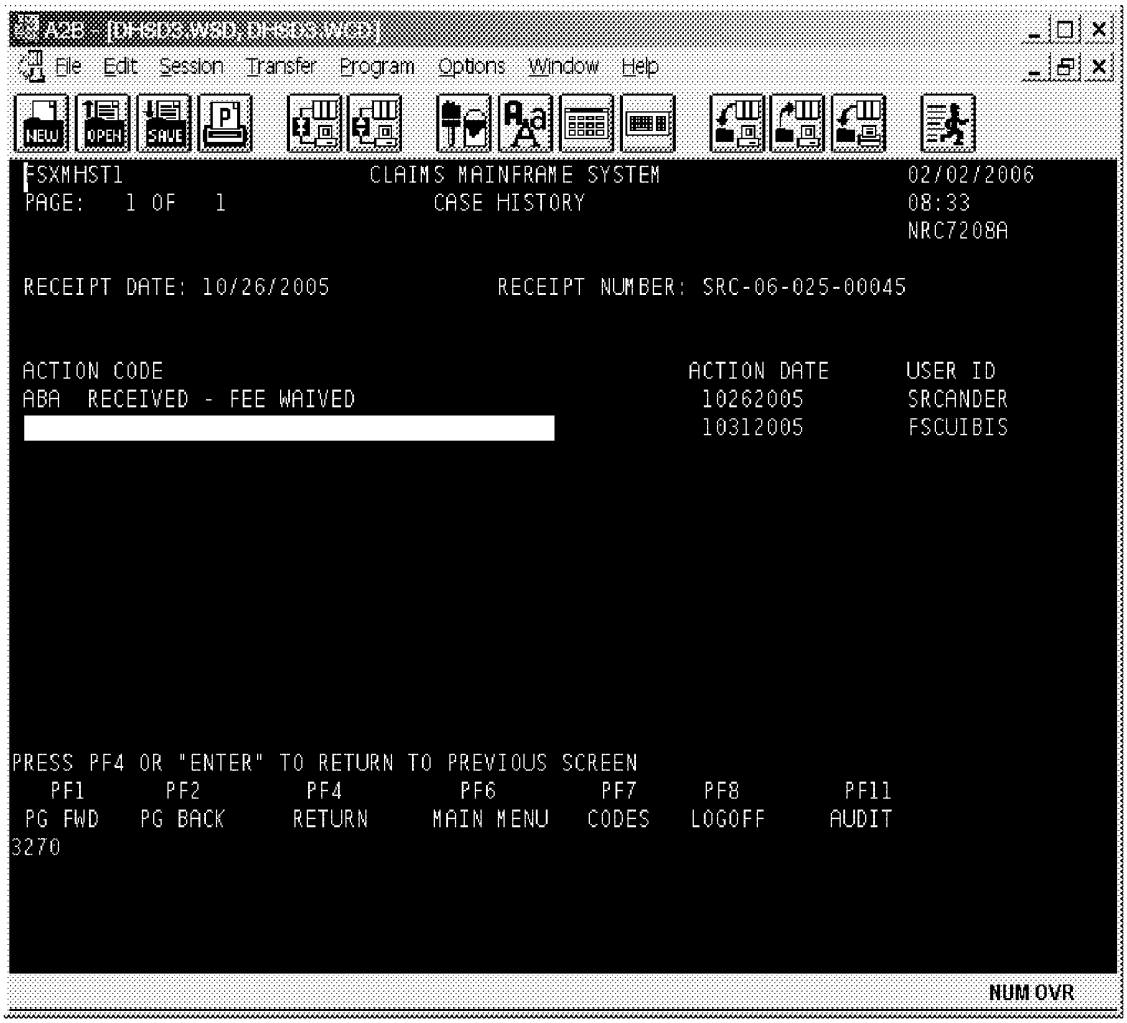
(b)(7)(e)



By pressing F11, you may view the history screen. From this screen, we can see the status of the application/petition. If the petition has been approved, destroyed, or transferred, it may make a difference as to how we staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

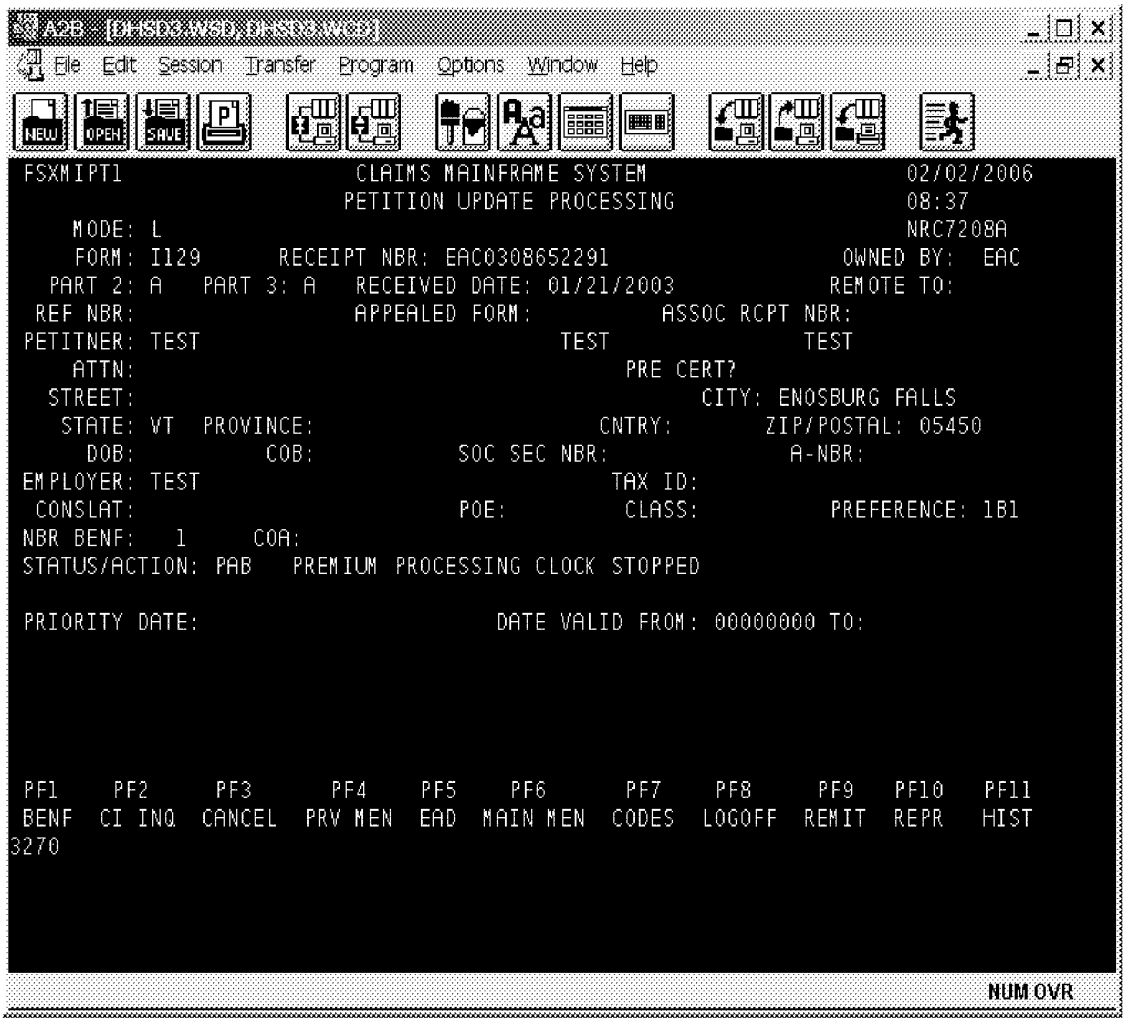
2.13 Beneficiary Petition for Non Immigrant Worker



On an I-129 petition, the petitioner's information is on the first screen you pull up after you enter or select the receipt number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To see the beneficiary information press F1.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To view the history, press the F4 key to return to the previous screen, and enter F11.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

There may be numerous results on a name search. Press F1 to see the results of the next page. To view number 10 on page 2 of the results, enter "10." To go back to the results of the search, press F4. The screen always returns to the first page of the search results. Remember this if you are going through the results page by page.

3. National File Tracking System (NFTS)

NFTS is an automated system that enables USCIS to track and account for nearly 50 million Alien Files (A-Files) and Receipt Files. NFTS allows for local control of all files within a designated USCIS File Control Office (FCO) or Case Control Office (CCO), The system supports the file migration from the USCIS field offices to facilitate a national tracking system

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

that supports the National Records Center (NRC) and a centralization of agency records. You will learn much more about using NFTS in the Staffing section of this guide.

4. Person Centric Query Service (PCQS)

PCQS is an automated system that allows a person to submit a single query for all transactions involving an immigrant across a number of USCIS and Department of State (DoS) systems. PCQS returns a consolidated view of the immigrant's past interactions with USCIS and the Department of State as he or she passed through the U.S. immigration system.

Since PCQS can give us a comprehensive overview of a person's immigration history, it can help us locate certain documents to request, for instance, we may find information about an archived receipt in PCQS that we would not find in CLAIMS. You do not have to log in to PCQS to read the PCQS User Guide. Simply go to https://pcq.esb.uscis.dhs.gov/ and click on the Users Guide link below the Warning.

5. FOIA/PA Information Processing System (FIPS)

The Freedom of Information Processing System (FIPS) is an automated system that allows us to process FOIA/PA requests electronically. This automated system enables the scanning of paper files into electronic images. These images are easily stored, retrieved, and processed. FIPS provides workflow processing for the life of a case. Any time you do any transaction concerning a FOIA/PA case, it will be through FIPS.

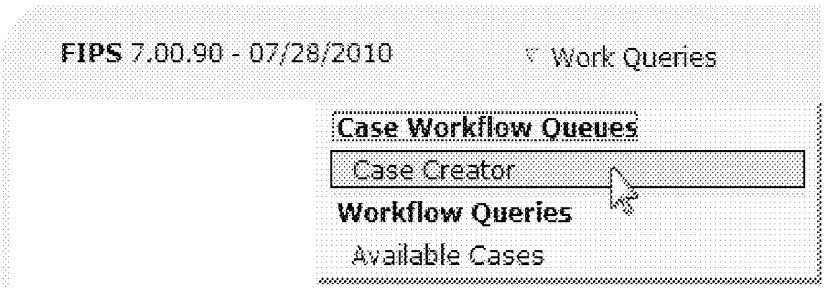
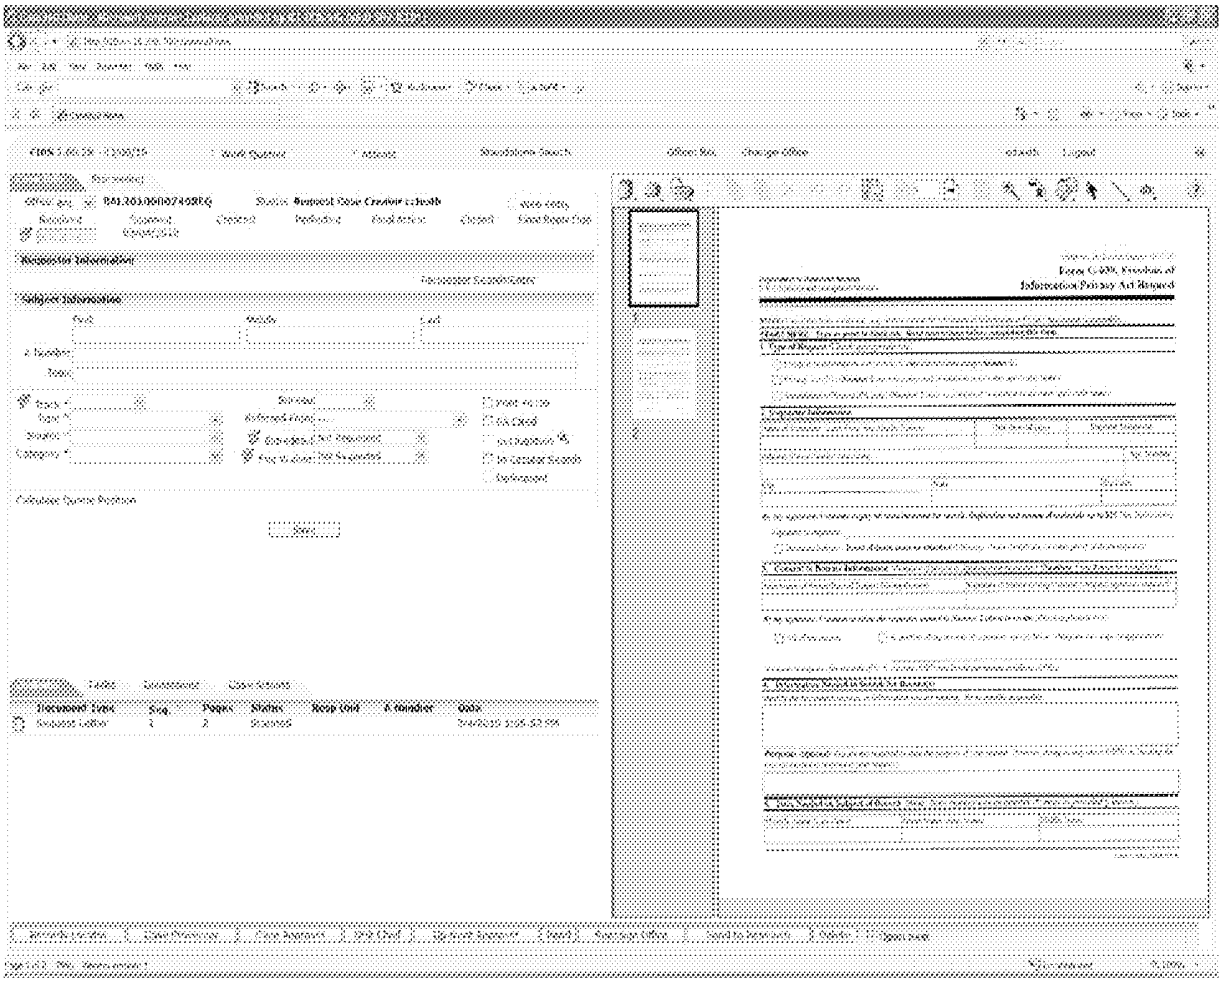
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CREATING THE CASE



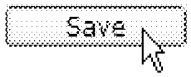


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

On the FIPS worksheet under the header "Contents," you will notice that usually Sequence 1 is the "Request Letter" and Sequence 2 is usually "Request Supporting Documents." There will be a date and time in the right column.

Sometimes the request will be Form G-639 only, sometimes it will be the G-639 and a G-28, Power of Attorney, sometimes it will be a letter from an attorney or representative and a G-28. Sometimes it will be a letter from the subject of record. At times, there will be documents scanned in, such as alien registration card, driver's license or other forms of identification. Other documents you may see can include miscellaneous screen prints or memoranda. You should view (almost) all documents scanned in FIPS in the Request Letter and Request Supporting Documents slots before you create the case.

During the Case Create process, you may need to leave your work station, or you may receive a telephone call, or various things may happen to distract you from creating the case. If anything happens and you need to stop work temporarily, it is ***always*** a good idea to click:



You must identify the following critical items and enter them into the FIPS worksheet before creating the case:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REQUESTER INFORMATION

When entering the information on the FIPS worksheet, please observe the following rules

- Do not use all capital letters when entering names.
- Do not use professional titles, such as Doctor or Reverend in the requester information.
- You may use Jr., Sr. or II, III, etc., if the requester or subject uses it on the request.
- Do not open cases in the name of a company only.
- Do not hyphenate names.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Spell the name accurately. If the name of the requester is not clear on the request letter, check the supporting documents for a Form G-28 for a clear copy.
- Add a period after the middle initial.
- If the subject does not provide a middle name or initial, enter "NMN" in the "Middle" field.
- Do not use part of the last name as a middle name, for example Hispanic names. Sometimes it is obviously a middle name, such as Juan Jose Gonzalez. Sometimes it is obviously a first and second last name, such as Juan Gonzalez Becerra. Other times, it is not so clear. You might look at the mother's and father's last names, if provided. If you are unsure, contact a supervisor.

If the only evidence of an attorney is an envelope or letter, but there is not a duly executed Form G-28, create the case using the name and address of the requester in Section 2, "*Requester Information.*" Do not use the address on the envelope or letterhead.

Each line of the address in FIPS can contain no more than 35 characters; this includes spaces and punctuation. When we are printing the responsive records to CD, nothing over 35 characters prints on the CD. This requires the OA clerks to print a label separately for those CD's before mailing.

Do not use special characters, such as "&" and "#" in the address field; rather, spell them out or use an abbreviation, such as "and" or "No." Note: you ***may*** use spaces, dashes, periods, commas or single quotes (‘). You ***may not*** use @, #, $, %, ^, &, *, (,), =, +, [,], {, }, \, <, >, or /.

Please include the suite number or apartment number on the same line as the street address. FIPS will allow you to key in more than 4 lines in the address box. The issue is when the case is processed and the CD is printed, it only prints the first 4 lines. The requester's name is the first line of the address, so you have three lines left.

If the name of the requester on the Form G-639 is a company name, please review the supporting documents to try to locate the name of the attorney/representative of the company.

For example, if your request comes in on a G-639 and the name of the requester is only the name of the law firm representing the alien (for example, Wilens & Baker) you will need to look through your supporting documents to see if you can locate the name of the attorney at Wilens & Baker who is representing the alien. If you cannot locate the name of the attorney who is representing the alien, then open the case in the name of the alien,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

in care of the law firm. Do not use "Wilens & Baker" as the requester name.

If the requester does not provide a valid address use: 123 Main Street, Washington, DC 12345. Send an e-mail to your supervisor and assign the case to Unit Chief.

When the attorney or subject of the request provides both a physical mailing address and a P.O. Box, use the P.O. Box for the official mailing address. Please do not use both.

The address can only be four lines long, even though FIPS gives you an extra line. The requester's name is always the first line.

Enter any suite numbers or apartment numbers in the address line.

If an attorney represents the subject, the first line of the address should be the name of the law firm the attorney is affiliated with, or, Attorney at Law, or "c-o" and the law firm name or the name of the attorney.

If the address is foreign, you must check the box marked Foreign. This will change the format of the worksheet to include the Province and Country. You must complete these fields to ensure proper delivery. Before pending this case for any further action, please check the "Print to CD" box and add a Discussion note that you did so.

The following places are NOT foreign countries:

American Samoa
Guam

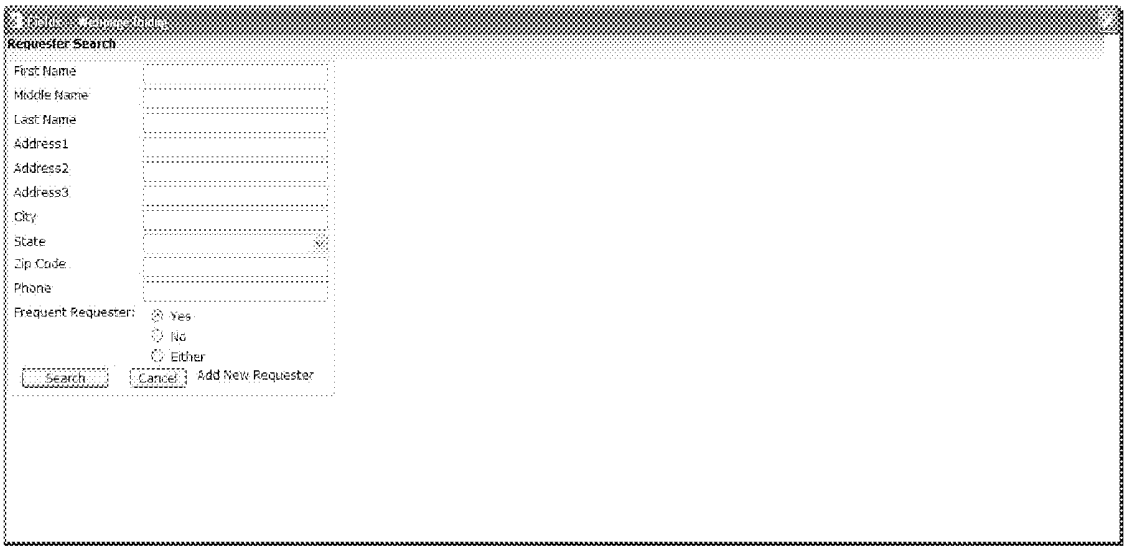
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A foreign address may be very long, and you may have to consult a supervisor to complete the address field correctly.

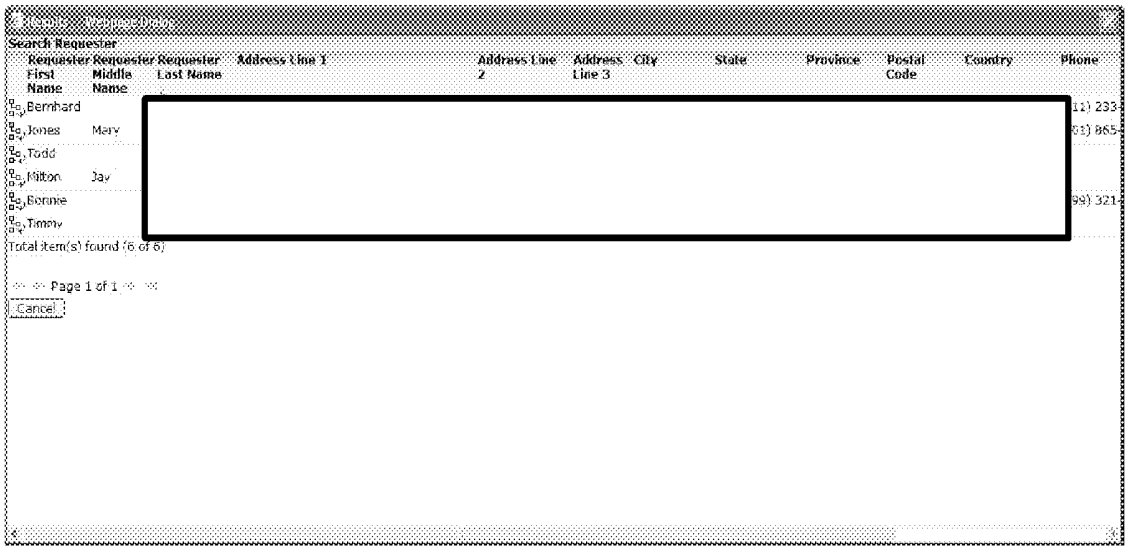
To locate and select existing requesters or to enter new requesters, click the **Requester Search/Entry** link to open the Requester Search Form. To search for an existing requester, click in one of the available fields in the Requester Search Form and begin entering pertinent information. When searching for a requester whose last name is Smith, for example, click in the Last Name field and enter a portion or the entire last name. After you have entered enough information, click **Search** to locate requesters with matching information.



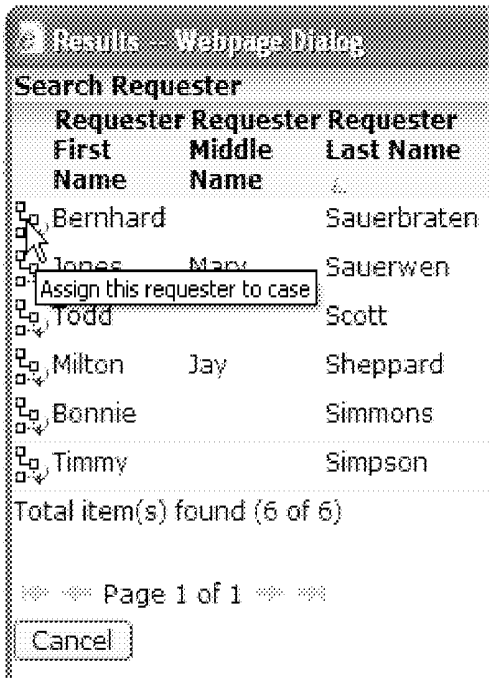
If you get any matches to your search, you will see a screen that looks like this:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



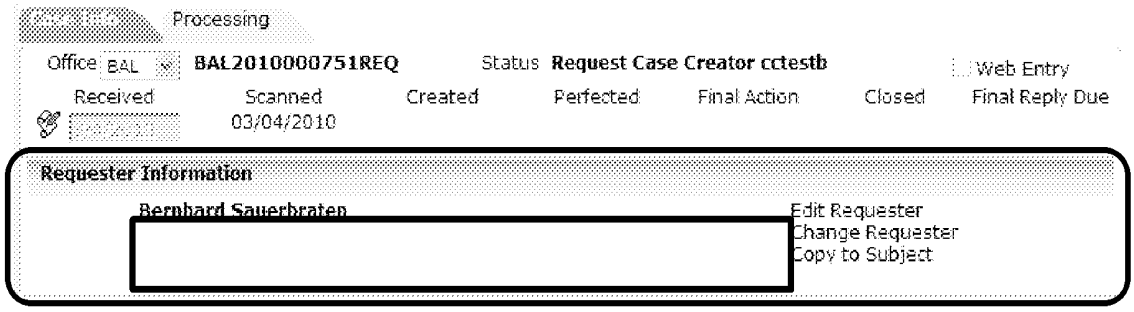
If any of those requesters are a perfect match for your requester, you may "Assign this Requester" by clicking on the icon to the left of the name:



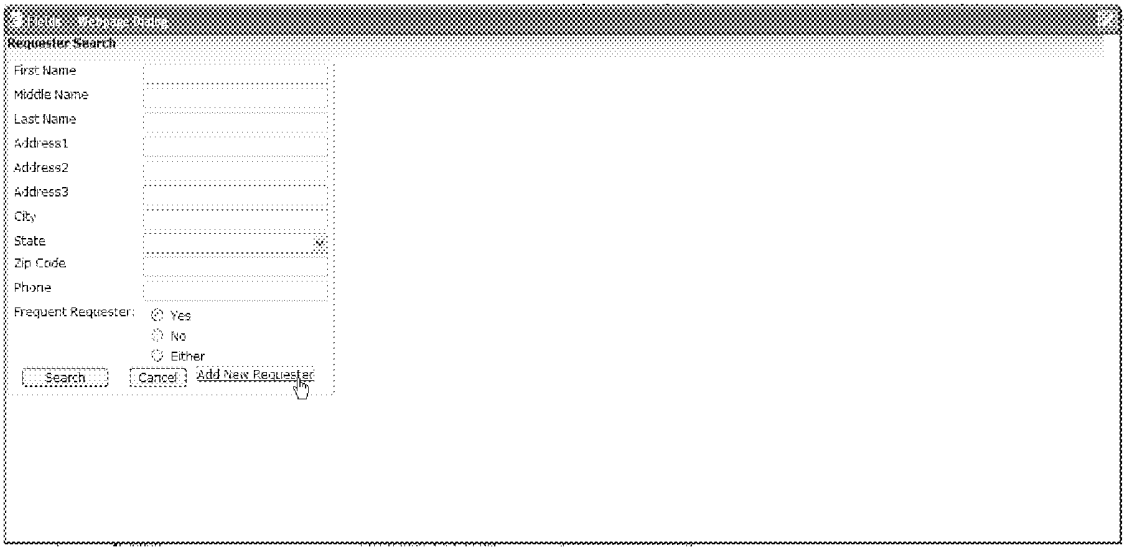
And it will populate the requester information like this:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



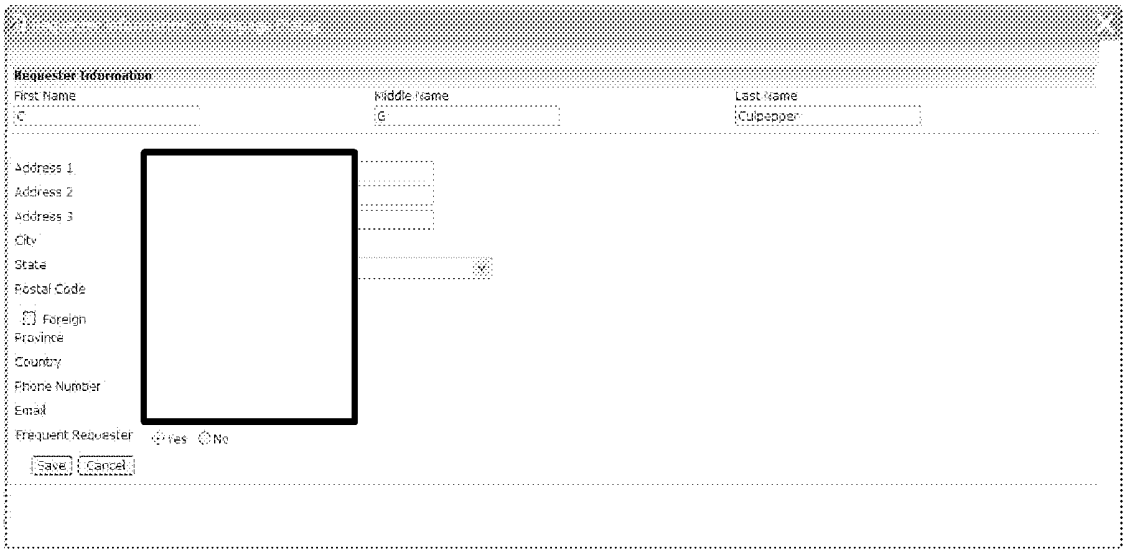
If you do **not** find a match, you will have to add a new requester by selecting Add New Requester:



When you click Add New Requester, you will get a dialog box that you fill in. You will enter all information, decide if this is a Frequent Requester, and then click Save.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

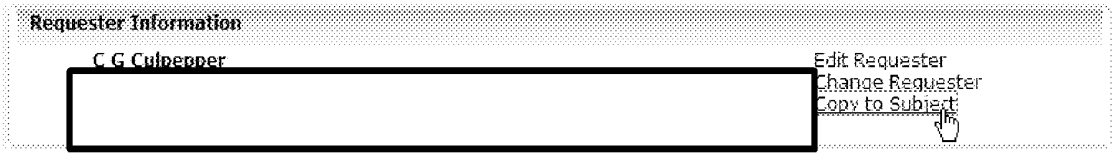
(b)(6)



SUBJECT INFORMATION

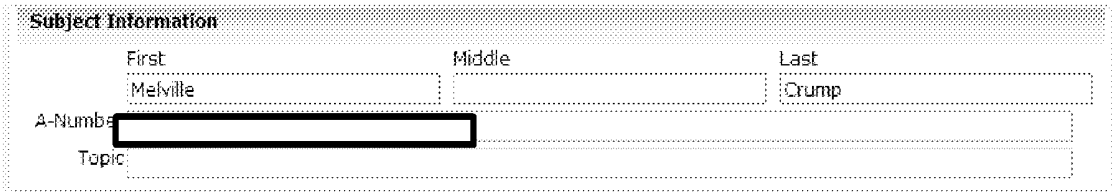
(b)(6)

After saving, look to see if this is a self-request. If so, you can copy the Requester Information to the Subject:



Otherwise, you will have to enter the subject information in the area. If the person gave more than one A-Number, please separate them with a comma in the A-Number field.

(b)(6)



1. Name

Enter the subject's name, as it appears in section 5 of Form G-639 (except in the case of a petitioner asking for a petition).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The name portion of the worksheet is the name of the alien whose file we are requesting. This is usually the name in the subject portion of the Form G-639, or in the subject line of the request letter. However, if the requester is asking for a petition he or she filed on behalf of a beneficiary, then that document will be a separate receipt or it will be in the beneficiary's file, not the requester's file. In situations like this, the subject information would be that of the beneficiary, not the requester.

2. Alien Number

In the alien number field, enter your subject's alien number, as provided on the request, as an eight-digit or nine-digit number. You should always check the A-number in CIS to be sure it belongs to the correct subject. If the alien provided us with more than one A-Number, please separate these numbers with a comma. If you have created the case and you see less than eight digits in the A-number field, please re-check (by pasting the number into CIS) to make sure you have entered the number correctly.

Please do not enter the A-number if the requester is a petitioner asking for a copy of an unconsolidated petition, as it will result in a bad staffing.

If the requester is a petitioner asking for a copy of a petition that has been consolidated into the A-file of the beneficiary, you should enter the A-number of the beneficiary, since we will staff for the beneficiary's A-file.

3. Topic

If the request is for something other than an alien file, for example, a receipt file or a vacancy announcement, then you will add this information in the "Topic" field in the Subject Information area.

"Topic" is used at different times, such as:

- when there is an unconsolidated receipt file
- when it is a request for a vacancy announcement
- when it is a request for a personnel file
- when it is a request relating to policies and procedures service-wide

If the alien is requesting a receipt number, enter the information in the following format:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Correct: MSC0412360000

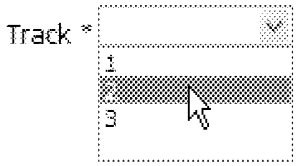
Incorrect: MSC-04-123-60000

Enter the receipt number with no dashes or spaces. This format assists the Mission Support Assistants in locating the files and in locating the cases in FIPS when the receipt files come into the facility, and it will make it possible for case creators to spot duplicate or similar cases. If you are requesting multiple receipt files from the same facility, use only one staffing sheet. See **Staffing Sheet Guide** for more guidance.

When the request is for vacancy announcements, the vacancy announcement number must be the first part of the description. See **CIS Personnel Information** for more information on handling personnel related requests. In other types of situations, put as much of the pertinent information in the description line as space will allow. You may need to modify the acknowledgement letter.

CASE SPECIFICATIONS

1. ***Track***



Track 1 – Requests for receipt files and requests for partial records such as a specific document. A specific document request consists of three documents or less (except asylum or refugee requests, which you should create under category **Alien File** and assign to Track 2).

Please select the category **Specific Documents** and make the case a Track 1. The first paragraph of the acknowledgement letter sent to the requester must contain the following paragraph:

We respond to requests on a first-in, first-out basis and on a multi track system. Your request has been placed in the simple track (Track 1). You specifically requested [enter specific document information here]. If you would like a copy of all your records, please send a written request to the address above, otherwise you will receive only the documents you specified.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Continue to create the case in Track 1 as Specific Documents. The requester may write back later responding that they need the whole file, and a FOIA/PA Assistant working in Records Locator queue can change it to Track 2 at that time.

Track 2 – Requests for entire copy of alien file, asylum or refugee requests, and requests from news media or special interest groups.

If the request has "all records" checked and lists more than three documents on the G-639, please select the category **Alien File** and make the case a Track 2.

Track 3 – Requests for records of individuals scheduled in the future to appear before an immigration judge. Requesters must provide one of the following documents to receive Track 3 processing:

- Form I-862, Notice to Appear, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-122, Order to Show Cause, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-863, Notice of Referral to Immigration Judge
- Written notice of the continuation of a future scheduled hearing before an Immigration Judge.

A supervisor will review all incoming FOIA requests and identify Track 3 requests. The supervisor will verify that necessary documentation is present with the request. There should be an attached cover sheet indicating to the case creator whether the request for Track 3 is approved or denied.

If there is no cover sheet, please evaluate the request and make a determination to approve or deny Track 3. If you are unsure, consult your supervisor.

Before you create the case, look at the documentation. Sometimes you will find a reference to a current, open case which the requester wishes to upgrade to Track 3. After you verify that the case is open, you may simply click "Send to Research" and you are finished with the case.

Requesters will sometimes request both Track 3 processing and expedited processing. Do not select both. Neither has to do with the other. A requester could be granted either

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Track 3 processing or expedited processing, but never both on the same case. For expedited processing guidelines, please refer to **"Expedited Treatment"** in this guide.

Track 3 processing is not "expedited" processing as that term is used and understood in law. It is not appropriate to use the word "expedited" when discussing Track 3 processing of a FOIA request ("priority" or "accelerated" processing are more appropriate terms for Track 3). Don't confuse the two in correspondence with requesters.

Refer to the cover sheet the supervisor attached to the request. There should be either an Expedited coversheet or a Track 3 coversheet, but not both. Follow the instructions on the cover sheet attached to the request. If there is no cover sheet, do not mark either box.

If the requester specified Track 3 processing but the request does not have a cover sheet, please create the case. If you have a request for Track 3 and you see that we have a future court date provided in the request, prepare your response according to the Track 3 Ack Letter found in
O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters

If the requester did not provide any documentation or if the documentation says "a date and time to be determined" prepare an acknowledgment letter and click "Add Track 3 Denial Paragraph."

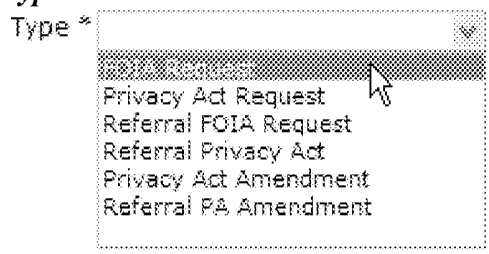
Proceed with creating the case. If you are not sure whether to approve or deny Track 3, please consult your supervisor.

If you assign the case to Track 3, ensure you put the words "TRACK 3" at the top of the staffing sheet.

If the requested file has already been scanned because of a prior FOIA request that has now been resubmitted for Track 3 processing, do not create the case. You should send the case to Research, where they will attach the new request to the existing case as a CSD. If Track 3 processing has been approved, you have to change the track on the original case to Track 3.

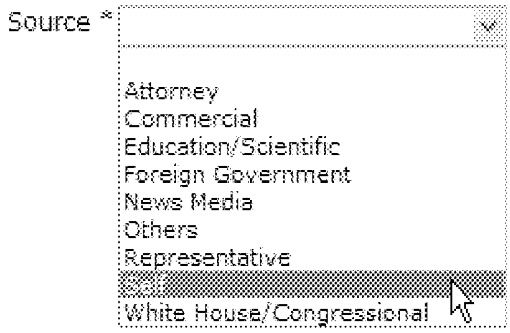
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. ***Type***



Always select **FOIA**. It will be incumbent upon the processor to verify the status of the alien, and to change the case type if necessary.

3. ***Source***



The source of the request is, quite simply, who is making the request. Is the requester the individual or an attorney or representative speaking on the alien's behalf? Is it a request from the media or a true third party requester? Below is a list of possibilities for requesters:

- Attorney - The requester is an attorney representing the alien. The attorney will have checked the box on the G-28 marked "Attorney," or will have sent us a letter on the law firm's letterhead.
- Commercial
- Education/Scientific
- Foreign Government
- News Media
- Others - The requester of the file is someone other than the alien, an attorney or an accredited representative. They might possibly include a G-28 with something other than "Attorney" or "Accredited Representative" checked.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Representative - The requester is an accredited representative under the provisions of 8 CFR 103.2(a)(3) and 292.1(a)(1) or 292.1(a)(4). On a G-28, the requester will have marked the box "Accredited Representative."
- Self - This is a request from the alien himself or herself. The request may have the name of an individual followed by "care of" a certain law firm. This is still a self-request.
- White House/Congressional

If you feel that you have a case of a different source of request, please contact a supervisor for further guidance.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. ***Category***

There are 30 different categories of requests. However, the most commonly used ones are:

Alien File – The requester is asking for an entire copy of an alien file. This category includes the following:

a. Files of living subjects
b. Naturalization records on or after April 1, 1956
c. Visa records on or after May 1, 1951 in A-files
d. A-Files above 8 million (A8000000), and documents therein dated on or after May 1, 1951

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

e. Registry records on or after May 1, 1951 in A-Files
f. Alien Registration Forms on or after May 1, 1951 in A-Files

Specific Documents – The requester is asking for specific documents, such as a copy of a receipt file, an application or a copy of his or her naturalization certificate. As a rule, you should create a case as Specific Documents if the requester is asking for up to three documents. If a requester is asking for an asylum application and supporting documents, you should create it as Alien File. (Refer to the section *"What track is my case?"* that follows.)

Personnel – The requester is seeking information relating to USCIS personnel matters.

Special Interest Group – Requester(s) are seeking information relating to special interest requests such as news media requests, highly visible or public interest cases. We receive this kind of request from members of the media, activist groups, watchdog organizations or educational institutions. The documents requested are normally associated with a controversial or sensitive subject.

Select "Special Interest Group" if any of the following criteria are met:

a. The FOIA request relates to a Presidential or agency priority;
b. The FOIA requester or requested documents will garner media attention or is receiving media attention;
c. The FOIA request is for documents associated with meetings with prominent elected, business, and/or community leaders;
d. The FOIA request is for congressional correspondence;
e. The FOIA request is from a member of Congress;
f. The FOIA request is from a member of the media;
g. The FOIA request is from a member of an activist group, watchdog organization, special interest group, etc.;
h. The FOIA request is for documents associated with a controversial or sensitive subject;
i. The FOIA request is for documents associated with a senior official of the component;
j. A FOIA appeal if it meets one of the "a" through "i" criteria;

Items listed above are suggestive and not exclusive – exercise judgment when marking cases with category "Special Interest Group."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If you believe a request qualifies as a Special Interest Group, choose that case category in FIPS, change the office from NRC to COW, search for duplicates and then create the case. Do not create a staffing sheet or an acknowledgment letter. Prepare an e-mail explaining the situation for NRC, FOIASIG. Click "Reassign Office." Send the case to Unit Chief. A Special Interest Group (SIG) processor will create the staffing and acknowledgment letter. This enables the Special Interest Group (SIG), responsible for special interest cases, to create a report and determine whether the case is actually a Special Interest Group case and report it accordingly. If the case creators do not mark Special Interest Group cases properly, we have no way to track and report these high visibility cases. When in doubt, choose the Special Interest Group category in FIPS. The Special Interest Group will sort it out later. If you have questions or need to send information regarding SIG cases to the Special Interest Group, their e-mail address is: NRC, FOIASIG.

SFR cases at NRC – NRC uses this category to track all workload staffed to SFR. This includes cases retired by or lost by SFR, but **does not include ZSF.**

OTHER: Genealogy cases are requests for searches and/or copies of historical records relating to a deceased person. The lists below represent the records that the public would be able to request from the Genealogy Program:

a. Naturalization Certificate Files (C-Files) from September 27, 1906 to April 1, 1956.
b. Microfilmed Alien Registration Forms (AR-2), from August 1, 1940 to March 31, 1944 and Alien Registration Forms from March 31, 1944 to April 30, 1951 in A-Files.
c. Visa Files from July 1, 1924 to May 1, 1951.
d. Registry files from March 2, 1929 to March 31, 1944 and Registry records from April 1, 1944 to April 30, 1951.
e. A-Files numbered below 8 million (A8000000), and documents therein dated prior to May 1, 1951.

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

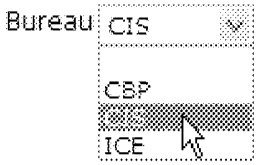
a. Close the request as an ER and send to Up Front Approver
b. Send an e-mail to the OA room and include the following information:
   1) REQ#

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2) NRC#
3) Scanner's initials
4) Date scanned

The OA room will pull the original request, include it in the current days count and follow return procedures.

5. Bureau



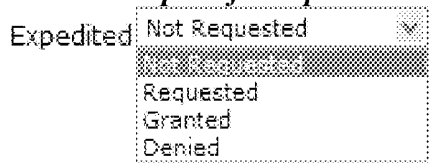
The three possible selections for Bureau are:

ICE – Used to identify requests wherein the requester is seeking information in connection with deportation hearings and other immigration related litigation (OPLA/DRO/SAC)

CIS – Used for all other categories. This is the default in FIPS.

CBP – Used for requests pertaining to documents relating to the Border Patrol, incident reports relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, checkpoints, entry/exit information, inspection, Port of Entry (POE), legacy customs or legacy inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. **Note: If request is for entry/exit information and the requester/subject provided an alien number, staff for the file.**

6. Is there a request for expedited treatment?



A requester may ask for his or her request to be expedited and processed outside the order of receipt. By law, we must respond to a request for expedited treatment within 10 business days.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

USCIS will grant expedited processing if the requester establishes **either**:

(1) circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

or

(2) an urgency to inform the public about an actual or alleged federal government activity, if the requester is a person primarily engaged in disseminating information.

The requester must send a statement explaining in detail the basis for requesting expedited treatment. If a requester asks for expedited processing and fails to meet the criteria, we process the request in the appropriate track, using the "first in/first out" rule [See 6 C.F.R. § 5.5(a)].

OA personnel normally separate mail and faxes pertaining to expedited treatment prior to scanning. A supervisor then reviews and makes a determination regarding the expedited treatment. The supervisor will attach a cover sheet to the front of the request detailing the determination. Please create the case in accordance with the instructions on the cover sheet.

If the requested file has already been scanned because of a *currently open* prior FOIA request that has now been resubmitted for expedited processing, do not create the case. You should send the request to Research where they will attach the new request to the existing case as a CSD.

- If expedited processing has been approved based on new information, you have to check expedited processing approved on the original case and send an expedited treatment approval letter by opening the original case in stand-alone mode, creating a Blank Letter, and adding the following: This letter serves to notify you that your case has been approved for expedited processing.
- If expedited treatment was already denied in the *currently open* prior case, and the supervisor's decision is the same, if you have not already created the case, you may Send to Research, where they will attach your request to the original case as a CSD. Go to the original case in Standalone, go to Tasks, and create the Expedited Denial Letter.
- If the expedited treatment request refers to a case that *has already been closed*, close it as DP and send a duplicate letter or to create it as a new case, based on the situation. Please refer to the section on DP (duplicate) Cases.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Sometimes the OA room will miss an expedited request. If this happens, select "Denied" in the drop-down box, create the Expedited Denial Letter, and then create the case as normal.

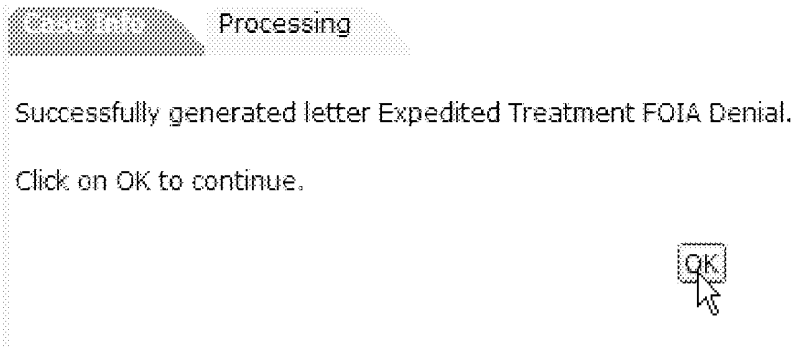
If you believe the requester meets the requirements for expedited treatment (and there was no cover sheet) then select "Requested" and send the request to Unit Chief. E-mail your supervisor with the details. If the supervisor granted expedited processing, you will not create an Expedited Denial Letter, of course. You must select "Granted" in the Expedited drop-down box. When you create the acknowledgement letter, it will address the fact that Expedited Treatment is granted.

USCIS denies most requests for expedited treatment because the requester failed to establish either of the necessary criteria.

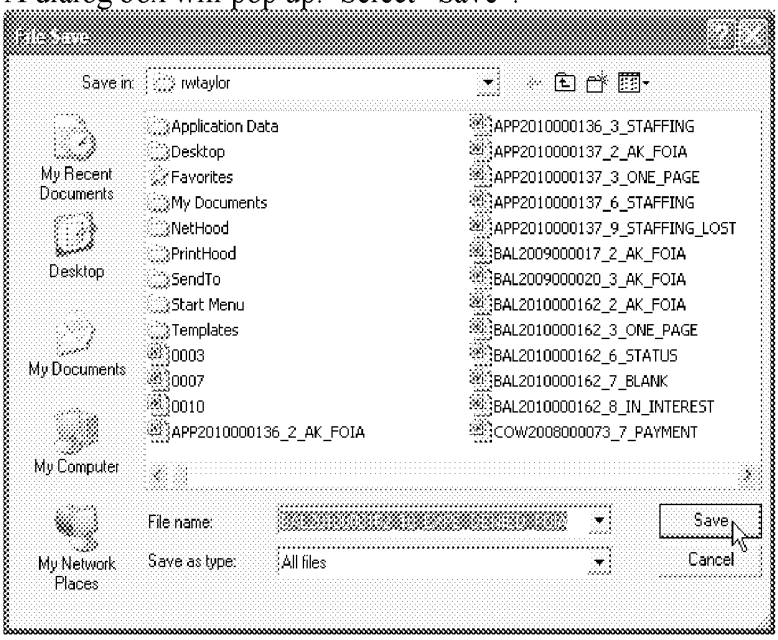
If you have made a determination to deny, or if the supervisor has indicated denial, you must select "Denied" in the Expedited drop-box. After this, you should create the Expedited Denial Letter. If you or the supervisor denied expedited processing, we must advise the requester of the criteria for expediting a request and offer an opportunity to resubmit additional justification. The requester also has the right to appeal the decision to the USCIS FOIA Appeals Office.

Notice: Do not mark both "Expedited Treatment Requested" and "Track 3." A request can be either expedited or Track 3, but not both. If the requester has asked for Expedited Treatment and Track 3, treat it as if it is a Track 3 request and follow the instructions in TRACK 3 PROCEDURES. In such a case, you should not mark "Expedited Treatment Requested" before sending it to Unit Chief.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



A dialog box will pop up. Select "Save":



A word document explaining the denial and appeal rights will pop up. After you have done any editing necessary, save the document and check it back in.

After you have made that selection, your acknowledgement letter will address expedited treatment granted.

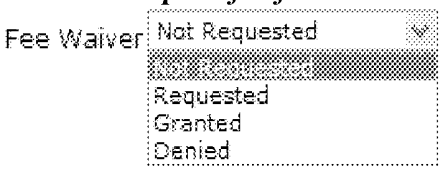
If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that this needs to be a multiple case, you must check the Expedited Treatment Requested box (and create the appropriate response letters) for each child case. On the other hand, it might be that we will treat only the parent case as an expedited treatment request. You may make the determination or the supervisor will make a statement to that

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

effect on the cover sheet, and of course, in such a situation, you would not mark the child cases as expedited treatment requests.

If there is an Expedited Treatment Requested cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then change the Expedited drop-down box to "Not Requested" before you send the case to Up-front Approver. Because we are not generating a letter regarding expedited treatment denial or grant, and because it would cause erroneous reporting of Expedited Treatment Requests, you must change it to "Not Requested."

7. ***Is there a request for fee waiver?***



The requester may ask for a waiver of fees in his or her request or in accompanying documentation submitted with his or her request. USCIS considers all requests for fee waivers on a case-by-case basis.

A requester must meet two requirements in order for USCIS to grant a fee waiver:

1. The disclosure of the requested information must be in the public interest,
2. AND the disclosure of the information is not primarily in the commercial interest of the requester. For a detailed explanation, please refer to the U.S. Department of Justice Guide to the Freedom of Information Act, "Fees and Fee Waivers."

Also note: the requester must ask for a fee waiver. Simply including a DOJ Fee Waiver form does not constitute a request for fee waiver. If the requester has written any statement to the effect of a request for fee waiver on the form, then you treat it as a request for fee waiver.

When a requester has asked for a fee waiver, there should be a cover sheet advising you of approval or denial. You may determine to deny based upon the two criteria listed above. If you do so, you must select "Denied" in the Fee Waiver drop-down box on the FIPS worksheet. Regardless of the decision on the fee waiver, you must insert a Discussion in FIPS indicating that you addressed the fee waiver request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

When you are finished creating a case with a fee waiver request, create a Specialty Letter and select Fee Waiver Denied, edit the document if necessary and then create the case as normal. If you are not sure, please consult your supervisor.

If you believe the requester meets the requirements for fee waiver (and there was no cover sheet) then select "Requested" and send the request to Unit Chief. E-mail your supervisor with the details. A supervisor will make the decision to approve or deny the fee waiver and send the case back to you in the case create role. At that point, you will select either "Granted" or "Denied."

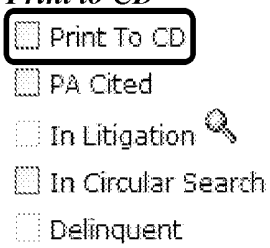
Fee Waiver Denied: When you respond to a request for fee waiver, you must add specific language to the acknowledgement letter. Please see O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Fee_Waiver(denied) for an example of the denial language. Copy and paste this language into the acknowledgement letter. Do not bold, underline, highlight or enlarge the font of the language. If the font changes to bold when you paste it in, highlight that text and remove the bold.

Fee Waiver Granted: If the decision is to grant the fee waiver, then please select "Granted" in the Fee Waiver drop-down box. In the acknowledgement letter, please add the following sentence to the end of the first paragraph:

This is to inform you that your request for a fee waiver has been granted.

If there is a Fee Waiver Request cover sheet, and if you determine during case create that we need to close the case RD, RF, DP or ER, then change the Fee Waiver drop-down box to "Not Requested" before you send the case to Up-front Approver. Because we are not generating a letter regarding Fee Waiver denial or grant, and because it would cause erroneous reporting of Fee Waiver Requests, you must change it to "Not Requested."

8. ***Print to CD***



In an effort to save time, money and resources, the FOIA unit sends out final action responses on CD to all requesters (with two exceptions). When we send out the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

acknowledgement letter to the requester, it advises them that unless they write in and specifically ask for their documents on paper, they will be receiving them in a CD format. The acknowledgement letter templates reflect the change.

A few guidelines to follow:

- You should mark the "Print to CD box" on all new case creates, unless the mailing address of requester is to a correctional facility or unless the requester specified paper in the initial request letter (for requesters who are attorneys, the default is Print to CD).

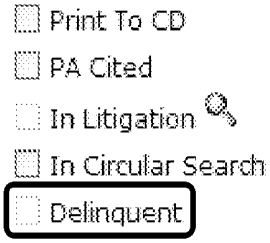
- If the responsive records are already scanned in when you create the case, you will still check print to CD.

- All responsive records mailed to a correctional facility must be on paper. In such an instance, you must modify the acknowledgement letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by removing the paragraph that begins with "This office will be providing your records on a Compact Disc (CD)"

- If the requester is in prison but we are sending the responsive records to an attorney's office, we will print to CD.

- If a requester specifically asks for their records on paper, do not check "Print to CD" box create a Discussion note citing the reason. In such an instance, you must modify the acknowledgment letter so that we do not tell the requester we are printing the responsive records to CD. Modify the acknowledgement letter by removing the paragraph that begins with "This office will be providing your records on a Compact Disc (CD)"

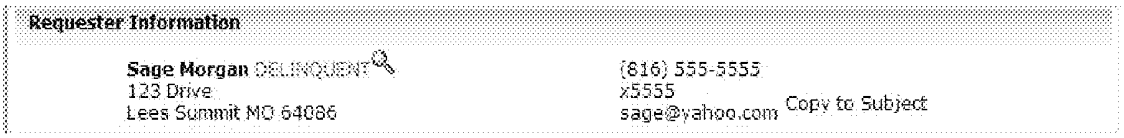
9. Is this a delinquent requester?



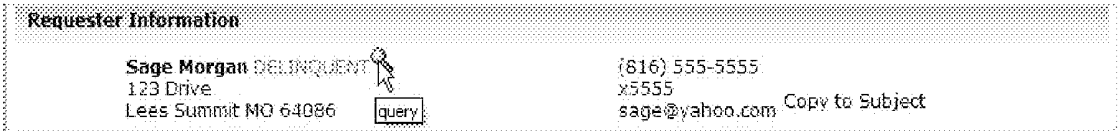
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The Delinquent Requester search helps FIPS users identify requesters who have unpaid bills in the system. Requesters are delinquent when case fees remain unpaid for more than 45 days.

After you enter the last name of the requester, FIPS will automatically conduct a search for delinquent fees owed by that requester, using the last name of the requester. If the requester is delinquent on any case in any office nationwide, a box will pop up on the screen (see below).

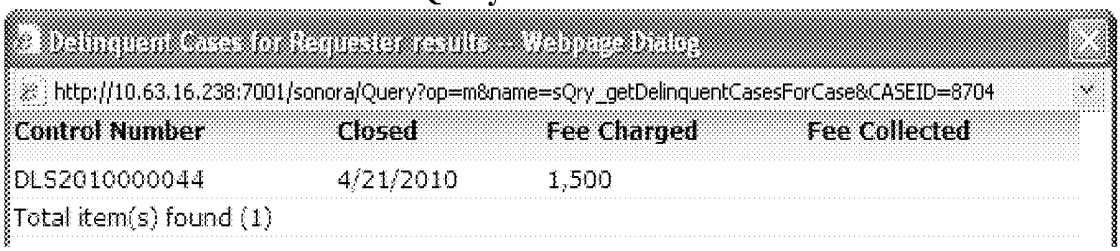


To view other cases for the same requester, click the **Query** icon next to the delinquent notice.



The query results appear in a separate window.

Query Results



If a requester/subject previously submitted a request and owed a fee on a case and he or she did not pay the fee within 30 days, the case closed as FP (failure to pay). If the subject/requester submits a new FOIA request, the Delinquent Requester notification is

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

going to pop up. Your requester may possibly not be on the pop-up list. FIPS conducts a search by the last name(s) of delinquent requesters.

Do not treat the case as delinquent if the case was processed on or before January 1, 2004. Send an e-mail to NRC, FIPSPROBLEM (clicking on the link will automatically include a copy to NRC, FOIAPROGRAM). In the body of the e-mail, include the name of the delinquent requester and the delinquent case number(s).

If the case was processed after January 1, 2004 and your requester's name was on the list:

If you encounter a delinquent requester from a FIPS Lite office, do not treat them as delinquent. You will know the request was processed in FIPS Lite when you open the case because you will see a "FIPS Lite placeholder."

Make sure the requester of the case you are creating is the same requester that FIPS is showing as delinquent. You must view the delinquent request(s) to make this determination. To view a case, highlight the line and click "view." If the delinquent requester matches your requester, treat the new request as delinquent. To get the delinquent case information (case number, dollar amount) in your acknowledgement letter and in the new case, highlight the name in the box that matches your requester and click ok.

Next, to create the case, go to the Tasks tab and click:

When you complete the case create process and the new case has a control number, FIPS will notate the delinquency on the worksheet.

**Do not staff for responsive records until we receive payment.

NOTE: If you are creating multiple cases, you should "Create Additional Cases" before you prepare the Acknowledgment Letter and File Request(s) for the original case.

NOTE: A FOIA/PA Assistant working in Records Locator queue may need to cancel pending requester documentation for cases pending requester documentation due to a prior delinquent status that has been removed, because the system does not.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

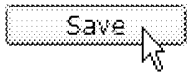
If the FOIA/PA Assistant working in Records Locator queue does cancel pending requester documentation, he or she should generate a new interim acknowledgement letter and staff the case as usual.

If the requester has more than one delinquent case, you will have to add up the total and modify the delinquent requester letter providing the case number for each delinquent case, the dollar amount owed for each, the total dollar amount owed, and instructions to prepare a check for the total amount made out to "U.S. Treasury."

When you click "ACK Letter" the following screen pops up. Click OK to generate the letter.

We will take no further action until the delinquency is resolved. Please pend.

Before you move to another part of the case create process, click:



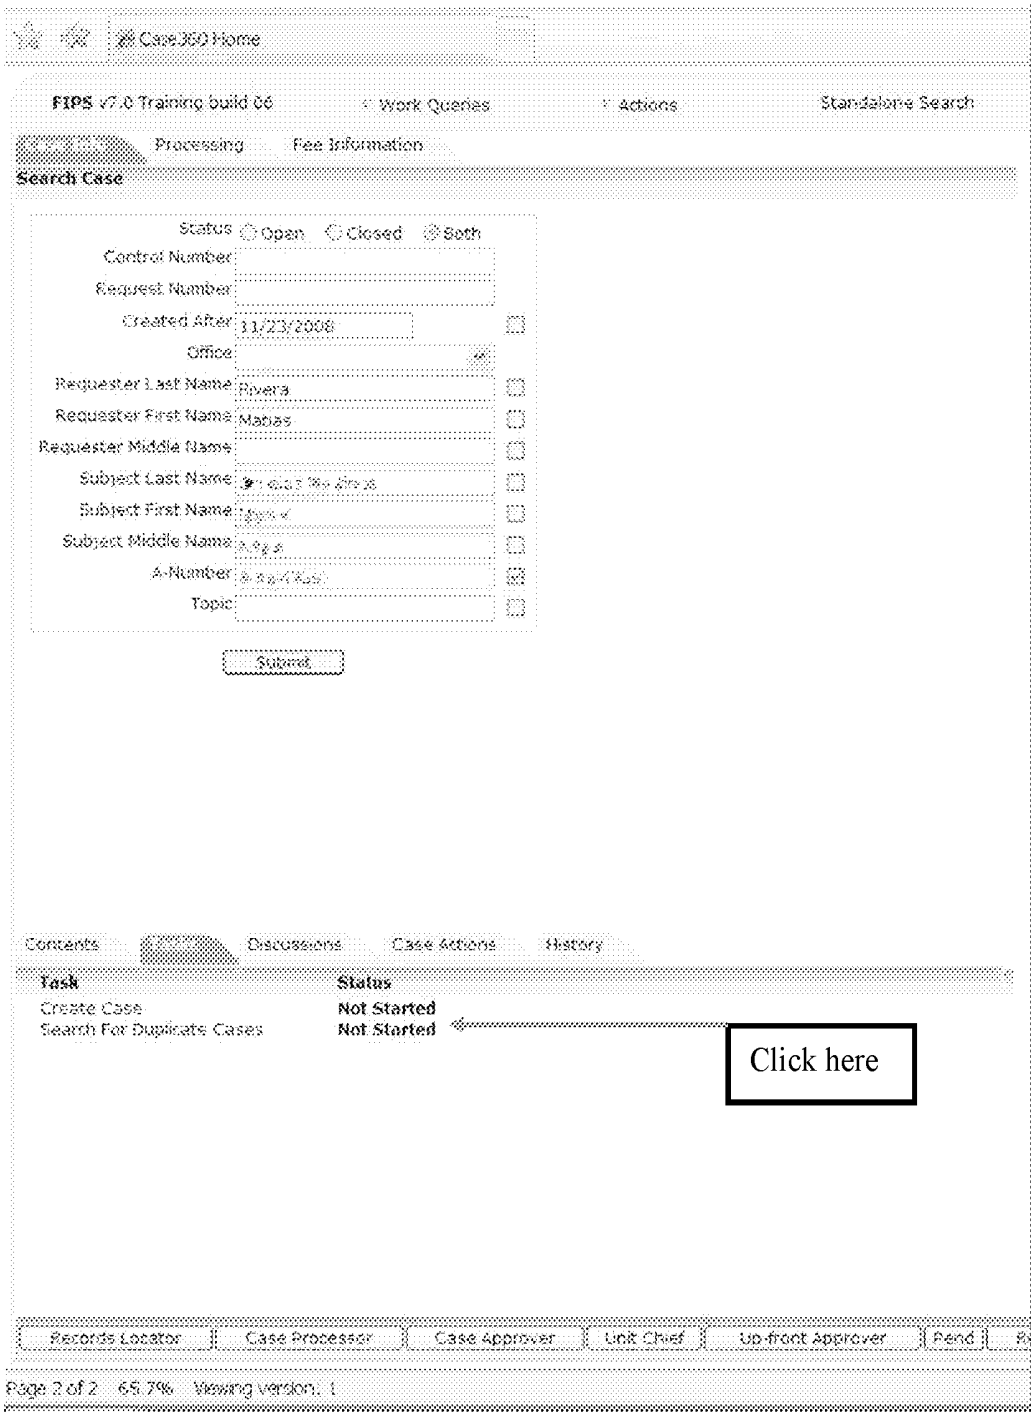
SEARCH FOR DUPLICATE CASES

Just before you create the case, you should look for duplicates. Duplicate cases are cases in which the request was submitted multiple times to the Service, or was inadvertently scanned into FIPS multiple times, or are cases that we previously processed.

Sometimes a requester will take a "shotgun" approach. He or she will submit the same FOIA request multiple times to ICE, CBP and CIS, hoping to get an answer more quickly. The receiving offices will then in turn, transfer these requests to NRC. These are duplicate cases when an office has already processed this request with a final action code of either PD or G1, or has it ready to be processed.

This does not include instances in which the requester has faxed the request and then mailed it. If you open a case and find that the exact same request has very recently been created, chances are that you have opened the mailed copy which followed a few days after the fax. Close this case as ER (created in error).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Ordinarily, you will get a blank result.

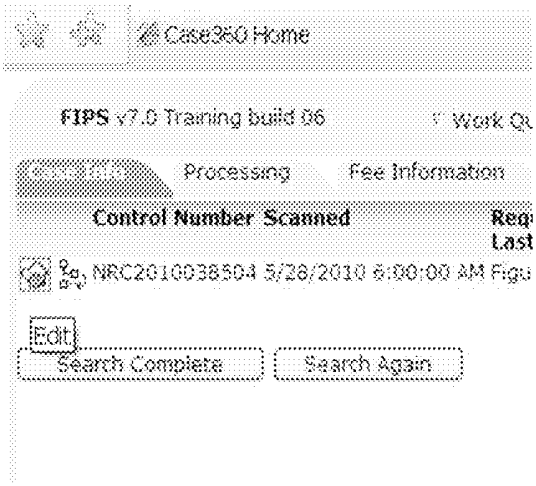
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

You may select "Search Complete" or you may select "Search Again" to try the search by a single criterion or different combinations such as Subject Last Name, Subject First Name, Requester Last Name, and so forth. However, the search may yield an open case:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If you do get a match, you should select "Edit" (the icon is a folder with a gear in front of it) to open the matching case and carefully review it to be sure it is a duplicate:

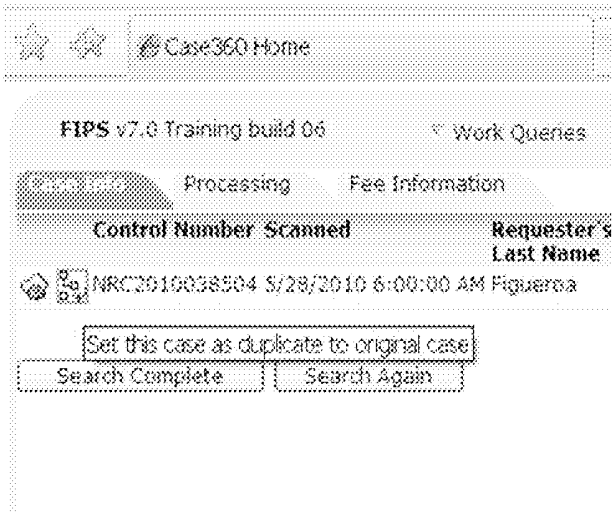
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



By highlighting the case you wish to review and then clicking the "Edit" icon, FIPS will open the case for your review. You then review the request to ensure that:

- If there has been a case that was closed G1 or PD within six months from same requester –
- This does not include cases that were closed with any other final action code.

Once you verify those items and you determine the case is a duplicate of another case, you will select "Set this case as duplicate to original case" as follows:



Create a Final Action Letter and select final action code ER: Created in Error. After this, send the case to Up-front Approver.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If you determine that it is not a true duplicate, please insert a new Discussion entitled "Similar Case" in each of the cases, so that a processor or approver can review both.

If the date of the request is either the same as your request or within a very few days and:

1. The requester is the same, and
2. The information being requested is the same in both requests,

Do not close this case as a duplicate. Instead, close this case as ER (created in error).

If you are not sure your case meets the duplicate requirements, create a new Discussion in the case and send the case to Unit Chief. Send your supervisor an e-mail with the case information for his or her review.

COPYING RECORDS FROM A CLOSED CASE

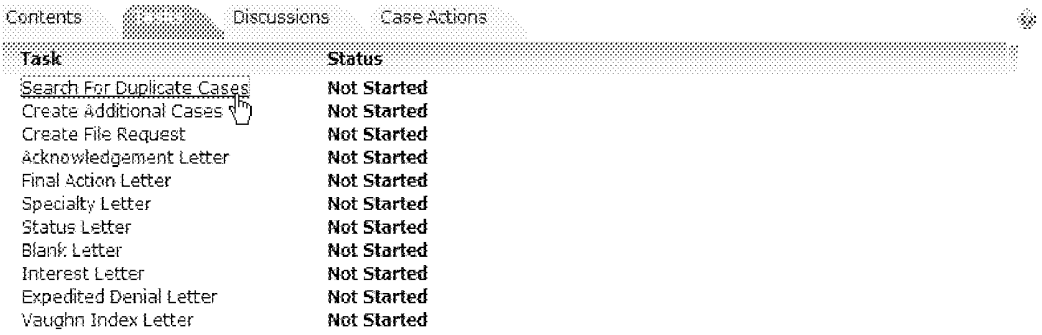
You may be checking for duplicates and discover responsive records of an existing closed case meet the following criteria:

- Regular (not Appeals) case
- Status of the duplicate case is "Closed" and
- The date closed was within six months of the current date

If the duplicate case meets all those criteria, then you may copy from the existing case into the new (active) case. The Request Type that you have selected for the existing case and the new case will determine whether any redactions are copied with the responsive records. If both new and existing cases are FOIA Requests or both cases are Privacy Act requests, then redactions will be copied into the new case with the responsive records. However, if the new case is a FOIA Request and the existing case is a Privacy Act request (or vice versa), then the responsive records will be copied but without any redactions.

To begin the search, select the Tasks tab and click **Search for Duplicate Cases**.

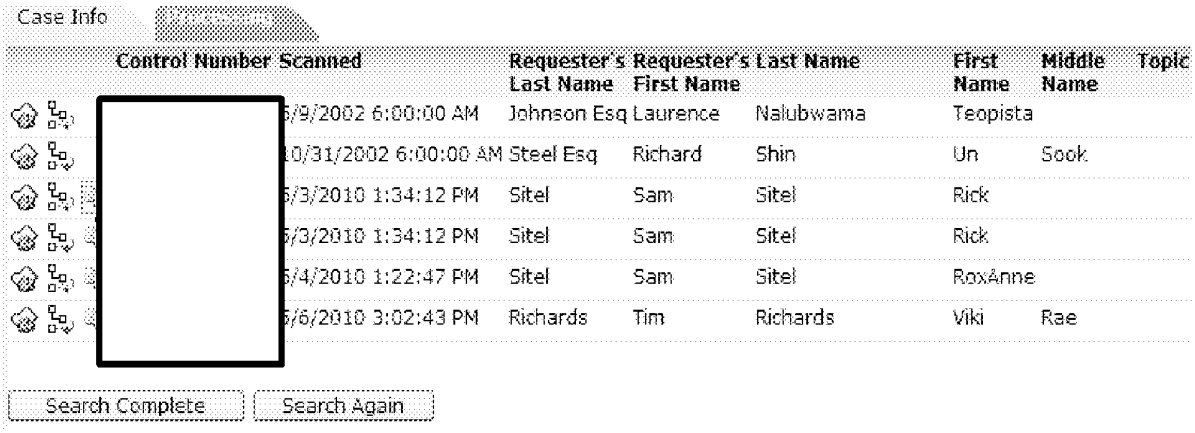
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



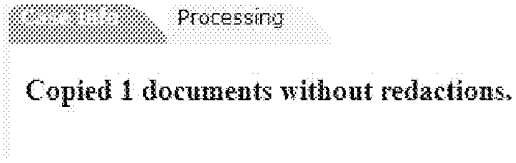
Click the checkboxes next to the populated fields to select which search criteria to use. Case Creators can also type information into other fields to use as search criteria. When have entered all criteria, click **Submit**.

The Search Results screen lists any FIPS cases that match the selected criteria.
To copy the responsive records from the case shown in the search results into the new case, click the **Copy Documents** icon, which looks like two pages:

(b)(6)

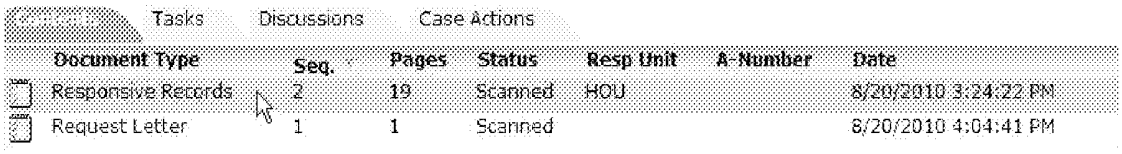


A message appears in the Case Info tab confirming that you copied the document into the new case:



The responsive records now appear in the Contents List of the new case:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



CONSENT, VERIFICATION OF IDENTITY, AND DESCRIPTION OF RECORDS

"Consent" for the purposes of FOIA/PA is written agreement, approval or permission for access to information in the record by the competent individual to whom the record pertains. **The case creator must review the request and supporting documents to determine if proper consent is present.**

5 U.S.C. § 552a(b) No agency shall disclose any record … except pursuant to a **written** request by, or with the prior **written** consent of, the individual to whom the record pertains.

6 CFR § 5.21(f): If you are making a request for records concerning *(a living)* individual *(other than yourself)*... You must also provide a statement from the individual certifying the individual's agreement that records concerning the individual may be released to you.

Consent could be:

- Block 3 on Form G-639, or
- A properly executed Form G-28, or
- A separate declaration by the subject, such as:

  Pursuant to the Privacy Act of 1974 and DHS policy, I hereby consent to the disclosure to _____ _____ of any record pertaining to me that appears in any system of records of USCIS, USCBP, or USICE.

Consent of parents or guardians

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. The signature of the parent/guardian must be notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors can make a request for their file themselves. They do not have to have the consent of their parent or guardian to make this request. An attorney may also represent a minor.

Verification of Identity

If a requester is asking for a Privacy Act record, he or she must provide verification of identity.

A Privacy Act record, for USCIS purposes, is any item, collection, or grouping of information about a person which we retrieve by the person's name, identifying number, symbol, or other identifying particular assigned to that person. This information includes, but is not limited to, a person's nationality, immigration status, education, financial, medical, criminal, or employment history.

6 CFR § 5.21(d) *Verification of Identity,* says the requester must provide us:

- Full Name
- Current address
- Date of Birth
- Place of Birth
- Alien Registration Number (if known)

Next, it says the subject of record must sign the request and his or her signature must either be notarized or submitted under 28 U.S.C. 1746 *(penalty of perjury in lieu of notarized signature).*

The notarized signature of the subject or the signature under penalty of perjury does not need to be on the G-639. If a requester has inserted the **penalty of perjury statement on <u>ANY</u> document**, and the subject of the file has signed the document, it fulfills the requirement to verify identity.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

The notarized signature or signature under penalty of perjury **might** be on a:

- Separate letter, or any piece of paper *including* a G-28, but then only if the penalty of perjury statement is directly above the signature of the subject of record.

- G-639, when the subject has signed the first page and the second page does not contain the signature of the subject but has been notarized.

- DOJ-361, Certificate of Identity: we may not suggest or require that a requester use a DOJ-361, but we can accept one as certification of identity with a signature under penalty of perjury or a notarized signature.

A current photo ID is for information purposes only and is not verification of identity.

"Verification of Identity" for purposes of FOIA/PA does not include a Form G-28 with a statement made under penalty of perjury by the requesting attorney or representative "that the information I have provided on this form is true and correct." The statement must come from the subject of the record. A statement made under penalty of perjury must conform to the requirements of **28 U.S.C. § 1746: Unsworn declarations under penalty of perjury**, which reads as follows:

> Wherever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath, or affidavit, in writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury, and dated, in substantially the following form:
>
> (1) If executed outside the United States:
>
> > "I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
> > Executed on (date).
> > (SIGNATURE)".
>
> (2) If executed within the United States, its territories, possessions, or commonwealths:
>
> > "I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date).
> > (SIGNATURE)".

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the requester is asking for records concerning *(a living)* individual, and if there is only one signature and it does not fall under one of the categories above, request consent and/or verification of identity using the Track 1, Track 2 or Track 3 Ack Letter Requester Docs located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters* or the form "Requester Documentation Attachment" located at: *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters \Requester_Docs_Attachment*. Check the first box on the document.

Reasonable Description of Records being Sought:

If the requester did not provide all of the elements listed:

- Full Name
- Current address
- Date of Birth
- Place of Birth
- Alien Registration Number (if known)

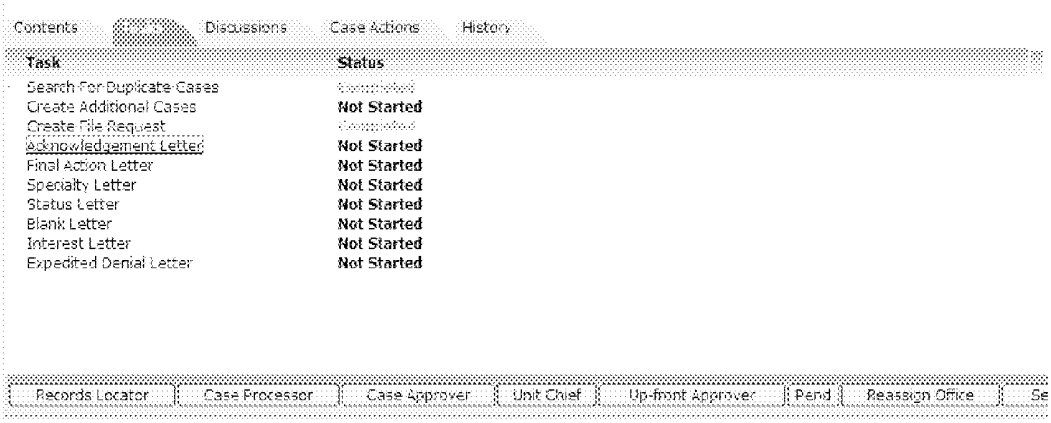
Please request the additional PII with your Acknowledgement Letter. After you create the acknowledgment letter requesting additional documentation, do not create the file request. In the "Contents" tab, you will see a Pending slot for Requester Documentation. Send the case to Pend. After we receive a response from the requester, a FOIA/PA Assistant working in Records Locator queue will staff for the file. The processor will use the requested information to verify the release of the correct records.

Note: if the requester marks "unknown," "none" or "N/A" for any element of the above PII, please do not request this information as part of the Acknowledgement Letter.

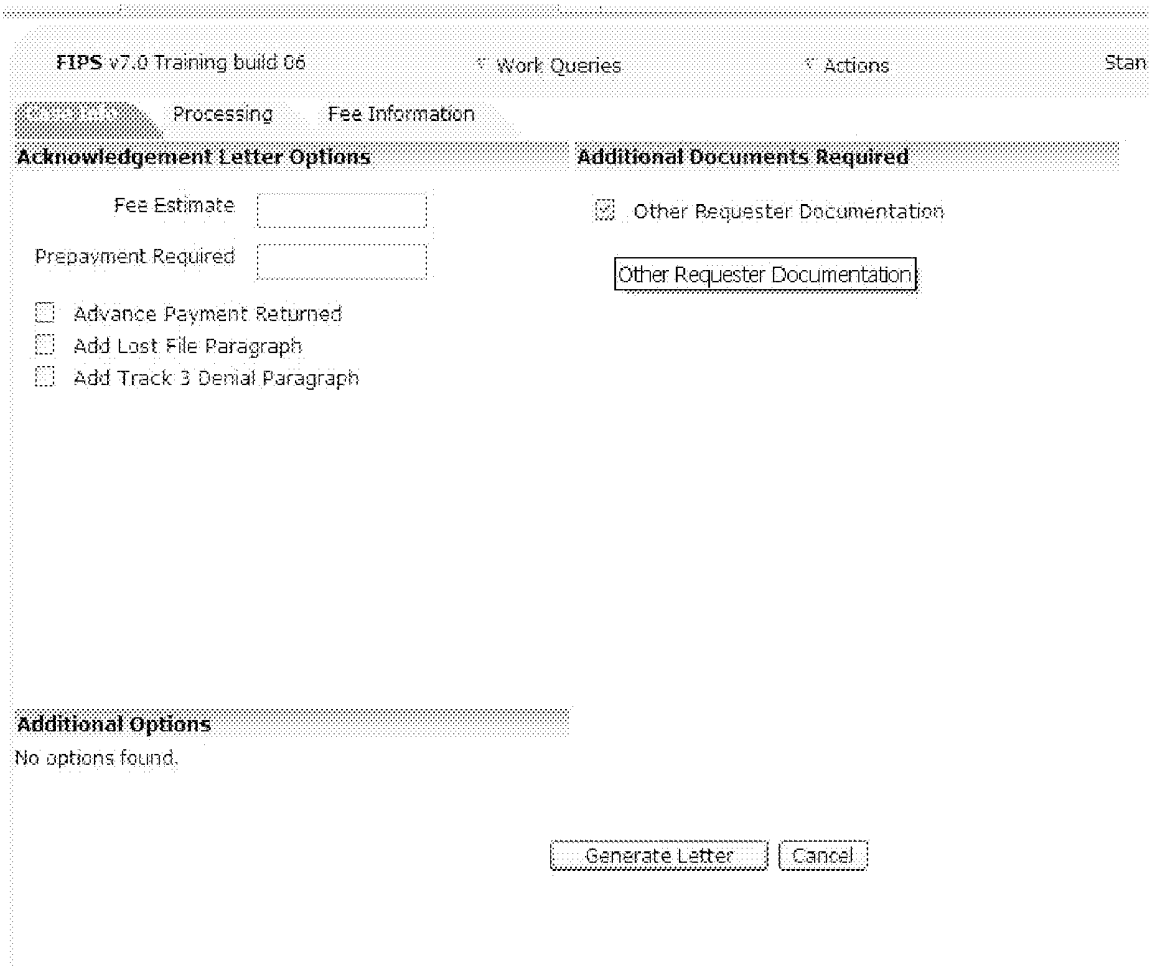
At this point, you will send an acknowledgment letter requesting additional information. You will not staff for a file.

Go to the "Tasks" tab and select "Acknowledgement Letter"

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

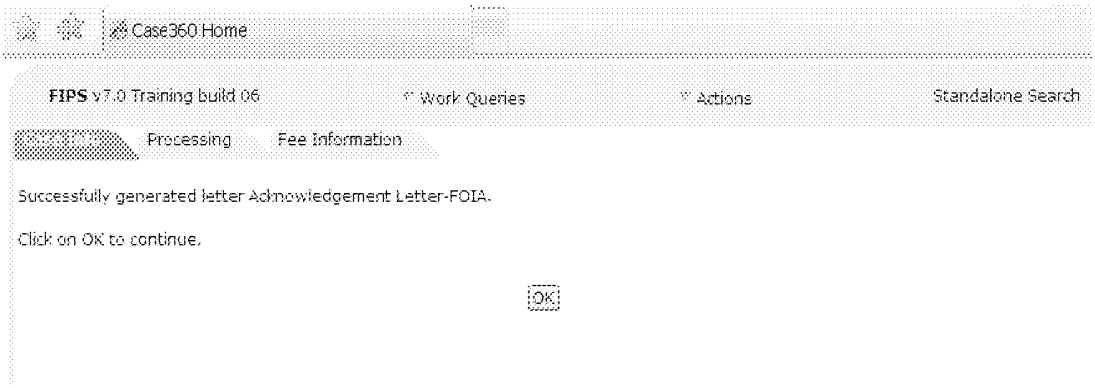


After selecting "Acknowledgement Letter," the Acknowledgment Letter Options screen will open. Options on this screen will allow you to ask for other documentation and will also allow you to add a Track 3 Denial or Lost File paragraph:

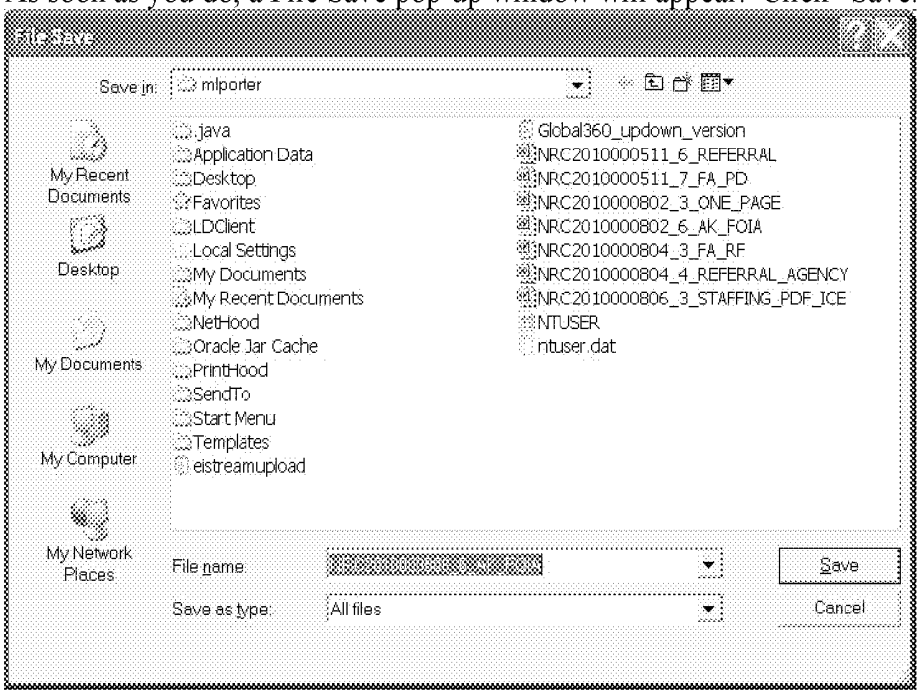


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

We then click on "Generate Letter." Our only option at that point is to click OK:



As soon as you do, a File Save pop-up window will appear. Click "Save."



The acknowledgment letter will pop up:

U.S. Department of Homeland Security
National Records Center
P.O. Box 648010
Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

San Francisco, CA 94111-3629

We received your request for information relating to Chris P. Bacon on December 02, 2010.

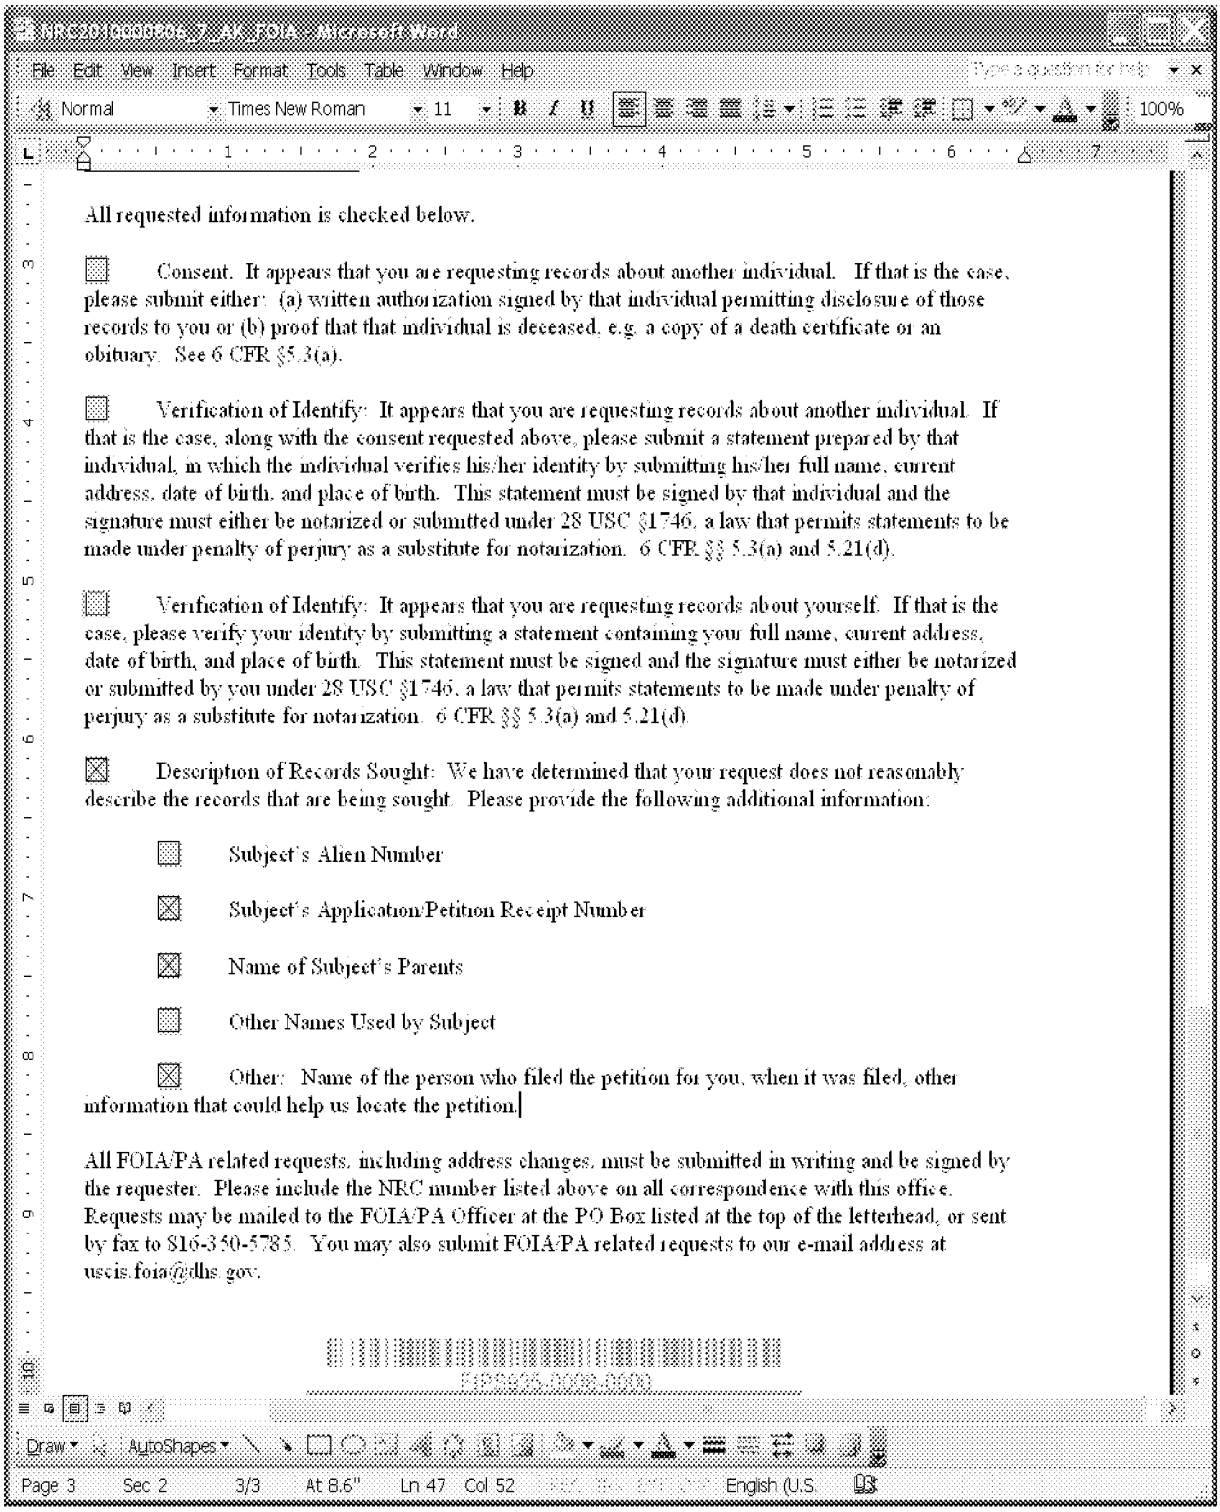
Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000806. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees, however, if fees in excess of $25.00 are required, we will notify you beforehand.

This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



All requested information is checked below.

☐ Consent. It appears that you are requesting records about another individual. If that is the case, please submit either: (a) written authorization signed by that individual permitting disclosure of those records to you or (b) proof that that individual is deceased, e.g. a copy of a death certificate or an obituary. See 6 CFR §5.3(a).

☐ Verification of Identify: It appears that you are requesting records about another individual. If that is the case, along with the consent requested above, please submit a statement prepared by that individual, in which the individual verifies his/her identity by submitting his/her full name, current address, date of birth, and place of birth. This statement must be signed by that individual and the signature must either be notarized or submitted under 28 USC §1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. 6 CFR §§ 5.3(a) and 5.21(d).

☐ Verification of Identify: It appears that you are requesting records about yourself. If that is the case, please verify your identity by submitting a statement containing your full name, current address, date of birth, and place of birth. This statement must be signed and the signature must either be notarized or submitted by you under 28 USC §1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. 6 CFR §§ 5.3(a) and 5.21(d).

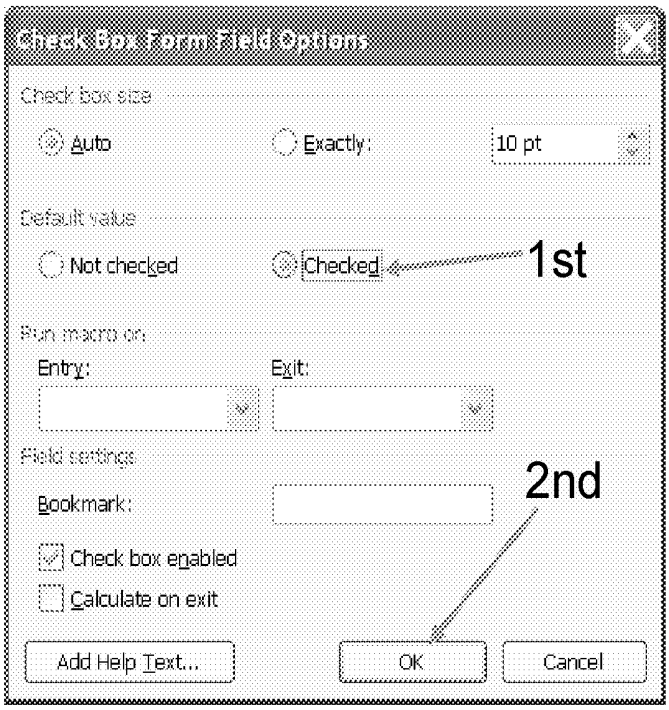
☒ Description of Records Sought: We have determined that your request does not reasonably describe the records that are being sought. Please provide the following additional information:

- ☐ Subject's Alien Number
- ☒ Subject's Application/Petition Receipt Number
- ☒ Name of Subject's Parents
- ☐ Other Names Used by Subject
- ☒ Other: Name of the person who filed the petition for you, when it was filed, other information that could help us locate the petition.

All FOIA/PA related requests, including address changes, must be submitted in writing and be signed by the requester. Please include the NRC number listed above on all correspondence with this office. Requests may be mailed to the FOIA/PA Officer at the PO Box listed at the top of the letterhead, or sent by fax to 816-350-5785. You may also submit FOIA/PA related requests to our e-mail address at uscis.foia@dhs.gov.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

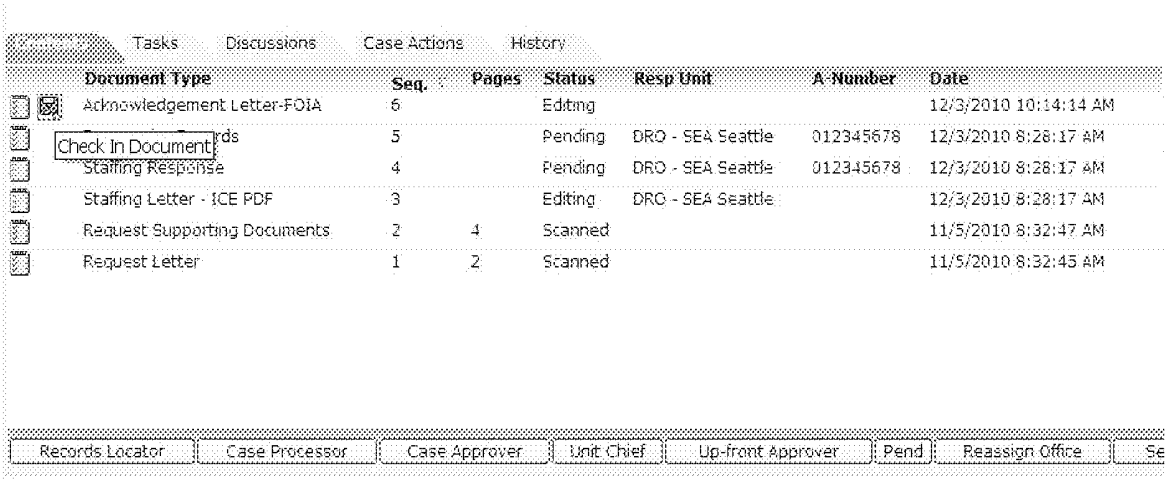
The acknowledgement letter has a third page. Do not change the wording on the page without specific supervisory instruction to do so. You may add information after the "Other" checkbox to clarify what information we need. Double-click in the area you need additional information, select the radio button marked "Checked" and then click OK for each item of information you need:



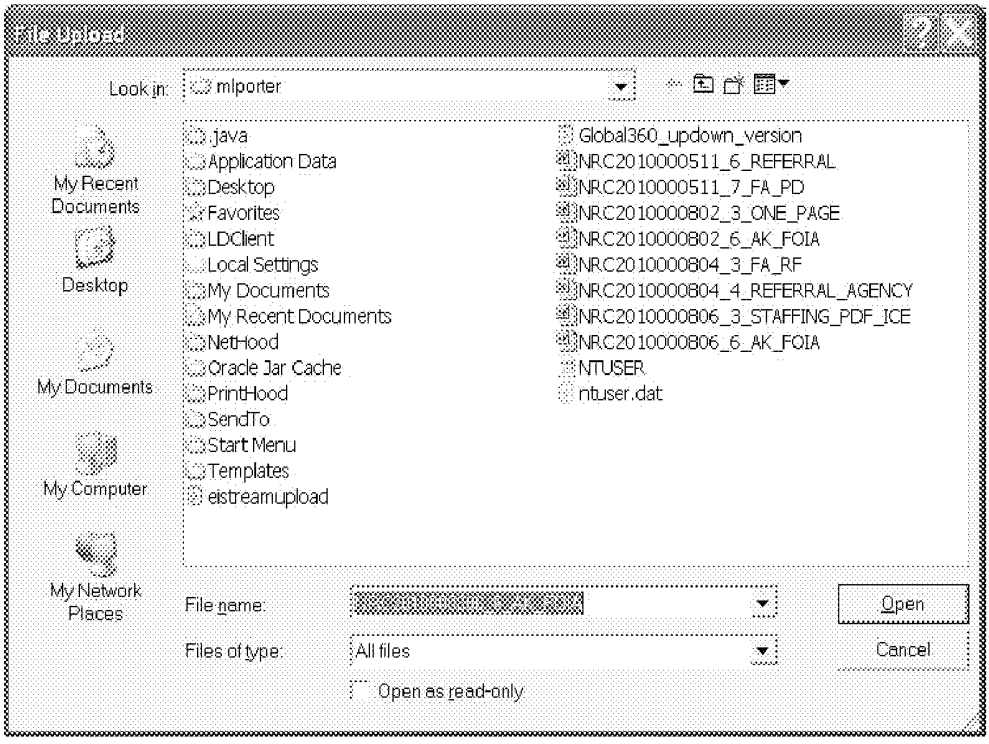
The resulting page will look something like this:

In a situation like this, you would not have created a staffing letter. (Note: If this were a live case, you would not see a pending Responsive Records slot, as in this example.) You save the document, exit Word, and check the document in:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

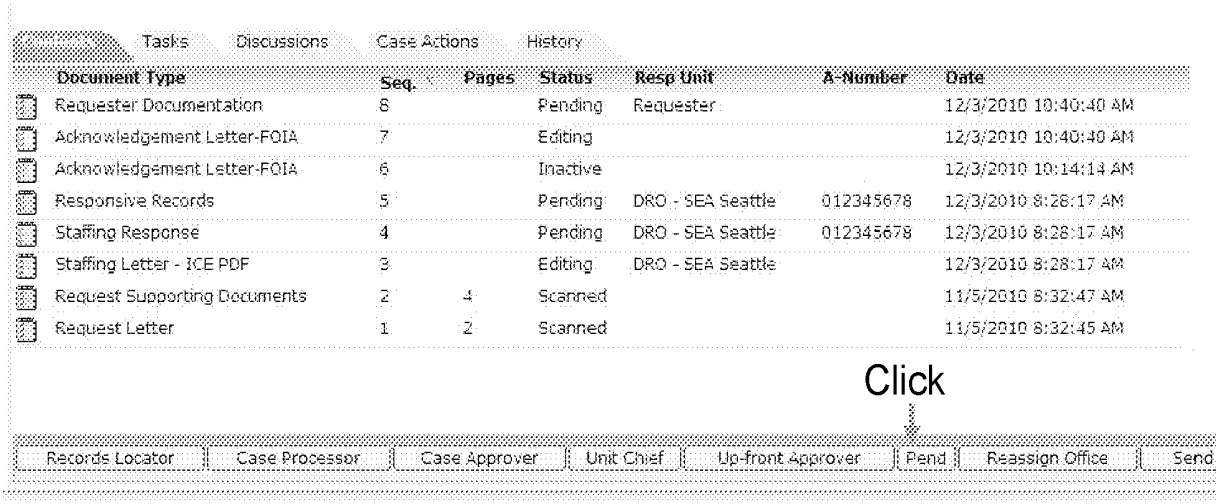


Click "Open":



You will notice that there is now a slot for "Requester Documentation" and the Responsive Unit is "Requester." After this, you send the case to "Pend."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When the requester provides the additional information, A FOIA/PA Assistant working in Records Locator queue will staff for the records.

Third party requests

Sometimes consent is not necessary. For instance, a requester asking for a "*list of all employers in Utah who use E-Verify*" does not have to provide consent. Commercial, contract, and media requests are usually third party requests.

On the other hand, USCIS will not release personally identifying information (PII) or personally sensitive information to a third party without consent. If the requester is asking for records concerning an individual and does not provide consent, nor does it appear likely that the requester is going to get consent, we treat it as a third party request without consent. It may be obvious from the request that the requester will not be able to obtain consent from the subject of record. If you have a doubt, consult your supervisor. The supervisor may have you send for consent, call the requester to see if you can make a determination, or create the case as third party without consent. Third party requesters are entitled to any public documents that may be in the file they are seeking, as well as documents they provided in support of an application or petition. For example, if a wife is looking for a copy of her husband's file so that she may divorce him, and says in her request letter that she does not know where he is or says she cannot get his consent, do not send a request back to her for her husband's consent. In a situation like this, simply staff for the file and put a Discussion in FIPS that it is a third party request without

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

consent. In the above example, if she did not specifically say she cannot get his consent or that she does not know where he is, do not staff for the file. In a situation like this, send a request for consent and pend the case for requester documentation.

Deceased subjects and the 100-year rule

If the subject of a request is deceased, it is incumbent upon the requester to provide proof of death. Proof of death could be any of the following:

- Death Certificate;
- Obituary;
- Funeral Memorial; or
- Photograph of headstone

If the subject of a request is over 100 years old, USCIS assumes he or she is deceased and no proof of death is required.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CASE CREATE SITUATIONS/OTHER PROBLEMS

At any time during the case-create process you may encounter a quirky or unusual situation. Some not-so-usual situations follow this paragraph, but as a case creator, you will inevitably see situations you have never seen before. Case creators should seek assistance from their supervisors as a first step. If the problem cannot be resolved, the creator should send the case to the Unit Chief and send an e-mail to the supervisor for clarification. If it is not a situation that needs clarification but some type of FIPS error, send an e-mail to the FIPS Problem mailbox (NRC, FIPSPROBLEM), or in other situations to the MSB mailbox (NRC, NRCFOIAMSB).

Clicking on the FIPSPROBLEM link above will automatically generate an e-mail addressed to both the NRC, FIPSPROBLEM mailbox and the NRC, FOIA PROGRAM mailbox.

REQUESTS: Foreign Consulate

Immediately forward any type of correspondence, FOIA request or inquiry received from the consulate of a foreign nation to the Director's Office for handling. USCIS Headquarters is the only one authorized to correspond with foreign consulates.

Please make sure it is a consulate requesting the records and not the subject of the request putting the consulate's address on the G-639 to mail the records to the consulate (for passports). If the request is from a consulate, please send the FOIA request to Up-front Approver to be closed as an ER and send an e-mail to NRC, FOIAOA mailbox with the case information. The supervisor will review and close the case. If the subject mailed the request and wrote the consulate's address on the G-639, use the subject's address from the envelope and set it up as a self request.

REQUESTS: Non-immigrant visa material

If the requester specifically asks for non-immigrant visa data and there is no record of the person in CIS or CLAIMS; do not close the request as NR. If the requester is asking a question about being a student, au pair, camp counselor, or participating in a summer work/travel program, or if the requester specifically mentions visa type F-1, F-3, J-1, M-1 or M-3, then you should refer the request to ICE, since that record will be tracked in SEVIS (Student and Exchange Visitor Information System.) An example of a "refer to ICE" type request might be: "Type of visa, visa number and legal documents allowing entry into the US. The subject was a student at the University of Nebraska."

Otherwise, redirect the requester to Department of State. An example of a "re-direct to State" type request might be for a B1/B2 visa, such as: "Type of visa, visa number and legal documents

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

allowing entry into the US. The subject visited Disney World and Cape Canaveral and entered at Orlando International Airport."

REQUESTS: Routine use, no consent required, not FOIA

USCIS may disclose records to an appropriate Federal, State, tribal, local, international, or foreign agency, including law enforcement, or other appropriate authority charged with investigating or prosecuting a violation or enforcing or implementing a law, rule, regulation, or order, where a record, either on its face or in conjunction with other information, indicates a violation or potential violation of law, which includes criminal, civil, or regulatory violations and such disclosure is proper and consistent with the official duties of the person making the disclosure.

What does that mean? We may disclose records from alien files to other Federal, State and local government agencies as a normal course of operation for law enforcement purposes. Consent is not necessary for the processing of these types of requests. Some examples of these types of requests include requests relating to child support enforcement and aliens seeking public assistance.

Requests from government agencies (federal, state or local) for verification of status of aliens are routine use.

These types of requests are not a part of FOIA and should not be in FIPS. For example, you may open a request from a county public assistance agency attempting to locate a child's father who is avoiding financial responsibility. If you open a request from a state or local government agency requesting information about an alien, send the case to Up-front Approver for closing as ER. The only exception to this rule is if there is a cover sheet with instructions to create as FOIA.

REQUESTS: Bond obligor, no consent required, not USCIS FOIA

Criminal bonds are bonds posted by individuals or bail bondsmen relating to non-immigration violations of the law. These requests are processed by Immigration and Customs Enforcement.

Immigration bond obligors are surety companies who have posted an immigration bond (I-352) for an alien who has been taken into custody by the Service. If the alien fails to attend his or her hearing, then he or she forfeits the bond. Under the court case *Amwest v. Reno*, the surety companies, or their attorneys, are entitled to a complete copy of the alien's file to assist them in

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

trying to locate the alien. Consent is not required for the bond obligor; however, they should provide a copy of the bond contract, Form I-352, with their FOIA request.

We no longer process requests received from immigration bond obligors or criminal bond obligors. Please send any new requests that are scanned into FIPS to Up-front Approver for closing as ER. Please send an e-mail to NRC, FOIAOA and provide the REQ number or control number, and also include the requester's name.

OA room will mail the request to the following address:

Immigration and Customs Enforcement
Attention: Catrina Pavlik-Keenan
ICE FOIA/PA Unit
800 North Capitol Street, NW, Room 585
Washington, DC 20536-5009

REQUESTS: A-number only

If a requester/subject is asking for his or her alien number **only**, follow these steps:

- Search CIS with the information provided on the request to locate an A-number.
- If you locate an A-number, compare the information provided on the request with the information in CIS to make a positive ID.
- You must have proper consent and all of the required PII in order to proceed. If consent or any PII are missing, generate the acknowledgement letter and request the additional information.
- If proper consent is present and all of the required PII is present:
    - Open a RAFACS staffing slot only
    - Print a copy of CIS 9101 screen, attach a "Scan As" cover sheet and mark the box "Responsive Records." Take the screen print to the designated person (currently John Latimer) for scanning.

Make the case a Track 1 case and pend the case for responsive records. When the responsive records are scanned in, the case will move to the processing queue.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REQUESTS: Bracero Program

The Bracero Program (1942-1964) began as a temporary World War II program to fill agricultural labor shortages, and continued in one form or another for more than twenty years. Initially the program included workers from Mexico, the Virgin Islands, British West Indies, and elsewhere. After about 1945, the program was limited to agricultural workers from Mexico, and the term "bracero" refers to an imported farm worker from Mexico. "Brazo" means arm, and "bracero" means a person who works with his arms.

Begin with a thorough search of CIS. If no record is located, request a manual search. Create a Records Indexing Staffing and enter all information provided by the requester. If the manual search produces no record, generate a "NR" letter and send the case to Up-front Approver. The supervisor will review and close the case.

In these no record cases, the researcher's only recourse may be to search for a record of admission at the National Archives (NARA). Today NARA holds microfilm of arrivals at US-Mexico Border ports of entry from ca. 1905 to 1954 (some to 1957). A Bracero admitted in 1960 will not appear in these records due to the cut-off dates.

The requester can request a search by writing directly to NARA. In their letter, the requester should ask for a search of Mexican border arrival manifests in Record Group 85. The correspondence to NARA should contain the date and port of entry, as well as the name used at the time of entry, age at the time of entry and any other identifying information.

NATIONAL ARCHIVES AND RECORDS
ADMINSTRATION
CIVIL REFERENCE
7th AND PENNSYLVANIA AVENUE NW
WASHINGTON DC 20408

REQUESTS: Referrals and Consultations received from other agencies

As other agencies process FOIA/PA requests, they will sometimes find our agency's documents within their files. These documents will be referred to us for processing. The responsive records could be USCIS documents being referred to us for review or joint documents i.e., co-authored by the referring agency and other agencies. A transmittal memorandum advising us to respond directly to the referring agency is a consultation. A transmittal memorandum advising us to reply directly to the requester is a referral.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Send the case to processor. Send an e-mail to the MSB mailbox advising them that you have created the case and that it is a referral/consultation from another agency. Include the alien name and the NRC control number.

REQUESTS: USCIS personnel information

- Requests that deal specifically with USCIS vacancy announcements, performance ratings and awards are scanned and handled in the HQS queue by the Special Interest Group.

- If a request for CIS Personnel Information mistakenly is scanned in the NRC queue, create the case and reassign the case to **HQS**. Create the case as a Track 2 case. Use **PER** for the category and **CIS** for the bureau, in the "Topic" field, enter the vacancy announcement number.

Click on the "Reassign Office" and select the HQS office. The case will be staffed when it is re-assigned to the HQS queue. Send an e-mail to NRC, FOIASIG with the case information.

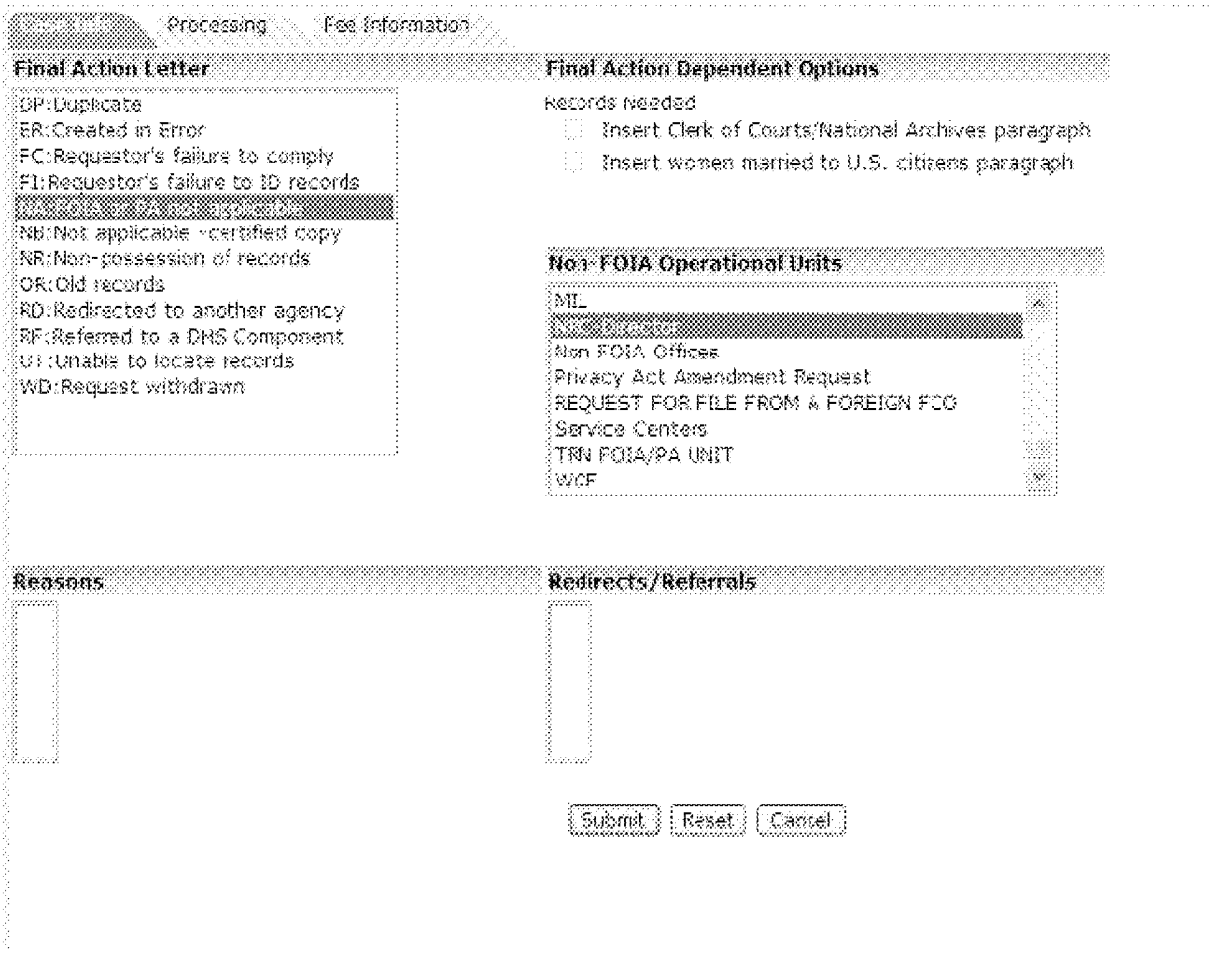
REQUESTS: Official Personnel File

You may open a FOIA request received from an individual for a copy of his or her Official Personnel File (OPF). Inform such requesters in the final action letter that they may access their OPFs on-line at:

http://cbpnet.cbp.dhs.gov/xp/cbpnet/hrm/for_employees/info_about_you/eop_folder/eopf_logon.xml

You should then create a Final Action Letter and select the closing code "NA: FOIA or PA not applicable." You will have to select a Non-FOIA Operational Unit. Choose "NRC-Director." You do not have to modify the referral letter, but you should make the appropriate edits in the Final Action Letter. Next, send the case to Up-front Approver. The supervisor will review and close the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



REQUESTS: Red Cross / Last known address

Requests from the Red Cross or from some other non-governmental organization (such as Salvation Army, etc.) looking for the last known address of an alien are normal FOIA requests. You should create the case and staff for the file as a specific document request. It is not necessary to create an acknowledgement letter if the request is from the Red Cross.

REQUESTS: Federal, state, local agencies

Governmental agencies, including county public assistance agencies, are seeking the alien to enforce court ordered support or enforcement of some other lawful responsibility. These types of requests fall under the routine use category.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REQUESTS: Return of original documents

Requesters will sometimes ask for the return of original documents, such as adoption decrees, birth certificates or other documents of a personal nature on a request addressed to FOIA. If the request for the return of original documents is submitted on a G-639, we are required to provide the requester with a copy of the specific documents requested. For return of original documents, the requester must submit a G-884 to the SAVE Unit of their local district office. Insert the following verbiage in the acknowledgement letter.

> In your FOIA request you have specifically asked for the return of original documents. We will provide you with a copy of these documents. In order to obtain the original documents you must submit a G-884, "Request for the Return of Original Documents" to the Save Unit of the nearest district office.

If a Form G-884 has accidentally been scanned into FIPS as a FOIA request, send the case to Up-front Approver for closure as "ER" (created in error). A letter is not created by FIPS; you will need to create a Blank Letter explaining the reason we did not accept their request as a FOIA request. Print two copies of the letter. Attach a cover sheet on one copy to be scanned in as a CSD and send the other copy to the OA room for mailing to the requester. Include a detailed Discussion note. Send the case to Up-front Approver. The supervisor will review and close the case.

If the alien file is located at the NRC, the Case Resolution Team at the NRC handles all G-884's (Request for Return of Original Documents). OA ordinarily forwards any requests for return of original documents to Case Resolution.

REQUESTS: Privacy Act Amendment

A person who is a United States Citizen or a Lawful Permanent Resident may request that we amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete. Sometimes a supervisor will place a coversheet on the request stating "Privacy Act Amendment."

If you are creating a Privacy Act Amendment request, please do the following:

1. Begin as usual, filling in requester and subject information and searching for duplicates.
2. Assign it to Track 2. Assign it to Category: Special Interest Group.
3. Create the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. Prepare an email for NRC, FOIASIG and insert the case number in the body of the e-mail.
5. Change the Office to "COW." Click "SAVE." Click "Reassign Office." You are now ready to move on to the next case.

SITUATION: Untranslated Foreign Language Documents

If you find an untranslated foreign language document which may contain essential information needed to create a case, and you are unable to determine what that information is, there are individuals at the NRC available to translate. Here is the procedure:

- Insert a Discussion titled "Untranslated Documents" and the reference page numbers.
- Copy the text of the Discussion and paste it into an e-mail to NRC, NRCFOIAMSB.
- Send the case to Unit Chief.
- After translation, a copy of the translated information may be scanned in, or the translator may add a Discussion response. The translator will then return it to you for creation and/or staffing.

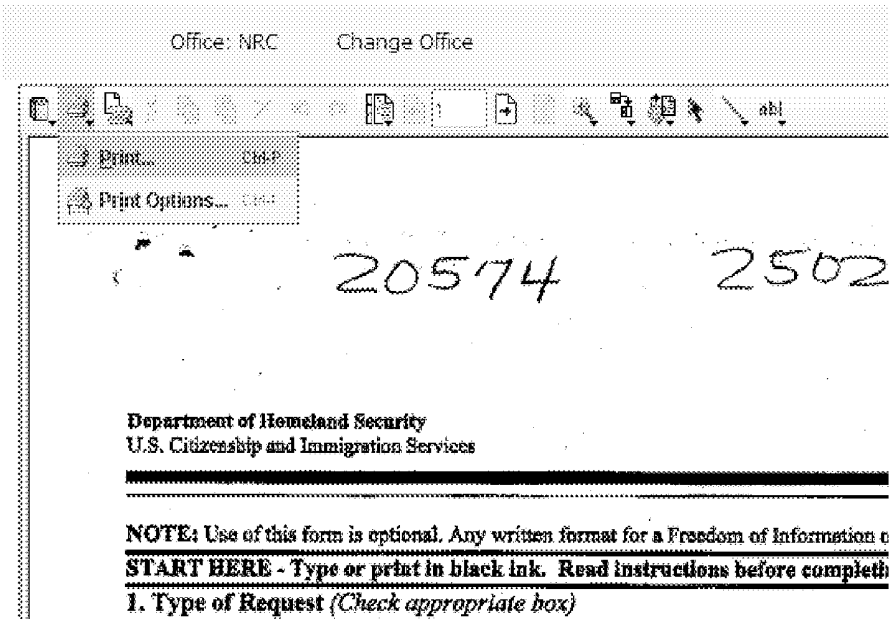
SITUATION: Congressional correspondence

When the unit receives correspondence from a member of Congress, the creator will need to create the case as a track two case, mark the category as Congressional, staff for the requested documents and send an e-mail to the MSB Mailbox advising them of the control number, congressional contact information and name of the subject of the request. Do not use the Congressional office address as the address for the FOIA request. If an address for the subject cannot be found, please contact a member of the MSB for more guidance.

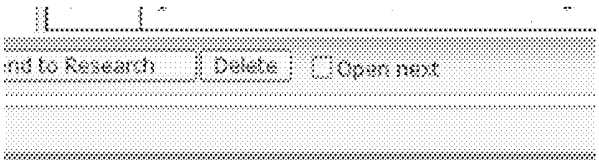
SITUATION: Appeals

While case creating, you may open a request and see that it is marked "Appeal." The requester will include the case number he or she is appealing. If this happens, you do not create the case. In the upper right hand of the image portion of the FIPS worksheet, there is a printer logo:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Select "Print." FIPS will then print out all the pages of the request. Get those pages and take them to the designated appeals POC (Currently Beth Stokes). After you are sure the pages printed correctly and you have control of those pages, click "Delete." This is possibly the only time you ever click "Delete."



SITUATION: New requests received on the I-694

If you see a case in the creator role or the processor role that has the I-694, Notice of Appeal of Decision Under Sections 245A or 210 of the Immigration and Nationality Act (INA), scanned as the FOIA request letter, this is considered a legitimate request. The Administrative Appeals Office sends this form along with the A-file to the NRC for processing under FOIA.

Form I-694 is used to notify USCIS that an individual is appealing the denial of their permanent residence, temporary residence, or a waiver of grounds of inadmissibility.

To assist you in identifying this request, the words "NEW REQUEST" should have been written on the top of the form before scanning. Please note the request may not have a current date. The

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

case creator should create the case, and request additional information or consent if needed. If additional information or consent is not necessary, send the case to processor.

SITUATION: Subpoena or court order

If you pull a new request that is a subpoena or court order, please send it to Up-front Approver for closure as ER. Send a message to NRC, FOIA PROGRAM; McDaniel, Marcia M (clicking the link generates the e-mail) providing the REQ number and information indicating the request was a subpoena or court order. The NRC Program Office is currently addressing these requests. Subpoenas or court orders are a high priority. Please notify NRC, FOIA PROGRAM as soon as possible. If you aren't sure, please contact your supervisor for guidance on how to proceed.

SITUATION: Certification of record

When creating a new case, insert a Discussion "requester wants documents certified." The processor or approver will handle the certification process.

Certification of records is done in accordance with 8 C.F.R. § 103.7(d) and the Records Operations Handbook (ROH).

The NRC will certify certain documents from A-files as being true and correct copies. The physical file must be located at either the NRC or the FRC. Genealogy requests that were received, staffed and processed by NRC can also be certified by the NRC. The NRC will not certify copies of documents that belong to other agencies. Information will be provided to the requester on how to obtain certified copies of these documents. The NRC can also provide a certified letter giving information such as the date of entry and the status of the individual.

NRC will not certify naturalization certificates for living persons. If the individual has his or her original naturalization certificate and want or need a certified copy of it, he or she must make an INFOPASS appointment. An individual must submit an N-565, Application for Replacement Naturalization/Citizenship Document if he or she has lost or misplaced the original.

Records Services Branch, USCIS does all certificates of non-existence; these requests must be submitted in writing to the address shown below:

U.S. Citizenship and Immigration Services
ATTN: Records Service Branch

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1200 First Street, NE, 2nd Floor
Washington, DC 20529-2204

SITUATION: Certification of record for dual Italian citizenship

If we receive a request asking for a certified copy of a relative's naturalization certificate for the purpose of applying for dual Italian citizenship:

> If the requester's relative is deceased, he or she must submit the request to the USCIS Genealogy Program. The web address for more information and instructions for submitting their request is **USCIS.gov** or;
>
> If the requester's relative is living, please include the following paragraph in your acknowledgement letter:

This is in response to your request for a certified copy of a relative's naturalization certificate in order to apply for dual Italian citizenship. According to information obtained from the Italian Embassy in Washington, D.C., certified copies of naturalization certificates are not required for the dual citizenship application. The Italian Embassy requires the naturalization certificate copy along with our USCIS cover letter and envelope. The records that we release as part of this FOIA request will serve that purpose.

SITUATION: Record at National Archives and Records Administration (NARA)

The National Archives and Records Administration has designated alien files as permanent records for the Federal Government, ensuring their retention indefinitely. As with all permanent records of the Federal Government, ownership and physical custody of the record is transferred to NARA at a designated point and NARA becomes the custodian of the record. Once the record is transferred to NARA, anyone who wants documents out of the file will have to file his or her FOIA request directly with NARA. The "magic date" for alien files to be turned over to NARA is when the subject of the file passes 100 years of age. The NRC has begun the process of transferring the targeted files into the custody of NARA.

As a result, case creators need to pay close attention to those cases in which the subject of the file was born more than one hundred years ago, particularly if the request does not meet the criteria for a genealogy case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

For example, the requester writes in and makes the following request:

"I want the records of Joe Crab, date of birth, March 22, 1899. Mr. Crab naturalized in 1957 and died in 1969. Enclosed is proof of his death and alien number."

NOTE: You may find the complete list of criteria in Section 3, "Category of request" in the sub-paragraph "GEN."

Mr. Crab meets one prong of the criteria for genealogy because he was born long ago; however, since he was naturalized in 1957, he does not meet the prong of having no documents in his file dated after 1951. If you are creating a case and the subject of the request is 100 years of age or older, **but** the person DOES NOT fully meet the criteria for a genealogy case, please pay special attention to NFTS. If NFTS shows that the a-number has been retired to NARA, it means we have turned the records over to NARA permanently. The requester will have to send a request to NARA. Please select FINAL ACTION OPTIONS when creating the Acknowledgement Letter, select NA and replace the normal Acknowledgement Letter with the NARA Historical Record Letter located at O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters/Historical_Record_Letter.

It may happen that USCIS has not yet transferred the file to NARA. If NFTS still shows a shelf location within NRC (or any other office), staff for the file.

SITUATION: Old records

Occasionally we will receive a request for records pre-dating our recordkeeping system. The agency maintains immigrant arrival records created since 1892; and naturalization records since 1906.

When a request is for records older than those maintained by the agency, create a Final Action Letter and select "OR." This generates a letter to the requester explaining that the records being requested are older than those maintained by the agency. After generating the final action letter, send the case to Up-front Approver. The supervisor will review and close the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REFERRAL AND REDIRECTION

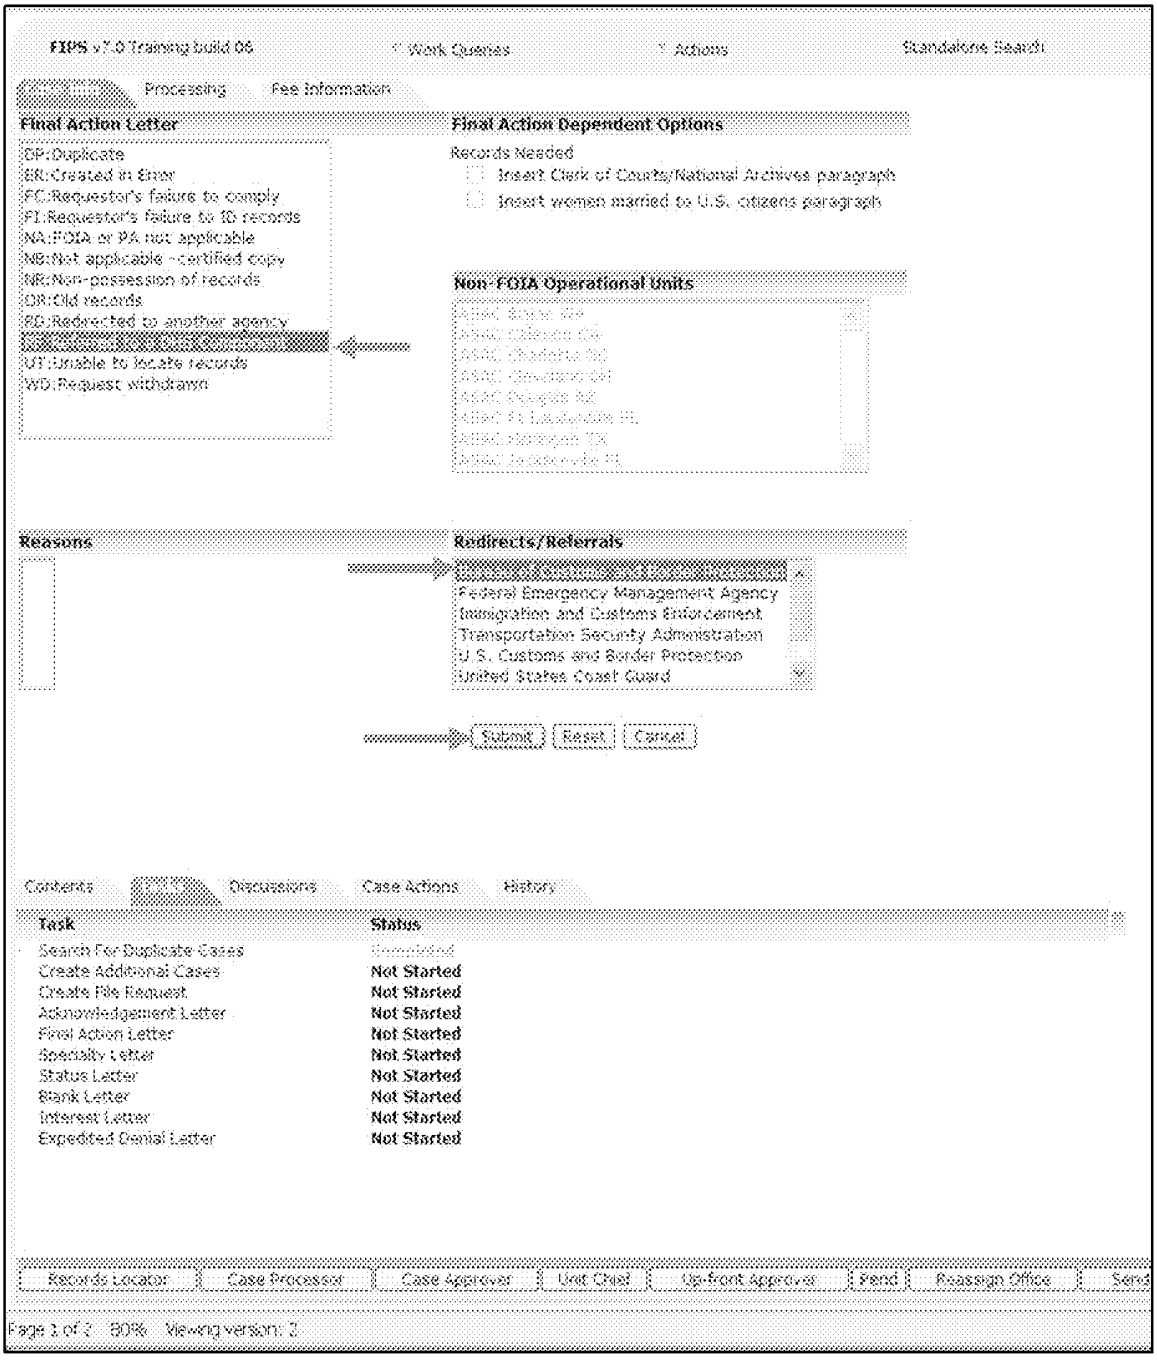
Referral

The FOIA requires us not to close a case if there is information in another component of our department. For instance, the Drug Enforcement Administration and the Federal Bureau of Investigation are both components of the Department of Justice. If DEA receives a FOIA request and determines the information is with FBI, they may not close the case and tell the requester to write to FBI (that is redirection). They must send the request to the FBI and advise the requester they have done so (that is referring).
USCIS occasionally receives FOIA requests for non A-file records totally under the purview of another DHS component. When this occurs, we refer the FOIA request in FIPS to the correct component. The following agencies are DHS components:

Transportation Security Administration (TSA)
U.S. Customs and Border Protection (CBP)
U.S. Immigration and Customs Enforcement (ICE)
U. S. Secret Service (USSS)
Federal Emergency Management Agency (FEMA)
U.S. Coast Guard (USCG)

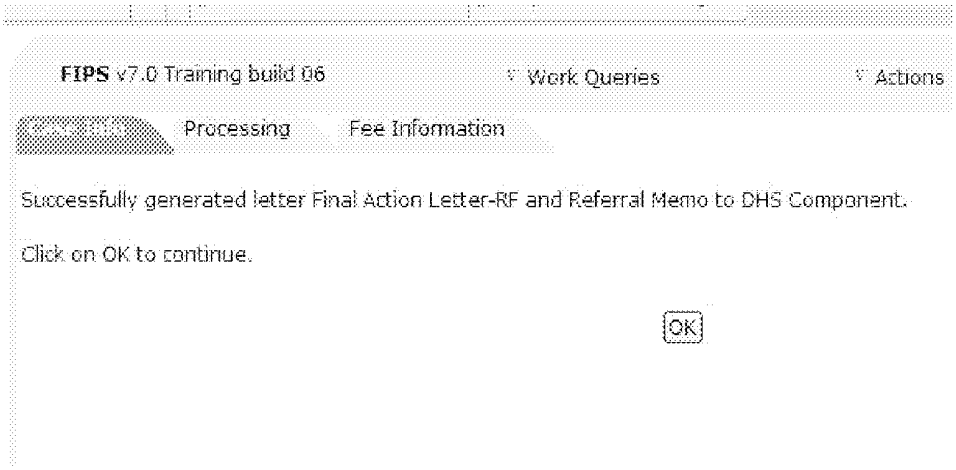
Under the "Tasks" tab, select Final Action Letter. Select "RF: Referred to a DHS Component" as the final action code. Under "Redirects/Referrals" select the component to which we are referring the request and click "Submit.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

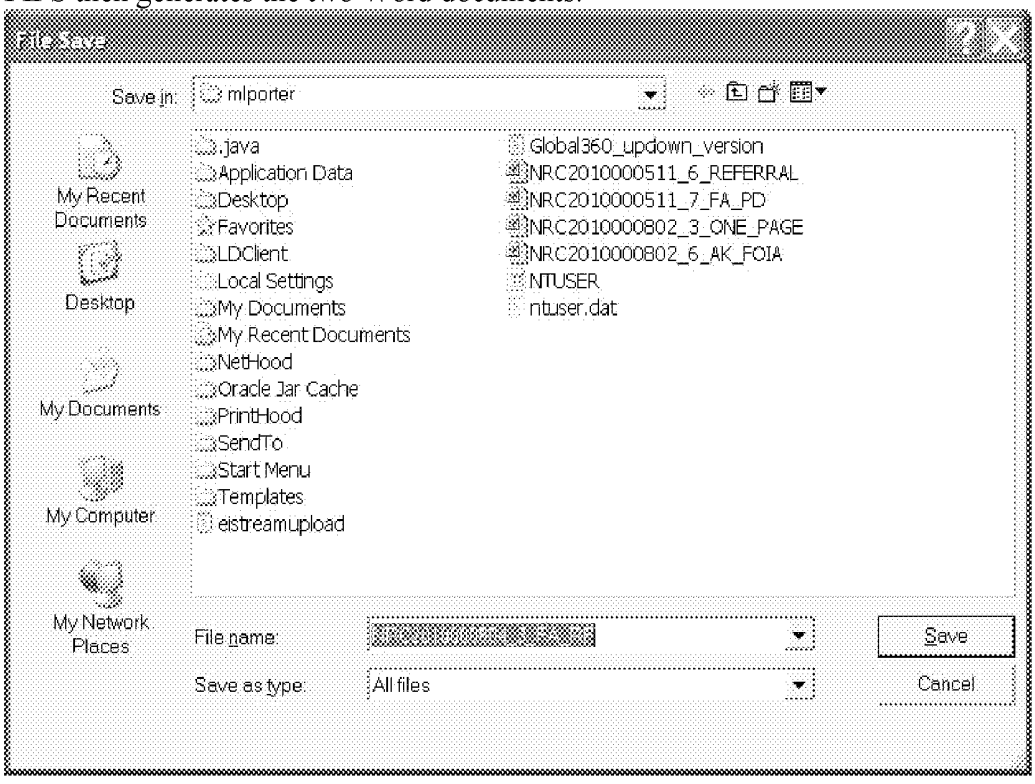


FIPS will automatically create two documents: A final action letter to the requester and a referral memorandum to the DHS component.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

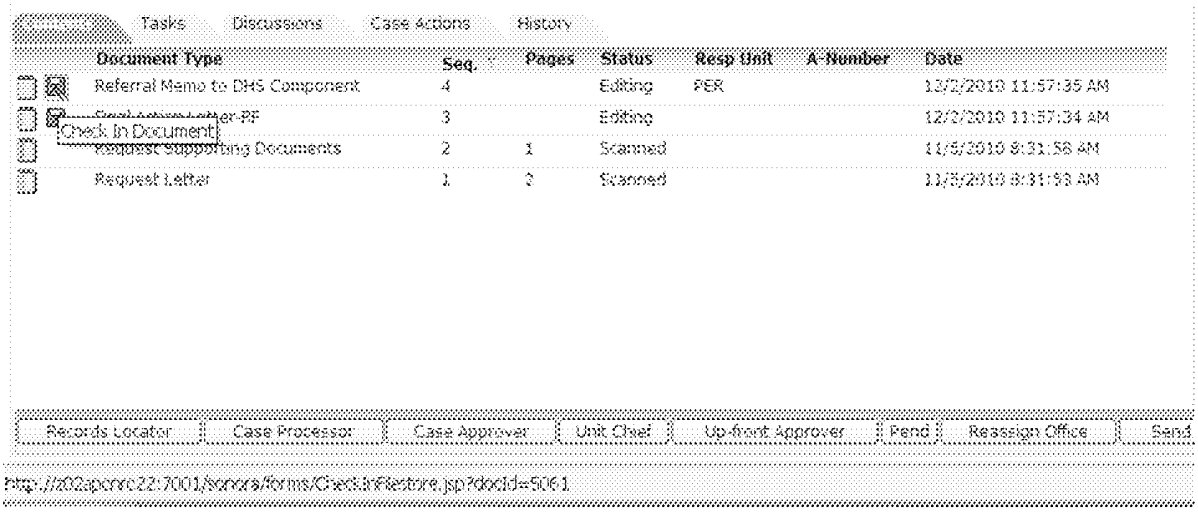


FIPS then generates the two Word documents:

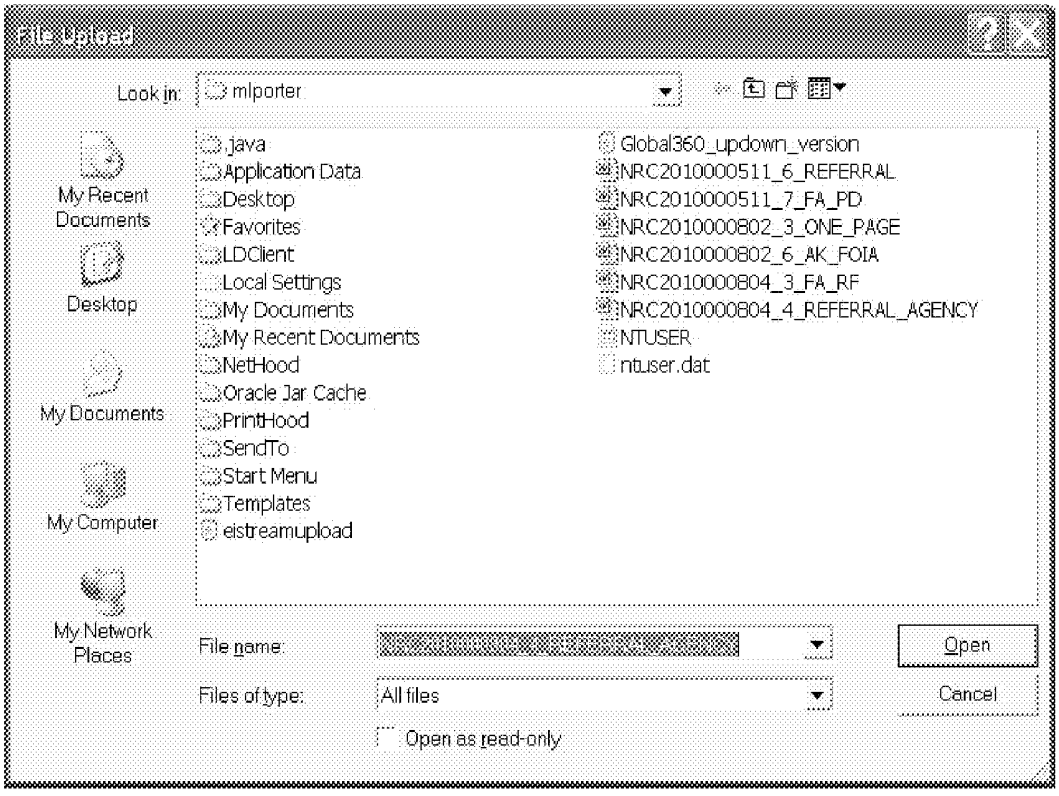


You may have to edit the letter to add needed information. After you exit from the Word documents, they will appear under the "Contents" tab:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Click on the "Check in Document" icon and you will get a "Save" dialog box. Click "Open."



After you have done this for both documents, send the case to Up-front Approver.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Redirection

If we receive a request for records that belong to an agency outside of DHS, we close it and write a "redirect letter." Under the "Tasks" tab, select Final Action Letter. Select "RD: Redirected to another agency" as the final action code. Under "Redirects/Referrals" select the agency to which we are referring the request and click "Submit."

An example of a request we close and redirect is a petition that we discover has been forwarded to the National Visa Center for issuance of an immigrant visa. The redirect letter advises the requester to contact the different agency for the information they are seeking. The procedure for the documents is the same as for referrals. You may have to edit the letters to add needed information. After you exit from the Word documents, they will appear under the "Contents" tab. Click on the "Check in Document" icon and you will get a "Save" dialog box. Click "Open." After you have done this for both documents, send the case to Up-front Approver.

Entry/Exit Information referral to CBP

CBP handles FOIA requests for entry and exit information dating back to 1982, inspection, Port of Entry (POE), requests for information relating to air and/or marine incidents, or the U.S. Border Patrol Academy, legacy Customs or legacy Inspections. Key words that you could see on a request relating to CBP are inspection, Port of Entry, Bridge of the Americas, Friendship Bridge, and smuggled goods. A FOIA request for this type of information should be referred to **CBP** at the address shown below.

U.S. Customs and Border Protection
FOIA Division
799 9th Street NW, Mint Annex
Washington, DC 20229-1177

Note: If the request is for entry/exit information and the requester/subject provided an alien number, staff for the file. If the request is for entry/exit information and the requester/subject did not provide an alien number, you must thoroughly search CIS and CLAIMS to be sure the person does not have an alien number or application. CBP has records on entry and exit information dating back to 1982, but no further back. You may modify the referral letter; any information you can provide as to what the requester is asking for will be helpful to CBP.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Border Patrol referral to CBP

If you encounter a Border Patrol Request in Case Create, refer the case to CBP. This includes Border Patrol records relating to apprehension, entry without inspection (EWI), smuggled humans, mobile patrol group, voluntary return, repatriation, or checkpoints.

Exception to this rule; if the requester provides an A-number or you locate an A-number through a search of the systems, please staff for the A-file.

Personnel/hiring practices/vacancy announcements

If you receive a request concerning employee records, vacancy announcements, or any personnel matter generally, please create the case as you normally would by filling in the blanks and controlling the case. After that, change the Category to PER. Do not create a staffing and do not send any correspondence to the requester. Add a Discussion note that this appears to be a personnel-type FOIA request. Send an e-mail to NRC, FOIASIG. After that, send the case to Unit Chief.

US-VT referral to US Visit

Refer requests relating to United States Visit. The United States Visit is a Border Security Program that records biographic, biometric and travel information for all foreign visitors to the United States. The system screens all crewmembers and passengers that travel to the United States by air, sea or land. United States Citizens are not in the system.

If the requester is asking for both a copy of the alien file and for entry and exit information, you should staff for the file. See Entry/Exit CBP information above.

DETERMINING TO STAFF BASED ON BEST INFORMATION AVAILABLE:

If you determine that the requester has provided all the PII possible after performing the CIS 9102 or 9106 and 9103 screen searches shown above, and there is only one person in the CIS 9101 screen with the same information, please staff for the file. However, prepare a Discussion explaining why you staffed for the file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

SOCIAL SECURITY NUMBER

USCIS does not use Social Security numbers in the Freedom of Information/Privacy Act requests. Even if the alien disclosed his or her SSN in the request, do not enter that number on the FIPS worksheet. We will not request the Social Security number when requesting additional documentation.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

STAFFING FOR THE RESPONSIVE RECORDS

After the acknowledgement letter is created, if all required information is present, the next step is to staff for the records that are responsive to the request.

How do you determine what records are responsive to the request? First, you have to read the request. Typically, the requester will ask for a complete copy of an alien file and they will provide an alien number. If this is the situation, you must verify in CIS that this alien number belongs to the subject.

There is a staffing guide/RPC reference sheet available on the FOIA Operations intranet page to use for staffing.

If the requester is only seeking specific documents, please make a Discussion in FIPS detailing what those documents are. You will also be mentioning those specific documents in your acknowledgment letter to the requester.

The Service Centers (except MSC/NBC) scan the responsive records into FIPS when they are the FCO for that file. Please see the staffing guide for more instructions on staffing for these types of Service Center files.

If the requester did not provide an alien number or receipt number but did provide enough information to conduct a thorough search, you should search CIS, CLAIMS and possibly PCQS to determine the subject's alien number or receipt number. If the requester did not provide enough information to conduct a thorough search, then you will have to ask the requester for more information.

We do not staff for "S" (substitute) or "W" (working) files unless instructed to by a supervisor/lead. After the creator has staffed for the appropriate files, the next and final step to case creation is to pend the case for the responsive records.

If the file is located at COW, with the Responsible Party Code (RPC) of RK, please insert a Discussion after you have created the case. The title of the Discussion should read "File is at RK." Send the case to Unit Chief. Send your supervisor an e-mail with the control number of the case and that the file is located at COW with an RPC of RK.

If you see an RPC of **"ZW"** in NFTS; that indicates the file is classified. Staff the file to the current FCO. If you see an RPC code ZW0004; that indicates the file is here at the NRC in the safe and you should staff: FOIA Safe.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If you pull a case that has a FOIA Safe staffing you should **NEVER** cancel the staffing sheet. Send the case to Pend.

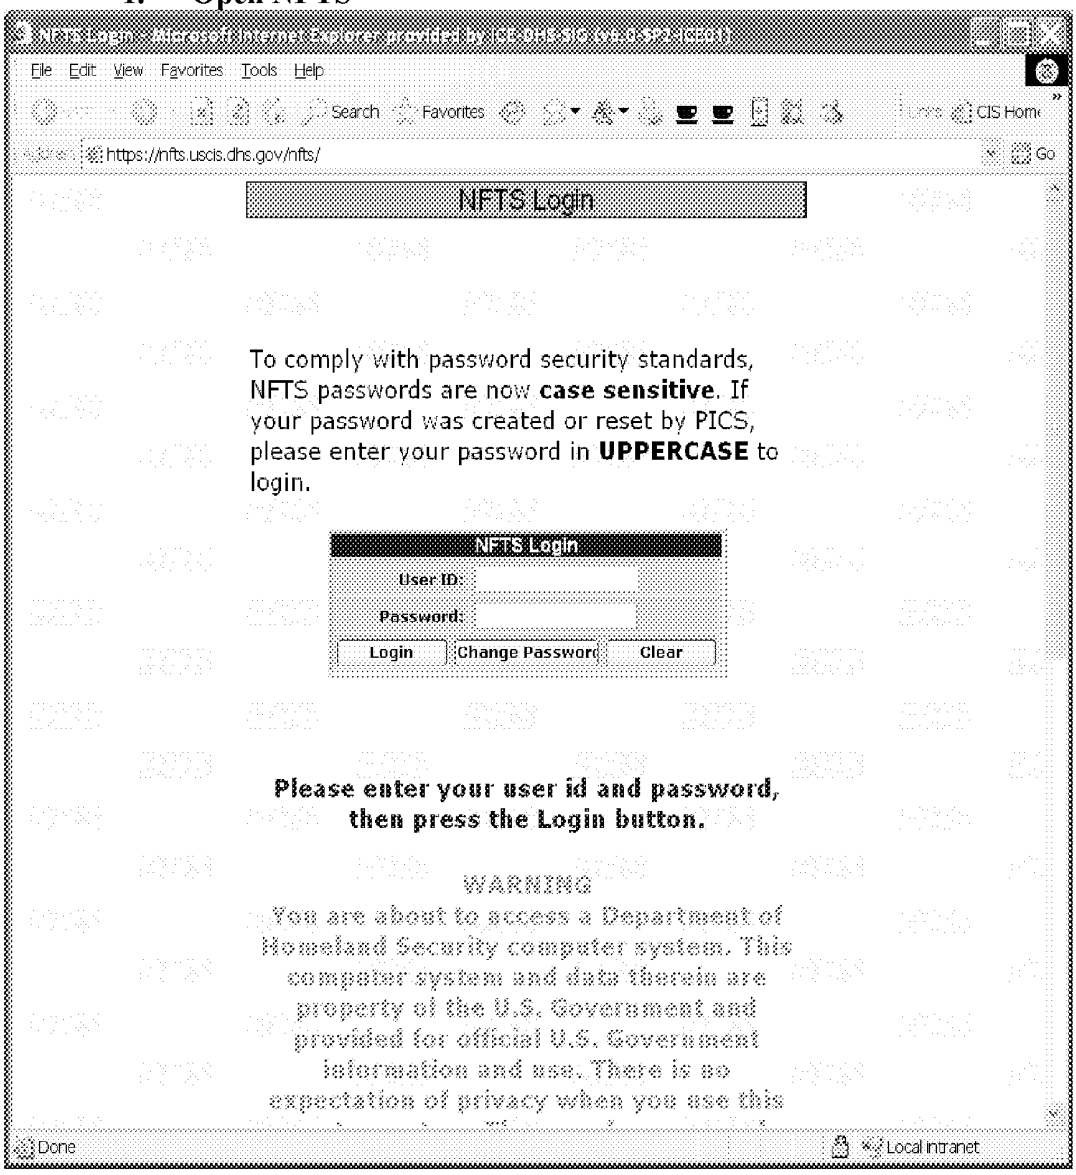
Staffing by Alien Number

One A-number provided on the request (with example staffing)

If an A-number is provided on the request and CIS confirms that it belongs to the alien, ensure you have all the other required elements (DOB, COB, DOE, POE and parents' names) to complete the case create. If any of the required elements are missing, request the additional information when sending the Acknowledgment Letter. The section that follows is a systematic example of staffing by A-number when the requester has provided one.

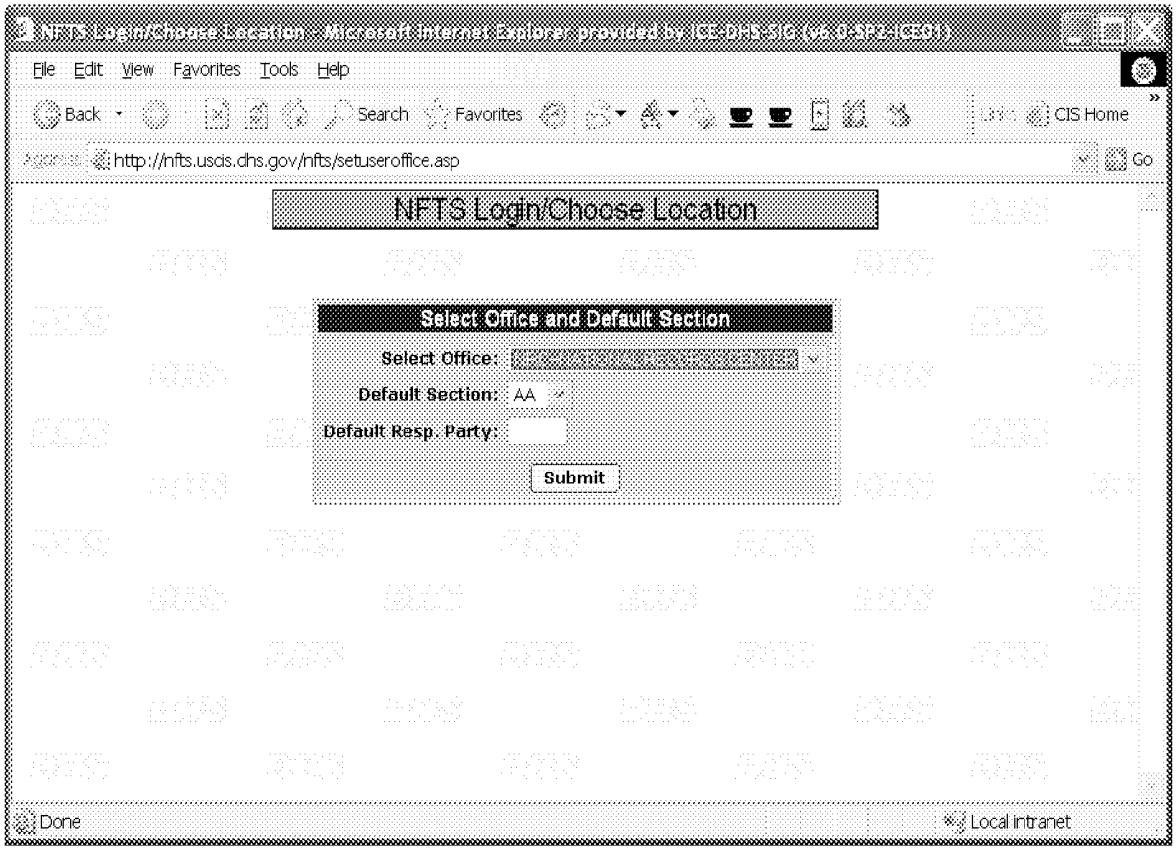
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. Open NFTS



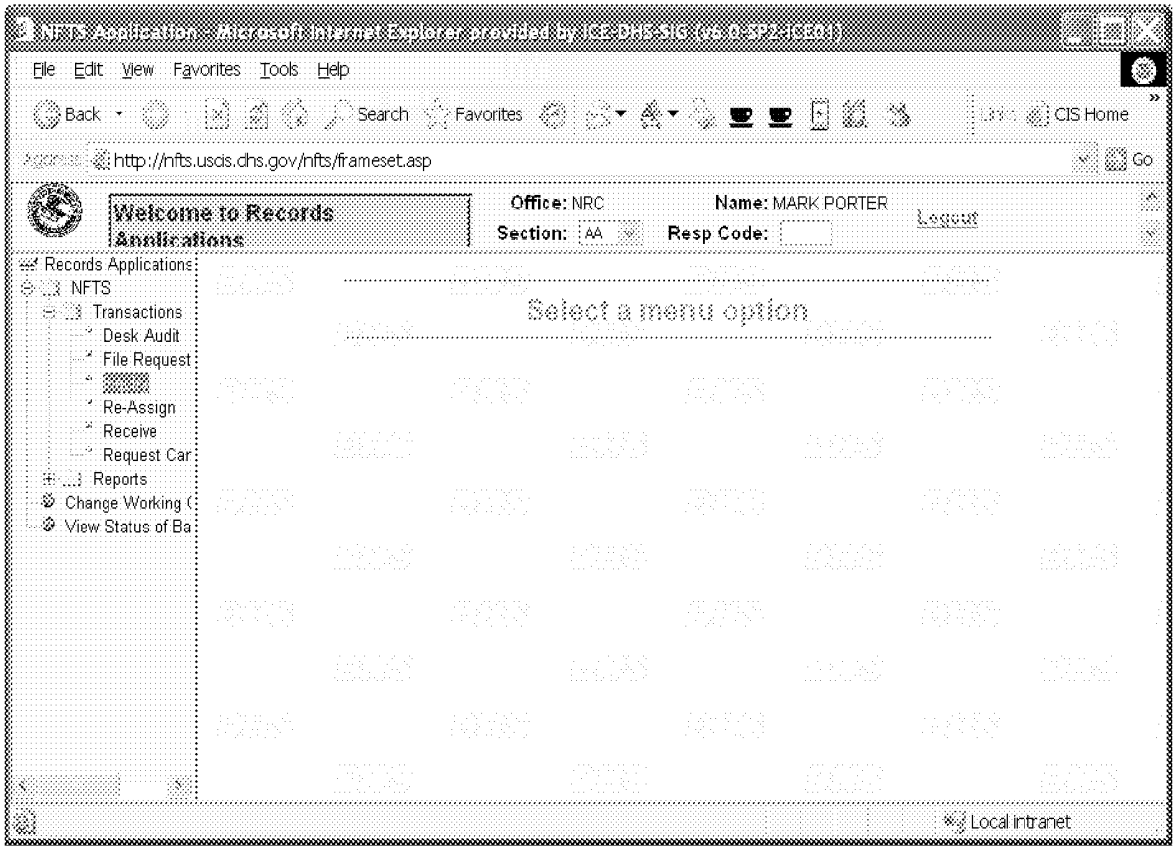
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

2. Submit your location



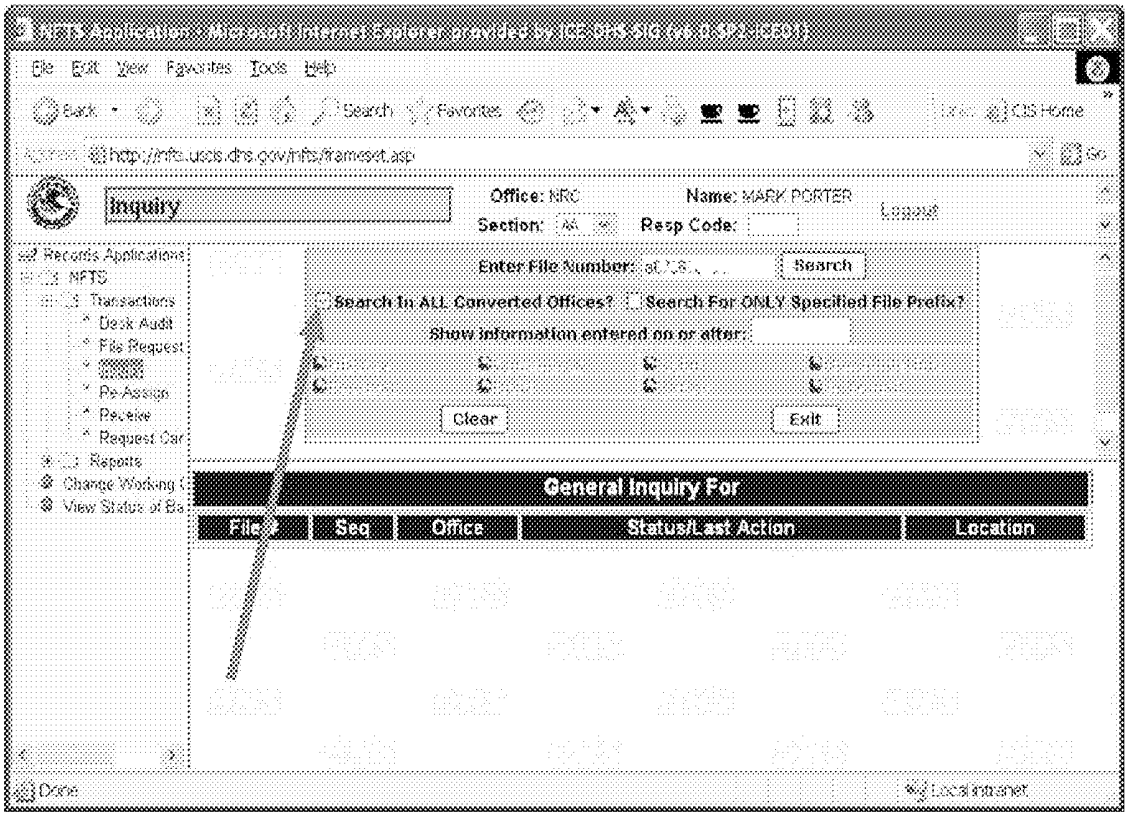
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

3. Select "Inquiry"



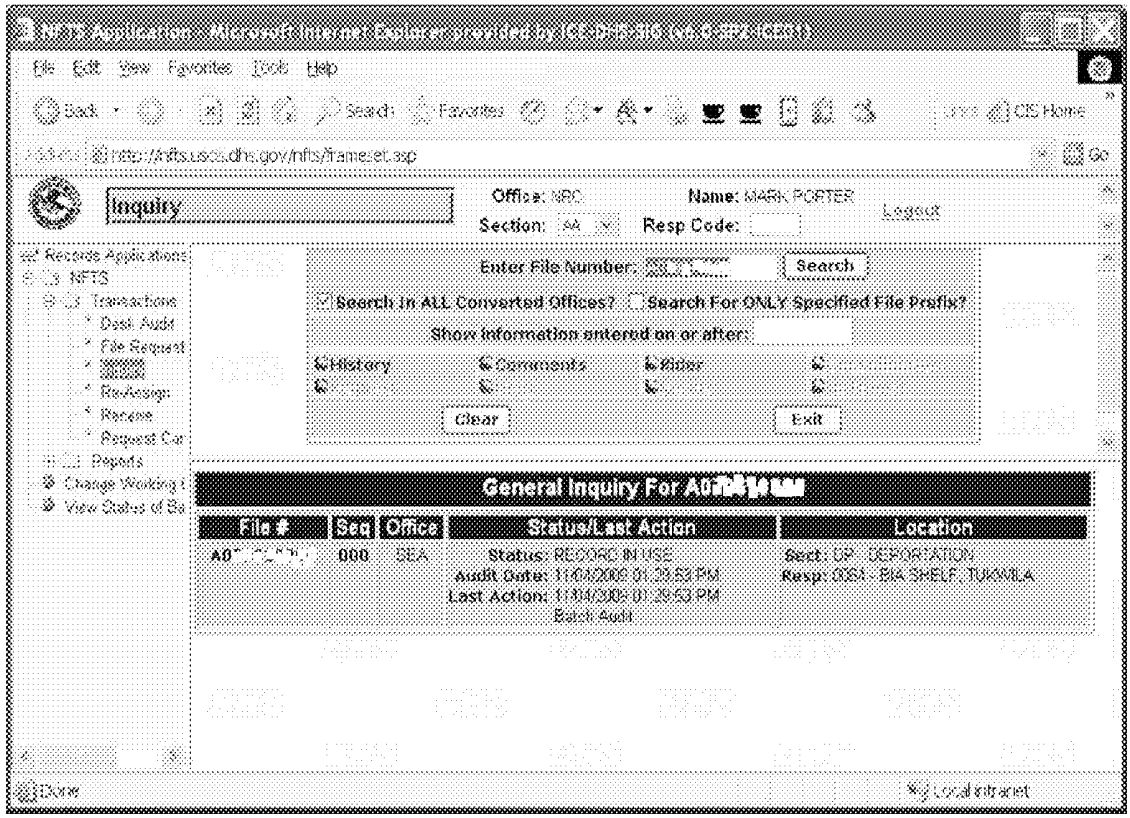
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. **Select "ALL Converted Offices"** and enter "A" or a "+" then enter the A-number. Preferably, paste the copied number from CIS so you are sure you are asking for the correct file.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5. The search result provides several pieces of information. First, we can verify from CIS that the File Control Office (FCO) is Seattle. The Responsible Party Code (RPC) is DP0064, and it tells us that DP means Deportation. Do you see the four boxes above the "Exit" button? Those are "Rider," "Consolidation," "Retire," and "In Transit." If any one of those is "grayed out," it means there is no information there. If one is "blued in," it means there is information and we should look at it.



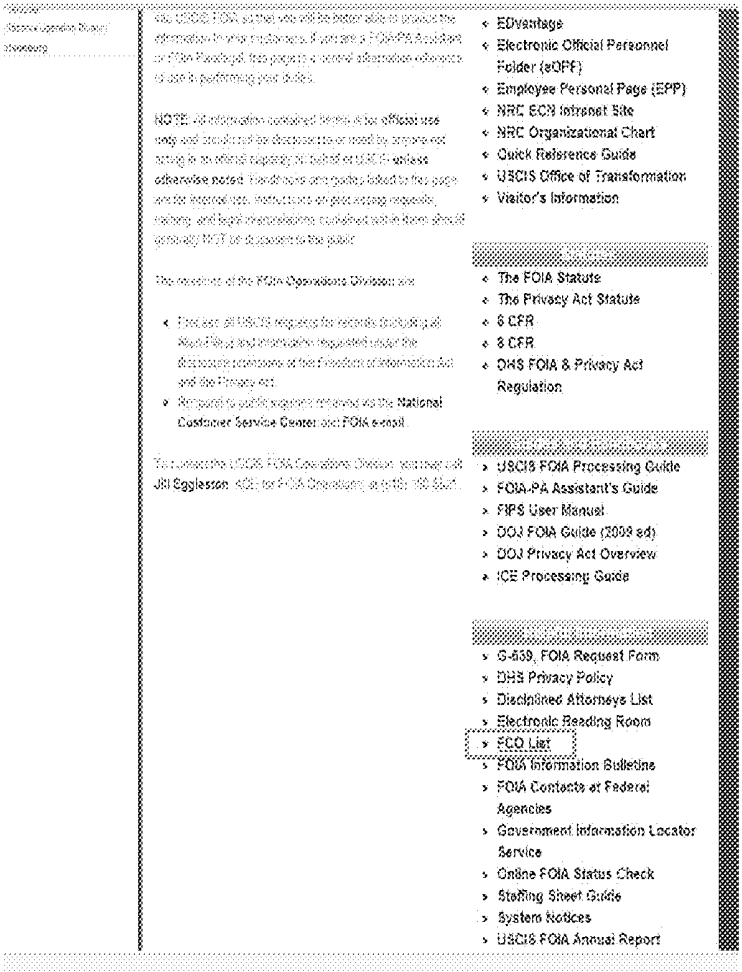
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6. "Blued in" information

- If "Retire" had been blued in, it would have been important. We would have used that inquiry screen to staff from the FRC.
- If "In Transit" had been blued in, it would have been important. We would have staffed to the receiving FCO.
- If "Consolidation" had been blued in, it would have been important. We would have checked to make sure our file is the "survivor" and not the consolidated file.
- "Rider" could be important to the case processor, but it has nothing to do with how we staff for this file.

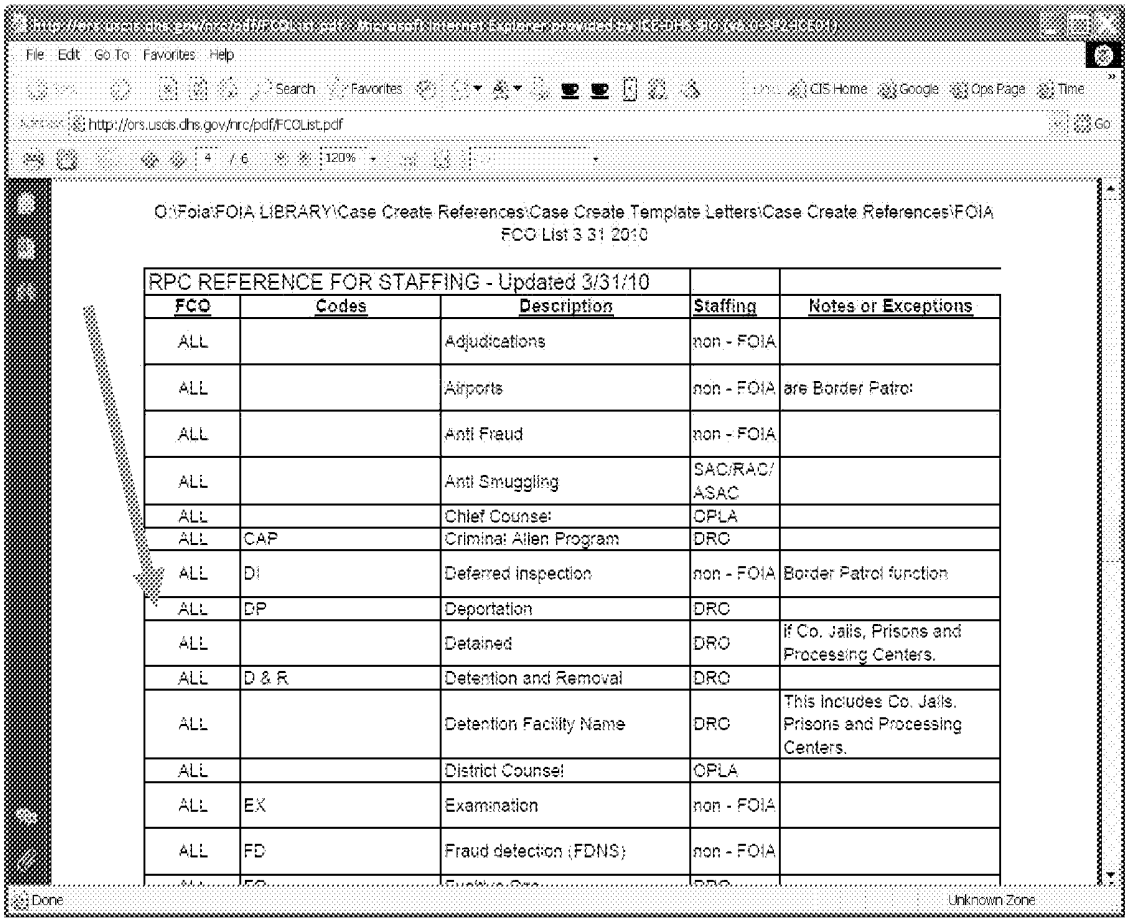
7. The FOIA Operations Division Intranet Page

Now, an RPC beginning with "DP" is easy because NFTS shows right beside it that it means "Deportation." Sometimes an RPC prefix can be important and it's not obvious right away. If that's the situation, we need to look at the FCO List, which also has the RPC Reference Guide.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

8. The RPC Reference Guide says that no matter what the FCO is, if the RPC starts with DP, we staff to DRO. If you don't already know this, SAC, RAC, ASAC, DRO and OPLA are all ICE functions. That's important for staffing.



O:\Foia\FOIA LIBRARY\Case Create References\Case Create Template Letters\Case Create References\FOIA FCO List 3 31 2010

RPC REFERENCE FOR STAFFING - Updated 3/31/10				
FCO	Codes	Description	Staffing	Notes or Exceptions

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

9. The FCO List

From NFTS we know that the FCO is Seattle. We should check to be sure that if the FCO is SEA that we staff to SEA. It's not always intuitive. For example, you can see that we staff SEA to SEA, but you can also see that if the FCO is LAW we staff to BOS.

SER	Southeastern Regional Office	Orlando	FL	SER	

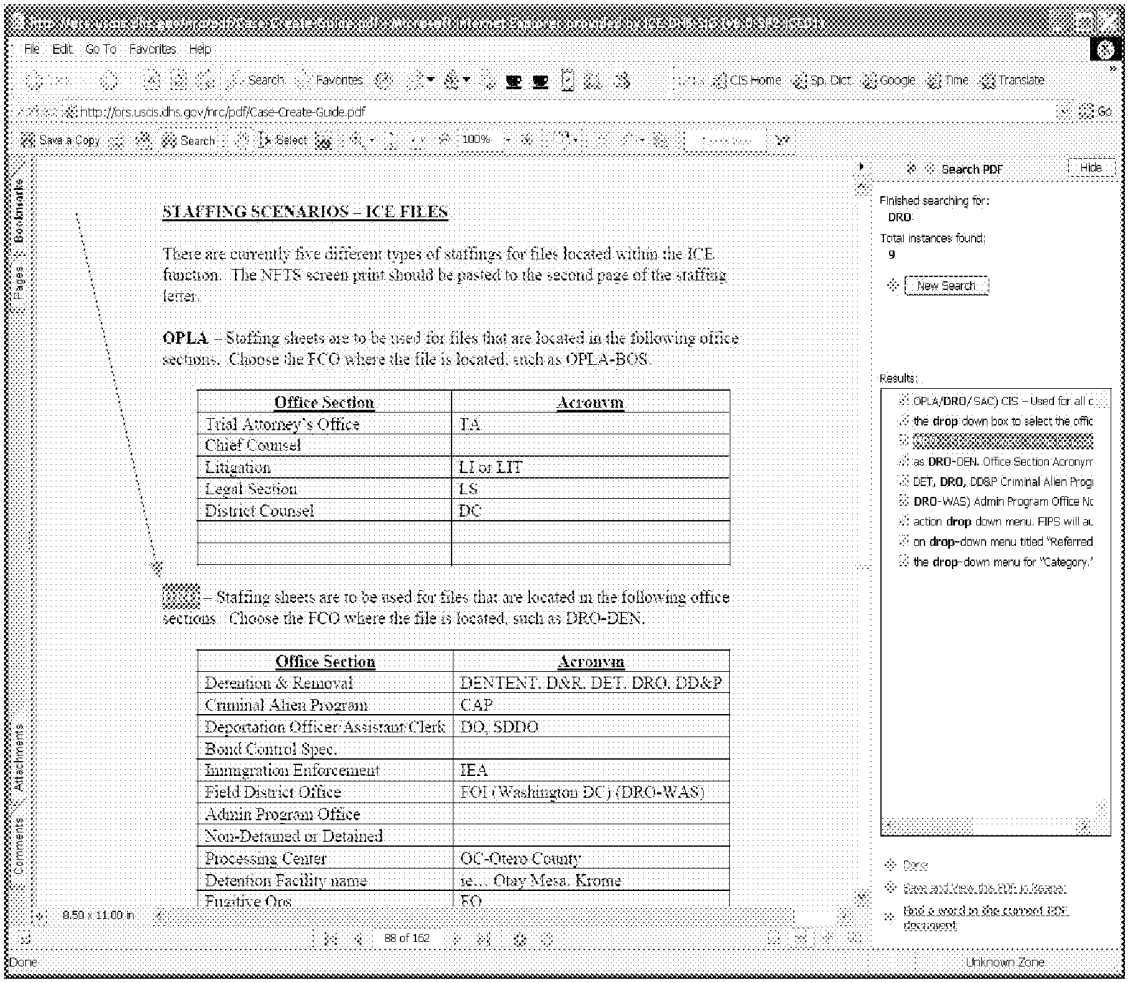
Prepared by NRC FOIA/MSB Page 1

Done Unknown Zone

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

10. Figuring out a Staffing Scenario

The Guide confirms what we thought. If we staff to DRO, then we choose the FCO where the file is located. We're going to look for DRO-SEA. Note that the quickest way for me to find the information is by searching "DRO." I could have also gone to the table of contents and looked under Staffing Scenarios.



STAFFING SCENARIOS – ICE FILES

There are currently five different types of staffings for files located within the ICE function. The NFTS screen print should be pasted to the second page of the staffing letter.

OPLA – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	TA
Chief Counsel	
Litigation	LI or LIT
Legal Section	LS
District Counsel	DC

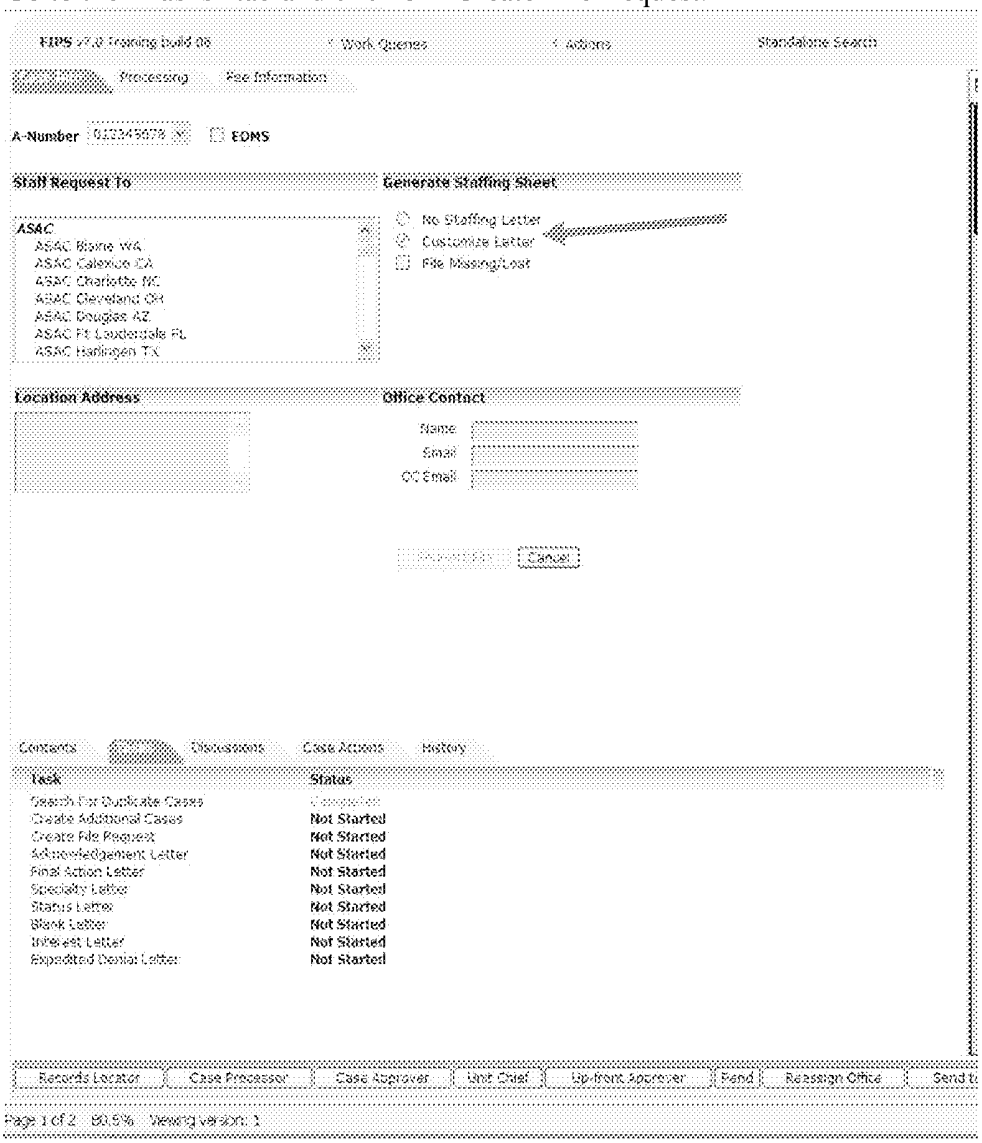
[redacted] – Staffing sheets are to be used for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	DENTENT, D&R, DET, DRO, DD&P
Criminal Alien Program	CAP
Deportation Officer/Assistant Clerk	DO, SDDO
Bond Control Spec.	
Immigration Enforcement	IEA
Field District Office	FOI (Washington DC) (DRO-WAS)
Admin Program Office	
Non-Detained or Detained	
Processing Center	OC-Otero County
Detention Facility name	te… Otay Mesa, Krome
Fugitive Ops	FO

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

11. Generate the staffing sheet

Go to the "Tasks" tab and click on "Create File Request."

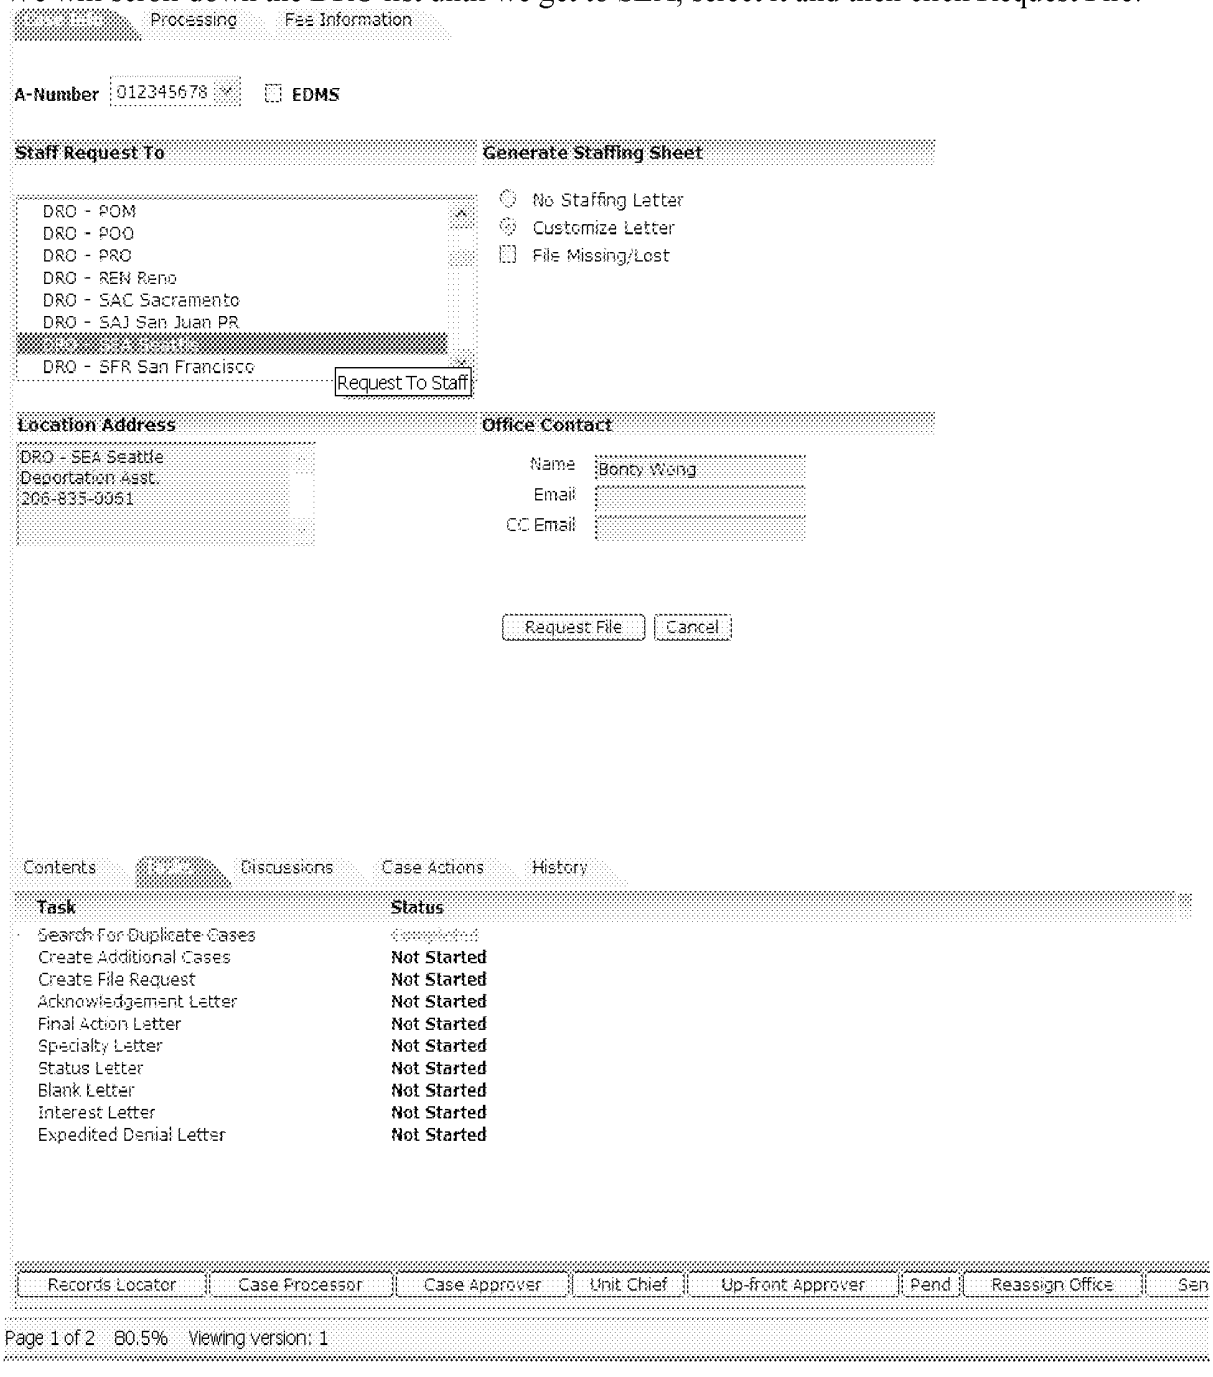


After we click on "Staffing" we get a "Generate Staffing Sheet" screen. Make sure the button marked "Customize Letter" is selected. The file is not missing or lost, so we won't check that box. We know the file is at DRO Seattle, so we will scroll down "Staff Request To" until we find it.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12. FIPS – Staffing Request dialog box

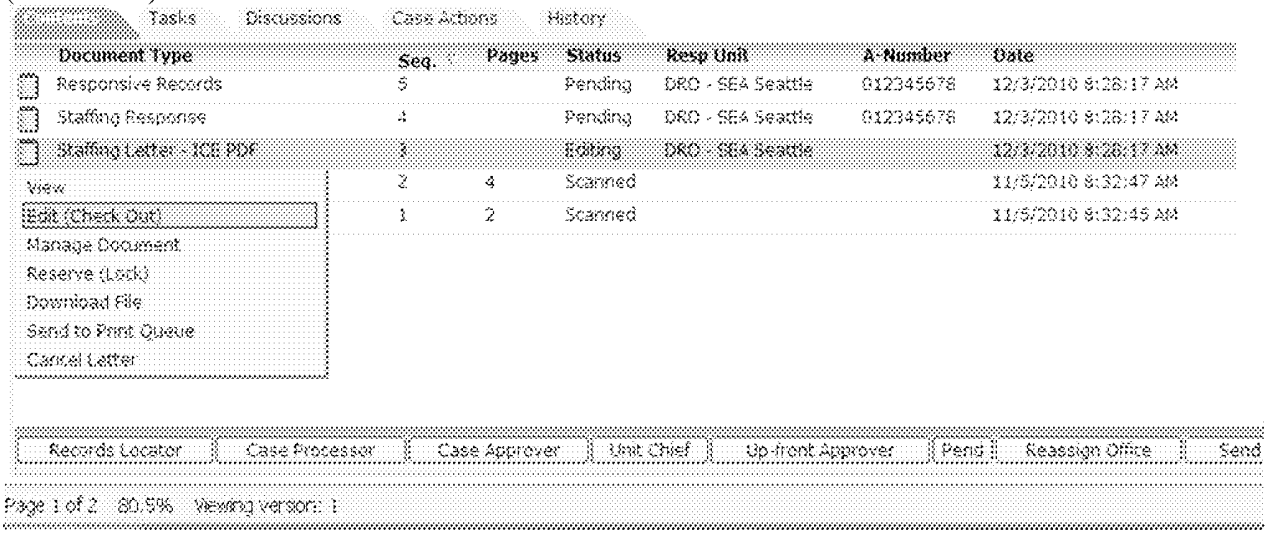
We will scroll down the DRO list until we get to SEA, select it and then click Request File:

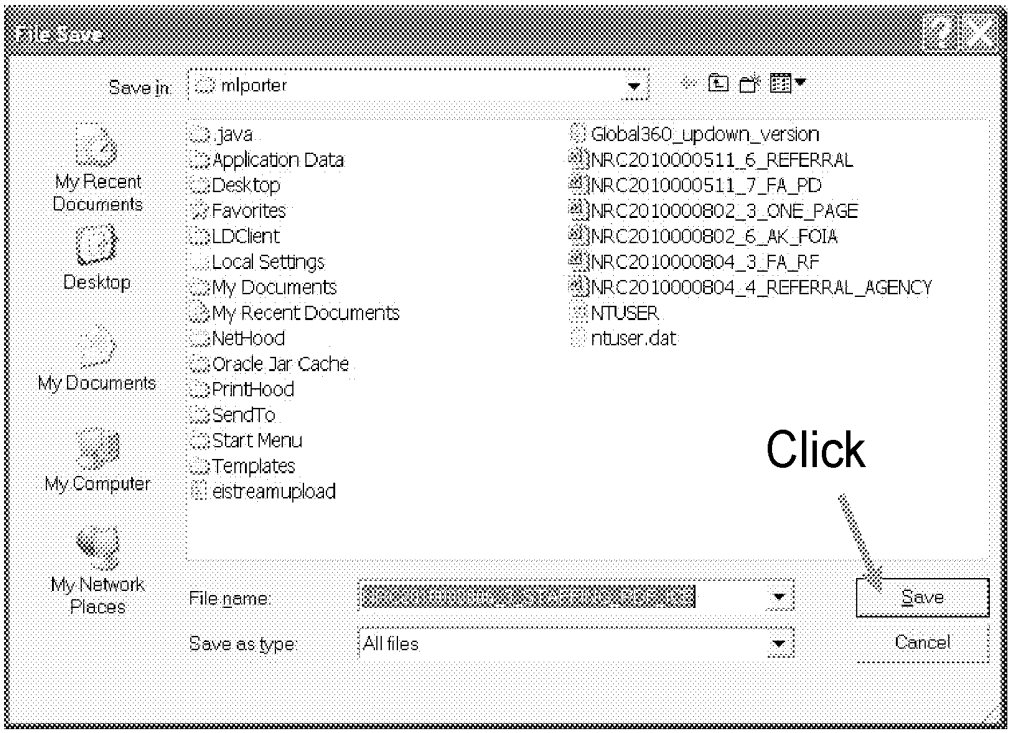


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

13. Create the customized staffing letter

After that, we get a message that says "Successfully generated letter Staffing Letter – ICE PDF." Click OK and then move to the "Contents" tab. Click on the Staffing Letter and select "Edit (Check Out)."





WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

As soon as I clicked "SAVE," FIPS opened the staffing letter for me in Word.

NRC2010000806

MEMORANDUM FOR:
DRO - SEA Seattle
Deportation Asst.
206-835-0061
Bonty Wong

ATTN: Bonty Wong

FROM: NRC FOIA/PA

SUBJECT: Freedom of Information /Privacy Act Request NRC2010000806
Alien #: 012345678
Subject Name: Chris P. Bacon

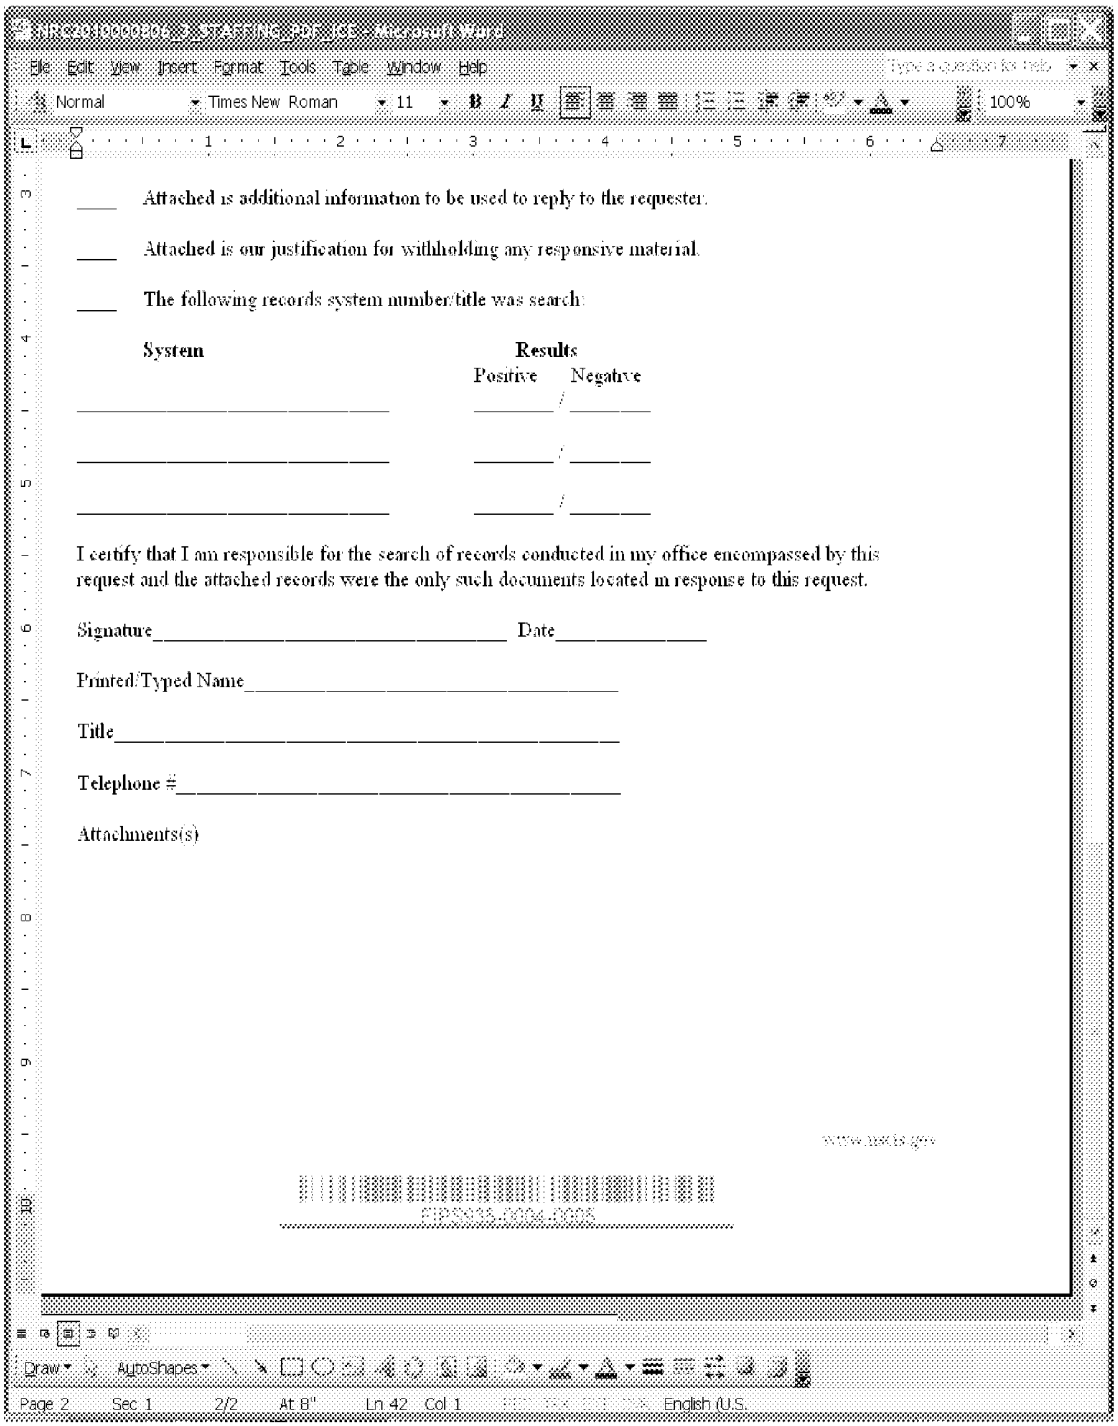
The attached FOIA/PA request is forwarded to your office for action. Due to the subject matter, there is a high probability your office will have records responsive to the request.

- Please conduct a thorough search for all responsive records physically in, and within the functional purview of your office.
- Send a copy of all responsive documents to the FOIA office in their entirety. **DO NOT MAKE REDACTIONS.**
- Bracket any documents or portions thereof that you believe should be withheld. Please include a brief explanation for your action. **The FOIA Staff will not release those items so indicated without further discussion with you.**

Should you need other assistance or believe this request should be staffed to another office, please

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

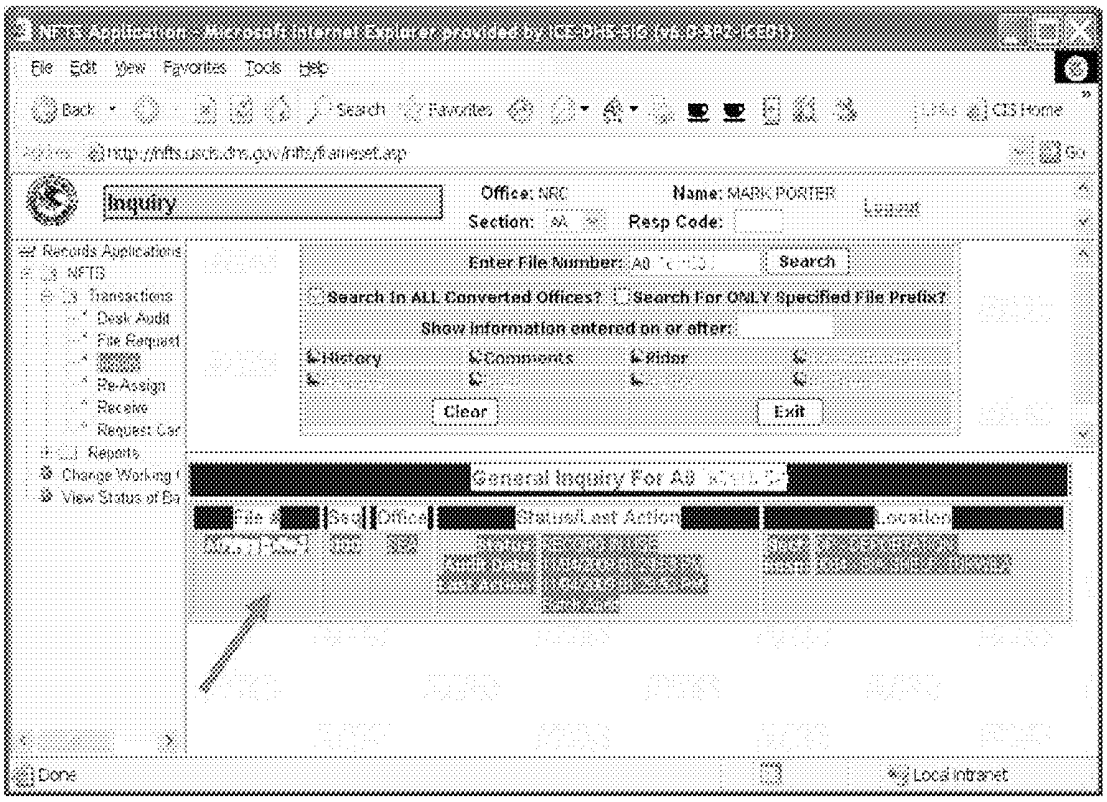
Go to the end of the letter and position your blinking cursor below the word "Attachments." Next, we go back to NFTS and copy the location information.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

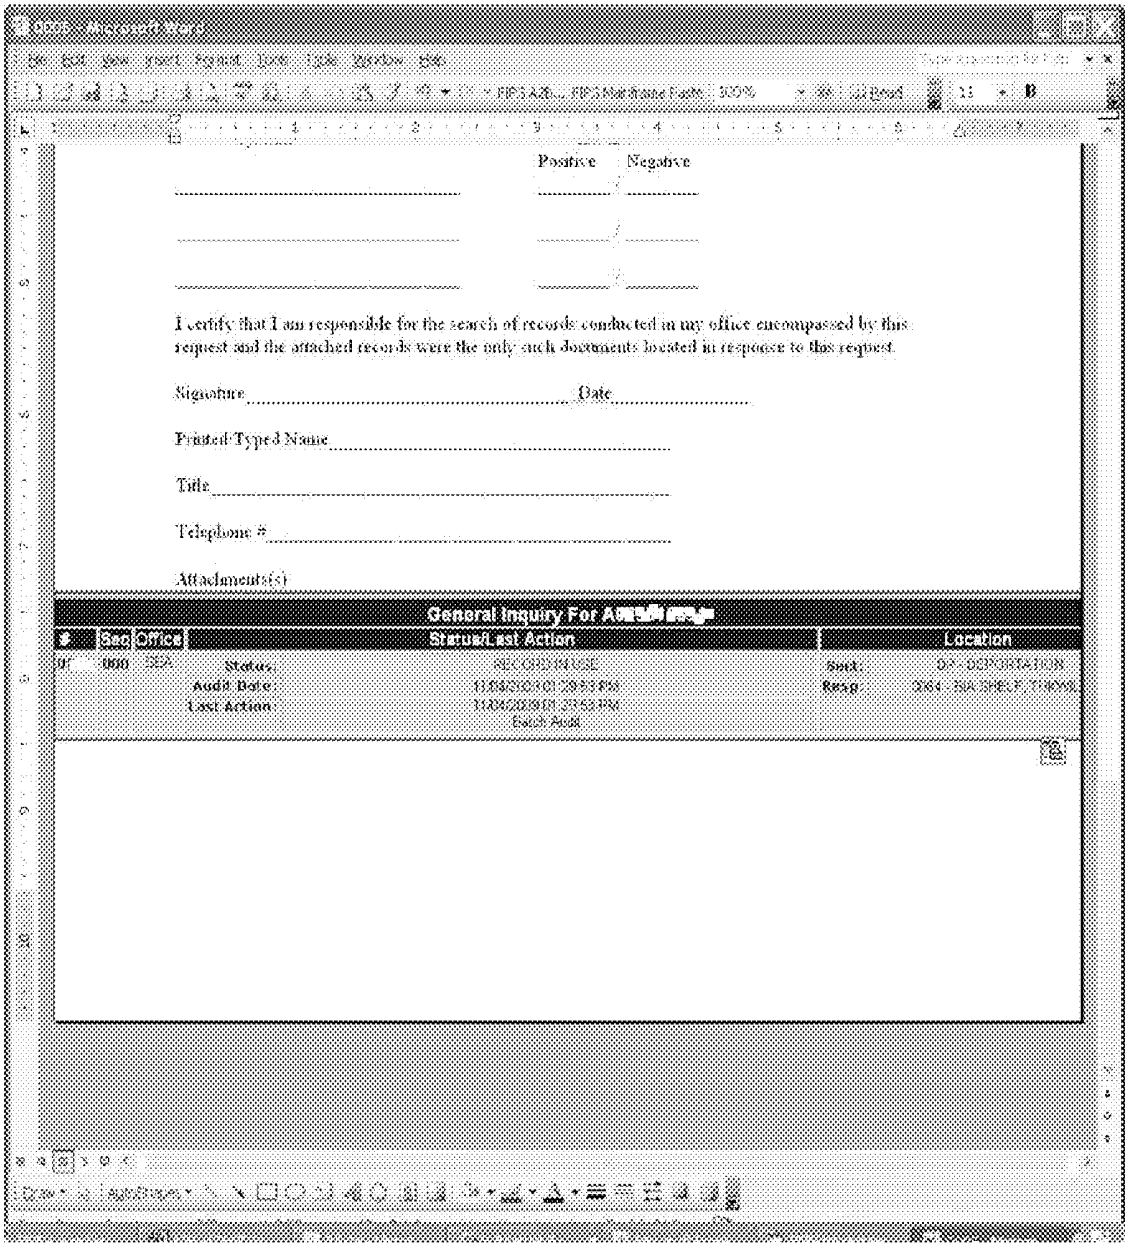
14. Put the staffing information in the staffing letter

Right-click somewhere in the gray area below "General Inquiry." You will get a drop-down dialog box. Click on "Select All." Right-click again and select "Copy." Now we will paste the information into the staffing letter.



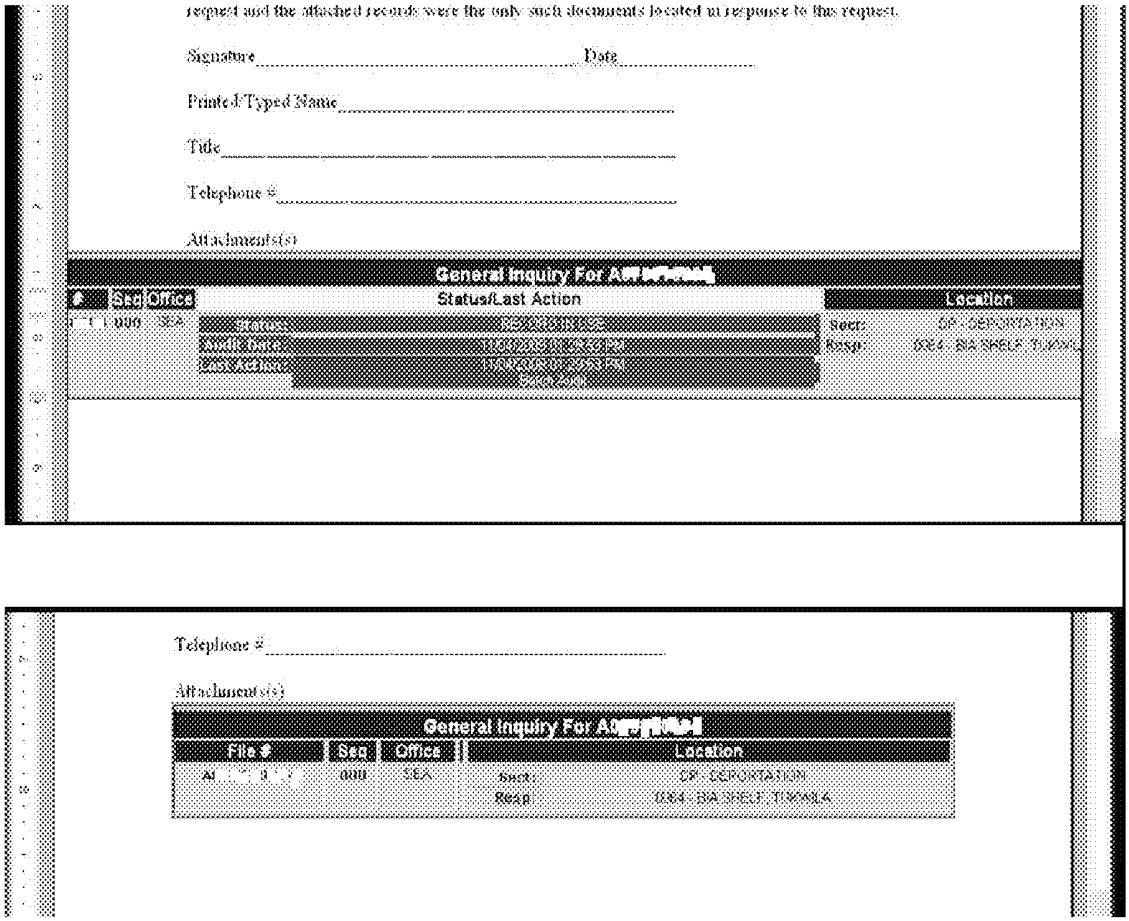
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Immediately after pasting, we notice that the result is imperfect and we will have to repair it.



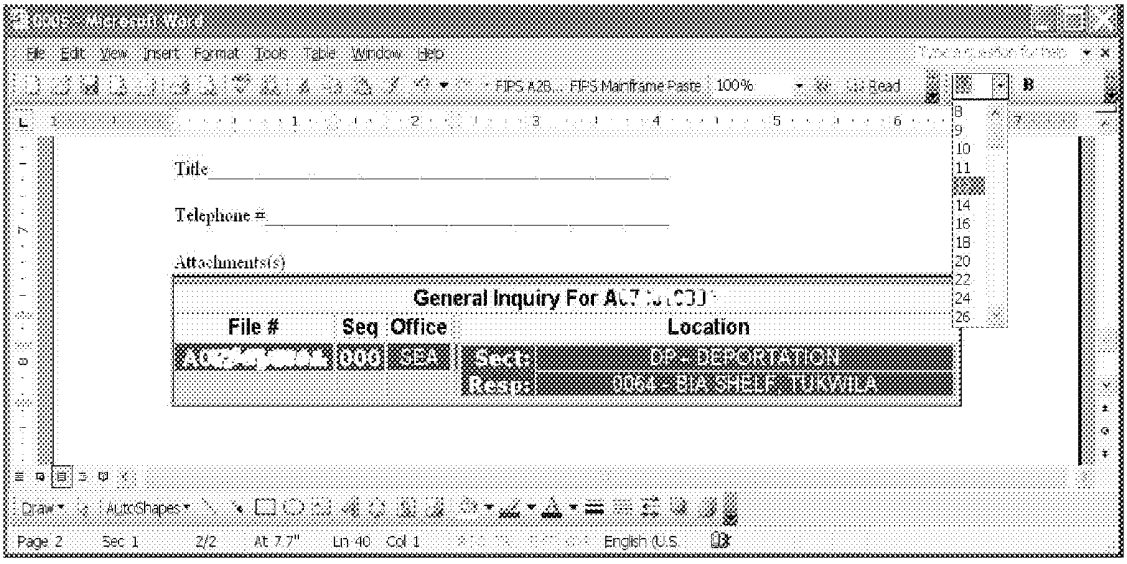
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Left-click and highlight everything in the center column, starting at Status/Last Action, then press Delete.



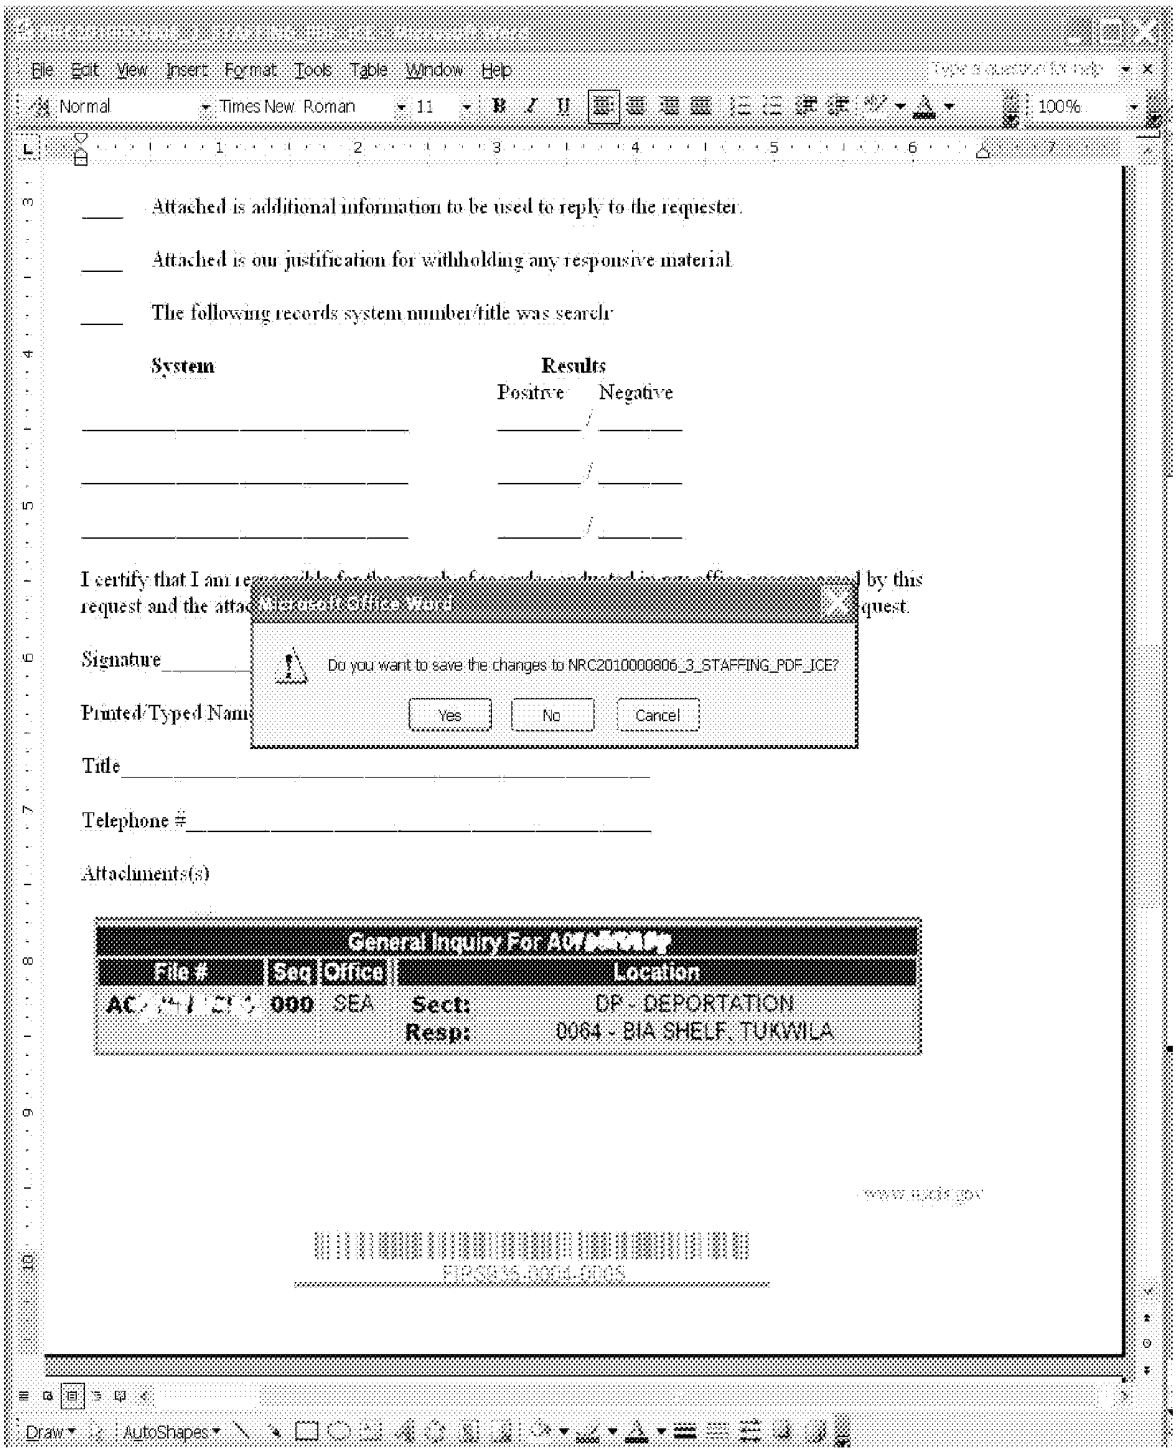
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, highlight the whole area and change the font size to 12.



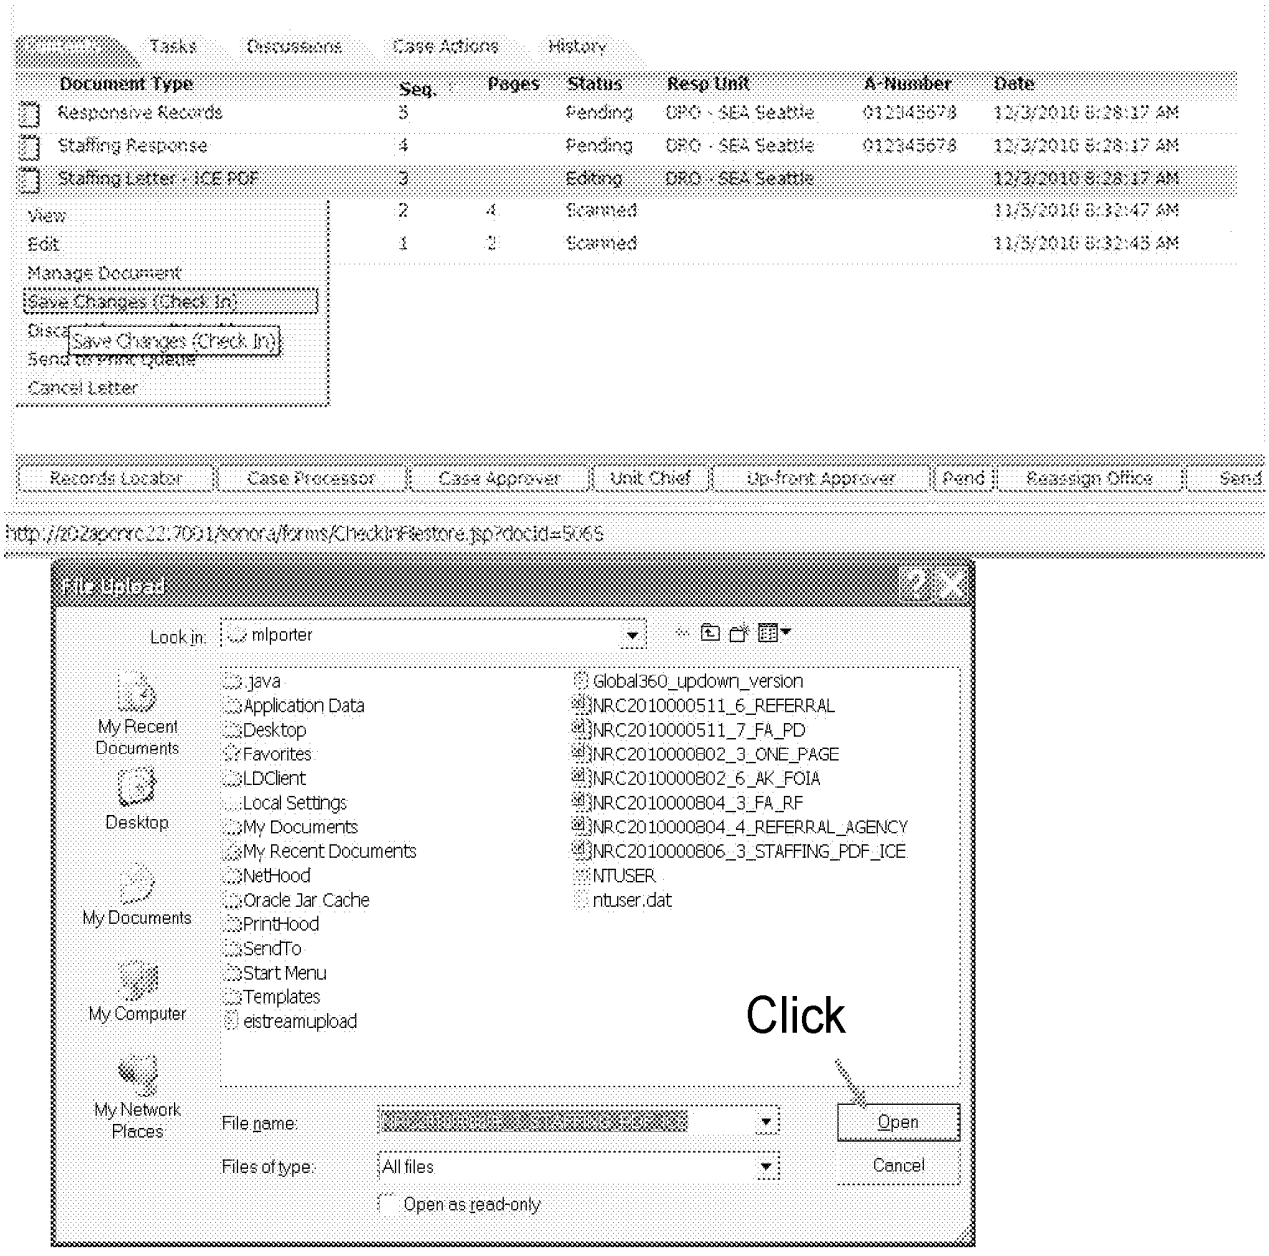
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Finally, we exit and save our work. We have successfully staffed for the A-file. The next thing we have to do is check the staffing letter back in.



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

15. Save changes and check it back in



After this, send the case to "Pend."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Two or more A-numbers

Multiple unconsolidated A-numbers - If the requester has provided more than one A-number, you must research CIS for each A-number to determine if they relate to the subject. If the subject has multiple A-numbers, you will create one case and do multiple staffings. When you are required to staff for two or more unconsolidated A-files, the individual staffing sheet must include the words **"MULTIPLE STAFFINGS"** at the top of each sheet. Do not confuse this with the subject of the file having an "A" file and a "T" file. The alien numbers must refer to different unconsolidated A-files and relate to the subject of the request if you are to mark it **"MULTIPLE STAFFINGS."**

Important note 1: If one of the files you are staffing for is located at RAFACS/CIS, FRC or one of the Service Centers, staff for those alien numbers first. These locations produce the file faster than other offices. MSB will not know to pull the staffing letters for follow-up unless you noted "Multiple Staffing" on the sheet.

Important note 2: If one of the A-numbers you are staffing for is "digitized," do not use that alien number on the FIPS worksheet. Use one of the subject's other alien numbers on the worksheet. To determine if the file has been digitized, look in CIS at screen 9504. The Current FCO will show DIG.

If the alien has multiple unconsolidated A-numbers and the files are both located at the NRC, please add them to the spreadsheet that Records Operations maintains at *S:\Record Ops\Files to Consolidate.xls*. You are responsible for entering the alien numbers of the files that may possibly need consolidation. Records Operations will review the files and consolidate if necessary. If both files are not at NRC, do not add the information to the spreadsheet.

Consolidated A-numbers

If the alien has a consolidated A-number, then please enter only the lead (or surviving) A-number on the worksheet in FIPS and staff for that file. Consolidated A-numbers are reflected in CIS on the 9101 screen, under the section titled "Consolidated A-Nos". The A-number listed first is the primary A-number; the other A-numbers listed below the primary have been consolidated into the primary number.

Note: please do not add consolidated A-numbers to the "files to consolidate" spreadsheet.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Border crossing card number

If the alien number provided by the requester is an 80,000,000 through 86,899,999 series number, it is a Border Crossing Card number. Even though you can research this number in CIS, there is no physical A-file associated with these types of numbers. You will need to research CIS and CLAIMS to see if there are any other A-files/receipt files associated with this alien.

Previously during the Case Create process, if a requester/subject provided a Border Crossing Card Number and all of the required PII (except an A-Number), we asked the requester/subject to provide additional information (Alien or receipt number, copies of documents from the service, etc…). We used this information to determine if the subject had an A-File. We would find the A-file only in very rare instances.

We no longer request additional information if the requester/subject provides all of the required PII (except an A-Number). Since Border Crossing Cards are strictly electronic records (no actual file), we will have the Border Crossing Card screen prints scanned into a RAFACS slot.

Use the Border Crossing Card Number provided; search and print CIS screens 9101, 9101-history (F8), 9222 and 9223. Open a RAFACS staffing slot. Make sure "Customize Letter" is selected. Prepare the screen prints for scanning into this slot as responsive records. Pend the case for responsive records. Please attach a "Scan As" sheet and mark it as "responsive records" with the screen prints to be scanned. The case will be sent to the processor after screen prints are scanned in. Create it as a Track 1 case.

Note: Alien numbers from 86,900,000 through 87,999,999 are not Border Crossing Card Numbers; they are general alien numbers and have corresponding A-files.

EAD numbers (100,000,000 through 149,999,999)

If the alien number provided by the requester is 100,000,000 through 149,999,999, it is an EAD (Employment Authorization Document) card number. There is no physical A-file associated with EAD numbers, even though they can be researched in CIS. You will have to research CLAIMS to locate the receipt number that corresponds with the EAD number, and then staff for that receipt number. Please refer to the section titled ***Staffing Scenarios – Receipt Files*** for additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

New alien numbers (300,300,000 through 300,322,501)

As of June 2009, the range of numbers 300,300,000 through 300,322,501 are being used as general A-file numbers.

Receipt numbers

Receipt numbers are comprised of the three-letter office code, followed by a 10-digit number. Receipt numbers are assigned to applications and petitions filed with the Service, such as Form I-765, Employment Authorization applications and Form I-130, Petition for Alien Relative. If the requester provides a receipt number on their request, log into CLAIMS and verify the information.

If the requester provides only a receipt number and it is for a Service Center we work, then we need to staff for the receipt file. Enter the receipt information into the Topic field. Make the first part of the description the receipt file number. Use the complete receipt number with no spaces or dashes. Do not write the name as "Last Name, First Name."

Example of the correct way: EAC0812345678
An example of how **NOT** to do it: EAC-08-123-45678

If every case creator enters receipt information the same way, it is easier for the next case creator to identify duplicate or similar cases. The next case creator may base the search on "EAC081234567%," and if the previous case creator entered dashes, the search will not identify the duplicate.

Do not staff for receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA MSC/NBC staffing sheet. **Do not staff for DIG T-files at HBG with RPC codes XX or ZG.** Refer to the Staffing Sheet Guide for the most current information.

Archives and Records Centers Information System (ARCIS)

ARCIS is a new system used by the Federal Records Center (FRC) to track the location of retired files. The accession data is now 27 digits long. NFTS will not accept the accession data because of the length. Instead, you will see the word "ARCIS" in the location field in NFTS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

When the case you are creating shows the file is located at FRC and you see the word "ARCIS" in the location field in NFTS, use the FRC staffing sheet and paste the retired screen from NFTS.

Not all files located at the FRC will have "ARCIS" in the location field. For those files, continue to staff using the FRC staffing sheet and paste the retired screen print.

Staffing Scenarios

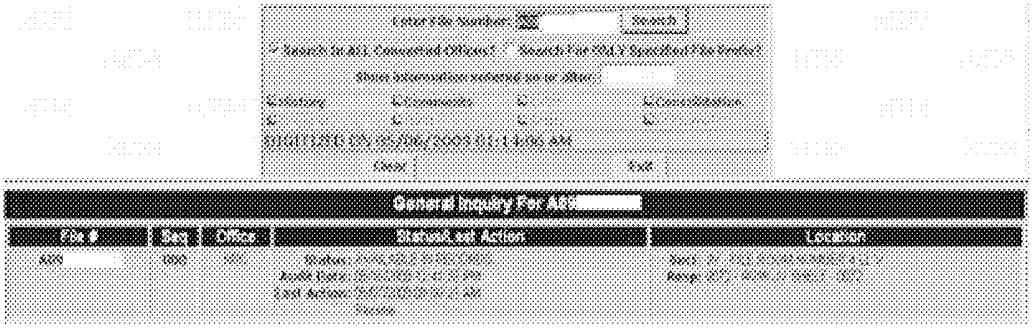
Digitized files

If you are staffing for an A-file that has been digitized please use the **RDF** staffing sheet. If the file has been digitized, the current FCO does not matter; you would still use the RDF staffing sheet.

How do I tell if it is a digitized file?

NFTS will show the "Location" of the file as either **RDF** or **NRC**. If the file location is NRC, you will see a banner stating "DIGITIZED ON ...." The screen print below is a sample of the NFTS screen.

The temptation may be to staff RAFACS/CIS because the file shows available in records at NRC. Do not do that. If it shows "DIGITIZED," then staff to RDF. Also include any T files you find in the General Inquiry screen.



Paste in the "General Inquiry" information on the RDF staffing the same as you would on a RAFACS/CIS staffing. Delete the status/action item column, but DO NOT delete any T-files.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

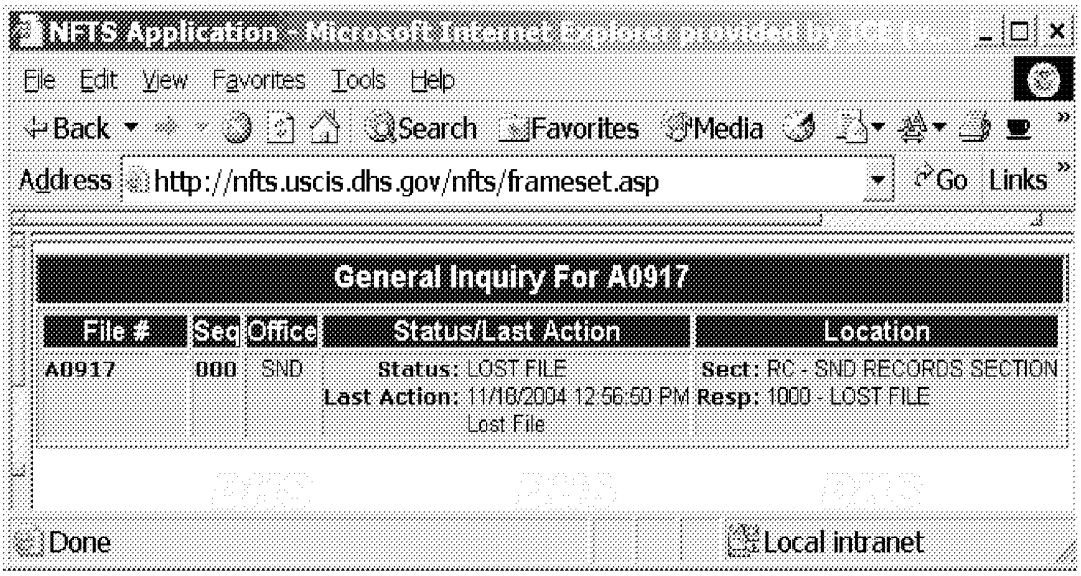
MSB will know the file is digitized because you have staffed using an RDF staffing sheet. This also applies to Retired files that have been digitized. Do not use the retired screen on Retired digitized files. An example has been provided below.

In the example above, you will have to make two staffings. Notice there is a T-file currently in use at OPLA San Francisco? That also changes the Category of the case to "SFR Cases at NRC."

Files Lost or Not Found LESS THAN NINE MONTHS

When an A-file is lost, it will appear in NFTS as a "Lost File" in the Status/Last Action section of the General Inquiry screen.

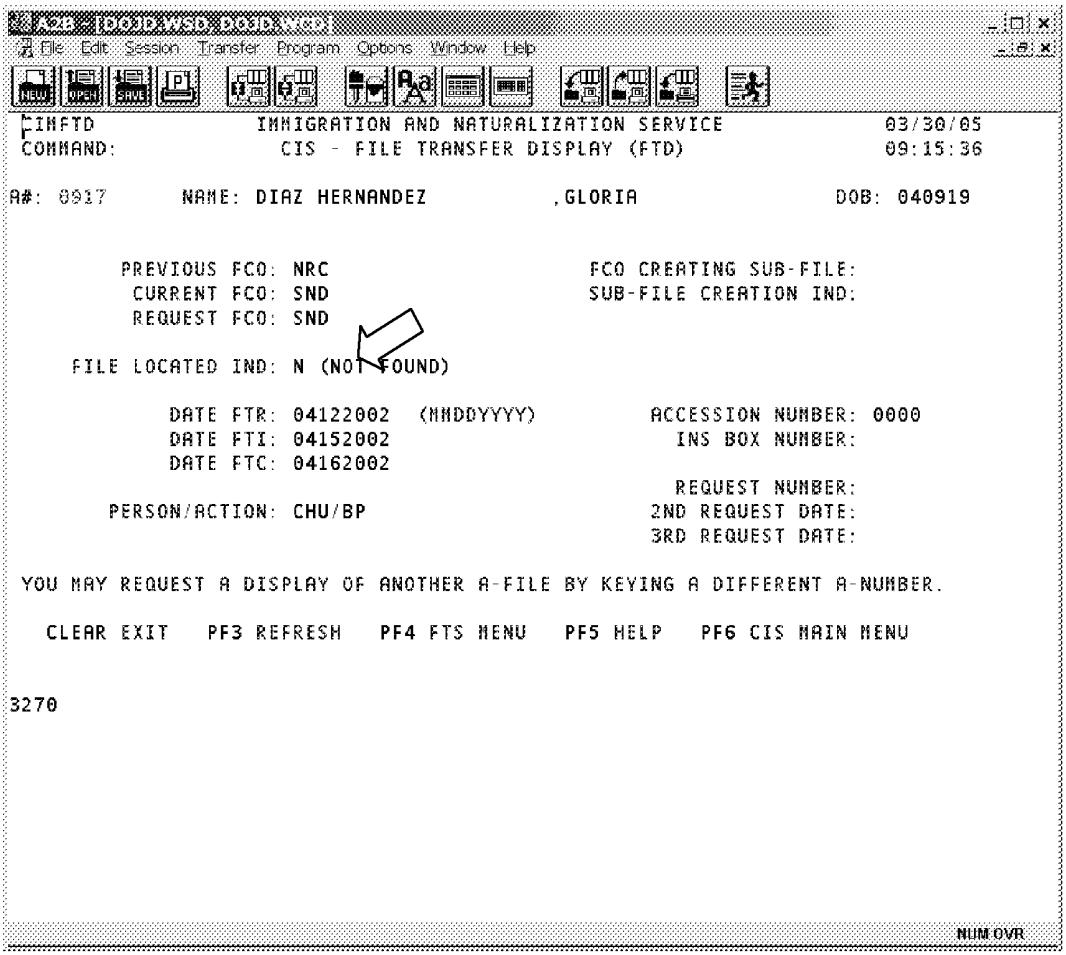
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



A lost file in CIS will appear in the CIS-9504 screen as "N (Not Found)" in the section titled "FILE LOCATED IND:"

If the "Last Action" is more than nine months ago, move to the next section of this guide, Files lost or not found MORE THAN NINE MONTHS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When the file appears lost in CIS 9504 and NFTS, Staff using the Lost File at FCO:_____ staffing sheet (include the FCO that shows the file is lost).

Exception: If the file shows lost in CIS-9504 and NFTS shows the file in use, staff for the file per the FCO in NFTS.

Under "Generate Staffing Sheet" mark the box "File Missing/Lost".

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

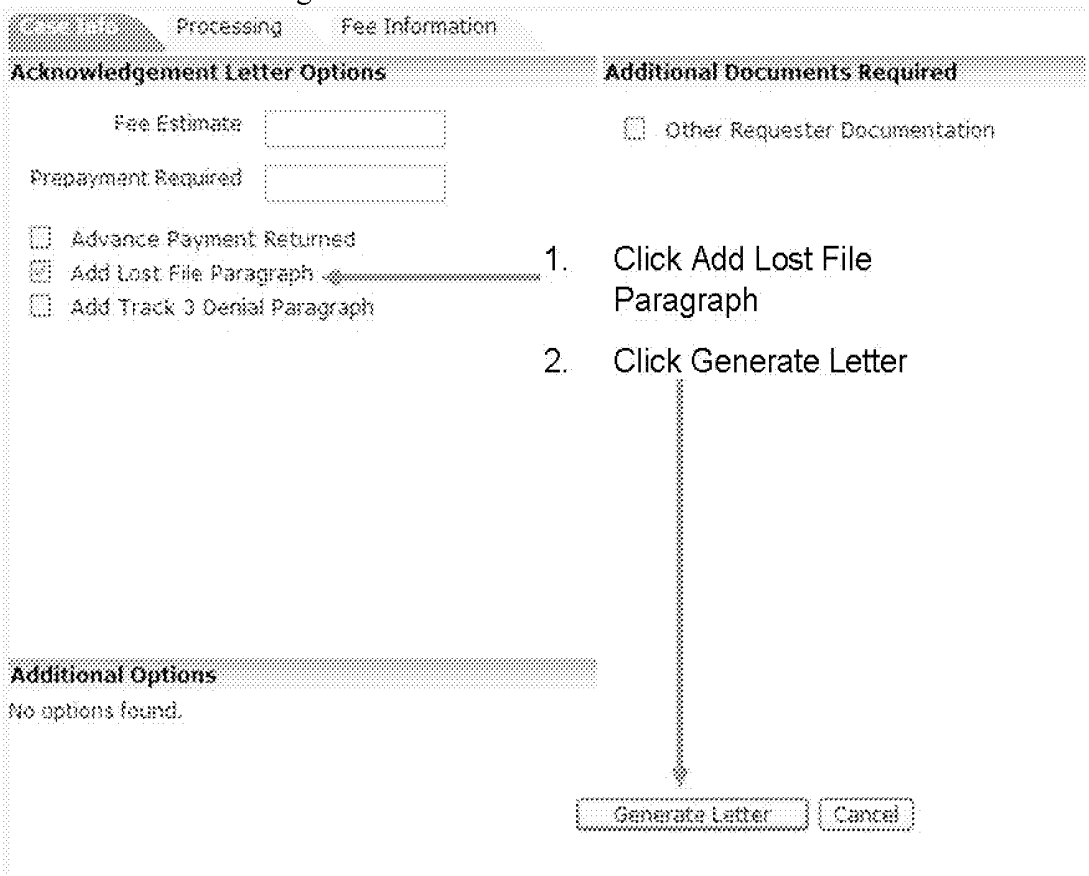
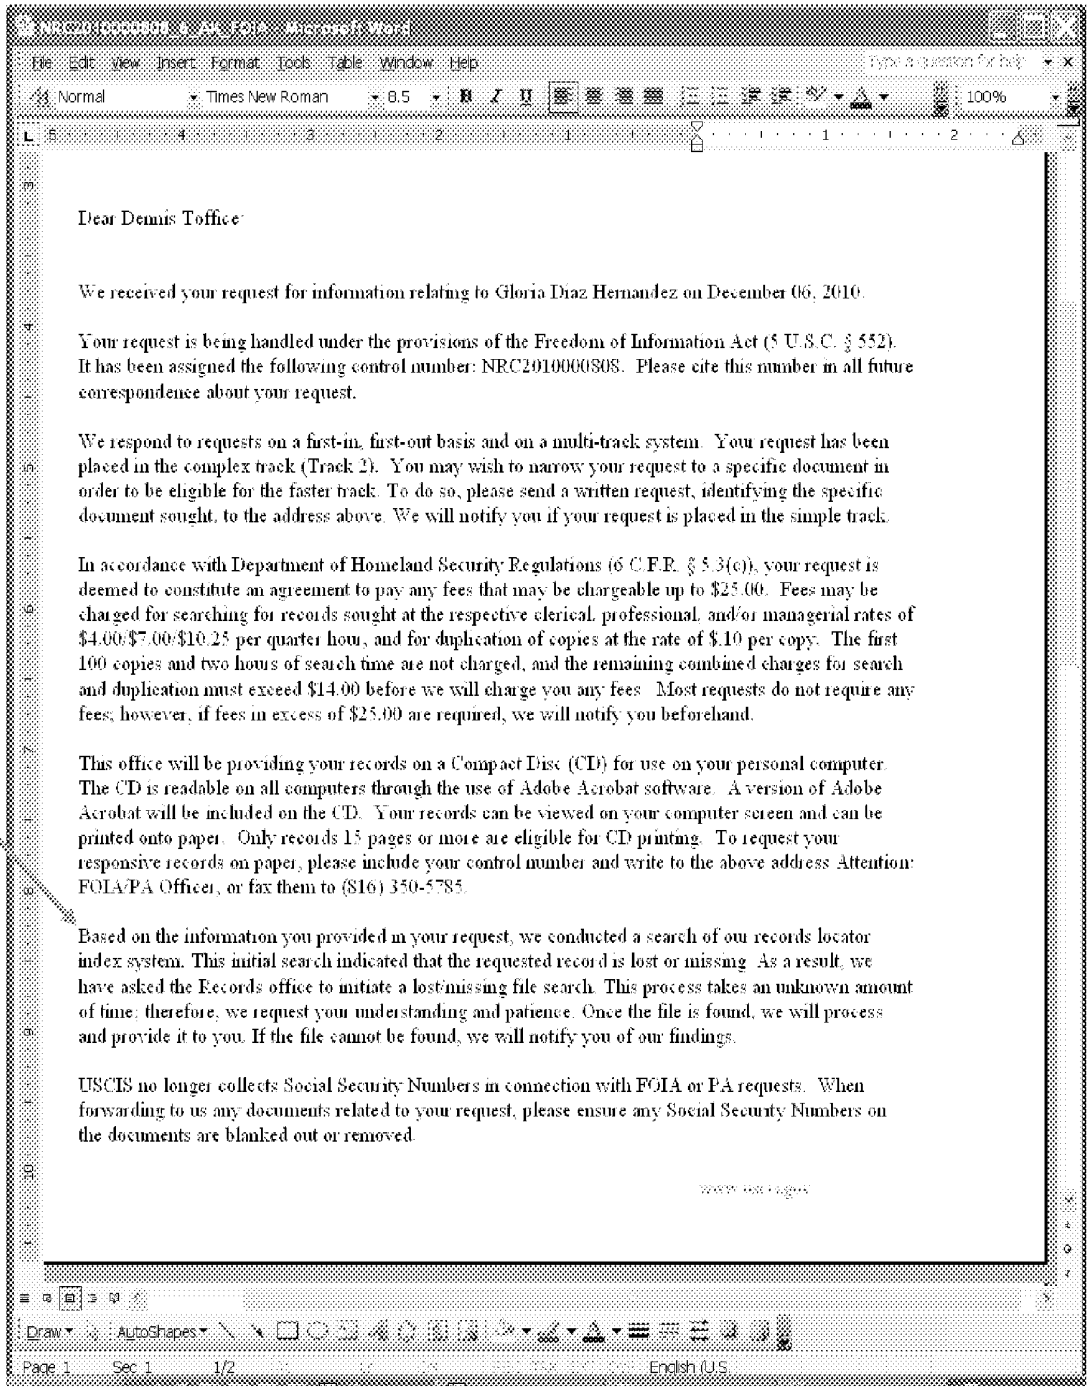
Generate the acknowledgement letter.



FIPS inserts the Lost File Paragraph right after the CD Paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Dear Dennis Toffice:

We received your request for information relating to Gloria Diaz Hernandez on December 06, 2010.

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000808. Please cite this number in all future correspondence about your request.

We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe Acrobat will be included on the CD. Your records can be viewed on your computer screen and can be printed onto paper. Only records 15 pages or more are eligible for CD printing. To request your responsive records on paper, please include your control number and write to the above address Attention: FOIA/PA Officer, or fax them to (816) 350-5785.

Based on the information you provided in your request, we conducted a search of our records locator index system. This initial search indicated that the requested record is lost or missing. As a result, we have asked the Records office to initiate a lost/missing file search. This process takes an unknown amount of time; therefore, we request your understanding and patience. Once the file is found, we will process and provide it to you. If the file cannot be found, we will notify you of our findings.

USCIS no longer collects Social Security Numbers in connection with FOIA or PA requests. When forwarding to us any documents related to your request, please ensure any Social Security Numbers on the documents are blanked out or removed.

When the case create process is complete and the creator is ready to exit the case, click the "Pend."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Files Lost or Not Found MORE THAN NINE MONTHS

(Please note: this is NOT the procedure for a request for alien number only or for petitions destroyed in accordance with federal paperwork retention guidelines.)

1. If the A-file is lost but other records exist (such as receipt files we would normally staff for or other a-files), please go to step 9 now. *Otherwise*,
    a. **if** the file has been marked as lost for more than nine months
    b. **and** there is no recent activity in CLAIMS (within last 2 years) or RNACS,
    c. **and** there are no additional files, then: a FOIA/PA Assistant working in Records Locator queue should put in the following Discussion: **A-file has been lost for more than 9 months and no other records exist. Closing as UT.** Detail all systems searched as part of this Discussion.
2. Complete the attached Lost File Worksheet (and send it for scanning as CSD with any screen prints you do.)
3. If the file was not staffed to OPLA, please move to step four now. *Otherwise*, if the file was staffed to OPLA, look at NFTS history. If the NRC file request was cancelled and the file indicator was subsequently changed to "Lost File," create a Discussion with the subject "Unit Chief" listing the date the file was staffed, the date the request was cancelled, and the date the file status was changed to lost. Send the case to Unit Chief. You're done.
4. If there is no CIS screen referencing "EARM" "DACS" or "NAILS," please move to the next step now. *Otherwise*, if there is a 9101 screen containing "EARM-X" "DACS-X" or "NAIL-X," or if there are CLAIMS screens showing "NAIL: Y" or "NAIL: N," go to the next step.
5. Create a Final Action Letter and select the status UT. In the final action letter, after the sentence "You may, if you wish, resubmit at a later date," please add the following sentence: "As we were unable to locate a physical file, we are including screen prints of the electronic record." Go to the next step.
6. In the UT final action letter, attach the screen prints to the letter electronically (cut and paste). Do not make any redactions to the screen prints. Save and close the letter and send to Up-front Approver. You're done, *unless* the case is later returned to you for further research.
7. The Up-front Approver will review the UT letter with the inserted screen prints. If he or she is satisfied that a thorough search was conducted, the approver will forward the

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

case to FOIA Approver. If the approver is not satisfied with the search results, he or she will return it to you for further research.

8. The FOIA Approver will review the research and either close the case or return it for further action. If the case is approved, the FOIA Approver will close the case.
9. **If the A-file is lost but other records exist** (such as receipt files we would normally staff for or other a-files) Staff for the additional records. Put in a Discussion that reads:

   > A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

10. Cancel the lost file staffing and pend for responsive records.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

LOST FILE WORKSHEET

A-number _____

Name of Alien _____

Date shown as Not Found in CIS _____

Date shown as lost in NFTS _____

1. Search CIS for potential second a-number and/or consolidation
    a. Second a-number? _____
    b. Any T-files? Yes _____ No _____
        i. If yes, have they been staffed and scanned? If not, please do so now.

    c. Consolidated with? _____
    d. Does the EOIR screen show an upcoming hearing date?

        Yes___ No ____

2. Check CLAIMS for petition/applications
    a. Were any found? Yes _____ No _____
    b. If so, either provide screen prints with receipt number or list below

3. Check NFTS. Any current file movement. Yes _____ No _____

4. Check PCQS for any indication that file is with the naturalization unit.

NOTES:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). Staffing FAQ's

Q: What screen print do I attach?

A: The screen prints attached are typically a NFTS screen. In some situations, there is no screen print attached at all. See the Staffing Sheet Guide for current information.

Q: Which staffing sheet do I use?

A: Each office has its own staffing sheet in FIPS. The Staffing Sheet Guide details which sheet to use in specific circumstances.

Q: What if they have two alien files with two different numbers?

A: In cases like this, we staff for each alien file on a separate staffing sheet and write MULTIPLE STAFFINGS at the top of each sheet.

Records Indexing / Manual Requests

If you do not find a person in CIS, CLAIMS or PCQS, do not automatically print the screens and close the case NR. In some instances, the A-number exists but it will not be found in any systems search. This is especially true of individuals who had no business with the Service after the date CIS was put in use. A general rule which applies most of the time is the subject had no business concerning any immigration matter since 1975 or earlier. Look at the information in the request. For instance, if an individual claims to have arrived in the United States in 1960 and naturalized in 1971, it is important not to close the case NR. In these instances, staff the request using a "Records Indexing" staffing so that a manual search can be conducted. It is important that you provide as much information as possible on the Records Indexing staffing sheet. The name of the subject, year of birth and country of birth are required information.

Sometimes the requester/subject will provide an A-number and the file cannot be located in NFTS or CIS, but they claim to have done business with the service after 1975. Ensure requesters provide the minimum information to allow a positive identification (i.e., full name, aliases, an alien number, date and country of birth). If the requested records relate to:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- A-Files;
- Dates of birth;
- Dates of entry; or
- Naturalization dates

which are after 1975, do not create a Records Indexing file request, because no records will exist; check CIS and/or CLAIMS for a record. If you find no record, please refer to the section on NO_RECORDS.

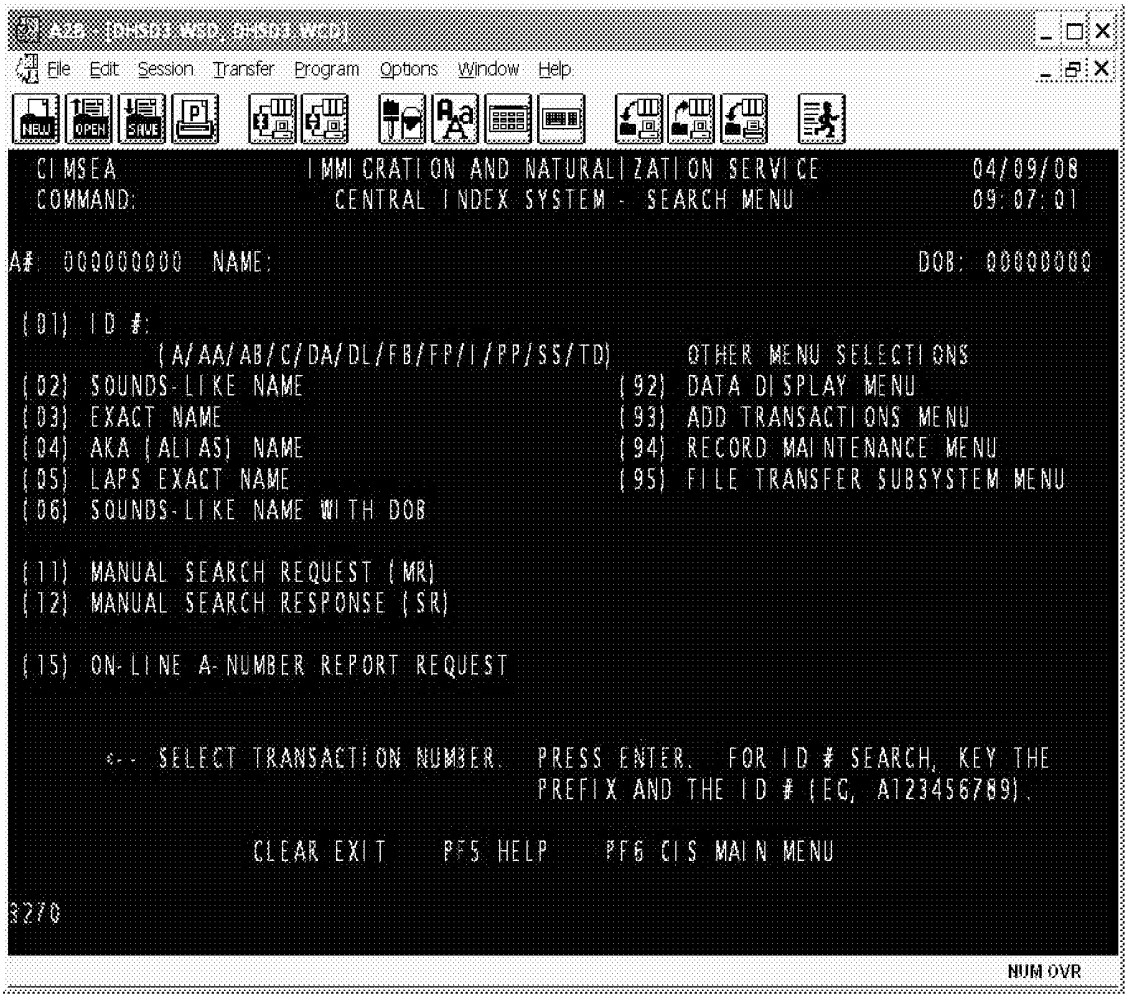
TO RECAP: If the subject has had no business with the service since 1975 or earlier, they may or may not have a CIS record. If they do not, then staff to records indexing. If the subject has had business from 1976 forward, do not staff to records indexing.

No Record, a RAFACS-only staffing scenario:

When closing a case as a NR (No Record), ensure that you have done the required system searches to support your decision. If there is wording on the request that would indicate the subject was detained, stopped, arrested or sent back across the border and a thorough system search yielded no information, you should refer the request to CBP. CBP will possibly have a record responsive to their request. Your search should include CIS, CLAIMS and PCQS. Consult the sections of this manual entitled "Central Index System" and "Computer Linked Application Information Management System" for more information regarding the systems.
When conducting no record research, check the following screens in CIS (Central Index System):

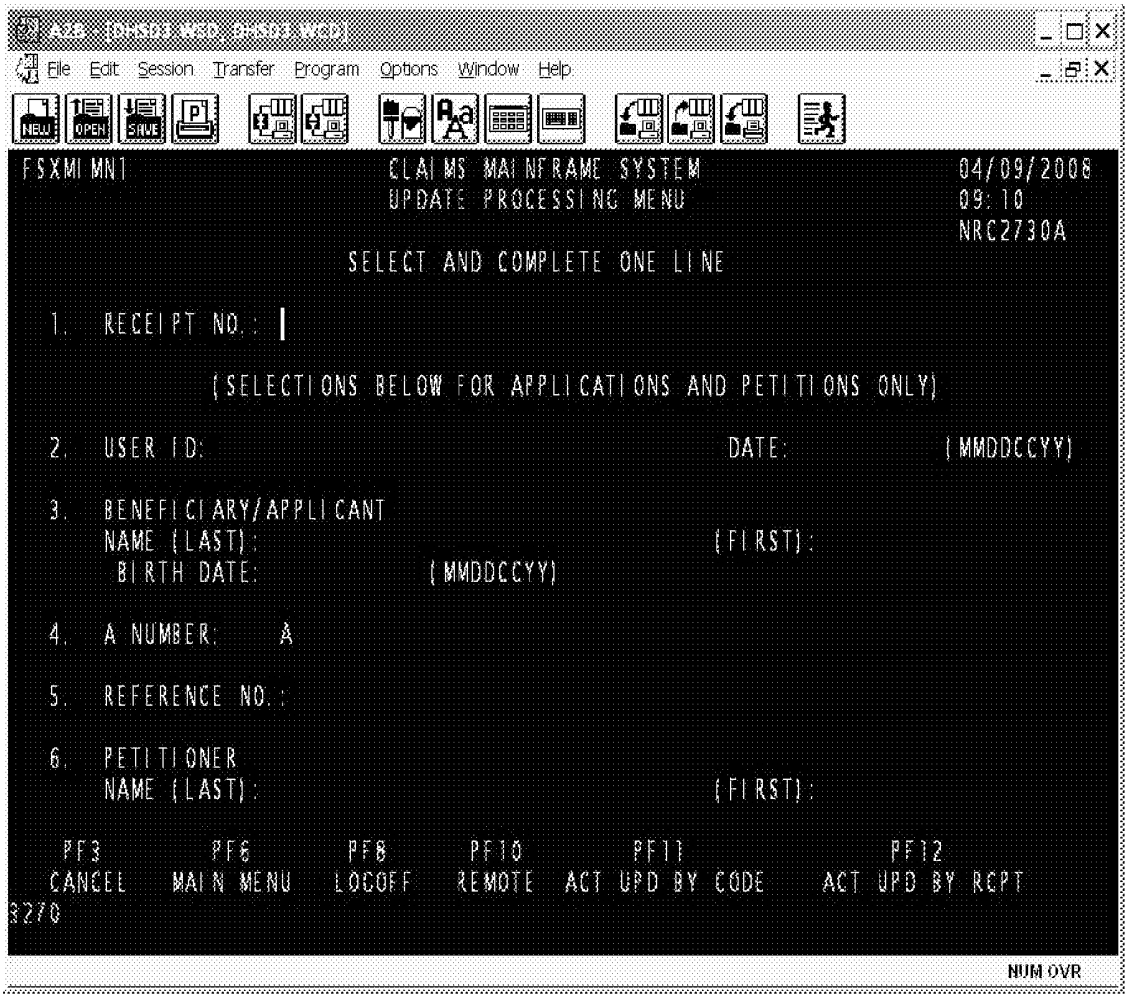
9103 Exact Name
9104 AKA (Alias) Name
9106 Sounds-Like Name with DOB

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When conducting a search in CLAIMS (Computer Linked Application Information Management System) run alien's name as the beneficiary/applicant (3) **AND** as petitioner (6).

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



When conducting "no record" research, do the query and provide screen prints of all searches as directed. Open a RAFACS (*not RAFACS/CIS)* staffing slot only. Click on "Customize Letter." Print the appropriate CLAIMS screen prints (this should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names). Prepare a "Scan As" sheet to be scanned as responsive records for the case number you have just created, attach it to the screen prints and take those to the person designated to scan RAFACS-only responsive records. Pend the case.

Genealogy is exempt from this process.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

A-number in CIS but not in NFTS

If there is an A-number in CIS but no information in NFTS, create a staffing sheet according to the Staffing Sheet Guide and FCO List, and paste in the 9504 screen of the CIS record rather than the NFTS information. Otherwise, the procedure is the same.

ICE files

There are currently five different types of staffings for files located within the ICE function. Paste the NFTS screen print to the second page of the staffing letter.

OPLA staffing sheets are for files that are located in the following office sections. Choose the FCO where the file is located, such as OPLA-BOS.

Office Section	Acronym
Trial Attorney's Office	**TA**
Chief Counsel	
Litigation	**LI or LIT**
Legal Section	**LS**
District Counsel	**DC**

DRO staffing sheets are for files that are located in the following office sections. Choose the FCO where the file is located, such as DRO-DEN.

Office Section	Acronym
Detention & Removal	**DENTENT, D&R, DET, DRO, DD&P**
Criminal Alien Program	**CAP**
Deportation Officer/Assistant/Clerk	**DO, SDDO**
Bond Control Spec.	
Immigration Enforcement	**IEA**
Field District Office	**FOI (Washington DC) (DRO-WAS)**
Admin Program Office	
Non-Detained or Detained	
Processing Center	**OC-Otero County**
Detention Facility name	**ie… Otay Mesa, Krome**

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Fugitive Ops	**FO**

SAC staffing sheets are for files that are located in the following office sections. Choose the FCO where the file is located, such as SAC-ATL. Please note the section that follows concerning SAC locations.

Office Section	Acronym
Investigations	**INV, IV**
Special Agent in Charge	**SAC**
Internal Audit	**IA**
Resident Agent in Charge	**RAC**
Assistant Special Agent in Charge	**ASAC**

SAC locations

Occasionally, you will see a staffing for a SAC (Special Agent in Charge) case, and not be able to find the File Control Office under SAC in your FIPS staffing list (ex. POO/Portland, Oregon). How do you staff correctly for the file? Would you use the "ICE General" staffing?

Yes, you do, but only as a last resort. Before staffing under ICE General, please check under RAC (Resident Alien in Charge) and ASAC, in consecutive order to find the staffing location. Since you cannot find Portland under SAC, you would next check RAC, and then ASAC (Portland is found under ASAC). Finally, if you cannot find the location **after** searching SAC, RAC and ASAC, please staff under ICE General.

LESC (LSC) records

On all of these staffing sheets, you must attach the NFTS screen print to page two.

T-files

Q. What if the subject has an A-file at one office and a T-file at a different office (for example, an A-file in Chicago and a T-file in Milwaukee)?

A: In this case, we will staff for both files, EXCEPT, do not staff for T-files at HBG with RPC codes XX or ZG.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Q: What if they have an A-file at an outside office and a T-file here at the NRC?

A: Staff for the A-file only, but include the T-file portion on the staffing sheet. The T-file will get combined with the A-file when it arrives at the facility for scanning. **NEVER CROP THE T-FILE INFORMATION FROM THE NFTS SCREEN PRINT**.

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, or WSC for scanning. Those offices scan directly into FIPS for us. Therefore if the A-file is at one of the above service centers and there is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

Receipt files

1. Do not staff for receipt files from any offices other than one of the five Service Centers (**ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN)**. For example, LOSJ9163201111, DALC922740405 or SPM9606900035, etc., are not receipt files we can request.

2. If the requester does not specifically ask for a receipt file and provides an alien number, staff for the alien file only.

3. If the requester does not provide any receipt number or alien number, then you must research CIS, CLAIMS and possibly PCQS.

Be cautious about staffing for receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will staff for the EAD card.

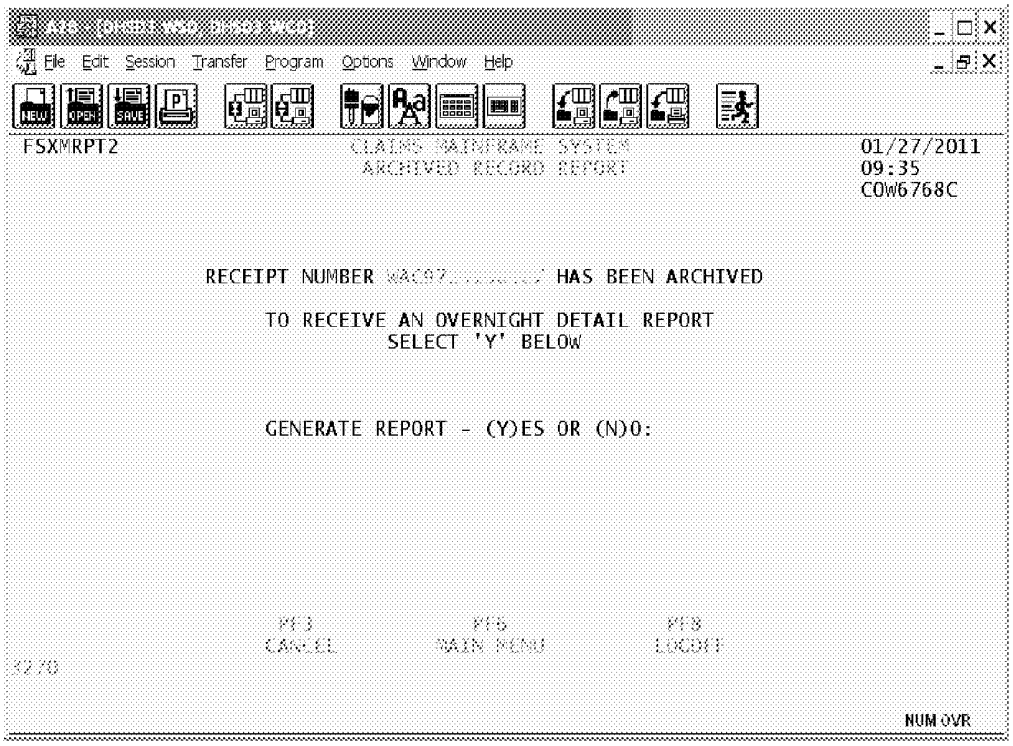
If they provide a receipt number, you must research CLAIMS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please staff for the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Open a RAFACS

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

staffing slot only (no staffing sheet is necessary). Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to the OA room. The documents will be scanned as responsive records. Pend the case.

4. If there is no information about the receipt file in NFTS, regardless of the prefix of the receipt number, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

Archived receipts



This screenshot shows a receipt that has been archived.

If we receive a request for a receipt file and the receipt file has been archived per CLAIMS, create the case as usual. To determine whether we need to staff for the archived receipt file or redirect the request please do one or all of the following as necessary:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. Enter the receipt number in NFTS. There may be evidence that the receipt file has been consolidated into an A-file or there may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC. Sometimes, you can discover that an archived receipt has been forwarded to NVC through PCQS.
2. On the USCIS website enter the receipt number in the "Check Case Status." Checking the receipt number on the website may provide evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.
3. You may call the NVC automated help line at 603-334-0700 and enter the receipt number. There may be evidence that the receipt file has been forwarded to the NVC in which case you would redirect the request to NVC.
4. If there is no evidence that the archived receipt file has been forwarded to NVC we will create a file request using RAFACS (not RAFACS/CIS). Find the information from the archived receipt in PCQS and print that information. Prepare a "Scan As" sheet to be scanned as responsive records for the case number you have just created, attach it to the screen prints and take those to the person designated to scan RAFACS-only responsive records. Pend the case.
5. If there is no evidence in PCQS, follow the instructions for *Receipt files; Lost receipt file, File destroyed or File cannot locate.*.

Reading the request is very important; if the requester is seeking information relating to what appears to be a receipt number and it begins with "CDJ" or one of the other prefixes found in the section **National Visa Center Valid Consulate Prefix Codes, c**all the NVC help line at **603-334-0700** and enter the receipt number. If there is evidence that the NVC has the receipt file, redirect the request to NVC.

To redirect a request to NVC do the following: Click Final Action Letter and choose the code "RD" and select "NVC". Send the case to Up-front Approver.

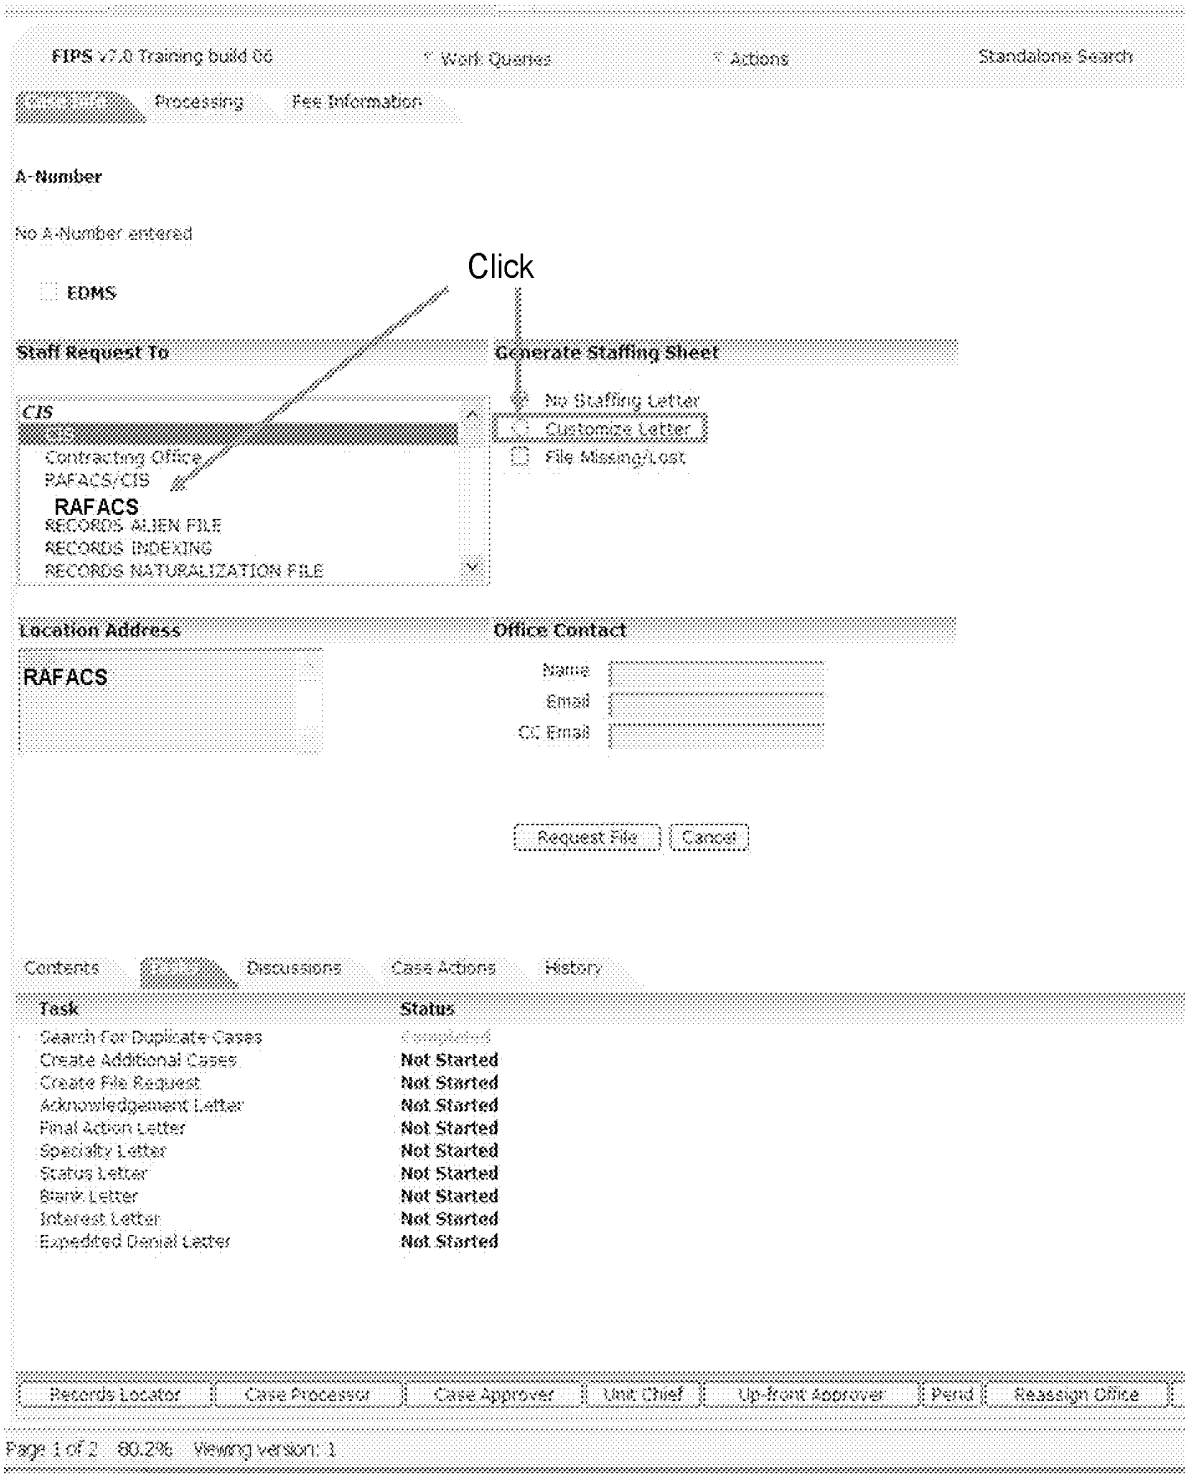
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Receipt files; Lost receipt file, File destroyed or File cannot locate

If a staffing response from one of the service centers (ESC, SSC, NSC or WSC) has been scanned and a screen print from CLAIMS is shown on the staffing response with any of the following verbiage; "FILE CANNOT LOCATE", "FILE DESTROYED", or "LOST RECEIPT FILE", the case creator will need to follow the steps outlined below.

Open a RAFACS (*not RAFACS/CIS)* staffing slot only. Click on "Customize Letter." Print the appropriate CLAIMS screen prints (should be a minimum of 3 pages if the receipt file is for an I-130). Print the staffing letter, attach it to the screen prints and take to the OA room. The documents will be scanned into the slot on the bar-coded staffing letter. Pend the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. REASSIGN OFFICE

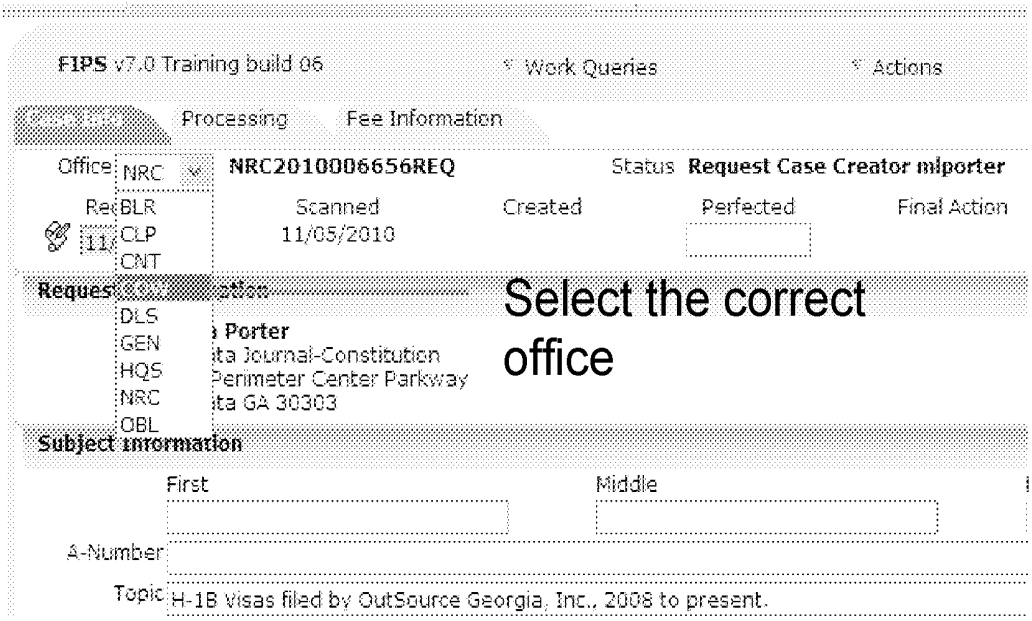
This function is used to move a case that was scanned in the NRC queue to another queue for processing.
Re-assign the case if the request is for a contract (CNT).
Re-assign the case if the request is for CIS Personnel Information (HQS).
Re-assign any SIG case to COW.

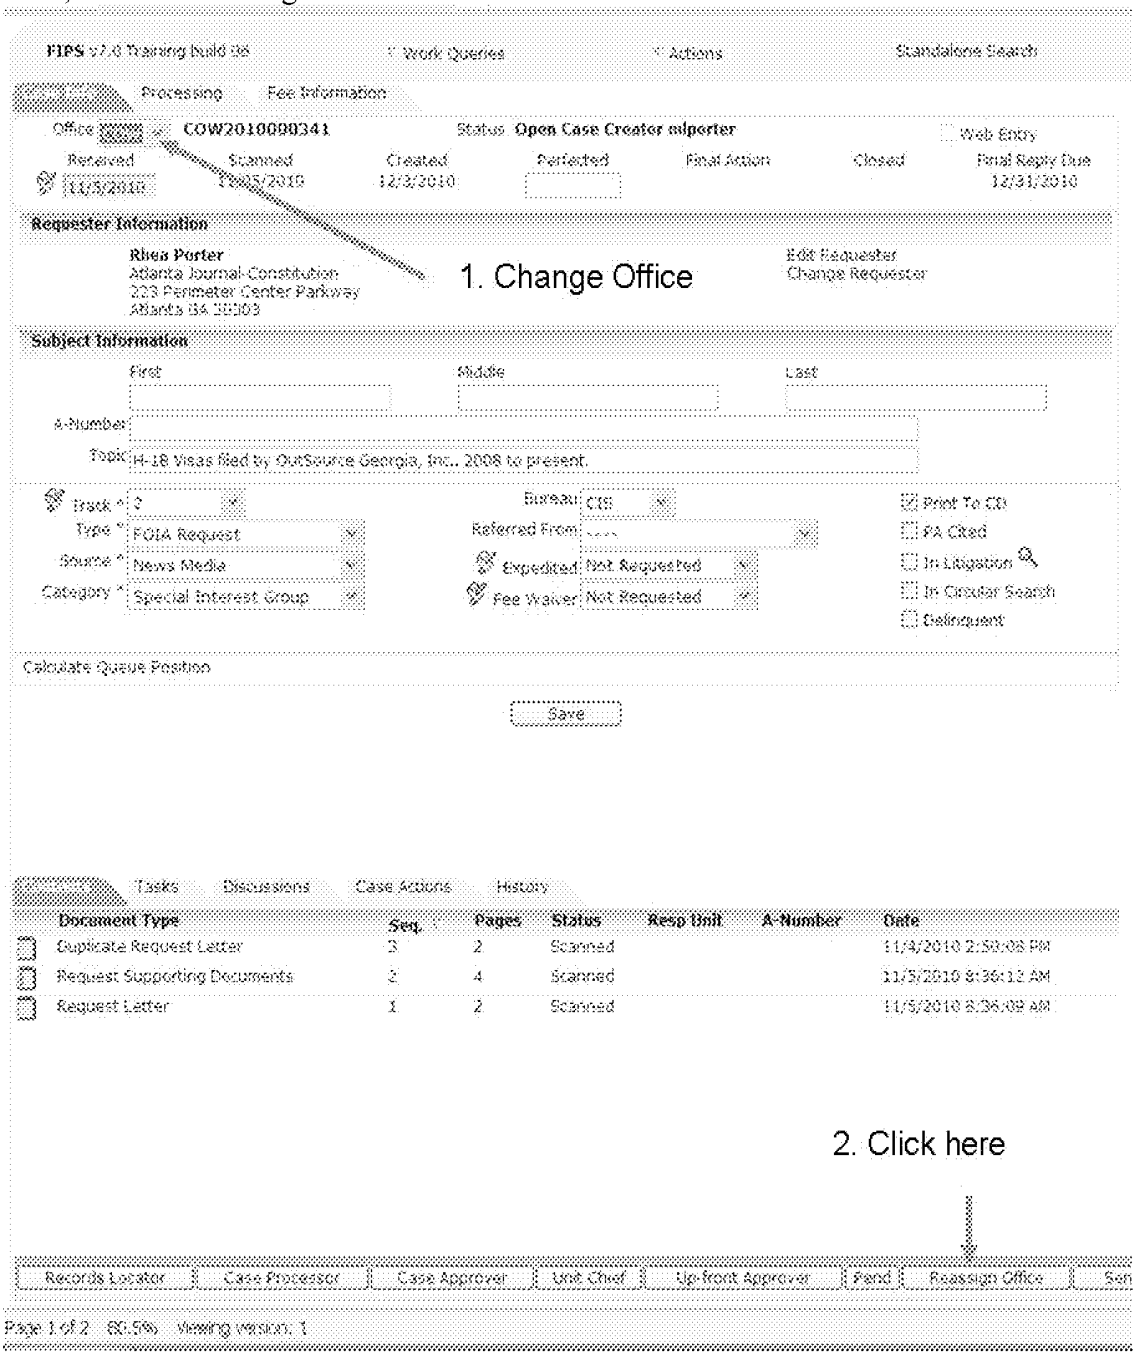
First you must select the correct office. Use the drop-down box to select the office where you want the case to go, search for duplicate cases, and then create the case:



After you change the office to COW, create the case. The case will have a COW number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Next, click on "Reassign Office"

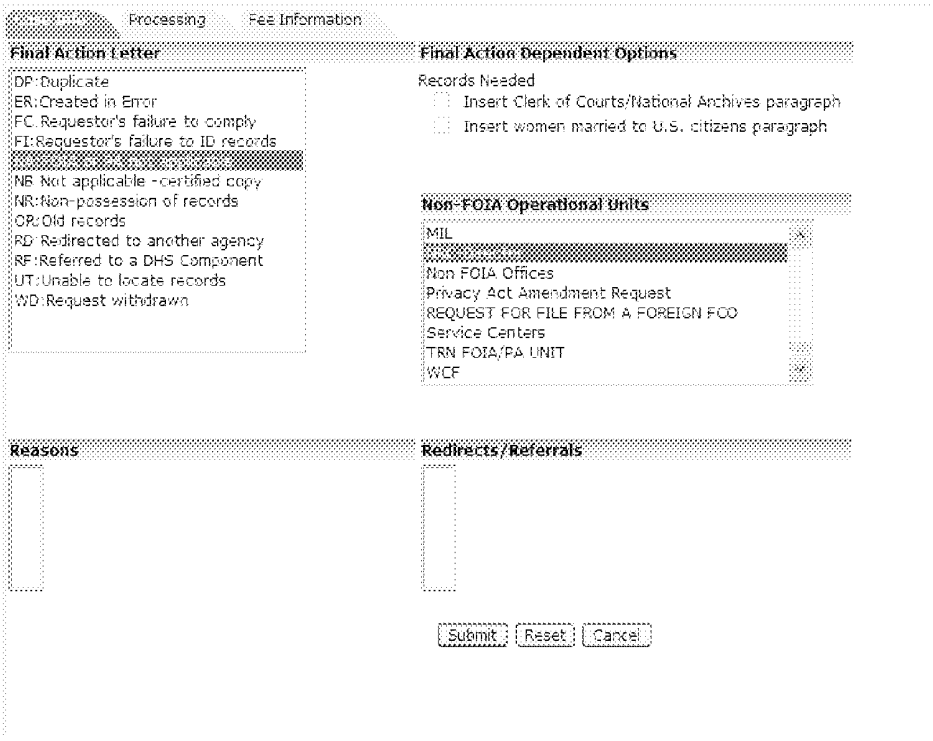


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

You will not be creating an acknowledgement letter or staffing. Before you click on "Reassign Office," prepare an e-mail addressed to NRC, FOIASIG with the case number and brief description of the topic, requester or reason you assigned the case to SIG.

CLOSING A CASE AS "NA:FOIA or PA not applicable:"

Sometimes a requester will file a FOIA request asking for the return of original documents, the status of a petition, or a question, not asking for records. If FOIA/PA does not apply to the request, you would create a Final Action Letter and select the closing code "NA: FOIA or PA not applicable." You will have to select a Non-FOIA Operational Unit. Choose "NRC-Director." Note: if the request for return of original documents is on Form G-884 which was inadvertently scanned in as a request, you will be closing the case "ER." Please refer to REQUESTS: Return of original documents.



You do not have to modify the referral letter. You will have to select the applicable box in the Final Action Letter and possibly add other instruction, if necessary. Send the case to Up-front Approver.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

ER (created in error) CASE CLOSINGS

Prepare a Final Action Letter using the "ER" option for cases when the following situations arise:

1. When a G-884 Return of Original Documents is scanned in FIPS.
2. When a routine use/child support request has been scanned in FIPS.
3. When subpoenas/court orders have been scanned in FIPS.
4. When a Bond Obligor request has been scanned in FIPS.
5. Requests from Foreign Consulates (no letter required)

FIPS will not create a letter. Prepare a detailed Discussion. Send the case to Up-front Approver. The supervisor will review and close the case.

FC (failure to comply) CASE CLOSINGS

If you are closing a case FC because of consent, verification of identity or , please refer to

O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters\Failure_to_Comply_Letter and select the applicable paragraph for your final action letter. Please enter the date of the last correspondence to the requester/subject.

MARKING A DOCUMENT "DO NOT SEND"

From time to time, there will be an instance when we should not mail a system-generated letter. Examples include instances where a status letter is created in error, or a referral memo is erroneously created. To ensure that the letter or memorandum is not inadvertently mailed, please take the following steps:

1. Type "DO NOT SEND" at the top of the page,
2. Delete all the information in the letter/memorandum, and
3. Create a Discussion which explains why the letter/memo should not be mailed.

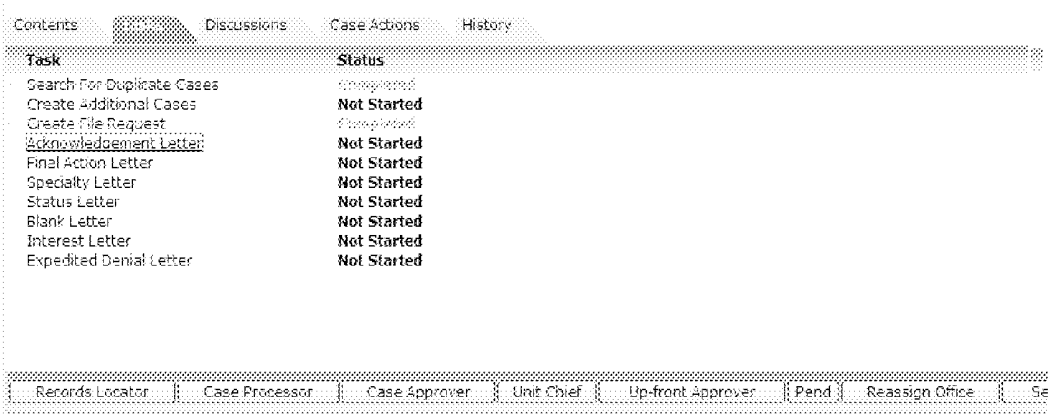
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Accomplishing the steps above will make it easier for the O/A room to identify letters created in error.

ACKNOWLEDGEMENT LETTERS

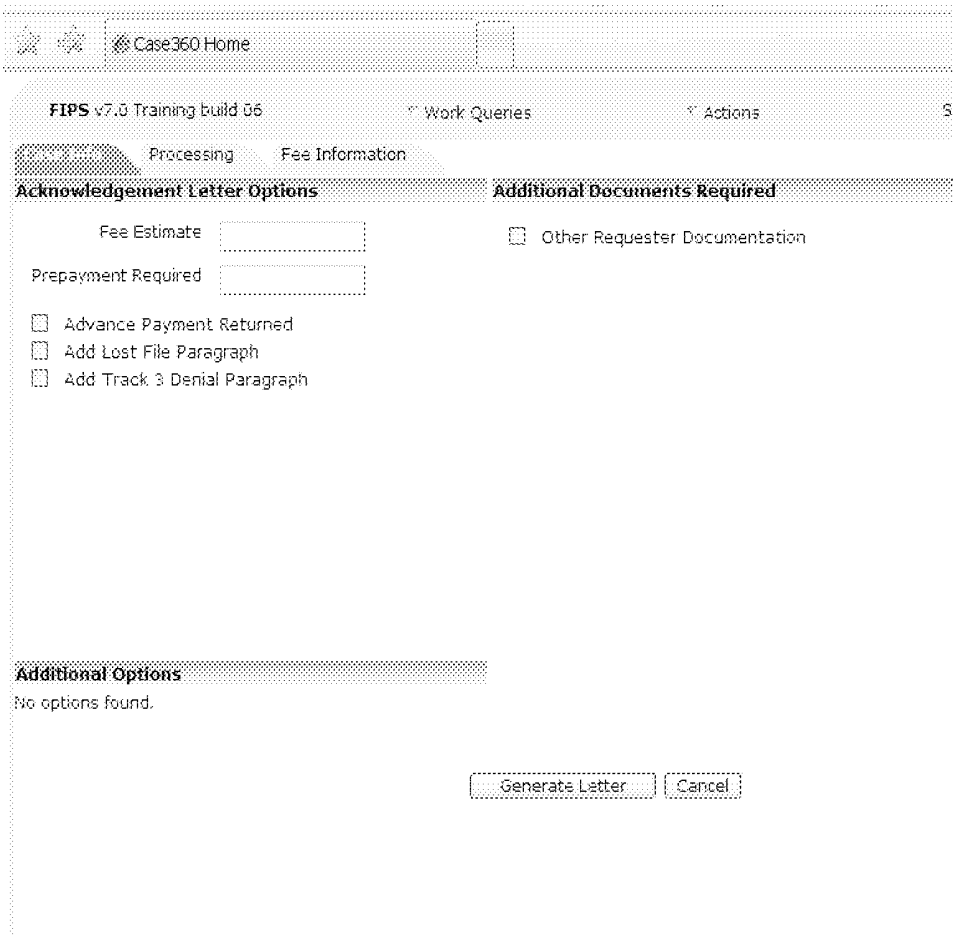
We prepare acknowledgement letters in all cases **except** for routine use and Red Cross last known address requests. The example in this guide shows how to do a standard acknowledgment letter if we have verified consent and identity, the requester has not asked for expedited treatment or a fee waiver, and we have found a responsive record. As you go through this example, please keep in mind that there are many factors which would require you to prepare the acknowledgment letter differently.

Go to the "Tasks" tab and select "Acknowledgement Letter"

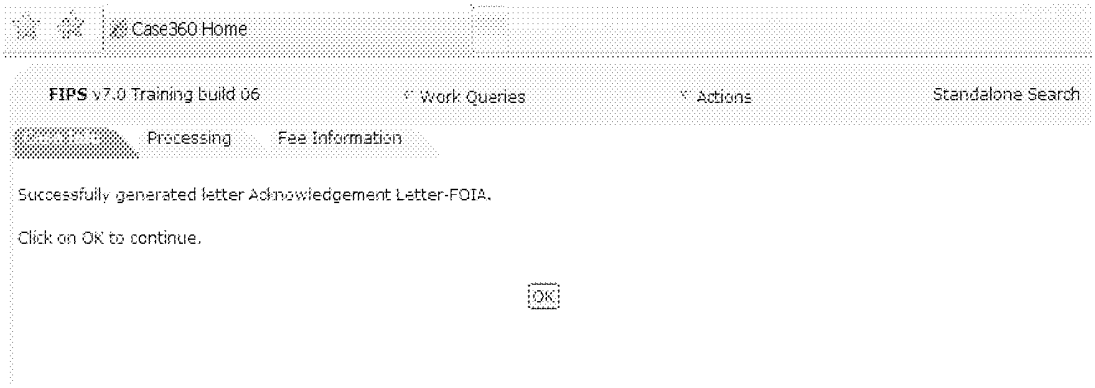


After selecting "Acknowledgement Letter," the Acknowledgment Letter Options screen will open. Options on this screen will allow you to ask for other documentation and will also allow you to add a Track 3 Denial or Lost File paragraph:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

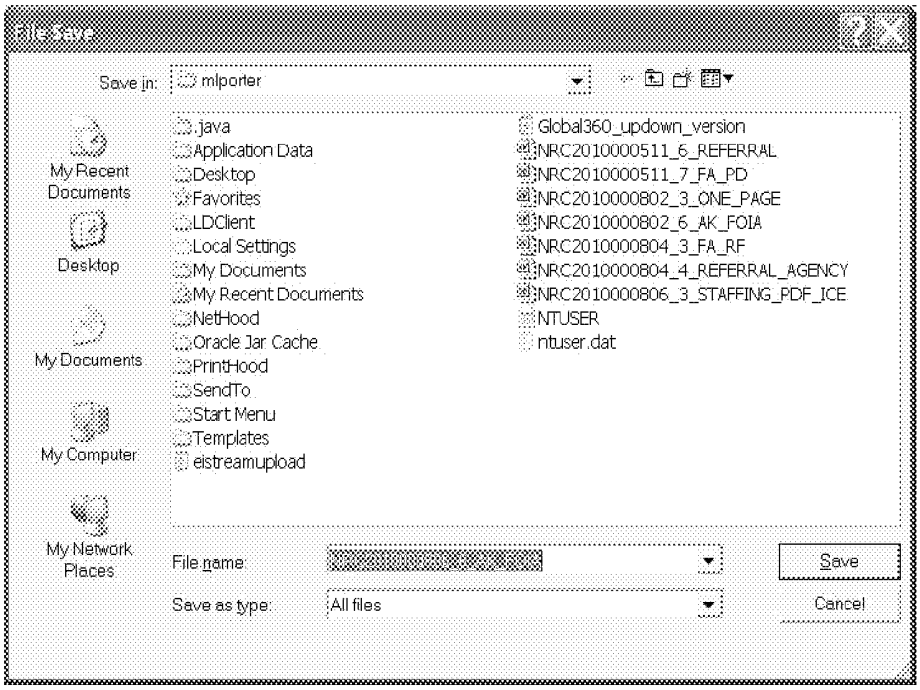


Since our example case does not require us to select any options, we will click on "Generate Letter." Our only option at that point is to click OK:



As soon as you do, a File Save pop-up window will appear. Click "Save."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



The acknowledgment letter will pop up:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. Lee's Summit, MO 64064-8010

U.S. Citizenship and Immigration Services

December 3, 2010

NRC2010000806

San Francisco, CA

Dear

We received your request for information relating to Chris P. Bacon on December 02, 2010.

Your request is being handled under the provisions of the Freedom of Information Act (5 U.S.C. § 552). It has been assigned the following control number: NRC2010000806. Please cite this number in all future correspondence about your request.

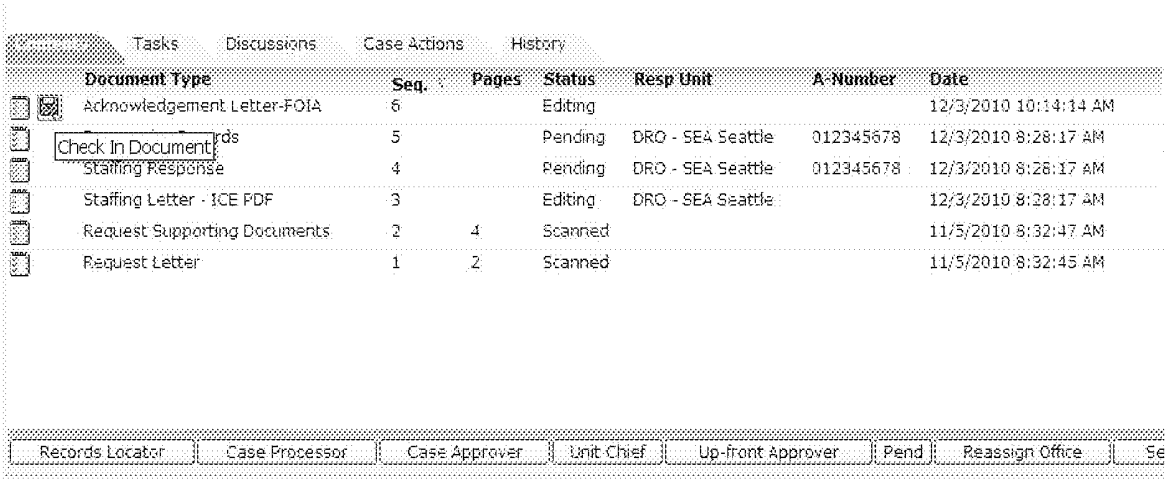
We respond to requests on a first-in, first-out basis and on a multi-track system. Your request has been placed in the complex track (Track 2). You may wish to narrow your request to a specific document in order to be eligible for the faster track. To do so, please send a written request, identifying the specific document sought, to the address above. We will notify you if your request is placed in the simple track.

In accordance with Department of Homeland Security Regulations (6 C.F.R. § 5.3(c)), your request is deemed to constitute an agreement to pay any fees that may be chargeable up to $25.00. Fees may be charged for searching for records sought at the respective clerical, professional, and/or managerial rates of $4.00/$7.00/$10.25 per quarter hour, and for duplication of copies at the rate of $.10 per copy. The first 100 copies and two hours of search time are not charged, and the remaining combined charges for search and duplication must exceed $14.00 before we will charge you any fees. Most requests do not require any fees; however, if fees in excess of $25.00 are required, we will notify you beforehand.

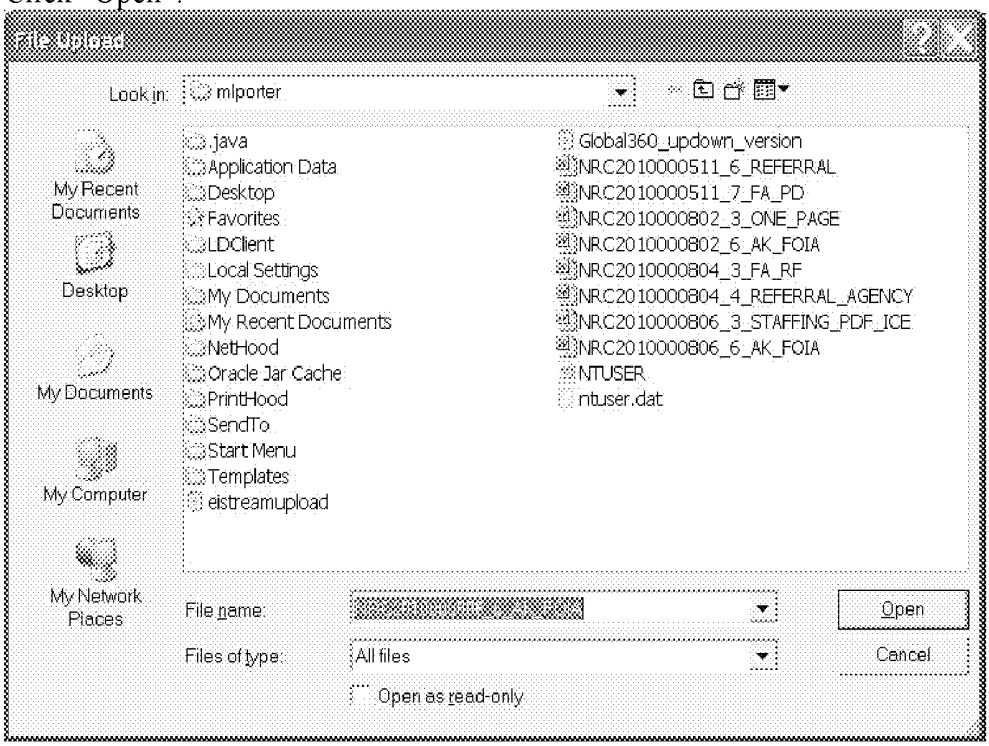
This office will be providing your records on a Compact Disc (CD) for use on your personal computer. The CD is readable on all computers through the use of Adobe Acrobat software. A version of Adobe

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

You may have some modifications to make to the letter. After you finish, save the Word document and exit Word. Next, go to the "Contents" tab and click on the "Check in Document" icon.



Click "Open":



In this example, we are now ready to send this document to "Pend."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

DISCUSSIONS

Discussion notes are crucial to creating and processing a case. When creators are establishing the case in FIPS, they should note any unusual circumstances or details in a Discussion for later reference. FIPS also automatically generates Discussions in various situations, such as duplicate, multiples and when responsive records are copied from one case to another. Because Discussions become a permanent part of the case in FIPS, you should not used Discussions to record personal feelings or to debate, question, or even to seek clarification. A FOIA/PA Assistant should discuss issues needing clarification via e-mail, a telephone call or a personal visit to his or her supervisor.

CHANGING A REQ TO A CSD

(Note: this article pertains to people who work in the Research Queue)

Occasionally requester documents, certificates of identity, status requests and other correspondence will inadvertently get scanned into FIPS as a new request. If you encounter these types of documents in FIPS as REQ's, please attempt to locate the case to which the documents belong. After you locate the case in FIPS, make a note of the control number. Create a Discussion asking Research to add the request as CSD to the appropriate case. Next, go back to the worksheet in FIPS and Send to Research.

A person working the Research queue will assign the request to CSD as follows:

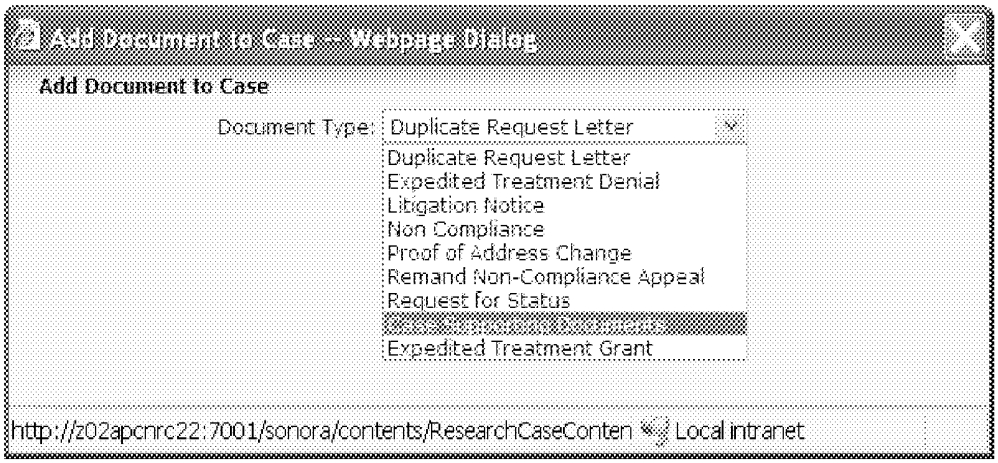
Updated on 3/14/2011



WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

TROUBLESHOOTING WORK *FROM* THE OA ROOM

The FOIA/PA Assistants assigned to the mail are responsible for picking up faxes and mail (in the black bins marked Troubleshooter) from the OA room and in the basket located next to the copier in shared workroom each day and are responsible for sorting and working the mail. Individual team members expecting a fax should notify his or her supervisor or retrieve the fax. If the case has been created, insert a Discussion (Scan in fax and notify [me] when the fax has been scanned). If the fax needs to be scanned in before reviewing, the FOIA/PA Assistants can scan it in and notify you. They may also deliver the fax or mail if needed.

TROUBLESHOOTING WORK *TO* THE OA ROOM

When new requests are taken to the OA room, place them in the "New Request" bin on the counter.

When taking requester documentation, CSD's, responsive records or certifications of identity to the OA room, write "Requester Docs" or "CSD" on the first page, along with the date and your initials.

FOIA MAILBOXES:

FOIA has access to various e-mail mailboxes that serve different purposes. The paragraphs below describe these mailboxes and their purposes. E-mails to any of the FOIA mailboxes must contain specific instructions.

THE OA ROOM (NRC, FOIAOA)

Send e-mails to the OA Room when:

- The request letter and supporting docs need to be printed and scanned in as a new case. Include instructions to the case creator, if necessary.

- The original Final Action Letter and responsive records were mailed but the requester never received them. The OA room will reprint the records to CD or paper and re-mail

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

per instructions provided in the e-mail. The instructions must include the control number and whether to print CD or paper, as well as how the case was closed "G1 or PD." Include a Discussion in the original case.

- The responsive records need to be re-printed to CD due to the requester receiving a broken CD.

- The requester has either has a changed or new address; therefore, the records need to be re-printed and re-mailed to the requester. You need to state in your instructions to the OA room that you've made the changes to the address in the final action letter. Correct the address on the final action letter and the FIPS database. State that you've changed the address in a Discussion.

Don't forget to add a Discussion to the original case.

MSB (NRC, NRCFOIAMSB)

Send e-mails to the MSB mailbox when:

- An appeal is encountered in case create that was not previously addressed.

- An expedited treatment is encountered in case create or Records Locator queue that was not previously addressed. Personnel handling the MSB mailbox will forward the e-mail to the supervisor(s) handling the expedited treatment.

All e-mails to the MSB mailbox should contain the control number, the A-number or subject of the case, and specific instructions relating to the case.

FIPS PROBLEM (NRC, FIPSPROBLEM)

Send e-mails to the FIPS Problem mailbox:

- If errors are encountered in the case

- If responsive records need to be copied from one case to another

- If records are incorrectly scanned in a case and need to be removed

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

All e-mails to FIPS Problem mailbox must contain specific instructions, including a description of the problem and the role of the case; standalone, create, locator or processing and the control number or REQ number if you were creating the case.

FOIA FILE REQUEST **(NRC, FOIAFILEREQ)**

Send e-mails to FOIA File Request if the following situation occurs:

- A file is found sitting on a shelf and it has not been scanned in to the case. Include the control number and the A-number in these e-mails.

E-MAIL TO CUSTOMERS

If necessary, send a message to the USCIS mailbox outlining what needs to be sent. The MSB supervisor will generate the e-mail to the requester and transmit. Include all information in the e-mail that the MSB supervisor will need in order to be able to send the e-mail. Put a Discussion in FIPS outlining your request to MSB. If you are asking for more information from the requester, create a slot in the case in FIPS to ensure that the case will close out automatically if no response is received from the requester.

MAIL

The FOIA Division receives two types of mail: Returned Mail and Direct Mail.

RETURNED MAIL:

Interim Interest Letters

Returned Interim Interest Letters are scanned as Requester Docs.

Except for Interim Interest Letters, all returned envelopes and letters are scanned as CSD's.

Do not use forwarding addresses provided by US Postal Service.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

OA's will note each case with action taken for each piece of returned mail. Notes are to be complete and concise. They should include the reason the letter was returned, action taken, and the OA's name.

> **Note:** Not all letters are acknowledgment letters. The returned correspondence could be a status letter or request for additional information. Before letters are updated with the correct address, confirm the correct letter is being updated. The Discussion should include the type of letter being corrected and resent.

Acknowledgement letters

Compare address on acknowledgement letter to address on the G-639, G-28 and returned address on the original envelope.

A. If there is a transcription error in the address:

1. Correct the address in the address section of the FIPS worksheet and click on the "U" to update FIPS.

2. Correct the acknowledgement letter and resend letter.

3. Write the ID of the case creator on the returned letter and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

4. Note the case. Example of the Discussion:

   Title of Discussion: **Returned Mail – no such number**
   Body of Discussion: Address on letter did not match G639. Street address should be 1003 Market Street, not 103 Market Street. Updated FIPS and ack letter and resent letter. Name.

5. Returned acknowledgement letters with a requester document need to be repended for additional time. **Give the letter to the OA supervisor to repend.**

B. If the address on the acknowledgement letter matches the address on the G-639, G-28 and/or return address on original envelope:

1. Note the case. Example of the Discussion:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Title of Discussion: **Returned Mail – no forwarding address**
Body of Discussion: Address matches G-639. No other address found. Did not resend ack letter. Name.

2. Give acknowledgement letter to OA Supervisor to Close.

Final Action Letters

Compare address on final action letter to address on the G-639, G-28 and returned address on original envelope. Check all CSDs for a new address.

A. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the letter and responsive records were returned. Discussion should include "no other address found; did not resend final action letter" and OA's name. **Scan envelope and front page of letter as CSD.**

   Shred the letter and responsive records.

B. If another address is found in the CSDs:

   1. Update FIPS and final action letter, reprint letter, and label and resend. **Scan original letter and envelope as CSD.**
   2. Write the ID of the **case processor** on the returned letter and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

CDs

A. CDs Returned for postage.

   Make a copy of the CD and re-mail. Attach the copy of the CD to the original CD mailer and give to the OA Supervisor. Note the case with the following Discussion.

   Title of Discussion: CD Returned for Additional Postage
   Body of Discussion: Re-mailed CD, date and name

B. CDs Returned due to Incorrect Address.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Compare address on final action letter to address on the G-639, G-28 and return address on original envelope. Check all CSD's for a new address.

1. If address matches G-639 and/or G-28 and no other address is found, note case with the reason the CD was returned. Discussion should include "no other address found; did not resend CD" and OA's name.

   Shred the CD.

2. If another address is found in the CSD's:

   a. Make a copy of the CD and returned envelope.

   b. Update FIPS and reprint a new label. (Do not update letter in FIPS). Put the new label on the outside of the CD Mailer (not directly on the CD).

   c. Write the ID of the **case processor** on the copy of the returned CD and give to OA Supervisor. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

DIRECT MAIL:

This is mail sent directly to NRC from requesters, subjects, attorneys, etc. The content of direct mail is varied and usually requires some type of action. Direct mail could consist of, but not limited to, any of the following:

- Change of Address (see **Request for Change of Address**)
- Status Request (see **Status Letters**)
- Withdrawal of Request (see **Withdrawal of FOIA/PA Request**)
- A request to change the scope of a FOIA request. The action required to change the scope of a request could involve changing the track of the case; depending upon the type of information/documents requested.
- Correspondence about delinquent payments (including checks)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Responses to Track 3 denial or Expedited Treatment denial
- Responses to requests for additional information
- Requester asks for their record on paper: scan in as a case supporting document (CSD)

We may respond to direct mail in writing or by phone, and some mail requires no response.

Please create a Discussion describing the problem and how it was corrected. FOIA/PA Assistants assigned to handle mail should initial, date, and write what kind of document (such as CSD or REQ DOCS) on the top page and staple the pages together after scanning. Case creators may deliver the fax or mail with CSD's to the OA room for scanning.

Mail or faxes regarding delinquent payments, payments made or checks received is pulled prior to distributing to the Team. If any of these types of documents are inadvertently left in with the mail, please give them to the Team supervisor.

Mail concerning Track 3 or expedited treatment

If we receive additional correspondence via e-mail, mail or fax relating to an existing case, asking for expedited processing or processing as Track 3; forward the correspondence to the MSB supervisor. A supervisor must review the correspondence and make a determination. We must address within 10 days in writing our response to the expedited or Track 3 processing request, whether we grant or deny. FOIA/PA Assistants assigned to mail will place the mail in the Track 3 or Expedited Review bin.

Insert a Discussion titled "Expedited Treatment Request" or "Track 3 Request." In the text of the Discussion type whether it was denied or approved and the sequence number of the status letter. Scan the additional correspondence in as a CSD.

If the requester responds to our denial of expedited treatment or Track 3 processing, the procedure is essentially the same: forward it to the MSB supervisor, who will make the determination.

If a FOIA/PA Assistant working in Records Locator queue discovers correspondence relating to expedited processing or Track 3 scanned in but has not been addressed by a supervisor; the Assistant should insert a Discussion and send the case to Admin or Unit Chief. Send an e-mail to the supervisor handling the expedited requests and include the control number of the case.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Requester documentation / additional information

This consists of documents or more information that we have asked the requester/subject to provide. When the information is received it is scanned into the requester documentation slot. Use the additional information provided to continue creating the case. If the requester/subject did not provide the alien number, use the information provided to search CIS (9102, 9103 or 9106) and CLAIMS to locate any responsive records, or receipt files. If you cannot locate any records relating to your person, close the case as NR. Copy screen-prints of your searches for scanning in as CSD. (FYI CSD's can be scanned in after a case is closed).

We do not re-open cases that close as FC because the requester failed to reply within the time allotted - unless it is our fault. An example of our fault would be they sent back the requester docs and the envelope was postmarked before the deadline. It doesn't matter if they are one day late returning the requested information. The Team will send the requester a letter advising them that their case has been closed as a FC. If the requester still has an interest in receiving the information, he or she will need to submit a new FOIA request. This includes cases closed within the same month. We are handling these FC requests the same for everyone so nobody is getting unfair treatment. However, if you receive a call asking for more time to return the requester docs, and before the case closes, you may repend. A template FC letter is located at: O:\Foia\FOIA LIBRARY\Case Create References\Template Letters\FC Letter.

Request for change of address

If you receive a Form AR-11 or other correspondence from an alien wanting to submit a change of address, forward the original letter and enclosures to the following address:

U.S. Department of Homeland Security
Bureau of Citizenship and Immigration
Change of Address
PO Box 7134
London, KY 40742-7134

For commercial overnight or fast freight services only:

U.S. Department of Homeland Security

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Bureau of Citizenship and Immigration
Change of Address
1084-I South Laurel Road
London, KY 40744

Status letters

The public has the ability to check online the status of their FOIA request(s) with NRC at (www.uscis.gov).

From www.uscis.gov, find the link near the bottom of the left column under "Other Services" marked "FOIA Request Status Check." Click there to navigate to the online status check page.

The on line status check will indicate whether the request is still pending, or whether the case has been processed or closed within the last six months.

If the request is still pending, the online status check will indicate the position of the request relative to all pending USCIS requests in the same processing track. It also provides the date the request was received.

If the request was processed or closed within the last six months the requester will be given the date the request was closed. The system does not discern how the request was closed i.e. DP, G1, PD etc., however it does address cases closed for Failure to Comply.

If the control number entered is not recognized, the requester will be advised the number entered is invalid or the case was processed more than six months ago.

The previous method of providing a status letter did not give the requester accurate information. In order to better serve our customers Teams should paste in the online FOIA Request Status Check every time a status is requested.

If you need to generate a status letter due to correspondence via mail, e-mail or fax, please run the control number with the online FOIA Request Status Check. You should not provide status to the requester using the "Q" button. Change the information on the letter that shows the status of the case, replacing it with the results from the online status check before you close and save. Use the latest Status Letter from *O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters*,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

since the letter in FIPS may not be the current version. This ensures that the requester will receive accurate information.

Please print the online status check and send it to be scanned in as a CSD to support the status letter.

Withdrawal of a FOIA/PA request

A requester must send us a document to withdraw a pending request. Upon receipt of a written request to withdraw a FOIA, please have the request scanned into the case as CSD. Make sure that the WD letter has been scanned in before you close the case. Ask your supervisor to send the case to you in Records Locator queue. Add a Discussion indicating that the request was withdrawn per the documents found in CSD.

Mail received in a foreign language

If we receive mail written in a foreign language and you cannot determine whether it is a FOIA request, forward the mail to a supervisor. The supervisor will forward the documentation to MSB, who will then return the translated mail.

BLANK TAPES/CD's

If you receive a blank VHS tape, cassette or CD with a FOIA/PA Request, return it to the requester.

VIDEO REPRODUCTION

As responsive records are scanned into FIPS; when the scanner encounters any type of media, they forward the alien file to MSB when their scanning is complete. The MSB staff assigned to audio/video reproduction will copy the media and insert a Discussion that it is complete. Once the case is processed, the processor will send an e-mail to the MSB mailbox with the case number and the page(s) number where the media can be located. MSB will pull the media and process/make any necessary redactions. The media will be mailed to the requester separately.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CONGRESSIONAL REQUESTS AND APPEALS

All Congressional Requests and Appeals are pulled out of the in-coming mail and handled by a supervisor. If you encounter a Congressional Request or an Appeal in Records Locator queue that was not previously addressed; send an e-mail to NRC, FOIAMSB mailbox, include the control number and alien number of the case and specific instructions as to what needs to be done. Put the case in Unit Chief. FOIA/PA Assistants assigned to mail will place the mail in the MSB or Appeals bin.

INCORRECT PAGE COUNTS:

The OA room will give final action letters with responsive records to the Team supervisors if the page count in the letter differs from the amount of pages printed. The supervisors will distribute to Team members to correct the page counts.

1. Using FIPS Standalone, go into the case that corresponds to the final action letter (NRC2010_ _ _ _). After the case is opened, determine the corrective action needed by comparing the responsive records in the case to the printed responsive records.

2. Correct the final action letter and reprint the letter.

3. Attach the reprinted final action letter to the responsive records.

4. Take the reprinted final action letter with the responsive records to the OA room to be mailed out.

5. Write the User ID Number of the person who created the final action letter in the upper right corner of the incorrect letter, and notate on the letter the corrections that you made. Do this in a controlled manner so that you and the supervisor are the only ones who see this paperwork.

6. Stack the incorrect final action letters in a separate pile. Write "ERRORS" on a post-it note and stick the post-it note to the top page to identify these as the incorrect letters.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

7. Give the incorrect letters to the Team supervisors. The supervisors will give the incorrect final action letters to a FOIA supervisor daily for distribution and review.

ALIEN'S STATUS VERIFICATION LETTERS:

The National Records Center no longer issues certified Status Verification Letters to aliens. These letters were usually issued to individuals who had lost their Naturalization Certificates and needed verification of their status to apply for a passport or old age pension benefits in another country. If you get a request for certified Status Verification Letters, refer these individuals to USCIS.GOV to make an INFOPASS appointment.

INQUIRY FOR FILE REVIEW:

If you receive an e-mail regarding an inquiry for a file review, and the request is not in regard to a FOIA request, do not call the person or forward the e-mail to another NRC Division. Forward the e-mail to a Supervisor.

RECORDS LOCATOR QUEUE

Cases assigned to Records Locator queue will require some kind of action. Some of the most common reasons are:

- The staffing has to be re-pended
- Additional PII or consent is needed
- Requester docs have been received
- Requester writes to request the record on paper
- The wrong records were scanned into the case
- We need to send an interim interest letter to an incarcerated individual
- The file is lost
- We got a response of not found or consolidated from a service center.

It is important to read all Discussions as well as insert Discussions as necessary. Listed below are points/actions that you should consider while working cases assigned to Records Locator queue.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Always check cases in FIPS for duplicates searching all offices using the Alien number and name of the subject of record. If the subject of the request is a petition, it may help to search by the requester to see if that petition has already been addressed.

- Research cases and take needed action(s) on cases.

- Read and follow directions in any Discussion found in the case regardless of age or who put them in. If there is a question, see your supervisor before proceeding with any action on the case.

- Anytime you create a new staffing, you must cancel the one it replaces.

- Do not cancel staffing sheets and re-staff just because the request is old and has been pending for an extended period. Canceling staffing sheets and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly. Please continue to repend these cases as necessary.

- If the A file has been scanned in and we are waiting on a T-file, review T-file staffings in NFTS History. If the T-file has been deleted or combined with an A-file or is from a RAFACS conversion, then cancel that staffing, because the T-files no longer exist. Send the case to the processor.

- A-file has been scanned in, but there is an open pending slot for a T-file: Review "T" file history in NFTS. If the "T" file has been consolidated /combined with the A-file, check the date it was consolidated. If the "T" file was scanned in with the A-file, cancel the pending "T" file slot and send the case to the processor.

- If you see it has been through image process box and returned to a shelf then further research is required.

  a. Check all offices for duplicate cases in FIPS using the alien number.

  b. Does the subject have more than one alien number per a Discussion or on their request? If so, search those for potential duplicate cases.

  c. If you find a duplicate case, make a Discussion and advise NRC, FIPSPROBLEM mailbox with an e-mail and repend.

- **Additional PII needed:** Sometimes when a processor retrieves a case, he or she will determine that additional PII or consent is needed from the requester/subject. You will

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

have to create an Interim Response Letter and check the other documentation box. Modify the letter and attach the Requester Documentation Attachment (located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Requester Docs Attachment). Check the boxes required and pend the case for Requester Documentation. If the processor is asking for information that is already present in the scanned documents, put in a Discussion asking for clarification on what the processor is requesting. You may also have to point them to the slot where the information is currently contained.

- **If you pull a case in Records Locator queue and the Requester Documentation has been received:** Review the information provided, if the requester/subject has provided the requested PII and/or consent, staff for the file.

- **The requester/subject may respond negatively to the request for PII.** If we receive a negative response, attempt to locate an alien file and staff, matching as much of the PII as possible. Pend the case for responsive records.

- **If the requester/subject does not return the PII we asked for, and if a positive match cannot be identified in CIS or CLAIMS** with the PII provided, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-PII. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

- **If the requester/subject does not return proper consent**, generate a FC letter and replace the contents of the letter with the template letter Failure to comply letter-Consent. The template is located at: O:\FOIA\FOIA Library\Case Create References\Case Create Template Letters\Failure to Comply Letter. Send the case to approver when you are finished.

- **If a request for consent is returned but the requester says he or she is a third party requester** (they have no relationship to the subject of the record and cannot or will not get consent), staff for the file. Create a Discussion advising the processor to process this case as third party without consent.

Occasionally you will pull a case in Records Locator queue and there is a Discussion stating the wrong records have been scanned into the case. This will require some investigative work before a solution can be determined.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- **Did the Case Creator use the wrong alien number when the case was originally created or when the records were staffed?** If so, please staff for the correct file. You must then send an e-mail to FIPS Problem mailbox and ask that the wrong records be removed. Clicking the link above will automatically send a copy to the FOIA Program mailbox.

- **Did the requester ask for a copy of a petition they filed on behalf of a beneficiary?** If so, the case was probably set up incorrectly. Check first to see if there are two cases for the requester. If not, you will need to correct the one that exists to become a request for the beneficiary's information. Locate the correct records and re-staff.

- **Did the scanning contractor scan the wrong records into the case?** If you've reviewed the entire file and there was no mistake made by the FOIA unit, it is possible that the scanning contractor has scanned the wrong file into this case. Here are the steps to follow if you believe this may have happened:

    1. Look for a pending case for the records that were scanned into your case.

    2. If you locate a case, check to see if the responsive records have been scanned.

    3. If they have not, you'll need to have the records moved from your case over to the correct case. You will have to have the slots in your case re-set to pending by the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

    4. If the pending case already has records scanned in, review those records.

        i. Are they the correct records for that case? If so, then you will need to verify that they are a duplicate of the ones in your case.

        ii. If they are duplicates, then you do not have to do anything with that case.

        iii. You will need to have the wrong records removed from the staffing response and responsive records slots in your case. Send an e-mail to the NRC, FIPS Problem mailbox. Clicking on the link will automatically send a copy to the NRC FOIA Program mailbox.

If you pull a case in Records Locator queue and there is a **Discussion instructing you to create an interim response letter because the individual is incarcerated**:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- The request must be over six months old before we send out the interim letter. If your case meets this criterion, create an Interim Interest Letter.
- If the interim interest letter is returned saying the subject is no longer in custody and we do not have another address for the subject, you can close the case FC. **Do not close out the case FC without the returned mail.**
- If the individual is still incarcerated and still interested in receiving the record, send the case to the processing queue.

If you pull a case in Records Locator queue and there is a document scanned into the Staffing Response and the Responsive Records slot which has been changed to Inactive, look at the document scanned in to the Staffing Response.

- If the case was staffed for a receipt file that has been sent to NVC (National Visa Center), redirect the request to NVC. Create the Final Action Letter, choose "RD" and select "NVC" from the drop-down box. Save the document and check it in. Send the case to Up-front Approver.

- If the receipt file is marked lost, file destroyed, or file cannot locate, go to Receipt files; Lost receipt file, File destroyed or File cannot locate.

- If the receipt file has been rejected by the service, there are no records to retrieve. Close out as No Record, with an explanation of rejected receipt files.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

REPENDING IN RECORDS LOCATOR QUEUE

- Do not create a Discussion that you repended the case; the system automatically creates a record of case action.

- If you open a case in Records Locator queue and the file has not been scanned in nor is there any staffing response, you will probably have to repend the responsive records slot. However, before you repend the responsive records, verify the location of the A-file in NFTS and on the 9504 screen in CIS.
  1. If the file has moved to another FCO, you should cancel the current staffing sheet and create a new one to reflect the new FCO.
  2. If that file has moved from the original staffing location and is now in-transit to the NRC or has been received at the NRC, repend. Do NOT cancel the original staffing sheet or re-staff to RAFACS/CIS.
  3. Do not cancel staffing sheets and re-staff just because the request is old and has been pending for an extended period. Canceling staffing sheets and re-staffing due to age affects the aging reports and makes it impossible to track these pending cases properly.

- If the file has been received by NRC and NFTS shows scanning, image processing, image problem files, streamliners (anything except a shelf location) repend.

- If a SIG case comes up for repending in Records Locator queue, please repend and notify NRC, FOIASIG of this. Insert the NRC case number on the subject line.

- If NFTS shows the file is at the NRC and the location is SEIT Admin "FOIA files awaiting partner" do further research. If there is an A-file and a T-file that will be scanned in together when the other arrives, then repend. If there are two separate staffings for files, then e-mail NRC, FOIAFILEREQ to research and to have the file scanned in if necessary.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

CHANGING THE TRACK OF A CASE

Do not change the track of a case except in the following instances:

- The requester is narrowing the scope of their request from a Track 2 case to a Track 1 case. Prepare a status letter and advise the requester that their case is now on the simple track.
- The requester has responded to our acknowledgment letter stating that he or she did not mean specific documents only, and this would cause us to move a case from Track 1 to Track 2. Prepare a status letter and advise the requester that their case is now in the complex track.
- The requester has a Track 2 case and provides the required documentation to change their request to a Track 3. Prepare a status letter and advise the requester that their case is now in Track 3.

When you change the track of a case, ensure you click the "SAVE" button prior to exiting the case.

RESPONSIVE RECORDS SCANNED IN WITH STAFFING RESPONSE

Occasionally the responsive records are scanned in behind the staffing response, instead of into the responsive records slot. These cases then appear in the processing queue, but cannot be processed. The processor will send a message to the NRC, FIPSPROBLEM mailbox for correction and insert a Discussion explaining the problem.

If the case has not come up for processing and you encounter this situation in Records Locator queue, put a Discussion indicating the problem (Responsive Records scanned into Staffing Response slot), and send a message to the NRC, FIPSPROBLEM mailbox with the following information:

- The NRC control number of the case,

- The A number or Receipt Number of the records,

- The staffing sequence they are scanned into, and

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- The number of pages scanned in.

Send the case to Unit Chief/Admin so that the problem can be resolved.

Click here for instructions if you pull a case in Records Locator queue that has been staffed for a **Lost File**.

CASES NEEDING ACKNOWLEDGEMENT LETTERS

Cases received in Records Locator queue that need acknowledgement letters must be re-assigned to a Troubleshooter in the Case Create role. Please contact a supervisor with the NRC Control Number and ask that the case be re-assigned to you in the Case Create role.

RE-STAFFING

- If the file has moved to another office, cancel pending slot and staff to the correct FCO. ***Do not confuse this with files that are now in-transit to NRC.**
- If the current staffing is not correct (for example - an Atlanta general staffing instead of an Atlanta ICE staffing): Cancel the pending slot and re-staff properly.

FOIA SAFE

Cases staffed to the FOIA Safe are processed in the NRC queue.

While working Records Locator queue, if you pull a case that has been staffed to the FOIA Safe, **NEVER** cancel the staffing. Pend it for responsive records.

The RPC for the FOIA Safe is ZW0004.

If you see an RPC of "**ZW**" anywhere, it is a classified file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

IN TRANSIT FILES

If NFTS shows a file is now in transit to the NRC, repend. ***Do not cancel the staffing and re-staff to NRC.**

MODIFICATION OF RECEIPT DATES

Modification of receipt dates is a serious matter. Final approval authority to modify a receipt date is ACD or higher. Any decision to modify a receipt date must take into consideration the negative effect such an action will have on the integrity and accuracy of the data in FIPS, as well as possible legal consequences.

MSB DIRECTED PROJECTS

Occasionally, MSB may have special projects that require your assistance.

MSB paralegals must receive prior approval from a supervisor before approaching any member of the team member for assistance on such projects.

Supervisors will select the person(s) to assist with the projects as needed.

APPENDIX D: CASE CLOSING CODES

PD – The case has been processed, responsive records were released in part.

G1 – The case has been processed, responsive records were released in full.

DP – The case was closed as a duplicate of another case.

ER – Created in error. (see **ER Case Closings**)

WD – Case was closed as a withdrawal.

NA – FOIA/PA not applicable. You are required to select the office the request is being redirected to. Select "ALL", two letters will be generated.

NR – The case was closed as no record. A search of all databases was conducted for any files relating to the subject. No results were found. All (non-responsive) screen prints are scanned in as CSD.

UT – Unable to locate alien file. Cases can be closed if the alien file is marked as lost and it has been more than one year. A thorough search of all systems must be completed.

FC – Cases close failure to comply when requesters fail to supply requested information. (i.e. Interim Interest Project, consent, subject has fugitive status or request for additional information)

FP – Cases close failure to pay when requesters fail to submit payment.

RD – Advise requester to contact another government agency to acquire records. We tell the requester whom they should contact to obtain records responsive to their request.

RF – Cases forwarded to DHS components. We tell the requester the name of the agency we referred their request to.

APPENDIX G: DEFINITIONS

The definitions listed below are words and phrases that frequently appear in FOIA and PA requests. The list is arranged in alphabetical order. Additional definitions can be located at http://www.uscis.gov/portal/site/uscis/menuitem. Select the tab titled "Education and Resource."

Access - Includes any form of disclosure, to include oral, visual, or reproduced copy. A reproduced copy, whether in paper or electronic format, always satisfies FOIA/PA access requirements.

Agency - Any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency. This does not include the legislative (Congress) or judicial (Courts) branches of the Government, nor does it apply to state, local, or foreign government agencies. The Department of Homeland Security (DHS) is an agency as defined above. The following are components or bureaus of the Department of Homeland Security; United States Immigration and Customs Enforcement (ICE), United States Customs and Border Protection (CBP), United States Secret Service (USSS), etc.

Agency Record - Any tangible recording of information and/or any item, collection, or grouping of information, including electronic that is maintained and controlled by an agency.

Notes or documents which are made by an employee, kept purely voluntarily, not circulated to nor used by anyone other than the author, and discarded or retained at the author's sole discretion for his/her own individual purposes are personal records. These are not generally agency records because they are not subject to the rules and controls of the agency for records management and disposition. These may, however, become agency records for purposes of the FOIA or PA if used to carry out an agency function (e.g., as the basis for a performance rating).

Component - Each separate bureau, office, board, division, commission, service, or administration, or agency of a Federal Executive Branch Department. For example: Border and Transportation Security (BTS), Citizenship and Immigration Services (USCIS), Federal Emergency Management Agency (FEMA), Immigration and Customs Enforcement (ICE) are components of the Department of Homeland Security.

Conditions of Disclosure - Specific provisions in the Privacy Act (5 U.S.C. § 552a(b)(1) through (12)) allows the agency to disseminate information from a PA system of records without the prior written consent of the record subject.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Congressional Committee Request - A request from either House of Congress, to the extent of matters within its jurisdiction; a subcommittee thereof; any joint committee of Congress; any subcommittee of any such joint committee. Agencies may not use FOIA or PA exemptions to deny records that are the subject of such a request.

Congressional Request - A request from a Member of Congress on his or her own behalf, or on behalf of a constituent. After acknowledgment under congressional correspondence procedures, congressional requests are to be processed in the same manner as any other FOIA or PA request.

Consolidation – Combination of paperwork into a main file. After the service completes work on a petition or application, we combine it into the person's A-file. If the service discovers two "unconsolidated" A-numbers for a person, we combine the two files. One of the A-numbers becomes the "survivor" and the other becomes the "consolidated A-number."

Consultation - Obtaining the views of another DHS component or Federal agency concerning the release of information that has been incorporated into immigration documents or a reciprocal request. The National Records Center, FOIA/PA Division, makes the final overall determination on release.

Freedom of Information Act Request - A request **in writing** by any person for access to any record maintained by any Federal agency. Federal agencies are not persons for purposes of FOIA.

Included are requests for access to Privacy Act records of another person without the written consent of the record subject, as well as requests from nonimmigrant aliens for access to their own records.

FOIA/PA Information Processing System (FIPS) - Through the use of imaging, workflow, and graphical user interface technologies, FIPS allows USCIS to electronically manage and process FOIA and PA requests.

First Party Requester - A subject or designated representative asking for access to his/her record. A notarized signature or a sworn declaration under penalty of perjury from the record subject is required for access to records.

Forms – Various government forms available from www.uscis.gov/portal/site/uscis that are provided for the use of requesters and their representatives when submitting a FOIA or PA request with USCIS. The more common forms include:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

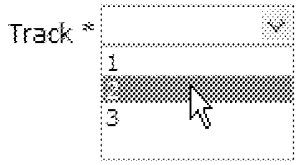
- G-28 – Notice of Entry of Appearance as Attorney or Representative - This form is used for information purposes only. It should be signed by the attorney or representative and by the subject of the record. Does not qualify for consent unless the attorney or representative has inserted the penalty of perjury statement and the subject of the file has signed the document.

- G-639 Freedom of Information/Privacy Act Request – This form can be used to make a FOIA/PA request. When completed it provides enough information to complete an extensive search for records.

Individual - The PA describes an individual as follows: a U.S. Citizen (U.S.C.) or alien lawfully admitted for permanent residence (LPR). Conditional residents are considered LPRs. Corporations and organizations are not individuals.

Multi-track System - USCIS utilizes a three-track system to process all FOIA requests.

Track Drop-Down List



- Track 1 is used for the less complex cases. These are cases where only one or a few specific documents are being requested from the file.

- Track 2 is used for the more complex cases. A complete copy of a file, requests from the news media or special interest groups are considered Track 2 cases.

- Track 3 is used for cases that specifically involve individuals who have been scheduled to appear before an immigration judge.

To view the track history of the active case, click the **Track history** icon next to the Track drop-down list.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Privacy Act Amendment Request - A request from a U.S.C. or LPR to amend, expunge, or correct information in his/her PA record that the individual believes is not accurate, relevant, timely or complete.

Privacy Act Record - Any item, collection, or grouping of information about an individual which the maintaining agency retrieves by the person's name, identifying number, symbol, or other identifying particular assigned to that individual. This information includes, but is not limited to, a person's education, financial, medical, criminal or employment history.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

FOIA/PA ASSISTANT'S GUIDE

Privacy Act Request - A request in writing submitted either in person or by mail, for records that are contained in a Privacy Act system of records. The records must be under the control of DHS and be retrieved by the name of the requester or other personal identifier. Requests are received from:

- A USC or LPR for access to or his/her own records, or
- A third-party with a signed privacy waiver from the record subject acting on the subject's behalf, or
- The parent of an LPR or USC minor child or the legal guardian of a person declared incompetent by a court of competent jurisdiction.

Records Custodian - The official responsible for the maintenance, security, control, and final disposition of official records that are required by law, regulation, or other directive to be kept by the Agency.

Referral - Information found in immigration records – the forwarding of a record that originated with another component of DHS or another Federal agency for direct response to the FOIA/PA requester. Also includes transferring responsibility for responding to a request regarding the release of records to the DHS component best able to determine whether to disclose, or to the Federal agency that originated the record.

Retire – The service sends the A-file to the Federal Records Center (FRC) after a number of years have passed with no activity. This is called "retiring" the file. Occasionally, we have to request a retired file from the FRC.

Rider – A person who is also listed on a petition or application that will also benefit if that petition or application is approved. For example, a woman applying for asylum lists her husband and two children on her asylum application. They are riders.

Routine Use - An established use and authority for disclosure of records from a Privacy Act System of Records, other than an intra-agency disclosure. Disclosure or use must be for a purpose that is compatible with the purpose for it was collected, that would be otherwise prohibited by the PA. Such disclosures do not require the written consent of the record subject, but require Federal Register publication prior to such use.

System of Records - A group of any records under the control of an agency from which information is retrieved by the name of the individual or by some other identifying number, symbol, or identifying particular assigned to the individual.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Third Agency - Other administrative agencies of the Executive Branch of the Federal government, including other components of DHS.

Third Party Request - A request from any person for access to another individual's record without that individual's written consent. The identity of a third party requester and his/her relationship to the subject does not increase (or decrease) his/her rights of access to the records.

White House Inquiries - An official request from any member of the White House staff, or letters of the President forwarded to the agency for response.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

FOREWORD

The FOIA/PA Assistant's Guide has been prepared as a ready reference to assist with day-to-day tasks, such as creating Freedom of Information Act and Privacy Act requests, handling mail, working records locator, and general troubleshooting.

Any previous material distributed in *FOIA Information Bulletins* has been incorporated into this Guide.

For the purposes of this Guide, we may refer to a FOIA/PA Assistant as "you," or "Assistant," and in some cases "team member."

The Guide has been saved in PDF format. The PDF format makes searching for information in the Guide easier. **Please view the guide in PDF/A mode while you have FIPS 7 open.** A potential Java scripting conflict exists if you have the document open in PDF mode while running FIPS 7. Viewing the Guide in PDF/A mode disables Java scripting within the Guide – which means hyperlinks within the Guide will not work, but FIPS 7 will not freeze or crash. You may alternate between PDF and PDF/A mode in Acrobat Reader by selecting Edit ⇨ Preferences ⇨ Documents ⇨ PDF/A View Mode. Select "Never" to turn PDF/A mode off, and select "Only for PDF/A documents" to turn PDF/A mode on.

How does the rulemaking process for this Guide work? ACD FOIA/PA Operations and your Supervisors direct how Paralegal Specialists, FOIA/PA Assistants and Office Automation personnel accomplish their missions. Through ACD Operations, Supervisors submit a new rule or procedure to ACD FOIA Program. At the direction of the ACD, Program Office may immediately amend the guide, or they may seek clarification from Office of Chief Counsel. After consultation, Program Office will either amend the Guide or propose a modified rule to ACD Operations.

You, the FOIA/PA Assistant, may notice something in the Guide that is awkwardly worded, or contains a typographical error, or something that simply is not true. You contact your supervisor and then Program Office amends the guide.

Ideally, before we amend the Guide, we first publish a FOIA Information Bulletin (the exception being a misspelled word or a missing punctuation mark). FOIA Information Bulletins and the latest version of this Guide are available on the USCIS FOIA/PA Operations intranet page. When we make additions or revisions, we create a Record of Revision at the front of the Guide for quick reference.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Record of Revision

May 6, 2011

Paragraph 7.1,* Consent of Parents or Guardians,** *of the* ***FOIA/PA Assistant's Guide *has been changed (changed portion is underlined):*

If a parent is filing on behalf of a minor child, then the parent must submit proof of parentage. Proof of parentage can be in the form of a birth certificate, adoption decree or similar document, naming them as a legal parent.

If a guardian is filing on behalf of a minor or person judicially determined to be incompetent, he or she must submit proof of guardianship. No consent is necessary from the minor child or the person judicially determined to be incompetent, however the parent/guardian must provide his or her own verification of identity that is notarized or signed under penalty of perjury [6 C.F.R. § 5.21(e)]. The case processor will have to request more information if he or she cannot determine parentage or guardianship within the file.

Minors may request their own files; they do not have to have the consent of their parents or guardians to do so. Attorneys may represent minors also.

Paragraph 12.7.11 T-files *of the* ***FOIA/PA Assistant's Guide*** *has been changed* (changed portion is underlined):

The exception to this rule – We do not receive A-files from ESC, SSC, NSC, WSC or RDF for scanning. Those offices either scan directly into FIPS for us or we export the A-file from EDMS. Therefore, if the A-file is at one of the above service centers and there is a T-file anywhere else, including at the NRC, you will have to staff for the T-file. MSC is the only service center that sends the A-file to the NRC for scanning. Another example of when we staff for an in-house T-file is when the responsive records are scanned in simultaneously with the request.

Paragraph 12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS *of the* ***FOIA/PA Assistant's Guide*** *has been changed* (changed portion is underlined):

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

12.7.3.9 **If the A-file is lost but other records exist** (such as receipt files we would normally request or other a-files, including T-Files, wherever they may be, including NRC) Request the additional records. Put in a Discussion that reads:

> A-file number XXXXXXXXX is currently showing as lost. Staffed for the following additional files: XXXXXXX, XXXXXXX, XXXXXXX. Once they are received, please review. Please also verify that the original a-file is still lost. If the original a-file has been consolidated in fact but not in the systems, please process and send your case to approver. Also send an e-mail to the MSB for resolution. Include both a-numbers. If no documents exist from the original a-file, please process what is available. Advise the requester that the original a-file is lost. Your case will close as a PD even if no redactions are made. Thank you.

APPENDIX H: CASE CREATE FLOW CHARTS has been added to the FOIA/PA Assistant's Guide.

APPENDIX I: ALIEN NUMBER ASSIGNMENT has been added to the FOIA/PA Assistant's Guide.

May 13, 2011

Paragraph 12.7.6 of the **FOIA/PA Assistant's Guide** has been changed as follows (added portion underlined ~~deleted portion stricken through~~):

> When conducting "no record" research, do the query and provide screen prints of all searches as directed. ~~Open a RAFACS *(not RAFACS/CIS)* staffing slot only. Click on "Customize Letter."~~ Print the appropriate CLAIMS screen prints (this should be no less than six pages and may be lengthier if subject has provided multiple names or multiple alias names). Prepare a "Scan As" sheet to be scanned as case supporting documents ~~responsive records~~ for the case number you have just created, attach it to the screen prints and take those to the OA room for scanning as CSD ~~person designated to scan RAFACS only responsive records~~. ~~Pend the case~~ prepare a Final Action Letter with closing code

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

NR. Insert a Discussion outlining the systems you searched and stating that you have sent the documentation to OA for scanning as CSD. Send to Up-front Approver.

Paragraph 12.7.12 of the **FOIA/PA Assistant's Guide** has been changed as follows (added portion underlined ~~deleted portion stricken through~~):

12.7.12 Receipt files

12.7.12.1 Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SS**C/SRC, WSC/WAC, MSC/NBC or NSC/LIN)**. For example, LOSJ9163201111, DALC922740405 or SPM9606900035, etc., are not receipt files we can request.

12.7.12.2 If the requester does not specifically ask for a receipt file and provides an alien number, request the alien file only. If the requester specifies a receipt file, search NFTS and staff for that receipt file OR if the receipt has been consolidated into an alien file, staff for that alien file.

12.7.12.3 If the requester does not provide any receipt number or alien number, then you must research CIS, CLAIMS and ~~possibly~~ PCQS.

Be cautious about requesting receipt files that are for EAD cards only. There should be another application/petition filed in conjunction with this EAD card. If the only receipt numbers you can find is for an EAD card, and they are within the seven-year retention time, then yes, you will request the EAD card.

If they provide a receipt number, you must research CLAIMS, PCQS and NFTS thoroughly. Ensure the receipt file has not been consolidated into a T-file or into an A-file. Please request the A-file or T-file if the receipt file has been consolidated. Check CLAIMS to be sure that the Service did not reject the receipt. Receipts that are shown as rejected in CLAIMS are returned to the submitter by the Service Center. Print the CLAIMS screen(s) that shows the receipt was rejected by the service. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

If there is no location information in NFTS, and if NVC does not have the receipt, but there is a record in PCQS, print any PCQS screen(s) concerning the petition. Create a File Request to RAFACS (not RAFACS/CIS). Leave the "Customize Letter" button selected. Attach a "Scan As" cover sheet to the screen prints, mark

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

the box "Responsive Records" and take to person designated to scan RAFACS-only responsive records. Pend the case.

~~**12.7.12.4** If there is no information about the receipt file in NFTS, regardless of the prefix of the receipt number, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."~~

New paragraph:

12.7.12.4 As a matter of last resort, if there is neither information about the receipt file in NFTS nor PCQS and you have called National Visa Center and determined NVC does not have the receipt, you should staff to the owner of the receipt file and paste in the CLAIMS screen. This information can be located on the CLAIMS inquiry screen upper right hand corner. The CLAIMS screen will show "owned by."

May 27, 2011

Paragraph 6.3.4.6 of the FOIA/PA Assistant's Guide will be changed as follows: (changed portion in red)

As it used to read:

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Close the request as an ER and send to Up Front Approver
b. Send an e-mail to the OA room and include the following information:
   1) REQ#
   2) NRC#
   3) Scanner's initials
   4) Date scanned

The OA room will pull the original request, include it in the current days count and follow return procedures.

Updated Paragraph:

The case is not Genealogy unless it meets one of the above criteria. If the case you are creating does meet the criteria for Genealogy, create it as **OTHER** then do the following:

a. Create the and control the case.
b. Do not staff for any records and do not prepare an acknowledgment letter.
c. Send the case to Unit Chief with a discussion explaining it is a possible Genealogy

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

d. Send an email to the designated person who handles genealogy cases (currently Donna Brasfield) with the control number.

The designated person will review the request to determine if it is, in fact, a genealogy.

If it does not meet the criteria for genealogy it will be returned to you in Case Create to send an acknowledgment letter and staff for records.

If it does meet the criteria, the designated person will create a letter referring the requester to the Genealogy program and will close the case as ER.

Paragraph 12.5 Receipt Numbers of the FOIA/PA Assistant's Guide has been changed as follows:

As it used to read:
Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA MSC/NBC file request. **Do not request DIG T-files at HBG with RPC codes XX or ZG.** Refer to the Staffing Sheet Guide for the most current information.

Updated Paragraph:

Do not request receipt files from any offices other than one of the five Service Centers (ESC/EAC, SSC/SRC, WSC/WAC, MSC/NBC or NSC/LIN). For receipt files at HBG, use the NON-FOIA HBG file request. **Do not request DIG T-files at HBG with RPC codes XX, XY, ZG, ZY, or ZZ.** Refer to the Staffing Sheet Guide for the most current information.

June 10, 2011

The wording of paragraph 28 of the **FOIA/PA Assistant's Guide** has been changed as follows:

Current language:

28. CONGRESSIONAL REQUESTS AND APPEALS

All Congressional Requests and Appeals are pulled out of the in-coming mail and handled by a supervisor. If you encounter a Congressional Request or an Appeal in Records Locator queue that was not previously addressed; send an e-mail to NRC, FOIAMSB mailbox, include the control number and alien number of the case and specific instructions as to what needs to be done. Put the case in Unit Chief. FOIA/PA Assistants assigned to mail will place the mail in the MSB or Appeals bin.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

Here is the new paragraph:

28. CONGRESSIONAL REQUESTS AND APPEALS

a. Congressional requests. True congressional requests are requests from a congressman or senator for information which usually does not relate to an alien file or receipt file. Most FOIA/PA requests with congressional correspondence should be handled under paragraph b. of this section, however, if you feel that you have a true congressional request or appeal, control the case, put the case in Unit Chief, and e-mail your supervisor the control number. A supervisor will either send the case to SIG or return the case to you for staffing.

b. Congressional requests on behalf of a constituent: These are requests that have some kind of congressional correspondence included with the request from the subject. These cases should be created in the same manner as any other FOIA or PA request. Please use the subject's name as the requestor, mark "self" in the source block, create the acknowledgment letter and go out for verification of identity or consent as needed. Insert a case note, and e-mail Vicki Ohrnell the control number.

July 8, 2011

A new flow chart for Lost File procedure has been added to **APPENDIX H: CASE CREATE FLOW CHARTS** in the FOIA/PA Assistant's Guide.

Additionally, in paragraphs

12.7.2 Files Lost or Not Found LESS THAN NINE MONTHS
and
12.7.3 Files Lost or Not Found MORE THAN NINE MONTHS
the following new sentence has been added:

Note: Please refer to the **Lost File Flowchart** which you will find in Appendix H.

Paragraph 6.1.1.10 of the **FOIA/PA Assistant's Guide** has been changed as follows:

Old version:
6.1.1.10 If the only evidence of an attorney is an envelope or letter, but there is not a duly executed Form G-28, create the case using the name and address of the requester in Section 2,

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

"*Requester Information.*" Do not use the address on the envelope or letterhead.

New version:
6.1.1.10 If the request came to us on Form G-639, always use the name and address of the requester in Section 2, "*Requester Information.*" Do not use the address on the envelope, or Form G-28 or letterhead *unless* the requester did not use Form G-639 *or unless* Section 2 of Form G-639 is illegible. If the address on the G-639 is a foreign consulate office, or is a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you can find no other address, insert a case note and send the case to U/C.

Be careful - it is easy to miss apartment or suite numbers because the space for them is at the right side of Form G-639.

The following has been added to 6.4 SEARCH FOR DUPLICATE CASES of the FOIA/PA Assistant's Guide: (old text lined through, new text in red)

> This does not include instances in which the requester has faxed the request and then mailed it. If you open a case and find that the exact same request has very recently been created, chances are that you have opened the mailed copy which followed a few days after the fax. ~~Close this case as ER (created in error).~~ Do not create such a case. Click "Send to Research." That case will go and you will be ready for your next case.
>
> Ordinarily, you will search by Alien Number, and if you do not find a duplicate or similar case, your search will be complete. If the requester did not provide an alien number, you may search by the subject's last name and first name, or even by the requester's last name and first name. You may use a percent sign (%) as a wild-card for these searches. For example, if the requester's name is Jaime Vazquez, but you see he also has spelled his name Vasquez – you can search by Subject Last Name "Va%" and Subject First Name "Jaime."

Further on within paragraph 6.4, in the examples, there are two more changes:

> ~~Create a Final Action Letter and select final action code ER: Created in Error. After this, send the case to Up-front Approver~~ Do not click "Create Case." Click "Send to Research." You will then be ready for your next case.
>
> If you determine that it is not a true duplicate, please insert a new Discussion entitled "Similar Case" in each of the cases, so that a processor or approver can review both.
>
> ---

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

If the date of the request is either the same as your request or within a very few days and:

1. The requester is the same, and
2. The information being requested is the same in both requests,

Do not close this case as a duplicate. ~~Instead, close this case as ER (created in error)~~ Do not click "Create Case." Click "Send to Research."

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

1. THE FREEDOM OF INFORMATION ACT

Congress passed the Freedom of Information Act (FOIA) in 1966 to establish the public's right to access records created or maintained by federal executive branch agencies. The statute became effective on July 4, 1967. The statute relating to the Freedom of Information Act is 5 U.S.C. § 552.

2. THE PRIVACY ACT

The Privacy Act of 1974 regulates the collection, maintenance, use, and dissemination of personal information by the federal government. The statute relating to the Privacy Act is 5 U.S. C. § 552a. The statue became effective September 27, 1975.

3. WHAT ARE FOIA REQUESTS AND HOW DO WE GET THEM?

A Freedom of Information Act (FOIA) request is a request in writing for a copy of any record maintained by any agency of the executive branch of the government. Persons must reasonably describe the records sought, and those records must already exist. Requests can come in a variety of ways. They can come in on the Form G-639 or as a letter from an attorney or representative. They can come in the form of a letter from the alien himself. The requester may mail, fax, hand deliver, or e-mail a request. No matter how we receive them or what the format is, as long as they are in written form and provide enough information to ascertain that they want documents from us, we treat them as FOIA requests. A Privacy Act (PA) request is a request by a person for a copy of his or her file.

For case creating purposes, the difference between a FOIA and PA request does not matter. You will create all cases as FOIA requests, although some of the requests we receive are PA requests. The case processor determines whether the case falls under the Freedom of Information Act or the Privacy Act.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

4. WHO CAN MAKE A FOIA REQUEST?

Anyone can request any record kept by the executive branch of government. The tricky part is determining if we have enough information and consent to provide the record and who is entitled to what. The most common types of requesters are:

- First party requesters, that is, the alien himself or his designee, attorney or representative, are entitled to a complete copy of the alien file, after any applicable exemptions are applied. However, a parent or guardian may make a request for a minor's record. Please refer to the section titled **"CONSENT RELATING TO RECORDS CONCERNING A MINOR OR PERSON JUDICIALLY DETERMINED TO BE INCOMPETENT"** in this guide.

- Third party requesters, that is, an individual seeking a copy of an alien's file without the subject of record's consent, are entitled only to documents of a public nature or documents they provided in support of an application/petition. Please refer to the section titled **"THIRD PARTY REQUESTS"** in this guide.

- Media requesters are typically accredited members of the media.

- Bond obligors, companies who posted immigration bonds for the aliens, are entitled to a copy of the file under a court case entitled *Amwest v. Reno*. Please refer to the section titled **"IMMIGRATION BOND OBLIGORS"** in this guide.

- Other state and local government agencies are entitled to documents from alien files for law enforcement purposes. Requests for information originating with any other federal agency are operational matters and not FOIA or Privacy Act requests. Please refer to the section titled **"ROUTINE USE"** in this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

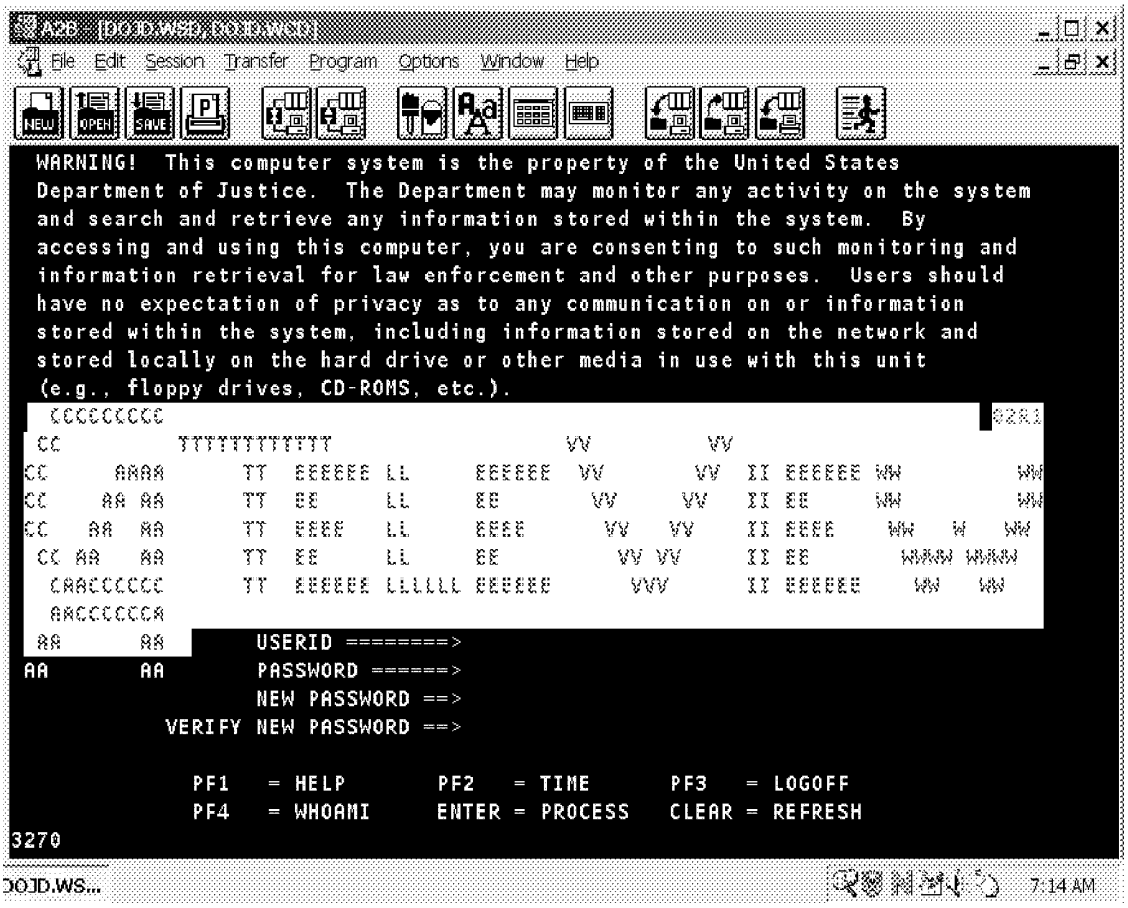
5. SYSTEMS USED AND DESCRIPTION OF THE SYSTEMS

The paragraphs below provide a description of some of the systems used by USCIS, ICE and CBP. Most A-files contain screen prints from one or more of these systems.

5.1 Central Index System

(CIS) is a database used to maintain records, search for records, and display data. CIS is a menu driven system as opposed to a point-and-click graphical user interface system. CIS provides information about persons and information about file location and movement. The CIS user navigates among various screens, depending on the type of information he or she needs. A user may search for a person in CIS by using the a-number, social security number, FBI number or a passport number. CIS provides the option of searching for people using "sounds-like" and exact name searches.

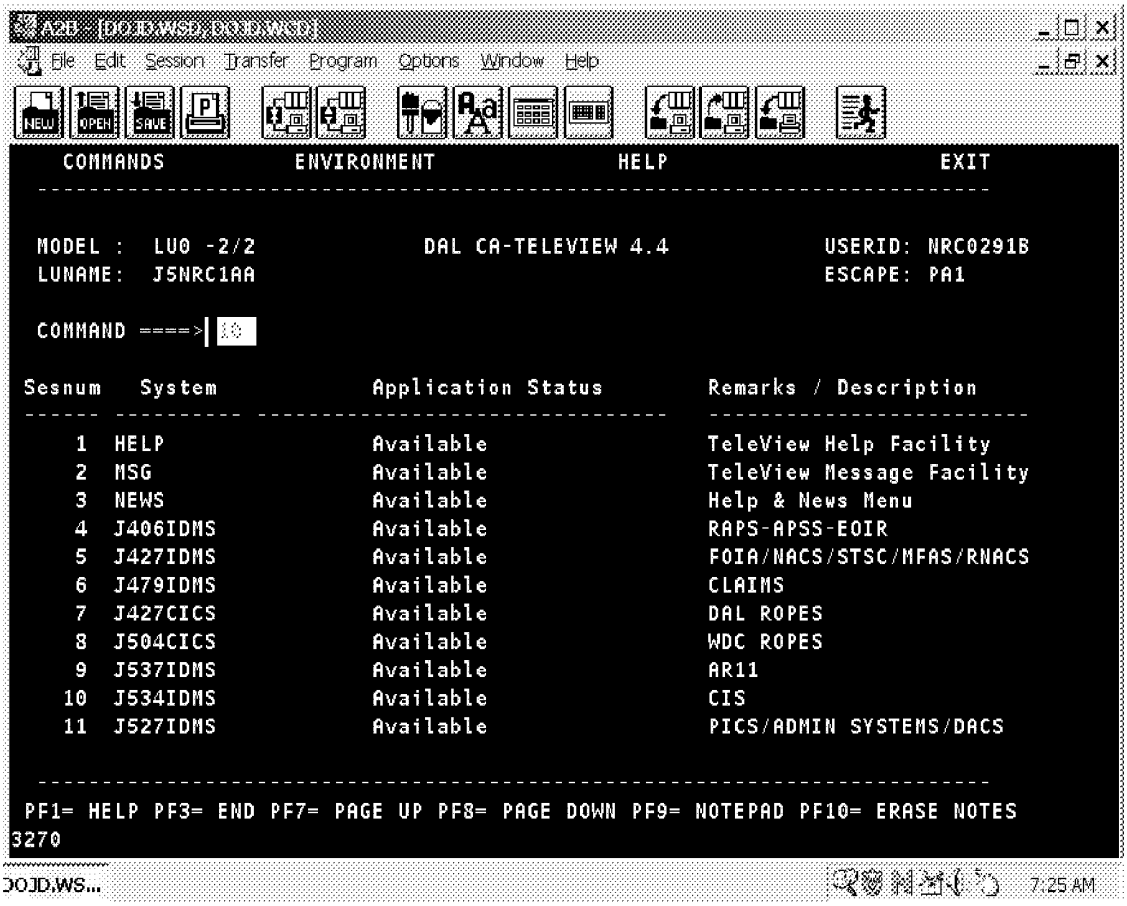
5.1.1 Introduction Screen



This screen is the introduction to TeleView. From this screen use the designated UserID (last 4 digits of Social Security Number plus an alpha) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.2 TeleView Main Menu



The number selected to access CIS will vary for each computer.

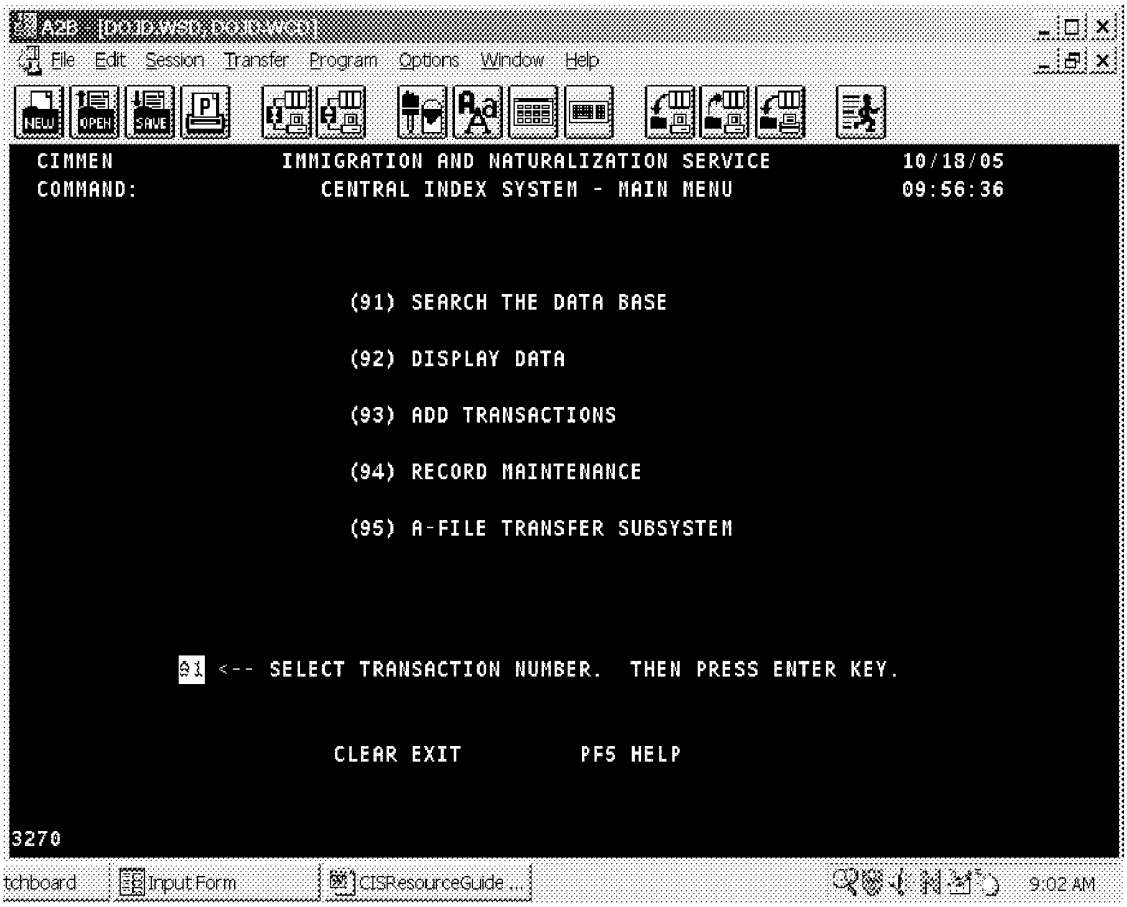
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.3 CIS Login Screen

This is the screen used to navigate through CIS. Pressing enter can access the main menu for CIS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

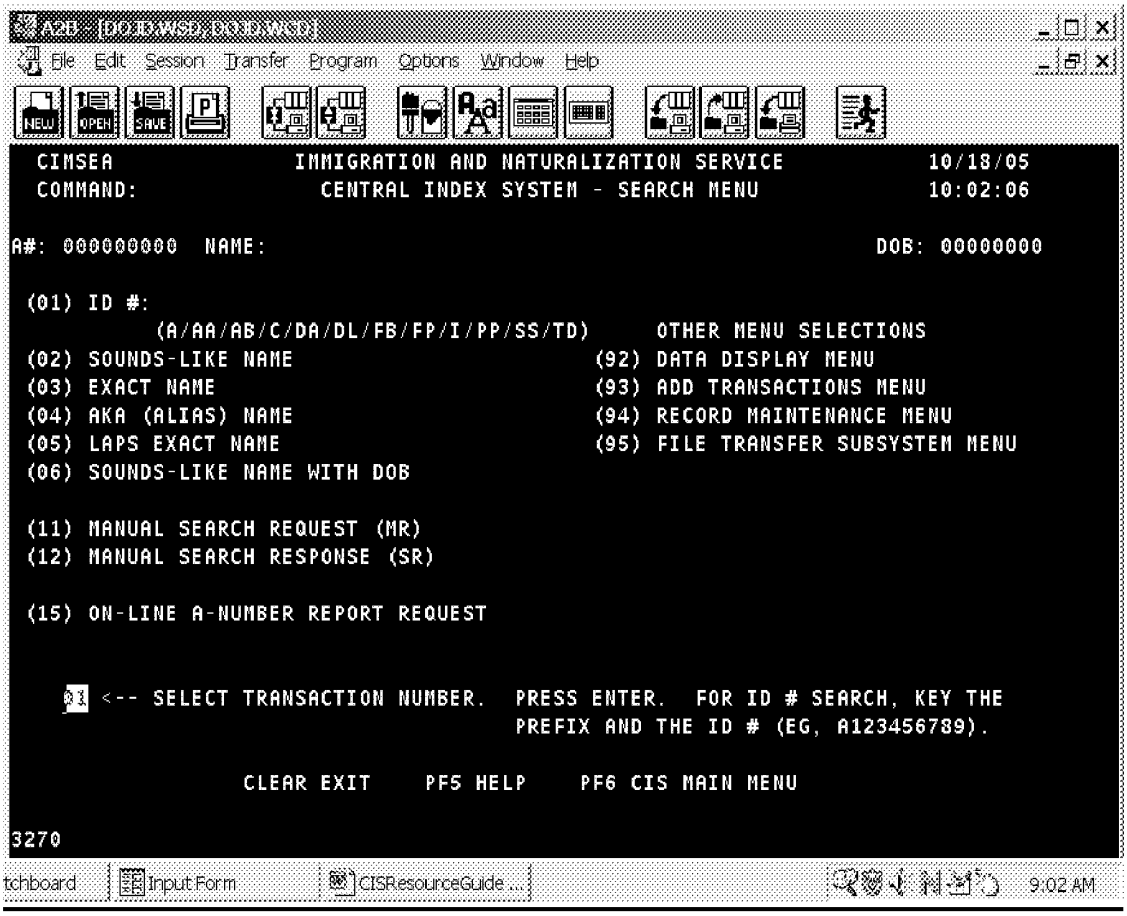
5.1.4 CIS Main Menu



This screen displays a variety of ways to search for information. The transaction numbers that we use within FOIA are 91, 92, and 95. By typing the number 91 next to select transaction number and pressing enter, another search screen will appear. The main purpose of the "91" transaction number is to search the database for specific information concerning an individual. Transaction number "92" is used to display card information. The transaction number "95" is used mainly to see the location of the A-file.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.4.1 Search Menu Screen



From this search screen a decision is made as to how to begin a search for an individuals records. The most commonly used methods to search for an individual's record are:

Code	Search By Category
01	ID # (A-number, certificate number, social security number, passport number ect.)
02	Sounds-Like Name Search
03	Exact Name Search
04	Alias (AKA) Name Search
06	Sounds-Like Name Search with DOB

Type in the two-digit code (01) and press enter. The screen displayed will be the screen where the search for records begins. ***Note:** Remember to read the screen in its entirety for additional information.

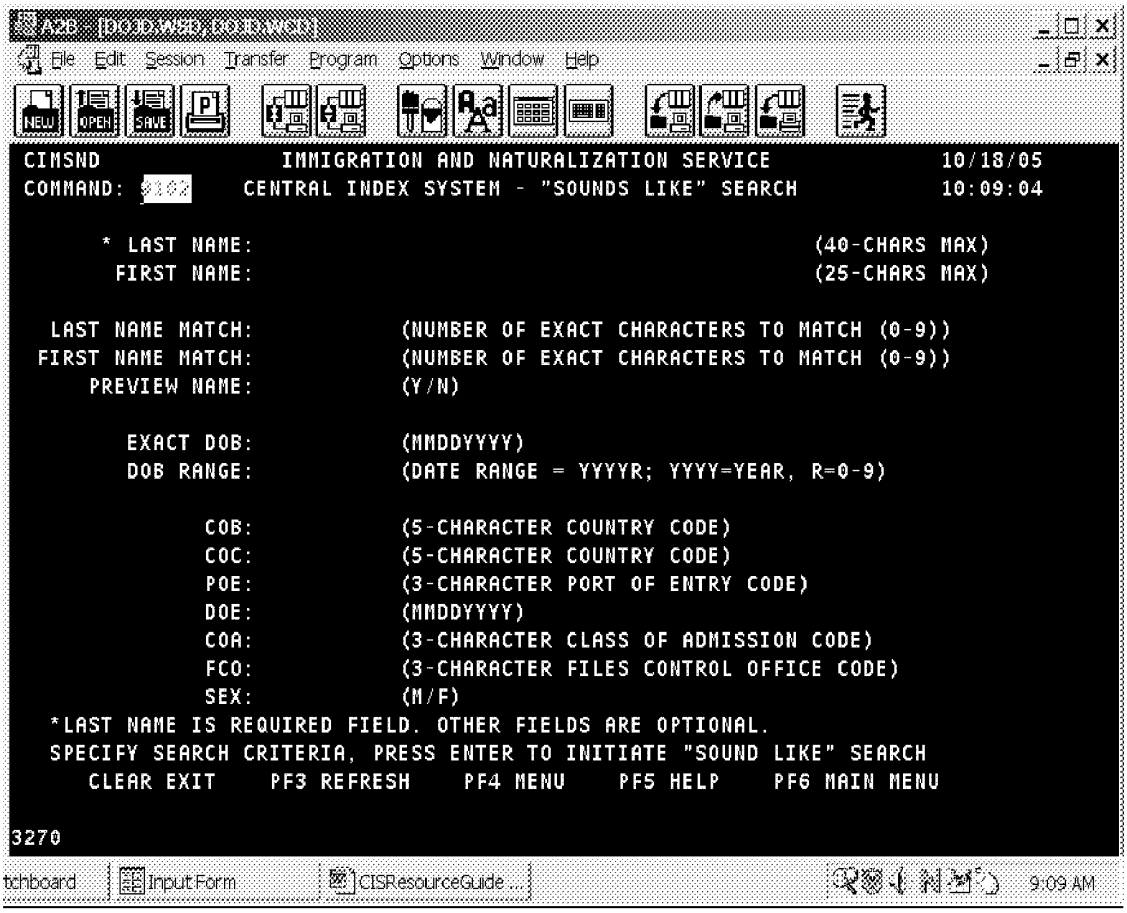
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.4.2 Search by A-number (9101)

In the ID# field enter the appropriate prefix with information (A = a-number, SS = social security number, PP = passport number, C = naturalization certificate number and I = I-94 number). If there is information in the system on the subject it will populate in the fields below the ID#. Pay special attention to the legend at the bottom of the screen specifically PF8, PF11, and any information listed under (other information). By pressing PF8 the history menu is displayed. This screen holds chronological information about actions that have been taken or changes in the subject's immigration status. The PF11 screen shows EOIR (Executive Office of Immigration Review) information. The significance of this screen is it holds information about ongoing or closed deportation proceedings. In the section of the screen listed (other information) different acronyms may appear such as: CARD, EADS, RAPS and DACS. For additional information on DACS please see Chapter 3.

5.1.5 Sounds-Like Name Search (9102)

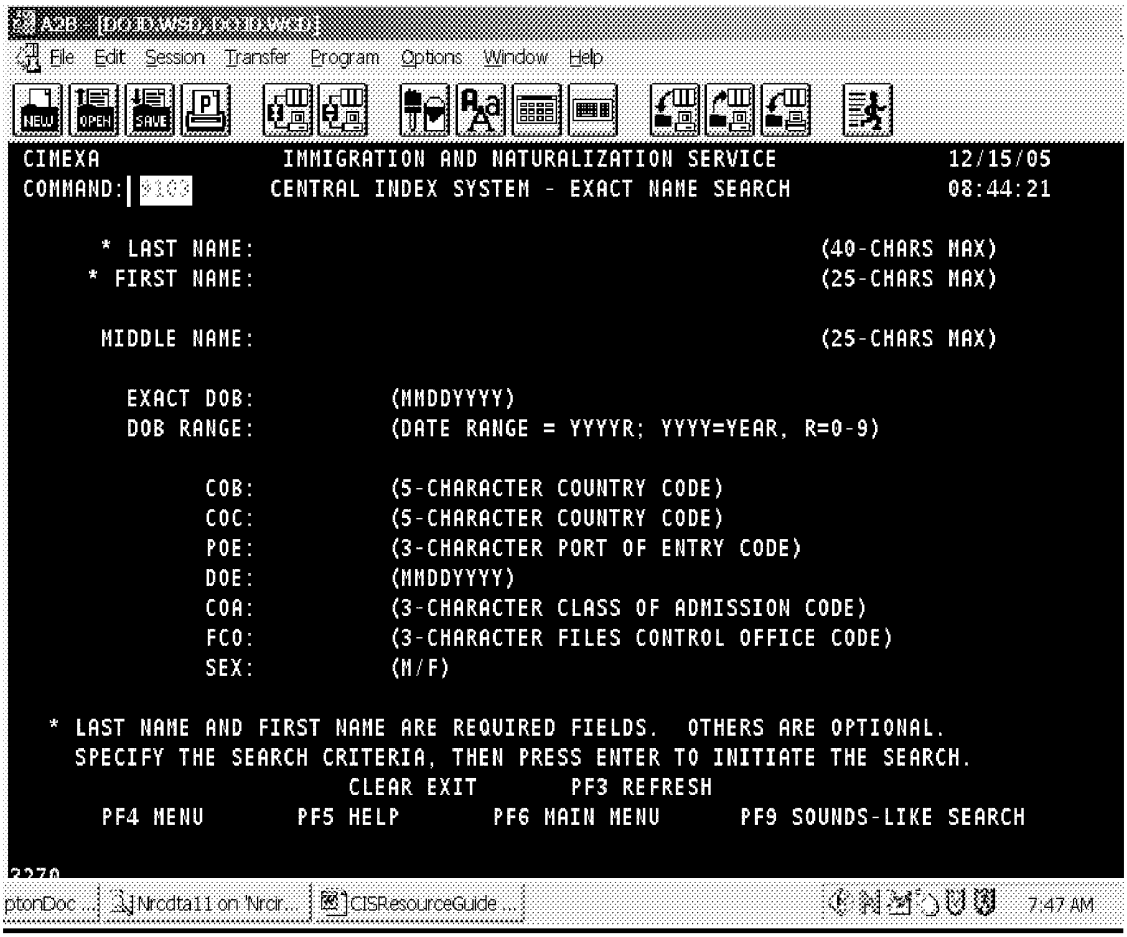
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



Use the 9102 screen when there could be variations in the spelling of a name. There are times when the person who created the record in CIS misspelled the name. There could be many spelling variations in a name transcribed from a non-Roman alphabet. The * indicates the minimum amount of information required to search. The search results may be voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

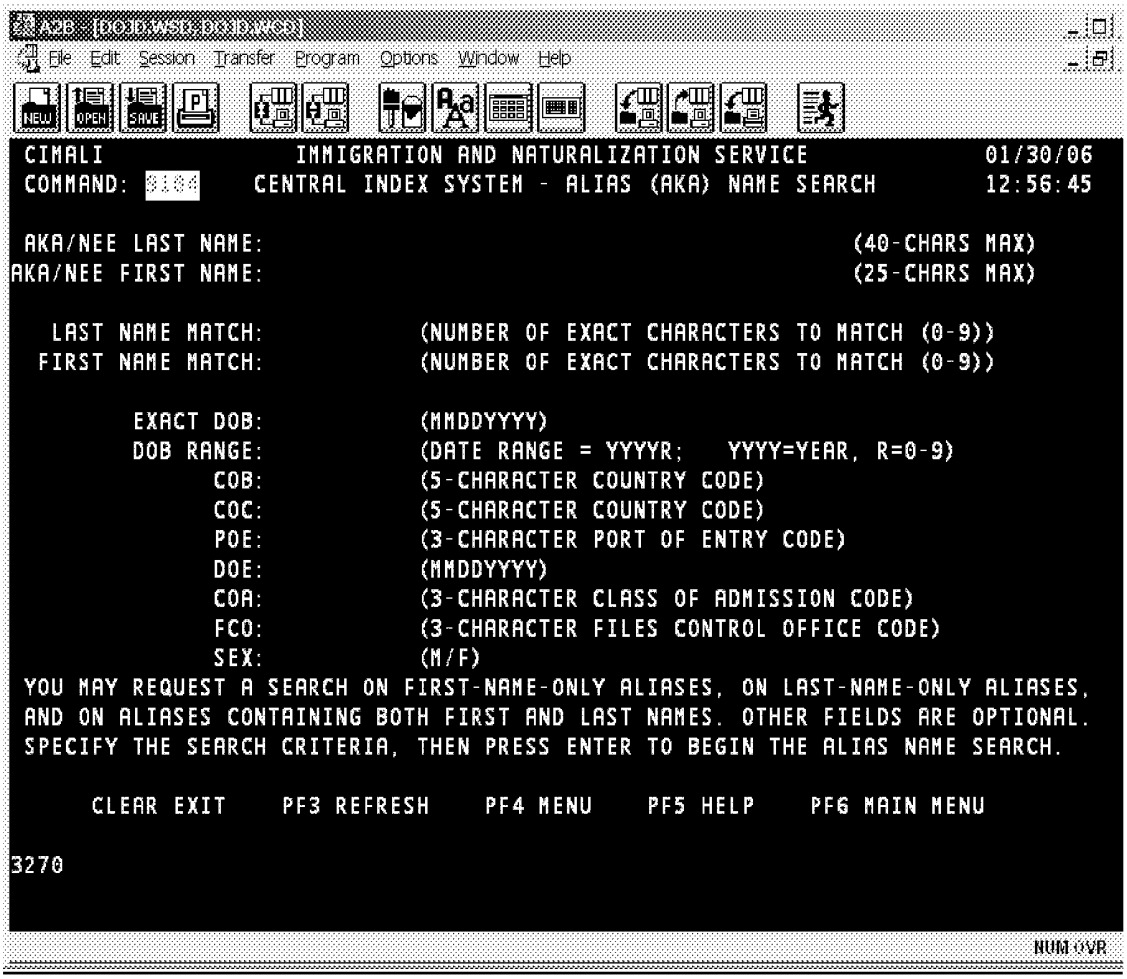
5.1.6 Exact Name Search (9103)



9103 is the primary screen used when performing a search based on the subject's name only. The information displayed will be an exact name match.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

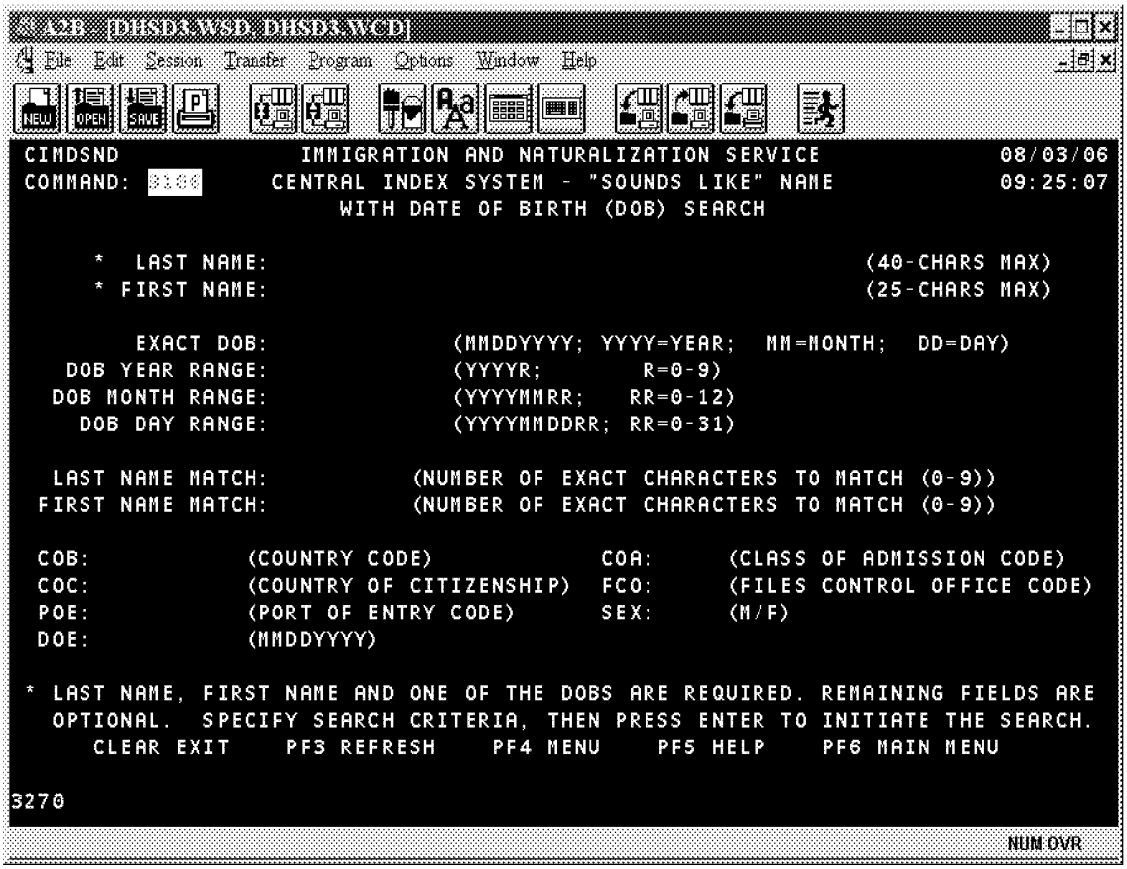
5.1.7 Alias (AKA) Name Search (9104)



The primary use for the 9104 screen would be to perform a search using any alias information provided in the FOIA request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

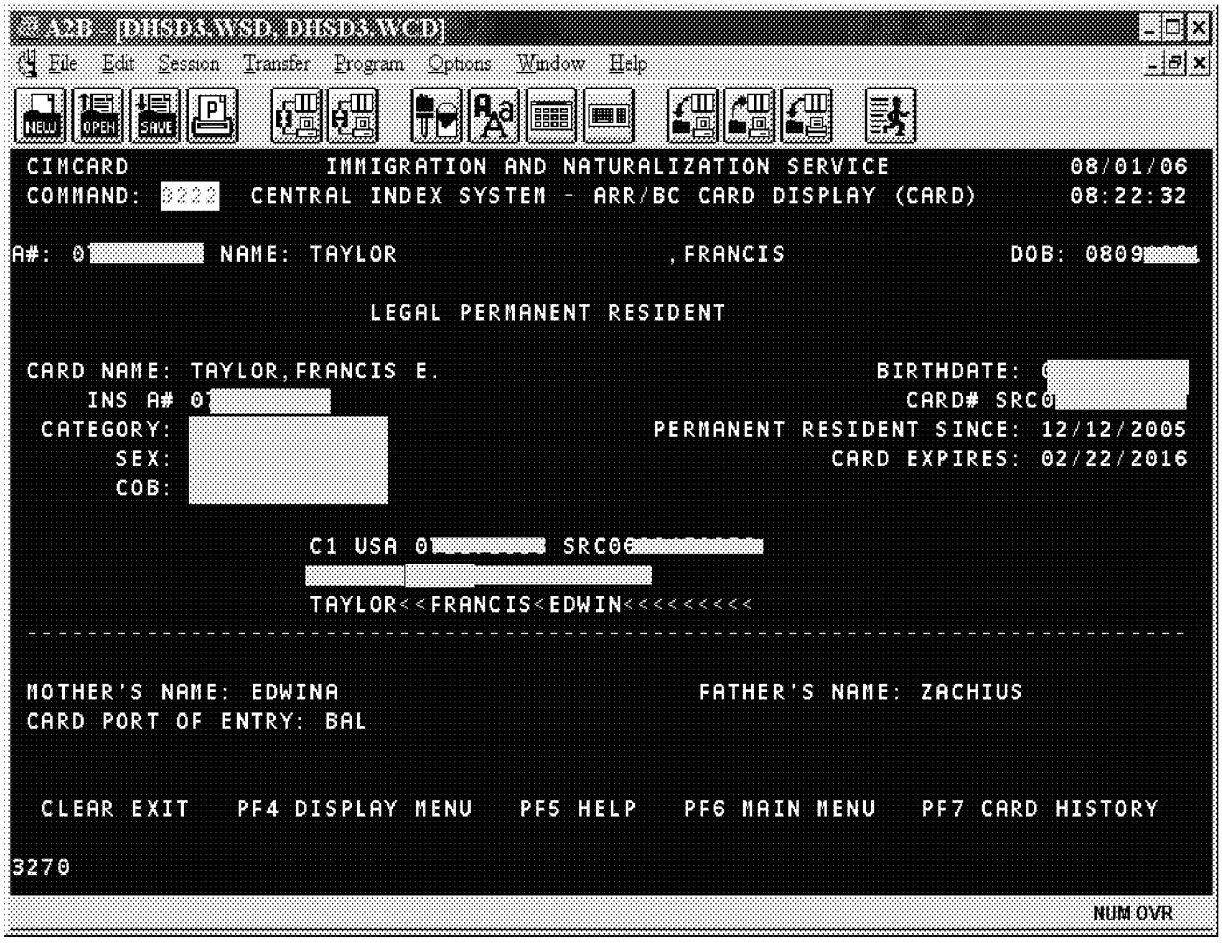
5.1.8 Sounds Like Name With Date of Birth (DOB) Search (9106)



The 9106 screen allows searches for information pertaining to the subject of the request even if the spelling of the name is incorrect. For example, the requestor made a typographical error in the spelling of the name the search results will yield a list of similar names matching the subjects.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

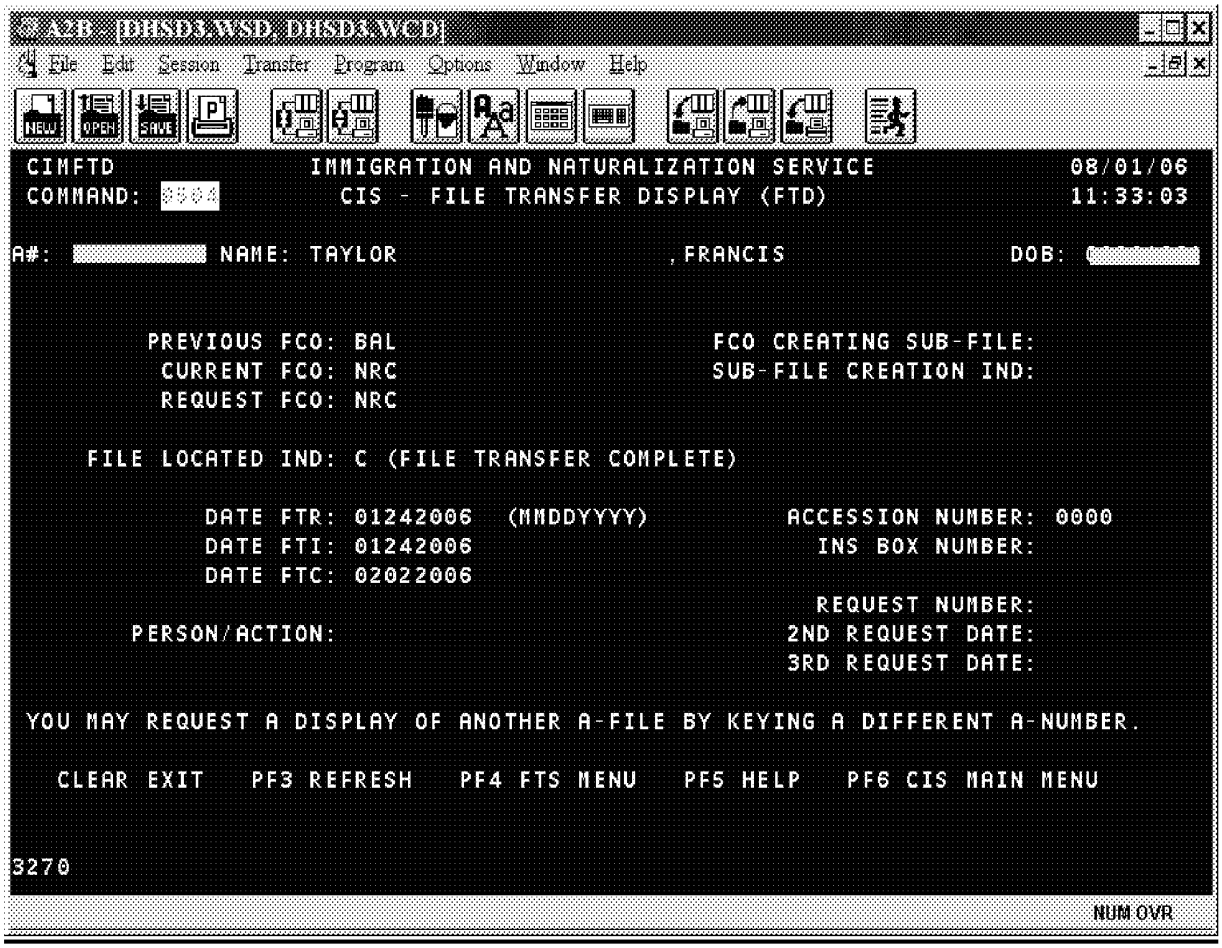
5.1.9 Card Search (9222)



The 9222 screen is a snapshot of an actual Legal Permanent Resident (LPR) Card. In addition, this is the same screen to find Border Crossing Card information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.10 File Transfer Display (9504)



The main purpose of the 9504 screen is to check the location and movement of files. This screen's primary use as it relates to FOIA is that it will be used in conjunction with NFTS in the case create function. The following is a list of acronyms displayed on this screen.

FTR: File Transfer Request
FTI: File Transfer Initiated
FTC: File Transfer Complete

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.11 Tables

The **Tables** section contains a wealth of informational codes that can be of assistance in making a decision about the subject of the request, such as **Class of Admission**. To get to this screen select the "keyboard" from the toolbar at the top of the screen and click the clear button on the keyboard. Once this is done type in the word **tables.** The next screen displayed will be the **Tables Menu Screen**.

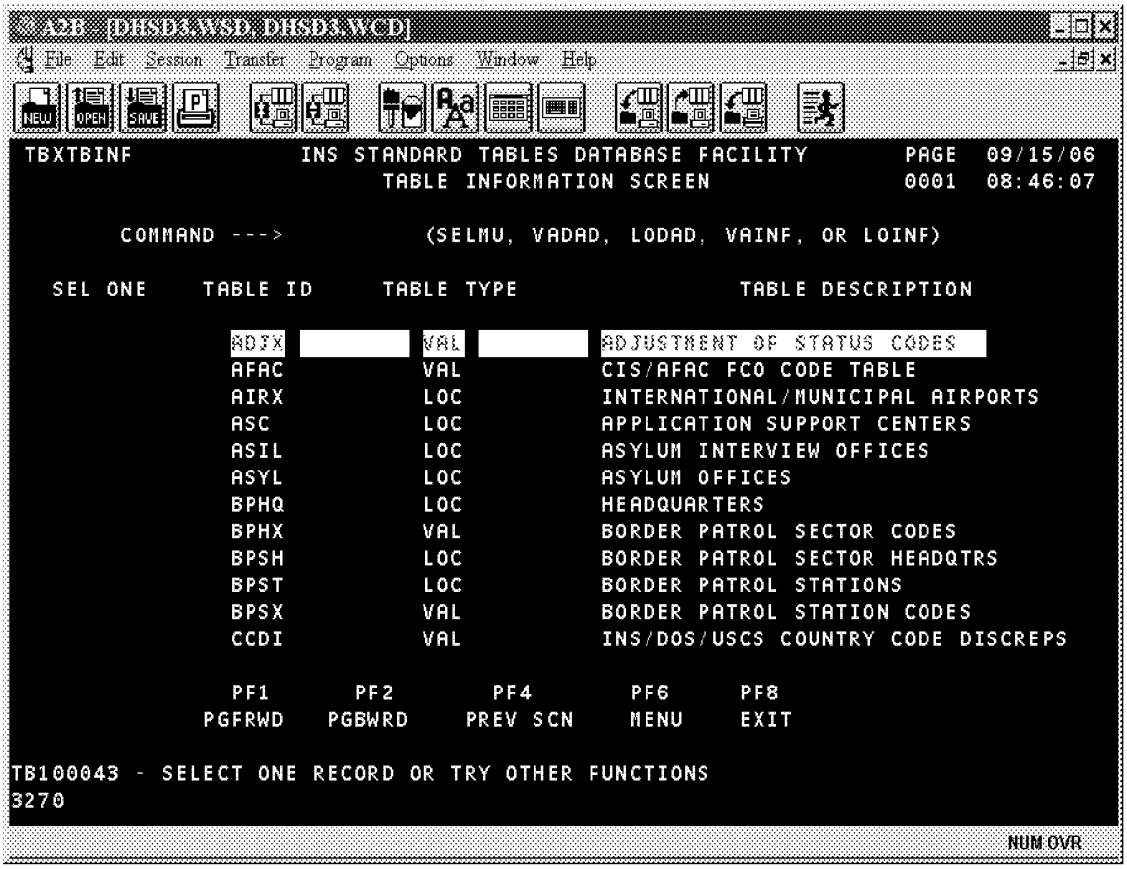
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.12 Tables Menu

Placing the cursor in the **Table ID** field and pressing the function key PF7 a list of tables is displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.1.13 Tables Information Screen



The tables are in alphabetical order. Place an **X** in the "SEL ONE" column and press enter and this will bring up a list of different codes.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

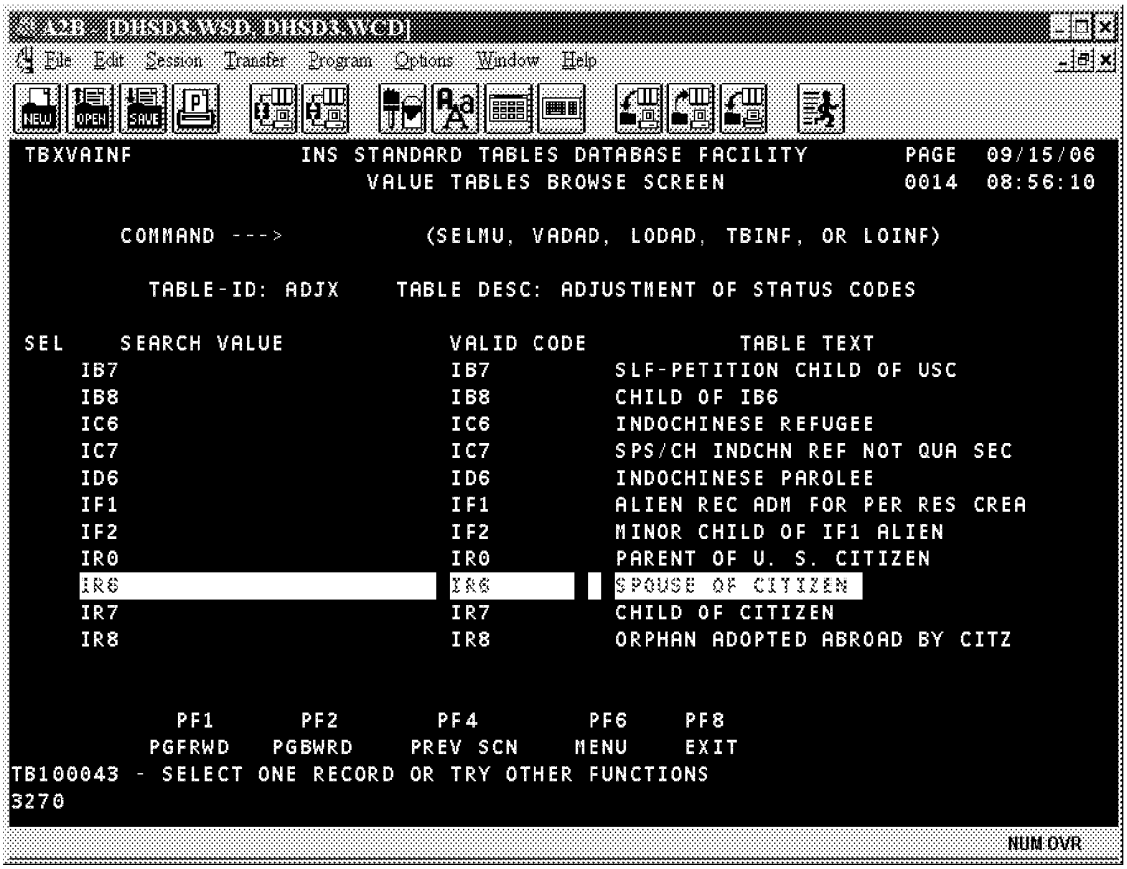
5.1.14 Value Tables Browse Screen



Read the screen in its entirety for navigation instruction and additional information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

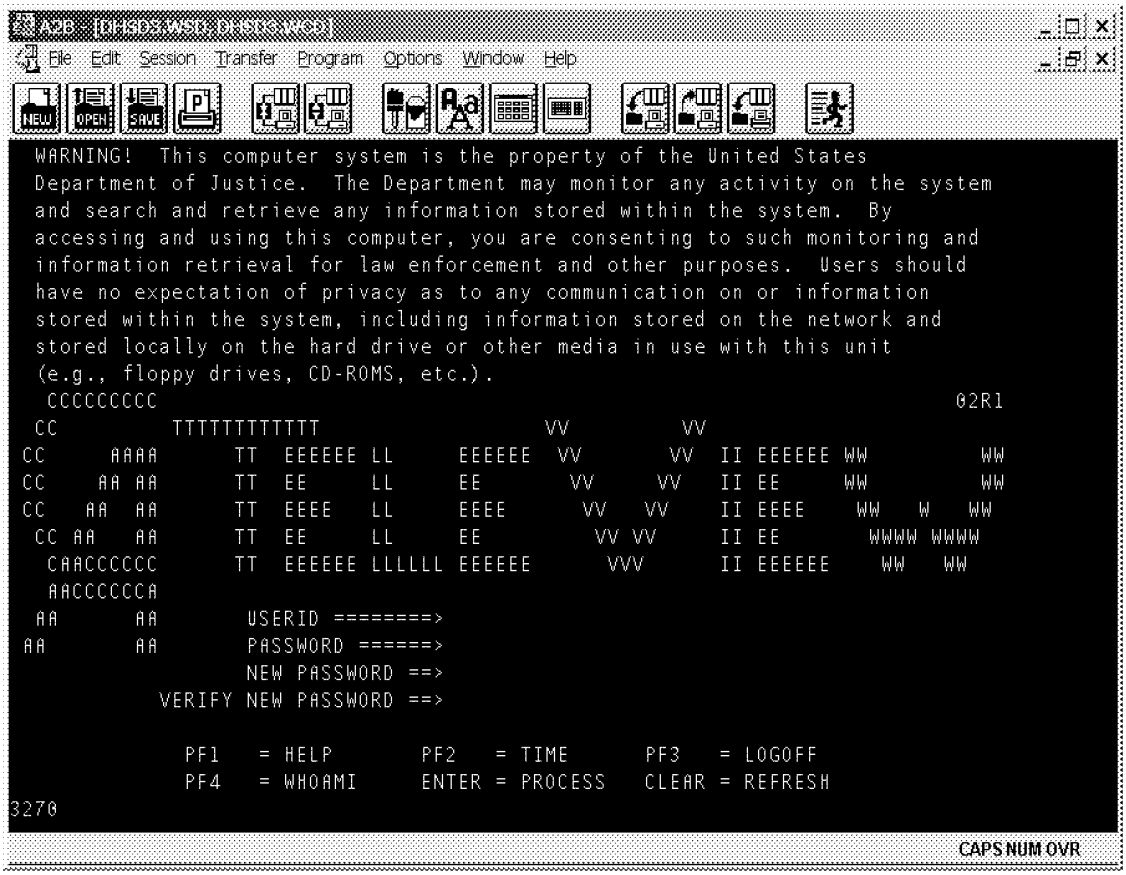
5.2. Computer Linked Application Information Management System

5.2.1 Introduction

The Computer Linked Application Information Management Systesm (CLAIMS) tracks application and petitions. CLAIMS is a menu driven system. The Inquiry/Update Processing selection on the menu is the only menu NRC FOIA uses because we search for receipts but never modify information in CLAIMS.

5.2.2 Teleview Introduction Screen



This screen is the introduction to TeleView. From this screen, use the designated UserID (NRC####A) and Password to sign onto the database.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

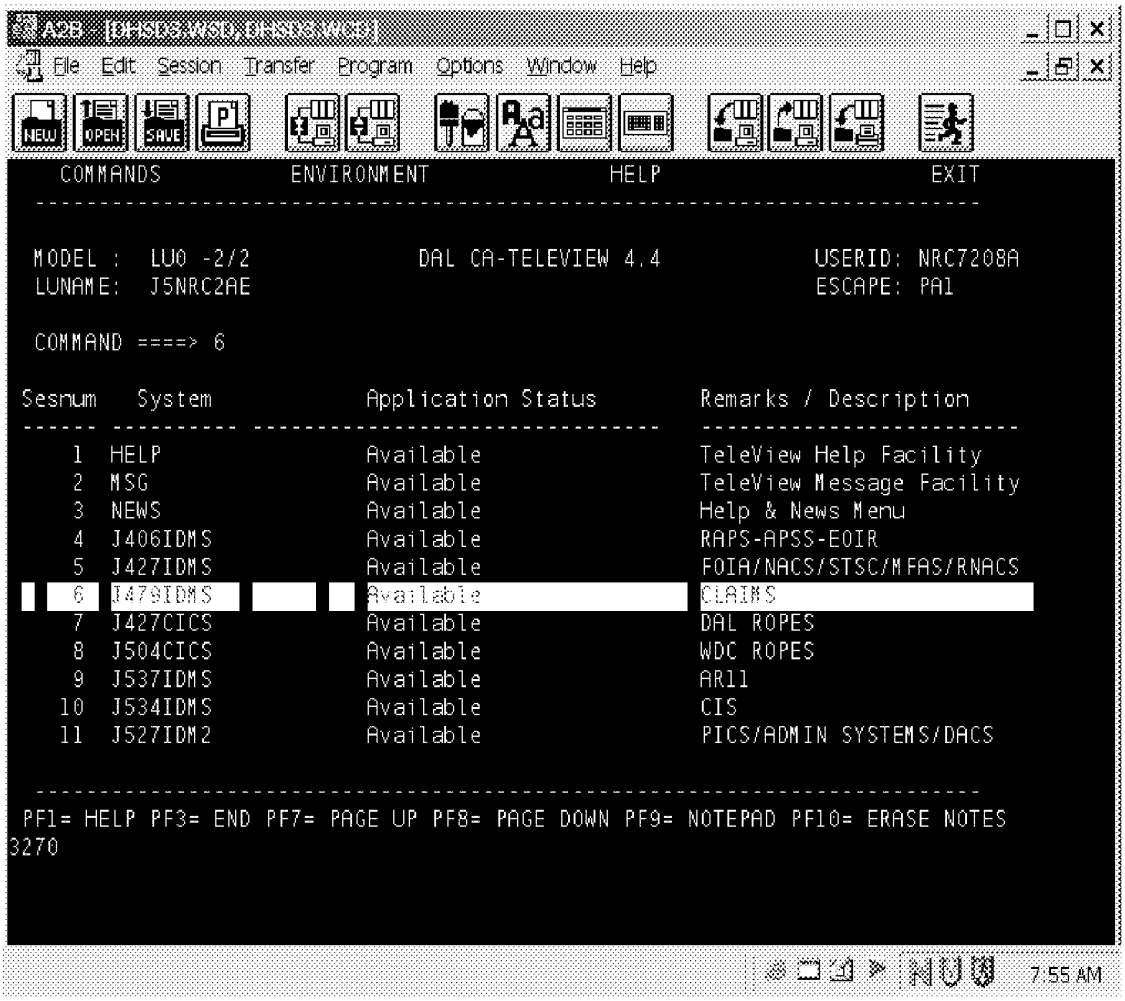
5.2.3 CLAIMS Selection Screen



The number selected to access CLAIMS can vary for each computer.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

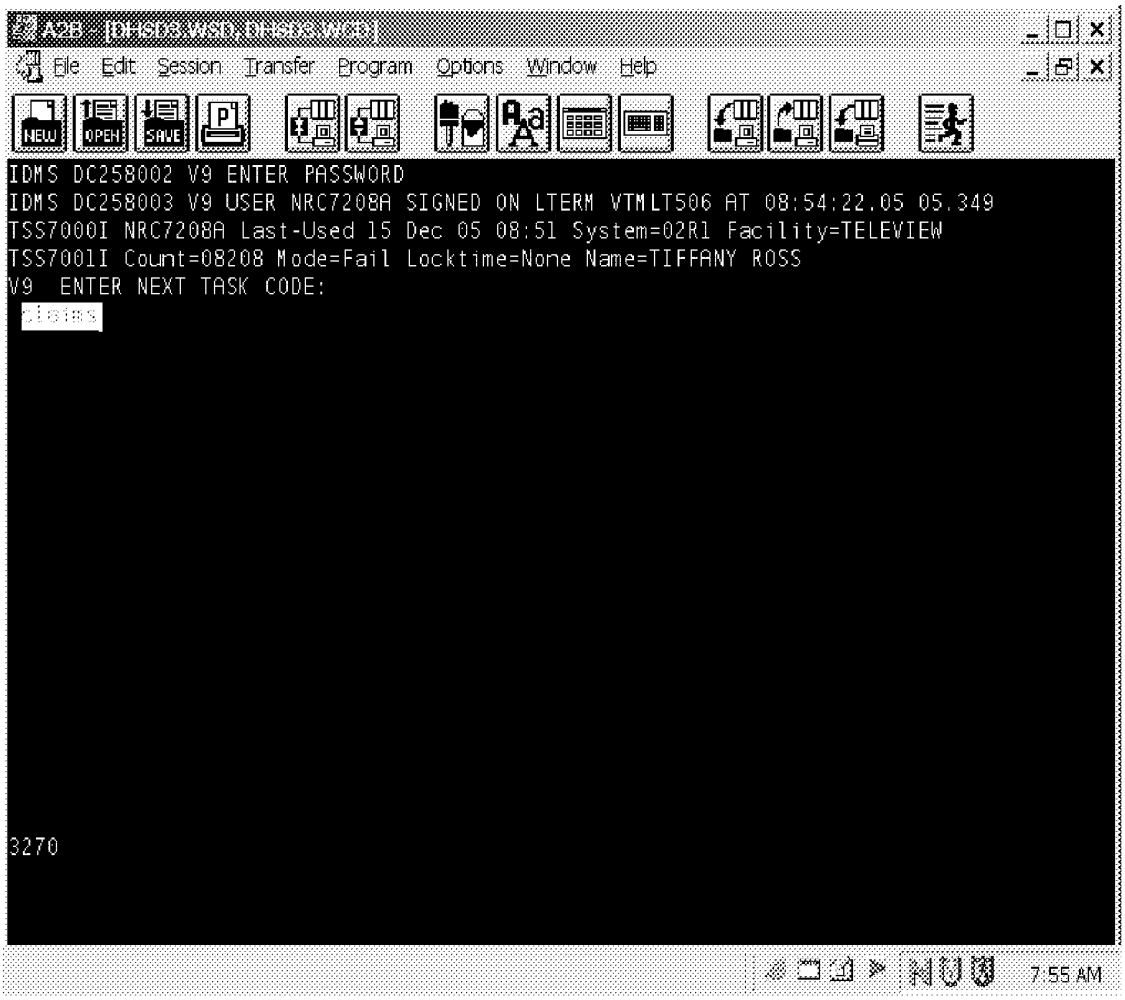
5.2.4 CLAIMS Function Screen



After selecting CLAIMS from the main menu, you will see the screen print shown above. Type in claims and press enter. This screen is not case sensitive.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

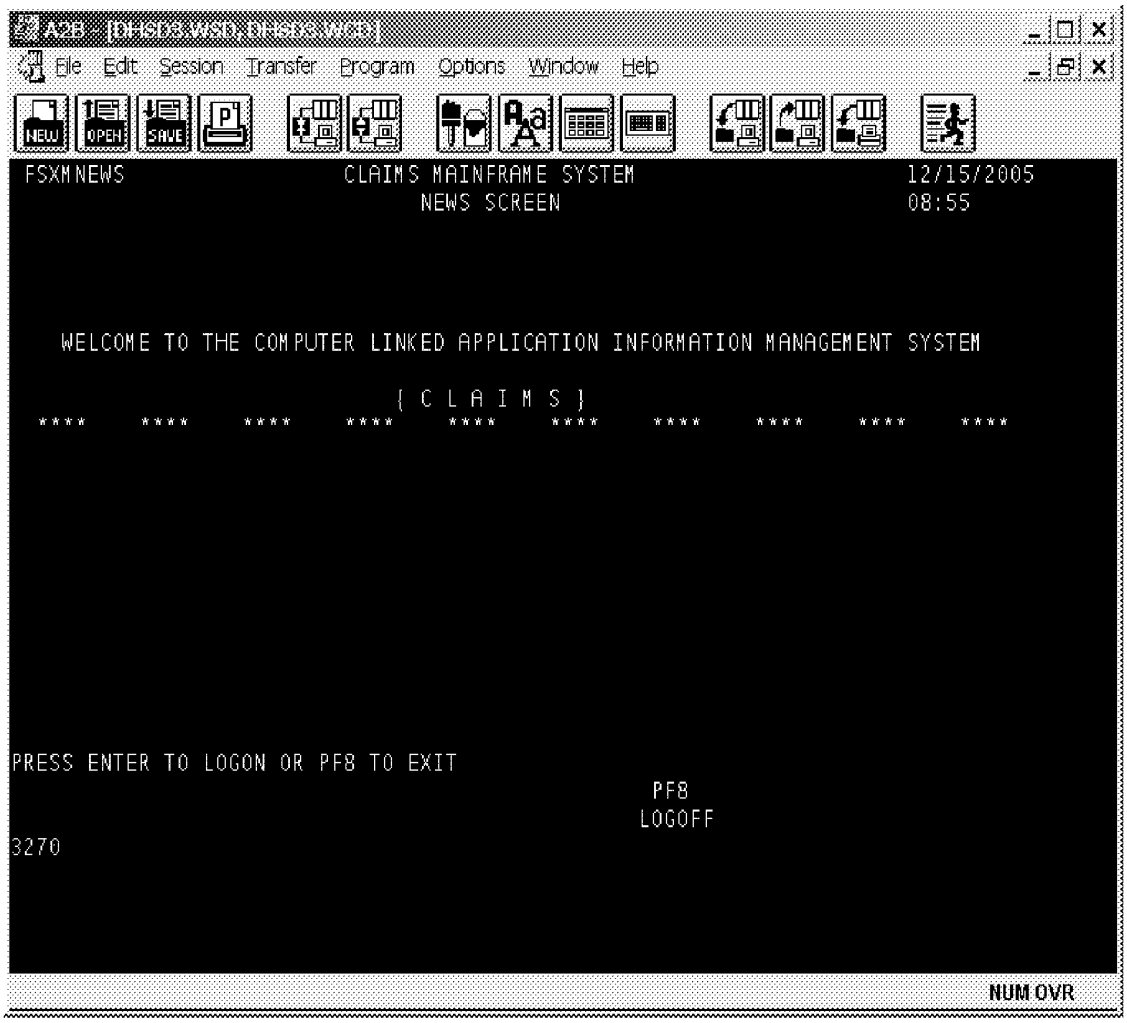
5.2.5 CLAIMS Welcome Screen



Press enter from here to get to the logon screen.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.2.6 CLAIMS Logon Screen

To logon, your USER ID will be NRC and the last 4 digits of your social security number followed by a letter (NRC1234A). Check with your supervisor for your password.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

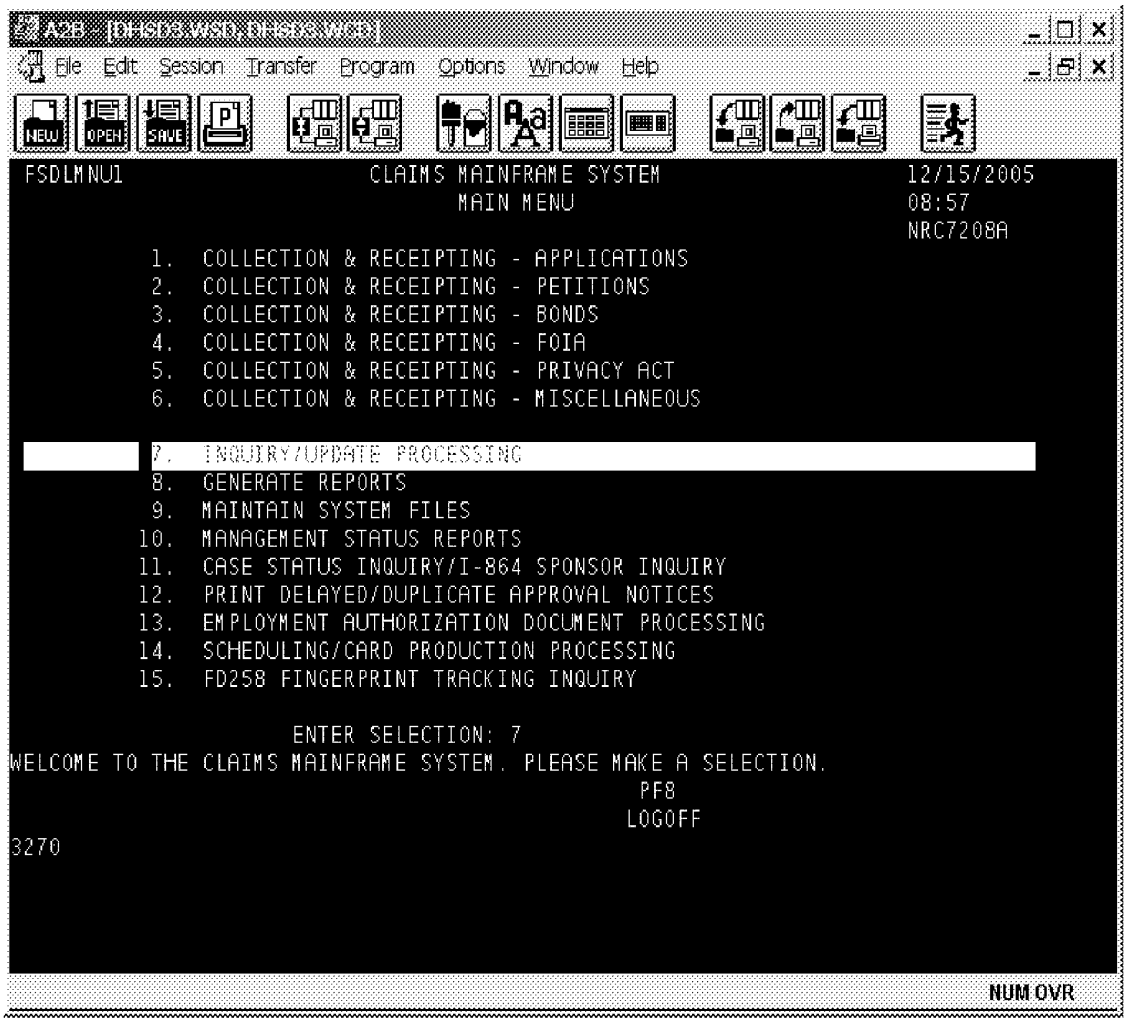
5.2.7 CLAIMS Main Menu Screen



From the Main Menu type the number for INQUIRY/UPDATE PROCESSING and press enter.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

5.2.8 Inquiry Screen, searching with a Receipt Number

On the Inquiry screen, there are several ways to search for records. If you know the receipt number, type the number under the first field to pull up the receipt information.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

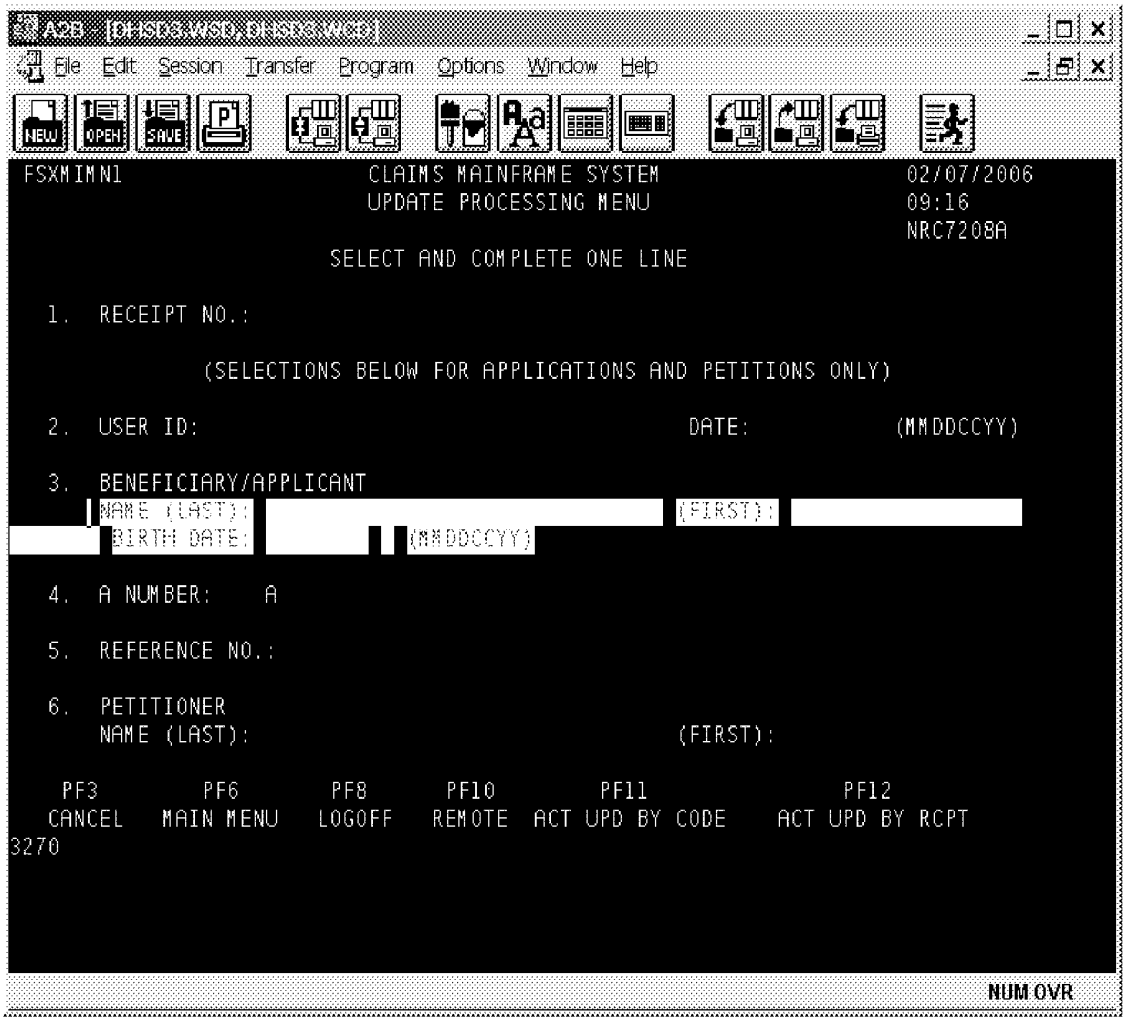
5.2.9 Searching CLAIMS using a Name and Date of Birth



You may also search name and birth date. CLAIMS does not forgive spelling errors and will not conduct "sounds-like" searches. If you do not immediately find a receipt, you should also search by alias names and variations of the name. You may also search without the birth date. This may have the results you are looking for depending on how common the name of the subject. Searching using the birth date will narrow the findings.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

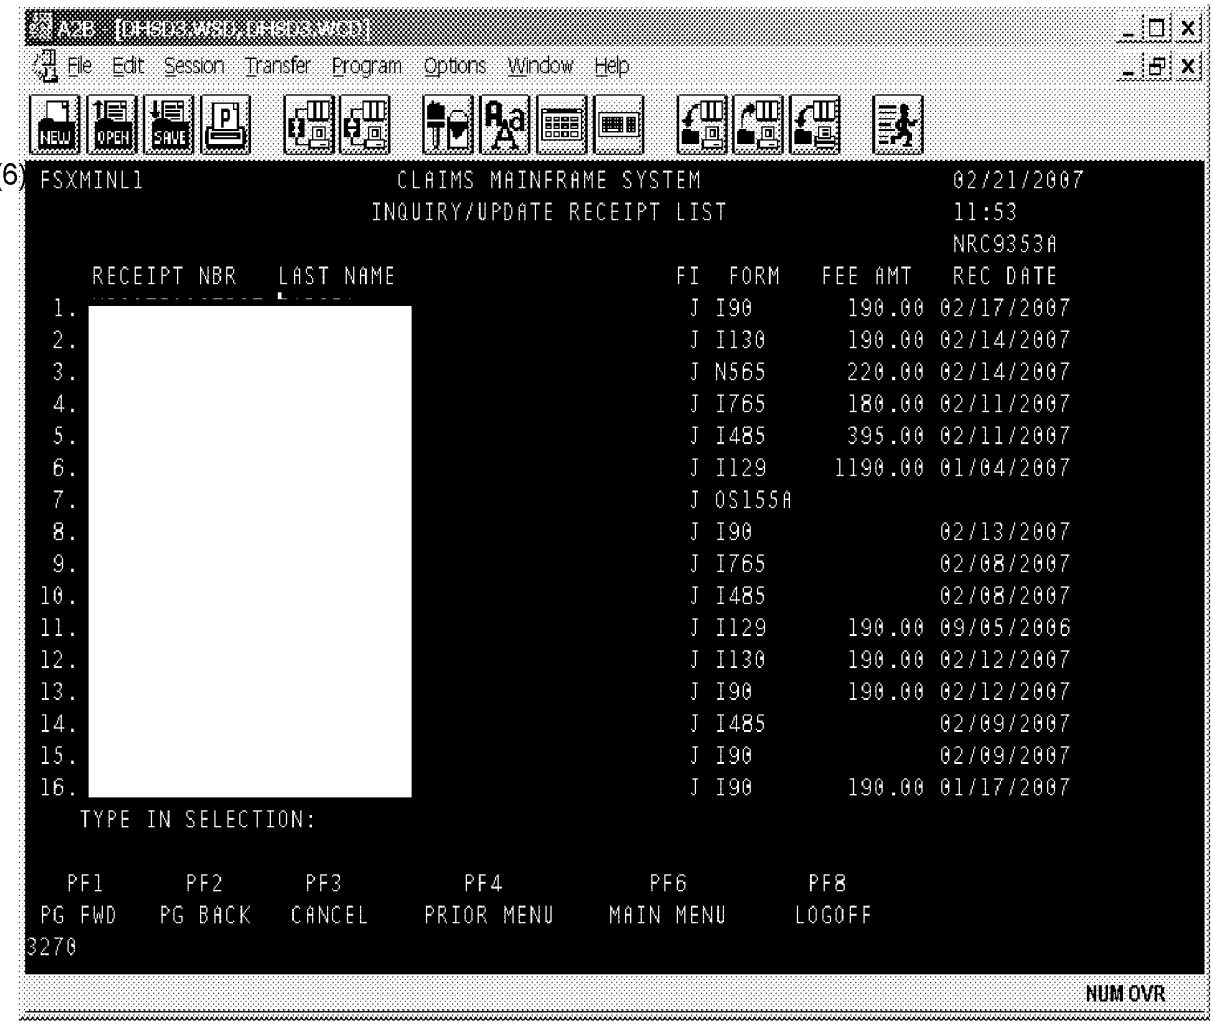
(b)(6)



If your subject has a very common name, the inquiry may result in several pages of matches. View the screen pertaining to the individual receipt number or look for the type of form. It will show detailed information relating to that specific receipt number. To view the detailed information, type the corresponding number at the bottom of the screen labeled "TYPE IN SELECTION." For example, if you type "3", the detailed information relating to receipt number SRC0710351687 will be displayed.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

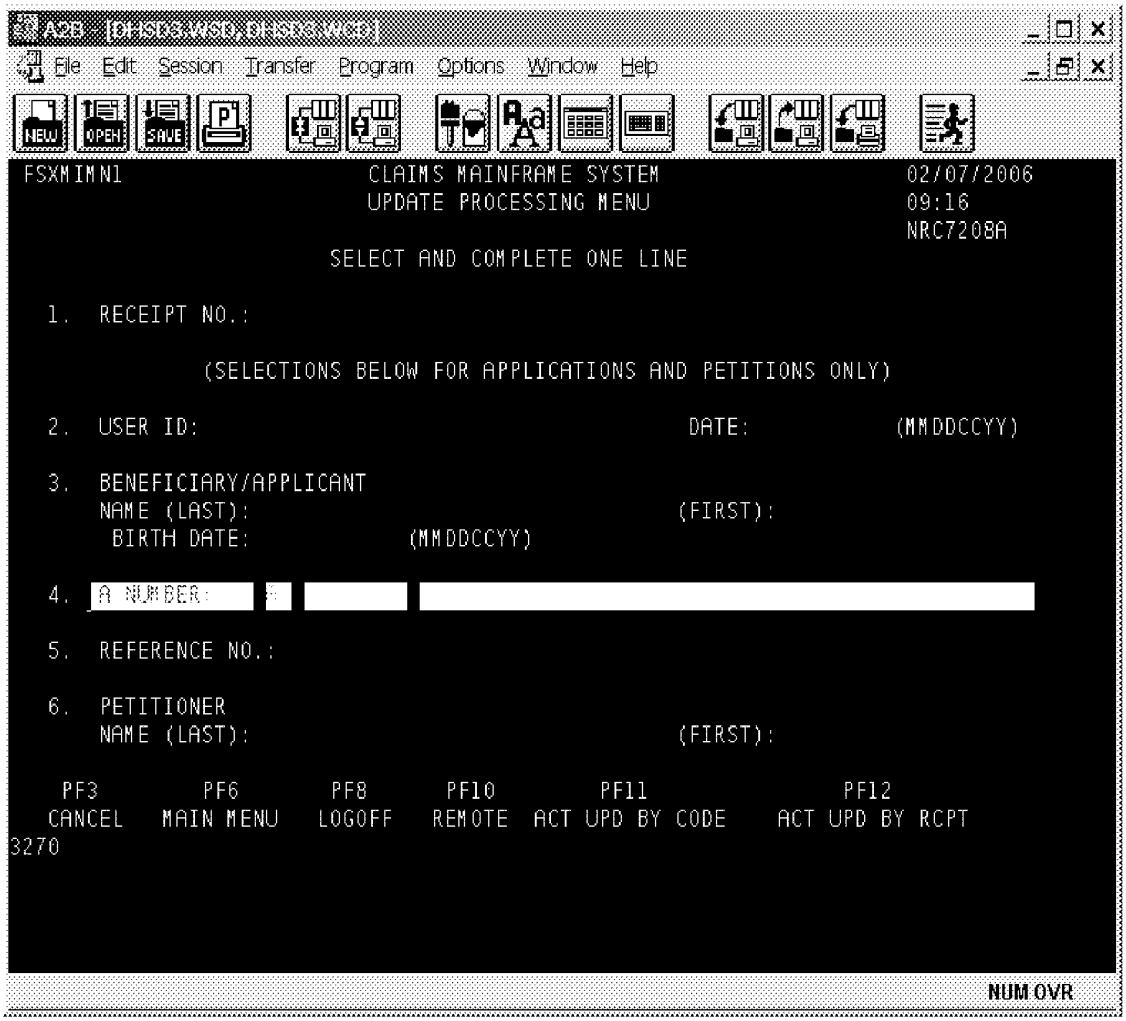
5.2.10 Searching with the A-Number



You may search by A-number. Navigate through these fields by tabbing, or to go backwards, use Shift-Tab. CLAIMS used to allow adjudicating officers to enter alien numbers as an eight-digit number without a leading zero. Ordinarily you should enter a leading zero immediately following the letter A (in purple on this screen) and then enter the rest of the A-number. If you do not find what you need, try deleting the zero immediately after the "A." If the person has a nine digit A-number, you will not have to worry about it. Note: if you search by A-number, it may not show every receipt belonging to the person, so you may still have to search by name and date of birth or by petitioner's name.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

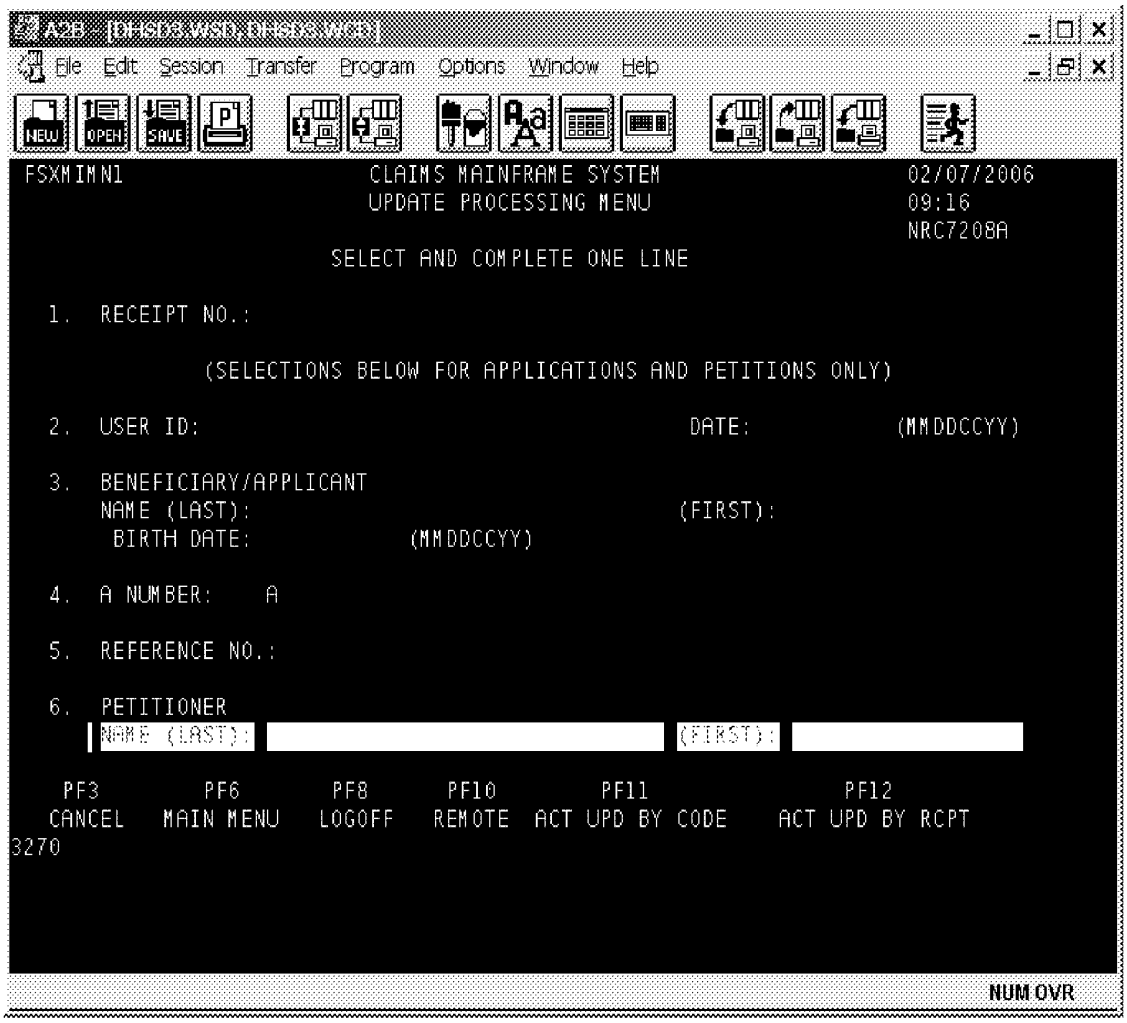
5.2.11 Searching with the Petitioner's Name



You may search by using the petitioner's name, but be forewarned: if the petitioner has a very common name, the results of this search may be overwhelmingly voluminous.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

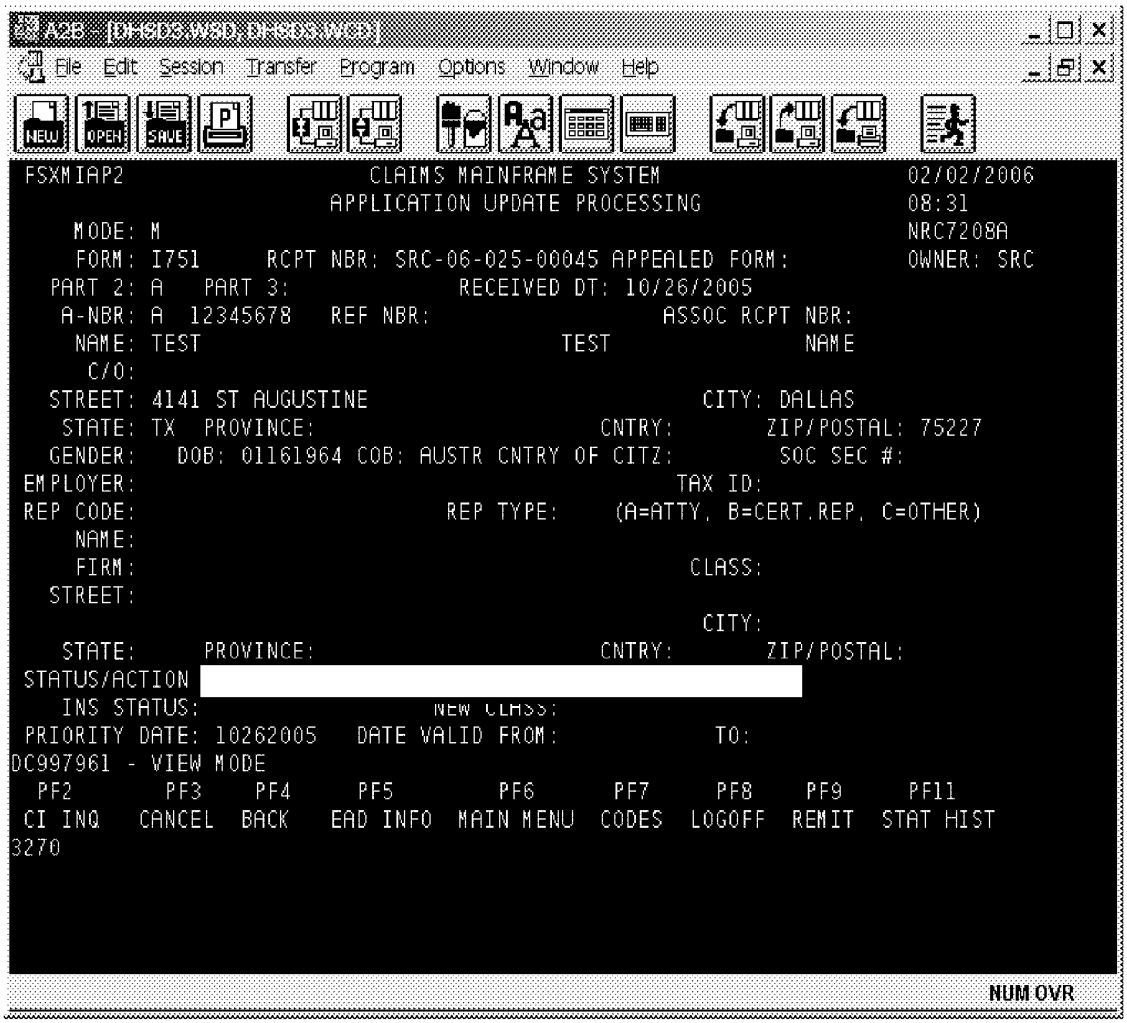
5.2.12 Search Results

The screen print below is the result of a search. The receipt shown is for an I-751, Petition to Remove Conditions on Residence.



(b)(7)(e)

The receipt information gives the name, date of birth, A-number and address. The status of the receipt file is near the bottom of the screen. (STATUS/ACTION: IBS1)

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(7)(e)

The top right corner of the screen shows the owner of the file, this may help in determining where to request the receipt file, especially if the receipt information is not in NFTS. This receipt begins with SRC, but that does not matter for staffing – the OWNER would be where you staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

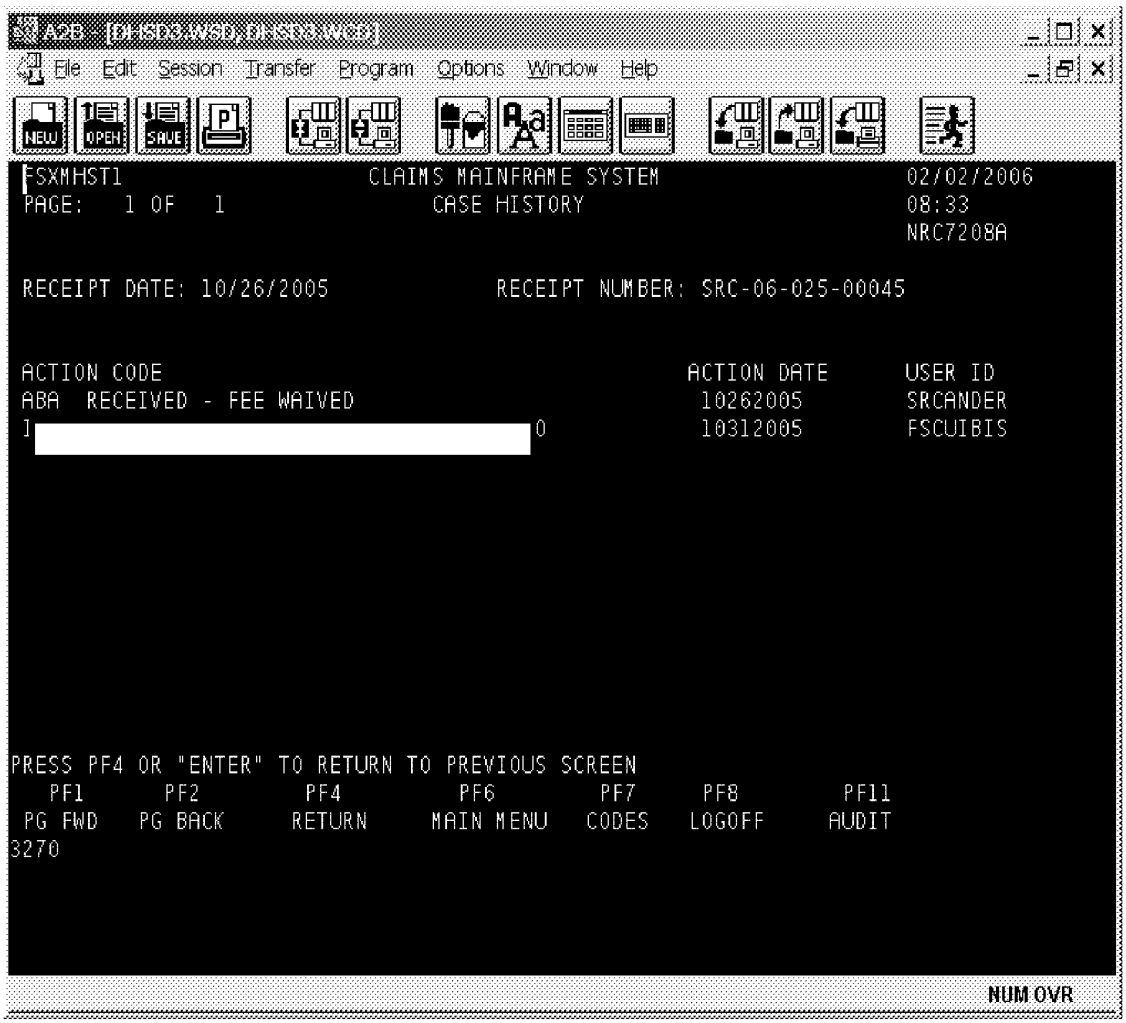
(b)(7)(e)



By pressing F11, you may view the history screen. From this screen, we can see the status of the application/petition. If the petition has been approved, destroyed, or transferred, it may make a difference as to how we staff.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

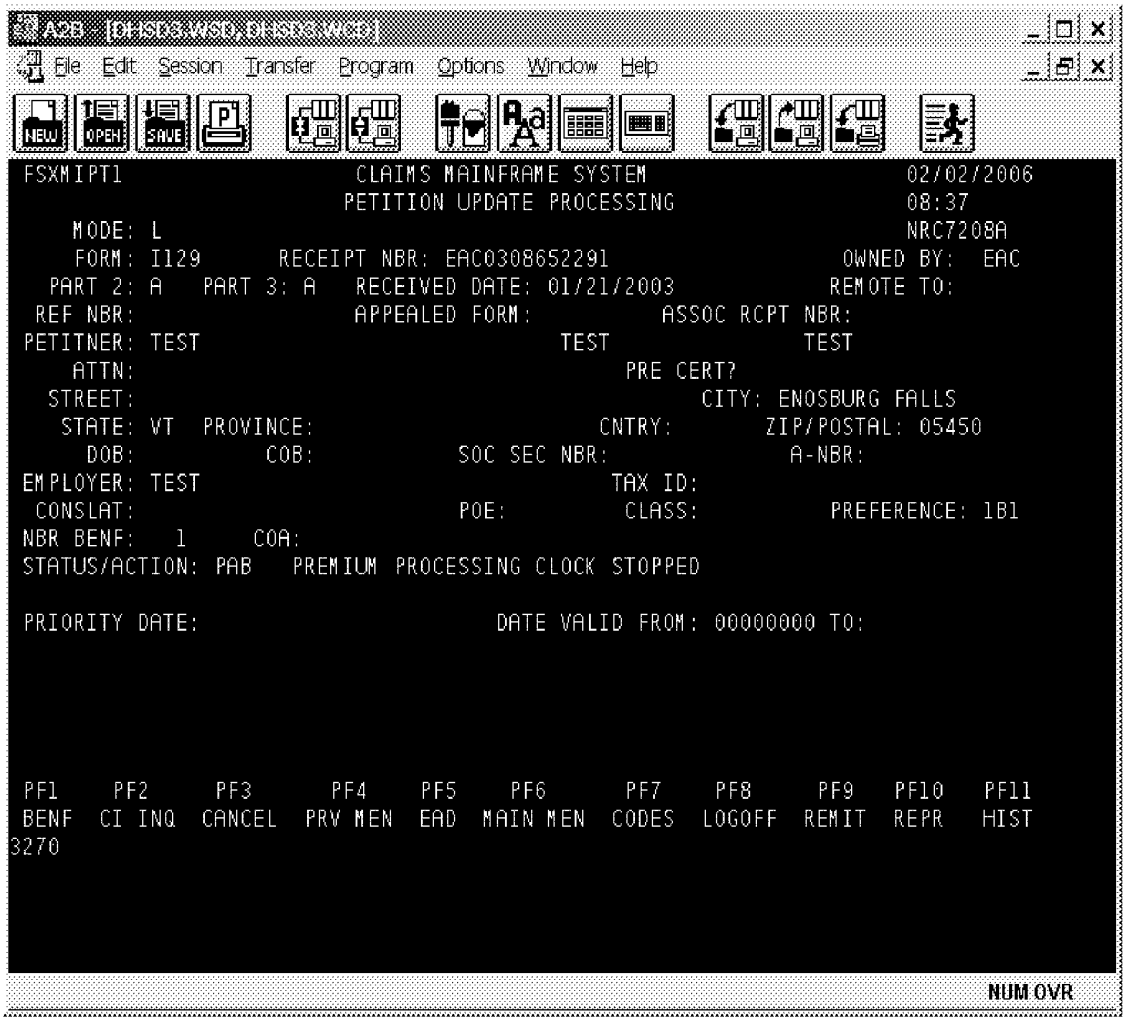
5.2.13 Beneficiary Petition for Non Immigrant Worker



On an I-129 petition, the petitioner's information is on the first screen you pull up after you enter or select the receipt number.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To see the beneficiary information press F1.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

To view the history, press the F4 key to return to the previous screen, and enter F11.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

There may be numerous results on a name search. Press F1 to see the results of the next page. To view number 10 on page 2 of the results, enter "10." To go back to the results of the search, press F4. The screen always returns to the first page of the search results. Remember this if you are going through the results page by page.

5.3. National File Tracking System (NFTS)

NFTS is an automated system that enables USCIS to track and account for nearly 50 million Alien Files (A-Files) and Receipt Files. NFTS allows for local control of all files within a designated USCIS File Control Office (FCO) or Case Control Office (CCO), The system supports the file migration from the USCIS field offices to facilitate a national tracking system that supports the National Records Center (NRC) and a centralization of agency records. You will learn much more about using NFTS in the Staffing section of this guide.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

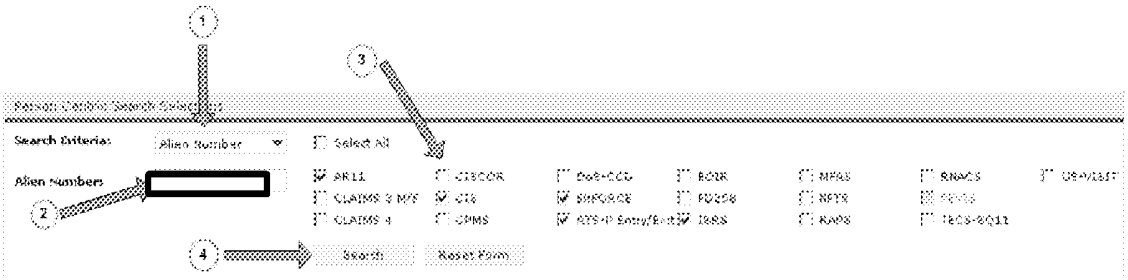
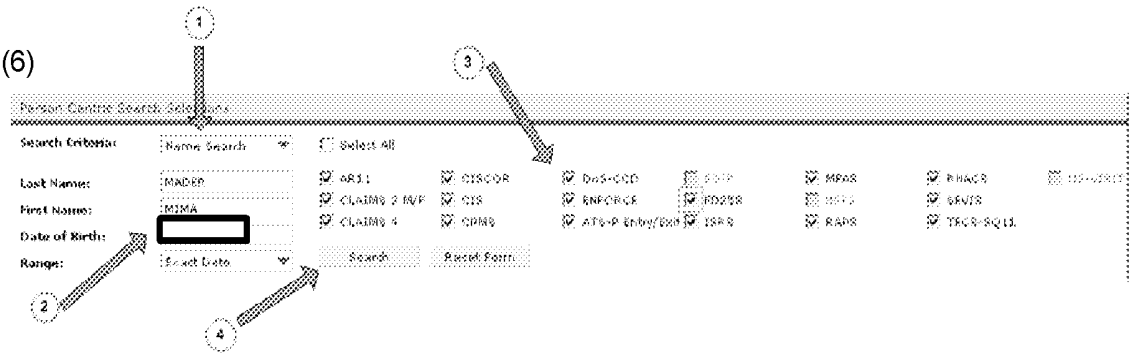
5.4. Person Centric Query Service (PCQS)

PCQS is an automated system that allows a person to submit a single query for all transactions involving an immigrant across a number of USCIS and Department of State (DoS) systems. PCQS returns a consolidated view of the immigrant's past interactions with USCIS and the Department of State as he or she passed through the U.S. immigration system.

Since PCQS can give us a comprehensive overview of a person's immigration history, it can help us locate certain documents to request, for instance, we may find information about an archived receipt in PCQS that we would not find in CLAIMS. You do not have to log in to PCQS to read the PCQS User Guide. Simply go to https://pcq.esb.uscis.dhs.gov/ and click on the Users Guide link below the Warning.



(b)(6)



5.5. FOIA/PA Information Processing System (FIPS)

The Freedom of Information Processing System (FIPS) is an automated system that allows us to process FOIA/PA requests electronically. This automated system enables the scanning of paper files into electronic images. These images are easily stored, retrieved, and processed. FIPS provides workflow processing for the life of a case. Any time you do any transaction concerning a FOIA/PA case, it will be through FIPS.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

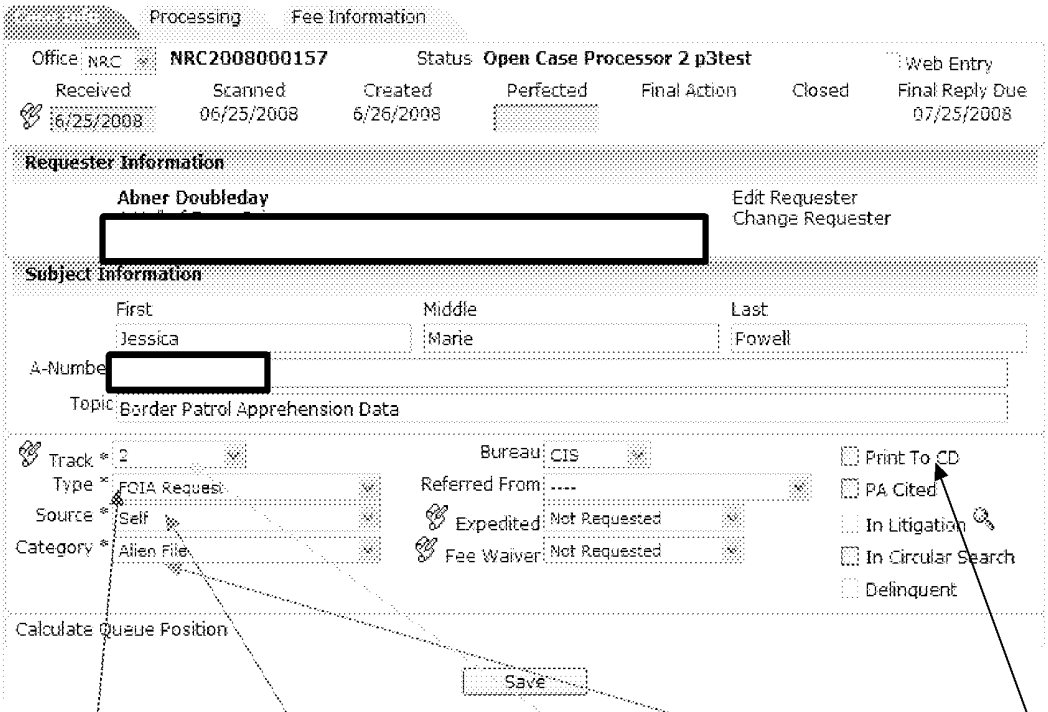
(b)(6)

(b)(6)



Type of request

- Always FOIA

Source

- Attorney
- Commercial
- Education/Scientific
- Foreign Government
- News Media
- Others
- Representative
- Self
- White House/Congressional

Track 1, 2 or 3

Category

- Alien File
- Asylum
- Specific Documents
- Non A-File Material
- Personnel
- Special Interest Group
- SFR cases at NRC

Print to CD

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

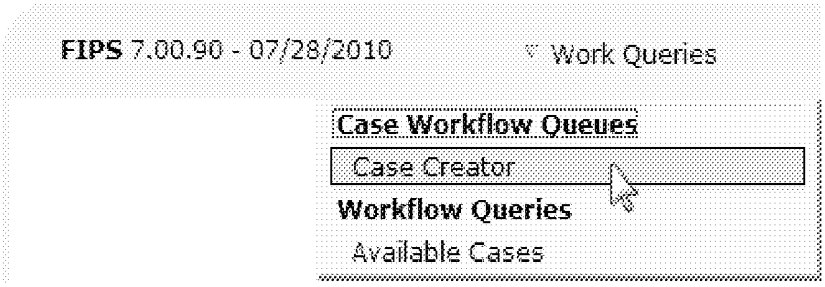
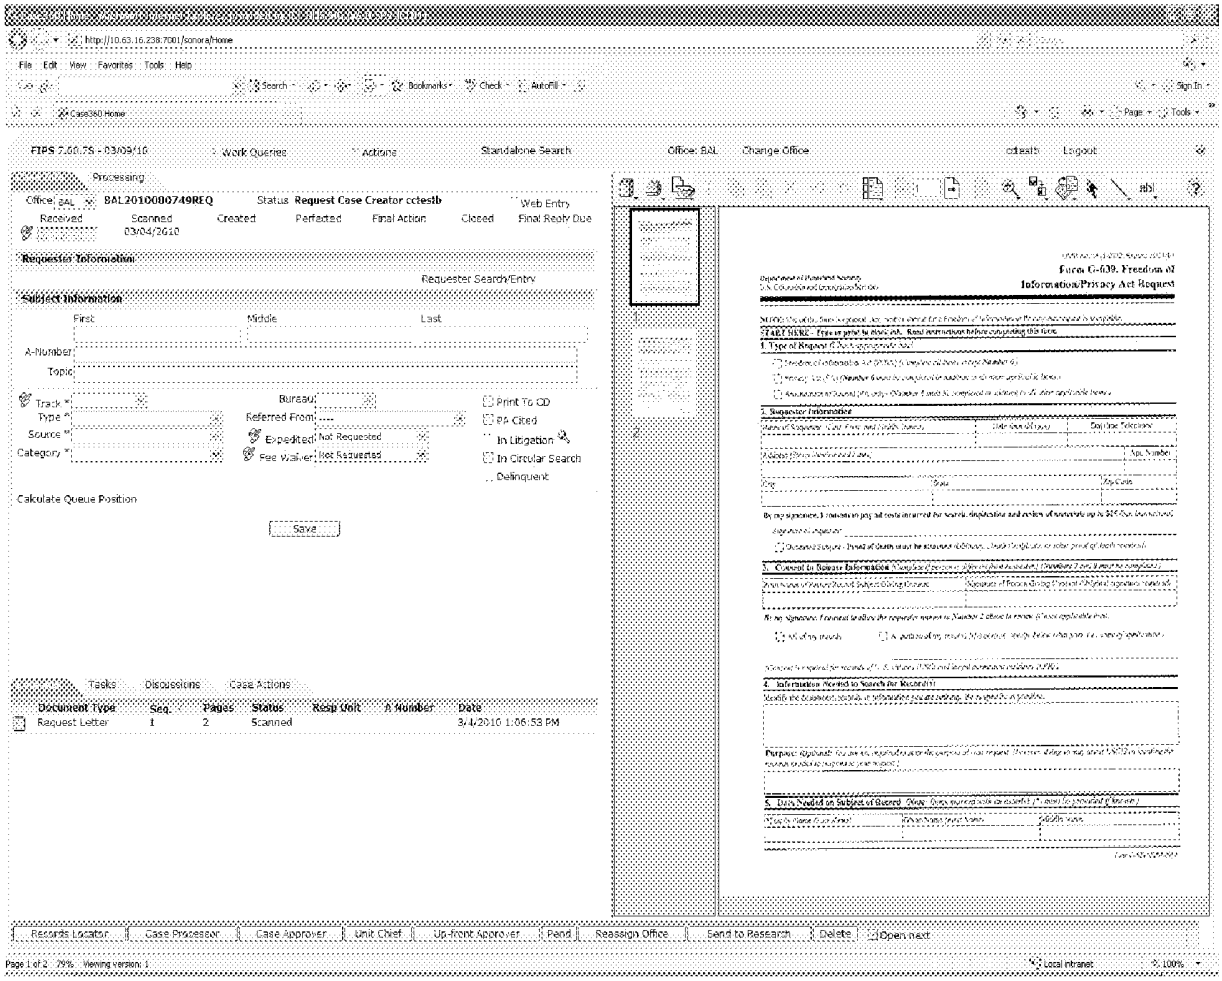
6. CREATING THE CASE





On the FIPS worksheet under the header "Contents," you will notice that usually Sequence 1 is the "Request Letter" and Sequence 2 is usually "Request Supporting Documents." There will be a date and time in the right column.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

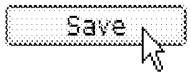
Sometimes the request will be Form G-639 only, sometimes it will be the G-639 and a G-28, Power of Attorney, sometimes it will be a letter from an attorney or representative and a G-28. Sometimes it will be a letter from the subject of record. At times, there will be documents scanned in, such as alien registration card, driver's license or other forms of identification. Other documents you may see can include miscellaneous screen prints or memoranda. You should view (almost) all documents scanned in FIPS in the Request Letter and Request Supporting Documents slots before you create the case.

During the Case Create process, you may need to leave your work station, or you may receive a telephone call, or various things may happen to distract you from creating the case. If anything happens and you need to stop work temporarily, it is ***always*** a good idea to click:



You must identify the following critical items and enter them into the FIPS worksheet before creating the case:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1 REQUESTER INFORMATION

6.1.1 RULES FOR ENTERING INFORMATION ON THE FIPS WORKSHEET

6.1.1.1 Do not use all capital letters in names.

6.1.1.2 Do not use professional titles, such as Doctor or Reverend in the requester information.

6.1.1.3 You may use Jr., Sr. or II, III, etc., if the requester or subject uses it on the request.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.1.4 Do not open cases in the name of a company or firm only. If the name of the requester on the Form G-639 is a company name, please review the supporting documents to try to locate the name of the attorney/representative of the company.

For example, if your request comes in on a G-639 and the name of the requester is only the name of the law firm representing the alien (for example, Wilens & Baker) you will need to look through your supporting documents to see if you can locate the name of the attorney at Wilens & Baker who is representing the alien. If you cannot locate the name of the attorney who is representing the alien, then open the case in the name of the alien, in care of the law firm. Do not use "Wilens & Baker" as the requester name.

6.1.1.5 Do not hyphenate names.

6.1.1.6 Double-check the spelling of the names. If the name of the requester is not clear on the request letter, check the supporting documents for a Form G-28 for a clear copy.

6.1.1.7 Add a period after the middle initial.

6.1.1.8 Rescinded. ~~If the subject does not provide a middle name or initial, enter "NMN" in the "Middle" field.~~

6.1.1.9 Do not use part of the last name as a middle name, for example Hispanic names. Sometimes it is obviously a middle name, such as Juan Jose Gonzalez. Sometimes it is obviously a first and second last name, such as Juan Gonzalez Becerra. Other times, it is not so clear. You might look at the mother's and father's last names, if provided. If you are unsure, contact a supervisor.

6.1.1.10 If the request came to us on Form G-639, always use the name and address of the requester in Section 2, "*Requester Information.*" Never use the address on the envelope, or Form G-28 or letterhead *unless* the requester did not use Form G-639 *or unless* Section 2 of Form G-639 is illegible. If the address on the G-639 is a foreign consulate office, or is a congressional office, you may use the address listed on the G-28, or other documents in the request, such as an envelope. If you can find no other address, insert a case note and send the case to U/C.

Be careful - it is easy to miss apartment or suite numbers because the space for them is at the right side of Form G-639.

6.1.1.11 Each line of the address in FIPS can contain no more than 35 characters; this includes spaces and punctuation. When we are printing the responsive records to CD, nothing over 35 characters prints on the CD. This requires the OA clerks to print a label separately for those CD's before mailing.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.1.12 Do not use special characters, such as "&" and "#" in the address field; rather, spell them out or use an abbreviation, such as "and" or "No." Note: you ***may*** use spaces, dashes, periods, commas or single quotes (‘). You ***may not*** use @, #, $, %, ^, &, *, (,), =, +, [,], {, }, \, <, >, or /.

6.1.1.13 Please include the suite number or apartment number on the same line as the street address. FIPS will allow you to key in more than 4 lines in the address box. The issue is when the case is processed and the CD is printed, it only prints the first 4 lines. The requester's name is the first line of the address, so you have three lines left. Enter any suite numbers or apartment numbers in the address line.

6.1.1.14 If the requester does not provide a valid address use: 123 Main Street, Washington, DC 12345. Send an e-mail to your supervisor and assign the case to Unit Chief.

6.1.1.15 When the attorney or subject of the request provides both a physical mailing address and a P.O. Box, use the P.O. Box for the official mailing address and do not include the physical address. Please do not use both.

6.1.1.16 The address can only be four lines long, even though FIPS gives you an extra line. The requester's name is always the first line.

6.1.1.17 If an attorney represents the subject, the first line of the address should be the name of the law firm the attorney is affiliated with, or, Attorney at Law, or "c-o" and the law firm name or the name of the attorney.

6.1.1.18 If the address is foreign, you must check the box marked Foreign. This will change the format of the worksheet to include the Province and Country. You must complete these fields to ensure proper delivery. Before pending this case for any further action, please check the "Print to CD" box and add a Discussion note that you did so.

The following places are NOT foreign countries:

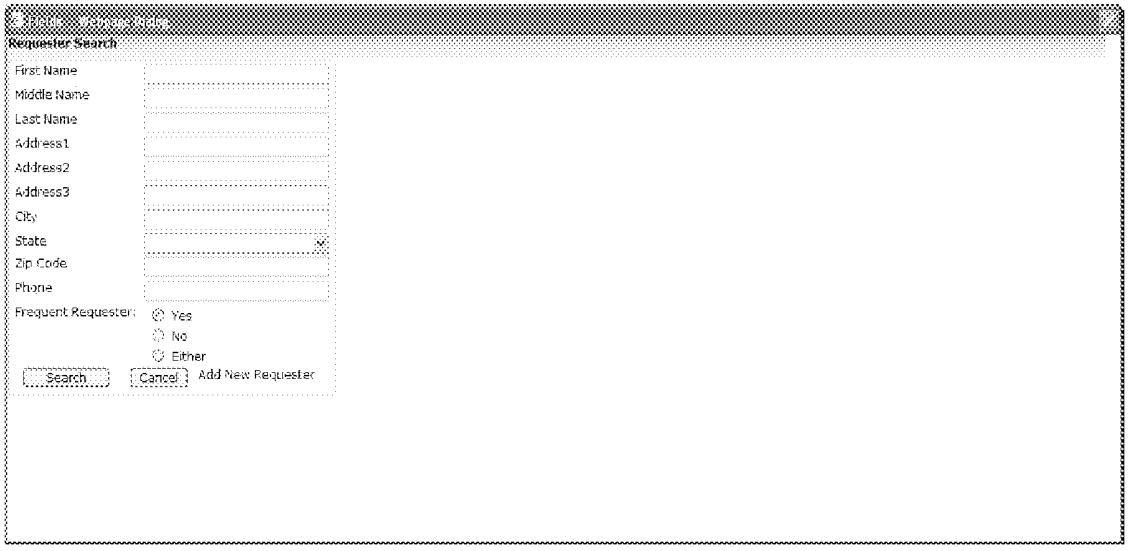
American Samoa
Guam
Puerto Rico
Northern Mariana Islands
Baker Island
Howland Island
Jarvis Island
Kingman Reef
Midway Islands
Navassa Island
Palau
Palmyra Atoll

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

U.S. Virgin Islands
Wake Island
Micronesia

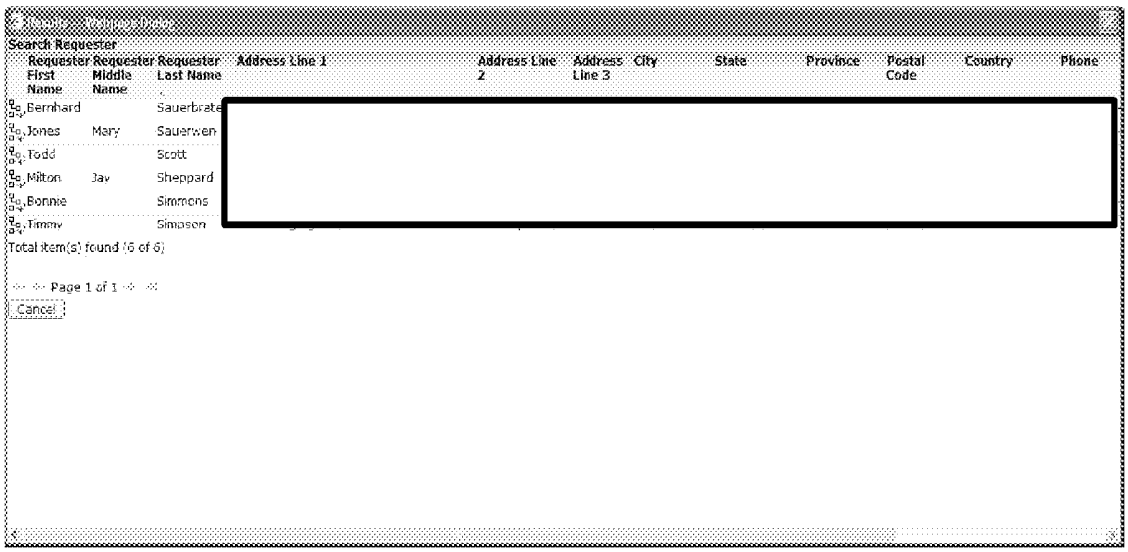
A foreign address may be very long, and you may have to consult a supervisor to complete the address field correctly.

6.1.2 Requester Search/Entry. To locate and select existing requesters or to enter new requesters, click the **Requester Search/Entry** link to open the Requester Search Form. To search for an existing requester, click in one of the available fields in the Requester Search Form and begin entering pertinent information. When searching for a requester whose last name is Smith, for example, click in the Last Name field and enter a portion or the entire last name. After you have entered enough information, click **Search** to locate requesters with matching information.

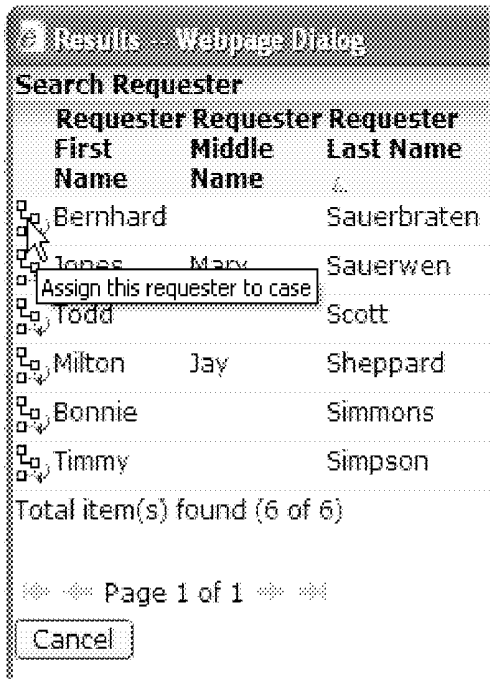


If you get any matches to your search, you will see a screen that looks like this:

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer



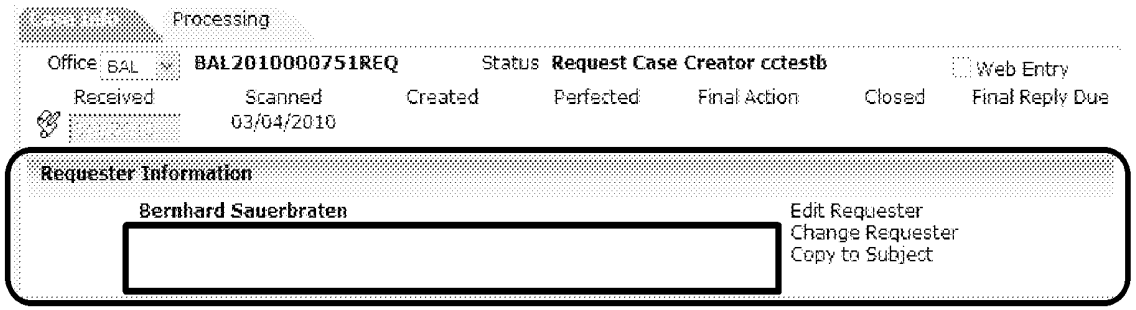
If any of those requesters are a perfect match for your requester, you may "Assign this Requester" by clicking on the icon to the left of the name:



And it will populate the requester information like this:

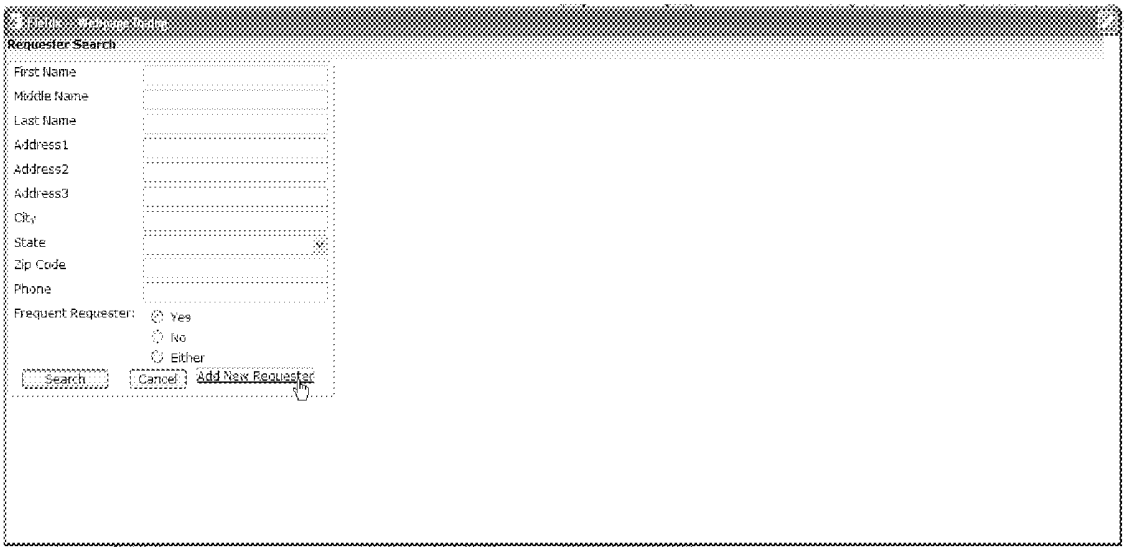
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)

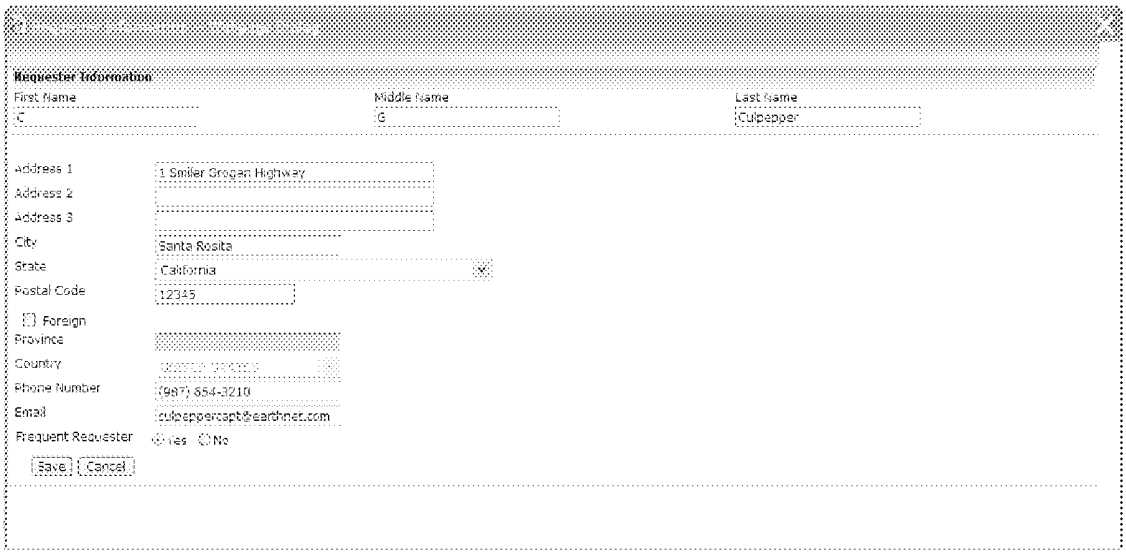


WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.1.3 Add New Requester. If you do **not** find a match, you will have to add a new requester by selecting Add New Requester:



When you click Add New Requester, you will get a dialog box that you fill in. You will enter all information, decide if this is a Frequent Requester, and then click Save.

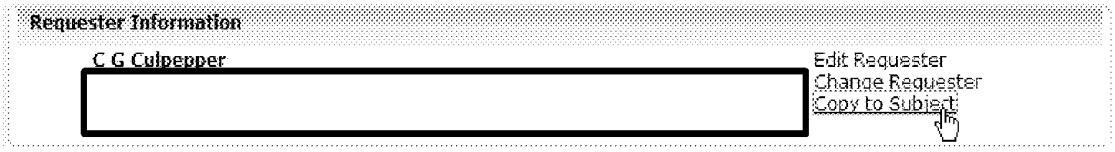


6.2 SUBJECT INFORMATION

After saving, look to see if this is a self-request. If so, you can copy the Requester Information to the Subject:

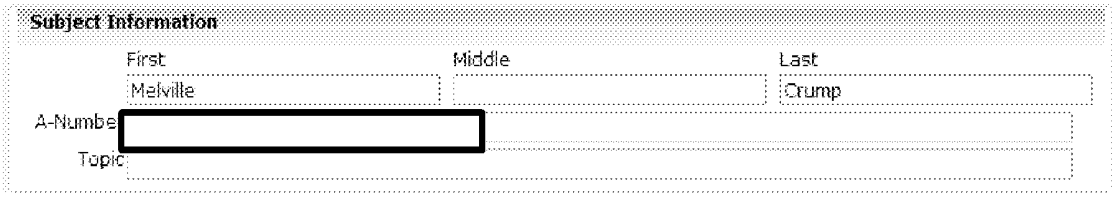
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

(b)(6)



Otherwise, you will have to enter the subject information in the area. If the person gave more than one A-Number, please separate them with a comma in the A-Number field.

(b)(6)



6.2.1 Name

Enter the subject's name, as it appears in section 5 of Form G-639 (except in the case of a petitioner asking for a petition).

The name portion of the worksheet is the name of the alien whose file we are requesting. This is usually the name in the subject portion of the Form G-639, or in the subject line of the request letter. However, if the requester is asking for a petition he or she filed on behalf of a beneficiary, then that document will be a separate receipt or it will be in the beneficiary's file, not the requester's file. In situations like this, the subject information would be that of the beneficiary, not the requester.

6.2.2 Alien Number

In the alien number field, enter your subject's alien number, as provided on the request, as an eight-digit or nine-digit number.

6.2.2.1 You should always check the A-number in CIS to be sure it belongs to the correct subject. Once you have established that it is the correct A-number, copying and pasting the A-number will save you from making a typographical error and inadvertently staffing for the wrong file.

6.2.2.2 If the alien provided us with more than one A-Number, please separate these numbers with a comma.

6.2.2.3 If you have created the case and you see less than eight digits in the A-number field, please re-check (by pasting the number into CIS) to make sure you have entered the number correctly.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.2.2.4 Please do not enter the A-number if the requester is a petitioner asking for a copy of an unconsolidated petition, as it will result in a bad staffing.

6.2.2.5 If the requester is a petitioner asking for a copy of a petition that has been consolidated into the A-file of the beneficiary, you should enter the A-number of the beneficiary, since we will request the beneficiary's A-file.

6.2.3 Topic

If the request is for something other than an alien file, for example, a receipt file or a vacancy announcement, then you will add this information in the "Topic" field in the Subject Information area.

"Topic" is used at different times, such as:

- when there is an unconsolidated receipt file
- when it is a request for a vacancy announcement
- when it is a request for a personnel file
- when it is a request relating to policies and procedures service-wide

6.2.3.1 If the alien is requesting a receipt number, enter the information in the following format:

Correct: MSC0412360000

Incorrect: MSC-04-123-60000

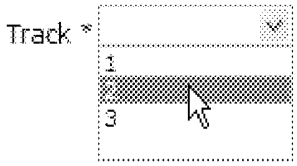
6.2.3.2 Enter the receipt number with no dashes or spaces. This format assists the Mission Support Assistants in locating the files and in locating the cases in FIPS when the receipt files come into the facility, and it will make it possible for case creators to spot duplicate or similar cases. If you are requesting multiple receipt files from the same facility, use only one file request. See **Staffing Sheet Guide** for more guidance.

6.3.2.3 When the request is for vacancy announcements, the vacancy announcement number must be the first part of the description. See **CIS Personnel Information** for more information on handling personnel related requests. In other types of situations, put as much of the pertinent information in the description line as space will allow. You may need to modify the acknowledgement letter.

6.3 CASE SPECIFICATIONS

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.1 Track



6.3.1.1 Track 1 – Requests for receipt files and requests for partial records such as a specific document. A specific document request consists of three documents or less (except asylum or refugee requests, which you should create under category **Alien File** and assign to Track 2).

6.3.1.1.1 Please select the category **Specific Documents** and make the case a Track 1. The first paragraph of the acknowledgement letter sent to the requester must contain the following paragraph:

We respond to requests on a first-in, first-out basis and on a multi track system. Your request has been placed in the simple track (Track 1). You specifically requested [enter specific document information here]. If you would like a copy of all your records, please send a written request to the address above, otherwise you will receive only the documents you specified.

6.3.1.1.2 Continue to create the case in Track 1 as Specific Documents. The requester may write back later responding that they need the whole file, and a FOIA/PA Assistant working in Records Locator queue can change it to Track 2 at that time.

6.3.1.2 Track 2 – Requests for entire copy of alien file, asylum or refugee requests, and requests from news media or special interest groups.

If the request has "all records" checked and lists more than three documents on the G-639, please select the category **Alien File** and make the case a Track 2.

6.3.1.3 Track 3 – Requests for records of individuals scheduled in the future to appear before an immigration judge. Requesters must provide one of the following documents to receive Track 3 processing:

- Form I-862, Notice to Appear, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-122, Order to Show Cause, documenting a future scheduled date of the subject's hearing before the immigration judge.
- Form I-863, Notice of Referral to Immigration Judge

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Written notice of the continuation of a future scheduled hearing before an Immigration Judge.

6.3.1.3.1 A supervisor will review all incoming FOIA requests and identify Track 3 requests. The supervisor will verify that necessary documentation is present with the request. There should be an attached cover sheet indicating to the case creator whether the request for Track 3 is approved or denied.

6.3.1.3.2 If there is no cover sheet, please evaluate the request and make a determination to approve or deny Track 3. If you are unsure, consult your supervisor.

6.3.1.3.3 Before you create the case, look at the documentation. Sometimes you will find a reference to a current, open case which the requester wishes to upgrade to Track 3. After you verify that the case is open, you may simply click "Send to Research" and you are finished with the case.

6.3.1.3.4 Requesters will sometimes request both Track 3 processing and expedited processing. Do not select both. Neither has to do with the other. A requester could be granted either Track 3 processing or expedited processing, but never both on the same case. For expedited processing guidelines, please refer to **"Expedited Treatment"** in this guide.

6.3.1.3.5 Track 3 processing is not "expedited" processing as that term is used and understood in law. It is not appropriate to use the word "expedited" when discussing Track 3 processing of a FOIA request ("priority" or "accelerated" processing are more appropriate terms for Track 3). Don't confuse the two in correspondence with requesters.

6.3.1.3.6 Refer to the cover sheet the supervisor attached to the request. There should be either an Expedited coversheet or a Track 3 coversheet, but not both. Follow the instructions on the cover sheet attached to the request. If there is no cover sheet, do not mark either box.

6.3.1.3.7 If the requester specified Track 3 processing but the request does not have a cover sheet, please create the case. If you have a request for Track 3 and you see that we have a future court date provided in the request, prepare your response according to the Track 3 Ack Letter found in O:\Foia\FOIA_LIBRARY\Case_Create_References\Case_Create_Template_Letters

6.3.1.3.8 If the requester did not provide any documentation or if the documentation says "a date and time to be determined" prepare an acknowledgment letter and click "Add Track 3 Denial Paragraph." Proceed with creating the case.

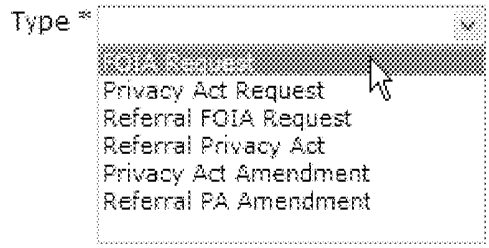
WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.1.3.9 If you are not sure whether to approve or deny Track 3, please consult your supervisor.

6.3.1.3.10 If you assign the case to Track 3, ensure you put the words "TRACK 3" at the top of the file request.

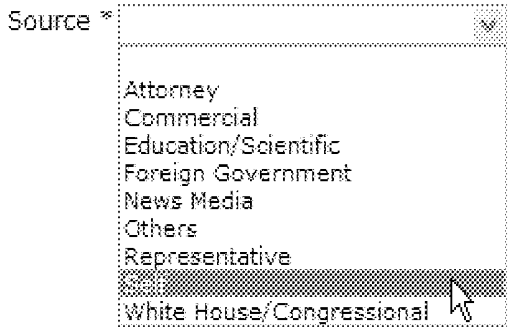
6.3.1.3.11 If the requested file has already been scanned because of a prior FOIA request that has now been resubmitted for Track 3 processing, do not create the case. You should send the case to Research, where they will attach the new request to the existing case as a CSD. If Track 3 processing has been approved, you have to change the track on the original case to Track 3 and add a Discussion to that case explaining why.

6.3.2 Type



Always select **FOIA**. It will be incumbent upon the processor to verify the status of the alien, and to change the case type if necessary.

6.3.3 Source



The source of the request is, quite simply, who is making the request. Is the requester the individual or an attorney or representative speaking on the alien's behalf? Is it a request from the media or a true third party requester? Below is a list of possibilities for requesters:

- Attorney - The requester is an attorney representing the alien. The attorney will have checked the box on the G-28 marked "Attorney," or will have sent us a letter on the law firm's letterhead.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

- Commercial
- Education/Scientific
- Foreign Government
- News Media
- Others - The requester of the file is someone other than the alien, an attorney or an accredited representative. They might possibly include a G-28 with something other than "Attorney" or "Accredited Representative" checked.
- Representative - The requester is an accredited representative under the provisions of 8 CFR 103.2(a)(3) and 292.1(a)(1) or 292.1(a)(4). On a G-28, the requester will have marked the box "Accredited Representative."
- Self - This is a request from the alien himself or herself. The request may have the name of an individual followed by "care of" a certain law firm. This is still a self-request.
- White House/Congressional

If you feel that you have a case of a different source of request, please contact a supervisor for further guidance.

WARNING: This guide is FOR OFFICIAL USE ONLY (FOUO) and is intended for internal National Records Center use only. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). This document is to be controlled, handled, transmitted, distributed, and disposed of in accordance with Department of Homeland Security policy relating to Sensitive But Unclassified (SBU) information and is not to be released to the public or other personnel who do not have a valid need to know without prior approval from the FOIA Officer

6.3.4 Category

There are 30 different categories of requests. However, the most commonly used ones are:

6.3.4.1 Alien File – The requester is asking for an entire copy of an alien file. This category includes the following:

a. Files of living subjects
b. Naturalization records on or after April 1, 1956
c. Visa records on or after May 1, 1951 in A-files
d. A-Files above 8 million (A8000000), and documents therein dated on or after May 1, 1951
e. Registry records on or after May 1, 1951 in A-Files
f. Alien Registration Forms on or after May 1, 1951 in A-Files
